THE MONTREAL COURIER.

MORNING EDITION—MONDAY, DECEMBER 8, 1851. [VOL. XVII.—NEW SERIES, No. 495.

PRICE TWO-PENCE.]

ANGEL HOTEL,
DALE STREET,
LIVERPOOL.

S. TOWERS, Proprietor of the above Hotel, begs most respectfully to inform the Citizens of the United States and Canada that the "Angel Hotel" is a First Class Establishment. Great improvements and alterations have recently been made, which render it equal to any House in Liverpool.

The Family Department of the Hotel will be found to embrace everything tending to comfort; whilst to Foreigners visiting Liverpool it presents additional accommodations, as a Suite of French, Italian, and German Servants form a portion of its arrangements.

The Hotel is situated within a few yards of the Exchange, and the principal business parts of the Town, and, within five minutes walk of the Docks, Custom House, and Railway Stations.

S. T. has been the Proprietor of the "Angel Hotel" twenty years, and for the last seven years the Proprietor of the Queen's Hotel, Manchester, which he is now giving up to devote all his attenties to the former, where he hopes to have that kind patronage he has so long been favoured with; assuring those who patronise him that every thing will be done to conduce to their comforts, and at moderate charges.

Warm Baths, Smoking Rooms, and Billiard Rooms, are on the premises.

N.B.—Captains of Ships will find this Establishment very convenient, being one of the nearest respectable Hotels to the Docks.

Liverpool, September, 1851. 444

TREMONT HOUSE,
BOSTON, MASS.

THIS well known Establishment is still conducted in the same manner it has always been. The central and pleasant situation of the house, its commodious arrangements, and the comforts and luxuries to be found there, combine to render it agreeable and advantageous to the traveller.

Having been one of the firm of John L. Tucker & Co., so long at the head of the Establishment, the Subscriber pledges his best exertions to maintain its reputation, and to give satisfaction to his Customers.

WM. H. PARKER.

Boston, September 15, 1851. 443

BUTLER, late Messman of the XXth Regiment, having REMOVED from St. Joseph Street, to more comfortable winter quarters, in St. LAMBERT STREET, near Musson's Corner, provides LUNCHEONS and REFRESHMENTS to suit all his Friends, at irresistible prices.

His Suppers are comforts which winter will show the public how to appreciate.

He still supplies private families with Dinners, Suppers, or other Entertainments with the economy and despatch which has heretofore given so much satisfaction to his Patrons.

N. B.—Oysters, Lobsters, and Prime Porter always on hand.

November 3d, 1851. 481

JUST RECEIVED:—
FRESH LOBSTERS and OYSTERS, by Express.

G. LULHAM.

SHAKSPEARE INN,
Montreal, Oct. 31, 1851. 430

FRANCISCO'S RESTAURANT.

THE Subscriber respectfully informs his Friends, and the Public generally, that he has constantly on hand a fresh supply of NEW YORK OYSTERS and LOBSTERS of the finest quality. He is also prepared to provide REFRESHMENTS of any description up to a late hour at night, and in a style not to be surpassed in this City.

F. FRANCISCO.
Bonaventure Street.

September 11. 426

COMPAIN'S RESTAURANT,
(*Place D'Armes.*)
BY JOHN O'HEARA,
LATE OF DOLLY'S CHOP HOUSE.

THE PROPRIETOR of the above establishment begs to inform his Friends and the Public, that it will be OPENED on MONDAY next, the 5th May, with a choice selection of WINES, LIQUORS, CHINA, &c. &c., and he trusts, by punctual attention to the wants of his Patrons, to merit a share of public patronage.

His LARDER will be supplied with the Best the Market affords.

LUNCHEON ready EVERY DAY at NOON as per Bill of Fare.

CHOPS, STEAKS, &c., at ALL HOURS.

May 3. 328

GRANT'S HOTEL,
ST. HENRY STREET,
MONTREAL.

THE Subscriber, in returning thanks to his numerous Friends and the Public, for their very liberal support during the last twenty years, begs to inform them that he is now ready for the reception and accommodation of the TRAVELLING COMMUNITY. Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself to have every thing as comfortable as any in Montreal.

CARRIAGES will be in attendance at the Steamboats and Cars, to convey parties to and from FREE OF CHARGE.

May 12. 333

THE HAYS' HOUSE,
CORNER OF DALHOUSIE SQUARE AND NOTRE DAME STREET,
IS NOW OPEN
FOR THE RECEPTION OF VISITORS.
G. F. POPE.

June 19. 364

THE PATENT LACTEAL.

THE Subscribers have received a supply of the "PATENT LACTEAL," or Artificial Breast, intended as a substitute for the ordinary Feeding Bottle. The Lacteal, by its peculiar form and adaptation, enables the Child to feed in the natural position. For convenience and utility, it surpasses anything of the kind ever offered to the Public.

—ALSO,—

The Patent India Rubber Breast Pump will be found to answer perfectly the purpose intended, without the least pain or inconvenience.

—LIKEWISE, JUST RECEIVED,—

The Patent Nipple Shields
Strong Glass Feeding Bottles
India Rubber Gum Rings and Rattles.

S. J. LYMAN & CO.,
Place d'Armes.

July 24. 394

PAYSON'S INDELIBLE INK.

THIS celebrated Ink has been in use during the past 17 years. It has been found the most ECONOMICAL, the most CONVENIENT, and the most PERMANENT ever offered to the public. As a proof of its value, there are no less than 15 COUNTERFEITS. The genuine is, however, easily known by the signature of the Proprietor.

A supply just received by

S. J. LYMAN & Co.,
Chemists,
Place d'Armes.

June 21. 366

POOR MAN'S FRIEND.

THIS CELEBRATED OINTMENT is daily effecting wonders in the Cure of *Old Sores, Irruptions of the Skin*, Piles, Burns, Scalds, *Sore Eyes*, Sore Head, &c., &c. Certificates may be seen, at the Agents, of Cures of a most extraordinary nature, effected in this city. It is, without doubt, one of the best Remedies ever offered to the Public. It has been in use over 20 years, and has Cured thousands.

The "Poor Man's Friend" is Sold in Pots at 1s. 9d. each.

S. J. LYMAN & CO.,
Place D'Armes,
Agents for Canada.

June 5. 352

FARE REDUCED
FROM
MONTREAL TO BOSTON.
RUTLAND & BURLINGTON RAILWAY.
FALL ARRANGEMENT.
Shortest and most Expeditious Route from Montreal to Boston.

In connection with the Champlain and St. Lawrence Railroad and the Steamers on Lake Champlain, forming the Great SOUTHERN RAILWAY ROUTE between Montreal and Boston or New York, and being the shortest, quickest, cheapest, and most direct Route to those Cities, for the Travelling Public, Greenfield, Springfield, Hartford, New Haven, and the several Towns in the Valley of the Connecticut River, or Worcester, Lowell, and intermediate places.

PASSENGERS leaving Montreal at 11, A. M., arrive at Rouse's Point by Cars, take Champlain Steamboat, and arrive at Burlington at 6, P. M.; leave Burlington at 6.30, P. M., and arrive at Rutland at 9—sleep. Leave Rutland at 7.30, A. M., and arrive at Bellows Falls at 9—Breakfast on board. Leave New York at 7, P. M., Fulton Ferry, foot of Fulton Street.

Passengers leaving Montreal at 5, P. M., arrive at Rouse's Point by Cars—go on board of Steamer *United States*, Captain Davis, which leaves on arrival of Cars, and arrive at Burlington same evening 10.30—sleep. Leave Burlington at 5.30, A. M., arrive at Bellows Falls 12.45, giving one hour for dinner and to view the beautiful scenery of Connecticut River, and reach Lowell, Worcester, and Boston, at 6.30, same evening, or New York at 11.30, same evening, passing down the Valley of the Connecticut, through Brattleborough, Springfield, Hartford, and New Haven.

Passengers for White Mountains will dine at Bellows Falls, and spend some three hours, take stages Bethlehem, arrive at Weld River the same evening, and thence to White Mountain next morning by splendid Stage Coaches. The Scenery on this Route is one well known to most lands for full puffing.

This is the only Route by which Passengers will pass on the splendid Lake Champlain Steamers, through the fair-famed and beautiful scenery of Lake Champlain, have a good View of Connecticut Head, and all the scenery of great historic interest, associated with the battles, by land and water, at Plattsburgh.

☞ Passengers taking this Route at Montreal, avoid all night travel between Montreal and Boston.

For further information, with Tickets, apply to M. E. Cancen, Agent, Custom House Square, Montreal, opposite Montreal House.

JOHN S. DUNLOP,
Superintendent.

Montreal, 1851. 442

NORTHERN TRANSPORTATION.

MERCHANDISE FORWARDED with despatch from BOSTON to ST. JOHNS and MONTREAL by the
RUTLAND & BURLINGTON RAILROAD.
O. P. SCONELL, Agent, Broad Street, Boston.
☞ Mark Packages "R. & B. Railroad," and send to Fitchburg Depot.
M. L. CHURCH, Agent,
Custom House Square, Montreal,
Opposite Montreal House.

September 17. 441

Northern Railr ad, N. Y.
Ogdensburgh and Rouse's Point.

ON and after WEDNESDAY, September 3rd, 1851, TRAINS will run as follows:—

Leaves Ogdensburgh at 8 o'clock, A. M.
Arrives at Rouse's Point at 1 o'clock, P. M.
Leaves Ogdensburgh at 1.30 o'clock, P. M.
Arrives at Rouse's Point at 6 10 o'clock, P. M.
Leaves Rouse's Point at 9 o'clock, A. M.
Arrives at Ogdensburgh at 2 10 o'clock, P. M.
Leaves Rouse's Point at 3 50 o'clock, P. M.
Arrives at Ogdensburgh at 8.20 o'clock, P. M.

At Ogdensburgh the Trains connect with Steamers for Brockville, Kingston, Sackett's Harbor, Oswego, Toronto, Lewiston, Niagara, Hamilton, and the upper Lakes; and at Rouse's Point, with Steamers for St. Johns, Montreal, Plattsburgh, Burlington, Whitehall, Saratoga, Troy, Albany, and New York. At Rouse's Point, Trains also connect with the Trains of the Vermont Central Railroad, running through the heart of New England to Boston; and it connects, by means of Steamers to Burlington, with the Rutland and Burlington Railroad, leading also through the New England States to Boston, and with the Champlain and Saint Lawrence Railroad for Montreal.

This is the most desirable route for either pleasure or business travel between New England and the Western States, and is the most expeditious route from Montreal to Western Canada.

CHARLES L. SCHLATTER,
Superintendent.

MRS. HAMILTON begs leave to acquaint the Public that she has continued the CHILDREN'S SCHOOL, in Mount Camp Street, lately taught by Mrs. GIBSON, deceased.

October 24. 473

Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kaus. It is a Saline Water, containing earthy Chloride, with portions of Bromide and Iodide, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78 and contains in one pound avoirdupois, the affixed quantities of the following substances:—

Chloride of Sodium	66.22000
Chloride of Potassium	.72800
Chloride of Calcium	.31000
Chloride of Magnesium	3.45982
Bromid of Magnesium	.02016
Iodid of Magnesium	.01904
Sulphate of Lime	1.25944
Carbonate of Lime	2.08600
Carbonate of Magnesia	2.54016
Carbonate of Iron	Traces
Silica	.14200
	76.87015

T. S. HUNT.
Chemist to the Geological Commission.

Office of the Geological Survey,
Montreal, May 26, 1851.

Having compared T. S. Hunt's, Esq. analysis of the Mineral Water of the Georgian Spring with the analysis made by him of the Plantagenet Spring Water, I may mention that the Water of the Georgian Spring contains all the ingredients found in the Plantagenet, with the addition of Sulphate of Lime, differing however in some respects as to quantity.

I have delayed giving my opinion of the efficacy of the Georgian Water, in order that an opportunity might be afforded me of speaking more confidently of the advantages to be derived from its employment. I have witnessed beneficial results from its use, as an aperient, antacid and diuretic, and also in allaying the distressing gastric disorganization attendant upon the early months of pregnancy. I have no doubt that the Georgian Spring Water will be found equally beneficial in the cure of Rheumatism, Scrofula, and Dyspeptic Ailments, as any other Mineral Water met with in the vicinity of this city.

W. E. SCOTT, M. D.,
Attending Physician Montreal General Hospital,
Lecturer on Forensic Medicine University of McGill College.

Montreal, August 12th, 1851. 443

Mr. W. E. BOWMAN:

SIR,—With pleasure I give you my opinion of the Georgian Spring Water, of which you are Agent. Being induced by its superior qualities, as shewn me in the Analysis furnished me by T. S. Hunt, Esq., Chemist to the Geological Commission, to give it a fair trial in many cases, both in my public and private practice, and I have not been disappointed in the result. I have found it one of the most valuable of Mineral Waters that I have ever prescribed. I consider it highly advantageous in most cases of Rheumatism, Dyspepsia, and many other diseases requiring Tonics, Aperients or Laxatives. In Constipation of the Bowels, caused by Sedentary Habits or Old Age, it will be found extremely useful, and I publicly affirm, that it is the most valuable remedy for many diseases incident to women. I have also noticed happy effects from its employment in allaying the inordinate thirst of Fevers, producing beneficial results from its Tonic and Laxative action, and I have no doubt that it will be found equally useful in removing and managing that extreme thirst in hot weather, which, by gratifying with ordinary drinks, is the cause and generates people generally.

Yours, &c., P. MONRO, M. D.,
Chief Physician to the Hotel Dieu Hospital, Lecturer on Surgery, "School of Medicine and Surgery," Consulting Physician to the Lying-in Hospital, Obstetrician.

Montreal, 13th October, 1851.

W. E. BOWMAN, McGill Street, sole Agent for Lower Canada.

CALEDONIA SPRINGS.

THE "CANADA HOUSE," AT THE ABOVE CELEBRATED AND FASHIONABLE WATERING PLACE, IS NOW OPEN FOR THE *RECEPTION OF GUESTS.*

VISITORS may rest assured the arrangements will be such as to insure every satisfaction—and that INVALIDS will be particularly attended to.

PRICES OF BOARD FOR THE SEASON OF 1851:—FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.

Caledonia Springs, 2nd June, 1851.

THE LAST GRAND DISCOVERY!

ALAS for the poor PLANTAGENET WATER!—It has not only to bear its own sins, (if it has any,) but the sins of all other Springs, whether up the river or down the river, whether fresh or salt, sweet or bitter,—no matter where,—they must all rise into fame on the reputation of the Plantagenet Water. The last discovery comes from Georgian Lake, via Montreal, or rather, goes to Georgia by this route. It appears that, by the agency of a most "learned pundit," a portable "Analysis" has been furnished of the Georgian Spring Waters, which are said to "contain all the ingredients found in the Plantagenet, not only with the addition of something else; and a marvellous disproportion of quantities. On this principle, we take it, a cabbage contains all the ingredients found in a pineapple, with the addition, of course, of something else, and a slight disproportion in the quantities? Certain it is that Georgian is not the Plantagenet, and was never yet mistaken for it. If it had been so, it could never have happened that it would have remained for twenty years in hopeless obscurity, in spite of all attempts to pull it into notoriety. What is the old analysis too? There was such an analysis, and it might be instructive to see it; but what bottle was there in that? Perhaps it was the wonderful discovery of iodine which led Mr. Kaus to set the magnificent establishment at Georgia to Mr. Tucker, Dentonson, Magnesium, Chloride, Sulphates, Iodine, and all! The fact is, that the new analysis is only a repetition of the old one. Another case is that of Mr. Catsup, Little, Hutchinson's Buildings, Clarence Street, who was so decidedly bad that he was confined to his bed: he was so for six months, prior to his commencing with your Salts, and attended regularly by his medical man, who pronounced him to be in a dying state; yet he, likewise, to my knowledge, has been restored to perfect health by the use of your Pills, and exhibited your Statement night and morning into his chest. (Signed.) J. K. HEYDON.

EBE EARL OF ALDBOROUGH CURED OF A LIVER AND STOMACH COMPLAINT.

Extract of a Letter from His Lordship, dated Villa Messina, Leghorn, 21st February, 1845.

To Professor HOLLOWAY:

DEAR SIR,—Have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances have made me to great advantage to be able to give a favorable Certificate with more emphasis than I ever did before, of the efficacy, and decided great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a prolonged use of the Baths and Waters produces the most beneficial results, Chronic Rheumatism makes the first. Many of the cures in this Rheumatism make the first. Many of the cures in this disease have been astonishing. I met with a case just summer, where the individual, a delicate female, had been suffering severely for more than nine months; she had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the Springs, she returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspepsia and Urinary Complaints, in Chronic Secondary Syphilis, and some of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that independently of the acknowledged virtues of the Waters, the great care and attention bestowed on the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your Boarders, justly entitled you to a large share of public patronage and support.

I remain, dear Sir, yours very truly,
ALEXANDER W. CAMPBELL, A.M., M.D.,
Lecturer on Surgery, McGill College.

To the Proprietor of the Caledonia Springs.

☞ A FRESH SUPPLY of the above WATERS has been received at the Depot, which can be had at the Counter, or sent to order to any address in town or country. Price of the Water will moderate.

SCROFULOUS AFFECTIONS, &c.

In all the interesting and prevalent cases, there is no question regarding the efficacy of this Medicine, at eminent Physicians of this city, writes as follows:—

Dr. Sherwood's Galvanic Embrocation, I regard as the most efficacious of all remedies in Scrofulous affections, of my children, a daughter of 5 years old, was afflicted with a very inveterate and apparently incurable affection, which had continued its ravages nearly two years, various remedies were tried but without effect—the disease exhibited itself in several deep-seated ulcers which soon conquered the disease and a complete cure was effected.

PEARCE'S WATER FILTERS,
NO. 11, *WALL STREET, NEW YORK.*

THE Public are respectfully informed, that WATER FILTERS, of the most approved construction, are kept constantly on hand at the above Establishment.

New York, August 10, 1851.

BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, Princess Street, Bank, London.
CAPITAL—ONE MILLION STERLING.
Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at such *lower Rates of Premium than those of any other Assurance Company transacting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

ERASMUS R. FOSTER,
Resident Director.

London, January 1, 1847.

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.

Very low Rates of Premiums on Young Lives.

The security of a large realised and invested Capital.

Large Bonuses on Policies effected on the high Scale.

Prompt settlement of Losses.

The full value given for Policies when discontinued.

On Insurances for the Whole of Life: one-half of the Premium, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.

Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.

Permission for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.

Insurances, if required immediate, may be effected any day between the hours of 10 and 4.

The Profits published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, *gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

THOMAS PROCTOR,
3, St. Sacrament Street,
AGENT.

COMFORT AND ELEGANCE
AT THE
NEW YORK
TAILORING ESTABLISHMENT,
(OPPOSITE MR. T. MUSSEN'S),
NOTRE DAME STREET.

THE Subscriber thanks his numerous Friends for the very liberal patronage he has received at the above Establishment; and would respectfully inform them, and the Public generally, that he has on hand a choice assortment of CLOTHS, CASSIMERES, VESTINGS, &c., which he is prepared to make up in a style combining comfort with elegance.

Gentlemen furnishing their own Cloths, &c., will have their garments made up with neatness and despatch.

CUTTING done at the shortest notice.

☞ P. S.—REEVES' PATENT ACTUAL MEASUREMENT SYSTEM for Cutting Garments, taught.

ALEX. D. REEVES.

Montreal, July 8. 380

PERFUMERY, ORNAMENTAL AND FANCY HAIR WORK.

THE Subscriber begs leave to inform the Fashionable Gentry, and Citizens generally, that he has recently received from Paris, the New York, a complete assortment of HUMAN HAIR of the best quality, and is now prepared to execute every description of Ornamental and Fancy Hair Work. He has now at his Establishment a lady from Paris, eminently skilled in the Manufacture of Curls, Bracelets, Bands, Ear and Finger Rings, and will attend, when required, Ladies at their Residence, for the purpose of Hair Dressing, in all its varieties of Ancient and Modern Style.

Gentlemen's Wigs, Moustachios, and other accompaniments of Fashion, furnished at the shortest notice, and on the most reasonable terms.

All Articles warranted, and sent with despatch to the Residence of Purchasers.

J. ROBERT BOTCH,
No. 157, Notre Dame West.

N.B.—All orders executed with neatness, and on the most reasonable terms.

Montreal, June 12, 1851. 358

NOTICE.

To Country Merchants Visiting Montreal on Business.

MERCHANTS will do well to call upon the Subscribers, previous to making their purchases, and inspect his Stock of TOBACCOS, which for price and quality cannot be surpassed in the city. His present Stock consists of 500 Packages of 16's, 20's, 8's, 5's, and one pound lumps, of the very choicest quality, and will be sold at 12½ per cent. lower than any other house.

—A130.—

Just Receiving:—His usual importation of FANCY CLAY PIPES, SNUFF and TOBACCO BOXES; with a variety of other articles suitable for the Country Trade—the whole of which will be offered upon very liberal credit.

N.B.—SNUFF of every variety put up in kegs and jars; CUT TOBACCOS in paper; CIGARS in boxes and bundles; MATCHES, &c.

JOHN LEVEY,
Notre Dame Street.

October 11. 462

GROCERIES.

FOR SALE by the Subscribers:—

The Mechanics' Register.

MONDAY, DECEMBER 8, 1851.

Saturday Night.

By a Journeyman Mechanic.

Now wife and children let's be gay,
My work is done and here's the day;
'Twas hard to earn, but never mind it,
Hope reaped the sheaf and peace shall bind it.

Six days I've toiled, and now we meet,
To share the welcome weekly treat,
Of toast and tea, of rest and joy,
Which, gained by labour, cannot cloy.

Come ye who form my dear fire side,
My care, my comfort, and my pride;
Come now and let us close the night,
In harmless sport of fond delight.

To-morrow's dawn brings blessed peace,
And each domestic joy's increase,
To him who honestly maintains
That course of life which heaven ordains.

'Tween rich and poor, the difference? What?
In working, or in working not?
Why then on Sunday we're as great
As those who own a vast estate.

For on to-morrow's Holy Day
We shall work less, perhaps, than they;
And though no dainties I afford,
What's sweet and clean will grace my board.

For which, and every blessing given,
Thankful we'll bow the knee to heaven,—
In God's own house our voices raise,
With grateful notes of prayer and praise.

These duties will not interfere,
Or cloud my brow with thought severe,
But still leave time enough to spend,
To take a walk or see a friend.

Sweet's the tranquillity of heart,
Which public worship does impart;
And sweet's the field, and sweet's the road,
To him whose conscience bears no load.

Thus shall the day, as God designed,
Promote my health, unbend by mind;
On Monday morning, free from pain,
Cheerful I go to work again.

Our life is but a lengthened week,
Through which with toil our rest we seek;
And he whose labour well is past,
A joyful Sabbath finds at last.

Our Mechanic readers will, we doubt not, have been beginning to smile at the magnilloquent promises we made a few weeks ago in our opening address to them, and have already been noticing the apparent attenuation of our remarks on matters relating to their interest. It might have been expected indeed, reasoning from previous experience of all such promises, that we would, like others, become "smell by degrees and beautifully less," until we would assume so attenuate a form as to require two or three of us to make a shadow. This would only be the brief history of many an ambitious resolve, and many an aspiring promise, lost—drowned, alas! in infirmity of purpose, and swallowed up either in real inadequacy, inherent laziness, or latent lukewarmness to the cause. We plead guilty to none of these categories. When we opened these columns we were in earnest, and conscious also that we were qualified, by long experience, to perform our office faithfully. And if our duty to our politically-biased readers has drawn our attention almost exclusively to these columns, it is not because we have forgotten the other last; but because a season of popular excitement having arrived, we were anxious during the brief period of it to advance, so far as we humbly could, the interest of the community in which we live. But we now return to our promised duties, and we assure those friendly readers to whom this department of the *Courier* is particularly addressed, that we are made of sterner stuff than to make a promise rashly, or forget our promise when it is made.

For to-day's number, we select an "Outline of the History of Printing, with Sketches of the early Printers," which has been lately published by Joel Munsell, of Albany:—

History of Printing.

Much has been written on the origin of the art of printing, several learned and ingenious men, having at an early period investigated the subject with the utmost diligence and perseverance; but after all their labour, some of the most important facts still remain in doubt and obscurity. No less than three cities claim the honour of the invention, and there is little probability that the dispute will ever be more satisfactorily settled than it is now. In the midst of this uncertainty, we are to be guided solely by the most able researches that have been made.

All writers on the subject concur in ascribing to the Chinese the first use of the art. There is no knowledge of any nation having practised it before them. The Chinese themselves claim to have been acquainted with it in the reign of the Emperor Wu-Wang, who lived about 1,100 B. C. There is less reason to marvel that they should have practised the art in their simple manner at so early a period, than that it should have remained so long undiscovered in Europe.

There are three kinds of printing in extensive use, viz:—1. *Letter-Press Printing*, from moveable letters cast in relievo, or from wooden blocks, or stereotype plates, for books. 2. *Rolling-Press*, or *Copper-plate Printing*, from plates engraven in creux, for pictures, &c. 3. *Calico, &c., Printing*, from blocks cut in relievo, and generally stamped by placing the block upon the material to be printed, and striking upon the back of it. The history of this kind of printing is extremely curious and interesting, and by the aid of machinery the art is carried to an extraordinary degree of perfection in the present day.

Of the above branches *Letter-Press Printing* is the most curious, and deserving of the most particular notice; for to it are owing, chiefly, our deliverance from ignorance and error, the progress of learning, the revival of the sciences, and numberless improvements in arts, which, without this noble invention, would either have been lost to mankind, or confined to the knowledge of a few. "The knowledge of printing," says Knox, "in whatever light it is viewed, has deserved respect and attention. From the ingenuity of the contrivance, it has ever excited mechanical curiosity; from its intimate connection with learning, it has justly excited historical notice; and from its extensive influence on morality, politics and religion, it has now become a subject of very important speculation."

There are three kinds of Letter-Press Printing in common use, viz: *Xylographic, Typographic*, and *Stereographic*. In Xylographic printing, the writing is carved on wooden tables; they are then covered with ink, the paper is put upon them, and an impression taken—Typography, is that in which single letters or types are used, which are properly arranged and then the work is printed. In Stereographic printing, pages composed of many types are transformed by casting into plates, from which copies are printed.

1. *Xylographic Printing.*—This is the oldest mode of printing, and is still practiced in China, Japan and Thibet. The Japanese assert the merit of the invention. In Thibet, according to the accounts of various travellers, the art has been practised from time immemorial. From a passage in Job, (xix 23, 24), it might be supposed that the process of bookmaking was familiar in those days; for he says, "Oh that my words were now *written!* O that they were *printed* in a book; That they *were graven* with an iron pen, [the *stylus!*] and lead in the rock forever!" We also told that Solomon was a great maker of books, "for he spake three thousand Proverbs, and his Songs were a thousand and five." There is no mention of his ever having embarked in the enterprise of printing, but he assures us that he had arrived at the conclusion, that "in making many books there is no end!" We should think that facts at the present day might bear him out in that conclusion.

The Chinese process of printing is ascertained to be as follows:—They first write or draw a fair copy of the work intended to be printed; it is then given to the engraver, or more properly the carver, who glues the leaves of the manuscript upon a piece of hard board, or plank, properly prepared, on which he traces over with a suitable instrument, the lines of the writing, carves out the character in relief, and cuts down the intermediate part of the wood; therein lie the beauty of the letters depends on the person who writes the copy. The adroitness of the carver is such, that he copies every stroke exactly. If work is sometimes so neatly executed, it is difficult to distinguish a book that is written from one which is printed. The board thus carved or engraved, generally contains the characters for two pages. When the work of the carver is completed, it is taken by the printer, laid level and fixed in that position. The printer being provided with two brushes, he takes that which is hardest, dips it into the ink, and therewith lays the ink on the carved board in such a manner as to have a quantity which will be exactly sufficient for four or five impressions, as he does not ink the board for every impression. When the board has received as much ink as the artist judges to be sufficient, he lays on the paper, and with the other brush, which is of an oblong figure, and softer than the first, he presses the paper upon the board, by gently drawing the brush over it, which is a little increased for each impression, until the ink on the letters is taken off by the paper. In this simple manner, it is said, a skilful workman is able to throw off the impressions as fast as our own with the press.

The paper used is very thin, and only printed on one side; the sheet is folded with the blank sides in contact, and the two edges are bound into the back of the book, making it resemble a volume, the leaves of which are untrimmed. The binding is very different from our own, the cover being merely soft paper, and the title written on the edges of the bottom leaves. There will be little or no improvement in the process, until they invent an alphabet and otherwise improve the mode of writing their language. Their words are represented by characters, of which there are upwards of 80,000. It will at once be seen how little the use of separate types would facilitate the business, where so many are required. They are not without the knowledge of moveable types, though such as they use are cut in wood. In the calendars and gazettes, where the same characters frequently occur, they occasionally insert these wooden types. When an edition of a book is printed off, the wooden plates are collected together; and it is generally mentioned in the preface where they are deposited, in case a second edition should be wanted.

It cannot now be ascertained whether the Dutch and Germans made a second discovery of the art, or whether they had got some knowledge of it from the Chinese; but certain it is that they pursued exactly the same mechanical management of the business, as had been so long known and practised in China. The accounts given by the earliest writers on the subject, are as follows:

Hadrian Junius, who flourished about the middle of the sixteenth century, and was esteemed a man of learning, integrity, and impartiality, ascribes the discovery to Laurentius, (*custos*, or sacristan of the cathedral at Haarlem) and gives the following history, which he had orally from an intimate friend of Cornelius, who was employed by Laurentius at the time Gutenberg (q. v.) absconded. He says, "Laurentius, walking in a wood near the city, (as citizens of opulence use to day) began at first to cut some letters upon the rind of a beech tree; which for fancy's sake being impressed upon paper, he printed one or two as a specimen for his grand-children to followin writing. This having happily succeeded, he meditated greater things, as he was a man of ingenuity and judgment. Together with his son-in-law, Thomas Peter, he invented a more glutinous ink, because he found the common ink sunk and spread; and then formed whole pages of wood with letters cut upon them; of which sort I have seen some essays in an anonymous work, printed only on one side, entitled *Speculum Nostræ Salutis*; in which it is remarkable, that in the infancy of printing (as nothing is complete at its first invention) the back side of the pages are pasted together, that they might not by their nakedness betray their deformity. These beechen letters he afterwards changed for leaden ones, and these again for a mixture of lead and tin, as a more durable substance." It is questionable, however, whether this ever carried the art farther than separate types, for Junius proceeds to say, "When a *novelty* never before seen excited purchasers, to the advantage of the inventor, the admiration of the art increased, dependents were enlarged, and workmen multiplied, which led to a calamitous incident. One John, whether, as we suspect, he had ominously the name of *Faustus*, unfaithful and unlucky to his master, or whether it was really a person of that name I shall not much enquire, being unwilling to molest the silent shades, who suffer from a consciousness of their past actions in this life; this man, bound by oath to keep the secret of printing, when he thought he had acquired the art of joining the letters, the method of casting the types, and other things of that nature, taking the most convenient time that was possible, on Christmas eve, when every one was customarily employed in lustral sacrifices, seizes the collection of types, and all the implements, his master had got together, and with one accomplice flutches off to Amsterdam, thence to Cologne, and at last settled at Mentz, as an asylum of security, where he might go to work with the tools he had stolen. It is certain that in a year's time, namely 1442, the *Doctrinale* of Alexander Gallus, which was a grammar much used at the time, together with the *Tracts* of Peter of Spain, came forth there, from the same types as Laurentius had made use of at Haarlem."

To the Girls.—(By Dow, Jr.)—I dies, you caged birds of beautiful plumage, but sickly looks; you pale pets of the parlor, vegitation in an unhealthy shade, with a white complexion, like that of a potato sprout in a dark cellar—why don't you go out in the open air and warm sunshine, and add hearts to your eyes, bloom to your cheeks, elasticity to your steps, and vigor to your frames? Take early morning exercise—let loose your corset strings, turn up bill on a wager and down again for fun. Roam in the fields, climb fences, leap the ditches, wade the brooks, and go home with an excellent appetite. Liberty thus exercised and enjoyed, will render you healthy, blooming and beautiful—as lovely as the Graces and prolific as Deverra. The buxom, bright eyed, rosy-cheeked, full-breasted, bouncing lass, who can darn a stocking, mend trowsers, make her own frocks, command a regiment of pots and kettles, feed the pigs, milk the cows, and be a lady withal in company—is just the sort of girl for me, or any worthy young man to marry; but you, you pining, lolling, screwed up, warp-waisted, doll-dressed, putty-faced, consumption-mortgaged, music-murdering, novel devouring daughters of fashion and idleness—you are no more fit for matrimony than a pullet is to look after a family of fourteen chickens. The truth is, my dear girls, you want, generally speaking, more liberty and less fashionable restraint—more kitchen and less parlor—more leg exercise and less sofa—more pudding and less piano—more frankness and less mock-modesty—more corned beef and less corsets—more breakfast and less bishop. Loosen yourselves a little; enjoy more liberty and less restraint by fashion. Breathe the pure atmosphere of freedom and become something nearly as beautiful as the God of Nature designed.

Strange Effects of Effluvia from Mud Flats.—The *Pacific* contains an article describing the strange effect of the effluvia from the mud flats in the eastern portion of San Francisco harbor, which is at times said to be almost intolerable. On the Saturday night previous to the sailing of the last steamer, from some unknown cause it was particularly intense. Its effects were perceptible on the signs and painted spouts of buildings on Sansome Street next day. They appeared black and discolored as if they had been exposed to a withering heat—the signs were nearly obliterated—polished metallic articles were so tarnished as to be rendered unsaleable, and persons sleeping in the neighborhood described the rush of a current of air at night into their rooms as almost suffocating. This evil is being rapidly remedied by filling up that section of the Bay with sand from the surrounding hills.

Rights of the Jews.—Secretary Webster has informed Dr. M. Lilienthal, of New York, that this government will not ratify a treaty with the Swiss Confederacy which makes any discriminations against citizens of the United States of the Jew ish persuation.

☞ The Montreal Courier is published daily during the six business months of the year, viz., from the 1st of May to the 1st of November, and the other six months triweekly, on Mondays, Wednesdays, and Fridays. Subscription, six dollars ($6) per annum, payable in advance.

☞ The Evening Courier (bi-weekly) is published on Monday and Thursday evenings, in time for the Mails, at the low price of three dollars ($3) per annum, payable in advance.

☞ All Letters must be post-paid, or else the postage will be deducted from the amount sent.

☞ Voluntary Correspondence solicited from all parts of the Continent of America. If made use of, the person transmitting the information will be liberally remunerated.

THE COURIER.

MONDAY, DECEMBER 8, 1851.

In our last we announced that the Election had closed, and, contrary to all expectations, had closed without any greater demonstration of violence than might have been expected in any contested Election. By a rigid scrutiny of the polling books, the numbers stood as follows:—

Hon. John Young	1362
Hon. Wm. Badgley	1292
Hon. L. J. Papineau	1198
Mr. A. LaRocque	945
Mr P. Devins	923

It will be perceived that Mr. Young, who was in the field for weeks before the Nomination, is only 50 votes before Mr. Badgley, who was not a declared Candidate more than twenty-four hours previous to that event. There is therefore a fair presumption that had the latter gentleman declared himself at an earlier period, he would certainly have stood at the head of the poll. Indeed he may be considered as in that position now, because it is well known that Mr. Young's party were exhausted before five o'clock on Thursday, at which hour votes were still pouring in for the Conservative Candidate; there was, therefore, both sense and reason in the remark of a cotemporary, who declared that Mr. Young could not be understood to represent more than the party that voted for him, and scarcely that, while Mr. Badgley represented the legitimate interests of Montreal as an English city, the dignity of which he was so well fitted to support by a life of legal constitutional study. Mr. Young, if he be wise, must not lay the flattering unction to his soul that the people of Montreal in general have sent him to Parliament; many of his voters approve of Mr. Badgley, and acquiesce cordially in his election, though they did not contribute to it; but where are the voters for Mr. Badgley or Devins or Papineau that approve of the return of Mr. Young?—very few indeed certainly. Mr. Young goes into Parliament as a junior member of this city, under and crooked Mr. Francis Hincks, who, if all be true that the Press say of him at present, must in a very brief space clap his tail under, like a consciously delinquent hound, never to shew his face in society again. We hope, however, for the dignity of human nature, that the imputations thrown out against Mr. Hincks are false, and that he will be able to bring his accusers to deserved punishment.

This position of ours is, we perceive, denied, if not scouted, by an adverse venal cotemporary; but it is proved by the state of the polls at the end of every two hours, so far as they could be compared, during the whole time of polling, that Mr. Badgley's success was uniformly encouraging to his friends, while taking many of the polls separately, they might have, and did, indicate that Mr. Young would have been left in a minority. And we are the more fortified in this certainty, because it is universally allowed that had the polls remained open for another hour, Mr. Badgley, we repeat confidently, would have been at the top. This is, however, a position for which we are sure our Hon. friend has no particular ambition, he is satisfied with the meed of confidence which has been reposed in him, and looks only to his future duty as the best return which he can make to the citizens of Montreal for the honour they have conferred upon him.

With respect to Mr. Devins, it requires all the malevolence which characterizes the Ministerial Press of Canada, great as that is, to sound a single note of real animadversion against him. Mr. Devins is an Irishman of property and consideration, and when he proposed to devote a part of that property to the service of the city in which he had realized it, he must have commanded the respect and attention of every one, however adverse to him in politics. But no sacrifice of time or money, no exertion of body or mind, can appease the corrupt Moloch of political degeneracy which animates the Ministerial Press of unfortunate Canada. This unoffending gentleman has been jeered at, laughed at, maligned, vituperated, abused, depreciated, misrepresented, and insulted, by the venal and unprincipled Ministerialists of Montreal, because he might either succeed to represent the city himself, or be conducive to the success of another candidate. In this emergency he appealed to his own countrymen, and nobly did they respond to his call—they gave him 923 votes, and these were, every one of them, votes of confidence in his honesty and uprightness of intention. This cannot be denied,—indeed we assert it, because we know it to be the truth, and who will deny it? We agree with Mr. Devlin in the sentiments which he uttered from the window of Mr. Badgley's Committee room after the close of the poll. He told the people that his friend, he admitted, had been unsuccessful; but the canvass had by no means been void of peculiar use in a moral sense, since at some future period, when times might be less corrupt, the present canvass would have its own influence in placing Mr. Devins in a glorious majority.

Ladies' Benevolent Institution.—There is no form of wretchedness, no feature of destitution, so dark and so deep, into which female benevolence cannot penetrate. It is not in civilized countries alone that the active energies of female beneficence is exerted. In every clime, from "Indus to the Pole," the pale brow, the parched lip, the naked head, and the sorrowing heart, look with peculiar and hopeful intensity to the universally charitable promptings of female sympathy. We are not acquainted exactly with the internal working of this Society, but we understand that not only are the destitute provided with a roof to protect them from the storm, the naked supplied with a covering to shield their defenceless bosoms from the pitiless winds of winter, but that spiritual consolation is also imparted to the wandering and the erring from the path of rectitude. This is a feature in the efforts of every female charitable institution which is never lost sight of. The word lady, in the old Saxon language, signifies a dispenser of bread, and no lady, however anxious she may be to supply corporeal wants or dispense the bread that perisheth, can ever appear in a more amiable light—in a light more consonant to the one paramount object of her existence—than when she is dispensing the bread of life to a soul hungering after spiritual knowledge. It has been said, quaintly perhaps, but not less truly, that charity to the soul is the soul of charity, and the lady members of this, and every other benevolent society, may be assured that when sacred fanes and holy temples, marble monuments raised to the memory of the pious dead, with all the gorgeous emblems of mortal charity and faith, which adorn the earth, shall have passed away, the immortal fruits of these immortal charities shall remain in pure and unpolluted splendour, proving that charity to the soul has indeed been the very soul of charity.

We understand that for the purpose of placing funds in the hands of the lady members of this benevolent society, an Entertainment will be given in the Hope House, Dalhousie Square, to-morrow evening, when it is expected that all who wish well to this society—and what Christian does not?—will attend.

We perceive from a paragraph in another column that the lady of J. G. McKenzie, Esq., has contributed the sum of £22 19s. 3d. to the society—this is being a lady indeed in the Saxon sense of the word.

Lord Elgin's Late Visit to Boston.—The following interesting correspondence relative to Lord Elgin's visit to Boston, on the occasion of the Railroad Jubilee, we find in the Washington papers:—

Correspondence between the Department of State and the British Charge d'Affairs, respecting the Visit of Lord Elgin to Boston.

Washington, Nov. 22, 1851.

Sir,—In reference to our late conversation, I have the honour to enclose the copy of a despatch which has been addressed to me by Her Majesty's Principal Secretary of State for Foreign Affairs, by which I am instructed to express the gratification felt by Her Majesty's Government on being apprised of the cordial reception which was paid to the Earl of Elgin during the ceremonies which took place at Boston on the 17th, 18th, and 19th of September last, in celebration of the completion of a line of railroad connecting the Canadas with New England; and in expressing the grateful sense which Lord Elgin entertains of the courtesy and hospitality which he experienced during his visit to Boston, to convey to the President of the United States and the citizens of Boston the cordial thanks of Her Majesty's Government for this proof of their kindly feelings towards Her Majesty's Government and the British nation.

I avail myself of this opportunity to renew to you, Sir, the assurances of my highest consideration.

John F. Crampton.

The Hon. Daniel Webster, &c., &c., &c.

Foreign Office, Oct. 31, 1851.

Sir,—With reference to your despatch No. 23, of the 20th of September, reporting the cordial reception which was given to the Earl of Elgin during the ceremonies which took place at Boston on the 17th, 18th and 19th of September, in celebration of the completion of the line of railroad connecting the Canadas with New England, I have to acquaint you that Her Majesty's Secretary of State for the Colonial Department has received from Lord Elgin a despatch to the same effect respecting his visit to Boston, in compliance with Earl Grey's request, I have to instruct you to state to the Government of the United States, that Her Majesty's Government have read with great pleasure the accounts which have reached them of the distinguished reception which was given to Lord Elgin by the President of the United States and the citizens of Boston on the occasion in question; and that Her Majesty's Government are more especially gratified by it, inasmuch as they look upon it as a proof of the prevalence and extension of that good and friendly feeling between the people of the two countries, which Her Majesty's Government is so desirous to encourage and confirm.

You will also say that Lord Elgin entertains the most grateful sense of the courtesy and hospitality which he experienced during his visit to Boston, and that Her Majesty's Government also beg most cordially to thank the President of the United States and the citizens of Boston for this proof of their kindly feelings towards Her Majesty and the British nation.

I am, &c., Palmerston.

John F. Crampton, Esq., &c., &c., &c.

Department of State,
Washington, November 26, 1851.

Sir,—I have the honor to acknowledge the receipt of your note of the 22nd instant, accompanied by a copy of a despatch addressed to you by Her Majesty's principal Secretary of State for Foreign Affairs, directing you to express to the President of the United States and the citizens of Boston the cordial thanks of Her Majesty's Government for the reception given to the Earl of Elgin during the ceremonies which took place at Boston on the 17th, 18th, and 19th of September last, in celebration of the completion of a line of railroad connecting the Canadas with New England.

Your communication has been laid before the President, who has directed me to express, in reply, his gratification that Her Majesty's Government should have been favorably impressed with the reception given to Lord Elgin on the occasion referred to.

I avail myself of this opportunity, Sir, to offer to you a renewed assurance of my very distinguished consideration. Daniel Webster.

John F. Crampton, Esq., &c., &c., &c.

The steamer *America* arrived at New York on Friday, with three days' later news from Europe. She comes out in place of the *Niagara*. Full particulars of her news will be given in our next.

Some few days ago we received a letter from a person signed "Veritas," which we declined inserting. The letter was subsequently sent to the *Gazette*, and appeared in the columns of that paper. In the very next number of the *Gazette*, however, the following notice appears:—

With reference to a statement in the communication of "Veritas," in our last issue, respecting the Hon. Mr. McGill, as Mayor, laying the foundation stone of St Patrick's Church, we are desired to state, that our correspondent is entirely in error. The Hon. Mr. McGill was not Mayor at the time.

Is not the term *Veritas* rather a misnomer in reference to this correspondent? We think we could give him a more appropriate cognomen. Should he come across us again in the same way, he may depend upon not escaping so easily.

We beg to call the attention of the Mayor and Corporation to the passing of a Bye-law compelling occupants of houses to clear the snow from the roofs after every heavy fall. The lives of the citizens are endangered—this should not be.

From papers via Favor's express we learn that the Hon. Ward Chapman, late chief justice of New Brunswick, died in St. John Nov. 26, at the age of 65, in consequence of breaking his arm a few weeks before. At Fredericton on Saturday last the ice was firm on the river, and Winter had established his reign. All the railway bills sent up by the assembly have passed the legislative council of Nova Scotia without amendment. Mr. Howe has introduced two other important bills—one relative to the crown land department, and the other for the incorporation of land companies, giving to 100 heads of families who are settlers the privilege of town organization.

Mr. Frederick Perry, who had charge of the Canada Division of the Crystal Palace, arrived here on Monday last.

We are requested by the Treasurer of the Ladies Benevolent Institution to acknowledge the receipt of £22 19s. 3d., being a most acceptable donation to its funds, from Mrs. J. G. McKenzie.

County of Montreal.—The election for the County terminated on Saturday evening, but we have not yet heard the result. At the close of the first day's polling, Mr. Valois was 6 ahead of Mr. Jobin.

Bytown.—Mr. Stewart has been returned for this town.

Missisquoi.—The candidates for election in this County at present are, Mr. Taylor, Mr. Paige, and Mr. Stephens Baker.

Her Excellency the Countess of Elgin was safely delivered of a son on Thursday morning last, at Quebec. Both are doing well.

We understand that the subscriptions in the several Churches in this city, at the celebration of the third Jubilee of the Venerable Society for the Propagation of the Gospel in Foreign Parts, on Advent Sunday, amounted to £183 17s. 7d., viz:—

Cathedral	£132	12	2
St. George's	34	3	5
St Anne's	7	12	0
Trinity	5	0	0
St. Thomas	3	15	0
St Mary's, Hochelaga	0	15	0

Thursday, December 4, 1851.

To the Editor of the Montreal Courier:

Sir,—The struggle is over: Mr. John Young, backed by the Government, and an expenditure of, it is supposed, at least one thousand pounds, has been returned by a majority of only 50 votes ahead of Mr. Badgley!! The consistent English gentleman has been returned by the good will and respect of his fellow citizens, and had Mr. Young been *without* the requisites above-mentioned, Mr. Badgley and Mr. Papineau would, without doubt, have been returned for Montreal.

One of the first steps which the citizens of Montreal will expect Mr. Badgley to take, after assuming his seat, will be an inspection of the details of *secret service money* appropriated by the Government or Ministry since their resignation—matters have come to such a pass now that the people must know everything—we must no longer be "hoodwinked." This day has shown what the Conservatives of Montreal can do, when a man of their choice comes into the field, although many of them still slept in their accustomed apathy, some taking refuge under the petticoats of their wives—or declining to vote, which I look upon as one and the same. The citizen who does not go forward cheerfully and manfully to exercise his franchise, is deserving of being pointed at with the finger of scorn. I would venture a bet that there would not be any difficulty in finding 150 to 200 persons who have not voted, who, if now called on, being sure that they could tell their wives that there was no fear of their being *kissed* by a *Connaught* boy at the poll, would record their votes for Mr. Badgley; and I have not a doubt but that from 200 to 300 of Mr. Papineau's voters have been confined (I had almost said to bed) to the house during to-day, owing to the kind embraces, of some of Mr. Young's supporters, in the neighbourhood of Mountain Street, *inflicted* on some of their "Rouge" friends yesterday—but for that the peace would have been unbroken; however, the little disturbance that did take place was promptly quelled. Our worthy Mayor was indefatigable; his enemies can no longer disparage him with want of energy or decisiveness. They have yesterday and to-day seen what he can do: let them therefore forever hereafter hold their malicious tongues; and next March let every Conservative within the city make use of his best exertions for the retaining of Mr. Wilson in his high position (having redeemed our fair city) as Mayor for the ensuing year.

I am, Sir,
Your most obedient servant,
Elector.

Reviews.

Altham; A Tale of the Sea. By J. S. Cummins, Esq. R. Chalmers & Co., Montreal.

This is an exceedingly interesting story, based upon the hint given by Sir Walter Scott in his reminiscences respecting a certain boy surnamed "Green Breeks," whom he encountered in his own boyhood on the "cross causeway" of Edinburgh, and who was suggested as a hero to his brother, Mr. Thomas Scott, in a work of fiction, which this latter gentleman had intended to write. And though the story, as told by Mr. Cummins, is so far unhappily chosen that it makes us often feel the want of Sir Walter's nervous and graphic touch, yet it is in every way a work of great power and interest. The hero commences his career in a juvenile fray, much in the way told by Sir Walter, and then finds himself on board a pirate. The pirate Captain contrives, during the chase of his own ship by the English frigate *Shannon* on the Bahama Bank, to send the boy on board the frigate in the dingy, where he is received kindly by Captain Brooke, and placed as a midshipman on the quarter-deck. This leads the author to speak comparatively of the English and American naval force during the last war, with which he seems intimately acquainted, and from his statement we learn that the British national cruisers taken by the Americans stand thus:—

Ships	30
Guns	530
Men	2,751
Tons	10,273

while the American national cruisers taken were:

Ships	64
Guns	661
Men	2,994
Tons	14,848

Of the former were carried into port:—

Ships	9
Guns	171
Men	919
Tons	3,314

and of the latter were carried into port:—

Ships	22
Guns	330
Men	2,430
Tons	6,714

The total number of vessels of every description taken by the British was 1,699, whilst those which fell to America were only 1,200, and the latter navy had then scarcely a *unarmed* merchantman afloat, whilst English commerce crowded every sea.

The *Shannon* arrives off Boston, and encounters the *Chesapeake*, commanded by Capt. Lawrence. The story of the battle is well told, and true to history, and every justice is done to the brave Commander of the American ship. The story goes on, and finally ends at the Battle of Queenston Height, in which fell General Brock, to whom we are more than once introduced during the history. Of course "Green Breeks" escapes both shot and shell, as well as water and fire, and at last is discovered to be a Lord, marries, goes home, and inflicts poetical justice upon all and sundry who had so long "kept him out of his own."

This novel will repay a perusal, were it for nothing else than the historical reminiscences scattered through it.

Harper's New Monthly for December. R. W. Lay, Montreal.

We have received this Magazine, which continues to publish articles of very considerable importance. We wish this Magazine were sometimes a little more English in its tone, but want of sympathy with us may perhaps constitute its chief merit in the estimation of the generality of its readers. It is, however, always carefully and intelligently got up, and is upon the whole the cheapest and best family *melange* of English Literature at present in the publishing market.

We have just received Blackwood for November from Mr. Dawson, Place d'Armes. It contains eight articles this number. There is rather more than usual imaginative matter this month. The articles are:—1. Dramas of Henry Taylor; 2. Legend of Gibraltar; 3. German Letters from Paris; 4. Submarine Telegraph; 5. My Novel; 6. Norse—Popular Tale; 7. Day Dreams; 8 Autumn Politics.

PROVINCIAL.

Mr. W. B. Robinson returned on Wednesday, from Simcoe, after a most successful canvass of the County. He has not met with the shadow of opposition.—*Toronto Patriot.*

Found Drowned.—About an hour after noon on Saturday, the body of an elderly man was found floating on the surface of the water under Rees' wharf by a person who went thither for the purpose of removing a small raft of timber. The deceased was recognized by several persons as—Thompson, who had come to Toronto at the same time that the Government removed from Lower Canada, and had been employed on several Government Contracts. At 10 o'clock on Friday night, he had been in the Queen's Head Inn, and was subsequently encountered by a cabman about 2 o'clock on Saturday morning. He was at that time in a state of intoxication, and his death is thus accounted for.—*Toronto Patriot.*

UNITED STATES.

Change.—The *Meredith Bridge Gazette* says:—"We are told that the Boston, Concord and Montreal Railroad will run its cars over the Manchester and Lawrence, and the Boston and Maine Railroads, after the 1st of December, instead of the Nashua and Lowell roads. The reason, we presume, is because more favorable terms can be obtained from the Boston and Maine road."

Detroit, 29 b November, 1851.—*Loss of the Brig Lucy A. Blossom.*—The steamer Niagara, while steaming down the river last night, run into the brig Blossom, lying at anchor near Malden. The brig sank in a few minutes. Immediately on being struck, the brig swung round and came in contact with the schooner G. T. Williams, carrying away part of her head gear, and slightly damaging her. The *Blossom* had 10,000 bushels of corn belonging in Chicago. Total loss. The schooner Williams is engaged in saving what can be saved of the *Blossom's* sails and rigging.

An eminent merchant of Boston, in his instructions to the Captains of his vessels, requires that a man shall be sent aloft every morning, at daylight, and every evening before sunset, to scan the horizon, to see if any vessels are in the vicinity, requiring assistance. This is a most excellent order, and ought to be imitated by every ship owner; and we think it might be extended, so that every time the helm is relieved, the man relieved should be sent aloft and his report entered as regularly into the log-book as the ship's progress. The reports of many vessels in distress, show that they have frequently been passed by vessels which took no notice of them, and we have no doubt that were a regular system of Look-outs introduced into all our ships, it would be the means of saving many lives and much valuable property.

The last San Francisco papers contain accounts of a 20 mile foot race, which was won by the celebrated Gildersleeve, who ran 17 miles in 1 hour and 54 minutes. The stakes were $1000 a side. Peck was the competitor, who "give in" at the end of the 16th mile. There had also been two regattas, at which splendid prizes were contended for by a number of beautiful craft.

More Gold.—Our Oregon papers contain accounts of the discovery of gold in large quantities in Queen Charlotte's Island. Capt. Howland, who had recently arrived from there, reports (and his statements are confirmed by others) that the mines on Queen Charlotte's Island are equal, if not superior, to anything of the kind yet discovered. The gold is found on the surface of the ground near the beach, and is dug by the natives in great quantities, without anything like a pick or shovel—having nothing but such tools as they can make themselves; they manage to get from 2 to 3 ounces per day to the hand. They are very friendly to the whites, and are anxious to have Rowland brought some beautiful specimens of virgin gold and gold-bearing quartz with him. Queen Charlotte's Island is in the North Pacific Ocean, and can be reached in about seven days sail from Oregon city.

Quicksilver Mines in California.—The *San Jose Pioneer*, received by the last steamer, has the following paragraph regarding quicksilver operations in that valley:

"The New Almaden mines are now in full operation, giving employment to two hundred men and labor at a rate of 10,000 pounds of quicksilver daily. The company are excavating a passage into the hill from which the ore is taken, through which, by means of cars, it can be run out more rapidly than by the present method, and with greater ease to the workmen. This improvement will cost the company a large amount of money, but when completed will greatly facilitate their operations."

Novel Punishment.—The *San Francisco Union* has an account of a novel kind of punishment administered to a "Sydney Duck" who was arrested on board a steamer from Marysville, for stealing a Colt's revolver from one of the passengers. The property was found in his possession, and he was immediately arraigned before a Court of the people. The proof of his guilt was conclusive, and the sentence was that he should pay $100 in gold dust to a poor sick man on board the boat. From this decree there was no appeal, and the rogue shelled out the dust, which was deposited with a responsible firm, subject to the order of the invalid.

PORT OF QUEBEC.

Arrived,
Dec. 1.

Schr. Marie, Blais, 8th Nov., Sydney, order, coals.

Shipping Intelligence.

Shipwreck and Loss of Life.—It is our melancholy duty to record another shipwreck below, attended with the loss of seventeen lives. The new ship Tyendenaga, Rudolf, master, cleared from Quebec on the 8th ultimo, for Liverpool. She sailed from the Brandy Pots on the 5th November, with a fresh, westerly breeze. On the morning of the 22nd, at 2, A.M., she went ashore on Cape Breton Island, on the north shore of the St. Lawrence, during a violent snow storm, and, sad to relate, 17 of her hands perished—the latter being thrown overboard by the fall of the mainmast, and the other 3 either killed or drowned by the fall of the foremast. The Captain, Mate, Second Mate, and three of the seamen, were saved by lashing themselves in the rigging, where they remained till about 6 o'clock in the evening—having been 17 hours on the wreck, the sea washing over them all the time.—Rudolf swung a fire on the shore, and it being low water, they passed overboard and have ashore in the surf, where they were met by two Indians, who took them to their house and rendered them all the assistance possible. On the 24th, the schooner Ste. Hélene, Bernier, master, came down to their rescue, took them on board, and landed them safe at Cap St. Ignace, from which place they came up by land, and arrived here yesterday morning. Captain Rudolf reports that the ship went to pieces before they left. Eight of the bodies of the unfortunate seamen were picked up on shore, and buried at that place.

The brig Lavania, Hanrahan, master, which cleared hence on the 8th ultimo for Waterford, is reported ashore somewhere about Mont-Louis, on the south shore.

A telegraphic despatch from River du Loup states that the ship Lord George Bentinck was below Green Island on Monday morning—wind north-west.

The Sophia Burbidge, which put into River du Loup for the purpose of repairing her bow-port, which had been stoved in by the ice in the Traverse, on her way down, has been grounded at that place, but the damage is said to be so trivative that it is not likely it could be repaired in time for her to proceed on her voyage this season.

The ship Aberdeen is ashore opposite Kamouraska, and not on Barnabe Island as previously reported.

Mr. Henry Marticotte, the pilot who took down the bark Tam O'Shanter, returned here on Sunday night last, and has favored us with the following particulars of the last vessel which left this port. Mr. Marticotte reports having left Quebec on the 26th ultimo in the Tam O'Shanter, and came to anchor at the Traverse on the 27th, at 3 P.M., the river being then full of ice, and the Tam O'Shanter was cut in by it about 3 inches, but made no water. On the 28th, at 2, P.M., she under way from the Pilliars, the river still with ice as far down as St. Roche, where we got clear of it, the wind strong from the west, and we reached Green Island the same day, where I left her all well, going down with a fine breeze. On Friday last, saw the Sophia Burbidge at River du Loup waterlogged, her bow-port having been stoved in by the ice in the Traverse. The same day saw the ship Lord George Bentinck in the Traverse, in the ice, wind easterly—she was reaching to the northward, and likely to get clear.

Died,

On Thursday night, 4th inst., Victoria Pauline, aged 11 years and 8 months, daughter of Ernest Jetter, Esq.

☞ Friends and acquaintances are respectfully invited to attend her funeral, from her father's residence, No. 70, Sanguinet Street, on Monday at 3 o'clock, P.M., without further notice, to the place of interment, Old Burying Ground.

Death of Lord President Hope.—The Edinburgh *Advertiser* announces the death of the Right Hon. Charles Hope, of Granton, Edinburgh, on the 30th ultimo. After holding for several years the office of Lord Justice Clerk, he was appointed Lord President of the Court of Session in 1811, which distinguished office he continued to hold till 1841, when the inf

BY TELEGRAPH.

NEW YORK, Dec 4, 1851.

A despatch from Washington states that Webster declines addressing Kossuth in any official capacity—imitating Lord Palmerston in that respect.

The Republic of this morning says, that as soon as the particulars of the outrage on the Franklin, at Greytown, were received, the President ordered a competent naval force to repair to San Juan to protect American vessels in that vicinity in future.

OAKVILLE, Dec. 4th.—HALTON ELECTION—TRAFALGAR COUNTY.—White, 161; Hamilton, 128. There are 700 votes in this Township. A large number will probably be polled to-morrow.

NEW YORK Dec. 5 h.—9 A M.

The United States mail steamer Humboldt arrived at 2 o'clock this morning, from Havre Nov. 25th, and Cowes at midnight of the same day. The Humboldt has had a very rough homeward voyage, having had to contend with violent easterly gales and rough head seas the most of the passage. She brings a fair freight, and a good number of passengers for the season, among them the distinguished Hungarian exile and patriot governor, Kossuth, and suite.

The U. S. Steamer Pacific arrived at Liverpool on Wednesday, the 20.h ult., with Father Mathew.

On Monday, the 18.h ult, the King of Hanover died, in the 81st year of his age.

FURTHER NEWS BY THE HUMBOLDT.

NEW YORK, Dec. 5th.

Excepting the advices from France, the news is of no very great importance.

The United States steamer Hermann, Capt. Wilcox arrived off Cowes at 9 A. M., on the 18th ult. The British steamer Niagara, reached the Mersey, at 5 A. M., on the 18 h, having made the trip in 1½ days. The Pacific arrived at 5 P. M., on the 19.h Fearful earthquakes had taken place along the Albanian and Dalmatian coast.

The news from France is of an exciting character. The most stormy debate ever known even in Parliamentary annals, had taken place in the Legislative Assembly upon the proposition of a resolution for appointing an armed force for the protection of the Assembly. This proj ct if carried, would have had the effect of exciting civil war, inasmuch as the Legislative would have been armed against the executive power. A military force, and a collision would have resulted, the end of which no one could foresee. The measure was, however, rejected by a majority of 108 votes, and thus Louis Napoleon and his ministry are completely triumphant. The rage and hostility of the several factions of the Assembly are subdued, and it is hard to say what may be the next place in the conflict going on.—Marshal Soult was dangerously ill, and his decease was hourly expected.

From Berlin the only news of importance was that a loan of 21 millions of thalers, voted in the last session, was shortly to be negotiated. It is destined for the construction of the eastern and Prussian Railroad. The Rothschilds were to undertake the operation. Accounts from Vienna state that nearly 200 persons had been forced to quit that city, and the Austrian dominions, in consequence of being suspected of having speculated on Change with a view to increase the price of silver.

The London papers continue to publish fresh details of extraordinary gold news from Australia, and the richness of the auriferous region is said to exceed any thing ever yet heard of in California.

Kossuth is accompanied by Madame Kossuth and by M and Madame Pulszky, togethe with his aide-de-camp and Secretaries—in all 12 persons. As the Humboldt came up the Bay Kossuth was saluted with a discharge of 31 guns, which was returned on the part of the steamer. On his arrival at Staten Island, a large number of the people, notwithstanding the lateness of the hour, rushed down to the Dock to welcome him. Doctor Doane, the health officer at Quarantine, addressed the noble guest, to whom the latter replied in a brief and appropriate manner His fellow countrymen, who have been for some time awaiting his arrival in this city, our citizen soldiery, and the others present, seemed perfectly frantic with joy, and made the neighbouring shores resecho with their shouts of admiration and delight.

Lola Montes is also among the passengers in the Humboldt.

DEPARTURE OF KOSSUTH FROM ENGLAND.—The departure of Kossuth from the shores of Albion was marked by a demonstration at Southampton, equalling in enthusiasm that which attended his landing there. Nearly all the population turned out to bid him God speed on his voyage, and the affectionate expressions of esteem which were displayed showed the firm hold which his virtues and talents have taken in the minds of the English nation. One of the splendid steamers belonging to the Peninsular and Oriental Steam Navigation Company was placed at his disposal to convey him from Southampton to Cowes. All the ships in the dock were decked with flags. The Hungarian colors predominating. The cannon of the Southampton Battery thundered forth a national salute of 21 guns, significant of their recognition of Hungarian nationality; and amidst hearty and enthusiastic cheering, the illustrious Kossuth stepped from the English soil to embark for the United States.—During his stay at Southampton, Kossuth and his party were the guests of Mr. J R. Crookey, Consul of the United States On board the Jupiter, the steamer conveying Kossuth to Cowes the Mayor and Corporation of Southampton had assembled, and a magnificent dejeuner was served in honor of the distinguished Exile; several toasts were drunk, including the health of Kossuth and that of Mr. Crookey, which was proposed by Kossuth himself. When the time of parting came, Kossuth was powerfully affected, and expressed in accents broken with emotion, his warm thanks for the kindness he had experienced from his Southampton friends. The tears of sympathy glistened in the eyes of the numerous party assembled to bid him good-bye, and amongst the loud and long continued cheers of the thousands of people who were present in steamers, and in boats of all classes and sizes, lining the the shores of the picturesque and beautiful Isle of Wight, the garden of England, the Humboldt got underway—the multitudes offering up prayers for the welfare of the illustrious Hungarian liberator.

A meeting of the Council of Southampton was held on the 18.h Nov, Richard Andrews, Esquire Worshipful the Mayor was in the Chair. It was moved by alderman Taisley seconded by alderman Pike, and resolved unanimously, that this Council having received from the Worshipful the Mayor a communication as to the intended departure of the Illustrious Hungarian Patriot, Louis Kossuth from the Port to the United States, on the 20th inst, the members of this committee cannot refrain from hereby recording their admiration of those patriotic and strictly constitutional sentiments which he has every where, and on all occasions enunciated to the people of this country, and of those prompt and unqualified denials which he has given to the unfounded calumnies of the abettors of despotism and tyranny, whether residents of this or other countries, as well as the surpassing eloquence, and irresistible truthfulness with which he has placed before the British public, the countless wrongs, and the crushing oppression of his beloved country. Most gratifying has it been to this council to have observed from day to day since the arrival of that great and distinguished man in our Port since the 23d of October last That the admiration of his public conduct and private worth, and of his vast sacrifices for these great and undying principles of liberty, which he has so ably represented, first publicly expressed to the Mayor and Corporation of Southampton, has been every where most enthusiastically re-echoed by millions of the British people.

FROM THE

ROYAL POLYTECHNIC INSTITUTE,

LONDON.

ST. ANDREWS' HALL!!!
St. Peter Street.

ONE WEEK ONLY,
Commencing on MONDAY, November 24th.

Grand Scientific Exposition of the GREAT LONDON

OXY-HYDROGEN MICROSCOPE,

The Magnifying powers of which exceed Eighty Million Degrees.

This wonderful achievement of modern science reveals a world of living beings whose existence has been hitherto unknown, and exhibits the marvels of creation in the most striking and obvious manner. This remarkable piece of mechanism is by far the largest Microscopic apparatus ever given to the world.

THE NEWLY INVENTED
INTROSPICIO!!!

Being a series of exquisite PANORAMIC VIEWS and HISTORICAL TABLEAUX, presented on a more grand and comprehensive scale than has ever yet been attempted in America.

☞ Admission—1s 3d. Children and Schools—half-price. Doors open at Seven; entertainments to commence at EIGHT o'clock.

Nov. 22. 490

AN EVENING ENTERTAINMENT,
IN AID OF THE FUNDS OF THE
LADIES' BENEVOLENT INSTITUTION,
WILL TAKE PLACE ON
Tuesday, the 9th December next,
AT THE
HAYS' HOUSE,
Dalhousie Square.

THE HON. MR. JUSTICE AYLWIN has kindly consented to preside.

During the evening Addresses will be delivered by several gentlemen.

By permission of Colonel Horn, the splendid BAND OF THE XXTH REGIMENT, under direction of Mr. Oliver, will be in attendance.

Tickets—2s. 6d., Single; 3s. 9d., admitting Gentleman and Lady—may be obtained at the Hays' House, Messrs. A. Savage & Co., Messrs. S. Jones Lyman & Co., and Messrs. R. Chalmers & Co.

Doors open at SEVEN o'clock, P. M.

Montreal, November 24, 1851. 489

Several varieties of the Fruit will be shewn, particularly the far-famed Oswego Buerre Pear, so well adapted for Northern culture. 478

SWAIM'S
CELEBRATED PANACEA,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the Effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea. Some of which give the particulars of cases too frightful for general publication, where the patients had been almost eaten up with Scrofula, and were deemed incurable by Physicians.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—

W. Gibson, M.D., Prof. of Surgery, Pa. University;
Valentine Mott, M.D., Prof. of Surg., N. Y. University;
W. P. Dewees, M.D., Prof. of Mid., Pa. University;
N. Chapman, M.D., Prof. of Physic, Pa. University;
T. Parke, M.D., Pres't, College of Physicians, Phila.;
Dr. Del Valle, Professor of Medicine, Havana;
Jose Fourcade de Luz, Prof. of Surgery, Lisbon;
J. Chipman, Member Royal College Surgeons, London;
G. W. Irving, late Minister to Spain;
Sir Thomas Pearson, Major-General British Army;
Gilbert Robertson, British Consul, &c., &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1 50 per bottle, [containing three half pints,] or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following inscription blown in the glass—"SWAIM'S—PANACEA—PHILADA.," and having the name of JAMES SWAIM stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Costiveness, Loss of Appetite, Dyspepsy, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet [which may be had gratis] accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, *the Old Stand*, (Seventh Street, below Chestnut,) Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

General Agents for the United States,
SCHIEFFELIN BROTHERS & Co.,
104 and 106, John Street, New York.

November 17, 1851. 485

TO C. LAROCQUE, ESQ.

SIR,—In compliance with your request, I now cheerfully give my opinion of the Plantagenet Waters, with which request I have hitherto declined compliance until I could speak from experience of their virtues.

I was one among the first Medical Practitioners in this city to use these Waters, about three years since, and to recommend them to the use and notice, not only of my patients, but of my professional brethren; and I have much pleasure in saying that my sanguine expectations respecting them have been more than realized.

The chemical composition of the Plantagenet Waters, as Mr. Hunt's analysis shews, is a valuable one, combining in rational proportions most of the saline compounds of the human blood. I have found these Waters most useful in gastric, enteric, hepatic, and nephretic affections, and in some forms of dropsy. From the rare and valuable combinations of Iodine and Bromine which they contain, and their consequent action on the lymphatic system, I have found them useful in Gout, Rheumatism, Scrofula, and Calcareous diseases. It is worthy of remark, that during the prevalence of the Cholera in this city in 1849, I used and recommended them extensively, and their powers seemed to be prophylactic against that pestilence, as not a solitary case of Cholera occurred to my knowledge where a systematic and judicious use of the Plantagenet Waters had been made. I am frequently in the habit of prescribing them either alone or as a valuable adjunct to other remedies.

CURES FOR THE UNCURED!

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA, OR KING'S EVIL.

Extract of a Letter from Mr. J. H. Allidey, 219, High Street, Cheltenham, dated the 22nd of January, 1850.

To Professor HOLLOWAY:

SIR,—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck which after a short time broke out into an Ulcer. As eminent medical man pronounced it as a very bad case of Scrofula, and prescribed for a considerable time without effect. The disease then for four years went on gradually increasing in virulence, when, besides the Ulcer in the neck, another formed below the left ear, and a third under the eye, besides seven others on the left arm, with a Tumour between the eyes, which was expected to break. During the whole of the time, my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, he also being for several months at the General Hospital, where one of the Surgeons said that he would amputate the left arm, for that the blood was so impure, that, if that limb were taken off, it would be then even impossible to subdue the disease. In this distressing state I determined to give your Pills and Ointment a trial, and after two months perseverence in their use, the Tumour gradually began to disappear, and the discharge from all the Ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessing of health, to the astonishment of a large circle of acquaintances, who could hardly to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means had failed.

(Signed,) J. H. ALLIDAY.

CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th January, 1850.

To Professor HOLLOWAY:

SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for the last four years—at times I was so bad as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial, and purchased from Mr. Hollin, Chemist, of this town, two boxes of Pills and two of Ointment, and in three weeks, through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish, having been sixty-five years in it, with an exception of ten years I served in the 54th Regiment of Foot. (Signed,) JOHN PITT.

CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Barker, of No. 5 Graham's Place, Drypool, near Hull, had Ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure, when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of 60.

N. B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850.

CURE OF A DESPERATE CASE OF RINGWORM OF SIX YEARS' STANDING.

Lima, 12th of November, 1849.

One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the city, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P Hague, the English Chemist and Druggist, residing at No. 74, Calle de Palacio, to try Holloway's Pills and Ointment, which was done, and after using six large pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy, is withheld.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chilblains
Bad Breasts	Chilblains
Burns	Chapped Hands
Bunions	Corns (Soft)
Bite of Mosquitoes and Sand-Flies	Contracted and Stiff Joints

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others in use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying that for durability, neatness of work, and amount of work they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, WM. JOHNSON, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using and Machine.

B.

GEORGE ARMSTRONG,
CABINET-MAKER & UPHOLSTERER,
CORNER OF McGILL & CRAIG-STREETS,
(Hay-Market Square.)
MONTREAL.

G. A. has REMOVED to the above Stand, and begs leave respectfully to tender his thanks to his Friends, and the Public generally, for the liberal patronage they have hitherto bestowed upon him, and hopes, by strict attention to Business, and promptitude in execution of Orders, to merit a continuance thereof.

N. B.—FUNERALS attended to.

August 29, 1850. 194

MONTREAL HIGH SCHOOL,
WITH WHICH IS INCORPORATED THE ROYAL GRAMMAR SCHOOL.

The Classes will be Re-opened on Monday, August 19th, at 11 o'clock, in presence of the Directors, when his Honor Judge McCORD *will preside, and make an appropriate Address to the Pupils.—Parents and Guardians are invited to attend.*

Third Master—D. Rodger.
French—M. Montier, Lecturer McGill Col'l.
Drawing—Rev. Jno. Hutchinson.
Preparatory Dep't—Rev. Jno. Hutchinson.
Fencing and Gymnastics—M. Rey.

THE SYSTEM of INSTRUCTION is modelled from that pursued in the great Public Schools of England and Scotland, but undue time and attention are not given to the Classics to the prejudice of other branches of Education equally essential.

The COURSE comprises Latin, Greek, English and French Literature, the general Truths of the Christian Religion, the Elements of various branches of Mathematics, Familiar Lectures on Natural Philosophy, Elocution, History, Geography, the use of the Globes, Writing, Arithmetic, and Book-Keeping.

Drawing is added, if required, but there is an extra charge for it.

The year is divided into four Terms.

The First Term commences.....August 20th.
The Second do do .....November 6th.
The Third do do .....February 1st.
The Fourth do do .....April 25th.

The FEES, which are payable in advance, are as follows:—

The First and Second Classes, £2 10 0 per Term
The Third, Fourth and Fifth do 2 0 0 do
Preparatory School..... 1 5 0 do
and 2s. 6d. per Term for Stationery.

In order to extend the advantages of this School to those who live at a distance, arrangements have been made to receive BOARDERS, to the formation of whose moral character, advancement in learning, and personal comfort, every care and attention will be given.

The Rector's Terms are £50 a Year; those of the First Master at from £35 to £45.

The French Master, M. Rey, is prepared to take Boarders on the same terms.

R. & A. MILLER'S

FOURTH BOOK OF LESSONS,
FIFTH BOOK OF LESSONS,
FIRST BOOK OF ARITHMETIC,

To be followed by several others of this excellent Series of SCHOOL BOOKS.

These Books are printed with new Type, on superior Paper, and strongly bound in Linen.

THE FIFTH BOOK OF LESSONS.

The attention of School Teachers and Merchants is particularly requested to this the first Lower Classes Edition of the "Fifth Book of Lessons" which, for clearness of type and quality of paper, exceeds any previous Colonial Editions.

—CONSTANTLY ON HAND.—

The other NATIONAL SCHOOL BOOKS generally used in the Province, viz.:—Sequel to the Second Book, English Grammar, Key to Ditto, Key to First Book of Arithmetic, Book-Keeping, Key to Ditto, Introduction to Geography and History, Elements of Geometry, Mensuration, Appendix to Ditto, &c.

—ALSO,—

Primers, of various kinds,
Mavor's Carpenter's, and Webster's Spelling Books,
Murray's, Lennie's, Kirkham's, and Reid's Grammars,
Walker's Dictionary,
Walkingame's, Ingram's, Melrose's, Thomson's, and other Arithmetics,
Jackson's and Morrison's Book-Keeping,
Nugent's and Boyer's French and English Dictionaries,
Ewing's, Mitchell's, Morse's, Olney's, Reid's and Stewart's Geographies and Atlasses,
Sullivan's Spelling Book Superseded,
Butter's Etymological Spelling Book,
McCulloch's Series of Lessons and Course of Reading,
And all such other School Books as are generally used in the Province.

R. & A. MILLER,
8, St. François Xavier Street.

Montreal, March 21, 1851. 309

THE AGRICULTURAL JOURNAL AND TRANSACTIONS OF THE LOWER CANADA AGRICULTURAL SOCIETY will hereafter be PUBLISHED by the Subscriber, to whom all communications must be made, which relate to the Subscriptions, Advertisements, and all business matters which refer either to the past or forthcoming Volumes of the Journal.

The Journal will be vastly improved both in quality of paper and typography. The Work will also be increased in value and interest, by the introduction of Diagrams, approved Fixtures, and Implements of Husbandry, together with Plans of Modern Farm Buildings, Illustrations of the best varieties of Fruit, Profiles of Domestic Animals, &c., &c.

Agents and Subscribers are required to remit immediately to the Publisher the amount due the Society.

Any one who will obtain new Subscribers, and remit $5, will receive 6 copies of the Journal for One Year, or 10 copies will be sent for $8.

The Subscriber also publishes the SNOW DROP, (a Juvenile Magazine,) at $1 per annum. The same Commission will be allowed to those who obtain six or more Subscribers.

The Subscriber is AGENT for all of the important AMERICAN MAGAZINES and REPRINTS, embracing the higher departments of Literature, Science and Art; which he delivers in the principal Towns of Canada East at New York prices.

RESPONSIBLE AGENTS WANTED, to CANVASS for the SNOW DROP, AGRICULTURAL JOURNAL, and other WORKS, to whom a liberal Commission will be allowed.

ROBERT W. LAY,
193, Notre Dame Street.

Montreal, December 7, 1850. 281

DRY GOODS.

THE SUBSCRIBERS are now receiving, *ex Toronto, Clyde, Hamilton, Albion, Caledonia, Catherine, &c., &c.*, a large and complete selection of STAPLE and FANCY GOODS, which they are prepared to offer at low prices, and on reasonable terms.

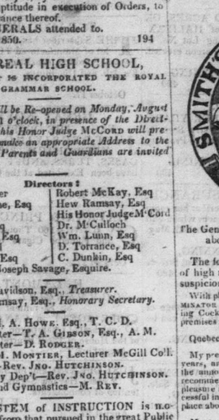
MOST IMPORTANT
To Farmers, Housekeepers, and others, having Store-Houses, &c., infested with Vermin or Insects.

SMITH'S EXTERMINATOR
FOR THE ENTIRE EXTIRPATION OF
Rats, Mice, Cockroaches, Beetles, Crickets, Ants, &c.,
Without the use of Arsenic or other Mineral Poisons.



The Genuine Article has a Label, similar to the above, pasted on the top of each Box.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above suspicion:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.

C. F. BAILLARGEON, Pr.

Quebec, 7th March, 1849.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the nuisance, without success. Having been auty recommended SMITH'S EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.

BENJAMIN HART.

Montreal, November 22, 1848.

I hereby certify, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in ridding the College Premises of Cockroaches, Crickets, and such like disgusting Insects, which were before very numerous.

S. VILLENEUVE,
Director of Montreal College.

Montreal, April 20, 1848.

From the Rev. B. Davis, D. D., Minister of the Baptist Church, Montreal.

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found my present dwelling over-run with Beetles; the nuisance bid defiance to all efforts to abate it, until this preparation was applied. One little box sufficed to exterminate the Insects almost entirely from the house. Similar cases of success have occurred in my origin dwelling, attended to by REV. I. DAVIS.

4 Sepulchre Place, Montreal, Nov. 17, 1848.

This preparation is warranted in all cases; and Agents are instructed to *refund the money* to purchasers, should it not prove effectual.

Sold, Wholesale and Retail, at the principal Drug and Medical Warehouses throughout the Province.

May 21, 1851. 340

KEATING'S COUGH LOZENGES.

A CERTAIN REMEDY for disorders of the *Pulmonary Organs*—in Difficulty of Breathing—in Redundancy of Phlegm—in Incipient Consumption—(of which *Cough is the most positive indication*)—they are of unerring efficacy. In *Asthma*, and in *Winter Cough*, they have never been known to fail.

KEATING'S COUGH LOZENGES are free from every deleterious ingredient; they may, therefore, be taken at all times by *the most delicate* with great success; and by the youngest child; while the *Public Speaker* and the *Professional Singer* will find them invaluable in clearing the voice, fullness and irritation incidental to vocal exertion, and consequently a powerful auxiliary in the production of *wholesome enunciation.*

Prepared and Sold, in Boxes, 1s. 1½d., and 7½s., 2s. 9d., 4s. 6d., and the 8s. 6d. bottle, and, on Sundays, by the Chemist, &c., No. 79, St. Paul's Church Yard, London.

Sold Retail by all Druggists and Patent Medicine Vendors in the Kingdom.

N. B.—To prevent spurious imitations, please to observe that the words "Keating's Cough Lozenges" are engraved on the *Government Stamp* of each Box.

IMPORTANT TESTIMONIALS.

Copy of a Letter from "Colonel Hawker," the well-known Author on "Guns and Shooting."

LONGPARTON HOUSE, NEAR WHITCHURCH, HANTS, October 21, 1846.

SIR,—I cannot resist informing you of the extraordinary effect I have received by taking only a few of your LOZENGES. I had a cough for several weeks, that defied all that had been prescribed for me; and I was not completely rid of it by taking about half a small box of your Lozenges, which I find are the only one—that relieve the cough without derranging the stomach or digestive organs.

I am, Sir, your humble servant,
P. HAWKER.

To Mr. Keating, 79, St. Paul's Church Yard.

WILLOW STREET, EAST INDIA ROAD,
Near New Town, Nov. 8, 1849.

SIR,—I consider that it is merely the manifestation of a proper appreciation for the article, to inform you of the very skilled and extraordinary relief which I have obtained from the use of your Cough Lozenges. I have for the last four years been afflicted with a distressing cough, with a difficulty of breathing. Accidentally hearing of your Cough Lozenges, I purchased a 2s. 9d. box of your Agent, Mr. Kernot, Medical Institution, Christ Church Passage, Pall Mall, and I find are the only one that procured, and beg to return many thanks, and am,

Sir, your obedient servant,
THOS. KEATING, Esq. CHARLES WOOD.

CHURCH STREET,
Folkestone, November 22, 1848.

SIR,—Having been troubled with a very bad cough for the last eight months, I applied to Mr. Hanson, agent for this town, for some relief; he recommended me your "COUGH LOZENGES," which I find, I am happy to say, cured me in a week. I beg most cordially to recommend them, and beg you will not hesitate to make this a letter public; *such a valuable remedy cannot be too well recommended.* I have the honour to be,

Sir, your obedient humble servant,
JOHN HILL, Bart.

To Mr. Keating.

MEDICAL WAREHOUSE,
Halifax, N. S., August 15, 1846.

SIR,—In mentioning the effects of your Cough Lozenges, the "Racer" we are gratified in being able to inform you that they have given very general satisfaction, (having received quite a quantity) especially in the removal of COUGHS AND COLDS, of which the increasing demand is a sufficient evidence. We shall, probably, require for the Winter a further supply of FORTY OR FIFTY DOZENS, which you can forward to Halifax, Messrs. Morton & Co., or by one of the Canada Steamers, viâ Liverpool, for

Your's respectfully,
MORTON & Co.

To the Proprietor of Keating's Cough Lozenges,
79, St. Paul's Church Yard, London.

Sold, in Boxes, at 1s. 1½d. each, by the following Agents:—

MONTREAL—Messrs. Jno. Carter & Co., and Wm. Lyman & Co., Druggists.
QUEBEC—Messrs. Josh. Bowles & Co., and Jno. Musson & Co., Druggists.
TORONTO—Messrs. Burkett & Co., and Lyman, Kneeshaw & Co., Druggists.

N. B.—Directions in French, if required.

Montreal, November 13, 1850.

DR. LA'MERT
ON THE INFIRMITIES OF YOUTH & MATURITY.
Just Published, 40th Edition, and may be had in French and English, in Sealed Envelope,
Price 2s. 6d. Sterling.

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE; or, the EXCESSES of YOUTH and MATURITY, usually acquired at an early period of life, which enervate the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from those causes, close study, or the Influence of Tropical Climates; Local and Constitutional Weakness, Syphilis, and all Nervous and Derangements resulting from Indiscretion,—with Forty Colored Engravings, illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and functions, and the various injuries that are produced in them.

BY SAMUEL LA'MERT, M. D.,
No. 37, Bedford Square, London,
Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital Medical Society, &c.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the Work; the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more import once than the preservation of health, and of the physical capabilities of which every man should be possessed, (while indulgence begets that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life or from the follies of advanced age, while suffering from their invariable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Whatever may be said (and frequently, but erroneously, entertained, that those complaints are beyond the reach of art, alike resisting him and prevent the seeking for assistance where alone it can be procured. In setting this, he forgets that accurate discrimination in ascertaining the nature of disease, sympathy with the sufferer, and, above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualification, that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. Dr LA'MERT has obtained the highest medical honors, each diplomas testify, and the great extent of his practice for many years is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in Montreal, of BENJAMIN DAWSON; in St. Johns, of H. Chisam & Co., price 2s. 6d. Sterling; Halifax, Messrs. Morton & Co.

December 20. 79

ELEGANT AND INVALUABLE ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,
FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb. 15, 1847.

MR. WM. BOGLE.—SIR,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any of those deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLAW LEWIS.

It is an indispensable article for the Ladies, as it Keeps the hair in place and curl, and the skin or partings of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,
A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet introduced for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin, it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, enclosed either for the dressing case of the "gentleman and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Sumner F. Barrett, Saratoga Street, East Boston:

EAST BOSTON, Feb. 8, 1847.

Mr. William Bogle,—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference.—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that the effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly and she used it cleaner and more regular, I am convinced that the growth of the hair would have been accelerated. I am, Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAIONA,
FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

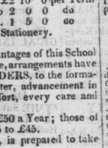
Eradicating Tans, Pimples, and other eruptions of the skin, and rendering a fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot sun of summer, and preserving blooms of winter, and is the most fragrant and delicious article to be found at the toilet or fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

WILLIAM BOGLE, Proprietor,
GREEN'S PERFUMERY, 277, Washington St., Boston.

AGENTS FOR CANADA:—E. Carter & Co., Montreal; J. D. Musson, Quebec; R. Lyon, Toronto.

JUDSON'S
CHEMICAL EXTRACT OF



CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and
CONSUMPTION.

THIS most strongly marked and developed cause of Pulmonary Disease is generally the last which begins to become discussed and unmerited, and the case so utterly hopeless, as to have been pronounced by Physicians and friends to be a mere matter of probability of recovery, and at times thought to be dying, have been cured by this wonderful remedy—nothing can give her any relief, and yet a compound of medicinals which are peculiarly adapted to, and essentially necessary for the cure of

COUGHS AND CONSUMPTION,

Its operation is mild, yet efficacious; it loosens the phlegm, it relieves so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter by expectoration, producing a delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men, and the investigations of kind and unceasing friends and nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE

persons have been cured repeatedly in buying medicines which were said to be *infallible* cures, and which have—*without a single exception*—in fact, proved to be only a pitiable, *but in cure for mortal* laugh. It combines no deleterious drugs, and one trial will prove the astonishing efficacy better than any assertions or certificates in curing Consumption and all diseases of the lungs such as *spitting of blood, coughs, pain in the side and chest, night sweats, &c., &c.*

About half a dozen of almost *miraculous* cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like a Quackery, (as all know them to any person calling at our office) Pamphlets containing them will check for such enough in its own favor wherever it is tried.

Caution.—This medicine is sold in large bottle, and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid wrapper around the bottle. All others are spurious. Address to Comstock & Brother, No. 9, John Street, New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S POUNDER OINTMENT.

For the cure of Spavin, Ringbone, Splint, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of the food, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require no assistance to nature to throw off any disorder of the fluids, which, if not attended to, will result in the Yellow Water, Glanders, or Farcy! Serious disorder with which we can be prevented by giving one of these powders, and will, at any time, cure when any symptoms of disease appear, quickly in time. These powders will reduce inflammation and fever, loosen the skin, cleanse the water, and by their action on the blood, renovate the whole system and work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from, or producing a bad state of the blood, are speedily cured by them. Remember and ask for CARLTON'S CONDITION POWDERS, and take no other.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,

and for the cure of all diseases of man or beast that require *external* application, and for *contracted cords and muscles, strengthens weak joints, is also used for spavins, tendons, saddle galls, swelled legs*, sores of all kinds on Horses.

CARLTON'S articles for *Horses* and Cattle are prepared from the recipes of a very celebrated English Farrier, And will cure, in ninety-nine cases out of one hundred, any of the above complaints. They have been used by Farmers, Livery-men, Stage Proprietors, and others, with the most marked and decided success.

Caution.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

FOR FEMALE AND MALE.

DR. LARZETTE'S JUNO CORDIAL, or Procreative Elixir, prescribed as an effectual restorative in cases of Debility, Impotency, or Barrenness, and all irregularities of nature. It is all that it professes to be, viz: Nature's Great Restorative, and remedy for those in the married state without offspring. It is a certain cure for Seminal Emissions, General Debility, Gleet, Weakness of the Genital Organs, Nervous Affections, Leucorrhœa or Whites. As an invigorating medicine it is unequalled and certain remedy for impotency consumption, Indigestion, loss of Muscular Energy, Physical Lassitude, Female Weakness, Debility, &c. It is warranted to give the aged in any of the above complaints, and is of priceless value to those without *offspring.*

Caution.—Find the name of Comstock & Brother on the wrapper, or never buy it—the only genuine has their signature on the wrapper.

CARLTON'S LINIMENT FOR THE PILES, &c.

It is now used in the principal Hospitals, and in the private practice in our country, by an immense number of individuals and families, first and most certainly for the cure of the PILES, and also extensively and effectually as to baffle credibility unless where its effects are witnessed—*extremely* in the following complaints:—

FOR DROPSY—Creating extraordinary absorption at once.

SWELLINGS—Reducing them in a few hours.

RHEUMATISM—Acute or Chronic, giving immediate ease.

SORE THROAT—By Cancers, Ulcers, or Colds.

CROUP AND WHOOPING COUGH—Externally and over the chest.

ALL BRUISES, SPRAINS, AND BURNS—Curing in a few hours.

BOILS AND ULCERS—Whether fresh or of long standing, and fever sores.

Its operation upon adults and children, in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond belief, for such additional testimony, some of the following Engravings, being Prints already issued by the Society, viz.:—"THE HERMIT" "THE ITALIAN SHEPHERD" "PRISCCCHRLSSOWARD," "HAPPY INVENT," "MAY MORNING," and "WHITTINGTON," or, as he then thought, taking a Proof Impression of the Engraving for the Year.

SUBSCRIPTIONS will be received at the OFFICE of the SOCIETY, 25, Argyll Arcade, Glasgow, by any of the MEMBERS of the COMMITTEE OF MANAGEMENT, and by the HONORARY LOCAL SECRETARIES appointed throughout the Country.

SUBSCRIPTIONS will be received at the STORE of CAMPBELL BRYSON, Hardware and Ironmonger, No. 34, St. François Xavier St. east, AGENT for BRITISH NORTH AMERICA.

Montreal February 10, 1851. 292

THE BRITISH PERIODICALS
AND THE
FARMERS' GUIDE.

LEONARD SCOTT & Co,
No. 54, Gold Street, New York,

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural Work, called

"THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE."

By Henry Stephens, F. R. S., of Edinburgh, Author of the "Book of the Farm," &c., &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable Work will consist of two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid Steel Engravings, and more than 600 Engravings on Wood, in the highest style of the Art, illustrating almost every Subject of importance now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *pictorial* feature of the book is unique, and will render it of inestimable value to the students of agriculture.

The Work is being published in Semi-Monthly Numbers, of 64 pages each, exclusive of the Steel Engravings, and is sold at 25 cents each, or $5 for the entire Work in Numbers, of which there will be at least 22.

The British Periodicals Re-Published are as follows, viz.:—

The London Quarterly Review, (Conservative.)
The Edinburgh Review, (Whig.)
The North British Review, (Free-Church.)
The Westminster Review, (Liberal.)

AND

Blackwood's Edinburgh Magazine, (Tory.)

Although these Works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, said under the masterly guidance of *Christopher North*, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial Works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns but a few months back in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer,) "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the *earliest* reading of these fascinating tales.

TERMS:

	For Annum.
For any one of the four Reviews	$ 3.00
For any two of the four Reviews	5.00
For any three of the four Reviews	7.00
For all four of the Reviews	8.00

THIRTY-NINE PAINTINGS, as follows:

Edinburgh, Newe of Battle after Flodden, by Thos. Jones Barker.....
"Bonnie Dundee" rush the people crying, "Tell us all, oh, tell us true!
Where are they who went to battle, Randolph, Murray, course to hunt or slay?
Where are they, our brothers, children? Have they met the English foe?
Why not thou alone, unfollowed? Is it weal, or is it woe?
Like a corpse the grisly warrior looks from out his helm of steel;
But no word he speaks in answer, only with his armed heel
Chides his weary steed, and onward up the city streets he reels.
Fathers, sisters, mothers, children, shrieking, praying by his side.
"By the God that made thee, Randolph! tell us what befell!
Speak! Speak! Speak!"
Then he lifts his riven bonnet, and the saker's voice is dumb!!

DR. HALSEY'S GUM-COATED FOREST PILLS.

THESE PILLS are warranted not to contain any Mercury or Mineral whatever. They purge without griping, nauseating, or weakening; can be taken at any time without hindrance from business, change of diet, or danger of taking cold. They neither have the taste or smell of medicine, and are five times more effectual in the cure of disease than any Pills in use.

But a short time has elapsed since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable have found relief, and been restored to sound and vigorous health from their use.

Never has any remedy had more reliable and stronger proofs of its good qualities than Dr. Halsey's Forest Pills. Testimonial after testimonial, showing their great powers of curing in almost every class of disease, have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica, New York:—

UTICA, Nov. 9, 1848.

Every fall, for several years back, I have had much sickness in my family of Bilious Disorders, and Ague and Fever. In the fall of 1848, two of my sons were taken at the same time with Bilious Fever. In former seasons, when sickness occurred in my family, I had always employed a Physician. But at this time having two boxes of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day the fever had left them, and they both recovered without any more medicine. Since this time I have always kept your Pills at hand, and in all cases of sickness we have used them with the most happy results.

DR. G. W. HALSEY. IRA S. GUSTINE.

HEARER!!!—If you wish to be sure of a medicine which does not contain that lurking poison, Calomel or Mercury, purchase HALSEY'S GUM-COATED FOREST PILLS, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for *Halsey's Pills.*

If you would have the most concentrated, as well as the best composed *Syrup for Worms in the world* for purifying the blood, obtain *Dr. Halsey's Pills.*

If you do not wish to be a victim to dangerous illness, and be subjected to a Physician's bill of 20 or 50 dollars, take a dose of *Dr. Halsey's Pills* as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not leave the bowels costive, but gives strength instead of weakness, procure *Halsey's Pills*, and avoid Salts and Castor Oil and all common Purgatives.

Parents, if you wish your families to continue in good health, keep a box of *Halsey's Pills* in your house.

Ladies, *Dr. Halsey's Pills* are mild and perfectly harmless, and well adapted to the peculiar delicacy of your constitutions. Procure them.

Travellers and Mariners, before undertaking long voyages, provide yourselves with *Dr. Halsey's Pills*, as a safe and agreeable cathartic.

Almost every day new Certificates are received from persons of the highest respectability bearing testimony to the great cures made by

DR. HALSEY'S FOREST WINE AND PILLS!

Certificate of Mr. John Crawford, No. 546, Pearl Street, New York.

This is to certify, that on Thursday, June 12, I was attacked with violent pain and pleurisy
