HEALTH OR SICKNESS!

CHOOSE BETWEEN THEM.

HOLLOWAY'S PILLS

The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ it necessarily produces disease. *HOLLOWAY'S PILLS* operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

USED THROUGHOUT THE WORLD.

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race and in disorders peculiar to certain climates and localities.

ALARMING DISORDERS.

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives, in all cases, however aggravated, acting as a mild purgative, alternative and tonic; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

GENERAL WEAKNESS—NERVOUS COMPLAINTS.

When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

DELICATE FEMALES.

All irregularities and ailments incident to the delicate and sensitive organs of the sex are removed or prevented by a few doses of these mild, but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

SCIENTIFIC ENDORSEMENTS.

The London "Lancet," the London "Medical Review," and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma	Female Complaints	Piles
Bowel Complaints		Stone and Gravel
Coughs	Heaches	
Colds	Indigestion	Secondary Symptoms
Chest Diseases	Influenza	Venereal Affections
Costiveness	Inflamation	Worms, of all kinds.
Dyspepsia	Inward Weakness	
Diarrhœa		
Dropsy	Liver Complaints	
Debility		
Fever and Ague	Lowness of spirits	

Sold at the Manufactories of Professor Holloway, 80, Maiden Lane, New York, and 244 Strand, (near Temple Bar, London,) by all respectable Druggists and Dealers in Medicines throughout the United States and the civilized World, in boxes at 25 cents, 62½ cents, and 1$ each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Poetry.

THE MID WATCH.

I paced the deck in the dead of night,
When the moon and starlight fail,
And the cordage creaks in the lazy swells,
And heavily flaps the sail.
On the darkness glimmers the binnacle lamp,
With a feeble and lonely spell;
No sound but the passing sentry's tramp,
Or his measured cry:—"All's Well."

To and fro with accustomed step,
I walked in the night alone,
And I thought of the thousand watches kept,
In the years forever flown;
Of the friends in whose manly fellowship,
I laboured long ago,
Till death relieved their watch on earth,
And they went to rest below.

I thought of the gallant ones who died,
When our broadside shook the sea,
And sorrow for them subdued the pride
Of our cheers of victory;
Or of those who fell in the fevered lands,
Or sank in the whelming wave;
Whose corpses waste on the barren sands,
Or float in a fathomless grave.

And the looks revive that were faint and dim,
In the shadows of the years;
And I scan them o'er till my eyelids swim,
With the strange delight of tears;
They people the dark with their pallid brows,
As they silently throng around,
And the sea its phosphor radiance throws
On the faces of the drowned.

So many a noble heart is cold,
That shared my duty then,
I have looked full oft in the face of Death,
But he comes to beter men;
And let him come in his chosen time,
Some friends will think of me,
And I shall live in the lonely hours,
Of his midnight watch at sea.

THE WORLD'S AGE.

Who will say the world is dying?
Who will say our prime is past?
Sparks from Heaven, within us lying,
Flash, and will flash, till the last.
Fools! who fancy Christ mistaken;
Man a fool to buy and sell;
Earth a failure, God-forsaken,
Anteroom of Hell.

Still the race of Hero-spirits
Pass the lamp from hand to hand;
Age from age the words inherits—
"Wife, and Child, and Fatherland,"
Still the youthful hunter gathers,
Fiery Joy from wold and wood;
He will dare as dared his fathers,
Give him cause as good.

While a slave bewails his fetters;
While an orphan pleads in vain;
While an infant lisps his letters,
Heir of all the ages gain;
While a lip grows rife for kissing;
While a moon from man is wrung;
Know, by every want and blessing,
That the world is young.

Miscellany.

On Saturday morning last, at Cuyahoga Fall, a large number of women, having previously equipped themselves with axes, hatchets, hammers, &c formed in column for an assault upon whiskey in its entrenchments. Their first point of attack was upon a saloon by Captain I. Dewis, over the Post Office. Ascending the stair they found the gates closed and bolted; but they instantly battered them through, and effecting a lodgement within the walls, proceeded to demolish jugs, bottles, &c. and to remove to the street below a barrel of ale, which was emptied into the ditch.

Next they proceeded to the store of Mr. J. L. Homedieu, immediately under the saloon. Mr L'H had however, removed a portion, or all of the liquors from his cellar to a smoke-house in the rear. This was soon discovered, and the smoke-house invested; a heavy siege train opened on it. While the proprietor in front was parleying, a breach was made in rear of the magazine, and some daring woman in the crowd, clove the barrel head with the battle axe, and Otard Brandy flowed in a small torrent.

Mr. L'H. was seen at the window in rear of his store in an attitude indicating further resistance, when a billet of wood, whether hurled by male or female hand, we did not learn, passed through the window, grazing his hat. It is said that if it had struck three inches lower, it would probably have caused serious if not fatal injury.

They proceeded next to Mr. John Tift's, who received them with extreme politeness, furnished a collation of dough-nuts and pies, and invited them to examine his premises. They found nothing except a few gallons of beer, the remnant of a barrel which they poured out.

At Rockwell's where ale had been sold, they found nothing whatever. They next passed to Jones "Variety Store" near the lower bridge.—He had prepared for the attack, and removed his liquors to the rear, and covered the casks, &c., with litter. While he was parleying with the main body, a detachment made a detour to the rear of the premises, and soon dislodged some two or three barrels of whisky, &c., which *presto*, was poured out, and ran in a cascade over the cliffs, into the rocky chasm of Cuyahoga, increasing the volume of *liquid* which pours over the precipitous rocks in the channel.

They next proceeded to Lindsay's on the other side of the street, near the bridge, but the whisky had escaped. They emptied a few bottles, which however, it is said, containing nothing but water.

They returned up the street, and halted at the American House, they proprietor of which, protests it was by far the most riotous assemblage that ever got within house demanding admittance to the cellar, which was refused, the demonstration became formidable.

Major Wetmore, one of the Magistrates, in pursuance of the statue, "made proclamation in the hearing of the offenders, commanding them to disperse and depart to their severel homes or lawful employments. The insurgent spirit was too high to be suppressed in this way, but an armistic was at length brought about, the landlord pledging his honour to sell no intoxicating liquors to people of the town.

Heath's Drug Store was next visited; they found the doors fast; preparations were made within, we learn, to employ various chemical compounds not commonly used in warfare, if the place had been carried by assault. But on receiving an assurance similar to that he received at the Hotel, the besiegers withdrew.

The whole of the successive movements occupied about three hours. During this time the excitement was excessive. The only formidable actual resistance was made by a champion of the garrison, who caught his hat full of whiskey as it flowed from a bung-hole, and threw it upon the assailing force, a fire which created great confusion in the column, for a moment, but they closed up and advanced in good order.

The names of the leaders of the force as given us, are of high respectability. They prudently kept their own counsels, their husbands even, not having the plan and time of assault confided them.—*Akron Beacon.*

IMPORTANT TESTIMONIAL.

31, Wine street, Bristol.

SIR,—It is with much pleasure I have to inform you of the benefit I received from your Lozenges. I was attacked with the typhus fever, during which time I had a violent cough, so that it kept me awake the greater part of the night. A friend persuaded me to try a box of your "COUGH LOZENGES" which I did and am happy to say that with only one box of your valuable compound I was quite free from cough.

You can make what use of this you please, for I think such valuable medicine ought not to go unnoticed.

I remain, Sir, your obedient Servant,

WM. T. TRUSCOTT.

THE RAILROAD.

The mismanagement in reference to this great Provincial undertaking—the first and we hope the last of Provincial jobs—carried on by the Government, still continues. After having located and built a costly station in the vicinity of the 9 Mile House, they find that the spot for a wharf is not only two miles below, but that the land can be got from a good conservative for nothing. What could ever have induced them to select the spot they did, is a matter of surprise to every one acquainted with that section of the country. The only solution is, that a member of the Legislative Council has a farm in the vicinity, but who, after having the station house built just on the spot which suited himself, informed the Commissioners that the land which they required for a roadway to the contemplated wharf could be had for £500. As the act under which the Railway is built, only provides for calling in the appraisers when land is taken for the track or station houses, the Commissioners found they were entirely at the mercy of their friend, and discovering that a more desirable spot could be obtained, and that for nothing, they have, after wasting some hundreds of pounds, determined to move a few miles nearer to the city. And thus they go on blundering away at the expense of the Public. There will shortly be more developments in reference to the Hampton station, as there are documents on that subject which must appear, and which will startle the public. Corruption, will it never cease?

We find it currently reported that the resignation of Mr. Wright is in the city. If correct, we can well understand why that gentleman should adopt that course. Last winter he saw enough of legislation to satisfy him that the members of the government are not those pure and spotless patriots which they made him and many others believe. He has found out that their promises to the public, like those to individuals, were made only to be broken. A voyage across the Atlantic is too much of a sacrifice to make for the benefit of men who have sacrificed their country; and although as a legislator we entertain a very humble opinion of his abilities, yet we believe him to be an honest man.

The Morning News remarks that the government have a majority of fourteen. Where were they last winter, when on every question affecting themselves they were only sustained by one or two? Mr. End's vote—the gentleman whom they have often treated with contempt—saved them twice: and only for the sudden flight of Mr. Tibbits on the eve of the close of the session, they would have been in a minority. There are men in the House on whose vote they can no longer count. When the next session comes, the fourteen of the News will turn out to be like the baseless fabric of a vision.

The independent press of New Brunswick are united in pronouncing the doom of the present Government as speedy and certain, for they have gone so far that to win their way again to public confidence is a thing impossible. Affecting to be Liberals, they in all their actions have showed that they are entire strangers to every thing of the kind. Even the Morning News has the manliness to allow that they have fallen far short of their professions. The only paper of any standing that advocates their drooping cause, is the one which is fed with the government spoon, and the editor of which is an expectant of some of the spoils.—The motives which actuate him are so well known that no one puts the least confidence in anything coming from his pen. We only wonder that the proprietors of the oldest paper in the Province should tolerate a scribbler whose motives are so well understood. He is an office seeker, and expects by abusing his superiors to obtain his price from his masters. This is the man who undertakes to be the leader of the Smasher party, and with such a guide it is no wonder that a strong current has set in which must sweep them all into retirement.

The question is often asked—who is Mr. Reading? The only answer we can give, from what we can learn of his antecedents, is, that some years ago he held to what in the old country are called Chartist principles; and that he imbibed his New Brunswick politics from the editor of the Westmorland Times, who now holds the post of baggage master, he being one of the Jardine kidney. He appears to have been sent forth on the mission of seeking a seat in our Provincial Legislature by the select few who pull the government wires in Princess street. From what we can learn the bulk of the Smashers know nothing of him, and from the way in which they have been deceived by their friends in power, they are not at all ready to vote as the young men in the Judge's building require them.

The following sensible article we take from the *Investigator* published at Indian Town.

"THE LAND DAMAGES.—The city papers, weekly and tri-weekly, have teemed, and are teeming with articles, statements, and counter-statements, on this question. We have read what has been said on both sides, and from all we can glean cannot see wherein the claimant, Mr. Gray, is to blame The facts, so far as we understand them, stand simply thus:—Mr Gray signs a Bond to a private company, *giving* said Company a right of way through a portion of his property for the purpose of a Railroad. In process of time the work commences, and in process of time the work ceases. From a private Company, it becomes a Provincial Work—hence, the favour bestowed to the Company to encourage the same in their undertaking, and perhaps as well, to increase the value of the property through which the Railway would run, is no vested in the Company—with the failure ceases the boon, and the Land again reverts to the original owner. Now, stripping the subject of verbosity, and viewing it in an easily comprehended light, what right has the Province to hold Mr. Gray bound to bestow to it the right of way, simply because, he had heretofore given it to a private Company! If Mr Gray thought proper to bestow a portion of his property to any man, men, or Company—the prerogative was his; and, it would be strange logic to argue that, because the gift once bestowed, reverted to the Donor, he must therefore give it away again! Mr Gray has therefore, as owner of the property, laid claims for damages, as a provincial undertaking; and having done so, some of the many writers on the subject charge him with 'a desire to 'fleece the province.' There is no necessity for such a charge, no more than there is, for raising such a whirlwind storm of words on the subject. Let us suppose, and at the most it is only *supposition*, that it is Mr. Gray's desire to 'fleece the people'—do not the appraisers step in between the people and the claimant? Can Mr. Gray, by instituting a claim, receive it, unless awarded him by those who are the sworn judges in the matter—sworn to decide whether Mr. Gray is, or is not, entitled to damages?

The Government has no right, on the part of the people, to ask Mr. Gray, or Mr. anybody, to give away his property. The Government, neither individually nor collectively would be so *very* generous—'noble disinterested patriots' tho' they are. The Province, however, will require all the gifts possible in order to satisfy the hungerings and the thirstings of the legion of political cormorants, who care not a farthing the Province sinks or swims, provided they get a goodly share of the '*pickings!*' Noble, disinterested Patriots! How we do honour thee!

FROM OUR LONDON CORRESPONDENT.

LONDON, June 18, 1858.

The world seems rather out of joint. Look where you will no nation is quite easy and content. In the old and new worlds there is noise, contention, brawling and bloodshed, or else that threatening which generally precedes all this. Mexico is in arms because certain British vessels, endeavouring to put down an illicit and horrible traffic in human flesh and blood, boarded certain ships belonging to the United States, suspected of being Slavers. In the South American Republics there is battle and revolution, but that is the usual condition of those regions. In Naples the state of things is somewhat re-assuring, King Bomba having given up the Cagliari and its crew to Sardinia (through our consul), and having determined to give £3,000 as compensation to Pacifico and Watt. But though this affair is settled for the present, no man can tell how soon Italy may be disturbed.—Candia is in revolt, the Montenegrin territory is disputed ground, and the "sick man" seems again on the verge of dissolution. And coming nearer home we find France protesting that she is not arming, but her neighbours nevertheless taking precautions, the only justification of which is their belief that the Imperial army and navy are a good deal stronger than they need be if meant only to defend the French territory.

Lord Palmerston is not treated with any great respect by his "subjects" in the House of Commons. Indeed, after the manner in which defunct monarchs are used, the ex-Premier seems rather neglected and ill-used than otherwise. The government are carrying it all their own way. In spite of the general dissent which seemed to be expressed some time ago at the principle of election in regard to the Indian Council, the House of Commons on Monday at the bidding of Mr. Disraeli adopted that principle. Lord John Russell and Lord Palmerston were both defeated on this point, and last night the system of "neutralons" being abandoned the government brought in a dash bill. The House of Lords on Tuesday passed the Property Qualification Bill, after a faint protest from Lord Ravensworth, while in the other House Mr. Townsend, the member for Greenwich, was ignominiously excluded from its deliberations. The honourable member has been adjudicated a bankrupt, and by the law in such a case declares that he shall be incapable of sitting and voting, and if at the end of a twelvemonth the commission is not superseded the seat becomes *ipso facto* vacant, and a new writ must issue. Mr. Townsend made a humble speech, appealed to the expressed wishes of the 30,000 inhabitants of Greenwich, and then retired with dignity from the House, after which several of his recent votes were, on the motion of the relentless Mr. Fitzroy, expunged from the journals.

The Queen's visit to Birmingham on Tuesday was a grand event in the history of that borough. Its only other Royal visitor was Charles, who came with cannon and troops, and knocked the town about rather unceremoniously. The streets through which the procession was to pass presented a spectacle in which masses of human beings, flags of all nations and colours, banners of all sizes and with all kinds of mottoes, triumphal arches, evergreens, gas-burners gilding and new paint were predominant. Half a million of people, it was computed, "assisted" at the French say, in the ceremony, of whom 160,000 are reckoned to have been seated on the platforms erected on the line of route, for which accommodation they had handsomely paid. Another interesting feature was the congregation in one spot of 47,000 Sunday scholars, under the care of 4,000 teachers. These 47,000 little voices, led by 20 cornets, sang "God save the Queen" as her Majesty passed, and the royal possession was stopped to hear it, many people being affected to tears whilst this and other hymns were sung. Another remarkable attraction on the route was a grand arch surmounted by military trophies, exhibiting the various warlike productions of Birmingham. Four thousand pounds worth of guns, swords, and pistols arranged in monster stars.

Loss of the Pennsylvania—200 Persons Lost and Missing.

'Shove her up, Boys, for we are Scarcely Stemming the Current.' These were the words of command given by the engineer to the firemen of the Pennsylvania, about one minute before four of her boilders exploded, causing the death of at least 160 persons The steamer Pennsylvania left New Orleans on the 9th inst. for St. Louis, and at 6 o'clock on the morning of the 13th, (Sunday,) she was about 70 miles below Memphis, having then on board 450 souls. At that hour the engineer came round, and addressed to the firemen the language quoted above; and just as they had begun to put on additional wood, the explosion occurred. Nearly all the cabin passengers were in their state rooms, and the cabin was torn to pieces forward of the wheel-house.—Fire did not break out at first, but when it did, the flames, owing to some combustible fluid in the hold, almost instantly enveloped the whole boat. Those of the passengers and crew who had not been killed or entirely disabled by the explosion, jumped from the burning steamer upon a wood-boat, and 182 escaped on the wood-boat, and 70 escaped in various other ways, leaving 200 as the number lost or unaccounted for. Those saved were landed on Ship Island, from which eight hours after they were taken by the steamers Imperial, Diana and Frisbee, and carried up to Memphis and St. Louis. The full account of the catastrophe discloses the most dreadful details.—A gentleman and his wife were burned alive in the cabin, the ruins having fallen upon them, with a boiler on top of the fragments. A Catholic priest was so scorched and scalded that he looked like a negro, and his lower extremities were literally boiled. A tall gambler from Texas was among the lost. Many of the deck passengers lost their lives by delaying to leave the boat until they had tried to pick out their baggage. The cabin passengers who escaped made no attempt to secure their effects.—Nearly all the deck hands were killed or missing. The captain was the only officer neither killed nor wounded. Only one fireman was saved. The engineers and pilot all killed or missing. The Pennsylvania drifted down about two miles and a half, where being stopped by tow-head, she speedily burnt to the water's edge.—*Boston Courier.*

MASONIC.—We are indebted to Mr. Edward Willis, the publisher, for the 1st No. of the second volume of the *Freemason's Monthly Monitor*. It contains much valuable information concerning the workings of the craft, interesting to members of the fraternity, and those favorable to the institution. We learn from the *Monitor* that the Masonic body in St. John have engaged the services of Mr. Rand, of Maine, to lecture on Masonry in this Province.

The Eruption of Vesuvius

The terrible eruption of Mount Vesuvius which commenced on the 26th of May, was still active at the latest advices. The following extracts from our correspondence of the London *Times* show the character and progress of the eruption:—

Naples, May 31.

Since Saturday the eruption has proceeded with constantly increasing violence, and has presented at night a more and more magnificent spectacle. In my last letter I mentioned that there issued from the great basin of fire in the Atrio a single stream of lava, which, after a tortuous course, was descending the declivity of the mountain. This stream has continued its course, varying in breadth according to the accidents of the ground, and seems now to direct itself to a point between Portici and Torre del Greco, but much nearer the latter than the former. It approaches close to the scattered farm-houses which lie above the towns at the foot of the mountain, many of which it can scarcely fail to destroy.

In the afternoons of Saturday and Sunday two other streams of lava broke out of the great basin, and are descending the mountains toward the neighborhood of Portici. These streams seem to follow the directions of ravines, which run nearly parallel to the ridge on which the Observatory and the Hermitage stand. These buildings have been hitherto saved from submersion by the lava by their great elevation, the fluid naturally following the direction of the lower ground at either side of them.

Last night the spectacle was peculiarly grand and imposing. The lava was poured in increased quantity along each of the streams already established, and being in a high state of incandescence, presented a peculiarly splendid appearance.

The Hermitage, which is close to the great basin of craters and rivers of lava, is approached by a tolerably good carriage road, and as may be supposed, hundreds of vehicles of every description, from the calesche of the millionnaire to the humble corricolo, are collected there towards midnight. Donkey parties abound, of which ladies do not fear to form a part.

June 1.—The state of the mountain last night was nearly the same as on the night preceding the eruption, perhaps, being a little less violent. The great streams of lava already described continue to flow slowly in the same direction. Part of the extraordinary splendor of the spectacle on Sunday night was due to the burning of a forest, over which the lava passed. The Neapolitans congratulate themselves on the circumstance of the lava having been directed into so many different streams; for it, as in former eruptions, it had all been thrown into one channel, the destruction which must have ensued would have been tremendous

The lava begins where it did in 1855. At the end of one of the streams of lava, that on the Castellamare side of the Hermitage, there has been a ceremony, I suppose to stop the lava. There were a saint and some priests in attendance.

PIRATES ON THE MISSISSIPPI.

Summary punishment by a Vigilance Committee.—In our last issue we gave a brief account of a system of thieving that seemed to have been carried on in this vicinity for the last few months.—We now have the gratification of announcing the discovery of some of the robbers, and the rescue of a large amount of merchandise belonging to the neighbourhood.

The rendezvous of the robbers of the Upper Mississippi has been, for a year past, the Old Ferry building, on the West side of the river from Prairie du Chien upper ferry. At that place goods have been stored from points as high up as La Crosse, and if the statement of the prisoner can be relied on, there have been fitted out at that place more expeditious than one to the lower river.

* * * * * * *

A jury of twelve citizens were appointed to consider the evidence against the prisoners, and report the sentence to the meeting. They retired to the jury room, and after being out about half an hour made the following report:—

Your committee, in giving in their report, beg leave to state that they have reviewed the case of every prisoner separately and carefully; that those whom they have dealt leniently with, they believe to be entitled to mercy; and that those whom they have sentenced severely, they believe merit their punishment. They have to report,

That Thomas Collins and Thomas Lee be discharged from custody immediately, as persons entirely free from guilt.

That Ed. Pardee is a young man whose greatest crime is having been caught in bad company; that he be given into the hands of three of our respectable, substantial citizens, to be talked to about his error, and given some good advice.

That this negro Tony be sent out of town, and advised not to come back during the remainder of his natural life.

That Charles Williams, William Charles, John Dougherty, George French, Michael Fegan and George Steele, have been proven to be hardened, desperate characters, guilty of the crime charged against them, and that they have their heads shaved, receive from ten to thirty lashes on the back, and be sent down the river; and be informed that if they are ever caught here again they will be dealt with as they deserve.

That the negro Geo. Robinson, shall shave the heads of the other prisoners and leave town in ten hours, and be informed if he ever is caught here again he will receive 25 lashes.

The report of the jury was accepted by the meeting with acclamation, and the jury discharged

The whole proceedings were executed without excitement or opposition; and they assembly dispersed, satisfied that what had been done was right, and determined in the future to prevent thieves from making their stopping place in this quarter.

FATAL HOAX.—A Sheffield paper says that a gentleman in that town has received a letter from a friend in Northampton, containing the following:—"A singular circumstance happened at our union last week. For some misconduct the master had put a boy for punishment into the deadhouse.—At that time there was a corpse in the 'dead ward,' in a coffin. The boy took the corpse out of the coffin dressed it in his own clothes, wrapped it up against the wall, and then himself got into the coffin laid down, and covered himself over. In the course of a short time the master came, looked in at the door, and saw, as he thought, a skulky lad standing against the wall 'Now,' said the master, "do you want any supper?" Tehr was no answer. The question was repeated with the same result. The boy looked out from the coffin and said. "If he won't have any I will." The master fled under terror, and received such a shock that it is said he has since died from the effects."

A LARGE FERRY.—The Boston Herald says—that the Bay of St. Lawrence and along the coast of the British Provinces, will be blockaded during the present summer by some six hundred sail of fishing vessels from Massachusetts. The tonnage of the whole fleet amounts to upwards of sixty thousand, manned by about six thousand men, and valued, with their outfits, at more than three million seven hundred thousand dollars.

Gloucester will fit out more than one half of the whole number sailing from sea-port towns in the State. The Gloucester vessels are mostly clipper built schooners, fast sailers, and well found in every thing appertaining to the business of "Mackereling in the Bay."

The State of Maine will also probably have 300 sail of vessels engaged in the mackerel fishery on the North East coast. We hope that the present season will be a prosperous one for all those engaged in the mackerel fishery.

Suttie's iron foundry at Yarmouth, N. S., was burned down on the morning of the 22d ult. It was insured to the extent of £400.

"THE BROTHER'S PRIDE."—We understand the ship bearing that name building by Messrs. W. & A. Boultenhouse, for C. Boultenhouse, Esq. is to be launched to-morrow, (Saturday, 26th instant,) Any person who takes pride in the symmetrical form of Colonial ships, or is at all interested in Naval architecture, will be well paid by visiting this noble vessel. She is a first class 7 year ship 1250 tons register tonnage, is built of the best materials the country can afford. Her frame is of tamarack; beams, keelsons, ceiling, and a large portion of her outside plank, is of Southern pitch pine, treenails tamarack and locust. She is iron strapped on the outside before planking, has iron knees of great strength, which were manufactured at Woodstock Iron, at the works of the St. John Iron Foundry Company; is thoroughly copper fastened; her cabins are being fitted up in the best style, and large State-rooms, splendidly finished for Passengers, by Mr. Hugh Spence, an experienced joiner. Altogether, she is a very substantial and well finished ship, reflecting great credit on her master builder, Mr. Wm. Boultenhouse, one of the above enterprising firm, who modelled and superintended her construction. She has been built under the special survey of Mr. J. Tucker, Lloyds surveyor, and will have a certificate of classification before leaving the Provinces.

The Messrs. Boultenhouse have also another vessel in course of building, and have upwards of 60 men employed.—*Saint John Bulletin.*

THE ANSWER, OR FOOD CONSUMED BY A MAN DURING HIS LIFETIME.—M. Alexis Soyer the celebrated professor of gastronomic art entered into a calculation which he published in the London Times as to the amount of flesh, fish and fowl eaten by a man in an average lifetime, and among the items we find the following enormous quantities:—

30 oxen, 200 sheep, 100 calves, 200 lambs, 50 pigs; in poultry 1200 fowls, 300 turkeys, 150 geese, 400 ducklings, 263 pigeons, 1,400 partridges, pheasants and grouse, 600 wild pigeons and teal, 450 plover, rails, and reeves; 800 quails, ortolans and butterills, and a few guillemots and other foreign birds; also 500 hares, and rabbits, 40 deer, 120 guinea fowl, 10 peacocks, and 360 wild fowl. In the way of fish 120 turbot, 140 salmon, 110 cod, 260 trout, 400 mackerel, 300 whitings, 800 soles and dips, 400 flounders, 400 red mullet, 200 eels, 150 haddock, 300 herring, and 5,000 smelt; and some hundred thousand of those delicious whitebait, besides a few hundred species of fresh water fished. In shell-fish, 20 turtle, 30,000 oysters, 1,500 lobsters or crabs, 200,000 prawns, shrimps sardines, and anchovies.

ASHES AND PLASTER FOR CORN.—We only remind farmers, of what most of them know already, that if they wish to help forward their corn crop, they would do well to apply at the first and second hoeings, a handful for each hill, of plaster and ashes. Mix them at the rate of one part plaster to five of ashes. The effect of this application will be most conspicuous on dry sandy soils; but it will not be invisible anywhere Don't forget to give your Chinese Sugar cane the benefit of this treatment.—*American Agriculturist.*

QUALIFICATIONS OF A WIFE.—"If you marry," said an uncle, "let it be a woman who has judgement enough to superintend the work of her house—taste enough to dress herself—pride enough to wash herself before breakfast—and sense enough to hold her tongue when she has nothing to say.

CANADA.—Thomas Scatcherd, representation in parliament for West Middlesex, died a few days ago. He was a prominent member of the Liberal party.

A dreadful fire, caused by the clearing of lands, has occurred in the County of Chicoutive, spreading over nine Townships, consuming all before it, and rendering desolate and houseless over 100 families, equal to 700 persons.

U. S. CONGRESS.—Congress, after a session of 6 months, has adjourned without the usual scenes of disorder, attendant on the closing of the house. The session was about 2 months shorter than usual.

We learn that on Thursday morning, about 3 o'clock, a woman residing near the Marsh Bridge, named Mrs. Murphy, was burnt so badly while attempting to light a fluid lamp that she expired after a few hours suffering. She was about 70 years of age.—*N. Bruns.*

ORANGEISM.—The Rev. Nassau C. Gowan has been elected Grand Secretary of the Orange Society of British North America. The Rev. gentleman is announced as the candidate for representation in parliament for West Middlesex, C. W.

12TH OF JULY.—We are requested to state that there will be a Supper given in the Orange Hall, Brussells street, on the evening of the 12th of July, under the auspices of Queen's Lodge, No 13. Tickets may be had from the Secretary, Mr. A. McFarlane.

P. E. ISLAND.—The nomination throughout the island passed off quietly, with the exception of a disturbance at Georgetown, and an attempt in Charlottetown to prevent some of the Candidates from having a hearing.

A fire occurred on Wednesday evening at the Long Wharf, in Portland, when a quantity of lumber belonging to Messrs. Kirk & Worrall was destroyed.

SUPREME COURT—TRINITY TERM.—Wm. Wedderburn, Require, an Attorney of this Honorable Court, is called to the Bar, and sworn and enrolled a Barrister.

Charles Nelson Skinner, and John Kirby, A. B. having produced the requisite certificates, are admitted, sworn and enrolled Attorneys of this Honorable Court.

Died.

On Monday evening, Jessie Elizabeth Lawton, only daughter of Mr. Robert Scott, aged 1 year and 9 months.

Monday evening, Robert James, aged 3 years and 9 months, second son of Robert and Annie Scott.

Last evening, Isabella, wife of the Rev. Samuel Robinson, in the 57th year of her age. Funeral on Saturday at 3 o'clock, p. m., from the corner of Union and St. Patrick street.

Yesterday morning, after a lingering illness, of consumption, Mr. Jonathan Cassidy, in the 29th year of his age, leaving a wife and one child to mourn their loss. Funeral on Sunday next, at 3 o'clock, from the residence of Mr. R. Hefter, 87 Sydney street.

At River Philip, 20th June, Mary Siddall, relict of the late Francis Siddall, aged 77 years.

In Toronto, on the 17th instant, aged 3 years and 9 months, Mary Anne Henderson (Lili) the youngest daughter of Mr. P. LeSuer.

HOLLAWAY'S OINTMENT AND PILLS.—By a special ukase of the late Emperor of Russia, these medicines have been admitted into the public hospitals throughout the Empire. The Pills are used in the Russian army as a specific for cholera and diarrhœa, and the Ointment as the best dressing for wounds.

Sold at the manufactory No. 80 Maiden Lane, New York, and No. 244 Strand, London; and by all druggists, at 25c., 62 1-2c., and $1 per box or pot.

SOUND AND WHITE TEETH

Are indispensable to PERSONAL ATTRACTION and to health and longevity, by the proper mastication of food.

ROWLANDS' ODONTO,
OR PEARL DENTIFRICE,

A WHITE POWDER, is composed of the Choicest and most recherché Ingredients of the Oriental Herbal. It eradicates all tartarous adhesions to the Teeth, and imparts a PEARL-LIKE WHITENESS to the enamelled surface. Its ANTI-SEPTIC and ANTI-SCORBUTIC PROPERTIES exercise a highly beneficial and salutary influence; they arrest the further progress of the decay of the Teeth, induce a healthy action of the Gums, and cause them to assume the brightness and colour indicative of perfect soundness, while, by confirming their adhesion to the Teeth, they give unlimited enjoyment and fresh zest to repetite, by perpetuating effective and complete mastication. The Breath, also, from the salubrious and disinfecting qualities of the ODONTO, attains a sweetness and fragrance truly grateful to its possessor.

As the most efficient and fragrant aromatic purifier of the Breath, Teeth, and Gums ever known, ROWLANDS' ODONTO has for a long series of years occupied a distinguished place at the Toilets of the Sovereigns and the Nobility throughout Europe; while the general demand for it at once announces the favour in which it is universally held. Price 2s. 9d. per box.

CAUTION.—The words "ROWLANDS' ODONTO" are on the label, and "A. ROWLAND & SONS, 20, Hatton Garden," engraved on the Government Stamp affixed on each box. Sold by them, and by Chemists and Perfumers.

The Growth, Restoration, and for Improving AND BEAUTIFYING THE HUMAN HAIR,

Proved beyond question by its successful result, for more than HALF A CENTURY past, and when every other specific has failed. It prevents it from falling off or turning grey—strengthens weak hair, cleanses it from Scurf and Dandruff,—and makes it beautifully soft, curly, and glossy. Its operation in cases of baldness is precisely similar; and in the growth of Whisker, the Beard, and Mustachios, it is unfailing in its stimulative operation. For Children it is especially recommended, as forming the basis of a fine head of hair. Its invaluable properties have obtained the Patronage of Royalty, and the Aristocracy throughout Europe; while the high esteem in which it is universally held, with numerous Testimonials constantly received of its efficacy, afford the best and surest proofs of its merits.—Prepared only at 20, Hatton Garden, London, in four sizes, viz., 1s., 2s. 6d., and 7s. Family Bottles (equal to four small), 10s. 6d.; and double that size, 21s.

CAUTION.—On the wrapper of each bottle are the words—ROWLANDS' MACASSAR OIL, &c., in white letters, and their signature, "A. ROWLAND and SONS," in Red Ink. Sold at 20, Hatton Garden, London, and by Chemists and Perfumers.

CURTIS ON MANHOOD—SHILLING EDITION.
A MEDICAL ESSAY ON SERIOUS AND GENERATIVE DISEASES.

Just Published, the 17th Thousand, with numerous plates, in a sealed envelope, price 1s., or sent post-paid by the Author, to any British possession for 14, St.

MANHOOD: the CAUSE and CURE of PREMATURE DECLINE, with plain Directions for PERFECT Restoration to Health and Vigour; being a Medical Review of the various forms and modern treatment of Nervous Debility, Impotency, Loss of Mental and Physical capacity, whether resulting from Youthful Abuse, the Follies of Maturity, the Effects of Climate, or Intemperance, &c.; with Observations on a new and successful mode of detecting Spermatorrhœa, and other Urethral Discharges, by Microscopic Examination; to which are added, Curious and Interesting Cases, with the Author's recipe of a Preventive Lotion.

By J. L. CURTIS, Surgeon, 15, Albemarle-street, Piccadilly, London.

CURTIS ON MANHOOD.—The professional reputation of the Author, combined with his twenty years' experience as a medical adviser in the treatment of nervous debility, &c., fully accounts for the immense circulation which this work, the only one which medical testimony has obtained.—Sunday Times, 23rd March, 1857.

"CURTIS ON MANHOOD.—It is the duty of all men to study the laws of their body, no less than those of their mind. In the pages of this work will be found a plain guide for preserving the one and preserving the other.—Mark Lane Express, March 23rd, 1857.

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful—whether such a person be the relation of a parent, preceptor, or accoucheur."—Sun, Evening Paper.

A BEAUTIFUL COMPLEXION,
AND SOFT AND FAIR HANDS AND ARMS,
Are fully realized and sustained by the use of
ROWLANDS' KALYDOR,

An Eastern Botanical Preparation, perfectly free from all mineral or metallic admixture. It is distinguished for its extremely bland, purifying, and soothing effects on the skin; while, by its action on the pores and minute secretory vessels, it promotes a healthy tone, allays every tendency to inflammation, and thus effectually dissipates all redness, tan, pimples, spots, freckles, discolorations, and other cutaneous vitiations. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation, and removing cutaneous eruptions, render it indispensable to every toilet.

It obviates all the effects of Climate on the Skin, whether with reference to cold and inclemency, or intense solar heat, and affords immediate relief in cases of sunburn, stings of insects, or incidental inflammation. Gentlemen after shaving will appreciate its soothing and ameliorating properties.

Its purifying and refreshing properties have obtained its selection by Royalty and the Aristocracy of Europe, and it is universally in high repute, from the sultry climes of India to the frozen realms of the Czar.

Price, 4s. 6d., and 8s. 6d. per Bottle.

CAUTION.—The words "ROWLANDS' KALYDOR" are on the wrapper of each bottle, and their signature, "A. ROWLAND & SONS" in red ink, at foot. Sold at 20, Hatton Garden, London, and by Chemists and Perfumers.

HEALTH OR SICKNESS!
CHOOSE BETWEEN THEM.

HOLLOWAY'S PILLS

The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

USED THROUGHOUT THE WORLD.

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race and in disorders peculiar to certain climates and localities.

ALARMING DISORDERS.

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives, in all cases, however aggravated, acting as a mild purgative, alternative and tonic; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

GENERAL WEAKNESS—NERVOUS COMPLAINTS.

When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

DELICATE FEMALES.

All irregularities and ailments incident to the delicate and sensitive organs of the sex are removed or prevented by a few doses of these mild, but infallible alteratives. No mother who regards her own or her children's health should rest in peace when these are within her reach.

SCIENTIFIC ENDORSEMENTS.

The London "Lancet," the London "Medical Review," and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma	Female Complaints	Piles	
Bowel Complaints		Stone and Gravel	
Coughs	Heaches	Symptoms	
Colds	Indigestion	Secondary	
Chest Diseases	Influenza	Venereal Affections	
Costiveness	Inflamation	Worms, of all kinds.	
Dyspepsia	Indward Weakness		
Diarrhœa			
Dropsy	Liver Complaints		
Debility			
Fever and Ague	Downess of spirits		

Sold at the Manufactories of Professor Holloway, 80, Maiden Lane, New York, and 244 Strand, (near Temple Barr, London,) by all respectable Druggists and Dealers in Medicines throughout the United States and the civilized World, in boxes at 25 cents, 62½ cents, and 1$ each.

☞ There is a considerable saving by taking the larger sizes.

N.B—Directions for the guidance of patients in every disorder are affixed to each Box.

***FRESH SE

WHOLESOME EDUCATION.

That excellent fellow, and good man the lamented Thomas Hood, has said: "Of all the know-nothings persons in this world commends us to the man who has 'never known a day's illness.' He is a moral dunce: one who has lost the greatest lesson in life, who has skipped the finest lecture in that great school of humanity, the sick chamber. Let him be versed in mathematics, profound in metaphysics, a ripe scholar in the classics, a bachelor of arts or even a doctor of divinity, yet is he as one of those gentlemen whose education has been neglected. For all this college acquirements, how inferior is he in wholesome knowledge to the mortal who has had but a quarter's gout or a half-year's ague!—how infinitely below the fellow creature who has been soundly taught his tic-doulou-reaux, thoroughly grounded in the rheumatics, and deeply red in the scarlet fever! And yet what is more common than to hear a great, bulking florid fellow bragging of an ignorance, a brutal ignorance, that he shares in common with the pig and the bullock, the generality of which die, probably, without ever having experienced a day's indisposition.

It seems that the aspect of affairs in the United States is not very favourable to the continuance of the union between the North and South. A Washington correspondent of the *New York Commercial Advertiser* says:—There is no mistake as to the fact a very bad state of feeling exists among the Southern politicians who are here. They are dissatisfied with the Union and no disposition of the Kansas question will conciliate them. The tone of Southern legislative bodies is of the same character. Mr. Stuart, who is a member of the Virginia Legislature, and was a member of President Fillmore's Cabinet, and by no means an inconsiderate man, in a speech in the Legislature, lately, upon the subject of the internal improvement system, spoke of the dissolution of the Union as a thing about to take place, and though rather sorry for it himself, he wished to direct the internal feelings of Virginia in accordance with it, and instead of giving advantages to Baltimore, to bring trade down from the Ohio to Norfolk, from which port the French line of steamers is to depart. The approaching dissolution is now spoken of in private social circles in the South as a matter which is settled, and is soon to come off. The rejection of the Kansas admission Bill was to have been the signal for the withdrawel of the Southern delegates, but as there is no prospect of that, another issue is to be made. Members declare freely that the interests of the South require seperation. If that be the case, they will not hesitate to withdraw. I have no doubt that they are in earnest. They see that they cannot resist the laws of population and commerce and climate, and that slavery must be confined to the limits of the cotton, rice, sugar, and tobacco growing states. They see that with the necessary increase of the number of free states they will lose they control of Congress and of the General Government.—They do not expect to retain a control of the House after the present term; and by 1860, they expect to witness the election of a President on sectional grounds. They may be mistaken as to this, but they are very confident of the issue in 1860. It is a mistake to suppose that the Southern members in Congress, or any considerable number of them, are friendly to Mr Buchanan or the Administration. On the contrary whatever he may chose to do Kansas, they are prepared, the moment that question is disposed of to open a severe battery against his Central American and anti-filibuster policy. They are favourable to his Nicaraguan treaty, because it will include a settlement of Central America by Southern agriculturists, mechanics, manufacturers, &c. If Mr. Buchanan had let Walker alone, they would have established slavery there, and acquired the country as slave holding territory. Independently of the Union, they think they will have a better chance than with it to acquire land in any other slave-holding region.—These matters are of so much moment that they will necessarily influence the action of Congress upon every important subject before them—the army bill, Pacific railroad bill, territorial bills, admission of new states revenue measures, &c.

RACHEL'S FORTUNE.—A correspondent of the *Independence Belge* gives the information that the fortune left by Mdlle. Rachel will amount to 1,200,000f., without counting her jewels which are of great value. This fortune is divided in half, between her family, ascendent and descendent, with the exception of a legacy of 6000f. to her sister Sarah, and an annual pension of 600f. to her maid Rose. There should be also about 300,000f. on her own life, with reversions on her children but it is not known if the proper forms have been regularly complied with. It is supposed, in fact, that the death of Mdlle, Rachel will in one way or other give rise to a lawsuit.

LIFE IN THE MIDDLE AGES.—Rude were the manners then; aman and his wife eat out of the same trencher; a few wooden handled knives, with blades of rugged iron were a great luxury for the great—candles were unknown. A servant girl held a torch at supper; one or two mugs of coarse earthenware formed the drinking apparatus in the house. Rich gentlemen wore clothes of unlined leather. Ordinary persons never touched fresh meat. The nobility drank little or no wine in the summer; a little corn seemed wealth. Women had trivial marriage portions, even rich women dressed extremely plain. The chief part of a family's expenses were what the males spent in arms and horses, none of which, however, were very good or very showy; and grandees had to lay money on their lofty towers. In Dante's comparatively polished times, ladies began to paint their cheeks by way of finery going to the theatre, and to use less assiduity in spinning and playing distaff. What is only a symptom of prosperity in large, is the sure sign of ruin in the small States. So in Florence we might very well deplore what in London or Paris would be praised or cause a smile. Wretchedly, indeed, plebians hovelled; and if noble castles were cold everywhere, they were infinitely worse in Italy from the horrible modes of torture and characteristic cruelty, too frightful to dwell on. Few of the infamous structures built at the time of stand, at present yet their ruins disclose rueful corners.

PARAFINE.—The bogs of Ireland, it is stated are being made to furnish candles of as pure parafine as American coal. There are no less than 3,000,000 acres of this peas land in Ireland, and the yield is as good at so much coal would be expected to give. The candles are now being burned in Great Britain, and are said to be as good as wax.

The China mail has brought correct statistics of the tea trade for the past year. The total export were 35,500,000 pounds last against 42,000,000 pounds last year, and 54,800,000 pounds at the same period of 1856.

The American ship *William Singer*, bound from Callao for London with guano went ashore at Brook, Isle of Wight, but was towed off and taken to Cowes, leaking badly.

A MEDICAL REVOLUTION

THE WORLD ASTONISHED.

HOLLOWAY'S OINTMENT.

THE GREAT CONQUEROR OF PAIN!

The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the severed earth diffusing its cool and regenerating influence.

SKIN DISEASES & GLANDULAR SWELLINGS.

Every species of exterior irritation is quickly reduced by the anti-inflamatory action of this Ointment, Angry ERUPTIONS, such as SALT RHEUM, ERYSIPELAS, TETTER, RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or ITCH) &c., die out, to return no more under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES, AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS, RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and Pills should be used on the following cases:

Bunions,	Rheumatism,	Sore Throats,
Burns,	Ringworm,	Sores of all kinds
Capped hands,	Salt Rheum,	Sprains,
Chilblains,	Scalds,	Stiff Joints
Fistula,	Skin Diseases	Tetter,
Gout,	Swelled	Ulcers,
Lumbago,	Glands,	Venereal Sores,
Mercurial	Sore Legs,	Wounds of all
Eurptions,	Sore Breasts,	kinds.
Piles,	Sore Heads,	

☞ Sold at the Manufactories of Professor HOLLOWAY, 80, Maiden Lane, New York, and 244 Strand, London, by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in pots, at 25 cents, 62½ cents, and 1$ each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

S. L. TILLEY, *Provincial Agent*, No. 2, King Street, St. John, N. B.; A. Coy & Son, Fredericton; W. T. Baird, Woodstock; Alex. Lockhart, Quaco; James Beck, Bend of Petitcodiac; O. K. Sayre, Dorchester; John Bell, Shediac; John [illegible]is, Hillsborough; John Cutty, Canning; and [illegible] G. White, Belleisle.

☞ CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK & LONDON," are discernible as a WATER-MARK in every leaf of the book of directions around each pot or box—the same may be plainly seen by "holding the leaf to the light." A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

TAXES FOR 1858.

THE Assessors of Rates and Taxes for the City of Saint John hereby give notice, that the Assessments for the present year are now being made up. By the Law regulating the assessments of Rates and Taxes, any person liable to be assessed, may, within thirty days after the publication of this notice, furnish the Assessors, with a statement, on oath, in writing, of his Real Estate in the City, and of his Personal Estate, and of his Income, specifying therein the value of the Real Estate, and the amount of his personal Estate and Income—and such person shall be rated accordingly.

The Assessors request that all persons having transferred, sold or disposed of, or purchased Real Estate in the City, will give early information thereof, in order that the said respective Properties may be correctly entered on the Assessment Lists.

The following sections, from the Revised Statutes, are published for general information:—

"Every male person of the age of twenty-one years or upwards; being a British subject, and not subject to any legal incapacity, who shall have been assessed for the year for which the Registry is made up, in respect of Real Estate, to the amount of twenty-five pounds, or Personal Property, or Personal and Real, amounting together to one hundred pounds, or one hundred pounds annual Income, shall be qualified to vote for the Representatives of the County or City for which he shall be assessed."

"For the purpose of Assessment, every person carrying on business in the Parish shall be deemed an inhabitant thereof." (sec. 19, c. 53, Revised Statutes.)
