International Ball

Opening Games at Saginaw, Bay City and Hamilton.

London Loses in a Close and Well-played Game.

St. Thomas and Port Huron Were Also Defeated.

Results of the Eastern and U. S. National League Games—Turf and Other Sporting Events.

BASEBALL.

ST. THOMAS LOSES AT BAY CITY.

Bay City, Mich, May 6.—The score of yesterday's game was:

	R.	H.	E.
Bay City	7	14	2
St. Thomas	3	6	1

Batteries—Robb and Sullivan; Sottliff and Toft. Umpire, Grogan.

LONDON LOSES IN A CLOSE GAME.

Saginaw, Mich., May 6.—The first game of the season of the International League was played here yesterday between the Saginaw and London teams, and was a remarkable exhibition of ball playing, considering the cold weather. Both teams played snappy ball, and the fielding and batting plays of note, were quite equally divided. Score:

HAMILTON DEFEATS PORT HURON.

Hamilton, Ont., May 6.—Weather cold enough for snow and threatening rain were the conditions which prevailed when the Internation ball league championship season opened here yesterday, and there were consequently only about 400 spectators at Dundurn Park. Hamilton won rather easily. Only three hits, and all by Hagerty, were made off Kerns in five innings, but in the sixth a couple of hits were followed by two errors by Quinn, and in the seventh Hamilton found Kerns and piled up six runs. Though unsteady in the first three innings, Bradford did great work in the box for Hamilton, and got grand support, only one error being made, and that in the ninth. By his good work and firmness with the players, Umpire McNeirney established himself as a favorite. Score:

HAMILTON.

At Wilkesbarre—Wilkesbarre-Buffalo game postponed—rain.

At Syracuse—Rochester-Syracuse game postponed—rain.

ALF. STROWGER SIGNED.

Hamilton Times: This morning Alf. Strowger, of Toronto, put his name to a Hamilton baseball contract, and will be seen in right field for the locals immediately. Strowger has long been popular here. He is a good, clean, well-behaved player, and a good fielder and sticker. In 36 games last year his batting average was .297, and his fielding average behind the bat and on the field, .828. Flanagan, the infield player, has been suspended, and Larson, the Chicago pitcher, who has been in St. Joseph's Hospital for a week with typhoid fever, has also been put off the pay list.

ST. THOMAS' PICK-UP.

John Thomas, of Detroit, pitcher, has been signed with St. Thomas, and will report for duty Thursday at Bay City. Thomas is a Western League pitcher. Last season he pitched 40 games, and had as large a percentage of victories as any pitcher in that league, and a batting average of .215 per cent.

FLYS.

Accorsini, the London catcher, arrived in this city on Wednesday night. He was sent to Saginaw yesterday, and will probably catch in today's game.

Dame Rumor has it that Anson will soon don the mit and play first for Louisville, besides bossing the Colonels.

A baseball league is expected to be formed shortly, when the following places may join: Aylmer, Tilsonburg, London, Ingersoll and Woodstock.

A very interesting game of ball was played on the Waterloo commons between the Maple Leafs and the Victors, resulting in favor of the latter by a score of 8 to 3. This is the second time the former club has been defeated by the Victors. Batteries—Victors, Burns and McLennan; Maple Leafs, Wedmore and Harris.

A clean and interesting game of ball was played at Highgate Thursday afternoon between the Thamesville ball team and the Highgate team: Score: Highgate 7, Thamesville 6.

The staff of umpires in the International League is composed of McNiernay and Grogan, of Detroit, and Daley, of Chicago. Davis, of Strathroy, resigned.

Joe Knight's featured catch at Wilkesbarre the other day was a chance. It was a high liner, and looked good enough for three bases. Knight turned and ran when the ball was hit. He jumped in the air, and threw up his hands more for a bluff than anything else, and he caught the ball in his glove.

A new club has been organized at Glencoe, with the following officers: Honorary president, Mr. R. R. McKellar; president, Mr. H. W. Bodman; vice-president, Mr. James Toon; secretary, Mr. John Cameron; treasurer, Mr. G. H. Small; field captain, Mr. M. A. Leitch; manager, Mr. Bert. Davidson, and a supply committee, consisting of Messrs. F. Toon, George Parrott and Jas. Donnelly.

Manager Murphy, of the Port Huron team, has signed Kearns, who pitched for the Lansings last year.

FOOTBALL.

AT CHATHAM.

Chatham defeated Windsor at the former place on Wednesday in the second game of the Peninsular League series of Association football, one goal to none. The playing was very rough.

LONDONS AT INGERSOLL.

The London Collegiate Institute Association Football Club will play at Ingersoll tomorrow. The return game will be played in this city Saturday, May 14.

TURF.

RESULTS AT ROBY.

Roby, Ind., May 6.—Winners of yesterday's races: La Princess, Black Venus, Sunburst, Dr. Shephard, King Barleycorn and Richard I.

AT THE AQUEDUCT.

New York, May 6.—Yesterday was get-away day at the Aqueduct race track. The Flushing stakes was the feature, Mazarine winning easily from the favorite, Damien. Other winners were: Juno, Lepida, Pink Chambray, Camatop and Ovlatte.

AT LOUISVILLE.

Louisville, Ky., May 6.—The Debutante stakes, the principal event on the card at Churchill Downs yesterday, was captured in handy style by Rush, the 8 to 5 favorite, with the much-touted Scorpion filly, Rose Apple, second. Other winners were: Crocket, Batter, Oxnard, Opaque and Suydam.

ATHLETICS.

GRIFFO HELD FOR MANSLAUGHTER.

Sacramento, Cal., May 6.—Griffo, the Australian pugilist, was yesterday held to answer to the charge of manslaughter for having caused the death of Joe Devitt, alias "Bull" McCarthy, at the Sacramento Athletic Club's entertainment last week. Griffo's seconds were discharged from custody.

WHEEL.

THE LONDON BICYCLE CLUB.

The annual meeting of the London Bicycle Club was held at the Tecumseh House last evening. Officers were elected as follows: President, Chas. Bowman; vice-president, Fred. Beltz; secretary-treasurer, W. R. Waugh.

Eacrett's Bazaar

Council's Action Condemned.

Dr. Cl. T. Campbell Objects to Using Sewer Money for Street Work.

Engineer Chipman's Report Concerning Section "A" of the Sewer.

Ald. Cooper Calls Mr. Pritchard Down for Talking Too Much—The Wade & Beckett Job Defective.

Dr. Cl. T. Campbell, at the meeting of the sewer committee last night, placed himself on record as opposed to the council's questionable methods of reducing the tax rate. Dr. Campbell said:

"I want to place myself on record as opposed to the action of the council in appropriating money from the sewer debentures to repairs and improvements to streets. The money was raised by debentures for the construction of sewers and work incident thereto, and repairs to streets should not be paid out of it. As a matter of fact, when a contractor undertakes to construct a sewer, he undertakes, as per his specifications, to not only lay the sewer, but to leave the road in its previous state of repair. I do not know as to the legality of the proceeding, but supposing the council has the power to appropriate this money, it is most inadvisable. When we made the estimates, we placed them at the maximum in order to have sufficient funds for repairs. We have land to buy and other work to do, and the amount now to the committee's credit will likely prove inadequate, on account of the council's action. The city solicitor should be asked for an opinion."

The majority of the committee remained silent and looked from one to the other. Ald. Cooper broke the spell and said: "The point is well taken. I think you are right. I objected to them taking that money when it was for sewerage. Ald. Cooper further explained that as the contractors generally left the streets in bad condition after putting in the sewers, the council had to spend money putting them in shape. The council, therefore, thought they could use this surplus money legally.

Dr. Campbell said it made little difference what the streets were like, the contractor should be held responsible. If a macadamized roadbed was disturbed the contractor should replace it under the supervision of the engineer.

The city solicitor will be interviewed upon the matter.

ENGINEER CHIPMAN'S REPORT.

Consulting Engineer Chipman submitted his report re the proposed section "A" of the new sewer, as follows:

"The proposed 30-inch trunk sewer from Evergreen avenue to farm 'A' will serve a population of 80,000, all taking water from your waterworks system, all being connected with the sewer system, and each person using 80 imperial gallons of water per day. If the population should increase to 80,000 within the next twenty years or so, it is probable that a considerable proportion would not be connected with the sewers, and it is certain that every man, woman and child would not be supplied with 80 gallons of water per day. The smaller the sewer between farm 'A' and the city, the greater the velocity. Two 22-inch pipes will practically carry the same as one 30-inch, laid at the same inclination. For ten years at least, probably for twenty years, one 22-inch pipe would be preferable to a larger pipe. The second 22-inch pipe could be laid when it became necessary, and not until then. As this sewer will be under a 'head,' it is to be of iron or steel. In my report of 1892 I favored a riveted steel pipe for this 30-inch sewer, as at that time it would have been cheaper than cast iron. For sizes less than 30 inches, cast iron pipes are now cheaper than riveted steel. In Canada cast iron pipes are made 20 inches in diameter and 24 inches, but I believe that for 22 inches it would be necessary to import them. I would, therefore, recommend that two cast iron pipes be substituted for the 30-inch pipe in sections 'A, and 'B' of the trunk sewer, the 20-inch pipe to be laid now, and the 24-inch when the capacity of the 20-inch has been reached. The structures for carrying the pipe across the Coves should now be constructed for both pipes. The original location for these sewers, 'A' and 'B,' should be adhered to. This line is almost a straight line from the west end of Evergreen avenue sewer to a point on the Learn tract on farm 'A,' about 200 feet south of the electric railway's right of way.

"I am of the opinion that it would be advisable to secure for the city all land between the proposed sewer and the river west of the Grand Trunk Railway, also as much of the available land between the sewer and the pipe line road as possible.

"The accompanying plans show the proposed location of these sewers; also the location of the proposed overflow west of the west cove. This overflow will be about 360 feet in length. It will discharge at a point 750 feet west from the electric railway bridge, in seven feet of water, and 50 feet from shore. Section 'B' and overflow can be placed under contract as soon as the land and right of way have been purchased. The detailed plans for this work can be completed within two weeks' time."

The report was adopted, and Ald. Cooper, Douglass and the mayor appointed to secure information as to property required, rights of way, and rental of any city property not to be used this year.

Engineer Graydon reported that the tile drain on the easterly portion of South street sewer, 200 feet from Maitland street, had been improperly laid, and that this 200 feet should be torn up, relaid and charged to the contractor.

Mr. Pritchard thought the inspector should be held responsible.

Ald. Dreaney moved to lay the matter over.

Ald. Carrothers wanted to see it put in some shape to facilitate a settlement with Mrs. Beckett and Mr. Wade. He moved that Wade & Beckett's contract be termed complete as far as Maitland street, and their money paid when due, but retaining any portion of money needed for the work east of Maitland street.

Mr. Pritchard pressed his motion, and accused Ald. Cooper of trying to shut him off.

Ald. Cooper—Who is trying to shut you off?

Mr. Pritchard—It looks very much as if you were. Mr. Pritchard proceeded to make some further remarks, but was cut short.

Ald. Cooper (getting very angry)—I want you, —— just to call yourself to order.

Mr. Pritchard—I am in order.

Ald. Cooper—Well, keep there, then.

Mr. Pritchard—You've got to give every member of this committee a chance to speak.

Ald. Cooper—I'll not have it, so there.

Ald. Dreaney—I don't think it is right for the chairman to call a man down who is asking for information. The chairman is here to put the motions. A member can speak as many times as he wants to.

Ald. Cooper—Well, he's spoke about twenty times. (Laughter.)

Ald. Carrothers' motion carried.

The engineer's recommendation for the alteration of gulley-holes, new gates and a man of intelligence to look after the flushing tanks and overflow was taken up.

Ald. Pritchard wanted to hear the report of the deputation that went to Toronto Junction, Brantford and other places to inspect the sewers. He understood that the sewer at Toronto Junction did not work satisfactorily.

Ald. Cooper said the deputation and inspection didn't pan out.

Mr. Chipman produced a letter from the mayor of the Junction, saying that the statements in the London Free Press regarding the unsatisfactory condition of the sewers were erroneous. The sewer worked splendidly, with the exception of the agricultural tile drains, which had been laid without any competent oversight.

Mr. Chipman said the men who opposed the sewer scheme at the Junction were returned to power to succeed the men who went into the scheme, and these men, as a measure of foolish economy, instead of carrying the principle through, discharged the competent men and took affairs in their own hands. Porous tile drains were laid to drain cellars and storm water. These proved a failure. He approved of Engineer Graydon's scheme to have a man in the engineer's department specially for sewer inspection purposes.

On motion of Ald. Carrothers the suggestions of Engineer Graydon will be recommended to the council, also that he be held responsible for keeping overflow and flush tanks in order.

It was decided to refund the deposit check of $225 of F. J. Berryhill, the contractor who made a mistake in the figures for sections "G" and "H" of the sewer, and then backed out of the bargain.

A communication from Henry Anderson, containing petitions from the Westminster board of health and residents of Byron against the emptying of sewage into the Thames, and holding the city liable for any consequent damage, was filed.

Those present were Ald. Cooper (chairman), Ald. Belton, Ald. Douglass, Dr. Cl. T. Campbell, Mr. Pritchard, Ald. Carrothers, Ald. Greenless, Engineers Chipman, Graydon and Ashbridge.

mother's medicine.

What distress and anguish come to the mother when her little one wakes up at night with a nasty croupy cough. Wise mothers always keep on hand a bottle of

Dr. Wood's Norway Pine Syrup.

It's so pleasant to the taste the youngsters take it without any fuss, and at the same time its promptness and effectiveness are such that the cough is checked before anything serious develops.

From one end of the Dominion to the other people are praising Dr. Wood's Norway Pine Syrup as the best remedy for Coughs, Colds, Croup, Whooping Cough, Bronchitis and all Lung Affections.
