[Vol. XVII.—New Series, No. 483.

MORNING EDITION—MONDAY, NOVEMBER 10, 1851.

[Price Two-Pence.]

ANGEL HOTEL,
DALE STREET,
LIVERPOOL.

TOWERS, Proprietor of the above Hotel, begs most respectfully to inform the friends of the United States and Canada that the "Angel Hotel" is a First Class Establishment. Recent improvements and alterations have recently been made, which render it equal to any House in Liverpool.

The Family Department of the Hotel will be found to embrace everything tending to comfort, peculiar to Foreigners visiting Liverpool it presents additional accommodations, as a Suite of French and German Servants form a portion of its establishments.

The Hotel is situated within a few yards of the Exchange, and the principal business parts of the town, and within five minutes walk of the Custom House, and Railway Stations.

N. T. has been the Proprietor of the "Angel" for twenty years, and for the last seven years the Proprietor of the Queen's Hotel, Manchester. As he is now giving up to devote all his attention to the former, where he hopes to have the kind patronage he has so long been favoured with, amongst those who patronise him that every thing will be done to conduce to their comfort, and at moderate charges.

Warm Baths, Smoking Rooms, and Billiard Rooms on the premises.

N. B.—Gentlemen of Ships will find this Establishment very convenient, being one of the nearest respectable Hotels to the Docks. 444

TREMONT HOUSE,
BOSTON, MASS.

THIS well known Establishment is still conducted in the same manner it has always been. The central and pleasant situation of the house, its commodious arrangements, and the comforts and luxuries to be found there, combine to render it agreeable and advantageous to the traveller.

Having been one of the firm of John L. Tucker & Co. so long at the head of the Establishment, the Subscriber pledges his best exertions to maintain its reputation, and to give satisfaction to his customers.

WM. H. PARKER.

Boston, September 15, 1851. 443

FRANCISCO'S RESTAURANT.

THE Subscriber respectfully informs his friends, and the Public generally, that he has constantly on hand a fresh supply of NEW YORK OYSTERS and LOBSTERS of the finest quality. He is also prepared to provide REFRESHMENTS of any description up to a late hour at night, and in a style not to be surpassed in this City.

F. FRANCISCO,
Bonsecours Street.

September 11. 436

COMPAIN'S RESTAURANT,
(*Place D'Armes.*)
BY JOHN O'MEARA,
LATE OF DOLLY'S CHOP HOUSE.

THE PROPRIETOR of the above establishment begs to inform his Friends and the Public, that it will be OPENED on MONDAY next, the 5th May, with a choice selection of WINES, LIQUORS, CIGARS, &c. &c., and he trusts, by punctual attention to the wants of his Patrons, to merit a share of public patronage.

His larder will be supplied with the Best the Market affords.

LUNCHEON ready EVERY DAY at NOON as per Bill of Fare.

CHOPS, STEAKS, &c., at ALL HOURS.

May 3. 328

GRANT'S HOTEL,
ST. HENRY STREET,
MONTREAL.

THE Subscriber, in returning thanks to his numerous Friends and the Public, for their very liberal support during the last twenty years, begs to inform them that he is now ready for the reception and accommodation of the TRAVELLING COMMUNITY. Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself to have every thing as comfortable as any in Montreal.

CARRIAGES will be in attendance at the Steamboats and Cars, to convey parties to and from FREE OF CHARGE.

May 12. 333

THE HAYS' HOUSE,
CORNER OF DALHOUSIE SQUARE AND NOTRE DAME STREET,
IS NOW OPEN
FOR THE RECEPTION OF VISITORS.
G. F. POPE.

June 19. 364

SHAKSPERE INN.

RECEIVED, a Supply of LOBSTERS, OYSTERS, and CLAMS, by Express, from New York.

GEORGE LULHAM.

Montreal, October 4, 1851. 455

LUNCHEON

MAY be obtained immediately, at very moderate charge, at BUTLER'S LUNCHEON HOUSE, St. Joseph Street, two doors from the Place d'Armes, and opposite the French Church.

JOHN BUTLER,
(*Late Messman to the XXth Regiment.*)

Supplies Breakfast, Dinner, or Tea, at any hour.

Travellers or Pic-Nic Parties economically provided with every requisite. Viand suitable for their purpose, and conveniently arranged for their convey.

Dinners or Made Dishes prepared for Private Families.

May 22. 340

PAYSON'S INDELIBLE INK.

THIS celebrated Ink has been in use during the past 17 years. It has been found the most ECONOMICAL, the most CONVENIENT, and the most PERMANENT ever offered to the public. As a proof of its value, there are no less than 15 COUNTERFEITS. The genuine is, however, easily known by the signature of the Proprietor.

A supply just received by

S. J. LYMAN & Co.,
Chemists,
Place d'Armes.

June 21. 366

POOR MAN'S FRIEND.

THIS CELEBRATED OINTMENT is daily effecting wonders in the Cure of *Old Sores, Irruptions of the Skin*, Piles, Burns, Scalds, *Sore Eyes*, Sore Head, &c., &c. Certificates may be seen, at the Agents, of Cures of a most extraordinary nature, effected in this city. It is, without doubt, one of the best Remedies ever offered to the Public. It has been in use over 20 years, and has Cured thousands.

The "Poor Man's Friend" is Sold in Pots at 1s. 9d. each.

S. J. LYMAN & CO.,
Place D'Armes,
Agents for Canada.

June 5. 352

THE PATENT LACTEAL.

THE Subscribers have received a supply of the "PATENT LACTEAL," or Artificial Breast, intended as a substitute for the ordinary Feeding Bottle. The Lacteal, by its peculiar form and adaptation, enables the Child to feed in the natural position. For convenience and utility, it surpasses anything of the kind ever offered to the Public.

—ALSO,—

The Patent India Rubber Breast Pump will be found to answer perfectly the purpose intended, without the least pain or inconvenience.

—LIKEWISE, JUST RECEIVED,—

The Patent Nipple Shields
Strong Glass Feeding Bottles
India Rubber Gum Rings and Rattles.

S. J. LYMAN & CO.,
Place d'Armes.

July 24. 394

Apply to R. J. MORGAN,
Steamboat Office.

Montreal, September 9. 453

FARE REDUCED
FROM
MONTREAL TO BOSTON.
RUTLAND & BURLINGTON RAILWAY.
FALL ARRANGEMENT.

Shortest and most Expeditious Route from Montreal to Boston.

In connection with the Champlain and St. Lawrence Railroad and the Steamers on Lake Champlain, forming the Great SOUTHERN RAILWAY ROUTE between Montreal and Boston or New York; and being the shortest, quickest, cheapest, and most direct Route to those Cities, or to Brattleborough, Greenfield, Springfield, Hartford, New Haven, and the several Towns in the Valley of Connecticut River, Worcester, Lowell, and intermediate places.

PASSENGERS leaving Montreal at 11, A. M., arrive at Rouse's Point by 2 P. M., on the Champlain Steamboat, and arrive at Burlington at 6, P. M.; leave Burlington at 6.30, P. M., and arrive at Rutland at 9—lodge. Leave Rutland at 7.30, A. M., and arrive at Bellows Falls at 9—Boston to dine, and New York at 7, P. M.

Passengers leaving Montreal at 4, P. M., arrive at Rouse's Point by Cars—go on board of Steamer *United States*, Captain Davis, which leaves on arrival of Cars, and arrive at Burlington same evening 10.30—lodge. Leave Burlington at 5.30, A. M., arrive at Bellows Falls 12.45, give one hour for dinner and to view the great Falls on the Connecticut River, and reach Lowell, Worcester, and Boston, at 6.30, same evening, or New York at 11.30, same evening, passing down the Valley of the Connecticut, through Brattleborough, Springfield, Hartford, and New Haven.

Passengers for White Mountains will dine at Bellows Falls, and spend seven hours among the Mountains, and arrive at Wells River the same evening, and thence to White Mountains next morning by splendid Stage Coaches. The Scenery on this Route is too well known to need laudatory puffing.

This is the only Route by which Passengers will pass on the splendid Lake Champlain Steamers, through the far-famed and beautiful scenery of Lake Champlain, have a good view of Cumberland Head, and all the scenery of great historic incident, associated with the battles, by land and water, at Plattsburgh.

☞ Passengers taking this Route at Montreal, avoid all night travel between Montreal and Boston.

For further information, with Tickets, apply to M. L. Church, Agent, Custom House Square, Montreal, opposite Montreal House.

JOHN S. DUNLOP,
Superintendent.

Montreal, 1851. 442

NORTHERN TRANSPORTATION.

QUEBEC & RICHMOND RAILWAY.

A SUBSCRIPTION BOOK for Parties wishing to become Shareholders in this undertaking, has been OPENED at the OFFICE of J. H. DALEY, Esq., Agent Vermont Central Railroad, who has been appointed General Agent of this Company in Montreal and the United States.

By order of the Directors,

EDMUND PHIPPS MACKIE,
Secretary.

Office, 9, Buade Street,
Quebec, March 27, 1851. } 5

ROYAL MAIL LINE
BETWEEN
Montreal and Kingston.

THE Public are informed, that the arrangements of this LINE are now completed. The Steamers leave the CANAL BASIN, MONTREAL, DAILY, at NINE o'clock, A. M., and LACHINE, on the arrival of the Cars, with the Mail and Passengers, calling at all the INTERMEDIATE PORTS, *and arriving at Kingston the following day about Noon*, in ample time for the ROYAL MAIL STEAMERS for LAKE ONTARIO.

The MAIL LINE is composed of new and commodious Steamers, *fitted up with Upper and Lower Cabins and State Rooms*, elegantly furnished with every comfort and convenience, and, in point of speed, unsurpassed.

The Cars leave Montreal on SUNDAYS at HALF-PAST TEN o'clock, A. M., and on WEEK DAYS at TWELVE o'clock, A. M.

For Freight or Passage, apply at the Office, No. 40, McGill Street, or to the Captain on board.

ALEX. MILLOY, Agent.

Upper Canada Stage and Steamboat Office,
No. 40, McGill Street, Montreal, } 326
April 25.

1851.
Ottawa Mail Steamers.
THROUGH
Bytown to Quebec in 24 hours

The well-known and elegant Steamers LADY SIMPSON, Capt. Shepherd, and PHOENIX, Capt. Patterson,—The former between Lachine and Carillon, and the latter between Grenville and Bytown.

DURING the Season of Navigation, 1851, it is intended that a Train will leave the Railway Station in Montreal, for LACHINE, at 7 o'clock, A. M., DAILY, (Sundays excepted,) with the Passengers and Mails for Bytown, arriving there at half-past Four, P. M. Passengers will leave Bytown at SIX o'clock, A. M., DAILY, (Sundays excepted,) the Passengers and Mails reaching Montreal in time to proceed by the Lake Steamer the same evening.

P. S.—FREIGHT intended for the *Lady Simpson* must be sent to the Railway Depot, in Montreal, before SIX o'clock the previous evening, to ensure its being forwarded.

Montreal, May 12. 321

BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, Princess Street, Bank, London.

CAPITAL—ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company in Canada, consisting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and so universally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

ERASMUS R. FOSTER,
Resident Director.

London, January 1, 1847.

Detailed Prospectuses, and every necessary information as to the mode of effecting Assurances, may be obtained upon application to

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $2,000,000, and was the first, 20 years ago, to offer the public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.

Very low Rates of Premiums on Young Lives.
The security of a large realised and invested Capital.
Large Bonuses on Policies effected on the high Scale.
Prompt settlement of Losses.
The full value given for Policies when discontinued.

On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.

Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.

Permission for the Lives assured to reside in any part of Europe, without extra premium or special licence, and to, at and from California, at a small extra premium.

Insurances, if required immediately, may be effected any day between the hours of 10 and 4.

The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof *may be had, gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

ESTABLISHED BY ACT OF PARLIAMENT, 1824.

THE Undersigned *CONTINUES* to *INSURE PROPERTY* against *LOSS or DAMAGE* by *FIRE* on as liberal terms as any other first-class Office in Canada.

ALL CLAIMS FOR *LOSS DISCHARGED IMMEDIATELY ON SATISFACTORY PROOF THEREOF, and without reference to the Directors in London.*

Parties who have made Five successive Annual Payments on their Policies, will participate in the annual division of profits, which is an advantage possessed by no other Company in the Province.

Scheme for Policy.

ASSURANCES also effected on LIVES.

The most ample security is afforded to Assurers with this Company, by its large invested Capital, and the personal responsibility of its numerous Shareholders.

RICHARD GERRARD,
Agent for Canada

Montreal, November 18, 1850. 256

Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chloride, with portions of Bromide and Iodide, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphate, which is not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78. Grains.

Chlorid of Sodium	66.2000
Chlorid of Potassium	.72800
Chlorid of Calcium	.31003
Chlorid of Magnesium	3.45882
Bromid of Magnesium	.02016
Iodid of Magnesium	.01904
Sulphate of Lime	1.35014
Carbonate of Lime	2.08600
Carbonate of Magnesia	2.54016
Carbonate of Iron	Traces
Silica	.14350
	76.87015

T. S. HUNT,
Chemist to the Geological Commission.

Office of the Geological Survey, Montreal, May 26, 1851. }

Having compared T. S. Hunt's, Esq., analysis of the Mineral Waters of the Georgian Spring with the analysis made by him of the Plantagenet Spring Water, I may mention that the Water of the Georgian Spring contains all the ingredients found in the Plantagenet, with the addition of Sulphate of Lime, differing however in some respects as to quantity.

I have delayed giving my opinion of the efficacy of the Georgian Water, in order that an opportunity might be afforded me of speaking more confidently of the advantages to be derived from its employment. I have witnessed beneficial results from its use, as an aperient, antacid and diuretic, and also in allaying the distressing gastric derangements attendant upon the early months of pregnancy. I have no doubt that the Georgian Spring Water will be found equally beneficial in the cure of Rheumatism, Scrofula, and Dyspeptic Ailments, as any other Mineral Water met with in the vicinity of this city.

Lecturer on Forensic Medicine University of McGill Coll.

Montreal, August 12th, 1851. 442

Mr. W. E. BOWMAN:

Sir,—With pleasure I give you my opinion of the Georgian Spring Water, of which you are Agent. Being induced by its superior purity, to make use of it, the analysis furnished me by T. S. Hunt, Esq., Chemist to the Geological Commission, to give it a fair trial in many cases, both in my public and private practice, and I have not been disappointed in the result. I have found it one of the most valuable of Mineral Waters I have ever prescribed. I consider it highly advantageous in most cases of Rheumatism, Dyspepsia, and many other diseases requiring Tonics, Alteratives, or Laxatives. In Constipation of the Bowels, caused by Sedentary Habits or Old Age, it will be found extremely useful, and if judiciously administered, it is likewise a most valuable remedy for many diseases incident to women. I have also noticed happy effects from its employment in allaying the inordinate thirst of Fevers, producing beneficial results from its Tonic and Laxative action, and I have no doubt that it will be found equally useful in removing and assuaging that extreme thirst in hot weather, which, by gratifying with ordinary drinks, so debilitates and enervates people generally. Yours, &c. F. MUNRO, M. D.,

Chief Physician to the Hotel Dieu Hospital, Lecturer on Surgery, "School of Medicine and Surgery," Consulting Physician to the Lying-in Hospital, (St. Pelagie.)

Rieury Street, 13th October, 1851. 465

W. E. BOWMAN, McGill Street, sole Agent for Lower Canada.

CALEDONIA SPRINGS.

THE "CANADA HOUSE,"
AT THE ABOVE
CELEBRATED AND FASHIONABLE
WATERING PLACE,
IS NOW OPEN FOR THE
RECEPTION OF GUESTS.

VISITORS may rest assured the arrangements will be such as to insure every satisfaction—and that INVALIDS will be particularly attended to.

PRICES OF BOARD FOR THE SEASON OF 1851:—

FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.

Caledonia Springs, 2nd June, 1851.

(Extract of a letter from P. J. Larroux, Esq., of Montreal.)

I beg to state that in July, 1840, I went to the Springs for the purpose of testing the efficacy in a case of inveterate Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, making free use of the Waters, my limbs were entirely relieved from all pain, and my health perfectly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from the use of the Waters, particularly of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 4th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experience, and tested as they have been by a great variety, patients of mine and others, laboring under Rheumatic affections and the different forms of disease to which the human frame is liable. I consider them invaluable; for my patients, except those who have suffered from this dreadful malady, can justly appreciate their wonderful salutary effects. I have also seen persons martyrs to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and on this Continent, resort to the Caledonia Springs walking on crutches, and others that could not walk at all, were soon by repeated sufferings, and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (not the unspeakable joy) their crutches, and with health, strength, appetite, and activity perfectly restored. Nothing as such results are, the curative action of these Waters, the intermittent and Sulphur Springs in particular, have been almost as efficacious in other diseases, such as Lepra, generally called *Salt Rheum*, and other affections of the skin; in a variety of Dyspeptic Complaints, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of those cases that leave the Springs greatly benefited, but not completely restored, would have been cured by a more extended use of the spa. That these Waters have acted in many diseases as a specific, I believe to be generally admitted, and so much respectable testimony to this effect has already been laid before the Public, that to say more would be superfluous.

Hy. MOUNT,
Member of Royal College of Surgeons, London.

To John L. Robinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 12th December, 1848.

DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances enable me to grant you a favorable Certificate with more than usual propriety, many of my own Patients tested the efficacy, and derived great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a preserving use of the Baths and Waters produces the most beneficial results, Chronic Rheumatism ranks the first. Many of the cures in this disease have been truly astonishing. I can with a case last summer, where the individual, a delicate female, had been suffering severely for more than nine months; she had completely lost the use of her limbs, and could only hobble a few steps with great pain and difficulty. After a residence of six weeks at the Springs, she returned free from pain, and walking smooth to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspepsia and Chronic Constipation, in Chronic Secondary Syphilis, and some of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that (independently of the advantages derived from the Waters) the great care you have been put to in the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your Boarders, justly entitled you to a large share of public patronage and support.

I remain, dear Sir, very truly,

GEORGE W. CAMPBELL, A. M., M. D.,
Lecturer on Surgery, McGill College.

To the Proprietor of the Caledonia Springs.

☞ A FRESH SUPPLY of the above WATERS has been received at the Depot, which can be had at the Counter, or sent to order to any address in town or country. Price of the Water very moderate.

363

THE LAST GRAND DISCOVERY!

ALAS for the poor PLANTAGENET WATER!—It has not only to bear its own sins, (if it has any,) but the sins of all other Springs, whether up the river or down the river, whether fresh or salt, sweet or bitter,—no matter where,—they must all rise into flame on the reputation of the Plantagenet Water. The last discovery comes from Georgia Lake, on Montreal, or rather gets to Georgia by this route. It appears that, by the agency of a most "learned pundit," a notable "analysis" has been furnished of the Georgian Spring Waters, which are said to "contain all the ingredients found in the Plantagenets," only with the addition of something else, and a marvelous disproportion of quantities. On this principle, we take it, a cabbage contains all the ingredients found in a pippin-apple, with the addition, of course, of cabbage-skin, and a slight disproportion *in the quantities!* Certain it is that Georgian is not the Plantagenet, and was never yet mistaken for it. If it had been so, it could never have happened that it would have remained for twenty years in supreme obscurity, in spite of all attempts to put it into existence? Where is the old analysis too? There was such an analysis, and it might be instructive to see it; how much iodine was there in that? Perhaps it was the wonderful discovery of iodine which led Mr. Kain to sell the *magic-first establishment* at Georgia to Mr. Tucker, Potassium, Magnesium, Chlorides, Sulphates, Iodine, and all! The last is, that the new analysis is only a creation of the new agency: a good "from-nain" likes to have two strings to his bow, and the famous Plantagenet Spring is a capital mark.

We beg to call attention to the annexed certificate of the efficacy of the Plantagenet Water in cases of rheumatism, by Captain Elliot, barque *Berbice*, of Aberdeen:—

QUEBEC, 18th Oct., 1851.

MR. A. MANN: DEAR SIR,—For sake of humanity I cheerfully comply with your request to let you know what I derived from the use of your invaluable Plantagenet water. During last winter I suffered severely from Rheumatism, brought on by my sitting in damp places, swelling in my legs, both tortures attacking me more or less from time to time, up to my obtaining from you, in June last, a goodly supply of your Plantagenet. Ever since I commenced its use, no pain of either kind has touched bone, joint or muscle of my body. I cannot attribute this gratifying change to any thing but the use of your water, and I shall take care to deprive you of some of it before I leave

not yet in existence. By this condition, the Company are shackled in a manner which we fear must prove more or less prejudicial to the entire enterprise. There is something, it also seems to us, objectionable in making a condition of this vague and indefinite character. It would have been better to have first made the Railroad, and then considered of building the bridge and reaching the branch line, and letting these two latter projects stand on their own merits, and be judged by view of profit and utility which the main line once in operation, we should have the light of practical experience to perceive by. At present our City Council appear to be a little acting in the spirit of the proverb, "selling the hide before killing the bear."—*Ib*

The *Journal de Québec* says that a gentleman in town has received a telegraphic despatch intimating that the Hon. Malcolm Cameron has positively refused the Presidency of the Council.—*Chronicle.*

Mr. Cauchon, we learn, has been offered the Assistant Provincial Secretaryship and has refused to accept it; he will however, in correspondence with the government on some subject, the particulars of which will come to light some day.—*Ib.*

DOUBLE SHIPBREAK ON LAKE ERIE.—The schooner *Prince Albert* of Kent, loaded with staves for Messrs. Ebbets and Robertson of Kent, and owned and commanded by Capt. William Taylor, was lost off Long Point in the late gale, on the 21st inst. The crew were saved by the steamer *Vandalia*, which shortly after was run ashore by the steamer *Fashion*, and sunk in about four hours thereafter. The *Vandalia* had also goods for Scott, which were nearly all insured. No lives were lost.—*Ibid.*

IL FAIT WINTRY YET.—The weather has become cold, cloudy, wet, and disagreeable. No appearance of Indian Summer, but every indication that Winter is rapidly approaching. The season for navigation is drawing to a close, and the rush of business is more than commonly prevalent. We have nine steamers on Lake Ontario and Montreal, Quebec, are at this moment crowded, with vessels of every of the lakes above.—*Ib. of 8 instant.*

On Sunday last, about half-past 4 o'clock three young ladies were passing on the top of one of our streets; and when about half-way between the school house and Point Levis, the boat was capsized, which was observed by persons showing very much concern for their safety. The party of Rifles stationed on the Point immediately put off in their skiff, but were surprised on saving the lads, but also, by their personal exertion, towed the heavy and water-logged boat over to town. It is worthy of remark, that this is the fourth or fifth time that the Sunset Rifle party have saved valuable lives of late. The boat, a valuable one, belonged to Mr. Sullivan of the Chequered Store, who we feel assured will not allow the rescue of his property to pass unrewarded. For saving the boys' lives, their own hearts convey the best reward.—*Ib.*

The Streetsville Review gives a rumour that Jenny Lind will surrender heart, hand and voice to Otto Goldschmidt, the pianist, before next spring.

The Cayuga *Expositor* says that in the village of York three young ladies age out in full Bloomer costume. The ladies are inhabitants of York.

UNITED STATES.

COMPLIMENTARY DINNER TO THE OFFICERS OF THE ARCTIC EXPEDITION.—The British residents of New York gave a complimentary dinner to the officers of the Arctic Expedition, on Tuesday evening, at the Astor House. Anthony Barclay, British Counsul at New York, presided at the table, and most of the officers of the expedition were present. Capt. DeHaven was not present, being laid up in Pennsylvania by an injury received while gunning. The Queen of England and the President of the United States were toasted with all the honors, and many good speeches were made by the different gentlemen.

POWDER INSTEAD OF STEAM.—We are informed that Mr. Doggett of Roxbury, of "Flying Machine" notoriety, has lately finished a model of an engine which he proposes to work with powder instead of steam. It consumes about two ounces of powder per mile with the weight of four or five cars attached. It can be used on common roads, applied to common carriages, and it is said to be perfectly noiseless in its operations. We learn that several successful tests have been made in the presence of two or three scientific men and engineers, and that Mr. Lee, Superintendent of the Boston and Providence Railroad, thinks favorable of the invention, and has consented to lay the subject before the Directors of that road.—*Boston Journal.*

A MUTUAL DRUNK.—On Saturday evening last, a man and his wife were observed upon the Tremont road, in a wagon, each so drunk as to be unable to guide their horse. The wagon also contained a barrel of gin and several bottles of different kinds of liquor. The police took the happy pair in charge, and put the horse up for the night, and Sunday morning allowed them to depart in peace. They stated that they belonged to Hollison.—*Ib.*

A BIG MOVE.—A Railroad Depot, Tavern, House and Store at Springfield, Mass., were recently moved a distance of over a mile, on four platform cars. Without chimneys and everything in the building remaining undisturbed. They were successively placed on the cars, which were arranged thus: one back and two on the other, and ran over the track in nine minutes.

The Postmaster General is making arrangements by which a mail will be established between New York and New Orleans will be expedited from 24 to 36 hours.

CITY FOR SALE.—Westcott, in Erlington, which is the most populous, has 7,585 inhabitants; Bennington has 9,523; and Brattleboro' 3,816.—Only five other towns in the State have more than 2,000 inhabitants, viz.: Rutland, 3,715; St Albans, 3,327; Middlebury, 3,322; Woodstock, 2,041; and Castleton, 2,016. Windsor and Montpelier, which some of us have figured in the above list, are actually seen divided.

Hogansburgh, on the St Regis River, is worth more than the whole State of Vermont by assessment, the city of Oswego is valued at $17,000,000, while the whole State of Vermont cannot exceed $140,000,000.

Bangor, Me., is a city of 14,000 inhabitants, and is the lumbering depot for the Penobscot Valley. Its population is composed of people from all parts of the Union, and it is stated that a company has recently been organized in Europe by these city speculators, to whom the entire management has been entrusted." It is also stated that a large hotel will be erected in New York, which will be made a grand warehouse for the reception of goods from the countries, and that the grand opening will be open on the 15th of April next, or two months from this date, and continue for the space of four months.

DEATH OF A CONGRESSMAN.—Hon. Richard Stone, the first settler of Rochester, died a few days ago, in the 76th year of his age. Mr. Stone went to Rochester in 1790, when he was the region of country where Rochester now shows her 40,000 inhabitants, was literally a backwoodsman. In 1810 he became a permanent settler, built the first house on the site where Rochester now stands, (a building that is still extant,) and was, with his family, for a long time almost a solitary pioneer of this wilderness country. His son, James S. Stone, (now residing in the town of Greece,) was the *first child* born on the present site of the city of Rochester, and is now but 41 years old.

STOCKING ACCIDENT.—We learn by Rice's express that as two men in Plymouth were out on Thursday in a boat off Manomet, as one of them was attempting to turn the head of the boat in another direction, the oar slipped from the row-lock upon the hammer of a gun (standing against the seat) with sufficient force to cause the cap to explode. The whole charge entered the side of Mr. Lewis Perry, cutting him completely through above the abdomen Mr. Perry lived about one hour after the accident. He spoke several times, and was heard to say no one was to blame. He was about 22 years of age, was strictly temperate, of great industry, and left his business for a short recreation with his brother-in-law, who was visiting his family. He leaves a wife and two children to mourn his loss.

A magnificent present of an illuminated and jewel-studded Missal, was recently made by the Countess Montesquieu, of France, to the Chotesu family of St. Louis, for their kindness to her two sons, who were tried for murder, some time since, and escaped under the plea of insanity.

DISTURBANCE AT THE NEW YORK CITY ELECTION.—The New York papers contain sad accounts of the scenes at some of the wards in that city at the election on Tuesday. The cause of the disturbance is ascribed to the influence of ardent spirits. The principal fighting was done in the nineteenth ward, where in the afternoon it was dangerous for an elector to deposit his vote. This ward is divided into two districts. In the first district, some two or three hundred rioters rushed in, took possession of the ballot boxes, and demolished them—the inspectors escaping out of the back windows. In the second district a similar attempt was made, but the police succeeded in quelling the riot. Considerable fighting also took place in seventeenth, fourth and sixth wards.

PRESENT FROM JENNY LIND TO SALVI.—We learn that before leaving Buffalo for the West, Jenny Lind made a present to that excellent artist, Salvi, of a very beautiful cigar case, of massive gold and of exquisite workmanship. On one side is represented in relief the grand works of the immortal Italian, Benevenuto Cellini. On the other side is shown the poor Republic of Rome strangled by her false sister of France, being bound with a cord which is held by the leagued despots; in the distance, on the one hand, is the British lion *asleep*, while on the other hand Pius IX, surrounded by his Cardinals, distributes blessings and indulgences to the Lazzaroni, the Croats, the Spanish, French, &c.

This work reflects the highest credit upon the artist by whom it was executed, as likewise upon the fair songstress for having selected such a design, whereby to mark her horror at the iniquitous assassination of the Roman Republic. This is another added to the many marks of esteem which Sig. Salvi has so often received and so justly merits, both as an artist and a highly respected citizen.—*N. Y. Tribun.*

MANUMITTED SLAVES.—A gang of about sixty colored men, women and children, passed through Washington on Wednesday on their way to Baltimore, to embark for Liberia. They were all comfortably clad, and in the best of spirits, having been recently manumitted by Mrs. Peggy Miller, of Culpeper County, Va. They were to be sent out to Liberia by the Colonization Society.

TEAM OF ELKS.—Yesterday afternoon a couple of elks, harnessed to a buggy, in which were two gentlemen, passed through Main street. The elks did not appear to fancy the attention of the crowd which was attracted by the unusual spectacle.—*Buffalo Commercial, 29th.*

Miss Cushman, who undertook to walk 500 miles in as many hours, at St. Louis, had accomplished half the distance on the 22nd ult.

An unusual amount of sickness prevails along the Upper Missouri river. There is scarcely a family who have escaped the chills and fevers, or typhoid.

THE STEAMSHIP MISSISSIPPI.—The *Philadelphia Inquirer* says that a letter from Gibraltar, under date of Oct. 9th, says that the *Mississippi* would sail for the United States on the 12th.

DISCOVERY OF A PLUMBAGO MINE IN MAINE.—The *Lewiston Falls (Me.) Journal* states that a Plumbago mine, discovered some two years ago on the south-western shore of Sabatti's Pond, has been recently opened, and the results of the operations thus far are most satisfactory. Some three or four men have been engaged for some time, with encouraging results, and they have now ready for market several tons of the article. It brings readily $70 per ton, and is obtained from the rock at a cost considerably less than one-third of that amount. There is every indication that the mine is extensive and may yet be worked on a large scale.

DISCOVERY OF COAL IN VIRGINIA.—We learn from the Richmond *Republican* that authentic coal of an excellent quality has been discovered on the lands of J. Marshall McCue, Esq., in Augusta county, Virginia. The field of Mr. McCue's operations is on the North Fork of North River. The indications are that the supply is inexhaustible—the field seemingly extending over a large district of territory. The coal has been fully tested in the foundries of Staunton, and is pronounced superior to either the Cumberland or Richmond coal.

HOMŒOPATHIC CONVENTION.—A Convention of Homœopathic Physicians was held at Buffalo on Tuesday last, for the purpose of organizing an association to be known as the "Homœopathic Association of Western New York," and to be a branch of the American Institute of Homœopathy. A committee was appointed to prepare and publish an address to the public, setting forth the principles of the new school. The next meeting will be held in Batavia on the second Tuesday of January next.

A young gentleman, a short time since, was about making an excursion for fish, and at one of the thoroughfares to the Lake he met and made the acquaintance of a lady, Mary Pike by name, with whom he became very much pleased, and from whom he could not part without some pangs of sadness. He expressed a hope that he might hear from her occasionally. To which she replied that if he was not successful in taking fish at the Lakes, she had not any object on to his *dropping a line to her.*

There are about sixty Jewish Synagogues in the United States, and about 44,000 Jews.

Portland is a city of 25,000 inhabitants, and to its immortal honor has not a single grog shop in it.

CONTRADICTED.—The report that the Austrian Minister, Mr. Hulsemann, would demand his passports in the event of a national reception being extended to Kossuth, is contradicted on good authority.

BARNUM AND LOLA MONTEZ.—Barnum publishes an affidavit in which he indignantly denies that he enlevatored to open negotiations with Lola Montes. The swearing was entirely unnecessary—no body could doubt Barnum's word.

IMMIGRANTS AT NEW YORK.—During the last ten months, 252,920 foreign immigrants have arrived at the port of New York—an increase of 65,804 over the same months of last year. During the five years ending 1846, there arrived 330,413 immigrants; during the five years, less two months ending 1851, the number was 1,058,923.

THE RAILROAD.—To-day the laying of the track of the Rutland & Washington railroad, from its northern terminus to this place, was completed; and the work will be continued on the line to Salem and pushed forward with all possible dispatch. There cannot now be much doubt that the whole line will be open to the travelling public by the first of January at the farthest.

We understand that during the coming week, the section of the Road running from this village north, will be in readiness for the transportation of freight to Poultney, Castletown, Rutland, &c.—*Granville Telegraph.*

MISCELLANEOUS.

How Job Trotter was Robbed.

Job Trotter was a person easily frightened, and numerous were the tricks played upon him by the naughty villagers of B. Old Job was clever, they all said, but he was not very easily provoked; he would bear everything with Christian humility, though he never professed to be much of a Christian, any way. Old Job was rich, and old Job was miserly; yet it could never be ascertained whether his property consisted of real estate or personal, so shrewdly did he manage his business affairs. Old Job once got handsomely taken in, and pretty nearly done for, as we shall relate.

Job was returning homeward, one very dark night, from a distant village, and he had occasion—so luck would have it, as Horrock says—to pass through a long and dense piece of woods. If the old sheepskin that lay concealed in Job's bosom could have spoken for itself, it might have told that five hundred dollars in clean cash were tied up in it; but as it did not possess the faculty of speech, we are, of course, dependent on some other authority for our knowledge of the fact.

Old Job's knees began to tremble, and his whole body to undergo sundry aguish symptoms as he entered the wood; and he thought of nothing but robbery and murder, and his five hundred dollars. He had gone too far to retrace his steps, and the only alternative was to push forward, and meet with courage whatever might befall him. He had progressed about half way through the wood, when his attention was suddenly arrested by something in the shape of a man, standing before him, and aiming a gun directly at his head.

"H-h-hold, I say!" exclaimed Job, his eyes protruding almost out of their sockets, and staring in blank amazement; "h-hold! don't f-f-fire!" Still the figure remained motionless, and seemed to take better aim.

"For God's sake, d-don't fire," cried Job, submissively, as he advanced with oscillatory steps towards it. "You may have my money, but don't kill me—pray have compassion! Oh dear!" Saying this, he threw the sheepskin with all his might at his assailant, and rushed impetuously from the spot. Discretion is indeed the better part of valor, when the mind is in confusion confounded. So argues Scruggins.

The next day it was publicly reported in the village of B., that Job Trotter had been robbed of $500; and that, according to hearsay, he came very near receiving a piece of cold lead through his pate. At this announcement, crowds of people immediately turned out, (for they did have some sympathy for Job,) and began to make search for the rogue.

It was about dusk, when a party of villagers, headed by Job, entered the wood, where he was to point out the items—if he could recall his scattered ideas—the scene of the robbery. The woods around were sombre and dismal; and as Job trudged along, he began to manifest symptoms of alarm.

"Don't be any alarmed, Job," said one of the villagers, in a kind tone, and gently patting him on the shoulder, "there is no occasion now for fear."

"Oh! no fear at all, neighbor Pumkins," replied Job, "I'm only *scat* a little bit, that's all." They had proceeded but a few rods further, when old Job uttered a terrible shriek, and vociferated—

"There! there is the man now! do you see him? he's got the old gun too! rush on! seize him! seize him!"

All eyes were instantly turned in the direction which Job indicated, and before their astonished gaze stood the TOWN PUMP OF B., its uplifted handled pointing toward them! The sheepskin was soon found, reposing quietly at the feet of the innocent and unconscious highwayman!

Old Job immediately slept out, reached home by a circuitous route, and, said to say, was confined to the house by a severe fit of sickness, which lasted only three days and three nights, and terminated in—complete health. The occurrence, however, was never forgotten; and old Job afterwards rued the day when he was robbed by the town pump of B.—*Boston Carpet Bag.*

☞ SEE FIRST PAGE.

Representation of Gaspe.

We have before us the Manifesto of Mr. Robert Christie, who solicits the suffrages of the people of Gaspe. When we compare Mr. Christie's Address with that of Mr. John Young to the electors of Montreal, we clearly perceive the difference between a man of tried experience in the currents, shoals, and quicksands of political life, and another who briefly orders buttered toast to breakfast, and sits down quietly, expecting that his friends will butter his toast for him on both sides. Mr. Christie speaks calmly, independently, and firmly, to the electors; he promises, or at least he binds himself to, nothing. If he go to Parliament at all, he must go, not as a mere delegate to speak the sentiments of a faction or fractional part of the people, but as an independent representative of the real interests of his constituents, of which interests he is, and must be supposed to be, the best judge. This spirit is too consonant with our own feelings not to meet with our most decided approbation. We shall have something more to say, by and by, both of and to Mr. Christie; in the meantime, we hope his straightforward and manly Address will be appreciated by the electors of Gaspe. Such language, coming from the mouth of *a gentleman*, is more binding than a thousand pledges.

The English Hospital.

We understand that a committee has been appointed to take into consideration the fractious charges made by the Roman Catholic Priests against the managers and servants of this Protestant Institution. The manner in which this controversy, or dispute, or misunderstanding, or whatever it may be called, has been raised and conducted, is, as usual, full of the most scurrilous and vulgar abuse of the Protestant part of this City. Two writers in that disgraceful publication falsely called the *True Witness*, who both of them date their letters on the *Fifth of November*, and who both seem to be worthy and true descendants of Guy Fawkes, descant with all the little talent and fierce inveteracy of which little minds are capable, against the Governors of this Hospital and against the *Courier* for attempting to expose this "Popish plot." And we repeat that it is nothing else but a "plot," by the nid of which these Priests and their adherents hope to make the Protestant Hospital a rich and ripe field for proselytism—and we can prove our words. While there is not one single instance of any Protestant Clergyman of any persuasion having attempted to interfere in the instruction of a single Romanist patient, there are several proved instances of Priests having approached and whispered their insidious lies into the ear of the poor suffering Protestant. We speak the more strongly and confidently because we can prove this. Besides, it is well known that the Priests when they visit the Institution attempt to obtain, and, in spite of the vigilance of the attendants, sometimes succeed in obtaining, the property of the invalids, which property is then transferred to their coffers without hope of recovery. Nor is this a new case or unknown elsewhere.

One of the "*Fifth of November*" correspondents of the *True Witness* has the following:—"No Catholic would admit the mutilated spurious thing called the Protestant Bible, with its ten thousand errors, to be the word of God. It may be the word of the pedant King, and of those pure! men—the agents of the proselyte societies—but word of God it is not; and I hope, if any more copies of it are thrust upon our people, that they will forthwith proceed to tear them up or otherwise destroy them." How very charitable this is! "Or otherwise destroy them,"—that is, "burn them," or "blow them up with gunpowder on the *Fifth of November*," or perhaps mashing them up into a pulp with axe-handles would be as good a way as any, as they could then be remanufactured into fabulous legends of bleeding pictures, winking statues, and miraculous cures.

We remember, many years ago, that the Romish Priests of Glasgow having, with some reluctance on the part of the authorities of that city, been permitted to visit the Royal Infirmary, proceeded to burn all the Protestant Bibles they could find in that Institution. But, alas! Scottish Presbyterians don't understand these things; they love their Bible, and cannot be convinced that the "*Glories of Mary, by St. Alphonsus M. Liguori*," or "*Peter Dens*," can ever be a proper substitute for it; so Master Peter and his tail were made to march out in double-quick time; and thus also it must be with the English Hospital of Montreal, before comfort and peace and security can be restored to the patients, the servants, or the governors of that Institution.—We have a few more remarks to make upon the letters of these *Fifth of November* gentry, and they may be assured, in the mean time, that we are determined to obey the prayer of their petition to the *True Witness*, "not to let the matter drop," and to our readers we say, "we speak as unto wise men, judge ye what we say."

Persons using Gas will please take notice, that unless their accounts for this quarter are paid on or before the 14th instant, they will deprive themselves of the large discount allowed.

MONTREAL, November 8, 1851.

To the Editor of the MONTREAL COURIER:

SIR,—When a candidate offers himself for the representation of this city, time-honored custom exposes him to the jibes and jests of one party, and the equally expressive sympathy of the other.

Not having any candidate of your own, you have impartially administered the lash to Bristow and Devins. The former you have killed outright—the latter is still smarting from your weapon. Mr. Bristow has himself inflicted executions, and cannot complain of retribution. Devins is a poulet compared to him—Bristow was a hardened political game cock armed with steel spurs.

The majority of your readers would infer from your correspondent's letter, that Mr. Devins is a red hot politician, backed by the "boys"—that he is the champion of the suburbs *versus* the city proper. This view of the case is not warranted by facts. Mr. Devins has been invited to come forward by citizens of all races and creeds—electors of the city and suburbs. He owns property in both quarters, and though he is resolved to poll the last vote and neglect no ordinary means of succeeding, he respects the rights of others enough to restrain himself from any act with which he could reproach himself when the contest is closed.

Your party may yet bring forward a candidate—be it so; it matters not what his rank of life may be, he will meet fair play, provided he be an honest man. Mr. Devins has no ambition, beyond that of discharging what he deems his duty, and whatever his defects may be, *he will prove true to his word.*

ECHO ANSWERED TRUE.

[The author of the above letter is mistaken, when he says that we have "administered the lash to Mr. Bristow and Mr. Devins." We have never said anything about either the one or the other, farther than once remarking, with respect to Mr. Bristow, that he had as good a right to solicit the suffrages of his fellow-citizens as any body else. If the writer means to refer to the letter of "Echo," the "lashing" is not calculated to leave many marks behind it. We can assure our correspondent, that we have no intention of "lashing" any one, as our political animosities are by no means very deeply seated, whatever root our opinions may have taken in our own mind.—*Ed. M. C.*]

MECHANICS' INSTITUTE.—The twelfth annual meeting of this body, was held in its Rooms, Great St. James Street, on Monday evening, the 3rd inst., when the following gentlemen were elected office bearers for the ensuing year:—

President—W. A. Townsend; 1st Vice do—Henry Bulmer; 2nd do do—C. P. Ladd; 3rd do do—James Hayes; 4th do do—Alexr. Bertram; Corresponding Secretary—John Fletcher; Recording Secretary—Alex. Murray; Treasurer—Jas. A. B. McGill; Librarian and Cabinet Keeper—N. McIntosh; Committee—J. O'Meara, D. McNevin, E. Baird, J. McArthur, J. Spiers, T. D. Reed, N. B. Corse, H. Lyman, J. Snedden, D. McFarlane, W. C. Cogan, K. McAuley.

The annual report read at the meeting represents the affairs of the Institute to be in a highly flourishing condition. The number of members had much increased during the previous year, and a more general interest had been taken in its affairs than formerly. The present number of members was stated to be 470. The Library had been enriched by the donation of many new and valuable works, the merits of which appeared to have been appreciated by the members, as the issue of volumes during the year amounted to no less than 4112.

The Committee called the attention of the members to the subject of evening classes, as being an important means of affording instruction to the younger portion of them, in various branches of knowledge—instruction which could not be got elsewhere, and urged upon them the expediency of making an effort to form several of them during the winter, now approaching. A drawing class established last winter had proved highly successful.

The Receipts during the year amounted to the sum of £482—the expenditure £388, including the sum of £15 cy. deposited with the Bank of Montreal at interest, as a special fund, to be preserved if possible to form the commencement of a fund to purchase a building for the Institute.

The Report was unanimously concurred in by the meeting, and a vote of thanks given to the retiring office bearers, after which the meeting adjourned.

MEDICAL FACULTY OF McGILL COLLEGE.—In consequence of the unfinished state of the new building, lately erected in Cote Street, the Medical Lectures will be given during this week in the Lecture Room of the Mechanics' Institute, Great St. James Street. The Lectures will commence each day at 9 A. M.

We are requested to intimate that the Protestant Board of School Examiners will meet on Tuesday the 2nd day of December next.

Teachers desirous of passing their examination are requested to address the Secretary of the Board, Mr. S. Phillips, St. Urbain Street.

Reviews.

THE CANADA DIRECTORY. By Robert W. S. Mackay. Published by John Lovell, St. Nicholas Street. Pp. 692.

This publication is, without any exception, the most important in a mercantile point of view that has ever issued from the press in Canada. Indeed, with the exception of the English General Directory, it embraces the most extensive plan that ever has been attempted anywhere in the mercantile world, and it reflects great credit upon Mr. McKay the editor, and no less upon Mr. Lovell the spirited and enterprising publisher, that so extensive and so varied a work has been brought to a successful conclusion. Canada has of late risen into celebrity as the most intelligent and enterprising colony under the authority of the British crown; and she only wanted this crowning effort of a general directory, embracing so much of statistical, mercantile and personal information, to put her fully upon an enviable level with the mother country.

This extensive Directory, embracing the most important and useful information respecting the names, residences, trades, occupations, &c., of the inhabitants of Upper and Lower Canada, will be put into the hands of subscribers this morning, and we are certain that no more important and useful boon has ever been conferred upon them. By a slight reference to the preface the full scope of the work will at once be perceived, and some little idea will also be formed of the difficulties attending its compilation, and the great merit of Mr. McKay, its zealous compiler, will then also be in some measure felt and appreciated. In noticing a work of public utility such as this, it would be unfair to pass over, unnoticed, the very elegant manner in which it is got up. The volume is in large octavo, printed in various type, but each of them clear and distinct, with easy references, and interspersed with large advertising sheets of the more important Merchants and Manufacturers. The binding, at once ornate and substantial, is by R. & A. Miller, Booksellers, &c., St. Francois Xavier Street; so that Montreal divides the honour of this work with no City either neighbouring or at a distance.

HUNT'S MERCHANTS' MAGAZINE for November. R. W. LAY, Montreal.

This Magazine contains, as usual, several articles of great mercantile importance, and, among others, "The Growth of Towns in the United States" is not the least interesting. It shows a progressive population, unequalled for rapidity in the history of the whole world; for instance, the author says:—

"Of the cities and towns of note in 1790, New York has had the most rapid growth, having had an average duplication of little less than 15 years. With its suburbs properly depending on it as a commercial mart, such as Brooklyn, Williamsburg, &c., its population in 1850, is set down at 650,000. The census of 1790 made it 33,131. During the same 60 years, Albany grew from a village of 3,498 to a city of 51,000—doubling its numbers on an average of 16 years.

"Baltimore comes next, having grown from 13,508 in 1790 to 170,000 in 1850, making its average of duplication about 17 years.

"Philadelphia has doubled once every 18 years, having, with its suburbs, grown from 46,000 in 1790 to 450,000 in 1850.

"Boston and its business suburbs is estimated, in round numbers, to have had 30,000 in 1790, which increased to 212,000 in 1830, making its average of duplication about 21 years.

"Charleston, South Carolina, had 16,359 in 1790 and 43,000 in 1850, thus requiring 45 years to double its numbers.

"The average duplication of these cities is a little over 18 years, and if all the towns of note in 1790 were embraced, it would shew a slower growth, and probably raise the average period of duplication to 20 years."

"It will be observed," says this writer, "that the growth of our towns during the *last ten years* has, in general, been decidedly greater than that of any ten preceding years. This goes to prove the great influence of railroads, canals, and other facilities to commercial movements."

This writer gives a number of tables, shewing the population of the principal cities at different times, but which are too long and complicated for our columns. He sums up, however, with the following:—

"On account of the permanency of the record afforded by the *Merchants' Magazine*, the opinion is here repeated, that within one century the largest cities of America will be in the interior, and that Cincinnati, Chicago, St. Louis, and Toledo, will be the four largest."

In expressing the above opinion, we should suppose that the writer means to expect New York, which city he elsewhere says may reasonably be expected to contain in 1860 about half a million more than it does at present—that is, 1,150,000 inhabitants.

RECONCILIATION.—Our last advices state that a reconciliation between Sir Henry Bulwer and Narvaez, formerly Prime Minister of Spain, has been effected—the latter on his recent visit to England having expressed to Lord Palmerston his regret at the unceremonious expulsion of Sir Henry from the court of Spain. At that time it was his conviction that the safety of his country depended upon the extermination of the revolutionary party, whose chiefs boasted the friendship and abused the hospitality of the British Minister. The feud between them was buried at a grand dinner given by Narvaez.

MEDICAL FACULTY OF McGILL COLLEGE.

LECTURES ON CHEMISTRY.

A COURSE of Lectures on Chemistry, Illustrated by Experiments, will be commenced on the 10th November, and will be continued till the end of April; during the course the allied Physical Sciences will receive due attention.

The First Lecture, introductory to the series, will be delivered this (MONDAY) evening, at 7 o'clock, in the Room over the Mechanics' Institute Reading Room, Great St. James' Street.

Nov. 10 th, 1851. 483

POETRY.

John Thompson's Daughter.

A PARODY.

A fellow near Kentucky's clime,
Cries, "Boatman, do not tarry,
And I'll give thee a silver dime
To row us o'er the ferry."

"Now who would cross the Ohio,
This dark and stormy water?"
"O, I am this young lady's beau,
And she, John Thompson's daughter.

"We've fled before her father's spite,
With great precipitation,
And should he find us here to night,
I'd lose my reputation.

"They've missed the girl, and purse beside,
His horsemen hard have pressed me.
And who will cheer my bonny bride,
If yet they shall arrest me?"

Out spoke the boatman then in time,
"You shall not fail, don't fear it;
I'll go, not for your silver dime,
But for your manly spirit.

"And by my word, the bonny bird
In danger shall not tarry,
For though a storm is coming on,
I'll row you o'er the ferry."

By this the wind more fiercely rose,
The boat was at the landing,
And with the trembling rain, their clothes
Grew wet where they were standing.

But still, as wilder rose the wind,
And as the night grew drearer,
Just back a piece, came the police,
Their trampling sounded nearer.

"O, haste thee, haste!" the lady cries,
It's anything but funny;
"I'll leave the light of loving eyes,
But not my father's money!"

And still they hurried in the face
Of wind and rain unsparing;
John Thompson reached the landing place,
His wrath was turned to swearing.

For, by the lightning's angry flash,
His child he did discover;
One lovely hand held all his cash,
And one was round her lover!

"Come back, come back," he cried in woe,
Across this stormy water,
"But leave the purse, and you may go,
My daughter, O, my daughter."

'Twas vain; they reached the other shore,
(Such dooms the Fates assign us.)
The gold he'd piled, went with his child,
And he was left there, *minus*.

—*Boston True Flag.*

Shipping Intelligence.

Captain Richards of the bark Burbridge, at this port, reports having passed three brigs and a ship in the gulf bound up; and several sail bound down. Exchanged signals with a ship off the Magdalen river, Oct. 30th—first distinguished pendant No. 192, "Albion." Passed the ship Maranham, off Matane; ships Jonn Bull and New Zealand, off the Pillars.

The brigte. Velocity, Nicholson, at this port, reports a bark and four brigantines at Sand.

We have just received a letter from Capt. Ma[illegible] dated Oct. 29 containing full particulars of the loss of his vessel. In a postscript he says:—"Since writing the above, a survey has been held on the stranded ship, and all hopes of getting her off abandoned. The most of the stores and provisions are saved, and await exit to come to Quebec.

"To relieve the minds of the friends of the passengers who were on board, our Mr Fisher of Quebec, and Mr. Tougean and chief of the above mentioned places."

DIED.

At Toronto, on the 18th ultimo, Mr. Michael Rogers, wife of John P. Rogers, and daughter of James Grant, late of Tross Rivières, Canada East, now of Montreal, aged about 40 years.

At Abbotsford, on the 29th ultimo, in the 80th year of his age, Mr. Joseph Roach, formerly of Cornwall, England.

September 26. 449

TO THE ELECTORS OF THE CITY OF MONTREAL.

GENTLEMEN,—Having been appointed CHIEF COMMISSIONER OF PUBLIC WORKS, with a Seat in the Provincial Cabinet, it becomes necessary, in accordance with Constitutional usage, that I should be returned to Parliament—and I venture to appeal to you, amongst whom I have resided for the last twenty-four years, for your confidence and support as a CANDIDATE for the REPRESENTATION of the Commercial Metropolis of Canada at the approaching GENERAL ELECTION.
In accepting office, I can sincerely state, that I have been influenced solely by considerations of a public nature. I enter public life at a considerable sacrifice of my private interests; but I felt so deeply the importance of completing the great chain of our internal communications, both by Railways and Canals, that I was content to waive every personal consideration, in the hope that, by accepting the office assigned to me, I might be enabled more effectually to promote that great work, on which the prosperity of this City and of Canada so much depends.
On questions of general policy I may observe, that I have ever been a warm friend of Progressive Reform and of entire Religious Equality. I enter office with gentlemen whose characters, as public men, afford a sufficient guarantee that they will cordially co-operate in carrying out a truly enlarged and liberal policy—such as, I believe, will secure the approbation and support of the country.
I have the honor to be,
Gentlemen,
Your obedient Servant,
JOHN YOUNG. November 1, 1851. 480

TO THE ELECTORS OF THE COUNTY OF MISSISQUOI.

GENTLEMEN,—The approach of another General Election throughout the Province, and the announcement of a Candidate for your suffrages, call upon me once more to address you, as the Representative of your County in Parliament.
My public conduct for the last five years, during which your confidence has maintained me in the political position which I have the honor to occupy, remains, at the termination of my stewardship, as freely open to your examination as it is freely offered for your approval or reprehension. I shall claim no merit if your approbation sustain me in the belief of having faithfully discharged the trust reposed in me, nor shall I feel ill will if your censure teach me the difficulty of a satisfactory performance of political duty; permit me to add, however, that the interests of the Province invariably received my earnest and attentive consideration, whilst those of my constituents were supported with my best ability.
Adverting to my connection with the County, it is your rightful privilege to be informed of my opinions, upon the important measures which will probably be submitted to the judgment of the coming Parliament, and without desiring to inveigle you of your support by specious or prospective promises, it will suffice to observe, that a recurrence to my past opinions will serve as an exponent of my future political sentiments.
Whilst affording ready support to the interests of Provincial Agriculture and Manufactures, a reduction of such duties as are alike burthensome to the people and injurious to the trade of the country, has been steadily advocated.
Whilst a rigid economy in the expenses of the public departments has been strongly urged, thereby encouraging retrenchment in the most effectual manner, in the general expenditure, a fair compensation to the public servant has been advocated, conceiving that there is no desire in the public mind that efficient services rendered to the public should be otherwise than liberally remunerated.
Whilst enforcing the necessity for an increased representation, as essential to the best interests of the Province, the regulating principle of population alone has been opposed as eminently prejudicial and partial in its operation; but the abolition of the representative numerical equality between the two sections of the Province, according to the spread of population in each respectively, the consequent gradual formation of new Counties, and a limitation in the number of representatives for the present and future electoral divisions will have the effect of connecting the progress of population with a proper increase in the popular Branch of the Legislature.
Whilst every measure of acknowledged Provincial utility, either in the establishment of Railroads or in the construction of Public Works has been cheerfully supported, enterprises of a merely speculative or questionable character have been discouraged, or warmly opposed, as endangering alike the public credit, and eventually increasing the public burthens. Upon these grounds, I was strongly opposed to the Hullaux Line of Railway without its extension through the Province, as of itself enormously augmenting the public debt, without affording any prospective advantage or probable return.
The emplistication and assimilation of the Provincial Laws appeared to be of paramount importance, and did not fail to engage my attention and occupy my time; in view of which, the Criminal Law, and its system of procedure have been methodized and codified, and finally submitted to the consideration of the Legislature.
Referring to those objects which are of peculiar interest to Lower Canada, I may observe, that the entire abolition of the Feudal Tenure, and the commutation of existing feudal burdens upon fair and equitable terms to Tenants and Seigniors, have been strenuously advocated, and will at all times receive my unqualified support.
The decentralization of the judicial business of Lower Canada from the great cities, and its extension throughout the country party, by the establishment of Assizes and Country and District Courts, have been constantly and unwearyingly, though unsuccessfully urged, as a most desirable means of social advancement. The application of the savings in this necessarily increasing branch of legal expenditure, would assist in the erection of County Jails and Court Houses, and at the same time afford ready means for the payment of Jurors and others, who are now called upon to give their gratuitous attendance, upon the administration of justice.
Deeply sensible that there are no means of cultivating the growth of intelligence among the people equal to the establishment of good schools, in which the elements of a sound education may be fully given to form the man and the citizen or advancing community, the defects in the School system of Lower Canada, and which are universally prevalent, though in different degrees, have been deeply felt; and it has long appeared to me, that the Province has a right to demand, and that the Government are in strict duty bound to enforce, not only the universal establishment of Schools, but their establishment and regulation upon a system different from the present, and better adapted to the popular requirements.
Before concluding, allow me briefly to remark upon the question of residence as a qualification in your representative. It is a sound and important principle, that the Representative ought to be acquainted with the interests and circumstances of his Constituents; but this can only extend to those interests and circumstances, to which the authority and care of the Legislature relate; an ignorance of a variety of minute and particular objects exclusively of Municipal supervision, and of mere local interest, which do not lie within the compass of Legislation, is consistent with every attribute necessary to a due performance of the Legislative trust—and unless some Legislative difficulty exists in the County, which cannot be comprehended by a person of ordinary intelligence, except he be a resident, the application of the qualification of residence would necessarily characterize your representative as a mere Municipal Councillor, and the great popular branch of the Legislature, in effect, as nothing but a Municipal Council. I trust, therefore, that I am not incorrect in assuming, as of course, that the intelligence of your Representative should not be confined to the knowledge of merely local interests, but that rather he should be possessed of information co-extensive with the general interests of the Province.
Relying, then, upon the past as a pledge for the future, it only remains to be observed that I fully recognize the Constitutional right of self-government,—that I will sustain the adoption of a liberal policy commensurate with the increasing wealth, intelligence and population of the Province, and that I am prepared to support any measure which will improve the administration of justice, sustain the public credit, and encourage our commercial relations with other countries.
I remain your obedient servant,
W. BADGLEY. October 28, 1851. 479

STOCK ST. LAWRENCE AND ATLANTIC RAILROAD.—10 SHARES on Sale.

Montreal, October 22, 1851. 471

CLERKS' REGISTER OFFICE.

IN addition to the Department for the SALE OF LANDS and LETTING, and SALE OF HOUSES, the Subscriber has OPENED a BOOK for REGISTRATION of the NAMES of YOUNG MEN desirous of obtaining SITUATIONS as MERCANTILE CLERKS. The Terms are as follows, viz.:—The name of applicants, their ages, qualifications, and references, will be entered in the Book of Register. Each applicant will be entitled to an Advertisement, *for one month*, in one of the City Papers.
The Subscriber will besides exert himself in procuring situations for those desirous of becoming Merchants, and for a moderate fee (not to be customary in England) will undertake to qualify a limited number of young gentlemen for any commercial post.
The fee for Registration and Advertising will be £1 1s., payable in advance. The Commission 2½ per cent. on amount of the first year's salary.
JOHN G. DINNING, Land Agent, 13 St. Sacr

CORNER OF McGILL & CRAIG STREETS,
(Hay-Market Square,)
MONTREAL.

G. A. has REMOVED to the above Stand, and begs leave respectfully to tender his thanks to his Friends, and the Public generally, for the liberal patronage they have hitherto bestowed upon him, and hopes, by strict attention to Business, and promptitude in execution of Orders, to merit a continuance thereof.

N. B.—FUNERALS attended to. 194
August 29, 1850.

MONTREAL HIGH SCHOOL,
WITH WHICH IS INCORPORATED THE ROYAL GRAMMAR SCHOOL.

The Classes will be Re-opened on Monday, August 18th, at 11 o'clock, in presence of the Directors, when his Honor Judge McCORD will preside, and make an appropriate Address to the Pupils.—Parents and Guardians are invited to attend.

Directors:

Hon. J. Ferrier	Robert McKay, Esq
B. H. Le Moine, Esq	Hew Ramsay, Esq
Dr. Crawford	His Honor Judge McCord
J. J. Day, Esq	Dr. M'Culloch
D. Davidson, Esq	Wm. Lunn, Esq
Dr. Campbell	D. Torrance, Esq
John Young, Esq	C. Dunkin, Esq

Joseph Savage, Esquire.

David Davidson, Esq., *Treasurer.*
Hew Ramsay, Esq., *Honorary Secretary.*

Rector—H. A. Howe, Esq., T. C. D.
Latin Master—T. A. Gibson, Esq., A. M.
Third Master—D. Rodger.
French—M. Mavrias, lecturer McGill Coll.
Drawing—Rev. Jas. Hutchinson.
Preparatory Dept.—Rev. Jno. Hutchinson.
Fencing and Gymnastics—M. Rey.

THE SYSTEM of INSTRUCTION is no inferior one to that pursued in the great Public Schools of England and Scotland, but undue time and attention are not given to the Classics to the prejudice of other branches of Education equally essentials to a Mercantile Education.

THE COURSE comprises Latin, Greek, English and French Literature, the general Truths of the Christian Religion, the Elements of various branches of Mathematics, Familiar Lectures on Natural Philosophy, Elocution, History, Geography, the use of the Globes, Writing, Arithmetic, and Book-Keeping.

Drawing is added, if required, but there is an extra charge for it.

The year is divided into four Terms.

The First Term commences.....August 20th.
The Second do do .....November 6th.
The Third do do .....February 1st.
The Fourth do do .....April 20th.

The F. E. S., which are payable in advance, are as follows:

The First and Second Classes,	£2 10	0	per Term
The Third, Fourth and Fifth do	2 0	0	do
Preparatory School	1 5	0	do
and 2s. 6d. per Term for Stationery.			

In order to extend the advantages of this School to those who live at a distance, arrangements have been made to receive BOARDERS, to the formation of whose moral character, advancement in learning, and personal comfort, every care and attention will be given.

The Boarding Terms are £50 a Year; those of the First Master at from £35 to £45.

The French Master, also, is prepared to take Boarders on the same terms.

R. & A. MILLER'S

THE AGRICULTURAL JOURNAL AND TRANSACTIONS OF THE LOWER CANADA AGRICULTURAL SOCIETY will hereafter be PUBLISHED by the Subscriber, to whom all communications must be made, which relate to the Subscriptions, Advertisements, and all business matters which refer either to the past or forthcoming Volumes of the Journal.

The Journal will be vastly improved both in quality of paper and typography. The Work will also be increased in value and interest, by the introduction of Diagrams, approved Fixtures, and Implements of Husbandry, together with Plans of Modern Farm Buildings, Illustrations of the best varieties of Fruit, Profiles of Domestic Animals, &c., &c.

Agents and Subscribers are required to remit candidately to the Publisher the amount due the Society.

Any one who will obtain new Subscribers, and remit $5, will receive 6 copies of the Journal for One Year, or 10 copies will be sent for $8.

The Subscriber also publishes the SNOW DROP, (a Juvenile Magazine,) at $1 per annum. The same Commission will be allowed to those who obtain six or more Subscribers.

The Subscriber is AGENT for all of the important AMERICAN MAGAZINES and RE-PRINTS, embracing the higher departments of Literature, Science and Art; which he delivers in the principal Towns of Canada East at New York prices.

RESPONSIBLE AGENTS WANTED, to CANVASS for the SNOW DROP, AGRICULTURAL JOURNAL, and other WORKS, to whom a liberal Commission will be allowed.

ROBERT W. LAY,
193, Notre Dame Street.
Montreal, December 7, 1850. 281

DRY GOODS.

THE SUBSCRIBERS are now receiving, ex *Toronto, City of Hamilton, Albion, Caledonia, Cathering*, &c., &c., a large and complete selection of STAPLE and FANCY GOODS, which they are prepared to offer at low prices, and on reasonable terms.

DR. HALSEY'S FOREST WINE.

THE discovery of the FOREST WINE is the greatest blessing of the age. Put up in Quart Bottles, a single bottle of which does more good, and goes farther in the cure of Disease, than one bottle of any Sarsaparilla in town, and warranted to cure without any unpleasant or weakening effect.

The method by which all Sarsaparillas, and other similar medicines are prepared, is by boiling the Roots or Plants to obtain the extracts. Their medicinal virtues are thus principally extracted and destroyed.

It is not to be wondered at then, that ten and even twenty bottles of these Sarsaparillas are sometimes taken without any perceptible benefit. Not so with the Forest Wine! By the invention of a wonderful chemical apparatus, a perfect wine is produced without heating; retaining all the valuable, healing properties of the rare medicinal plants of which it is composed, thus rendering the Forest Wine the most efficient medicine the world ever produced, at the same time the most agreeable.

NERVOUS DISORDERS

Are diseases of the mind as well as of the body, so generally brought on by troubles and afflictions, and are most common to persons of delicate constitutions and sensitive minds. Your spirits, melancholy, frightful dreams, and fearful anticipations of evil from the slightest causes, generally accompany nervous disorders. The Forest Wine and Pills are a energetic remedy, in these complaints.

Extract of a letter from M. Joseph C. Paulding, dated Philadelphia, Sept. 7, 1852.

Dear Sir,—Your Forest Wine and Pills have cured my wife of a dreadful Nervous disorder, with which she had been afflicted for many years. Her body was almost wasted away. She was frequently disturbed in her sleep by frightful dreams, would awake quite exhausted and covered with perspiration, and at times labouring under the delusion that something dreadful was about to happen to her. By the use of four bottles of the Wine, and a box of the Pills she is now in perfect health. She has regained her flesh and colour, and enjoys society as well as ever.

Dr. S. W. Halsey. J. C. Paulding.

GENERAL DEBILITY, EMACIATION, WASTING OF THE BODY, &c.

Many persons are afflicted with some one of the above complaints without being able to trace it to any particular cause, and therefore doing little of the proper remedy until the disease becomes constitutional. These disorders are often characterized by a sense of sinking, or entire exhaustion after exertion. Some experience sluggishness, lassitude, and at times, paleness or flushing of the countenance, or palpitation of the heart, or like symptoms.

The excellent effects which have ever attended the use of the Forest Wine and Pills, in every instance of debility, is conclusive evidence of its happy results in this class of disorders. Many have resorted to these medicines as a last attempt, and been speedily cured. For Nervous Disorders and Debility, the Wine and Pills are taken according to the directions on the label.

AGUE AND FEVER, OR CHILLS,

are caused by the miasmatic effluvia arising from marshes, decayed vegetables, and low damp situations. In Fever and Ague, the Forest Wine and Pills are a sovereign remedy. When they have been taken sufficiently to the directions, we have never known them to fail in effecting a complete cure. In the first place the system is cleansed by the Forest Pills in time, that their operations may subside before the return of the chill. The Forest Wine is then administered, take three or four large doses of the Wine, at intervals of half an hour, commencing about two hours before the period for the chill to return. I found in my own age, after which the Wine should be continued in small doses to restore strength. See directions round the bottle.

DR. HALSEY'S GUM-COATED FOREST PILLS

Are an important adjunct to the Forest Wine. They are coated with pure gum arabic, an invention for which Dr. Halsey has received the only patent ever granted on Pills by the Government of the United States.

The Forest Wine and Gum-coated Forest Pills unite in accomplishing the same great end, the Purification of the Blood, and restoration of the Stomach and Bowels.

The Forest Wine and Pills are recommended as an effectual and certain cure in the following complaints:—Dyspepsia, Habitual Costiveness, Dropsy, Complaints of the Kidneys, Incipient Consumption, Decline of Spirits, Mental and Female Weakness, for which it is a Sovereign Remedy; Languidness, Night Sweats, Nervous Disorders, Loss of Appetite, Low Spirits, and want of Nervous Energy, Ague and Fever, which it never fails to cure; Scrofula, Erysipelas, Impurities of the Blood, Loss of the Skin, Weakly and impaired State of the Constitution.

TO THE LADIES.

Nothing in the world is more absurd than the custom of using paints, cosmetics, &c., to improve the complexion. True beauty and loveliness accompany the bright perfection of health, which again invariably follow the purest state of the blood. What artificial appearances equal that vivid expression of countenance which emanates from blooming health? What paints compare with the transparent, healthy, and brilliant complexion, seen through the transparent texture of the skin? What charms are more captivating than those of nature, in her highest perfection of form? Let Dr. Halsey's Forest Wine supply the place of all cosmetics. The use of this excellent Wine for a short time enlarges the blood, which, entering through the veins, penetrates the minutest vessels that verge toward the surface of the skin, causing the healthy blood to flow in the capillary vessels, giving a vivid, rosy color to the skin, the brilliant expression to the eyes. THIS IS THE NATURAL BEAUTY.

In corroboration of these facts, Dr. Halsey has many testimonials from ladies of the most respectable standing in society.

The Forest Wine in large square bottles, $1 per bottle, or six bottles for $5. Gum-coated Forest Pills 25 cents per box. For sale by the appointed Agents:

W. Lyman & Co., and all respectable Druggists.

R. R. R.
THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would instantly stop the most severe pangs of pain, and speedily remove its cause.

We proceeded to Hospitals, and all other Institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and bodies, to introduce our Remedy Relief for their investigations, and to illustrate its merits and miraculous power over pain upon the patients.

We announced that it would relay, in a few minutes, the most severe Cramps and Spasms—it would arrest the progress of that dread plague, the Cholera—that in a few minutes it would change the hard, knotty, cold, and lifeless body, to warmth, vitality, and vigor.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all painful and diarrhœa disorders, and impart a genial warmth to every organ and secretion of the body; that it would positively relieve the most severe and disagreeable pains of a Rheumatic nature, and in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgia, and permanently cure this excruciating affection. That it would stop the most tormenting toothache in a few seconds.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possessed a miraculous soothing and relieving influence over all pains originating from Rheumatism, Neuralgia, Nervous, and Bilious complaints, and that the patient suffering the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was startled at the publication of our discovery. The joint assent of Medical Science shook their heads doubtfully. The sick and afflicted hoped yet, feared that, like other remedies, it would cure quicker sooner than by prescribed treatment. Thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town, city, and hamlet, from New York, we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were mitigated; weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and enabled to walk; the sick, the sufferers of Neuralgia, Sick and Nervous Headaches, Chill Fever, Diarrhœa, Cramps, Spasms, Cholera Morbus, and, in fact, all painful and distressing Acute complaints, were suddenly relieved from their torments, and restored to health. In fame spread from city to city, the people sounded its wonderful virtues far and wide, and over the earth had its fame spread.

FIVE MILLION BOTTLES WERE SOLD!

In every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York, and Ohio; in Michigan, Wisconsin, Illinois, Indiana, Missouri; the people have tested its merits, and pronounced it a safeguard against disease, and a quick antidote for all pains. In New Jersey, Pennsylvania, Virginia, Maryland, Delaware, the Carolinas, Georgia, Alabama, and Louisiana—in every town in each State it has been extensively used, and proved its efficacy.

TO THOSE WHO KNOW NOTHING OF IT.

It can now be purchased with the merits of Radway's Ready Relief, and if you wish to satisfy yourselves of its curativeness, we refer you to the **Druggists**, to Physicians, and the people. Take a bottle of it to any skilful Physician, let him test it, we will risk its reputation on his opinion.

One drop has *frequently* cured the most tantalizing Tooth-Ache.

Forty drops, taken three times per day, will cure Sour Stomach.

Sixty drops, taken four times per day, will cure Weakness and Debility.

Twenty drops, taken every ten minutes, will cure Diarrhœa.

Thirty drops has, in fifteen minutes, stopped the Sick Head-Ache.

Sixty drops, taken every twenty minutes, has cured Cramps, Spasms, &c.

Thirty drops has, in fifteen minutes, cured Tic Doloreux.

Sixty drops has, in twenty minutes, stopped the pains of Neuralgia.

Thirty drops has, in fifteen minutes, cured Wind on the Stomach.

Thirty drops has, in fifteen minutes, cured Cholera Morbus.

One application externally has stopped the most painful Rheumatic affection, and cured Sprains, Strains, and Spasms.

Three applications has cured the Salt Rheum.

Three applications has cured the Toothache, Pleurisy.

Three applications has cured Pimples and Blotches.

Six applications has cured the Erysipelas.

Three applications has cured the so painful Swelling.

Six applications, in twenty-four hours, cured Curved Spine.

One application, in 15 minutes, cured the Lumbago.

SOLEMN TRUTH.

Reader, do not reject these statements on account of the above assertions, we state only what it has done, what we know it will do. Therefore, if you suffer pain, give Dr. Radway's powerful remedy a trial, you will become a friend of our quick and ready remedy.

Price of Radway's Ready Relief, 50 and 25 cents per bottle.

BEAUTY

Complexion richly tinted with the bloom of health, With skin as pure and fair as purest marble—
Form as graceful as the graceful vine,
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxurious tresses dancing grace fully o'er the swan-like neck.

No dark repulsive spots, to mar the pleasing picture, Or to cast dark shadows over the beauty-enamored piece.

RADWAY'S MEDICATED SOAP,

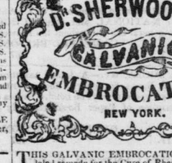
Composed of the most delicious, rare and fragrant gums, Of extracts and essences of Medical Science shook their heads doubtfully. The sick and afflicted hoped yet, feared that, like other remedies, it would cure quicker sooner than by prescribed treatment. Thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town, city, and hamlet, from New York, we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were mitigated; weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and enabled to walk; the sick, the sufferers of Neuralgia, Sick and Nervous Headaches, Chill Fever, Diarrhœa, Cramps, Spasms, Cholera Morbus, and, in fact, all painful and distressing Acute complaints, were suddenly relieved from their torments, and restored to health. In fame spread from city to city, the people sounded its wonderful virtues far and wide, and over the earth had its fame spread.

PRICE 25 CENTS PER BOTTLE.

RADWAY & CO. Practical Chemists.

For Sale in Montreal by Wm. Lyman & Co., A. Urquhart, R. W. Rexford, and P. E. Picault.

Montreal, May 17, 1851. 336



THIS GALVANIC EMBROCATION is an unparalleled remedy for the Cure of Rheumatism, Acute or Chronic, seated in the Head, Joints or Limbs. The Dolorous and Gout, in its worst forms, Palsy, Fits, Sciatica or Sciatic Evil, Spinal and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, Salt Rheum, Sore Throat, Quinsy, White Swellings, Diseases of the Skin, Leprosies, Goitre or Thick Neck. It is likewise highly recommended in the most confirmed cases of Scrofula and Scrofulous Affections of the Neck, Affections of the Spine, Mercurial Affections, &c., &c., &c.

It is now generally admitted, by the learned and scientific, that the mysterious power called *Galvanism* or *Magnetism* is in fact the principle of Vitality or Life, and that disease in many of its most painful forms is mostly owing to the absence of this Galvanic or Magnetic power in its healthy proportions. If, then, we can really supply this wondrous power, when it is thus deficient, we can successfully combat disease; and this has been fully and perfectly attained by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid which has cost the inventor of this remedy years of study and labor.

There is not an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in various diseases, and there is scarcely a Medical Journal, either in this country or Europe, which makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, or corroborating previous experience of their beneficial use. The inventor of the Galvanic Embrocation has great pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and commendation.

October 25, 1850. 343

HUMAN HAIR.—HYPERION FLUID.—This is a compound so admirably adapted to the diseases of the hair, and has the particular merit of being prepared purely from vegetable ingredients, so that its application is perfectly safe. How often do we perceive young persons with hair nearly grey, or afflicted with baldness, arising from inflammation of the skin of the head, caused by severe study, violent grief, and other mental afflictions. By a liberal use of the Hyperion, in a short time they will find, to their delight, a complete change will have taken place in the action of the skin, and a rich and luxuriant growth of hair, of its original color, will shortly follow. Its effects in cleansing the hair from scurf and dandruff are also truly wonderful. The Hyperion should be one of the principal toilet articles for every lady's and gentleman's toilet.—*See advertisement.* 103

SCROFULOUS AFFECTIONS, &c.

In all these distressing and prevalent causes, there is no more efficacious and powerful remedy than the celebrated Hydriodic of Potash, as prepared by Dr. Sherwood's Galvanic Embrocation, I regard as the most efficacious of all remedies in Scrofulous affections. One of my children, a daughter of 5 years old, was afflicted with a very inveterate and protracted Scrofulous affection, which had continued its ravages nearly two years, various remedies were tried but without effect.—The disease exhibited itself in several deep-seated ulcers, the discharge from which was acrimonious and very fœtid. At this crisis, I commenced the treatment with Dr. Sherwood's Galvanic Embrocation—the only remedy used in connection, was a decoction of Sarsaparilla, which soon conquered the disease, and a complete cure was effected. 225

MOST IMPORTANT
To Farmers, Housekeepers, and others, having Store-Houses, &c., infested with Vermin or Insects.

SMITH'S EXTERMINATOR
FOR THE ENTIRE EXTIRPATION OF
Rats, Mice, Cockroaches, Beetles, Crickets, Ants, &c.
Without the use of Arsenic or other Mineral Poisons.

The Genuine Article has a Label, similar to the above, pasted on the top of each Box.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above all question:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR has attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.

C. P. BAILLARGEON, Ptre.

Quebec, 7th March, 1848.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the nuisance, without success. Having been strongly recommended SMITH'S EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.

BENJAMIN HART.

Montreal, November 22, 1848.

I hereby certify, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in ridding the College Premises of Cockroaches, Crickets, and such like disgusting Insects, which were before very numerous.

S. VILLENEUVE,
Director of Montreal College.

Montreal, April 20, 1845.

From the Rev. B. Davis, D. D., Minister of the Baptist Church, Montreal.

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found it to present unerring over-run with Beetles; the nuisance had defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the insects almost entirely from the house. Similar cases of success have occurred in my neighborhood.

B. DAVIS.

4 Sydenham Place, Montreal, Nov. 15, 1848.

This preparation is warranted in all cases; and Agents are instructed to *refund the money* to purchasers, should it not prove effectual.

Sold, Wholesale and Retail, at the principal Drug and Medicinal Warehouses throughout the Province.

May, 21, 1851. 340

KEATING'S COUGH LOZENGES.

A CERTAIN REMEDY for disorders of the *Pulmonary Organs*—the Difficult Breathe and Tedious Cough of Phlegm—in Incipient *Consumption*—(of which *Cough is the most positive indication*)—they are of unerring efficacy. In *Asthma*, and in *Winter Cough*, they have *never* been known to fail.

KEATING'S COUGH LOZENGES are free from every deleterious ingredient; they may, therefore, be taken at all times by the most *delicate female* and by the youngest infant. The Rev. Edgar Taylor, of the *Professional Singer* will find them invaluable in allaying the hoarseness and irritation incidental to vocal exertion, and consequently a powerful auxiliary in the production of *melodious enunciation*.

Prepared and Sold, in Boxes, 1s. 1½d., and Tins, 2s. 9d., 4s. 6d., and 10s. 6d. each, by THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Church Yard, London.

Sold by all Druggists and Dealers in Patent Medicine Venders in the Kingdom.

N. B.—To prevent spurious imitations, please to observe that the words "*Keating's Cough Lozenges*" are engraved on the *Government Stamp* of each Box.

IMPORTANT TESTIMONIALS.

Copy of a Letter from "Colonel Hawker," (the well-known Author on "Guns and Shooting.")

LONGPARISH HOUSE, NEAR WHITCHURCH,
Hants, October 21 1846.

Sir,—I cannot resist expressing my sense of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks that defied all what had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, and I shall ever be the first person to have the cough without demanding the stomach or digestive organs.

I am, Sir, your humble servant,
P. HAWKER.

To Mr. Keating, 79, St. Paul's Church Yard.

WILLIAM STREET, EAST INDIA ROAD,
Corner of New Town, Nov. 8, 1849.

Sir,—I conceive that it is merely the manifestation of a proper remedy for the affliction, for I was reduced to the very decided and extraordinary "chief which I have obtained from the use of your Cough Lozenges. I have for the last four years been afflicted with a distressing cough, with a difficulty of breathing. Accidentally hearing of your Cough Lozenges, I purchased a 2s. 9d. tin of your Agent, Mr. Kernot, Medical Institution, Christ Street, Poplar New Town, by which I am now perfectly cured, and beg to return my sincere thanks.

Sir, your obedient servant,
THOS. KEATING, Esq. CHARLES WOOD.

CHURCH STREET,
Folkestone, November 22, 1848.

Sir,—Having been troubled with a *very bad cough* for the last eight months, I applied to Mr. Hammon, Chemist of this town, for a box of your "HIGH TEA-FLAVORED" COUGH LOZENGES," which, I am happy to say, proved in a week, to be the most efficacious remedy I ever tested them, and beg you will not hesitate to make this letter public; *such a valuable remedy cannot be too well recommended.* I have the honor to be,

Sir, your obedient humble servant,
To Mr. Keating. JOHN HILL, Bart.

MEDICAL WAREHOUSE,
Halifax, N. S., August 15, 1846.

Sir,—In mentioning the receipt of your letter, with second consignment of Lozenges, "the Racer," we are gratified in being able to inform you that they have given very general satisfaction here, (having proved singularly efficacious in the removal of COUGHS AND COLDS,) of which the increasing demand is a sufficient evidence. We shall, probably, require for the Winter a further supply of FORTY OR FIFTY DOZENS, which you may count upon at first convenience by one of the Cunard Steamers, on Liverpool, for

Yours respectfully,
MORTON & Co.

To the Proprietor of Keating's Cough Lozenges,
79, St. Paul's Church Yard London.

Sold, in Boxes, at 1s. 9d. each, by the following Agents:—

QUEBEC—Messrs. John Bowles & Co., and Jno. Musson & Co., Druggists.

TORONTO—Messrs. Beckett & Co., and Lyman, Kneeshaw & Co., Druggists.

Orders may be addressed, if required.

Montreal, November 13, 1850.

DR. LA'MERT

ON THE INFIRMITIES OF YOUTH & MATURITY.

Just Published, 40th Edition, and may be had in French and English, in Sealed Envelope,

2s. 6d. Sterling.

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY of MARRIAGE, and DISORDERS of YOUTH and MATURITY, with Observations on an early period of life, which overrate the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from these causes, close study, or the Influence of Tropical Climates; Local and Constitutional Weakness, Syphilis, and all Derangements resulting from Imprudence, Indiscretion,—with Forty Colored Engravings, illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, and the Consequences of these causes and functions, and the various injuries that are produced in them.

BY SAMUEL LA'MERT, M. D.,
No. 37, Bedford Square, London,
Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital Medical Society, &c.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the Work: the means of escape, as well as the nature of the danger, are pointed out in clear and decisive language. It deserves edly requires the closest attention and study, for what subject can be of more important use than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their inevitable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently, but erroneously, entertained, that those complaints are beyond the reach of art, strike restrict him, and prevent the seeking for assistance where alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and, above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can *view* by his possession of the requisite legal qualifications, that he is entitled to extreem and respect in his professional pursuits, the utmost confidence should be extended. Dr. LA'MERT has obtained the highest medical honors, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in Montreal, of BENJAMIN DAWSON, 3 St. Johns, of H. Cheese & Co., price 2s. 6d. Sterling; Halifax, Messrs. Morton & Co.

December 30. 70

THE BRITISH PERIODICALS
AND THE
FARMERS' GUIDE.

LEONARD SCOTT & Co.,
No. 54, Gold Street, New York.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; to which they have recently commenced the publication of a valuable Agricultural Work, called

"THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE."

By Henry Stephens, F. R. S., of Edinburgh, Author of the "Book of the Farm," &c., &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable Work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid Steel Engravings, and more than 600 Engravings on Wood, in the highest style of the Art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *pictorial* feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The Work is being published in Semi-Monthly Numbers, of 64 pages each, exclusive of the Steel Engravings, and is sold at 25 cents each, or $5 for the entire Work in Numbers, of which there will be at least 22.

The British Periodicals Re-Published are as follows, viz.:—

The London Quarterly Review, (*Conservative.*)
The Edinburgh Review, (*Whig.*)
The North British Review, (*Free-Church.*)
The Westminster Review, (*Liberal.*)

Blackwood's Edinburgh Magazine, (*Tory.*)

Although these Works are distinguished by the political shades above indicated, yet in a small portion of their contents is devoted to political subjects. It is their literary excellence, and the fearless and able manner in which they stand confessedly far above all other journals of their class, *Blackwood*, still under the masterly guidance of *Christopher North*, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial Works of Bulwer and other celebrated writers, not confined to that Magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons: A Family Picture," "My New Novel," (both by Bulwer,) "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by these publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the *earliest* reading of these fascinating tales.
