PRUDENCE AND MODERATION

HAVE MADE FRANCE MISTRESS OF HER OWN DESTINIES.

Speech by Foreign Minister Ribot at the Unveiling of a Statue to Gen. Faidbarbe—Gladstone Spoiling For a Fight—Another Divorce Case—General Foreign News.

PARIS, Sept. 27.—Foreign Minister Ribot at Bapaunee to-day unveiled a statue of Gen. Faidbarbe. After paying a tribute to the military virtues of the General as an example to the army he traced the phases of the republic since the foundation and said: "Henceforth she is the mistress of her own destinies. Her position has been consolidated through adhesion to the principle of prudence and moderation. Europe, whose attitude was for some time uncertain, has at length rendered France justice. A sovereign far-sighted in pacific designs and as firm as France has publicly manifested the deep sympathies uniting the two countries—[Cries of "Vive la Czar!" "Vive la Russia!"]—and the Russian nation has joined the Czar in extending cordial friendship to France. You know how well these sentiments are reciprocated. The Kronstadt incident found an echo in the smallest of our hamlets as much as in our Government speeches. Nevertheless they have not caused us to forget what went before and what followed. Our hearts have been touched by the sentiments of friendship extended to the French sailors. Wherever they went they found France respected, as was seen in the demonstrations in their honor in Denmark and Sweden and finally Portsmouth, where Queen Victoria received them in person, and accorded them an imposing and courteous welcome. These events have made an impression on the whole world that will not be effaced. France has felt that she is becoming herself in re-entering the European equilibrium, as an indespensable factor affording an additional guarantee of peace. From this state of things a new situation has sprung, but it does not mean a new policy. It is not a moment when we are in a position to cultivate peace with dignity we shall re-expose ourselves in making a compromise. France, conscious of her strength, is confident in the future and will continue to show qualities of prudence and sang froid, whereby she has gained the esteem of other people. [Cheers.]

At a subsequent banquet M. Ribot in alluding to the entente with Russia, said that the Government had completed a work begun by its predecessors upon a point of the highest importance to the future destinies of France effecting a change in the position which the nation occupied in Europe. [Shouts of "Vive Ribot!"] It was a great honor to the minister to have shared in such events and to have paved the way for them in accord with Parliament and public opinion. "The time for the collaboration of the chambers and the Government," he added, "is approaching. Whatever happens we have the knowledge that we have worked well and placed ourselves heart and soul at the service of the Republic." [Prolonged cheers]

A GHASTLY FUNERAL.

Ostentatious Parade of a Decaying Corpse in Constantinople.

CONSTANTINOPLE, Sept. 27.—The death of the man who calls himself the rightful head of the Christian church universal is rare, because advancing age commonly gives the incumbent of the Greek Patriarchal chair time to resign before the fatal hour. Hence the funeral of the Patriarch Dionysius called together an enormous concourse of people. Along the whole line of four or five miles traversed by the procession, the streets were packed with men, women and children who might never have an opportunity to see this pageant again. Turkish troops formed the escort of the procession, but were not used to prorect it from the mob of Greek sight-seers. It had hardly left the Patriarchal Church at the Fanar when its orderly structure was annihilated by the rush of the rabble-bent on seeing the awful thing which the priests had brought out of the church. It was nothing that prince and shoemaker, bishop and boatman, diplomat in cocked hat and pacha in massive gold embroidery struggled together and with the pall-bearers for the right of way. The awful thing, the haunting horror of the spectacle, was the ostentatious parade of the decaying corpse of the white-haired old man, crowned with gold, bedecked with ecclesiastical finery, tied, like a criminal who has been executed by electricity, into a chair, with head left to hang nodding on one side, with one hand held aloft by strings in grim caricature of the attitude of benediction, and with attendants spraying perfumery over the ghastly thing in order to conceal its odor. As if this was not enough, when after several hours of such exposure in the streets the corpse reached the place of sepulture, proceedings were stopped in order that the robes of the defunct might be saved. The poor dead patriarch was thoroughly stripped of his garments. Dressed in a bare white shroud he was seated on a stone in the corner of his last resting place and the place was closed up. Then at length the men who had taken such liberties with his body retired, satisfied with their last homage to their spiritual head.

A PRINCE AND A MISER.

Frugality of the Late Prince Jussupoff, the Richest Man in Russia.

ST. PETERSBURG, Sept. 27.—Among the richest men in Russia was Prince Nicholas Jussupoff, who died a few days ago. Although the possessor of numerous palaces and estates, his niggardliness was proverbial and absurd. There is no record that he gave a single rouble of his vast fortune to charitable institutions during his long, eventful life, or that any person, save his son-in-law, is much happier because he had lived. He was the last male representative of an ancient family of the district of the Don. His grandfather, Russian Ambassador at many courts, was an art enthusiast as well, and established a museum in St. Petersburg, filled with copies of the works of Raphael and other masters of famous schools. He was a man of culture and an intimate friend of Voltaire, Diderot and D'Alembert. Many of his talents, indeed, as well as his wealth, descended to his eccentric grandson.

The tall, bent figure of the late Prince, clad in shabby clothes, was daily to be seen in the streets of the capital. He preferred to walk, as the maintenance of carriages and coachmen was expensive. He complained continually of the lack of money. Despite his peculiarities, however, the Czar appointed him Master of Ceremonies and treated him with great distinction. As soon as his visitors departed, however, he restored the economic regime which made life so unpleasant for his daughter and household.

Jussupoff's appearance and clothing made him the hero of many unpleasant adventures. A few years ago while walking in the Park of Baden Baden the late Empress Augusta met an old man with melancholy features and dirty clothes. She approached the bench upon which the unfortunate creature sat with bowed head and placed a gold piece in the long, bony hand. The touch of the coin induced the man to raise his head, and the Empress of Germany, to her surprise and chagrin, discovered that she had given alms to Russia's richest son.

A NEW FIELD MARSHAL.

Emperor William Honors the Famous Grand Duke of Hesse-Darmstadt.

BERLIN, Sept. 27.—Emperor William has appointed the Grand Duke of Hesse-Darmstadt a general of infantry and a field marshal of the Empire.

SKETCH OF THE GRAND DUKE.

The Grand Duke of Hesse-Darmstadt is Louis IV. (Frederick William Louis Charles), K.G. He is the eldest son of Prince Charles William Louis of Hesse-Darmstadt by a cousin of the King of Prussia. He was born Sept. 12, 1837. He married the Princess Alice, second daughter of Queen Victoria, on July 1, 1862, when an allowance of $30,000 a year was settled on the bride-elect, together with $150,000 as a dowry. The Queen granted him the prefix of "His Royal Highness" and created him a Knight of the Garter. He succeeded to the Grand Duchy on the death of his uncle, Louis III., June 13, 1877. In the following year the Princess Alice died. A few years later he contracted a morganatic marriage with Mme. Kolomine, but after a short time he divorced her. The Grand Duke has had seven children. His alliance with and divorce from Mme. Kolomine caused considerable talk and gave rise to much scandal.

Prominent Churchman Dead.

LONDON, Sept. 27.—Dr. James, ex-chairman of the Wesleyan Conference, died suddenly at Plymouth to-day.

LADY BLANCHE REFORMS NOT.

Capt. Hozier, Her Husband, Determined to be Rid of Her.

LONDON, Sept. 25.—Capt. Henry M. Hozier, secretary of Lloyds, is again having trouble with his wife, Lady Blanche Ogilvy, sister of the Earl of Airlie. Last spring he entered a petition for divorce, naming Mr. Ellis Ashmead-Bartlett as co-respondent. The case was settled out of court through the good offices of Mr. Labouchere, on the payment of £5000 to Capt. Hozier, which money was furnished by the Baroness Burdett-Coutts, sister-in-law of Ellis Ashmead-Bartlett, and the promise of amendment on the part of Lady Blanche.

Lately the captain has had reason to suspect that his wife had not kept her promise. Both have lived apart since the settlement, but the captain has maintained a sharp watch upon Lady Blanche, and believes he has good grounds for an action for divorce, which he has brought in Edinburgh, where it is probable the case will be heard in camera.

The name of the co-respondent in this case is not known.

The Spanish Railway Wreck.

MADRID, Sept. 27.—The Minister of Justice in an interview to-day said that the enquiry into the recent railway disaster would mark an epoch in railway history and would be conducted with the utmost vigor with the view of fixing the criminal responsibility of the employes and enforcing with unsparing severity the full civil responsibility of the company. A former Minister of the Interior, Senor Canalejas, who was a passenger on the express, says that when his Government ordered the use of pneumatic brakes all the companies appealed and got the decree rescinded.

Smoke, steam and flames issued from the mass of debris for two hours after the collision. A band of toreros on the slow train rendered great assistance in rescuing injured passengers. Their bulls were killed. Three railway officials have been arrested.

Mr. Long's body has been embalmed and sent to London.

Horrible Crime Perpetrated by Boys.

LONDON, Sept. 26.—The story of the two Liverpool boy murderers, as detailed at the inquest on the body of their little victim, surpasses in peculiar horror that of any deed in the annals of English crime. The boy Shearon, 9 years of age, having been deprived of his clothes as a punishment for truancy, got hold of a piece of sacking with which he covered his nakedness and then left his home. Having met Crawford, an equally vicious youth of 8 years, the two decided to entice away the first decently dressed lad they could find and rob him of his clothes. They met the lad Ecles, 8 years of age, and induced him to go with them and play on some rafts floating on the surface of a body of water contained in an excavation. Shearon and Crawford delayed their murderous work until other lads playing on the water had left the scene. They then pushed Ecles into the water, the depth of which was 12 feet. Finding it awkward to get at his clothes they helped him out, stripped him, and then pushed him in again. As the victim struggled a great deal he was helped out again and was then taken to a higher part of the adjacent masonry and flung over a third time. The murderers afterward stamped upon his body and watched two hours to see if he moved. They then divided the spoils.

Arthur Stanley Wilson Engaged.

LONDON, Sept. 27.—Arthur Stanley Wilson, the son of Arthur Wilson of baccarat fame and of the Wilson line of steamers, is engaged to marry the eldest daughter of Lady Filmer, Miss Alice Cecil Agnes Filmer. The Filmer estate, East Sutton Park, Staplehurst, Kent, is one of the oldest in that county. One Miss Filmer was the favorite maid of honor of Queen Elizabeth. The Filmer mansion is rich in ancient carving, rare tapestry and pictures, though the family is not wealthy. Sir Robert Marcus Filmer, Bart., the brother of Miss Filmer, is not yet 14 years of age, and succeeded to the title on the death of his father on Dec. 17, 1886.

Gladstone Spoiling For a Fight.

LONDON, Sept. 27.—Mr. Gladstone is in Scotland just now, a guest in the family home at Fasque, Kincardineshire. On the eve of completing his 82nd year, he starts forth cheerily to catch the night mail for the north. This visit to Scotland is a little expedition on the way to Newcastle-on-Tyne, where this week he will meet the delegates of the Liberal party gathered from all the ends of the Kingdom, and is expected to make a great speech. He is in bounding health and is spoiling for a fight.

A Denial From the Porte.

CONSTANTINOPLE, Sept. 27.—The Porte denies that the Turkish Government and other officials have fled from Sana, capital of Yemen, and that the insurgents have captured Hodeida on the Red Sea. The Porte also denies that there is any truth in reported massacre of Christians in Armenia by Kurds.

LONDON, Sept. 27.—The Times' Paris correspondent says it has become known here that the Governors of the Chinese provinces in which the riots occurred have definitely declined to be held responsible therefor and have declared it impossible to furnish indemnity. The inference is that the Chinese circular to the Powers aims simply at delay in order to shirk indemnity and therefore not to be held to account by Europe.

The Platform Collapsed.

GHENT, Sept. 27.—An accident resulting in the killing of several persons and the injuring of many others occurred at a charity fete held here to-day. A platform erected for the occasion became overcrowded, and the manager and a number of workmen went underneath to make an examination. Suddenly the platform collapsed. The men underneath were crushed to death and many who were on the platform had arms or legs broken.

Russia and Afganistan.

ST. PETERSBURG, Sept. 27.—Letters from Nijni Novgorod merchants state that Afghanistan has been opened by the Ameer to free commercial intercourse with Russia. The concession is said to have been made in consideration of the excellent quality of Russian products, but is really due to Russian adroitness and to valuable gifts sent from the Czar.

Roumanian Government Alarmed

VIENNA, Sept. 27.—Russian troops are practicising forced night marches and other night manœuvres across the river Pruth, on the Roumanian frontier, with the aid of electric lights. The Roumanian Government has become alarmed at these warlike demonstrations, consequently it has concentrated troops on its frontier and has ordered a force of Roumanian cavalry to Upper Moldavia.

The appeals of the friends of Austin Bidwell to Home Secretary Matthews to remit the remainder of Bidwell's term of imprisonment have failed, in spite of the fact that they were supported by high influence. Secretary Matthews refuses even to reply to the memorial. The efforts to secure the release of Mrs. Maybrick will be equally futile. CASUALTIES OF TWO DAYS.

THREE-YEAR-OLD BOY BURNED TO DEATH.

Gallant But Ineffectual Attempt at Rescue By Two Policemen—A Brakeman Meets a Painful Death on the Railway—A Teamster Run Over By His Own Wagon.

A 3-year-old boy named Douglas Ford whose parents live at 176 King-street west was fatally burned yesterday morning. He, with an elder brother, entered a vacant store at 174 King-street west, and while playing with matches set his clothing on fire. He was terribly burned and was taken to the hospital, where he died shortly after noon. P. C. Bloodworth, driver of the police van, and P. C. Steele deserve credit for their prompt action in connection with this case. As Bloodworth was driving by he noticed smoke issuing from the vacant store. Rushing over he saw the poor child enveloped in flames. Immediately he smashed in the plate glass window to save a life if possible. When P. C. Steele, who was near by, saw Bloodworth breaking in the glass he rushed up, threw his tunic about the unfortunate child and carried it to a drug store near by. Very little could here be done and the ambulance was immediately sent for.

A DANGEROUS HABIT.

Result of Mary Ann Crane's Practice of Reading in Bed.

A woman named Mary Ann Crane, living at No. 2 Maud-avenue, was the victim of a peculiar and probably fatal accident Saturday night. She was doing what numbers of other people are constantly doing, namely, reading a newspaper in bed by lamp light. By some unexplained means the lamp fell upon the bed, setting the clothes on fire. Before the woman could escape she was more or less burned from head to foot. She was taken to the hospital, where she hovers between life and death, with the chances of recovery strongly against her. She is about 40 years of age.

He was taken to the hospital, where he died shortly after midnight yesterday.

NEGROES UNDER ARMS.

An Alarming State of Affairs in the Cotton Belt of Arkansas.

MARIANNA, Ark., Sept. 27.—Forty armed negroes have appeared in St. Francis township, and have driven all the cotton-pickers from the fields and burned Mr. Bond's gin-house. They threaten to drive all the pickers out and burn all gin-houses. The sheriff is on the ground with writs for the leaders. Another posse left Marianna this morning by his orders. Much excitement prevails as a majority of the marauding band is composed of non-residents and the authorities anticipate serious trouble.

Reports received from Marianna say the trouble between cotton pickers near there culminated in a riot yesterday resulting in several negroes being killed and a number wounded. The sheriff of the county quelled the disturbance and has the leader in custody.

The rioting grew out of a strike inaugurated by a number of pickers, who demanded 75c per hundred pounds, an increase of 25 cents. The planters refused their demands. The dissatisfied negroes at once struck and their places were immediately filled by others. The strikers became angered at these proceedings and prevailed on the working negroes to quit. Being refused a general fight ensued—women, men and children participating with hoes, sticks, knives and revolvers. It is reported that two were killed outright.

Afterward they called upon a Mrs. Freeman and warned her that unless she left the place within twenty-four hours they would treat her to the same dose. She immediately departed. Then the white caps called upon Jacob Sapenfield and ordered him to untie Mrs. Harmon, and tell the neighbors, on penalty of 25 lashes, what they had done, and that they had whipped her because of her bad name. Mrs. Harmon and her daughter were whipped in Birdseye two years ago, just before they moved to Mentor.

It was decided to allow the lodges to use the widows' and orphans' fund for the erection of an orphans' home, and to allow all lodges to make weekly payments to all members, the minimum payment to be $2 per week. The I.O.O.F. building and loan associations were given a cold shoulder by the lodge and it was determined to deny the use of all emblems of the order to promoters of such enterprises.

THE FIRST FALSE STEP.

R. F. Smyth's Troubles Began with Armstrong's Wiles.

Mr. Robert F. Smyth shouldn't have had anything to do with the departed Mr. Armstrong. His investment of $200 in that gentleman's mythical business has led him into a world of trouble. First, there was the disappearance of his partner. Then came the removing of furniture, which was never paid for, from the King-street office to 54 Church-street, and last of all was the disturbance of yesterday with Caretaker Harris of the Church-street building, in which raid the caretaker's wife took a hand. Indeed she appears to have taken two hands. The reason of the quarrel was that Bailiff Gegg, having learned where the furniture was stored, called around on Saturday, broke in the room door and removed the entire lot of office furnishings. Mr. Smyth called around yesterday afternoon to have a look at his property. Seeing what had happened he immediately took the caretaker to task for permitting anyone to interfere with what he had left in charge. Some words were exchanged and Smyth struck Harris across the head with his cane. Just then Mrs. Harris interfered, got her hands mixed up in Mr. Smyth's fine seal-brown whiskers, and reduced his crop by a good handful. They (the whiskers) are now reposing at headquarters and will appear as an exhibit in the case at the Police Court this morning. P. C. Young appeared on the scene while things were still lively, and escorted Mr. Smyth over to Headquarters on a charge of disturbing the peace.

They Will Visit Toronto.

LONDON, Sept. 27.—Arrangements are now complete for the Polytechnic excursion to the World's Fair at Chicago. The party, which will include about 150 men and women, mostly mechanics, clerks and board school teachers, will go straight to New York. A day will be spent in Philadelphia and a day in Washington, and there will be a week's stay in Chicago. The return journey will be made through Buffalo, with a visit to Niagara Falls, after which one Canadian city, probably Toronto, will be visited, and from here the party will move on to Albany, whence a Hudson River steamer will be chartered, to New York. The whole cost of the trip, which will occupy from five to six weeks, will be 20 guineas to each person.

Another Pleasure Resort.

WELLAND, Ont., Sept. 27.—Deeds have been filed in the county registrar's office here recording the sale of the land on which recently stood the Erie Beach Hotel, together with considerable adjacent property. The purchasers are said to be a wealthy Buffalo syndicate, who propose to form a joint stock company, build a first-class hotel and turn the adjacent property into a park. It is said the proprietors of the Fort Erie Grove propose to spend $5000 in beautifying that resort next summer.

Married Her Husband's Murderer.

MONTPELIER, Vt., Sept. 27.—Application was made in the County Court here to-day for an absolute divorce from George S. Caswell, now serving out a life sentence in Windsor State Prison, by Laura C. Gould Caswell, the woman who something over a year ago was married to the slayer of her husband.

The murder, committed Sept. 4, 1889, was the result of jealousy. Laura Cutler had married a farm hand named George Gould. As they returned home from the wedding Caswell, a war veteran, between whom and the girl the relations of man and wife had existed for some time, shot Gould through the head.

Before the trial Laura, in order to escape appearing as a witness against her former lover, married him through the bars of the county jail.

Caswell received a life sentence, and the woman who married him under such circumstances now seeks her freedom.

King received a fearful gash in the face and Wounett had his arm badly sprained.

An Anchor Liner Damaged.

NEW YORK, Sept. 27.—The Anchor line steamer Circassian returned here to-day with a large hole in her starboard bow, having collided Saturday night with the schooner Daylight from Boston for Philadelphia. The collision was due to a misunderstanding in the lights displayed on the schooner. The latter sustained slight damage and proceeded on her journey.

Sir Hector's Case.

The decision of Parliament with regard to Sir Hector Langevin comes in for much criticism, and some journals are indignant at a finding which they claim opens the way for the late minister to re-enter the Cabinet or accept any public office desired by him.

We do not so understand the decision of Parliament. Holding that the House was not justified in declaring Sir Hector guilty of criminal conduct in the admitted absence of proof, yet we urged that he was shown to be unfit for his high office because under his management of the department gross rascalities were perpetrated and a villainous conspiracy succeeded. Therefore his resignation was necessary or his dismissal would be imperative. Suppose a business man prosecutes a clerk for being an accomplice with thieves who plundered his premises. Though the judge might be satisfied of the prisoner's guilt, yet in absence of evidence he must needs acquit him, but that acquittal would not compel the business man to reinstate a clerk who at best had made burglary easy.

The finding of Parliament declares that a conspiracy existed, and in effect says that Sir Hector was hoodwinked by the conspirators—that the evidence permits the House to rightfully convict him of no worse offence. That is offence enough to shut the Cabinet and offices of importance to him henceforth. We do not believe that Langevin has any desire to resume office, or that under any circumstances would Premier Abbott allow him to do so. But if such an attempt were made we confidently assert that the entire press of the country and the people of the country would protest with fury. Sir Hector, though not condemned of criminal conduct, is practically banished from public life—he is not formally disgraced by the vote of Parliament, but in the majority report adopted he is marked as unfit for further service of trust and consequence.

He is reduced to the ranks and can never rise above them again.

Trust Him Not—He's Fooling Thee.

Francis Wayland Glen, whose unclean memory still hovers over Ontario county, once represented by him in Parliament, is dancing before the people of New York and telling them all about Canada. As Glen is in New York for reasons not altogether dissimilar from those that cause Owen E. Murphy of New York to be in Canada, it is not surprising that he regards Mercier as the greatest figure in the Dominion. By instinct a financial buccaneer himself, he is lost in admiration for the master of his class, the Count of Tourouvre.

He has told the New Yorkers that if they have money to contribute to the cause of home rule they could contribute $10 with better results to Mercier's funds than $100 to the Irish agitators, for the Quebec Premier is rushing things towards political independence. We have a word for the Gothamites—whatever they do and however foolishness may unlock their wealth in Mercier's favor, let not Glen be treasurer of the Canadian emancipation fund. A word is sufficient.

A Country Where Only Old People Die.

The greatest city in the world for eminent medical men is Vienna, and in that city there has been for many years an association composed of educated physicians which supplies to the sick and ailing the favorite prescriptions of the most prominent medical men of the day, thereby giving to the mass of sufferers the benefit of the best medicine known to be suitable for their especial disease, at a cost of about 25 cents, instead of their swallowing the noxious drugs of the patent medicine vendor or the advertising quack, for whose generally worthless nostrums an exhorbitant price is always charged. As many applications for these prescriptions are reaching Vienna from this country arrangements are being made to open an office in Toronto to supply sufferers on the American continent. These prescriptions cover a list of almost every disease to which men and women are subject. THE O. J. C.'S FALL MEETING

SMALL FIELDS BUT FAIR ATTENDANCE AT WOODBINE PARK.

The Bookies Get the Money—Three Favorites Successful While Three Are Beaten—Ayrshire Lass, Glee Boy, Bullfinch, McKenzie, Long Shot and Bob Thomas the Winners.

The Ontario Jockey Club was favored with most perfect weather on Saturday for its fall meeting, and in consequence there was a fairly large attendance at Woodbine Park. The members' stand was comfortably filled with the fair sex, and from the display of summery gowns one would think it was a July day, for the weather was such, instead of autumn. The racing passed off pleasantly save the steeplechase, in which a rather unpleasant incident occurred. On the "official card" it stated that the distance was about 2½ miles, for which course the start heretofore has been made in the east field, going twice over the water. To the surprise of every person as well as the riders, the start was made in the west field, going once over the water. Hamilton, the rider of Gladiator, in consequence wanted to scratch his horse, but of course was refused the privilege. In justice to the public it was only fair that they should have been notified of the change and 20 minutes allowed for a "new book." The owners of Gladiator backed their horse heavily and should never have started him had they known that the distance was so short. Much dissatisfaction was expressed over the change. It was a good day for the bookies, the talent being hit hard in several of the races. The track was in excellent condition and the time made in the Open Cash Handicap very fast, as many good judges expected that 2.44 would win. Though the fields were small the starting was capital and credit is due Mr. Stanton for the excellent manner in which he handled the flag. It was a great day for the brown and yellow, Mr. Hendrie's colors being seen three times in front, and popular wins they were too. Shauer and Flint had come on from Brooklyn to ride for the Hamilton turfman, the former piloting Glee Boy, while Flint rode Ayrshire Lass and Bullfinch.

The Talent Selected Sam Wood.

Five faced the starter for the opening event. The talent selected Sam Wood as their choice and he was plunged on by the knowing ones, while Ayrshire Lass also received good support though the stable let her run unbacked. La Blanche was also thought to have a good chance and had many admirers, while Bob Thomas and Addie B. wree nibbled at by the small bettors. The race proved an easy victory for Ayrshire Lass, who went to the front shortly after the fall of the flag, never afterwards being headed and winning easily by three lengths. The black rogue, Sam Wood, would not try a yard in the first part of the race, but came very fast at the finish and was only beaten half a length for the place.

Glee Boy Won Easily.

The 2-year-old event was comparatively a walk-over for Glee Boy, who led from start to finish, there being very little betting on the result.

Mr. Hendrie's Third Success.

The Open Cash Handicap, as predicted in The World, resulted in an easy victory for Mr. Hendrie's Bullfinch, making the third success of the day for the brown and yellow. He had, in fact, no opposition, romping home an easy winner by several lengths from Hercules. The Hendrie Stable backed their representative as did the public, and he justified the opinion of both. Hercules was backed both ways by his owners, while Harry Cooper was played at a long price, having shown his owner that they would have to beat 2.43 to beat the son of Long Taw and Maumee. Sam Wood had but few admirers after his poor showing in the first race and Addie B. totally unsupported.

The Good Thing Beaten.

The books made a "kill ng" in the steeplechase. Evangeline was selected as the "good thing" by the knowing ones and was backed down from 8 to 5 to 3 to 5. Gladiator was also greatly fancied and was steadily backed at 7 to 5. When he made his appearance on the track, however, he appeared to be very sore, and his price went up to 9 to 5 and 2 to 1. McKenzie, who was almost friendless, being quoted at 5 and 6 to 1, made a runaway race of it, going to the front and never being headed. He was not even backed by his owner, who was somewhat disappointed in riders at the last minute. Pope, who had been engaged to ride McKenzie, notified the owner a few minutes before the race that he would not ride. Fortunately Cook was on the ground, and accepted the mount, the result of which he rode a capital race, winning easily.

Long Shot Has Little Opposition.

The province race was rather a tame affair. Long Shot having but La Blanche and Dom Pedro to oppose him. Long Shot was quoted at prohibitive odds, while a few small bettors took a long chance on the other two, which resulted disastrously, as the son of Long Taw galloped home an easy winner.

Bob Thomas Defeats an Air-Tight.

Long Shot was again selected as the winner for the selling race, having but Bob Thomas, Dom Pedro and the cripple Gladiator to beat. Long Shot was plunged on at 1 to 2, his owner thinking he had a "cinch," but Bob Thomas, owned by his brother, broke up the "good thing," rushing to the front in the last hundred yards and winning by a length. There was no bid for the winner.

In the last hundred yards Dom Pedro gave up the fight, and although Long Shot appeared to be winning easily Bob Thomas came with a rush and beat the favorite by a length.

Notes.

Barrister John Coe picked some winners.

Col. Dawson was very attentive to the ladies.

Cecil Gibson devoted his time equally between the ladies and the horses.

Captain J. Herbert Beatty looked resplendent, still wearing his white plug hat.

"Bobby" Myles, in English race-track dress, kept his lady friends well posted.

C. J. Smith was around looking for 40 to 1 snaps, but they did not materialize.

Peter Ryan played the "short end" and lost, but made it up before the last race.

"Kiddy" Hughes, wearing his monocle, drew comparisons between the O.J.C. races and the Derby.

City Engineer Jennings was an interested spectator, but made no attempt to pick the winners.

E. E. Sheppard, with his ocean tan, told his friends what he knew about racing on the continent.

Exhibition Hill had much pleasure in shaking hands with friends, and congratulating himself on the success of the last "greatest on earth."

Both Hercules and Harry Cooper pulled up lame after the race in the Open Cash Handicap.

A gentleman asked Jockey Shauer for a tip on the first race. His answer was: "Bet all you have on Sam Wood; he can't lose."

The Wellington Stable people tried to get their money off Gladiator when they found that the course had been changed, and some switched on to Evangeline for a saver.

Mr. J. E. Seagram said that if the O.J.C. would let him have the use of the track he would give 10 days' racing in the spring and four days in the fall.

Allie Gates bet on Long Shot at 1 to 2 in the selling race and made his friends follow him, but his brother Charley broke up the "good thing" with Bob Thomas.

As stated in The World last week, Bullfinch was "thrown in" in the Open Cash Handicap, as the result of the race showed. Even his stable admitted that he was let in too light.

Charley Gates, who rode La Blanche, and Rowe, who was on Dom Pedro, had a fight in the fifth race, the result of which was Rowe received several nasty cuts from Gates' whip which brought the blood. It appears that Rowe was trying to run La Blanche against the fence.

Mr. Denny Higgins of Prescott, the owner of My Fellow, was an interested spectator. He says My Fellow, who is now at Jerome Park, has regained his early spring form and will sport silk at the New York Jockey Club meeting.

The stable thought they had a "good thing" with Harry Cooper in the Open Cash Handicap, and Mr. Gates made all his friends play it, which brought his price down from 15 to 8 to 1 in some books. He said they would have to run better than 2.43 to beat him, and he was not far out, for the old province-bred ran up to expectations.

Mr. James Carruthers was naturally disappointed in the running of Sam Wood, as the "gentleman in black" worked fast enough a few days before the races to beat any horse at the track. He is, however, not the only one that the son of Longfellow and Lucy Jackson has deceived. Sam Wood is evidently a rogue as he was not distressed after either race.

The steeplechase was the feature of the day and resulted in a capital contest notwithstanding that McKenzie won easily. On his Montreal form and in weight Gladiator appeared to have the best chance and was plunged on accordingly, but he was so sore that he could not extend himself and was "never in it."

The use of a bell to notify trainers when to saddle and a trumpet to call horses to the post would be much better than using the latter throughout, as it confuses both trainers and jockeys. As the officials well know, on all recognized race tracks a bell is sounded 15 minutes before the race is to take place, a second bell is sounded 5 minutes before the race, notifying trainers to saddle, and then the trumpet is brought into use, calling horses to the post. If this was done at Woodbine Park it would do away with the confusion that generally occurs in the paddock at every meeting.

Polemus will probably never race again. A day or so since while being taken along the streets of Chicago to the depot he was run into by a butcher's cart, the shaft penetrating his side fully six inches.

Nasmith Beats the Record to Whitby.

On Saturday last D. Nasmith of the Toronto Bicycle Club started from the Don Bridge at 3.50 to try and beat his previous record to Whitby, a distance of 30 miles. Quite a crowd of his friends were on hand to see him off, and many were the conjectures as to his ability to beat his former time of 2 hours and 11 minutes. About 5.30 a crowd commenced to gather at the club house, anxious to hear the contents of the promised telegram. It came in due time, bringing the good news that he had arrived at Whitby at 5.50, doing the distance in just 2 hours and beating the record by 11 minutes. He was mounted on a Comet safety, clinker tire, and rode the entire distance without a dismount, although in many places he found the roads very rough and stony.

The Police Gazette's Portland, Ore., correspondent, in a despatch received yesterday, says that fatal results may follow a foot race which occurred there a few days ago. Deputy Marshal Reid of Elwood backed a runner named Knoedler against a Denver sprinter for $1000. In his trials Knoedler showed remarkable speed. On the day of the race, however, he did not run quite as fast. He finished a bad second in the race, and his backer shot him. The other fellow took to the woods. It has since leaked out that both sprinters were "ringers," and that the whole affair was a put-up job.

THE CHURCH'S HARVEST TIME

YESTERDAY WAS A GRACIOUS DAY IN THE CONGREGATIONS.

Citizen Soldiers Pay Their Devotions—The Governor-General's Body Guard at St. James' Cathedral—The Grenadiers at New Richmond—Harvest Homes at Several Churches—Noted Pulpiteers.

Yesterday was a great day in the churches. There was something special at most of them. The Governor-General's Body Guard and band attended morning worship at St. James' Cathedral, the Irish benevolent societies at St. Michael's. Harvest festivals were held at St. Stephen's, St. Matthias, Grace Church and other sanctuaries. The opening services of the Church of the Messiah were continued, and the new school-room of the Parliament-street Baptists was opened. The Royal Grenadiers had an afternoon church parade to New Richmond Methodist Church; the Dovercourt-road Baptists celebrated their seventh anniversary; several noted visitors occupied city pulpits; the Western Congregationalists held harvest home, and the new Presbyterion Church of St. Enoch was dedicated for service.

AN ELOQUENT SCOTCH MINISTER.

Rev. W. J. Dawson Edified the Parkdale Methodists Yesterday.

St. Alban's, the large and beautiful church of the Parkdale Methodists, was crowded morning and night to hear Rev. W. J. Dawson of Glasgow, Scotland, who is a delegate to the Ecumenical Council at Washington. He is as favorably known as an author and lecturer as a preacher. He is altogether different in style from Rev. John McNeill, who drew such crowds a fortnight ago. Mr. Dawson's sermons are much more polished, they are models of composition and admirably recited; they abound in apt metaphor and poetic quotations; they are argumentative and, owing to broader theological views, do not contain so much of the personal appeals that mark the ordinary preacher.

The morning sermon was on the apostolic saying, "Love is the fulfilment of the law." The musical service was admirably rendered. They know how to sing at St. Alban's—the choir with their anthems and the crowded church in such hymns as Perronet's "All Hail the Power of Jesu's Name," Bishop Heber's "Holy, Holy, Holy," Charles Wesley's "O Love Divine" and Watt's "Before Jehovah's Awful Throne." These and other hymns were sung at Mr. Dawson's services.

At night the preacher's deep bass voice, charged with pathos, resounded through the crowded church. His subject was retribution for disobedience of laws physical, moral, national. In the course of an hour's discourse Mr. Dawson gave a free handling to this text: "For as the lightning cometh out of the east and shineth even unto the west, so shall also the coming of the Son of Man be. For wheresoever the carcase is there will the vultures be gathered together." Swift as the lightning and unerring as the swoop of the vulture are God's laws. But they are all beneficent; there is nothing capricious or arbitrary about them. Treating of this the preacher severely handled the narrow fanaticism of ultra-Calvinism, the teaching that God sends one to heaven and ten to hell, all for His glory, quoting Burns' well-known lines thereon.

"We have feared God for His power, not served Him for His love. We have spoken of God's judgments as 'dark ways,' as though there could be any darkness in God." And then came this notable sentence: "The infidelity of the world is very largely due to the theology of the church." Much of the latter justified the statement that many so-called Christians act "as though there were a Fool on the throne of the universe."

God's mercy and judgment are all of one piece. Well might they sing:

There's a wideness in God's mercy
Like the wideness of the sea;
But they should also add:
There's a kindness in His justice
Which is more than liberty.

In proving that corruption is the sure precursor of judgment Mr. Dawson waxed eloquent. He showed how the principle had acted on nations in the past, and instanced modern examples in the American civil war on account of slavery and the overthrow of the French by the Germans, Paris having become a moral leper, rotten to the core.

Turning to the present day he said there are vices which are eating out Britain's national life: the unscrupulous race for wealth, the shameless theories of commerce, profligacy and drunkenness, corruption in high places, heedlessness of the suffering, complacency in the face of the hosts of underpaid men and women. These, said he, are blots on our national policies and daily life.

Earnest the preacher bade all take heed of the handwriting on the wall; and then in glowing terms he showed the youths the opportunities which lay before them.

So near is glory to our dust,
So close is God to man,
When Duty breathes the word "Thou must,"
The youth replies, "I can."

Rev. W. J. Dawson meets the members of the Ministerial Association this morning at 11.15, and lectures this evening on "Savonarola" in Parkdale Methodist Church, and to-morrow night in Queen-street Methodist Church.

ST. ENOCH'S DEDICATED.

Another Presbyterian Church Opened for Public Worship.

Another admirable illustration of the advance, power and prosperity of Presbyterianism in this city was witnessed in the dedication of St. Enoch's Church, which took place yesterday. This edifice is situated at the corner of Winchester and Metcalfe-streets. Three services were held, and at each one the building was crowded to the doors.

In the morning Rev. Principal Grant, D.D., of Queen's University, Kingston, discoursed and Rev. Dr. Reid of Toronto offered the dedicatory prayer. Principal Grant's text was taken from John 13 chap., 34-5 verses. In handling the ideas presented by that text Dr. Grant displayed his usual eloquence and tact. Incidentally he introduced several word pictures, and judging from the stillness during their recital they produced a profound impression upon the hearers.

In the afternoon he again preached, taking as his text John 6 chap., 27 & verses.

At the evening service Rev. G. M. Milligan, B.A., of Old St. Andrew's Church, pastor of the congregation from which St. Enoch's sprung, occupied the pulpit. Situated as he is, Mr. Milligan takes a great deal of interest in the new church, and during his prefatory remarks took occasion to say so. He based his discourse upon Joshua fourth chapter, last clause of the sixth verse, "What mean ye by these stones?"

In connection with these opening services something in reference to the history of the congregation may not be uninteresting. In 1885 a mission was started by Old St. Andrew's Church in an unpretentious little chapel at the corner of Winchester and Sackville-streets. The small body of worshippers who gathered in this building from week to week formed the nucleus of the present self-sustaining and vigorous congregation. During the winter months of the years succeeding, and until Mr. Patterson became pastor, the pulpit was chiefly supplied by students from Knox College. In the summer Rev. J. McD. Duncan, J. J. Wright and others took charge.

Shortly after Rev. Gilbert C. Patterson began his labors in October, 1889, the mission, with the consent of the Toronto Presbytery, became a full-fledged church, assuming as its name that of St. Enoch's. Since then the growth has been phenomenal, when Mr. Patterson held his first service, 18 persons were all that presented themselves. To-day over 150 members are on the roll and the average attendance at Sabbath school is 220.

Not long after the present pastor was inducted the accommodation for the congregation in its former quarter was found inadequate, and steps were taken for the erection of a new and more commodious building. The corner stone of this church, which was opened yesterday and work upon which was immediately begun, was laid on Good Friday last. Its total cost is $30,000. The structure is composed of red brick, and presents a very imposing appearance.

Red Coats at Worship.

Yesterday afternoon the Red Coats, about 500 strong, under command of Col. Dawson, attended church parade at McCaul-street Methodist Church. They marched well to the sweet strains of their excellent band, and arrayed in their bright costumes attracted to the church hundreds who sought admission in vain.

The service was opened by the singing of Baring-Gould's grand soul-stirring hymn, "Onward, Christian Soldiers." The pastor, Rev. W. F. Wilson, welcomed the soldiers on behalf of the church and expressed his pleasure at their presence. He took as his text the first clause of the second verse of sixth chapter of

FLYING FEET AND FAST TIME

AMERICA'S FINEST ATHLETES STRIVE TO WIN AT ROSEDALE.

Jewett, the Detroit Flyer, Reduces the 2.20 Record—Orton's Grand Performance—Shamrocks Defeated by Cornwall—Athletics Victorious at Paris—Nasmith Breaks the Record to Whitby—The English Cricketers—General Sports.

All things worked together to make the championship games of the Amateur Athletic Association of Canada, which were held at Rosedale on Saturday, the greatest that have ever been held in Canada and among the grandest that the American continent has ever seen. The day was an ideal September day. The sun scattered its brilliant rays uninterrupted by a single cloud. A kindly western breeze fanned gently the heated temples of those who strove for glory. The grounds were in their very best condition. The track, though not perhaps equal to some of the first American tracks, was still in the very best order it could be put. The spectators numbered fully 4000. Many of them were Americans who came over to see the fate and fortune of their favorites and friends and who circulated money freely on almost every contest.

T. P. Conneff, winner of the two-mile race.

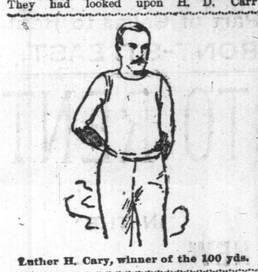
And the competitors were noble specimens of men. Their broad shoulders, expanded chests and splendidly-developed muscles reminded one of the descriptions he has read of the ancient race of Cyclops, of Atlas or of Hercules. They represented the speed, endurance and strength of the most eminent athletes on the continent and some of the world's record-holders. All were in the pink of condition. Most of them had trained long and carefully for the games of the Manhattan Athletic Club held just one week before.

Records Broken.

Some Canadian records were broken. The records of the world remain unchanged, although it was thought that they too would be tampered with. In the high jump A. Nickerson of the N.Y.A.C. cleared the bar at a greater height than any Canadian has yet done. And the time for running 220 yards was lowered below any Canadian by Harry Jewett of the Detroit A.C.

In the shot-putting George R. Gray, who, though a member of the N.Y.A.C., is still a Canadian, approached closely his longest throw, the longest throw in the world.

The 100 yard run was something of a disappointment to the enthusiastic Canadians. They had looked upon H. D. Carr



Luther H. Cary, winner of the 100 yds.

of the Montreal A. A. A. as a likely winner, and with good reason. The race was run in squads. The three with whom Carr was matched in squad No. 2 were easy marks for him. He simply played with them and still covered the course in 10 1-5 seconds, the time in which Cary won. But unfortunately in the final heat his right leg, which troubled him when training, gave out and he was compelled to leave the track. At that time he had a very substantial lead.

Then in the one mile run Orton of the Toronto Lacrosse Club pressed A. C. George of the Manhattan A. C. very hard. Orton has only worn spike shoes for two months and no doubt another year will make record-holders look well to their laurels.

The presence of Carmen, the Woodstock flyer, in the two-mile bicycle race was something of a surprise. But three names appeared on the program, E. J. P. Smith, W. Hyslop and Harvey Nash. Smith did not put in an appearance and Carmen was there to fill the vacancy. Hyslop and Nash may put up a great race, but they are simply "not in it" with Carmen. He played with them till the last lap; let them increase their lead sometimes to 20 yards; and when half way round on the home stretch he made a brilliant spurt and finished fully 50 yards in advance.

A Big Jump.

Schwegler of the N.Y.A.C. covered 22 ft. 4¼ in. in the broad jump. This, the longest jump of the day is only 3 in. behind the world's record.

Conneff of the Manhattans, as was expected, had things all his own way in the two-mile run. He took the lead from the start and finished as he pleased.

In the three-mile walk four started, Nicoll, Curtis and Shearman of the Manhattan A.C., and Dineen of West Toronto Junction. The three Americans kept well together for some time. Shearman dropped behind first. Nicoll stayed with Curtis till the last lap, when the Englishman (now an American) put on extra steam and finished about 50 yards in advance of Nicoll. Time 22 min. 59¾ sec.

In an exhibition throw Mitchell of the N.Y.A.C. threw the 56 lb. weight 32 ft. 11¼ in., thus breaking the record, which was held by himself, by several inches.

The Annual Meeting.

The annual meeting of the association was held in the Queen's Hotel in the evening after the presentation of the medals.

It was decided to add a clause in the constitution that spring championship games may be held, open to Canadian amateurs only, and to be held in some other place than the fall championships.

Mr. Pearson's notice of motion to appoint a permanent secretary and treasurer and otherwise alter the constitution and bylaws was referred to a sub-committee consisting of Messrs Taylor, Cleghorn and Paton, who are to report at the next meeting.

The following officers were elected for the ensuing year:

President—George R. Starke, M.A.A. Association.

Vice-President—C. H. Nelson, T.L.C.

Second Vice-President—J. G. Monk, Montreal.

Secretary—W. S. Weldon.

Treasurer—J. L. Paton.

Committee—Messrs. Martain, Taylor, Ottawa; Pearson, Higinbotham, Stark, Macdonnell, Toronto; Kendall, Woodstock; Dodds, Cleghorn, Montreal.

The receipts for Saturday's games amounted to over $900, and after paying expenses the treasurer expects to have a balance of some $500.

LACROSSE.

They Were Not in it This Time—Athletics Win By 4 to 1.

The draw game between the Athletics of Toronto and the Beavers of Seaforth for the Intermediate championship of the C.L.A. was played at Paris on Saturday afternoon before a small but enthusiastic audience. The game throughout was all one-sided, the Athletics winning with ease, the actual playing time of the whole match being only 34 minutes. No rough play was indulged in and the best of feeling prevailed.

At 2.35 p.m. the teams lined up before the referee, Mr. James Vance of Ingersoll, as follows:

ATHLETICS.		BEAVERS.
Spain	Goal	Ewing
W. S. A. Hartley	Point	Smith
D. S. Hartley	Cover point	Jackson
Belfry	1st defence	Neil
Dougherty	2nd "	McDougall
Breckenridge	3rd "	Betham
McIlroy	Centre	Creswell
Wilson	3rd home	McKay
Jennings	2nd "	Freeman
McSweyn	1st "	McCosh
Eckardt	Outside home	Baldwin
Anderson	Inside "	Bell
McMillan	Captain	Hamilton
F. W. Thomson	Umpires	D. Adams

First game—McIlroy secured the ball in the face and threw on the Athletics' home, where it remained for a few minutes, when Neil secured the ball and threw well down the field, but it was quickly returned by D. Hartley, who throughout the whole game was always in the right place. After a few minutes' fine play by the Athletics' home Wilson got the ball and by a neat shot scored the first game. Time 10 minutes.

Second game—This game only lasted a few minutes. Creswell drew the ball and passed to McCosh, who tried to dodge, but lost to Dougherty, who threw down the field. Neil now distinguished himself by quickly returning the ball. Dougherty again secured it, and running down the field scored the second game for the Athletics by a swift shot. Time 2½ minutes.

Third game—McIlroy secured the ball this time and threw well on the home, but it was quickly returned by the Beavers' defence, but these men were clearly outmatched by the Athletics' home. After the ball had traveled from one end of the field to the other a couple of times W. Hartley secured it and threw to Eckardt, who dodged a couple of the Beavers and scored the third game. Time 8 minutes.

Fourth game—Things looked pretty blue for the Beavers, but they woke up now and after some very neat play on the part of their home Freeman scored their first and only game. Time 5½ minutes.

Fifth game—The Athletics went into this game determined to make it the last of the match, and by some neat playing succeeded in doing so, Anderson doing the trick. Time 8 minutes.

The Beavers were overmatched at every point, the Athletics' quick playing fairly puzzling their opponents. It would be hard to make special mention of any one player, as they all played their game; for the Beavers Neil and McDougall on the defence and McCosh and Freeman on home were the most noticeable, while Creswell at centre played well at times. Summary:

Game.	Won by.	Scored by.	Time.
1st	Athletics	Wilson	10 min.
2nd	Athletics	Dougherty	2½ "
3rd	Athletics	Eckardt	8 "
4th	Beavers	Freeman	5½ "
5th	Athletics	Anderson	8 "

Cornwall Victorious.

MONTREAL, Sept. 26.—One of the biggest crowds of the season assembled on the Shamrock lacrosse grounds this afternoon to witness the match between the Shamrocks and Cornwall teams. There must have been nearly 6000 people present and the greatest excitement was displayed, as the match was expected to be one of the finest of the season. The spectators were not disappointed as there was an exceedingly close match throughout and some very fine playing displayed on both sides. The teams took up their position, being composed of the following players:

Shamrocks: Foley, Duggan, Dwyer, Moore, Murray, Neville, Kelly, McVey, Exley, McKenna, Tansey, Tucker.

Cornwalls: Carpenter, Crites, Murphy, Adams, Hughes, Riviere, J. Adams, D. Danaher, Lacey, J. Danaher, McCutcheon, Block.

Referee, J. Kent.

At 3.30 the ball was faced and was drawn by Cornwalls. The rubber almost immediately went in the direction of the Shamrock goal, and after some sharp playing by the Shamrock defence a lucky shot sent it between the flags, Cornwall thus scoring the first game in 4½ minutes.

In the second game the Shamrocks made a spurt and showed some fine team play. Their onslaught was too much and game was scored. Time five minutes.

They followed up their advantage and after some brilliant playing scored the third game in three minutes. This caused a good deal of excitement, as it looked as if the home team were going to have it all their own way. Bets were freely offered by their friends, but the crowd was quickly deceived when the Factory Town team settled down to work. From this out the playing was very rough on both sides. Cornwall had the advantage and scored the next three games.

Preston Defeats Galt.

BERLIN, Sept. 26.—The football match between Galt and Preston which was ordered for here to-day for the Western Association Cup came off on the Athletic grounds at 4 p.m.

The first half was noticeable on account of fine play on the part of Galt, Preston's chief strength being in Goal-keeper James' brilliant playing. Neither side, however, scored.

The second half started with renewed energy on the part of both clubs, but as in the first the ball was kept in dangerous quarters. Preston's goal, it is generally admitted, played the best game, although by sheer luck Preston got the ball through near the end of second time. Score: 1 to 0 in favor of Preston.

Rainstorm, Then Cool Weather.

From Winnipeg to the Rockies on Saturday night the mercury fell to 30 and 26, causing a frost over the whole Northwest. Over all the rest of the continent the weather continues warm. The highest temperature yesterday in North Dakota was 48, in Qu'Appelle 50, in Detroit 88, in Western Ontario 86, in the Ohio Valley 92, in the Ottawa Valley 82 and here 74. A general rainstorm is brewing, which will be along in a day or two, after which we will have cooler weather.

THE WEEK'S BILL OF THE PLAY.

A Pleasant Irish Play.

W. H. Power's company in the beautiful Irish drama "The Ivy Leaf" is to be the next attraction at Jacobs & Sparrow's Toronto Opera House, commencing to-night, with the usual matinees. "The Ivy Leaf" is a bright interesting Irish drama, which embodies a nice little story, told in a pleasant way, and is of the school which Boucicault has made so familiar. The scene is laid in Ireland and the characters are all Irish, but only the brightest and best side of life in the Emerald Isle is shown. There is no suggestion of the squalor, distress or misfortune so generally associated with the conception of Ireland's condition. There is no gloomy background of "Ireland's woes," no vociferous declamation about patriotism, oppression or land laws. It has the young lady of good family and her two lovers, the familiar colleen and the broth of a boy who swears by her bright eyes, the spy who is the tool of the villain of the play and the usual accessories of peasants, police, etc., which belong to every well-regulated Irish play. The Ivy Leaf is intensely dramatic and is filled with strong situations and is a skilful blending of pathos and broad comedy, which makes it interesting and exciting. The plot is clearly set forth and is illustrated by effective scenery, among which is the revolving scene, the moonlight on the lakes, the carrying off of a live child by a monster eagle in its talons, the rescue from the eagles' crag, the leap from the tower and the execution scene. The company is headed by the talented Irish comedian Mr. Smith O'Brien.

Comic Opera at the Grand.

Willard Spenser's "Little Tycoon" will open a week's engagement at the Grand Opera House to-night. The libretto of "The Little Tycoon" is amusing and the music bright and catchy. It will be presented with an excellent company of 53 people, headed by the well-known comedian, R. E. Graham, in the role of General Knickerbocker, the part in which he was seen in the original production. Mr. Graham is an ideal comic opera comedian. He is not an acrobatic song and dance man, but has won his position by hard and legitimate work. There will be the usual matinees Wednesday and Saturday.

Moore's Musee Theatre.

"Smaller than the smallest," is the expression used to convey an idea of the tiny proportions of Don Cameron, the little delegate from Lilliput, who will be at the Musee all this week. The term is not grammatical, but it nevertheless conveys forcibly to the mind the fact that the Don is a very small man, and when one hears that he is but 23 inches in height and weighs only 13 pounds one becomes convinced that he certainly is below ordinary stature.

Sol Stone, the lightning calculator, will astonish with his mathematical problems, and Prof. Dever with his startling feats in magic. Also will be seen the great illusion "cremation of Joe," or a living lady burnt to ashes.

The theatre department has been well attended to and a strong company, headed by Richmond and Glenroy (the highest salaried sketch artists in America), will appear.

Academy of Music.

To-night the domestic comedy drama, "That Woman from Apple Orchard Farm," will be produced at the Academy. A New York exchange says the piece is well staged, and consists of four acts, Mr. Charles L. Howard as Aunt Ollie of Battleboro, Vt., being quite a treat. Lorin J. Howard as Reube "I'm Awake, Ma'am," caused a great amount of laughter with his drolleries. The supporting cast was competent.

The engagement is limited to three nights, including Wednesday matinee.

400 MILES IN 400 MINUTES.

The Performance of a Train on the N.Y.C. and H.R.R.

The fastest long run ever made by a railroad train was that made by Third Vice-President H. Walter Webb of the New York Central and Hudson River Railway from New York to Buffalo over that road a few days ago. The distance is 440 miles and how it was covered will be seen in the following statement:

The run of 143 miles from New York to Albany, which was without a stop, was made in 140 minutes. At Albany 3 minutes and 28 seconds were consumed in changing locomotives. The run from Albany to Syracuse, 148 miles, also without a stop, was covered in 146 minutes. At Syracuse it took only 2½ minutes to change locomotives, and the train set out over the 150 mile stretch to East Buffalo. One hundred and fifty minutes would have been a fine trip without any stops, but 150 miles in 148 minutes, with a stop of 7 minutes and 50 seconds thrown in for doctoring the locomotive is a phenomenal run, and it proves the ability of Engineer Hogan. The actual running time for the 150 miles was 140 minutes and 10 seconds. This record means that a continuous speed of 59.53 miles an hour was maintained for the entire distance from New York to Buffalo, making no allowance for stops or slow-downs in order to schoop water from the track tanks. Allowing for 3 minutes and 28 seconds to change engines at Albany, 2½ minutes for the same at Syracuse and 7 minutes and 50 seconds for repairing the hot journal at Fairport, or 13 minutes and 48 seconds in all, the actual running time for the 436 1-3 miles was 426 minutes, or 61.44 miles an hour for the entire distance.

This beats every previous performance, and is a remarkable exposition of what the locomotive of the future may be expected to do.

BEATEN BY THE ACT.

Bonus to the Toronto and Mimico Electric Railway Carried and Lost.

The property holders of Mimico and the Humber voted on a bylaw on Saturday authorizing the granting of a bonus of $30,000 towards the construction of the Toronto and Mimico Electric Railway, to be built in the year 1892. The voting shows that the people of the district are unanimously in favor of granting the bonus, but owing to the terms of an act passed by the Ontario Legislature at last session, they are going to be for a time at least balked of their desire, and at best will be put to the expense and trouble of another election. The statute in question provides that a bylaw proposing to grant a bonus towards a local improvement must be carried by a clear majority of the property-holders, including both the dead and absent. A clear majority of the property-owners of the district voting on the bylaw on Saturday would have been 92. A glance at the figures of Saturday's vote in view of the fact makes the people of the district feel hot. Here they are:

	For.	Against.
Humber	43	3
Mimico	42	2
Total	85	5

Carried by an overwhelming majority, and yet beaten by the law, that is the situation. Had seven intelligent voters, who stayed at home, thinking their doing so would make no difference, just come to the polls the bylaw would have gone through with flying colors and the district would have had the advantage of immediate rapid transit. As it is, immediate steps will be taken to have another vote on the question.

Chronic Derangements of the Stomach, Liver and Blood, are speedily removed by the active principle of the ingredients entering into the composition of Parmelee's Vegetable Pills. These Pills act specifically on the deranged organs, stimulating to action the dormant energies of the system, thereby removing disease and renewing life and vitality to the afflicted. In this lies the great secret of the popularity of Parmelee's Vegetable Pills.

Rejoicing at Their Advancement.

The congregation of the Parliament-street Baptist Church celebrated the completion of the improvements on their Sunday school by special services yesterday. Rev. Elmore Harris preached in the morning and the pastor, Rev. James Grant, in the evening. A mass meeting of scholars was held in the afternoon.

No one need fear cholera or any summer complaint, if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

To-Night's Council Meeting.

There will be a long and important meeting of the City Council to-night. A number of important questions will be passed upon. Among these are the bylaw affecting the City Engineer's powers to increase the salaries of his subordinates; the question whether alternate tenders shall be requested for the reclamation of Ashbridge's Bay; the agreement with the military authorities for a slice of the Garrison Common for Exhibition purposes and removal of rifle butts; the bylaw to abolish privy pits, the cattle market troubles, and a number of other minor matters.

Knock-About Games.

In the knock-about games of the season which require so much brawn and muscle, and which have so many consequent injuries, a good word of advice comes timely from Mr. A. E. Painter, London, Eng., Athletic Club and Ranelagh Harriers, who says: "I used St. Jacobs Oil for sprains and bruises with marvelous results. I shall recommend it whenever opportunity occurs." The opportunities to use it occur every hour, and the remedy should be handy.

Neighbor, see you not the signal
In that loved one's cheek?
Heed you not that constant hacking,
While the form grows weak?
O, delay not, or this dear one

Gulf From Gotham.

Kennett, Hopkins & Co., to R. Cochran. In spite of the official confirmation that the dividend on Mo. Pac. would be postponed the stock opened 1 per cent. higher and the general market was firm. Later this stock broke six points on pressure of sales and only recovered a part of the decline. The balance of the market showed a considerable strength and closed at about the same prices as last night. The Vanderbilts were conspicuously strong, Lake Shore selling at the highest price touched for many years. The market shows considerable evidence of recovering from the state of depression caused by the recent action of the Mo. Pac. directors and the consequent decline in that stock. Total sales 281,453 shares.

Henry Allen to J. J. Dixon & Co.: Local speculators are very much mixed as to the future outcome of the stock market. To-day was characterized by violent fluctuations, but outside orders were smaller than for some time past. Mr. Morgan and his friends are undoubtedly lending their aid to maintain prices and they have been successful in their own specialties, but Mo. Pacific continues to be a menace to the market and was to-day rapidly sold down by orders which were credited to Mr. Gould. That gentleman's attitude has scared off a host of speculators who heretofore have been active in advancing prices.

Gossip from Chicago.

Counselman & Day to J. J. Dixon & Co.: The general tone of speculation was dull and inclined to weakness on account of lower cables and poor prospect of export business. Wheat had an early break of half cent and became lifeless till near the close, when a report that British fleet had been ordered to the Dardanelles caused a buying by shorts on which market reacted and closed steady. The cash demand was very slack and gave no promise of early improvement. Clearances were nearly two millions bushels less than last week in wheat and flour, which, considering the lower prices asked, is a rather bearish argument.

L. COFFEE & CO
ESTABLISHED 1845.
Choice spring wheat, also red and white winter for sale in car or cargo lots. Samples sent and prices quoted on application. 38 Church-street, Toronto. 1

Kennett, Hopkins & Co. to R. Cochran: Corn and oats ruled somewhat easier, but closed about as they did yesterday. Receipts of corn are falling off, but the eastern export demand is hardly as good as expected, and in the west new corn will soon take the place of old corn for consumption. Very light trade in oats and little change in prices. There was some show of strength, due possibly to covering by shorts, though there were indications that Armour was on the buying side to a moderate extent. It was admitted, from first to last.

GRATEFUL—COMFORTING
EPPS'S COCOA
BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus:
