Sir

With regard to the proposed Coal Regulations which you recommend in your letter of the 10th of June 1890 should be adopted for Indian Reserve Lands in British Columbia, I enclose herewith a copy of the said Regulations and have to call your attention to a few amendments which appear to me advisable to make to the same but I would like to have your view thereon.

Section 1 - The words "by

"by the Department" should be added after the word "entertained" in the last line of the section.

Section 2 would seem to conflict with Section 4 unless an additional $50.00 is meant to be, Section 4 should be amended in such a way as to show that such is the intention.

Sections 6 and 7 should be transposed, that is, the latter section should precede the former.

Section 8 would seem to be advisable to change due on the timber manufactured from mining operations under a prospecting license? and what provision should be made about the timber contracted for

follows the prospecting clause &
should there be any limitation as to
quantity that may be used other
than limiting it to what may be
required for actual mining operations.

Section 10 should, if it
ought, be amended by adding the
words "under a license to be issued
by the Superintendent General of
Indian Affairs after the words
"obtain the right to do so".

It is also thought that
it should also be stated in this
Section that the royalty is to be
collected upon every return and
to whom the ore returns should
be made, and you would advise
the Department to whom the
returns should be made, which

returns should of course be subject to revision by an Officer of the Department if considered necessary.

Section 11 should, it is considered, be amended by inserting "Superintendent General of Indian Affairs" instead of "visiting Indian Superintendent" and also the words added to the Section "and an additional fee of $50.00 must be paid in every case of transfer."

In reply I beg to state that it is unusual for the expense of providing meals for Chiefs in Council, or food for visiting Chiefs of other Bands, to be incurred at the expense of the Band, and it is hard that if the custom is once established, unnecessarily frequent Councils will be held and visits of other Chiefs made.

Sir:-

I beg to acknowledge the receipt of your letter of the 23rd ultimo, and of the copy of the extract forwardad to you by His Lordship the Bishop of Saskatchewan and Calgary, the same being a portion of a letter addressed to the Bishop by the Rev. Mr. Hines, Church of England Missionary at the Pas, in the Cumberland District, complaining of Mr. Agent Reader's alleged interference in religious matters; also copy of a reply from Mr. Reader to a communication addressed to him on the subject through Mr. Inspector McNeill; likewise copy of a letter from the former Officer to yourself dated the 26th December last; and copy of the circular referred to therein; and copy of your reply to Mr. Reader's letter.

In connection with the subject of complaint the facts would appear to be as follows:-

A male child, who belonged to an Indian parent who is not a member of the Church of England but holds the same religious views and is of the same communion as

Mr.Agent Reader,was baptised by the latter. This Indian had,as few months before,lost a female child by death; and the father,preferring that the child should be buried in the cemetery where the Church of England interred their dead,had the child buried therein by the Rev.Mr.Hines,the Missionary of the Church of England. That gentleman states that ever since the child was buried by him the Indian parent had been hesitating as to whether he should forsake Mr.Reader (I presume he means by this,to give up the religious views held in common by himself and Mr.Reader) and return to the Church of England.

Mr.Hines likewise states that the Indian came to see him two or three times,and that he expressed concern about his little boy not having been baptised,and that he almost as much as promised that he (Mr.Hines) should baptise him.

Mr.Hines,it appears,was absent from the Pas, from the 2nd until the 17th of the month (though of what month is not stated) and during his absence the child of the Indian referred to was baptised by Mr. Reader, and Mr.Hines states in the extract from his letter to the Bishop that he is convinced Mr.Reader baptised it in order to prevent the father from bringing the child to him,and so rejoining the Church of England, and he states that he considers that this is proved by the fact that the child had reached the age of three years without that rite having been performed upon it.

though contrary to the wishes of the father.

From Mr.Hines own narrative of the facts,it would appear that the interference was by himself in burying the child of an Indian who did not belong to his Church but who held the same religious views and was of the same communion as Mr.Reader,and that Mr.Reader in baptising the child of the Indian in question did not infringe in any way upon Mr.Hines'rights for as before stated the Indian did not belong to Mr.Hines'Church. Mr.Reader and others holding the same views with him in religious matters,among whom was the parent of the child in question,do not consider it a wrong act on the part of one commonly called a layman,provided he is a Christian,to baptise a person when asked to do it. It is believed therefore that the parent of the child,exercising the right which a father has in such matters,either brought the child to Mr.Reader to be baptised or requested Mr.Reader to go and baptise the child.The latter would appear from the circumstances as described to have been the case. It would not therefore seem that Mr. Reader by so doing has violated the rule of the Department,that Indian Agents are to maintain a position of strict neutrality,in so far as not interfering with the various religious sects on an Indian Reserve exercising the religious functions of their respective creeds. This rule,moreover,was never intended to prevent the Indian Agents from holding their individual religious views according to their own consciences and the light which they have,and promulgating the same if they see proper to do so.

There would not therefore appear to be just cause for complaint against Mr.Agent Reader in the matter. For it might with more propriety be held that Mr. Hines,by burying the child of the Indian who worships with Mr.Reader and those who see alike with him,had by so doing unduly interfered with them in religious matters than that Mr.Reader,by baptising a child of an Indian who was of the same communion with him,infringed upon Mr.Hines'rights or those of his congregation.

I have also received the copy of the letter from Mr.Indian Agent Lomas,mentioned by you as enclosed in your letter: the former reporting particulars in regard to the relief which he conceives it would be advisable for the Department to afford to the Somenos Indians,and also on the extent of the destruction by fire of property at that place.

From this report it would appear that there are only six families who are absolutely destitute;the remaining eighteen families having,he states,good cottages,which, with a little assistance,might be made good enough for the Winter. Mr.Lomas estimates that the cost of material to build cottages for the six families would be $65 for each cottage;and that $100 would be enough to expend on lumber for the completion of the houses now in course

of construction;the whole amount which he thinks the Department should assist by granting would thus be $490;and he states that he believes that a subscription will be taken up in the district to assist each family in making the buildings fit for residence during the winter, the Agent adding that the loss by fire is estimated at about $7,000.

In relation to this matter,I beg to inform you that the announcement of the disaster reached the Department after the estimates for the current year had been prepared;consequently no additional amount has been provided or asked for from Parliament for the above purpose. In view of this fact,the Department finds itself unable to make so large a grant as recommended by Mr.Lomas,and in which you also concur,as whatever is given will have to be charged against the relief funds provided for the destitute for the current year. It is not therefore considered that the Department can properly undertake to contribute more than $200 towards the above object;as were this done we should probably be unable to meet the usual demands upon the Department for the relief of the destitute among the Indians elsewhere.

An accountable cheque for the above amount in your favor is herewith forwarded;the expenditure of which should be supported by vouchers duly receipted, showing in detail the material purchased and the amount charged therefor. You should be informed that the Department will issue any such payments you may be able to make and will credit them with the amounts.

The names of those persons should be again entered upon the Pay sheets and the amount of their annual shares each year.

The cash amount of their annuity instead of being handed to them should be retained by the Agent, deposited and credited to Indian Revenue. By this means it will be possible to keep track of their families, and an account will be opened with each family, and the Agent should be instructed not to pay any annuity

The Agent should also be instructed that, in case of marriage the annuity of the person married must be held until the indebtedness of his or her family is wiped out. This is absolutely necessary as by marriage the absorbing power of a family might be seriously increased.

In regards the following persons who also desire to be admitted to treaty, and who cannot be properly identified, we should obtain further information from Mr Lovell Montreau, viz. William Thomas Richard. The middle name is thought to be an error

Many more cannot be traced. According to Report Montreuil, she is the wife of Pierre Spence, whereas the Department of the Interior's list shows that Spence married Janet Swindler.

Sir:-

Referring to the question of the retention by this Department of the three tracts of land which were temporarily reserved by the former Indian Reserve Commissioner Mr. Sproat but never confirmed by the Provincial Government for the camping purposes of Indians visiting New Westminster, and which lie in the west part of that city, I beg to inform you that the Superintendent General is of opinion that the time has arrived when these Reserves should be abandoned by the Department and re-transferred to the Provincial Government. Previous to this being done, however, it would be well for you to ascertain and report on the suitability and sufficiency of Poplar Island as a camping ground for the Indians visiting the above city. You are aware that the Department has withdrawn its claim to the tract reserved for general camping purposes, subject to approval, opposite to New Westminster, and if the three Reserves in that city are abandoned, there will remain then but Poplar

Island as a camping ground for visiting Indians. I am aware that this land was reserved for a special purpose viz.,as a quarantine in case of small-pox or any other infectious diseases breaking out among the Indians who might be temporarily camped at or in the vicinity of New Westminster. It contains,however,some thirty four acres,I think,and provided other conditions are suitable it would appear that it should be large enough to accommodate all the Indians that would likely visit New Westminster at any one time. If,however, Poplar Island should prove to be of either insufficient area or unsuitable for the above purpose it has been suggested by the Clerk of the city of New Westminster that probably a tract of land for the purpose could be obtained elsewhere in the vicinity of the city which might be used for camping purposes;and it would be advisable for you to ascertain whether the Corporation of New Westminster would,in consideration of the Department vacating the three tracts held as camping grounds in that city,provide the Department with such land as may be as sufficient and suitable for camping purposes in the vicinity of New Westminster,as well as pay at a valuation for the four Indian houses at present standing on the three tracts hitherto occupied and used as camping grounds.

I may add that the Mayor of New Westminster represented in a letter to the Superintendent General some time ago,that the present camping grounds within the city were the nightly resort of degraded white men, and that a large percentage of the crime with which the civic Officer had to deal originated there. You will also

remember that Mr.Agent McTiernan reported to you on the 9th September last that the camping grounds in question were only resorted to by a few Skawmish,Harrision River and Douglas Indians,and that he had induced them,when the small-pox broke out in the city to remove to the Reserve opposite New Westminster,and that they appeared to be more satisfied there than when camped on the Reserves at the west end of that city;further,that there were no Indians who at any time had camped or occupied the Reserve,who had not Reserves elsewhere,so that there could be no grievance on their part if the ~~camping~~ Reserves were abandoned.

Mr.McTiernan also expressed the hope that if that step were taken Poplar Island would still be retained as a Reserve and he stated that with it and the Reserve opposite New Westminster the Indians would have ample grounds to camp upon and would at the same time be removed from the vices of the city. You will remember however that Mr.McTiernan subsequently reported against the Department retaining the Reserve opposite New Westminster . This report was dated the 25th April 1891,file 78,670,and in to this effect that several parties are building a town on each side of the Reserve:one at Liverpool and one at Brownsville,and as in the near future,there is no doubt there would be a large number of people living at both of these towns,that in his opinion it would not be a desirable place for Indians to live immediately between the towns,where this Reserve is

situated. The Department therefore came to the conclusion that the tract should be abandoned as an Indian camping Reserve; and this has been done; and it has been placed in the hands of the Government for disposal as Dominion Crown lands. If, therefore, the three camping grounds at or in New Westminster are also abandoned there will only be left Poplar Island; and if that is not sufficient or unsuitable, there must, I presume, be land provided elsewhere for camping purposes for Indians visiting New Westminster.

"Letter of 30th ultimo received respecting hay permits Pass-pass-chase Reserve. Grant same on terms recommended by you excepting lands sold".

I do not approve of the Agent's suggestion that it would be advisable to issue a permit for the whole Reserve to one individual in order to avoid the difficulty experienced in collecting from various parties;I consider your suggestion better:that this trouble might be overcome by requiring payment to be made in advance when the permits are issued,your suggestion may be acted upon.

Sir,

With reference to my letter of the 2nd January last, even number, I have the honour to enclose herewith for your information a copy of the Main and Supplementary Estimates for Manitoba and the North West Territories for 1891-92.

You will observe that further reductions were made in Council from the sums submitted to it by the Department:—

1st. Agricultural Implements.

You will observe that the amount $19,352. has been reduced to $15,000, the difference having been deducted from Implements and Tools for the N. W. T. leaving Manitoba as originally estimated for. It will be for you to say in what Agencies the reduction will be made.

2nd. Seed Grain.

The sum of $4.00 was added to this amount, to make it the even $3,000., the same as last year.

3rd. Destitute Indians.

You will observe that the sum of ~~$10,000~~ $8,638. has been taken off the amount allowed for food supplies.

viz., $195,249., leaving the amount allowed by Council $186,611. The other sub items under this head remain unchanged. As in the case of Implements and Tools, the deduction should be made in the Agencies where you think best.

4th. Day, Boarding, and Industrial Schools.

You will notice that the $216,874. has been reduced by $16,874., and entirely from the sub head of Industrial Schools, N.W.T., all the other sub heads remain intact. You are the best judge as to where this reduction should be made.

5th. General Expenses.

Your Estimate of $145,493. has been reduced by $11,493. The direction in which this saving must be effected must necessarily be left to yourself.

These Estimates have not yet passed the House, nor have the Supplementaries passed Council yet, and should there be any change you will be duly advised. Meantime you should forward a Memorandum to the Department shewing where you think you can make the reductions herein referred to. It is necessarythat the Department should be informed of this, in order that the expenditure may not exceed the appropriation under the different sub-heads. If it is found at any time before the end of the fiscal year that a further sum of money is required to carry on the business of the Department the matter must be fully reported to the

very small. As regards the erection of a building for an Indian Office on the Reserve,the petitioners urge that Brantford is a more convenient situation for the Indian Office than would be Oshweken,as the Indians go to market at the former place. They protest against the expenditure of the funds of the Band without their consent on what they designate as visionary objects;and they assert that the erection of the buildings in question for the purposes specified is only desired by interested parties who are actuated by ulterior motives,and with whose wishes in the matter the Six Nation people are not in sympathy.

Very much the same points were taken by Chief Isaac Hill in his communication in the matter,which was referred to in previous correspondence had with you;but the Chief more explicitly maintained that the money of the people should not be expended on such objects as those under consideration without their consent being obtained,and at the mere instance of a majority of the Chiefs who form the Six Nation Council.

The Superintendent General of Indian Affairs has carefully considered the petition and the previous protests received from Chief Isaac Hill,and he has come to the conclusion that the question of establishing a High School at Oshweken should be referred again to the Six Nation Council for further reconsideration in view of the objections,based apparently upon sound premises,which have been made by so many members of the

Band to the proposal.

The Superintendent General is likewise of opinion that it would be advisable to submit to the voting members of the Band all proposed expenditures of Band funds, outside of expenditures made, or proposed to be made, by the Department in the furtherance of the Government policy in the management of the Superintendency. He considers that such expenditure as that proposed to be made in the erection of a building or buildings for a High School should be submitted to a vote of the people. I am, therefore, to instruct you to call the attention of the Six Nation Council to the desirability of submitting the proposal to establish the High School in question and expending money thereon to a vote of the male members of the Band of 21 years and over for their ratification before any expenditure is recommended, and of adopting in future the same course in connection with any similar matters.

The transference of the Indian Office from Brantford to Oshweken and the erection of a suitable building or buildings therefor at the latter place does not, however, come within the category of subjects which it is thought advisable to submit to the voting members of the Six Nation Band for their ratification before any expenditure is made. This is clearly a matter of Government policy in connection with the administration of Indian affairs, and as such is one for the Government itself to decide upon. The question of removing the Indian Office

from Brantford to Oshweken was very carefully and fully considered before any step in that direction was decided upon, and the Department does not see any reason for altering the decision which was come to in that regard the same being considered as being in the best interest of the Indians.

Sir:-

I beg to acknowledge the receipt of your letter of the 1st instant,relative to the Pass-pass-chase Reserve lands,the proceeds of which it is proposed to place to the credit of the few remaining Indians of the Band,less the value of such lands as they have received from Enoch's Band on the Reserve of the latter;and representing that, if this course be adopted, the remnant of the Pass-pass-chase Band will become wealthy,to an extent out of all proportion to their numbers,circumstances &c.; that,on the other hand,could the remnant of the Pass-pass chase Band be regarded as amalgamated in all respects and interests with Enoch's Band,and the latter allowed to share equally with the former in the benefits of the fund produced by the sale of the Pass-pass-chase Reserve, the Government would before long be to a great extent, if not completely,relieved of the burden of supporting or assisting either Band;and that if this course were to be adopted you do not anticipate that the remaining members of the Pass-pass-chase Band would offer any

objection,as the understanding had with them when they were allowed to remove to and settle on Enoch's Reserve, was that Enoch's Band should share in the proceeds of the sale of the lands before mentioned to the extent,at least,of the value of the lands which Pass-pass chase's Band occupied on Enoch's Reserve.

In reply I beg to inform you that, provided the remnant of Pass-pass-chase's Band are given a joint interest in Enoch's Reserve with the Band owning the same, there would appear to be no objection to the latter Band being allowed to participate jointly with the former Band in the revenue derived from the sale of Pass-pass-chase's Reserve. In this case,however,the Pass-pass-chase Indians should not be required,nor should Enoch's Band expect them to pay for the land on Enoch's Reserve occupied by them. Should the two Bands consent to this joint arrangement,a formal paper of agreement,which should be very specific in its terms, as to the amalgamation of the two Bands and their joint interests in lands and money,should be clearly drawn up and signed by the Chiefs and principal men of both Bands and then transmitted to the Department.

Sir:-

I forward herewith copy of a letter, dated the 29th ultimo, which has been addressed to Josiah Wood, Esq., M.P., By Dr. Gaudet, of St. Joseph's, N.B., also of the account for professional services stated by Dr. Gaudet to have been rendered by him to the Indians of Westmorland County from 1887 to 1890, amounting to $189.90.

I likewise enclose copy of a letter from E.H. Leger, Esq., M.D., M.P., recommending payment of Dr. Gaudet's account for the reasons stated therein.

On referring to the records of the Department it has been found that there has been no previous correspondence in this matter, although it would appear from Dr. Leger's letter that Dr. Gaudet had been in communication with you in regard to the same, and he alleges that in 1886 you authorized him to treat the Indians, stating that he would be paid for his services.

I have to request that you will report upon the claim of Dr. Gaudet to payment.

Dear Sir:-

I am directed by the Superintendent General of Indian Affairs to acknowledge the receipt of your letter to him of the 5th instant, intimating that the General Council of the Muncey Indians desired to send two of their Chiefs to Ottawa as a deputation to interview the Minister relative to the title of the Reserve on which they are living in the Township of Caradoc, as they claim that there are records in the Department which would throw some light on the subject, and they are very anxious therefore to see the Minister about the matter and wish to know when it would be convenient for him to receive the deputation and to hear their story; also asking whether the Department would contribute $25 towards their expense of travelling.

In reply I am to inform you that the Superintendent General could not possibly grant the Chiefs an interview until after the session, and he doubts whether it will be advisable for them even to come then.

I have also to explain that we have an Inspecting Officer, Mr. A. Dingman, who frequently visits the Caradoc Reserve and is, I believe, at present there. His address at present is Strathroy. This Officer can hear the story of the Munceys without expense to them or to the Department, and can make notes of such matters as they wish to have considered by the Department and with respect to the records which they think the Department possesses and which, they suppose, will throw some light on the matter of the title of the Reserve on which they are living in Caradoc. I have written Mr. Dingman by today's mail in the matter.

Yours sincerely

Sir:-

With further reference to the correspondence in regard to the proposed road to traverse Lots 23 to 35 in the Gatineau front range, Township of Maniwaki, I beg to inform you that on reference to the plan of the Reserve it is observed that a road of some description already exists along the proposed route; but as you state in your letter of the 27th ultimo that there has been no expenditure for a road in this section, it is concluded that the road marked upon the plan must be a mere rough waggon track, probably made by the residents of the locality, and that the object of the grant is to improve this road and to make it passable. A recommendation has accordingly been made to His Excellency in Council that permission be given for the sum requested by the Indians, viz., $300.00, be expended in the construction of a road. It would be advisable, however, for you to report as to what this track or road as shown upon the plan consists of.

It is further considered that it would be preferable to have the work of the construction of the proposed road done by the Indians themselves working thereon and being paid for their work by the day at usual rates, rather than to let it out by contract. If the former plan be adopted it will, of course, be necessary to appoint a competent foreman over them, and such a person, I have, no doubt, you will be able to select.

The vouchers for the work done when forwarded for payment should be accompanied by a certificate signed by you that the work has been properly done and the money earned; and to enable you to do this it will be necessary for you to inspect the work from time to time.

There will be no objection to an advance being made to you on account of the work as soon as the sanction for charging the same to capital has been granted by the Governor General in Council. You should advise me as to the amount which it will be necessary to send you as an advance on account of the work.

Sir:-

I have had for some time under consideration your letter of the 13th March last and the letter enclosed therein from Dr.J.D.Wilson,the Medical Attendant on the Moravians of the Thames,relative to the increased spread of Tuberculosis among these Indians;the contagious nature of that disease,he states affecting the domiciles of the Indians,and all housed in the same,to such an extent that even when one family moves out and another into the said domiciles,the incoming families contract the disease;that during the last year he has been watching this disease especially,and he finds that it is making rapid headway among the Indians.

The remedial measures,as proposed by Dr.Wilson, which should be taken with a view to prevent the spread of the disease are noted,viz.,(1) that old houses,which are known to be affected,should be burned and others suspected be thoroughly disinfected;(2)the separation

from the rest of the community of those affected,by placing them in one building;(3) the repairing of the houses occupied by the poorer class,who suffer very much from cold.

Your endorsation of the Doctor's report,as to the spread of the disease and the remedies proposed by him,is also noted;likewise the additional particulars given by you as to the size of the houses at present occupied by the Indians and the number in a family occupying each of the said houses;and in connection with which you state that a large number on the Reserve live, sleep and do their cooking in a room of the size of about fourteen by twenty feet,and poorly ventilated; consequently that the atmosphere and walls of the room become tainted,and that this want of proper ventilation especially in the winter,when their houses are kept very warm and close,is very deleterious,as the inmates on going out into the cold contract coughs which in time affect the lungs.

With a view to giving effect to Dr.Wilson's suggestions,you suggest that a grant from the capital fund of the Band should be made to the Indians;the same to be expended in the erection of better houses,and in some cases to assist them in building new barns and fences,and to procure teams,and implements to work their farms,which,you state,are much needed by them.

With reference to the foregoing ,I have to state that after due consideration I can see no other plan to be adopted by the Indians or in their behalf for the amelioration of matters than for them to take

advantage of the provisions of Section 93 of the Indian Act, upon reference to which you will observe that any Indian Band at a Council summoned for the purpose, according to their rules and held in the presence of the Superintendent General or Agent, may decide to allow every member of the Band who chooses, and who is found to be qualified, to become enfranchised, and to receive his or her share of the principal money of the Band; and that upon a suitable allotment of land being set apart for such member he or she may be dealt with as an applicant for enfranchisement, under the enfranchisement provisions of the Act, as contained in the preceding clauses, until enfranchisement is attained, and that three years after, if his term of probation is satisfactory, Letters Patent may issue to him covering the location allotted to him and that three years after that, should the conduct and management of property of the applicant justify it, he or she may receive his or her proper share of the money standing at the credit of the Band. I am aware that considerable delay would be the consequence of this course being followed; but, on the other hand, I conceive that it would be the fairest to all parties concerned, both as regards the present and future generations. There seems, moreover, to be no reason why the Moravians, who have been for so many years living in the midst of white people, and have had constant communication with them, should not now be in a position to assume the status that enfranchisement under that Act would give them: and such would ensure to them the benefits which you state in the concluding part of your letter are so desirable, inasmuch as

upon receipt of their individual shares of the principal money standing at the credit of the Band they would cease to be longer dependents upon the Government, and to supplement the money then received from the Government and support themselves and families they would have to work industriously, as other members of society do, for their living, and their enfranchisement would thus elevate them socially and morally.

Referring to my letter of the 16th ultimo, and previous correspondence in the matter of your claim for scythes supplied under contract 1890-91, and rejected by the Department, I have to inform you, with regard to the statements made by the manager of the Willard Vale Company, respecting the scythes, that the season for selling must have been over before they were offered to messrs Smith & Ferguson, and that this firm had bought no scythes from them for three years or fact which to take as proof that they have no demand for such articles that the Indian Commissioner

for sweat of the North-West Territories, yet that Messrs Smith & Ingersoll have scythes of all kinds constantly in stock, and that the fact of their not having purchased from the Welland Vale Company evidently shews that they wished to deal in a class of goods more suited to their customers than those made by that Company, and that when these gentlemen refused to purchase the rejected scythes they did not state that the sweat was over, or that they had no back for scythes, but simply that they would not take them at any price.

The Commissioner further states that the Inspector repeats that the scythes were not first class goods, and were not equal to the sample, and that he knows of no better term by which to describe these three "calls" and

and that they would give us an opportunity to
show what had to be done.

In support of the Inspector's statement
the Commissioner furnishes a certificate from
Mr. J. A. Kerr, of Regina, who he states
to be a gentleman of long experience in the
trade, and well known to all the larger
wholesale houses in Canada, in which Mr.
Kerr states that he examined some twelve cases
at the request of Mr. Inspector McGillivray in
July, 1890, at the warehouse in Regina,
and compared them with the Department

inferior to sample, and not first class
goods as called for by the Department.

have to inform you that your claim cannot
be allowed.

but if some of the other proposed improvements to buildings could be dispensed with, or a reduction made in the estimated cost of the same, and also a reduction in the cost of the proposed repairs to the roof-house — which it seems might readily be done — the repairs to the latter might be allowed, as a good roof-house for the institution is almost indispensable.

Sir,

I have to inform you that Dr Bell reports a very important increase of about 265,000 feet in the returns made by Queen Charlotte Island. I think such by the Indians on the inside portion of Queen Charlotte Island. He also reports that the Indian Medical Return was exactly similar to that of the previous year, showing by Bella Bella been to the increase of 265,000

Sir:-

I beg to acknowledge the receipt of your letter of the 25th ultimo,reporting that Mr.Van Felson,who represents the Tourilli Fish and Game Club,had had a recent interview with the Chiefs of the Huron Tribe on the subject of leasing certain lakes situated on the Reserve and the shooting privileges of the latter.

I beg to inform you that the Department had previously received an application from Mr.Van Felson and was informed by him of the interview with the Chiefs referred to in your letter. The Superintendent General of Indian Affairs,having fully considered all the points connected with this application,has decided that it would be very injudicious to grant any such lease as that sought for. You are aware that the Department already has leased the timber upon this tract and that it has been paid for by the licensees. The Department is, therefore,prevented from granting any lease for shooting or fishing within the said tract,until the timber lease has expired,inasmuch as the risk of fire being caused

by the lessees of the shooting and fishing privileges would be very great, and the loss, both to the Indians and to the timber men, might be most serious. Moreover, the latter would then make a claim against the Department for the damages they sustained; and it would probably result in the Department having to pay them from the Huron Indians' fund for the damage caused by parties to whom the Department had issued the shooting and fishing license.

The protection of the fish and game on the Reserve from poachers and the rental of $10 per annum offered by Mr. Van Felson on behalf of the Club would not be at all commensurate with the loss which would certainly be sustained were the timber to be destroyed by fire.

Mr. Van Felson has been again informed of the refusal of the Department to grant the application sought for.

I have to call your attention to the impropriety of allowing Mr. Van Felson, or anyone outside of the Department, to have an interview, direct or indirect, with the Chiefs or Indians in regard to any matter affecting the Indians, without such person has been authorized by the Superintendent General of Indian Affairs to have communication with the Indians on the subject.

Sir,

Referring to your letter of the 28th ultimo, on the subject of the two Mileys requiring reports on the Big Bethel Reserve in which you state that you are informed the question of making these reports general should shortly be referred to, I inform you that Mr Ingman reported, 15th March, among other proceedings of the Big Bethel Indian Council at a meeting

Mr Moses Reg.
Meeting Indian Dept
Belleville Ont

[illegible] land on the W. side of the River

That two small bridges on the Stoney Creek, one in front of Johnson Williams place and the other opposite the village of Middle Point have repaired.

Mr Dingman was asked if he made, to ground the boards written of Council as recorded by the Secretary and entered by the Speaker.

He answer that he [illegible] to the said letter.

That of the said bridges is apparently the same as that referred to in accounts 20 to 26 inclusive in a letter from you of 18th July (Plaintiff) on the bridge

Sir,

I have to acknowledge the receipt of your letter of the 29th ultimo, with enclosures, reporting that you have authorized, as an experiment, the printing at the local newspaper office, Battleford, of the small weekly news sheet, recently started at the Battleford Industrial School; and in reply, I beg to inform you that permission should have been previously obtained; and it is now apprehended that the recent Government regulations respecting printing and newspapers may interfere to prevent your action being confirmed. In the meantime you had better at once cancel the arrangement. The Department has no money at its disposal for

Adverting to your letter of the 3rd instant, relative to the action being brought against Messrs. Drake & Rutherford to recover certain arrears of rent due by them on account of mill property owned by this Department on the Fisher River Reserve and your request to be informed of the particulars of a set off by the defendants for $120.10, I beg to inform you that since the date of my letter to you of the 8th instant, I have unofficially learned that the set off referred to consists of an alleged claim by the said Messrs. Drake & Rutherford for the lumber stated to have been furnished by them on the order of the Indian Agent for the above district, who is Mr. Angus McKay, of Berens River.

In connection with this matter I beg to inform you that the Department has no advice whatever from its Agent of his having ordered any lumber for the purposes of the Department within his Agency, and the Department would

have been certainly advised of it,if such purchase had been made. It is probable that Mr.McKay bought the lumber in question,if it was purchased by him,for his own personal use;and therefore there could be no claim against the Department,which has no buildings of any kind which would require lumber for repairs or erection within the Agency referred to. The Department merely allows the Agent an amount annually for purposes of rent &c.,and he leases or owns the house and other buildings occupied by him.

It was suggested that possibly the material was supplied for the school at Fisher River;but the Department has no knowledge or advice of any lumber having been furnished for that purpose,which it certainly would have if such had been the case.

Sir,

I have to acknowledge the receipt of your letter of the 4th instant, with further reference to Lot 55, Tobique Reserve; and in reply, I have to inform you that, in view of the statements made by you, Mr. Hanson's portion of this lot has been marked paid for in full.

In your requisition for Patent, you state that this land adjoins and runs parallel with Lot 54. If this is the case, the proper description should be the North-west part; and you should explain why you call it the South-west part.

The plan shows the lot to contain 100

acres

Sir:-

Referring to your letter of the 23rd ultimo,respecting the proposed medical tour of Dr.Orton among Indians outside of his usual beat,I beg to inform you that the Superintendent General concurs in the opinion expressed in your letter that the Doctor's visit should be limited to Blood Vein River,Fisher River,Berens River and Jack Head,within Treaty No.5,and Sandy Bay (Little Saskatchewan) Lake St.Martin and Fairford,within Treaty No.2.

The Superintendent General,however,is of opinion that as Dr.Orton is paid a fixed salary for attending to the Indians of the Clandeboye Agency,his salary should not be allowed with $10 per diem while on duty outside of that Agency,but that his salary while absent from the Agency on the special duty referred to should be deducted from the allowance paid him which has hitherto been $10 per diem with travelling expenses.

Sir:-

Referring to previous correspondence respecting the claim of the Mississauga Indians in regard to land drained by the waters which were created by the construction of the dam on their Reserve on Lake Huron,I beg to inform you that ~~that~~ this matter still remains unsettled; and I have been advised by the Minister of Justice that the Crown is,in his opinion,in a position to recover, from the owners of the mill site mentioned in the papers damages based upon the annual or rental value of the lands drowned,for the period during which the dam has been maintained by such owners;and that the Crown might also,by proper proceedings,compel the removal of the dam.

This Department is further advised,unless a satisfactory settlement is made,that such steps as may be necessary to enforce the rights of the Indians should be taken.

I am directed by the Superintendent General of Indian Affairs to forward to you herewith File No.27,862 No.5 of this Department, containing a letter addressed to him by Chief Scobie Logan and other Indians of the Caradoc Reserve, which consists of complaints against Mr. Indian Agent Gordon of undue interference in political matters on the Reserve; of fraudulent transactions in respect of the lands and moneys of the Indians of the Caradoc Reserve; of bribing Indians with the motive of benefiting himself; of inducing an Indian for the sake of his (Gordon) obtaining the reward consequent on conviction to lay an information before him against another Indian for liquor selling to the Indians; of withholding resolutions passed by the Council, and forwarding other resolutions as if passed by the Council, although they never were, so as to meet his own ends.

Sir,

With reference to your letter of the 20th August last, No. 560, enclosing sundry accounts for payment, I would draw your attention to Voucher No. 1,729, in favour of J. D. Ross, for $192.05, and request that you will be good enough to state your reasons for allowing a sum of $5%. in that account for Commission and Superintendence. There is no evidence on the face of the Voucher that Mr. Ross did not do the work and supply the material himself, and if he did he should not have been allowed the Commission. If he did not do the work himself he should have stated who did the work, and produced receipts from the workmen, and the same applies to the materials purchased. All such accounts should be carefully scrutinized, and precaution taken to see that they are properly rendered.

Referring to your letter of the 8th instant, relative to the suit being brought by the Six Nation Indians against the Queen in respect to the Dunnville dam, I beg to state in reply to the enquiries made by you therein as to who should represent the Indians in the case, that I have no name specially to suggest. Should it, however, be considered advisable to have some local practitioner as their representative and, as you say, some one also who is known to the Indians and in whom they have confidence, I beg to inform you that in my own opinion Mr. V. The Department has been advised that, in the matter of the arrest and conviction of one Ignace Daillibout alias Kentickwake for interference with Constable Lefort when in the discharge of his duty, in connection with which you fined the defendant $2.50 for the offence and 50 cents costs, subsequently Daillibout had the matter brought before the Police Court in Montreal, with the result that Constable Lefort was fined $4. It is alleged that Daillibout took advantage of the fact of Lefort's witness or witnesses not being in the vicinity to bring this action before the Police Court, and that Lefort was in consequence convicted, and fined $4.

I have to request that you will forward a full report of the facts in this case for the information of the Department.
