REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.*

The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

The Boulton and Watt of former years
Were worthy and Gospel Brethren;
Their work was coarse and their steam was low,
And they never broke down or blew up we know.
But the Boulton and Watt of modern days
Have abandoned the safe and certain ways,
And having no much of a spirit of the Times,
They get up the steam
Too high it would seem,
And wanting the power and skill of the first,
They packed it the fire till the boiler burst,
And the House was blown to under bot.
By the bad engineering of Boulton and Watt.

MISCELLANEOUS.

Curious Warning of the Romans.—Joseph Braliger asserted that the Romans had a cursive handwriting. Some doubted, but on the whole such continued to be the creed of the learned down to our own time. Behold, some fourteen or fifteen years ago, the Austrians set about repairing the channel of the Danube, to wit, for steamboats, and the first point was to remove Trajan's towing-path, which often had been a gallery cut out of the cliff, and had lost children by the accidents of war and weather. One day, in hewing at this gallery, the workmen revealed the mouth of a cavern; probably natural, but widened by Roman skill, and which had remained centuries ago been the head-quarters of a clerk of the works, or contracting engineer. In this settlement office were found the original day-books of Trajan's servant, namely, some of the familiar Roman tablets of wood with hinges, each set inclosing two or four pages of quarryman's names and calculations of wages inscribed on wax, and lo! the names were not only in capitals, but they were in running hand, actually identical with our own, though Trajan's clerk had been no more pressman, and accordingly the Vienna factors have ever since (except when quarrelling among themselves about the dagger-drawer, coming themselves about the decypherment of the great Emperor's mesons and pavions. The moral is modesty. We are modest with discoveries. Not a fifth part of Pompeii has as yet been discovered—probably not a quarter part of Herculaneum. If ever Italians enough, Constantinople, we expect to find a lost Iliad, or tradition of some very lost British of ancient literature among the results of the Saracen's conval with the fall of the city—Mohammed II. was as unlikely as any prince Gan or since to approve of destroying the private library of the Paleologuses. *Quarterly Review.*

By Hook or by Crook.—The destruction caused by the fire of London, A.D. 1666, during which some 12,200 houses, &c., were burnt down, in very many cases obliterated the extent of land, and even the boundary marks requisite to determine the extent of land, and even the boundary marks requisite to determine the extent of land, and even the boundary marks requisite to determine

BUCHART'S RESTORATIVE BALSAM.

THIS invaluable Medicine has been sixteen years before the public, and has invariably been attended with unparalleled success,—indeed it may be justly considered INFALLIBLE in the cure of Bloody Flux or Dysentery, and all Looseness of the Bowels, in old or young. Its effects are palpable. Within a few minutes after a full dose has been taken complete relief is obtained. This Medicine is the invention of the late Doctor Buchart, Dundee, who, from long experience and extensive practice, has brought it to its present state of perfection in the cure of the above diseases. The ingredients of which this Medicine is composed are most salutary and beneficial to the human system. A single trial will satisfy any one as to the truth of this statement, and we can with the greatest confidence recommend it to the public as a sure and safe remedy.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others in one within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shop, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thresh and clean more grain in a day, with less expense and with greater cleanness, than any other known invention—only requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish them in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to cancel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, neatness of work, and economy of it they can do, our Thrashing Machine is unequalled by any in use. And while the grain is threshed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, Wm. Jones, Esq., will be promptly attended to.

Machines shipped to any part in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 4, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using said Machines.

Caledonia Springs, 2nd June, 1851.

[Extract of a letter from P. J. Imrovis, Esq., of Montreal.]

I beg to state that in July, 1849, I went to the Springs for the purpose of trying their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years past. After remaining at the Springs for about three weeks, and partaking free use of the Waters, my limbs were entirely freed from all pain, and my health perfectly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from their use. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 6th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, as long and highly appreciated by the Public, and my own observations of some twenty years' experience, and testimonies as they have been given me by patients of mine and others, labouring under Rheumatism, in one of the different forms of disease to which the human frame is liable, I consider them invaluable. Few persons, either those who have suffered from the same complaint, or have other causes for sympathy, can fully appreciate their wonderful salutary effects. I have often, when recommending persons to this place, (myself for one during ten years,) which baffled all medical aid, both in England and on the Continent, and others that could afford to go wherever they pleased, to the Caledonia Springs with the assurance of a speedy relief, and have seen them have the Springs greatly improved, and completely restored to health, when cured by a mere temporary use of the spa. That these Waters have cured many diseases of a specific character, I have no doubt; and, as a tonic, they are equally adapted to this effect. Medicine, and as such, I have long been in the habit of using them, and would be happy to see a Medical Establishment at the Springs.

To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 12th December, 1850.

DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable adjunct in the treatment of many forms of chronic disease. OF the most Unbounded Character.

THE Medical and Commercial Profession are hereby informed that the Galvanic powers of GALVANISM are now fully established, and are recognised by the Medical Profession, as the most powerful remedy for Nervous Disorder. In ordinary cases relief is obtained in a few minutes, INSTANTANEOUS in its effects, and in the most aggravated cases it is never seen to fail in a few days. Many persons have tried in vain every other remedy, and have at last recourse to the GALVANIC BELT, and have been cured in a few days, after all other means had failed.

Persons who have tried other Galvanic Belts, and have found no benefit, may be assured that the Galvanic Belt, and Magnetic Fluid, are the only Galvanic powers that have been found to be of any service.
