TORMORE. A country post office on the dividing line between the counties of Peel and York, partly in Albion and partly in Vaughan townships, 24 miles north-west of Toronto, and 4 south-east of Bolton, on the T G & B line C P Ry, its nearest railway point. Nearest bank at Brampton. Settled in 1830. It contains a Methodist church, and ships produce. Population, 100. Mail daily. Thomas Smyth, postmaster.
Cousins Thomas, blacksmith.
Hart John, justice of peace.
Robinson Robert, vet surgeon.
Watson Walter, justice of peace.

TORONTO. The largest city and the capital of the Province of Ontario, and the second largest city in the Dominion of Canada, is beautifully situated on the shore of a spacious bay of Lake Ontario in York township, York County, of which it is the county seat. Toronto has an excellent harbor, accessible to the largest craft navigating the lakes, and which is perfectly sheltered by a long, narrow island which extends for about 5 miles along the front of the city, at a distance of about one and a half miles from the shore, forming a safe anchorage ground. First settled as a trading point by the French. It was selected as a suitable place for the seat of the Government of Upper Canada, and Governor Simcoe, the then Governor-General, landed here in 1795, when the town was laid out and named York, but on its incorporation as a city in March, 1834, its original name (an Indian one signifying "a place of meeting"), Toronto, was restored to it. The city is laid out with great regularity, the streets running north and south and east and west, and intersecting each other at right angles, the principal streets being King, running east and west parallel with the lake shore, and Yonge, extending nearly due north to Lake Simcoe, a distance of 33 miles, and passing through a rich and prosperous agricultural district.

The growth of Toronto may be seen from the following table of its population at various periods, viz :—

1817	1,200	1856	45,000
1826	1,677	1861	48,000
1830	2,860	1871	59,000
1836	9,652	1875	74,000
1842	15,336	1881	87,000
1845	19,706	1886	124,000
1850	26,000		

In addition to its facilities for communication by water, Toronto is the centre of an extensive railway system, the following railways either running through or having one of their termini in the city: The main line of the Grand Trunk Railway, with its Midland, Nipissing and G W divisions; The Canadian Pacific, with its divisions of the Credit Valley, the T G & B and the O & Q

lines and the N line of the N & N W Rys. Manufacturing of almost every description is extensively carried on. In the matter of education Toronto takes a high rank, having located within its boundaries the following educational establishments: The University of Toronto, University College, University of Trinity College, Knox College, Wycliffe College, the Baptist College (McMaster Hall), St Michael's College, the Bishop Strachan School for Ladies, the Upper Canada College, the Toronto Collegiate Institute, the Royal College of Dental Surgeons, the School of Dentistry, College of Physicians and Surgeons of Ontario, Ontario College of Pharmacy, Ontario School of Chemistry and Pharmacy, School of Practical Science, Ontario Veterinary College, Women's Medical College, Toronto School of Medicine, Trinity Medical School, Ontario School of Art, to which may be added a number of convents and private schools, musical conservatories, etc, all first-class in their several appointments.

The schools etc, belonging to the city comprise a Model school, a Normal school, and 34 public schools, the total number of pupils being 14,919, of teachers, 241, and the value of the school property, $540,000, and 9 separate schools. The Department of Education is situated on Gould street between Victoria and Church streets, and has a library of 4,000 volumes. The public buildings connected with the Government, comprise the Parliament buildings, interesting mainly from their associations (new stone buildings on an elaborate scale are about to be constructed at a cost of $700,000); a valuable library of 30,000 volumes is kept here; the Government House, the official residence of the Lieut-Governor; the Custom House, cor Front and Yonge streets, and the Post Office building, on Adelaide street, both handsome cut stone structures; the Asylum for the Insane; the Central Prison; the Mercer Reformatory; and Osgoode Hall, containing the various superior Law Courts of the Province, with a magnificent law library of 24,000 volumes, the property of the Law Society of Ontario. There is an interesting museum attached to the Normal School, containing specimens of school apparatus and furniture, a valuable collection of Dutch, Flemish and Italian paintings, etc. There is also a magnetic observatory and a meteorological office lo-

cated in Queen's Park, and a public library containing 44,000 volumes, being constantly added to as occasion offers. The principal civic building is the new City Hall and Court House now in the course of erection, to cost $300,000, situated on Queen street west at head of Bay street, and to be finished about the end of 1888. The buildings are of stone in the Romanesque style and were designed by Mr E J Lennox, architect, of Toronto. The Canadian Institute on Richmond street is an important scientific institution, with a library of 4,000 volumes. The public buildings to be especially noted for their beauty of architecture, etc, are: The British American Assurance Co's buildings, cor Scott and Front streets; Building and Loan Chambers, 13 and 15 Toronto street; Canadian Institute, cor Richmond and Clare; Canada Life Assurance Chambers, 44 King west; Canada Permanent Buildings, 18 Toronto; Custom House, cor Front and Yonge; Dominion Bank, cor King and Yonge; Imperial Bank, Wellington east; Knox College, Spadina Crescent; McMaster Hall, Bloor west; Manning Arcade, 16 King west; Mercer Reformatory, King west; Montreal Bank, cor Yonge and Front; Normal School, St James square; North of Scotland Chambers, 18 King w; Ontario Bank, cor Scott and Wellington; Osgoode Hall, Queen head of York; Post Office, head of Toronto; Quebec Bank, cor King and Toronto; Queen City Buildings, 24 Church; St Michael's College, St Joseph street; School of Practical Science, Queen's Park; Toronto Arcade, Yonge opp Temperance; Toronto Bank, cor Wellington and Church; Toronto General Hospital, Gerrard east; Toronto University, Queen's Park; Trinity College, Queen west; Western Assurance Co's Building, cor Wellington and Scott; Wycliffe College, Queen's Park; and numerous private buildings that will compare favorably with those of any other city on the continent. The city is well provided with charitable institutions, having a large General Hospital, the Girls' Home, the Boys' Home, the Home for Incurables, Infants' Home and Infirmary, the Hospital for sick children, the St Nicholas Institute for boys, the House of Providence, the Notre Dame Institute, etc, etc. The Queen's Park, the Horticultural Gardens, the Island, the Exhibition Park and several other parks of lesser note furnish the citizens of Toronto with ample places for recreation. There are three opera houses, the Grand, seating 1,700, the Toronto Opera House, seating 1,800, and the Pavilion Music Hall, seating 2,200. There are 14 banks doing business in the city, and 12 savings' banks, also a number of loan and investment companies. Five daily newspapers are published, and 1 semi-weekly, 24 weekly, 8 bi-weekly, 23 monthly and 2 quarterly papers, and magazines are issued from the presses of the city. The assessed valuation of real and personal property for 1886 is $72,716,533, and the bonded indebtedness: gross debt, $8,220,262; general debt, $7,107,470; local improvement debt, $1,112,792. The city has an excellent water supply, pumped from the lake (from outside the Island) into a large reservoir, situated at Rosedale, 216 feet above the level of the lake, and 9½ acres in extent, containing 33,473,000 gallons; an efficient fire brigade located at 12 stations, furnished with fire alarm telegraph and all modern appliances for fire extinction; is lighted with gas and has the electric light in addition; telephone facilities and an excellent well-arranged street car service. During the season of navigation steamboats and propellors run daily to all parts of the great lake system, the Royal Mail line running to Montreal, and special lines running to Montreal, Niagara, Hamilton, Oakville and other ports. The city returns 3 members to the House of Commons, and 2 to the Provincial Legislature. Telegraph, GNW and CM. Express, Dominion, Canadian, American and Vickers'. The BISHOP STRACHAN SCHOOL

FOR THE

HIGHER EDUCATION OF YOUNG LADIES

(BOARDERS AND DAY PUPILS),

WYKEHAM HALL,

COLLEGE AVENUE, YONGE STREET, TORONTO, CANADA.

INCORPORATED, - - - 1868.

GOVERNING BODY:

THE RIGHT REVEREND THE LORD BISHOP OF TORONTO, PRESIDENT,

AND

A COUNCIL OF CLERGY AND LAITY.

LADY PRINCIPAL, - - - MISS GRIER.

This Establishment was founded in 1867. Its object is the instruction of young ladies in the various secular branches of a liberal education, and also the inculcation of Christian doctrine, as contained in the Bible and the Book of Common Prayer. The Lady Principal is assisted by an efficient staff of instruction, nineteen in number, and the arrangements for competent teaching in every department, and for the due supervision and moral training of the pupils, as well as for their health and comfort, will be found complete and satisfactory. Wykeham Hall is an extensive and handsome building, surrounded by beautiful and secluded grounds, affording ample scope for exercise and recreation. In the Departments of Music, Drawing and Painting, the best musical talent of the city is engaged. The full course of study is intended to occupy at least six years. The examiners are selected from graduates of the Universities, and candidates are prepared for the examinations in the Trinity College Course of Study for women and for the University of Toronto. Young ladies are annually matriculated, and several have highly distinguished themselves. Opportunities are thus given for higher culture in the Languages, in English Literature and Composition, Elocution, Science, the Mathematics, and in Art, for those who are found fitted and desirous for such studies. Simplicity and economy in dress, and moderation in expenditure are enforced. The Religious Instruction is under the charge of the Rev. J. Pearson, a clergyman appointed by the Bishop.

TERMS:

The scholastic year is divided into four Terms of ten weeks each, viz.:—Michaelmas, Christmas, Lent and Trinity. Michaelmas Term begins on the first Wednesday in September, and ends on the 9th of November. Christmas Term begins on the 10th of November, and ends on the 10th of February, with vacation from the 22nd of December to the 13th of January. Lent Term begins on the 11th of February, and ends on the 21st of April. Trinity Term begins on the 22nd of April, and ends on the 30th of June.

FEES:

The entire fees for the scholastic year, 5th September to 30th June, will be from $204 to $225, according to class, including Board, Laundry expenses, all English Subjects, Languages, Class Singing, Drawing and Calisthenics. Fees are payable at the beginning of each Term. Five per cent. will be allowed if the fee for the entire year is paid in advance. From the above a discount is made of 10 per cent. in the case of sisters, and for the daughter of a Clergyman a deduction of 33⅓ per cent. is allowed. The fee (annual) for Music, Instrumental or Vocal, varies from $20 to $72, including (for boarders) one hour's daily use of the Piano. An entrance fee of $12 is charged to Boarders to defray the expense of beds and bed linen, silver, etc. The fees for Music vary according to the requirements of pupils, or the desire of parents for a special teacher. The General Vocal Class is open to those who are competent to learn, without charge. Boarders are entitled to an hour's practice daily. For each additional hour there is a charge of $2 per term. Painting in Oils or Water Colors, $12 per term. In addition to the Governor-General's Silver Medal for General Proficiency, other Prizes are annually awarded.

A SPECIALTY.

Domestic Glass Painting. Every Description of Stained, Wheel Cut, Sand Cut, Embossed and Bent Glass to order. Designs and Estimates submitted on application.

JOS. McCAUSLAND & SON,

Telephone No. 1112. **76 King St. West, TORONTO.**

CORALINE, a recently invented and thoroughly tested valuable patent substitute for bone, now used by us in the manufacture of this Corset, being far superior to Cord, Horn, or Whalebone.

The **Coraline** is not affected by Cold, Heat, or Perspiration, is more pliable than whalebone, will bear great strain without breaking, adapts itself more readily to the figure, which makes it most comfortable and healthful to the wearer.

See that each pair is stamped with our name, *The Crompton Corset Co.*, without which none are genuine.

78 YORK ST., TORONTO.

A. Dorenwend, Paris Hair Works,

Day's Business College.

Acknowledged by business men to be a thoroughly practical business school. A large number of its graduates and members are occupying responsible positions in Canada and the United States on their own as well as on others' account, and by the satisfactory manner in which they discharge their duties, plainly evince the great benefit to be derived in pursuing a systematic course of instruction in accounts and business practice, under the supervision of a practical accountant and a man of business experience, before entering into mercantile life; and to which all, both principals and employees, give their unqualified assent and endorsement.

JAMES E. DAY, Accountant.

Boarding and Day School

FOR JUNIOR BOYS,

137 Simcoe Street, - - TORONTO, ONT.

Established 1866. W. MAGILL, Principal.

THIS INSTITUTION is noted for the thoroughness with which pupils are *grounded* in all the essentials of a sound, useful English Education, and for the careful preparation of those who intend to enter upon a further Collegiate Course, as also for the judicious training and constant superintendence of their moral, mental and physical well-being.

The Scholastic Year, consisting of Four Terms, commences 1st of September, and closes the 30th of June. Pupils are admitted in case of vacancies during the year.

Twelve Pupil Boarders (under twelve years of age preferred), are received, who have all the influences and comforts of home life. N.B.—Early application for admission desirable, when all inquiries as to terms, etc., will be answered.

☞**References** can be furnished, not only to many patrons in **Canada**, but also in the **United States.**

A PRACTICAL knowledge of Phrenology and an earnest practise of its teachings would do more to elevate the race than all other sciences. Unfortunately it has largely fallen into the hands of bumpologists self-styled "Professors," who are ignorant of the subject as well as that of anatomy and physiology, and who have greatly brought it into disrepute.

A. WALLACE MASON

has made the subject a life study, and is also a graduate of the Phrenological College, New York. Gives careful examinations advising what each is best adapted for, improvement of health, etc. Classes t aught every winter.

WINDSOR. An important incorporated town on the bank of the Detroit river, immediately opposite to the city of Detroit, Michigan, in East Sandwich township, Essex County, 2 miles north-east of Sandwich the county seat, with which it is connected by a street railway. It is the western terminus of G W div G T Ry, and of the Canada div MCRR, both these lines having powerful steam ferries for conveying their cars across the river which is thus kept open during winter. It was laid out in 1834, and now has several important manufacturing industries, and contains Episcopal, Catholic, Baptist, Methodist, Presbyterian and Bible Christian churches, a model, high, public and separate schools, a convent, an opera house and town hall, 3 banks and 2 weekly newspapers, the *Essex Record* and the *Essex Review*. Grain, live stock, fruit and produce are shipped. Assessed valuation of real and personal property, $2,193,100; bonded indebtedness, $60,000. The town is lighted with gas, has an excellent water supply, a fire department, and telephone communication with the Ontario and Michigan systems. It has lodges of Masons, Oddfellows, Foresters and other secret and benevolent societies. During navigation, it has daily steamboat communication with all parts of the lakes and river systems, and ferries to Detroit run every 5 minutes during the day. Population, 7,060. Telegraph, G N W.

MONTREAL,

The Commercial Metropolis of the Dominion of Canada, and the largest and most important city of British North America, occupies a commanding situation on an island about 30 miles long and 10 wide, at the confluence of the Ottawa with the St Lawrence river in Hochelega County, Province of Quebec. It is at the head of ocean navigation, about 300 miles from salt water, and is at the beginning of the fresh water navigation of the great rivers and lakes which form an uninterrupted water communication extending to Duluth, Minn, USA, at the head of Lake Superior, a distance of some 1,500 miles. The city is built on what was originally known as the Island of Mount Royal and was founded in 1642 by M de Maisonneuve, who was the representative of a Parisian company called "La Campagne de Montreal," formed for the promotion of religion in the colony. In 1663 this company sold out their rights to the seminary of Montreal. It is the principal port of the Dominion and accessible to craft of 3,000 tons burthen, and is the great distributing point for the commerce of the country. The first church was built in 1672, and the first newspaper, the *Gazette*, was established in 1778. For 150 years after its foundation it was little more than a trading station. In 1832 it was made a port of entry, and from this time its rapid progress may be dated. It was incorporated as a city in 1833, Jacques Vigerbiny the first mayor. The magnificence and architectural design of its buildings has attained world wide fame, and it can boast of a greater number of ecclesiastical, educational and charitable institutions than any other city of its size on the continent. The largest

Invested Funds, $34,500,000.
G. F. C. SMITH. RES. SEC., MONTREAL.

SAVE TIME, MONEY AND TEMPER By Using EDDY'S MATCHES AND WOODENWARE. HULL, P.Q.

church is the Notre Dame, a grand and imposing structure of the Gothic school of architecture, and has a seating capacity of 15,000. It has a chime of eleven bells, the "Gros Bourdon" being one of the five largest bells in the world, weighing, 24,780 pounds, 6 feet high and 8 feet 7 inches in diameter at the mouth. There are some 80 other places of worship in the city, Christ church (Protestant Episcopal) cathedral ranking first in beauty of architectural design. Of the educational institutions the McGill University, founded in 1813, takes the lead; it has four endowed chairs of $20,000 each, viz: English, Natural History, Geology and Philosophy. There are several other large colleges, numerous convents, hospitals, etc, all of which, as well as the City Hall, Court House, Post Office, the Windsor and Balmoral Hotels, and many elegant private residences, are magnificent specimens of architectural skill. There are 16 banks doing business in the city, many of them with branches scattered over the whole Dominion. The Montreal bank is the oldest and chief, established in 1818 with a capital of $12,000,000 and a surplus of $6,000,000, giving it second place among the monetary institutions of the world. The city is lighted with electricity and gas. The water supply could not be better, being supplied from the St Lawrence river above the rapids. The fire brigade is excellent with all the modern appliances expected of a large and progressive city. The harbor is about the best equipped in the world, having a frontage of 4 miles consisting of an unbroken line of wharves built of massive cut stone. The difficulty presented to upstream navigation by the Lachine rapids has been overcome by the building of a canal 8¼ miles long, and enlarged in 1875 to admit vessels of 18 feet draught. The Victoria Tubular Bridge, one of the most magnificent works of the present century, spans the St Lawrence from Point St Charles to St Lambert, a distance of 1¾ miles, with 24 spans of 242 feet and one of 330 feet, height from the surface of the water to underside of centre tube, 60 feet. It was constructed by the G T Ry and gave that company continuous communication with the Middle and New England States, and making Montreal the commercial centre of Canadian traffic. The railway system centring here comprises the Grand Trunk Ry, Canadian Pacific Ry, Montreal, Portland & Boston Ry, Vermont Central Ry, Montreal & Sorel Ry, South-Eastern Ry and Delaware & Hudson Ry, thus providing direct communication with all parts of the continent. The completion of the Canadian Pacific Ry gives a direct route from the Pacific Ocean to Montreal, bringing freight from China, Japan, etc, as well as grain from the far North-West, direct to this port. The total distance of this great railway, from Halifax to Vancouver in British Columbia, is 3,750 miles, and shortens the distance from Liverpool to China and Japan by some 1,000 miles. During the season of navigation lines of steamboats and propellers run to all parts of the great lakes and river ports. The assessed value of real property is $74,651,659; realty exempt from taxation, $15,568,816; funded debt, $12,221,462; total revenue from taxation, $1,766,137. Express, Dominion, Canadian, United States and American. Telegraph, GNW and C M. Population, 160,000. Distance to Quebec, 180 miles; to Ottawa, 164 miles; to Kingston, 173 miles, and to Toronto, 333 miles. Daily mails. Guillaume La Mothe, postmaster.

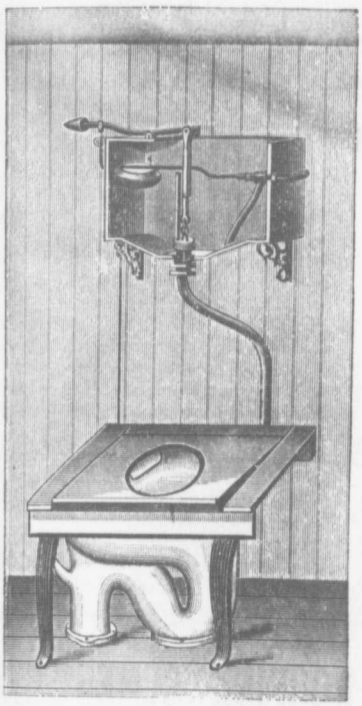
THE PROSSER

Patent Self-Flushing Service Cistern.



W. E. POWER & CO.,
Proprietors and Manufacturers.

773 Craig St., MONTREAL.

DEAR SIR,

After over two years of careful study we have succeeded in perfecting the PROSSER PATENT SELF-FLUSHING SERVICE CISTERN. The absence of water in cistern when not in use, prevents the possibility of freezing in the winter months.

It is positive in its action as it flushes the closet automatically, without requiring any attention or making any noise. It is pronounced by all who have examined or used it to be the most perfect and reliable cistern in the market.

The flush is liberal and effective, giving 2½ gallons of water, at the same time it is assigned the lowest water rate ($3.00 per year) of all closets. There are thousands of them in use throughout the Dominion of Canada alone, and in every case they have given entire satisfaction.

Its simplicity renders derangement almost impossible, there being no springs, wires or cranks to get out of order; it is very easy to repair, especially as all the working parts are above the seat of the closet, so that it can be reached at all times by any person in the house. Having stood the test for over two years, we unhesitatingly claim for our Patent Self-Flushing Cistern all the qualities herein enumerated.

We have upwards of 200 letters testifying to the value of this Cistern, from parties in whose buildings they are now placed.

During the past few months we have received orders to place our Cisterns in the following buildings:—

THE CITY HALL, MONTREAL.
BALMORAL HOTEL.
DAVIS' CIGAR FACTORY.
CHRISTIAN BROTHERS' SCHOOLS, Hochelaga.
NATURAL HISTORY MUSEUM.
PROTESTANT SCHOOLS, Berthelet Street.

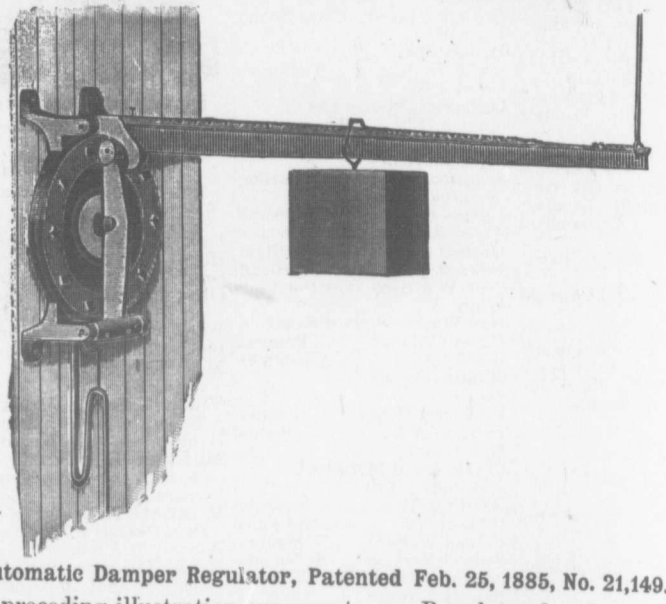
THE ST. LAWRENCE STEEL & WIRE CO.

(LIMITED),

GANANOQUE, ONTARIO.



Automatic Damper Regulator, Patented Feb. 25, 1885, No. 21,149.

The preceding illustration represents our Regulator for the automatic opening and closing of the dampers or draughts of steam boilers. It is designed to be attached to the wall, or at any point convenient to the damper or draught to be controlled. Many regulators operated by steam pressure from the boiler have been placed upon the market, but it has been found that the action of the hot steam upon the materials of which they were composed, speedily injured their efficiency or rendered them totally useless. Our Regulator is provided with a chamber closed by a diaphragm of rubber at its face, which diaphragm is actuated by pressure derived through a pipe connection from the boiler *below its water line.* The boiler pressure forces water into the chamber, which, of course, sustains a pressure equal to the pressure on the water in the boiler itself.

This pressure, acting apon the diaphragm and there through upon the bar extending across its face, raises the weighted lever and closes the damper or draught wholly or in part, according to the intensity of the pressure. The closing of the damper necessarily reduces the draught, and consequently lowers the steam. Sufficient reduction of the steam allows the weight on the lever to repress the diaphragm against the pressure within, and the damper opens, giving the fire more draught. The adjustment of this simple device is so nice and delicate that the steam may be held at any desired point, in pounds, and there retained witnout material variation. The desired pressure can be readily adjusted by the sliding weight. As nothing but water ever enters the chamber, the diaphragm cannot in any way deteriorate.

PRICE, $12.00 NET.

O. K. BUTTON WORKS,
MANUFACTURERS OF
THE O.K. PATENT BUTTON AND FASTENER
FOR PANTS, OVERALLS, UNDERWEAR, ETC.
These buttons are solid metal, made out of steel and are much stronger than any shell button made. The fasteners do not cut a hole in the cloth, or in any way weaken the fibre, and if properly stayed the button cannot be drawn off.
If necessary the button can be moved as readily as an ordinary button.

THE
Toronto Business College
And Union Shorthanders' Academy.
THE LARGEST AND BEST IN CANADA.
SCHOLARSHIPS:
Swiftest English and American Systems of Phonography and Typewriting.
Reading, Writing, Arithmetic, Grammar and Composition.
Book-keeping, Commercial Law, Commercial Arithmetic and Commercial Correspondence.
Latin, French, Greek, German, Italian and Mathematics.
Drawing, Painting and Perspective.
Pupils prepared for Matriculation in Law, Medicine, Chemistry, Arts and Civil Engineering; also for the Civil Service Examinations.
Pupils are taught Navigation in connection with Land Surveying.

This is the College where you can get a Good Education, as highest Teachers are engaged. All pupils receive private instructions, and may commence at any time. Satisfaction guaranteed each pupil. Tuition low. Special terms to clubs. Diplomas granted to advanced Students, and all helped in securing the highest situations when competent.

This is the Academy where young ladies and gentlemen are thoroughly prepared to enter in any business or profession. Its rapid progress is sufficient proof to the public of its proficiency. On account of its many advantages over other institutions, new students are almost daily entering.

This is the College where Students may take any subject or subjects they desire The mode of teaching privately gives each student an opportunity to obtain a thorough knowledge of each study besides helping them to become proficient in much less time than by the class system, thus saving time, studying and money.

Day, Evening and Boarding Department always open.

ELEVATORS

LEITCH & TURNBULL'S, HAMILTON, CANADA.

HYDRAULIC, HAND AND BELT POWER.

Our New Hydraulic is free from the troubles users now have and Works Smoothly, Rapidly and Safely.
Our Patterns for Hand Power are adapted to every known style, business or situation.
Our Belt Power, Screw and Straight Geared Machines need no further recommendation from us than to point to the list in our Catalogue, which shows conclusively that we have in Ontario alone supplied more than two to one of all the other makers combined.
Our Combined Hand and Power is very suitable where power is intermittent.

We append one from the many testimonials of each of the different styles.

Hydraulic Elevators, Hon. James Turner & Co., Hamilton, Ont.
Hand Power " Mr. Thos. Bryan, Brush Mfr., London, Ont.
Belt Power " Mr. Robert Forbes & Co., Woollen Mills, Hespeler.

MESSRS. LEITCH & TURNBULL,

SIRS,—It gives us much pleasure to certify that the new Standard Hydraulic Elevator, one ton capacity, made and erected by you in our wholesale warehouse gives entire satisfaction while working at nearly double the speed of other styles used in this city for the same business. It is completely under the control of the operator, works smoothly and without shock at all times, has as much lifting power, and is entirely automatic in its action and always stops where the operator leaves. We would recommend your make to any one desirous of getting a first-class article.

Hamilton, March 17th, 1886.

JAMES TURNER & CO.

MESSRS. LEITCH & TURNBULL,

DEAR SIRS,—I have one of your one ton hand-power elevators in use for about a year, handling everything that came along, large safes, &c., and other heavy goods, and so far it has given entire satisfaction, and I take much pleasure in recommending it to all who may require a durable and easy working hoist.

London, Ont. I remain, yours truly,

THOS. BRYAN.

MESSRS. LEITCH & TURNBULL,

SIRS,—It gives us much pleasure to inform you that your New Patent Elevator, erected in our mills last year, fills every promise you made us, gives entire satisfaction, and has been ranked by Mr. Blackely, Government Inspector, as one of the safest Hoists in use.

Hespeler, Ont. Yours, &c.,

SHOULD EMPLOY

Reynolds & Kellond,

In all professional business relating to

PATENTS AND TRADE MARKS.

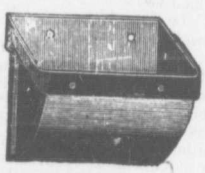
OFFICES:

TORONTO, MONTREAL AND WASHINGTON.

JOHN RADIGAN,

MANUFACTURER OF

ELEVATOR BUCKETS.



This Bucket is made exclusively of Tin, with Iron Bands, and its style and shape are sufficiently indicated by the above cut. They nest closely, and occupy very little space when packed for shipment. A complete stock always on hand.

SEND FOR PRICE LIST.

68 MARY STREET, - - - HAMILTON, ONT.

THE "STAR" HAND GRENADE.

The Original of all Hand Grenades.

ONLY ONE RECOGNIZED BY N. E. INSURANCE EXCHANGE.

THE ONLY GRENADE WHICH HAS A RECORD WORTH INVESTIGATING.

Over 10,000 Actual Fires Extinguished.

Investigate its History, and you will not be deceived into buying any of the worthless imitations that are attempting to make a few dollars out of the reputation the Harden "Star" Grenade has made for Grenades. Examine closely the above cut of bottle, for none are genuine except a Star is blown in the bottle, and the words Harden Hand Grenade under the Star.

HARDEN "STAR" HAND GRENADE,

— MANUFACTURED ONLY BY THE —

Harden Hand Grenade Fire Extinguisher Co.,

F. H. REYNOLDS, Montreal. | R. A. KELLOND, Toronto.

Reynolds & Kellond,

SOLICITORS OF PATENTS,

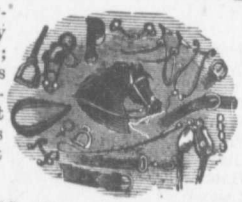
And Experts in Patent Cases.

Toronto, Montreal and Washington, D.C.

Agencies in all Foreign Capitals.

USE MIKADO HARNESS DRESSING.

The best in use for the following reasons: 1st, The rapidity with which it can be applied; 2nd, It softens, blackens, polishes and preserves the Oldest Harness in use; 3rd, It will not soil horse or hands; 4th, Its cheapness, as a $1 can is sufficient to clean 100 sets of Harness.



DIRECTIONS:

Apply with Sponge; if an extra polish is required, use a soft Brush, particularly on Patent Leather.

Price 35 Cents.

McCONNELL & ROSS, Manufacturers, 27 Queen St., Parkdale, Ont.

TELEPHONE 720

BISHOP & TIPPING

Successor to J. EYRES & SONS,

E. BISHOP,
LATE OF COOK, SON & CO.,
St. Paul's Churchyard,
LONDON, ENG.

A. TIPPING,
LATE OF J. EYRES & SONS,
265 Yonge Street,
TORONTO.

Provincial Steam Dye Works,

265 YONGE STREET.

TORONTO EXHIBITION, 1879,

AWARDED THE FIRST EXTRA PRIZE FOR

Dyeing Broad Silks, Ribbons and Ribbon Velvets.

TORONTO EXHIBITION, 1880,

AWARDED DIPLOMA,

Highest Award Possible, for Dyeing Silks and Woollens.

SILK AND WOOLLEN DYERS, SCOURERS, &c.

Silks, Damasks, Repps, Shawls, Table Cloths, Ulsters, Lustres, Merinos, Cleaned, Dyed and Pressed. Gloves Cleaned and Dyed. Black Crape Dyed and Finished Equal to New. Gents' Clothes Cleaned, Dyed and Repaired. Lace Curtains Cleaned and Dyed.

OSTRICH FEATHERS.

THE GREAT COST OF OSTRICH FEATHERS HAS LED US TO MAKE IMPORTANT IMPROVEMENTS IN THE PROCESS FOR DYEING, CLEANING AND FINISHING THESE GOODS.

DRY CLEANING is invaluable for many varied and expensive Fancy Materials in Dresses and Mantles, and ladies would do well to study the advantages of this process in saving dress-makers' bills. Gentlemen will also find it a very great saving on their tailors' bills, for good Coats and other garments can be so refreshed and the quality preserved that they can be worn double their usual time.

DRESSES, MANTLES and JACKETS, in every material, and however much trimmed or flounced, may be beautifully cleaned without any part of the linings or trimmings being undone.

SILK and SATIN DRESSES, SCARFS and RIBBONS, in every color, may be cleaned, and the colors preserved.

FINE CLOTH CLOAKS and JACKETS, lined with Silk, are cleaned and made up by the French process; also Velvet Mantles and Jackets.

CLOTH TABLE COVERS, embroidered with Silk, beautifully French cleaned.

NOTE.—Ladies will find the newest and brightest colors are dyed, and the most approved and fashionable style of curling also dyed two or more shades of color on Feather.

CRAPE.—We now dye and dress Black Crape in the best style, and in short time.

Ladies' and Gents' Straw and Felt Hats dyed and blocked in all the latest styles.

SILK HATS A SPECIALTY.

Orders from all parts of Ontario solicited. We will return goods by mail or express as directed.

A TRIAL RESPECTFULLY SOLICITED. SATISFACTION GUARANTEED.

SADLER,
, TORONTO.

A PIANO WITHIN THE REACH OF ALL

EASY TERMS ON MONTHLY INSTALMENTS.

LARGE DISCOUNT FOR CASH.

WE MANUFACTURE SEVEN DIFFERENT STYLES.

—OUR PIANOS ARE—

VERY POWERFUL and SWEET TONED,

The workmanship first-class throughout, and our cases are elegantly designed and finely finished. We use the best action in the market, same as used in the Knabe and Weber pianos.

JACOB HERR,

PIANO MANUFACTURER,

HITBY, ONT.

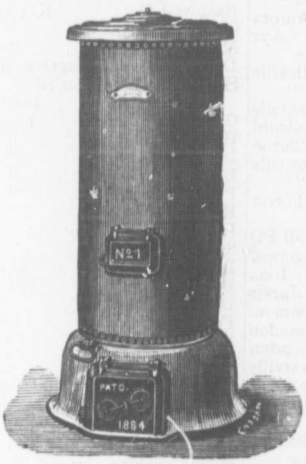
THE HYDRO-CALORIC ASSOCIATION of MONTREAL

MANUFACTURERS OF

Manny's Patent Steam and Hot Water Steel Plate Boilers,

Contractors for all descriptions of Steam or Hot-Water Heating Apparatus. Information and detailed estimates on application. Plans and specifications carefully prepared. Correspondence solicited.

OFFICE, 1,608 NOTRE DAME STREET, - - - MONTREAL.



We wish to announce to our many friends, acquaintances, old patrons and the general public, that we are prepared to furnish and erect in public and private buildings, school buildings, churches, factories, theatres, hotels, residences, etc., our celebrated Steam and Hot-Water Heating Apparatus. Our Boilers are made in eighteen different sizes, and for material and thorough construction they stand above all others. With our apparatus we do away with all packed and inferior methods of connecting, so common to most constructions on the market, and a cause of large annual expense and trouble in repairing the same. We have in our business the practical experience of many years, that has extended to the greater part of Canada and the States. And we have many individual references from the largest and finest buildings in the country. We will prepare plans and specifications, and make estimates with the greatest care, and for the best possible results. We only employ skilled mechanics to set and adjust our work, so that all parties favoring us with their patronage will be assured of a perfect apparatus, skilfully adjusted. Believing that skilful work, satisfaction guaranteed to our customers, and small margin of profit, will secure us your patronage, We are, yours truly,

The Hydro-Caloric Association of Montreal.

N.B.—PRICE LIST AND TRADE LIST ON APPLICATION.

Confederation Life Ass'n Employs an intelligent method of distributing Profits. No class suffers to give undue benefits to another class.

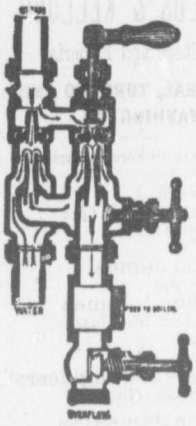
HANCOCK INSPIRATOR.

The attention of the public is requested to the following important notice, viz.:

NOTICE:



The Hancock Inspirator Company hereby give Public Notice that James Morrison, 75 Adelaide Street West, Toronto, has been granted the sole and exclusive license to manufacture and sell HANCOCK INSPIRATORS in the Dominion of Canada under their trade mark, duly registered in the Department of Agriculture in the Dominion of Canada.

THE HANCOCK INSPIRATOR CO.
J. E. BLAKEMORE, Treasurer.
J. M. BETTON, Manager.

Montreal, March 29, 1886.

THE BEST BOILER-FEEDER KNOWN,

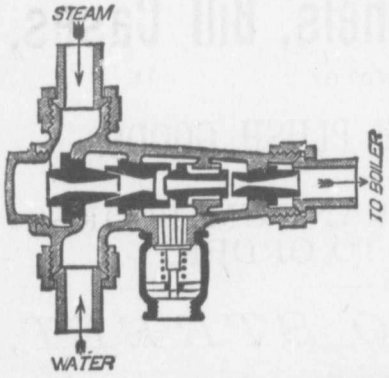
75,000 in Use.

Every Machine Warranted. Buy only the Genuine. Write for Prices.

A NEW INJECTOR.

I have great pleasure in announcing to the trade that I have secured the sole right to manufacture for Canada

Gresham's New Patent Automatic Re-starting Injectors.



These Injectors have recently been awarded

FIRST PRIZE

AT THE

INVENTORS' EXHIBITION,

IN ENGLAND.

They have no handles and will work well at any steam pressure ranging from 20 to 150 lbs.

They will lift and feed water of a much higher temperature than most Injectors in the market.

JAMES MORRISON,

75 and 77 Adelaide St. W., TORONTO.

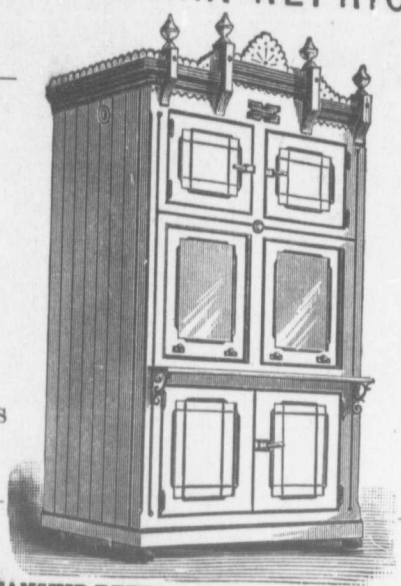
HOTELS,
PRIVATE FAMILIES



FOR

GROCERS,
BUTCHERS,
DAIRIES,
CREAMERIES,
RESTAURANTS,
FISH DEALERS,
PURVEYORS.

STEAMSHIP REFRIGERATORS A SPECIALTY.

These Refrigerators are very economical in the use of ice, and the air is perfectly pure and dry. Matches having been kept dry and fit for use for sixty days and over in them. They are strong built, handsomely finished, perfect in practice, and acknowledged everywhere to be the best. The testimonials below are taken from the thousands that we have received.

TESTIMONIALS:

J. G. MALCOLM, Esq. LONDON, Sept. 1st, 1881.

If we were getting another Refrigerator, would certainly put in one of Malcolm's. We consider them the best we have ever seen.

McGAW, WINNETT & MOORE,
Queen's Hotel, Toronto.
Tecumseh House, London.
Queen's Royal, Niagara.

MR. MALCOLM, TORONTO, April 1st, 1886.

DEAR SIR,—In my business as ice dealer in this city for twenty-five years, I have had much experience in testing the quality of the different makes of ice boxes and refrigerators, and have become fully convinced that I can supply your make at from twenty to thirty per cent. less than other makes now in use, with full satisfaction to all who use them, for I find that the same quantity of ice produces a lower temperature and lasts longer than any other now in use.

Yours truly,
H. LEWIS,
Ice Dealer, 104 Duke Street.

TO WHOM IT CONCERNS: BANK OF TORONTO, TORONTO, Sept. 2nd, 1881.

We, the undersigned, certify that Mr. J. G. Malcolm has manufactured and put up for us several Refrigerators, all of which have given us great satisfaction, and recommend any one wanting such articles to apply to him.

JAS. G. WORTS, SR.
MRS. D. SMART.
W. G. GOODERHAM.
J. G. WORTS, JR.
MRS. W. BEATTY.

We keep a large stock on hand at our Factory and Show Rooms at all seasons of the year, for home, country and export trade.

BRODIE JAMIESON, Office, 13 Fraser Buildings, St. Sacrement St., Montreal. MANUFACTURER OF FINE Carriage Varnishes

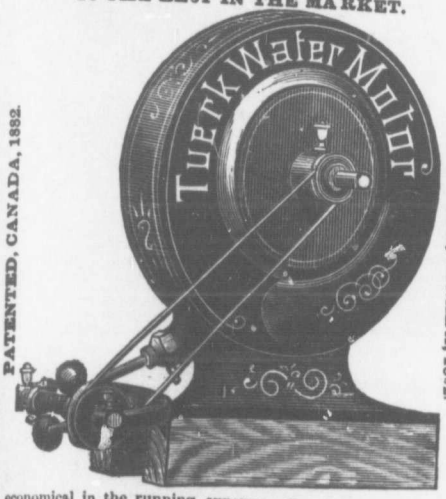
NORTH BRITISH AND MERCANTILE FIRE AND LIFE INSURANCE CO. | 78 ST. FRANCOIS XAVIER ST. MONTREAL. 26 WELLINGTON ST. EAST, TORONTO.

A. SCHNEIDER & CO.,

SOLE PROPRIETORS AND MANUFACTURERS OF THE CELEBRATED

"TUERK" WATER MOTOR

IS THE BEST IN THE MARKET.



Where the pressure is twenty pounds or over, these Motors can be economically and effectually applied to any machinery requiring light and intermittent power. There being nearly three thousand now in use It is generally conceded that they are the Neatest, Cheapest, Simplest, most durable and Powerful Water Motor invented, and are suitable for Parlor, Office or Workshop. Always ready, no delay, dirt, dribbling, or danger of freezing.

Being now satisfactorily used as a Motive Power for Rock Crushers, Printing Establishments Grain and Freight Elevators, Coffee Mills and Roasters, Ice Cream Freezers and Ice Crushers, Church and Parlor Organs, Drug and Spice Mills, Meat, Grain and Feed Choppers, Bottle Washers, Pumps, Lathes and Fans of various kinds, Circular Saws, Jig Saws, Boring Machines, Household and Factory Sewing Machines, and all kinds of Machinery requiring similar power. These Motors will furnish from one quarter to twenty horse-power, according to size, pressure required from 30 to 200 lbs., supply pipe necessary from ⅜ to 4 inch.

EXTRAS.—We sell to our customers or those buying our Motors, etc., any extras, such as Pulleys, Cold Rolled Shaftings, Belting, Hangers, etc., at wholesale cost price. We give these special inducements because our own make (fittings and extras) avoid loss of power by friction are cheaper in first cost, and afterward more economical in the running expense. Our Shaftings, Pulleys, etc., are the lightest, strongest, neatest and cheapest made, especially adapted for our Motors.

We also pay special attention to the manufacture of Iron and Wood Lathes, Shingle Machines, Punching and Drilling Machines, Emery Grinders and Polishing Machines, Saw Arbors, etc. Send for Price List and Catalogue. **Factory, 12-14 Pearl St., rear of 59 and 63 Adelaide St. W., Toronto, Ont.**
