Drummond & Brown received the following over their private wire from Baldwin & Farnum of Chicago: Wheat weak early, strong later on higher cables and covering of big line by a local short here, but just before close, on reports of heavy receipts of new wheat this month and easier cables, the market broke sharply and closed at lowest point of day. The short interest has been largely eliminated and we look for easier market while rush of cash from new crop is large, as this is always a bear factor in our market. Reports from Europe regarding crops were bad again to-day, and for present we think shall see lower markets. Corn strong. Pardridge, a heavy short here, covered over two million as soon as he had finished covering. Beans started with the local shorts and run market up. Strength of cash and light receipts frightened shorts to-day. We believe short interest lighter to-night than it has been any time, and we say sell it on this rally. Oats stronger. We have had a big liquidation and here sold to a point where short sales were dangerous. On any strong place from now we would say sell. Provisions were strong in sympathy with wheat and corn and light receipts of hogs. The starting of buying movement and covering by some shorts carried market up. Ribs especially were quite strong and the long futures of provisions. We look for light receipts hogs to-morrow. We feel to-day that it was the time to sell provisions for a turn, although we see nothing to change our opinion on long pull.

OSWEGO BARLEY MARKET.

OSWEGO, July 6, 1 p. m.—Barley dull and unchanged; no sales or receipts. Canal freights 2½c to New York, 2½c to Albany.

J. J. Dixon & Co. received the following despatch over their private wire from Counseiman & Day of Chicago: Wheat opened dull and weak. Local operators had evened up their trades pretty generally last week and the early news was not sufficiently important to warrant new ventures. The declines ranged from 3⅜c in near to 1⅝c in later futures. When second cables quoted 1 to 3 farthings advance in English markets and a firmer tone on the continent, general buying followed, led by a prominent local short, upon which July recovered the loss, but free selling at the advance for outside account caused a collapse at the close, and all futures broke badly, closing weak on the excellent crop prospects and very encouraging returns of yields from threshers. Corn was active and strong. Outgo of 760,000 bushels from this point made shorts nervous, and their purchases caused a 3⅝ advance in July and 1½ in Sept., but market eased off with other grains and closed easy at quotations. We do not encourage short sales of corn except on sharp bulges, as long as stocks remain light and consumptive demand keeps good. Oats are weak, and producing districts are free sellers of new crop futures on all hard spots. Provisions were dull, but advanced in sympathy with grain and light receipts of hogs. Closings were steady at quotations, and market still retains an independent strength and with little encouragement would make a further advance.

R. Cochran received the following to-day over his private wire from Kennett, Hopkins & Co., New York: The course of the market has not fully met the anticipations which the street had of its taking on life and increased strength after holidays. The opening was chilled by large selling C.B. & Q. Whatever tendency the balance of market had to improve was held in check by break in this stock. The publication of Union Pacific statement broke it ⅜. It is said French people will take a good deal more gold. The Bank of England to-day shipped five million to Russia and made a net loss in gold after deducting receipts $4,500,000. It is said that there are still two million pounds sterling to be shipped to Russia. The market closed dull and irregular, a few stocks being higher than on Friday and others lower. Money has been easy. Total sales 187,400.

BUTTER IN GOOD DEMAND AT 13c to 16c. Eggs from 12½c; potatoes booming at $1.40 per bag; beans $1.60 to $1.80. Consignments of above solicited. We have for sale butter, eggs, hand-picked, dried apples and pure clover honey, for which we solicit your orders. J. F. Young & Co., produce-commission, 74 Front-street east, Toronto. 246

Drummond & Brown received the following to-day over their private wire from Lamontagne, Clark & Co., of New York: Markets opened stronger, with exception of B.Q., which was raided 1 per cent. on reports that the company was to issue new stock. About noon covering and buying by room advanced list ¾ to 1 per cent., but the movement was again checked by continued weakness in B.Q. and the exportation of $500,000 gold. The bear element traded prices about ¼ per cent., with exception of Chicago Gas, which sold 1¼ from the highest on renewed selling by Chicago and some liquidation. The west and east are divided on the merits of this stock, and from what we can see it is likely to sell lower. Exchange remains dull; actual demand 487, cables 487¼. Offerings of bills continue in excess of the demand, but are quite firmly held. Market, although very strong to-day, has shown evidences of some long selling, and although prices may work higher before any decided setback comes, yet we strongly advise the taking of profits on the strength of the market, waiting for a decided decline before buying in again.

John J. Dixon & Co. received the following despatch over their private wire from Henry Allen & Co. of New York: The stock market has been strong again to-day, but with little improvement in volume of business transacted, which continues small. The foreign houses complain that the same conditions prevail in London and that while that market continues strong the bulk of the trading is, as heretofore, done by professionals. Chicago Gas was weak on rumors of successful competition by a rival company, and what looked like inside selling.
