CATTLE FROM ARGENTINA

Great Britain Will Buy One Million Head to Restock Boer Farms.

AN OPPORTUNITY FOR CANADA

Cattle Men Incensed and Are Making Efforts to Secure the Trade, But May Be Too Late.

Montreal, Aug. 29.—In an interview today, Senor Juan B. Rivaras of the Argentine Republic, who is now here, stated that he had just heard that Great Britain was endeavoring to buy 1,000,000 head of cattle in the Argentine to stock South African farms. Great Britain has extensive business interests in the Republic, fully $2,000,000,000 of English capital being invested there. The British Commission sent to arbitrate the boundary dispute that almost plunged Chili and the Argentine into a war has just concluded their investigations and had left for home to report their decision.

When Mr. Robert Bickerdike, M.P., the well-known live stock exporter, was informed of Mr. Rivaras' statement, that 1,000,000 head of cattle were being purchased in the Argentine for South Africa by the British government, he replied that the Canadian cattle dealers were justly incensed over the matter, and were making efforts to secure this great opportunity for Canada.

Hon. Mr. Fisher had been communicated with, and subsequently Lord Strathcona, but the dealers fear that it was too late to succeed. "We think it strange that the British government should go so far out of their way to get cattle to stock the South African farms when they could get all they wanted in Canada," said Mr. Bickerdike. "What they want are young, lean cattle, and we can supply them."

"The Argentine cannot furnish the full million. Could Canada?" He was asked.

"We could give them the million they want," he replied.

PREMIER BARTON INTERVIEWED

Tells Why Mr. Chamberlain Lost—Advantage All One Way.

New York, Aug. 29.—Sir Edmund Barton, Prime Minister of the Australian Commonwealth, and one of the dominant figures at Colonial Secretary Chamberlain's recent conferences of colonial Premiers in London is staying at the Waldorf-Astoria with Sir John Forrest, His Minister for Defence, and several friends.

Sir Edmund said last night, in regard to Mr. Chamberlain's conference, that in no case was there any likelihood that the Imperial government would try to infringe upon the separate governmental rights of the British colonies, but that all concerned in the conference had shown a strong disposition to assist in the consolidation of the empire.

The adoption of a Zollverein policy, if by that was meant free trade between Great Britain and her colonies, had been demonstrated, however, to be impossible because the colonies, financially weak as compared with the Mother Country, could not afford to part with the customs revenues, which, in the case of Australia, composed the entire revenue of the Federal government.

Altho the Zollverein policy had been laid aside as impracticable, a certain approach to it had been made in that **the Prime Ministers of the various colonies were prepared to recommend the granting of a substantial preference to imports from the United Kingdom, whether by way of a tariff reduction or a rebate of existing duties or by way of raising the tariff wall against foreign countries.** This method life it optional with each colony to decide whether any steps shoul be taken along this line, and, if so, what particular tariffs should be changed for the mutual advantage of Great Britain and the colony itself.

Sir Edmund added that Australians had the kindliest feelings toward the United States. Should any more or less tangible union ever be made between the United States on the one hand and Great Britain and her colonies on the other, it would make for liberty and progress thruout the world, and nothing could withstand the allied nations.

SENTIMENT HONORS ALL.

Premier Laurier Speaks of Love of French-Canadians.

Montreal, Aug. 29.—A cable to La Presse from Paris says Sir Wilfrid Laurier, speaking at Lille of the warm love which French-Canadians have for France, said that such a sentiment honors France which inspire it, Canada which conserves it, and England which respects it. The despatch adds: "It now seems certain that the capital of the Franco-Canadian Steamship Line comes from Sir Alfred Jones of the Elder, Dempster Line and certain capitalists of Lille, the conditions of the latter being that Dunkirk shall be a port of call."

DEATH OF EX-ALD. FARLEY

Representative of Old St. Andrew's Ward in City Council for 11 Years Passes Away.

HAD BEEN ILL SINCE TUESDAY

His Demise a Shock to Many Friends—Prominent in Orange and Masonic Circles.

Toronto lost another of its oldest residents on Friday in the death of Ex-Ald. Wm. Wesley Farley, which occurred at his late residence at Sunnyside. Mr. Farley's death came as a great shock to his many friends. On Tuesday he was down town and visited several of his friends. Last winter he fell near his home and severely injured his head. He had recovered, however, and it was not thought that the old trouble would affect him again. Several days ago he complained of a pain in his head and on Thursday suffered a stroke. He never regained consciousness and gradually sank until the end came a few minutes before 12 o'clock.

Deceased was born in Toronto 49 years ago, and was the son of Arthur Farley, who conducts the baths at Sunnyside. Deceased and his father conducted the store, "Variety All," at the corner of Queen and Peter-streets, for many years and they afterwards opened the Bon Marche on East King-street. He was also in business for a while with S. A. Oliver, dealers in bankrupt stocks, but of recent years he had been engaged in the brokerage business.

Mr. Farley entered municipal life at an early age. When 20 years of age he was elected to represent St. Andrew's Ward on the Public School Board. He resigned this post to become an alderman. He was elected to represent St. Andrew's Ward in 1874 and continued to sit in the Council for 11 years. During his career as an alderman deceased took an active interest in all municipal affairs. For a number of years he was chairman of the committee then known as the "Property and Gas." For his services on this committee he was presented with an address and a beautiful gold watch. On Jan. 11, 1884, on the opening of Farley-avenue, this street was named after him. Deceased was also a member of the A.O.U.W., Orange and Masonic orders. He was also a member of Dunn-avenue Methodist Church. In politics he was a staunch Conservative and an active member of Ward Six Liberal-Conservative Association. Besides a widow, he leaves one son, John Arthur Farley, who resides in Michigan, and his aged father. The funeral will take place this afternoon at 3 o'clock to Mount Pleasant Cemetery.

TORONTO WOMAN LOSES $150.

Mrs. Clifford Was Going to Erect a Monument in London.

Hamilton, Aug. 29.—Mrs. Maggie Clifford, 162 Bay-street, Toronto, reported to the police in this city tonight that while she was coming up from Toronto on the 5.30 Grand Trunk train her satchel, containing $150, was stolen from her. She had a ticket for London, whither she was going to pay for a monument to mark her late husband's grave, but on the discovery of her loss she left the train in this city. Acting Chief Prentice arranged for her railway fare back to Toronto, and she returned on the 9.25 G.T.R. train.

ECONOMY IN LIVING IS RESULT

Citizens of Michigan Town Keep House on Co-Operative Plan.

Decatur, Mich., Aug. 29.—Citizens of this town have been keeping house on the co-operative plan, and in the three weeks in which the method has been in vogue the price of meals has been reduced from a shilling to a dime. The big dining room is located in an abandoned shop, each family furnishes its own tableware and linen, and families sit at their own tables. There is breakfast food, eggs and potatoes for breakfast, two kinds of meat, vegetables and desert for dinner, and cold meats, potatoes, warm, bread and sauce for supper. There is a daily change of bill of fare. Two cooks do all of the cooking, and the low price is soon expected to include the cost of laundering table linen.

50 BUSHELS TO ACRE.

While Manitoba's fine harvest is attracting general attention it must not be overlooked that Ontario is also breaking some records for banner wheat crops. From Paris comes the news that ten acres on the farm of John Wall, half a mile west of the town, yielded 405 bushels of clean wheat, while Harry Heath of Harold, in North Hastings, reports having threshed 155 bushels of fall wheat from three acres, on which was sown five bushels of seed.

Steel Workers Strike.

Lebanon, Pa., Aug. 29.—A committee of the striking employes of the American Iron and Steel Manufacturing Company called at the office of General Manager Lord to-day and demanded that the colored non-union workmen from Reading and other men who had been sent here be removed, and the old hands be taken back. This was refused. The committee reported the matter to their leaders, and the men still at work, some 1800, were told to come out. The order was obeyed. The entire plant is idle, with the exception of that portion manned by the new comers.

NEW RADIAL LINE COMPLETE

Last Spike of the Schomberg and Aurora Railway Driven Amid Great Rejoicing.

JOINS METROPOLITAN AT BOND'S LAKE

From Schomberg Time Consumed in Reaching Toronto Reduced From 5 to 1½ Hours.

Again Hamilton becomes side-tracked and Toronto gets more than ever on the main line. The Schomberg and Aurora Railway is at last completed. The last spike was driven on Friday afternoon at Schomberg amid the rejoicings of the whole countryside. That section of York and Simcoe of which Schomberg is a central point has been tributary to the business of Hamilton for all these years, but with the completion of the Schomberg and Aurora Railway, which will connect with the Metropolitan at Bond's Lake, and thence get into Toronto, this rich agricultural district will send its produce and its marketing women into this city.

Aforetime it took the yeomen of Schomberg five hours to reach Toronto. To-day they are within 36 miles of the city and can reach the corner of King and Yonge-streets in one and one-half hours. What this means to the city is obvious.

The last spike was driven by Mrs. Shelton of Schomberg, who, tho 84 years of age, wielded a hammer with the ease and force of a maid. The ceremony was witnessed by 500 spectators. The school had a half holiday, and interested ones for miles around went to the village. Warden Norman of York, J. W. Moyes and County Engineer McDougall made speeches. It was made evident that the yeomen of York and Simcoe desired an assured exit for their produce, and would be satisfied with nothing short of a free exchange with Toronto.

After the speech-making Mr. Moyes took the school children and their mothers for a ride into the country on flat cars.

The opening of the Schomberg and Aurora Railway brings another spike of the radial railway scheme to the frontiers of Toronto. When will it get in?

DO NOT WANT MINES TAXED.

New Colonies Will Have No Surplus to Pay for the War.

London, Aug. 29.—A despatch from Pretoria to The Times, in which the correspondent voices the popular protest against the attempt to increase the tax on mines with a view of making the new colonies contribute to the cost of the war, says well founded reports credit Mr. Joseph Chamberlain, the British Colonial Secretary, with the idea of getting from $250,000,000 to $500,000,000 from the colonies for this purpose.

There has been great pressure brought to bear on the State Department by missionary societies and individuals whose claims have been already allowed that they might be paid in full at the present time. Acting Solicitor Van Dyne of the State Department has recommended that a payment of 25 per cent. of each claim be made. "It is well to face the facts," says The Times correspondent, "and the facts are that for many years to come there will be no prospect of the Transvaal's having any surplus above what is necessary for the proper development of the country. It is obvious that any attempt to exact even $250,000,000 would permanently hamper the resources for what at best will for years remain a poor country, dependent upon a single industry."

THE RISE IN DOMINION STEEL.

Additional Issue of $5,000,000 Will Be Placed on the Market.

Montreal, Aug. 29.—A leading Montreal financier told your correspondent to-day that the recent rise in Dominion Steel was due to the fact that Boston capitalists had agreed to underwrite an additional issue of $5,000,000, which would be put on the market as soon as the conditions were considered favorable for such an issue. Mr. James Ross gave an emphatic denial to-day to the rumor that he would soon retire from the presidency of the Dominion Steel Company.

EXILED FRENCH NUNS COMING.

They Will Open a Hospital in Rat Portage, Ont.

Rat Portage, Ont., Aug. 29.—Rev. Father Gendreau has stated in an interview that a number of the nurses who were recently expelled from France are coming to Rat Portage to start a hospital. St. Joseph's Academy has been taken over on behalf of the Oblate Order, at the request of Archbishop Langevin. Father Gendreau states that the hospital will be non-sectarian in character. It is expected that the nurses will arrive in a few days.

EMPEROR PARDONS LIEUTENANT.

Sentenced to Six Years for Forgery of Archduchess' Name.

Vienna, Aug. 29.—Lieut. Keglevitch Mattasich, the friend of Princess Louise of Coburg, who was sentenced to six years' imprisonment for the alleged forgery of a bill for $60,000 in the name of the Archduchess Stephanie, has been pardoned by the Emperor Francis Joseph, after serving 44 months of his sentence.

The police of Vienna, in January of the present year, seized a Socialist newspaper, The Arbeiter Zeitung, for publishing articles alleging the innocence of Lieut. Mattasich and hinting that the Princess Louise of Coburg, who is in an asylum, forged the name of her sister, the Archduchess Stephanie.

ORDERED TO SHOOT AND KILL

Commandant of Troops in the Coal Strike Regions Bent on Bloodshed.

BAYONETS AND BUTTS FOR MOB.

Soldiers Have Much Difficulty in Protecting the Lives of Workmen.

Philadelphia, Pa., Aug. 29.—Having exhausted every other means for preserving the peace, and in protecting the non-union men from violence on their way to and from the mines, Brig.-Gen. Gobin, in command of the troops now in the coal fields, to-night issued an order that the soldiers shall shoot any persons detected in throwing stones or other missiles, and that if any mob resist the authority of the troops that they shall freely use their bayonets and butts.

The Panther Creek Valley has been in almost continual turmoil this week, and the troops stationed there have had a difficult time in protecting the lives of the workmen. To-night the situation in that valley has improved considerably, and it is hoped by the military authorities that the lawlessness and abusive language directed toward the soldiers will now cease. The other sections of the coal regions are comparatively quiet.

BAYONETS FOR STRIKERS.

Tamaqua, Pa., Aug. 29.—In an encounter between the troops and strikers at Lansford this morning Captain W. H. Heim of Company "K," 12th Regiment, was slightly injured, and half a dozen strikers were bayoneted by the soldiers in the fracas. Major Gearheart, in command of the troops here, says that he will appeal to the military authorities to put the town of Lansford under martial law. As early as daybreak the troops were busy quelling disturbances and protecting non-union men on their way to work. At Summit Hill about double the usual number of men availed themselves of the protection of the soldiers and went to work.

Other Places Threatened.

Wilkes-Barre, Pa., Aug. 29.—Serious trouble was threatened at the Prospect and Dorrance mines of the Lehigh Valley Coal Company this morning. The strikers heard a rumor last night that the company intended to concentrate all its employes at the various mines into one working force, and operate the Dorrance colliery. It is said the company has all told about 250 experienced men now in its employ. If this number could be placed in one colliery like the Dorrance the mining of coal could go on without difficulty.

Got Out More Deputies.

The strikers determined to frustrate the plans of the company, if possible, and it is said that over a thousand men turned out and patrolled the roads leading to the mines. The officials of the coal company recognized the serious condition of affairs, and Sheriff Jacobs was communicated with, and at an early hour he went to the scene accompanied by a large number of deputies, but no attempt was made to place any additional men in the Dorrance mine this morning. The strikers made no demonstration, and many of them withdrew to their homes.

Pensioner's Sudden Death.

Thomas Cowan died suddenly on Friday afternoon at the lodging house at the corner of Lombard and Jarvis-streets. Coroner Greig was notified, but he deemed an inquest unnecessary. Cowan was 61 years of age, and a pensioner. For a number of years he conducted a military tailor shop in the Old Country. He had been stopping at the lodging house for some time.

AN INDISPENSABLE PAPER.

If the 15,000 people who buy The Toronto Sunday World each week were deprived of their paper what would they do? For thirty-six hours the world would be a blank to them. England might be submerged at 9 p. m. on Saturday by an immense tidal wave, and, except by stray rumors, they would not know what had occurred. In fact, a thousand things of vast import might occur on the last day of one week and not be known until the second day of the next. The sun of the news would literally stand still. The Toronto Sunday World lightens the darkness, and makes its readers superior in information to their fellows. To business men the paper's value is immeasurable. By it he knows what is going on all the world over, and if his interests are affected he can lay plans for the future. The Toronto Sunday World is indispensable to the wideawake business man. It is indispensable to the sportsman. It is indispensable to the society man or woman. It is indispensable to anybody who would be up-to-date and well posted. Above all, it is indispensable to the advertiser, for it is a paper published when people have leisure to read, and do read. Therefore, if you take it not, take it forthwith. A sample copy of the last issue will be given away. There are 50 copies left out of 15,000 printed.

NO FROST IN MANITOBA YET

Temperature at Calgary Was Quite Low, But Alarmist Rumors Unfounded.

NEW WHEAT ARRIVES IN WINNIPEG

An Immense Quantity of Grain is cut, and Threshing Proceeds Merrily.

Winnipeg, Aug. 29.—(Special.)—The weather conditions to-day were again of a very favorable character for the growing crops in most sections of the province.

Here and there light showers fell, and the weather was cool and cloudy in many places, but not near the frost point, and from no quarter has your correspondent upon inquiry heard of frost in Manitoba.

The temperature was quite low at Calgary last night, and it was thought a cold wave might come this way, but at midnight to-night there is no sign of frost. However, the temperature is probably the lowest of the week.

Threshing has commenced in many sections, and a carload of new wheat arrived to-day—a magnificent sample. An immense quantity of grain is cut and frost or no frost, it seems a certainty that the great bulk of the crop is safe.

There is no frost up to date, and local weather prophets say the warm spell will continue for several days yet.

There is a decided shortage of harvesters.

PROF. VIRCHOW FAILING.

Aged Pathologist Nearing His End in Harts Mountains.

Berlin, Aug. 29.—Prof Virchow, the famous scientist, appears to be near his end. The German Medical Weekly regrets to announce, on information obtained from physicians who are treating him, that the improvement of last week has not been maintained, and that his strength is unmistakably failing. The professor is at Hartzburg, in the Hartz Mountains, and no one except his family and the doctors has been allowed to see him for several weeks.

Prof. Rudolph Virchow, the eminent pathologist and director of the Pathological Institute of Berlin since 1856, celebrated his 80th birthday last October. He was injured by a fall in Berlin January 15 last, as he was leaving a street car, and suffered therefrom for a considerable time afterward.

"SAM" SMALL'S EXIT.

Curtain Rung Down While He Tried to Talk.

Burlington, Vt., Aug. 29.—It is the general opinion in Morrisville to-night that the career of the Rev. Sam Small, Georgia evangelist, is at an end as a speaker in Vermont.

Mr. Small came to Vermont about two weeks ago to speak in the interest of Percival W. Clement of Rutland, bolting Republican candidate for Governor.

Mr. Small collapsed while speaking in Brattleboro last Monday night, and was led from the stage. He pulled out a pocket-knife and wanted to fight, but was quickly overpowered. In Barre the next day he acknowledged that he was intoxicated.

In Morrisville, Mr. Small again fell by the wayside to-night. After talking to his audience for about 15 minutes in a manner betokening something wrong, the curtain was rung down. It being seen that he could not stand the strain. An overdose of morphine is given as the cause of Mr. Small's collapse to-night.

Mr. Small was carried to the hotel, and later in the evening his physician stated that the collapse was the result of an overdose of morphine, and that Mr. Small's career as a public speaker was probably ended.

BUGLERS TO BRASS BAND

Presentation of Bass Drum at the Q.O.R. Buglers' Mess Room.

A pleasing coronation presentation took place in the Q.O.R. Buglers' Mess, corner Front and Church-streets, on Friday night. The buglers presented the brass band of the regiment with a fine bass drum. The drum was purchased from the Henry Potter Company of London, Eng., latter cost £14 8s 6d. It was handed over to Bandmaster Timpson by Bugle Major Swift, who made an appropriate address. The drum bears the following inscription on a silver plate: "Coronation present to the band of the Q.O.R. of Canada by the buglers, August, 1902." Following the presentation was a program of speeches and songs. Refreshments were also served.

TERRIFIED BY WOLVES

Residents Near Ottawa Losing Stock Every Night From This Source.

Ottawa, Aug. 29.—Residents of the Township of Buckingham are being terrified these days owing to the appearance of wolves. Every night they are awakened by the howls of the savage and dreaded animals. Last Sunday Patrick Cosgrove and his neighbor, a Mrs. Kelly, had twelve lambs devoured by the savage beasts, and on Tuesday the slaughter was renewed. So great has become the alarm in the neighborhood that the people have got together and detailed a nightly guard, armed with rifles. Since that time the wolves cries have been heard, but so far none of them have come out very near to the village.

FRENCH-CANADIAN KILLED

Michigan Mob, Frenzied by False Cry of "Assaulter," Murders Joseph Lebarge.

SURROUNDED HIM IN A CORNFIELD.

Was Interrupted in His Plan to Elope With Another Man's Wife.

Monroe, Mich., Aug. 29.—Walter Lemerand, lately from Toledo, came home this noon and found a man, a Frenchman, in the house with his wife. A quarrel ensued, and the unknown man finally ran from the house. An officer attempted to arrest him, but he ran down Third-street with a crowd pursuing him.

The cry "Assaulter" was raised and the mob began to shoot. The unknown man ran into a cornfield, where he was surrounded and shot dead, a bullet penetrating his heart.

The woman denies that there was any assault.

Mrs Lemerand has just told the sheriff that the dead man is Joseph La Barge of Toledo. She says that she and La Barge had planned an elopement.

An autopsy is now being performed on La Barge's body and the inquest will be held to-morrow. No arrests will be made until after the inquest.

A despatch from Windsor says that La Barge is a Canadian, residing till just recently in Montreal. His murder may become an international episode.

DUELLING FROWNED ON.

Officers Who Celebrated Hildebrand's Release Dismissed.

Berlin, Aug. 29.—Capt. Von Frankenberg and First Lieut. Numbauer of the 1st Regiment of Field Artillery have been dismissed from the army on account of the ovation given some time ago at Gumbinnen, East Prussia, to Lieut. Hildebrand, the pardoned duellist.

Another officer who commanded Hildebrand's cavalry and escort the day of the manifestation has been transferred to the Commissariat corps and Hildebrand's regimental commander, Lieut.-Col. Weiss, and Major Dieckerhoff have resigned upon demand, altho these officers did not participate in the demonstrations, and they were unaware that they were projected.

The army administration was so displeased that it felt that the resignations of the officers must be demanded. The dismissals of Von Frankenberg and Numbauer were so sudden that they had to be recalled from the manoeuvres, where they were on duty.

LAST DAY OF O.R.A. MATCHES

Weather Conditions Splendid and Good Averages Made By the Marksmen.

NOT ONE PROTEST WAS ENTERED

President Osler Entertained Company of Military Men at Luncheon.

Every condition remained perfect for the Ontario Rifle Association Friday to finish their annual matches, and that the meet proved the most successful in the history of the association was evidenced by a good many circumstances, chief of which was the fact that not one single protest had been entered from beginning to end. The weather was delightful during the whole of the day and the little wind that did blow was not regarded as very tricky. As a result the shooting was somewhat above the average.

When the next annual matches of the association take place there is good reason to believe that the electric railway will have been extended to the ranges and as a consequence interest in the shooting will be stimulated to no little extent. During the concluding hours of the meet the authorities of the electric railway, which now goes within a mile or so of the ranges, paid a visit to Lieutenant Harbottle and other officers of the association, and discussed in a preliminary way the matter of extending the railway. It was finally agreed to hold a more formal meeting to consider the question further, on next Tuesday.

President Osler's Luncheon.

E. B. Osler, president of the association, gave a luncheon at noon that proved in every way a decided success. He presided over the most pleasant affair, on his right being Lieut.-Col. Gibson, Attorney-General, and on his left Col. Buchan. Among the others present were: J. W. St. John, M.L.A., Archie Campbell, M.P., Capt. W. A. Smith, Lieut.-Col. White, Lieut.-Col. J. T. Davison, Lieut.-Col. Delamere, Lieut.-Col. Bruce, Surgeon Lieut.-Col. Nattress, Lieut.-Col. Stimson, Major Galloway, Lieut. Col. T. C. Denison, Lieut.-Col. Grasett, W. D. Matthews.

The Ranges Appreciated.

After the exceedingly tasty spread had been partaken of a number of toasts were proposed, eliciting happy and enthusiastic responses.

In welcoming his guests, Mr. Osler, on behalf of the association, expressed his appreciation of the outlay made by the Dominion Government for the improvement of the ranges. He referred to the fact that not a single protest had been entered, which was as an evidence of good management and of a good spirit among the competitors. [Applause.] He hoped before another year the Suburban Electric Railway would be extended to the ranges, inasmuch as it would offer an invaluable facility to riflemen to practice there frequently, and consequently stimulate an interest in rifle shooting. In his concluding remarks Mr. Osler expressed regret at the absence of any representative of the city, especially in view of the fact that invitations had been sent to them; and stated that the increasing interest in the matches of the association by marksmen generally was a source of great satisfaction.

The Attorney-General.

Hon. Mr. Gibson, being called upon, said he had attended the Bisley matches, but the matches of Ontario—those of his first love—were more dear to him. He exphasized the importance of improvement being made in weapons, long distance ranges were more essential in the present day than the shorter ranges. He hoped to see in a short time fully 1000 competitors. Alluding to the Palma Trophy match to take place in Ottawa on Sept. 13, he prophesied that it would be one of the best rifle team matches that would ever take place in this country. There was a good deal of excitement in anticipation of it. International sentiment was involved, and it would not only test the different kinds of ammunition, but above all the good nerve of the rifle men competing. If the trophy went across the Atlantic, he would not go into mourning, but if it did not Canadians had to win it. [Applause.]

More Money and More Time.

Archibald Campbell, M.P., congratulated the government on improving the ranges and pledged himself to support the government in any further measure in that direction. What they wanted was a lit-
