MET BY MUSIC AND CHEERS

ARRIVAL OF MAYOR CLARKE AND TREASURER COADY.

A Day of Congratulations at Lewiston and at Home—A Trip Across the Lake—Thousands of People Turn Out to Meet His Worship—"Home, Sweet Home!"

Two indisputable facts were developed on Saturday night. The first was that Mayor Clarke was decidedly glad to see the citizens and the second that the citizens were equally rejoiced to see their mayor. It goes without saying that the reception accorded the Chief Magistrate and the City Treasurer on their return from Europe was a pronounced success, proving that their hold on the affections of the people have not yet passed away and that in E. F. Clarke they recognize a man who has worked well, ably and faithfully for Toronto's interests. It is hard to call Saturday's turn-out a reception. In point of fact it was not. It seemed to those who had the opportunity of beholding the crowds of surging humanity which lined the route to the City Hall that it was a spontaneous welcome home tendered by the people to a man of the people. There were no particular arrangements. It is true that carriages had been provided, fireworks ready to explode, the City Hall decorated, and a huge bonfire blazing, but the order of procession was forgotten in the rush of men who struggled along shouting and hurrahing until they were hoarse.

The committee of reception was composed of Herbert Kent (chairman), Ald. John Shaw, E. P. Roden, John Graham, James Kerr, R. W. Riddel (secretary). The arrangements were perfect, but the unprecedented throng which met the Mayor at the Yonge-street wharf upset their calculations and with them their program.

The Chicora, which swung out for Niagara at 11 o'clock, carried on board President McMillan, Ald. Crocker, Shaw, Frankland, Denison, City Clerk Blevins, D. B. Read, Q.C., W. H. Doel, Fire Chief Ardagh, John Cooper, School Trustees Baird and Hastings, John Paterson, S. Davidson, S. H. Janes, R. C. Hamilton, Frank Somers, John Graham, Thomas Hunter. This party had the pleasure of greeting the Mayor first. Headed by Ald. Frankland they descended upon his Worship while he was indulging in the luxury of a shave in a Niagara barber shop. The Treasurer was with him, and the two exiles had then the happiness of meeting their wives again after a three months' separation. After numberless congratulations the party returned to Lewiston to await the arrival of the Cibola, which was expected with a large contingent of the friends of the Mayor.

The Cibola's Big Party.

The Cibola left Toronto at 2 o'clock, having on board a complement of 1200 passengers. Of these fully 150 were bound to meet the Mayor. They included delegates from the Public School Board, Separate School Board, Toronto Typographical Union, Board of Trade, Turn Verein, Knights of Pythias, York Pioneers. Of the small army thus assembled The World recognised the following:

Robert Cuthbert, George Downard, Frank Bixby, Ex-Ald. Drayton, Dr. J. S. King, Ald. Booth, Ald. Lennox, Street Com. Jones, City Com. Coatsworth, William Burton, Harry Collins, Patrol Sergt. Robinson, Detective Insp. Stark, Owen Cosgrove, J. D. Woods, John H. Scott, Rev. Father McCann, Secretary-Treasurer of the S.S. Board.

S. S. Trustees E. J. Reilly, James Ryan, M. O'Connor and Assistant-Secretary Hall.

Robert Hall, Ald. Roaf, Edward Hanlan, H. D. P. Armstrong, R. Anderson, Ald. Irwin, N. L. Piper, Ex-Ald. Millichamp, Dr. J. H. Burns, William Baxter, John Armstrong, J. H. Pritchard, E. W. Powers, Edward McCauliffe, A. M. Brown, John Stewart, John Mills, T. R. Whitesides, Elijah Westman, Alfred Coyell, John Newell, Benjamin Hinchcliffe, John Lumsden, J. A. Myerhoffer, George C. Patterson, J. K. Leslie, Thomas Hills, John Ewan, John Fawcett, Major James Bennett, Mungo Nasmith, W. H. Knowlton, Ewart Farquhar, R. H. Temple, John E. Doran, Rev. Father O'Reilly, Ass. City Sol. D. Ryerson Young, E. C. Jackson, W. W. Hudgson.

His Worship Looked Ruddy

It was close on 5 when Lewiston was reached, and as soon as the gangway was thrown down a rush was made up the stairs for His Worship to see how he looked. To tell the truth there was little change in his appearance. He had grown a trifle stouter, but otherwise was unchanged. He looked ruddy and red as of yore. Treasurer Coady, on the other hand, seemed pinched and thin as if the salt sea air of England had not agreed with him. Half an hour was spent in handshaking. The Mayor needed no introduction. He knew everyone of the 150 odd and had a pleasant word for each. Mrs. Clarke looked happy and kept close to her husband, while Mrs. Coady kept the same guard over the Treasurer. Before the party descended the steps to board the boat Richard Sanders, an old Toronto hackman, shouted: "Three cheers for the Mayor!" This was heartily responded to.

Then he shouted: "Three cheers for Coady!" This also was rendered in good faith.

He then yelled, as he threw his hat high in the air: "Three cheers for the Queen, God bless Her!" The crowd fairly shouted themselves hoarse at this, appreciating the joke, not evidently particularly pleasing to the American officials present, that they were giving the Queen an ovation under the very nose of Uncle Sam.

The return trip across the lake was uneventful. The b at was crowded, but the weather was lovely and nothing occurred to interrupt its enjoyment. The Mayor circulated between decks, chatting with friends on various topics, but carefully avoiding any allusion to the present political situation. He enquired about absent friends, asked the names of the dead and married, and succeeded so far as circumstances would permit in covering a considerable space of ground. As the Cibola approached Toronto the shore was eagerly scanned to learn what had been done in the city by way of preparation. As an announcement that the Mayor and Treasurer were on board rockets were sent up from the bridge of the steamer. In less than a minute answering signals burst up from Queen's Wharf and other points along the docks. The Cibola returned the compliment until she glided into the Bay. When she got opposite Yonge-street wharf fireworks of all degrees of color and brilliancy burst from every part of it while blue, red and white lights served to illuminate the scene.

The Landing of the Party.

The Chief, under the command of Deputy Chief Stuart, had kept the Cibola wharf completely clear of people so as to permit His Worship and party to have undisturbed egress. The Reception Committee, headed by Herbert Kent and ex-President Ince of the Board of Trade, were waiting at the gangway to receive the Chief Magistrate, while immediately behind them was drawn up the Grenadiers' Band. As the boat was being tied up "Home, Sweet Home" was struck up, immediately followed by "Auld Lang Syne," and a medley of other popular airs. The Mayor's tall form was speedily recognized as he stepped from the boat to Bob Bond's four-in-hand in waiting to drive him to the hall. Cheer followed cheer, the horses proceeding at a smart walk up Yonge to King-street, thence to the City Hall. Through some misunderstanding the drag took the lead instead of the band, which followed immediately behind. Yonge and King-streets were densely packed with men and women, boys and girls, who cheered the procession of carriages as it passed along. When the hall was reached no time was lost in mounting the steps and proceeding to the balcony. Mr. Ince led the way, followed by Mayor Clarke, Treasurer Coady, Chairman Kent and E. P. Roden. The latter two bore in their hands a magnificently illuminated address beautifully framed to be presented to the mayor.

In his introductory remarks Mr. Ince told what great pleasure he felt in having the duty devolving on him of welcoming, on behalf of the citizens, back to Toronto its Chief Magistrate and Treasurer. It had been his care to watch the Mayor's course in his public career and the ability and force he had displayed in arranging the many difficult subjects left him to deal with allowed no doubt to exist of his capacity for his honorable position. He had displayed good judgment and sound thought in handling the city works and the proper government of the corporation. The speaker instanced the settlement of the Queen's Park difficulty, the appointments of a street commissioner and city surveyor, the progress of the King-street subway and the satisfactory condition of the water supply as all showing how faithfully and well Mayor Clarke had labored for Toronto. Lastly, referring to the Esplanade difficulty, the speaker retraced the steps taken to successfully uphold the city's interest in the absence of the Mayor, expressing the belief that now he was with them again his thorough practical knowledge and executive ability would be thrown in the breach. Mr. Ince then proceeded amid profound silence to read this:

An Address of Welcome.

To His Worship E. F. Clarke, Esq., M.L.A., Mayor of Toronto:

DEAR SIR: On behalf of your fellow-citizens we desire to meet you on your return from the Old Country with a brief but hearty address of welcome and congratulation.

In recording our suffrages for your re-election as our Mayor we gave evidence of our recognition of your possessing those powers, both of grasp and condensation, essential to successful administration, and the results attained during the past period of your incumbency have fully justified our most sanguine expectations.

But a graver test of the first of these qualities was required at your hands. The necessity of effecting a large loan for civic requirements—the largest on record—exceeding $3,000,000, and the expediency of establishing the city's credit by the finest negotiation of the same on the London market led the corporation to decide on entrusting to you, in conjunction with our own worthy Treasurer, T. R. Coady, Esq., the duty of visiting the Old Country on so important a mission. The reception extended to you by leading financiers of the great metropolis and the eventual success which, it is admitted on all sides, has attended your negotiations are now subject matter for the congratulations it is our pleasure to tender you.

In addition to these immediate results of your mission, the opportunities afforded you for witnessing the successful development of municipal administration, in relation to public works and otherwise, and your appreciation of the same by a ready perception, cannot fail to be of inestimable service in relation to our own city, in whose interests they will be made happily available.

We beg you to tender to our worthy Treasurer an expression of our fullest sense of the important part he has taken in bringing about the success of this great financial negotiation, and we conclude with a reiteration of our opening words of "hearty welcome and congratulation" to your Worship.

TORONTO, Aug 17, 1889.

5000 Persons in the Square.

There were fully 5000 people assembled in the square in front of the hall. Each mention of the Mayor's name was greeted with applause, and when he himself got up to return thanks for the reception accorded him the cheering was both loud and prolonged. "I cannot," said he, "find words sufficient to express my gratitude for the reception accorded to-night to the City Treasurer and myself. It was with diffidence that I left Toronto to proceed to the Capital of the Empire and of the world to assist in a mission of such momentous importance as the one from which I have just returned. Had my own wishes and desires been considered I certainly would have preferred remaining here in Toronto with my family, but as it was absolutely necessary that some one should go, and as the council delegated me, it was my duty to proceed. The Treasurer was really the accredited officer of the city and if the mission has proved successful, as I believe financial men all agree, then to him is great part, and to myself but in a small degree, should belong the credit of the happy result. When in London we tried to do the best we could for Toronto. The result will bear the closest investigation.

"Happily for us on our arrival in London we were met by brother citizens, men skilled in the London money market, and all with big stakes in Toronto. They held out to us the right hand of fellowship and assisted us in every way, and their assistance was of the utmost value. I wish here publicly to thank them for the kindness so displayed. Our mission to England is but the beginning of a prosperous departure for Toronto. Let me tell you, brother-citizens, that the credit of no city on God's green earth stands higher in the London market than does the credit of our great and good city of Toronto. As for my course as mayor, gentlemen, I say I have acted boldly and fearlessly in the direction I believe to be the best. While according all respect to gentlemen who may p ease to differ from me, I propose to continue as I have begun in the path I believe best calculated to aid the progress of the city of Toronto.

"My journey has taught me many things, but nothing has been so strongly impressed upon me by what I have seen in the Old Country as the great necessity there is to enlarge our park system before land becomes too valuable to be easily purchased. I shall redouble my energies in this direction to procure breathing spots for our citizens and pure air for our children. Referring to the Esplanade, it is a knotty problem, and I am delighted to see that the people have at last become thoroughly aroused to the necessity of preserving to ourselves our noble waterfront. Gentlemen, I thank you for your kind reception. It was a surprise to the Treasurer and myself. I am anxious to go home to my family."

Three cheers were then given for the Mayor, Mr. Coady and the Queen, all of which were nobly responded to. In the hall an impromptu reception was held, when prominent citizens took the opportunity of welcoming the Mayor back. Half an hour later His Worship stepped on board the drag, and accompanied by the Reception Committee dashed away homeward.

A Talk With His Worship.

The World had a short talk with the Mayor on the Cibola on the return trip to Toronto. His Worship is full of information of all kinds and degrees gathered in the Old Country, but what time he could spare from the work of signing the bonds he devoted to the sewage problem and pavements. He spent some time in Southampton studying the system of destroying the sewage there. It is by filtering process, and he believes it can be introduced with profit into the city. He is in love with the yellow pine pavements of London, which also he believes could be translated to Toronto to the latter's advantage. He is well pleased with the results of his trip, believing it will prove of immense financial benefit to the city. He spent three days in Paris while the bonds were being printed, and three days in Ireland. He does not think much of the metropolis of France, and his short stay in Ireland prevented him from gaining anything like an accurate knowledge of the state of the country. He spent most of his time in and around Bailieboro, County Cavan, where he was born. He says all classes are a unit in favor of rent reductions, but the feeling against British connection is as weak as a cat. The recent legislation which gives the tenant the right of being paid for improvements, etc., is beginning to have a good effect, and already things are bettering themselves. In London he met Sir Alexander Campbell, Mr. W. H. Howland, Mr. S. H. Janes, and Sir Charles Tupper, all of whom rendered him and his colleague valuable assistance. His Worship brought over with him a little English girl as servant.

Ripples From the Reception.

The address is a beautiful work of art. Every department of the civic government is represented on it.

It is estimated that fully 30,000 people turned out to see the Mayor.

The meeting between the Mayor and Frank Somers is said to have been peculiarly affecting.

The Italian Benevolent Society was represented in the person of Mr. Michael Basso, the President.

It was a citizens' turn-out. All classes, creeds and societies took a hand in.

Ald. Baxter could not get across, but he met the Mayor at the boat.

Ald. Frankland could not contain himself for joy when he saw the Mayor's red head.

The Heintzman Band was on hand to welcome the Mayor and joined in the procession.

The Mayor says he has seen a great many pretty cities, but Toronto is good enough for him.

President McMillan is now ex-President McMillan.

When the Chicora passed the Cibola on the latter's return to Toronto the Cibola gave three whistles to let the Chicora's people know she had the Mayor on board.

Not a single accident marred the reception. The police numbered 20 men and had an easy time of it.

Ex-Ald. Piper thought there should have been torches.

The European Bourses.

PARIS, Aug. 18.—Business was slow on the Bourse during the week, but the market remained steady.

BERLIN, Aug. 18.—On the Boerse during the week business was dull and prices were rather weak.

FRANKFORT, Aug. 18.—The Boerse was extremely quiet during the past week, but rates were maintained.

LONDON, Aug. 18.—On the Stock Exchange the spurt in speculative business at the beginning of the week soon died away and for the rest of the week trading was inactive, but prices were maintained. American railway securities were in good demand, with a strong tendancy to rise here, but this was restrained by the absence of a response from Wall-street.

Encourage home manufactures and buy Savons.

Why it Was Countermanded.

OTTAWA, Aug. 17.—The countermanding of the order to the French squadron designated to visit Quebec is said to be due to an intimation from Lord Salisbury to the French Ambassador at London that in the present condition of the public temper in Canada regarding French ascendancy in the Province of Quebec it might be undesirable to allow French warships to anchor in Quebec harbor.

Hydrophobia From a Wolf-bite.

ALBUQUERQUE, N.M., Aug. 17.—A Mexican boy who was bitten by a mad wolf in the San Dias Mountains died in great agony. He and his elder brother were playing a few yards from the house when the wolf attacked them, lacerating their faces and hands, the younger boy, however, receiving the deepest wounds. A Mexican herder lassoed the wolf, but having no knife tightened the rope and strangled it to death. It is feared that the other boy will die.

Storage for merchandise, furniture, etc Special attention to forwarding. Frederic Nicholls, 63 to 69 Front-street west.

The Ancient Order of Foresters.

MINNEAPOLIS, Minn., Aug. 17.—The High Court of the Ancient Order of Foresters to-day voted to hold the next convention in Chicago, to move the headquarters to that city, and to elect all new officers from Illinois. This action was the result of a local fight over the offices.

Families leaving town for the summer can have their furniture carefully stored with Mitchell, Miller & Co., 45 Front-street east.

Fire at a Well-known Hotel.

At 6.45 yesterday morning a fire was discovered on the premises of Mr. Matt Evans, 42 Jarvis-street, which did damage to the amount of $100. It started in the cellar through the bursting of the gas meter.

The purest of all soups is Everyday.

The Viola Returns.

The steam yacht Viola reached the harbor last evening, after her two weeks' cruise among the Thousand Islands. All of the crew are well and report a first-class trip.

Decline of the Kilts.

At the marriage of the Earl of Fife the only notable in Highland costume was the MacCallum, More, Duke of Argyle. The opinion impressed by his Lordship's unique costume was that on the morning of the nuptial ceremony his suspenders collapsed and he was thus forced to wear the kilts and sporran. Had his Grace been wearing quinn's dollar suspenders he might have dressed like the other guests.

KNOCKED OUT BY A JUDGE.

SLUGGER SULLIVAN GETS ONE YEAR IN THE COUNTY JAIL.

Stern Justice in a Mississippi Court Room—Judge Terrell Says the Laws of His State Were Treated With Contempt—Referee Fitzpatrick Fined $500.

PURVIS, Miss., Aug. 17.—The court did not open till nearly 9 o'clock this morning. Judge Terrell was on hand long before that time and Sullivan was also seated before the bar, showing up with Clune before his attorney came to court. He looked as pleasant and unconcerned as usual, although there was a tremble in his eye after the jury was seated and he glanced at the men who had found him guilty. The crowd in court was small but it grew larger in a few minutes. Hardly was the court seated when the Grand Jury filed in. They presented an indictment to be recorded and filed out again. The Sullivan case was then taken up. Judge Calhoun submitted the motion in arrest of judgment without argument. The papers had been left at the hotel, however, and the case went over.

District Attorney Neville called the case of John Fitzpatrick. The District Attorney read the indictment. He then asked: "What say you, guilty or not guilty?"

"Guilty!" quietly answered Fitzpatrick.

District Attorney Neville then addressed the court, reviewing Fitzpatrick's connection with the fight and the circumstances under which he became referee, and closed by saying he felt justified in recommending the accused to the court's clemency.

Fitzpatrick also made a statement in his own behalf, and concluded by asking the court to be as lenient as possible.

The court reserved its decision.

The Sullivan matter was taken up again and Mr. Green read the motion in arrest of judgment. The court overruled the motion after reading its contents. Mr. Green then submitted a motion for a new trial and asked for an immediate decision without argument from counsel. These were the grounds of the motion:

The Court's Comedy of Errors.

1. Because the court erred in charging the Grand Jury a second time of its own motion and without the request of the Grand Jury and in giving the second charge in the language stated.

2. The court erred in sustaining the demurrers to defendants' several pleas in abatement.

3. The court erred in over ruling defendant's challenge for cause of jurors Landrum and Abnor.

4. The court erred in permitting the District Attorney to interrogate jurors on their views in the presence of the venire as to the facts of the prize fight with their knowledge.

5. The court erred in granting each and every one of the instructions given in behalf of the State.

6. The court erred in refusing to grant instructions asked for by the defence and in modifying some given.

7. The court erred in permitting the District Attorney in his closing argument to the jury to appeal (to the prisoner's prejudice) to the patriotism of the jury.

8. The court erred in overruling the motion in arrest of judgment.

9. The court erred in permitting Witness Hinton to answer a leading question of the District Attorney as to remarks made by the court.

Judge Terrell asked if the motion for a new trial stood overruled.

The court replied in the affirmative.

Judge Calhoun then asked that by an agreement with the District Attorney sixty days be allowed in which to file the bills of exception.

A Petition From All Hands.

Gen. Ford read the following petition:

The undersigned members of the Grand Jury empanelled at the present term of the court and of the petit jury who tried the defendant John L. Sullivan, convicted of prize fighting, respectfully move the court, in view of the fact that this is the first conviction for the offence named in this State, and for other reasons, they respectfully recommend and request that Your Honor will impose a lighter penalty than a fine of $1000 and that no imprisonment be inflicted.

Edward Davis was the only petit juror who refused to sign the petition. The grand jurors all signed it, as did all the farmers, as well as the sheriff, clerk and officers of the court, the justice of the peace before whom the case was first tried and many others.

Gen. Ford said he had an opportunity to learn public sentiment on the matter, and without a single exception it seemed to be the desire that the court exercise as great clemency as possible. The universal desire seemed to be that the court should not impose any imprisonment. It was the first violation of the statute. It had been demonstrated that the power of the State and the arm of the law were adequate to bring the defendant to justice, and it seemed to be, from all the history of the case, that the defendant should be adjudged to pay a fine.

Judge Calhoun made an argument similar to Ford's. There was a pause. Then there was a stir in the audience and the silence was broken by Sullivan himself.

The Champion Didn't Know the Law.

The champion turned up before the bar and speaking in a loud, clear and steady voice said:

YOUR HONOR: I desire to make a few remarks. I can only ask for your clemency. No doubt I have done something wrong, but as my counsel told you I was ignorant of the law. I am not as learned as the distinguished District Attorney on my right or my counsel who have addressed you, and therefore I beg to remark that I am your humble servant.

JOHN L. SULLIVAN.

Sullivan sat down and looked at the court waiting his doom. There was another pause and deep silence. Judge Terrell, after a moment, asked for the petition. This was construed as a good omen. After a few minutes' inspection he folded the paper carefully, laid it on the table, shaded his eyes with his hands and meditated deeply. Every eye was fixed upon him. Sullivan leaned forward and watched the Judge anxiously. The Judge broke the silence by saying in his quiet way: "Stand up, Sullivan!" Sullivan stood up quickly. He threw out his chest and looked the court full in the face.

The Judge Passes Sentence.

Judge Terrell spoke slowly:

Gentlemen: Passing sentence has always been of considerable trouble and concern to me, even in small cases, except where the law has one absolute punishment. It seems to me that this prize fight of which you stand convicted was a gross affront to the laws of the State, where the authorities personally forbade it. It seems to have been accomplished with systematic arrangement and in the presence of invited thousands. It seems on the part of all connected in it to have been a studied disregard and contempt for the law. They came from and through many states whose authority and civilization deterred them from any attempt at such public lawless conduct in their limits, and they chose the State of Mississippi as the only fit ground for such combat, indicating their utter contempt for the sentiments of her people and the laws of her statute books.

Judge Terrell, whose eyes had been averted as if meditating as he spoke, now looked up and met Sullivan's gaze. Continued the Judge:

The sentence of the law is that as a punishment for the offence for which you stand convicted you shall suffer imprisonment for twelve months in the county jail.

Sullivan gloomily took his seat and later when he got under the railing to leave the courtroom he faced the sympathising crowd with a broad smile.

Fitzpatrick was then sentenced to pay a fine of $200.

District Attorney Neville was anxious to go home and asked that no more cases be tried until next week. This was consented to and the agreement to allow 60 days to file bills of exception was put on record. Judge Calhoun then made the motion for an appeal returnable to the Supreme Court on the third Monday in February.

Judge Calhoun stated that section 2329 of the code, for an appeal of misdemeanor, fixed the bond from $100 to $1000. The defence had prepared a bond for the maximum amount and presented it. J. W. Holleman of Purvis and John Duffy were the bondsmen. District Attorney Neville announced the reception of information of Jake Kilrain's arrival here early next week and asked the clerk to issue a subpœna for Capt. Fitzpatrick as a witness in the Kilrain case and also against Bud Renaud, and he wanted the summons served before the witnesses left the state. When Mr. Fitzpatrick came in he was informed that he was wanted and would be required to furnish a bond of $500 to appear when wanted. The ex-referee put on as pleasant a face as possible over the new prosecution, for he will have to leave home and business again. Col. J. B. Denison of Hattiesburg became his surety.

Sullivan and party left Purvis at 6.37 this evening for the north.

Cheered En Route.

MERIDIAN, Miss., Aug. 18.—Sullivan left Purvis at 6.37 p.m. yesterday and came here accompanied by Clune. A large crowd at the depot bade him good-bye. On the train Sullivan had but little to say. At Richburg Charley Rich was at the depot with a large concourse. Bonfires were lit and cheers given to the champion. Sullivan said he knew from the start the court was against him. He hoped Kilrain would be able to avoid coming here, through a writ of habeas corpus. The only part of his defence he did not like was the statement made in his behalf that Kilrain was the challenging party and had selected the battle ground. Sullivan thinks his sentence a little severe after his having willingly placed himself in the hands of the law when he could have crossed the ocean. Sullivan signed an indemnity bond before leaving Purvis to protect his sureties should anything happen.

He Arrives at Cincinnati.

CINCINNATI, Aug. 18.—John L. Sullivan arrived to-night on a Queen and Crescent train. He was met by John Sullivan of this city, and as soon as the two left the train they became the head of a rapidly spreading and encircling procession of trainmen and others who had got within the train enclosure. Outside this enclosure the space was packed, and it was with great difficulty that the pugilistic hero and his escort made their way through into the waiting-room and then out to a carriage. The enthusiastic crowd cheered Sullivan frequently but he gave no sign of recognition of the adoration of his admirers, but walked straight on under his yellow straw hat like a soldier in review. He was driven rapidly to the Pennsylvania depot, where he arrived just in time to take the train for New York. He had not much time to talk and said but little to the reporters who tried to interview him.

Gov. Lowry's Officer in Baltimore.

BALTIMORE, Aug. 17.—Detective Childs, who was sent by Governor Lowry to take Jake Kilrain, the pugilist, to Mississippi, arrived here this morning, and called upon Marshal Fry, who told him that Kilrain was out on bail, and that the bond was not returnable until Thursday. The law for the collection of forfeited bail in Maryland is quite defective; and should Kilrain, alarmed at Sullivan's fate, decamp, it is not likely that his bondsmen would have to pay the $2000. When Joe Beard, a Baltimore gin-keeper, fled, and his bondsman promptly paid the $1000 bail, even the clerks of the court laughed at him.

THE CRAZE FOR TRUSTS.

Englishmen Who Want to Control Books and Breweries.

NEW YORK, Aug. 17.—English capitalists are endeavoring to secure control of the business of the publishers of cheap literature in the United States. It is asserted by Samuel U. Untemeyer that the London capitalists are perfectly willing to put up the required $10,000,000 which such a scheme would involve.

The Evening Sun says negotiations have just been completed by which the entire breweries of Chicago have been sold to a syndicate of English capitalists.

LONDON, Aug. 17.—It has been arranged to form the firm of A. S. Mitchell, the largest textile manufacturer in the world, into a company. Mitchell Henry will be at the head of the new establishment.

Wire Whispers From Winnipeg.

WINNIPEG, Aug. 18.—The first sod of the Regina and Long Lake Railway was turned by Mrs. Dewdney on Saturday. Addresses were delivered by Hon. E. Dewdney, Governor Royal and others.

One result of the resignation of Provincial Secretary Prendergast will be the suspension of the French Liberal organ, l'Ouest Canadien. French members, according to Prendergast, will continue to give support to the general policy of the Government.

From a letter found on the streets it is evident that an organized gang of burglars is here. The letter contained plans of part of the city and directions to the entrance of several banks, private residences and wholesale houses. Necessary precautions have been taken which apparently alarmed the gang.

Catholic Tribunal for the United States.

PHILADELPHIA, Aug. 17.—It is stated that the Pope has appointed a high ecclesiastical tribunal for the Catholic Church in the United States. It is said the tribunal will have referred to it all cases in which the church in the United States is concerned for adjudication, and that the tribunal consists of Cardinal Gibbons, Archbishop Ryan of Philadelphia and Archbishop Corrigan of New York. The object of the tribunal is to relieve Rome of the burden of hearing appeals from this country.

ST. PAUL, Minn., Aug. 17.—Archbishop Ireland says that the report of the appointment of Dr. Zardette, of St. Cloud, as a Catholic bishop, is incorrect. The doctor's name was considered, but he was not appointed.

Long Distance Telephoning.

CHICAGO, Aug. 18.—The operation of the first long distance telephoning system west of New York state was successfully inaugurated here to-day, the American Telephone and Telegraph Company long distance telephone company), formally opening its lines between Chicago and Milwaukee. The tests made were of a character to illustrate the great improvements that have been made in the art of telephony, particularly the utilization of complete metallic circuits. A whisper could easily be heard between Chicago and Milwaukee over the metallic circuit.

Suicide Due to Insanity.

MONTPELIER, Vt., Aug. 17.—Marcia Guernsey Beach, wife of the Rev. J. W. Beach, at Essex, Vt., drowned herself in the Winooski River last night. Her body was recovered this morning. She was insane, and her malady was aggravated by the recent death of her mother.

NEWS OF THE OLD WORLD.

ALL EUROPE TALKING ABOUT BLOW. HARD BOULANGER.

What is to Become of Mrs. Maybrick?—The Case Before the Home Secretary—The Trip of the Teutonic—President Carnot's Banquet—Other Foreign Flashes.

LONDON, Aug. 18.—Foreign affairs, including those of Egypt, Crete, Servia and Germany, have been discussed this week in the House of Lords, the House of Commons and the press, but with no practical agreement save on one point. The one point is General Boulanger. His condemnation by the High Court of Justice is thought, though defective perhaps in form, to be just in substance. The question was instantly raised, will France demand his extradition? Probably she will not; certainly she will not if she listens to her ambassador here, who well knows that the demand would be refused. That is the one point on which all English parties are agreed. They will not allow a political offender to be surrendered, whether accused of stealing or not. It is more important to note the breach in the Boulangist ranks. His Republican friends are alarmed by signs that he is more completely in Orleanist hands than they had supposed. The Compte de Paris feels so sure of his tool that he has dropped his disguise, ordered his Royalist phalanx to march out of the High Court, and summons his good City of Paris to send twenty-five Boulangist deputies to the Chamber. It is this split among his supporters which threatens to have General Boulanger at least as much as the just judgment against him by the Senate.

Will Mr. Matthews Give Way?

The agitation for Mrs. Maybrick's pardon has been carried on all through the week as if it were a political question. The methods used were precisely such as are used in politics. There have been meetings, petitions, speeches, letters to members of Parliament, letters to the press, discussion in the press, or in one section of it, of the most violent kind, and worse of all, a memorial to the Home Secretary has been signed by some members of Parliament, praying for the commutation of Mrs. Maybrick's sentence. This is simply bringing parliamentary pressure to bear on the Home Secretary in the discharge of a duty not parliamentary at all, in a matter where he is responsible, not to the House but to the Crown and his own conscience. The feeling throughout the country continues to be strong. Much of it is undoubtedly genuine and some of it is intelligently made agitation as a whole tends to substitute trial by plebiscite for trial by jury. If medical opinion be expressed by The Lancet, certainly the leading medical journal, it supports the conviction. That journal reviews the evidence through five columns, and fully justifies the verdict. To-day's rumor is, however, that Mr. Matthews will give way. It is known that some of his colleagues favor a reprieve on the express ground that the refusal of it will alienate some of their political supporters. Some good may spring from all this turmoil in the shape of a court of criminal appeal. Lord Esher, the Master of the Rolls, and one of the best judges in the kingdom, argues strongly for it in a letter to The Times. Lord Herschell, another legal luminary, is for it, and lawyers generally believe that the time has come to establish such a tribunal.

The Teutonic's First Trip.

The performance of the Teutonic on her first voyage to New York has been watched here with great interest. Probably no vessel ever attracted so much attention at home and abroad. English experts regard her run as extraordinary. It was known in Liverpool that she would not be pressed on her first Atlantic voyage, nor was she expected to beat the record of maiden runs as she actually did.

Now that the German Emperor has gone, sundry echoes of his doings reach London from Osborne, which are, perhaps, less indicative than heretofore supposed of perfect harmony between him and the Prince of Wales. His speeches, both at Aldershot and Osborne, gave offence. The Prince is reported to have said that his nephew was a very good German Emperor, but could not yet dispose absolutely of the English fleet and army. G. W. S.

GENERAL FOREIGN TOPICS.

The Emperor and Empress off to Bayreuth—Boulanger in London.

[By the Associated Press.]

LONDON, Aug. 18.—The Emperor and Empress of Germany started last evening for Bayreuth, Carlsruhe, Strasburg and Metz. They are now at Bayreuth, which is beautifully illuminated to-night in their honor. Great preparations are making at Strasburg for the reception of the Kaiser and Kaiserin, which will include festivities extending over Tuesday, Wednesday and Thursday.

There seems to be no abatement of the suicidal mania which has of late been prevalent among officers of the German armies. The latest case reported is that of Major Luck, who blew out his brains at Wiesbaden with a pistol loaded with water. The effect of this unique method of self-murder was extremely horrible, the victim's head having been entirely blown to atoms.

Five hundred French residents of London visited General Boulanger in a body to-day and presented him with an address of sympathy and confidence. The General in a speech said that he had never used money belonging to France except when trying to secure her against enemies. If he had been cited by a regularly constituted court of assize he and his colleagues would have taken the first boat for France to face a trial. The French Government did not dare to avail themselves of the ordinary courts, but formed a special tribunal composed of his political enemies, which had virtually condemned him before it met. In conclusion, he said he only asked good faith from the French people, and the triumph of the present rulers would soon be a thing of the past.

ST. PETERSBURG, Aug. 18.—The Czar will go to Copenhagen prior to his visit to Potsdam. He will probably meet Emperor William at Potsdam on Sept. 18.

BERLIN, Aug. 18.—The German Colonial Company has resolved to appeal to Prince Bismarck for protection against English encroachments in Africa.

VIENNA, Aug. 18.—The dates for the International Grain and Seed Market have been fixed for August 26 and 27.

PARIS, Aug. 18.—President Carnot delivered an address at a banquet given to 13,000 mayors and commercial delegates. He said the demonstration proved the national solidality. The French people though crushed for a time had shown its power to recover and make its sovereign voice heard by removing parties still aiming to undermine the edifice raised by the fathers of the republic. The nation would soon cast into oblivion all passing discords and combine the

A Word for Mr. Bunting and The Mail.

A correspondent writes us a letter, as he says, "to put in a word for Mr. Bunting of The Mail, a man much abused at present by The Globe and other papers." He says: "The sins laid to Mr. Bunting's charge by The Globe were committed when he was a Conservative and an organist and organizer of Conservatives; his later sins as an Annexationist agitator were committed when he was under Wiman influence; long ago, however, he left the Conservative camp, and quite recently The Mail abandoned its Annexation propaganda as a hopeless task; it therefore comes to this, that outside of his break with the Conservatives and his Annexation efforts nothing can be said against him or The Mail, but on the contrary a great deal in favor of both. The Mail is sound on the French question, on the maintenance of civil liberty free from ecclesiastical control, and if it can only get on the patriotic platform again and keep there it will begin to regain lost friends. Talk as you like, The Mail is a more honest paper on the great questions raised by Mercier's program than either The Globe or The Empire, two papers that only view these questions through narrow party glasses."

If Mr. Bunting takes the above words of his friend, the writer, to heart, and again becomes patriotic and hopeful, though none the less stout on his resistance of the enemies of our liberties camped in Quebec, he may yet redeem himself. Greater political crimes than that of the Britery Plot have been forgiven by the Canadian people when the sinners had taken to patriotism. But no man can swim against the current with the stones of disloyalty and party treachery tied about his neck.

Terry Deserved His Death.

Such is the unanimous verdict of the American papers on the shooting of ex-Judge Terry by U. S. Marshal Nagle, the guard of Mr. Justice Field. There are times when homicide is justifiable and this seems to have been a case in point. The shooting of Terry will go down to history as one of the most remarkable of the many remarkable shooting episodes that have occurred in the United States.

George Laidlaw.

The suggestion made that a bust of the late George Laidlaw should be placed in the new Board of Trade building is good, but does not go far enough. There should be a statue, at least equal in value and proportions to that of Col. Williams, erected in Clarence-square, near his old residence. In his lifetime he strongly opposed any testimonial being got up for his benefit, though his exertions had left him a comparatively poor man. Now that he is dead is only shown that his fellow-citizens are not unmindful of his great heart and fertile brain. Let us have a statue, and let the Board of Trade head the subscription list with $1000. Every member of it is here profited that much directly or indirectly by George Laidlaw's enterprises; and along the lines of railway that owe their origin to him subscriptions can be taken up that will place the success of the movement beyond a doubt. Mr. R. M. Wells was the chief mover in the attempt frustrated by Mr. Laidlaw in his lifetime, and no better man can now put his hand to the work.

New Take Your Own Medicine.

Our French fellow-citizens are very pronounced in the opinion that in the Province of Quebec their own majority should rule. Now, we say, take some of your own medicine, and don't make wry faces at it, either. In Manitoba the majority is quite the other way; you see the inference, of course. It's a pope rule that won't work both ways.

Boulanger "Played Out."

It looks as if Boulanger had got to the end of his tether. There are good reasons why the French people should be sick of him; but probably what worked most against him was the fact that he lacked nerve to face the music of opposition. By leaving the country he put himself out of sight and out of mind, and this proved fatal to his influence with the country. It gave the French people a confirmed belief that he is not the stuff of which a hero, either political or military, can be made. They have evidently got in into their heads that he would never do for "a man on horseback." And it is just as well for France.

People outside of France as well as in it have some time ago put him down as the confirmed enemy of the Republic, and in face of popular government in any and every form. He would at a pinch have been willing to lend his aid to an Orleanist Government, to a Bonapartist one, or indeed to any one that promised to keep the Republic and real Parliamentary Government together. "Take any shape but that"—was the counsel he wanted to impose upon France. But the Republic seems to have a more vigorous life than was expected by a good many people; and is stronger now than at any time since its last revival. The Senate, sitting as a High Court of Justice, has shown unexpected courage in finding Boulanger and two of his aids guilty of conspiracy against the State. They have been condemned to transportation and confinement in some fortified place. It is not likely that General Boulanger will ever recover from this turn of adverse fortune.

About Free Raw Materials.

However we may account for it, there need be no doubt of the fact that just now there is a pretty strong movement over the border in favor of getting in raw materials free. Not only is the thing advocated by professed free traders, but prominent protectionists also are in favor of it, on the ground that it would promote manufactures, and would largely increase the value of home products. The Philadelphia Times notes some emphatic utterances by leading protectionists in various sections of the country. Senator Blair of New Hampshire has lately publicly declared his purpose to demand free coal, free iron ore and other free raw materials for the New England factories, Governor Ames of Massachusetts has just signed a petition to Congress demanding free coal and iron ore and the reduction of duty on pig and scrap iron and steel, and Wade's Fibre and Fabric, a leading organ of the woolen interests, now speaks with emphasis in favor of free wool. It points to the closing of iron and woolen establishments as conclusive object lessons in favor of raw materials to protect and enlarge American industries, to give increased demand for labor and reduce the present oppressive cost of necessaries of life. In point of fact every American manufacturer is more or less crippled by oppressive taxes on raw materials and the high tax on wool, that protects no labor at home, simply protects the mills and labor of Europe by denying our manufacturers the free raw materials given in every other protective country of the world.

The Times thus further discusses on the subject, from its own American-Protectionist point of view:

> Free raw materials have become an essential element of protection to American labor, and if we would maintain the true protective policy of protecting the wages of American workingmen, we must enlarge our free list to embrace wool, hemp, coal with Canada, with greatly cheapened chemicals and dyestuffs, and with salt and lumber added to the free list to overthrow monopoly combines and aid labor by cheapened necessaries of life. Iron ore is chiefly labor, and whether it should be free is simply a question whether our general industries would be benefited or crippled thereby; but all doubts should be resolved in favor of free raw materials for our important industries. The necessity has become so great for an advance in free raw materials for the maintenance of protection to American labor that no party can stand against it. The cry of free trade has lost its effect, and intelligent men of all parties now understand that free raw materials with protection on our products to the full extent of the difference in wages of labor here and abroad, is now the only tenable standard of protection to American workingmen. Any other basis of tariff taxes must be either for the destruction of our industries or for the special protection of monopoly trusts, which cheapen wages and increase the cost of the necessaries of life. Let all be honest in the advocacy of protection and the protection of labor will be invincible; but if protection shall be prostituted to greed and oppression, it must prove its own most dangerous foe.

Philadelphia is a great manufacturing city; and at every Presidential election casts a heavy majority for the Republican-Protectionist candidate. And there would be no sense in doubting the fact that it truly voices the opinions of the majority in that extremely Protectionist city. Now, we would not build up too broad a deduction on too narrow a basis of fact; nor would we try to infer too much from just one article in The Philadelphia Times. But when we find much to the same purpose coming from other influential Protectionist sources, then we venture to believe that we are on the right track as to the prevailing drift of public opinion over the border.

When it was made public that the Dominion Government had sent to Washington a proposal for reciprocity in lumber and lumber products—The World said it was to be regretted that soft coal had not been included in the proposal, because thereby the chances of its being accepted would have been increased. And we ventured the opinion that the present would be a good time to push things with regard to Reciprocity in raw materials, soft coal and iron ore especially. But this is something very different from the "Unrestricted Reciprocity," over which Sir Richard Cartwright and The Globe are going wild.

A Warrant Out For the Arrest of a Medical Student.

There lies at Detective Headquarters a warrant for the arrest of Thomas M. Rogers, a medical student, on a charge of forgery. Detective Wasson of the Medical Council has the matter in hand and claims to have worked up a very strong case against Rogers. The latter, it is alleged, obtained old tickets of attendance at the Western University, London, Trinity Medical School and Victoria College. He is said to have erased the name of the holder and substituted his own, and with these in his hand obtained his degree of M.D. Rogers, until a couple of months ago, was employed in the office of a King-street west physician, but was dismissed for making false returns of the cash received. Detective Wasson and Detective Wagson proceeded to Dr. Robertson's office, east of the Don, where Rogers was supposed to be then working, to make the arrest. Rogers had evidently been warned of his danger, for all the information the officers could obtain was that their man was in Chicago. It is probable steps will be taken to bring him back as the offence is extraditable.

LOST IN THE NINTH INNING.

PETE WOOD AGAIN GIVES THE TORONTOS THE RAZZLE DAZZLE.

They Can't Win When Peter Twirls—Racing at Saratoga, Monmouth Park and Chicago—Montreal Defeats Ottawa at Lacrosse—At the Wickets—The Bowling Tournament—Baseball and Turf Gossip.

LONDON, Aug. 17.—London won another game from Toronto to-day by pulling it out in the ninth inning. Toronto clearly lost the game by bad judgment in this inning and by Vickery's poor control of the ball, sending the first two men to first on balls. Before this he had done fine and the team were supporting him in good style. They were as badly rattled as in last Saturday's game, and stood a splendid chance of winning in their half of the ninth when Hoover, who played miserable ball all through the game, got his base on balls, went to third on an error of F. Wood and stayed there to see three men put out, missing a chance to score on a throw to second and a sacrifice to center. Titcomb or Serad were on the card to pitch, but as both were a "little sick" Vickery was put in. Rickley failed to show up on the ground and came in when the game was half through with the excuse that he had been sleeping. Murray caught the first four innings but gave up on account of sore hands. Campana received an awful bruise near the elbow by being hit by a pitched ball in the second. The game was delayed fully 20 minutes. He finished with it bandaged. Knight's fielding and a home run by Ellis were the best features. It is a shame that no umpire can control the wrangling between these two clubs, it being worse than ever to-day.

London scored three in the first on singles by Shiebeck, Ellis and Wood, an error by Hoover, a base on balls to Hiland, and a passed ball by McGuire did the work. With Ellis on third and F. Wood on second, the latter thought a pitched ball his Umpire Simmons, and ran to third, forcing off Ellis. Both were put out. Two more were scored in the fourth. Singles by F. Wood and Murray, errors by McMillan and Hoover, and a wild pitch allowed these two players to score. In the next three innings not a hit was made, although two reached bases on an error, and bases on balls. Ellis made a hit for four bases to start the eighth, and was home before the ball was fielded in the diamond. Kinslow got in a single, Shiebeck and Friel were sent to first on balls. To begin the ninth, Knight fled to Harmett, Hilland struck out, but McGuire allowed the third strike to pass him, Shiebeck scored from second, and Friel went to third, Hiland went to second, but was out on account of first base being occupied. Ellis brought Friel in with a single, F. Wood striking out.

Burke got to third in Toronto's first on a single, stolen base, and passed ball. Hartnett hit for three bases in the second. Grim sent him in with a single. Shiebeck fumbled McLaughlin's hit. Both stole a base, and scored on Vickery's drit to center. Pettit scored in third on a "double" sacrifice. McMillan hit safe in fourth, McLaughlin forced him out at second, latter stole second, and Vickery again sent in the run on a single. Burke hit safe in the fifth, stole second, and came home on Pettit's hit to right. The ball went through Friel's legs and Pettit went to third, and scored on an error by Shiebeck off Grim's bit. The feature of the next three innings was the retiring of every man on fly-catches. Knight retired the side in the seventh. This ninth inning is described above. Score:

Dust from the Diamond.

Stovey of the Athletics has made more runs than any other player in either the American Association or the National League to date.

Ed. Williamson is playing short for Chicago.

The Torontos will soon pass the falling Stars.—Detroit Free Press.

Toronto plays two games at London to-day, morning and afternoon.

Wheelock of the Detroits has stolen 61 bases. "Count" Campau comes next with 44.

Shindle is considered to be without a superior at third base in the American Association.

Cincinnati is being well paid for the fight she made with Hamilton for Petty. He is pitching a great game.

Brouthers leads the League in batting with a percentage of 4.08. Tiernan is, however, a close second by 40 points.

The New Yorks are behind Boston again in the pennant race and the contest is growing more exciting every day.

Chicago is the only League and Brooklyn the only Association club to escape the whitewash brush so far this season.

Detroit will give London a benefit game at London on September 5. London probably needs it.—Detroit Free Press.

Owing to the action of the authorities the game scheduled for yesterday at Cincinnati was not played. The Mayor threatened the arrest of every one connected with the game if an attempt was made to play it.

A New York dispatch on Saturday said that Samuel Crane, second baseman of the Metropolitan baseball team, and Mrs. Hattie E. Truenfelter of Scranton, Pa., have been arrested here on requisition papers from the Pennsylvania authorities. Crane is charged by the woman's husband with larceny, and Mrs. Truenfelter with adultery. In June last it is alleged Mrs. Truenfelter left her husband and fled with Crane, taking with her $1500. Mrs. Truenfelter is a pretty blonde, about 28 years old. She said she left her husband because he treated her cruelly. She claims the $1500 is her own.

Time—1.15¼, 1.15.

Betting—3 to 5 Los Angeles, 12 to 5 Wary, 3 to 1 Erebus, 20 to 1 Sunlight, 25 to 1 Queen of Trumps.

First heat—As they ran round the lower turn Los Angeles moved to the third place, and not until they were well into the stretch did Barnes call upon the great filly, and she was soon on even terms with the leaders. The race, however, was not to be decided, Los Angeles beating Wary a length, and she was a length and a half before Sunlight.

Second heat—They received another good start and Sunlight again set a clipping pace, reaching the half a head better than Wary, and the pair ran lapped up to the last furlong, when Los Angeles rushed up and, approaching the stand, took command and won the heat and the race by three parts of a length from Wary, who was but a head the best of Sunlight, with Erebus and Queen of Trumps distanced.

Fifth race—Purse $400; selling; 1 mile.

Scoggan Bros' b c Judge Morrow, 3, by Vagabond—Moonlight, $3000, 81 ..... (Decker) 1

Time—1.43¾.

Betting—7 to 2 Littrell, 4 to 1 each Prather, Bratt and Mamie Hunt, 5 to 1 Vigilant, 10 to 1 Redstone, and 15 to 1 Amos.

In the last furlong Prather came with a rush and easily taking the lead finally won by two lengths from Mamie Hunt, who was three parts of a length in front of Littrell. The winner was bought in for $1805.

RACING AT MONMOUTH PARK.

Great Crowds on the Last Day of the Season at the Popular Course.

LONG BRANCH, N.J., Aug. 17.—The racing season at Monmouth Park for 1889 ended today with the last races that will be run over the present track. That the meeting has not been an enjoyable success is perhaps realized in a greater degree by the Executive Committee than the public. Racing at Monmouth was inaugurated in 1870, and as no meeting since has there been as much wet weather as during that now ended. There were other causes that made the meeting in a measure unsuccessful, the chief of which were the rain and mud. There was a large attendance today and the program provided was a good one. The weather and the track could hardly be better. Results:

First race—Handicap sweepstakes, for all ages; 5 furlongs. W Graitz's bay colt Blue Rock, 3 yrs, 109 lbs, won; Climax, 107, 2; Gladstone, 102, 3. Time 1.02¼.

Second race—Carteret Handicap, a sweepstakes for 2-year-olds, at $100 each, with $3000 added, of which $1000 to the second and $600 to the third; 1 mile.

THE TOWN OF UXBRIDGE.

ONE OF ONTARIO'S FAR-ADVANCED PLACES.

Its System of Electric Light One of the Finest in Canada—Magnificent Public and Private Buildings—Churches, Schools, etc.—A Few Prominent Business Men.

There is a stability in the general appearance of Uxbridge that in many other towns is noticeable by its absence. The streets present a pleasing solidity and attractive front that is at once durable and imposing. Things are placed as if they came to stay. It is the same with the institutions of the town, the standard, financially and otherwise, of which is satisfactory. Uxbridge, as is already pretty well known, is located in Ontario county and township of Uxbridge. It is also situated on the Midland division of the G.T.R. 42 miles northeast of Toronto, and almost due north of Pickering on Lake Ontario. The surrounding country for farming purposes is exceptionally fine, all the principal cereals being grown in abundance and at a profit. Uxbridge contains as many enterprising men to-day, and its previous record justifies this statement, as any town in Canada.

It was incorporated as a village in 1873, but soon emerged from that infant period to develop into a town in 1885. The late Joseph Gould, a philanthropist, and one of the most public spirited men the town has seen, was elected first Reeve. A. D. Williams was first Clerk and J. G. Crosby first Treasurer, both of whom have held their respective offices to the present day, to the thorough satisfaction of officials and others. Dr. Bascom was first Mayor, which office he held for 3 years.

The present population is estimated at 2300 and the assessment at $550,400. The present Mayor is William Smith, and Reeve R. P. Harman. Councillors are: John St. John, Charles Russell, William Vanhorn, Andrew Patterson, H. J. Gould, Samuel Todd, John Hunter, William Gordon and Alexander Spears. The Council chamber is situated over the market building in spacious and handsome apartments.

There is no lack of water in the town. Two streams flow through the town, uniting at the south end and forming quite a respectable sized body of water. Consequently the town has an efficient system of waterworks, with pipes traversing the principal streets and sufficient hose, which, with the necessary force, enables 2 streams to be thrown over the highest buildings in town. The fire company too are adepts at their business, thoroughly disciplined and fitted for the most arduous work. They have a nice hall over the waterworks department.

A Board of Health has been organized in town for many years. James Walker is chairman for the present year. Mr. A. D. Williams is clerk of this institution by virtue of his municipal office. Other members are: Mayor Smith, Daniel Dowling and William Johnston. Uxbridge is the scene of a busy gathering every fall on the occasion of the annual fair held on the Agricultural grounds. In connection with this property is a magnificent race track and driving park, erected at a cost of $4000.

This town is well to the front in the matter of street lighting. The Ball system of electric light was introduced a year ago last fall and the plant is at present under the control of J. J. Gould, M.L.A., of Uxbridge. It has been operated with entire satisfaction. Nearly every store in town makes use of it, as well as the churches, and the effect is pleasing and harmonious. This brings us to the next head of our sketch, viz., the churches. These are of substantial and tasteful design, if not elaborate finish. The Methodist church especially, which is quite new, and the best in town, was erected at a cost of $17,000. It is built of brick of massive but not unwieldy proportions. The Episcopal church is also quite new and a handsome structure, while the Presbyterians have recently rebuilt and had theirs remodelled at considerable expense. Other denominations represented are the Baptists and Roman Catholics. At the latter Father P. J. Kean conducts service, and at the former Rev. J. W. Millard performs a similar office. Rev. E. S. Roberts has recently taken charge of the Methodist church, Rev. W. G. Hanna at the Presbyterian and Rev. W. S. Westney at the church of England. Mr. Hanna has just arrived and Mr. Westney has been stationed here since winter. He comes from Woodbridge and took the place of Rev. John Davidson. The High School is a very fine building employing 3 masters. H. Park, M.A., is headmaster. The status of this institution is very good, its equipments most complete and the staff fully competent, experienced teachers. The public school is a large, capacious building, of which Alexander McKee is principal. The staff comprises 8 teachers altogether. This school has also an excellent reputation due to the careful and assiduous work of the principal and staff. It is well built and heated and ventilated by the Smead-Dowd system. Dr. Bascom is chairman of the Board.

The most important manufacturing industries of the town are: The Uxbridge Organ & Piano Company, two foundries, two large flour mills, a big oatmeal mill, woolen mill and carding mill. These mills give employment to large numbers of hands, many of them continuously all the year round. Other institutions worthy of mention are the Mechanics' Institute and Free Public Library and the Citizens' Band. First in order of mention is the Mechanics' Institute. This institution is of a very superior kind, much above that met with in towns many times larger than Uxbridge. Two years ago the late Joseph Gould left a legacy, to erect an institute and free reading room, with gymnasium. His wishes have been carried out and to-day there stands as fine a Mechanics' Institute as any town in the Province can boast of. It is very handsomely designed and built of brick, having a beautiful lawn in front. The gymnasium is situated in the basement. Everything is most complete and the library contains about 4100 volumes at present. All the principal periodicals, magazines, dailies and weeklies are received, making this a favorite resort of the citizens. A large handsome clock, which strikes the hours, with 4 dials, is placed in the tower. It was built by the well-known makers, The Seth Thomas Clock Company of Thomaston, Conn., U.S. The present institute is known as the Joseph Gould Institute. A Mechanics' Institute was established in 1860, which continued for 2 years and then was laid to rest. It was recognized in 1873 and has been in operation ever since.

The Citizens', or town band, is an institution whose fame has spread abroad and scarcely needs to be chronicled. Suffice it to say that it is probably unexcelled by any town band in Canada of similar pretensions. It took first prize at Bowmanville in a recent tournament in competition with many excellent bands, and this is but a "patch" of its record. There are 25 members in the organization. George McGuire is bandmaster. He comes of a musical family and though a young man is a brilliant musician. A description does them scant justice, they should be heard to be appreciated.

Telephone communication has been established for years with great success. The central office is located in the postoffice in Brock-street. An efficient operator is in charge. All the principal orders and societies are well represented, even the Knights of Labor. There are three weekly newspapers—The North Ontario Times, The Journal and The Guardian. The first named is the vigorous and staunch supporter of the Conservative party, and is edited and published by R. R. Elliot. It was established two years ago and is the official organ of the party. Under its able management the circulation has reached a very high figure for town journals. Of the 12 papers published in the county this is the only one north of Whitby that is run by steam power. The Uxbridge Journal has been established 50 years, originally by Keller & Graham. The firm then merged into that of Keller & Son, until a year ago, when W. H. Keller took charge and has conducted it ever since. It is Reform in tone, ever upholding the best interests of the party.

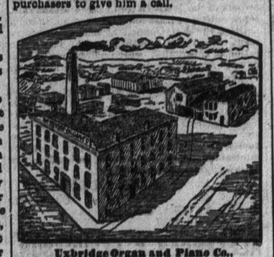
The Guardian has been in existence since 1872. William Pemberton is editor and proprietor. He has published it ever since it started. It is Reform in politics and an earnest advocate of temperance. Mr. Pemberton is proprietor of the block in which the office is situated in Brock-street. A photograph gallery is located up stairs.

Mayor William Smith

is one of the oldest residents, having lived in town about 35 years. In his municipal capacity he has always served the town faithfully and well, his best interests being always with the town. This is his first term as mayor. Mr. Smith is also manager of Black & Co.'s banking house, Brock-street. He took charge when the business was established 9 years ago. A very large proportion of the bank business of the town is done by this firm, whose reputation is A 1.

W. A. Broddy,

dealer in groceries, boots and shoes, crockery and glassware, is proprietor of two stores, centrally situated in Brock-street and adjoining each other. Mr. Broddy has been established for four years. He conducts business on a scale that will recommend itself to every thinking man, making a specialty of every line and selling cheap for cash. By buying goods for cash, for 95 and 50 cents on the dollar, he is enabled to dispose of them at less than first cost. The goods all sell on their own merits. To these facts Mr. Broddy attributes his great success. A large and very select stock is carried, from the finest to a medium grade of goods. It is no exaggeration to say that the proprietor carries on the largest business to-day in Central Ontario, indeed the largest that has ever been established in this line. That the business is conducted on an extensive scale will be readily realized from the fact that over $70,000 was turned over last year. The value of Mr. Broddy's large experience in this line is apparent in the exceptional manner in which the business is managed. The business has already assumed vast proportions, from 13 to 21 hands being employed. The enterprising proprietor is possessed of a keen eye for bargains and hence his ability to place on the market goods at prices that knock competition "silly." A very extensive trade is done with the farmers in the vicinity. The rush and bustle, and withal business-like way in which everything is conducted, and the polite and courteous department of the clerks would lead one to believe he was in a city store of considerable pretensions. It will pay intending purchasers to give him a call.



Uxbridge Organ and Piano Co.,

established 1873, is the most important manufacturing industry in town. John McGuire is president and manager. The premises occupied comprise a factory, warerooms and office, the former 150 feet by 36 in extent, located in Brock-street, while the latter buildings are located in Franklin-street. This large industry gives employment to 60 hands. In addition to organs and pianos furniture is also extensively manufactured, from forty to fifty thousand dollars worth of the latter being turned out during the year. From 45 to 50 organs are manufactured per month. The manufacture of pianos has only recently been started with excellent results. Expert workmen are employed and the best of machinery that is produced, a guarantee of first-class work.

John N. Whitlaw & Co.,

produce commission agent, Brock-street west, formerly of Woodstock and connected with the firm of Crane & Baird of Toronto, have been established in town for six years. They deal extensively in wheat, flour and feed, coarse grains, pork, etc. Seeds are handled largely, also dressed hogs, butter, poultry and eggs. The firm have warehouses at Uxbridge, Sunderland, Blackwater, Sutton, Cannington, Manilla and Mariposa, all conveniently situated for shipping purposes. A large export trade is done in barley and other grains. This firm have a reputation for fair dealing and handling superior grades of goods second to none in the Dominion.

A. Spears

has carried on business for 4 years as a hardware merchant. Shelf and general hardware of every description are kept constantly in stock, including builders' and carpenters' supplies, harvest implements, cutlery, leather and rubber belting, granite ware, mixed paints, oils, binding twine, etc., etc. Silverware, wall paper, window shades, tinware and other commodities usually found in such an establishment are to be had. Mr. Spears is located in Brock-street in large commodious premises, well lit and attractively stocked. The business is growing rapidly.

William Hamilton,

postmaster, is an old resident of Uxbridge, having in fact been born and educated here, and lived in town ever since. Mr. Hamilton was appointed to his present office by the Mackenzie Government in 1878. It was one of the last acts of that Government. The office was previously held by Mr. George Wheeler, ex-M.P., who employed Mr. Hamilton for some time but was compelled to resign on accepting the seat. The presens postoffice building, which has recently been refitted, is the property of Mr. William Hamilton, great father of the postmaster and one of the oldest settlers of Uxbridge. The building is now a marvel of neatness and convenient construction, presenting a fine appearance. It is the head office of the Bell Telephone Company in addition. Mr. Hamilton was a member of the first town council 4 years ago, and was elected reeve of the town in 1888. In addition to his other duties he is agent for several insurance companies, and for the Anchor, White Star and Allan lines of ocean steamers.

J. Cherpaw,

baker and confectioner, and dealer in fruits, oysters, etc. Keeps one of the neatest and most inviting stores that can be met. He has been established ten years in town. A first-class ice cream parlor and lunch rooms are in connection. The premises are 28x58 in extent. The parlors and store are lit by electric light, displaying a choice stock of goods. A soda water fountain is in operation constantly filled with the best syrups. Mr. Cherpaw states that in order to keep up the reputation he now enjoys he always selects the best of everything, especially fruit. Nothing but first-class lines kept in stock. He keeps a special line of first-class cigars. On the manufacture of Mr. Cherpaw's bride-cake alone he has won a golden reputation. He employs a skilled workman for the manufacture of these cakes, which really cannot be beaten by the best city work and will hold their own anywhere. Great taste and skill are displayed in the finishing of these cakes, the ornamentation being unusually fine. These cakes have a very wide and favorable celebrity, many being continually shipped to distant towns.

Gould Brothers,

merchant millers, grocers, grain buyers and proprietors of the North Star Mills, were established in 1865. The mills are situated in Toronto-street and the grocery in Brock-street. Each mill has a capacity of 50 barrels a day and employs 2 men. They are 4½ stories in height and present a fine appearance, being substantially constructed and furnished with 12 double sets of rolls. Dimensions, 36x48 and storehouses 30x30. All the most modern machinery is used. Special grades of flour manufactured by this firm are, "Our Best," "Gem" and "Painless." The present business was established about half a century ago by the father of the present proprietors. The second mill was erected in 1871. Shipments are mostly local. The store in Brock-street is 28x70. All varieties of grain and produce are bought, as well as great quantities of seeds. The members of the firm are Messrs. C. & H. J. Gould, both practical and thorough business men. The latter is a prominent member of the council and both are natives of Uxbridge and highly esteemed by the populace.

Mansfield & Gold

conduct a general store in Brock-street, two doors west of the Queen's Hotel, in one of the best stands in town. Special departments are dressmaking and clothing. Both the proprietors are young men, possessed of considerable push and enterprise. They started 2½ years ago, and already are reaping the fruits of their labors. A very large trade is done in ready-made clothing, also in ordered goods. Seventeen hands are employed altogether, including 12 in the dress room. The store is a large 3 story building, with a very handsome front. A specially fine line of dress goods is handled, the best quality obtainable being kept in stock, down to a medium grade. Messrs. Mansfield & Gold possess the entire confidence of the community owing to their straightforward, reliable business way of dealing.

R. P. Harman,

proprietor of the Uxbridge Agricultural Works, also owns a sash and door factory. He has been established since 1875. In both businesses 16 men are employed. The factory is 34x56 with a moulding shop 30x40. Two wings adjoin about 16 x 24 each. The engine room is about 18 x 20. Shipments are mostly local, though orders are filled to Oshawa, Pickering, Manford, Orillia, Sunderland, Cannington, Stouffville, Claremont, Port Hope, Seagrave, Myrtle, etc. Mr. Harman also handles other goods than his own, in particular Frost & Wood's binders and mowers. A specialty is their new and celebrated single apron steel binder and harvester, than which it is confidently asserted by many there is no better in the market. Recent tests have given complete satisfaction and unsolicited testimony is freely given in their support. The sale for these implements is rapidly increasing. Mr. Harman manufactures gang plows, straw and root cutters, fanning mills, etc., and does all kinds of repairing. From 300 to 500 plows are turned out every year. He is agent for the Masson Manufacturing Company of Oshawa, rakes and seeders. An extensive business is done in the sash and door line. Shipments are local.

E. A. Wood

occupies elegant premises in Brock-street, in which he conducts a large and popular dry-goods and millinery business. He started 5 years ago. The business gives employment to 15 hands. The store is 20x60 feet in extent. Millinery and dressmaking are specialties. There is no more thorough and competent business man in his line in town than Mr. Wood.

Mammoth House,

Henry & Co., proprietors, has been in existence 15 years. A general stock of drygoods, groceries, boots and shoes, ready made clothing, produce, etc., is kept, in fact everything except hardware. Mr. Henry owns the block corner Brock and Spruce, comprising his own premises, situated on the corner, and several other attractive stores. The dimensions of the block are 110 feet frontage by 150 feet depth and of the Mammoth House 85x40. There is an immense yard and sheds in rear for the accommodation of farmers. A carpet room and ready-made, tailoring and dressmaking departments are located above the store. Eleven hands are employed. On the lower floor is stored a general overstock. This store occupies an excellent location and an extensive trade.

Mansion House,

F. Webb, proprietor, is centrally situated in Brock-street. The proprietor is known to many throughout the country as a horse dealer of repute. He has constantly on hand a number of first-class animals for sale. Bargains can be had. Mr. Webb may be said to be an Uxbridgeite, having lived in town all his life. He has conducted the Mansion House for 4 years with such success that its fame is doubtless known to many. There are 50 bedrooms for the accommodation of guests. The building is a large 3 story red brick structure. The stabling accommodation is very commodious, and it goes without saying that the menu is excellent.

C. H. Nix

is a harness maker in Brock-street nearly opposite the Queen's Hotel, and has a very large store and well assorted stock of light single and double harness of all kinds, also a large stock of whips, trunks, valises, fly nets, curry combs, brushes, bells and everything for the convenience of the traveling man or his horse. Mr. Nix does a large wholesale as well as retail trade in the above mentioned lines. He was established in 1881, and employs on an average of 4 hands, though in the busy season as many as 7. The premises are 24x60 and 3 stories in height. Persons wanting good driving horses would probably find it to their interest to consult Mr. Nix, as he can put them on to bargains. He is a most enterprising young man, as his record has shown.

D. Campbell,

whose cut is shown above, is senior member of the firm of Campbell & Co., merchant tailors, Brock-street. This firm have conducted business here for 15 years with success. In addition to tailoring, of which a very extensive trade is done, gents' furnishings are handled. This is one of the leading gents' furnishings houses between Toronto and Peterboro or Lindsay. Specialties in the tailoring department are black goods and worsted and fine work generally. Hats, caps, and furs also keps in stock, in great variety. The trade done this year is the best ever known, and the proprietors state that the prospects are good for the fall. Samples will be sent on application. If industry and energy will do it, Mr. Campbell will yet be one of the biggest outfitters in the Dominion.

Joseph Reeves,

boot and shoe dealer, Brock-street, is one of the old residents, he having started in business 24 years ago, when there were but a few hundred inhabitants in town. Mr. Reeves went into factory work somewhat over a year ago. All the leading lines in light and heavy goods are handled, and in fall and winter a large supply of rubbers and overshoes is kept on hand. The stock is very comprehensive.

M. H. Hansen,

one of the recently arrived citizens, and a most enterprising and pushing member of the community, carries on a jewelry and watchmaking business in Brock-street. He has just received a superb line of watches and a splendid assortment of jewelry, which he is showing at very low prices, and invites the consideration of patrons and others before making purchases. Mr. Hansen leads, and others follow. Watch repairing is a specialty, and from long experience Mr. Hansen guarantees a satisfactory job. The latest machinery for this purpose is employed and everything necessary to the construction of fine work. The store is very handsomely appointed, with plate glass front and elegant show case.

A. D. Williams,

town clerk, also occupies the responsible position of bookkeeper in Watts' establishment, Brock-street. This position he has filled for 30 years. Between municipal work and the above mentioned position, Mr. Williams is a very busy man. As will be seen, he is one of the old residents. He was born in the township of Reach, adjoining Uxbridge township. Mr. Williams is a landmark, whose loss would be serious and almost irreparable.

D. McGillivray,

druggist and chemist, is successor to J. McKinnon. Mr. McGillivray has been established about 16 months. He is a young man, possessed of considerable pluck and enterprise not to mention great ability. He recently passed his final examinations in a highly successful manner, securing 2 gold medals. This fact speaks for itself. He is situated in Brock-street. Books and fancy goods are carried in addition. The lines in drugs are such as are usually found in every first-class store.

Stewart & McGowan,

proprietors of the oldest established hardware business in town, have owned and managed it since September last. The business was formerly conducted by Horsman & Co. A full stock of shelf and heavy hardware, plated ware, etc. etc., is handled. A wholesale and retail business is done. Messrs. Stewart & McGowan are also importers of plate glass, and have supplied fronts for the other stores in town. The premises occupied are 3 stories in height and 40x130 in area. There are no more vigorous, pushing business men in town than the members of this firm.

I. G. Crosby,

general merchant, conducts business on an extensive scale, employing no less than 25 hands all told, including dressmakers, milliners and tailors. He established the business in 1860. Dimensions of premises are 35x60. A specialty is made of the millinery department. A large trade is carried on in dry goods, groceries, dress goods, tweeds and staple articles. The establishment is situated on the corner of Brock and Main-streets. Mr. Crosby is the popular village treasurer.

A. Patterson & Son

have been established for 20 years in the tannery business. Two years ago Mr. Patterson, jr., was admitted. The firm manufacture harness and shoe leather. Ten hands are employed. The dimensions of the tannery are about 70x36. It is 3 stories in height with several attached buildings, making a total length of 100 feet by about 60 in breadth. The tannery is operated by steam power and goods principally shipped to Toronto.

E. Hemphill,

Clerk of the Fourth Division Court, is the fourth in office at Uxbridge, since its establishment in 1852 as a court centre. Mr. Hemphill is also land and general insurance agent, conveyancer and commissioner for taking affidavits. Money to loan at lowest rates. He has held office for 9 years. All transactions treated confidentially and discharged with promptness. This is a remunerative court, though the duties are arduous. Joseph Dickey, who is now Inspector, was at one time Clerk of this Division court.

E. R. Anderson

is a contractor of long experience and can point to two-thirds of the buildings in town as evidences of his skill. He has been in business here for 13 or 14 years. The number of men employed varies sometimes, running as high as 50. Mr. Anderson's residence, erected by himself, is as fine a specimen of modern structures as one would wish to reside in. It is built of white brick of very attractive style. He possesses 15 acres of ground, which serves to show off the building to good advantage. Mr. Anderson is well known and his services are constantly in demand.

Queen's Hotel,

formerly the Plank House, was re-opened January last, entirely remodeled and refitted in elegant style. The proprietor, W. R. Edmand, is an old commercial traveler of 21 years' standing and thoroughly appreciates the wants and requirements of that important class of hotel patrons. He is determined to keep the hotel up to its present record, or even improve it. There are few hotels between Toronto and Montreal that surpass it in general get-up or finish. It is situated on the corner of Brock and Main-streets and contains 30 bedrooms. The Queen's is a $1.50 a day house. The fame of this hotel is already more than provincial. Splendid trout fishing can be had in the vicinity and some of these dainty specimens are received daily at the hotel. The menu is first-class in every respect. The house is very complete in finish, having water-pipes through the house, dry earth closet and bathroom on the premises. Mr. Edmand is an old World subscriber and sees nothing on the road to equal it.

S. B. Todd,

carriage manufacturer, has been established six years. Horse-shoeing and general blacksmithing done on the premises. The wood shop is 28x60, with wing 30x40. The building is substantial, brick, 2½ stories in height, situated in Main-street. Seven hands are employed and a big local trade is done, which is rapidly assuming very extensive proportions.

C. Russell,

oatmeal manufacturer, has been in business for about 20 years, during four of which he has located in Uxbridge. Five or six hands are employed, and shipments are made all over the Dominion. The local trade is very extensive, equal to anything in the Province. The mill consumes in the course of a year something over 100,000 bushels of oats and a large quantity of corn for cornmeal, which is also manufactured. Mr. Russell imports pearl barley heavily. The mill is a 2½ story white brick, 30x80. W. & J. G. Greer of Toronto supplied most of the machinery.

Bascom House,

John Bascom, proprietor, is another old established institution, having been established in 1863. The hotel has 15 bedrooms furnished in superior style. Choice wines, liquors and cigars are kept on hand. The table accommodation is excellent. The house is situated in Brock-street and the proprietor, a most popular gentleman, is known to all.

R. B. Hogg

of the "Cheap Cash Grocery," grocery and provision dealer, No. 1 Wheeler's block, corner of Church and Brock-streets, has been established one year. Butter and eggs are a specialty. Full lines of crockery and glassware are carried. The grain market is situated directly in front of the establishment. The store lacks nothing to make it most attractive and inviting. Electric light is used and its great superiority to gas is apparent. Mr. Hogg is a pusher and makes things hum on his corner. His line contains just the articles you want.

Mr. John McCarthy, Toronto, writes: "I can unhesitatingly say that Northrop & Lyman's Vegetable Discovery is the best medicine in the world. It cured me of Heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took hold and rooted out the disease."

No Use for Brown-Sequard's Elixir of Life.

Mr. James Thomson of Logan-avenue, who was afflicted with Dyspepsia and Nervous Debility and whose condition had become so bad, after having been treated for a long time by the best physicians of Glasgow, Scotland, who told him he could not be cured, came to Canada hoping that a change of climate might, if it did not effect a cure, at least lessen his suffering, but this hope was not realized, and he was advised to try the physicians at 198 King-street west; he took the advice and on Jan. 30, 1888, consulted us. His condition at that time was really deplorable, he was a man without hope, he had tried everything recommended by his acquaintances without receiving any benefit, and had lost confidence in everything and everybody and told the physicians whom he called on here that it was his last experiment and if it failed he would not take any more medicine but would endure his suffering until death relieved him. He was unable to work, the least exertion tiring him completely; his pulse was 110, had no appetite, the thought of food producing nausea and sometimes vomiting; had a nasty hacking cough with a choking sensation in the morning. He had all the symptoms of Advanced Catarrh and Chronic Dyspepsia, with all the distressing and alarming symptoms of Nervous Debility added; and anyone who has ever been affected with any symptoms of the latter, even in a mild form, will have an idea of the terrible condition and suffering of one who is a victim of this awful disease in its worst form.

Mr. Thomson is perfectly well now, says he has no use for Brown-Sequard's Elixir of Life, and will be pleased to talk to anyone who may wish to satisfy themselves as to the particulars of this case. He lives in the first house on the west side of Logan-avenue, north of Queen.

$3,000,000 INVESTED.

Barnum & Bailey's Greatest Show on Earth—Undoubtedly the Biggest Affair Ever Seen.

The actual amount of capital invested by Barnum and Bailey, who are equal partners in the "Greatest Show on Earth," is $3,000,000, and the daily average expense of running the tremendous affair is $6300—rain or shine. Here are a few of the chief attractions: A wild Moorish Caravan, containing real Arabian horses, Moors, Bedouins, slaves, dancing girls, weapons, religious articles, etc.; a black tent specially made to exhibit the big gallery of supernatural visions, creations of the wizard's art; two menageries, two elevated stages, two equestrian rings, an elephant pavilion, museum, horse fair with actually 330 head of horses, Royal Japanese troupe, the Paris Olympia Hippodrome with its thrilling races, the most astounding collection of trained animals, including sheep, pelicans, ostriches, giraffes, zebras, pigs, donkeys, cattle, birds, etc., etc., 20 human and 20 four-footed clowns, 300 performers, embracing acrobats, bicyclists, equestrians, athletes, strong men, contortionists, boxers, fencers, runners, etc., etc. The tents are the largest ever made, the costumes the most elegant and costly, and the dressing of the show so superb as to excite universal comment. Nothing but the most moral features are exhibited, while the children's entertainment is varied enough to delight every child in Christendom. The whole mammoth affair will be in Toronto on Monday, Sept. 2, and the parade will take place in the morning at 9 a.m.

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhœa, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

For Mr. Brock's Committee.

EDITOR WORLD: Your suggestions for the doing away with the Grand Trunk freight business at Simcoe-street are to the purpose. Practically the whole freight and passenger business of the Grand Trunk is being done at the same station, the premises being separated merely by a 66 feet roadway. This is at the bottom of the Esplanade difficulty. Let the city purchase the G.T.R. premises as the foot of Simcoe-street.

No solution of the tangle can be found so long as this freight business is carried on where it is now. In the Northern yards the G.T.R. have all the space they want for freight, and as their tenure of that property is more than doubtful, and the stock in that road held by the city is a claim now against the Grand Trunk, it ought not to be difficult to come to an arrangement, whereby the Simcoe-street sheds can be evacuated and a move made to the Northern premises—stock to be cancelled, title confirmed, and the Simcoe-street lots surrendered.

ANOTHER BARRISTER.

No medicine in the world is in better repute or more widely known than Ayer's Sarsaparilla. As a safe and certain remedy for all manner of blood disorders leading physicians and druggists everywhere recommend it in preference to any other.

A Strong Following.

Many diseases result from neglected constipation, such as sick headache, bad blood, foul humors, heartburn, dizziness and general ill health. Mother Seigel's Syrup and Mother Seigel's Blood Bitters is guaranteed to cure constipation and all diseases caused by irregularity of the bowels.

Scotch Tartans.

The ever active and enterprising firm of Catto & Co., always on deck with the latest designs in dress goods, etc., received the first of a new line of tartans and silk goods Saturday. The firm have long made a specialty of the former line, which embraces everything in clan tartans worn. An idea of the immense and exceptionally fine stock of these goods handled by this house will be conveyed when we state that they now have the largest and most complete assortment without exception in America. The display in the windows is most attractive and picturesque. They have at present in stock a very fine line in silk piece goods, silk shawls, wool shawls and wool piece goods. The element of tartans received Saturday includes about 90 different varieties, allowing much diversity of choice. To each tartan is affixed the name of the respective clan by which it is worn. There are Scotch tartans in fine Saxony cloth, tartans in fine Saxony long shawls and in square shawls. This house also have a line of Scotch tartans in fine spun silk, which is unexcelled on the continent. They were the first to import these goods for trade into America. Scotch tartans in fine cheviots traveling rugs and in fine silk handkerchiefs in great variety.

Messrs. Catto & Co. will have on view for a few days a couple of relics in tartan goods that will be of great interest to the public generally and Highlanders in particular. These are, a plaid worn by an officer of the 79th or Cameron Highlanders at Waterloo and Quatre Bras, and a dressing gown, still more ancient, made out of a plaid worn by Prince Charlie in 1745. Both relics are in an excellent state of preservation and show the durability of the goods.

Mr. T. J. Humes, Columbus, Ohio, writes: "I have been afflicted for many years with kidney and liver complaint, and find Parmelee's Pills the best medicine for these diseases." These pills don't cause pain or griping, and should be used when a cathartic is required. They are Gelatine coated and rolled in the flour of Licorice to preserve their purity, and give them a pleasant, agreeable taste.

Severely Attacked.

I was severely attacked with diarrhœa and vomiting, the pain was intense and I thought I could not live till morning. Six doses of Dr. Fowler's Wild Strawberry cured me and I have not had the least symptom of it since.

Another Insurance Company.

The Eastern Assurance Company of Halifax, N.S., have opened out business in Toronto with Messrs. J. H. Ewart and W. P. Molesworth, late of the British America Assurance Company, as general agents for Ontario. The company is a strong one and the agents thoroughly versed in all that appertains to the "risk" business.

THE BRAIN (from a photograph.)
Its Healthy Condition. With Paresis Lesions.

There are many well known men confined in our Asylums who but a short time ago were prominent among our business and social circles.

Why are they there?

Paresis!

Did it come on at once?

Not at all. It was a gradual but positive growth. They overtaxed nature. The drain on their vitality, their nerve powers, their brain tissue, was too great, and they gradually but surely sank under it. The things they did to bring this sad end about are precisely the same things that are being done by thousands of men and women to-day. It is not necessary to name them. They all end disastrously unless checked or regulated.

Prof. Phelps, of Dartmouth College, knew this fully when he began his experiments which resulted in the discovery of the wonderful Paine's Celery Compound. He realized that paresis (consumption of the brain) was our great National weakness. He knew that the brain and nervous system must be fortified to meet the great strains which modern life bring upon it. He saw that men were becoming debilitated and women weakened by the pressure and demands of life, and he sought and discovered the remedy Paine's Celery Compound, if rightly taken, will renew the brain and build up nerve tissues as fast as they become exhausted. It is not a narcotic. It contains no drugs, no nostrums. It is perfectly pure. It is absolutely harmless. The high character of its discoverer guarantees this, and the indorsement of the medical and chemical professions prove it.

Americans Abroad Who Seemingly Love Poodles More Than Men.

Ladies of the American colony in Paris have taken severely to pet poodles. Here is a conversation overheard at the exhibition in front of Spiers & Pond's restaurant:

DRAMATIS PERSONÆ.

Hannibal.....White poodle, purest blood
Sylvia.....Black poodle (ditto)
First Lady.....In waiting upon Hannibal
Second Lady.....In waiting upon Sylvia

First Lady—Ah! how is dear Sylvia?

Second Lady—Nicely, thanks. And Hannibal?

First Lady—Ah! I cheat myself into the belief that warm rose-water and glycerine is doing much for his lameness. He walked a little yesterday.

Second Lady—Have a care! Do not for weeks allow it. Alas! I buried one little darling from the want of knowledge. A cure was not effected when I allowed her a promenade, and—and—ah! let us talk of other things. Did you see anything new at the Bon Marche for the darlings?

First Lady—Yes; one very sweet novelty. It is a pocket inside your sealskin fitted to the dogie conveniently below your chin, and the dear little head peeps out. I shall have one fixed this winter.

Second Lady—Quite nice. I shall have one, too. And beds? Sylvia bumps her poor head so on her brass one and kicks off the clothes dreadfully.

Southworth Sent For Trial.

In the Police Court Saturday John Southworth was committed for trial on the charge of breaking into the house of Mr. Glover, 51 Lowther-avenue, on July 22 and stealing a silver watch, the property of Miss Glover. In court he identified it. Southworth has two other charges of housebreaking to answer to-morrow.

OFFICE OF THE PUBLIC ANALYST, MONTREAL, September 9th, 1887.

To the Canada Sugar Refining Co'y, Montreal:

Gentlemen,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscope showed in yesterday's yield 99.59 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

ENGLISH MAILS.—A mail for England via New York will be closed at this office every day, excepting Sundays and Wednesdays, at 4 p.m., and will be despatched to England by what the New York Postmaster may consider the most expeditious route.

On Thursdays a supplementary mail for London, Dublin, Liverpool and Glasgow, will be closed here at 9 p.m., for the Cunard steamer sailing on Saturday, but to insure catching the steamer the 4 p.m. mail is recommended.

The mail for Quebec will close here on Wednesdays at 1 p.m.

NOTICE.

Take notice that the Council of the corporation of the City of Toronto intend to pass bylaws, in pursuance of "The Municipal Act," for levying a frontage rate to pay for the construction of the following Local Improvement Works, viz.:

WOODEN SIDEWALKS on:

1. Elm-avenue (south side), Glen-road to a point 300 feet westerly.
2. Brock-avenue (both sides), Muir-street to Chorley-street.
3. Hickson-street (north side), St. Clarens-avenue to east terminus.
4. Dunbar-road (west side), Elm-street to Hill-street.
5. West Lodge-avenue (west side), Marion-street to north limit, No 51, registered plan 837.
6. Wellesley-street (north side), Sumach-street to 234 feet easterly.
7. Parkview-avenue (east side), Wellesley-street to the edge of the ravine.

And that a statement showing the lands liable to pay the said rates, and the names of the owners thereof, as far as they can be ascertained from the last revised Assessment Roll, is now filed in the office of the City Clerk, and is open for inspection during office hours.

The following schedule shows the estimated cost of each of the said proposed works, the amount thereof to be provided out of the general funds of the municipality, and the amount to be charged in each case as a special assessment upon the lands immediately benefited:

Location of the work.	Total Cost.	City's Share.	Special Assessment
Wooden Sidewalks:			
1. Elm-avenue	$75	$15	$60
2. Brock-avenue	43	6	37
3. Hickson-street	51	3	48
4. Dunbar-road	162	10	152
5. West Lodge-avenue	138	5	133
6. Wellesley-street	60	—	60
7. Parkview-avenue	60	5	55

And further, that unless in each of the above cases respectively, the majority of the owners of the lands liable to pay the said rate, representing at least one-half in value thereof, petition the said Council against such assessment within one month after the last publication of this notice, which will be on the 26th day of August, A.D. 1889, the said bylaws will be passed.

A Court of Revision will be held at the City Hall, on the 2d day of September, A.D. 1889, at 2 o'clock p.m., for the purpose of hearing complaints against the proposed assessments, or accuracy of the frontage measurements, or any other complaints which persons interested may desire to make, and which are by law cognizable by the Court.
