MEN AND THINGS AT OTTAWA.

Weary of Work—Passages of Wit—New Brunswick Members and the Salary Steal.

FROM OUR OWN CORRESPONDENT.

OTTAWA, April 27.

SANITARY GROWLS.

The business of the House is now being pushed through at a very rapid rate. Everybody appears to be tired of Ottawa, tired of bad water, bad drainage, bad ventilation, bad everything. Quite a discussion took place in the House respecting its ventilation. Many members complained that much illness was caused by the cold drafts let in upon them. Some complained of the bad water, saying that it spoiled their brandy completely. Blake said the illness of the members on the Government side of the House was caused as much by the bad votes they had to swallow, as by the bad air to which it was replied that if bad votes were fatal, the Opposition side of the House would soon become a graveyard. The discussion resulted in the appointment of a committee to consider the sanitary condition of the House.

THE PASSAGE OF THE ESTIMATES.

Nearly every Government day is now occupied in passing the estimates. It is a general sharp-shooting time, the Opposition keenly scrutinizing every item, and the Government defending as best they may. Messrs. Tupper, Tilley and Mitchell seem to have the burden of the work this session, and the other members of the Government, except Sir John, taking things pretty easy.

SHARPSHOOTING — TUPPER AND MACKENZIE.

A lively passage at arms took place between Mackenzie and Tupper during the debate on the change of railway gauge, owing to Mackenzie charging Tupper with general inconsistency as a public man. He had said at one of his meetings that Tupper would rather "rule in hell than serve in heaven." In the course of his reply Tupper asked "*When have I ever shown a disposition to rule on the other side of the House.?*"

Tupper also stated that when he went West, during the late elections, Mackenzie had objected to meeting him in public discussion. This Mackenzie denied, but Tupper said that the chairman of Mackenzie's committee, in the presence of twenty gentlemen, had affirmed that such was the case. There seems to be perpetual war agreed upon between Tupper and Mackenzie, and they are pretty equally matched in debate, Mackenzie being incisive and keen in his remarks, while Tupper clothes his ideas in eloquent words, and is in possession of a large share of that magnetism which influences and controls men.

MACKENZIE'S DEFERENCE TO MITCHELL.

During the discussion on the marine estimates Mackenzie asked if the system of free passes and "dead-heading" was to be continued on the Government steamers. Mitchell replied, "If the honorable gentleman wants a trip I shall be happy to furnish him with a pass, or "dead head" him on any of the boats of the department. No man joined more heartily in the laughter which followed this reply than Mackenzie himself, who, by the way, always pays great deference to the opinions of the Minister of Marine and Fisheries.

MARITIME ESTIMATES.

There is one thing remarkable in the discussion of the estimates, and that is that the vote of a few thousands of dollars in Nova Scotia or New Brunswick occupies three times the amount of time which fifty times larger votes occupy for Ontario. Members of the Opposition show utter ignorance of all ports in the Lower Provinces, and full explanations have to be given before any vote will be agreed to.

THE SALARY STEAL.

I understand that no member from New Brunswick signed the round robin for the increase of their indemnity to $1,000. No provision is made for any increase in salaries of members of the Government.

GOVERNMENT MEASURES.

All the Government measures are in a fair way of progression and will be passed without amendment. H.

NOTES AND NEWS.

GENERAL.

Fechter is supported by Chas. Leclercq and Charles Wheatley in "Monte Christo," now being performed at the New York Grand Opera House.

At the Cape of Good Hope ostrich farming is now carried on to a great extent, the eggs being hatched by patent steam incubators with far greater safety than attends the natural process.

The cultivation of the mule is urged on the English public in consequence of the scarcity of horses, and several witnesses of their doings in the American war have written to the papers, confirming their usefulness and the economy of using them.

England is to have a new Doomsday Book of Government property and expenditure. In this book stock of the national property will be taken at the commencement of every year, and also at the termination, in order to see whether the public property is increased or diminished in value.

The merest chance has led to the discovery of the murderer of the agent of the People's Bank in Florence. In making a post-mortem examination of the corpse of Rugiu the doctor observed that one hand was firmly closed. He opened it, not without difficulty, and found it contained some hairs of a red beard. This was a revelation. It became evident that the unfortunate Rugiu, in struggling with his assassins, had seized one of them by the beard. The next step was to discover what individual having access to Rugiu's house wore a red beard. It was then remembered that the servant of Rugiu had a lover, a dyer, named Bergamaschi, whose hair and beard were red. He was arrested, and his house searched. Under a stove nearly a thousand francs were discovered, and several portions of his clothing were found to be stained with blood.

The new law of croquet provides that rovers may kill rovers. Chaimpion games are to be played with 3 3-4in hoops, the 4 inch hoops making it very hard to overtake the player when he has once got a start! To prevent expansion the hoops are to be made of steel and set in oak sockets. This prevents the hoops yielding to blows. The sockets are an inch and a half in diameter.

Of all "horned cattle," said Mr. Greeley, "the college graduate is the least useful." What class of graduates did he refer to? The class which was crammed. In some of the colleges young men are crammed as dealers in poultry cram chickens and geese and turkeys, that they may weigh well on the scales and fetch more than they are worth in the market.

The discussion of State purchase of railways in England has brought out the statement that the railways of the kingdom could be bought for £600,000,000—that is, for a bonus of a million or so above what they had cost; but this estimate was very soon pulled to pieces. First, £700,000,000, and then £800,000,000 appeared as the corrected amount, and now £1,000,000,000 is given as a probable demand.

The Baseballers want the exclusive use of part of the Boston Common. They claim to have 3,000 spectators and that their game is a healthful exercise. The Council demurs, on the ground that if beneficial to the nine, it means cold and rheumatism to the 3,000. Moreover the greater number is to be thought of in reference to the disposal of public grounds, and the surrender for special purposes is a monopoly that must give way to the advantage of the whole. Green lawns protected by law are conducive to the greatest health and greatest convenience of the greatest number. Thereupon the Baseballers collapse.

The practice of cramming the minds of children with answers to questions, with verses from the hymn-books, and with texts of Scripture, or any other texts, is as injurious to the mind as overeating and stuffing is to the body. When a child eats too much the organs of digestion, pulsation, circulation and secretion all suffer. When the memory is overtasked, all the faculties of the mind feel the effects of the burden it is compelled to carry. When a fond parent feeds his darling with pork, pickles, and pancakes, and loads its little stomach with a "mixed mess" which would defy the digestive power of an ostrich, the child becomes dyspeptic, its growth is retarded, and the poor little stultified thing becomes a Tom Thumb when he might have been a Titan. When the mind of a child is "like wax to receive, and adamant to retain" impressions, it is a violation of the natural laws to overtask it by drawing upon the memory, and cramming it with lessons which would appal an adult.

FRIDAY EVENING, MAY 2, 1873.

Births, Marriages and Deaths.

We are glad to learn from our Ottawa correspondent that the Hon. Mr. Pope has introduced a bill providing for the registration of Births, Marriages and Deaths, and for the collection and publication of statistics. It is proposed to attach this office to the Department of Agriculture, and to make the Minister of Agriculture Registrar-General. The Dominion will be divided into several districts, presided over by a Superintendent of Registration, who will have under him several Registrars. In the Province of Ontario there will be nine Superintendents; in the Province of Quebec, eight; in the Lower Provinces, four; and in British Columbia and Manitoba, three. These will be paid by salary, and the Registrars by fees. The former, in addition to their registration duties, will also be required to collect statistical information on agriculture and otherwise. Certain parties will be bound to furnish information, for which they will be paid by the Registrars and Superintendents. It was not the intention of the Government to use any existing machinery, but to create a new machinery, which must be worked entirely under the control of the Government. This is certainly a very important measure, and it is to be regretted the Government did not move in the matter some time ago, as it would have been well, from a statistical point of view, to have proceeded with their registration simultaneously with the new Decennial census. We believe there is a law of this kind in force in Manitoba, and that Mr. Wedderburn has on the files of the House of Assembly a bill to provide registration in New Brunswick, but which he was not able to move in last session on account of his illness and long absence from the House. Departments of the kind, will, however, hereafter not be necessary as Provincial institutions. We shall look anxiously for the putting in force of this law, and trust that those intrusted with the superintendence of the "new machinery" will be practical men who will be able to make its working satisfactory and complete.

The new liquor law is now published in the *Royal Gazette*. We made some observations concerning it, but were promptly contradicted by the *Telegraph* If any one interested will take the trouble to examine the Act, particularly Sec. 34, he will find, as usual, THE TRIBUNE was right and the *Telegraph* wrong.

The increase of the debt of Canada by the assumption of the surplus about which Ontario and Quebec have been wrangling ever since the Union will enable the new Prince Edward Island Government to obtain apparently better terms than were offered to the LATE Haythorne Government. The business should be settled immediately, and we hope the prolongation of the session means the immediate consummation of the Union.

Rev. Mr. Ancient is to remove from Terrence Bay to Halifax to labor in the Trinity Church section of St. Paul's Parish.

George Brooks had in the Fish Market, Halifax, Tuesday, a lobster that turned the scale at nine pounds. Its claws measured over three feet from tip to tip.

A number of charitably inclined persons in London are contributing to a fund to enable Mr. Weightman, the starving barrister whose sad case we alluded to some days ago, to get upon his legs again and start afresh after his release from jail.

The British Parliament have authorized an increased number of coal mine inspectors and have largely increased the appropriation for them, showing a purpose to exercise increased vigilance in regard to this very important matter.

An eccentric old fellow, who lives alongside of a graveyard, was asked if it was not an unpleasant location. "No," said he, "I never jined places in all my life with a set of neighbors that minded their own business so stiddy as they do."

A huge, broad face, burnt a dark, mahogany brown; fierce, bitter eyes, half hid under their swollen lids; coarse features, disfigured by bloated massiveness; a sensuous mouth, protruding in spite of the enormous mustaches,—is the flattering picture drawn of King Victor Emmanuel. But his looks are said to belie his character.

Orders have been received in Halifax to suspend all work on the new cable, and it is probable that the Great Eastern will not go there at all, but go to Heart's Content, Nfld. This change is said to have been caused by the break in the French and one of the English cables, and consequent negotiations entered into with the new cable company.

The Atlantic Wreck.

[From the Halifax Recorder.]

Every day brings to light more affecting incidents in connection with the disaster. Mr. Thomas Heywood, of Boston, who was referred to on Saturday evening as being here to obtain what tidings he could of his brother, returns this evening. His relics consist of the marriage certificate of "Joseph Booth Heywood" (his brother) and "Hannah Hooley," the ceremony having taken place in the district of Lower Broughton, Lancashire, on the 26th of February, 1873. The groom was about 27 years old, and the bride 23. Young Heywood had only been in the States about two years, and returned to his old home early this year to marry his betrothed. The certificate and some other small articles were found in a little bag around the bride's neck. Mr. Heywood has no idea what was taking his brother to New York when he lived in Boston.

We cannot help saying all that should be has not been done in the way of attending properly to the duties, perhaps we should say, the finer instincts of humanity. Take as a sample the following case, occurring a day or two ago. A body is brought ashore, dressed in corduroy pants, black vest and coat. One says "he is a German," but a bystander of experience was enabled to affirm from the clothing that he was either an Englishman or an Irishman. The body was stripped naked before being placed in the rude coffin. Noticing the unspoken remonstrance in the bystanders' eyes, the magistrate said "there are plenty of poor people who have given up clothing to the survivors, and it would be a sin to bury good articles like those." Besides," said one of the men "it makes the body heavier to carry;" and thus another victim of steamship mismanagement, nude as when he came unto the world, is placed beneath the ground.

[From the Reporter.]

Yesterday morning the Coast Wrecking Company successfully blasted the wrecked steamer Atlantic, and are now enabled to proceed with the work of recovering cargo without difficulty. Three charges of powder, each containing about 140 lbs. of powder, were fired by the aid of electricity. Those who were present when the explosion took place describe the scene as terrific The huge hull, shaken with the explosion, and the waters for some distance in the vicinity of the wreck were agitated.

At low tide yesterday a large portion of the wreck was to be seen. Some of the visitors to Prospect went out and gazed into the opening between the starboard side and the deck. A sound as of a thousand persons moaning came up from that ocean coffin. It was too much for their nerves, and they did not tarry long to listen to the awful noises caused by the rushing. ceaseless waters in the vessel.

No more bodies have been recovered from the wreck; it is thought that they are at the bottom underneath the cargo, and whether they will ever be recovered it is hard to say. Blowing up the wreck will mangle the bodies out of all recognizable shape. There were only two American gentlemen at the wreck yesterday looking after the bodies of lost cabin passengers, Mr. Ross of Rutland, and Mr. Wellington, of Boston. They came up to the city last night.

Some of the relatives and friends of lost steerage passengers are still there anxiously awaiting tidings of the bodies of their lost kindred. One young man from the States is waiting for the bodies of his mother and sister, and as he gazed upon the wrecking operations yesterday, he cried bitterly, as the chances of ever beholding, even in death, the features of those whom he loved, lessened.

Another man, an elderly person named Clarke, is at Prospect, waiting patiently and anxiously for the divers to bring up the body of his wife who was one of the passengers of the ill-fated ship. The poor fellow was overwhelmed with grief. Over 140 coffins had been opened for his inspection, but the remains of his wife were not among the number of the recovered dead. He was apparently in destitute circumstances; and as he related his tale of woe to the visitors, Mr. Mott, of Halifax, very generously placed $13 in the poor man's hand.

A New Hotel.

Hotel accommodation has been the cry in St. John for the last few years. The Victoria was built, and still, last summer, during the rush of travel, there frequently might be seen, after the arrival of the trains, coaches laden with people anxious to find a place to lay their weary heads, and willing to put up with almost any sort of a place. This demand has caused an increased supply, and one new building, a complete description of which appeared in THE TRIBUNE of March 22, is now almost ready to receive guests. The building referred to is Mr. G. Rix Price's, in King's Square, which has been leased by Mr. E. Sibley, who has called it

THE CONTINENTAL.

This hotel is situated in one of the pleasantest places in the city. The house has all modern improvements, and Mr. and Mrs. Sibley have furnished it in the very best style. Up a short flight of stairs the visitor enters the main hall, on one side of which is the ladies', and on the other the gentlemen's, parlor, both of which are handsomely carpeted and furnished. On this flat is also the spacious dining room. The other flats of the house are well furnished, and everything is fresh and new. There are suits of rooms which are well calculated for families who may want to spend a few weeks during the summer months in our city. Mrs. Sibley is well known in St. John, and the announcement that she had taken this house caused a rush at once to secure rooms. There is no doubt but this will at once become a popular hotel. Notice will be given when they are entirely ready for the reception of guests.

Business Notices.

Appearances around the store of Mr. W. G. Brown, Indiantown, indicate that business with him this season is very thriving. In addition to the usual stock of staple goods he deals in a great variety of furnishing and fancy goods, wall paper etc. He also runs the post office and sells the DAILY TRIBUNE, and is one of the most obliging and efficient officers and agents. We notice he has recently received one of Flaherty & Co's handsomely finished safes, which are becoming so deservedly popular with our business men.

We direct attention of those having business connections with Prince Edward Island and the North to the card of Mr. T. C. Geddes, commission and forwarding merchant, of Point du Chene. The spring business is now commencing, and Mr. Geddes is pepared to forward all sorts of produce with despatch.

Shipping Notes.

Board of Trade.

A meeting of the Board of Trade was held yesterday afternoon, to hear the report from the committee who were to memorialize the Parliament of Canada.

Mr. C. W. Weldon called attention to the fact that the Insolvent Act of 1869 expired the 1st of September next, and he thought some act should be passed to enable certain suits now in the courts to be finished. Messrs. Weldon and Fairweather were appointed to communicate with the Government.

Mr. Thomas reported from the Committee on the Plimsoll bill, submitting a draft of their request to the Dominion Government. It asks the Government to use their influence to prevent the passage of Mr. Plimsoll's bill, as it entirely ignores the large number of New Brunswick vessels which are classed in Bureau Veritas. The document is a very able one and shows an intimate knowledge with the subject. A long discussion ensued in which most of the members took part. The general feeling of the meeting was that no such monopoly as the British Lloyds should be recognized by Parliament. The enormous expense of the change of registry and new surveys was also spoken of. The matter was deemed of such importance that W. A. Robertson and George McLeod, Esqrs., were appointed delegates to proceed to Ottawa with the memorial. It was also deemed advisable by some members, that the delegates should secure a place on the Government Commission for a member of the Board of Trade of Saint John.

Provincial Rifle Association.

The Council of the Association met last evening at the Park Hotel. Lt.-Col. Beer, the President, occupied the chair. The principal matter discussed was the competition for the Wimbledon meeting, and committees were appointed to solicit subscriptions to meet extra expenses that will be incurred in sending men to this great meeting. It was decided to have the competition for the selection of men for Wimbledon on the 13th inst. The competition will be held in Fredericton, under direction of Col. Maunsell. The Council adjourned to meet on the first Wednesday in August to arrange for the annual meeting at Sussex. Lt.-Col. B. Lester Peters, Captain of the Wimbledon team, was present.

Marine Registration--Examining Witnesses on Oath—Supply--Deckloads—The Reconstruction of the Cabinet--Capt. Tilton on Parade.

OTTAWA, May 2.

Hon. Mr. Mitchell introduced a bill yesterday, after the passage of a resolution declaring its expediency, to repeal the act of the Province of Old Canada respecting the registration of vessels, and making one law for the Dominion.

The Premier, in reply to an insinuation of Mr. Mackenzie's that the Governor General would withhold his assent from the bill to empower the Pacific Railway Committee to examine witnesses under oath, said His Excellency's consent would be given.

The bill restricting the carrying of deckloads was passed.

The Supply items respecting the collection of revenues were passed.

After Supply had been passed Campbell moved for copies of all correspondence relating to the loss of the Atlantic.

There were a large number of motions made for correspondence relating to various matters in Ontario and Quebec.

The House adjourned at 12.30.

Matters are beginning to get considerably mixed up with reference to various public projects.

Halifax men are making war on the attempt to secure Louisburg as the Atlantic port, Halifax being recognized every where as the best port.

The question of the reconstruction of the Cabinet is being discussed. It is supposed that the new Provinces are agitating for a seat in the Cabinet.

The Governor General's Guards were out on parade last night. Capt. Tilton's Company looked splendid.

L. Carvell arrived from P. E. Island yesterday.

A number of members are leaving for home.

Removals.

During the silent watches of last night Messrs. Manchester, Robertson & Allison moved their stock from their store in Market Square to their new building in King street. They waited on their customers until 6 o'clock last night and in the old place, and this morning were ready to receive them in the new store. The glass and iron front of their new place looks very handsome, and is quite an ornament to the north side of King street. The store will be lighted up this evening.

Mr. W. W. Jordan is now removing his stock to the store just vacated by Manchester, Robertson & Allison, No. 2, Market Square. He will be ready to receive his friends and customers to-morrow morning.

Row in the United States Hotel—A Pistol-shot in the Darkness Wounds the Bar keeper.

Rather a serious row occurred in the United States Hotel early yesterday morning. Some young men of St. John went into the house at a very unseasonable hour and got drinking in the barroom long after it should have been closed and several of the members of Bloodgood's Combination were having a little time there before they left the city. A row arose in the hall of the hotel, and for a time there was danger of a very serious disturbance. The lights were put out to induce all hands to leave the place; but the fuss still continued. Some one, while it was dark, fired a pistol. The ball just grazed the head of the bar-keeper, who was trying to get one of the men, who was very much intoxicated, down the stairs. Fortunately the wound inflicted was not a very serious ode. The sound of the pistol sobered the party and quelled the disturbance, and the parties separated. Mr. Hinch was summoned to the Police Station this morning to answer a charge of keeping a disorderly house.

INDIAN CRUELTY.

CHICAGO, May 1.

A Des Moines, Iowa, despatch, says an Indian of the roving tribe of Musquakes, which infested this state a few weeks ago, murdered one of his tribe. The tribe were then and are now encamped in Skunk river, near Colfax, Jasper Co. The murderer was put on trial, and it was decided that he should be punished by being starved to death. The sentence was carried out to the letter. The Indian was tied to a log in the woods and several Indians were detailed to carry the sentence into effect which took 8 days. Other cruelties known only to the Indians themselves were added to the torture of starvation.

THE VIENNA EXPOSITION.

VIENNA, May 1.

The Prince of Wales, accompanied by Prince Arthur, visited the Exposition building yesterday. There are about 1000 loads of articles to be unladen for the Exposition only 200 of which can be unladen.

At a meeting of American exhibitors it was found that the late commissioners had left no list of Exhibitors nor the plan of arrangement of places for American exhibitors. Everything American is in confusion. The Exhibition's managers, however, are affording all facilities for the classification of American goods.

The exhibition was inaugurated this afternoon by the Emperor of Austria, with imposing ceremonies, in the presence of a vast assemblage from all parts of the earth. The proceedings were begun with an address, from Archduke Charles, to the Emperor, congratulating His Majesty on the auspicious event, and asking him to pronounce the exhibition open. The Emperor replied briefly, expressing satisfaction at the completion of preparations for the great work, and then formally declared the universal exhibition open. The Prince and Princess of Wales and Prince Arthur were present.

A CARLIST DEFEAT.

Don Alfonzo is near Manresa in the province of Barcelona, at the head of a band of 200 Carlists. His wife accompanies him. The Carlists continue to burn the railroad stations using petroleum to facilitate operations. They have also torn up the railroad track, and destroyed the telegraph wires at several points within the past few days. The military operations, however, have been much restricted by the activity of the troops, and the Government is sanguine that the insurrection will soon be entirely suppressed. A telegram from Cervera in the province of Lerida, near the line of Barcelona announces that the troops have come up with, and defeated Don Alfonzo's band of Carlists, before reported in that vicinity.

A PRISONER CUTS OFF THE HEADS OF HIS CAPTORS—THE MURDERER HANGED.

A special to the *Advertiser* from Presque Isle, via Houlton to-day says a messenger just arrived from Mapleton, reports that J. A. Hayden, Deputy Sheriff of Aroostook county, and Thomas Hubbard, were murdered in a camp about 3 miles from that place last night, by James Collins, who entered the camp and killed them with an axe, then set the camp on fire. There were four men in the camp, two of whom escaped, and brought the report. The country is alive with parties seeking to arrest the murderer. Mr. Hayden leaves a wife and child. Hubbard was unmarried.

[The *Telegraph's* dispatch says that Collins was under arrest for stealing when he committed the murder. He was found Wednesday morning, and a Presque Isle party took him from the officers and hanged him.]

Military Appointment.

Mr. Robert Ewing, of Portland Battery, was appointed first Lieutenant to the Battery in Manitoba. He was unable to go at once and yesterday afternoon declined the appointment. A son of Judge Allen, of Fredericton, will be appointed in his place. This appointment was to fill the first vacancy that has occurred in the Battery in Manitoba, and was given to Mr. Ewing on account of the efficiency of the New Brunswick Battery, and of Portland Batterry in particular, much of which is due to Mr. Ewing.

County Court.

In the case of Matthew Frawley vs. George Botsford the jury returned a verdict by default of $119. 14 for the plaintiff.

The court this morning was occupied with the case of E. A. Perkins vs. Thaddeus Scott. M. D., H. C. McMonagle, Esq., for Plaintiff; A. A. Stocton, Esq., for defense. This is a suit for amount of account in which the defendant puts in a contra account. The account was proved by the plaintiff and the defendant was examined to prove his contra account for professional services rendered. The plaintiff produced a former account of Dr. Scott's which was quite different book. An item in this account of one dollar, in the day book was found to be five, and so on.

The case was not finished when the court adjourned at 1 o'clock.

Both plaintiff and defendant belong to King's Co.

The Gift Concerts.

The managers of these concerts have now made full arrangements with the singers who are to take part in the four grand concerts to be given in this city. An array of talent such as has never been seen in this city will take part. The orchestra, under the control of Mr. C. Koppitz, of the Globe Theatre, Boston, with Mr. Allen as leader and solo violinist, consists of twenty-three pieces, all the players being soloists on different instruments. The celebrated Beethoven Quintette Club are included in the number. Amongst the solo singers are Miss Adelaide Phillips, the first prima donna contralto on the American stage. Miss Clara Doria, Miss Cornelia Stetson, and Mrs. Houston West, are the sopranos. Miss Stetson has just returned from Europe, where she has been studying under Garcia, of London, for two or three years. She was introduced to the people of Boston by Miss Phillips, and her debut is pronounced to have been brilliant by the critics. Mr. W. N. Whitney will be the basso, and an Italian, Signor Evaris Scholara, basso buffo; Mr. William McDonald, tenor; and there will also be several others of acknowledged talent. Owing to the operatic and theatrical engagement of the various artists the concerts will have to be put off for a short time. The notice will be given when they are to come off.

Freights.

NEW YORK, April 30th—[From the Shipping List]—Pending the opening of the canals the market is without vitality, and some vessels are clearing out in ballast, the smaller class to the West Indies seeking, and the larger to the Provinces, the rates on deals being relatively high. The supply of available tonnage is very light, but that circumstance is without influence owing to the dullness of trade. The indications are however, that the prevailing apathy is but momentary, and within a few weeks may give place to a more satisfactory state of affairs. Berth rates are weak and in some cases lower.

MONTREAL, April 28th—We are almost bare of tonnage, and for the time being can give only about nominal quotations, at last rates of engagements, say Liverpool ¾d, coastwise ports 28 15-16c lumber to Cuba $8@10 M; Northern ports $11@13.

Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this EXTRACT OF SARSAPARILLA. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complains have their crisis in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid itself of corrupt humors, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people in good health, and long enjoyed it, may sing the blood. Keep the blood healthy, and all is well; but with this particle of life disordered, there can be no lasting health. Prepared by

BUTTER.

Just received from Woodstock:

1 TON Good DAIRY BUTTER. For sale by

ap 19 R. E. PUDDINGTON.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

For the Maritime Provinces.

Extracts of Roots and herbs which almost invariably cure the following complaints:—

Dyspepsia, Heart Burn, Liver Complaint, and Loss of Appetite cured by taking a few bottles.

Lassitude, Low Spirits and sinking Sensation cured at once.

Eruptions, Pimples, Blotches, and all impurities of the blood, bursting through the skin or otherwise, cured readily by following the directions on the bottle.

Kidney, Bladder and Urinary Derangement invariably cured. One bottle will convince the most sceptical.

Worms expelled from the system without the least difficulty. Patients suffering from this prevalent disease will see a marked change for the better in their condition after taking one bottle. Worm difficulties are more prevalent than is generally supposed in the young, and they will find the Quaker Bitters a sure remedy.

Nervous Difficulties, Neuralgia, &c., speedily relieved.

Rheumatism, Swelled Joints and all Scrofular Afflictions removed or greatly relieved by this invaluable medicine.

Bronchitis, Catarrh, Convulsions, and Hysterics cured or much relieved.

Difficult Breathing, Pain in the Lungs, Side and Chest almost invariably cured by taking a few bottles of the Quaker Bitters.

All Difficult Female Derangements, (almost invariably caused by a violation of the organic laws,) so prevalent to the American ladies yield readily to this invaluable medicine—the Quaker Bitters.

All Impurities of the Blood and diseases incident to the same always cured by the Quaker Bitters, if taken according to the directions.

The Aged find in the Quaker Bitters just the article they stand in need of in their declining years. It quickens the blood and cheers the mind, and paves the passage down the plane inclined.

Sold by all Druggists and Dealers in Medicine.

THE GALLOWS IN CALIFORNIA.

M. J. Donahue Hung at Red Bluff—Gambling the Primary Cause of the Murder.

A letter dated at Red Bluff, Cal., April 18, gives the following account of the execution of M. J. Donahue for the murder of William Orme:—

On the evening of the 11th of July last William Orme and M. J. Donahue were playing pool at Tehama, in Heider's saloon, when an altercation sprang up, Donahue alleging that the game played was a swindle on him. Orme, who was a ferryman, struck Donahue on the hand with a billiard cue and threatened to hit him with a billiard ball. Donahue went away and told several that he would kill Orme. Next morning he bought powder, which he said was to kill Orme with. He bored holes in a brick and "run" bullets in it. The same noon he went out hunting for Orme, threatening to kill him. He was somewhat under the influence of liquor. At sundown he went to Heider's saloon and saw Orme sitting there. He stepped back in the doorway and fired a Colt's revolver, wounding one Demott in the leg. On the second fire Orme was shot through the lungs and stomach. Donahue ran to the bank of the river and hid under it until he was arrested, an hour later Orme died that night. Donahue was indicted at the July term and his trial began November 7, before Judge Lott, at Red Bluff. Colonel E. J. Lewis and W. F. Crawford volunteered for the defence. November 8 a verdict of guilty of murder in the first degree was rendered, and he was sentenced to be hanged on January 10. A motion for a new trial being overruled, the case was appealed. The Supreme Court denied the appeal, and the day of execution was fixed for Friday, April 18. Donahue has been attended for weeks by Father Coleman. He has been gradually growing weaker, but had hopes till this morning.

Donahue is a young man of twenty-eight, and a native of Ireland. He is five feet seven inches. He has light blue eyes, light hair, thin features, thin chin whiskers, moustache and fine forehead. He is a man of much intelligence and shrewdness. He has been much given to drinking and sprees. The defence set up was insanity.

Last night the shadow of death began to settle about him and he did not sleep. This morning at nine he ate a light breakfast. At nine o'clock the priest visited Donohue and administered the rites of the church. At half past twelve our reporter had an interview with the prisoner. He made the following statement;—

THE ACCUSED'S STATEMENT.

Orme and I were playing pool; he had Roden to keep the game and had some talk with Roden some time previous. I saw Roden swindling me. Whatever I "burst up, put up," but Orme don't. I said to Roden, "If you keep game, keep it right and put the balls down when either of us 'burst, and stop handling the pot money.'" He said, "if you don't like the way I keep game, keep it yourself." Orme said, "What in the hell are you growling about?" Then he struck me with a billiard cue. I threw up my hands and received the blow on the knuckles. He then struck me again on the arm and grappled me; he beat me in the face and jammed me against the table; I halloaed for help and to have him taken off. Then Roden said, "Bill, he has got enough." Orme replied, "Get out, you son of a b—h," and grabbed the balls to hit me. Roden got them away from him. I went home feeling bad and next morning thought that I had been in the wrong as I had been in liquor. When I went down town I heard Orme had bragged of licking me, and dared the officers to arrest him. I heard he was threatening to kill me, so I prepared myself with a pistol and told people I didn't know why Orme wanted to kill me, but if he tried to he would get more than he bargained for. I was not going to give him the "drop on me." At dusk I met him in Heider's saloon, where he was sitting down. I stepped out, when he saw me and made a movement. I said are you the man who tried to kill me last night? He nodded, then I fired. I was considerably under the influence of liquor, and don't know what I did then until I was arrested. If Orme had left me alone I would not have hurt him; he might have lived a thousand years. I never harmed a man until Orme "crushed in on me." If I had friends I'd have been out long ago.

TO THE SCAFFOLD.

Deputy Sheriff—"Come, Donahue, time is up." Donahue—"All right. I am ready." Donahue walked out of his cell in his stocking feet and shirt sleeves, went to each prisoner and bid them goodbye. To two he said, "God bless you; may you never come to what I have. See what liquor has done for me."

The Sheriff went ahead; next came Donahue; your reporter then, the priest and Deputy Sheriff. As we came into the blaze of the sun of a most glorious Spring day, warm, balmy and beautiful, Donahue stopped and looked upward and all around, then, seeing the crowd outside the fence of the jail yard, he lifted his hat, bowed, waived it and cried out in a loud voice, "Goodby, boys!" The procession went down the south walk of the yard, and as we turned into the east walk another crowd was seen on that side. He repeated the salute to it. He tripped up the steps of the scaffold lightly, and stepped on the trap promptly. Kneeling down he repeated after the priest a prayer. At the close Donahue rose and stood easily and carelessly. His hands trembled nervously, but he looked the Under Sheriff square in the eye steadily as he read the death warrant.

ADJUSTING THE STRAPS AND NOOSE.

At this time twenty-seven persons were on the scaffold and thirteen under it. Sheriff Sleeth was terribly affected and almost unnerved. Sheriff McClure aided him with advice how to adjust the straps, which were buckled on the arms, above the elbows, around the crossed hands, behind the back, about the thighs and about the ankles. These straps were the same that bound John A. Wright, hanged at Yuba City March 15. Then Sheriff Sleeth took a noose made from the same coil of rope from which was cut the noose that hung Wright, a five-eighth inch Manilla cord, and as he adjusted it on Donahue's neck, the prisoner turned his head around to the Sheriff, with a smile, and said, "Sleeth, can't you put that under my arms? I was always ticklish around the neck." This was the straw to upset the Sheriff, and his hand shook with his excitement. McClure, who was just as nervous when he hanged Wright now coolly showed his brother officer where to fix the knot behind the ear. This done, Donahue was asked if he had aught to say, and he turned to your reporter and muttered, "He has it," or words of that character, in a very low voice. Sheriff Sleeth then threw the black velvet cloth over his head and pinned it behind and before. Donahues now cried aloud, "Oh, God, receive my soul! Oh, God, have mercy on me! God protect me!"

THE TRAP FALLS.

At that instant Sleeth pulled the lever, the trap fell quick as a flash, and Donahue shot downward like an arrow six feet. Being a slight man, he rebounded on the rope, whirled round and then hung motionless. The drop fell exactly at sixteen minutes and twenty seconds past one o'clock.

TIMING THE RACE OF DEATH.

Drs. Jeffress and J. S. Cameron at once stepped to the body and observed that the neck was broken perfectly, and then began timing the ebbing of life, the spectators standing around in breathless silence—Dr. Jeffress counting the pulse, Dr. Cameron counting the heart beats and your reporter keeping tally of Donahue's life current as it ebbed against the illimitable shores of a dark eternity.

At one o'clock and sixteen and a half minutes a slight tremor passed over the whole body; the chest heaved once. The pulse at 1.02 marked now the remarkable fluctuations which doctors will record among the usual phenomena of hanging. At 1.17, pulse was 114; 117½, pulse 108; 1.19, pulse 102; 1.20, pulse 90; 120½, pulse 132.

"What on earth is that?" says Dr. Jeffress.

"That's unusual," says Dr. Cameron.

1.21, pulse 66; 1.22, pulse 137; 1.23½, pulse 108, but very feeble; 1.23½, pulse 66, and much feebler; 1.24, no pulse, but heart fluttering; 1.25, heart beats 108, no pulse at wrist; 1.27, pulse beats irregularly; heart beats 108; 1.28, heart 76, feeble pulse; 1.29, heart 72 and feeble pulse; 1.30, heart 66, and very feeble; no pulse now at wrist; 1.31, heart 48 and no pulse; 1.32, no heart beat, slight fluttering; 1.33, dead.

THE FUNERAL.

As this word was pronounced the coffin was borne into the enclosure. It was neatly made and covered with velvet, and silver mounted. On the top lay a beautiful wreath of white roses, placed there by the sympathizing hands of Mrs. Kelley, of this city. A fine hearse stood outside. The body was cut down, the noose removed and measured; it had drawn to a loop two inches by three and one half inches. The coffin, now tenanted by its clay, was closed and carried to the hearse. Your reporter thought this hardly a pauper's funeral, and asked whence this extra expense in the way of the funeral, when he was informed that B. C. McKeon, Geo. Worthing, M. Kennedy, M. Ward, Father Coleman, H. Mooney and some half dozen others had contributed the money, and determined this friendless wretch should have a decent burial. They followed him to the cemetery, Father Coleman pronounced a prayer, and so ended the last act in the drama of the law's swift vengeance.

Nursery Rhymes--No. 24.

A STORY OF DOOM! (almost.)

CANTO I.

The coffin-maker bent low at his work,
And, coughing, cast his eyes upon his bench,
A steam came, which gave his frame a jerk,
And shook his head about with fearful wrench:
The blood skipped from his ears and sought the ground:
The Undertaker deemed his lungs unsound.

CANTO II.

It was a dull and dismal afternoon,
The ice had melted in the Skating Rink;
And lovers sighed to walk beneath the moon,
And topers paused at Bars to get a drink:
The coffin-maker hummed an air, then stood,
And drove a nail deep in the coffin-wood.

CANTO III.

Another spasm came, then down he fell,
And sought the pitch pine floor, quite ill at ease
And listened to the knell of deep-mouthed bell,
His gold hair fluttering madly in the breeze:
But *Ham's Invigorator* cured the pain,
And *Ayer's Vigor* brought in the hair again.

CANTO IV.

These two great Cures he at the Chemist's bought,
The Pharmaceutist's, King street, twenty-four,
Where Drugs and Medicines are often sought
By iron-mongers when life is nearly o'er:
And coffin-makers, when they're coughin' loud,
Take *Tracheal Drops*, and thus postpone the shroud.

READ THIS.

PORTLAND, March 14th, 1860.

To MRS. WATERBURY,—Dear Madam,—I desire to add my testimony to your already Celebrated Dinner Pills. During my whole life time, until about six years ago, I was severely afflicted with Indigestion, Biliousness and all their attendant evils. I had tried many medicines, and got but
