Chicago Gossip.

J. J. Dixon has the following from Ladenburg, Thalmann & Co., New York, to-day:

Wheat—Reported liberal rains in Northwest this morning caused general selling in wheat by holders. The offerings were readily absorbed, mostly by buyers in the Northwest, which, becoming known, caused a general scramble amongst early sellers to cover short sales or replace long sold. Private advices later minimized the reported benefits from rains, saying they were scattered and generally light, and claiming reports now coming are as bad as any previously received. There has been a strong market, with quite large realizing by some of the local traders, who were long, but the market takes offerings well and shows a strong undertone. The sentiment is more evenly divided than for ten days. Estimated receipts for to-morrow, 70 cars.

Corn—There has been a rather active corn market to-day. The opening was ½c under yesterday's closing price on lower Liverpool cables and weakness in wheat. At the decline, however, buying by elevator people generally, presumably on lighter country receipts and good cash inquiry, with sales of about 400,000 bushels, caused a rally of 1¼c over lowest price. There was some realizing at top, causing market to ease off slightly. Trade has been rather large, but mostly of local character. Clearances liberal, 683,000 bushels. Primary receipts 926,000 bushels, against 841,000 bushels last year. Receipts 349 cars, against 300 estimated; 460 estimated for to-morrow.

Oats have ruled strong and higher to-day, with a rather large outside trade. The feature has been the strength in September at a premium over July early against a discount of ⅝c last night. Commission houses were the buyers of September, while elevator people were the buyers of July. Cash demand has been fairly good, sales of 80,000 bushels reported. Receipts 133 cars, against 170 estimated; 210 estimated for to-morrow.

Provisions opened weak and lower on liberal receipts of hogs at all points. Local operators sold and two of the packers were large sellers of July lard and ribs. This selling caused further decline. The market closed weak at about the lowest prices of the day.

LOCAL LIVE STOCK.

Several of the export dealers have made heavy shipments of cattle thus far this week, as follows: Dunn Bros., 37 cars; William Levack, 18 cars; William Harris, 5 cars; Brown & Snell, 5 cars; John Sheridan, 16 cars; W. H. Dean, 7 cars, and F. Hunnisett, 2 cars, or a total of 90 carloads all told, 52 loads going via C.P.R., and 38 G.T.R.

The total value of these 90 loads of cattle would not be less than $100,000.

It was reported on the market on Tuesday that Mr. John Sheridan has purchased all the tops of the July cattle around Forest, Woodstock and St. Thomas.

CANADIAN ISSUES FIRMER

Improved Tone in C.P.R., Street Railways and Virtue.

Wall Street Market Erratic—Inclination for Portions of Day Upward and for Other Portions Downward—Money Rates and Foreign Exchange—Notes.

World Office,
Wednesday Evening, June 13.

Canadian securities tho dull, showed strong in spots to-day. Canadian Pacifics held firm on advices of some rains in Manitoba and Northwest. Montreal Street Railway and Toronto Railway advanced. In mining issues, Golden Star tended upward, and Virtue gained several points on street report that the company's first mill run of 500 tons yielded $50 in gold to the ton. This is not confirmed.

Dividend No. 2 on the preferred stock of the Canada Cycle & Motor Company has been declared, payable on July 1, being 3½ per cent. for the half-year ending June 30, 1900.

The directors of the Dunlop Tire Company, Limited, have declared the usual half-yearly dividend of 3½ per cent. on the preferred stock, for the half-year ending June 30, 1900, payable July 1.

Notes by Cable.

Consols declined ⅛ to-day in London. In Paris, 3 per cent. rentes at 4 o'clock were at 101f 22½c. French exchange on London, 25f 15c.

In London, the market for American securities was firm from the opening to the close. The settlement absorbed the attention of the members.

The amount of bullion withdrawn from the Bank of England on balance to-day, was £105,000.

On Wall Street.

Prices advanced early to-day under the two-fold influence of a better tone on foreign stock markets and some relief by rain in the drought-stricken districts in the Northwest. The movement in the wheat markets indicate that the fate of the spring wheat crop is by no means yet decided. Some of the Wall-street speculators take the ground that the relief has come too late to save much of the crop. The Northwestern grain-carrying roads, in fact, failed to share in the strength of the day's market, and the grangers as a group came late into the movement. Baltimore & Ohio radiated a strengthening influence thruout on the excellent showing made in its May statement of net earnings, and the favorable predictions made by President Cowen of the results to be expected from the heavy coal traffic. Norfolk & Western was helped by the same cause. New York Central, as a trunk line, showed sympathy. London was a buyer here to the extent of about 20,000 shares, and established the high range of prices. After the arbitrage brokers had ceased to operate, the market became exceedingly narrowed listless, with little of note. The strength of Americans in London was attributed to the rains in the Northwest.

The exports of gold, which amounted to a figure in excess of the estimates, or $3,500,000 in all, had no effect whatever in the stock market. A feature of the day was the rally in the steel stocks, due to representations of the prospects of an enlarging export demand for iron. The market closed firm, and with gains well maintained.

The payment of the instalment of the British war loan and the taking up to-day of a loan for the London County Council of $25,000,000, having failed to harden the London market, there is no further reason apparent for the maintenance of the bank rate, so far above the prime discount rate. The local money market shows a slightly firmer undertone, but no quotable changes, as a result of the gold exports. The sub-Treasury operations show that the process of taking up the second instalment of Government deposits, amounting to $5,000,000, has not commenced, and there are some surmises as to the effect of the operation on the money market in connection with the renewed export movement of gold.

J. J. Dixon has the following to-day from Ladenburg, Thalmann & Co.:

The rally towards the close yesterday afternoon seemed to have made the short interest nervous (to-day, and impelled further covering. Trading was limited in volume, but further advances were made by practically the whole list, altho news was not favorable to the bulls—but is to say, the advices from the grain-growing sections gave further confirmation of a short spring wheat crop and engagements of gold for export were larger than yesterday's estimate. The reduction of the short interest has made the market more vulnerable to attacks by traders, who believe that sentiment must be affected by political agitation and the acknowledged fact that there is a halt in general business. Demand sterling, $4.87½.

A New York wire says: Shipments of gold to go out to-morrow are announced as follows: Lazard Freres, $1,500,000; National City Bank, $500,000; Heidelbach, Ickielheimer & Co., $1,000,000.

Western Union declared regular dividend.

The Money Markets.

The local money market is firm. Money on call, 5½ to 6 per cent.
