Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty (King Edward Hotel), at the close of the market:

Wheat—Trading in wheat has been rather dull and uninteresting, but prices have shown a slight hardening tendency. Further withdrawals of contract wheat from public elevators here, reports of hailstorms in Argentine and strength of cash and future markets northwest, despite larger receipts there have all tended to make shorts uneasy. The buying of a large line of December wheat by an elevator concern that is apparently trying to recover a line delivered out earlier in the month, has given the market some help. The strength has been tempered a little by selling of July wheat here by the northwest, the shorts there thus getting their hedges into the new crop at a light discount. Current export demands are light and mainly directed towards Manitoba and Durum. Late in the session the market had an easier turn and lost most of its early advance, because of the unloading by local traders, who bought too freely early. Can see nothing to warrant any permanent decline, hence advise the purchasing.

Ennis & Stoppani wired to J. L. Mitchell at the close of the market:

Wheat—Nothing of importance developed in the wheat market to-day and for the most part there was but little to attract trade. As a rule prices averaged a shade higher, being influenced by continued strength in Minneapolis market and a firmer feeling abroad. It was reported that some enquiry was made for No. 2 red winter, which, if followed by actual demand, would prove an incentive to the larger speculative interests here to become identified actively with an upward movement. Clearances were fairly good and New York exporters predicted an active inquiry before the close of the week. Advices from Buffalo indicate that Manitoba wheat is arriving in large quantities to go into storage for the winter, which may have some effect a little later. Generally speaking there is nothing new in the situation and only scalping market is in prospect for the present.

Corn and Oats—Opened firm, but met some free selling, which caused a slight recession.

Provisions—Were again active and higher.

Montreal Live Stock.

Montreal, Dec. 5.—Receipts were 1000 cattle, 2200 hogs, 200 sheep and lambs, 100 calves. Altho the supply of hogs was large, the tone of the market ruled steady, owing to the fact that the demand from packers was good, and sales of selected lots were made freely at $6.75 to $6.85 per 100 lbs., weighed off cars.

Twenty carloads of these cattle and hogs did not reach the market until after 10 o'clock, owing to various delays on the road. A drover from Glengarry said that his cattle were 18 hours coming a distance of a little over 50 miles. The cattle standing in an open car for 18 hours in zero weather, with such strong winds as were blowing yesterday, were scarcely in a presentable condition when they reached the market this forenoon. Trade was slow, and prices had a downward tendency. Prime beeves sold at 4½c to a little over 4¾c per lb.; pretty good cattle, 3c to 4c, and the common stock, 2c to 3c per lb. The calves sold at 2½c to 3½c for grassers, and 4½c to 5c per lb. for good veals. Sheep sold at 3¾c to 4¼c, and lambs at 5½c to 6c per lb.

Sheep and Lambs—Receipts, 7000 head; active; sheep, steady; lambs, 5c to 10c higher; lambs, $5 to $7.90; Canada lambs, $7.65 to $7.70.

British Cattle Markets.

London, Dec. 5.—Canadian cattle in the British markets are quoted at 9c to 11½c per lb.; refrigerator beef, 8½c to 9c per pound.

CITIZENS, READ THE BYLAWS

It May Help to Keep You Out of the Police Court.

If people would take the trouble to note from day to day the fines imposed on the police court docket, there would be fewer cases of trivial negligence investigated in the afternoon police court. Up until a few months back a daily afternoon court was not necessary. Practically every case which comes up from day to day is a repetition of those of the day before. For instance, yesterday, James Grogan was fined $1 or ten days in jail for failing to place a light on a street obstruction at night; Henry Langford will pay $1 or serve ten days for riding a bicycle on the sidewalk; Robert Kennedy, fined the same for driving a wagon over a sidewalk; Harry Claxton, for the discharge of firearms, was fined $1 and costs or ten days, and Era Prager paid a similar fee for obstructing a street.

ADD TO COMMISSION.

Attorney-General Foy's Recommendation re Statute Revising.

An announcement of considerable importance to the legal fraternity and necessarily to the public is to the effect that Hon. J. J. Foy has recommended to the government that the commission for the revision of the statutes be enlarged.

The revision this year will not be merely the ordinary consolidation, but the commission will suggest amendments that may occur to them while the revision is being proceeded with. Omissions and additions of various kinds may be presented for consideration in this way, the intention being to make the work, as a whole, as perfect as possible.

With this view, the proposed increase in the membership of the commission has been recommended.

Given $150 Damages.

Charles Davis was allowed damages to the extent of $150 by Judge Morgan in the county court yesterday in a suit against Patrick Maher for injuries sustained in a collision with one of Mr. Maher' rigs at the corner of Queen and Yonge-streets last February. Davis claims he was run over while riding a bicycle, because of the carelessness of Maher's driver, and asked for $200.

Defendant's lawyer gave notice of an appeal for a non-suit, on account of a flaw in the plaintiff's statement of claim.

BANKER DEFIES BURGLARS.

Yells in Spite of Threats and Marauders Hastily Decamp.

New York, Dec. 5.—Awakened by the sound of a stealthy footstep early today, Elias Asiel, a broker, found himself gazing into the muzzles of two revolvers, which were held only a few inches from his face.

"We'll shoot if you make a squeak," said a voice as the guns and the men behind them began to draw slowly away toward a door. Mr. Asiel did not heed the warning, but raising himself on his elbow sent a shout for help echoing thru the house. An instant later the two men were upon him, raining blows upon his head, and when a servant who had heard the cries rushed into the room the broker was lying in bed helpless, on the verge of insensibility, his head and the pillow upon which it lay bathed in blood. The robbers had escaped.

A large amount of gold and silver plate in the dining-room had been gathered and tied up in two compact bundles, but in their flight the men did not have time to take their booty with them.

O.C.P. AND RECIPROCITY.

Up to Manitoba Council to Make Friendly Overtures.

The Ontario Pharmacy Council held another session yesterday, which mainly consisted of routine business, such as considering applications for registration or for new diplomas to represent originals lost or destroyed by fire.

A discussion was held as to the relative pass values of examinations of different schools in England with matriculation at Toronto University in so far as the former would meet the educational requirements of examinations held by the Ontario Pharmacy Board.

The disability occasioned by the continued refusal of the Manitoba Council to reciprocate with that of this province was instanced in the case of an application from Mr. Duncan to have his Manitoba diploma ratified for use in Ontario. The Ontario Pharmacy Council declare they are only too willing that mutual recognition should exist between both councils, but the initiative should come from Manitoba, who first withdrew from the reciprocity.

TEACHERS' DISCOVERIES.

What Britishers Think of the Children in Toronto.

A number of the English teachers brought over by the Moseley benefaction were in the city yesterday, and will remain till Saturday. They visited the Normal Museum, which is superior to those in English towns of corresponding size, they said. At Alexandra School, they were favorably impressed with the household science instruction. The schools generally, except for the want of ventilation, received their approbation, and they were particularly struck with the physique of the children. Their self-reliance and frank speech was very notable. They remarked, also, the many signs of loyalty to the old country to be found in the schools.

Inspector Leake conducted the party, and in the afternoon introduced them to Premier Whitney at the parliament buildings.

GOOD GUNNERS ON "DRAKE"

Prince Louis' Men Hold Navy Record for Target Practice.

London, Dec. 5.—The gunners of the armored cruiser Drake, flagship of the second cruiser squadron of the British Atlantic fleet, commanded by Rear-Admiral Prince Louis of Battenberg, have made a record of 106 hits out of 133 shots from the 9.2-inch and 6-inch guns. This was accomplished during the recent gun practice in Aranci Bay, with the target four miles distant.

The crew of the Drake thus head the whole British fleet both in gun-layers' and battle practice competitions.

Police Rescue Kidnapped Girl.

Chicago, Dec. 5.—After a desperate battle, in which a shotgun and several revolvers figured, and in which two doors were battered down by the police, Giovanna Uinida, the 14-year-old Italian girl who was kidnapped bodily Monday night, was rescued last night from a vacant flat in the same building. Her abductor, Samuel Marino, 28 years old, who, with his brother, Charles, kidnapped her and detained her in the untenanted flat, was arrested. The little girl said the two brothers were assisted in their kidnapping by the wife of Charles Marino. The door was then locked by one, who pocketed the key and left her alone with his brother.

BIG SALE OF THOROBREDS GOOD PRICES FETCHED

Twenty From Mr. Seagram's Waterloo Stable Command an Average of $213.

The Seagram sale at The Repository, Simcoe-street, yesterday, was a pronounced success. Nineteen of the twenty cataloged came under the hammer and every one was sold, the only absentee being the imported bay gelding Mabon. While possibly one or two of the brood mares and perhaps one or two of the stallions did not bring all their ancestry warranted, on the whole it is doubtful if a better sale was ever held in Canada. Certainly a better lot never appeared in the sales ring, and they were in selling condition, so far as care and pains could make them. However, Toronto is neither Newmarket nor Sheepshead Bay, and, all things considered, the winter's keep in view, the limited market and so on, the prices fetched reflected the greatest credit on Mr. C. A. Burns, the auctioneer, who from beginning to end was in fine fettle. Halfling, one of the best and truest racehorses ever brought to Canada, as well as about the only Sweetmeat representative in America, brought the top price, $700, and should have easily commanded the $1000 which has since been offered for him. The same success that has been his on the turf would, on yesterday's appearance, greet him in every show ring. He was in magnificent fettle, a picture, in fact, and Mr. T. A. Crowe made admirable bargains when he bought both him and imp. Cricklade, by Lord Rosebery's Derby winner, Ladas. Coburg, with sturdy legs and good body, who was probably only a sprinter because that was the game he was educated to, commanded only $400, but should have brought two or three times as much on his reputation alone, altho his appearance and breeding would warrant similar expectations. Imp. Farthing was fairly well sold to Mr. Beck, than whom probably no better judge of a horse can be found in Canada. The brood mares in the aggregate did well—how well can best be judged by the fact that several years ago Dama, half sister to Caiman, brought $125, and yesterday commanded $175. Mr. Beck probably got a bargain in the two-year-old Demivolt, which he intends to "add to the list" and make a hunter of. The yearlings were a likely looking lot, that should in each case return their purchase money. Three of them, as will be seen, fell to the nod of Mr. A. M. Merton of Woodstock, Ont., who undoubtedly exhibited judgment. Mr. P. H. Winters of Lacombe, Alta., was the largest purchaser of brood mares, and he, too, beyond argument, secured bargains, better than those standing round the ring probably had any idea of. The prices follow:

Yearlings.

Table Bay, b.f., by imp. Milner—Homelike—by Kinglike; A. M. Merton, Woodstock $175

CHAPS & COLD SORES

The condition of the skin during the cold weather has an important bearing on the general health as well as on the comfort. Sore chapped hands, cold-cracks, chilblains—all these, besides being painful and unpleasant, have a detrimental effect on the subjacent tissues. Zam-Buk is more than a mere salve. It is an antiseptic dressing composed of the best herbal essences. Applied to cracked places, chaps, sores, etc., its antiseptic properties come into immediate operation. It kills disease germs, prevents inflammation and suppuration, and then it heals. A leading chemist has proved that the antiseptic power of Zam-Buk is greater than that of crude acid, yet Zam-Buk works without pain. Its healing properties are such that even chronic sores yield to its power. Ask your friends about Zam-Buk. Better still, try it yourself. See free sample offered below.

HANDS SO SORE DARE NOT WASH.

Mrs. H. H. Rankin, of Appin (Ont.), says:—

"My hands had big cracks on them which caused me such pain I could hardly work. Whenever I tried to put them near water they would smart and burn as if I had scalded them. They did not seem to be benefited by anything I tried until Zam-Buk was introduced. To my great pleasure, within a very short time Zam-Buk closed up the cracks and healed the sore places. My hands are now white and smooth.

"I recommended Zam-Buk to a friend who had a sore finger, and it cured that, too. I think it a splendid household ointment."

Zam-Buk cures cuts, burns, bruises, ulcers, sores, abscesses, boils, ringworm, scalp sores, blood poison, etc. Rubbed in it cures rheumatism and sciatica, and rubbed on the chest eases tightness and aching due to cold. Of all druggists at 50 cents a box or from Zam-Buk Co., Toronto for price. 6 boxes for $2.50.

OF INTEREST TO HUNTERS.

Man Who Stole Another Man's Game Punishable by Law.

W. A. Clarke, clerk of York Township, and W. J. Hill, registrar for West York, attended a court before the district judge of Parry Sound, at Parry Sound, on Tuesday, as witnesses in the case of Rex. v. Montgomery, arising out of a hunting expedition last year, when the above named gentlemen were a hunting party, in the Township of Burpee, Parry Sound District. Mr. Clarke encountered a 3-year-old bull moose, and it was a case of either kill or be killed. The bull went under, but as the hunting party had no license for killing moose, they hung the carcase on a tree, went to the nearest telegraph office and wired for the necessary license, which was forthcoming. In the meantime the moose was stolen. The thief was located, and brought before a magistrate, who sent the case on for trial. Last June the jury disagreed, but on Tuesday the jury found the prisoner guilty. Sentence has not been pronounced and Mr. Clarke is not anxious that the prisoner should be incarcerated, his object being to establish as a fact that a hunter's booty shall be his property, and that the theft of it shall be a punishable offence.

Free to Men Until Cured

With good, vigorous health everything is possible—wealth, happiness, success. Without it there is only failure. Electricity furnishes all that goes to build up a strong, hale, confident, successful man—iron for the blood, vim and fire for the nerves and brain, strength for the muscles, good digestion. It does all that medicines do, as well as what they fail to do. In my forty years' success I have proven this by the thousands of wrecks I have restored after other treatments failed. To convince every sufferer from debility, varicocele, loss of power, rheumatism, lame back, etc., I give my famous Electric Belt absolutely
