ATHENS, May 21.—Major Dumriatis has made the following report to the Government of the fighting on the frontier: "While we were changing sentries at Korravista at 1 o'clock this morning the Turks opened along the whole line near Nezeros. I ordered our fire to cease, and the Turks also stopped. At 4 o'clock in the morning the Turks renewed their firing, this time with artillery from Karia. At 6 o'clock a Turkish company advanced with the purpose of taking Analipsis. The Turks are assembling to attack our position at Nezeros. They have captured our post at Bairakton. This they succeeded in doing by a sudden rush. I have ordered my troops to re-occupy their positions. All is now quiet."

The Government has ordered the Greek commander to avoid hostilities, but if the Turks are aggressors the Greeks shall assume the offensive.

The orders to demobilize the Greek army have been cancelled and troops have been ordered to proceed at once to the fronter.

The Chicago Anarchists.

CHICAGO, May 21.—Indictments for conspiracy to murder were formally returned this evening by the Grand Jury against August Spies, Sam. Fielden and A. R. Parsons, Anarchists. These three were speakers at the Haymarket meeting, which preceded the bomb throwing and riot on May 4. The evidence that would implicate others, and especially the man who hurled the bomb, has been withheld by the authorities for their own reasons. The testimony so far makes it plain that for months past the Anarchists have been secretly preparing to attack the police with dynamite and other agents of destruction.

Wycliffe College.

TORONTO, May 22.—The commencement exercises at Wycliffe College took place last night in the Library of the College. There was a large audience of ladies and gentlemen. Treasurer Howland read his report. The total receipts for the year ending April 30 were $27,704. For the building of the new wing $18,871 was received, at a $19,458 expenditure. Principal Sheraton reviewed the work of the session just closed. The report of the College Council stated that three students had completed their course—A. D. Dewdney, R. L. Stogget and J. C. Robinson. Two others—J. Gauder and G. Gauder—had taken a partial course and intended offering themselves for work in the home mission field. Daniel Wilson presented Col. Gzowski with a gold locket and illuminated address from his fellow trustees and co-workers, on the occasion of his leaving for Europe.

SATURDAY EVE'G MAY 22, 1886

Amendments to the Franchise Act.

The Minister of Justice on Tuesday introduced a bill to amend the Franchise Act of last year. The Government are beginning to find out that it is a pretty expensive affair, and the chief object of this bill is to lessen the costs in certain directions. Nothing is done, however, to amend it in principle, to alter the unjust and objectionable clauses, or to lessen the trouble and expense that members and the people are put to in adding names to the lists, or appealing against those who have no right to be on them. The first provision of the bill is to dispense with the necessity of the Revising Officer in future obtaining the assessment roll each year. This has been attended by considerable expense, but in the present year it was necessary to frame the first list. The lists having been once framed and establised it would be a comparatively easy matter, by proper revision, in future years to proceed without this information in detail. Another provision was to make it clear that revising officers need not hold a court for the revision of the list in every polling sub-division, but that, as in Nova Scotia, there should be a sitting in every district containing not less than three sub-divisions. It is also proposed to provide that one applicant may be submitted for another in the case of an applicant desiring to be withdrawn. Great inconvenience has been found also to arise from the requirement under the existing Act that whenever more than 200 voters appeared on the list of any polling sub-division, the limits of that sub-division should be changed so as to reduce the number again to 200. It is proposed that for the present the existing sub-divisions should stand until the number of voters included in them shall reach 400, and then the limits shall be changed when the number will be reduced as provided in the Act. It was also intended to reduce somewhat the costs of the revisors' lists by reducing the number of columns in the printed lists and the oaths, are inserted in the bill.

MR. CHARLTON's seduction bill, after having had some of its provisions seriously impaired by the Senate, has at last passed. When it came back to the House of Commons the Government tried to block its passage by objecting to concurrence in the Senate's amendments without being placed on the order paper. This would have thrown it back to the bottom of the list, and it would not have been reached this session. Mr. Charlton said if the Government insisted on this that he would throw on them the responsibility of killing the bill. They were not prepared for this, and so they reluctantly allowed the bill to pass as amended by the Senate.

THE cost of printing the first voters' lists under the new Franchise Act, after the accounts have been revised and certified by the Dominion officials, is $132,000. Some of these lists have to be printed once or twice more before they are finally complete, which will add considerably to the above figures. Then in addition to this cost there will be the salaries of the revising officers and the clerks, rent of rooms and other incidental expenses. The total cost of one year's operation of the Dominion Franchise Act to the country will be half a million dollars. All this huge tax is incurred by the present Government in hope of securing another lease of power.

AS WE expected the Committee on Privileges and Elections have adopted Mr. McCarthy's report on the Prince Albert Colonization Company scandal, whitewashing Mr. John White and Mr. Bowell. After a good deal of squabbling the report was carried on a vote of 14 to 10. In the majority, however, were numbered five Cabinet Ministers and the Deputy Speaker, or six salaried officials in all. But for these Mr. McCarthy's report would not have been carried, and the probability is that Mr. Davies' report would have been adopted, implicating Mr. White and indirectly Mr. Bowell in the transactions. The Government's majority in the House will of course stand by Mr. McCarthy's report, but that will not prevent the people from still believing in the truth of the charges preferred by Mr. Edgar, that Mr. John White and Mr. Jamieson—Mr. Bowell's son-in-law—had made money out of the company, the one by reason of his influence with the Government, and the other from his connection with a Minister of the Crown.

THE Hon. Frank Smith, in the course of his Speech on the O'Donohoe motion in the Senate, went far out of his way to attack his late employees on the street cars in Toronto, as well as the members of the Labor organizations who have espoused their cause. He called them "a set of thieves," and applied to them other insulting and unmerited epithets. Mr. Smith no doubt spoke in the heat of passion, but that is no excuse, for a man in his position has no right to use such language, especially when he has no cause for using it. Throughout this strike the men have acted with great moderation, and have conducted themselves in an orderly manner. In starting opposition to the street cars, they have as much right to make their living in that way as Frank Smith has to carry on his business or run his cars. They should not be insulted for so doing because they choose to leave his employment for reasons sufficient to their own judgment.

ON December 28th of the present year South Australia will have attained its fiftieth year as a colony. It has been decided to celebrate the event by holding an International Exhibition next year at Adelaide. Already grounds have been selected for the purpose, and executive and sectional committees have been formed. H. R. H. the Prince of Wales and his two sons have consented to become patrons of the Exhibition. A hearty invitation is extended to the other colonies of the Empire to be represented. The circular announcing the holding of the exhibition says the year 1887 will be memorable throughout the British Empire (connected with the celebration of Her Majesty's jubilee) and will be of special local interest to the Australasian Colonies, from the fact that that year will witness the union of the capitals of South Australia—Victoria, New South Wales and Queensland by a continuous line of railway, 1,760 miles in length—from Adelaide to Melbourne, 508 miles; from Melbourne to Sydney, 574 miles; from Sydney to Brisbane, 678 miles. The import and export trade of the Australasian Colonies amounted in 1884 to a total of £116,249,116 and the population reached 3,074,503. The Government of South Australia will admit all exhibits free of Customs duties and will take the necessary precautions to secure the protection of the interests of exhibits, which will be divided into seven classes:—Mining, Manufactures, Education and Science, Art, Machinery, Agriculture, Horticulture and Floriculture. It is to be hoped that the Dominion will be represented at the Exhibition.

The Pulpit and Labor.

It has been the lot of most social reformers to be first ridiculed, then abused, then considered. Now that the labor question has found its way into the pulpits, the preachers cannot do better than learn from Mr. Henry George, who said recently: I do not wish to call upon those my voice may reach to demand their own rights, so much as to secure the rights of others more helpless. I believe that the idea of duty is more potent for social improvement than the idea of interest; that in sympathy is a stronger social force than in selfishness. In the idea of incarnation—of God voluntarily descending to the help of men, lies, I sometimes think a deeper truth than perhaps even the churches teach. This is certain, that the deliverers, the liberators, the advancers of humanity have always been those who were moved by the sight of injustice and misery, rather than those spurred by their own suffering."

In the beauty of the lilies, Christ was born across the sea,
With a glory in his bosom to transfigure you and me,
As he died to make men holy, let us die to make men free.

Definitions.

Jealousy:—The homage paid by inferiority to merit.
Charity:—A service that the receiver should remember and the giver forget.
Forgiveness:—The gift that only you can bestow upon your enemy.
Money:—To the wise a convenience; to everyone a necessity.
Sleep:—The thief that robs us of our time, giving us health in exchange.
Carefulness:—The core of economy.
Temptation:—The test of the soul.
Conversation:—The idle man's business and the business man's recreation.
Fool:—One who shows his folly and doesn't know it.
Wiseman:—One who knows his folly and does'nt show it.

ONWARD!

MONDAY, May 17th, 1886.

The week before the Queen's Birthday, one year ago, was one of the heaviest in our business for the year. As week after week marks the steady and certain growth of our business, we are determined that this week's operations shall also exceed the very large sales of the corresponding week of last year. There is no reason why it should not. *Our Stock is much larger, variety greater, Value, to say the least, fully as good, circle of customers more extensive, and efforts to please even stronger.* We are prepared for a heavy demand in our stock. Every department offers special attractions. Our goods are all square, honest value. *They stand the test!* We offer this week special good value in

Silk Parasols and Umbrellas in great variety.

Ladies' and Children's Hosiery, cheap goods.

Ladies' and Children's Gloves of every description.

Men's and Youth's Clothing, the best value.

Men's and Youth's Felt Hats, all new styles.

Ties, Collars, Shirts, Socks in great variety.

Milliner Department

Stands supreme over all competitors. Miss Manning, with her large staff of assistants, is doing her utmost to meet the heavy demands upon her, and all ladies favoring us with their Millinery and Mantle orders, are assured of getting the most satisfactory attention. Special lines this week.

Terms strictly Cash.

Parcel No. 1—A commodious Red Brick house, and lot, having a frontage of 89 feet 10 inches Paisley street by 55 feet on Glasgow street.

Parcel No. 2—A frame plastered cottage, and lot, having a frontage of 50 feet 6 inches on Glasgow street by 90 feet 4 inches deep.

Parcel No. 3—Vacant lot, having a frontage of feet 10 inches on Paisley street by 107 feet 6 inches deep.

Parcel No. 4—Vacant lot, having a frontage of feet 10 inches on Paisley street by 108 feet deep.

Parcel No. 5—Vacant lot, having a frontage of 44 feet 10 inches on Oxford street by 108 feet 6 inches deep.

Parcel No. 6—Vacant lot, having a frontage of 44 feet 3 inches on Oxford street by 108 feet 10 inches deep.

The above properties are most desirably located in the central part of the city, about midway between the Central and High Schools, and in close proximity to the Burr Bros.' cabinet and other factories.

Terms easy. A large portion of the purchase money may remain on mortgage at a low rate of interest.

For further particulars apply to J. A. Lamprey, Estate Agent.

Guelph, May 14th, 1886 dtd

Auction Sale of Valuable Property.

W. S. G. KNOWLES has been instructed to sell by Public Auction, on the grounds on Saturday, 29th May, at one o'clock, that valuable property known as part of the Mickie Estate, on Crimea street, near the Western Station, in the City of Guelph, comprising about five acres of land, two of which are laid out in grounds, and on which is erected a large and substantial stone residence, containing fifteen rooms, heated by hot air furnace; hard and soft water, with good drainage. Also excellent stable, carriage house, driving sheds, stone fowl house, and other buildings. The above property comprises about 17 lots. On two of the lots houses are erected and constantly rented, which will be sold separately if required.

Also at the same time a desirable residence on the corner of Clinton and Gladwin streets, in a beautiful locality. This house is nearly new, two storeys, well built, and contains nine commodious rooms, good water and perfect drainage. Terms easy and made known on day of sale. Apply to J. A. Lamprey, Real Estate Agent; or R. F. Maddock, Lumber and Coal Merchant, Paisley Street. dw

Trustee's Sale.

NOTICE is hereby given that there will be offered for sale at Allen's coal yard, in the City of Guelph, County of Wellington, on Thursday, the twenty-seventh day of May, at one o'clock in the afternoon, the following valuable properties and stocks:—

PARCEL ONE.—The Equity of Redemption in Lots 10, 11 and 12 on Mill street, in McCartney's survey, in the said City of Guelph (excepting the portions thereof conveyed by John Goldie to the Great Western Railway Company by registered deed) and known as Allen's coal yard.

PARCEL TWO.—Coal, 30 tons anthracite stove, 15 tons Lehigh grate, 20 tons blacksmiths, 5 tons prepared coke, chestnut size, also two wagons, two sleighs and a quantity of tools, &c., all in and upon parcel number one.

PARCEL THREE.—The leasehold interest in Allen's coal yard in the town of Berlin, in the County of Waterloo, and being a part of the Grand Trunk Railway premises there. This parcel is subject to a rental of $10.00 a year and taxes.

PARCEL FOUR.—Platform scales, 18 tons of anthracite coal, 9 tons blacksmiths coal, 1000 lbs builders-tarred felting, and a quantity of tools, &c., all in and upon parcel number three.

PARCEL FIVE.—The leasehold interest in Allen's coal yard in the town of Waterloo, in the County of Waterloo, and being Lots 1, 2 and 3 on the east side of Queen street, and north of the Grand Trunk Railway station, together with the scales and all claims of the estate for improvements made thereon.

PARCEL SIX—The Equity of Redemption in Lots Nos. 368, 369, 370, 371, 372 and 373 on the sixth line, and on the Grand Trunk Railway in the village of Malton, in the County of Peel, as shown on the Plan of the said village, dated 5th October, 1855, and duly registered.

PARCEL SEVEN—The Equity of Redemption in Lots Nos. 336, 337, 338, 339, 340 and 341 on York street, in the said village of Malton, as shown on the plan mentioned in parcel six.

TERMS.—Cash. The parcels Nos. one, six, and seven will each be sold subject to a reserve bid.

The coal and building material will be sold in lots as above, and the purchasers must satisfy themselves as to quantities and qualities, as the trustee will not guarantee the same.

BALL & BALL,
Solicitors for H. McCULLOCH,
Trustee of Allen's Estate.

IRISH HOME RULE.

The Discussion Goes on in the Imperial Parliament.

LONDON, May 21.—Justin McCarthy resumed the debate on the Home Rule Bill. He said the prospects of Home Rule had brightened recently, thanks to Lord Salisbury's revival of the cry "no popery." Ireland could not afford to wait for the elaboration of a scheme of Imperial Federation. The Irish Parliament would join the Federation when matured. He would rather the Orangemen were friends than enemies. He hoped they did not mean to fight. They ought rather to assist in regenerating their fatherland. He earnestly hoped Mr. Gladstone would not mutilate the Bill or postpone for another year. Happen what might, Mr. Gladstone had already secured self-government for Ireland. (Prolonged cheers.)

Owing to the large number of members who wish to speak on the Home Rule Bill, it is expected the debate will not close until the end of the week after next.

Mr. Childers, Home Secretary, said that while there was no danger in granting to Ireland the powers which the Bill confers, there was danger in refusing such powers. He believed that, as in the cases of Australia and Canada, the measure would be accepted by Ireland cordially, and that the result would be a permanent attachment to England on the part of the Irish people.

Major Saunderson, Conservative member for North Armagh, advocated the suppression of the National League. He said he did not object to the Land Purchase scheme. He accused the Parnellites below the gangway with receiving money from America, whereupon Mr. O'Brien arose and excitedly exclaimed, "That's false." The Speaker asked Mr. O'Brien to withdraw the expression.

Mr. Sexton rose to speak, but the Speaker called upon Major Saunderson to withdraw his accusation, and the Major responded by saying that he withdrew with pleasure what was contrary to the rules of the House, whereupon Mr. O'Brien exclaimed, "So do I." The debate was then adjourned.

A Unionist meeting was held at Holborn this evening, at which Messrs. Waring, Holmes and other members of the House of Commons were present. The platform was stormed by a mob and the meeting broken up in the greatest disorder.

Mr. Davitt, speaking at Swansea this evening, said Lord Randolph Churchill had uttered in Parliament language just as treasonable as that for which he (Davitt) had been imprisoned. There was no reason to fear persecution by Catholics. All the insurrectionary movements that had ever occurred in Ireland had been started by Protestants.

Mr. Gladstone, in the House of Commons this afternoon, stated that he would on Monday next ask the House for a vote of supply on account and then take up the Arms Act for daily debate until the Bill was passed in order that it might be brought into operation before the Act expired.

The Queen at the Colonial.

LONDON, May 21.—The Queen made a visit to the Colonial and Indian Exhibition to-day and very carefully inspected the Canadian court. Her Majesty was accompanied by the Princess Beatrice, the Duchess of Albany, and the Marquis of Lorne. Special attention was given by the royal visitors to the game and agricultural trophies, the educational and geological exhibitions, and the display of agricultural machinery. Before leaving the Queen expressed a desire that the public should know how much she admired the Canadian court and how greatly she was interested in the Canadian exhibits. The general public were excluded from the court during the time the royal party were present.

A $20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their *Monthly* for June, among which is the following:

We will give $20.00 to the person telling us which is the shortest Commandment in the Bible by June 10th, 1886. Should two or more correct answers be received, the reward will be divided. The money will be forwarded to the winner June 15th, 1886. Persons trying for the reward must send 20 cents in silver or postal notes, (no postage stamps taken) with their answer, for which they will receive the monthly for July in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be offered. Address RUTLEDGE PUBLISHING COMPANY, Easton, Penna.

Chorus of Husbands.

The bonnets that bloom in the spring,
Tra-la!
Blossom now in the merry sunshine;
And we dolefully groan as we sing,
Tra-la!
At the thought of the outlay they bring,
Tra-la!
But we know it's no use to decline.
And that's what we mean when in chorus we sing,
"Oh, confound the bonnets that bloom in the spring!"
Tra-la la-la-la-a! Tra-la-la-la-la-a!

The bonnets that bloom in the spring,
Tra-la!
Are exhibited now in the case,
And your wife wants a ten dollar wing,
Tra-la!
A most unattractive old thing!
Tra-la!
And a whole lot of flowers and lace,
And she says your real mean and a hateful old thing,
If you don't buy the bonnet that blooms in the spring.
Tra-la-la-la-la-a! Tra-la-la-lala-a!
Oh, we do wish there weren't any spring.

Cotterman and McFarland write as follows:—

WAPAKONETA, O., June, 1877.

GENTS.—Having been in the livery business for the past ten years, and having many cases of Colic in horses under our treatment, and having tried many remedies and liniments to cure it, we found that the best, cheapest, and quickest remedy for Colic in horses is Perry Davis' Pain Killer, and we honestly affirm that we never failed to cure the worst cases of colic we ever saw, and we cheerfully recommend it to everybody, as the best medicine to cure Colic in horses.

Our Dress Goods department is a marvel for variety, style and value. See our stock, always welcome at
d4w1 A. J. LITTLE & Co's.

"WHAT shall we do with our spare time?" asks a writer. If you are like the vast majority of pen-pushers you might put it under a microscope and see if you can find it.

Our Millinery department is the most popular in the City. Nice stylish goods at reasonable prices. A. J. LITTLE & Co.

HEREFORDS FOR THE NORTHWEST.—The Cypress Cattle Co. have purchased five fine Hereford bulls for their ranch from Mr. F. W. Stone. They were shipped with the ten Shorthorns mentioned as sold Mr. A. H. Morrison, who shipped 700 head from Ontario the beginning of this month. The freight on them amounted to over $5,000.

The latest remedy for coughs, colds, croup, whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound, so do not say you have taken everything until you have tried this for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Sold in 50c and $1.00 bottles by T. S. Petrie, Druggist.

PERRY DAVIS'

PAIN-KILLER

ALLEN'S LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy,—**Allen's Lung Balsam.**

MOTHERS, love you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes,
Price 25c., 50c., and $1 per Bottle.

The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

MEET ME AT HEPBURN'S

The citizens of Guelph and vicity are now convinced that

W. M. HEPBURN & Co.

Are working for their benefit. They have certainly started out in the

BOOTS AND SHOE

business, with the right idea in view, namely to give the people their money's worth, and to handle nothing but good and reliable goods. Goods that can be relied upon and which always build up a trade. Goods which will not go Back on the Firm.

In order to convince you that our goods and prices are just what we say they are, and to get you started to deal with us, WE will give away one pair of the best rubbers we can buy with each pair of Ladies shoes sold, and one pair of A No. 1 suspenders with each pair of Gent's Shoes sold.

We don't give away the above mentioned articles in order to sell our boots and shoes, but we can truthfully say that we purchase our goods in such large quantities, "And For Spot Cash," that we are thereby enabled to present each and every customer with a slight token of our estimation of their patronage, and yet retain a much larger profit than the dealers who buy their goods in small quantities and at long time prices.

We have purchased one of those celebrated foot power Button Attaching Machines, and after this will keep the buttons on our customers shoes free of charge.

THE FRANCHISE ACT.

Advice Which the Reformers in the Country Should Adopt.

Mr. Robert Birmingham, Secretary-Treasurer of the Conservative Union of Ontario, has issued a "private and confidential" circular concerning the final revision of the Dominion Voters' Lists. The circular has public interest, inasmuch as it proves that the Tories intend, as we have often declared they intend, to win the next election, if they can, by diligent work in the Revising Barristers' courts.

The circular says that it is desirable to draw the attention of Conservatives to certain points which might otherwise be overlooked:

"The first of these is that the notice for adding, or objecting to, or amending names at this court must be given two weeks instead of one week before the sitting thereof, and you will remember one court at least will be held in each municipality; some of the Revising-officers propose holding more than one in each municipality. Committees should meet in each polling district—probably one or two in each district, according to its size—and then the list for the district should be carefully examined, every name being scrutinized. In this way those of our friends who have been up to this time omitted will probably be brought to the attention of the committee or the person in charge, and those who ought not to be on—either because their property has been sold since the assessment was made in 1885, or because they are not entitled to be on (1) not being of age), (2) being aliens, (3) not having earned income sufficient, and (4) in case of farmers' or owners' sons, because the farm or property is not owned by their father, etc—would be discovered. Fully two weeks before the court is to sit in the municipality notice must be sent to the Revising officer in the manner stated in the 'Handy Book,' and, in case of votes which have objected to to the persons so objected to also two weeks before. Then within two weeks of the holding of the court, having obtained from the Revising officer's clerk a list of any voters which the other side have objected to a meeting should again be held in the polling district, for the purpose of ascertaining what evidence is required in order to sustain the vote at the holding of the court, if the vote can be maintained on the list. Subpœnas must then be issued to have the necessary witnesses summoned for the purpose of striking off names as well as for the purpose of adding names. These subpœnas must be properly served on the persons, and the proper witness fees paid.

"At this next sitting it is not probable that many of the Revising officers will accept any but the evidence of witnesses who attend, and unless, therefore, persons who know all about the qualification, or the person whose name is in question attends, the name cannot be added or struck off as the case requires. I now also enclose you notices and schedules. The notice is to be signed by some elector and the appropriate schedules are to be attached thereto. You will remember to keep a copy of the notice that is sent to the Revising officer and of the schedules. I cannot too strongly urge upon all our friends the absolute importance of their devoting a few hours of work (for at this stage a few hours will do it) to have the list put in proper shape, as upon it the success of the party at the ensuing general election absolutely depends.

"I remain, dear Sir,
Yours very truly,
ROBERT BIRMINGHAM,
Secretary-Treasurer."

Let the Reformers take a lesson from these Tory instructions and act in accordance with them.

Horsford's Acid Phosphate.

Marked Benefit in Indigestion.

Dr A. L. Hall, Fair Haven, N. Y., says: "I have prescribed it with marked benefit in indigestion and urinary troubles."

The Street Car Strike.

TORONTO, May 22.—The street car strike as far as it affects the Company, has been a failure, and all that the strikers can now hope for is to make their business a permanent and paying institution. The car service yesterday was very little different from what it was before the trouble began. The number of busses on the streets has sadly diminished, but it is claimed that the men will get several vehicles next week from towns to the east of Toronto. The police authorities have come to the conclusion that the strike has ended, and last night the force was put on regular duty. The strikers are still receiving considerable financial assistance from labor organizations. Fred Gray, the young man who put a log signal on the King street car track on Thursday night, was fined $10 in the police court yesterday. Col. Denison promised the next offender $50.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carleton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. B. Petrie's Drug Store.

Making New Provinces.

LONDON, May 21.—In the House of Lords this evening the Bill converting portions of Canadian territory into provinces, to enable them to be represented in the Dominion Parliament, passed the committee stage without amendment.

Don't buy your Muslin Dresses until you see our stock and get our prices.

m18d&wtd P. SPRAGGE, Auctioneer.

Auction Sale of Valuable Property.

W. S. G. KNOWLES has been instructed to sell by Public Auction, on the grounds on Saturday, 29th May, at one o'clock, that valuable property known as part of the Mickle Estate, on Crimea street, near the Western Station, in the City of Guelph, comprising about five acres of land, two of which are laid out in grounds, and on which is erected a large and substantial stone residence, containing fifteen rooms, heated by hot air furnace; hard and soft water, with good drainage. Also excellent stable, carriage house, driving sheds, stone fowl house, and other buildings. The above property comprises about 17 lots. On two of the lots houses are erected and constantly rented, which will be sold separately if required.

Also at the same time a desirable residence on the corner of Clinton and Gladwin streets, in a beautiful locality. This house is nearly new, two storeys, well built, and contains nine commodious rooms, good water and perfect drainage. Terms easy and made known on day of sale. Apply to J. A. Lamprey, Real Estate Agent; or R. F. Maddock, Lumber and Coal Merchant, Paisley Street. dw

TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, endorsed "Tenders for Work," will be received at this department until noon on

Thursday, June 3rd,

For the erection of Farm Buildings at the Agricultural College, Guelph.

Plans and specifications can be seen at the College, Guelph, on and after Monday the 24th instant, where forms of tender can be procured.

The lowest or any tender not necessarily accepted.

Each Tender must be accompanied by an accepted bank cheque for Three Thousand Dollars, which will be forfeited if the party tendering declines or fails to enter into a contract based upon such tender when called upon to do so.

Where the party's tender is not accepted, the cheque will be returned.

NOTICE is hereby given, that the partnership heretofore subsisting between the undersigned carrying on a retail Dry Goods Business at the City of Guelph, under the firm name of A. J. Little & Co., has been this day dissolved by mutual consent. The business in future will be carried on by the undersigned, A. J. Little, who will settle all accounts against the firm, and to whom all debts due the said partnership must be paid.

Witness—Hugh McMillan.

A. J. LITTLE,
ALEX. R. AULD.

Dated at Guelph this 24th day of May, 1886. d2w1

Grand Entertainment

Under the auspices of the Knights of Labor, in their new hall, McQuillan's Block,

On THURSDAY, 27th of MAY

A First-class Programme

has been provided, consisting of comic and sentimental songs, readings recitations, addresses and instrumental music, by some of the best talent in the city.

Admission 15c; Double Tickets, 25c.

Doors open at 7.30; Concert to commence at 8 o'clock sharp.

Entrance between Buchan's old stand and Jones Dry Goods store. m25d3

Mr. Chamberlain has written a conciliatory letter to Mr. Gladstone.

Nineteen Chinamen arrived at Portsmouth Monday to study British methods of naval construction and tactics.

The House of Lords has, by 149 to 127, refused the second reading of the Deceased Wife's Sister Bill.

The clergy are bringing pressure to bear on the Parnellites to induce them to consent to the retention of Irish members at Westminster.

Prof. Goldwin Smith has written one more letter denouncing Mr. Gladstone's Home Rule measure, and saying there is no parallel in history of a great country having been brought so low as Mr. Gladstone has brought Great Britain.

DR. RYERSON will be at the Wellington Hotel, Guelph, on Saturday, May 29th, for consultation in Eye, Ear and Throat cases. d&w

Fair Weather.

Moderate to fresh winds between northeast and northwest; generally fair weather, with stationary or slightly lower temperature.

Local News.

MR. HENLOCK YOUNG and his daughter left Guelph this afternoon for the Old Country. They go by the Allan Line.

DR. H. A. WRIGHT, Messrs. Joseph A. Tovell and Herbert Wright arrived home from the Old Country on Saturday.

GUELPH boys are bound to make their mark in the Salvation Army. There are at the present six of them attached to the headquarters of the Army at Toronto.

MR. JOHN HOGG arrived home from Australia on Saturday morning. He has been absent since the 4th of March, and with the exception of two weeks spent in Australia has been constantly travelling. He was warmly welcomed home by his numerous friend. He looks well and hearty and speaks highly of Australia.

MR. JOHN BRICK, brewer of St. Cloud, Minn., (cousin of Mr. J. K. Herris, of the Golden Lion) who was so badly injured in the recent cyclone that visited that city lately, died on Friday last from the effects of his injuries. He was 34 years of age and leaves a wife but no family. He was well known in the County of Waterloo.

RUNAWAY. — On Sunday afternoon a livery horse ran away from near the residence of Mr. John Ewing on Paisley street. The reason was that the spring which connects the shaft to the buggy broke and the pole fell among the horse's feet. The buggy was upset, the driver managing to jump out before. The horse was caught at Raymond's factory, pretty badly cut up. The driver held on to the horse to the last.

EVANGELISTIC SERVICES. — Evangelistic services were held in Presbyterian church, Elmira, during last week. The Rev. Mr. Hamilton, of Winterbourne, has charge of that station. He was assisted by the Rev. H. Knox. The meetings were interesting and profitable, and were largely attended. Mr. Knox goes with Mr. Hamilton to Winterbourne for next week's keeper. It is hoped that these services may be resumed at Elmira later on. They did much good.

SHIPMENT OF CATTLE.—Mr. Geo. A. Lightfoot, drover, of Greensville, shipped from Schaw station on Tuesday the 18th inst., two car loads of cattle, and on Wednesday four car loads from Guelph and two from Rockwood. These cattle were an extra choice lot, averaging 1,400 lbs. a head, and were shipped to Montreal for export for the firm of Snell & Gray. The cattle are going for the London market. Mr. Thomas Caldwell, of the Dundas nurseries, goes in charge of the stock, and Mr. Peter B. Burton accompanies him, along with several others.

NEARLY RUN OVER.—A young son of Thos. Norris had a narrow escape from being run over at the G. T. R. passenger station on Monday morning. Just before the arrival of the excursion train from Toronto the lad was playing on the street, when Mr. R. Williamson came along driving a span of horses. The front axle tree struck the lad and knocked him down. Before the horses could be stopped the lad was found lying a considerable distance behind the conveyance. Strange to say, although the boy was actually between the horses feet, he received no injuries beyond the fall.

SONG SERVICE.—A most pleasing as well as edifying song service was given in the Second Methodist Church of this city on Sunday evening. There was a large congregation present, the service being conducted by Rev. J. H. Carson. The "Hymns of our Childhood" was the subject chosen, and all through the service such hymns as "Rock of Ages," "There is a fountain filled with blood," etc., were led by the excellent choir of the church, and most heartily joined in by the whole congregation. Mr. A. B. Henderson, of Goderich, who possesses a good baritone voice, sang "Not Ashamed of Christ," and "Out in the Desert," very acceptably. "God Save the Queen" concluded the service, and an appropriate march was played by the organist, as the congregation slowly dispersed.

DANGEROUS RUNAWAY.—On Saturday evening a dangerous runaway occurred on the hill leading from the Wellington Hotel to the Eramosa Bridge. The horse belonged to Mr. Conway, of Eramosa, who, together with his wife and a friend, occupied the democrat waggon to which the animal was attached. The party had started from Ellis' Hotel for home, and had just reached the brow of the hill when the breaching strap broke. This allowed the conveyance to come down against the horse's hips, frightening it in such a manner as to cause it to rear and kick in the most desperate fashion. At the same time it plunged down the hill, but was prevented from getting away by the stubborn way in which Mr. Conway held on to the lines. Finally, when the runaway had nearly reached the foot of the hill the conveyance was swung violently to the side of the road, and Mr. Conway thrown out. One of the hind wheels passed over his back, inflicting some bruises, which are not of a serious nature. Mrs. Conway and the man seated beside her, managed to pull up the infuriated animal just before it reached the stone wall at the bridge. Another breaching strap was procured and the party proceeded on their way homeward.

ALL temperance workers should become members of the Royal Templars of Temperance—the most vigorous total abstinence society in Canada. D. Scroggie, S. C., A. C. Steele, R. S. d1

ST. GEORGE'S CHURCH.—A meeting of the C. E. Temperance Society of this church will be held this evening in the basement of St. George's church at eight o'clock. An interesting programme of vocal and instrumental music, recitations, &c., has been provided. Free to all. d1

Canadian.

The Toronto *World* says:—Parliament will adjourn on Thursday, May 27.

The Queen's Own and Royal Grenadiers of Toronto held their annual outing this year at Barrie and Orillia, respectively on the 24th of May. They were the heroes of the day.

A number of accidents occured in Toronto, from runaways and other causes, in which a number of people were hurt.

On Sunday Patrick O'Donoghue and Patrick Sullivan were drowned in Toronto Bay, by the upsetting of their boats.

THE CHILDREN'S DAY

The Pupils of the Public Schools Provide Entertainment.

GAMES, DRILL, ETC., AT THE PARK.

Calisthenics and Music in the Skating Rink.

The celebration of the Queen's birthday yesterday was one of the best that has been held for many years in Guelph. In the morning the weather was dull and threatening, but as the day wore along towards noon, the sky cleared, and a better day for games and sports could not be desired. Below will be found an account of how the people enjoyed themselves.

THE SCHOOL CHILDREN.

The great attraction of the day, however, was the entertainment given by the school children, under the instruction of Capt. Clarke. The march to the grounds was to take place at 12.30, but it was half an hour afterwards before the scholars had been formed in their various school rooms four deep and marched to their places in the procession. When all was in readiness Capt. Clarke, marshal, gave the order to march, when the City Band, which headed the procession, struck up a lively tune. There were close on 1,200 school children in the procession and the appearance they presented was very pleasing indeed. Following the band were the five drill companies, with wooden guns, and the young lads looked quite soldier-like, marching with a regularity that would have done credit to trained veterans. Then came the boys and girls from the other rooms of the Central School, from the South Ward School, North Ward School, West Ward School and East Ward School, there being a standard-bearer from each school, bearing a banner with the name of the school printed thereon. Everything was conducted with military exactness, and each company was fully officered. On account of the number of little boys and girls in the procession it was deemed advisable—and justly so—to cut short the route laid down in the programme. On leaving the school the course taken was down Paisley and Quebec streets to Wyndham street, circling past the fountain on St. George's Square, along Upper Wyndham street, Woolwich street and London Road to the Exhibition grounds. The march was witnessed by thousands of admiring spectators, who seemed greatly pleased with the parade, and there were none more so than the scholars themselves, for every now and then the boys as they went along would raise a ringing cheer which was carried up along the lines. When the procession had half circled the quarter-mile ring at the Exhibition Park a halt was called and the scholars were then ordered to rest themselves on the grass for a few minutes. Several complied, but the majority of the boys rested themselves by racing round the grounds. Soon after this the games were started. The 100 yards race for boys under eight years came first. By the number of competitors that took part in this race it might have been supposed that there were "millions in it," for when the race was in progress it would have been hard to find a boy under the age mentioned out of the race. And so it was in the other races for boys and girls throughout the thirteen different races. As an average there were four prizes given for each race, and the judges, members of the School Board, had hard work to award their prizes. Four of these gentlemen were stationed at the winning post to catch the first four that came in, but they often came so close together that the worthy school trustees had not arms enough to receive them all. In consequence of this a few who may have been entitled to prizes as well as those who got them, were ruled out. The judges had no easy task to perform, as every child who ran a race had an idea that he or she was entitled to a prize. However all these difficulties were tided over and the games brought to a successful termination about five o'clock, to the evident satisfaction of the thousand competitors and the five or six thousand spectators. One of the best features of the afternoon's proceedings was the drill. The wheel into line, manual and firing exercises, the breaking into columns and marching past in open columns of companies, 5 companies, 50 to each company; the march past in close companies, the double past, the wheel into line, the advance in review order, the halt and present arms, were all well done, much to the admiration of the onlookers who frequently cheered. Three cheers were then given for the Queen and the band played the national anthem. Two hundred of the girls who attend the Collegate Institute and Central School were afterwards formed up, and sang God Save the Queen, with good effect. The boys when they were put through manual firing, marching past, &c., exercise, went through each movement with the greatest exactness, and Capt. Clarke was most cordially congratulated by the members of the School Board and the spectators, on the efficient manner in which he had trained his pupils. Too much praise cannot be given to Capt. Clarke for training the lads so thoroughly. In former calisthenics entertainments they were considered to hold a sort of a secondary place to the girls, but on this occasion they at least showed that they were entitled to a front place. The handsome silver cup offered by Col. Macdonald for the best drilled company was awarded to Mr. McLeay's class of boys, and it is a question whether the boys or the teacher felt the more proud of winning the prize. The cup bore the following inscription:—"Challenge cup presented by Lt.-Col. Macdonald, 1st Brigade Field Artillery, A. M., to the Public Schools of Guelph, 1886." Although this class carried off the honors they were hardly pressed by others. Another pleasing and interesting feature of the entertainment was the distribution of prizes by Mrs. White, teacher of the senior girls' school. After the prizes had been distributed, Lieut.-Col. Higinbotham addressed the boys. He complimented them in flattering terms on the manner in which they had performed their drill, remarking that he had often seen soldiers who could not go through their drill with greater exactness. He also paid a high compliment to Capt. Clarke, who, he remarked, deserved the greatest credit for the pains which he had taken in instructing the scholars in their drill. This closed the entertainment on the grounds.

The following are the names of the judges, &c.:—

Judges of drill competition—Col. Macdonald, Col. Higinbotham, Capt. Davidson.

Judges of games—E. Newton, chairman of School Board, Messrs. Murton, Burgess, Myers, Knowles, McKenzie, Skinner, Peterson and Bell.

Starters—Messrs. Fairbank, Stewart, Cottis, Bollert, and Bruce.

Committee of management — Messrs. Spragge, Mitchell, Kilgour and Dr. McGuire.

Officers—Rev. Dr. Torrance, W. Tytler, B. A., and Rev. Father Dougherty.

W. Tytler, chairman of committee, Geo. Murton, secretary of committee.

PRIZE LIST.

100 yards race open to boys under 8 years—Robt Horn, silver cup, 2nd Chas. Worsfold, silver cup, Wm. McIntyre, napkin ring, 4th D. W. Philip, book and handkerchief.

100 yards skipping race, open to girls over 8 and under 10 years—Maggie Gowdy, picture and frame; 2nd Amelia Angell, silver medal; 3rd Jennie Marshall, pickle stand; 4th Louise Nicholson, book and satchel; 5th Maria Broadfoot, bracelet.

100 yards skipping race for girls under 8 years—C. Campbell, silver butter dish, 2nd Sarah Henry, pickle stand; 3rd Flora Slater, bracelet; 4th Gertrude Evans, book and handkerchief.

100 yards boys' race, for boys of 12 and under 14—Thos. Brown, silver cup; 2nd Alf. King, silver cup; 3rd Wm. Cowan, napkin ring, W. Suddaby, book and handkerchief.

100 yards skipping race to girls over 10 and under 12—Mary Pearson, silver butter dish; E. Harris, pickle stand; Emma Copp, bracelet; Bella , book and bottle of perfume; Annie Osburne, napkin ring.

100 yards to boys of 14 years and over—Frank Lillie, silver cup; Fred Shields, silver cup; Thos. Coulan, napkin ring; Philip Gold, book and handkerchief.

100 yards skipping race for girls 12 years and over: Ella Dyson, silver egg stand; Fanny Nicholson, music case; Aggie McMaster, bracelet; Mary Hignell, pickle stand; Maggie McBride, book and handkerchief.

400 yards race for boys of 14 and over: James Thompson, silver cup; A. Harvey, silver cup; Thomas Townsend, napkin ring; E. Sweetman, book and handkerchief.

100 yards three legged race for boys of 12 and over: W. Congalton and Fred Bancroft, silver cup each; Thos. Stevenson and George Mann, silver cup each; Fred Mahony, butter dish and Thomas Winstanley, comb and brush; Isaac Johnston and Wm. Williamson, book and handkerchief each.

½ mile race for boys of 14 and over: W. Mahony, silver cup; John Penelton, roller skates; Charles King, scroll rack.

Hurdle race 300 yards, for boys of 12 and over: Wm. Mackenzie, silver cup; Alex. McCuen, silver cup; O. Fairbank, Life of General Grant; J. Broadfoot, book and handkerchief.

Throwing lacrosse ball, open to two boys from each school: John Bunyan, silver cup; A. Waldron, silver cup; A. McCrae, book.

100 yards race, one from each room: Thos. Ward, silver cup; Thomas McMaster, silver cup; Fred Johnston, book; Herbert Spragge, book.

100 yards race, boys from 7 to 9: Earnest Maddock, napkin ring; Wm. Macdonald, book; Charles Grundy, book; Wattie Sutton, album.

400 yards race open to boys between 12 years of age—Birdie Gibbs, silver cup; 2nd W. Holliday, silver cup; 3rd Frank Johnston, butter dish; 4th Chas. Spalding, book and handkerchief.

ODDFELLOW'S EXCURSION

The Metropolitan and James Mitchell Lodges of the Manchester Unity Oddfellows, Toronto, had an excursion to Guelph. The train, composed of nine coaches, containing between 400 and 500 excursionists arrived about eleven o'clock. The City Band met them at the station, and marched along Macdonnell street, Wyndham street and Market Square. The excursionists in the meantime took up their quarters in the various hotels. After they had dinner they went to the Exhibition grounds, the Oddfellows having secured the main building. Among the refreshments brought were some thirty kegs of Sleeman's lager, shipped from Toronto, and a waggon load of soft stuff. The Mayor and Ald. Read, chairman of the Police Committee, did their utmost endeavours to prevent the lager being taken to the ground. However it was taken there, and disposed of keg by keg in quick succession. The parties in charge of the "refreshments" would receive no money for drinks, and it could only be got by presenting a ticket from the committee of management. The Mayor, Ald. Read, the Chief of Police and Inspector Cowan, were around, and the only credit they received for doing what they considered their duty—to put a stop to the thing—was a heap of the most insulting abuse. But if there is any chance of having the offenders punished steps will be neglected to do so. The refreshment part of the building during the afternoon was crowded. In the rotunda of the palace a dance was the chief attraction. The party left for home about eight o'clock.

CALISTHENIC ENTERTAINMENT.

The day's proceedings were brought to a close in the evening by a calisthenic and vocal entertainment in the Speed Skating Rink, given by Capt. Clarke's classes, and which, like others of a similar character, was an unqualified success. From seven o'clock the large audience commenced to gather in the rink and by eight o'clock sharp, the hour at which the programme opened, standing room was at a premium. The grand entrance of the class singing the Bridal March from Lucia di Lammermoor formed a fitting prelude to the evening's exercises and aroused the interest that was fully sustained to the last. The club swinging by the girls' class was a very pretty sight, the regular rise and fall of the clubs, the music being varied to suit the different movements, producing a very pleasing effect. In all the motions by the class the result of the athletic training given in the last two years was very noticeable, and the ease, grace and precision with which the different figures were performed gave evidence of discipline of a high order. Mr. W. E. Ramsay, of Toronto, in his character songs and recitations, met with an enthusiastic encore on each appearance. His get-up was very realistic and his delineation of the various parts provoked much laughter. Mr. E. Schuch, of Toronto, in his solos, displayed to the best advantage the mellow tones of the accomplished singer, and the duet and encore of Mrs. Whitehead and Mr. Schuch was one of the most effective numbers on the programme. Miss Clara Stevenson was in excellent voice, and sang "The Maiden's Secret" with the power and taste which few singers show. The duet by the Misses Stevenson, "The Birds," was well given and well received and in response to an encore they bowed their acknowledgements. The selection by the City Band was fully in keeping with the excellent programme and the rendering of their number fully sustained the well deserved reputation of the organization. The rifle exercise, sword exercise and marching of the boys' class was inspiring, all the latent fire of the audience being brought out by the unity and vim of the movements. The handling of the rifle and sword was clear and prompt and the marching regular and soldierly. The motion songs of the girls' class were neatly given and the single and double marching by the class which concluded the evening's programme made an appropriate climax. The manner in which the many difficult and intricate movements in the march were performed was a surprise to those who had but a slight idea of the hard work and faithful training of past years on the part of the class and its capable instructor, Capt. Clarke, and of which these graceful windings were only the outcome. The trim, well built figures and interested faces of the girls and the erect form and earnest look of the boys bore testimony to the benefit both to mind and body to be derived from this course of training. The support accorded Capt. Clarke by the people is only an earnest of their appreciation of his work. "God Save the Queen" brought the proceedings to a close about 10:30, a vote of thanks being unanimously carried. The proceeds of the two entertainments must net a handsome sum towards a worthy object—a drill room at the Collegiate Institute.

Mrs. Whitehead led the singing of the class with much acceptance, and the services of Mrs. T. Hill and Miss Tone Maitland as accompanists on the piano contributed considerably to the excellence of the marching.

Police Court.

Wattie Canfield was before the Police Magistrate this morning on a charge of being drunk. He said to His Worship that he had gone out to the grounds with fifteen cents, ten of which he paid for admission. After being in the grounds for some time he felt dry, and as luck would have it he met with some acquaintances from Hamilton, who procured him tickets for refreshments in the Palace. He further said that this was the first time he had been in a police court, and His Worship said that he hoped it would be the last, but at the same time thought that it was necessary to fine Walter the sum of $1. Walter did not object to the fine, yet he asked the leniency of the Court to extend the credit until Saturday. The request was made in good ould Irish fashion, and caused a laugh in the court room. It is scarcely necessary to say that it was granted.

John Long was charged with being drunk. He denied that he was. The case was adjourned until to-morrow, Mr. Long stating that he could bring witnesses to prove that he was quite capable of taking care of himself at the time the arrest was made.

B. Boulter, Parkdale, was fined $1 and costs for being drunk. His companion was charged with the same offence, but was dismissed. Mr. Cutten appeared for the young men, who did not appear for themselves.

A SCARE THAT WAS NOT A SCARE.—On Monday morning about 1 p. m. as a young man who had some work to finish in time to leave the establishment on Queen's birthday, was proceeding to his place of business, he heard a person running up the street shouting "hi, hi." The young man waited until a man barefooted, scantily dressed, and out of breath, came to him, and in a great state of excitement asked if he was a policeman. On receiving a negative reply the pair started on the look out for a peace guardian who was shortly found, and to whom the barefooted man stated that a man had broken into his stable and was hitching up his horse and buggy, and if they would hurry up the thief would be caught, as he had recently driven away. By this time another policeman appeared on the scene, and the quartette, armed with munitions of warfare, started for the capture, and with stealthy steps wended their way along Quebec street to the lane between the livery stable and the marble works. A halt was ordered, the forces were divided into reconnoitering parties and the search began. The barefooted man's stable was surrounded by the force as stealthily as the "Queen's Own" surrounded Big Bear, and a rush was made for the entrance. On this being gained, the glare of a bulls-eye lantern was flashed into the interior, and lo, and behold, the horse was quietly enjoying its much needed rest, and the buggy was to be seen in its usual corner. A council of war was held, and the route of march was taken up, the bare-footed man asserting that he knew something was wrong, and that he had seen a man come out of his stable with the horse and buggy. A reconnoissance of the premises was then made, and as the first accosted young man entered an old shed in the rear of the stable he saw a light. A general alarm was given and the force swooped down like an avalanche and captured a well known sport, who, on being questioned, informed his captors that he had just returned from a drive with his girl and finding the livery stable closed had driven to the rear, and put up the horse and buggy himself. The bare-footed man appeared crest-fallen, and the police retired from the scene vowing vengeance on the first suspicious character that would come into their clutches, the young man laughing in his sleeve at the sport. If you want to see a man mad ask the bare foot who stole his horse.

A $20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their *Monthly* for June, among which is the following:

We will give $20.00 to the person telling us which is the shortest Commandment in the Bible by June 10th, 1886. Should two or more correct answers be received, the reward will be divided. The money will be forwarded to the winner June 15th, 1886. Persons trying for the reward must send 20 cents in silver or postal notes, (no postage stamps taken) with their answer, for which they will receive the monthly for July in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be offered. Address RUTLEDGE PUBLISHING COMPANY, Easton, Penna.

The Montreal City Passenger Railway Company last week suspended a dozen conductors for robbery.

The Evening Mercury

TUESDAY EVE'G MAY 25.

The New Fisheries Bill.

The recent seizures of American fishing vessels by the Dominion authorities for infraction of the terms of the Treaty between the two countries and the fishery laws of Canada, is at present exciting a great deal of attention and may yet cause serious trouble. The attitude of the Government at Ottawa in relation to this question is watched with increasing interest. It seems determined to adhere to the terms of the Treaty, and by every legal and justifiable means to protect the in-shore fisheries of Canada. For this purpose the Minister of Marine has introduced a bill into Parliament to amend the Act respecting fishing by foreign vessels. The third clause of the old Act is repealed, and it is proposed to enact the following section in its place: "Any one of the officers or persons hereinbefore mentioned may bring any ship, vessel or boat, being within any harbor in Canada, or hovering in British waters within three marine miles of any of the coasts, bays, creeks or harbors in Canada, into port, and search her cargo, and may also examine the master upon oath touching the cargo and voyage; and if the master or person in command does not truly answer the questions put to him in such examination he shall incur a penalty of four hundred dollars; and if such ship, vessel or boat is foreign, or not navigated according to the laws of the United Kingdom or of Canada, and has been found fishing or preparing to fish, or to have been fishing in British waters within three marine miles of any of the coasts, bays, creeks or harbors of Canada, not included within the above mentioned limits, without a license, or after the expiration of the term named in the last license granted to such ship, vessel or boat, under the first section of this act, or has entered such waters for any purpose not permitted by the law of nations, or by treaty or convention, or by any law of the United Kingdom or of Canada for the time being in force, or having entered such waters has failed to comply with any such law of the United Kingdom or of Canada, such ship, vessel or boat and the tackle, rigging, apparel, furniture, stores and cargo thereof shall be forfeited."

Sir Alexander Campbell is steadily recovering, and it is said that if he is able he will take passage for England early next month.

We are glad to be able to state that the Hon. Alexander Mackenzie has quite recovered from the illness he had last March. He and Mrs. Mackenzie intend to sail for Scotland on the 3rd of June, whither he goes on the advice of his physician for the benefit of his health. We are sure that our readers will join with us in the earnest hope that this visit to his native land will be of great benefit to him, and that he and Mrs. Mackenzie will be able thoroughly to enjoy it.

The Tories have discovered a new means of raising corruption money. It is by selling information as to proposed tariff changes. It is said that one large importer obtained information not long ago in regard to the changes in the tariff and was enabled to make a small fortune by taking goods out of bond. He admits having paid a large share of his profits into the Torry corruption fund.

Ottawa *Free Press*;— The rapidly increasing senility of the Senate is becoming more and more pronounced as is instanced by the petty little personal squabbles which distinguish the proceedings of that august body. When the Senate the Dominion, whose ostensible duties are to exercise supreme control over the legislation of the country and keep a paternal eye on the interests of the various provinces, indulge in such petty personal recriminations and ebulitions of spite as frequently characterize its conclaves, it is time for the country to seriously consider the advisability of reforming that chamber."

The Tory papers are now very busy abusing Mr. John O'Donohoe because he has let the light into Sir John Macdonald's machinations with him and Frank Smith for the control of the Catholic vote. While we have no sympathy for Mr. O'Donohoe, who sold himself to Sir John, this much must be said, that the Premier is equally guilty for he was as anxious to buy as Mr. O'Donohoe was anxious to sell, and after he had done the best he could for the Tories Sir John turned round and cheated him and simply made of him a Senator when he should have made him a Cabinet Minister. Mr. O'Donohoe, unprincipled as he is, has found to his cost that he was dealing with a man with just as little principle or no principle at all, who was anxious to make a bargain to secure a temporary support and tide over a temporary difficulty, after which he had no scruple in breaking his bargain. The negotiations all through in this matter are most discreditable to all parties concerned, and we should think the revelations now made would open the eyes of Catholics to the base designs of their so called Tory leaders, who seek to barter away their votes to satisfy their own personal ambition and aggrandizement.

Presentation.

On Monday morning at half past nine o'clock the members of Waverly Lodge met in the Masonic hall. The duty they had to perform was a pleasing one, namely presenting very worshipful Bro. C. Pettiford and worshipful Bro. A. McBean with past masters jewels. The jewels were very handsome. One was procured from Mr. G. D. Pringle and the other manufactured by Mr. G. J. Fitzsimmons. The inscriptions on Mr. Pettiford's jewel read "presented to very worshipful Bro. Chas. Pettiford, by the Brethren of Waverly Lodge, May 24th, 1886." The one presented to Mr McBean was of the same pattern and bore the same inscription with the exception of the name. Worshipful Bro. Anderson made the presentation to V. W. Bro. Pettiford, remarking how unanimous the brethren were in responding to the call for the presentation, and on behalf of the brethren expressing their sense of the worth of Brother Pettiford and of the zeal which he had displayed in filling the Master's chair, and placing the Lodge in such a splendid condition at the end of his term of office.

After this W. Bro. Tytler read the following address, and W. Bro. Petrie made the presentation.

To W. Bro. A. McBean, P M.:

Dear Sir and W. Brother,—It is with no little regret that, in common with the citizens of Guelph generally, your brethren of Waverley Lodge learned of your intended departure from their midst, and assuredly that regret has not been diminished now that your departure is an accomplished fact, and that we no longer see your face and hear your voice at our meetings. Closely connected as you were with the origin and early history of the Lodge, you are intimately acquainted with the records of its struggles and its successes, and we know and are glad to testify, that to you in no small degree is owing the high position that Waverly has obtained in everything that constitutes true Masonic prosperity. Among the names of those who have held the honorable position of W. M. of the Lodge, yours will ever be held in high esteem, and your example will be one for future occupants of the east to emulate. We know it is not necessary for us to tell you, but we do say it with all earnestness and sincerity, that we must heartily wish you all possible success, and every desirable blessing in your new home. At the same time we feel assured that you will keep fresh and green in your memory the thought of your many friends in Guelph, and more especially the recollection of your brethren of Waverley Lodge.

As a small token of our regard and esteem for you as a man and a Mason, we ask you to accept this Past Master's Jewel, and we earnestly pray that the G. A. O. T. U. may long spare you to wear it in the assemblies of the craft; that He may prosper you in all your lawful undertakings, and enable you to show yourself in the future as in the past, an ornament to Masonry and a blessing to your fellowmen.

R C Chase, Secy. Thos S Petrie, W M.
Waverly Lodge No. 361, G. R. C.
Guelph, May 25, 1886.

Both of the Brethren made very feeling replies.

Amer can.

The Sheriff has seized the Pennsylvania, Poughkeepsie and New England railroad and it will be sold May 28.

Keely, the inventor, on Saturday gave a successful exhibition of his motor. Twenty-five capitalists and scientists who witnessed the exhibition were convinced of its success.

John R. Smith, Bergen, N.J., Treasurer of the Board of Domestic Mission of Reformed church of the United States is a defaulter in $25,000 and is dangerously ill of erysipelas.

The body of Dr Dio Lewis was incinerated at Mount Cavet Crematory Monday.

Detective J. F. McCullough testified at the trial of Maxwell, Monday, that the prisoner made a full confession to him, that he chloroformed Preller until he was dead, then took $6,800 that was in his possession and ran away to Auckland.

It is estimated that that 500,000 bushels of oats have been shipped to Great Britain from Canada this year.

Mr. A. Morrison, an enterprising young ranchman, the other day shipped by G. T. R. from Woodstock for Fort McLeod, 738 heifers (2 years old) and 34 bulls. The stock goes to Mr. Morrison's own ranch. It was all picked in Oxford county.

The latest remedy for coughs, colds, croup, whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound so do not say you have taken everything until you have tried this for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Sold in 50c and $1.00 bottles by T. S. Petrie, Druggist.

Not Whiskey but Medicine.

To the Editor of the Mercury:—

Sir,—I noticed in your last issue of the Weekly Mercury under Rockwood correspondence, a paragraph headed "Sad Misfortune." Now, Mr Editor, you will please correct the error. I was at church and sat near the man that had the bottle, and can testify that it was not whiskey, but a bottle of medicine he got from Dr. Dryden. The bottle was not broken, and it was at morning service and not at evening, as your correspondent says.

Yours respectfully,
R. Hewat.

Rockwood, May 24th.

SPECIAL NOTICES.

Young Ladies Journal for June to hand at Day's bookstore.

Day has made a contract for six hundred dollars worth of baby carriages, first lot expected next week. Nice goods and big value at Day's Bookstore.

Any of the scholars taking part in Captain Clarke's entertainment on the 24th, can have Scotch caps at cost price at Shaw & Grundy's.

Ready mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

Our Dress Making department is in the hands of Miss Amiss, of New York. W. are now ready to take orders. Ryan, Berkinshaw & Co. d

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

All the nobbiest suits in town are made at B. B. Hughes'. Gents furnishings a specialty.

Three names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

QUEEN'S BIRTHDAY GAMES.

Baseball, Cricket and Rifle Shooting.

BASEBALL.

It is estimated that 1,500 people witnessed the game yesterday forenoon between the Londons and Maple Leafs. From the first the game was devoid of interest, being altogether too one-sided. The Leafs did great work at the bat, having no less than 15 total base hits to their credit. Their base running was about the liveliest seen for some time, and there ought to be some stiff limbs to-day. In the field the Leafs also played comparatively well, the error column being kept down to 6. The Londons only succeeded in getting two single hits off Zell, while they had 30 errors in the field, or maybe more, but that was all the scorer could get down. At the close the game stood 17 to 2 in favor of Guelph. Following is the score.

LONDONS.

Umpire, W. S. Smith.

NOTES.

Zell has again distinguished himself in the box.

Sheibeck did great work both in fielding and base running.

George caught the grand stand in dodging between 3rd and home.

Dillon on the whole caught well, but was weak in throwing to 2nd base.

Ann Arbor, of the Michigan State League, play the Leafs on Saturday here.

London used to be something of a base-ball town. It is deteriorating in that respect.

Among the hits yesterday Mulholland had a three bagger, and Zell and Dillon each a two bagger.

Ten years ago yesterday London won their first victory over the Maple Leafs in a ten innings game at London.

Londoners are apt to boast that the Leafs yesterday won their first game in ten years from a London club. London has only had a club which could play at all away from home about four seasons out of the ten.

Next time "Sonny" is put into left field the management had better see that he is made safe from being hit with the ball, by putting the fence between the ball and himself.

On Saturday the new ball grounds of the Torontos were opened with great *eclat* by His Honor Lieut.-Governor Robinson. The game was an International one between the Torontos and Rochesters with the following result: Torontos 10, Rochesters 3. The other International games were as follows: At Hamilton, Buffalo 8; Hamilton 4. At Binghampton, Syracuse 7; Binghampton 2. At Oswego, Oswego 8; Utica 13.

A Toronto yesterday two games were played between the Rochesters and Torontos as follows: In the morning Toronto 6; Rochester 5. Afternoon, Torontos 8; Rochester 6. At Hamilton in the morning Buffalos 4; Hamilton 2; afternoon, Hamilton 14; Buffalo 5. At Binghampton, Binghampton 5; Syracuse 10. At Oswego, Utica 4; Oswego 7.

On Saturday likely the greatest game that has taken place this season will come off between the well known Ann Arbor, Mich., club and the Maple Leafs, on the Maple Leaf grounds. The Ann Arbor team is the best club in Michigan, bar the Detroit League team, and they will no doubt play the Leafs a close and exciting game.

CRICKET.

The Guelph eleven went to Hamilton yesterday and sustained a defeat at the hands of the Hamilton cricketers. For Hamilton the bowling of Gillespie and Ferrie was excellent, as was also Martin's for Guelph. In the first inning McConkey played well for 11, being the only one to get double figures. In the second inning H. Guthrie was unfortunately given out l.b.w. for 13, while Saunders scored 20. For Hamilton Hope (12), Ferrie (16), and Rankin (11) played well, as did Gillespie (18) and Stinson (10) both not out. Fitzgerald and Saunders made difficult catches which were admired. Following is the analysis:

GUELPH—1ST INNINGS.

Lockwood, bowled Ferrie 1
H. Guthrie, bowled Gillespie 5
S. Saunders, bowled Ferrie 3
H. J. Martin, bowled Ferrie 2
B. R. McConkey, caught and bowled Gillespie 11
A. Fitzgerald, bowled Gillespie 2
W. Henry, bowled Ferrie 0
Husband, bowled Gillespie 1
T. Webster, bowled Ferrie 3
J. W. B. Walsh, not out 0
Total 28

Runs at fall of each wicket.
1 for 4, 2 for 6, 3 for 11, 4 for 12, 5 for 21, 6 for 22, 7 for 24, 8 for 28, 9 for 28.

RIFLE MATCH.

At the rifle range the annual 24th of May matches were held. There was a fair turn-out of the members, but owing to the dullness of the weather, the sighting was bad and the scoring not up to the usual standard of the competitors. The following is the score in the different matches:

All Comers' Match.

			yds 200	yds 500	yds 600	T'l
1	$4	Walter Macdonald	24	14	14	53

4	1	Jno Crowe	5	5	5	4	4	23

Royal Oaks vs. Galt.—On Saturday afternoon, at one o'clock, the Royal Oaks started for Galt to play a friendly game with the Galt club. They arrived about half past three. Play commenced at four o'clock, and continued for an hour and a half. The game throughout was a good one, and was apparently appreciated by those present, who numbered between two and three hundred. The Royal Oaks appeared to be the strongest team as they took the lead and kept it, the score at the close being 10 to 7 in favor of the Oaks. The Guelph boys have to be congratulated on their victory. Mr. A. Smith, of Berlin, umpired the game to the satisfaction of all. A return match will be played shortly. The following is the score by innings:

	1	2	3	4	6	6	7	8	9
Royal Oaks	0	1	3	0	1	1	2	0	1—10
Galt	0	0	0	2	0	1	2	2	0—7.

Fire at Milton.

Milton, May 24.—One of the worst fires that has ever visited this town took place here to-day, completely demolishing the following stores: Mrs. A. Tock, grocery; W. J. Stearns, tinshop; G. Andrews, butcher shop, and Wm. Little's harness shop. The full extent of the damage is not yet known, but the loss will be considerable. The origin of the fire is unknown.

ONWARD!

Monday, May 17th, 1886.

The week before the Queen's Birthday, one year ago, was one of the heaviest in our business for the year. As week after week marks the steady and certain growth of our business, we are determined that this week's operations shall also exceed the very large sales of the corresponding week of last year. There is no reason why it should not. *Our Stock is much larger, variety greater, Value, to say the least, fully as good, circle of customers more extensive, and efforts to please even stronger.* We are prepared for a heavy demand in our stock. Every department offers special attractions. Our goods are all square, honest value. *They stand the test!* We offer this week special good value in

Silk Parasols and Umbrellas in great variety.

Ladies' and Children's Hosiery, cheap goods.

Ladies' and Children's Gloves of every description.

Men's and Youth's Clothing, the best value.

Men's and Youth's Felt Hats, all new styles.

Ties, Collars, Shirts, Socks in great variety.

Millinery Department

Stands supreme over all competitors. Miss Manning, with her large staff of assistants, is doing her utmost to meet the heavy demands upon her, and all ladies favoring us with their Millinery and Mantle orders, are assured of getting the most satisfactory attention. Special lines this week.

Terms Strictly Cash.

TELEPHONE IN OFFICE.

E. R. Bollert,

27 Lower Wyndham Street, Guelph, Ontario.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

Success is the test of Worth.

Our Success is a Genuine well Authenticated FACT.

—:o:—:o:—

Our daily sales average 25 per cent more than in the best times for the past six years.

Still our zeal never flags. Our march is forward, while there are new victories to be gained, new customers to be won. Our object is to get your critical examination of our stock. When once we attain that, we consider your patronage secure. With this object and another of raising $45,000 00 by the 1st July,

We begin a Grand Clearing

TRADE RUINING SALE

Saturday, May 22nd, 1886

Yes! We know it is hard on those who are trying to compete.

"Pity them! So we do.
We pity the dumb victim at the altar,
But does the robed priest for his pity falter."

We believe in the doctrine of the survival of the fittest. Mr. J. D. WILLIAMSON sails on the 4th June. It is important that we should raise the sum of $45,000 00 by the 1st July.

$15,000 00 BY 1st JUNE,
$15,000 00 BY 17th JUNE,
$15,000 00 BY 1st JULY.

Saturday, May 22, 8 o'clock a. m.

THE SALE BEGINS.

Now Open for the Season

Preston Mineral Baths AND SUMMER ESORT

Beautifully situated in the County of Waterloo, on the G. W. R., three miles from Galt, twelve miles from Guelph and eight from Berlin.

The hotel attached to this favorite summer resort has been recently enlarged and fitted up with an especial view to the comfort of guests and invalids. Beautiful lawn, capacious billiard parlor and croquet grounds.

The Arcadian Mineral Spring (has proved of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism will find that using these waters will almost effect a cure. New baths have been added this season.

Mr. H. Roat, former Manager, has resumed his responsible position, and will be pleased to welcome his old friends.

Terms moderate. Omnibus to all trains.

ACCIDENT TO EXCURSIONISTS.

Forty of Guelph's Visitors Injured on Their Way Home.

The excursion train, which so many Guelph people saw leave the station for Toronto last evening, was fated to meet with a mishap which was little dreamed of. The train contained the excursionists, numbering over 500, who had spent the day here under the auspices of the Oddfellows (M. U.) Society, Toronto. The train conveying them home was made up of nine coaches. About 9 o'clock, while going into Brampton on the steep down grade there, the coupling pin of the last car broke, and the forward part of the train shot away from it. In snapping the cord the bell on the engine was rung and the engineer took it for a signal to stop. He immediately reversed and slowed up. Then the detached car came down the grade pell mell and dashed with great force into the train. There were forty passengers in the car and they were sent flying n all directions by the concussion. The cats were all wrecked and the car otherwise badly smashed. Fortunately no one was killed, but several were seriously and painfully injured. Everyone in the car was bruised in some shape or other.

The injured are:—Bro. G. Yates and C. Barrett, slightly bruised; S. Samuel, bruised; Miss Strouger, bruised; J. H. Faulkner, slightly bruised; Mrs. Webb, badly cut on head; Mrs. Corless, spine badly injured; Miss Rosa Smith, clothing torn to shreds and bruised on face; Miss Alma Corley, severely bruised inwardly; Miss Jennie Patterson, cut on head and bruised about the body, clothes torn; Mrs. Corley, badly shaken up, lost silver watch and gold chain; Mrs. W. C. Patterson, knee dislocated, head badly injured; Miss Nellie Corley, limbs bruised and cut on face; Daniel Patterson, head cut, legs bruised; Mrs. R. Ray, badly bruised and injured internaily; Mrs. Davis, injured internally, her little boy was badly cut; Fred. Davis, shoulder dislocated; Thos. Carlyle, head cut and bruised; W. J. Nord, injured internally and badly bruised; Owen Mead and Mrs. Mead, cut and bruised; Mrs. Brown, and Mrs. Frye, superficial bruises; Mrs. J. W. Rabjohn and infant, cut and bruised; Robert Doonan, badly bruised; Mr. Frye, cut on eye and badly bruised on arm; Willie Beer, clothes literally torn off and bruised; Mrs. Beer, front teeth knocked out; Joseph Quinn, badly cut on face; Miss Louisa Quinn, bad gash on head; Miss Mamie Quinn, badly bruised on limbs; Mrs. Mason, arm bruised; Wm. Skimmerton, ankle sprained and injured on head; Miss May Tunny, bruised on head; R. Clark, badly bruised all over; Mrs. Clark, front teeth knocked out, nose broken; Mrs. Rose, foot sprained; Miss Minnie Rose, teeth knocked out.

There was only one doctor on the train, and he did what he could for those that were seriously injured. The train arrived in Toronto at 10.30, and the unfortunates were despatched to their homes as quickly as possible.

AN UNFORTUNATE BUILDING.

The "Mail" Office Again Damaged by Fire.

TORONTO, May 24.—The *Mail* building was the scene of another disastrous fire n Saturday night. The fire seems to have originated on the third floor and it spread with terrible rapidity. Owing to the defective telagraph fire alarm system, nearly twenty minutes elapsed after the flames were discovered before the firemen got to work. The task of subduing the flames was no easy one, and it was nearly four o'clock on Sunday morning before the firemen left. The greatest damage is on the third floor, which is occupied by Alexander, Clare & Cable, lithographers. Their valuable plant is entirely wrecked. All the stock stones, on which were valuable engravings, were pulverized or cracked. All of the presses are destroyed. Many of the stones and plates belonged to customers of the firm. The copies of a map of the City of Toronto, for Williamson & Co., which it took four months to get out, were all ruined. Above the hographers are situated the *Mail* editorial and reportial rooms. The furniture and other contents of this flat are almost a total loss. The fyles of the paper, however, are safe. On the top floor is the composing room. A week ago a new "dress" of type which cost $6,500 was placed in this department. It is more or less ruined or "pied." Many of the valu e fonts of "display" or advertising pes are melted or otherwise destroyed. However. enough of the type was saved to issue the paper. The roof over the composing room is considerably damaged, especially in the centre, where the skylight is located.

The two floors below the lithographers and occupied by Southam & Carey, proprietors of the Hamilton *Spectator*, as a job printing office. On the ground floor are the firm's business office, presses and paper stock. Above this, on the second floor, is the type-room. The contents of this flat, comprising valuable job-printing fonts, forms of type, galleys and other material are nearly all destroyed. The presses below and the stock of paper is more injured by water than by fire. The basement where the two Scott printing machines, the stereotyping apparatus and the engine are and where the mailing is done, escaped un injured.

In a corner of the second floor the *Mail* Company occupy a small room as a carpenter shop, and it is partly surmised that the fire might have originated here and spread via the shaft to the floors above and below. But the theory which gains most credence is that the fire was the work of an incendiary. A man was seen jumping out of a window in the burning building.

To the spectators it was painfully apparent that the water pressure is sadly deficient in the case of high buildings. It was barely possible to reach the fourth story with the streams, and when the firemen tried to throw water on the upper stories they had to carry the hose to the roofs of adjoining buildings. Several rooms in these buildings were well drenched with water. The blaze did not get past the iron doors and fire-wall that separate the main building from the rear wing.

The *Mail's* loss on building and plant is about $30,000; insurance $70,003. Alexander, Clare & Cable lose $10,000; insurance $8,000. Southam & Carey's plant was probably damaged to the extent of $15,000.

More Dynamite at Orangeville.

ORANGEVILLE, Ont., May 22.—Another attempt was made last night to destroy the newspaper office of Magistrate Munro. The excitement concerning the dynamite explosion had not abated when the citizens were again shocked by a report this morning that an attempt had been made to burn down the building. The perpetrators broke in a back door, and after piling up all the newspapers they could find saturated them with coal oil. A match was touched, but the paper happened to be damp, hence the miscarriage of the attempted outrage. The magistrate says he is determined to carry out the law in spite of everything.

Mr. Gladstone has decided to convene a meeting of the Liberal party before the debate in the House of Commons on the Home Rule Bill is concluded. This will be done in order to consider the differences that have arisen concerning the measure.

Drill Shed Burned.

HAMILTON, May 23.—The large frame drill shed on James, Lind and Hughson streets was burned on Saturday night shortly after seven. A great crowd gathered to see the conflagration. The heat was so strong that approach to the building was prevented. The armories of the XIII Battalion, with the rifles and other contents, were destroyed; the band of the regiment sustained a loss of $1500 to $2000 in music and instruments.

Fighting on the Frontier.

ATHENS, May 22.—Severe engagements are taking place on the Greek frontier between Turkish and Greek troops. The forces engaged cover a distance of 15 miles. The heaviest fighting is at Tirnova. Many have been wounded on both sides.

LONDON, May 24.—A despatch from Athens says a truce was effected at noon to-day, and there has been no fighting since that time. The casualties are heavy on both sides.

MEET ME AT HEPBURN'S

The citizens of Guelph and vicity are now convinced that

W. M. HEPBURN & Co.

Are working for their benefit. They have certainly started out in the

BOOTS AND SHOE

business, with the right idea in view, namely to give the people their money's worth, and to handle nothing but good and reliable goods. Goods that can be relied upon and which always build up a trade. Goods which will not go Back on the Firm.

In order to convince you that our goods and prices are just what we say they are, and to get you started to deal with us, WE will give away one pair of the best rubbers we can buy with each pair of Ladies shoes sold, and one pair of A No. 1 suspenders with each pair of Gent's Shoes sold.

We don't give away the above mentioned articles in order to sell our boots and shoes, but we can truthfully say that we purchase our goods in such large quantities, "And For Spot Cash," that we are thereby enabled to present each and every customer with a slight token of our estimation of their patronage, and yet retain a much larger profit than the dealers who buy their goods in small quantities and at long time prices.

We have purchased one of those celebrated foot power Button Attaching Machines, and after this will keep the buttons on our customers shoes free of charge.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

THE FISHERY QUESTION

Secretary Bayard Makes Some Statements About the Dispute.

WASHINGTON, May 22.—The following letter was published to-day:—

DEPARTMENT OF STATE.
WASHINGTON, May 20.

To Hon. W. P. Frye, U. S. Senate:

DEAR SIR,—Before your note of to-day was received a telegram of similar purport in relation to the refusal to allow the American schooners "Jennie" and "Julia" to purchase herring for smoking at Digby had been received and steps had been taken by me to ascertain all the facts. And instant representations have been made to the British Minister to call to account the collector at Digby for what I consider a gross breach of commercial rights of a citizen of the United States.

The late reprehensible action of Canadian officials in relation to American fishing vessels had occurred in remote localities without facilities for postal communication and consequently there has been delay, regretable but unavoidable, in receiving consular reports.

But your assumption that this department is giving the matter such consideration as its importance demands will, I believe, be fully sustained when the proper time arrives for publication of its action. I trust I am properly conscious of my duty as an official charged with the execution of delicate and important public functions, and that the interests and honor of my country and the rights of citizens will not be found to have suffered at my hands.

Very respectfullp yours,
T. F. BAYARD.

WASHINGTON, May 24.—Geo. W. Biddle, of Philadelphia, and Wm. L. Putnam, of Portland, Me., have been retained by the United States Government to represent its interests in the trials arising from the seizure of the fishing vessels, "David J. Adams" and "Ellen M. Doughty," by the Canadian authorities for alleged violation of the customs law.

It is the opinion of those who have given the subject most attention, that the purpose of the British Government in regard to the fisheries is to postpone any final action until after the decision of the Canadian Admiralty Court in the case of the "D. J. Adams," and to pursue a policy of delay in the hope that the result will be a Commission. It is known that Secretary Bayard has made very earnest representations to the British Foreign Office against Canadian policy, something of the nature of which is outlined in his letter to Senator Frye. The only reply which the State Department has thus far received is that the British office is waiting to obtain official information. The New England congressmen here are very restive at the delay, as they say that if the British Government shall postpone the decision until midsummer the whole American fishing will be lost.

Horsford's Acid Phosphate.

Marked Benefit in Indigestion.

Dr A. L. Hall, Fair Haven, N. Y., says: "I have prescribed it with marked benefit in indigestion and urinary troubles."

Dominion Parliament.

OTTAWA, May 21.

In the House of Commons to-day Mr. Foster's Bill to amend the Act respecting fishing by foreign vessels, and Mr. Thompson's Bill respecting the Carleton (City of St. John) Branch Railway, were read the third time.

Resolutions providing for grants of land to irregular forces engaged in the Northwest campaign were passed in committee, and a Bill founded on them was introduced and read the first time.

The House went again into committee on the Bill respecting the Northwest Territories. A lively discussion took place on the clause providing that the judges to be created under the Bill might be appointed to the Northwest Council without emoluments. Messrs. Weldon, Mills, Cameron (Huron), Mulock, and Davies strongly objected to the union of judicial and legislative functions in one person, as calculated to interfere with the administration of justice, and to lower respect for the Bench. The clause was amended so as to make judges eligible for appointment, not election, to the Council, and the Bill was reported as amended.

The Bill amending the law of evidence (from the Senate) was read a second time and adopted in committee. This Bill was read the third time.

After recess, the Bill to incorporate the Northumberland Straits Tunnel Railway was passed through committee and read the third time.

Mr. McLelan's Bill respecting the Harbour of Quebec and Sir Hector Langevin's Bill respecting tolls over the Dunnville dam and bridge connecting works over the Grand River were read the second time and adopted in committee.

The Bill respecting the electoral franchise and the Dominion Elections Act was read the second time, and the House went into Committee of the Whole upon it. After all the clauses of the Bill, as introduced by the Government, had been adopted, Mr. McCarthy proposed several amendments altering the qualification of voters. One of these reduces the period of residence by providing that residence shall be for one year before application instead of one year before 1st January; another provides that in case of income voters residence in Canada is sufficient, instead of residence in a constituency. After a long discussion it was decided that the consideration of Mr. McCarthy's amendments should be held held over until Tuesday.

The House adjourned at 1 a.m.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carleton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. S. Petrie's Drug Store.

IMPORTANT

AUCTION SALE

OF

Valuable Household Furniture

And other Effects,

at 191, Woolwich Street,

On Friday, May 28th,

AT 10 O'CLOCK.

Mr. John A. Wood

HAS INSTRUCTED MR. P. SPRAGGE TO sell on the above date the following effects:—Very fine toned Grand Piano, carved drawing room set, fancy rocking and other chairs, small fancy tables, leg rest, large handsome mirror (gilt frame), some good engravings, walnut bedroom sets, wardrobes, hat stand, book cases, feather beds, bolsters and pillows, sideboards, extension dining table, dish covers, dinner and tea sets, crockery, glassware, bagatelle board, sewing machine, patent mangle, garden tools, hose and reel, sleigh and robes, and four seated family phaeton.

Catalogues are being prepared and can be had one week previous to sale. Goods on view morning of sale. Purchases under $100 cash, over that amount three months credit upon good security. Special arrangement can be made by purchaser of piano.
m18d&wtd P. SPRAGGE, Auctioneer.

Auction Sale of Valuable Property.

W. S. G. KNOWLES has been instructed to sell by Public Auction, on the grounds on Saturday, 29th May, at one o'clock, that valuable property known as part of the Mickle Estate, on Crimea street, near the Western Station, in the City of Guelph, comprising about five acres of land, two of which are laid out in grounds, and on which is erected a large and substantial stone residence, containing fifteen rooms, heated by hot air furnace; hard and soft water, with good drainage. Also excellent stable, carriage house, driving sheds, stone fowl house, and other buildings. The above property comprises about 17 lots. On two of the lots houses are erected and constantly rented, which will be sold separately if required.

Also at the same time a desirable residence on the corner of Clinton and Gladwin streets, in a beautiful locality. This house is nearly new, two storeys, well built, and contains nine commodious rooms, good water and perfect drainage. Terms easy and made known on day of sale. Apply to J. A. Lamprey, Real Estate Agent; or R. F. Maddock, Lumber and Coal Merchant, Paisley Street. dw

TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, endorsed "Tenders for Work," will be received at this department until noon on

Thursday, June 3rd,

For the erection of Farm Buildings at the Agricultural College, Guelph.

Plans and specifications can be seen at the College, Guelph, on and after Monday the 24th instant, where forms of tender can be procured.

The lowest or any tender not necessarily accepted.

Each Tender must be accompanied by an accepted bank cheque for Three Thousand Dollars, which will be forfeited if the party tendering declines or fails to enter into a contract based upon such tender when called upon to do so.

Where the party's tender is not accepted, the cheque will be returned.

C. F. FRASER, Commissioner.
Department of Public Works
Toronto, May 20th, 1886. m21 22,25,26,28

Notice of Dissolution.

NOTICE is hereby given, that the partnership heretofore subsisting between the undersigned carrying on a retail Dry Goods Business at the City of Guelph, under the firm name of A. J. Little & Co., has been this day dissolved by mutual consent. The business in future will be carried on by the undersigned, A. J. Little, who will settle all accounts against the firm, and to whom all debts due the said partnership must be paid.
Witness—Hugh McMillan.

Thursday and Saturday, May 27th and 29th.

Admission—Gents 10 cts; Ladies Free, Skates 10 cents.
JAS. HEWER, Sec. Rink Co. JAS. HOUGH, Jr., Sec. City Band

The Duke of Argyle says: "I have been looking back lately into old documents connected with the 11th, 12th and 13th centuries in Scotland, and I am amazed to find that even down so far into the low country as the county of Fife, the great mass of the population were Celtic, and spoke Gaelic up to a very recent date."

A WRITER in "Blackwood's" says:—"I once dined off young monkey, which is something like rabbit, but immeasurably superior to it. It requires a little practice to recognize at once the difference between dog, cat and rat, if they are all prepared with equal care and delicacy."

A Little Warmer.

Variable winds, fair, and little warmer weather.

Local News.

DR. HENRY, of Orangeville, was yesterday elected to the vacancy in the Ontario Medical Council for the Brock district.

The air is full of bluebirds,
The trees are full of buds,
The bucket's full of whitewash,
The house is full of suds.

SOCIAL.—The ladies of Norfolk street Methodist Church will hold an after tea social at the residence of James Hough, Esq., to-morrow (Thursday) evening at 8 o'clock. Good programme. Silver collection. d1

A NEW DRINK.—The newest drink is "milk shake." You get it at soda fountains. The mixer of cooling beverages pours out a glass of sweet milk, puts in a big spoonful of crushed ice, puts in a mixture of unknown ingredients, draws a bit of any desired syrup, shakes the milk in a tin can like a barkeeper mixes lemonade, sprinkles a little nutmeg on the foaming milk until it looks something like a Tom and Jerry, sets it out for you, and you pay 5 cents.

MORE COMETS.—Mr. Brooks, of Phelps, N. Y., reports the discovery of a new comet, large but faint, in right ascension 11 deg. 51 min. 15 secs., declination north 8 deg. 55 min. 15 secs. Dr. Lewis Swift says—"This is not an expected comet, unless it is the Olbers comet of 1815, which is expected about this time. There are six comets now visible, including Ericke's periodic comet, which I discovered last evening."

NEW POST-OFFICES.—On the 1st of May, 1886, new post-offices were opened at Bealton, North Norfolk; Beechmont, North Hastings; Crewe, West Huron; Frogmore, South Norfolk; Oakleaf, South Leeds; Polmont, East Northumberland; Proton Station, East Grey; Silver Mountain, Algoma; and Zanesville, Addington County. The name of the office hitherto known as Sullivan, in North Grey, has been changed to Williamsford, and the name of the office at Williamsford station has been changed to Holland Landing.

HOUSE-BREAKING.—On Queen's Birthday, in the afternoon, the boarding house of Mrs. Harris, on the east side of the river, was entered while the occupants were absent at the Exhibition grounds. The suspected party is one of the young men—an American—who, it is said, boarded there. Among the articles missed are two silver watches, a galvanic battery, and a black valise. The man was seen to enter the house by one of the windows, but as he was known to be one of the boarders nothing was thought of it. Shortly after he was seen to make his exit with a satchel, and when he reached the sidewalk, waved his hand as if bidding adieu to the place. Since then he has not been seen. The police have the matter in hand.

BRANDY FROM SAWDUST.—We are sorry to learn says a London paper that a German chemist has succeeded in making a first rate brandy out of sawdust. We are a friend of the temperance movement, and we want it to succeed; but what chance will it have when a man can take a rip saw and go out and get drunk with a fence rail? What is the use of a prohibitory liquor law if a man is able to make brandy smashes out of the shingles on his roof, or if he can get delirium tremens by drinking the legs of his kitchen chairs? You may shut an inebriate out of a ginshop, and keep him away from taverns, but if he can become uproarious on boiled sawdust and dessicated window-sills, any effort at reform must necessarily be a failure.

TRANQUILITY, OH! TRANQUILITY.—A despatch from Brantford, dated the 26th, says:—Last night a farmer, living near Tranquility, named James Gillean, jr., came to the city and became intoxicated. In driving home, when crossing the Grand Trunk Railway at the St. George Road, on the western side of the city, his horses got into the cattle guard. About eleven o'clock a freight train came along, cutting the two horses to pieces and smashing the front part of the wagon. The engine went off the track, fell over and now lies upside down, badly wrecked, with the tender on top. A freight car rolled down on the opposite side of the bank and another car getting off the track stopped the train. The engine driver and firemen escaped by jumping. Search for the farmer was instituted, and he was found a short distance away lying alongside the fence asleep with a bottle of liquor in his pocket quite unconscious of what had happened.

DEATH OF AN OLD RESIDENT.—The early pioneers who worked so hard and did so much to clear up this wooden country are fast passing away. Another name has now to be added to the list of those gone before—that of Mr. Edmund McEllistrum, lot 7, 2nd concession, Eramosa, who died on the 21st inst., at the ripe age of 81. He came here in the year 1834, from Kerry County, Ireland, and immediately settled in Eramosa, where he lived up to the time of his death. After working hard on the farm for 37 years, 15 years ago he sold the farm to his son Richard, with whom he resided ever since. He was twice married and his second wife survives. By these marriages he had begotten to him eighteen children, nine of whom are living, four sons and five daughters, namely the oldest son Thomas, in Arthur; Denis, in Luther; Richard, on the old homestead, Edmund, in Pilkington; and Mrs. Kelly in Luther; Mrs. Malone, in Guelph; Mrs. Parker, London, and Mrs. Maher, St. Thomas. Besides these he leaves behind him 60 grandchildren and 12 great grandchildren. The funeral took place on Sunday to the Church of Our Lady and thence to the Roman Catholic burying ground. It was the largest attended funeral that ever came in the York Road, as the deceased was widely known and universally respected. He was a life long Reformer and took a deep and active interest in all political questions. In his death Eramosa loses a valued resident and a straightforward and conscientious member of society.

Cotterman and McFarland write as follows:—

WAPAKONETA, O., June, 1877.

GENTS.—Having been in the livery business for the past ten years, and having many cases of Colic in horses under our treatment, and having tried many remedies and liniments to cure it, we found that the best, cheapest, and quickest remedy for Colic in horses is Perry Davis' Pain Killer, and we honestly affirm that we never failed to cure the worst cases of colic we ever saw, and we cheerfully recommend it to everybody, as the best medicine to cure Colic in horses.

MR JOSEPH HEFFERNAN, Quebec street west, has been appointed agent for the C. P. R. for Guelph and vicinity.

IT is understood that the case of selling liquor on the Exhibition grounds by the parties from Toronto, on the 24th of May, will be ventilated at the Police Court shortly.

NOT TO BLAME.—There is a rumour afloat that it was the duty of the Chief of Police to seize the liquor on its arrival, which was shipped here from Toronto on the Queen's Birthday and given away on the Exhibition grounds. The Chief before taking any steps asked advice on the matter, and found that seizure would be illegal and consequently took no steps to do so.

THE CROPS.—As a general rule throughout the country the fall wheat will be a failure. In some districts not over one third or half a crop will be realized. Many farmers have replonghed their fields. The spring wheat looks well so far and gives prospects of being a good crop. Hay and clover never looked better which could only be expected from the recent rains.

FOR THE OLD COUNTRY.—Mr Geo. A. Oxnard has sold tickets for the following parties who will leave Guelph to-morrow to sail by the Allan steamer Parisian for Great Britain:—Messrs Wm. Bell, Miss Davidson, Miss Thurtell, Misses Ada and Ellen Tatham, Mr Geo. Kelsey, Mr Henlock Young and Miss Young.

POLICE COURT.—John Long was before the Magistrate this morning on a charge of being drunk. On being sworn he denied the charge. He remarked that he had a number of witnesses to prove that such was not the case. On being asked if he got liquor at Holliday's brewery he said that he was given three glasses of beer, but did not buy any. The Magistrate dismissed the case, but at the same time gave credence to the evidence of Sergt. Dooley.

The Lager Beer Excursionists

To the Editor of the Mercury.

SIR,—If the Oddfellows of Guelph wish to be considered law abiding citizens they must, without delay, whatever their views may be of the Scott Act, publicly disclaim all sympathy with the law-breakers who visited our city on Monday last. The Toronto Society should not yet be held responsible for the disgraceful conduct of their party. When the facts come out it will doubtless be found that parties in our own city, or their agents in Toronto, had everything to do with the disgraceful plans that were laid. If this be the fact, it will be an easy matter for the Toronto Society to say so in the public prints; and if they do not, they must be held responsible. In the mean time it will not be difficult to find out how the drink was brought to Guelph, who shipped it, and paid the bills and whose teams conveyed it to the park. When these facts are known it will be an easy matter to locate the whole business. It is now in order to remind the Council of our city that it has not only allowed its own Park by-law to be trampled in the dust, but it has also allowed the vilest of hands to be laid upon the children of our schools and households. This thing has been done in the past and will be attempted again. There are men in the midst of us who are bound to be law-breakers and to act as though they lived in a community where they will be a law unto themselves. If our Council will not protect a law-abiding people from such men they will have to answer for it to the people, who have already declared by their votes that they will protect their children and homes.

LAW AND ORDER.

Guelph, May 25.

[The Oddfellows of Guelph and those who held the excursion from Toronto have no connection whatever. They belong to two distinct orders. The Guelph Oddfellows belong to the Independent Order; the excursionists to what is known as the Manchester Unity. The one does not recognize the other. It would therefore be just as reasonable to throw a stigma on the Masons or any other society as upon the Oddfellows of Guelph, in this matter.—ED.]

The Hamilton and Northwestern.

HAMILTON, May 25.—The annual meeting of the Hamilton and Northwestern Railway Company, adjourned from May 4, was held to-day. The annual report showed that the gross earnings of the Northern and Northwestern amounted to $1,305,117.67 and the working expenses to $785,941.92, the net earnings being $519,175.75, of which $139,859.54 belonged to the Hamilton and Northwestern. The following were elected Directors for the ensuing year: Messrs. John Stuart, John Proctor, Wm. Hendrie, B. E. Charlton, Hon. Jas. Turner, M. Legatt, James W. Barclay, M. P., Ald. Sir Thomas Dakin and Charles Bischoff. John Stuart was re-elected President; John Proctor, Vice-President; John Stuart, Wm. Hendrie and Hon. James Turner, Executive Committee in Canada, and J. W. Barclay, M. P., Ald. Sir Thomas Dakin and Charles Bischoff, Members of Committee in London.

The Injured Excursionists.

Bro. W. C. Patterson of the Metropolitan Lodge of Oddfellows (M. U.), one of the managers of the luckless Guelph excursion, Tuesday visited several of those injured at Brampton and reported the following additions to the information given on Tuesday: Miss Strouger recovered her lost articles; Mrs. Webb, badly bruised; Mrs. Corless, spine badly injured; the names Alma and Nellie Powers should be substituted for Corley, as reported; Mrs. Corley recovered her watch and chain; Miss Tunny had her thumb, ankle and shoulder sprained and her clothes destroyed; Mrs. Beer, foot and ankle badly injured; Mr. Clark, nose not broken as reported; Mr. Davis' boy not hurt as reported; Mrs. W. C. Patterson, knee badly bruised; Wm. Skimmerton, foot bruised, ankle sprained, lips and side of face badly cut and bruised, injured internally.

Both the Greek and Turkish armies are surrendering their prisoners and the positions they recently captured, and both armies are retiring from the frontier.

The French Government has decided to authorize a loan of 600,000,000 francs for the Panama Canal, provided it can be proved that this sum will complete the work.

Mgr. Renier, a prelate in the Pope's household, on Tuesday abjured the Catholic faith and entered the Anglican Episcopal church.

JOHN LILLIE was fishing the other day and caught 84 trout.

JOHN OGG shipped yesterday two car loads of his Prince Edward Island potatoes to Elmira.

SEVENTY Swedish and English immigrants went through Guelph this morning on their way to Milwaukee and Chicago.

MR. JAMES MORRISON with his usual liberality treated the MERCURY employees to a pail of the first skim milk from the Ontario Creamery.

THERE was quite a heavy frost this morning in some of the surrounding districts although it was hardly perceptible in Guelph. It will do little damage.

THE Road and Bridge Committee will inspect Wells' bridge this afternoon. The bridge is in a dangerous condition and the probabilities are that it will be closed for traffic.

A HOTEL keeper stated to-day that he had heard that another pic-nic was to be held in Guelph soon, similar to the one held by the Manchester Union, Toronto. It will be from Berlin, and free "refreshments" will be provided.]

MR. THOS. SIMPSON has purchased the following cattle from farmers around Guelph:—John Arkell 3 head, Short 2 head, James Davidson 4 head, Charles Head 2 head, Andrew Cline 7 head, all at 5 cents, 3 head from Lewis Stiffler at 5¼ cents and 4 from Belford for $155. The animals are all choice.

NEARLY AN ACCIDENT.—Mrs. Carters huckster had a narrow escape from being thrown from her waggon at noon to-day. On crossing the Huskisson street railway crossing the horse which she was driving stumbled and fell, throwing Mrs. Carter forward and nearly over the dash board. She righted herself in a moment and pulled the animal to its feet.

Harriston Correspondence.

FOR THE OLD COUNTRY.—Rev. W. Beaven, who has for some years ministered to the congregation of St. George's church here, left yesterday morning for England, where he intends making his home for the future. A large number of his congregation and others gathered at the station to bid him and Mrs Beaven farewell.

THE FALL WHEAT.—Early in the spring farmers were delighted with the appearance of their fall wheat, as it then gave promise of an abundant crop. During the past two or three weeks prospects have changed, and now many say that it will not yield more than one half the crop that was anticipated.

AROUND AGAIN.—Mr. J. F. Wilson has so far recovered from the effects of a broken leg, received in January last, as to be able to appear on the streets again. Mr W. expects to be, in a few weeks, as well as before the accident occured.

DECORATION DAY.—Yesterday the members of the I. O. O. F. lodge here, together with a few visiting brethren, headed by the band, marched to the cemetery where the ceremony of decorating the graves of some of their deceased brethren was gone through.

NOT GOING.—We understand that Mr S. Groff has given up the intention of removing to California, and has decided to remain here. We hope such is the case as Mr Groff has been, and is a useful citizen.

Harriston, May 25, 1886.

Sporting Notes.

BASE BALL.

International games—Rochester 8, Buffalo 5; Syracuse 11, Binghampton 6.

George W. Bradley has been put on the staff of American Association umpires.

Goldsmith is tending bar at the club house adjacent to the Detroit ball grounds.

In Zell, Stephens and Sheibeck the Leafs are better off for pitchers than ever before.

Charley Bennett, of the Detroits, has pitched fifteen straight games and is eager to keep at it.

Ben Stephens accomplished the feat of knocking the ball over centre field fence twice in practice the other day.

Hibbeard, pitcher of the Ann Arbors, is a twirler of some note. He pitched a game for the Chicagos against Detroit last season, the Detroits only making two scratch hits off him.

Manager Buckenberger is arranging dates for a two weeks' trip through Michigan and Ohio States for the Leafs. They play London June 1st, and Windsor on the 2nd, then on to Detroit with the Cass Club.

George Washington Bradley, says the *Sporting Life*, may go to the Maple Leafs, of Guelph, Ont. That club stood by him during his troubles last summer and treated him nicely, and it would be but paying a debt of gratitude to go there. Meantime he has a number of offers from other clubs." George is a good man, but it is almost impossible to make room for him just now.

In Toronto yesterday the Torontos defeated the Detroits by one run. There were about a thousand spectators present. The Wolverines evidently under-estimated the strength of their opponents, for they—as the event proved, very unwisely—not only left two of the big four off their team, but put a young and apparently inexperienced pitcher in the box. Capt. Hanlon will probably put Charlie Bennett behind the bat when he plays the Toronto club again. Home-run Thompson also was holding down first base.

	R.	T B.	E
Torontos	8	11	4
Detroits	7	21	11

The Buffalo *Courier* objects to the Bison city nine being defeated by every little country team, and thus comments upon the Buffalo-Guelph game: "When the Buffalo baseball nine permits itself to be taken into camp by a little one-horse Canadian club in Guelph, the time appears to have come for asking what is the matter with the team? Can it be that its members are training for some nice quiet profession such as hearse-driving or night-watching?" The little one-horse club proved too much for the Buffalos at all events. They chose their own umpire, and when his decision was kicked against in one instance the Leafs gave in, thereby losing a run. The Buffalos were fairly and squarely beaten and they can't get over it.

At a meeting of the Orange Lodge in Armagh 12755 volunteers were listed.

Count Herbert Bismarck is to visit England to recuperate.

The French Cabinet has resolved to expel the Orleans Princes from France.

Elora Correspondence.

KICKED.—On Wednesday last, Mr. Thos. Biggar, jr., was kicked by one of the horses of his team, but, with due care and rest, is himself again. Yesterday, Mr. George Gardiner, employed in the stables of the Dalby hotel, received a rather sharp kick from one of the horses under his care, but it is hoped that he will soon be around again.

HIGH SCHOOL INSPECTION.—Mr. Hodgson, one of the High School Inspectors, visited the Elora school on Wednesday last, and made a thorough examination of the apparatus, appliances and surroundings, with which he seemed fairly well satisfied. He did not examine the pupils, the ordinary examination papers being regarded as the proper test of the efficiency of pupils, and, combined with their certificates, of the teaching capabilities of the masters.

TEACHERS' CONVENTION.—On Thursday and Friday of last week, a convention of the teachers of the southern division of Wellington met in the public school here, and had a very satisfactory and highly useful meeting. On the morning of the first day an interesting address was delivered by the Rev. Hugh Rose, and in the evening a public meeting was held in the drill shed, at which stirring addresses were delivered by Messrs. McAllister and Tilley, from the Education Department. Mr. Craig, the Public School Inspector, was present during the proceedings of the Convention. Several papers of a practical character were read, and "How to Teach" was fairly illustrated by different members of the Institute.

JUBILEE.—On Friday evening there was an extra master of the members of the Salvation Army, who paraded the streets with appropriate music, flags and mottoes. The attendance was not so large as expected, but the proceedings were of the usual enthusiastic character.

QUEEN'S BIRTHDAY.—The anniversary of Her Majesty's natal day was probably the dullest of the long series which Elora has witnessed. The streets were deserted, and exhibited far less life than on any Sunday of the year. The lacrosse club went to Rockwood to engage in a friendly contest with the athletes of that community. Three straights in less than thirty minutes gave a hollow victory to the Elorians. Numerous parties went to Guelph to witness the sport there, and were delighted with what they saw and heard. Others travelled to Fergus, while a few others sought trout and black bass in the various streams of this locality. A few amateur photographers came up from Hamilton to secure facsimilies of the beauties of our river scenery.

EARLY CLOSING.—This evening places of business in Elora will close at seven o'clock, and this custom will be kept up during the summer months. It is hoped that villagers will complete their trading before seven, and that our farming friends will make a note of the change of time. Fenwick will ring the bell at the closing hour.

IMPROVEMENTS.—The large committee appointed for the purpose of superintending necessary improvements in the river and at pic-nic grove adjoining the drill shed, met on Friday evening last and decided upon the expenditure of money and labor so freely contributed by the citizens. A dancing platform will be erected in the grove. The springy soil will be drained, one of the springs will be fitted up with an iron pipe and reservoir, a neat wire fence will be put around the ground, a broad walk will be opened along the river bank, a landing place for boats will be built, and the grounds will be cleaned up and made fit and useful for pic-nic purposes. A rough, but substantial foot bridge from the cave to the right side of the Grand river has been made, and easy access thus given from the pic-nic grounds to the rocks. The foot bridge crossing the Irvine will be restored to its old position and another stair will probably be erected in the neighborhood of Grey's lime kiln. The committee are determined to make Elora more attractive to visitors than ever, and it is expected that several large picnics, which would otherwise not have come to Elora this year, will be secured.

CRICKET.—The Ontario Cricket Association has divided the Province into districts, one of which will consist of the counties of Wellington, Waterloo and Dufferin, and be termed the sixth district. A meeting will be held in Guelph on the 28th inst. for the purpose of organization, when it is expected that the clubs of Guelph, Berlin, Galt, Orangeville, Harriston, Mount Forest and Elora, will be represented. A league will then be formed similar to the baseball organization, and matches will be played within the district by these clubs during the summer.

LEAVING ELORA.—Mr. Wm. Turner, who has been a resident of this locality for nearly a score of years, has determined to leave Elora, and has purchased a handsome residence in the city of Hamilton. Mr. Turner is a valued citizen, and his determination to seek a new home is deeply regretted by our people. He has been an active member of the Catholic Church, and the Separate School representative at the High School Board. His furniture will be sold by auction on June 1st.

CANOEISTS.—Six canoes were brought up from Brantford on Saturday night to Elora, and were launched by the crews below the little falls, on Sunday morning. The hardy voyageurs hoped to make Brantford by Monday evening, and, being blessed by good weather, doubtless had a good time.

AN EXPECTED TREAT.—The Committee of the Mechanics' Institute are endeavoring to effect arrangements by which Capt. Clarke, of Guelph, will at an early day bring to Elora a fair representation of his well drilled classes. We feel sure that if he consents our drill shed will be filled with a large crowd anxious to witness the clever movements and to listen to pleasant choruses, for rendering which Capt. Clarke's pupils are widely famed.

CONCERT.—The concert last evening, under the auspices of the Elora Mechanics' Institute and Philharmonic Society, was not so largely attended as it ought to have been. The various duets, trios and choruses were well rendered and elicited loud applause, but the greatest attraction of the evening was undoubtedly found in the violin performances of Miss Laura McLaren, of Guelph, who was rapturously applauded, and heartily encored by the appreciative audience. This young lady is only fifteen years of age, but already plays with a precision, taste and skill which might well be envied by many of greater pretension and larger experience. If she ever re-visits Elora, she will certainly draw a larger house than that which greeted her last evening.

Elora, 25th May, 1886.

The Evening Mercury

WEDNESDAY EVE'G MAY 26, 1886.

More Railway Subsidies.

Following out the Government policy of indirect bribery to Quebec and the Maritime provinces, there is evey indication that this session another shoal of subsidies to railways in these provinces will be brought down. Among others it is proposed to obtain the consent of Parliament to build a railway from the Straits of Canso to Louisburg or Sydney, in Cape Breton. It is proposed to do this in order to complete what is called the short line system, which is to connect with the C. P. R., starting from Montreal and running through the State of Maine in as direct a line as possible to the chief ports in New Brunswick and Nova Scotia, and thence on to Cape Breton. The terms of the first subsidy to the Baie des Chaleurs Railway are changed, and are now to be as follows:—That the subsidy of $300,000 shall apply to the first section of 20 miles eastward from Metapediac. That the subsidy of $3,200 per mile authorized for the first section shall, with the $3,200 which alone would have been applicable to the second 20 miles eastward from Metapediac be also applicable to it, making $6,400 per mile applicable to the said section; and that to the remaining 60 miles of the said 100 miles the subsidy of $3,200 per mile shall apply. A disgraceful job and a gross evasion of the independence of Parliament Act has been disclosed by papers lately brought down to Parliament. showing the relations between the, Government and this company: The company referred to is composed of Senator Robitaille, his brother Mr. L. A. Robitaille, Mr. Riopel, M. P., and Mr. McGreevy, M. P., all being supporters of the Government. The Mr. Riopel mentioned is a director in Mr. Beaty's Northwest Central Railway. Evidently "The Boy" selected his associates with care. On the 7th November last Messrs. Robitaille, McGreevy and Riopel, under the name of the Baie des Chaleurs Railway company, made a contract with the Government to build twenty miles of railway, from Metapedia to Paspebiac, for $300,000, or $15,000 per mile. This contract, which is signed by the Hon. J. H. Pope on behalf of the Government, and Senator Robitaille and his brother on behalf of the company, the signatures being witnessed by Mr. Riopel, M. P., sets forth that "Her Majesty agrees to grant, and does hereby grant, to the Baie des Chaleurs Railway Company the sum of $300,000 for twenty miles of railway to be constructed, payable out of the consolidated revenue fund of Canada." Now it is known that the Robitaille-Riopel Company have been trying to play Beaty with this contract. Having a large subsidy of $15,000 per mile from the Dominion Government, and about $6,000 per mile from the Quebec Government, they have been trying to sell out to advantage. They offered their contract and subsidies to one contractor for $25,000 cash; to another they offered to sell out for $600 per mile on all subsidies received from the Government, a condition of this arrangement being that the contractor should use his influence on behalf of the Tory candidate (Mr. Riopel himself) at the next election. All this can be easily proved. The fact is the Government entered into a contract with these men, and in order that they would have something to sell, the Government spent about $5,000 on the Paspebiac Railway last year, and the Robitailles get the benefit of that expenditure.

The Premier of Manitoba, following the example of his astute master at Ottawa, has kept back the bill for the re-distributing of seats in the Manitoba Legislature until the last moment, and just before its adjournment and dissolution. At present there are thirty seats, no member now sitting for the constituency of Varennes, which has been blotted out by the decision in the Boundary Award. The bill provides that there shall be one constituency less in the east, a French seat being wiped out, and that eight new seats be created in the west, northwest and southwest. The constituencies will be as follows:—Winnipeg, two seats; Russell, North and South Shoal Lake, East and West Dennis, Souris, Turtle Mountain, East and West Brandon, East and West Minnedosa, Beautiful Plains, Westbourne, North Norfolk South Norfolk, North and South Mountain, North and South Dufferin, Emerson, Morris, Carillon, Springfield, Kildonan, St. Boniface, East and West Portage la Prairie, High Bluff, St. Clements, St. Andrews, Rockwood, Assiniboia, Cartier, Woodlands and St. Francois Xavier. The boundaries of these are not yet fixed, but it is feared that the little Premier in Manitoba will copy the big Premier's evil example in Ontario and gerrymander the ridings to his party's advantage.

Horsford's Acid Phosphate.

Marked Benefit in Indigestion.

Dr A. L. Hall, Fair Haven, N. Y., says: "I have prescribed it with marked benefit in indigestion and urinary troubles."

The latest remedy for coughs, colds, croup whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound so do not say you have taken everything until you have tried this for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Sold in 50c and $1.00 bottles by T. S. Petrie, Druggist.

Dominion Parliament.

Ottawa, May 25.

In the Commons to-day Mr McLelan's Bill respecting the improvement of the Harbour of Quebec, and Sir H. Langevin's Bill respecting tolls over the Dunville dam and bridge, etc., were read a third time.

Mr Thompson moved the third reading of the Bill respecting the Northwest Territories.

Mr Weldon moved an amendment providing that a judge should not be a member of the Northwest Council, which was lost and the Bill was read a third time.

The order for the second reading of the Bill extending the boundaries of the Keewatis was discharged.

The House in Committee passen resolutions authorizing the construction of a Government railway in Cape Breton, and resolutions respecting a subsidy to the Baie Des Chaleurs Railway Company.

The House went into Committee on the Franchise Bill, when Mr McCarthy's amendments were adopted with some modifications, the most important being that they should not come into force this year.

The House adjourned at 2:10 a. m.

IRISH HOME RULE.

Supposed Arrangements for the Dissolution of Parliament.

London, May 24.—Members of the Government state that election writs are being prepared in anticipation of the dissolution of Parliament after the necessary vote shall have been taken on the Home Rule Bill.

The Gladstone Committee is making a final effort to conciliate the Radical dissenters. The Radical workingmen's club of London are organizing a demonstration in favor of the Home Rule Bill.

Mr Labouchere writes to the *Daily News* that there is not a single Whig, Liberal, or Radical who has announced his intention to vote against Mr Gladstone's Bill whose action has been endorsed by a portion of his constituents. Not one even pretends to be acting in harmony with his electors.

A demonstration of Radical workingmen was held in east London to-day. Speeches were delivered from four platforms. Resolutions were adopted favoring the Home Rule Bill, expressing confidence in Mr Gladstone and favoring dissolution of Parliament if the Home Rule Bill be defeated.

A conference of the Liberal Union was held here to-day and was largely attended. Lord Hartington was present and loudly cheered. Among the other distinguished gentlemen present were the Duke of Argyle, Duke of Westminster, Baron Rothschild Lord Northbrook, Mr Goschen and Mr Rylands.

Lord Hartington was the principal speaker.

Mr Goschen followed by proposing a resolution adopting a constitution for the Liberal Union as a regularly organized political association. This was seconded by Mr Rylands.

The Duke of Argyle moved the election of an executive committee limited to 25 members, and in speaking in support of his motion made a most vigorous attack upon Mr Gladstone's Irish policy.

Both motions were adopted.

The Most Rev. B. Woodlock, D.D., Roman Catholic Bishop of Ardagh and Clonmorris, and the Deanery of his Diocese have forwarded to Mr Gladstone a set of resolutions adopted by them approving the Premier's Home Rule and Land Purchase Bills as measures which, if adopted, will greatly strengthen the British Empire, diminish political and sectarian rancor, and promote the prosperity of Ireland.

Lord Salisbury, replying to resolutions of confidence presented to him by a deputation of workmen from Hitchin, Hertfordshire, said he was glad to find the workingmen discussing the Government's Irish policy. The Irish question especially concerned British workmen, as it affected the greatness and strength of the Empire.

Joseph Chamberlain denies that he stated that he would glory in the downfall of Mr Gladstone He says the story is an elaborate falsehood and that he still retains the most profound respect for the Premier.

London, May 25.—Mr. Gladstone went to Windsor to-day in obedience to a summons from the Queen, and conveyed to her the opinion of himself and colleagues with reference to the Home Rule Bill and the proposed dissolution of Parliament. The Queen intimated that she was willing to meet the wishes of the Ministers.

The general opinion is that at to-day's meeting the Cabinet resolved on a dissolution of Parliament and an appeal to the country if the Government be defeated on the second reading of the Home Rule Bill. It is thought that Mr. Gladstone's visit to Windsor Castle this afternoon was made for the purpose of securing the Queen's consent to dissolution before the departure of the Court to-morrow night for Balmoral Castle.

The upshot of to-day's meeting of the Cabinet is virtually a move in the direction of a concession to the disaffected Liberals. Several of the Ministers urged that clause 24 of the Home Rule Bill be eliminated. After a long discussion it was decided to leave the matter in Mr. Gladstone's hands to deal with as he might think fit. His mind was apparently quickly made up, for early in the evening the Government whips were instructed to summon the rank and file of the Liberal party to a general meeting on Thursday, when modifications of the Home Rule Bill will be announced in order to preserve the Government from defeat on the second reading.

The Government does not promise to reconstruct the Home Rule Bill but proposes to withdraw it after the second reading and to bring it up for the Committee stages later, when the objections will be dealt with.

Mr. Gladstone has issued a circular calling upon all the Liberal members to meet at the Foreign office.

Some members of the Inniskillen Fusileers stationed at Aldershot attended a Conservative meeting to-day at which some of the orators savagely denounced Home Rule, and described the Irish people as being unfit for self-government. The Fusileers became enraged at the speakers, and attacked them and their supporters. The police were called in to protect the speakers and a fight ensued between them and the Irish soldiers. Comrades of the Fusileers went to their assistance and the police were badly whipped and driven away. They secured reinforcements, however, and returning suppressed the rioting and arrested five soldiers.

A City Solicitor Stabbed.

Ottawa, May 25.—About 3 o'clock this afternoon a man named Joyce, a carriage-maker, called at the office of Scott, MacTavish & McCracken to see Mr D. V. MacTavish, the City Solicitor, who has a legal case on hand for Joyce's mother. Joyce expressed himself as dissatisfied with the manner in which the case was progressing and at length drew a clasp knife and stabbed MacTavish in the neck, the blade being almost buried in the fleshy portion under the collar bone and just over the left nipple. Joyce then made his escape. The wound received by MacTavish is not considered necessarily fatal. Joyce has been arrested.

The assessor finds there are 2,116 people in Brandon, Man., this spring, against 2,087 last year, a gain of 29.

PERRY DAVIS'

PAIN-KILLER

IS RECOMMENDED BY

Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.

TAKEN INTERNALLY MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A NEVER FAILING CURE FOR SUDDEN COLDS, CHILLS, CONGESTION OR STOPPAGE OF CIRCULATION, CRAMPS, PAINS IN THE STOMACH, SUMMER AND BOWEL COMPLAINTS, SORE THROAT, &c.

CHAPTER XXXIII.

AFTER ALL.

"You look quite wild," continued Alice with a little laugh.

Percival closed the door and came forward. He did look as if something had happened. His face was pale and grave, and yet there was a light in his eyes which gave the lie to the gravity of his face.

"Do I look so very extraordinary?" he asked in reply to Alice's words.

"You do. Without in the least exaggerating, you look extraordinary; as if some great misfortune and great happiness had befallen you at the same time."

"Considering you have no idea what has happened, you guess wonderfully correctly. A woman's instinct, I suppose?"

"You do not care even to shake hands," she said with rather a constrained smile.

"I beg a thousand pardons," taking her hand in his as he spoke.

"Will you have anything to eat?"

"No, thank you; I do not wish for anything."

They were silent for a moment after this. Alice had seated herself again in her low chair. Percival stood before the fire and looked down upon her with very mingled feelings.

"How is it you are alone?" he asked. "Where is Maitland?"

She told him how he had been obliged to leave, and was rather surprised that he said so little in reply. Then they were silent again, until she asked, looking up at him as she spoke—

"What was Mr. Longworthy's business?"

She was trifling with her fan at the time, opening and shutting it slowly, and examining the design with which it was ornamented. It was a very beautiful and valuable fan, which Percival had given her before they were married. Perhaps they both remembered it as they faced one another now.

"He had a story to tell me."

"Really, was that all? I suppose he wanted to move your heart to charity."

"No, it was nothing of that kind. He wanted to tell me a story, a strange, almost incredible thing. If you will allow me I will repeat it to you; you will find it as interesting as a novel, and it will have the additional advantage of being true."

"The majority of novels are not interesting," replied Alice. "Then it was not a secret. Is it a story of a man or a woman?"

"The principal person, around whom ll the interest centres, is a woman."

"Is she young and beautiful? Have you seen her?"

"I have seen her and she is young and beautiful."

"Then I suppose she lives at, what is it? Miller's Gate?"

"She has been living with the Longworthy's for a year. She was thrown upon their hands a year ago owing to a railway accident in which she was dangerously hurt."

"It was very kind of them to keep her so long. Had she no friends?"

"If she had, they could not communicate with them, for one of the results of her illness was that for some months she completely lost her memory and could tell them nothing about herself. They have neither her name nor circumstances, nor where she came from."

"How unfortunate! Are they still in ignorance? It must be very awkward to live for a year in the same house with someone whose very name you don't know. I hope she has not turned out in any way queer?"

Despite the gravity and awkwardness of his position, Percival could not repress a smile as he replied,

"No, she has not turned out in any way queer. Mr. Longworthy and his wife have grown very fond of her, and will be exceedingly sorry to lose her."

"Why should they lose her? If she has no friends——"

"But she has. Her friends have been found."

"Was she with them when Mr. Longworthy came here?"

"Yes, of course she must have been; that is only a short time ago."

"I wonder he did not mention her then."

Percival said nothing, and into Alice's mind came a dim recollection of a bunch of white chrysanthemums which had been begged not from her but from her husband. She began to feel curious to hear the end of the story, and said—

"Excuse my making the remark, Percival, but you have a very uncomfortable way of telling a story. I am really interested in this one, and you dole it out in such little bits. Would you mind telling me a little more at a time and getting on rather faster?"

"I beg your pardon. I fear I am tedious; but there is not much more to tell. The young lady in time recovered her memory. One day Mrs. Longworthy came in and found her insensible."

His style was not improving. As he drew near to the final disclosure he became nervous, and expressed himself in short abrupt sentences. Alice noticed both the nervousness and the way in which he spoke, but she said nothing. She was interested. There seemed so little reason for telling her the story in this way, and yet she was listening intently for the declaration of this girl's identity. After her husband's last words she said—

"But I don't quite understand. What do you mean by saying she lost her memory? Did she go out of her mind?"

"Good heavens, no!" cried Percival vehemently. "What could put such an extraordinary idea into your head?"

"I do not see anything so very extraordinary in it," she said, feeling a little offended. "If people lose their memory altogether they cannot be quite right, it stands to reason. In any case, you need not get so excited over it."

"When she recoovered," went on her husband rather hastily, "she told them her whole story and why she fainted. She had seen in the paper an account of the second marriage of her own husband."

Alice looked up, all her blood seemed to flow to her heart. A strange idea was creeping into her brain.

"Then she was married," she said in a low tone.

"She was married."

"And her husband?" and as she spoke, she rose to her feet and stood facing him, pale but composed, and still playing with her fan.

"Her husband married in ignorance, supposing her to be dead."

"Then you have seen him too? How could he suppose she was dead? If he had made any inquiries——"

"He did not make any inquiries. He did not know she was in that train. He supposed she was in another train to which a terrible accident happened on the same day. The train fell into a river and every one was drowned."

"You mean the accident in which Helen was killed?"

He was struck by the expression on her face. Her colour came and went rapidly; there was a strange brilliance in her eyes, and round her lips hovered the ghost, the merest suggestion of a smile. She was no longer twisting her fan—she held it tightly clasped in her hand,

Percival took both her hands in his, so that the fan dropped to the ground and the delicate carved ivory was broken to pieces.

"Alice," he said, "how shall I tell you, but there is no help for it."

"Her name is Helen Moore, is it not?" she asked, still looking at him.

"Yes," he replied, and would have clasped her hands more tightly, but she pulled them from his grasp and asked—

"If Helen is alive I am not your wife."

"No," he said, in a low voice.

She did not speak at once; apparently she could not; her lips moved, but no words came from them: she was very pale, and the expression of her face alarmed Percival, while it puzzled him. Then she staggered, and falling on the couch, hid her face in her hands and sobbed almost hysterically.

"Forgive me," he said, "if I have been too rough."

"Thank God, thank God!" was her only answer, and Percival, who had no clue to her feelings, said—

"Do you understand, Alice? Do you know what it means?"

She raised her head and looked at him. Her eyes were drowned in tears, but her lips were parted in a smile, a strange smile with which to greet such intelligence.

"Why were you so slow?" she said, "You might have told me in one word."

"What do you mean?" he asked, hardly knowing if he saw and heard aright. "One would almost say you were glad."

"Glad!" she repeated, "glad! Is there no stronger word for what I feel than simply glad? One is glad when it is a fine day. Is the man who thought he was in prison for life no more than glad when he suddenly sees the prison gates open and is told that he is *free?* Ah," she went on, rising from her seat and walking with quick, hurried steps to the fireplace, where she stood for a moment facing Percival, "If you had known the meaning to me of what you have just said, you would have said it quickly. You would have come hurrying home as soon as you heard the good news, and you would have come in here radiant, saying—'Rejoice with me, for I have found that which was lost; Helen is alive, and you are no longer my wife. Let us sing for joy. You are free to go whither you will; your life of misery and self reproach is over. You may live again.' Free! free! I cannot believe it."

A Standard Medical Work

For Young & Middle-Aged Men.

ONLY $1 BY MAIL, POSTPAID.

Illustrative Sample Free to al.

KNOW THYSELF.

A GREAT MEDICAL WORK on MANHOOD

Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. A book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is invaluable. So found by the Author, whose experience for 25 years is such as probably never before fell to the lot of any physician. 350 pages bound in beautiful French muslin, embossed covers, full gilt, guaranteed to be a finer work in every sense—mechanical, literary and professional—than any other work sold in this country for $2.50, or the money will be refunded in every instance. Price only $1 by mail, post paid. Illustrative sample free to any body. Send now. Gold medal awarded the author by the National Medical Association, to the President of which the Hon. F. A. Bissell, and associate officers of the Board the reader is respectfully referred.

The Science of Life is worth more to the young and middle aged men of this generation than all the gold mines of California and the silver mines of Nevada combined.—*S. F. Chronicle.*

The Science of Life points out the rocks and quicksands on which the constitution and hope of many a young man have been fatally wrecked.—*Manchester Mirror.*

The Science of Life is of greater value than all the medical works published in this country for the past 50 years.—*Atlanta Constitution.*

The Science of Life is a superb and masterly treatise on nervous and physical debility.—*Detroit Free Press.*

There is no member of society to whom The Science of Life will not be useful, whether youth, parent, guardian, instructor or clergyman.—*Argonaut.*

Address the Peabody Medical Institute, or Dr W. H. Parker, No. 4 Bulfinch Street, Boston Mass., who may be consulted on all diseases requiring skill and experience. Chronic and obstinate diseases that have baffled the skill of all other physicians a specialty. Such treated successfully without an instance of failure. Mention MERCURY Guelph, Ont. m16deodwly

MEET ME AT HEPBURN'S

The citizens of Guelph and vicity are now convinced that

W. M. HEPBURN & Co.

Are working for their benefit. They have certainly started out in the

BOOTS AND SHOE

business, with the right idea in view, namely to give the people their money's worth, and to handle nothing but good and reliable goods. Goods that can be relied upon and which always build up a trade. Goods which will not go Back on the Firm.

In order to convince you that our goods and prices are just what we say they are, and to get you started to deal with us, WE will give away one pair of the best rubbers we can buy with each pair of Ladies shoes sold, and one pair of A No. 1 suspenders with each pair of Gent's Shoes sold.

We don't give away the above mentioned articles in order to sell our boots and shoes, but we can truthfully say that we purchase our goods in such large quantities, "And For Spot Cash," that we are thereby enabled to present each and every customer with a slight token of our estimation of their patronage, and yet retain a much larger profit than the dealers who buy their goods in small quantities and at long time prices.

We have purchased one of those celebrated foot power Button Attaching Machines, and after this will keep the buttons on our customers shoes free of charge.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

Canadian.

The widow of Louis Riel died at St. Vital, Man., on Monday.

A whale eighteen feet long was caught in the St. Lawrence a few miles below Montreal on Monday.

The Kingston Women's Medical College is a great success financially, over $600 being carried over after deducting expenses.

It is estimated that the cost of purchasing the toll roads, about which the Hamilton and Wentworth Councils are negotiating, will be $260,000.

The Northwest medals were presented to the 65th Battalion in Montreal on Monday.

Toronto is to have an improved fire alarm system.

A practical joker has caused considerable excitement near Kingston by putting coal oil in a well being bored on a farm, the owner thinking he had struck a bonanza.

Battleford experienced a severe snow storm on May 9th. At Turtle Lake, fifty miles north, the snow was two feet deep, twenty-five miles west the snow was six inches deep. The Calgary mail did not reach Edmonton until four days after it was due—a circumstance that did not happen during the entire winter.

American.

Ten thousand persons were present at a meeting in Chicago favoring Home Rule for Ireland on Tuesday night.

Half a mile of lumber yards, the Lake Shore & Western Railway roundhouse, water tank, freight house, and several small buildings were burned on Monday at Wauseaw, Michigan, with a loss of $250,000.

Cotton crop reports received from all parts of Texas up to this time are the worst and most alarming for many years. The condition of affairs is so bad that unless rain sets in within a week not a third of a crop will be raised.

A sensation was created at Audenreid, Pa., Tuesday, by the announcement that Rose Hopkins, the highly accomplished daughter of Richard Hopkins, General Superintendent of the Audenreid Coal Company, had eloped with a common Italian railroad laborer. The Italian told Miss Hopkins that he was the son of a Count.

The Presbyterian General Assembly at Minneapolis has decided to hold the 100th general assembly at Philadelphia in 1888, and to make the second Thursday of the session a day of jubilee in the churches all over the world; also to raise a centenary fund of $5,000,000 for the benefit of the various church enterprises.

The Grand Lodge of the Independent Order of Good Templars opened Tuesday at Richmond, Va., its thirty-second annual session. The Dominion was represented by a large number of delegates, and representatives were present from every State and Territory of the Union.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carlton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. S. Petrie's Drug Store.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

OF

Valuable Household Furniture

And other Effects,

at 191, Woolwich Street,

On Friday, May 28th,

AT 10 O'CLOCK.

Mr. John A. Wood

HAS INSTRUCTED MR. P. SPRAGGE TO sell on the above date the following effects:—Very fine toned Grand Piano, carved drawing room set, fancy rocking and other chairs, small fancy tables, leg rest, large handsome mirror (gilt frame), some good engravings, walnut bedroom sets, wardrobes, hat stand, book cases, feather beds, bolsters and pillows, sideboards, extension dining table, dish covers, dinner and tea sets, crockery, glassware, bagatelle board, sewing machine, patent mangle, garden tools, hose and reel, sleigh and robes, and four seated family phaeton.

Catalogues are being prepared and can be had one week previous to sale. Goods on view morning of sale. Purchases under $100 cash, over that amount three months credit upon good security. Special arrangement can be made by purchaser of piano.

m15d&ewtd P. SPRAGGE, Auctioneer.

Auction Sale of Valuable Property.

W. S. G. KNOWLES has been instructed to sell by Public Auction, on the grounds on Saturday, 29th May, at one o'clock, that valuable property known as part of the Mickle Estate, on Crimea street, near the Western Station, in the City of Guelph, comprising about five acres of land, two of which are laid out in grounds, and on which is erected a large and substantial stone residence, containing fifteen rooms, heated by hot air furnace; hard and soft water, with good drainage. Also excellent stable, carriage house, driving sheds, stone fowl house, and other buildings. The above property comprises about 17 lots. On two of the lots houses are erected and constantly rented, which will be sold separately if required.

Also at the same time a desirable residence on the corner of Clinton and Gladwin streets, in a beautiful locality. This house is nearly new, two storeys, well built, and contains nine commodious rooms, good water and perfect drainage. Terms easy and made known on day of sale. Apply to J. A. Lamprey, Real Estate Agent; or R. F. Maddock, Lumber and Coal Merchant, Paisley Street dw

CITY OF GUELPH.

Notice by Revising Officer of Final Revision of Lists of Voters for Each Polling Division.

THE Revising Officer for the electoral district of the South Riding of the County of Wellington, in the Province of Ontario, under the Electoral Franchise Act, hereby gives notice that he will hold a sitting on

Monday, the 28th Day of June, 1886,

at 10 o'clock in the forenoon, at the Court House, at the City of Guelph, in the said Electoral District, for the final revision of the list of voters for polling districts Nos. 1, 2, and 3, in St. Patrick's Ward; 4, 5, 6 and 7 in St. George's Ward; 8, 9 and 10 in St. John's Ward; 11, 12 and 13 in St. David's Ward, and 14 and 15, in St. Andrew's Ward, of the City of Guelph, of the said electoral district.

All objections and claims for additions to or amendment of the said list, with the grounds therefor, and the name, addition and post office address of the person objecting to any name on the list, or claiming to add to or amend the list in any other respect, unless the same have already been sent or delivered at the preliminary revision of the said list, must be delivered to the said revising officer at his Chambers in the Court House, in the City of Guelph, or sent to him by registered letter addressed to him at Elora, before Monday, 14th day of June, 1886, in the same form as nearly as may be, as of notice of complaint, in the schedule to the "Electoral Franchise Act."

If the objection be to the name of any person already on the list, the person so objecting must, at the same time, deliver or mail by registered letter to the person so objected to, at his last known address, a copy of the notice of objection.

Dated this 3rd day of May, 1886.

GEORGE A. DREW,

Revising Officer for the Electoral District of South Wellington. d1

CITY OF GUELPH.

Notice by Revising Officer of Final Revision of Lists of Voters for Each Polling Division.

THE Revising Officer for the Electoral District of the South Riding of the County of Wellington, in the Province of Ontario, under the Electoral Franchise Act, hereby gives notice that he will hold a sitting on

Wednesday, the 30th day of June, 1886,

at 10 o'clock in the forenoon, at the Court House, at the City of Guelph, in the said Electoral District, for the final revision of the list of voters for Polling Districts Nos. 16, in St. Andrew's Ward, and 17, 18 and 19 in St. James' Ward, of the City of Guelph, of the said Electoral District.

All objections and claims for additions to or amendment of the said list, with the grounds therefor, and name, addition and post office address of the person objecting to any name on the list, or claiming to add to or amend the list in any other respect, unless the same have already been sent or delivered at the preliminary revision of the said list, must be delivered to the said Revising Officer, at his Chambers in the Court House, in the City of Guelph, or sent to him by Registered Letter, addressed to him at Elora, before Wednesday, the 16th day of June, 1886, in the same form, as nearly as may be, as of notice of complaint, in the schedule to "The Electoral Franchise Act." If the objections be to the name of any person already on the list, the person so objecting must at the same time, deliver or mail by registered letter to the person so objected to, at his last known address, a copy of the notice of objection.

GEO. A. DREW,

Revising Officer for the Electoral District of South Wellington.

Dated this 3rd day of May, 1886. d1

An Absconder's Arrest.

SAN FRANCISCO, May 26.—H. P. Roy, the defaulting teller of the branch Bank of Montreal in Stratford, has been arrested here. The amount alleged to have been stolen is $6,000. The prisoner has confessed the crime, and says he will return to Canada.

DR. RYERSON will be at the Wellington Hotel, Guelph, on Saturday, May 29th, for consultation in Eye, Ear and Throat cases. d&w

Warmer with Showers.

PROBABILITIES.—Moderate to fresh south west to west winds; mostly fair, warmer weather, with a few showers.

Local News

BRAMPTON has a Ladies' Walking Club.

THE assessment of Georgetown increased $8,210 last year, and the population 43.

BETWEEN 30 and 40 men are engaged in rebuilding the retaining walls in the "cut" at Limehouse.

ATTENTION is directed to the advertisement of the sale of the Mickle property, which takes place on Saturday at one o'clock.

Parties having cherry or plum trees with black knot will be able to destroy it by hanging small vessels of crude oil among the limbs. This will also increase the amount of fruit.

CAPT. GORDON, of this city, and his son-in-law, the Rev. E. B. Cook, of Palmerston, sailed yesterday by the "City of Rome" of the Anchor Line. They purchased their tickets from J. Davidson, Market Square.

Prof. Wiggins, of Ottawa, predicts a storm of unusal magnitude for September next, raging in the British Islands from the 24th to the 27th, and reaching America on the 29th. We generally have pretty severe storms about that time of the year anyhow.

THIS evening the new hall of the Knights of Labor, on Upper Wyndham street, will be opened by a concert of vocal and instrumental music, recitations, readings, etc. The hall will be illuminated with the electric light. This being the first entertainment given by the Knights, they should receive a bumper house.

KNIGHTS TO BE EXCOMMUNICATED.—A Montreal despatch says:—Bishop Fabre has refused to consider the proposed amendments to the constitution of the Knights of Labor, claiming the society is in opposition to the Roman Catholic Church. All Catholics who persist in remaining members will be excommunicated. Over 17,000 Knights in Canada are Catholics.

Canadian American:—There was mourning in Guelph on Monday. No less than forty-four bottles of ale, a bottle of whisky, a bottle of mixed drinks, and a flask of beer, found in the Commercial Hotel, were ruthlessly destroyed in accordance with the Scott Act. And this blow was dealt just as the fishing season had nicely opened, and the baseball boys were putting on their new uniforms!

SHOES STOLEN.—On Tuesday night or Wednesday morning the shoe store of Mr. John Chamberlain, Elora Road, was entered by some person or persons, and a number of prunella shoes stolen. As the windows showed that that they had not been tampered with, it is suspected that a key of the door had been surreptitiously obtained and ingress made in that way. The police have a clue and no doubt the thief will be run to earth ere long.

THE PRIZE FARM COMPETITION.—About a dozen entries have already been received in the Provincial sweepstakes prize farm competition in connection with the Agricultural and Arts Association. In former years prizes were offered for the best farm in certain groups of counties; this year farms in every part of Ontario may enter the competition. Entries will be received up to the 15th of June. The judges will visit the farms during the last week in June. Three prizes of $100, $60, and $40 will be given.

WELLS' BRIDGE.—Yesterday afternoon Ald. Maddock, chairman, and the following members of the Road and Bridge Committee, Ald. Read, Skinner and Lamprey, inspected the three bridges crossing the Speed on the Edinburgh Road, commonly known as Wells' bridge. They were all in an unsafe condition, many of the planks in the under covering being rotted through, so that if a horse shied and sprang to the side it was liable to fall through. The Committee decided to barricade the bridges from Essex street on the one side and Water street on the other. For the convenience of pedestrians and parties having cows at pasture it was considered advisable that an opening should be left at the side sufficient to allow these to pass.

I. O. G. T.—The thirty-second annual session of the Right Worthy Grand Lodge of the Independent Order of Good Templars met at Richmond, Va., Tuesday. There was a very large attendance at the opening session. The presiding officer, Hon John B. Finch, the well known champion of prohibition, occupied the chair as Right Worthy Templar. The Dominion of Canada was fully represented. From the various reports it was evident that the Order is in a most healthy condition, and is doing good work in the cause of temperance and prohibition. The Right Worthy Grand Secretary reports nearly three hundred thousand members and over six thousand lodges. The Chief Superintendent of Juvenile Templars reports a membership of fifty thousand.

THE CHILDREN'S ENTERTAINMENT.—The result of the recent entertainment given by Capt. Clarke by his calisthenic classes, towards the building fund of a gymnasium for the Collegiate Institute, is most satisfactory. The Board of Education have had placed to their credit through these sources the sum of $609.26. The expenses were $355, which includes the entertainment given on the 30th of April. The Captain desires to express his thanks to those who subscribed so liberally towards the prize list for the exhibition on the 24th of May. Looking at the other side of the picture the parents of children and the School Board are under a debt of gratitude to Capt. Clarke for the efficient manner in which he has trained the scholars, and for the handsome sum which he has raised for so laudable an object as the fitting up of a gymnasium for the Collegiate Institute.

REMEMBER the Congregational church social this evening at the residence of Mr. Goodeve. Admission 15 cents, or 25 cents for two. All are invited. d1.

DON'T forget the after tea social at Mr. Hough's to-night. Good programme. d1

FOR 25 cents a month a young man can insure himself for $5 a week in case of sickness and $50 funeral benefit in case of death, in the Royal Templars. D. Scroggie, S. C. A. Steele, R. S.

CHASE'S fountain is being put into repair to-day, and it is about time.

"You will see, dear, that my grave is kept green?" Wife—"O yes, John. The sexton has a ten year old boy who will be only to glad too earn a little something every week."

CAPT. CLARKE has handed in his resignation to the Mayor as Sanitary Inspector, and to the chairman of the Board of Education as drill instructor of the Public Schools. A letter in another column will explain the reason.

A portion of the manuscript of the prize list for the Provincial Exhibition at Guelph this season was destroyed in the *Mail* fire. This will necessitate the preparation of a considerable portion of the manuscript over again, and the issue of the list will consequently be delayed for some time.

A TEMPERANCE CONVENTION for Wellington will be held in the Congregational Church, Fergus, on Thursday, June 3rd, at two p. m. for the purpose of considering the present position in regard to the Scott Act, and to take such steps as may be deemed necessary for its thorough enforcement.

They are now adopting a novel method in India of giving change of air to people who cannot afford to go away from home. Patients are to go up in a balloon, which ascends to a certain height and is there made captive. It seems that a few days passed in this atmosphere, which is quite different from that of the plains underneath, firmly braces up the most limp of invalids.

IT WAS LOADED.—A student at the Agricultural College was handling a pistol on the 24th of May somewhat carelessly when the weapon became discharged. The ball entered the palm of his hand at the fleshy part of the thumb. Two doctors were called in and the ball was extracted at the back of the hand near the wrist. The young man is progressing favorably. It was his first experience with a pistol, and this lesson will no doubt make him more careful in future how he handles firearms.

TENDERS AWARDED.—The contracts have been awarded for the erection of a $3,000, two story stone residence, 30 by 40 feet, with a rear extension of 19 by 21 feet for Postmaster Stirton, on the lot adjoining the residence of the late Col. Hall. They are as follows:—Thomas Dobbie, mason work; Eli Snyder, carpentering; J. J. Mahoney, plastering; Fred Sturdy, painting, and B. B. Ker, tinsmithing. John Day is the architect. It is scarcely necessary to say that this residence will be fitted up with all the modern improvements.

DR. GRIFFIN in TORONTO.—The congregation of the Sherbourne street Methodist Church bade farewell to their old building Wednesday night. The congregation turned out in force, and the meeting held to mark the farewell was presided over by Rev. Dr. Sutherland, whilst on the platform with him were three former pastors of the Church—Revs. Dr. Potts, Dr. Griffin, now of Guelph, Dr. S. J. Hunter, now of Hamilton, and the present minister, Rev. S. J. Shorey. The chairman introduced Rev. Dr. Griffin, the pastor of the church. Dr. Griffin spoke pleasingly for a few minutes, recalling the time when he had ministered to the congregation. He regretted very much that the old church was to be torn down, but he supposed there was no help for it. There were certain things in the Methodist Church which he thought might very well be torn down at the same time. One was the system that gave to the Trustee Board the right of dealing with only a portion of the finances, and left the Quarterly Board to manage the other portion. He thought the Trustees should have the right of managing the whole of the finances. It was a matter of more importance to the Methodist Church in the country districts than in the cities. He thought also there should be a change in the mode of introduction into the Church, such a change as would enable them to keep in the Church the children of the members, instead of allowing them to float over to other Churches. He hoped this matter would be brought up at the coming Conference.

ALLEGED INFANTCIDE.

A Woman Named Towell Under Arrest for Strangling Her Child.

Chief of Police Randall yesterday received information from parties residing near Hamilton's hotel on the Dundas Road, that there were strong suspicions of a concealment of birth in a log house about 300 yards distant from the hotel on the same side of the road belonging to Wm. Towell, a man well up in years. The Chief drove out in the afternoon, and found Sarah Towell, his daughter, about 25 years of age, lying in a bed. She took the Chief for a physician. He asked her if she had not given birth to a child. She denied that she had and positively asserted that there was nothing the matter with her beyond a slight sickness. From the information which the Chief had gained regarding the woman's condition he knew that this was false and at once set about searching the house. In a short time he came across unmistakable evidence of his surmises under the bed. Even when these were produced the woman stuck to her first story. Dr. Keating was summoned. The woman acknowledged a premature birth, although all the evidence went to show that such was not the case. After a vigilant search the dead body of a perfectly developed female child was found in the loft of the house, underneath a large basketful of down feathers, at the side of which was a heap of feathers apparently there to be picked and thrown into the basket. Around the child's throat was tightly tied a piece of factory cotton, and two marks, as from a blow, were apparent on the forehead, while blood was perceptible at one of the ears. The unfortunate woman rose and dressed, but was ordered to bed by the doctor, and Constable Flowers was detailed to keep her under arrest. The body of the child was brought to town and placed in the drill shed. Coronor Herod was notified of the facts and will hold an inquest this evening at seven o'clock. This afternoon Coronor Keating made a post-mortem examination. The birth probably took place between Friday and Saturday nights. The age of her denied all knowledge of the state of his daughter and only thought that she was confined to bed with an ordinary sickness. He was working in the field at the time the search was made. The young woman would not disclose who her destroyer was. She even denied knowing his name, saying that he was a stranger who entered the house last fall.

IRISH HOME RULE.

Mr. Parnell Denies that he once Favored Separation.

LONDON, May 26. — In the House of Commons last night Mr. Trevelyan quoted a remark made by Mr. Parnell to the effect that he would not rest till the last link that connected Ireland with England had been broken.

Parnell interposed, exclaiming: "This is not the first time that this calumny has been uttered. I demand the date and place of the speech."

Mr. Trevelyan — Cincinnati. If Mr. Parnell considers his words derogatory, let him withdraw them and express his regret.

Mr. Parnell retorted that Mr. Trevelyan had not given the date and title of the paper from which he quoted. He, Mr. Parnell, possessed verbatim reports of his Cincinnati speeches which showed that he had not said such words.

Mr. Trevelyan said he fully accepted Mr. Parnell's denial and added that that date was February 23, 1880, and the paper was the *Iris World*.

Mr. Healy taunted Mr. Trevelyan with having no alternative proposals, and accused him of burking copies of the *Irish World* directed to the Parnellites.

Mr. Trevelyan said that the imputation was a serious one. He declared he had never opened other's letters in his life.

Mr. Healy said he only remarked that while Mr. Trevelyan was in office the Parnellites didn't get their papers as soon as others did. If Mr. Trevelyan did not burk himself, did his deputy? Continuing, Mr. Healy said, if Mr. Gladstone is unable to settle the matter, which of the different puny whipsters is able? Better grant the boon generously than refuse and plunge the matter into the seething cauldron prepared for it.

CINCINNATI, May 26.—Mr. Parnell's speech, referred to by Mr. Trevelyan in the House of Commons last night, was delivered in this city on February 20, 1880, and was reported by one of the most rapid and accurate stenographers in the United States. The paragraph alluded to by Mr. Trevelyan is in the following words:—"When we have undermined English misgovernment we had paved the way for Ireland to take her place among the nations of the earth, and let us never forget that the ultimate goal at which all we Irishmen aim, none of us, whether we are in America or in Ireland or wherever we may be, will be satisfied until we have destroyed the last link which keeps Ireland bound to England."

LONDON, May 26.—Mr. Gladstone's circular calling a meeting of the Liberal party for Wednesday, invites to the meeting all members of the party who, while retaining full freedom in all particulars respecting the Irish Government Bill, are desirous to vote to establish a legislative body in Dublin to manage affairs specifically and exclusively Irish.

Sporting Notes.

BASEBALL.

Hamilton and Toronto play to-day in Toronto.

Hibbeard, pitcher for Ann Arbor, stands 6 feet 3 inches.

Pete Wood has been suspended by Buffalo for indifferent playing.

International games—on Wednesday—Rochester 9, Buffalo 5; Syracuse 14, Detroit 3.

Geo. Bradley has signed with Rochester It is Fog-Horn Bradley that is going to umpire with the Association.

The Leafs will put on their best team against Ann Arbor Saturday. The manager thinks it necessary. He played against Ann Arbor before.

The baseball game between Mount Forest and Holstein nines, played at Mount Forest on the 24th inst., was won by the home team. The score stood 30 to 11.

Here is the way the "great" one-armed Daily addresses his fellow-players:—"Wy don't you fellers play ball? Tink 'em gona stan' up here all day an' pitch and you muff 'em?"

Toronto Beer in Guelph.

The *Mail* says:—The City of Guelph is becoming a popular resort for excursionists. In the opinion of some, however, it is unfortunate that the Scott Act is in force there. This fact was well known to the committee having in charge the carrying out of the excursion by the Manchester Unity Order of Oddfellows to that city on the Queen's birthday. They accordingly laid in a supply of beer, which was taken to the pic-nic grounds, where it was exchanged for the coupons attached to the excursion tickets purchased here. On the authority of Mr. Bigelow it is claimed by the committee that they thus avoided the penalties of the Act. The names of the committee were taken by temperance men before the return of the excursion, with the intention of prosecuting them for selling liquor contrary to the Canada Temperance Act. Over fifteen hundred dollars have been subscribed to defend any such prosecution, a Guelph brewer subscribing $500 of this amount.

An Explanation.

To the Editor of the MERCURY.

SIR,—Some misdnderstanding has arisen as to the renting of the exhibition building by Ald. Hewer for the excursionists on the Queen's birthday. The Secretary of the Excursion Committee wrote to me asking the use of the building for dancing, and as I did not want it for my exhibition I thought it better that some one else should rent the building for them. I spoke to Ald. Hewer and told him that whatever expense he was at I would pay him, not knowing that anything else was going to take place but the dancing. I did not want my name connected with the transaction because I did not favor dancing on account of the school children being present.

Yours truly,
WALTER CLARK.

Guelph, May 27, 1886.

MORE than one hundred works written during the past century have placed the time for the beginning of the millennium between 1866 and 1890.

The Earl of Aberdeen, Lord Lieutenant of Ireland, arrived at Cork, Wednesday, and met an enthusiastic reception. The city was decorated with national banners and devices in honor of the Viceroy's visit. Bands stationed at points along the route taken by Lord Aberdeen played "God Save Ireland."

MORE RAILWAY SUBSIDIES

Nearly Five Million Dollars to be Voted by the Dominion Parliament.

OTTAWA, May 25.—Mr. Pope gave notice to-night of resolutions proposing to grant a large number of additional subsidies to local railways, as follows:—

Moncton & Buctouche, N. B. Railway, $3,200 per mile, or $96,000 in all.

Ingersoll, via London to Chatham, Ont., $3,200 per mile, $256,000.

Northern & Western Railway, N. B., ten miles, $3,200 per mile, $32,000.

Caraquet Railway Co., from Caraquet to Shippegan, $3,200 per mile, $32,000.

Lake Erie, Essex, and Detroit River Railway $3,200 per mile, $118,400.

Thunder Bay Colonization Railway, $3,200 per mile, $179,200.

Parry Sound Colonization Railway, from Parry Sound to Sandbridge, $3,200 per mile, $128,000.

New Glasgow, P. Q., to Montcalm, $3,200 per mile, $576,000.

Hereford, P. Q., to International Railway, $3,200 per mile, $108,800.

St. Felix to St. Gabriel, P. Q., ten miles, $32,000.

Glennan to Wingham, Ont., $16,000.

McCann Station, on International, to Joggins, N. S., twelve miles, $38,400.

L'Assomption, P. Q., to St. Epiphenie $11,200.

St. Jerome, P. Q., towards Desert, $5,161 per mile, $361,270.

St. Andrew's, P. Q., to Lachute, $22,400.

Canada Atlantic Railway from Clark's to Valleyfield, P. Q., $38,400.

Truro, N. S., to Newport, $3,200 per mile, $156,600.

Quebec and Lake St. John Railway (additional) $186,295.

Cape Rouge (Quebec) and St. Lawrence Railway, $25,800.

For wharves and landing stages on the line of the Lake Temiscaming Road, $6,000

Gananoque to Delta, 17 miles, $54,400.

From the Intercolonial through the Stewiache Valley, Iron Mines, Springside and Musquodoboit Settlement, 20 miles, $80,000.

Yamaska, P. Q., to River St. Francis, $32,000.

Perth Station, N. B., to Rock Island, 28 miles, $89,600.

Fredericton, N. B., to Prince William, $70,400.

Newcastle, N. B., to Douglastown, $14,400.

From the C. P. R. to Eganville, Ont., 28 miles, $89,600.

From Madoc, Ont., to Elorado, $11,900.

From Tamworth, Ont., to Tweed, $70,000.

From Salisburg, N. B., to Hopewell, $15,000.

Mr. White, of Cardwell, gave notice to-night of resolutions proposing to give the Manitoba and Northwestern Railway Company 6,400 acres per mile, for twenty-six miles of their road from Toulburn to the Assiniboine River; to the Northwest Central Railway (Boy Beaty's Road) 6,400 acres per mile, for 450 miles, from Brandon to Battleford, and 6,400 acres per mile to the Wood Mountain and Qu'Appelle Railway Company for 240 miles of Railway.

The total cash subsidies proposed to be granted by Mr. Pope's resolutions, including those for Cape Breton and Paspebiac Roads, amount to $4,799,865, divided among the Provinces as follows:—Quebec, $1,551,765; Nova Scotia, $1,975,200; Ontario, $923,500; New Brunswick, $275,200.

Canadian.

A Montreal pawnbroker says he has thirteen of the Northwest medals.

The net earnings of the Pacific Mail Steamship Company for the year ending April 30th, were $1,300,000.

A Chicago packing house has contracted to supply the French Government with seven million pounds of beef in cans adapted for use by the French army.

The contracts for supplying flour for the Indians in the Northwest have been awarded, the price averaging $3.02 a sack, or $1.99 less than the price paid last year.

It is reported that the Dominion Government has consented to have the drill shed at Hamilton, which was burned down a few days ago, rebuilt immediately.

The Technical Commission which recently inspected the Panama Canal have unanimously affirmed that there will be no difficulty in constructing the canal without locks.

A boy aged 14, residing in St. George, Ont., ate four cans of salmon on a wager. This gastronomic feat was accomplished "without the aid of salt, pepper or bread," says the Ayr *Recorder*.

James Watson, of Emerson, Man., has been awarded the contract for getting out timber for use in the construction of the Canadian Pacific snow sheds. These sheds are to be constructed in the Selkirk range and the Rockies. They will be some twelve miles in length and will contain 14,000,000 feet of timber.

American.

President Cleveland will be married to Miss Folsom on June 19.

A snow storm was reported from portions of Pennsylvannia on Wednesday.

Property to the value of about a million dollars was destroyed by a fire at the corner of Congress and Wabash avenue, Chicago, Wednesday morning.

About 8,000 tailors are on strike in New York. They propose to start co-operative shops.

Immense quantities of timber in middle and northern Wisconsin have been destroyed by forest fires, and calamitous results are feared unless the flames are quenched speedily by rain.

The Chicago Grand Jury are determined to indict nearly all the persons arrested and confined in connection with the Haymarket riots.

Ellen McClary Released.

TORONTO, May 27.—Ellen McClary, the young woman who gave important evidence in the Keppel murder case against the prisoners King and Wilson, was given bail in the sum of $1,000 to appear to give evidence at the Fall Assizes. She could not get the necessary sureties and the Government decided yesterday to allow the girl out on her own recognizance to appear when called upon. The order was sent to County Crown Attorney Frost at Owen Sound yesterday afternoon, and Ellen McClary will be liberated from gaol. The prisoners King and Wilson have not yet been able to furnish the bail fixed by Judge O'Connor, and are still in gaol.

The Evening Mercury

THURSDAY EVE'G MAY 27, 1886.

Trying to Work Up a Scandal.

The exposure of the scandals in connection with the Prince Albert Colonization Company and the Beaty-Woodworth job have unquestionably done much to damage the Government and their supporters in the eyes of the people. As an offset to these the Tories are now trying to warm into life a case against Mr. H. H. Cook, of East Simcoe, in the hope that it will divert attention from the cases already mentioned. This case was last week unearthed from among the papers in the Indian Department and is now the subject of investigation by the Public Accounts Committee. Briefly stated it is this: During the years 1872-73 Mr. Cook received a license to cut a quantity of pine on islands on the Georgian Bay the dues on which amounted to $3,879.95; on October 1st, 1873, he paid cash $2,079.95, and gave a bond for the balance, $1,800, bearing interest at 6 per cent. In July, 1875, he wrote to the Superintendent General, asking for a renewal of the bond, owing to the dullness of the lumber trade. On the 7th July the order to renew the bond was given. On February 3rd, 1877, Mr. Cook wrote to the Department enclosing a statement showing that the men employed by him to measure the pine timber in 1876—when the logs, which were cut in 1873, were sawn—had made an over-return of 927,017 feet, the dues on which amounted to $1,486.24. In 1878, the remission was made of the above sum $1,486.24, and interest thereon, from the date of bond, 1st October, 1873, five years, in accordance with a declaration of Wm. Telfer, of Toronto. On the 2nd October Mr. Cook paid the sum of $313.76, and interest which, together with the amount remitted, made up the amount of bond $1,800, and this settled the whole matter.

The Tories are now trying to make out that Mr. Cook was accorded some extra favor by the Mackenzie Government. In the course of the enquiry Mr. Plummer, who is in the Indian Department, gave some curious evidence. He admitted that two of the members who are working up the case—Messrs. Taylor, of deeds, and White, of Renfrew,—had been ransacking the office for documents bearing on the case; that they had discussed the whole matter with the witness before the Committee met; that some of the documents were missing, particularly one which would throw much light on the transaction as far as Mr. Cook was concerned. It came out, besides, that this Mr. Plummer is the father of young Plummer who ran against Mr. Lyon for the Local Legislature for Algoma in 1883, and that the elder Plummer was allowed to leave his work in Ottawa and electioneer for his son. This is the kind of evidence and this is the class of people that are now busy at work in trying to establish a case against Mr. Cook and the Liberal party. If there was anything in it, it is strange that it should have been allowed to lie dead since 1878, nearly eight years ago. For want of a better case it is now taken up by the Tories in their desperation, in order to divert attention from the scandals in which they are involved, and which they have not only condoned but defended by their voice and vote.

Revising Officer's Court for South Wellington.

We would remind our readers in Erin, and especially those interested, that Judge Drew will hold his court at Hillsburg on Monday first, beginning at nine o'clock, for the final Revision of the Voters' List for the Township of Erin. All parties whose names have been objected to have been summoned to appear. It is hoped that our friends against whom the Tory agents have appealed will make a point of attending, so that they may be able to establish their right to a vote. We also trust that all other Reformers who may find any errors connected with their names in the Voters' List will be present so as to have such errors corrected, and thereby prevent any future trouble or the risk of losing their vote.

The Court of Revision for the village of Erin will be held in the village, on the second day of July at two o'clock in the afternoon. This court was postponed on account of some slight irregularity in the advertising.

As the Revising Officer has now fixed when his courts will be held in Puslinch, Eramosa, and Guelph Township, it is hoped that our friends in these municipalities will at once call their Committees together, for the purpose of collecting and furnishing such information to Mr. Hugh McMillan, the General Secretary at Guelph, as will enable him to make out and send away the proper notices to those against whom it is decided to appeal, or to give notice of such alterations and corrections respecting the names, &c., of Reformers which it may be necessary to make so as to remove all doubt as to their title to vote. These notices must be mailed a *clear fortnight* before the dates on which the courts are held Our friends, therefore, should set to work at once, for there is no time to lose.

A Chicago Congregational pastor has been asked to resign because he smokes cigars and rides on a bicycle.

Dominion Parliament.

OTTAWA, May 26.

In the House of Commons to-day Bills were introduced founded on the resolutions regarding the Cape Breton and Baie Des Chaleurs Railways.

Mr. Thompson's Bill respecting the conveyance of Northwest Lands was considered in Committee and a number of clauses passed.

Mr. Chapleau's Bill to establish a Printing Bureau was read a second time after a long discussion.

On motion to go into Committee of Supply, Mr. Davies called attention to the evidence in regard to the Inch Arran affair, and maintained that the charges had been proved.

Mr. Foster made a partial statement of the Government's policy in regard to the fisheries.

Supplementary Estimates.

OTTAWA, May 26.—The supplementary estimates for the current fiscal year were brought down to night. They amount to $3,501,926, and the supplementations for next year (1886-7) are yet to come down. Over a million dollars additional are required for the Northwest rebellion expenditure; $50,000 additional for fisheries police service, $200,000 to meet the expenses connected with the Franchise Bill, $50,000 additional for the Colonial Exhibition, $10,500 for pensions to wounded militiamen, $200,000 to the Canadian Pacific Railway Company to complete the British Columbia section, $150,000 for Maritime Province railways, $300,000 additional for Indians, $150,000 for the Northwest Mounted Police, $7,000 for the sufferers by the Hull fire, and $30,000 to meet the expenses of publishing the Consolidated Statutes.

Book Notice.

A Cyclopædia of Canadian Biography. Edited by George Maclean Rose, Toronto. Rose Publishing Company.

This is a very handsome work of over eight hundred pages. It is, as its name implies, a biography of a great many leading Canadians, some of whom are dead, but most of whom are still living. Nearly all, with scarcely an exception, occupy more or less prominent positions in professional and political life, or as leaders in commerce and industry, or who have attained eminence in science, literature and theology, or who have been successful pioneers.

The biographies are vouched for as correct, and as they are written in a pleasing style they are very readable. The book is beautifully printed and substantially bound. It is one that has been long needed by the public, and we are pleased to see that the want has been so well supplied by this enterprising firm, and that Mr. Rose has done his work so well. We understand it is the intention of the publishers to issue a companion work to this one as soon as possible, containing biographies of other leading men in Ontario but more especially in Quebec and the Maritime Provinces. When completed these two volumes will contain a vast amount of information respecting all the leading men in the older provinces of the Dominion, and will be of the greatest value to politicians, journalists and also the general public, not only for the information they will supply, but also as valuable works of reference. It is to be hoped that all to whom applications may be made for information will gladly aid the editor in furnishing what information they can.

Report on the Northwest Rebellion

A few days ago the report on the suppression of the rising in the Northwest last year was presented to Parliament. It contains a report of the Deputy Minister of Militia, a special report by Major-General Middleton, with supplementary despatches from some of the leading officers who were in command of the different forces. The volume is one of special interest and of historic worth, and as such will be especially prized by those who took part in quelling the revolt. It contains not only the reports of the officers in charge of the expeditionary forces; but an elaborate system of plates illustrating the fields of battle from different points of observation. A large map of the Dominion illustrates the use of the Canadian Pacific railway in the movements of troops; and shows generally the location of all Indian reserves and other notable points in the disturbances. There is a general plan of Fish Creek; also views of the same from four points of observation; and a so an enlarged plan of the rifle pits. There are four plans pertaining to Batoche; three to Cut Knife Hill; three to Loon Lake; and also a fac-similie of a plan showing the position of the Canadian forces at Clarke's Crossing, which was found among Riel's papers at Batoche. Col. Panet's report shows that in the campaign proper, there were killed and wounded in actual battle 129 volunteers, 26 were killed and 103 wounded. The foregoing are exclusive of those who died on the line of march or through indirect causes; also he twelve killed and twelve wounded at Duck Lake. The report says that of the rebels eleven were killed and eighteen wounded at Fish Creek; at Batoche 51 killed and 173 wounded; and at Cut Knife Hill eight Indians are known to have been killed.

After the rising was put down a commission was appointed to examine and report on all the claims and accounts sent in to the department for services rendered during the time troops were in the field. The total number of claims investigated up to the 25th February last was 1,308, the total amount claimed was $3,289,878. The reductions made by the commission amounted to $351,298, leaving claims which have been paid $2,918,024. Two of the above claims made were the Hudson Bay Company's $1,937,032, and the Canadian Pacific Railway's claim, $852,331. The total expenditure, including the Canadian Pacific Railway and the Hudson Bay Company and the other claims up to 30th of April, is, as will be seen, somewhat under four and a half million dollars. Since then nearly all the claims have been paid, and the total is under $4,700,000, with a few odds and ends to wind up. The evidence taken before the Claims Commission fully substantiates the charge so often made that Major Bell, of the Bell farm, acted both as contractor for transport and as official transport officer under the Government.

Senator Sullivan, Purveyor General, in his report complains of the manner in which he was ignored by the surgeons in field. The medical outfit he found on examination very different from what he thought was required. He notified the surgeons that he was prepared to supply them with medical appliances and medicines but some positively refused to take their supplies from him. He was surprised to find some surgeons coming up with their corps entirely destitute of the commonest instruments and appliances required in every day work. At Swift Current he found the hospital car used as a dormitory by the dressers and surgeons, and an old, dirty, dilapidated car used as a hospital, and he had great difficulty in providing for the comfort of sick soldiers.

A map accompanies the report, showing the line of march of the three columns. On the back of the map are given extracts showing the corps ordered for service and their distribution, a chronologically arranged statement of events beginning with the receipt by Sir John Macdonald of a telegram, March 22nd, 1885, referring to the Duck Lake outbreak, and concluding with "July 2nd, Big Bear surrenders," a list of the engagements, an account of the commissariat of the arms and ammunition required and of the hospital service, the whole forming a very interesting summary of our "little war."

Knights of Labor.

CLEVELAND, May 25.—The Special Session of the Order of the Knights of Labor was called to order this afternoon shortly after two o'clock, with T. V. Powderly, G.M.W., in the chair. Over one hundred and sixty delegates answered to their names on the roll being called, outside of a large number of "alternates" whose credentials were yet to be verified. As the meeting was in progress a deputation from the Women's National Christian Temperance Union requested permission to be heard before the meeting, and the request was, on motion, unanimously concurred in, and the ladies were at once admitted. The Assembly having taken recess, the G.M.W., in a few appropriate remarks then introduced Mrs. Mary A. Woodbridge, Secretary of the W. N. C. T. U., who read a letter from the general offices of the National Women's Christian Temperance Union, commending the temperance platform of the Knights, the lessons inculcated by Mr. Powderly, the principle of the Order, demanding equal wages for women where they do equal work with men, and the effort to secure the rights of the working classes by constitutional and legitimate means. The letter invited the Knights to send delegates to the Convention of the N. W. C. T. U. in Minneapolis next October. Mr. Powderly replied in suitable terms.

Mr. E. Morton, member of a well known Agricultural Implement Manufacturing firm of Chicago, was then accorded an opportunity of setting forth a scheme for the settlement of the labor question of shorter hours, etc., by the organization of a National Manufacturers Union pledged to a programme of a gradual reduction of hours of work, the non employment of those who would not pledge themselves to these terms within two years and other radical stipulations. In conclusion Mr. Morton was warmly applauded. The subject of his address will receive consideration during the session.

CLEVELAND, May 26.—The General Assembly of the Knights of Labor met at 9 o'clock this morning pursuant to adjournment. The principal business of the session was the delivery of an address by the Grand Master Workman, referring at some length to the causes that influence the summoning of the General Assembly at this time, outlining the questions that in his opinion should receive immediate attention, and suggesting the mode of procedure. During his remarks he was loudly applauded time and again. The consideration of the following questions was referred to the Standing Committee of the session held at Hamilton, Ont., last October:—Strikes, boycotts, laws, relation of the Order to other labor organizations, and special committees were appointed to consider and prepare replies to the addresses delivered yesterday by Mrs. Mary A. Woodbridge, Secretary of the N. W. C. Temperance Union, and by Mr. Edwin Norton, of Chicago. With the object of preventing misconception of the proceedings through unreliable information furnished the representatives of the press by individual members, a Press Despatch Committee was formed yesterday, of which D. J. O'Donoghue, of Toronto, is chairman. For the purpose of giving the several committees time to prepare their reports, the Assembly at noon took recess until 8 o'clock to-morrow morning, at which hour the session will during the remainder of its time meet.

THE FISHERY QUESTION.

Seizure of a Canadian Schooner at Portland.

PORTLAND, May 24.—Great excitement was caused here this morning. Captain Jessie Ellis entered at the Custom House his schooner "Sisters," from Yarmouth, N.S., with a cargo of mackerel, taken last Wednesday, and consigned by W. A. Lellau, of Yarmouth, to F. F. Clement & Co., of this city. Captain Ellis signed the customary oath that his report and manifest correctly described the cargo of his vessel. First Deputy Collector Colesmith then asked for the manifests. "I have none," replied Captain Ellis. Colesmith expressed his sorrow that the captain should have been caught without his manifest, but told him nothing could be done in his case—that he must, in the usual course of the law, pay the fine imposed by law. "How much?" asked the captain. "Five hundred dollars," replied Colesmith. "My God, the little schooner won't bring that," said the captain, who presented a picture of distress. Nothing could be done for him, and Surveyor Bradbury sent Inspector Howe to take formal charge of the schooner. This done, Captain Ellis and his crew were allowed to go on discharging their cargo of 20,000 mackerel. It was pathetic to see the captain and crew of the wretched little schooner discharging the cargo that the Government of the United States will claim. Captain Ellis counted out the fish, but he had little heart in his work. He was asked what he had to say. In a broken voice he said "Nothing." After thinking the matter over, he concluded that matters might have been worse. He said: "This is pretty rough on me, being my first trip as master. We caught the fish last Wednesday, and thought we'd make a good thing of it. We were in a great hurry and forgot everything."

"What do you think of the fishery dispute?"

"It's bad for us poor fellows—bad for both sides. We just want to make a living and we are seized."

"Have you notified your owners?"

"No; I shall at once."

"What do you propose to do?"

"Stay here till I get orders to bond the schooner or something else. I want to say something more, he added; "if it hadn't been for this excitement and the seizure of the "Ella M. Doughty" I'd been let alone. My poor little schooner was seized because of the troubles at Digby."

General Anderson, the collector, will probably forward a written report to Secretary Manning this afternoon. The Maine delegation in Congress has been informed of the seizure. Captain Ellis will place his case in the hands of Vice-Consul Starr, Her Majesty's representative here.

Despatches from Nova Scotia indicate that exertions are being made there to be in readiness to seize some of the mackerel catchers when they arrive during the first part of June.

WASHINGTON, May 25.—In the matter of the fisheries, the Administration has taken occasion to renew its warning that fishermen should take great pains not to violate the Canadian customs laws. Governor Dingly believes that our fishermen will soon be able to make arrangements so that they can be supplied with bait from our own waters.

WASHINGTON, May 26.—The State Department is neither indifferent or inactive in regard to the fishery dispute. Said Assistant Secretary Porter to a reporter yesterday:—"We have been acting in the matter and have taken very decided interest in the question, but it would not do for us to publish every move."

PORTLAND, Me., May 26.—The Board of Trade to-day held a special meeting for consideration of the present fishery complications. President Blabou introduced the subject and urged a calm and careful consideration of it. Secretary Rich read a statement of the trouble between this country and Great Britain regarding the fisheries and the manner of settlement. The Treaty of 1818 was read by request of the Board, after which Hon. Geo. Walker spoke at length. At the close of his remarks resolutions were adopted requesting the Government to take early action in the matter of having all existing embarrassments removed, and the vessels and property now detained released in order to maintain and perpetuate the friendly intercourse and close alliance between the two great nations.

HALIFAX, May 26.—The American fishing schooner "Frederick Gerring," according to a telegram from Canso, has been procuring bait in that neighborhood. She anchored in Crow Harbor on Sunday, and applied to Abraham Ettiler for bait, but although he had fifty barrels in his seine he positively refused to sell the captain a herring, thereupon Capt. Morris got under way, started outside, and lay with her dore sail hanging over her name, and got all the bait they wanted from some fishermen at Half Island Cove.

Anarchists in Limbo.

NEW YORK, May 26.—The trial of Herr Most, Adolph Schenck and Wm Braunschwag, for misdemeanour in trying to incite a riot, was begun late this afternoon. The work of procuring a jury occupied some time.

CHICAGO, May 26.—The Grand Jury have determined to convict nearly all the persons arrested and confined in connection with the Haymarket Square riots.

The police made two arrests last evening which they consider important. A quantity of dynamite, a bomb, two revolvers, and a Winchester rifle were also found.

SPECIAL NOTICES.

Young Ladies Journal for June to hand at Day's bookstore.

Day has made a contract for six hundred dollars worth of baby carriages, first lot expected next week. Nice goods and big value at Day's Bookstore.

READY mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

ALL the nobbiest suits in town are made at B. B. Hughes'. Gents furnishings a specialty.

THREE names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

The Colonia Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Bargains in Dress Goods.

The Foes of a Household

CHAPTER XXXIII.

AFTER ALL.

She turned, rested her arms upon the mantel-piece, and bent her head upon them. Before Percival could speak, she faced him again saying—

"You are not cheating me? You are sure it is Helen? You have seen her, spoken to her? There is no mistake. Take care there is no mistake, or I would not be answerable for myself. You are sure that she is alive, and I am free?"

She paused for want of breath; she was trembling all over. Tears and smiles were upon her face at once. This time Percival spoke.

"I am, of course, very glad to see you so happy; but it is contrary to my expectations. Will you explain to me?"

"Ah, poor Percival, you are astonished. You saw nothing of what has been going on. Sit down. Put that look of blank amazement off your face, and we will talk. I will tell you everything. Confess," she went on more calmly when they were seated, "that you were under the impression I loved you?"

A very decided answer rose to Percival's lips, but he restrained himself and said—

"I did think so."

"So did I once. I know now that what I felt then was not love. Forgive me, Percival. I have made you very unhappy for a time; but, believe me, I think that I have suffered most. Pardon me for the sake of the happiness you enjoy now. I thought I loved you, and acted without thought or prudence, caring nothing for the sacrifice I exacted from you. I thought I could win your love; had mine been true I might have done so, I cannot tell. You know I have failed. I have paid very dearly for my mistake. Can you be surprised to hear that your indifference froze my heart? I fought long and hard to keep my love, such as it was; every day I felt it growing less and less, till at last there was nothing left. For the past few weeks my life has been like a heavy chain which I have had to drag about with me. Now I am free!"

Percival took her hand and kissed it.

"You blame yourself too much," he said gently; "the responsibility of what you have suffered rests rather upon me. I ought to have known, to have felt sure, that you were mistaken. I ought to have saved you from yourself. I might have done it, and as a man and the stronger, I ought to have done it. I see now that we both made a mistake, but the chief blame rests with me."

"You are wrong, and believe that in all I have suffered I never accused you of having caused my suffering. I had made a mistake, and all that followed was only the natural consequence of it."

Even at that moment Percival was not proof against a feeling of surprise at hearing Alice speak of natural consequences, but he only said—

"My heart aches when I think of what your life must have been. If I had only seen—if I had only guessed; but I have been blind and deaf, wrapped up in my own loss and unhappiness. Again I say forgive me."

"How could you guess, or see? Had I not told you that I loved you? Without consideration for me I demanded your whole life, and you gave it me. Was it to be expected after that, that your imagination should reach so far as to suppose I was discontented with your gift, or had ceased to value it as I once did? No, say what you will, you could not have seen or known, the fault was mine.

"If you had only told me! I would have done whatever you wished. You must have known it."

"I did know it, and I tried to tell you once, but my courage failed me and I could not. I am not brave."

"Yet brave enough to bear such a life."

"Do you know what I was thinking of when you came in?"

"No; tell me."

"I was thinking of my life, and wondering how long I could bear it before I killed myself."

"Alice, you are not serious!"

"I am quite serious. Before long my life would have become unendurable, and I should have put an end to it."

"I must be a monster if you would rather kill yourself than tell me you were unhappy as my wife."

"No monster at all. Everyone has some hidden corner in his character into which no outsider ever penetrates, sometimes not even himself. I am so made, that after having asked you to marry me, I could not say, let us part."

"I ought to have seen and known;" he said moodily, "I had no right to marry you. At whatever present pain to yourself, I ought to have shown you that you did not, could not love me; that it was all a mistake, which you would have found out in time. If I had only used a little common sense, I might have spared us both much suffering."

She shook her head.

"It would have done no good. I should have hated you, and should still not have believed that you were right."

They sat in silence for some time after this. Alice lay in her chair, her head leaning against the back, her eyes closed. She felt tired after all this unexpected excitement, and through her mind kept flitting the words—

"In six months, you know, many things may happen."

Six months! She had cried for the moon, and in little more than six hours she held it in her lap.

Percival was lost in thought. He, too, felt tired after the excitement and agitation of that day and the day before. The interview with Alice and the unexpected turn it had taken all served to unhinge him. Then there was the tragedy of which Alice had spoken. He passed his hand over his forehead with a sigh. Alice, too, roused herself and said—

"There are many points which you have left unexplained. I interrupted you rather rudely I am afraid. Why did not Helen declare herself long ago? Why did she wait all these months?"

"She was not capable of doing anything until after our marriage."

"But then, why did she not let you know at once?"

"She was ill. Nearly a year had passed since she left home. How could she tell what had happened? Picture to yourself your own feelings, if, after having been separated from your husband for nearly a year through a most extraordinary combination of events, you made up your mind to write to him, looked forward to seeing him again in a day or two, and then you saw in the paper that in the meantime he had married again, married within a few months of your supposed death under exceptionally painful circumstances. When I think of it all I feel that I have been the weakest fool in creation. I could almost—"

He paused abruptly as though resolved not to finish, and Alice looked at him almost in terror.

Horsford's Acid Phosphate.

Marked Benefit in Indigestion.

Dr A. L. Hall, Fair Haven, N. Y., says: "I have prescribed it with marked benefit in indigestion and urinary troubles."

The latest remedy for coughs, colds, croup, whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound so do not say you have taken everything until you have tried this for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Wm. Buckle.

Hespeler Correspondence.

SUCCESSFUL CANDIDATE.—We were much pleased to notice in the *Globe* of the other day that at the recent University Medical Examination in the city of Toronto that the name of Mr. A. Oaks, son of Mr. Gideon Oaks, farmer on the Guelph Road, and a former pupil of the Hespeler P. S., appears on the honor list of three different subjects, amongst second years candidates.

A BRIEF VISIT.—Last Saturday Mr. Lewis Kribs, city editor of the Toronto *News*, and son of Mr. Lewis Kribs of this town, came home to spend Sunday. His old acquaintances in town are always glad to see him.

A NEW FRUIT STORE AND ICE CREAM ROOM.—Mr. John Henry has furnished up a very attractive fruit store and ice cream room in part of his block on Queen street. A good business was done there yesterday.

MILLINERY.—We should have noticed some time ago that Miss Duncan has secured the services of Miss Patterson, a first-class milliner, and is fully prepared to satisfy the demands of her many customers with any article in that line they may desire.

ADDRESS TO THE BLUE RIBBON ASSOCIATION.—By special request, Mr. Lewis Kribs, jr., with his accustomed generosity, devoted a portion of his brief visiting time to the interests of temperance, and presented the B. R. Association on Sabbath evening with an extemporaneous address, which for logical argument and just plea in behalf of the temperance cause it has seldom been our privilege to hear equalled. On its being announced in the different churches that he would address the Association, the seating capacity in Glick's large hall was all occupied at an early hour and additional seating had to be procured. Much as this all important subject has been discussed in this place during the past year and previously, still new phases of it were presented and ably elucidated by the speaker. The chair was occupied by the President, Mr. G. E. Chapman, who may well be congratulated on securing such an excellent supply of speaking talent during most of his term of office. The efficient and generous choir did its usual quota of valuable service on this occasion.

THE 24TH.—The Twenty-Fourth has come and gone and with few exceptions has, we think, passed off pleasantly. The programme we spoke of last week was, we believe, successfully played, the prizes in the various games being keenly competed for, and the various competitions seemed to elicit considerable interest from a larger crowd of spectators than has been with us heretofore on any similar occasion. Especial interest centered in the bicycle race, of a mile, which was well won by our two "young Harries," although it is said that Galt's champion on the "wheel" was a competitor, but was forced to take 3rd money, the first being won by Harry McIntyre, the 2nd by Harry Limpert, a musical cadet of only some six weeks' practice on his machine. The prize list will be found below. One of the chief attractions during the day and evening was the bazaar under the auspices of B. R. sewing class alluded to last week. During its business hours crowds kept pouring in and out, well satisfied with what they saw and heard, as the bazaar in itself amounted to a good entertainment. Not only were the elaborately finished articles, the handiwork of our pretty intelligent girls to be seen, but rich music and splendid recitations were to be heard. We are very happy to state that the efforts put forth by those having the interests of the undertaking at heart met with the reward they merited.

Another great attraction of the evening was the dance in the skating rink, which we are informed was largely attended, and no doubt afforded the anticipated enjoyment to its devotees. In passing the rink we heard the music and know that that of itself could not but be productive of much enjoyment, as it was simply charming.

ANOTHER ATTRACTION OF THE EVENING.—Like the spots on the sun there is unfortunately now and then something to tarnish the brilliancy of the proceedings on such days. As evening wore on and men were moved by "the spirit" they became noisy and gesticulative, forgettin that we had a town constable and a few gritty accessories well capable of enforcing order. Two of the more zealous spiritualists were soon shown comfortable apartments in the new lock up, where, as there was no response to their emotions they soon became quiet, but in the melee which had so suddenly emanated from those emotions previous to the arrests, one unfortunate party got his leg broken, which prevented the necessity of showing him a third apartment in the lock-up. The break, we are informed, is a bad one. Dr. Lockart was at once called in and set the limb, and after a good deal of difficulty procured a team and conveyance in which was placed a stretcher, and then kindly accompanied the injured man to his home, a distance of six or seven miles. The other two were bailed out to appear this morning, before the Reeve, Mr. D. Rife, and Mr. G. Martin, Justices of the Peace, which they did and have contributed to the treasury of the corporation the matter of ten dollars apiece. They paid costs besides. We are very sorry that the young men none of whom belong to Hespeler, should permit themselves to get into such trouble on this occasion, as the Queen of course does not help people out of the difficulties they get into on her account at such times. No special blame attaches to the landlord of the house where this unfortunate squabble occurred; as we are informed he did his utmost to keep the house quiet, his efforts proving unavailing. Of course at such times when large gatherings of men get into a bar-room it is not hard to judge that they may easily become unmanageable. There were other arrests in town during the day. Much credit is due to Constable Winterhalt for the prompt and efficient manner in which he and his assistants, Messrs. McMaster and Forbes discharged their duty.

THE TUG OF WAR.—We omitted making mention of this in our prize list. The tug was between Puslinch and Waterloo men, the Puslinch men were the victors, and a fine athletic lot of fellows they are. Some good tugging was done by the Waterloo men, but they were lighter than their opponents. In the second trial the Puslinch chaps almost played "crack the whip" with them.

RECITATIONS AND MUSIC.—We should have mentioned in connection with the bazaar that the recitations were given by Miss Patterson of Stratford. Whether this young lady claims to be a professional reciter or not, we don't know, but believe she may justly lay claim to the title; her recitations were the best rendered of any we have ever heard. Beautiful selections were rendered on the organ by Misses Scott, Mowat, and Birch of Stratford, and Miss Haigh of Hespeler. We stated in last week's correspondence that the bazaar was in aid of the Boys Home at Stratford.

PRIZE LIST OF SPORTS.

Boat race—1st John Campbell and Christian Frosh, $6 50; 2nd James Currie and John Sherman, $4 50

Bicycle race—1st Harry McIntyre, 2nd Harry Limpert, 3rd F W Pitts.

Running jump—1st James Rounds, 18 ft 10½ in; 2nd John McInnes, 18 ft 10½ in; 3rd H J McTearnan, 18 ft 4 in.

Standing jump—1st A Marchant 11 ft 10½ in; 2nd J Schnieder, 11 ft 9½ in; 3rd H J McTearnan, 11 ft 9½ in (equal to 2nd.)

Running hop, step and jump—1st James Rounds, 37 ft 10 in; 2nd H J McTearnan, 37 ft 6 in; 3rd A Marchant, 36 ft 5½ in

High leap with pole—1st G Frosh, 8 ft 7 in; 2nd W Brown (Model Farm) 8 ft 3 in; 3rd C Martin, 8 ft.

Putting heavy stone—1st W Brown, 35 ft 10 in; 2nd G Frosh, 34 ft 3 in; 3rd R McKenzie, 32 ft 5 in.

Men's 100 yard race 1st James Rounds; 2nd John McGinnis; 3rd W Norton

Men's 300 yard race—1st Wm Horton; 2nd Geo Currie; 3rd J Shultice

Boys' race, under 15—1st Milton Zimmerman; 2nd Fred Arnfelt; 3rd Daniel McMaster.

Boys' race under 12 years—1st T McMaster; 2nd A Dalgliesh; 3rd F Mathews.

VOLUNTEERS.—No. 5 Company 29th Batt., has been notified by Acting Capt. John Cunningham to meet at the Drill Shed here for orders this evening at 7.30 o'clock.

Hespeler, May 25.

Harriston Correspondence.

THE SCOTT ACT.—The short trial the Scott Act has had, has not, so far as this town is concerned, proven to be as useless as many of its opponents said it would be. In their anxiety to protect the public they boldly stated that their would be more liquor used than under the license system. So far such is not the case; on the contrary much less is drank, and both the hotels and streets are much quieter than before the act came into force. For the past three weeks a drunken man has been a rare sight on our streets. That liquor is yet sold in town is certain, its effects being visible occasionally, an instance of which occurred on Sunday last. A young man, who would be very indignant if he was not considered a gentleman, was making great efforts to walk on the sidewalk from one hotel to another, but it was no use, the sidewalk was too narrow. Yesterday the 24th, a day when in the past many displayed their loyalty by getting drunk, passed off quite differently. The order of things had changed, the day was one of quietness and sobriety.

THE 24TH.—Her Majesty's birthday passed off very quietly here. There was no celebration, and many of our citizens went to the neighboring towns to spend the day, while not a few others, early in the morning shouldered their fishing tackle and went away for a day's amusement in that way.

Harriston, May 25, 1886.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carleton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. S. Petrie's Drug Store.

Fergus Correspondence.

CATTLE.—Featherstone & Co., Toronto, shipped about 70 cattle yesterday and intend sending about 50 more on Friday, all for the Old Country.

CHANGES.—We will all be sorry when Mrs. Kemp gives up business next September, but she has a worthy successor in Thos. Armstrong, who has bought her out.

SCOTT ACT.—Yesterday was the first Queen's birthday under the Scott Act in Fergus, and contrary to expectation with many it proved quite a success. The constable did not have one drunk in the lock-up, a thing which has not happened, we believe, since John held the office, now several years. There was quite a large number in town and all were well-behaved. If any were not they kept out of sight. The Act is on the whole doing very well, a fact due largely to the admirable action of the antis, who think the law should be kept now that it is law, though they did not believe in it. We wish all of both sides would look at this in the same light and do their duty by keeping the Act.

THE HOLIDAY.—Fergus is always loyal and ever gives the Queen a good send off. This year the church bell awoke us about 5 o'clock in the morning, Not long after some powder was burned in a royal salute and soon the village was alive and ready for fun let it be ever so fast or furious. Throughout the forenoon little was done but to prepare for the sport of the afternoon. A carryall and 2 or 3 buggies well loaded started before noon for a picnic at Paradise Grove, near Guelph, and a few more to Elora. These were specials, each gent having his own lady. Most of the villagers remained at home.

BASEBALL.—During the forenoon a team of boys from Belwood tackled a set of Fergus boys on our grounds. The game was lively. Any amount of professional kicking, two umpires acting at the same time, a little fighting between innings and any amount of noise made a big game. Belwood was rather too much for our home boys and were ahead at the end of the 4th or 5th innings, when there was a general burst up and the match stopped. The little fellows, about 12 years of age, of both teams, played well considering. The races in the afternoon on the race course were a failure. The horse racing was nothing. J. Black, of Fergus, won the 100 yards and half mile men's races, A. Steele taking second in the 100 yards and James Russell in the half mile. All three are players in our lacrosse team.

LACROSSE.—It was about 3-30 before the lacrosse match started. The turf men got the Shelburne and Fergus lacrosse players to go inside the race course to try and get the crowd in and get the money. The crowd, however, would not go in as there was a number who knew the race course was ploughed up, and that the match was to be played outside. The players remained in the course till Shelburne would wait no longer, and was starting for home when they were prevailed upon to remain and the game was started. The Shelburne men came down on Sunday, so tha they would be fresh, and when the two teams appeared on the ground ready for play we predicted defeat for Fergus. The visitors were bigger and stronger looking than our boys, and they handled the crosses quite as well. The first game was a tough one and lasted about an hour and a quarter, when it was won by Shelburne. The second was also taken by them, and things looked like three straights for them, but Fergus got the 3rd game and Shelburne the 4th and the match and the cup, finishing about 6 o'clock. The visitors played a good strong game. Their point, Harley, is a good one; so is Bailie. In fact they all played well. On the part of Fergus we think Black deserves the honor of playing the best game. He is a swift runner, sure catch, good thrower, good natured and tough. Sandy must look out or Black will catch him. Sandy Anderson played a fine game in his old place on the defence. Slater, Steele and Benzie are good ones; so are they all but they must practice more. The home team missed Nichol. Never mind "Thistles," one plowing down will not kill you, and we hope yesterday was the first and last of the season. It has not yet been decided when or where Orangeville and Fergus will play, but it must be soon.

BAZAAR.—The entertainment in the hall by Mr. Mullen's Church was well patronized at night, but not well during the day. The proceeds from ice cream, luncheon, lemonade, strawberries, fancy work, etc., amounted to about $160, a nice little sum to adorn the church. The ladies are to be congratulated on the excellency of their work as shown in the different articles for sale and also on the kindness and close attention given to all present.

MORE BASEBALL.—It is proposed to organize a baseball club here. Practice on Friday night, over at the fair ground.

Seeding not quite all done yet.

Fergus, May 25th, 1886.

Rockwood Correspondence.

ST. JOHN'S CHURCH.—We have been requested to contradict a statement which recently appeared in the Rockwood correspondence of the Acton *Free Press* to the effect that the Rev. W. J. Piggott had resigned charge of the above church. Mr. Piggott has not resigned his charge, nor has he any intention of doing so. We are also asked to say that the report of the official meeting for the purpose of settling certain differences between Mr. Piggott and his people is clearly an emanation of the correspondent's brain, as no official meeting was held for that purpose, and there are no differences between the pastor and his congregation. The assertion that Bishop Hamilton will soon fill the vacancy in the Rockwood church is also untrue, for the excellent reason that there is no vacancy to fill, nor is there likely to be one. This denial is official.

THE QUEEN'S BIRTHDAY.—Monday last will long be remembered as a red letter day in the annals of Her Majesty's loyal village of Rockwood. The usual royal salute at sunrise by our friend Gibbons and the flying to the breeze of Mr. John Pasmore's bunting, announced to the people that another birthday had dawned over the head of our beloved Sovereign. Probably the most amusing part of the day's proceedings was the calithumpian parade in the morning. The principal feature of the day's amusement was the lacrosse match between the "Eloras" of Elora, and "Stars" of this village, which resulted in a hollow victory for the visitors. The home team went into the field quite satisfied that they were a whippen community, but they disputed every inch of ground like Trojans, and went down before their formidable opponents with flying colors. After the match a number of athletic sports took place, while in the exhibition building dancing was indulged in during the afternoon. According to the gate receipts nearly 800 people visited the grounds. The fine band of the Bell Organ Co. furnished music during the day. The concert in the evening is said to have been a success financially and otherwise.

Mr. Robert Blyth, the famous picolo player of the Grenadiers band, Toronto, was one of the performers at the concert on Monday evening last. Mr. Blyth remained over during the next day and charmed our people with his fascinating strains.

PERSONAL.—Mr. S. W. B. Hayward is about to leave Rockwood to take up his residence in Toronto. Mr. Hayward is a popular young man, and he makes friends wherever he goes. Mr. Hayward carries with him the best wishes of his many friends to his new home.

Rockwood, May 25.

Auction Sale of Valuable Property.

W. S. G. KNOWLES has been instructed to sell by Public Auction, on the grounds on Saturday, 29th May, at one o'clock, the valuable property known as part of the Mickle Estate, on Crimea street, near the Western Station, in the City of Guelph, comprising about five acres of land, two of which are laid out in grounds, and on which is erected a large and substantial stone residence, containing fifteen rooms, heated by hot air furnace; hard and soft water, with good drainage. Also excellent stable, carriage house, driving sheds, stone fowl house, and other buildings. The above property comprises about 17 lots. On two of the lots houses are erected and constantly rented, which will be sold separately if required.

Also at the same time a desirable residence on the corner of Clinton and Gladwin streets, in a beautiful locality. This house is nearly new, two storeys, well built, and contains nine commodious rooms, good water and perfect drainage. Terms easy and made known on day of sale. Apply to J. A. Lamprey, Real Estate Agent; or R. F. Maddock, Lumber and Coal Merchant, Paisley Street. dw

R. CODY has had the electric light put into the Market Square billiard parlor today. It has also been put into the Queen's hotel.

DR. RYERSON will be at the Wellington Hotel, Guelph, to-morrow for consultation in Eye, Ear and Throat cases. d&w

THE town of Galt is enlarging its limits by about 600 acres. Mr. John Davis, P. L. S., of this city, commences the survey next week.

MR. LOUIS DARENO, formerly of this city, has purchased the East End Bakery, Berlin, from Mr. Massel, and will carry on the baking business.

INSPECTOR MOODY and Sergeant Kempster are in Montreal enlisting recruits for the Northwest Mounted Police service. Sixty healthy men are wanted. They will come next to Toronto.

SOME farmers complain that fishing parties crossing their fields, are so careless as to throw down fences, and leave gates open allowing cattle to injure growing crops. Such conduct cannot be too strongly condemned, and might lead to parties being forbidden to trespass.

AN EDITOR ABROAD.—The Victoria, B.C., *Daily Times* of the 10th inst. thus welcomed the late editor of the Elora *Express* to that province:—"Mr. Campbell Shaw, late editor and proprietor of the Elora, Ont., *Express*, arrived from the east to-day. Mr. Shaw is an energetic young man, brimful of energy and enterprise. It is his intention to locate in Vancouver and embark in business in that city. British Columbians will yet hear more of Mr. Shaw.

THE Watson Manufacturing Company, of Ayr, through their agents, on Saturday last distributed 40 binders, rakes and mowers among the farmers of Waterloo. After the delivery of the goods the farmers and several others were entertained at dinner at Zimmerman's Hotel, Waterloo, by Mr. John Watson, President of the Company. Several first-class speeches were delivered after the cloth had been removed. The Company this year intend turning out over 1,500 machines.

IMPORTANT DECISION.—The Shelburne *Free Press* says:—Clark vs. Fisher.—The Rev. Geo. Clark, the plaintiff in this case, resides in Shelburne, but is pastor of the Methodist church at Honeywood; Mr. Clark refused to pay the taxes when called on by the collector, Mr Fisher; his goods were distrained for taxes, hence this suit; Mr Clark claimed exemption from taxation on account of being a minister; the defence argued that Mr Clark was not in charge of any church in this municipality, he was therefore liable to pay taxes the same as any other citizen; the Judge's ruling was that the statute exempted all ministers no matter whether they resided within their charge or not; judgment for plaintiff for $12 and costs.

OVER-OFFICIOUS BRAKEMEN.—The brakeman who compels young men whom he finds stealing a ride while the train is in motion, needs a judicial lesson to cure him of the undesirable quality of zeal. The law provides for the disposition of individuals caught in the act of improperly securing railroad transportation, so that it is entirely unnecessary for brakemen to force delinquents to alight between stations at the risk of their lives. Worthless though ride-stealing tramps usually are, they are none the less human beings, and railroad men are not at liberty to condemn them to summary capital punishment for these offences against the ticket office.

THE YORK PIONEERS.—It has been the custom for years back for the York Pioneers to hold an annual excursion. This year Guelph was considered to be a favorable place and this morning Mr. Wm. Lee, the chairman of the committee, Mr. W. H. Doel, treasurer and Mr. Smith arrived in the city to see what arrangements they could make for a pic-nic. They were met at the station by Mayor Stevenson, Ald. Hewer, Ald. Smith and ex-Ald. Goldie, who escorted them through the city, taking them to the Exhibition grounds, and to the private grounds of Mr. Goldie and Col. Macdonald. The committee will visit the Agricultural College this afternoon, and will be accompanied by some of the above mentioned gentlemen. Should it be decided that the pic-nic will be held here, it will take place on the 22nd of June, and will consist of 900 or 1000 persons. They will bring no lack-er refreshments.

COMPLIMENTARY.—The Elora *Express* has the following complimentary notice in reference to the Misses McLaren, of Guelph, at a concert held there recently:—"The star of the evening, of course, was Miss Laura McLaren, of Guelph, whose violin solos were so much admired and so highly appreciated as to bring her back after each number in a loud and prolonged encore. The young lady's playing proved that she has thoroughly mastered the "king of musical instruments," and a second visit to Elora would undoubtedly draw for her a good house. Through oversight or neglect a vote of thanks to Miss McLaren was omitted, which is unfortunate. The *Express*, therefore, in the name of those present, takes the liberty of stepping forward and thanking Miss McLaren for the manner in which she entertained the audience, assuring her that her music was thoroughly appreciated and heartily enjoyed. Miss Sarah McLaren also deserved the thanks of the audience for the manner in which she presided at the piano during her sister's playing."

ALLEGED TO HAVE DEPARTED.—The Galt *Reporter* says:—"Mr. Smith, proprietor of the Alpha Roller Rink, on the Dickson Park in Galt, is said to have left for parts unknown. While here he tried to make the rink a success and certainly was very attentive, furnishing much amusement to those who attended. Our information is that he did not lose money in his venture, but that the receipts and expenditures were just about equal. Monday evening the proceeds taken at the gate from those who attended the games, were to be divided up amongst those who got up the sports. Whether they were so divided or not the gentlemen interested can best say; but prize-winners complain that the prizes gained by them have not so far been paid." Smith was well known in Guelph having first opened the roller rink in this city. Roller rinks have had their day. What with fires and the sudden departure of managers there are very few left in the country. Smith was in Guelph on Monday night.

ALLEGED INFANTICIDE.

The Inquest Shows the Child was Born Alive.

SARAH TOWLE SENT UP FOR TRIAL.

Last evening Dr. Herod, Coroner held an inquest on the body of the female child found in the loft of the shanty of James Towle on the Brock Road, near Hamilton's hotel, which had been given birth to by his daughter Sarah on Saturday, and is supposed to have been murdered.

The following jurors answered to their names:—Fred Knowles, George Stull, John Ogg, James Keleher, John Hackney, D. Spence, John Downs, Daniel R. Rowen, David Tripp, Ed. Tovell, Wm. McLaren, Bernard Hughes, Sam. Moffatt, W. H. Cutten, Hugh McDonald, The jurors chose Ald. W. H. Cutten as their foreman, after which they were sworn in, and Coroner Herod charged them on the graveness of the case with which they had to deal. The jurors then visited the body of the child lying in the Drill Shed.

Dr. Keating was the first witness, and read to the jury a full written statement of all that he knew about the case, together with the results of the *post mortem*. He described the condition of the woman when he was first called in. She told him that she had a miscarriage at three months, but on examination he found undoubted evidence that the child must have been one of seven months, if not more. She acknowledged that she felt life for several months. The doctor urged her to tell where the body of the child was, but she declined again and again to do so. With regard to the *post mortem* he found the child fully developed, measuring 21½ inches in length, probably weighing 8 or nine pounds, and having every appearance of having arrived at full time. A napkin was tied tightly around its neck and deeply indenting the flesh. The examination of the lungs showed that they had been inflated and that the child had breathed. They criplitated under pressure of the finger, and also floated freely when ten pieces were placed in water. The body was not decomposed. They weighed 648 grains, which was heavy. On examining the head and face they were found livid and congested. On the frontal bone of the left side, an inch above the eye, was a wound as if made by a blunt instrument. From the ear on the right side blood had been exuding. On removing the scalp a large clot of blood coagulated ⅜ of an inch thick, and extending over the whole convexity of the skull. A fracture of the skull was also found extending almost from an inch behind the ear to the opposite side. On removing the skull cap a thick layer of coagulated blood was formed covering both hemispheres of the brain. There was also a large clot at the base of the brain. From the examination he was prepared to say that the child was born alive and breathed, that the injuries found on the skull were caused by violence, and think that the ligature around the neck was placed there while the child was still living—this probably after the injuries to the head had been inflicted. It is just barely possible that the injuries to the head might have been produced accidentally, if the girl were delivered of the child standing and the child was forcibly expelled when she was in that position. The cord had not been severed or cut. The ligature in itself was considered enough to cause death without the injuries on the head.

Dr. Keating was questioned by the Coroner and the jury in regard to the injuries to the head being accidental. He explained that there was a possibility, but he did not think it probable. From the wound it would appear that the child had been struck by a flat board on the head, or might have been expelled violently on the rough floor. The after-birth was attached to the string, which was unusual.

Chief Randall sworn, said that yesterday afternoon he had received a note from the County Crown Attorney to investigate a concealment of birth at the house of one Towle on the Brock Road; saw the old man outside his house; asked him if he knew anything about his daughter having a child, and he said he did not; went into the house and found a sister of Sarah Towle's, who said that Sarah was in bed; went into the room; Sarah asked me if Hudson had sent me there; asked who Hudson was and she replied, my brother-in-law, and he had very little to do to send a doctor as I did not wand one; asked where the baby was; she denied having one, and said she was only unwell; The witness here described the finding of soiled clothes, after which Sarah acknowledged to having a three months' miscarriage, but she still denied having a baby. A description was then given of the finding of the body, which appeared yesterday. A working man and Sarah Towle's sister, Mrs. Hudson, and old Mr. Towle were about the premises; the latter said that he knew nothing of his daughter's condition beyond that she was sick; he gave me permission to search the house.

James Towle, sworn, said:—Am a laborer and live on the Brock Road, in Puslinch Township; my wife is in the London Asylum, I hear; she was first in the one at Kingston; Sarah kept house for me off and on for ten years, with the exception of when she was hired out; she is not married, but has a child about three years old living with me; she has been steadily with me for the past nine months; never thought that she was to have a child; my daughter was not up when I left for work on Saturday morning; got the breakfast myself, Sarah saying that she was not well; knew nothing nor suspected nothing of my daughter's condition; came home from Hamilton's on Saturday afternoon and found her still in bed and no one in the house; the boy was dressed when I came back; asked her what was wrong and she told me she wasn't well; Mrs. King, a neighbor, told me that Sarah had a periodical trouble; this was about four o'clock and I came home between seven and and eight at night; undressed the child and put it to bed; got my own tea; Mrs. Hughes came in on Saturday before Mrs. King, and asked for the loon of a spool of thread.

The foreman asked the coroner if it was his intention to call any evidence. He (Mr. Cutten) and the jurors, from the testimony given by Dr. Keating, could do nothing but send the case up for trial.

Dr. Herod remarked that was so, but at the same time he thought it would be better to adjourn until such a time as Sarah Towle would be able to attend the inquest and listen to the charge made against her. He was also desirous of having the person present who bandaged the woman. Dr. Keating said that it was skilfully done, and it was impossible for her to do it herself. Accordingly the coroner adjourned the inquest to next Thursday. The jurors were then bound over for their reappearance on that date.

During the holding of the inquest Sarah Towle and her father were brought into Guelph. The former was not deemed in a fit condition to be present and was sent to the jail, the coroner giving instructions for her comfort.

KNIGHTS OF LABOR.

Opening of their New Hall in McQuillan's Block.

Since the organization of the Knights of Labor in this city they have held their assembly in the Good Templars Hall. Owing to the increase in their membership, and the number of meetings they hold, a committee was appointed to look for larger and more commodious quarters and after inspecting a number of halls they completed arrangements and leased the large hall in McQuillan's block, formerly occupied by the Oddfellows' Lodges. The room was put in the hands of a committee who have had it completely renovated and cleaned, making it one of the finest of its kind in the city. After its completion an entertainment for its formal opening was mooted among the Knights, and arrangements were at once entered into with a number of vocalists of the city, and their services obtained. Last night the entertainment took place, and consisted of singing, addresses, readings and recitations. The room was comfortably full and the programme was heartily enjoyed by all. Shortly after eight o'clock the chairman, Mr. E. J. O'Brien, accompanied by Mayor Stevenson, entered the room and took their places on the platform. Mr. O'Brien in a few remarks welcomed those present to the opening of the new hall and hoped they would all be pleased with the entertainment. He then alluded to the organization of the Knights of Labor, and gave a synopsis of the objects of the Order. It was an Order for the elevation and education of the workingmen, to enable them to raise themselves up and be a power in the land. The Order does not recognize Anarchism or Socialism. Instead of using bombs or revolvers as was done in Chicago, in which a large number were killed and mangled, their difficulties, when they had any, were settled by arbitration. The time has now come when the working man has become a power in the land. At the present time the Order claims 650,000 of a membership. The laws of the Order do not conflict with civil or religious liberty and are framed for the good of its members. No hotel-keeper, brewer or bartender can become members, as temperance among its members is one of the cardinal virtues. No lawyers, bankers or brokers are wanted in its ranks. Lawyers especially are not wanted, as according to the laws of the order all its difficulties can be settled by the members among themselves. He then appealed strongly to the young ladies present to organize an assembly for the elevation of themselves. The order was down on the manner in which they were treated by their employers. Young ladies enter the establishments of milliners, dressmakers, etc., and serve a six months time and receive no wages and they are descharged to make room for others to work on the same terms. Is this fair? The Knights of Labor say no. Their motto is a fair day's work for a fair day's pay. He appealed to the young ladies to organize and stand up for their rights, and called on the parents to encourage them in their attempts to better themselves. Since the formation of the Order workingmen were better educated than they were 10 years ago and the labourer received a fairer share of capital. He concluded his address hoping that the day was not far distant when there will be greater harmony between labor and capital.

The musical portion of the programme opened with a duet by the Misses Stevenson which was sung in their well known style. Dr. McPhatter's recitation "Clarenie's Dream" was well received; the Misses Cosford then favored the audience with a duet, "Over hill and over dale" in a charming manner. Mayor Stevenson next delivered an excellent address, in which he congratulated the Order on their fine hall and the large number of their members. He then spoke of the workings of the Order as far as he was acquainted with them—not being a member. From their laws he quoted a number of the sections, and enlarged considerably on them and said that if these were lived up to it would make better men of them all. He was glad to see the workingmen banding themselves together for their education, and hoped the Order would go on and prosper, as he was in full sympathy with the workingman and his family. He congratulated the Knights of Labor on the temperance features of the organization, and its efforts to secure for women equal wages with men for equal work. His address was full of advice to the Order, and was well received. The second part of the programme opened with a solo by Miss Doran followed by a reading by Mr. D. Spragge. A duet "Merry girls" by Miss Cosford and Miss Oldham; solo "For you we are praying at home", Miss Cosford; solo "We are floating on the ocean", Miss Brandon; Irish song and sketch, John Sheehan, "How Paddy stole the rope"; solo "Wild flowers", Miss Oldham, were all well given and highly appreciated. The accompaniments were played by Miss L. Wheatley in first-class style. Mr. O'Brien again thanked them for their attendance and intimated that another entertainment would be given shortly. "God save the Queen" brought a very pleasantly spent evening to a close.

The hall was beautifully decorated with the British and American flags, red, white and blue bunting, oil paintings, flowers, etc., and presented a handsome appearance.

The Fishery Question.

WASHINGTON, May 27.—In the Senate Mr. Miller submitted the conference report on the Bill "abolishing certain fees, etc., in connection with American shipping." This is the Bill containing the Frye amendment authorizing the President to deny by proclamation, to vessels of foreign countries, such privileges as are denied to American vessels in such foreign countries. The report was concurred in.

The Treasury Department has decided that cans containg lobsters are not entitled to free entry.

All the executive departments were represented at the Cabinet meeting to-day. The session lasted about three hours and was mainly devoted to the consideration of the Canadian fisheries trouble.

THERE was quite a heavy hoar frost again this morning.

Sporting Notes.

BASEBALL.

Poor Toronto. We feel sorry for her—yes very sorry.

Zell and Purvis will be the battery for the Maple Leafs to-morrow in the match with the Ann Arbors.

Toronto beat Detroit, Hamilton beat Toronto, Buffalo beat Hamilton, and Guelph beat Buffalo. That's how Guelph stands.

After all Toronto's blowing about their drawing abilities, only 1000 spectators assembled to witness the game between Toronto and Hamilton yesterday. In two games last week in Hamilton, Rochester only got one dollar over their gurrantee.

The great Ann Arbor-Leaf game to-morrow. The manager is giving the boys quite a sweat to-day in anticipation of a hard struggle to-morrow.

The *Mail* must have made a mistake when it spoke about the Hamiltons joining the Western Ontario Amateur League. Clearly it was the Toronto's that were intended.

The Hamilton club gave the Toronto's a terrible licking in Toronto yesterday, to the tune of 13 to 5.

	R.	BH.	E.
Hamilton	13	11	5
Toronto	5	1	15

A fourteen innings game was played in Oswego on the 27th, between the club of that place and the Binghamton's:—

	R.	BH.	E.
Oswego	10	11	11
Binghamton	9	10	12

The race for the Epsom Grand Prize for 3-year-olds was run at Epsom Thursday, and was won by Lord Alington's bay colt Candeemas, Lord Bradford's chessnut colt Sir Haino being second, and Y. R. Graham's brown colt St. Mirin third. There were eight other starters.

The annual race meeting of the Canadian Wheelmen's Association, being the fourth since its organization, will be held in Montreal on the 1st and 3rd of July, on the Shamrock Lacrosse Grounds quarter-mile cinder track.

Oswego, of the International League, play in Guelph on the 9th and 10th of August.

COMPLAINTS are still being made about cows running at large on the streets at the back of Horseman's hill.

THE Guelph Caledonian Society meet at Ellis' Hotel to-night. There should be a large attendance of members, as important business in connection with the games on the 1st of July will be discussed.

OUR fishermen will do well to bear in mind that by a recent alteration in the law the close season for black bass is extended to the 15th June, and that they cannot be legally caught before that time.

MR. ALEX. BUCHANAN, Galt, celebrated his 90th birthday, on Thursday of last week. There are now living in that town three generations of this gentleman's family.

Mr. A. T. H. Ball, of the well known legal firm of Ball & Ball, Galt, was attacked with paralysis on Thursday morning last, and has remained in a semi-conscious condition ever since. At latest accounts his condition is slightly improved.

THE Galt Caledonian Society, wishing to encourage the favorite Scotch game of football in Canada, are to give a valuable silver cup for a match between a picked team from the Western and one from the Central Association of Canada, to be played there on Friday, June 18th.

BASEBALL and cricket are fine games and are pleasing to look at when engaged in on a proper place, but when played on the public streets where people are in danger of being hit with the ball, their windows broken and their ears assailed with unbecoming language, it is about time the thing should be put a stop to.

GALT *Reformer*:—A young married woman in town who had some disagreement with her husband, took a dose of carbolic acid the other day, with the intention, as she alleges, of frightening him. The experience had the desired effect, but nearly cost the experimenter her life.

METHODIST CONFERENCE.—The Guelph Conference of the Methodist Church will be held in Goderich, commencing on Wednesday next. The members of the Conference will number about 200. Including the ministers of the three churches here, the following lay delegates will likely be present: President Mills, O. A. C., Ald. Smith, Messrs. D. Scroggie, E. R. Bollert, W. W. Kenney and E. Daniels.

DESECRATION OF THE SABBATH.—A correspondent writes complaining that a number of young fellows on Sunday gather around the Grand Trunk Junction, and the adjacent fields, where they engage in ball playing. They are not even content with this display of impropriety, but batter houses, cars and fences with stones, much to the annoyance and disgust of the people in the neighborhood. An interview with the Police Magistrate might have a beneficial effect on these rowdies.

GUELPH AT THE COLONIAL.—Mr. Joseph Tovell, who arrived home a few days ago from a short trip to the Old Country, says that he was greatly delighted with Canada's exhibit at the Colonial Exhibition. The display made by the Canadians fairly opened the eyes of the residents of the "sea girt isles" to the importance of the country and its vast resources. Astonishment was no name for their surprise. All with whom he came in contact had an idea that Canada was some insignificant place away near the north pole, and that the chief thing grown was wheat. The exhibits from all parts of the Dominion were so numerous that the space for individual exhibits had to be greatly cut down. He had not the pleasure of seeing Guelph's exhibit, and was informed that a great many similar exhibits had not arrived. The display of organs made by Messrs. Wm. Bell & Co. was one of the nicest in the musical department—without speaking partially, Mr. Wm. Bell, jr., is in charge.

Thursday afternoon at Kingston, Thos. Andre, aged 5 years, fell off Gunn's wharf and was drowned.

Cooke's church, Toronto, has extended a call to Mr. Wm. Patterson, just licensed by the Toronto Presbytery.

The Toronto street car strikers continue to augment their 'bus service and are meeting with good encouragement.

Parkdale, East Rosedale and Bloor Street Annex are seeking annexation with Toronto.

Three Bowmanville hotel keepers have already contributed $50 and costs for violations of the Scott Act.

The Evening Mercury

FRIDAY EVE'G MAY 28, 1886.

Amendments to the Franchise Act.

If our readers are not hearing so much about the Franchise Bill this session as they did last one, they are hearing enough of it in their own localities. The work in preparing the Voters' Lists for the Revising Officer's first court, and the additional work in getting information about parties who are to be appealed against at the second court, besides seeing to all necessary corrections that require to be made in the Lists, as first printed, furnish the electors—new and old—with a pretty good idea of the immense amount of work that this precious Bill entails. But it is again the subject of discussion in the House of Commons. A Bill is now before that House proposing several amendments to the Act of last session. These amendments are pretty much the same as those which the Opposition pressed upon the Government last session, but which they refused to accept. Now at this late hour they see and acknowledge that they are necessary for the proper working of the Act. Mr. McCarthy also proposed a long string of amendments, most of which were also suggested by the Opposition last year. All these amendments are calculated to improve the Act and lessen the difficulties in getting those properly qualified put on the list. We cannot well explain what they are at present but will give them in full when finally adopted. One very objectionable proposal by Mr. McCarthy was rejected by the House. That was to make certain changes qualifying two or three classes of electors applicable to this year's Lists. Had this been adopted the Lists would have had to be reopened even though some of the final courts were held, the whole preliminary work would have to be gone over again and an extra final court held sometime in July for putting new names on. The sense of the House was clearly against this proposal, and Mr. McCarthy's amendments, along with the others, will, therefore, not come into force until next January.

There probably never was a time in the history of the country when so many Members of Parliament were, directly or indirectly, interested in the legislation they are making or the bounty of the Government they are supporting; and any party movement to silence those who deem it their duty to enquire into the relations of members with incorporated companies having transactions with the Government, should meet with general condemnation.

The speaker of the British House of Commons is the first commoner in the kingdom, and always receives a peerage when he resigns, that he may not step back into the ranks. The Speaker of the House of Lords is the Lord Chancellor. If not already a peer, he is always promoted before he ascends the woolsack, and remains noble, of course, with his family, forever. The greatest of the lawyers is thus always a peer; but the most successful of his brethren are never ennobled, unless they have sufficient fortune to compete with inherited splendor.

All evidence goes to show that the recent outbreak in Belgium of the miners was caused by the desperation of despair. These poor men have on the average not been earning more thon fifty-five or sixty cents per day, and on this a miner found it difficult to maintain himself, his wife and his family. Coarse bread was his staple article of diet, given a relish with a few slices of raw onion. Whenever he obtained any other relish for his bread on working days, it was a piece or two of sausage made out of pork mixed with horse flesh. Several horses were slaughtered for this purpose at Seraing, every week, under municipal surveillance, and these animals the Liege correspondent of the London *Times* declares were "old, decrepid, tough, but not diseased." This article of food is "wholesome but nasty." Is it any wonder that the laboring masses of Belgium are on the eve of revolution?

In the United States there is a great outcry against the serious character of the competition which the cheese makers have met with in the European markets from the cheesemakers of Canada. Unless a change comes Bradstreet's declares that the American export trade in cheese is threatened with extinction. The receipts of boxes of cheese in the United States during the past season shows a decrease of 350,000 boxes from the season preceding. The exports of cheese from the United States in 1880 was 127,553,907 lbs.; in 1881, it was 148,041,026 lbs.; in 1883 it shrunk to 99,220,467 lbs.; in 1884 it increased to 112,869,575 lbs.; but last year it dropped again to 111,992,990 lbs. This renewed drop has alarmed the American exporters; and they point to the different results noticed in Canada. In 1875-76 the receipts of cheese at Montreal were only 545,679 boxes, while in the present season they amount to 1,220,337 boxes. The exports of Canadian cheese last year were 1,248,488 packages or within 400,000 of the entire export of the United States. That Canada is only a country of five millions and the United States one of nearly sixty millions must be remembered in appreciating the importance of the figures.

It is somewhat strange that the *Orange Sentinel*, published in Toronto, has not referred in the slightest degree to the O'Donohoe exposures made in the Senate, by which it was shown how Sir John Macdonald and Senators Frank Smith and John O'Donohoe made a bargain and sale for the Catholic vote in 1882. Yet it was the editor of the *Sentinel*, among other prominent Orangemen, who protested against Mr. O'Donohoe being taken into the Cabinet. The editor could give a true version of what passed between the Premier and him and his brethren on that occasion. But he preserves a discreet silence on the subject, no doubt for fear of injuring Sir John Macdonald. But he might at least follow the one-sided and dishonest course of the *Mail*, which in discussing the subject has carefully suppressed everything that would injure the Premier, and has also withheld his letter to the Catholic Bishops, which shows how he tried to humbug at the same time those who professed to represent the Catholics and those who professed to represent the Orangemen.

More Tariff Changes.

Ottawa, May 27.—Mr. McLelan moving the House into Committee of Ways and Means announced that certain changes would be made in the tariff, and that the following duties would be levied:

On oilcloth in the piece, cut or shaped, oiled, enamelled, stamped, painted or printed, Indian rubber, etc., five cents per square yard and ten per cent ad valorem.

Floor oilcloth remains the same as at present.

Straw boards 40 cents per 100 pounds.

Demijohns, or jugs, churns, and crocks, two cents per gallon of holding capacity.

Rubber belting, hose, packing mats, and matting, five cents a pound and 15 cents ad valorem.

Carriage hardware, 35 per cent. ad valorem.

Perfumes and toilet soap, 10 cents a pound and ten per cent. ad valorem.

Union collar cloth paper in rolls or shells not glossed or finished, 5 per cent ad valorem.

Union collar cloth paper in rolls or shells, glossed or finished, 5 per cent.

Nail plate, iron or steel, 16 guage or thicker, a uniform rate of 25 per cent ad valorem.

Paper hangings, or wall paper in rolls costing eight cents or under per roll of eight yards, 2 cents per roll.

Felt, a uniform rate of 17½ per cent.

Stereotypes and electrotypes, and bases made wholly or in part of type metal, 5 cents a pound.

Scythes, a specific duty of $2.40 per dozen.

Wire covered with cotton, linen, silk, or other material, 25 per cent.

Stove bolts and nuts, and all bolts and rivets of one quarter inch diameter and less, 35 per cent., the same as wood screws.

Handkerchiefs, a uniform rate of 25 per cent.

It is proposed to repeal item 353, in respect to colours, except in regard to ultramarine blue.

It is proposed to change the item in relation to jute cloth, which is now named at a width of 42 inches and to make the width 40 inches.

He announced that the resolutions regarding the sugar duties would be changed by making the increased duties apply to sugars above number 14 Dutch standard instead of 13 Dutch standard. It was also proposed to substitute the following proviso for item 40, Ways and Means Resolutions, provided that, when any cargo of sugar imported for refining purposes is found to grade part above 14, Dutch standard, in colour, such part, to the extent of not exceeding 15 per cent of the whole cargo, may be admitted to enter by the polariscope test.

It was proposed to amend the schedule of export duties by increasing the duties on the following articles:—Shingle bolts, $1.50 per cord of 128 cubic feet.

Spruce logs, $2 per thousand feet, board measure.

Pine logs, $3 per thousand feet, board measure.

It was proposed that the power vested in the Government in Council to repeal certain import duties, shall be extended to the repeal of the export duties on saw logs if found advisable and necessary.

Then it was proposed that the importation and manufacture of oleomargarine, butterine, and all other substitutes for butter should be prohibited under a penalty of not less than $200, and not more than $400, and the forfeiture of the goods and of the machinery used in their manufacture.

American.

Snow is reported in Vermont and danger to crops is feared.

The General Assembly of the Southern Presbyterian church has, by a vote of 137 to 13, adopted a report declaring the doctrine of evolution antagonistic to Scripture teaching and dangerous to the faith.

Montana ranchmen are reported to be driving their cattle into Canada for the purpose of occupying ranches in the neighborhood of Calgary and McLeod.

Reports to the United States Fish Commissioners state that the attempt to propagate lobsters artifically has completely succeeded.

The United States dynamite works at Tom's River, N. J., exploded Thursday when two men were killed.

The master carpenters and manufacturers of the Wood Building Materials Company, Chicago, adopted a resolution declaring the eight hours' system a failure, and announcing a return to the ten hour scale on June 1.

Forty-seven hoisery manufactories of Philadelphia, employing over 12,000 hands, have organized for mutual protection an association to be known as "The Associated Manufacturers of Hoisery and Knit Goods."

Foreign.

Lord Rosebery recommends that the blockade of the Greek ports be raised.

It is reported that the betrothal of Princess Louise of Wales and Prince Oscar of Sweden will be soon officially declared.

A dynamite factory at Valencia was destroyed Wednesday by an explosion, which also killed twelve men.

Thunderstorms have been raging in Germany for three days. Many persons and hundreds of cattle have been killed.

The eruption of Mount Etna has increased to such an extent that the destruction of the town of Nicolosi is regarded as inevitable.

The Czar and Czarina arrived at Moscow, Wednesday, on their return from Livadia, and were welcomed with great pomp and ceremony at the Kremlin, where an address was presented by the Governor of Moscow.

Toronto's Great Musical Festival.

On June 15, 16, 17, the City of Toronto will join the ranks of those cities which have shown themselves centres of art, culture, and enterprise. A monster Musical Festival will be held during those days, consisting of one matinee and three evening concerts. It is owing to the energy of Mr. F. H. Torrington, for many years conductor of the Toronto Philharmonic Society, that this great musical event has been organized. An Association has been formed of representative citizens of Toronto, of which Mr. George Gooderham is Honorary President, Mr. Samuel Nordheimer, President; Messrs. James B. Boustead, J. Herbert Mason, and Philip Jacobi, Vice-Presidents; Mr. James McGee, Treasurer; and Mr. John Earls, Honorary Secretary. The public spirit and energy of these gentlemen has resulted in a guarantee fund of $35,000 being raised and in the arrangement of programmes which have not been excelled in any of the large cities of the United States.

The immense Rink of the Caledonia Curling Club on Mutual Street has been rented for the Festival Concerts, which will be given by a chorus of a thousand voices, selected from over twelve hundred applicants, assisted by an orchestra of one hundred musicians, selected in Canada and the United States, while at one of the concerts a chorus of twelve hundred children, selected from the Public and Separate Schools, will be the chief attraction. These choruses have been in active and enthusiastic rehearsal for the past four months, and have reached a degree of efficiency which augurs well for the artistic success of the Festival.

The array of solo talent is numerous imposing. Contracts have been made with Fraulein Lilli Lehmann, soprano of the Court Opera, Berlin, Germany; Mrs. E. Aline Osgood, of Philadelphia, and Mrs. Gertrude Luther, of Buffalo, ladies who stand in the front rank of oratorio sopranos in America; Miss Agnes Huntington, of New York, the ideal contralto of America; Mr. Albert L. King, New York, the favorite tenor; Mr. Max Heinrich, baritone, of the Theodore Thomas Concerts; and Mr. D. M. Babcock, the greatest basso in America.

In addition to these celebrated vocalists, the following instrumentalists, foremost in their respective departments, have been engaged: Herr Otto Bendix, Boston, pianist; Mme. Josephine Chatterton, Chicago, harpiste; Mr. Frederic Archer, New York, organist, and Herr Henry Jacobson, the celebrated violinist.

The concerts will embrace: Tuesday evening, June 15th, Gounod's great Sacred Trilogy, "Mors et Vita" (Death and Life). Wednesday afternoon, June 16th, Festival Matinee, consisting of vocal and instrumental selections. Wednesday evening, June 16th, Handel's Sublime Oratorio, "Israel in Egypt." Thursday evening, June 17th, Children's Festival Jubilee and Miscellaneous Concert.

Parties living at a distance may secure reserved seats by application in writing, enclosing the necessary funds in cash, P. O. order, or bank draft to the Hon. Secretary, John Earls, 14 Adelaide Street East, Toronto, from whom official programmes, with plan of the hall, may also be obtained.

The prices have been placed within the reach of all, being for season ticket (reserved seat on ground floor) to all (four) concerts, $5.00; season ticket (reserved seat in gallery) to all (four) concerts, $6.00; single ticket, reserved seat on ground floor, each concert, $1.50; single ticket, reserved seat in gallery, each concert, $2.00; single admission to each concert, $1.00. Applications by letter should indicate whether seats are wished on ground floor or in gallery, and should be made early to ensure good seats.

The latest remedy for coughs, colds, croup, whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound so do not say you have taken everything until you have tried this, for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Sold in 50c and $1.00 bottles by T. A. Petrie, Druggist.

TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, endorsed "Tenders for Work," will be received at this department until noon on

Thursday, June 3rd,

For the erection of Farm Buildings at the Agricultural College, Guelph.

Plans and specifications can be seen at the College, Guelph, on and after Monday the 24th instant, where forms of tender can be procured.

The lowest or any tender not necessarily accepted.

Each Tender must be accompanied by an accepted bank cheque for Three Thousand Dollars, which will be forfeited if the party tendering declines or fails to enter into a contract based upon such tender when called upon to do so.

Where the party's tender is not accepted, the cheque will be returned.

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Bargains in Dress Goods.
Bargains in Tweeds and Cloths.
Bargains in Parasols.
Bargains in Hosiery and Gloves.

CHAPTER XXXIII.

AFTER ALL.

It was impossible not to comprehend the difference in his voice as he called himself the weakest fool in creation, and as he had taken upon himself the blame of his ill-judged marriage with herself. She heaved a sigh as she heard him, and half smiled as she again asked herself how she could ever have planned or hoped to turn his love from Helen. What it was he could almost have done she knew well, and she dared not ask him to finish his sentence.

"What made her leave the first train," she asked presently, her curiosity conquering her apprehensions.

"An impulse. She thought that instead of going to London she would go into the country."

Again she was silent. She felt as if standing on the edge of a volcano. The cause of Helen's leaving home at all was very prominent in her mind, and as it was probable that Percival knew now, it must be in his mind. She dared not say anything more. Instinct told her that if she once provoked him to speech, despite his politeness and deferential bearing, his assumption that he was more to blame than she, she would for once hear the truth, and she dared not hear it.

The silence continued. Alice began to grow nervous. Why would he not speak? He stood there, she knew that he was looking at her, and she dared not meet his eyes. She felt that he knew what was in her thoughts. Would he be silent, or would he say in the light, easy tone which she knew he was capable of assuming—

"Perhaps it would interest you to know why my wife left home at all. I never knew till yesterday."

She shivered. The question whether he would spare her or demand full reckoning made her heart throb till she could hear it beating. His gaze fascinated her. Either she must raise her eyes to his and let him read in them all she longed to hide, or she would hide her face in her hands and so betray herself.

She could bear it no longer, and rose, saying—

"We have been talking a long time, and I am tired. If you don't mind, I will say good night."

She offered him her hand, and he took it, saying—

"Certainly; we can finish to-morrow."

Her fear conquered her. She dropped his hand stammering—

"Finish—to-morrow—have we not said all?"

"Have you no plans?" he asked with a half smile. "You will allow me to offer you my help in arranging them."

His words were such a relief after what she had expected that for a moment she could not speak; and she leaned her hand heavily on a table for support.

"True," she said at last, "I had forgotten, but they will not occupy us long. Good night."

CONCLUDED TO-MORROW.

Guelph Oddfellows and the Excursionists.

To the Editor of the Mercury.

SIR,—As a rule I think it unnecessary and unwise to pay any attention to anonymous letters in the press, especially when the character and reputation of a society or private individual is assailed and the assailant has not the moral courage to sign his name to his assertions. A letter of this description appears in Tuesday's issue of the MERCURY, and it should probably have remained unanswered, but for the persistent manner in which certain parties continue to circulate the report that the Oddfellows of Guelph were interested in the disposal of beer at the Exhibition grounds on the 24th May, one person making the assertion to-day that a committee had been appointed from the Lodges here to assist in receiving and entertaining the excursionists, and to my astonishment I found I was a member of the committee. I will now, for the benefit of your anonymous correspondent, state that there is no connection whatever between the Order that came here on the 24th and the Oddfellows of Guelph. As Secretary of Progress Lodge hare, I say that no communication was received by us in reference to the excursion, and that the Lodge was as ignorant of the arrangements being made as I suppose your correspondent was. No committee was appointed, and as for myself I was not aware till ten o'clock on Monday night that there had been beer on the grounds, my time being fully occupied with my duties as School Trustee in assisting at the games provided for the children. Trusting this will satisfy your correspondent and induce those busy bodies who are as regardless of others' characters as they are of their own to be more cautious in future of the assertions they make.

Yours truly,
CHAS. COTTIS.

Guelph, May 28, 1886.

Saturday Night Shopping.

To the Editor of the Mercury.

SIR,—There is a very unkind, cruel thing being done every week in this city. It is more likely the result of thoughtlessness than of any deliberate wish to hurt or injure the helpless; nevertheless the evil goes on unarrested week after week and Saturday night succeeding Saturday night. We are commanded to keep the Sabbath day holy, which certainly implies that if we are to 'love our neighbor as ourselves' we are to aid others by every means in our power to do the same. Is it so doing when through carelessness or disinclination purchasers who might have transacted their business during the day put it off until a late hour on Saturday night, thereby compelling sales-people to work until a very late hour? They may quite frequently be seen wending their weary way homeward after eleven o'clock. A great number of these are ladies and some appear quite delicate. How can these enter into or take part in the usual Sabbath rites, which is the pleasure and privilege of every Christian? They can only rest their weary bodies and feel thankful that they have a "Father in Heaven who has a feeling for our infirmities."

This late Saturday shopping sets at naught the great golden rule "Do ye unto others even as ye would that they should do unto you." It is useless to ask the merchants of the city to close their places of business at an early hour, and they could hardly be expected to shut their doors in the faces of customers, when we all know the competition that exists and how anxious they are to exchange their goods for dollars and cents. The root of the evil lies with the citizens who buy, and it is in their power to pluck it up and cast it from them. It would be an easy matter to them, and what a boon to the wearied ones! If those in whose hands the remedy lies would make this move in the cause of right, they would be amply rewarded by the approval of their own consciences, by the blessings of the aided sufferers, and, lastly, but not least, by the approbation of their God, who has promised that even a cup of cold water given to a disciple in his name shall not lose its reward.

Yours truly,
AN OBSERVER.

Guelph, May 27.

A WELL EARNED HOLIDAY.—The Montreal *Journal of Commerce* of a recent date says: Mr. George Feek commenced business as a plumber in Guelph about twenty years ago. Some three years since he took into partnership a former employee, Mr. Wm. Kirkwood, and now he has sold his interest in the firm to Mr. Robert W. Phillips, a long resident of the city and a good workman. Mr. Feek thinks his long and close attention to business during two decades has entitled him to a holiday, and he intends to take it by visiting his mother country and doing the Colonial Exhibition.

IRISH HOME RULE.

Mr. Gladstone Announces Certain Modifications in His Bill.

DISSIDENTS RETURNING TO HIS SUPPORT.

LONDON, May 27.—The general Liberal meeting called by Mr. Gladstone assembled at the Foreign Office this afternoon. The meeting was well attended by the Premier's supporters, but none of the known Hartington or Chamberlain dissidents were present. Mr. Gladstone was cheered when he entered. He at once proceeded to the business on hand, and announced that the Government had decided to modify [clause No. 2] of the Home Rule Bill, excluding Irish representatives from Westminster, providing the Bill passed its second reading and was referred to a Select Committee for action during an autumn session of Parliament.

The meeting cordially approved of the position taken by Mr. Gladstone. The Premier's followers now express themselves as sanguine of the success of the Irish policy. They do not speak as if they feel at all that any concessions have been made to the Chamberlain and Hartington followers, but maintain that Mr. Gladstone has defined the Government's policy in a way so clear and satisfactory that Liberal waverers can no longer withhold their approval and must rally to the Premier's support. This, it is thought by the Government party, must result in practically breaking down the so-called dissident opposition.

Mr. Gladstone declared he would at the autumn session of Parliament introduce an amended Home Rule Bill. A number of the Liberal dissidents who did not care to risk compromising themselves by attending the meeting have hailed with undisguised satisfaction the attitude of apparent conciliation adopted by the Premier. Those now openly proclaim their intentions to return to their party allegiance and vote with the Government for the second reading. Among the first to announce their return have been John Fletcher Moulton, Radical member of Parliament for Chapman, and Samuel Whitbread, Liberal member for Bedford. Both were adherents of Lord Hartington before to-day's meeting. Both have since announced themselves as supporters of Mr. Gladstone. Mr. Whitbread's accession is perhaps the most influential that the Premier could have desired. He is the gentleman referred to as a wise counsellor by Mr. Gladstone in his great speech introducing the Home Rule Bill on April 8, and by reason of his high character and sound judgment has long been a conspicuous member of the Liberal party. Besides the above-named, a number of other dissidents have openly pronounced themselves satisfied with Mr. Gladstone's present attitude and the concessions he has promised to make, and declared their intention to vote for the second reading.

Two hundred and fifty members of Parliament attended the meeting.

At the conclusion of Mr. Gladstone's address Mr. Lewis Llewelyn Dilwyn, (Liberal) M. P. for the town of Swansea, declared that he had been authorized to speak for the Welsh dissidents under certain contingencies. He now felt justified in making a declaration, and that was that the concessions offered by the Premier were acceptable to the Welsh dissidents, and were by them accepted, and he (Mr. Dilwyn) now assured Mr. Gladstone of the united support of all the Welsh members.

Among the other speakers who announced their approval of Mr. Gladstone's position were Joseph Arch, the protege of Mr. Chamberlain (Radical), agricultural member for Northwest Norfolk; Alfred Illingworth (Liberal), member for West Bradford; John Brinton, (Liberal), member for Kidderminster; Joseph Rushton, (Liberal), member for Lincoln City; Wm. Rathbone (Liberal), member for the Arfon division of Carnarvonshire; Charles Bradlaugh (Radical), member for Northampton Borough, and a number of others. The meeting adjourned with three cheers for Mr. Gladstone.

Mr. Chamberlain and his followers will hold another meeting to-morrow to decide upon their attitude with reference to the proposed modifications of the Home Rule Bill. The proposed modifications include provisions for a full representation of Ireland when the House has under discussion the army and navy estimates, votes of credit for war purposes, foreign treaties, fiscal changes, affecting the customs and excise of the United Kingdom and votes for the maintenance of the Royal family.

At a meeting of Irish Peers held to-night at the Duke of Abercorn's residence it was resolved to strenuously oppose Mr. Gladstone's scheme for self-government for Ireland.

A conference of ladies was held to-night, at which delegates from the Ladies' Liberal Association were present from various towns. It was resolved to form a Central Association and extend the movement.

At an informal conference this evening the Parnellites agreed to accept Mr. Gladstone's proposal to read the Bill secondly and postpone the committee stage until autumn. They were also inclined to agree to the proposed modifications, if the amended clause should be found under scrutiny to imply no encroachment on the privileges of the Irish Parliament.

It is estimated that twenty more votes are required to carry the Bill through the second reading.

Rev. Mr. Spurgeon publishes an attack on Mr. Gladstone's Home Rule Bill.

At a meeting of Ulster Protestants at Dungannon, resolutions were adopted expressing gratitude to Mr. Gladstone, hoping that he will be successful, and promising him support in the event of a new election.

Foreign.

Cholera has appeared at Udine, in Italy.

The Queen arrived at Perth Thursday morning on her way to Balmoral, and was given a very hearty reception.

Mr. Arnold Morley, the senior Government whip, says the second reading of the Home Rule Bill is now certain.

Cholera is reported to be increasing in Southern Japan.

The streams and watercourses in the neighborhood of Etna have dried up, and a water panic prevails.

Henri Rochefort has written a play founded on the Fenian invasion of Canada.

The London *Times* admits that Canada has law on her side in the fisheries dispute.

The London Hydrophobia Commission's experiments with the inoculated rabbits, sent by M. Pasteur, prove that the virus with which the rabbits were inoculated is the true virus of rabbies.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carleton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. B. Petrie's Drug Store.

SAYS the *Express*:—About six amateur photographers from Guelph and Hamilton came to the village on Monday and took views among the rocks. They were much pleased with the scenery here and will no doubt be the means of inducing other visitors to come to Elora.

ONLY 60c. YES, 60c.

CORSETS.

Ladies we have made arrangements with a large factory to supply us with a Corset which we intend selling at

60 CENTS.

This Corset we are satisfied is as good as many corsets sold in the City at from c. to $1.00 per pair. They are

WELL MADE AND SHAPED

and are made of an

EXTRA QUALITY OF OLD GOLD JEAN

We anticipate a large run for this Corset at 60c. Our first lot is now to hand in all sizes. See them before you buy.

RYAN, BERKINSHAW & Co.

Our Dress and Mantle Department

Is proving a grand success. The ladies that we have made for, are delighted with the make and fit, and speak very highly of the ability of our Dress and Mantle Manager. She has had experience in one of the large houses in New York.

One trial will convince that we have secured the services of one who thoroughly understands her business.

RYAN, BERKINSHAW & CO,

Successors to John Hogg & Son.

The Knights' Convention.

CLEVELAND, May 27.—On the assembling of the K. of L. G. A. meeting this morning at 8 o'clock, the Committee on Laws presented their first report concerning many subjects. The first recommendation was that the Executive Board be increased by six members, so that the G. M. W. and the G. S. T. may be relieved to some extent and allowed more time to devote to the duties of their respective offices. The discussion of this proposition took up the time of the meeting until 12:30, as a strong feeling existed in favour of allowing the Executive Board to appoint such assistants as they may deem advisable and necessary in each State or Province. The matter was ultimately re-committed to the committee for the purpose of embodying this view. Two new committees were appointed, one to negotiate with the Grange Societies of the continent with the object of arriving at some conclusion as to how the latter may affiliate with the Order of the K. of L., and the other to take charge of all measures in which labour is interested now pending in Congress or which may hereafter come before the Congress of the United States or the Parliament of Canada. At 12:15 the session took recess until Friday morning at 8 o'clock, so as to give the different committees further time to prepare their reports.

Dominion Parliament.

OTTAWA, May 27.

In the House of Commons to-day the Bill respecting property in the Northwest Territories was read a third time.

The greater part of the afternoon was spent in committee on Mr. Chapleau's Bill establishing a Bureau of Printing and Stationery.

After recess the Bill was reported and read a third time, a motion for a six months' hoist being defeated.

Mr. McLelan moved the House into Committee of Ways and Means, and announced a number of tariff changes, including the prohibition of the sale and manufacture of oleomargarine, the readjustment of the sugar duties, and the increase of the export duties on saw logs.

Mr. Cameron (Huron) took this opportunity of substantiating some charges made in his speech on timber limits.

Mr. Somerville (Brant) moved for a committee to inquire into the charge made against Mr. Cameron (Victoria) of offering to procure a grant to the Erie & Huron Railway for a percentage.

Mr. Cameron (Victoria) having denied the charge the Speaker ruled the motion out of order.

The House then went into Committee of Ways and Means.

The resolutions were adopted, and the House adjourned at 2:45 a.m.

LAST week Mr. Wm. Clark, junr., of Nichol, sold 16 head of cattle at $74 each to Messrs. Neil & Henderson. The drove averaged 1,133 lbs. each, and aggregated 22,880 lbs.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

The Knights' Convention.

CLEVELAND, May 28.—The regular session of the General Assembly of the Knights of Labour commenced at eight o'clock this morning. After the roll call of members the Committee on Laws presented its report, the first paragraph of which recommended the addition of six new members to the Executive Board of the Order. After a short debate this was concurred in. It was determined that the permanent headquarters of the Executive Board be Philadelphia. All commissions to the organizers of the Order are to be recalled at once, and before others are granted applicants for the same will be required to pass an examination before a State or Provincial organizer appointed for that purpose. At the afternoon session the motion directing the Executive Board to advise all local assemblies to attach themselves to State or District assemblies was on division ordered to lie on the table until the October session. The Executive Board made a lengthy report pertaining to the causes which culminated in the calling of the extra session, and a motion being made to refer the same to the Committee on the State of the Order, a debate arose which continued up to six o'clock, when the session took recess until eight o'clock on Saturday morning.

Great Bargains in Furniture.

WE STILL LIVE AND ARE DOING AN immense trade, although we have had our heels dogged by unprincipled traders endeavoring to get manufacturers not to sell to us. See some of our prices and you will be convinced that we have the goods you are looking for. HOW IS IT?—The *Herald's* Hespeler correspondent has been pitching into the MERCURY correspondent for some time past, and accusing him virtually of writing untruths. The following paragraph from the *Herald's* voluminous correspondent will give a good idea of who is the most reliable. Last week the *Herald's* scribe says:—"Fine Bass—The Hespeler bay is at present known as the best fishing place in the Dominion for bass. His Honor Judge Chadwick, of Guelph, has caught a great number here." One of two things must be the case either that Judge Chadwick broke the law, for bass fishing does not commence until the 15th of June, or that the Judge was not fishing at all. The latter conclusion is the most reasonable.

MARRIED.

BAILEY—HAGGERTY—At the Church of Our Lady, Guelph, on the 27th May, Patrick Bailey to Susan Haggerty, both of Puslinch.

DEATHS.

HART—At Guelph, May 28th, Hannah Victoria, youngest and beloved daughter of Mr. J. Hart, aged 32 years.
Funeral on Sunday, 30th May, at 3 o'clock p.m., from the family residence, 29 Green street. Friends and acquaintances are respectfully invited to attend.

Higher Temperature.

Fresh to strong south and west winds; fair weather with a few showers in Northern Ontario; higher temperatures.

Local News

DUST was flying in blinding clouds today.

CHASE'S fountain is in working order today. It will be repainted as soon as possible.

MR. E. O'CONNOR and Thos. Webster were trout fishing in Puslinch yesterday and brought two baskets full of nice trout.

MR. WALTER LAING shipped from Rockwood recently, several car loads of fine export cattle. They were for Knox & Gould, Oshawa, and will be shipped to Liverpool.

NO SCOTT ACT THERE.—Says the Toronto *World*: The week closing to-day has been a dull one for business in Toronto. The Queen's birthday, the street car strike, and the unseasonable weather all tended to bring this about.

A windy contributor enters an editorial room. "Whew," said he, panting, "that long stairway makes me blow!" Editor—"Ah! if that's what makes you blow I'll have it taken down; I am glad you have discovered the cause."

THE Grand Lodge of the Canadian Order of Oddfellows meets at Drummondville on June 8th. Proposals for the reconstitution of Grand Lodge and the Board of Directors will be submitted, and other important matters will be discussed.

A. O. FORESTERS.—The increase of the Order, as shown by the annual directory just to hand, 13,789 financial (or benefit) and 946 honorary (or non-benefit, members. The Order is at present composed of: 1 High Court, 2 Subsidiary High Courts, 294 Districts, 4,930 Courts, 647,077 benefit and 14,917 honorary members, with upwards of $16,000,000 in funds. Canada shows up well in the increase of members and funds.

THEOLOGY IN THE LIBRARIES.—Mr. Wm. Kay writes to the *Globe* suggesting the propriety of the various Churches of the Dominion having their theological literature adequately represented in the public libraries of the large cities. Theology, he says, in the hands of able writers, is not "harsh and crabbed, as dull fools suppose," and suggests that the Methodists should not be allowed to have the field all to themselves.

RUN OVER BY A HAND CAR.—As Inspector John Wanless, accompanied by Messrs. Gordon, roadmaster, and Engineer Hertzberg, was inspecting the north section of the Teeswater branch of the O. P. R. on Thursday the hand-car in which they were riding was thrown from the track. The occupants were pitched out, and Mr. Wanless falling in front of the wheels was run over, receiving painful injuries. He was removed to his house in Parkdale. Mr. Gordon received a few bruises, while Mr. Hertzberg escaped uninjured.

ALTOGETHER TOO SAFE.—Some justices of the County of Huron distinguished themselves the other day at Bayfield by a very remarkable conviction. They convicted the accused of an assault and fined him $10, but (perhaps to make the fees quite safe) they ordered the complainant to pay the costs, and in default of payment of fine and costs, they directed that both defendant and complainant should go to gaol! This conviction will probably be quashed.

AN AGED SETTLER GONE.—Another octogenarian has passed away to join the silent majority, in the person of Mrs. David Cope, of the township of Dumfries, at the ripe old age of 82. She was born in the State of New York, and early removed to the township of Beverly, where she was married to her now surviving husband, Mr David Cope, in 1824. As ministers were scarce in those early days, she was married by a magistrate. Her maiden name was Patrick, and she was a sister of the mother of the late Chief Justice Wood.

CALEDONIAN SOCIETY.—Last evening a meeting of the Caledonian Society was held in Ellis' hotel to make arrangements for the annual celebration, Chief Bruce in the chair. There were little over half a dozen members present, who after a general discussion decided to adjourn the meeting until Monday night, when decided steps will be taken. The matter of having a grand concert on the evening of the first of July was discussed, and it was thought advisable to have the best talent that could be procured secured at once. A full turn-out is expected on Monday night, and all those interested in the welfare of the Society should be present.

COMPANIES INCORPORATED.—"The Southampton Mineral Water and Bath Company," with a total capital stock of one thousand five hundred dollars, divided into one hundred and fifty shares of ten dollars each, to purchase land at the village of Southampton, to erect bath houses, to fit them up, and to manufacture and sell mineral water. "The Union Hall Company of Rockwood," with a total capital stock of three thousand dollars, divided into three hundred shares of ten dollars each. "The Wingham Salt Well Company," with a total capital stock of three thousand dollars, divided into two hundred shares of ten dollars each.

ONTARIO MEDICAL COUNCIL.—On Tuesday, the election of a member of the Medical Council of Ontario, for the Saugeen and Brock district, rendered vacant by the death of Dr. Douglas, of Port Elgin, the late representative of the district, took place at Mount Forest. The district comprises the counties of Bruce, Wellington, Grey, North Waterloo, Dufferin, North Simcoe, Muskoka and Algoma. The voting was by ballot, the returning officer being Dr. Yeomans, of Mount Forest. There were three candidates, viz:—Dr. Henry, of Orangeville; Dr. Herod, of Guelph, and Dr. Jones, of Mount Forest. The vote stood:—Dr. Henry, 90; Dr. Herod, 44; Dr. Jones, 23. The former was therefore elected by a large majority. Dr. Henry has been Mayor of Orangeville for 5 years, enjoys a large and lucrative practice, and will make a useful member of the Council.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

READY mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

WHO is that stylish gentleman with the light suit and silk hat? asked our Magistrate of the Chief of Police. His name is Mr. Wilkie, cutter for B. B Hughes, 33 Lower Wyndham street, answered the officer.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

Our Dress Making department is in the hands of Miss Amiss, of New York. We are now ready to take orders. Ryan, Berkinshaw & Co. d

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

THE cases of Madden and Burns against the corporation of Arthur, has been appealed, and is now fairly in the higher courts for further adjudication.

BITTLE and Gilmour passed through Guelph with the early train this morning for Toronto. Both men stepped off at the platform, and presented a very sorry appearance. Bittle seemed to be the most cut up about the face.

THE FIRST WOOL.—Mr. Wm. Michie claims that he bought the first load of wool on the market to day from a farmer in Nassagaweya at 18c. to 22c. per pound. Ald James Hewer is of opinion that he bought the first load. Be this as it may he purchased three lots for 18 cents.

ST. GEORGE'S CHURCH.—On Sunday, the 30th inst., the Venerable Archdeacon Pinkham, of Winnipeg, Diocese of Rupert's Land, will preach in St. George's church at both services, and will also address the Sunday School at 3.30 p. m. in behalf of the urgent needs of the Diocese which he represents. The S. S. service will be held in the church and will be choral. d1

WORSWICK V. HOWLAND.—This is a Guelph case, and was heard in the Queen's Bench Divisional Court, on the 28th May, before Galt, J., Armour, J., O'Connor, J. Arnoldi, for the defendant, appealed from the judgment of O'Connor, J., at the trial of an interpleader issue. Guthrie, Q. C., for plaintiff, contra. Appeal dismissed with costs.

WOOLEN GOODS FOR THE MOUNTED POLICE.—Messrs. McCrae & Co., Millands, shipped some ten days ago, 500 pairs of drawers for the Mounted Police in the Northwest. Six hundred pairs will be shipped next week, which is part of a contract for 2,400 pairs. These goods are made of the best wool, and there is no doubt but when they are tested they will recommend themselves.

POLICE COURT.—J. Welsh was before the Police Magistrate this morning charged with assaulting John Marriott in the palace of the Exhibition grounds on the day of the Manchester Unity Oddfellows picnic from Toronto. The young man was under the influence of liquor and resisted Mr. Marriott from ejecting him from the building. He was fined $5, and costs amounting to close on to $3.50. Mr. Marriott did not prefer the charge of assaulting him as a ward constable which he is. It would be well for those who are liable to make a disturbance in the Exhibition grounds to remember the fact that Mr. Marriott is a constable, and that an assault on a constable is a very serious matter.

LAST night a large attendance of those interested in forming a baseball club at Birge's mills, Eramosa, met at the mill and proceeded to business. Mr. T. Sloan was called to the chair, and Mr. Geo. Nelson was appointed secretary, after which the following men were appointed, subject to change: Captain, Thos. Sloan, George Nelson, John Brooks, James Alexander, Chas. Robb, Wm. Couling, Jas. Thompson, Robt. Brooks, John Grieve, Andrew Blakely. The battery is Nelson, catcher, and J. Brooks, pitcher. The club was formed under the most favorable auspices, and is now ready to accept challenges.

THE YORK PIONEERS.—As was mentioned yesterday the committee of the York Pioneers, who visited Guelph for the purpose of ascertaining if it was a suitable place to hold their annual celebration, decided favorably. They were impressed with the substantial appearance of the town, and well pleased with their visit to the Agricultural College and other places of public interest which they visited. They expressed a desire that they would be more than pleased to make the acquaintance of all the old pioneers in this section, and extend to them a cordial invitation to be present on the 22nd June, at the Exhibition grounds, where it was decided to hold our gathering. The excursionists will likely be accompanied by the 10th Royal Band. On the arrival of the pioneers they will be welcomed by the Mayor and members of the Council who will present them with an address.

SIXTY YEARS SEPARATED.—The Kincardine *Review* says:—John Humes, uncle of Mr Wm. Reekie, has lived in this locality at least 33 years. He is now 80 years of age and lives in a house opposite the Walker House. Over 60 years ago he parted with his brother William, now 85 years of age. William has wandered all over the continent, and for years was employed by circus managers. Latterly, however, he has been living in the great state of New York. Little or no tidings of each other had been known to these brothers during their separation. Last week, however, John was surprised by receiving a visit from his long separated brother. Fancy, 60 years intervening since those two had clasped hands! What changes have evolved in that time. The meeting of these two tottering old men, standing on the brink of the grave, is said to have been most affecting. They are still engaged recalling youthful experiences and recounting the incidents of their respective lives, as well as they may, down to the present. Think of it! To be separated 60 years and meet in this life."

IS IT A FRAUD.—The Arthur *Enterprise* says:—Some time ago a man named Sutherland, a book agent, took a number of orders for a book called 'Picturesque Canada,' at sixty cents per volume, to be paid for as soon as delivered. Some of the parties who signed the orders, fearing there was something crooked in the transaction, came to Arthur on Tuesday last with a view of sifting the thing, if possible. In the evening they met with the agent who assured them that everything was all right, but in order to test the matter a telegram was sent to the supposed publishing company, but no satisfactory answer was received. Some of the parties were in favor of having the agent arrested, but others interposed and thought it best to watch his movements and await further developments. In order to prevent the escape of Mr Agent, several of the victimized volunteered to watch the wily agent, during the night, but notwithstanding and although they remained in the agent's room during the entire night, when his bed was examined in the morning, there was no occupant. Constable Munson was notified of the escape, and during the day, Mr Sutherland was arrested in Drayton, by Constable Flath, and brought here Wednesday evening. His trial on a charge of obtaining goods and chattels from Mr Robert Agnew, with intent to defraud, will occupy the court.

The latest remedy for coughs, colds, croup, whooping cough, bronchitis, etc., is McGregor's Lung Compound. There is no remedy in existence containing any one of the active ingredients composing McGregor's Lung Compound so do not say you have taken everything until you have tried this for your cold or cough, and your opinion will be the same as all who have used it, viz., that it is the best. Sold in 50c and $1.00 bottles by T. S. Petrie, Druggist.

THE parties in Guelph who sent conveyances to the street car strikers in Toronto, to-day received a cheque for the full amount due them up to date.

MR. G. D. WILSON, of Garfield County, Washington Territory, a former resident of Garafraxa, together with his wife and family, after an absence of ten years in that place, returned last night on a two months visit to his father, who lives on the 3rd con. Garafraxa.

ROLLER RINK.—This favorite resort will close for the season this evening. A grand promenade concert by the City Band will be given. The music will be of the best description; besides waltzes, quicksteps, etc., selections from the Mikado and other operas will be performed. Let there be a bumper house and give the band boys a good send off.

MARKETS.—This morning the market was well supplied with produce of all kinds and at reasonable prices. Butter in rolls brought from 12c to 14c per lb., and packed 10c to 13c. Eggs 9c to 10c. The grain market was small and current prices ruled. The green grocers did a thriving business in garden truck at good prices. The wool market opened this morning. A few loads were on the ground and brought 18c per lb, and good Southdowns as high as 22c, and unwashed 10c. By next week the market will be fully opened in the wool trade.

Greece has arranged directly with Turkey for a mutual disarmament, and virtually told the Powers they can do as they please about the blockade.

An Irish lady, owning property valued at nearly £500 a year, has applied to the Kilkenny Outdoor Relief Bureau for relief because she could not get her rents.

Mothers will find the pain killer invaluable in the nursery, and it should always be kept near at hand in case of accident. For pain in the breasts take a little Pain Killer in sweetened milk and water, bathing the breast in it clear at the same time. If the milk passages are clogged, from cold, or other causes, bathing in the pain killer will give immediate relief.

Interesting Letter From Australia.

To the Editor of the Mercury.

SIR,—During the last year I have been deluged with requests to contribute information on all kinds of subjects by anxious Canadian enquirers, whose eyes are directed toward the Southern Hemisphere through the agency of booksellers, implement men, etc., and as it would take all my time to answer them separately, I hope you will permit me through the columns of your widely-circulated journal to detail a few of the points upon which the general anxiety seems to verge.

How do Canadians stand the Australian climate?

Well, as a matter of fact, Canadians experience less inconvenience from this source the first three or four years of their residence than do the native born Australians. Their blood is richer and less watery, and their constitutions of that firm, solid, northern-bred character that extremes of heat and cold produce little effect upon. As I have observed on a former occasion, in New South Wales alone, owing to its vast extent and varied physical character, we have three climates totally distinct and different from one another. First, we have that of Sydney and the coast rivers, what may be called the Pacific slope. Here the heat is not excessive, but the humidity of the atmosphere renders it the most enervating of any part of the colony. In Sydney the thermometer, even in the height of summer seldom registers more than 90° in the shade, and in the winter frost is wholly unknown. As we travel the coast southward the temperature is a bit lower, and northward it gets naturally and equatorially higher, till in the corner where I am writing—the Richmond river—we are sometimes treated to as high as 115° in the shade; but that same moistness in the air is noticeable all along the coast district.

Back from the sea a bit, we come to the table land, varying from 1,000 to 3,000 feet above the sea level; and here we experience some roasting hot days in the summer, but almost invariably followed by cool, bracing nights. The heat too is clear and dry and affects one very little. The changes in temperature at times in this district are rapid and radical. I have seen in Goulburn the thermometer fall from 145° to 42° within twenty-four hours. In the winter these places get frosty nights and occasionally a foot or two of snow. Back west of the table-lands, on the Darling slope, we get into a different country altogether. Plains a hundred miles across, without a river, creek or sign of water of any kind, stretch monotonously before your gaze. There the annual rainfall is from 6 to 12 inches. There's no mistake about the summer heat in this part. For weeks together the thermal shade register is over 120° for at least six hours a day, while at night it never falls lower than 90°. Mosquitoes and other bed-furniture are abundant and vicious, and altogether life here is scarcely a Paradise. To ensure a good night's rest the residents usually fill themselves with whiskey and sleep on a wire mattress to allow the perspiration to run off during the night. Severe wind storms frequently occur in these parts, and they are no respectors of persons or things. I saw at Cannonbar the remains of a brick church that had been twice blown down, and I have seen fruit trees taken out by the roots and carried hundreds of yards by a sudden gust. But these winds have no cooling effect. On the contrary a hot wind is the very worst and most demoralizing kind of heat. One day whilst I was in Burke it blew very hard. A circus performance was abruptly terminated by the disappearance of the canvas; a fine powdery dust filled the air till you couldn't see six feet away, and the coolest spot in town at that time was 117°.

These, however, are only the climatic exceptions of time and place. The Australian climate, taken the year through, cannot be surpassed. For a month or two (according to season) about Christmas time or after, it is rather warm to keep up the festive season in old style, but the spring, winter and fall are simply delightful. It is only now, after a residence of four years, that I begin to notice the extremes of heat and cold and dress (or undress, as the case may be) to meet them Canadians need have no fear then on this point, for the man who can't live in this climate had better die at once, for he cannot possibly find a more agreeable one in this world.

The "Hot Winds" are a peculiar feature of Australian weather. All parts of Australia are more or less subject to them. Melbourne, more than any of the other large cities, and Sydney are, perhaps, the most free from them. They invariably blow from the west, originating in the interior sterile plains, and when felt, they usually begin early in the morning and blow all day, sometimes several days, growing hotter as the day wears on. Sometimes it blows a continuous breeze that feels like the blast from a furnace, and suggests the idea that Cerberus is napping at his post; but it more frequently comes in stormy gusts that raise the dust and sand to a tremendous height. I have seen the dust hanging over a town like a cloud of thick yellow smoke, extending a distance of six or seven miles; whilst the people in the town would not be able to see the other side of the street for a quarter of an hour at a stretch. A stranger coming into a town during a wind or "land" storm, would think every one he saw had been drinking. The eyes look bleared, the face becomes flushed, and the general appearance is that of "half seas over." The feeling produced is like that of a high fever, accompanied by a thirst worth dollars to the bar keeper. These days are often so severe that the little birds leave the bush and fly into the houses for protection, utterly disregarding their natural fear of man. Poultry often die in great numbers. In fact they are the greatest sufferers from this weather, and I know of no more pitiful sight than to witness the poor creatures of every kind grasping for a breath of something cooler than this almost incandescent air. It is however, to vegetable life that the hot winds are most destructive, as the grass and young grain crops after being exposed to it for a few hours shrivel up and become quite brittle to the touch. But after all, in spite of their unpleasantness, it cannot be said that these winds are very injurious to the health of the people, except perhaps the heavy drinking class; and then these two giants, Heat and Alcohol, combining their forces, sometimes prove too much for a debilitated constitution. Add this brings me to a question of which I may say more again, viz., the drinking habits of Australians, which plays more havoc with their constitution than all the varieties of climate south of the equator.

[Concluded on Monday.

The Evening Mercury

SATURDAY EVE'G MAY 29, 1886.

REFORMERS would do well to scan the Dominion voters' lists for the names of non-resident income voters. A lot of these names that were put on in anticipation of a change in the law must be removed, or an important advantage conceded to the enemy.

THE *Globe* says: There are many legends of armies having gone into battle behind dead leaders dressed out and propped on the saddle. Such will be practically the Conservative army during the coming elections. The Premier's personality is their sole trust, and he is now nothing better than the appearance of what he used to be.

THE London *Free Press* objects to the Reform press referring to the railway subsidies which the Dominion Government are now putting through Parliament as the annual budget of railway bribes. Then in the very next breath the *Free Press* tries to make capital for the Government out of the fact that it is proposed to bonus a railway between Ingersoll, London, and Chatham. If that is not holding up this particular subsidy as a bribe what is it?

DUNDAS *Banner*:—"Recent meetings of the labor organizations of Toronto have been addressed by the professional wire-puller A. W. Wright, who is notorious as an indefatigable Tory heeler, and poses just now as a particular friend of the workingman. This is the same Wright who went down to Ottawa in the interest of the manufacturers to oppose the Factory Act, and who has been secretary of the Manufacturers' Association, who have been principally instrumental in inducing the Dominion Government to spend $500,000 in bringing in foreigners to compete with our labour. His extreme solicitude for the workingmen just now may be taken as an indication that an election is at hand."

"IN Canada and especially in Nova Scotia, Sir Charles posed as an earnest friend to Ireland and the Irish. That suited on this side. In England he finds it to his profit to speak of the Irish aspirations for freedom as deleterious to the Empire." So says the Toronto *Tribune*. And Sir John Macdonald, having more confidence in Sir Tupper than in the Irish Catholic "breed," sends the resolution passed in Parliament favouring home rule to him rather than to Ireland's friend, the great Liberal leader Gladstone. Sir John at heart is anti-Irish and if he were living in England instead of Canada would show it just as plainly as our High Commissioner is doing now that he has no personal interest at present in seeking Irish votes.

SIR JOHN MACDONALD once more takes shelter behind the Senate. It was policy on his part to make a show of doing something in the Commons on the question of Chinese immigration. This was in the interest of workingmen, but Sir John has the welfare of wealthy corportions and contractors more at heart than that of the poor laborer, and now he orders the Senate to undo his work and the tools of his own creation there are obedient as usual in fulfiling his demand. Working men should remember this, not only that they may mark their disapproval of the Premier's course when election day comes, but that they may show themselves in favor of a much-needed reconstruction of the Senate.

HERE is part of a report adopted by the Hamilton Central Labor Union on Thursday night:—"We, as honest workingmen of the City of Hamilton, repudiate the action of our representative, Mr. Kilvert, in getting timber grants for prominent members of the Conservative party in Hamilton, such men as C. R. Smith, John Muir, Boss Evans, W. E. Sanford, J. M. Lottridge and others. We contend, and rightly, that if Mr. Kilvert owes these men for their political influence and the expense which they went to to secure his election, he should pay them out of his own private purse and not use his influence with these men to get 50 square miles of timber limits which belong to the people, without the consent of the people." It would be quite in order to pass such resolutions in reference to nearly every Tory member in Parliament. There are very few of them who have not secured for themselves or their friends plunder from the Government in the shape of timber, land or railway grants.

Dominion Parliament.

Ottawa, May 28.

In the House of Commons to-day it was resolved that the House sit on Saturday, and that Government measures have precedence on that day and Monday.

Mr. Ferguson (Leeds) denied the accuracy of the Hansard report of his speech of April 16th, made during the debate on Indian affairs, and said that he had no intention of making any insinuation against the Rev. Mr. Robertson.

Mr. Bowell, replying to Mr. Gault, made a statement regarding the Paterson, Kissock & Co. seizure, to the effect that no amicable settlement had been made, that instructions had been given to push prosecution—for perjury if there was a good case—and that two-thirds of the sum realized by the seizure would go to the officers making the seizure and to the informers if there were any.

Mr. Somerville (Brant) moved for a special committee to investigate his charge against Sir Hector Cameron (North Victoria.) Sir Hector Langevin moved that the matter be referred to the Committee on Privileges and Elections, and this was carried on division.

The House went into committee on the resolutions providing for grants to railways. A resolution providing for a grant of $256,000 for a railway from Ingersoll and London to Chatham was carried after considerable discussion.

After recess private bills were taken up for an hour.

A long discussion took place on a motion to concur in the amendment made by the Senate in the Northern Pacific Junction Railway bill, authorizing that company, notwithstanding the agreement with the Government, to issue $20,000 a mile bonds. Mr. Blake asked that the matter should be referred to the Committee, so that the details could be fully discussed; or at least notice should be given of the matter being taken up. Mr. Mulock strongly objected to the amendment being passed, and, after some discussion he moved that the amendment be not concurred in, when Mr. Lister drew attention to the fact that the hour for private bills had expired. The Speaker sustained the point of order, and Sir John at once gave notice that he would move that the bill be placed on the Government Orders.

The House again went into Committee of the Whole on the railway bonus. The resolutions for grants to the Thunder Bay Colonization Company, the Parry Sound Colonization Company, and the Glenannan & Wingham road, were adopted. The remaining resolutions were adopted and reported.

The Bill to authorize the construction of a railway from the Straits of Canso through Cape Breton was read a second time and considered in committee.

Sir Hector Langevin having moved the second reading of the Bill for the construction of the railway from Metapediac to Paspebiac, Mr. Blake made a statement of the financial arrangements of the company, from which it appeared the public aid given would give very large profits to L. J. Riopel, M.P., McGreevy, M.P., Senator Robitaille, and various other members of the Riopel and Robitaille families, who with C. N. Armstrong, of Montreal, held eleven-twelfths of the stock. The Bill was read the second time and considered in committee.

The House went into committee on the resolutions in favour of granting lands to certain railways. On the Northwest Central grant some discussion took place, in the course of which Mr. Blake and Mr. Watson urged that every step should be taken to secure the completion of the road.

Sir Hector Langevin proposed to go into supply, but the protests of Mr. Blake and Mr. Mulock against sitting so late induced him to withdraw the resolution. The House adjourned at 1:50 a.m.

Supplementary Estimates.

OTTAWA, May 28.—The Supplementary Estimates for next fiscal year, 1886 87, were brought down to-night. The main estimates for the year amount to $33,124,550 chargeable to Consolidated Fund, and $5,418,058 chargeable to income. Those brought down to-night amounted to $2,055,849 of which $970,000 is classed as capital and $1,095,849 as income. This makes the total estimated expenditure for the next year $40,608,458, of which $34,220,339 is to be charged to income and the balance to capital. To night's Supplimentary Estimates comprise $4,257 for Civil Government, $10,000 for Regina gaol and asylum, $100,000 to meet Franchise Act expenses; for Experimental Farms, $30,000; Manitoba census, $15,000; to pay Short Line Railway claims, $5,000; Intercolonial Railway, $200,000; Canadian Pacific Railway, $10,000 (to settle land claims); for Cape Breton Railway $500,000; Esquimalt Graving Dock, $250,000; military defences, British Columbia, $25,000; Lachine Canal, $35,300; Rideau Canal, $60,500; public buildings, Nova Scotia (Postoffices at Lunenburg and Kentville), $8,000; public buildings in New Brunswick, $34,150; do. Quebec, $64,975; London, Ont., Custom House, $34,000; do. Infantry School, $30,000; Ottawa buildings, $29,000; Toronto Postoffice, $8,000; and $4,000 each for postoffices at Pembroke, Lindsay, Trenton, Galt and Napanee. Manitoba buildings, $42,500; buildings Northwest Territories. $79,850; harbours and rivers, Nova Scotia $93,000; harbours and rivers, P. E. Island, $5,000; harbours and rivers, New Brunswick, $14,782; harbours and rivers, Quebec, $98,325; harbours and rivere, Ontario, $59,500; harbours and rivers, British Columbia, $9,000; Ottawa slides and booms, $25,400; roads and bridges, $18,500; telegraph lines, $20,400; Indians, $21,802; Brant monument, $85,000; fisheries service, $57,500; Geological Survey, $15,000; outside Customs service, $5,000; misiellaneous, $13,950.

Secession in Nova Scotia.

HALIFAX, May 25.—In an address issued by Premier Fielding the following clause occurs:—In the opinion of the Government the time has come when the people of Nova Scotia should once more make an effort to obtain release from the Union into which they were forced, and which has been productive of little good, and much evil. There was once a party in Nova Scotia which was satisfied with Confederation; to day no disinterested man can be found to say that he is satisfied. Dissatisfation is so wide and deep that many are heard to say that no change could be for the worse. Some of those who were the warmest advocates of Confederation in 1867 are now the most outspoken in their expressions of hostility to it. After the failure of the repeal agitation of 1867-9 to accomplish its main purpose, the people settled down, not very cheerfully it must be admitted, to make the best of the situation. "Give the union a fair trial," said some. It has had a long and more than fair trial, and the verdict against it is more emphatic than before. We were assured by the fathers of Confederation that the affairs of the Dominion could be carried on for twenty years or more at an annual cost of eleven or twelve million dollars, equal to $3 or less per head of the population. The expenditure in the first year was nearly thirteen and a half millions, and it has been increasing by leaps and bounds until it now exceeds the enormous sum of thirty-five million dollars. The interest and charges in connection with the public debt alone absorb nearly as much as, we are told, would pay the total expense of the Government. Who is there in Nova Scotia that will say that this vast increase of public expenditure, of which our people bear their full share, has brought corresponding benefit to our Province?

An Open Letter From the K. of L. of Guelph.

To the Editor of the Mercury.

The Knights of Labor of Guelph, realizing, what has been realized by man centuries ago, "that it is not well for man to live alone" hereby invite ladies of all nationalites, creeds or colors, of all trades and occupations (excepting those in any way engaged in the sale or manufacture of intoxicating drinks, or the wives of men so engaged) to join them in the noble work of emancipating and then elevating and educating every member of the human family, to a higher standard of morality. "To do unto others as you wish others to do unto you," brings a reward and peace of mind, the value of which is far greater than gold.

If you wish to know all about the aims and objects, your benefits and obligations and how to become organized, you can, by sending your address to A. K. box 243, Guelph, obtain all information.

Yours truly,
K. of L.

Guelph, May 29.

"The Miracle of the Roses," a mystery play, will be given by the pupils of Loretto Academy in the Church of Our Lady, on Thursday, June 10th.

PERRY DAVIS'
PAIN-KILLER
IS RECOMMENDED BY
Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.
TAKEN INTERNALLY MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A NEVER FAILING
CURE FOR
SUDDEN COLDS, CHILLS, CONGESTION OR STOPPAGE OF CIRCULATION, CRAMPS, PAINS IN THE STOMACH, SUMMER AND BOWEL COMPLAINTS. SORE THROAT, &c.
APPLIED EXTERNALLY,
EXPERIENCE HAS PROVEN IT THE MOST EFFECTIVE AND BEST LINIMENT ON EARTH IN REMOVING THE PAIN ARISING FROM
SPRAINS, BRUISES, RHEUMATISM, NEURALGIA, SWELLED FACE, TOOTHACHE, BURNS, FROST BITES, &c., &c.
25cts. per Bottle.
Beware of Imitations.

BRISTOL'S
Sarsaparilla
The Great Purifier OF THE BLOOD AND HUMORS.

CAMPBELL'S
TONIC ELIXIR
This agreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system, and usually accompanied by Pallor, Weakness and Palpitation of the Heart. Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion. For Impoverished Blood, Loss of Appetite, Despondency, and in all cases where an INVIGORATING and CERTAIN STIMULANT is required, the ELIXIR will be found INVALUABLE.
Price $1 per Bottle or Six Bottles for $5
Sold by all Dealers in Medicines.
DAVIS & LAWRENCE CO. (Limited)
SOLE AGENTS,
MONTREAL, P. Q.

ALLEN'S
LUNG BALSAM
COLDS, COUGHS, CONSUMPTION, BRONCHITIS, CROUP. THE BEST REMEDY FOR CURING
THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*
CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy,—**Allen's Lung Balsam.**
MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.
ALLEN'S LUNG BALSAM IS YOUR REMEDY.
Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.
DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*
Allen's Lung Balsam is now put up in Three Sizes, Price 25c., 50c., and $1 per Bottle.
The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.
Sold by all Medicine Dealers.

I CURE FITS!
When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,
Branch Office, 37 Yonge St., Toronto.

Grand Trunk, Valise —AND— Satchel Display

Branch Office, 37 Yonge St., Toronto

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

The Foes of a Household

CHAPTER XXXIII.

AFTER ALL.

* * * * *

In the same little morning-room at The Thwaite in which Percival had asked Helen to marry him, Alice and Sir Cuthbert were seated. He had come about an hour before, and it depended upon her whether he left again that evening or remained. It was growing dusk, and the only light in the room was that of the fire, which burned brightly up the chimney. Outside it was raining; they heard the beat of the drops against the window pane, and the sudden, short gusts of wind which caught the trees, and tossed them from side to side. The firelight fell upon their faces, lightning them up and rendering any concealment of expression impossible. Sir Cuthbert was speaking.

"Believe me, you will do wisely to trust your happiness to my hands."

"I do not feel at all sure of it," she replied. "After such a mistake as I made," it behoves me to be careful before making a second venture."

"I promise you will not regret it."

"Nay," she said, frowning. "You are over-stepping the bounds of common sense. A woman's heart is not so simple a thing that one can apply hard and fast rules to it."

"When did love ever recognise the empire of common sense?"

"True enough, from which one might conclude that in every marriage one side ought to be free from love. Then, perhaps, the world might roll more smoothly. I do not think I shall marry again. My experience has not been encouraging.

"Ah, do not talk in that way," he said, half imploringly, half impatiently; "it is waste of time."

She smiled as she played with a bow of ribbon on her dress. Presently she spoke.

"Another obstacle is that, as I think I told you before, I do not love you."

"That will come. I am as firmly convinced of it as I am that the world is round."

"You will not see. I thought that once. A burnt child dreads the fire, as we all know."

"If you will only have faith in my love, I swear it will not change."

"I do believe in your love; you are constant. How many of my lovers would have come back to me now that I am free."

She smiled as she spoke. No one but herself ever knew how her joy at regaining her freedom had been poisoned by the tongues of her enemies.

"For your fidelity," she went on, "you deserve some reward, but you ask so much. Men do not think, do not know what marriage is to a woman. I do not think I can."

She tossed her bow of ribbon aside, and, leaning her cheek upon her hand, sank into thought. Sir Cuthbert was too wise to interrupt her; he sat in silence, only from time to time stealing a glance at her beautiful face.

She was more beautifal even than before. A human soul looked out of her eyes and showed itself in her face and manner. She looked neither humble nor resigned, but there was something in her which had not been there formerly, and it was to that that Sir Cuthbert appealed. Could Mr. Longworthy have seen her now, he would have recanted the subtle distinction he had drawn between the face that might be painted and the face that might only be hewn out of marble.

At last she rose and pushed her chair from her.

"I am lamentably weak," she said. "I cannot decide."

"Let me decide for you. Leave it in my hands," he said gently.

"That would be deciding, since I know what you wish."

She walked up and down the room once or twice, her head bent upon her breast, her dress sweeping behind her, and the firelight playing upon the masses of her flaxen hair. Sir Cuthbert watched her with a frown upon his forehead. At last he said—

"I believe you have some regard for me. My society gives you pleasure."

"Yes, yes, that is all true," she replied, not knowing what was coming. "But that does not mean—"

"It means this," he said, not waiting for her to finish, "that if you will not marry me you will have to give up that pleasure. If you refuse me this time I shall go back to India, but I shall make it my home; I shall bid you good-bye forever."

She was silent for a moment, then she answered,

"In saying that you force me to acknowledge that you are necessary to me. If I thought I should never see you again it would be a great trouble to me."

"It lies with you whether I go or not."

Then stretching out his hand he said—

"Put your hand in mine, and I will never leave you except from necessity."

With a gesture at once confiding and hesitating she gave him her hand and he raised it to his lips.

* * * *

A year had gone by since Helen's return to Brantwood. She was sitting in the drawing-room before the fire reading, and as she read a little frown appeared upon her forehead, for the book was an abstruse work, and required all her attention to follow its lengthy and complicated arguments. Percival had given it to her in the morning with the request that she would read a particular chapter he had marked, and give him her opinion on the practicability of its suggestions. It was dark, and her reading lamp stood on a little table at her side. She had already dressed for dinner, and the dress of soft Indian silk she wore suited her slender figure admirably. Her face was not changed; it still had the old charm which was more striking even than its beauty. As she sat absorbed in her book Percival came in, his hands full of letters and papers.

"The letters have come," he said, and going up to her, he put two or three into her lap, one of which she seized, saying—

"From Mrs. Longworthy; it will be to fix the day of their coming."

"Read this first," said Percival, giving her a paper as he spoke; "I brought it on purpose to show to you."

She read the paragraph to which he pointed; it was an account of the wedding of Alice and Sir Cuthbert.

"I am very glad," said Helen. "I think she will be happy with him."

"Yes, there was much good in her. The mistake she made was in thinking I was the right man to develop it."

THE END.

Baptist Church Notes.

Rev. D. A. McGregor, B. A., of Stratford has been elected to a professorship in Toronto Baptist College. He is a full graduate of Woodstock College, and an honor man of Toronto University.

Up to April 30 the total receipts for foreign missions since last audit are $5847. During the same period there has been paid out a total of $9798.

Prof. Wolverton writes to the *Canadian Baptist* that he will devote the $1,000 voted him by the Woodstock College trustees to the fund for enlarging and improving the College buildings.

Rev. P. K. Dayfoot has accepted the call of the Strathroy church.

The twelfth annual meeting of the Toronto Association of Baptist Churches will be held at Stouffville, Tuesday, June 8th.

The Montreal Recorder on Thursday fined two merchants $5 each for selling fire crackers.

d

IRISH HOME RULE.

Mr. Gladstone's Success Growing More Certain.

LONDON, May 28.—The House of Commons was crowded this evening. Mr. Gladstone, replying to a question by Sir Michael Hicks-Beach (Conservative), said that the Government considered it to be its duty after the second reading of the Home Rule Bill not to ask the House to go into a committee on the measure, but to adopt one of the methods which he (Mr. Gladstone) described at the Liberal meeting yesterday. The Government, he said, was inclined to allow the Bill to lapse for the present session and to advise the Queen to cause an early reassembly of Parliament, at which the Home Rule Bill would be reintroduced. He was unable at that moment to speak more positively.

Sir Michael in view of the unsatisfactory statement of the Government moved an adjournment. He was greeted with cheers by the Opposition, all the Conservatives rising to support the motion. The speaker, continuing, said that the Government prior to the introduction of the Bill had dwelt upon the necessity of restoring social order in Ireland, and had said that the Government was of one mind and had an intelligible plan. Was the plan, he asked, found so unfeasible that nobody would vote for it? If it was found feasible why did the Government now propose to withdraw or postpone the Bill? The Bill simply amounted to a continuance in office Bill. (Cheers.)

Mr. Gladstone, upon rising to reply, was loudly cheered. He repudiated the sordid motives which Sir Michael had imputed to the Government, although, he said, the general confidence of his country-men in the Government rendered such repudiation unnecessary. Numerous members of the House who were friendly to the principle of the Bill had asked for time to consider the measure. Hence the postponement. The Government had raised one of the greatest issues ever submitted to Parliament and would endeavor to keep it clear of collateral issues. The Government had before it a conflict and was prepared to go through the struggle to the end. (Cheers). It was perfectly confident as to the final issue. (Cheers.) The Government was acting in accordance with precedent. It was because the course which the Government had taken was the best means of attaining the end sought that Sir Michael had moved the adjournment.

Lord Randolph Churchill maintained that Mr. Gladstone could not quote a precedent for the course now taken as regards any measure of great and overwhelming importance.

Lord Hartington said he thought the House should know whether the Government would continue with the present Bill in the autumn session or introduce a new Bill at another session.

Sir William Vernon Harcourt, interposing, said the Government would advise the Queen to prorogue Parliament, and Mr. Gladstone with emphasis declared that he stated yesterday that the Government would prefer that course.

Lord Hartington, continuing, said:—"Then the House will be asked to agree to the second reading of a Bill which the Government does not intend to have passed and become law this session. There is no precedent for asking the House to proceed with a Bill which is dead." (Opposition cheers.)

Mr. Thomas Power O'Connor said that the action of Lord Hartington and the Conservatives showed that the Bill was far too much alive for them. (Vociferous cheers.) Sir Michael's motion was a part of a scheme of dishonest and unscrupulous tactics.

The Speaker here ordered Mr. O'Conner to withdraw the latter expression.

"Certainly," replied Mr. O'Connor, "without hesitation."

Sir Michael Hicks Beach at this point asked leave to winhdraw his motion. The Parnellites, however, insisted upon a division.

A division was ordered and amid loud ironical cheers and much laughter the leaders of the Opposition voted with the Government against adjourning. The motion was rejected by a vote of 405 to 1. The announcement of the result was received with renewed laughter and cheers. The action of the Parnellites in insisting upon a division on Sir Michael's motion was merely intended as a joke. Mr. Daniel Cully, Nationalist, comprised the minority.

Mr. Chamberlain voted against the adjournment. Mr. Caine and a majority of the followers of Lord Hartington abstained from voting.

The Arms Bill passed the third reading by a vote of 156 to 65.

The Manitoba Legislature rejected the proposed Home Rule resolution, an amendment declaring that the Imperial Government was able to look after its own business being carried.

This is to certify that I have used McGregor's Speedy Cure for Dyspepsia and Liver Complaint, and do honestly say that if it cost me one hundred dollars ($100.00) a bottle I would not be without it, as it has done me more good than all the medicines I ever used, and I feel like a new man.—Yours truly, Alex Steel, Carleton Place, Ont. This medicine is for sale at 50c. and $1.00 per bottle at Thos. S. Petrie's Drug Store.

The factory of the Electric Light Co. in Montreal, with nearly the whole of the plant and machinery, was completely destroyed by fire Thursday morning. Loss $50,000; covered by insurance.

Bittle Knocks out Gilmore.

DETROIT, May 28.—The Gilmore-Bittle fight took place on Harsen's Island, in the River St. Clair, two miles from Algonac, Michigan. The landing was made at 7.30 this morning, and the men got to work at 8.45. For 26 rounds the spectators were treated to an exhibition of nerve and brutality that has seldom been equalled. In the first round Bittle's nose was broken with a crack that was sickening. Bittle paid no attention to the broken nose but braced up and took the aggressive. He pushed the fight up the 15th round, when he began to show exhaustion. Every time Gilmore struck Bittle the blood spurted from his (Bittle's) broken nose and mouth in a stream. It was horrible to look at. Bittle, it was evident, was there to stay, and he sparred coolly and deliberately. In the last few rounds Bittle took the aggressive and hit out for Gilmore's face. In the 26th round Gilmore fell heavily and did not come up when time was called. Time of fight one hour and thirty minutes. Bittle weighed 155 lbs. and Gilmore 132 lbs. The George Fulljames' party, by whom Bittle was backed, are jubilant, but Gilmore says he will fight Fulljames for all he is worth and then will offer to tackle Bittle again. He claims that it was only a chance blow that finished him. Bittle proved himself gamer than he (Gilmore) expected, but he is satisfied he can beat him in another try. Gilmore is not so badly hurt as has been represented, and was merely temporarily stunned by the blow. He is all right now, although feeling badly. Bittle looks the worst used up of the two. A bet of a thousand even was made on Gilmore this evening against Fulljames with a fight to a finish. All the parties concerned in to-day's fight made haste to cross the border. If they come into Michigan again they will be arrested at once. Common walking gloves were used in the fight.

A Heavy Suit.

The Canadian Pacific Railway against Conmee & McLennan, contractors, is a suit in which about $700,000 are involved. It has been before the courts on several occasions, and once more found its way into Osgoode Hall, Friday, before the Master in Chambers. Conmee & McLennan had three contracts with the Canadian Pacific Railway, one at Blind River, one at Michipicoten and a large tie contract. The firm claim that there is yet due on these contracts some $300,000, while the company sets up a claim of over $400,000 against the firm as having been overpaid them by reason of fraudulent measurements by the company's own engineers. The defendants succeeded in having these actions consolidated by the Court of Appeal and in having the trial in Toronto in June before a jury. The motion made by the Canadian Pacific Railway, Friday, was to stay proceedings until the Supreme Court of Canada could adjudicate upon the matter, which was resisted on defendant's behalf. The Master reserved judgment.

The Second Offence.

ORANGEVILLE, May 28.—Notwithstanding the several attempts made to blow up the property of Mr. F. Munro, the Police Magistrate, with dynamite, that official does not seem to be at all direlict in his duty. On Tuesday last two of the leading hotelkeepers, Messrs. Booth and Hulse, were summoned before His Worship charged with selling liquor contrary to the Canada Temperance Act. Both men admitted the offence, and the Magistrate imposed a fine of $100 and costs in each case. The tavern keepers of the town and vicinity are quite indignant at Magistrate Munro's action. The Magistrate has been threatened in rather strong terms lately, but he exhibits not the least fear of dynamiters. It is a notorious fact, however, that liquor is taken to Orangeville by wholesale, and that every bar in the town is well supplied. Not a few drunken individuals are seen on the streets. It seems to be a difficult thing to enforce the Scott Act in this town.

The Commercial Bank of Manitoba has declared its first annual dividend of 19½ per cent.

Synod of Niagara.

HAMILTON, May 26.—The meeting of the Synod of the Diocese of Niagara was opened to-day in the schoolhouse of Christ church cathedral. Divine service was held in the cathedral this morning, the sermon being preached by Bishop Cox, of Western New York, to a large congregation.

The Synod assembled for business at 2.30 p. m., his Lordship Bishop Hamilton presiding. Rev. W. R. Clarke, of Ancaster, was elected hon. clerical secretary, and Mr. J. J. Mason, hon. lay secretary and general secretary-treasurer.

On motion the following clergymen were invited to take a seat on the floor of the house:—Rev. Mr McLeod, Herefordshire, England; Ven. Archdeacon Pinkham, Prince Ruperts Land; Rev. Alf. Brown, Paris; Rev. Reginald Starr and Rev. Septimus Jones, Toronto; Rev. Alf. Anthony and Rev. W. Miller, diocese of Huron; Rev. A. Wade, Bristol, England.

A committee consisting of Dean Geddes and Canon Read was appointed to draft a resolution of thanks to Bishop Cox, of western New York, for his presence at the morning service, after which the Bishop of Niagara read his annual address.

The report of the Executive Committee was read and adopted. Referring to the suit against the Synod of Toronto, the committee says:—"In this suit it was found by the Master's report that $9,959, being nearly one forth of the whole fund, had been actually received in cash by the Synod of Toronto from subscriptions of residents within the bounds of the Diocese of Niagara. Mr Justice Proudfoot, in his judgement on the case, said there was a strong moral obligation on the part of the Synod of Toronto to raise and pay over to the diocese of Niagara an amount equal to that actually paid over by the endowment fund, and he regretted that it was not in his power to enforce it. After this expression of opinion, your committee are not without hope that the Synod of Toronto will devise some means to carry into effect Mr Justice Proudfoot's views of the obligation."

HAMILTON, May 27.—The Synod of Niagara in session here, in Christ Church Cathedral, met this morning as usual, and discussed clergymen's salaries. A resolution expressing the gratitude of the Synod to Bishop Cox, of New York, for his visit, was unanimously adopted. Rev. T. Geoghegan said that the salaries of missionary clergymen in this diocese were too small, and that whenever the mission funds were low the salaries of country clergymen were reduced. Rev. W. R. Clark also spoke a few words under the same heading. He said that the constitution required that every missionary should receive a salary of $800. He thought the constitution should be lived up to. Another delegate said that their missionaries' salaries were much better that those of Methodists, Roman Catholics, and any other denominations. Rev. F. C Piper, of Smithville, who receives $550 per year and has to support a wife and child, and also keep a horse on this amount, complained that he had received notice that his salary would be reduced next year. He said that if the proposed reduction was put into force he would discontinue to be missionary,

C. Donaldson, of Grantham, declared, that the people had not done half their duty in the matter of contributing to the support of missionories. Adam Brown and J. J. Mason spoke in support of the present system of fixing missionaries salaries.

Rev. A. Bonney, of Moorefield, in a vigorous speech declared he would not stoop to beg from a class of creatures who gave one-fifth or one-tenth of what they could. Such people go where they could get through the cheapest, and were going to destruction, robbing their own souls and deceiving themselves with the idea that they were robbing God. At this point the discussion was adjourned.

Fatal Accident.

SHELBURNE, May 28.—To-day as George Gorwood, a farmer living about three miles from Shelburne, was starting for home his horse became unmanageable, throwing him out, his head striking the sidewalk, and he died about three hours afterwards. He leaves a family of eight children. His wife was buried only a week ago.

In the Manitoba Legislature Thursday after the want of confidence motion had been defeated, a pugilistic encounter took place between the Premier and Mr. Martin, a member of the Opposition.

Fatal Accident at Rockwood.

(Special to the Daily Mercury).

ROCKWOOD, May 31.—James Grieve, a man in the employ of John Burns, farmer, about one mile east of Rockwood, was killed at 8:30 this morning. He was driving along with a load of manure, when the horses became frightened at something and ran away. In his efforts to stop them he was thrown under the front wheel of the wagon, which passed over him, causing injuries from which he died shortly afterwards. He was a hardworking man, and leaves a wife and six children, for whom much sympathy is felt.

THE CANADIAN METHODIST MAGAZINE FOR JUNE, 1886.—John T. Moore, Esq., contributes another of those superbly illustrated articles on "Wonderland and Beyond." The Rev. W. S. Blackstock has another strikingly illustrated paper on "Among the Eskimo," "Canoe Life in the North-West," and "Grimsby Park—Past and Present," are also well illustrated. The Rev. S. B. Dunn contributes a sketch of the late Benjamin Gregory, jr., an accomplished young Wesleyan minister; and Miss Tweedie an excellent paper on Charles Kingsley. The Rev. Walter M. Roger writes ably on the labor problem of the times. The same question comes up in "Notes on a Curious Old Play," by R. W. Boodle, Esq.

This number completes the 23rd volume, which is in every sense the most successful that has been issued of this magazine. Among special features of the 24th volume will be a steel portrait of the late Dr. Rice, with memorial tributes by the Revs. Dr. Douglas, Dr. Harper, Dr. Stewart, and the Editor; a graphic story of Irish Methodism, by E. M. Morphy, Esq.; the absorbing serial, "Jan Vedder's Wife;" a score of splendidly illustrated articles, and a condensed record of the approaching General Conference.

LITTELL'S LIVING AGE.—The numbers of the *Living Age* for May 22nd and 29th contain the recent progress of Astronomy, Matthew Paris, Mr Forster, the fame of Turner, the Buchholz Family, Thomas Love Peacock, and Archbishop Trench, a Pilgrimage to Sinai, Musical Literature, the Decay of Evangelicalism, the Limits of Enterprise, Tobacco Growing in England, with instalments of "Canon Saintley's Remorse," "Desmond's Destiny," "This Man's Wife," and "Zit and Xoe: their Early Experiences," and poetry. For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4.00 monthlies or weeklies with the *Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

Drab shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

Ready mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

Who is that stylish gentleman with the light suit and silk hat? asked our Magistrate of the Chief of Police. His name is Mr. Wilkie, cutter for B. B. Hughes, 33 Lower Wyndham street, answered the officer.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synonym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Rain and Shine.

North and east winds, mostly fair weather, with local rains by night in Southern Ontario, stationary, or slightly lower temperature.

Local News

RYAN & BERKINSHAW'S new advertisement will appear to-morrow.

FIVE Mondays in this month, consequently there is no council to-night.

LIEUT. BLACK, of the Salvation Army here, farewelled last night to a large congregation.

THE weather yesterday and to-day has been decidedly warmer than that experienced for the past two weeks.

THE fire department are getting things down fine now. A complete hitch-up was made this morning in five seconds.

A FIELD of timothy, on the Brock Road, Puslinch, belonging to Mr. F. W. Stone, was out in full head on Friday last.

MR. W. WHITLOCK, of the Tara *Leader*, formerly of London, is suffering from an ulcer on the sight of his left eye.

A SPECIAL meeting of the Board of Education will be held to-night to take into consideration the resignation of Capt. Clarke.

MRS. JOHN CROWE played the Baptist Church organ yesterday in place of Mr. Philp, who is still confined to his bed with a severe cold.

THE License Commissioners expect to bring the parties who sold the lager on the Exhibition ground before the Police Magistrate on Thursday.

THE Rev. W. Savage left this forenoon to attend the Guelph Conference, to be held in Goderich. Other ministers and delegates from here will leave to-morrow.

MESSRS. HENRY FLEWELLING and James Easton have purchased the butcher business of Mr. L. O. Barber, Stall No. 1, in the Market. They are two enterprising young men and will no doubt succeed.

THE first case under the Scott Act in St. Thomas will come up to-morrow, when Bromell & Co., proprietors of the Grand Central Hotel, will answer the charge of violating the provisions of the Act.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

THE Owen Sound *Times* publishes from a duplicate the scroll that was placed in the corner-stone of the County building there, on the 18th of May, 1853. The architect was Geo. Bruce, of Guelph, and the cost of the building £3,030.

THE Master in Chambers at Osgoode Hall has announced that during the last week before vacation he will hear no long contested motions. During vacation there will be no session of chambers, and the Master will not transact any business.

THE Orangeville *Sun* says: It now transpires that ex-collector Sutton has folded his tent and slipped quietly away to Uncle Sam's domains. The amount of Sutton's indebtedness to the town was $445.99, and of this sum he acknowledged having collected $249.55.

THE Caledonian Society meet to-night at Ellis' hotel, at eight o'clock. All those who have the existence of the Society at heart would do well to put in an appearance. If there is not a larger attendance than at last meeting it is likely that all arrangements for having the annual celebration will fall through.

THE *British Medical Journal* of last week announces that "the investigation which is being conducted under the direction of the British Hydrophobia Commission has so far as it has yet gone afforded confirmation of the truth of certain points of great importance maintained by M. Pasteur. Little doubt now remains that the virus used by him in his experiments is the true virus of rabies."

A BROKEN PLANK.—On Saturday evening as a young lady was passing along Northumberland street and when opposite Mrs. Broughton's grocery store she had her ankle badly twisted by stepping on a broken board on the sidewalk. As several of the boards are badly used up, it would be advisable for the authorities to see and have the walk repaired, before any serious accident occurs.

HORSE STEALING IN WATERLOO.—The Berlin *News* says:—During the last six years no less than twenty seven horses have been stolen in this County, which with the buggies, harness, etc., that went with them, foot up to the handsome sum of over $10,000, and yet strange to say all this property has disappeared with hardly a trace of where it has gone. Two parties have been caught, but in either case it was the first offence, and twenty five actual steals remain to be accounted for." There must be something wrong somewhere.

THOROUGHBRED SALE.—Mr. Robert Johnstone, of Sydenham Township, County of Grey, recently bought from Messrs. J. & R. Hunter, Alma, a very fine two-year-old Shorthorn bull, of the celebrated Cruickshank breed, registered in the Dominion Herd Book. This is the fifth animal Mr. Johnstone has purchased from the Messrs. Hunter, every one of which has turned out first-class. Mr. Johnstone is one of the most enterprising stock raisers in that section of Ontario, and the sale speaks well for the name of Wellington stock.

FROM MANITOBA.—A party in Manitoba writes as follows in relation to the Norquay Government:—If Manitoba only had a premier like Ontario, or with even half the backbone of "The Little Tyrant," we could get along. This province is governed by the rottenest combination that ever ruled a province. They will be hurled from power at the first election without a doubt. I believe people are getting fully aroused to the gravity of the situation irrespective of Party. We have had enough of John Norquay. Farmers are through seeding, crops look splendid, it has been a fine spring and everything indicates a bountiful harvest.

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 50c. and $1.00 per bottle at Thomas S. Petrie's Drug Store

Police Court.

Wm. J. Venny and Richard Cox, two tramps arrested on suspicion of arson in connection with Mr. Sorby's barns, were remanded till to-morrow.

Hubert Leitch was charged by J. H. Doughty, County Constable, with keeping a house of ill-fame, etc., in the village of Morriston. After hearing the evidence of Isabella Leitch and Dr. Orton, the Magistrate considered it was of such a character as to warrant him sending the prisoner up for trial at the next court of competent jurisdiction. He was accordingly committed.

Bush Fires in Wisconsin.

MILWAUKEE, Wis., May 29.—Fires are raging in the timber lands along the Escanaba River, involving a loss of thousands of dollars. Forest fires are also burning at Junction City and in the vicinity of Sturgeon Bay, and are raging fiercely along the line of railroad north and south of Phillips, Wis.

A Skirmish with Indians.

MEDICINE HAT, N. W. T., May 30.—On Thursday an outpost in the Cypress Hills, in charge of Corporal Ritchie, discovered a band of American Indians camped a few miles from the outpost. The corporal and a squad went to the Indians and asked their business. Being answered by a shower of bullets, which fell wide of the mark, the squad returned the fire, dropping one Indian. The Indians escaped.

Poisoned Fatally by the Prick of a Pin.

CHICAGO, May 29.—Mr. and Mrs. Edwin Thorne, of London, England, came over to this country about two weeks ago. While in Washington Mrs. Thorne noticed a pin of the black, mourning kind, in her pillow at the hotel. Endeavoring to extract it, she pricked her thumb. Shortly after reaching Chicago it began to pain her. She died of blood-poisoning at the Grand Pacific yesterday morning. Mr. Thorne is a prominent distiller in London, and came to this country to examine distillery machinery.

Sad Fate of a Fishing Party.

WOLFEBOROUGH, N. H. May 29.—Yesterday afternoon Rev. T. C. Jerome, with his two sons and daughter and a young man named Davis, went out on the lake on a fishing excursion, and failed to return when expected. A steamer which arrived at 5 o'clock reported having seen an overturned boat near Jannistown Island. Search was made, and late in the evening the bodies of the whole party were recovered. Mr. Jerome was a wealthy gentleman, owning about $250,000 worth of property. He came from New York two years ago.

The Coming Wedding.

WASHINGTON, May 30.—The President, accompanied by his Cabinet, left this afternoon for New York to assist in the Decoration Day ceremonies. The marriage ceremony will take place at the White House on Wednesday evening. Miss Cleveland is here, and will assist at the wedding. It is not likely there will be either bridesmaids or best man. Miss Folsom and her mother remain in New York at the Gilsey House. Miss Folsom will arrive here on Wednesday afternoon, be driven to the Whitneys', thence in the evening to the White House for the ceremony. Rev. Dr. Sutherland has received his invitation to officiate. The President was busy on Saturday receiving the congratulations of his friends.

Overdue Steamer.

HALIFAX, N. S., May 29.—There is much anxiety over the non-arrival of the mail steamer Siberian. She left Halifax May 24th for Liverpool, *via* St. John's. She was due at the latter place May 26th. The weather has been foggy all week and there are many icebergs on Newfoundland coast. The Siberian is an Allan line steamer, which company has a contract for carrying the mails between Canada and England. She had forty-three passengers to Liverpool and fourteen for Newfoundland, among the latter being Bishop Jones. The captain of the Siberian is a stranger, and the delay in the arrival of steamer may be due to his carefulness in approaching the coast.

Two Brothers Killed by a Negro.

PROVIDENCE, R. I., May 30.—Fred and John Volker, brothers, aged 23 and 21 respectively, owned a small catrigged boat which they used for fishing and excursion parties and in which they were in the habit of sleeping together with a West Indian negro named Stainsburg, aged 21, who helped them in managing the boat. Everything seemed pleasant between the three men, but they quarrelled last night, and the affray resulted in the death of Fred and the fatal shooting of John. Stainsburg claims that Fred Volker struck him in the face with an iron kettle, and that both brothers rushed upon him. Fearing for his life he drew an American "Bulldog" five chamber revolver and fired four shots. Fred died in five minutes without saying a word. Physicians pronounce John's wounds fatal. Stainsburg was arrested.

Foreign.

The eruption of Etna is subsiding.

The Emperor William is rapidly breaking up in health.

The Belfast police have seized a quantity of arms consigned from Fleetwood to parties in Armagh.

The rapid increase of the Mormons in Switzerland is causing considerable anxiety to the Government.

The Spanish Minister of Marine is about to present to the Cortes a scheme of credit of $45,000,000 with which to enlarge the navy.

The infant King of Spain is of a delicate physique. His little sisters are still ignorant of their father's death. They are told that he is on a journey.

The Queen has conferred the title of K. C. M. G. upon Mr. Donald Smith in recognition of his services to the country in connection with the C. P. R., and Chief Justice Meredith, Knight Batchelor of the same order.

A PEST.—The Hamilton *Times* says:—The fireworms have made their appearance in some of the orchards east of the city, and have done great damage. They are now working east. If parties owning orchards do not attend at once and spray the trees with Paris green, apples will be a failure in this locality.

DISASTROUS FIRE.

Eighteen Head of Galloways, 40 Pigs, etc., and Outbuildings Burned.

Between one and two o'clock on Sunday morning a large fire was noticed southwest of the town, but it was not until well on in the forenoon that the full particulars were learned, which showed that it was one of the most disastrous that has ever taken place at a farm residence in this section. It was the outbuildings of Mr. H. Sorby, Guelph Township, a short distance from the city. The fire was first discovered by Mr. Sorby's hired man, but by the time that he had reached the burning buildings they were in a seething mass of flames. The only building that there was any chance of getting animals out of was the piggery. He drove some of them out, but no sooner had he done so, the animals beings terrified, than they ran in again. After having a portion of his coat burned by the falling embers and being considerably singed himself he gave up the attempt. Mr. Sorby arrived a little later, but nothing could be done, and he had to wait patiently and look at the destruction of his property without being able to do anything to save it. Recently Mr. Sorby decided to go into raising Galloway cattle, and for this purpose he purchased the fine herd of Mr. Thomas McCrae, Janefield, which were only delivered to him on the 1st of February last. This herd was probably the best in the country, and last year, wherever shown, swept everything before them. These cattle were all in the stables, being put in proper condition for show purposes. The Galloways burned are—Bulls, McLeod 2nd, of Drumlendrick, 5 years old; Milligan, 2 years old; McAlpine and Dumfries, yearlings; Gillie, ten months old and three calves; Nellie, Maggie, Cheerful, Nina and Miss Hope, all milking cows with calves. The stock was imported by Mr. McCrae, and all of them where shown prize takers. Sorby's imported bull, Mochrum, which is a splendid animal, and very wilful, broke the ring from his fastening and dashed through the flames, and was the only one which escaped. The poor beast was so badly burned that it was deemed advisable to shoot him. The three Hereford bulls which were saved from the wreck of the "Brooklyn," at Anticosti, were also burned, together with some 40 Berkshire pigs, 2 boars and three sows which were imported; a valuable lot of Plymouth Rock fowls, the most of the implements, harness, hay and grain. Fortunately all the milch cows, and a portion of the Galloways—some 25 in all—together with the horses, were in the field. The loss will amount to over $11,000, and is made up as follows:—Galloways and Herefords, $5,000; pigs, $1,000; poultry, $50; grain, etc., $1,000; the buildings composed of barn, root-house, pig pens, stables, &c., $4,000. The buildings are insured for about $3,000, and the stock is also well covered with insurance, yet nevertheless, Mr. Sorby will be a loser to a considerable amount. The buildings are a total wreck, all that remains of them being a heap of ashes and a few crumbling stone walls, which are half burned into lime. Sympathy is felt for Mr. Sorby in this loss of property, as it will throw him back for this year at least so far as breeding and exhibition purposes are concerned. The origin of the fire is a mystery. Two tramps were seen in the vicinity the night before, but whether they had anything to do with the fire or not has not transpired. Chief Randall this morning arrested two suspicious looking characters, considering that they might know something about the fire. Mr. Sorby states that there has been no lanterns used in the barn for some time, nor has he been running the engine for crushing grain for a week.

American.

Oil has been struck in Denver, Col.

The Pope has appointed Very Rev. F. Katzer, Bishop of Green Bay, Wis.

The statement that J. W. Rumsey & Co., Chicago traders, had failed is officially denied.

A large meeting was held at Philadelphia on Saturday night to ask Congress to remove the duties on raw materials and to protest against the importation of foreign labor.

The funeral of S. S. Davis, Past Grand Chancellor of the world, Knights of Pythias, occurred yesterday at Nashua, N. H. His wife who died at the same hour, was buried with him.

Andrew Carnegie, the millionaire steel manufacturer, has given $250,000 to Allegheny City for establishing a free library and music hall. This is in addition to his gift of $500,000 to Pittsburg.

The Chicago Anarchists, Spies, Schwab, Fielden, Parsons, Fischer, Engel, Linug, Seliger, Schnaebel and Neebe will be tried on six charges, including one of wilful murder. Ben. Butler may defend them if he can spare the time.

Canadian.

The merchants of Montreal have formed a French Board of Trade.

The arrangement of a match race between Beach and Hanlan is now regarded as uncertain.

The Allan steamship Lucerne, which arrived at Montreal on Saturday, brought 35 Shetland ponies for Fort Collins, Col., and 36 cattle for stock raising.

C. H. McDougall & Bros., coal oil and crockery merchants, Montreal, have made a judicial assignment, with liabilities of $12,000 and assets nominally of $14,000.

The Synod of Niagara has appointed a deputation to visit Toronto Synod in order to urge upon the latter the former's moral claim to $10,000 of Toronto's Endowment Fund.

A big strike has been made at Frank Down's silver mine, two miles up the Otter Tail, Alberta, where the tunnel has been driven in 175 feet. A four-foot lead has been disclosed which assays $600 to the ton.—Calgary *Herald*.

WAIT FOR THEM.—That is the advice we give our readers to wait for R. Parker & Co., dyers and cleaners, of Toronto, who will be here on Tuesday and Wednesday, when they will be ready to receive parcels and return them by express in a very short time, free of charge. Their facilities for dyeing and cleaning surpass anything in Canada. Make the traveller show you the samples of lace curtains he has, they are really beautiful, and all their work is the same. d1

THE GOVERNMENT PRINTING BUREAU AGAIN.

A Breeze in the House.

The House of Commons was in Committee of the Whole on the Bill to establish a Printing Bureau on Thursday. After a speech from Mr. Somerville accusing the Government of squandering the public money in printing and advertising, as patronage given to the papers supporting them, Mr. Wallace (York) said:—The hon member for North Brant (Mr. Somerville) has told us that the sole and only reason why printing and advertisements are given to Conservative papers is to subsidise and support party organs. If that is the case with regard to the Dominion Government, I suppose he will acknowledge that the same rule will apply to the Ontario Government. What do we find there?

Mr. Landerkin—Is the hon. gentleman in order?

The Chairman—I could not hear what the hon. gentleman said.

Mr. Wallace (York)—To a Brantford paper the Ontario Government paid, in 1883, $2,005.

Mr. Mulock—I rise to a point of order. The hon. gentleman, I believe, is proposing to discuss the practice of another Government as to how it distributed its printing patronage. Is it in order to discuss that?

The Chairman—The hon. gentleman has not yet gone sufficiently far to enable me to judge as to what his argument will be.

Mr. Wallace (York). I am making a comparison and endeavoring to ascertain if the same rule will apply to the Ontario Government which hon. gentlemen opposite are anxious to apply to the Dominion Government. I said that a Brantford paper received in 1883 $2,005 for printing from the Ontario Government. The London *Advertiser*, in which the hon. member for Bothwell (Mr. Mills) has an interest, received last year $206. The Hamilton *Times*, $652; Brantford *Expositor*, $1,047; Guelph MERCURY, owned by Innes & Davidson——

Mr. Mulock—I rise to a point of order.

Mr. Wallace—You rose to that of order before and were put down.

Mr. Mulock—When I took that point of order before you, Mr. Chairman, intimated that the hon. member had not gone sufficiently far in his remarks. Now you have the evidence on which I took the point of order. I need not repeat the point of order.

Some hon. members—Chair.

Mr. Mulock—Chair. I am addressing the Chair. I ask for your protection, Mr. Chairman, and I will have it. I will allow no man to put me down when I am in order.

The Chairman—Order, order.

Mr. Mulock—I wish to be in order. There is no man in this House who has more respect for the chair than I have, but I say—

The Chairman—Order, order.

Mr. Mulock—I shall not allow any man to interfere with me in the exercise of my rights.

Some hon. Members—Chair, chair.

The Chairman—Order. The hon. gentleman is referring to transactions which bear upon the practice of Governments in advertising. If the discussion is to continue, as it has been allowed heretofore, on the practice of Governments in their systems of advertising, I think he has liberty to show how it is done elsewhere. I think he is entitled to go that far.

Mr. Landerkin—I agree with your ruling, Sir, but I wish to say—

The Chairman—Order. The hon. member for York has the floor.

Mr. Wallace (York)—I am sorry the hon. member for North York (Mr. Mulock), and the hon. member for South Grey (Mr. Landerkin), do not conduct themselves with more propriety.

Some hon. Members—Oh, oh.

The Chairman. Order. The hon gentleman will please keep to the point.

Mr. Wallace (York). I was referring to the fact that the firm of Innes & Davidson, proprietors of the Guelph MERCURY, one of the firm, I believe, being a member of the Dominion Parliament, have received for advertising in the MERCURY during the past year $844 from the Ontario Government, and, if it was a corrupt act on the part of the Dominion Government to give advertising to certain newspapers, it must have been still more corrupt for the Ontario Government to give it to a private firm, and to men who are members of Parliament. With regard to the member for North Brant, who is so anxious to air his eloquence in this matter we find that the Ontario Government is now without a Government printer, and it is understood that the paper which abuses this Government to the greatest extent shall have the largest share of the public patronage to this printing.

Mr. Innes. The hon. gentleman who has just sat down alluded to the paper with which I am connected, and stated that that paper had received the sum of over $800 in one year for advertising. I wish to say that the statement he has made is not correct. The money was not paid for advertising, but nine-tenths of it and more was paid for printing, and that covering nearly two years.

Mr. Wallace (York). Did you get the money?

Some hon. members. Order.

Mr. Innes. Nine-tenths of it was paid for necessary printing.

Some hon. members. Hear, hear.

Mr. Innes. The hon. gentleman will please wait till I am through. It was paid for necessary printing in connection with the Agricultural College, and more than that, it was done at regular business prices—the same prices that we charge for printing to merchants and other business men. The Ontario Government are not in the habit of paying the prices that this Government pay either for printing or advertising. So far as my experience goes they criticise every item and they cut down every item if it is an overcharge. We know perfectly well——

Mr. Wallace (York). Will the hon. gentleman permit me to ask a question?

Some hon. members. Order; sit down.

Mr. Innes. The account was an honest one, and not like many sent to this Government for printing and advertising, and was paid in full.

Mr. Somerville (Brant). Did you (Mr. Wallace) get a timber limit?

The Chairman. I ask hon. gentlemen not to call across the House in this way. It is very irregular and likely to lead to confusion.

Mr. Innes. I cannot, of course, answer for the other papers which the hon. gentleman mentioned, but I am perfectly satisfied that there was good value given

SEE FOURTH PAGE.

The Evening Mercury

MONDAY EVE'G MAY 31, 1886.

More Political Scandals.

The air about the Parliament House in Ottawa is getting blue with political scandals. First we had the Beaty-Woodworth affair, which when throughly inquired into has given the death blow to the reputation of Mr. Beaty, the member for West Toronto. We need not rehearse the facts in relation to this case as they must be fresh in the recollection of our readers. It will be sufficient to say that Mr. Beaty, along with Mr. Woodworth, used their influence to get a large grant of land in the Northwest from the Government to aid in the construction of a railway from Brandon to Edmonton. For some reason not known Mr. Beaty managed to turn Woodworth out of the Board of Directors. He also refused to sell the charter unless he was paid $672,000 which would have been a nice little plum for "the Boy." Yet the Government whitewashed Mr. Beaty though it was as clear as day that he was exercising all his influence as a member of Parliament and a supporter of the Government to obtain this money. This matter might never have come to light, but for Woodworth, who was deprived of a chance of sharing in the plunder and who in revenge peached on Beaty.

Then we had the White-Jamieson-Bowell scandal, in which it was clearly proved that Mr. John White got a "blind share" in the Prince Albert Colonization Company for using his influence in obtaining a favorable location of land for the company. It was also proved that Mr. Jamieson got his "blind share" because he was Mr. Bowell's son-in-law, which in a case of this kind meant a great deal. The Committee to whom the case was referred, notwithstanding the strong evidence inculpating the parties, white washed them also, and the Government will doubtless adopt their report to that effect.

Next came the Dodd-Macdougall scandal, in which it was proved that these two members from Cape Breton threatened a member of the Harbour Board of Sydney with the loss of his position if he voted for the Reform candidate, who was running against Mr. Dodd. He did vote, however, for this gentleman and in due time of course lost his position.

Then followed the so-called Cook scandal, in which the Tories tried to work up a case against Mr. H. H. Cook as an offset to those we have mentioned above. The case has been thoroughly investigated by the Public Accounts Committee, and has ended as it was expected in a complete failure to fasten a charge against Mr. Cook or Mr. Mills who was head of the department at the time the rebate was made to him of $1,486 on lumber which was cut on lands near the Georgian Bay. Mr. Cook in his evidence said that he got the license in 1870. The timber referred to was sawn in 1875-76. The timber was sold in the fall of 1876. He made an actual measurement of the timber as it was shipped. The measurement for the buyer let him know what he was due the Crown. In this case he discovered a shortage, as was shown by the statement. In 1877, on the 5th of July, he wrote the Minister of the Interior to renew his bond. The statement that the lumber was sold in '73 was incorrect, because it was not sold until 1876. That was the first occasion when it was measured, although he had a suspicion that it was over returned. This was corroborated by Mr. Plummer, a clerk in the department, and also by Mr. Vankoughnet, the Assistant Commissioner of Indian Affairs, who also stated that several cases had occurred since in which rebates were made for shortage in timber to lumbermen who were similarly situated as Mr. Cook. Sir John Macdonald knew what he was doing when he asked Mr. Taylor to withdraw his motion to refer the matter in regard to Mr. Cook to the Public Accounts Committee. If the Premier's advice had been accepted the Tory members of the committee would not have been forced in such a pitiable and humiliating position as they were. Mr. Vankoughnet told the committee plainly that there was no other way for the department to act than that done by Mr. Mills and as was done by Sir John Macdonald in the Power case some time ago.

Next comes a scandal of a very serious character, which on Thursday was made in specific form by Mr. Somerville, against Mr. Hector Cameron, the member for North Victoria. The charge is that he in 1884 used his influence to procure, through the Government and Parliament, a subsidy for the Erie and Huron Railway of $3,200 a mile for 30 miles, amounting in all to $96,000 and that while so engaged he wrote in effect to an officer of the Company stipulating that a commission or bonus of 10 per cent. on the amount of such subsidy should be paid to him for himself and two other persons whose co-operation he had secured, one-half to be paid on the subsidy being voted and the other half on the money being paid over. Mr. Cameron claims that the charges are untrue, but candor compels the admission that his denial in Parliament on Thursday was not very impressive. His line of argument that because he wrote upon a letter "private and confidential" it would be dishonorable for any person to read it in the House, was rather an admission that the letter might contain something. Mr. Cameron's surprise when Mr. Somerville stated that the letter described by Mr. Cameron was not the letter upon which he based this charge, was perceptible to the House. The subject has been referred to the Committee on Privileges and Elections.

ACTING Postmaster-General Carling is at it again. He has put in the estimates a sum of $1,500 for a year's salary for "one chief railway mail clerk, London division." Who is the pet for which this job is to be provided? The salary to be voted is $500 higher than that given to the chief mail clerk in Toronto division, but Carling's friends must be provided for, and hang the public expense!

PREMIER NORQUAY is practising for admission into the society of Dr. Orton at Ottawa, and there is probably a good deal of truth in the report that Macdonald's henchman in Manitoba will soon resign the leadership there, and seek a seat in the Commons. His latest *role* is that of the bully. Getting worsted in the debate which followed the discussion on the report of the Royal Commission appointed to inquire into the charges against him, Norquay pugilistically attacked Mr. Martin, a member of the Opposition, who has been worrying the Tory leader for a confession of his numerous misdeeds. There was reason to fear that gore would stain the Chamber floor had not the combatants been separated. It is almost a pity that the members did not permit the couple to see it out, as, ponderous though Norquay is, the first bout clearly proved that his wind was about as short as his temper. Perhaps a knock out would have taught him to behave himself in the future. That has been the experience with the bullying member for Centre Wellington: he no longer hankers for a bout with a newspaper man. One dose was enough for him.

The Government Printing Bureau Bill.

On Wednesday Hon. Mr. Chapleau moved the second reading of the bill to establish a Printing Bureau, or Department of Public Printing and Stationery. After speeches in opposition to the bill by Mr. Somerville and Sir Richard Cartwright,

Mr. Innes said:—I think the Secretary of State would do well to follow the advice given by the hon. member for South Huron (Sir Richard Cartwright) and withdraw the bill at this late period of the session. I do not wish to take up the time of the House, but I would just refer to one or two points that the hon. member for North Brant has not referred to in connection with this subject. Before doing so, I might say that the Government seem to have taken a long time before making up their mind as to the policy they would pursue on this subject. It is now three years since the first intimation was given to the Printing Committee that the Government intended to bring in a measure for the establishment of a Printing Bureau. We heard no more of it that session. The next session the subject seemed to have been dropped, for instructions were given, I suppose, to those who had the management of business in connection with the Printing Committee, to give out tenders, and a sub-committee was appointed to examine carefully into the tenders. In consequence, tenders were asked for, and sent in this session. However, since they were brought in, we were informed that the Government had now settled on a policy with regard to this subject, and would bring down a measure this session, which measure we have now before us. The Bill is one of great importance, involving a very necessary expenditure; and cannot at this late hour be considered, as it ought to be, in all its provisions. The Secretary of State, in his long and exhaustive speech on the subject, referred to some of the defects in the present contract, but my honorable friend from North Brant (Mr. Somerville) explained how many of these defects arose. He said they were in a great measure due to the short date the contract had to run. Now the sub-committee last year recommended that if a further contract was made it should be for ten years, as if that time were allowed there would be some inducement for the contractors to put in proper plant, and do the work as it ought to be done. The hon. gentleman also referred to the inferior quality of the paper, which has much to do with the character of the work produced, but, of course, the Government printers have no control of that, the paper being furnished by the Government, and consequently we can find no fault with them on that score. I think that, on the whole, at least during the time the present contract has been in force, the work has been fairly and satisfactorily done, and there has been very little, indeed, scarcely any, complaint about delays in having the work properly and expeditiously executed. I was rather surprised that the Secretary of State, in his speech, did not refer to the report that was printed some two years ago, I think, and which was then circulated through the House, a report made by two gentlemen, Messrs. Chamberlin and Blackburn, who were appointed to proceed to the United States and make all necessary enquiries there with the view of establishing a Printing Bureau here. They also extended their enquiries as to the nature, the expense and the character of the work done in other countries, and I think, when I read some extracts from that report the House will see the reason why the Secretary of State refrained from saying anything about it. With respect to the Bill itself, there may be something said in favor of the establishment of a Printing Bureau, but there is also a great deal to be said against it. In order to show opinions of these gentlemen who were sent to enquire into this subject, I will read a few extracts from their report. Mr. Chamberlin, in speaking of the establishment of a bureau, refers to the one point of economy, and he draws his comparison from the working of the establishment at Washington. Of course that establishment is on a much larger scale than would be required here, still the same rule would govern in both cases. He speaks in a very qualified manner on the score of economy:

"At Washington all parties seem to be satisfied that, if not for economy alone, yet for all purposes, the present arrangement is satisfactory, and should be maintained. The claim is made, indeed, that as much as 40 per cent. has been saved in the cost of printing, but I have not been able to procure the figures on which the comparison is based. I can understand that, as against four or five separate offices turning out larger or smaller portions of the work, an office well organized, with everything concentrated under one efficient management, would certainly effect a large saving. Yet, so far as I have been able to make a comparison, the prices paid are higher than (under the contract system) at any of the State capitals or in Canada. But besides this, I learn that rent and taxes are not allowed as part of the cost at Washington; no interest on capital account is brought into the calculation, and the cost of renewal or improvement of plant, or wear and tear, not estimated."

This is the deliberate opinion of Mr. Chamberlin after having gone to the United States, where he got all the information he could on the subject, and after having weighed the matter thoroughly; and this opinion was before the Government before they brought in this Bill. Mr. Chamberlin goes on to argue this matter out, and he gives us statistics with respect to the cost of the several establishments. Of course these are large estimates compared to what we would require here, but I am sure, if the Bill is passed and if the bureau goes into practical operation, the figures given by the Secretary of State will be far below the actual cost. Mr. Chamberlin goes on to say that the plant in Washington cost $600,000, and that over $3,000,000 is each year expended in keeping up that plant and producing the required work. In Paris the cost of the printing establishment is $800,000, and in Berlin it is over $500,000. The calculation made by the Secretary of State is that a Printing Bureau here would cost, at the outside figure, about $200,000, and that the value of the work to be produced would be about $200,000 a year, confining it to the printing branch. Mr. Chamberlin goes on to refer to the cost and to the comparative amount of the work produced, and he shows here—it is too long to give the whole quotation—that, though our establishment will be necessarily much smaller than the one in Washington or in any of the large capitals of the older countries, the expenses of our establishment would be proportionately higher, that we would require to keep a large quantity of material on hand, and a large staff of hands employed, so as to get out work in a hurry during an emergency, and consequently the saving that the Secretary of State calculated on would be much smaller than what he gave just on that account, because, in a place like Ottawa, where there are no large printing offices, where we would depend entirely upon the Government printing office to do the Government printing—you would require to keep a larger staff of men and a larger plant to do that work, and the profits would be proportionately less. Now, I would refer to the sixth clause, which has already been referred to by the hon. member for North Brant, who has also spoken of the evils that would flow from the operation of this clause. It is as follows:

"The Governor in Council may, from time to time, for special reasons to be stated in the Orders in Council authorize printing and binding for the public service to be done elsewhere than at the Government printing establishment; and such Orders in Council and the expenditure under them, shall be laid before Parliament at its then next session."

We have already seen, as has been detailed to us to night, how much abuse and corruption have gone into the system of giving out a large portion of the public printing at much higher prices than the Government printers were bound to do that work for. If this clause is passed, and the Bill goes into operation, then the Government can give out as much as they like. They may have a large staff in the Government office, they may have a very large plant, they may have a very large building, but they can give out half the work, for that matter, and keep all the papers supporting the Government employed at large prices and large profits. I wish to call the attention of the House to the remarks of Mr. Chamberlin on this point, and he speaks rather emphatically on it. He says:

"The danger from political patronage is again not altogether imaginary. It may either lead to the employment of indifferent workmen, or, as in Paris, to the giving work away from the Government office to outside printers."

You see he hits the nail on the head.—

"This latter course has not been without its effect here in the past."

He knows very well the little inner history of the giving out of a great deal of the printing that ought to have been given to the Government printers:

"Is there no cause to apprehend that the tendency towards it will be increased, not diminished, by the Government becoming its own printer? Nothing could be more damaging to the experiment. To secure a speedy execution of the work both machinery and workmen must be kept up a little above rather than under the absolute daily routine requirements. To make the working pay, staff and machinery must not be idle; and every job of work taken away from the establishment tends to lessen the chance of economy. And hitherto here (contrary to the claim of the partisan department) such work has been done at increased, not lower prices, thus adding to the cost the printing as a whole.

Surely the hon. Secretary of State never saw this paragraph, or at least entirely forgot it when he introduced the sixth section in this Bill: for here we find the Government officer, the gentleman who was sent down specially to report upon the possibility and advantages of establishing a bureau of this character, speaks directly and emphatically against a clause of this kind. Mr. Chamberlin after continuing pretty much in the same fashion—I will not quote him in full—winds up as follows:—

"In view of all these grounds for doubt——"

He mentioned a great many doubts and fears with respect to one abuse and another that are liable to creep in:—

"In view of all these grounds for doubt, I cannot see my way clear to recommend the establishment of a Government printing office on the ground of economy, as likely in fact to secure the production of the work for less money than is now paid."

Here is a distinct disapproval of the principle of the Bill and of the Bill as a whole. Mr. Blackburn, perhaps, is not so emphatic, but his testimony is rather against the Bill than in favor of it. He says in winding up

"If properly——"

There are a great many "ifs" and "buts" about these reports, I must tell the House—

"If properly built and equipped and furnished, there is little doubt that a printing office conducted as a department of Government might be made of great service. But very much would naturally rest upon the administration of it."

Here is the whole secret. He goes on to say:—

"If it is to be feebly or inefficiently administered, it might not result in all that could be hoped for, though it is difficult to conceive how it would be possible to produce printing of so inferior quality as that now had. Under the prevailing system, it is only natural that the contractors, whether for paper or for printing, should seek to make as much profit as possible out of their transactions, while if a departmental officer were to be employed, his endeavor undoubtedly would be to turn out the work as creditably and as cheaply as possible. No doubt each method of procedure has its drawbacks but it may be said of the plan of a public printing office that it would be the want of due supervision which would alone make it it inefficient or needlessly expensive."

There is very little comfort, I think, in either of these reports. There is no encouragement whatever for us to go on with the Bill, and, if we establish this Printing Bureau, of course there will be a large staff of men employed, and there is another danger we have good reason for suspecting, considering the past and present policy of the Government with respect to their political patronage; there is great reason to fear that if the Bill becomes law, the Bureau will become a sort of political hospital and refuge for political favorites, printers, officers, and other employees, who will get positions by favor and patronage; and the establishment would be run, I believe, at a greater expense than under the present system, and I fear with no greater efficiency as far as the character of the work is concerned.

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S. Petrie, Druggist.

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is oblized to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Now Open for the Season

Preston Mineral Baths AND SUMMER RESORT

BEAUTIFULLY situated in the County of Waterloo, on the G. W. R., three miles from Galt, twelve miles from Guelph and eight from Berlin.

The hotel attached to this favorite summer resort has been recently enlarged and fitted up with an especial view to the comfort of guests and invalids. Beautiful lawn, capacious billiard parlor and croquet grounds.

The Arcadian Mineral Spring has proved of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism will find that using these waters will almost effect a cure. New baths have been added this season.

Mr. H. Rose, former Manager, has resumed his responsible position, and will be pleased to welcome his old friends.

Terms moderate. Omnibus to all trains.

C. KRESS, Proprietor,
mlldtf Preston, Ontario.

Interesting Letter From Australia.

To the Editor of the Mercury.

CONCLUDED.

Look out for license protection against Scotch and Irish whiskey, the time-born curse of Australia, the demoralizer of its people, the sapper and miner of their intellects, the wrecker of their happiness, and the digger of more untimely graves than all the Australian climatic influences combined.

"Are there many openings for young men?"

Yes, there are plenty of openings of certain kinds, but as the Government own and work all the railways and tramways in the country, as well as some floating and dry docks and other big things, private enterprise is shut out from what might otherwise give almost unlimited scope for the employment and development of genius, energy and capital. A perfect army of civil servants is required for the working of these and other Government departments, and the comprise something like 12 per cent of the entire population of the colony. It may be gleaned from this that there are not many openings for civil and mechanical engineers, and some other of the higher class mechanics. For masons, carpenters, bricklayers and all other kinds of mechanics connected with the building trade there is always plenty to be done. The banking and insurance companies, merchants and other large firms in Sydney, acquire wealth rapidly, and all go in for large and handsome buildings, for which the splendid freestone quarries all round the city furnish an unlimited supply of first-class material. This class of labor is well paid, wages ranging from $3 to $3.75 per day. One thing in this country which strikes a Canadian most forcibly however, is the scarcity of "tall chimneys." This is not a manufacturing country, and the little that is being done in that way has so far attained only a very moderate success, for with any article, whether it be a bridle, a pair of boots, a bottle of beer, a fig of tobacco or a length of tweed, the fact of its being of colonial manufacture reduces its market value considerably.

We have an almost boundless supply of useful and valuable minerals, including gold, silver, tin, copper, iron, lead, antimony, bismuth, manganese, and in fact almost every kind of mineral that has a commercial value. But when we have got these out of the ground, instead of having factories giving employment to thousands of artificers of all kinds, and bringing forth for our own use and for exportation all sorts of marketable goods, we send the raw material to Europe, and afterwards give a top price for the manufactured article; to which of course has been added export and import freights, cost of labor, brokers' and manufacturers' profits and many other things which help to swell the price we have now to pay for our own metals worked up, a great deal of which, had our capitalists the right sort of enterprise might have been done here and helped to increase the wealth and population of the country. We produce every year an immense quantity of the very best wool, but we have practically no mills for converting it into blankets, tweeds, and other of our everyday needs. There are certainly one or two small mills of this kind, but they are scarcely more than experimentary, and with the same raw material to work upon the article produced will not for one moment bear comparison with that of European or American manufacture, in point of beauty, finish, or any of the finer qualities which give to such goods the value stamp of "first-class." It is the same with cabinet-making; the forests of Australia produce some of the best and most beautiful varietics of timber known. Yet nine-tenths of the furniture used in the colony is imported; and of the remaining tenth about three-fourths is made by the Chinese. There is not one large furniture factory in the colony.

The leather trade is carried on a little more extensively, but the leather made is nearly all of the plain, heavy kind, all the finer descriptions being imported. We still export a very large number of green hides and also send hundreds of tons of wattle bark to tan them, on the same principle as we send our other products away for manufacture. Several boot factories around Sydney give employment to some hundreds of hands, but the work turned out does not command anything like the price in the market that English and Continental goods do. Very little light harness is made in the colony, in the first place saddle horses are much more used than buggies, except in the towns; secondly, in this, as in everything else, if a man wants something good he asks for American harness, he wants the imported article.

The same may be said of the other trades-imported stock rules the market, and the largest establishments in our big cities are the headquarters of agencies for foreign articles. You will see from this that in many departments private enterprise is swamped by the residents being still firmly attached to the Old Country; free trade principles being so prominent that native industries are not as yet fostered up to a respectable status; and the Government so determined upon prosecuting its own public works to the exclusion of private companies, syndicates, &c., that of course there is not the same scope for energy and capital as exists in a live, active, nervous country like America. But we trust good times will dawn, as they naturally must do in a country so favored by nature in the elements of natural wealth; and in the meantime men of perseverance, activity, and pluck might find many a clime less conducive to wealth, health and happiness than that of the Southern Cross, as many Americans now driving about Sydney in their carriages and plucking oranges from their own groves, besides palatial residences, will be ready to corroborate.

J. P. COLLINS.

Horsford's Acid Phosphate.

Well Pleased.

Dr. C Roberts, Winchester, Ill., says: "I have used it with entire satisfaction in cases of debility from age or overwork, and in inebriates and dyspeptics, and am well pleased with its effects."

Drilling operations at the new salt well in Wingham ceased last Saturday evening at a depth of 1180 feet, no other bed than the thirty-five feet one struck a couple of weeks ago having been reached. As the surface in the bed is enlarged the strength will continue to increase, and it is expected that after a week's pumping the brine will carry the full 100 per cent of salt right along.

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsa, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at Thomas S. Petrie's Drug Store.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

A Standard Medical Work

For Young & Middle-Aged Men.

ONLY $1 BY MAIL, POSTPAID.

Illustrative Sample Free to All.

KNOW THYSELF.

A GREAT MEDICAL WORK on MANHOOD

Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. A book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is invaluable. So found by the Author, whose experience for 23 years is such as probably never before fell to the lot of any physician. 300 pages bound in beautiful French muslin, embossed covers, full gilt, guaranteed to be a finer work in every sense—mechanical, literary and professional—than any other work sold in this country for $2.50, or the money will be refunded in every instance. Price only $1 by mail, post paid. Illustrative sample free to any body. Send now. Gold medal awarded the author by the National Medical Association, to the President of which the Hon. P. A. Bissell, and associate officers of the Board the reader is respectfully referred.

The Science of Life is worth more to the young and middle aged men of this generation than all the gold mines of California and the silver mines of Nevada combined.—*S. F. Chronicle.*

The Science of Life points out the rocks and quicksands on which the constitution and hope of many a young man have been fatally wrecked.—*Manchester Mirror.*

The Science of Life is of greater value than all the medical works published in this country for the past 50 years.—*Atlanta Constitution.*

The Science of Life is a superb and masterly treatise on nervous and physical debility.—*Detroit Free Press.*

There is no member of society to whom The Science of Life will not be useful, whether youth, parent, guardian, instructor or clergyman.—*Argonaut.*

Address the Peabody Medical Institute, or Dr W. H. Parker, No. 4 Bulfinch Street, Boston Mass., who may be consulted on all diseases requiring skill and experience. Chronic and obstinate diseases that have baffled the skill of all other physicians a specialty. Such treated successfully without an instance of failure. Mention MERCURY Guelph. Ont. m16eodw1y

for the money, or else the Ontario Government would not have paid the accounts. On the subject which has given rise to this discussion, I believe — notwithstanding what the leader of the Government has said with respect to the payment of only such advertisements as are ordered—I believe that whether ordered or not, they are paid for in nearly all cases. Any person who has given any attention to the matter will bear out what has been said by the leader of the Opposition, by the hon. member for North Brant and others, with reference to this matter, notwithstanding what the Minister of Public Works said as to the alleged judicious manner in which he has given out advertising. Some time ago, out of curiosity, I had occasion to look through some of these Government advertisements inserted in different papers, and I found that, contrary to what the Minister of Public Works has said, those advertisements were not given only to influential papers with a fair circulation, but were given to many of the most obscure sheets in the country. For instance, the advertisement for tenders for the graving dock in British Columbia was given to many papers of not more than 400 or 500 circulation. They could answer no earthly purpose whatever, but they were simply subsidies to those papers to keep them in existence, and the same remark applies with regard to advertisements in connection with the Welland Canal and the public works of the Lower Provinces. Not only so, but we have many instances, as have been mentioned by several hon. members, in regard to some papers which seem to be the special pets of the Government, such as the Regina *Leader* and others which are almost entirely kept up by the money they receive for these Government advertisements. I notice, too, that some papers nearer home had advertisements of the Intercolonial Railway and other Government advertising. I have here a copy of *Le Canada* in which I find an advertisement of the Intercolonial Railway. Now there is a reprint of that paper published under the name of *La Vallee de L'Ottawa*, and I find that the same advertisement is repeated in that paper and no doubt separately charged for, although the two papers are virtually but one paper.

The debate was continued but it was of a more general character.

Salvation Army Congress.

LONDON, May 29.—The Salvation Army Congress opened in this city to-day. It will remain in session a week. Two thousand officers and many thousands of soldiers of the Army from all parts of the world are present.

General Booth, the commander, in his opening address gave statistics showing the work performed by the organization during the past year. He said that in Great Britain alone $350,000 had been contributed to the Army's treasury, 1,000 girls had been rescued from life on the streets, and nineteen homes for the poor and friendless had been established and put in working order.

Delegate Smith, from the United States, made an address on the Army work in America, and greatly moved the audience by his thrilling stories of souls saved. A Canadian delegate said he regretted that Canada had not given to the Salvation Army a portion of the money which the Dominion spent in killing the Riel rebels. If the money had been given to the Army the rebels might all have been converted and saved, and Riel himself might have been now a major in the Army. Miss Booth testified that the French and Swiss members of the Salvation Army were among the most solid and devoted workers it possessed.

The congress during the evening had a grand procession with bands and banners through the streets of London.

The Fisheries Question.

WASHINGTON, May 29.—Acting Secretary Fairchild to-day sent the following telegraphic instructions to the Collector of Customs at Portland, Me., in regard to the Canadian schooner Sisters, which was detained at that port for an alleged violation of Customs regulations:—

"On payment of cost of this telegram and expenses, if any, arising from detention of vessel, you will not exact fine incurred by schooner Sisters under section 2,814, revised statutes."

The action of Mr. Fairchild was based on the belief that the master of the Sisters had no intention of evading or violating the law in any respect.

LONDON, May 29.—In pursuance of the instructions from the United States Government, Minister Phelps had an interview to-day with Lord Rosebery, Foreign Secretary, on the fisheries question. It is learned from official quarters that the Government is rather glad than otherwise that the trouble has occurred, as it is thought the present dispute will hasten a lasting settlement.

The Home Rule Question.

LONDON, May 29.—Lord Salisbury was presented with the freedom of the Grocers' Company at a superb banquet to-night. In replying to a toast to his health he said that these were the days of tyranny and of one-man power in Parliament. He would not yield to those who wanted to govern by unscrupulous intimidation. The present heavy pressure of the caucus screw was unequalled in Parliament, and he was confident that the attempt to coerce members would fail.

The Ministerialists are now less sanguine concerning the Home Rule. The Liberal whips have ascertained that the Hartington section retains 67 votes and the Chamberlain party 21 votes against the measure. Mr. Ryland and other Radicals were interviewed last night. They all declared that Mr. Gladstone's concessions were too vague and uncertain to reconcile them to voting for the Bill. Mr. Bright is indignant over the proceedings at the Liberal meeting. He has promised to speak on the bill before a division is taken. The *Morning Post* says Mr. Chamberlain will not approve of the measure even if it be modified. The Queen is prepared to return to London at any moment should political exigencies require her presence.

The Government has decided to introduce a comprehensive Registration Bill in Parliament with a view to the holding of a general election in 1887.

On Monday Chamberlain's friends meet to decide what action they will take. All Chamberlain's influence will be used to induce them to vote against a second reading, but it is not certain he can bring with him a sufficient number to defeat the Government.

Garafraxa Correspondence.

There was considerable excitement in the vicinity of Green's settlement, in West Garafraxa, last week. A book canvasser named Robt. Sutherland, took a large number of orders in this neighborhood for a firm in Toronto for a publication called *Picturesque Canada*, which it is said he represented quite different from what the orders are that he got his dupes to sign. Mr. Robt. Agnew, of lot 23, in 3rd con., of West Garafraxa, laid information against him before Mr. Hally, J. P., of Arthur, and had him arrested, and on Thursday he was tried before a bench of magistrates in Arthur, composed of Messrs. Hally, Bushlin and Ostrander of Arthur, and Messrs. Gibson and Williams of West Garafraxa. There were four legal gentlemen present, including Messrs. Reid of Arthur, and Muir of Fergus, and a large turnout of the victimized in the locality. It is believed there is not sufficient evidence against the agent to convict him. The case was adjourned to Tuesday the 1st of June at 2 o'clock. Sutherland was let go by giving his bond for $100 to appear at the above date. Sutherland lived some time ago near Arthur and was in business there.

PILES. Instant relief. Final cure in 10 days, and never returns. No purge, no salve, no suppository. Sufferers will learn of a simple remedy Free, by addressing C. J. MASON 78 Nassau-st., N. Y. m1005m

CORSETS.

Ladies we have made arrangements with a large factory to supply us with a Corset which we intend selling at

60 CENTS.

This Corset we are satisfied is as good as many corsets sold in the City at from c. to $1.00 per pair. They are

WELL MADE AND SHAPED

and are made of an

EXTRA QUALITY OF OLD GOLD JEAN

We anticipate a large run for this Corset at 60c. Our first lot is now to hand in all sizes. Be them before you buy.

RYAN, BERKINSHAW & Co.

Our Dress and Mantle Department

Is proving a grand success. The ladies that we have made for, are delighted with the make and fit, and speak very highly of the ability of our Dress and Mantle Manager. She has had experience in one of the large houses in New York.

One trial will convince that we have secured the services of one who thoroughly understands her business.

RYAN, BERKINSHAW & CO,

Successors to John Hogg & Son.

Another Victory for the Leafs.

The Maple Leafs achieved their fourth successive victory on Saturday. This time the Ann Arbors were the victims. The game was devoid of interest, the Leafs making six runs in the second innings, thus deciding the game at an early period. The visitors presented their noted pitcher, Hibbard. He pitched a fine game, only allowing the Leafs six hits. He was well supported by Smith, who held his swift delivery in good style. Zell and Purvis were the battery for the Leafs. Both played a magnificent game, Zell striking out ten men and holding the visitors down to two hits. Purvis gave him good support, as the score will show. The Leafs had only two fielding errors, George being the unlucky individual. Williams led the hitting with a line hit to the centre field fence for three bases. He also made a great hit to centre field in the 4th innings, the wind preventing it being a home run. Following is the score:

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

Winterbourne Correspondence

THE 24TH.—As the age of our beloved Queen advances and as her natal day recurs, the loyalty of her subjects here seems to intensify, quickened no doubt by the fear that in the course of nature they may soon have to mourn her death. But there is another event near the hearts of many here and which they love to honor on that day and in the same connection—the induction of the Rev A M Hamilton, M.A., into the pastorate of Chalmers' church. This is commemorated by holding a tea-meeting, and this year just as in past years it was a complete success in every sense of the term, a splendid tea, capital speeches and good music in connection. To say more would be superfluous, as these social gatherings here have for years been famous. All, or nearly all, who ever lived here, for any length of time, seems to love to return, at least occasionally no matter how far off now, or how far back their residence here may date, and they make it a point to be here on the 24th to assist by their presence, to renew old acquaintances and make new ones, to inspire a feeling of friendship and share in its glow. "Angels from friendships gather half their joy." A new and additional feature was introduced this year in the form of a concert in the evening and it like the rest of the day's proceedings was a perfect success. An excellent programme of music, vocal and instrumental, readings and recitations was rendered in a style above what might be expected in a small place. Much credit is due to friends from a distance for the part they played in this so heartily and so will, namely, Mr William Law, Georgetown; Mrs James Hamilton, Eden Mills, and Mr George Glennie, Brantford. The weather was of course made for the purpose—just thin clouds enough to subdue the rays of the sun and render it balmy and pleasant. Sports began early in the day and were kept up with spirit. All must be pleased when it is a pleasure for all to please. $101 was taken in

Winterbourne, May 31.

Harriston Correspondence.

COURT OF REVISION.—The Court of Revision for the town of Harriston was held to-day. There were but few appeals against the assessment. The Court confirmed the valuation of the assessor in every case. The town is fortunate in having an assessor possessing excellent judgement.

RETURNED.—Mr. John Eakins after spending three or four months in Southern California, has returned home again. He admires the climate out there very much, but does not speak so highly of the country in other respects.

COUNTY COUNCIL.—Reeve Robertson and Deputy-Reeve Gordon leave to-morrow morning to attend the sittings of the County Council in Guelph.

CORONATION FUNERAL.—The town authorities were called on to-day to provide for the burial of an indigent man named Patterson, who died yesterday. He had lived in town only a few weeks. The necessary means would have been provided more cheerfully had they and the neighbors been treated more kindly by the ungrateful relatives of the deceased.

FAIR DAY.—The offerings of stock on Friday last, fair day, were not large. Cattle that were in fine condition brought good prices. Nearly all offered were bought up. A large number of farmers were in town and it was interesting to see the worrying they received from the agricultural implement men who were on hand in swarms.

FOR THE OLD COUNTRY.—Thos. Douglas and J. Jewell, of Harriston, together with John McLoud, of Minto, intend leaving on the 8th inst. for the Old Country. Mr. McLoud goes to Scotland, Mr. Jewell to England, and Mr. Douglas to the land of home rule and free fights. We hope they may have a pleasant trip.

SERIOUS ACCIDENT.—Mr. Donald McDougall, of Minto Township, met with a serious mishap on Monday last, which came nearly costing him his life. He had driven to Mount Forest and when returning home was coming down the hill at the east end of the town when, by some means, the pole of the buggy slipped through the fastening in the neckyoke allowing the rig to run against the horses causing them to run away. The approaches to the bridge at the bottom of the hill being about a foot lower than the bridge the buggy in consequence struck the bridge with such force as to pitch Mr. McDougall out over the dashboard and under the rig. One of his legs became entangled in one of the wheels and in that position he was drawn for a number of rods, the team going at full speed. Fortunately the team in their fright ran into a ditch near the fence and stopped. Mr. McDougall escaped without any broken bones but was terribly cut, bruised and shaken up. He still lies at Mount Forest under medical treatment. The latest reports are favourable for his recovery.

THE N. P.—Former admirers of the great National Policy are not now very loud in their praises of its virtues. They will at least, admit that it has not raised the price of farmer's produce very much. Many of them are selling wheat at 78c., oats at 28c., and are hawking potatoes around from door to door offering them for 20c per bushel. The experience of the past few years should be sufficient to convince even the most stupid Tory that the N. P. as well as its author is a humbug and a fraud.

IN SEARCH OF A HOME.—Mr. A. Montgomery, one of the oldest residents of this town, left for California on Friday last. He goes on a prospecting tour and if the country is what he expects he purposes leaving Canada and making his future home in that country.

A VISITOR.—Donald McConnel, who left Minto seven years ago and removed to Dakota, is now here visiting his friends. Mr. McConnel looks as though the climate agreed well with him, and he claims that both the country and the government in Dakota are superior to Canada.

SERIOUSLY ILL.—For some days past Mr. Andrew Yule has been very unwell. We hear that he is now getting better and expects to attend to his work in course of a few days.

Harriston, May 31, 1886.

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 50c. and $1.00 per bottle at Thomas S. Petrie's Drug Store

THE EVENING MERCURY is printed and published every afternoon at 4 o'clock; THE WEEKLY MERCURY is issued every Thursday morning. INNES & DAVIDSON, Publishers and Proprietors, 54 Macdonell street, Guelph, Ont.

Local News

MEETING of the Fire Brigade this evening at 7.30.

THE Stratford firemen will hold a grand tournament there on the 17th instant. It is likely that Guelph will be represented.

MR. W. R. TIFFIN, District Superintendent of the G. T. R., passed through Guelph this morning on a tour of inspection eastward.

MESSRS. A. BRUCE & SON are fitting up the premises in Day's Block, formerly occupied by A. H. Lemmon, jeweller, as an agency office for Mr. John Davidson.

MESSRS. CHAS. HARLEY and D. Guthrie were fishing in the neighborhood of the rocks yesterday afternoon. They brought home a nice mess of trout, some 56 in all.

THE St. Catharines *News* says:—We understand the Fish Inspector has advised the Government to prohibit seine fishing in Lake Ontario for a number of years.

THE city has been clear of contagious diseases for a long time, until now, when two cases of diphtheria have been reported in the neighborhood of the London Road.

MR. GOSS, painter, is at present engaged repainting and touching up the Union hotel, now occupied by Mr. Beechie, who has refurnished it throughout and is to have it thoroughly renovated.

AT Saturday's session of the Right Worthy Grand Lodge of the Independent Order of Good Templars it was decided that the Grand Lodge of Ontario cannot accept proxy votes. The question came up on an appeal from Mr. George Spencer, of Ontario.

JOHN MCATEER, of the Albion Hotel, finds that the selling of soft drinks under the Scott Act does not pay so well as selling "refreshments" under the Crooks Act. To make up the deficiency in his receipts he has decided to start a livery stable in connection with the hotel, and has ordered a number of stylish turnouts and is purchasing first-class horses.

CHANGE OF TIME TABLE.—It is understood that some important changes will take effect soon on the passenger time table of the G. T. R., whereby Guelph will get better train facilities. The train due here at 11:30 a.m. from the least will arrive at 2 p.m. and the paper train, due at 8:30 a.m., will be made an express and arrive at 10 o'clock, the same as before the change some time ago.

THE *Index* says:—The late David Martin, of Mount Forest, was a prominent Oddfellow and a very highly respected of the town. His funeral was by all odds the grandest and most imposing ever witnessed in Mount Forest. Harriston Lodge of Oddfellows attended in a body, and there were two bands of music in the procession. Every possible honour was paid to the deceased both by the Brethren and by the whole people of the town. The deceased was a nephew of Mr. Robert Martin, of this city.

ST. GEORGE'S CHURCH.—St. George's Church Young Men's Bible Society met last evening. The Rev. Mr. Harvey, President, occupied the chair. The meeting was opened with a short service. The constitution and by-laws were then submitted to the Society with great satisfaction, after which the Rev. Mr. Harvey proceeded to introduce the Venerable Archdeacon Pinkham, of Winnipeg, Diocese of Rupert's Land, who addressed the young men in a very able and interesting manner, urging the necessity of young men adhering to the advice given to them by those interested in their future welfare regarding religious duties.

FIRE ALARMS.—Ald. Skinner, chairman of the Fire Committee, is always aiming at something for the improvement of the service. Formerly there were only six fire stations from which alarms could be given, but now through the management of Ald. Skinner and the Committee it has been so arranged, that any one possessing a telephone, can give the alarm to the central office at anytime—day or night. This will be a convenience as well as a protection to a certain degree, and the public will do well, in case of a fire, to note this fact and run to where the nearest telephone can be found.

A FISHING STORY.—As every one knows, or should know, Judge Drew held his final Court of Revision for the Township of Erin yesterday at Hillsburg. The Liberal Conservative party, with their usual foresight, had an eye to business and pleasure combined, and accordingly went to the scene of striking off voters from the list equipped with all the necessaries for a trout fishing expedition. If dame rumour is correct they were about as successful in their fishing expedition as they were in their efforts to strike off names from the voters' list, and the only return they had was their labour for their pains, combined with the extras of wet feet and mosquito bites. They were somewhat chagrined when they discovered that their opponents had even beaten them in this line, bringing home over six pounds of fine trout. They should have used the "Goldien" bait.

NO GAMES.—A meeting of the Guelph Caledonian Society was held last evening at Ellis' hotel, Chief Bruce in the chair. There was a fair attendance of members present. A general discussion arose on the advisability of having games. On motion it was decided that the games be abandoned on the first of July this year. It was decided to hold a concert on the evening of the first and the following gentlemen were appointed to make all the necessary arrangements, to include dancers, pipers, first-class talent in singing, etc:—Messrs. Maitland, Dr. Cowan, J. Stirton, 2nd Chieftain Gore, James Millar, Robert Mitchell, A. Robertson, 1st Chieftain Gibson, A. J. Little, Robert Ward, Arch. Little, Hugh Walker and Wm. Stewart. The committee will meet to make further arrangements for the concert on Friday night at Ellis' hotel.

THE great English actuary, Neilson says that a total abstainer at 20 is likely to live 44 years longer, whilst a moderate drinker at 20 is likely to live only 15½ years longer. Yet both pay the same annual premium in the insurance and benefit societies. The Royal Templars give the total abstainer the advantage of his principles and insurance at *actual cost*. Apply to Col. Higinbotham or Dr. McGuire for further information. d1

Fine Warm Weather.

Probabilities—Light to moderate, variable winds; fine warm weather.

Erin Voters' List.

Judge Drew held his final revision of the Dominion Voters' List for the Township of Erin in the Temperance Hall at Hillsburg on Monday. Mr. Donald Guthrie, Q.C., Mr. H. McMillan and Mr. James Stirton appeared on behalf of the Reform party, and Mr. H. Macdonald and Thomas Goldie for the Conservatives. The hall was filled most of the day with persons who had been objected to, or who had evidence to offer for and against the objections, and others whom curiosity had drawn thither. The court lasted from about nine o'clock in the morning until after six in the evening without an adjournment. Altogether there were 101 cases for disposal, and the list for the township was finished. The Reformers gained considerable on this final revision as the following figures will show: They had 7 new names added, they had 29 names kept on to which objections had been entered; while there were only 16 of their names cut off. The Conservatives had no new applications, they only succeeded in keeping on 12 of their names objected to, while 37 of their number were cut off. On the final revision therefore the Reformers gained 45 votes. In a number of the cases a good deal of evidence was given, which was weighed with fairness by Judge Drew. Those who worked up the franchise business in the Reform interest in Erin township are certainly deserving of praise, as the result shows. A full report of the proceedings is held over to-day.

COUNTY COUNCIL.

June Session.

GUELPH, June 1st.

The County Council met in the Court House, Guelph, to-day. It was after 3 o'clock before Warden Sweetnam took the chair and called the members to order.

THE fountain on St. George's Square is being put in working order to-day.

The members of the County Council arrived to-day. It is the first session under the Scott Act.

MR. PETER MARTIN is in the city to-day. He is about half through with the plastering of Mr. E. F. B. Johnston's residence in Toronto.

THE customs returns at Guelph for the month ending May 31st, amounted to $4,330.24; corresponding month last year, $4,676.11, a decrease of $345.87.

MR. THOS. HAYES, who lives on Norfolk street, opposite Crowe's foundry, has been annoyed by boys pulling up trees from a hedge which he has planted recently. The boys had better take warning.

MR. ROBT. WILSON, of Nassagaweya, who had two of his ribs broken on Queen's birthday, by falling over a stump while fishing, was in town to-day for the first time since the accident.

AMONG the names of Canadians who visited the Colonial and Indian exhibition during the week ending the 22nd of May, appears those of Messrs. D. McCrae and J. McCrae, Guelph.

REV. J. H. CARSON, President Mills, O.A.C., Ald. W. G. Smith, Messrs. L. R. Bollert, D. Scroggie, W. W. Kenny, and E. Daniels, leave to-day to attend the Guelph Conference of the Methodist Church which assembles in Goderich tomorrow.

The solicitors for the Toronto Street Car Company have filed an answer to the application of the strikers to operate an omnibus line in opposition to the Street Car Company. They urge that the strikers are using free the roadways towards which the company paid $30,000.

NEARLY RUN OVER.—A little lad was nearly run over on Woolwich street this forenoon by Mr. Walter West's team. One of the horses sprang to the side or else the little lad would have been knocked down and thrown among the horses' feet before the team could have been pulled up. A further inquiry it is found that the child belonged to Mr. T. J. Day and had strayed away from his home. Some parties who knew the lad took charge of him until his parents were informed of his whereabouts.

THE BRANT MEMORIAL.—At a meeting of the Finance Committee of the Brant Memorial Association in Brantford on Friday, letters from Mr. Percy Wood were read, in which he intimates his intention of leaving England for Brantford on the 12th of June to personally superintend the laying of the foundation for the monument and its complete erection, and stating that the pedestal, bronze figures and base reliefs will soon be forwarded from England. It was reported that the fund on hand now amounted to $15,000. There are also private subscriptions to collect from.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

READY mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

WHO is that stylish gentleman with the light suit and silk hat? asked our Magistrate of the Chief of Police. His name is Mr. Wilkie, cutter for B. B. Hughes, 33 Lower Wyndham street, answered the officer.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

Resignation of Mr. Broughton.

It is announced that Frederick Broughton, at one time General Manager of the Great Western Railway, but of late Manager of the Chicago & Atlantic R. R., has resigned, and it is said will return to Canada to engage in mercantile pursuits.

The President's Wedding.

The Presidential party will leave for Washington to-night by special train, and Miss Folsom and her party will be escorted to Washington on Wednesday morning by Col. Lamont.

Killed Instantly.

NAPANEE, Ont., May 31.—Edward Smith, who has been braking on the N., T. & Q. R. R. for a couple of weeks, fell between the cars this afternoon while coupling. The cars passed over his abdomen, killing him instantly.

Farmers' Institute in Wroxeter.

WROXETER, May 29.—A Farmers' Institute was held here yesterday, when the following papers were read:—Forestry, by Mr. Gibson, M. P. P.; Wheat Culture, by Mr. Strachan, Grey; and Grasses, by Mr. McMillan, Hullett.

The Siberian Still Missing.

HALIFAX, N. S., May 31.—Following are the names of those who took passage on the "Siberian" for St. Johns: Mr. Ely, Miss Saint, Capt. Mylins, Mr. Bingham, Mr. Webber, Mrs. Johnson and child, Bishop Jones; one intermediate and five steerage. She had also on board for Liverpool: J. R. Rudolf, J. Rudolf, jr., Mr. Ellis, Mrs. Dart, two children and nurse, Minnie Campbell, O. H. Fisher, Mr. Wallace, Major Picton and son; six intermediate and 35 steerage.

Fatal Accident.

ST. THOMAS, Ont., May 31.—A man working on the Michigan Central Railroad track, near St. Clair Junction, was struck and thrown from the track by No. 8 express this morning. The train was stopped and the man brought to St. Thomas and placed in the hospital, where he received medical attention. He is unconscious and his recovery doubtful. In his pockets were found letters identifying him as Wm. E. Matteson of Caton, Steuben County, New York.

How to Raise Church Money.

HAMILTON, May 31.—The pastor of Wesley Church, Rev. W. J. Hunter, has struck a novel scheme to raise the money to pay for a $1,200 lot, on which the church proposes to build a parsonage. The lot is divided into 800 square inches. Each person takes one square or more at $1 50 per square. This entitles them to membership in the "Inch-by-Inch Society," which new society proposes purhasing the lot. The name of each purchaser will be placed upon the framed plan, the latter to be hung up in the parsonage.

The Fisheries Question.

HALIFAX, May 31.—The schooner Amos B. reports that the Dominion fishery police boat Houlett is cruising in the neighborhood. Three American schooners have been officially reported as having purchased bait within the limits as well as others whose names have not been learned. It is understood that the cruisers will attempt to seize the vessels should they be met.

Many American fishing schooners are believed to be hovering about the Nova Scotia coast, but their fear increases with the departure of each new fishery cruiser from the port.

PORTLAND, May 31.—The Canadian schooner Sisters was released from seizure by the Customs authorities on Saturday evening and immediately left the harbor.

Decoration Day in the States.

NEW YORK, May 31.—All business was suspended in the city, the banks, exchanges and courts being closed. The military procession was one of the most imposing and best disciplined public pageants ever seen in this city. The church bells rang out the opening salute, flags were displayed at half-mast on all the public and many private buildings. Appropriate ceremonies were held and the graves of the soldiers were decorated. The centre of attraction in Riverside Park today was Gen. Grant's tomb. Soon after daylight the people began to come, and in the afternoon the throng could be numbered by thousands. The tomb in which the remains of the nation's hero lay was fairly hidden with floral offerings from all parts of the country.

The Charges Against Mr. Cameron.

OTTAWA, May 31.—The Privileges and Elections Committee met this morning to consider the charges preferred by Mr. Somerville (Brant) against Mr. Hector Cameron. The Chairman of the Committee was not present, and after waiting over half an hour for a quorum Sir Hector Langevin moved that Mr. Hall should take the chair. No opposition was offered and Mr. Hall took the chair. Mr. Somerville repeated his charges, and asked that a summons be issued for Mr. E. O. Bickford, of Toronto, with orders to produce all letters and telegrams received by him from Mr. Cameron in reference to the procuring of a subsidy for the Erie & Huron Railway. He also asked that Messrs. J. D. Edgar, M. P., Henry Smith, M. P., R. M. Wells, M. P., George Laidlaw and J. J. Hawkins, be summoned to give evidence. The orders for the attendance of these witnesses were granted.

Terrible Drought in Texas.

GALVESTON, Tex., May 31.—Specials from every part of Texas report that a general drought is prevailing over the State, and there is much suffering and loss among cattle and other live stock. In some sections small grains are sustaining serious damage, and the cotton crop is threatened, but as yet the cotton has sustained no appreciable damage. In Northwestern Texas, the Panhandle country, the drought is the most severely felt, and cattle are reported dying by thousands. The smallest water holes have gone dry, and cattle roam about in great herds, travelling for days, bellowing piteously. No general rains have visited the cattle regions for several months. The spring grass was meagre and deficient in nutrition leaving the cattle in poor condition to withstand the drought. In South-western Texas, the chief wool growing section of the State, the drought is equally severe, and many thousand sheep have died.

MILITARY CAMPS.

Regulations for the Annual Drill of the Active Militia Corps.

The Canadian militia general orders published this week contain the following regulations for the annual drill this year:

Corps ordered for service since 1st July, 1885, and held in barracks in Ontario and Quebec for duty, are not to be included in any list for drill.

The maximum number of officers, non-commissioned officers and men to receive pay for drill will be 20,255.

City corps (excepting field batteries of artillery, and such companies as belong to rural battalions of infantry) may be permitted to perform twelve days of annual drill at their local headquarters at such times, prior to 1st December, 1886, as may be most convenient.

Selections to be made from rural corps of the different arms in each district in proportion as their strength bears towards each other. Those not drawn for drill last year to be first taken.

The corps so selected in each of the districts, numbered 1, 2, 3, 4, 5, 6, 7, 8 and 9 (excluding isolated companies of infantry, and engineers and garrison batteries of artillery, but including all field batteries of artillery not otherwise excepted), are to be concentrated for twelve days' drill in a camp of exercise, including the day going to and the day returning from camp.

Isolated rural companies of infantry and engineers, of garrison batteries of artillery, selected for annual drill of 1886-87, may be permitted to perform the same at their respective headquarters on the same conditions as apply to city corps.

The 1st Provisional Brigade at Guelph and Winnipeg, Montreal and Woodstock Field Batteries, are to drill in camp near their local headquarters.

The places and dates for the several encampments will be notified hereafter.

Foreign.

Minister Phelps is indisposed.

An Imperial congress is in progress in Paris, and the various factions are quarrelling.

The Sultan of Turkey has presented to Mrs. Cox, the wife of the American Minister, the Grand Cordon of the Order of Cheuk.

Rev. Dr. Michelis, Bishop of the Old Catholics in Germany, who persistently refused to accept the decree of the inability of the Pope, is dead at Freiburg.

An epidemic has broken out at Chemnitz arising from the eating of raw beef. One hundred and twenty-three victims are reported. The disease is still spreading.

Count Xiquana, Governor of Madrid, while examining a revolver Monday, accidentally discharged the weapon, the bullet entering his side. He is in a precarious condition.

Dion Boucicault's first reception on reaching London was by a court officer serving a summons for a divorce suit at the instance of Mrs. Agnes Robertson Boucicault and under the advice of their children, whose birthright is impugned by the Australian marriage.

At the Royal levee Monday, held by command of the Queen, the following gentlemen were presented to the Prince of Wales by Sir Philip Cunliffe-Owen:—Senator Fabre, Dr. Selwyn, Director of the Geological Survey; Col. Onimet, M. P. P.; Col. Ross, Ottawa (?); Mr. Cross, Dr. May, and Major Gartshore.

American

The Knights of Labour on Monday resolved to use every effort to get election day made a national holiday.

Geo. H. Leonard, the missing Hyde Park, Ill., attorney, is thought to be in Canada. His thefts and liabilities are $40,000.

The Merchants' National Bank of Peoria, Ill., has suspended owing to the embezzlement of the funds by J. F. Hoke, book-keeper, who fled to Canada last week.

The Commandant of Fort Bliss, Tex., has received orders from Gen. Miles to immediately move his troops to Arizona to aid the prosecution of the war against the Apaches.

Canadian.

The True Britons' Grand Lodge met in Lindsay Monday.

Fire in the jail yard at Belleville Monday destroyed a portion of the barn located therein.

Toronto Street Car Company have formally opposed the granting of licenses to the opposition 'bus line.

James Whelan, a Nova Scotian seaman, was hanged in England on Monday for murder on the high seas.

The Bill passed by the British Columbia Legislature restricting Chinese immigration has been disallowed by the Dominion Government.

A man named Abe Sharp was compelled to pay $13 into the treasury of the Belleville Police Court, Monday, in fines and costs, for that he neglected to properly feed his horse. The animal dropped dead in the street from starvation.

John L. Joyce, who recently stabbed in the neck City Solicitor McTavish, Ottawa, has been committed for trial. Mr. McTavish has so far recovered as to be able to appear in court. He will soon be quite well again.

The manager of the Richelieu Navigation Company has notified the Secretary of the Young Men's Liberal Club that the company will carry the Reform delegates to the Convention in Montreal in July at half fares over all their lines.

A young man named Cranston, formerly teller in the Traders' Bank, St. Thomas, was arrested by Chief of Police Fewings in Galt Saturday charged with embezzlement. He was taken back and bail accepted.

Shippers and agents of the steamboat lines at Montreal are all demanding increased wharf room. The Harbour Commissioners, it is contended, should at once improve the harbor below the city at Hochelaga.

Mrs. Sheehan, widow of the well-known Jerry Sheehan, put herself out of existence at her house, Toronto, on Monday. Her means of suicide was hanging. A twisted cloth attached to the bannister and encircling her neck did the work. Deceased's young son came into the house just as she was dying. The body was cut down warm.

The Evening Mercury

TUESDAY EVE'G JUNE 1, 1886.

The Subsidies to Railways.

Some two years ago the Government initiated the policy of granting subsidies to a number of railways, the most of which are located in Quebec and the Maritime Provinces. In proposing these subsidies the Government sought to justify their course on the ground that such railways were required for opening up certain sections of the country and for the development of trade. No doubt many or all of these roads are required for such purposes, but the Opposition rightly objected to these subsidies, and argued that the Provincial Governments, or the municipalities interested, should build their own railways as was done by the Government and people of Ontario. The Government of this Province made many and liberal grants to aid in the construction of railways, and the municipalities largely supplemented these grants, for which they are even now heavily taxing the people. Instead, however, of allowing the other Provinces to do the same thing, the Dominion Government stepped in to aid them in the matter of railway construction, and as Ontario pays much the larger proportion of the public revenue she is thus again heavily taxed to pay for building railways in the other Provinces, while she gets but a very small share of Dominion funds to pay for roads within her own borders.

Last year the Government came down with another batch of subsidies of the same kind, and this year they have supplemented these by a still longer list, the details of which we gave the other day. It was, however, a matter of surprise to Parliament and the country to find that the Government had adopted a new principle in granting some of these subsidies, namely, that they now promise aid to competitive lines of railway, running from one road to another, and thus giving the people in the districts where the roads are designed to run the advantage of two competing lines. Mr. Pope, the Minister of Railways, in introducing the resolutions on Friday referred to this new policy of the Government. It will be seen from the extract below of the proceedings in the House that Mr. Innes, ever alive to the interests of his constituents in Guelph, put in a claim for Government aid to the Guelph Junction Railway, which would give our citizens a competitive line with the Grand Trunk, and a means of communication with the whole of the Canadian Pacific Railway system. He was also fully alive to the importance of this road to Guelph when the Government brought down their first list of subsidies. Two years ago he put in a claim for assistance to our proposed Branch Railway, but the then Minister of Railways informed him that it was contrary to the then policy of the Government to aid competitive lines. Now that they have adopted this policy he has renewed the claim. In the course of the discussion on the proposal to give a subsidy to a railway from Ingersoll via London to Chatham,

Mr Paterson, (Brant), said:—Under this head I would like to bring to the Minister's attention the interest of a very important town some thirty miles east of Ingersoll the on Grand Trunk system—I refer to the town of Paris. It would be a great advantage to that town to have competition, which could be given to it by the construction of a railway eight or nine miles long to connect with the Credit Valley.

Mr Pope. All I can say is that we are most anxious to give all the railway communication we can to all those places. If the hon. gentleman, when I hope to meet him next year, will speak to me in time, I shall be very glad to consider the matter.

Mr Paterson (Brant). Might I ask the Minister if that is all that is necessary in reference to these matters, that I should speak to him?

Mr Pope. There is no doubt it would have a very powerful influence, but I would like the hon. gentleman also to give me some information about the nature of the road, and how it is to be built.

Mr Paterson (Brant). Of course the Minister said to-day that we were widening the matter, and I suppose it is quite proper for anyone to apply for railway accommodation. There is also the city of Brantford, to afford connection with which a charter has already been obtained, and I suppose my speaking to the Minister next session in reference to that city will have as much weight with him as he is pleased to say it will have in reference to Paris. I understood the Minister to say he could not consider these questions this year.

Mr Pope. I do say that any representations the hon. gentleman may make will receive my best consideration, but I cannot bring these matters up this year.

Mr Innes. As the Minister of Railways has laid down the principle that he is going to assist competitive lines connecting different roads, I hope he will give favorable consideration to a project that we have for the construction of a railway from the city I have the honor to represent to a point on the Credit Valley Railway, which is part of the Canadian Pacific Railway system. I refer to the Guelph Junction Railway. The hon. Minister may recollect that two years ago we obtained a charter for the construction of this railway, and that this year we obtained a renewal of that charter with some necessary amendments. I beg to inform the Minister that it is in the same category of roads as the one referred to by the hon. member for south Brant (Mr Paterson), and I trust he will give it the same favorable consideration in another year which he has promised to give to the road in which my hon. friend is interested.

Mr Pope. I do not know that I can say the hon. gentleman will have quite as much influence over me as the hon. member for South Brant (Mr Paterson), but I will consider his representations. I have not known the hon. gentleman so long as I have the hon. member for South Brant.

Mr Innes. Perhaps when you do, I will be able to have as much influence as my hon. friend.

Apart from Mr. Pope's pleasantries, which any one will see were meant as a joke, we would say that from the above there is good encouragement that when the Board of Directors of our Branch Railway are able to lay a tangible scheme before the Government for its construction, they will give it fair consideration and we hope reasonable assistance. Of one thing we may be sure, that Mr. Innes will exert every effort in his power to accomplish so desirable an object.

EMIGRATION from the United Kingdom will in all probability be much more numerous than last year. For April the number was 40,734, against 36,702 in April, 1885, and for the four months ended 30th April last the number was 82,764 against 64,394.

THE Tories are at present flooding the country with copies of some of the principal speeches made in support of the Government during the session. The Ottawa *Free Press* says that among others about two hundred thousand copies of the speeches delivered by Messrs. White & Co.. on the northwest question, printed at Montreal, are being sent to the electors of Ontario. Two civil servants, who are prominent, have been given the work (extra) of posting and addressing the same. Who pays for the work? The Government of course.

THE Senate the other day displayed rather a curious freak of independence in throwing out the bill to amend the Chinese Immigration Act, passed last session. It may be remarked that this is the first Government bill which the Senate has rejected since the present Ministry came into power. Whether the Government really wished to defeat it or not we cannot tell, but if they had been very anxious for its passage we should think they could easily have brought such pressure to bear on their supporters as would have saved the bill. Mr. Plumb was engineering it through the House, and perhaps this may have been the reason why a majority of the Senators got disgusted with the way in which he was managing the Government business.

FROM British Board of Trade returns for the month of April it appears that the value of the imports from Canada was £55,973, against £87,221 for April, 1885; and for the four months ended 30th of April it was £136,508 against £210,729 for the corresponding period of 1885. The fallings off were in the following cases: Oxen and bulls from £60,952 to £3,312; wheat from £14,473 to £12,660; wheat flour, from £7,043 to £1,551; cheese, from £15,541 to £12,333; fish, cured and salted from £68,229 to £64,350; sawn wood, from £34,214 to £31,883. The only increased export was hewn wood, from £8,187 to £9,807. The value of the exports to Canada in April was £301,424, against £295,805 in April, 1885; and for the four months ended 30th of April it was £1,465,706 against £1,604,113 for the corresponding period last year.

BRADSTREET'S Financial Journal in an article favorable to the Canadian Pacific railroad says that the action of the Dominion Government in taking back from the company nearly seven million acres of land at $1 50 per acre in liquidation of the outstanding ten million of the thirty million dollar loan "of course amounts practically to a *free gift of the ten million dollars to the road*. The result is precisely the same as if the Government had never granted the land, but had presented the corporation with the ten million dollars in the first instance." Considering that this article must have been inspired by the Canadian Pacific to advance its interests in the American money market, this quotation may be accepted as an admission by the company that the arguments and contentions of the Liberal leaders respecting the nature of the last concessions by the Government to the Canadian Pacific company were correct.

FROM the way that the Government have been expending vast sums of money for the printing of Immigration pamphlets it would seem that this was done more for the purpose of keeping them in power than to attract immigrants. As we have repeatedly pointed out very large sums are yearly given to newspapers supporting the Government for printing pamphlets. As most of these publications are stereotyped, the plates are passed from one office to another and full rates for composition charged. This outrageous system of subsidizing the Tory press is a gigantic abuse, and shows how public money devoted by Parliament to a special purpose is transformed into a fund for party uses. An instance cited by Mr. Mills is very scandalous. A Captain Allen, one time journalist at Ottawa, and recently at Winnipeg, started a comic paper in opposition to *Grip*. Several members of the Ministry subscribed, but the Captain failed to raise sufficient funds to run the concern. But the Ministry wanted an organ of the kind to offset *Grip*, wretched though it was in every respect. What did they do? Mr. White, Minister of the Interior, instructed his deputy, Mr. Burgess, to write Captain Allen and ascertain from him what he would take for the copyright of his pamphlet, "A guide to the Northwest," which, by the way, has been out of print for four years. The sagacious idea was that by purchasing this copyright the Government could take from the public chest the money required to set *The Arrow*, Capt. Allen's comic paper, on its feet. The amount thus abstracted to be charged, of course, to immigration.

THE following is a rather curious calculation of the increase of the public debt of Canada since the Tories came into power, eight years ago. Its simplicity will make clear to the meanest comprehension the terrific rate at which we are running into debt under the present Ministry. Men who have to work hard all day to earn a dollar, and who are taxed in every conceivable manner will see by it how the proceeds of their industry are scattered to the winds—not for the good of the country, be it remembered, but to retain these men in office and enrich the supporters. Here is the calculation:

Tories 99 months in office.	
Increase of public debt in that time	$106,000,000 00
Increase per month	1,177,000.00
Increase per day (26 working days per month	45,480.00
Increase per minute	75 00
Increase per second	1.25

Thus we find that every time your watch ticks or your pulse beats this Government increases the debt of the country one dollar and a quarter.

Think of it, workingmen of Canada!

Then reflect on the exposures of extravagance, corruption, bribery charter-selling and contract-broking going on under the auspices of this depraved administration. Expenditure so stupendous and unnecessary is unprecedented. It can only result in disaster and ruin.

Dominion Parliament.

OTTAWA, May 31.

In the House of Commons several amendments were made to the Franchise Bill in Committee. On the motion for the third reading of the Bill, Mr. Mills moved an amendment providing that the Provincial Franchise should be adopted. The amendment was lost on a vote of 92 nays to 54 yeas. The Bill was read the third time.

The amendments made by the Senate to the Bill respecting the Northern Pacific Junction Company were next considered, having been placed on the Government orders. Sir John Macdonald moved concurrence in the amendments. Mr. Mulock moved that the amendment be referred to the Railway Committee. The amendment was cast, and the Senate amendments were concurred in.

On motion to go into supply, Mr. Holton called the attention of the Government to the question of the Customs seizure at Montreal, and was followed by Mr. Vail, Mr. Paterson (Brant), Mr. McMaster and Mr. Bowell. The House went into supply.

On motion referring to the St. Vincent de Paul Penitentiary, Mr. Thompson announced that a full investigation would be made into the matter.

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S. Petrie, Druggist.

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisement the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Bargains in Dress Goods.

AND

SUMMER RESORT

BEAUTIFULLY situated in the County of Waterloo, on the G. W. R., three miles from Galt, twelve miles from Guelph and eight from Berlin.

The hotel attached to this favorite summer resort has been recently enlarged and fitted up with an especial view to the comfort of guests and invalids. Beautiful lawn, capacious billiard parlor and croquet grounds.

The Arcadian Mineral Spring has proved of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism will find that using these waters will almost effect a cure. New baths have been added this season.

Mr. H. Rost, former Manager, has resumed his responsible position, and will be pleased to welcome his old friends.

Terms moderate. Omnibus to all trains.

C. KRESS, Proprietor,
m11dtf Preston, Ontario

The Home Rule Question.

LONDON, May 31.—In the Commons this evening Mr. Gladstone, replying to a question by Mr. Heneage, said that the Government did not intend to proceed with the Land Purchase Bill immediately after the second reading of the Home Rule Bill.

The debate on the Home Rule Bill was resumed by Henry Fowler, who spoke in favor of the measure.

Lord John Manners (Con.) opposed the Bill.

Mr. Chamberlain moved the adjournment and will open the debate to-morrow when Mr. Bright is also expected to speak. The discussion promises to be of unusual interest.

After Mr. Chamberlain speaks to-morrow, an effort will be made to induce Mr. Gladstone to reply and close the debate. The Ministerialists insist that the Government, if defeated, will appeal to the country, while the members of the Opposition assert that if the majority against the Bill be large, Mr. Gladstone must resign, in which event they expect that Lord Hartington will be summoned to form a ministry.

LONDON, May 21.—Mr. Gladstone has received a letter signed by five hundred Protestant residents of Ulster in favor of Home Rule. They say they are convinced that a native parliament will be conducive to prosperity, contentment and observance of the law in Ireland. The letter has given Mr. Gladstone much gratification.

LONDON, June 1.—The *Standard* says this morning that the division on the Home Rule Bill has been definitely fixed for Thursday night or the small hours of Friday morning.

Chamberlain and His Party.

LONDON, May 31.—At the meeting of the Chamberlain party to-day 55 members of the House of Commons were present. Of these 52 resolved against the support of the Home Rule Bill, only three supporting Mr. Gladstone's Irish measure. Mr. Chamberlain read a letter from John Bright, in which the writer vehemently condemned the Bill, pledged himself to vote against it, and urged others to do likewise.

The news of the result of Mr. Chamberlain's meeting caused intense excitement in the lobby of the House of Commons. Mr. Chamberlain in the course of his speech assured the waverers that the result of the general election would be the defeat of the Gladstone candidates. Reports from every section, he said, indicated that the country was awakening to the fact that it was menaced with rule.

Several members of the Hartington section spoke at the meeting. They referred to the plans of the Liberal Unionists to fight every disunion candidate.

Loss of a Steamer.

LONDON, May 31.—A despatch from Australia reports the loss of the steamer Lyeemoon, from Melbourne for Sydney, off Green Cape. Seventy persons were drowned.

Great Fire in Berlin.

BERLIN, May 31.—Otto & Beutner's oil factory in the Rexdorf suburb of this city, and the adjacent timber yards have been destroyed by fire. The section devastated by the flames covers an area of forty acres. The loss is estimated at $750,000, distributed among many sufferers. The only casualty reported is the burning to death of an old woman. One fireman was overcome by the excessive heat but was restored to consciousness. A number of live stock perished in the barnes.

Etna Still in Eruption.

CATANIA, May 31.—The eruption of Mount Etna is becoming more violent. All the inhabitants of Nicolosi have removed from the town, and a cordon of troops has been established to prevent any one from re-entering the place.

West Garafraxa Council.

The Council of the Township of West Garafraxa met as per advertisement as a Court of Revision, at Mill's Halfway House, Fergus and Belwood Road, at 10 o'clock a.m., on Friday, the 28th day of May, 1883, all the members being present and having taken and subscribed to the oath according to statute. There being no appeals, the Court adjourned and organized as a Township Council, the Reeve in the chair.

A petition signed by George Gerrie and eight others was presented to the Council which after consideration,

It was moved by Messrs Hugh Black and Hanna, that the petition of George Gerrie and eight others praying to be changed from polling sub-division No. 1 to No. 3 be laid over in view of a necessary readjustment of all the divisions. Carried.

The Clerk presented a communication from the Clerk of Eramosa, requesting a committee to be appointed to confer with a deputation from said municipality regarding the townline between the two municipalities. No action taken.

Moved by Messrs Ransom and Black, that leave be given to introduce a by-law to amend by-law No. 11 appointing township officers, and that the same be read a first and second time. Carried.

By-law read a third time and passed.

Moved by Messrs Ransom and Hanna, that Henry Pattison be authorized to perform five days statute labor in road division No. 5. Wm McFarland road overseer. Carried.

Moved by Messrs Black and Hanna, that John Wilson be appointed inspector to expend balance to the credit of large drain on 1st, 2nd and 3rd concession, lots 9, 10, 11 and 12, in clearing out the same where most needed. Carried.

A petition was presented by Edward McConnell and five others, praying for a large drain through lots 23, 24, 25 26 and 27, in the 7th and 8th concessions of the Township of West Garafraxa. After consideration, it was

Moved by Messrs Black and Hanna, that the petition of Edward McConnell and five others, asking for a large drain under the Ontario Drainage Act be received and the Clerk is hereby instructed to notify Charles J. Wheelock, Township Engineer, to attend on or about the 15th June next, to take the necessary levels and make a preliminary survey and report to this Council. Carried.

Moved by Messrs Hanna and Black, that the following sums be paid: $32 50 to Clerk, one quarter's salary; $70 to James R Bell; also $3 to James R Bell, equalizing assessment of Union Schools, Nichol and West Garafraxa; $4 50 to John Beattie for insurance on drill shed, Belwood; $4 73 to Andrew Lightbody, official postage up to April 9th, 1883; $1 46 to Aaron Abott, refund of taxes on personal property; $4 to R Y Blyth, two years' postage and stationary and two years' foolscap and ink for Auditors. Carried.

Moved by Messrs Black and Hanna, that this Council do now adjourn, to meet again at McClure's Hotel, Belwood, on Saturday, the 10th day of July next, at ten o'clock a m.

JAMES KENNEDY, Clerk.

West Garafraxa, May 29, 1883.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

ALLEN'S LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy, —**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes, Price 25c., 50c., and $1 per Bottle. The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

EYE, EAR and THROAT

DR. RYERSON,

L.R.C.P., L.R.C.S.E., Lecturer on the Eye, Ear and Throat, Trinity Medical College, Toronto, and Surgeon to the Mercer Eye and Ear Infirmary, Oculist and Aurist to the Hospital for sick children, late Clinical Assistant Royal Ophthalmic Hospital, Moorfields, and Central London Throat and Ear Hospital.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

The Home Rule Question.

LONDON, May 31.—In the Commons this evening Mr. Gladstone, replying to a question by Mr. Heneage, said that the Government did not intend to proceed with the Land Purchase Bill immediately after the second reading of the Home Rule Bill.

The debate on the Home Rule Bill was resumed by Henry Fowler, who spoke in favor of the measure.

Lord John Manners (Con.) opposed the Bill.

Mr. Chamberlain moved the adjournment and will open the debate to-morrow when Mr. Bright is also expected to speak. The discussion promises to be of unusual interest.

After Mr. Chamberlain speaks to-morrow, an effort will be made to induce Mr. Gladstone to reply and close the debate. The Ministerialists insist that the Government, if defeated, will appeal to the country, while the members of the Opposition assert that if the majority against the Bill be large, Mr. Gladstone must resign, in which event they expect that Lord Hartington will be summoned to form a ministry.

LONDON, May 21.—Mr. Gladstone has received a letter signed by five hundred Protestant residents of Ulster in favor of Home Rule. They say they are convinced that a native parliament will be conducive to prosperity, contentment and observance of the law in Ireland. The letter has given Mr. Gladstone much gratification.

LONDON, June 1.—The *Standard* says this morning that the division on the Home Rule Bill has been definitely fixed for Thursday night or the small hours of Friday morning.

Chamberlain and His Party.

LONDON, May 31.—At the meeting of the Chamberlain party to-day 55 members of the House of Commons were present. Of these 52 resolved against the support of the Home Rule Bill, only three supporting Mr. Gladstone's Irish measure. Mr. Chamberlain read a letter from John Bright, in which the writer vehemently condemned the Bill, pledged himself to vote against it, and urged others to do likewise.

The news of the result of Mr. Chamberlain's meeting caused intense excitement in the lobby of the House of Commons. Mr. Chamberlain in the course of his speech assured the waverers that the result of the general election would be the defeat of the Gladstone candidates. Reports from every section, he said, indicated that the country was awakening to the fact that it was menaced with rule.

Several members of the Hartington section spoke at the meeting. They referred to the plans of the Liberal Unionists to fight every disunion candidate.

Loss of a Steamer.

LONDON, May 31.—A despatch from Australia reports the loss of the steamer Lyeemoon, from Melbourne for Sydney, off Green Cape. Seventy persons were drowned.

Great Fire in Berlin.

BERLIN, May 31.—Otto & Beutner's oil factory in the Rexdorf suburb of this city, and the adjacent timber yards have been destroyed by fire. The section devastated by the flames covers an area of forty acres. The loss is estimated at $750,000, distributed among many sufferers. The only casualty reported is the burning to death of an old woman. One fireman was overcome by the excessive heat but was restored to consciousness. A number of live stock perished in the barnes.

Etna Still in Eruption.

CATANIA, May 31.—The eruption of Mount Etna is becoming more violent. All the inhabitants of Nicolosi have removed from the town, and a cordon of troops has been established to prevent any one from re-entering the place.

West Garafraxa Council.

The Council of the Township of West Garafraxa met as per advertisement as a Court of Revision, at Mill's Halfway House, Fergus and Belwood Road, at 10 o'clock a.m., on Friday, the 28th day of May, 1883, all the members being present and having taken and subscribed to the oath according to statute. There being no appeals, the Court adjourned and organized as a Township Council, the Reeve in the chair.

A petition signed by George Gerrie and eight others was presented to the Council which after consideration,

It was moved by Messrs Hugh Black and Hanna, that the petition of George Gerrie and eight others praying to be changed from polling sub-division No. 1 to No. 3 be laid over in view of a necessary readjustment of all the divisions. Carried.

The Clerk presented a communication from the Clerk of Eramosa, requesting a committee to be appointed to confer with a deputation from said municipality regarding the townline between the two municipalities. No action taken.

Moved by Messrs Ransom and Black, that leave be given to introduce a by-law to amend by-law No. 11 appointing township officers, and that the same be read a first and second time. Carried.

By-law read a third time and passed.

Moved by Messrs Ransom and Hanna, that Henry Pattison be authorized to perform five days statute labor in road division No. 5. Wm McFarland road overseer. Carried.

Moved by Messrs Black and Hanna, that John Wilson be appointed inspector to expend balance to the credit of large drain on 1st, 2nd and 3rd concession, lots 9, 10, 11 and 12, in clearing out the same where most needed. Carried.

A petition was presented by Edward McConnell and five others, praying for a large drain through lots 23, 24, 25 26 and 27, in the 7th and 8th concessions of the Township of West Garafraxa. After consideration, it was

Moved by Messrs Black and Hanna, that the petition of Edward McConnell and five others, asking for a large drain under the Ontario Drainage Act be received and the Clerk is hereby instructed to notify Charles J. Wheelock, Township Engineer, to attend on or about the 15th June next, to take the necessary levels and make a preliminary survey and report to this Council. Carried.

Moved by Messrs Hanna and Howes, that the sum of $10 be paid to the Treasurer, the same being money paid by him to the contractor on Belwood bridge contract. Carried.

The Council adjourned and proceeded with the Court of Revision. There being some slight changes made in the Assessment Roll, it was moved by Messrs Ransom and Howes, that the Assessment Roll for the year 1883 as now revised be confirmed. Carried.

The Court rose, the members reorganized as a Township Council.

Moved by Messrs Hanna and Black, that the following sums be paid: $32 50 to Clerk, one quarter's salary; $70 to James R Bell; also $3 to James R Bell, equalizing assessment of Union Schools, Nichol and West Garafraxa; $4 50 to John Beattie for insurance on drill shed, Belwood; $4 73 to Andrew Lightbody, official postage up to April 9th, 1883; $1 46 to Aaron Abott, refund of taxes on personal property; $4 to R Y Blyth, two years' postage and stationary and two years' foolscap and ink for Auditors. Carried.

Moved by Messrs Black and Hanna, that this Council do now adjourn, to meet again at McClure's Hotel, Belwood, on Saturday, the 10th day of July next, at ten o'clock a m.

JAMES KENNEDY, Clerk.

West Garafraxa, May 29, 1883.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

ALLEN'S LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy.—**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes, Price 25c., 50c., and $1 per Bottle.

The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

EYE, EAR and THROAT

DR. RYERSON,

L. R. C. P., L. R. C. S. E., Lecturer on the Eye, Ear and Throat, Trinity Medical College, Toronto, and Surgeon to the Mercer Eye and Ear Infirmary, Oculist and Aurist to the Hospital for sick children, late Clinical Assistant Royal Ophthalmic Hospital, Moorfields, and Central London Throat and Ear Hospital.

BOARD OF EDUCATION.

Capt. Clarke's Resignation not Accepted.

A special meeting of the Board of Education was held on Monday evening. Present—Mr. Newton, chairman. Messrs. Knowles, Murton, Bruce, Mitchell, Myers, Skinner, Bollert, Peterson, Dr. McGuire, R. Stewart, Burgess, Mackenzie, Spragge.

The chairman said the object of the meeting was to consider Capt. Clarke's resignation which had been sent into the Board.

Dr. Torrance read Capt. Clarke's communication which simply asked that his resignation be accepted, without attaching any reason. The Secretary also read a note from the Rev. Father Doherty, regretting that he was unavoidably absent holding missions in Hamilton.

Moved by Mr. Murton, seconded by Mr. Bruce, that the Board must decline to accept the resignation of Capt. Clarke under the present circumstances, and feel deeply sorry that anything should have occurred to induce him to tender it. The Board are unanimous in the wish that he should continue to instruct the children of our schools in their calisthenic exercises as he has hitherto done, and all take the opportunity of expressing our entire approval and satisfaction at the way he has conducted his several classes and entertainments, always looking to the moral and physical improvement of his pupils; and we feel satisfied that the parents and guardians of the children owe him a debt of gratitude for the benefit of the exercises conferred upon them, for we maintain that physical training is only second to mental culture. We, therefore, sincerely hope he may be induced to withdraw his resignation, as we feel it would be a great loss to the community, and the Board would have much difficulty in procuring one to fill the situation, whose duties he has so efficiently and energetically fulfilled since the date of his appointment.

Mr. Murton in making the motion remarked that he was sorry that any cause should have arisen whereby the Captain found it necessary to send in his resignation. He deserved better treatment at the hands of outsiders than he had received. He had no doubt but the Board was of one opinion as regarded Capt. Clarke's usefulness, and would not accept his resignation.

The motion was carried unanimously and the Board adjourned.

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsia, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at Thomas S. Petrie's Drug Store.

Base Ball Notes.

The Black Diamonds play to-morrow. This will be the last game on the home grounds for two weeks.

Oswego wants Frank Sheibeck. They can't have him. The home team require Frank's services to do up Oswego on the 9th and 10th of August.

To-morrow Guelphites will have one more chance to see McGra, Wilson, Bennett, Miller, Lynch, and other well known Hamilton ball tossers try to do up the Leafs.

International games Monday.

Morning game—ten innings.

	R.	B. H.	E.

OUR

Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE

THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

REMEMBER THE PLACE—

Successors to John Hogg & Son.

Horsford's Acid Phosphate.

Well Pleased.

Dr. C Roberts, Winchester, Ill., says: "I have used it with entire satisfaction in cases of debility from age or overwork, and in inebriates and dyspeptics, and am well pleased with its effects."

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

AS

CONSCIENTIOUS DRUGGISTS

We would recommend for

DYSPEPSIA, INDIGESTION,

And kindred diseases, the use of

MALTOPEPSYN.

FOR

Consumption and all Wasting Diseases

The use of

Morse's Carbolated Norwegian Cod Liver Oil.

For Teething Infants and Nervous Troubles, the use of

Glycerole of Celery Compound, containing no Opium.

You probably ask why we recommend these remedies. It is because we know them to be reliable remedies, endorsed by leading physicians throughout the Dominion, for the cure of special fin diseases, and not claiming to cure everything. Also because they have the exact formula printed on each bottle label, thereby enabling the purchaser to know just what he is taking. The time is rapidly approaching when intelligent people will refuse to take quack cure-alls, the ingredients of which are kept secret, but will insist upon knowing just what they are taking. We have on hand constantly a fresh and complete stock of

DRUGS, FANCY GOODS, PERFUMERY,

Etc.: also all the leading

PATENT MEDICINES.

Prescriptions carefully Dispensed

Good Value Guaranteed. Favor us with a Call.

Thos. S. Petrie,

Royal City Drug Store, Masonic Block, Guelph

MANHOOD.

How Lost, How Restored!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

☞ Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practise, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be may cure himself cheaply, privately and radically.

☞ This Lecture should be in the hands of every youth and every man in the land

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

Guelph, May 31, 1886.

American.

Two thousand Philadelphia planing and sash mills employees struck Tuesday.

Gabriel Dumont is in Washington with the intention of joining a "Wild West" show.

John Kelly, the Tammany chief, died at New York Tuesday, after seven months sickness.

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 50c. and $1.00 per bottle at Thomas S. Petrie's Drug Store

Foreign.

The French Chambers have voted 100,000 francs to the Pasteur Institute.

The Queen's Proctor has declined to interfere in the Crawford-Dilke case.

Count Xequena, Governor of Madrid, while examining a revolver on Monday, accidentally discharged the weapon, the bullet entering his side. He is in a precarious condition.

Now, we'll wager ten cents to a farthing
This poem she has already read—
We know she'd get it somehow,
If she had to stand on her head.

It's something she ought not to know;
But you see it and it out anyhow
If she gets the loose kind of a show.

It's true is anything that worries a woman,

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S. Petrie, Druggist.

British mails close at the Guelph post office as follows: Wednesday, via Quebec at 4.45 p.m. Thursday, via New York at 4.45 p.m.; Monday via New York, at 4.45 p.m.

THE EVENING MERCURY is printed and published every afternoon at 4 o'clock; THE WEEKLY MERCURY is issued every Thursday morning. INNES & DAVIDSON, Publishers and Proprietors, 54 Macdonnell street, Guelph, Ont.

THE sidewalk along the Waterloo avenue is in a bad condition the planks being worn out and loose.

THE members of the City Band wish to return thanks to Mr George Sleeman for a donation of five dollars.

THE cases against the parties who sold liquor on the Exhibition ground on the 24th of May are set down for Monday.

THE person who cannot afford to cross the ocean this summer can always get up a kind of sea-sick feeling by having the painters in his house.

THE annual Brigade drill for Nos. 1 and 2 Batteries will be performed at headquarters this year. The place has not yet been named, but the drill will likely commence about the 21st of the month.

A young man who was admitted to the Philadelphia bar three years ago has just secured his first case. He has sued his washerwoman, who won't return his linen because he owes an old bill.

ALD. LAMPREY is removing the fence from his boulevard. Now that the trees are grown up, and cows not being allowed to run at large, he thinks that there is no necessity for such protection.

LIME cartridges are coming into use for blasting purposes. A hole is bored, the lime cartridge inserted and water poured over it. The increase in volume of slaked lime splits and cracks the substance which it is desired to blast.

THE examination of Mr. W. C. Weir, will take place on Thursday afternoon, at 2 o'clock and his ordination to the Baptist church here at 8 in the evening. Full particulars in the advertisement in another column.

THE Hamilton *Times* says:—Mr J. W. Carpenter, Warden of Halton county, met with a severe accident on Thursday, at his home near St. Catharines. He was holding down a colt, when it raised its head suddenly, striking him a serious blow in the face, by which his nose was broken and other injuries inflicted.

SHETLAND PONIES.—There passed through Guelph to-day 100 Shetland ponies on their way to Texas. This morning the citizens feasted their eyes on a cowboy nearly in full dress, with his rifle slung over his shoulder. He gave his name as "Wild James" and came here to meet the shipment.

ROYAL TEMPLARS.—A Council of the Royal Templars of Temperance was instituted in Drayton on Tuesday evening, June 1st, by District Councillor, A. C. Steele, of Guelph. A list of the officers will be given next week. The Council starts out under the most favorable auspices and it is understood the leading business and professional men of that village propose becoming members and taking advantage of the excellent beneficiary features of the order. P. Henry is Select Councillor and H. S. Mitchell, Secretary.

JUNE FAIR.—There were about 300 head of cattle on the fair ground to-day (Wednesday). There was a considerable fall in prices from last fair. Prices ran from 3½ to 5c, and first class export cattle could be purchased at the latter figure. It is said that three head were sold for 6c, but these must have been exceptionally fine animals, as those bought at 5 cents were superior. Milch cows ran from $30 to $48 according to quality. There was a larger number of people in the town. The west corner in the market ground was covered with agricultural implements of various kinds, which were inspected with interest by the farmers.

Guelph Conference.

GODERICH, June 2.—Rev. W. S. Griffin, D. D., Guelph, was elected President by a large majority on the first ballot. Rev. T. M. Campbell, of Goderich, was elected secretary.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

READY mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

WHO is that stylish gentleman with the light suit and silk hat? asked our Magistrate of the Chief of Police. His name is Mr. Wilkie, cutter for B. B. Hughes, 33 Lower Wyndham street, answered the officer.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synonym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Local Showers.

PROBABILITIES.—South-east and south-west winds, partly cloudy, warm weather with local showers and thunderstorms, west and north winds to-morrow.

The Black Diamonds play the Maple Leafs this afternoon.

MRS. G. D. PRINGLE left for Winnipeg this morning.

A FINE growing shower fell at noon today.

PROSPECTS are good for an abundant yield of strawberries this season.

MR. JAS. HOUGH, Clerk of the County Court, arrived in Guelph fifty years ago yesterday.

TWENTY years ago to-day the battle of Ridgeway was fought and won by our gallant volunteers.

DR. TORRANCE commenced his promotion examinations yesterday in the South Ward School, and was to-day examining the West Ward School.

MR. ROBERT DOUGLAS, Puslinch, has purchased a short horn bull, 12 months old, the pick of seven from Messrs Cowan & Sons, Galt. He is registered in the new herd book.

THIS morning Mitchell Todd caught a couple of dozen trout, yesterday Fred Robinson 80, and Geo. Morrison in today's fishing 150. The trout streams should be pretty well cleaned out by this time.

MRS. WM. BOWES, of Eramosa, is the owner of the boss apple tree. It measures 6 feet 7 inches around the trunk, which is a very large size for a tree of this kind.

PARTIES who have small books with baseball tickets for sale would do well to put their names on the fly leaf so that if they are lost the finder might know who to return them to. One of these was picked up yesterday.

JOHN H. REID, of Mimosa, has been very successful with bees this year, having brought through the winter thirty-four skeps, eight of which have swarmed this season.

THERE will be a grand benefit at the Speek Skating Rink to Master Harry Lyons, of New York, who will give one of his exhibitions of fancy trick skating. The Guelph City Band will furnish the music. There should be a good attendance.

THE many friends of Mr. J. C. Presant will regret to learn that he is now lying dangerously ill at his residence on Huskisson street. An operation was performed on him yesterday by Drs. Aikins, of Toronto, and Brock, of Guelph, but the issue is still doubtful.

MOUNT FOREST *Index*:—Mr. Luke Madigan will spend the most of this week purchasing stock in the vicinity of Guelph and Elora with which to stock a ranch in Montana. This ranch company are proposing to run about 3,000 head of cattle from the age of one to three years. We hope to see them succeed, and expect to.

BOARD OF HEALTH.—A meeting of the Board of Health was held on Tuesday evening to take into consideration the resignation of Adjt. Clarke, as Health Inspector. Present—The Mayor in the chair, Dr. Keating, Messrs. Melvin, Murton and Robertson. Moved by Dr. Keating, medical health officer, seconded by Mr. R. Melvin, that the Board desire to express their great regret that Capt. Clarke has sent in his resignation as Health Officer for the city; that the members of the Board consider that he has been a most efficient and competent officer; that he has carried out the duties of Health Officer most efficiently and to the entire satisfaction of this Board. We would, therefore, assure him that he enjoys the full confidence of the Board of Health, and we believe of the great majority of the citizens of Guelph, and we would, therefore, ask him to withdraw his resignation as Health Officer. Carried.

DEATH OF MR. GEO. HURST.—Mr. George Hurst came from Nottingham or that neighborhood in 1843, directly to Guelph, with an introduction to the late Dr. Orton, who in those days was the friend and adviser of all who came from that locality—or indeed, from any other part if they needed guidance. Mr. H. commenced working in this neighborhood, then farming, and after a few years bought a small farm and tavern stand four miles on this side of Elora. Here he did a profitable business in the old teaming days, improved and extended his farm, and ten or twelve years ago made a good sale, retired on his savings to live in Guelph. He built himself a nice cottage on the boundary of the city, and enjoyed life as most do who feel that, under the blessing of God, they are reaping the reward of their labors and thrift. Mr. Hurst was a zealous member of the Church of England, a devoted supporter of St. George's Society, and an honest Conservative. Of a strong and vigorous frame he enjoyed good health until last winter, since which he gradually declined, and on the 1st inst. was no more. The deceased was the right kind of mettle for Canada, he came to work for a living and his desire of advancement he supported by thrift and industry he hoped for nothing he did not earn, and he earned a competency which he lived long to enjoy, and died at a good old age, respectable and respected.

Canadian.

Hon. James Young addressed the West Elgin Provincial Reform Association at St. Thomas Tuesday.

The Union plumbers of Toronto to the number of 60 have gone on strike for an increase of wages.

The crusade against fallen women in Toronto is causing many of this unfortunate class to leave the city.

The Ministerial Association of Toronto has passed a resolution expressing sympathy with the desire to bring about an earlier closing of the stores on Saturday nights.

The Grand Lodge of True Blues concluded the business of its twelfth annual session Tuesday, and elected officers for the ensuing year. Merritton was selected as the next place of meeting.

Hugo B. Rathbun, the wealthy lumberman and mill owner, of Deseronto, Ont., died at his home early Tuesday morning of kidney disease. The news of his death created a profound sensation in the village. All the mills have shut down. Deceased was 74 years of age.

The United States revenue cutter "Dix," has seized a Spanish fishing smack for violating the fishery laws.

ERIN VOTERS' LIST.

Final Revision for the Township by Judge Drew.

Following is a report of the cases tried under the Dominion Franchise Act, at the final Court of Revision for Erin Township:

POLLING DIVISION NO. 1.

The first objection taken up was that against David McKeown. This objection was disallowed.

George Ferguson changed from owner to occupant.

McLachlan Currie changed to Lachlan Currie.

Acquilla Pevoy was by consent struck off No. 1 division and put on No. 2.

John Cutting was on as owner of Lot 14 E, Concession 1. Hugh McMillan testified that Cutting had sold this property. The deed was drawn by Mr. McMillan. Cutting, examined, swore he sold to his brother George in the fore part of last winter. He then bought 6 acres on part of Lot 31, Con. 7, Eramosa. Paid $350 for this, which he owns still. He got possession on April 1st. The Judge said Cutting clearly could not be on for the property for which he was assessed and accordingly erased his name.

POLLING DIVISION NO. 2.

Mathias Fisher's name was struck off, he being dead.

Donald McArthur, E half Lot 1, 7th Concession, was objected to on the ground that he is not a resident of the electoral district. Richard Anthony testified that McArthur is a blacksmith, that he removed to Halton last fall and that there is no one in his old shop. The Judge ordered the name to be struck off.

Thos. Ryder on a similar objection was struck off by consent.

George Young, on the list twice was struck off as farmer's son.

Duncan McIntyre's name was struck off for income, he having moved to British Columbia.

Angus McEachren was objected to on income. Mr. Millar testified that the Angus and Malcolm McEachern in No. 2 div. were not the same parties as those in No. 1. To Mr. Macdonald he answered that Angus' (son of John's) postoffice was Ospringe. Both Angus and Malcolm live on the 4th line and are down rightly for income. They have a farm rented and run their father's threshing machine. Mr. Thomas Talbot said there were four McEacherns. He did not know whether Angus was living. Mr. Millar, recalled, said Angus was dead; the name should be Archibald. There is an Archibald who was a brother of Malcolm who is living and of Angus who is dead. Robert Lang, examined by Mr. Guthrie said, he knew the sons of John, Malcolm and Archibald and John. Angus has been dead four or five years. To Mr. Macdonald witness said he knew the sons of Archibald McEachern by sight. Did not know whether they were in the riding now. Lachlan Currie, examined, said he was assessor of Erin for some years and is well acquainted. Know the families of John and Archibald McEachern. The sons in both families are threshers. Think there is an Angus, son of Archibald. Their father's farm is rented by Sinclair and the young men work at threshing and framing. Last year they ran the thresher through Erin and Esquesing. They worked as framers in the building season. One is working now as a framer in Erin and the other in Nassagaweya. Both make their home with their father. One had $23 a month and the other $24 last season. To Mr. Macdonald witness answered that he could not say which was working in Nassagaweya. Do not think either of them worked there last year. Angus' (son of John) name was struck off, he being dead, and the others were taken up again.

Louis Czirwinski was objected to on the ground that he is not a British subject. Henry Smith, on being examined, said to Mr. Macdonald: I think he was born in Polland, and was objected to once at Ballinafad several years ago. He then refused to take the oath. He was always allowed to vote before. To Mr. Guthrie: That was three or four years ago. I don't know whether he has been naturalized. Mr. Hugh McMillan said he was a scrutineer at Ballinafad in 1878 and Mr. Czirwinski then took the oath. Mr. Czirwinski not being present, Thomas Goldie was called and swore that he had posted him a notice of the objection. Mr. Guthrie held that this was insufficient; he should have been subpœnaed. At any rate a *prima facia* case had not been made out against him. This case came up again.

Jeremiah Hiltis was changed to Jeremiah Hilts.

Geo. Binnie, dead, was struck out.

Donald Campbell, after being struck off as dead, was reinserted.

James Fitts was struck off, he having sold the property.

David Givens was objected to as being absent from home more than six months of the year and the objection was allowed.

Wm. Lewis was objected to as owner of lot 7, con. 7. George Beswick testified that Mr. Lewis does not own this property, but that Richard Selwood is the owner. Mr. Lewis has a lease from April 1885 for two years. Abraham Swindlehurst testified to the same effect. Evidence was then called as to whether the notice had been posted to the right address. Messrs. Anthony and Young were examined, and showed that the address would not be Acton. This case was allowed to stand for a time.

John Sellwood, dead, was struck off.

Albert A. Swindlehurst, dead, was likewise erased.

Albert Vannatter was changed to Alfred Vannatter.

Wm. Butcher was objected to as not having an income of $350 a year. Being sworn he said he worked for Mr. Beattie last year and got $180 board and washing. The objection was dismissed, Mr. Guthrie stating that Butcher earned $300 and he was not going to object.

POLLING DIV. No. 3.

Peter Binnie, being dead, was struck off.

Alex. Laird was also struck off, being dead.

John McNab, farmer's son, was on twice. His name was erased once. The evidence showed he had gone to the States.

Chas. McLachlan, Arch'd Reed, Thos. Roberts, Alex. Smith and William Teeter, all dead, were struck off.

Wm. Warden was objected to as not being home the proper length of time. In this case the same difficulty arose as that which had arisen in Lewis' case, as to whether the notice had been posted to the proper post office. As they are on opposite sides of politics the counsel paired, and the objection was disallowed in both cases.

John Justice was struck off as owner's son in this division, Mr. Guthrie stating that he had applied to have him put on for income at Erin village.

James Lang was changed to James Long.

Alex. Laird, John McMillan, James Reed and Alfred Watts, all dead, were struck off.

George McCaig being objected to as owner, Lot 12, Con. 8, was called and being sworn said he sold the place in March to his sons. He still lives in the place and draws an interest from it. His name was left on.

John McCaig objected to as owner's son, was likewise left on.

Hugh Milloy was objected to as owner of Lot 11, E. Con. 8. Hugh McMillan swore that he had drawn up the deed of sale, and the name was struck off.

Duncan McMillan, owner of Lot 16, Cons. 9 and 10, objection withdrawn.

John Bolman was objected to as tenant of lot 10 con. 9. Messrs. Lang and Millar proved that he had removed to Georgetown and his name was erased.

Gilbert McArthur's application to be put on as tenant of lot 9, con. 7, was accepted. This was a change from another lot.

POLLING DIV. NO. 4.

James Quantick was objected to as a non-resident, having gone to Acton. This objection was withdrawn.

Alex. Somerville, on as farmer's son, was objected to. On his father's statement that he had gone to Michigan and would not be back again the name was scored out.

The McEachern case, which had been taken up in the first polling division, was now reopened on the arrival of Arch. McEachern. Being sworn he stated to Mr. Guthrie that he was the father of Malcolm and Angus. He lives on the 4th con., lot 7. He has rented his farm to Mr. Sinclair. His sons were framing last summer and at home in the fall. Malcolm is working in Nassagaweya since the 3rd of the present month. He was at home before he went there. He has $25 a month now and had $23 last year and board. There was only a dollar between their wages per month last year. To Mr. Macdonald: They received these wages four months last year. One of them got $1.12½ for two or two and-a-half months during the rest of the year threshing. He was at home the other six months, working out every day. I am working about 12 acres myself. To Mr. Guthrie: The part of the year they were not framing and threshing they were taking out rails, etc. When working for neighbors they got 75c a day and board. The part of the farm I keep is worth $1,000 anyway. To Mr. Macdonald: Angus is working in Eramosa; he left home about the 20th of April. They make my place their home. To the Judge: I believe Malcolm earned $300 last year. Angus earned about the same. The judge then said he would allow them on the list as income voters.

Robt. W. Tarzwell being objected to, testified that he lived on lot 24, con. 6, as occupant from his father George, the owner. It is a sawmill property. There are 14 acres and the water privilege, and it is worth $2,000. He does not pay rent, his father allowing him to carry on the business in the place. David Tarzwell occupies it in the same way, they being partners. Know James and George Tarzwell, sons of Robert. They are cousins of mine. Robert owns 20 acres, worth about $1,200. Last year George lived on one of his places. James stops at home with his father. He was away with his father's threshing machine last year. Robert W. and James Tarzwell were struck off as tenants and put on as occupants. Robt. W. Tarzwell was then examined as to the right of his cousin George to vote. As stated before, George and James are sons of Robert Tarzwell. Robert gave $600 for 12 acres of the property. George has been on one of his father's places as occupant and had the full benefit of it. The house and lot would be worth $24 a year rent. Don't think it would be worth $150. James lives with his father but works around. He is not at home six months in the year. George is getting $19 a month and board. James gets $20 a month and board. I think he earns $300 a year. The evidence in favor of George Tarzwell was not regarded as satisfactory, and his name was erased. James had been at the court himself, but did not wait for the case, and the Judge struck him off also.

Arch. Thompson and Dugald Thompson, jr., were objected to as tenants. Their father testified that he owned 350 acres, and that he had given the sons the management and whatever they could make. Dugald went away this spring, but met with an accident and came back in a few days. Their names were left on.

Calvin Campbell, objection not sufficient income, withdrawn on hearing statement of Thos. Talbot.

Charles McNabb, objection not a tenant. Also withdrawn.

George Malthy changed to Maltby.

Joseph Bingham, not of age. Struck off.

Thomas Hall, struck off for lot 25 E, con. 5, being on for lot 24, the proper lot, already.

John Keanedy, struck off by consent.

John Everdell, put on as farmer's son.

Donald and Alex. McKinnon changed to occupants.

Neil Thompson, on the testimony of Neil McKinnon that he got everything he raised on his father Dugald's farm, where he lives, was put on the list.

The objection to John Gilding was withdrawn.

POLLING DIV. NO. 5.

James Barbour was left on as tenant of lot 30 W, con 3. Edward Mooney, the only witness, not knowing when his tenancy expired. He left the place this spring.

Alex. Cooper, objected to, swore that he lives on lot 29, con. 3. His wife owned lot 27 and sold it last fall to James Grant. He bought 29 from Samuel Atchieson who had gone to the States. The Judge changed the vote from 27 to 29. Mr. Macdonald pointed out that Atchieson's name was on for the latter. The Judge decided to let Atchieson take care of himself if he comes back.

Thos. Everdale was struck off as owner of E half lot 24, con. 3. Robt. Tarzwell swore that he sold out in December and moved to Wisconsin.

George Hardy was allowed to remain on.

Samuel Jackson was also kept on.

Edward McDougall was struck off.

Jonathan Richardson, shoemaker, qualified on his father's property. Edward Mooney testified that he had been away since last fall. Henry Dunbar stated that his father wanted him on as he would be back, and that his father would be present to give evidence.

Charles Campbell was proven to be only

SEE THIRD PAGE.

The Evening Mercury

WEDNESDAY EVE'G JUNE 2, 1886.

A Plain Duty.

County Council during their present session are to be asked ot vote such a sum as they may think reasonable to aid the city in defraying the expense of the Provincial Exhibition, which is to be held in Guelph next September. The matter is to be brought before them in the shape of a petition. The Reeves and Deputy Reeves of Wellington, without any cause that we have ever been able to see, are apt to view with suspicion every suggestion made to them by the people of Guelph, but it requires no extraordinary discernment to recognize the justice of this claim. Our experience of the last exhibition was that the city reaped a very small benefit indeed in comparison with that which the County derived. This was shown by figures published at the time, which proved that the great bulk of the prize money went to the farmers of the county. At that time the County Council declined to do anything, and Guelph had to shoulder a burden for which it was never anything like re-couped. In addition to the monetary advantage which the farmers derived from that Exhibition, Wellington increased its prestige among the counties of the Province as a leading producer of live stock and products of the soil and dairy. In view of what we have said, we call upon the County Council to give such a grant as they believe in their consciences to be just and proper We are sure that in making this grant they will receive the sanction of nine-tenths of the electors, who will recognize the action as both judicious and fair.

From the Capital.

OTTAWA, May 31, 1886.

The session is nearing a close, yet there is a good deal of work to be done. It is generally expected that the business will be got through by Wednesday night, but there is no certainty about it, for at the last moment the Government may propose some objectionable legislation which it will be the duty of the Opposition to oppose, and it may be, debate, atlength. There is a rumor that there is some design of this kind on foot with respect to the bill to amend the Franchise Act. Several important amendments were made to the Bill in committee last week. The report now is that when the Bill comes up for its third reading the Government will propose some further amendments which are designed to operate against Reformers. If this is done the Opposition are determined to offer the most strenuous resistance to their passage, as they did last year, and to prolong the debate if need be for a week. This Bill is now the only important one on the order paper, but the Opposition have yet two or three amendments to bring up on the motion to go into Committee of Supply, and the discussion of these must necessarily occupy some time. Besides, the supplementary estimates have yet to be passed, and as these comprise over a hundred and sixty items, a good while will be spent over them. Moreover, concurrence in the estimates has to be taken in the House, and this often gives rise to sharp debates. Taking all these things into account it is doubtful if Wednesday night will see the end of the work.

When the Bill to amend the Franchise Act was passing through Committee last Tuesday, Mr. McCarthy proposed that one of the clauses in regard to certain classes of voters be retroactive as applied to this year's voters' lists. This would have had the effect of opening up all the lists which have already been finally revised, and would have given rise to much additional work and trouble. Even the Tories would not stand this vicious proposal, and Mr. McCarthy was reluctantly obliged to drop it. But the Reformers are never safe from the machinations of the Government or their tools, and something in the same direction may yet be proposed. We shall see.

The Inch Arran Hotel affair, which had been investigated by the Public Accounts Committee, was brought before the House on Wednesday by Mr. Davies, who conducted the enquiry for the Opposition. Mr. Davies proved that the hotel came into the hands of one or more Government officials; that the Chief Engineer of Government Railways, the Chief Superintendent of the Intercolonial Railway, and other officials high in office, were directly interested in the hotel; that concessions, advantages and privileges were granted to this hotel by the Railway which were not granted to other houses of the same kind; that materials required in the construction of the hotel were carried free; that tickets to tourists and servants going to the hotel were given free, and that when these officials bought the house from the person who owned it, it was part of the consideration that he should be employed in the Government service and paid by the public money. All this Mr. Davies established by the evidence which he read, and which could not be contradicted by the Government. Thus we have clear and positive proofs of another scandal, which though not implicating members of Parliament yet implicates the Government, for they allowed their officers to use the Government property for their own advantage and profit.

On Wednesday night a fresh crop of subsidies to railways was brought down. As in former sessions the lion's share of the grants goes to Quebec and the Maritime Provinces. As the Government has now decided to aid short lines of railway connecting the two great systems in Ontario, namely, the Grand Trunk and C. P. R., Mr. Innes put in a claim for assistance to the Guelph Junction Railway. Had he known that the Government intended to aid this class of railways he would have put in a claim long ago, and would have brought a deputation of the directors to Ottawa to aid him in pressing the matter on their attention. However, the Minister of Railways has promised to give it his full consideration next year.

The Government Printing Bureau Bill was vigorously opposed by Messrs. Somerville and Innes on Thursday last, the latter of whom read extracts from Messrs. Chamberlin and Blackburn's reports, who two years ago were appointed to investigate and report on the subject. The result of their enquiry was on the whole unfavorable to the establishment of a Government office in Canada on the score of economy. It is a pet scheme, however, of Mr. Chapleau's, who will have it under his supervision, and who seems determined to push it through although Messrs. Bowell and White, two old newspaper men, and practical printers, are really opposed to the bill, though they said nothing while it was before the House.

When the House went into Committee on Ways and Means the same night, Mr McLelan moved a fresh batch of changes in the tariff. One of these prohibits the importation and manufacture of oleomargarine and all other substitutes for butter under a penalty of $200 for each offence, together with the forfeiture of all such goods and the machinery and appliances for making it. The farmers of Canada have to thank the Opposition for this stringent law.

The Government are trying to force through the Northern and Pacific Junction Railway Bill as amended in the Senate. After a hard fight in the Commons the proposal to bond the road for $20,000 a mile was withdrawn and the amount fixed was the actual cost of the road in addition to the Government bonus of $12,000 a mile. The Senate, however, substituted the $20,000 a mile and now when it has come back to the House the Government on second thoughts insist on keeping it at that figure. There is a big job in this somehow, for the road has cost nothing like what the company pretends it did. If the bill passes in its present shape they will make a handsome thing out of it.

P. S.—The House has been in Committee since four o'clock on the Bill to amend the Franchise Act. The additional amendments promised by the Minister of Justice are meeting with scarcely any objection. Those proposed by Mr. McCarthy and other Tory members were briskly opposed and were not allowed to pass. The Bill got out of Committee shortly after 9 o'clock, and on the motion for the third reading Mr. Mills moved that the Bill be amended by substituting the Provincial franchises for the cumbrous, troublesome and expensive system under the new Act. It was of course negatived by the Tory majority and the Bill read a third time.

CANADA'S EXHIBIT.

Manufactures and Implements Showm at the Indian and Colonial.

SCHOOL BOOKS AND SCHOOL WORK.

(Dundee Advertiser, May 17th.)

The colonies of Britain have each their separate characteristics, and these characteristics are made manifest at this Exhibition. If India is the home of deftness and art and Australia of luxury, then Canada is the home of industry. Immediately on entering the Canadian section one feels that the Dominion means business. Not only does it contain every conceivable product, both in its raw and its manufactured state, but the exhibits are all displayed with the artfulness of a cute shopman. The Canadian section is a great warehouse where the contents are made to bulk largely before the eye. Everything seems to be brought to the front. Not a single thing is allowed to be passed without notice being taken of it. Publicity, obtrusiveness, is here the order of the day. Canada not only desires to be known that she makes all these things, but likewise that she has them on sale. India on the other hand, is content to have it known that she *has produced* her wonderful decorative wares, and Australia is content if the world knows that she *possesses* her great store of wealth.

The Canadian section is of itself a complete exhibition of contemporery industry, It comprehends everything from ploughs to telephones. There are wheat, flax, rice, oats, rye and rye whiskey. Apples, pears, peaches, grapes and wines, including ports, sherries, clarets, Sauternes, Vermonth and Sacramental wine. Ale, porter, cider and vinegar. Flour, biscuits, beef, ham, bacon, salmon, lobsters and medicines. Cocoa, chocolate, sugar, ginger, tobacco, sauces, pickles, honey, hair dye and perfumes. The collection of timber is large, as is also that of stones. Nearly all the metals are shown, and a huge gilt obelisk represents £10,000,000 of gold obtained in British Columbia during the last twenty-five years. The manufactures are as varied as the natural products. The collection of woolen and cotton cloth, hats and bonnets, silk ribbons, furs and hosiery is such that Messrs. Spence & Company might stock their warehouse with the greatest facility from Canada should British manufactures be altogether annihilated. Books, paper, paper pulp, beds, skates, toys, bricks, picture frames, blinds, billiard tables, silver plate, pottery, glass, violins, pianos, organs, cooking ranges, egg-beaters, umbrellas, sewing machines, washing machines, spectacles and every conceivable commodity is apparently to be found within the Dominion except one, viz., jute sacks. Sacking is the one thing conspicuous by its absence, but probably this has only to be mentioned in order to have it forthwith exhibited. Some of these things are of course, not so plentiful as others, and the articles of Canadian produce which bulk most largely are timber, agricultural implements and musical instruments. One large hall is filled with agricultural machinery, and it looks like a portion of an agricultural show. Farmers will be interested in seeing the style of apparatus in use on the farms at the other side of the Atlantic. The American organs and pianos cannot be judged by appearances, but if they be judged by quantity the trade is evidently a thriving and money-making one.

One portion of the Canadian section specially deserves to be closely studied, *i. e.*, that illustrative of the educational system of the Dominion. A very elaborate range of diagrams and school records has been sent across, and any one may learn with great facility not only the quantity of school work now being performed in Canada, but also the nature of that work and the appearance of the schools in which it is being carried on. A series of photographs exhibits the principal and characteristic school buildings, and a series of school records exhibit the manner in which education is conducted in them. It is manifestly of a very much more practical character than anything known in this country. Every School Board official and schoolmaster in the land ought to be sent to study these records. Nothing so illustrative and graphic is to be found in Britain in connection with school work. One volume contains needlework done by the pupils in one school. Another volume contains the essays written in another school. A third volume contains the maps drawn by the pupils of a third school, and so on. Two simple facts will make plainhow practical and business-like is Canadian school teaching. The exhibits from the Ottawa Art School include designs for wall paper, for carpets and plaster moulding. These designs are already to be put forthwith into the hands of the artisan for execution, whereas, except at the Bradford Technical School, at the reformed Mechanics' Institute at Manchester, and at two or three other selected places, nothing so practical is ever attempted in Britain, but only useless landscapes and drawings from plaster casts, perfectly worthless so far as designs for manufacturers are concerned. That is one fact, and the other is that the pupils in elementary schools are not asked to draw maps until they fully comprehend what a map is. The first map they draw is a map of the school-room. Afterwards comes a map of the adjoining streets or roads. Next one of the county, and lastly one of the country. This is very different from the common Scotch system, which compels young, ignorant, untravelled children to commence by drawing a map of Europe or America, or some other great territory, at a time when they have no adequate conception of the bearings, size or area of their own parish, much less of their own kingdom. Perhaps the lesson taught by Canada at this exhibition will help to remove a practice as cruel as it is useless. It is to the credit of Canada that she has anticipated the mother country in abolishing the treadmill style of tuition.

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsa, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at Thomas S. Petrie's Drug Store.

JOHN CROWE, Proprietor

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Bargains in Dress Goods.

SUMMER RESORT

BEAUTIFULLY situated in the County of Waterloo, on the G. W. R., three miles from Galt, twelve miles from Guelph and eight from Berlin.

The hotel attached to this favorite summer resort has been recently enlarged and fitted up with an especial view to the comfort of guests and invalids. Beautiful lawn, capacious billiard parlor and croquet grounds.

The Arcadian Mineral Spring has proved of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism will find that using these waters will almost effect a cure. New baths have been added this season.

Mr. H. Rost, former Manager, has resumed his responsible position, and will be pleased to welcome his old friends.

Terms moderate. Omnibus to all trains.

Tickets to the Baths and return good for days from all stations on the G.T.R.

C. KRESS, Proprietor
m1d1f Preston Ontario.

temporarily away at College by Arch. McDougall, and his name was retained on the list.

Wellington Entwistle, on for income, was objected to as not a resident. Henry Dunbar proved he worked eight months last year in Erin and then went to Norwich. He was to have come back, but has not so far. Edward Mooney understood he was not coming back. Struck off.

Hudson Gray; objection that his property is not worth $300. To Mr. Guthrie he said he owned two fifths of an acre, being part lot 27, con. 1. Paid $75 for the land and part of material for house. Did stonework himself. Should think the place worth $300 or $400. Was offered $300 for it.

Mr. Guthrie—Since the first Revision Court?

Mr. Gray—About the time the snow went off.

Mr. Guthrie—Who offered it to you

Mr. Gray—It was an old woman named Kinnear. She married since then and does not require a house. My son is delicate and lives at home. He was left on the list.

James C. Scott, objection that property at Mimosa was not assessed high enough to entitle two to vote. Thomas Talbot testified that the property was a vacant store at Mimosa. It was assessed for $200 or $250. The taxes had not been paid for three years. To Mr. Macdonald—As a general thing we don't like to assess too high. I put all the property within about 30 per cent of its value as far as I could judge. Henry Dunbar swore the place was almost unsalable from its locality. It had been vacant three years or more. If he remembered rightly Scott Bros. offered it to Colson for $250 and he refused. He (Mr. Dunbar) would not give $250 for it. D. McMillan said it was in a tumble-down condition; the taxes had been caried over for five years. He would not give more than $200 for it. To Mr. Macdonald he said he did not want to buy anyway. Edward Mooney said he had offered to insure the place for $450 if there was a tenant. He considered it worth $300 or $400. To Mr. Guthrie Mr. Mooney stated that he arrived at the amount he would insure the place for by its measurement in cubic feet. Hudson Gray valued it at about $400. He arrived at this by taking its original cost at $600 or $700 and allowing for wear and tear. Never told Stirton it was not worth $300. Mr. Guthrie contended that this was a case in which the Statute should be followed and the assessment roll taken for the value of the property. It was absurd to arrive at the value by taking original cost. The Judge said he would like to fix the value at what it would be if passing from a debtor to a creditor but as there was not sufficient evidence to show it was not worth $300 he would leave both names on.

Wm. Gray, objected to on income. He swore that with board and washing he earned last year by working for farmers what amounted to $309 and denied having told Mr. Stirton that he did not earn $300. He was left on the list.

John McNeil, objected to as not being tenant of Lot 20 E, Con. 3, Erin. Henry Dunbar proved he had moved to Acton, that in reality he never was the tenant, but that it was his son who was, the father working with him. Notice was proved and McNeil not appearing his name was crossed out.

Jonathan Richardson's case, which had been allowed to stand awaiting the arrival of his father, was now resumed, in the absence of the father. Edward Mooney would not swear the young man had been away from home more than six months last year. Henry Dunbar testified that his father had said he was at home six months. Mr. Guthrie said the notice of objection should have been sent to Palmerston anyway and on this ground the objection was disallowed. Na me left on.

POLLING DIV. NO. 6.

E. L. Burnham having left the district was struck off.

Donald Ferguson, was objected to as owner of Lots 30, 32, Concessions 10, 11. John McLean, Guelph, swore he had deeded it to Neil Ferguson in 1881. This appeared by title in the Registry Office. Mr. Guthrie supposed the name should go off if the notice had been posted properly. Mr. Macdonald said it had been posted to Hillsburg. John Hurd said the post office of Donald Ferguson was Reading, East Garafraxa. The matter was allowed to stand for a while.

Henry How objected to as an income voter, declined to be sworn. After some argument as to a form of declaration which might be put to him the Judge refused to accept his evidence. Robert McMillan said he was in the employ of the trustees of the late Mr. How's estate as miller and occupied a house and half acre belonging to the same, worth $400. Millers got from $30 a month upwards. The property was assessed for $200 in his name. His name was left on.

Morgan Henshaw was struck off as owner of lot 23, W con. 8.

James McArthur, dead, struck off.

Donald Ferguson's case was resumed on Mr. Macdonald producing a certificate from the Hillsburg postmaster that Mr. Ferguson had got the letter containing the notice sent him. Mr. Guthrie said it was mailed too late. It should have been posted before the 17th, whereas it was posted on the 17th. The Judge held that the 17th counted as one day in the two weeks from the time the notices had to be posted before the court was held, and therefore that the notice was posted in sufficient time. Donald Ferguson's name was then struck off.

Dougal McDougal was changed to Donald McDougal.

W. C. Armstrong changed to Wm. C. Armstrong.

Alex. R. Best was put on as occupant instead of owner.

Duncan Campbell, changed from lot 25 to lot 23, W con. 8.

Thomas Huxley put on as owner instead of owner's son.

A. H. McKinnon changed to Archibald H. McKinnon.

Charles J. McMillan, objection withdrawn, being on already in No. 3 polling division.

Angus McArthur applied to be put on. His brother had been present but could not wait, and in the absence of definite evidence the Judge declined to put him on.

George H. Webb, clergyman, on for income, was struck off, not having resided long enough in the township.

Isaac Wiley was struck off on the ground that he was not a resident twelve months previous to Jan. 1st.

Joseph Viner was struck off as not being a tenant.

Uriah Wheeler, on as farmer's son, was objected to on the ground that he was absent from home more than six months last year. D. McMillan testified that he was only home part of November, December and January. He was in the Northwest. Struck off.

George Gier and Thomas Tuffley, dead, erased.

Malcolm Smith, objected to as owner. Sworn, he said he was joint owner of Lot 32, Con. 8, and produced a deed made May 26th. Objection disallowed.

James Hurst, objected to as tenant. Sworn, he said he is not a tenant, but is earning sufficient wages to qualify him. Struck off.

CASES HELD OVER.

John D. Curry's case, held over, was now disposed of. Thomas Talbot testified that he went away six weeks ago to Buffalo. He was here all last year and and getting $25 a month. Objection disallowed.

John Rodgers, objected to on income. Objection disallowed.

John Trickerson, objected to as owner lot 6, east con. 2, was left on.

Donald McIntyre on as tenant, objected to as not being a resident was retained.

Louis Czerwinski, objected to as not being a British subject was the only one not finally disposed of. It was left wish Mr. Guthrie to ascertain whether he had taken out naturalization papers and to inform Mr. Macdonald of the facts within a week.

The Court then adjourned.

PERRY DAVIS'

PAIN-KILLER

IS RECOMMENDED BY

Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.

TAKEN INTERNALLY MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A NEVER FAILING CURE FOR

SOLE AGENTS, MONTREAL, P.Q.

ALLEN'S

LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy.—**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes,

Price 25c., 50c., and $1 per Bottle.

The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address.

HARD-UP.

No one should believe all they see in Advertisements.

Some advertise being hard-up, others advertise they are not hard-up. Now, on these two subjects, no merchant will give the right clue, although it is easier to believe a man when he says he is hard up, than sometimes to believe a man when he says he is not hard-up.

Ladies and Gentlemen Believe This.

If you want Cheap Dry Goods do not pay attention to people who are hard-up or who are not hard-up, but go and visit No. 33 Lower Wyndham-st., the finest store in Guelph, and the store which is acknowledged to have the best assortment of Dry Goods at most reasonable prices.

At B. B. HUGHES, Jr.

Wholesale & Retail, 33 Lower Wyndham-st.

COUNTY COUNCIL.

June Session.

GUELPH, June 1st.

The County Council met in the Court House, Guelph, to-day. It was after 8 o'clock before Warden Sweetnam took the chair and called the members to order.

Clerk Beattie called the roll, and the following answered to their names:—M. Anderson, J. W. Benham, R. J. Black, J. W. Burt, Thos. Carberry, F. T. Coleman, John Corbett, James Cross, John Darroch, David Foote, J. Gilmore, W. L. Gordon, H. B. Gordon, John I Hobson, W. F. Johnston, James Kirkwood, Lewis Knott, William Long, Thos. Marshall, H. McEwing, John McGowan, Thos. McManus, William Nicoll, R. Murdoch, John Mutrie, M. C. O'Donnell, John Powley, William Rae, James Reynolds, John Reynolds, John Robertson, Geo. Robinson, Matthew Sweetnam, E. Tolton, John R. Wissler. Absent — H. Black, Josiah Hampton and Joshua Howes.

WARDEN'S ADDRESS.

The Warden then read the following address:—

GENTLEMEN,—I wish to call your attention to the fact that the time fixed by statute for the valuation of real property, as made by the County valuators in this County to continue in force, expires with the present year, therefore, it may be well for you to consider at this session what course you intend to pursue in future with regard to that important question.

Complaint was made to me some time ago that large quantities of saw logs and lumber were deposited on the County road leading through the village of Alma, obstructing public travel and also interfering with private rights. After a personal visit to that place and some correspondence with the parties by the County Solicitors and myself, these obstructions have been removed. But as this habit if allowed to continued may at any time involve the County in serious litigation and damages for accidents resulting therefrom, I would earnestly advise the Commissioners on the various County roads to prevent any accommodation on the roads under their control, of anything that would interfere with or endanger the public while travelling, and would also recommend that all bridges and other dangerous places along those roads be kept properly guarded so that should an accident occur the County would be released from any responsibility in the matter.

A bill having been passed by the Ontario Legislature at its list last session, and to come into effect next year, making it the duty of counties to erect and maintain bridges crossing rivers or streams over 100 feet in width in towns and not separated from the County, as the expediency of such an Act has already been questioned I think it competent for you to express an opinion in reference to it, and therefore, suggest that you give it some consideration at the present Session.

Mr. Massie, Governor of the Central Prison, Toronto, being indebted to this County for a considerable amount of fees in the Registry Office during the occupancy of that office, and for which a judgment has been recorded against him, and as a judgment for a large amount against another party has recently been given in his favor, on learning of which I instructed the County Solicitor to take the necessary steps to secure the claim of the County, should that money be ever forthcoming, and I herewith submit a letter from their agents in Toronto which will explain itself, and ask you to advise me what further action should be taken in this matter.

I have to report that the north span of the bridge erected over the Grand River on the line between Fergus and Garafraxa, about eighteen months ago, was completely swept away by the spring freshets and has already been replaced by a new structure, estimated at a cost of $250. As this is the only bridge reported to me so far as being materially damaged, it may be assumed that the County has sustained comparatively little loss from floods or storms the present season, which should be a matter for congratulation when we consider the great amount of damage that has resulted from these causes elsewhere.

The County Treasurer will present to you his annual report, of which a number of copies have been printed in advance for your convenience, which will explain to you the financial position of the County, and which I have no doubt you will find correct and I hope satisfactory.

M. SWEETNAM, Warden.

The letter in reference to London vs. Massie was then read by the Warden.

Moved by Mr. Mutrie, seconded by Mr. Benham, that the Warden's address be referred to a special committee composed as follows:—Messrs. McGowan, Wissler, Foote, Hobson, Robertson and the mover. Carried.

MONEY FOR THE SCOTT ACT.

A communication was read from Chas. Allen, chairman of the Board of License Commissioners for Centre Wellington, demanding that there forthwith be deposited to the credit of the license fund special account, for the license district of Centre Wellington, the sum of $666.67, being two-thirds of the amount estimated for the expenses of enforcing the provisions of the second part of the Canada Temperance Act 1878, in the license district of Centre Wellington, for the license year 1886-87, as per estimate, and stating that the special account was kept in the Imperial Bank, in the village of Fergus, in which bank the deposit must be made.

The following estimate was enclosed for enforcing the Act:

Salary of Inspector	$ 450
Board of Commissioners	100
Magistrates and constables, costs in unsuccessful prosecutions	150
Witness fees	50
Law costs	120
Occasional assistance in discovering violations of the law and in bringing offenders to justice	50
Travelling expenses of Police Magistrate	100
Stationery, postage, etc	40
	1,060
Less fees received	60
	$1,000

Provincial rate ⅓.
County rate 2-3—$666.67.

ABOUT AUDITING.

The Treasurer was heard, and made explanations in reference to changes in the audit of criminal justice accounts. By a recent act of the Legislature it appears that an auditor is appointed to audit a certain portion of the accounts, and the county auditors to audit the remainder.

Moved by Mr. Hobson, seconded by Mr. Mutrie, that the Printing Committee be instructed to have prepared when required, the necessary schedules under chapter 18 of the Act entitled an Act respecting the audit of Criminal Justice Accounts payable by the Province, and passed in the year 1886. Carried.

AGRICULTURAL COLLEGE.

A communication was read from the Department of Agriculture, calling the attention of the Council to an Act passed at the last session of the Ontario Legislature, being a provision for the admission of one student for every County and Territorial District in the Province, free of charge, to the Agricultural College. The commissioners of agriculture request that the County Council take such steps—through the medium of the local newspapers or otherwise—as would inform the public of the terms of the Act, with a view to receiving applications from farmers' sons who may desire to enter the college under the arrangement provided in the Act. Referred to Standing Committee on Legislation.

GLENALLAN BRIDGE.

The commissioners of the Glenallan Bridge, Messrs. Cross and Powley, reported as follows:—That a bridge on the Glenallan road about fifty feet long has to be built. The job has been let to Mr. Richard Boyle for the sum of $198. There is likewise a breakwater that was built about ten years ago, that has been badly damaged and requires looking after, about ten rods along the road farther than the old one, and which must be attended to at once, otherwise the public travel will be greatly retarded. The cost will be about fifty dollars. Referred to Road and Bridges Committee.

PETITIONS, ETC.

From Lieut.-Col. Otter asking for the usual grant of $10 for prizes.

From Lieut.-Col. Clarke, of the 30th Wellington Battalion, asking for the usual grant to the Band. Referred to Finance.

From Wm. Powis, Toronto, stating that he would be glad to act as agent to negotiate debentures for the county.

From F. S. Dobson, re The Minto Farmers Provincial Drainage scheme, stating that a Wardens' Convention would be held in Shaftsbury hall, Toronto, on June 16th, 1886, for the purpose of receiving reports, amendments or suggestions from all the Counties of the Province.

From ratepayers in school section Nos. 3 and 6, in the township of Howick, and 6 and 8 in the Township of Minto, appealing to the Municipal Council of the County of Wellington, against the refusal to act, of the Council of the Township of Minto, in regard to the boundaries of these school sections.

The Council then adjourned.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

OUR

Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE

THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

Dominion Parliament.

OTTAWA, June 1.

In Commons to-day Sir John Macdonald said Mr Cameron's (Huron) statement respecting trafficing in the public domain by Messrs Macdonald and Tupper, lawyers, of Winnipeg, was an accusation against him (Sir John Macdonald) of wrongdoing, and he repudiated the idea.

The Railway Subsidies Bill, including that of the North West Central (Mr Beaty's road), were put through their final stages.

The Tariff Bill, involving a number of changes, was read a third time and passed after a long discussion.

In amendment to a motion for Committee of Supply Mr Mills moved a resolution condemning Government's management of the North West, which was debated by himself and Messrs Laurier and Amyot. The amendment was lost. Yeas, 51; nays, 71.

The House went into supply, and passed a number of items.

Parliament Prorogues.

The Dominion Parliament will be prorogued at 5.30 this afternoon.

The Home Rule Bill.

LONDON, June 1.—The debate on the Home Rule Bill in the House of Commons was resumed this afternoon by Joseph Chamberlain, who made an able and exhaustive speech against the measure. The House was crowded and there was much excitement while Mr. Chamberlain was speaking. Mr. Sexton followed with a scathing reply to Mr. Chamberlain, declaring that Ireland would never forget him. He had previously fought from cover. Now they had him in the open and knew him as a deserter. He complimented Lord Hartington on his sincerity, which contrasted with Mr. Chamberlain's duplicity. Sir Vernon Harcourt and others also spoke. Mr. Gladstone announced that the debate might be terminated Friday.

A meeting of Whigs opposed to Mr. Gladstone's Irish policy, called by Lord Hartington, was held this afternoon, and was largely attended. A number of the Radical adherents of Mr. Chamberlain were present. The meeting unanimously resolved to vote against the second reading of the Home Rule Bill.

The Knights Convention.

CLEVELAND, O., June 1.—The Knights of Labor Convention was opened at 9 o'clock this morning, the first business being the adoption of the amended report of the Committee on Strikes and boycotts. The Executive Board must approve all future strikes, and except in certain grievous cases where immediate action is necessary a strike or boycott will not be allowed without their approval. An address to the Women's Christian Union was adopted.

The entire afternoon session was taken up in discussing the report of the Committee on the state of the Order, to which was referred the troubles with the Trades Unions. The report and discussion were not given to the press, but it was learned that action had been taken in the matter.

Grand Orange Lodge.

TORONTO, June 2.—The Grand Orange Lodge of British America opened its fifty-seventh annual session in the new Orange Hall yesterday afternoon. A large number of delegates presented their credentials. In the absence through illness of Grand Master Parkhill, Brother Johnston, Grand Master of Eastern Ontario, was called to the chair. The Grand Treasurer's report showed a balance in hand of about $1,200. The Grand Secretary reported that nineteen new and three renewal warrants had been issued during the past year, and since the compiling of the report seven new warrants and six dispensations had been granted to Newfoundland.

Suicide of an Ex-Bank Manager.

KINGSTON, Ont., June 1.—R. M. Moore, late manager of the Bank of Montreal in this city, and who has for some time been confined in Rockwood Asylum, drowned himself this afternoon. Being allowed to walk about the grounds he jumped over a fence and then ran down to an adjacent wharf from which he plunged into the water. The body has been recovered.

The Fishery Question.

BOSTON, June 1.—A special from Halifax says that the captain of a coaster just arrived reports that the "L. Howlett" has seized an American mackerel fisherman of Guysboro' coast.

The Missing "Siberian."

ST. JOHN, Nfld., June 1—A schooner which has arrived here, passed a three-masted steamer off Cape Race, on Wednesday. The Steamer was firing rockets, and blowing signals of distress, but the fog was so dense the schooner could render no assistance. Icebergs were seen in every direction, and after the schooner had passed some distance to the leeward of the steamer a terrible crash was heard. The whistle then ceased to blow and no more rockets were seen. No tidings have been received of the missing steamer "Siberian," and the above steamer may prove to have been this vessel.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

"Why are you walking so quickly ma?" cried a bright eyed little maiden of five years to her beloved parent. "I am going to Hugh's sale; everybody in Guelph is there," replied the anxious mother.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism Sold at 25c a bottle by Thos. S. Petrie, Druggist

THIS PAPER may be found on file at Geo. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce st.), and William Young 41 Park Row, where advertising contracts may be made for it in NEW YORK.

Local News

JAMES INNES, M. P., and Mrs. Innes will arrive home from Ottawa to-morrow night.

THE corporation employees are now busily engaged in piecing the sidewalks and turning over the boards on the streets.

THE Toronto regatta will be in progress to-morrow, and cheap fares on the G. T. R. for the Queen city are on the programme.

A QUANTITY of wool appeared on the market this morning and was eagerly bought up at from eighteen to twenty cents per pound.

THIS being Ascension Day the usual services in commemoration of the event were held in the English and Roman Catholic Churches.

THE adjourned inquest in the case of Sarah Towle, for alleged infanticide, will be held to-night in the Police Court at seven o'clock. Additional evidence will be forthcoming.

THERE was a large attendance at the Speed Skating Rink to patronize the benefit given to Master Harry Lyons last night. The fancy skating of this young man was greatly admired.

IT is rumoured on the street that one or two hotel keepers have been caught evading the Scott Act, and that their appearance before the Police Magistrate is a matter of time.

A LITTLE green insect is playing sad havoc among the fruit trees and currant bushes in many gardens in this neighborhood. Some citizens have their gardens almost stripped.

THE Georgetown *Herald* is informed that Mr. D. Strachan, of Rockwood, son of Rev. Mr. Strachan, of that place, will take charge of the Presbyterian churches of Georgetown and Limehouse during the absence in Europe of Rev. W. G. Wallace.

The postponed foot race from the last session of the County Council until the June session between County Councillor Coleman and Mr. C. Reinhart, will likely come off to-morrow. It is said the bets are heavy. Councillor H. McEwing has been appointed referee.

OUR congratulations are extended to the Rev. Dr. Griffin on his elevation to the Presidency of the Guelph Conference. We hope he may wear the honors gracefully; and that he will discharge the duties pertaining to that important office in a highly satisfactory manner we have no doubt.

THE County Council seems to be settling down to business this year. They are already well through with their work. Enthusiasts might attribute this to the Scott Act, as every morning they have assembled at nine o'clock instead of ten as heretofore.

ORDINATION SERVICES.—The ordination of the Rev. W. C. Weir takes places in the Baptist Church to-night at eight o'clock. Rev. Joshua Denovan, of Toronto, will preach the sermon. Rev. D. A. McGregor, B. A., of Stratford, will give the charge to the Pastor, and Rev. Dr. Castle, President of the Baptist College, Toronto, will give the charge to the church. An interesting musical programme will be furnished by the choir.

SCIENTIFIC SOCIETY.—At the next meeting of the Guelph Scientific Society, Tuesday, 8th inst., the leading feature of the evening will be a paper by one of the lady members. The subject, "Wild flowers of Guelph in the month of May," should be of sufficient interest to attract a good audience. Hitherto the meetings have been of great interest and well attended, and it is hoped this will even surpass the others.

PHOTOGRAPHY, it is claimed, is to be still further advanced by the use of the air brush. In this device a little holder is charged with India ink, and, by a bellows operated with a foot pedal after the manner of a sewing machine, the fluid is blown upon a faintly outlined portrait, the result giving a picture superior in many respects to the best crayon drawing—the whole operation involving also only a few hours' time.

INTERESTING TO TOURISTS.—We would draw the attention of our readers who contemplate a trip to Europe to the low rates now offered by the "Anchor" Line Glasgow and Liverpool Services. Considerable reduction has lately been made in the cost of a journey across the ocean on the splendid steamers of this line, and a glance through the Book of Tours, published by the agents, Messrs. Henderson Brothers, 7 Bowling Green, New York, will afford much useful information to those who seek an enjoyable and instructive sojourn either in England, Scotland, or Ireland.

SCIENTIFIC EXCURSION. — Prof. Panton has made arrangements with the G. T. R. by which he has secured a trip to Limehouse next Saturday at one fare to all accompanying him, for the purpose of scientific research. Upwards of thirty students O.A.C. will attend, and if any members of the Guelph Scientific Society desire to go, they can secure a certificate from the Professor on or before Saturday morning, 5th inst. The party will leave here at 10.30 a.m. At Limehouse an excellent exposure of rock occurs, of an entirely different formation from Guelph. The flora of the district will likely be different, and there is no doubt this practical method of instruction will be enjoyed by all interested in the study of science.

Despatches from Cameron, Milan Co., Texas, report the appearance of a large number of grasshoppers. Farmers are greatly alarmed and are attempting to devise means for the extermination of the pest.

J. H. W. Cadby, the forger, arrested at Halifax, N. S., and extradited, arrived at Hudson, N. Y., in charge of Deputy-Sheriff Traver yesterday, and was lodged in gaol awaiting the action of the Courts.

A Tombstone, Ariz., despatch says:—Capt. Pierce, of the San Carlos Reservation, has offered Indians settled in the San Pedro Valley under Eokiminzia a reward of $150 for each head of hostiles they may kill.

British mails close at the Guelph post office as follows: Wednesday, via Quebec at 4.45 p.m, Thursday, via New York at 4.45 p.m.; Monday via New York, at 4.45 p.m.

THIS is a busy season with the farmers, consequently few of them find time to come into the city.

THE Mayor of Sarnia has issued a notice forbidding steamers carrying Sunday excursion parties to stop at the wharves of that town.

SEEING that there will be no Caledonian games in Guelph this year the *Reformer* extends a cordial invitation to the Guelph Caledonians to attend the Galt games on the 18th inst.

ST. GEORGE'S Society will meet in their Hall, Upper Wyndham street, this evening, at 8 o'clock. Business of the N. A. St. George's Union at London to be taken up. W. Read, Secretary. d1

THE Hawick Canadian Common Riding, a time-honored festival, will take place in Moffatt's grove, Galt, on Friday, the 11th June. The Borderers from Guelph will likely be represented.

THE long talked of boom was, on Wednesday, says the Galt *Reformer*, stretched across the dam. It is about forty feet from the face of the dam, and will have the effect of preventing boating accidents in future.

THE PROVINCIAL EXHIBITION. — The Finance Committee to whom the petition of the President of the South Wellington Agricultural Society was referred asking for a reasonable grant towards the Provincial Exhibition in Guelph this year, have recommended no action.

A HORSE belonging to Father O'Leary of Freelton, made a vicious bolt on Quebec street yesterday afternoon and badly damaged the young shade trees at Kloepfer & Richardson's coal yard. The rig was caught before going far. A few scratches to the horse was the only other result of what looked like a nasty runaway.

AS was mentioned a few days ago Stratford is to have a grand Firemen's and Band Tournament on Thursday, 17th of this month, when $2,000 will be distributed in prizes. We have to thank John Payne, chairman of the Committee, for a complimentary ticket to the tournament. The fare from Guelph and return is 80 cents.

TIMELY AND COMMON SENSE ADVICE.—"If your local paper," writes an old journalist now long out of business, "happens to tread on your toes a little in performing it's mission don't get your back up and abuse the editor, but stop and take a good breath and think for a season, and see if you can't remember some of the favors and kindness it has shown you in the past. Then reflect that it may not be long before you may want some favor again.

WEEDS AND THISTLES ON THE ROADS.—It should be considered part of the road work everywhere to keep the weeds and thistles cut down, which spring up along the sides of the highways, as the statute requires; and this work should never be neglected. There is scarcely a neighborhood in which the highways do not mature enough weeds and thistles to seed half the adjoining fields.

PAUPER IMMIGRATION.—A Niagara paper remarks that Miss Rye contemplates at an early day retiring from her work of importing English orphans into Canada. This will be welcome intelligence to the majority of the Canadian people. Miss Rye and others have for years been unloading on the Dominion, children picked up from the gutters in British cities, and in too many cases, unfortunately, this class of children has turned out bad. Our idea is that Canada has enough and to spare of poverty-stricken children, who have to be provided for out of the public purse, or by philanthropic effort, without adding to the number. The skilled and unskilled laborers in our cities are also more numerous that the demand for them is great, and any person who countenances a wholesale importation of orphans which can only add to the difficulties already existing, is doing a grevious injustice to the wage earners of the country. What Canada needs is not the waifs and strays—the offscourings of the streets in London, Liverpool and Glasgow—but able-bodied men and women who will not be afraid to go to the Northwest and cultivate the soil. That we have plenty of orphans of our own the managers of any of the numerous Homes in Hamilton and other centres of population can testify.

Cooler Weather.

Fresh northwest and west winds; fair slightly cooler weather.

The "Siberian" Safe.

MONTREAL, June 3.—The Allan Mail s.s. "Siberian" arrived at St. John, Newfoundland, all well at 5 a.m. on Wednesday. The vessel was delayed by a fog.

Anarchists Sentenced

NEW YORK, June 2.—Herr Most has been sentenced to the penitentiary for one year and fined $500. His associate, Braunschweig, got nine months in the penitentiary and was fined $250. Schenck was sent to the penitentiary for nine months, but was not fined.

Grangers Picnic.

LONDON, June 2.—The South-western Ontario Grangers held their annual picnic at Port Stanley to day. The affair was in every way a success, and was participated in by about 6,000 persons. An able address was delivered by Mr. Wm. Brigham of Delta, Ohio, Master of the State Grange. Mr. Jabel Robinson, to whom the matter had been stated, announced that owing to inability to secure low enough rates from the railways the proposed Grangers' excursion to Toronto had been abandoned.

Two Fires.

HAMILTON, June 2.—A destructive fire occurred last Saturday in Stanford, 12 miles south of this city, when the residence of Mr. Osborne Smuch was burned. The household effects were nearly all removed from the ground floor and saved; otherwise a total loss. The fire is supposed to have caught from the chimney. Loss, $2,500; insurance, $1,200.

A fire occured at 9 a.m. Monday in West Flamboro', resulting in the total destruction of E. L. Liddycoat's fine store and residence. The house was insured for $3,000, and the furniture for $500 in the Royal Insurance Company.

A St. Paul, Minn., despatch says:—The rain of Monday night and Tuesday, generally over the Northwest, has relieved the fears of drought, though it was not sufficiently heavy to more than answer the temporary needs of the growing crops.

THE PRESIDENT'S WEDDING.

A Comparatively Quiet and Unostentatious Ceremony.

WASHINGTON, D.C., June 2.—About half-past six the wedding guests began to arrive. Removing their wraps in the State dining-room, all guests proceeded to the blue room, where they were received by Miss Rose Cleveland. For a few minutes guests chatted gaily, but conversation was quickly suspended at 7:15, when a selected orchestra from the Marine Band stationed in the corridor struck up the familiar strain of the Wedding March from Mendelssohn's "Midsummer Night's Dream," and all eyes were turned to the doorway to catch the first glimpse of the coming bride and groom. Starting from the western corridor on the upper floor, the President came slowly down the western staircase with the bride leaning on his arm. They were unaccompanied. A hush fell upon the assemblage as Dr. Sunderland stepped forward to his position fronting the wedding couple, with the Rev. William Cleveland (the President's brother) at his left hand. In a distinct tone of voice, and with a deliberate utterance, the doctor began the simple and beautiful wedding service. After the ceremony the Rev. Mr. Cleveland pronounced the benediction.

At the conclusion, Mrs. Folsom, showing traces of deep emotion, was the first to tender her congratulations to the newly married pair. She was followed by Miss Cleveland, the Rev. Mr. Cleveland, and other relatives and friends in turn. While the congratulations were in progress the band performed a bridal chorus and march from "Lohengrin."

After dinner at 8:30 the President and his bride said a hasty "Good-bye" to their friends and left the house through a private exit from the red room into the south grounds. A closed carriage awaited them, and as they entered and the horses started off a shower of rice was thrown in the carriage, and their friends waved them a final "God speed" from the rear of the coach. The carriage was driven quickly to the Baltimore & Ohio Railroad station, where a special train was in waiting to take the President and his bride to Deer Park.

LONDON, June 2.—The Queen has sent the following cable message to President Cleveland:—

"Pray accept my sincere congratulations on your marriage and my best wishes for your happiness.
(Signed) VICTORIA."

FIRE AT PRESTON.

The G. W. R. Station Totally Destroyed.

On Wednesday night between 10 and 11 o'clock the G. W. R. station at Preston was discovered to be on fire. The alarm was soon given, but owing to its distance from the fire halls it was some time before the brigade arrived. Water being very scarce and the old fashioned hand engines of little use, the station was totally destroyed. The building was occupied as a ticket office and residence for the station master and family. The agent loses all his household furniture, the only article saved being an organ. The railway company saved their office effects and the safe, losing only a small amount of money which had been overlooked in the excitement. Luckily a considerable amount of the freight and baggage had been removed during the afternoon or the loss to the company would have been greater. During the fire the citizens worked with a will and did all that lay in their power to stay the progress of the flames and save the property but with no avail. Considerable dissatisfaction was expressed as to the insufficiency of the fire department, as when the hand engines got to work water could not be thrown to any great extent. Our informant who saw the fire expressed himself to the effect that a first class bucket brigade would have done better execution. The loss is estimated between $1,000 and $2,000, partly insured. The fire is supposed to have originated in the kitchen, and when first discovered the whole of the rear part of the building was in flames.

A freight train which arrived as the fire was in progress was delayed a considerable length of time. Happily no accidents occurred, as several narrow escapes happened during the fire.

A Guelph agent for sewing machines, etc., who imagined himself chief of the fire department and made himself obnoxious to the crowds, was promptly sat upon. He will remember the fire.

One engine was used to furnish water to the other, but the two combined could not make a decent "squirt."

A NEW SENSATION.—In the press, and will be issued about July 1st, "A bird's-eye view of bee-keeping," by the well-known veteran apicultural writer, Rev. Wm. F. Clarke, of Guelph, whose name is familiar as a household word among the thousands of apiarists throughout North America. The object of this little work is to supply a brief, cheap, and comprehensive treatise, which, within the compass of a few pages, that can be read at a sitting, will give the outlines of bee-keeping so far as general readers may be curious to know them, and at the same time furnish beginners with directions for doing the practical work of the apiary during the first season at least. Among other live questions, this book discusses how to begin bee-keeping; who should keep bees; is it a good calling for ladies; should amateurs or only specialists embark in the business; the best hive to use; what race of bees to adopt; swarming, and non-swarming; reversible frames; what height from the ground to set hives; various methods of wintering, especially out-door wintering; hibernation; sugar feeding; stimulating; over-stocking; getting up a *furore* about bee-keeping, &c. This book does not appear as a rival to any other, but occupies a field all its own. As a true A. B. C. book, it is introductory to larger works, and will awaken a desire to read more fully on the fascinating subject concerning which it treats. Moreover, being in poetry, it will not compete with any of the other works on bee-keeping, they being all in prose. This feature will be found to be one of peculiar interest, and beginners will be astonished how clearly practical directions can be given in the poetic form. Price, 25 cents per single copy; five for $1.00, and the usual wholesale discount to the trade. Orders enclosing the cash may be sent forthwith. Address Jones, MacPherson & Co., publishers of the *Canadian Bee Journal*, Beeton, Ont.

ANOTHER LIFE ENDED.

George Norris' Poisons Himself While Under the Influence of Liquor.

Between two and three o'clock on Wednesday afternoon, it was ascertained that George Norris, shoemaker, an old and well-known resident of Guelph, had poisoned himself by drinking carbolic acid in a quantity of water from a dipper. Coroner Herod, at the request of the County Crown Attorney, held an inquest last night when the particulars in regard to the death of the deceased, who is about 70 years of age, were brought out. There is no motive assigned for the rash action beyond that he had been on a continuous spree since the 24th of May, and was on the verge of delirium tremens.

The following are the names of the jurors:—Chas. Horning, Alex. Gibson, Robert Snider, Henry Harper, George F. Sterne, John Leadley, Geo. Dudgeon, O. Henry, Wm. Gibson, H. Metcalf, Thomas Smith, Jonathan Stovel, Wm. Anderson, John Mitchell, and Alex. Cordiner. J. Stovel was chosen as foreman.

The jury were then sworn in after which they walked to the residence of the deceased on Essex street and viewed the body.

On their return to the police court room the first witness called was Bella Norris, daughter of the deceased, who, on being sworn, said that she was a daughter of the deceased, was 16 years of age and residing with him. She saw her father in the morning at seven o'clock when he was having his breakfast. He eat heartily and appeared to be in good health. After breakfast he went to bed. He was out before breakfast and when he came in he was not very sober, neither was he drunk. About half-past ten he got out of bed and went up street. He did not come back until a quarter past twelve. We had our dinner but he did not have any. He came into the house the time of the heavy shower and was wet through, so he took off his clothes to dry them and went to bed. He appeared to have been drinking but I don't think that he was drunk. He would be in bed about an hour before he rose and got the dipper, which was in the kitchen, and water and poured the carbolic acid into it. I did not see him, but I am sure he must have come out and got it and taken it into the front room. My mother used carbolic acid for her sore leg. It used to sit on the mantle piece but some months ago my father took it and put it into his desk. My mother has not used carbolic acid of late. When I saw my father first he was sitting up on the bed. The door was shut when I went in but my sister had come out of it a short time before. The dipper was a few yards from him, and I asked him what he had been doing, if he had been drinking the carbolic acid and he nodded his head. I went for my ma and asked her what was to be done. She said, mix up some mustard with cold water. He drank about half of it. I gave him vinegar after the mustard but he only took a few mouthfuls. I then went for Dr. Keating who came a few minutes later, and he told me to mix up the whites of two or three eggs and give him. He did not appear to be in great pain. Dr. Keating used a stomach pump but this seemed to do no good. He breathed two or three times after that, and died about a quarter to two. The Coroner tried to ascertain where the deceased had got his liquor but this the witness was unable to answer. He never took liquor to the house. I saw my father in Holliday's brewery one day early in the week while there for yeast but I did not think he was drunk.

Mary Ann Norris, wife of the deceased, sworn, said: Have been married 44 or 45 years, and have nine of a family alive; my daughter came to me about a quarter past one and said that her father had taken the dipper into the room and there was an awful smell of carbolic acid in the room, so I took up the dipper and also smelt it; then went to look for the small bottle of carbolic acid which I found on the mantel shelf, and only a few drops in it; it was a little vial that I had used to pay ten cents for getting filled; had it since before Christmas; used it two or three times and don't think it was half full; my husband has been in the habit of taking liquor and has not drawn a sober breath since the Queen's birthday; used to ask him where he got his liquor and he would say that the Scott Act had passed and he could not get any; had no suspicion where he got his liquor; I didn't say to any one that he got his liquor at a certain place and that that was the cause of his death; my suspicion was that he got the liquor at Holliday's brewery; I could not say so; I never saw him there.

Dr. Keating sworn, said he was called about half-past one by Bella, who said her father was very ill; I saw him yesterday morning about four o'clock, on Nottingham street, and he was then under the influence of liquor; when the girl came for me she commenced to cry; asked her if her father was drunk, as I judged he might be, but seeing the distress of the girl went almost immediately; when I saw him he was breathing at long intervals; ordered the whites of two eggs to be given till I went for stomach pumps; should judge there were about six drachms in the bottle from what the girl said; attempted to wash out the stomach of deceased; found that mouth and stomach showed signs of burning by carbolic acid, and smelling strong of it; there was a considerable quantity of carbolic acid floating on fluid in the stomach have no doubt but that death was produced by carbolic acid causing paralysis of the nerves; he was not of temperate habits, and there was scarcely a morning but I would see him coming out of one tavern or another early in the morning.

The Coroner then addressed the jury. He said that he had no doubt in his own mind that the deceased was on the verge of delirium tremens and did not know what he was doing when he took the carbolic acid. If the parties who sold him the liquor could have been found they would have been punished also as they deserve to be.

The verdict returned was that George Norris came to his death from drinking carbolic acid while under the influence of liquor, and we are sorry that from the evidence we cannot locate the party or parties where he got the liquor, but would strongly urge the authorities to use every effort to bring the guilty parties to justice.

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 50c. and $1.00 per bottle at Thomas S. Petrie's DrugStore

The Evening Mercury

THURSDAY EVE'G JUNE 3, 1886.

THE traffic returns of the G. T. R. show an increase of $35,070 as compared with those of the same week of 1885.

IT is announced that the daughter of Mr. Disraeli, and niece of the Earl of Beaconsfield, will shortly be married to the eldest son of the late Mr. Whitelaw, M. P. for Glasgow.

THE news of the safety of the Allan steamship *Siberian* will be received with delight. It appears the vessel had been delayed by fog, the captain being determined to remain where he was, and not run any risk, until it lifted.

THE wedding at the White House yesterday was the ninth that has taken place in this time honored mansion. The ceremony was a rather quiet one and the President and his bride left for Deer Park by special train immediately after, where they will spend their honeymoon.

THE St. Patrick's Literary Association of Ottawa on Wednesday adopted a resolution thanking Mr. Blake for bringing forward the resolutions in favor of Home Rule in the House of Commons. The resolution was moved by Mr. F. R. Latchford, a Conservative barrister.

THE Hon. Alexander Mackenzie, M. P., arrived in Montreal on Wednesday, and at once drove to the St. Lawrence Hall. During the day he was visited by most of the prominent leaders of the Liberal party, and also by many friends on the other side of politics. He left the same evening for Quebec, where he takes the steamer for England.

IT is pleasing to note that there has been an additional improvement in the condition of the British live stock trade, which has amounted to half a cent in values, with a correspondingly more healthy feeling. The demand at all the principal points has continued fairly active, resulting in a good clearance of the offerings at full prices, while the late arrivals have met a good market.

THE Inland Revenue collected at the port of Hamilton for the month of May amounted to $13,460; for the corresponding month last year the receipts were $62,716, showing a decrease as compared with the same month last year of $49,256. The Customs duties collected for May, 1886, were $48,479; 1885, $54,128; decrease, $5,648. The value of exports to the United States during May, 1886, amounted to $48,364.95.

AT the monthly meeting of the Montreal Harbor Board on Tuesday the report of the master showed that up to May 31 from the opening of navigation 62 steamships and 12 sailing vessels had arrived, against 61 steamships and 18 sailing vessels during the corresponding period of last year. The total tonnage had been greater this year, viz:—101,581 tons, as compared with 99,981 tons in 1885, an increase of 1,600 tons. Inland vessels, 1886, 881, against 659 in 1885, an increase of 222.

AT a numerously attended meeting of the Quebec Liberal Club on Wednesday the invitation to attend the Young Liberals grand demonstration in Montreal on the 30th June and 1st July was accepted, and President Tisser, with T. J. Malony, Chas. Fitzpatrick, W. E. Pacaud, of L'Electeur, and some six or seven other prominent members of the club, were appointed delegates for the occasion. Resolutions were also unaninously adopted expressing admiration for the able and vigorous manner in which the Liberal cause has been again championed this session in the Local Legislature by Mr. Mercier and his little band of Liberal followers.

THE London *Economist*, May 22nd, states that an average wheat crop in the United Kingdom is barely possible. On the Continent of Europe the course of the seasons has been similar to that in the United Kingdom. Nearly everywhere sowing was late and the crops are backward. In France the crops are more favourable than in England and Scotland, but in Germany and Austria-Hungary somewhat less so. Spain has the prospect of a good crop. In Italy vegetation is backward. The crops in Russia and Roumania have been greatly helped by a recent abundant rain. On the whole the outlook for harvest in Europe is nothing like as good as it was this time last year, though still moderately hopeful.

ONE of the largest and most successful conventions ever held in West York was held in Weston on Wednesday for the selection of a candidate for the Local Legislature. Mr. John Lamar, President of the Association, occupied the chair. The hearty enthusiasm, unanimity of spirit, good feeling, and warm co-operation which prevailed from the opening to the close of the meeting showed that the Reformers of West York are now thoroughly roused and determined to ensure a triumphant return of the Liberal candidate at the next election by energetic and united work. Dr. Gilmour, of West Toronto Junction, has been nominated to represent the Reform interests.

IN view of the importance of the Canadian Pacific Railway and of Vancouver Island to the Empire, the Imperial Government has made arrangements with the Dominion Government for the construction of a graving dock at Esquimault capable of holding British steamers, and towards which they will make a large contribution of land defences. Earthworks will be constructed by the Canadian Government, while armament, including guns, etc., will be provided by the Imperial Government. The Canadian Government will contribute $100,000 and the Imperial Government from $125,000 to $150,000 for this purpose. "C" Battery will be stationed there.

IN the House of Commons on Wednesday Sir Michael Hicks-Beach asked what was the Government's intentions regarding a division. Mr. Parnell trusted the Government would not decide as to a division until it was aware that the leaders of the Opposition, who had not yet spoken on the Bill, intended to take part in the debate. Mr. Hamilton, on behalf of the Opposition, said they were content with the part they had taken in the debate, and only desired now that Sir Michael Hicks-Beach should speak. Mr. Gladstone said the Government would hardly undertake to press the debate, but he thought it might terminate on Friday. The result of the division on the second reading is still doubtful, and it will require all the personal influence Mr. Gladstone wields to tide over the powerful opposition which will meet him.

Dominion Parliament.

Prorogation of the House.

OTTAWA, June 1.

In the debate on Northwest affairs Mr. Laurier continued his address on Mr. Mills motion. He said affidavits secured by Government agents, especially for the purpose of exculpating the Government, made by people who were anxious to get patents, could hardly be received with perfect credence, especially when the persons making them were rebels and were still liable to arrest and imprisonment for their acts.

Mr. Amyot, at length, condemned the treatment of the Halfbreeds by both the past and present Governments.

The amendment was put and lost, by a vote of 71 to 51, after which the House went into a Committee of Supply.

June 2.

Mr. Blake rose to call attention to the state of the public business. He said he had learned His Excellency had been kind enough to express his willingness to attend for the purpose of proroguing Parliament any hour to-day, however late, if the business of the House could be completed. He had learned with much surprise that it was the intention of the Government to have the prorogation take place as early as half-past five, but would do his best to have that result accomplished.

The House went into Committee on payment of expenses of the administration of the Franchise Act. The item finally passed. Considerable discussion took place over the exorbitant price asked for a piece of land near the Toronto Post Office, which the Government proposed to buy.

On the item respecting relief to Indians Mr Patterson referred to the fact that the Indians were in a state of starvation. He did not blame the Department at Ottawa, but he did blame those in the North-West. Sir John Macdonald defended Dewdney, declaring he was a most efficient officer. The item passed.

On the item referring to the North-west supplies Mr. Cameron (Middlesex) read a statement from a resident of the Northwest Territories with reference to the transport service. He said that in many cases the teamsters took only half loads, and sometimes where a load purported to be 1,000 pounds only 100 pounds would be delivered. Goods were thrown out of the waggons in great quantities in order to lighten loads. Bundles of oats were used to bridge waggons over difficult spots.

Mr. O'Brien said he had been on the spot, and that the charges of waste in the transport service were absolutely unfounded.

The Supply Bill and the Tariff Bill were introduced and passed through all their stages.

It being six o'clock the Speaker left the chair.

At half-past 8 His Excellency the Governor General summoned the Commons to the Senate Chamber, when the Royal assent was given to the Bills passed.

The Governor's Speech.

His Excellency then prorogued Parliament with the following speech:—

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons.—

I desire to convey to you my best thanks for the earnestness and assiduity with which you have performed your important duties.

The legislation of the session has been of an eminently practical character, and cannot fail to aid in the promotion of the material progress of the country.

The grant of representation in the House of Commons to the North-West Territories will, if sanctioned by the Imperial Parliament (of which there is no reason to doubt), give the people of that vast region an interest and voice in the affairs of the Dominion, and enable them to lay the wants and requirements of their young country with authority before the great council of the nation. You have at the same time conferred upon them the boons of an efficient judicial system and a speedy and inexpensive mode for the transfer of property inland.

The measure for the establishment of a central experimental farm, with auxiliary stations for the Provinces, will be greatly appreciated by our agricultural population.

I congratulate you heartily on the completion of the Canadian Pacific Railway, and on the repayment in money and land of the advances made in its aid from the public treasury.

The future prosperity of this great enterprise, and the consequent advantage to the best interest of the Dominion, I now consider as fully assured.

The appropriations in aid of various railways will tend largely to increase the trade and develop the resources of the districts traversed by them, and I am especially pleased to know that by the provision made for the construction of a Railway through Cape Breton, the historical island will at last be brought into connection with the railway system of Canada.

Among the many useful measures you have passed may especially be noticed the amendments of the Franchise Act, rendering its working more simple and less expensive; the consolidation of the statutes, the arrangement for the organization of a better and more economical system of parliamentary and departmental printing, and the amendment of the Dominion Lands Act.

Gentlemen of the House of Commons:—

I thank you in Her Majesty's name for the supplies you have granted for the public service.

Honorable Gentlemen and Gentlemen:—

In bidding you farewell until next year I rejoice to be able to congratulate you on the general prosperity of the country and the good promise of a plentiful harvest.

BASE BALL.

Maple Leafs 25 Black Diamonds 2.

There were very few spectators assembled to witness the game on the Maple Leaf grounds yesterday owing to a one-sided contest being expected and such was the case. After the 3rd innings the Leafs began to run the bases at will and fooling at the bases in a ridiculous manner. At the request of the other players Stephens let up and took things easy in the box allowing them 7 hits; had Ben. liked he could have shut them out without a hit or run of any kind. Son Purvis caught his usual game. Jimmy Hewer played his first game with the new team and did good work. Charley Campau and Dan Mulholland led in hitting.

Following is the score:—

MAPLE LEAFS.

Earned Runs, Leafs 7.

First on called balls, off Stephens, 1; off Hamilton's pitchers, 4.

Total called balls, off Stephens, 52; off Hamilton pitchers, 122.

Total strikes called, off Stephens, 31; off Hamilton pitchers, 45.

Left on bases, Leafs 4; Diamonds 1.

Two base hits, George, Campau and Stephens. Double play, Purvis to Hewer to Mulholland, McAuliffe to Wilson.

Passed balls, Purvis, 1; Williams, 1; McAuliffe, 6.

Wild pitches, Stephens, 2; Wilson, 1; O'Grady, 8.

Umpire, Wm S. Smith.

NOTES.

And now Brockton wants Frank Shiebeck. Manager McGunnigle will also have to do without Shie, as he is perfectly satisfied where he is.

The boys start on their trip Friday morning, playing first at Windsor, then to Detroit for Saturday. Zell and Dillon will be the battery at Windsor, and Shiebeck and Purvis, at Detroit.

D. E. Bourne has presented Dan Mulholland with a mascot, it is a thoroughbred Dandy Dinmount dog. Dan is much attached to the canine and intends taking it on the trip.

The Leafs are having quite a time finding their equals.

The only amusement the crowd had yesterday was with Dan Mulholland and his dog.

Manager Buckenberger occupied a seat on the bench yesterday. The injury he received Saturday prevented him from playing.

It is rumoured that Twitchell and Hall, of the Detroits, will be the battery for the Cass against the Leafs Saturday.

Mothers will find the pain killer invaluable in the nursery, and it should always be kept near at hand in case of accident. For pain in the breast take a little Pain Killer in sweetened milk and water, bathing the breast in it clear at the same time. If the milk passages are clogged, from cold, or other causes, bathing in the pain killer will give immediate relief.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

JOHN CROWE, Proprietor

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is oblized to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

SUMMER RESORT

BEAUTIFULLY situated in the County of Waterloo, on the G. W. R., three miles from Galt, twelve miles from Guelph and eight from Berlin.

The hotel attached to this favorite summer resort has been recently enlarged and fitted up with an especial view to the comfort of guests and invalids. Beautiful lawn, capacious billiard parlor and croquet grounds.

The Arcadian Mineral Spring has proved of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach Liver and Kidneys, but more especially Skin Diseases.

Sufferers from Rheumatism will find that using these waters will almost effect a cure. New baths have been added this season.

Mr. H. Rost, former Manager, has resumed his responsible position, and will be pleased to welcome his old friends.

Terms moderate. Omnibus to all trains.

Tickets to the Baths and return good for days from all stations on the G.T.R.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

COUNTY COUNCIL.

June 2nd.

The Council resumed this morning, the Warden in the chair and all the members present.

COMMUNICATIONS.

From the Master in Chancery, calling attention to necessary repairs required in his offices. The roof leaked and the ventilation was bad. Referred.

From the County Treasurer, stating that the Auditors had found his accounts correct, that his sureties were all right, and that the name of John A. Wood as one of them be cancelled, as he is going out of the city.

From the Reeve of Maryborough, stating that the line bridge between Maryborough and Mornington was in a bad state of repair, and that it had been fixed at a cost of $36.

BY LAWS.

On motion of Messrs. Carberry and W. L. Gordon, a by-law to reduce the Credit Valley Railway rate was read a first and second time.

GRANTS TO SCHOOLS.

On motion of Messrs. Nicoll and Rea, a by-law was introduced to assess the several Townships in the County in a sum equivalent to the Government grant, in aid of Public Schools for the current year. The blanks were filled up as follows, Mr. Nicoll in the chair:—Arthur $500, Eramosa $600, Erin $650, Garafraxa $500, Guelph $700, Luther $300, Maryborough $600, Minto $650, Nichol $400, Peel $700, Pilkington $400, Puslinch $650.

A BAD ROAD.

Moved by Mr. McEwing, seconded by Mr. Gilmore, that this Council grant the sum of $500 towards the purpose of grading and gravelling the boundary line between the Townships of Wallace and Minto, from Palmerston to Teviotdale, and that the Clerk be instructed to notify the County of Perth to meet said grant with an equal amount as by Statute provided.

Messrs. Hobson and Rea moved in amendment that the matter be referred to the County Roads Committee to report to-morrow.

THE KNIFE AT THE POOR HOUSE.

Mr. John Burt, chairman of the Special Committee appointed to consider the report of the physician at the House of Industry:—

The Special Committee appointed at the last session of the Council "to make due enquiry, as to the truth of the allegations contained in the report of the physician of the House of Industry presented at said session, and also to ascertain whether the late Standing Committee of said institution was justified in making the statements and recommendations contained in their report adopted at the November Session of 1885," beg leave to report as follows:—

Your Committee held two meetings to receive evidence, and took the evidence offered by the members of the late committee and the physician, the Keeper and Matron, and the late Matron, and also Dr. Herod, of Guelph, who severally made statutory declarations as to the truth of their testimony, which declarations are all submitted herewith.

Your Committee deemed it their duty to confine the said enquiry within the limits of the resolution of the Council appointing them, and after carefully considering all the evidence laid before them, find that as many surgical operations had been performed upon inmates in the institution as fully warranted the late Standing Committee in recommending that such operations be in future performed in the General Hospital.

Your Committee are also of opinion that the said report of the late Standing Committee was courteous and truthful, and from the evidence laid before them they cannot understand how the physician could have taken exception to the "accuracy" of it.

WON'T GO TO THE POOR HOUSE.

Moved by Mr. Wissler, seconded by Mr. Reynolds, that the County Council visit the Poor House in a body and inspect the Irvine bridge.

Mr. Cross could not see the necessity of spending money going up to visit the Poor House every year. It was all right for those who had never been there before.

Mr. Wissler thought it was the duty of the Council to see the bridge where so much money was spent.

The motion on being put was lost.

The Council then adjourned till two o'clock.

AFTERNOON SESSION.

The Council resumed, the Warden in the chair.

PUSLINCH FARMERS' CLUB.

A communication was read from the Puslinch Farmers' Club, asking for a grant of $25.

Mr. Kilner, Secretary of the Club, was allowed to address the Council and explained that the Provincial Government would give $25 to farmers' clubs if they complied with certain provisions, if the County Council gave the same. The Puslinch Farmers' Club was composed of some 70 or 80 members, it held regular meetings and also held two seed fairs a year. The member's fee was 25 cents. It was the aim of the Club to increase the premiums at these shows, so as to bring in a greater variety of competition. Formerly at these fairs only prizes were given for two classes of wheat, while various other classes which were shown equally deserved a prize. If the grant was given for the South Riding they would hold meetings in the various townships. The Club would not require all the grant, and the remainder could be used for other agricultural purposes. The Club had $30 to their credit at present.

STUDENTS' APPLICATION.

An application was read from John S. Howes, Minto, to be sent to the Agricultural College, as the student sent by the County. He had been at the College for two years and had been on a farm previous to that time.

The Clerk stated that according to the instructions which he had received from the Government in regard to the matter they had come too late for him to comply with them, and some difficulty might arise with other parties who might apply. The application was referred.

A DRAINAGE SCHEME.

Mr. F. S. Dobson was allowed to address the Council in regard to his drainage scheme, which he expounded at some length. The idea was that the six million surplus of the Ontario Government should be handed over to the Dominion Government, who would issue securities for the amount, and this money could be had at a rate of 2½ per cent. for drainage purposes only. The amount laid out on drainage would be taxed against the land improved, which in its improved condition would soon pay for it. The repayment would be made in 20 years. He spoke of the great necessity there was for a good system of drainage, and the loss to the majority of farmers by having perhaps thirty out of one hundred acres of land of this kind on his farm. It was the intention to create a fund of $500 to start the movement and he looked for support from this Council.

THE IRVINE BRIDGE.

Mr. David Foote, chairman of the Irvine Bridge Committee, presented a detailed statement of the expense in connection with the erection of the Irvine Bridge in the village of Elora, which is now completed. The cost of the structure amounted to $2,765.18. The report was adopted.

Moved by F. T. Coleman, seconded by M. C. O'Donnell, that as the Arthur and West Luther gravel road is badly cut through, and in a deplorable condition, the County Roads Committee be instructed to consider the advisability of granting the sum of five hundred dollars to be expended in ditching and putting said road in a passable state of repair. Carried.

BOUNDARY LINE GRANT.

Moved by M. C. O'Donnell, seconded by Robt. Murdoch, that the Finance Committee be requested to consider the propriety of recommending a grant of $500 to be made towards that part of the boundary line between the Counties of Wellington and Grey, which lies between the townships of Arthur and Egremont, on condition that the County of Grey will supplement it with an equal amount. Carried.

PETITIONS.

A petition was read from residents in the Townships of Minto and Arthur, asking for a union school section to be composed of sections 12 and 4, Minto, connecting sections 5 and 7, Arthur. The municipal councils had taken no action and the petitioners had to appeal to the county. It was shown that this new section would be advantageous and would not interfere with others. Referrred.

From Edward Young, who had recently been appointed a county constable, asking to be supplied with a pair of hand-cuffs and nippers.

From Jas. Hewer, President, and Robt Mackenzie, Secretary, of the South Wellington Agricultural Society, asking for a grant of as much as the Council might see fit toward the holding of the Provincial Exhibition in Guelph.

A claim of $9.50 for damages to his buggy on Howitt's bridge, was read from C. E. Forrest.

ASSESSMENT.

Mr. Wissler presented the report of the Assessment Committee. They had revised the assessment roll of the various townships, towns and villages in the county, and submitted a detailed statement of the result. This statement showed an increase of the total equalization of $18,992, which Mr. Wissler explained was due to the difference of the acreage returned by the assessors.

A BOUNDARY LINE.

A memorial was presented by M. C. O'Donnell, Reeve of Arthur, setting forth that the townline between the Townships of Arthur and Egremont, which is also the boundary line between the Counties of Wellington and Grey, is for the great part of the year in a very bad condition, that the corporation of Mount Forest was willing to grant $1,000, Arthur Township $1,000, and it was expected that Egremont will make a similar grant for the purpose of repairing said road, and asking that the County Council grant or make a liberal appropriation towards the same object.

Moved by Mr. J. Powley, seconded by Mr. Wm. Long, that as the boundary line between Peel and Maryborough is in a bad condition especially between con. 14 and 16 and con. 6 and 8, this Council grant $500, provided Peel and Maryborough each grant $200 and the village of Drayton $100.

Moved in amendment by Mr. O'Donnell, seconded by Mr. McManus that the grant asked for be not granted.

The motion was lost and the amendment carried.

Moved by John Darroch, seconded by Joshua Howes, that the County Roads Committee be instructed to take into consideration the necessity of granting further aid to that portion of the Elora and Saugeen gravel road between Teviotdale and Harriston, as that portion of the County road has become impassable. Carried.

Moved by Mr. Gilmore, seconded by Mr. Corbett, that the Finance Committee be requested to consider the propriety of granting the sum of $500 towards the improvement of the boundary line leading from Arthur village to Teviotdale, the sum of $300 to be spent between the township of Maryborough and Arthur and the sum of $200 between the township of Peel and Arthur. Carried.

Moved by Mr. Wissler, seconded by Mr. Foote, that the committee on the Elora and Saugeen Road from the Junction to Alma be given, an extra grant of $100 per mile. Referred to the County Roads Committee for consideration. Carried.

Moved by Mr. McManus, seconded by Mr. Anderson, that the County Roads Committee consider the propriety of granting an additional sum of $50 per mile to the Fergus and Arthur Road. Carried.

Moved by Mr. C. O'Donnell, seconded by J. Gilmore, that the County Roads Committee be requested to consider the propriety of granting an extra $25 per mile for six miles of the Arthur and Mt. Forest gravel road, next to Arthur Village, in consideration of the difficulty experienced in keeping said section in sufficient repair for public travel. Carried.

CLOSING UP A ROAD.

Moved by John Mutrie, seconded by James W. Beatham, that leave be given to introduce a by-law to confirm a by-law passed by the Municipal Council of the Township of Eramosa, on the 22nd day of February last, for closing a certain road allowance situate on the south-east side of the west half of Lot No. 18 in the sixth Concession of the said township of Eramosa, and that the same be read a first and second time. Carried.

By-law read a first and second time.

The Council then adjourned.

COUNTY TREASURER'S REPORT.

TREASURER'S OFFICE, GUELPH,
Monday, May 31, 1886, 10 a.m.

SIR,—I beg to submit my annual report of the state of the finances of the County, together with the Estimates for the year 1886-7.

ASSETS.

Ontario Treasury Department	$969 91	
Registrar South Riding, tax on 1884 fees	143 63	
Registrar South Riding, tax on 1885 fees	130 87	
Registrar North Riding, tax on 1885 fees	73 50	
Ontario Bank	5836 02	
Cash	33 01	
	$7176 94	
Deficit	6209 89	$13386 83

For the year ending on 1st July, there will be a deficiency of $6,209.89. This has been caused by the following expenditure, unprovided for last June, viz:

Drayton bridge grant	$ 350 00
Irvine bridge	2302 00
Irvine bridge arbitration and witness fees	441 69
Arthur bridge	2458 43
Poor House	1406 30
December Sessions of the Peace	1028 05
Total	$7986 37

The cost of the December Court was unusually heavy—covering 16 days, and costing $1,628.05, viz: Petit Jurors, $1,003.30; Grand Jurors, $288.40; Crown witnesses, $189.35; Stenographer, $147. The appropriation was $600.

The estimates for the year 1886-7 propose an expenditure of $51,158 89. All grants the Council may make will have to be added thereto, as also any further sums for county property and boundary line bridges.

I will require $9,158.40 to redeem Credit Valley Railway debentures and coupons.

The debenture debt is $20,000, and the Credit Valley Railway debt $73,100.

M. SWEETMAN, Esq., Warden. WM. REYNOLDS, Treasurer.

The estimates were then read.

Hespeler Correspondence.

IMPROVEMENTS ON PRESBYTERIAN MANSE.—The work of levelling the ground, building a handsome iron fence, and making other attractive improvements around the Presbyterian Manse is rapidly approaching completion.

BUILDING OPERATIONS.—The mason work of the handsome stone addition to Mr J Sault's dwelling house on Queen street is about completed. Several houses are going up on the Swann Survey, and by fall we expect to report a building boom of considerable magnitude.

A TRIP TO THE WEST.—Early next week J P Phin, Esq., starts on a tour to Dakato, Manitoba and the Northwest Our citizens wish him a pleasant trip and a safe return.

PAINFUL ACCIDENT.—One day last week Mr David Groh, pump maker, accidently received some severe contusions on the head and face whilst at work at a well on the premises of M. D Rife, sr. He was confined to the house for some days in consequence, but we were glad to see him on the street again yesterday evening, although still badly marked.

POLICE COURT...On Tuesday evening last, a Galt bird whilst on "a bit of a drunk," attempted taking undue liberties with some of our citizens. By order of the Reeve, Constable Winterhault quickly conducted him to commodious apartments in the comfortable new lock-up. Next day he was shown up town to the Council Chamber, and after an investigation of the case before George Martin, Esq., the new J.P., it became necessary for the culprit to hand over some eight dollars and thirty-five cents as the result of his misdemeanor. Outside roughs had better not come here to do any showing off whatever, or they will find to their regret that this place possesses a "live constable" and an accommodating lock-up.

No!—The composer or composers of the rubbish that appears from time in the few copies of the Guelph "Herald" that reaches this place, will no doubt be awaiting with anxiety a reply to the garble of last week in which an attempt is made to ridicule and belie the correspondent of the MERCURY; but no; other correspondents will no condescend The party therefore, need not waste another gallon of coal oil, nor make himself a fit subject for another attack of nightmare by preparing any further effusions, for we assure him it is not likely any notice will be taken of them. We are not partial to stooping, especially stooping low. and any manly dignity we chance to have, we do not intend to prostitute it by getting down to handle that animated smut machine.

A NEW SIDEWALK.—A substantial new sidewalk has just been built along Elgin street from Dr. McIntyre's residence to Queen street.

Hespeler, June 1st.

Guelph Conference.

GODERICH, June 2.—The third session of the Guelph Conference of the Methodist Church opened at 9 a. m., Rev. D. C. McDowell presiding. The Conference prayer meeting closed at ten. Then the Conference proper began, the Secretary, Rev. J. W. Holmes, reading a portion of Scripture, and the President announcing the 753rd hymn. Prayer was offered by Revs. C. Hamilton and W. C. Henderson, M.A. The roll being called, 117 ministers answered to their names, besides a large number of laymen.

The report of the Transfer Committee was read, showing that Revs. J. L. Kerr, J. White, and G. A. Griffin, M.A., have been transferred to the Conference, and D. C. Clappison, A. Andrews, and Samuel J. Tucker from it.

Rev. Dr. Griffin was elected President upon the first ballot, and Rev. T. M. Campbell, Secretary. Both addressed the Conference briefly, thanking the brethren for the honour conferred and confidence expressed.

Resolutions of thanks and approval were presented to the ex-President and ex-Secretary for their services so faithfully rendered during the past year.

Upon motion the Revs. J. E. Howell and J. C. Stevenson were appointed Assistant Secretaries, and Rev. John Fisher, Journal Secretary.

The moral character of all the ministers was passed without a single exception being taken.

Upon motion the District Superintendents were appointed a committee to select the several committees of the Conference not otherwise provided for. John H. Carson, George F. Salton, and Robert C. Burton were recommended for full reception with the Conference and ordination as ministers.

The probationers for the ministry of three years standing are: Henry Irvine, Jabez H. Dyke, James T. Legar, John Kennedy, and Henry Colwell.

J. J. Rapp, Isaac B. Waldwin, A. K. Birks, B. A., G. H. Cobbledick, B. A., J. J. Crookshanks, Edward H. Shaw, and J. W. Nahood were admitted to the standing of probationers of two years.

Archibald McKibbin, Wm. F. Millar, F. C. Colbec, B. A., John W. Frizzel, and Edward H. Weston were advanced to be probationers of one year.

Walter M. Patton, Wesley E. Kerr, Edwin L. Flagg, Robert H. Baraby, and John F. McLaughlin were recorded in probation for the ministry.

Samuel Fear, J. Williams, R. Service, L. O. Rice, S. H. Hilts, J. Walker, John Armstrong, H. Berry, D. D. Rolston, Wm. Tindall, Geo. Watson, Andrew Clark, John Gardner, H. Leith, Thos. Dudley, R. J. Tyler, J. Scott, and W. Danard were continued as superannuated ministers.

J. Geddes, J. Holmes, Henry Hall, Sylvester Kerr, J. Sparling, N. Burns, M. A., J. C. Pomeroy, B. A., were continued as supernumerary ministers.

Edward B. West was granted his credentials of standing, having expressed his desire to withdraw from the ministry.

ELECTION OF DELEGATES.

Friday afternoon was appointed as the time for the election of delegates to the General Conference in September next. Revs. Drs. Sutherland and Eby were introduced and briefly addressed the Conference. On motion the Conference adjourned at 5 to give the Nomina ing Committee an opportunity of selecting the several committees.

THE STATIONS.

The first draft of stations for Guelph District is as follows:—

GUELPH DISTRICT.

Guelph First—Norfolk street, Joseph W. Holmes; Hugh T. Crossley, left without an appointment at his own request in view of evangelistic work. Guelph Second—Dublin street, W. S. Griffin, D. D., Henry Irvine. Guelph Third—Paisley street, William Savage; Ponsonby, Isaac Crane, Marden; Elora—James Broley, Samuel Fear, superannuated; Fergus—Jos. Colling; Marsville—William Willimott; Belwood—Thomas Grundy; Eramosa—Jas. Walker; Rockwood—Francis Swann, Wesley H. Kerr; Acton—Robt. Phillipps; Georgetown—J. Walker Shilton, B. A., one to be sent; Oakwood—Nelson Burns, M. A., superannuated; Erin and Ballinafad—Joseph Markham, Walter Patton; Galt—W. C. Henderson, M. A.; Berlin—John W. German; Preston—Wm. H. Hincks; Hespeler—Richard C. Henders; Waterloo—Alf. A. Bowers, B. A; Elmira—Thos. J. Snowdon; Nassagaweya—Wm. Mills, Jno. Rapp; New Hamburg—Jno. W. Robinson. Rev. J. H. Carson, Waterloo street, Stratford.

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsia, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at Thomas S. Petrie's Drug Store.

OUR Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

Fergus Correspondence.

BASE BALL.—A meeting was held in Mr Craig's music room on Friday night last for the purpose of organizing a base ball club. The attendance was good and the meeting was enthusiastic. All were decidedly in favor of going ahead and getting up a club and team. Accordingly the club was organized with officers as follows:—Mr John Craig, of the *News-Record*, Hon. President; Dr G A Reid, Hon. Vice; Dr Johnson, President; and Dr O'Reilly Vice; Mr Kennedy Secretary-Treasurer; Mr T. Bennet, Captain; and a Managing Committee of five. The only drawback appears to be to get a ground for practice. We hope this difficulty will be overcome, as we, with others, would like to see base ball played. The club is now open for games, and prepared for challenges any time.

LACROSSE.—There has been considerable difficulty in lacrosse circles. The manager of the association decided that Orangeville and Fergus should open the games for this North Western District. Orangeville offered half net receipts if Fergus would go there, and Fergus offered all the receipts or play on neutral ground. Orangeville then offered two-thirds of the receipts and then them all, but in the meantime the matter had been left to the association, and the match was ordered by that body to be played in Mount Forest. As soon as Fergus received this word Orangeville was notified, but no answer came, and our team did not know what to do, as the match should have been played to-day at the latest. Word was received from Orangeville this morning that they would come here and play on Friday. We presume, therefore, that the match will be played here on Friday afternoon. The game is sure to be a good one and exciting. Considerable interest is taken in it here, for if our boys win, as we hope they will, then the medal must be played for here till Ferg loses. For the sake of the sport and the club, and because we want our home team to win we wish the "Thistles" victory.

COURT.—The Court of revision met on Thurs last. There were some six or seven appeals put in. Some were, however, in too late and were not considered. Four of the hotels appealed for reduced assessment on the plea of Scott Act. Three of these were considered, Mr. Spires being reduced from $6,000 to $5,000, Mr. Morrow from $4,000 to $4,000, and Mr Grieves-Morrow from $2,300 to $2,000. Mr. Clouse was left at $4,000. Mr. Black on the novelty factory was reduced $550.

SOLD.—Some of our Garafraxa men were either caught, or afraid they were, by the book agent. After all, they did not need to squeal. If they took all the numbers of Picturesque Canada, 36 at 50 cents each, the amount would only be $21 00, and they get a book many in Fergus possess value. It seems, however, that the book man was dishonest, and if so, should be sat upon decidedly as he has been. The book man said, take one number, if you don't like it take no more, but he asked for a signature which ordered all the numbers of the work.

CHURCHES.—Rev Mr Cassidy, once a Garafraxa boy, gave two excellent sermons on Sunday, in the morning in St. Andrew's in the evening in the Methodist church. Dr Cavan, of Toronto, conducted communion service in Melville church in the morning. Dr. Smellie giving a short address. In the evening. Dr. Cavan gave a very nice, feeling and sensible sermon to a united congregation.

DEPARTURE.—Dr. Smellie and wife took their departure this p. m. for Toronto, from whence they expect to start for the Old Country next week. Miss Smellie goes with them and we believe Mrs Cattanach and Miss Cattanach sail for the Old Country on the same vessel

CATTLE.—Another load of fat ones shipped yesterday, prices as high as $5 50. All for the Old Country.

NEW.—The Telephone Company has about twenty men at work putting up poles through our village and over to Elora. They started from Guelph about a week since When through here they will go on up to Mount Forest. One set of men goes ahead and dias the hole for the posts and another set follows and puts them up. They live in tents, which they pitch where most convenient. The posts put up in the village are very tall. The wires will be well out of the road.

REPAIRS.—Mr. Semple is busy fixing his dam and flume. The P O. block has been much improved by fresh paint, the doors and windows all made a deep dark red.

CHANGE.—Mr. Ritchie, so long in the bakery and candy store here, has given up and goes to Galt. He is succeeded by Messrs. Elliot and J. Hay, two young men of energy, who are bound to succeed as it is a pleasure to deal with them, and all favoring them will receive the best of attention.

PICNIC.—There is to be a social picnic at A. Armstrong's, the Cranberry farm, on Friday afternoon first. A good time may be expected with croquet, etc. A game of baseball is to be added, to be played between the Speedside club and Slab Town.

EARLY CLOSING.—Many of our merchants would like to close at 6:30 sharp. We think this should be carried out, the business can all be done by that time.

RUNAWAY.—A team belonging to Mr. Pettie, of Garafraxa, ran away last Wednesday morning. The horses dashed against a post at Spires' and were stopped almost instantly, merely breaking the harness.

STYLE.—We were startled to see a tandem belonging to Fergus driven through the village one day last week. What next? Silk hats should rage.

The County Council meet this week, Messrs. Beattie, Anderson and James Beattie are in attendance.

DEATH.—Mr. Cormie, sen., of Nichol, died last night at the ripe age of 82 years. His health has been failing all last winter. Yesterday he walked out in the garden but died soon after coming into the house in the evening. Another land mark gone.

The saw mill at Wilson's is running night and day. The front street is likely to be macadamized, it needs it. Our village is looking fine in its garb of summer green of grass and trees, clean streets and premises ornamented with many and solid flower gardens. What village can beat Fergus?

Fergus, June 1st, 1886.

Rothsay Correspondence.

Dr J Cassidy, a brother of Dr G A Cassidy, of Moorefield, has moved to our village He is at the present time stopping with Mr Gamble. The doctor is a very energetic and pleasant looking young man, and has, during the short time he has been in our village, proved that he is a first class physician.

Mr Thomas Corbett, who has been attending the University at Toronto, is now at home among his many friends.

Mr George Allen, of this village, who has made several improvements on his residence this spring, has now Mr S Randalls employed in putting up a fine picket fence along the front of his lot.

Mr William Ritch sold a steer which weighed nearly 1,600 pounds, to Mr Thos Craig last week. Mr Craig is a good cattle buyer. He shipped two carloads of cattle on Monday the 24th, and is again out through the country buying more.

Messrs Maxwell, Giles, Mitchell, Thompson, and Mrs Arbuckle started for the Old Country on Monday morning. We wish they may have a pleasant trip, and that they may soon return to their many friends in this county.

All the schools in this vicinity were closed on Thursday and Friday of last week. The teachers were in Mount Forest attending a convention of the teachers of the Northern Division of Wellington.

Elora Correspondence.

ON A VISIT.—Mr J G Somers, formerly of Elora, and now of Toronto, is spending a few days with his many friends in this village. Mr Somers is well pleased with his home in Toronto, where he has established a good business, but still retains a warm affection for Elora of which he has many pleasant recollections.

FUNERALS.—Mr Wm Bye, whose death was announced in these columns last week, was interred in the Elora cemetery on Wednesday last. The funeral was one of the largest ever seen in this section, and much sympathy was manifested for the family so suddenly and terribly bereaved.—The remains of Mr J Watson, who died at Georgetown, and who was at one time a partner of Mr Lambert proprietor of Elora marble works, were brought to Elora yesterday for interment Mr Watson was well known and will be remembered by many in this locality.—To day, we have to record the death and burial of Lucy, beloved wife of R Sanderson. Mrs Sanderson died on Saturday evening at the residence of her aunt, Mrs Boys, of Elora. The deceased was married but five months ago, and seemed likely to enjoy a long and happy life, but a severe cold developed into consumption, and the dread disease did its work with fatal rapidity. The funeral to-day was largely attended, and much sympathy is felt for Mr Sanderson.

ACCIDENT.—On Friday last Andrew, son of Mr R Mitchell, of this village, was playing on the edge of the rocks of Irvine river, when he suddenly fell over into the chasm below. The fall was a serious one, but the fellow escaped with a severe bruising, and will soon be as well as ever.

SALE.—Mr H Auger, who contemplates leaving Elora at no distant day, has sold his house and lot to Mr Arch Grey for the sum of $400.

MISSION.—It has been announced that a mission will be given in the R C church here in the course of a few weeks. Clergymen of note from a distance will be present to conduct the services and preach to the people.

REMOVED.—Miss Ellen Duncan, a member of the Salvation Army here, has been promoted to a position in the force now occupying Owen Sound. She left the village yesterday to engage in her new duties.

FAIR.—The fair to-day was one of the quietest ever held in this village. A number of previously sold cattle were delivered and shipped. There were about ten carloads of them, but beyond this very little business was done.

Elora, June 1, 1886.

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any sore pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S. Petrie, Druggist.

Early Closing on Saturday Nights.

The Canadian *Presbyterian* has the following in regard to women doing their shopping early on Saturday, which is well worthy of perusal:—

We don't hear as much about enlarging woman's sphere now as we heard some years ago. The question has narrowed down to that of giving the alleged weaker vessel a vote, and there are not many women in Ontario who care much even about that. If our women want a sphere in which they can do a hundred times as much good as they are likely to accomplish by voting or attending Scott Act meetings there is one open to them in every town, city and village in Canada. Let them stop shopping on Saturday nights, and prevail upon their friends to do the same. Here is something practical, something that every woman can work at, and something that if accomplished would do a world of good in every community. It is notorious that in many places stores are kept open until Sabbath morning, and parcels often sent to the buyer at midnight or on Sabbath morning. It is equally notorious that many salesmen, saleswomen, cash boys, and other employees seldom get home until Sabbath morning, and never go to church for morning service. Merchants are not much to blame. The great majority of them would close up at nine o'clock. One or two will not agree to do this, and the others have to keep open in self defence. Do the ladies who do their shopping late on Saturday night ever think that those who wait upon them have been on their feet from eight in the morning and must work until twelve at night? A large majority of those who throng stores on saturday nights are women. They might confer a real benefit upon society by staying at home and inducing their neighbours to do the same. We have our own opinion about a female moral reformer who does her shopping late on Saturday night.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

Sporting Notes.

CRICKET.

GUELPH C. C. AND GROUNDS VS. TORONTO UNIVERSITY CLUB.

The Royal City Cricket Club played their third match this season, and suffered their second defeat, being worsted at Hamilton by the Hamilton club on the Queen's Birthday by six wickets. Yesterday the visitors defeated them by 57 runs.

The wickets were pitched at 11 o'clock. The captain of the Varsity won the toss and sent the home team to the bat, Lockwood and Roche facing the bowling of McDonald an E. C. Senkler. Lockwood after scoring 3 and 2, was neatly bowled by McDonald, 1 wicket for 10 runs. Guthrie then faced Roche and the two made a good stand, the former scoring 11, made up of 1 three, 2 twos, and 4 ones. Guthrie got well on to the bowling, and with a very nice display of cricket, made a good leg hit for 4, 3 three's, 2 two's, balance in ones, adding 23 runs to the score. The only other player who made double figures was McConkey, who with hard hitting and careful play, runs were made freely. His innings was a splendid drive for a 4, 3 threes, 3 twos, balance in ones. Total runs, 103.

After lunch, Rykert and Smith on behalf of the visitors handled the willow to the bowling of Martin and Fitzgerald. Smiths 21, Senkler J. H. 20, Senkler E. C. 27, McDonald 25, Mills 15, and James 10, double figures were all made up by hard hitting, and errors, only 30 single runs being made by he above above players. The score with 36 extras amounted to 160 runs.

Guelph went to the bat, Lockwood and Webster taking their places at the wickets to the same bowlers. Webster's 1 four, 1 three, 2 two's balance in one's, was fine cricket all round for 32 runs. Fitzgerald's not out for 31 displayed good play and hard batting for a five, a four, 3 threes, 3 twos. Roche added 16 runs by good play. When the wickets were drawn at 6 p. m. the score was 107 runs. The match was declared on the 1st innings, the visitors winning by 57 runs. The day was cold and not favorable for cricket, as the analysis will show that it was all in favor of the batting. A splendid crease was had and the visitors were loud in their praises of our cricket field, and that in two or three years it will be the finest in the Dominion.

BASEBALL.

The Maple Leaf left on their western trip at 6:30 this morning. The following are the games arranged:—Windsor, June 4th; Cass at Detroit, June 5th; Adrian, Mich., June 7th; Flint, Mich., June 9th; Bay City, Mich., June 10th; Saginaw, Mich., June 11th; Petrolia, Ont., June 14th; London, 15th; Stratford, 16th. Games for the 8th and 12th are not defenitely arranged yet, but they will be filled in Michigan.

Dan Mulholland took his mascot.

THE MOUNT FOREST MINISTER CASE.—The Mount Forest case, which was by appeal before the Synod of Toronto at its meeting in Galt, and referred to a commission of the Synod to meet in Harriston June 1st, was settled by the following deliverance unanimously adopted:—"That the Presbytery of Saugeen was justified in proceeding to the settlement of a minister in the United Church, and has shown due diligence in seeking to secure the retiring allowance to Mr McMillan; the commission therefore, dismiss the appeal, and sustain the action of the Presbytery. The commission would however declare that in their judgment the members of the congregation who formerly composed Knox church, Mount Forest, are under moral obligation to complete the payment of the retiring allowance of one thousand dollars to Mr McMillan, and hereby recommend them to use the utmost diligence that this may be done, and the commission further declare that while the united congregation are not under obligation to meet this claim, they would regard any combined action which may be possible in the case with great satisfaction."

F. Rowland, Collector at Kingston, and George M. Elliott, Collector at Napanee, Thursday made a seizure of a steam worm, several vessel pipes, etc., used for illicit distillation near Forest Mills, Township of Richmond. Daniel Goodmurphy, in whose premises the articles were found, was arrested.

DEATHS.

WALKER—In Guelph, on the 4th June, Charles son of Wm. Walker, 11 Dublin street, aged 3 years and 3 months.
The funeral on Saturday at 3 o'clock.

A Baltimore and Ohio freight engine standing in the yard at Bellaire, O., Thursday exploded its boiler, killing Engineer Johnston, Fireman Vandervoort, and Mat. Hammond, the engineer of another engine.

At Wheeling, W. Va., a handcar containing five men was thrown from a trestle, and fell 35 feet, instantly killing three of them and fatally injuring the other two.

The long drouth is beginning to tell on the water supply of Galveston, Tex. Hundreds of reservoirs connected with residences and business houses are exhausted. Water is being sold at a cent a gallon and 50 cents per barrel. Rain has now fallen in several sections partially relieving the terrible drought.

Mothers will find the pain killer invaluable in the nursery, and it should always be kept near at hand in case of accident. For pain in the breasts take a little Pain Killer in sweetened milk and water, bathing the breast in it clear at the same time. If the milk passages are clogged, from cold, or other causes, bathing in the pain killer will give immediate relief.

BAPTIST CHURCH.

Ordination and Induction of Rev. Wm. C. Weir, B.A.

The pastor elect of the Guelph Baptist Church, Rev. W. C. Weir, B. A., who has been completing his course at McMaster Hall, Toronto, this winter, was yesterday ordained to the Christian ministry and inducted into the pastorate of the church. The Ordination Council met at two o'clock in the basement of the church and consisted of the following delegates:—

Stratford, Rev. D. A. McGregor, M.A.; Galt, Rev. W. Walker, R. Pentland; Woodstock, Rev. T. Trotter, R. M. Sawtell; Brampton, Rev. M. P. Campbell; Georgetown, Rev. A. T. Sowerby, R. F. Bessey; Cheltenham, Rev. D. M. Mihell; Jarvis street, Toronto, Rev. Dr. Castle; Alexander street, Toronto, Rev. J. Denovan; Guelph, Rev. W. Pickard, C. Raymond, S. Powell, T. Couch, S. Brooking, J. Beirnes, J. McGill, W. R. Evans.

After devotional exercises the examination of the candidate for the ministry, Mr. Weir, was then proceeded with. Mr. Weir narrated the history of his conversion and his call to the ministry, which was very interesting, and was then submitted to a searching examination for nearly three hours by all the members of the Council with reference to his views of Christian doctrine. Afterwards the Council retired and not only unanimously but very heartily fellowshipped his Christian experience.

In the evening at eight o'clock the Council resumed, Rev. Dr. Castle, Moderator, in the chair. The church was well filled with an attentive audience. After singing, Rev. A. T. Sowerby read II Timothy, 4th Chap., and Rev. M. P. Campbell led in prayer. Rev. Joshua Denovan, Toronto, preached the ordination sermon from II Timothy, IV Chap., 2 verse:—"Preach the word; be instant in season, out of season; reprove, rebuke, exhort, with all long-suffering and doctrine." The preacher spoke of the duty of the Christian minister as outlined in the Apostle's words. He was to preach the word in downright earnest, not in a perfunctory manner, not because it was his business, but because he realized the force of the truth he was striving to impress on his hearers. He was to reprove, to exhort, to rebuke. The popular demand now a days was for something soft, sweet and soothing; a minister must not touch on the dark side of God's truth as it would tend to keep away the outside world; he must give them intellectual feasts and rhetorical exhibitions; he must draw—above everything else he must draw. But Paul says he must reprove and rebuke when necessary; if he does not, a cold, genteel formalism settles on the church and deadens its influence for good. He is to preach in season and out of season, when he has an oppor unity he must take it, when he has not he must make it. Many people vote Jesus Christ out of place at ball rooms, at theatres, at card tables, at billiard rooms; they would confine him to two hours on Sunday, one hour at prayer meeting, to sickbeds and funerals. He repudiated the whole scheme; if Jesus Christ is out of place anywhere, his followers are out of place too. A minister of God must preach in a tender spirit, with long suffering; he is the ambassador of a long-suffering God. He must preach doctrine; not be compromising and on the efensive, but dogmatic and aggressive. There is a great deal of talk just now about advanced thought, and as some imagine that the discoveries of advanced thought are at variance with the truths of the Bible they are inclined to doubt. God's word like God's work is above explanation. When the scientist understands God's work in nature, then he may attempt to explain God's word in revelation. The cry against doctrinal preaching was of the devil. Not one in a thousand had ability, time, even had they the inclination, to study out the truths of God's Word, and therefore, it was the duty of a minister to preach plain, strong, wholesome truth to the weak and perishing; doctrine the people shall have. If he does not believe that he is preaching the Word of God, as an honest man he should vacate his desk. All his talents and time should be devoted to impressing on the minds and consciences of his hearers the truths of the Bible, and the message of God to the world. He should proclaim the Word, not himself. In preaching he should explain his matter clearly, giving an exposition of each word of his text. He should instruct his people progressively and logically in Christian doctrine, not skipping about here and there, but following the order and examples of Christian progress laid down in the Word. The superficiality and lack of cohesian in Christian ideas so prevalent at the present time is due to the want of system and method in Christian preaching. There is a demand in these days for everything foolish and a preacher should show the dignity of his calling in resisting the drift towards sensationalism. What they needed was more manliness and less shallow childishness. If the church wanted less doctrine, give them more doctrine. True, the doctrines they preached were called antiquated and not adapted to this age; but a living Christ, faithfully preached, was as powerful to day as ever. He concluded exhorting the church to sustain and encourage their minister in his work.

Mr. Weir then knelt, and was solemnly ordained by the laying on of hands of the ministers present, Rev. Wm. Walker, leading in an impressive ordination prayer.

Rev. D. M. Mihell extended the right hand of fellowship to Rev. Mr. Weir, and in addressing him spoke of the pride he felt in welcoming him into the Christian ministry and into that of the Baptist Church.

The ceremony of ordination being now completed, the induction of the newly ordained minister to the pastoral oversight and care of the Baptist Church in this city was then proceeded with. Rev. D. A. McGregor M.A., in his charge to the minister, spoke of his calling as the highest honor God could bestow in this world, to bear His message of Salvation as an ambassador of the Cross. He was to realize the responsibility laid upon him, that his church must be influenced for good by his life and teaching. His life must be devoted to his work, he must not only save himself, but those that heard him. He should live in the conscious presence of his Master.

Rev. Dr. Castle, in his charge to the people, dwelt on the mutual obligation as between pastor and people. He had been called by them; he had come at their request. He was not here to do their work, nor be responsible for them individually. He should be promptly and properly compensated. It was a contract: the compensation of their minister was not charity; he was their friend, helper and guide in the most solemn relations of their lives. They should be willing to learn from him, and thus their souls would be fed. They should be exacting as to his conduct, for he was God's minister and their leader in things spiritual, but they should never forget that he was a man, subject to infirmities like themselves. As he had to meet temptation in his experience he would be the more able to help them. They should be to him strength, courage and hopefulness; their sympathy should go out towards him. They should do their part, they should be obedient to him who was to have the rule over them; they should as a flock follow their shepherd as he followed the Great Shepherd.

After an appropriate anthem from the choir, on motion the Moderator and Clerk were instructed to present Mr. Weir with his certificate of ordination, and to send a report of the proceedings to the *Canadian Baptist*.

The Council then adjourned *sine die*, the benediction being pronounced by Rev. Mr. Weir.

THE INFANTICIDE CASE.

Sarah Towle Committed for Trial by the Coroner's Jury.

The adjourned inquest on the death of the infant child of Sarah Towle was resumed in the Police Court room on Thursday evening before Coroner Herod. The following jurors answered to their names:—Fred. Knowles, Geo. Stull, John Ogg, John Hackney, David Spence, D. R. Rowen, D. Tripp, E. Tovell, Wm. McLaren, W. H. Cutten, Sam. Moffatt, John Downs, James Kelcher.

The court was kept waiting for three quarters of an hour at least on John Downs and James Kelcher. The latter came in just as the coroner was about to adjourn the court, has saving his own bacon and that of Mr. Kelcher. The fine is $40, and the coroner was expressing his opinion of adjourning the court and reporting the circumstances to the County Crown Attorney so that the offenders would be punished for their negligence. Mr. Downs received a lecture and a deserved one for keeping eleven men whose time was as precious as his own, waiting his pleasure for nearly an hour. Mr. Downs pleaded a mistake of the hour, which the coroner would not entertain. Mr. Kelcher came in after the coroner had commenced, and escaped his observation, or else he would undoubtedly have received an equally severe lecture.

Eliza Jane King was the only witness examined, and her evidence was against the prisoner.

The Coroner then read over the evidence to Sarah Towle, who was present. The woman who is short, rather stout and course looking displayed no signs of emotion during the hearing of the evidence.

Dr. Herod reviewed the evidence at length and instructed the jury as to what they had to do. It was one of the clearest cases of circumstantial evidence that had ever come before him.

That Sarah Towle on or about the 22nd day of May, 1886, gave birth to a female child alive, which soon after its birth died from violence received at the hands of Sarah Towle or some other person.

Death on the Rail

HAMILTON, June 3.—The body of a man was found this morning at the side of the Hamilton and Dundas Railway track, near Ainslie wood. The body was badly cut up, having evidently been run over by a train. F. E. Lonsdale, Secretary of the Young Men's Christian Association, identified the man as Edgar Paxton Ellison. For the past seven months he has been employed by Mr. Lonsdale to do odd work about his house and grounds. He was the son of a London, England, architect. He was once in an asylum. He left his work yesterday afternoon and was not seen alive again.

Discovered in Time

CHICAGO, June 3.—A copper bomb about twelve inches long, fully charged and operated by clockwork was found under the sidewalk in front of Thomas Grief's saloon, 54 West Lake street, yesterday, by Lieut. Bowler. The works were going when the officer discovered it, but he lifted the machine tenderly and took it to the Central Station. It is supposed by the officer that the machine was left there by one of the numerous persons of alleged Socialistic tendencies who for months have made the saloon their headquarters.

Death of an Ex-M.P.

Mr. James Meek, Deputy Sheriff at Port Arthur, arrived in Toronto Thursday by the steamboat express from Owen Sound, in charge of the remains of his father-in law, the late Amos Wright, who died at Port Arthur on the 31st ult. Mr. Wright was a former resident of Richmond Hill, and for sixteen years he represented East York in the old Canadian Parliament before Confederation. After Confederation he succeeded Sir Wm. Howland in 1868 as representative in the Commons for West York. The deceased was in his 77th year. The remains were taken to Richmond Hill for interment.

Wife—That Davis Vertical Feed surprises me, just see the work I have done already, and could not do it at all on that new under-fed machine.

Husband—But the new under-fed machine is only half the money.

Dear at that when one has to work it and knows the difference. The Davis is light running and so strong, doing everything.

Husband—The agent for the under-fed machine says he can do anything the Davis can do.

Wife—But he does not do it. The Davis does it and I did it myself. He only says he can do it. I must have a Davis.

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 50c. and $1.00 per bottle at Thomas S. Petrie's Drug Store

In the United States Senate Mr. Dawes on Thursday presented a petition from the Gloucester, Mass., City Council praying for retaliation on the Canadian Government for the seizure of American vessels. Dawes and Edmunds addressed the Senate at some length on the subject.

The Evening Mercury

FRIDAY EVE'G JUNE 4, 1886.

The Session of 1886

The Dominion Parliament was prorogued on Wednesday night after a session occupying a little more than three months. The private bills legislation of the session has been extensive, but the programme of public measures has been very meagre. Principal among the latter are the Acts granting representation to the Northwest Territories, providing for the establishment of a bureau of printing, and for experimental farm stations. The Franchise Act was amended, but not in a way to improve it, and some unimportant changes were made in the laws relating to the disposal and settlement of the public lands.

Soon after the House met the members found that the expenditure for the fiscal year ending with this month would be largely in excess of the revenue, and that the over-expenditure would have to be added to the debt of the country. All the efforts of the Opposition, ably guided by Mr. Blake, to induce the Ministry to curtail expenditure and substitute a revenue tariff for the prohibitory taxes imposed, were in vain. While the duties were increased with a view to prohibit importation and thus to tax consumers for the benefit of the producers, the most alarming extravagance has been exhibited in every department of the public service. The policy has been to bleed the country for all it was worth, and although the efforts of the Opposition to stay the Government in this head long course have fallen powerless so far as the Government are concerned, the revelations unearthed have aroused a great many people in the country from their apathy and convinced them of the recklessness and extravagance which prevails on every hand.

In fact the session has been, as the Tories call it "one of scandals." This is its distinguishing characteristic, and it will long be remembered on that account, although we venture to say that half the scandalous transactions which have taken place between this Government and their supporters have not yet been revealed. It was shown that dozens of members of Parliament were growing rich on money stolen from the country in the shape of railway subsidies, land and timber grants, advertizing contracts and legal fees, for which the principal consideration given in return was political influence and support. The names of Beaty, McCarthy, Hector Cameron, John White, Paint, Riopel and Robitaille will not soon be forgotten in this connection by the men who toil hard for all they earn, and who are obliged to do this in the face of competition offered by assisted emigrants who are imported under sanction of the very members who are thus subsidized.

Besides purchasing the support of members the Government have extended their policy of bribing certain constituencies by granting railway subsidies. This policy was inaugurated in 1884, when Quebec had to be given a sop before the Tories from that Province would support the Canadian Pacific loan of $30,000,000. It has since been extended to the other Provinces and the present session has witnessed a large number of grants which were given with a view to help Tory candidates in anticipation of a general election. This is a policy which bids fair to file up a larger debt even than has been placed upon us by the Canadian Pacific Railway. Contractors have been liberally dealt with and can well afford to contribute something to the Tory election fund. If the people of Canada are willing to be bribed to their own destruction by such means Sir John knows how to do it. It is for them to decide whether they will continue to support him in the ruinous course he is pursuing, or whether they will rise in their might and hurl him from the trust which he has betrayed and prostituted to such base purposes.

The Supplementary Estimates

It is becoming more and more the custom every year of this Government to keep back very important items of expenditure until the last moment and then bring them down in the Supplementary Estimates. In so doing they expect that these items will not undergo the same searching criticism from the Opposition that they would have done had they been brought down at an earlier period of the session. These Estimates generally make their appearance in the last hours of the session when not a few members have left and the others are impatient to get away.

Among the items of these Estimates we find one of $300,000 as the first instalment for the payment of the expenses connected with the new Franchise Act. This large sum will not by any means cover the cost of carrying out the provisions of this act, and as has often been predicted by the Opposition the total cost each year will not be much less than half a million dollars. As we have often pointed out this expenditure is entirely unnecessary, just as unnecessary as the Act is itself. The system under which our Dominion elections were held before it came into operation was satisfactory to all parties, and the small expenditure was borne by the municipalities and was never grudged by any of them.

Among the other items we find a heavy one for reimbursing those who took out licenses under the now defunct McCarthy Act. Two years ago that Act was forced through Parliament in the face of the protests of the Opposition, who took the ground that all matters with respect to licenses belonged to the Provincial Government. This view was upheld by the Privy Council, and thus the Premier has proved himself to be a mere charlatan in his professions of constitutional law, not only respecting this Act, but others also. Now the taxpayers are asked to refund $84,000 to those who were foolish enough to pay fees, and to also vote $41,000 for the miscellaneous expenses of the boards of Commissioners who had no legal functions to discharge. In all, this piece of folly costs Canada this year $125,000.

There is another item in these estimates which is due to the usurpation of the Government at Ottawa over the territory which belongs of right to Ontario. Where the expenditure charged upon the Dominion for Sir John Macdonald's insane attempt to rob Ontario of her western territory will end, nobody knows. Not satisfied with his attempt to rob Ontario of jurisdiction over the soil, he actually disputed the personal ownership and claimed it for the Dominion by virtue of some Indian treaty. The St. Catharines Milling and Lumbering company the other day sought to retain possession of limits in Ontario by virtue of a Dominion grant, being assured by the Premier as "a high constitutional lawyer," that it was perfectly sound. The courts decided otherwise, and now the taxpayers are assessed $11,500 in defraying the expenses of this action, and to prove once more that Sir John is a mere braggart in pretending to be an authority upon such matters.

The above will give our readers an idea of the reckless expenditure of the Government and of the way in which they rush through some of the most objectionable items at the very last moment when they expect that public attention will not be called to them. They have not succeeded, however, so well as they expected, for the Opposition Wednesday sharply criticised the most objectionable items as mentioned above, together with another grant of $160,000 towards the construction of the Trent Valley Canal. This project is generally revived before a general election, so that the grant this year betokens an election either this year or the next. Then we have an item of $400,000 for over expenditure for Northwest Indians, which is not included in the $100,000 acknowledged as on account of the troubles, but this vote and several others legitimately belong to the cost of the rebellion and should be included as such. An additional vote of $150,000 for the Northwest police is also due to the same cause. The manner in which these items are scattered will make it difficult, as was probably the intention, for the country ever to understand the actual cost in cash of the outbreak. We might go on and refer in detail to all the other items in these estimates, many of which are of an equally objectionable character, and are due solely to the reckless policy and extravagance of this Government.

Ontario Medical Association.

TORONTO, June 4.—The annual meeting of the Ontario Medical Association was completed yesterday. In accordance with the report of the Nomination Committee, the following officers were elected:—President, Dr. J. H Richardson, Toronto; Vice Presidents, Dr. Harrison, Selkirk; Dr. Brouse, Brockville; Dr. Moorehouse, London; Dr. Aylesworth, Collingwood; Corresponding Secretaries, Dr. Fraser, Sarnia; Dr. Harris, Brantford; Dr. Akerman, Collingwood; Dr. Gibson, Belleville. General Secretary, Dr. J. E White, Toronto. Treasurer, Dr. Powell, Toronto. Several papers were read, including one by Dr. McKinnon, of Guelph, giving details of four cases of Ovariotomy. Dr. Henderson gave notice that at the next meeting he would move for the appointment of a committee to consider the question of the formation of a Defence Union for the purpose of defending or assisting in the defence of members for legal cases of alleged malpractice. The Association adjourned to reassemble in Toronto during the first week in June next year.

The ratepayers of St. Catharines Thursday, by a majority of 460, carried a by law making the city security for $80,000 for the St. Catharines and Niagara Central railway. They had previously voted a bonus of $80,000.

The first estimate of the expenses of the enforcement of the Scott Act in Halton for the present license year having been returned by the Ontario Government to the License Commissioners, the latter prepared a new one. The amount fixed on was $1,250.

The house of Mr. Mannel, Peterboro, was violently stormed early Thursday morning by a mob. The Scott Act Inspector lives three doors off, and it is thought the fusilade was intended for him. Three chambers of a revolver were emptied at the windows.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address.

DR. T. A. SLOCUM,
Branch Office, 37 Yonge St., Toronto

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

COUNTY COUNCIL.

June Session.

AFTERNOON.

The Council resumed at two o'clock, Warden in the chair and all the members present.

COMMUNICATIONS.

A communication was read from Lieut. Col. Macdonald, asking for a renewal of the grant of 25 cents per day to the 1st Brigade of Field Artillery residing in the County, exclusive of the City of Guelph. Referred.

From Judge Drew, calling the attention of the Council to the necessity of making certain changes in the vault doors in the Judge's chamber. Referred

SCOTT ACT MAGISTRATE.

From the Wellington District Council Royal Templars of Temperance, praying that this Council affix and pay a stated salary to the Police Magistrate whom the Ontario Government would be pleased to appoint for the enforcement of the Scott Act. Referred to the Finance Committee.

COMMITTEE ON WARDEN'S ADDRESS.

Mr. Mutrie, chairman on the Warden's address, reported:—Your Committee would recommend that this Council introduce a bylaw for the appointing of valuators to value all the real property in this county for the purpose of equalizing the same. That the Commissioners of County Roads be instructed to have all obstructions which may now exist or which may hereafter exist on County roads or bridges removed. Where the parties placing such obstructions are known the Commissioners shall notify such parties to remove such obstructions without delay, and if such notice is not forthwith complied with the Commissioners are hereby instructed to prosecute such parties for having committed public nuisances, such prosecutions to be by criminal proceedings before a magistrate or magistrates, as for indictable offences or by such other proceedings as the Commissioners may determine, and the County Solicitor is instructed to institute or assist in such proceedings when required by the Commissioners, and further that the Commissioners of County roads be instructed to see that the sides of all County bridges and approaches to bridges, and other dangerous places along County roads be kept properly guarded for the protection of the travelling public. That all municipalities be placed upon the same footing in regard to counties assuming all bridges over streams of one hundred feet in width. That the County Solicitor be instructed to garnishee the amount due to Mr. Massie by the *Irish Canadian* printing Co. for the purpose of securing the amount due by Mr. Massie to the County. Your Committee fully endorse the action of the Warden and Commissioners in the prompt and speedy manner in which they had the bridges repaired recently swept away by the spring freshets on the boundary line between the village of Fergus and West Garafraxa.

Moved by Mr. Mutrie, seconded by Mr. McGowan, that the report of the Special Committee on the Warden's address be received and adopted.

Considerable discussion arose on this report.

Moved in amendment by James Cross, seconded by Mr. Long, that the report of the Committee on the Warden's address be amended by striking out that portion that refers to appointing County valuators.

Moved in amendment by M. C. O'Donnell, seconded by R. Murdoch, that the clause of the report of the committee appointed to consider the Warden's address relating to the placing of all municipalities on the same basis in regard to bridges over rivers or streams over 100 feet in width be struck out.

Both amendments were lost. Mr. O'Donnell called for the yeas and nays on his amendment which are as follows:—

Yeas—Coleman, Foote, Gilmore, Johnston, Knott, McEwing, Murdoch, O'Donnel. Rae.—9

Nays—Anderson, Benham, R. J. Black, H. Black, Corbett, Cross, Darroch, W. L. Gordon, H. B. Gordon, Hampton, Hobson, Howes, Kirkwood, Long, Marshall, McGowan, McManus, Mutrie, Powley, John Reynolds, Robertson, Robinson, Tolton, Wissler—24.

The report was then passed as presented.

COUNTY ROADS.

Mr. John Robertson, chairman of the County Roads Committee, reported that they have considered the report of the Commissioners of the Glenallan road in regard to letting the contract for the erection of a new bridge to replace the one washed away, and fully approve of their action in the matter. We would also recommend that the said Commissioners be authorized to have breakwater repaired and extended so as to ensure the safety of the travelling public and protection of the road. We would also recommend a grant of $250 be made to the Arthur and West Luther gravel road, to be expended in gravelling that portion assumed by the County. We would also recommend that the Commissioners of the Elora and Saugeen gravel road, from the junction to Alma, be paid their usual apportionment and $50 of a further grant. In regard to the application for grants from the Commissioners of the Elora and Saugeen road from Teviotdale to Harriston, Arthur and Mount Forest and Fergus and Arthur roads, your Committee recommend no action be taken. We would recommend that the requisition asking for the sum of $500 for the purpose of grading and gravelling the boundary line between Minto and Wallace from Teviotdale to Palmerston be granted, and that necessary steps be taken to compel the County of Perth to perform their part of the work of improving said road.

Moved by J. Robertson, seconded by E. Tolton, that the report of the Standing Committee on County roads be received and adopted.

Mr Hobson strongly objected to the grant for the latterroad, showing that other roads in the southern portion of the County were in an equally bad state and equally deserving of a grant.

Mr. Mutrie thought that it would be well to leave the grant over for another year, when the Council would have $10,000 of their debentures paid of.

The clause was upheld by the men from the north, and rejected by the men from the south and the result was quite a lively discussion.

Moved in amendment by John Mutrie, seconded by Wm. Rae, that the report of the County Roads Committee be not adopted, but that it be sent back to the Committee with instructions to strike out that part in reference to the Teviotdale and Palmerston road.

The amendment was put first and lost. The motion was then carried.

HOUSE OF INDUSTRY.

Mr. Beattie, Inspector of the House of Industry, reported as follows:

I beg leave to report that I have paid since the 1st of January last on account of maintenance of the House of Industry the sum of $2,420.23, this includes the amount of $1 144.43 paid in maintenance account for the previous year, being a disbursement to the amount of $1 278.80 on this year's account. The House of Industry account in my office is overdrawn to the amount of $225.83, for which I will now apply to the Warden for an order. I have nothing special in connection with the management of the Institution to bring under the notice of the Council at this session. I may state, however, that an old man named Darby, an inmate who has been maintained for some time at the expense of the City of Guelph, has become insane and cannot consequently be allowed to remain longer in the institution; but I understand that the Standing Committee are about calling on the Council of the City of Guelph, or the Relief Committee of said Council, to remove the man with as little delay as possible.

Moved by Mr. Wissler, seconded by Mr. Knott, that the report of the Inspector of the House of Industry be adopted and printed in the minutes. Carried.

CHAIRMAN'S REPORT.

Mr. M. Anderson, chairman, reported that at the three first quarterly meetings they audited the accounts to the amount of $1,174.81, and are of the opinion that it will require a further sum, say of $4,000, to be placed in the estimates for the current year to meet expenses and salaries of said institution. They would recommend that the financial year of the House of Industry terminate on the 13th of November in each year, to enable your Committee to report at the December session of this Council, and if thought advisable to have the accounts of that institution audited in the same manner as the County Road Commissioners accounts, or by a special Committee appointed for that purpose.

They would also draw the attention of the Reeves and Deputy Reeves of this County to the following: That Wednesday in each week from ten o'clock in the forenoon till four in the afternoon, is set apart for visitors, and that the Keeper be instructed to act strictly in accordance with such regulation, unless that parties have a free permit from the Inspector or some member of the Committee in charge except members of County Council and County officials. Your Committee would recommend that the printed form of commitment be amended so that they will read a resident of the Municipality—in the County of Wellington, and further that no Reeve or Deputy-Reeve or justice of the peace shall commit any person to the House of Industry and Refuge unless they are residents of the municipality where said Reeves or justices reside. That the Keeper be instructed to observe that all commitments are made out in accordance with printed forms for such purposes They would recommend that no moneys be paid out by the keeper or matron, and that all cash received by them in connection with said house be paid over to the acting Secretary-Treasurer for the time, and by him placed to the credit of the institution. That your Committee be instructed to examine the by-law for the Government of said House of Industry and Refuge, and if it does not bear out the instructions and recommendations contained in this report that they draft an amendment to said by-law and submit it at the next meeting of the Council for its approval.

Moved by J. R. Wissler, seconded by Mr. Knott, that the report of the chairman of the House of Industry be received and adopted and printed in the minutes.

Mr. Hobson took occasion to object to the increased expense of the House of Industry. He moved in amendment, seconded by Mr. Rae, that the report be not adopted, but referred for consideration to a Committee of the whole Council. Carried.

Mr. Mutrie took the chair.

In moving the amendment he drew attention that the expenses had gradually increased from 77 cents per head up till 1883, when it was $1.47, and the same in 1885. The increase was most extraordinary and did not include the interest on capital account. His object in moving the Council into Committee was to ascertain on what system the business was carried on. For instance there was the sum of $1,000 for fuel. He was desirous of knowing where the fuel came from and if it and the other necessaries required had been contracted for. He was in favor of having a responsible party pay all moneys, and also of having an independent audit, and not allowing the keeper to handle the money.

Mr. Foote replied that all the supplies were taken by tender, and all had been advertised for with the exception of thirty cords of wood last year. The lowest tenders had always been accepted. With regard to the large quantity of fuel used, he stated that the furnaces were not fit for use.

Mr. Wissler stated that the Committee went over the accounts every three months and vouchers were produced for everything.

Mr. Hobson said that an institution in the neighboring County of Waterloo, and a very fine one only cost from 70 to 80 cents per head. What he desired to know was the reason of the increased expenditure. The number of inmates although fluctuating a little was about the same. He considered that there must have been extravagance somewhere, and he would like to know where.

Mr. H. B. Gordon thought that the caretaker had the handling of too much money.

Mr. Foote explained that the Keeper gave vouchers for every cent of money that he handled.

Mr. Anderson suggested that if the report was adopted it would cover Mr. Hobson's objections. He was not in a position to speak on the question having only lately been on the Committee.

Mr. McManus thought that Mr. Hobson deserved credit for bringing up the matter. He was not aware that the expenses of the institution had increased so greatly, and the thing should be looked after and done right.

The Clerk, as inspector of the Poor House, explained that the Keeper was governed by the provisions of a by law, which he had carried out. If the provisions of the by law were wrong it would be for the Council to pass a new by-law, and not throw the onus on the Keeper. The only money which the Keeper is allowed to handle is that raised on the farm, and there was not one dollar of that but what was accounted for and a voucher produced. He went over the number of inmates that had been in the institution yearly from 1878 up to 1885, and the expense per head per year, showing that in years when the attendance was less the expense was greater. When the institution was started there was a complaint about the food, and they now got better food than at first, which of course would increase the expense. He also pointed out that it would be impracticable for the Keeper to run the institution without some money at his disposal.

The report was adopted.

LEGISLATION.

Mr. Hampton, chairman of the Standing Committee on Legislation, reported recommending a grant of fifty dollars towards the Minto Farmers' Provincial Drainage Scheme. Regarding the communication from the Department of Agriculture, the Committee recommend that the Clerk be instructed to have the matter advertised, and that a special committee be appointed whose duty it shall be to name the candidate for the College should there be more than one applicant, said Committee to be composed of the following, viz: M. C. O'Donnell, John Mutrie and W. Nicoll.

The Committee also recommend that the County Solicitor be instructed to prepare a by law appointing an Inspector for West Luther in accordance with the resolution submitted to the Committee.

Moved in amendment by John I. Hobson, seconded by R. J. Black that the report of the Standing Committee on Legislation be referred back to the Committee with instructions to strike out that clause recommending the grant of $50 to the Minto Farmers' Drainage Scheme.

The yeas and nays were called for and are as follows:

Yeas—Anderson, Benham, Black, R. J., Black, H., Burt, Corbett, Cross, Gilmore, Hobson, Johnston, Kirkwood, Knott, Marshall, McEwing, McGowan, McManus, Mutrie, Rae, Reynolds, James, Reynolds, John, Robinson, Tolton, Wissler—23.

Nays—Coleman, Darroch, Foote, Gor-

gan, W. L., Gordon, H. B., Hampton, Howes, Long, O'Donnell, Powley, Robertson—11.

The amendment was consequently carried, and the report as amended passed.

On motion of Messrs. Mutrie and Hobson, the Clerk was instructed to advertise for the student for the County to be sent to the O. A. C. once in the MERCURY and *Herald*.

The Council then adjourned.

June 3.

Council met pursuant to adjournment, Warden in the chair. All the members present, except Anderson, Carbery, Hobson, McGowan and Powley.

SEVERAL MATTERS.

Moved by Mr. Howes, seconded by Mr. Reynolds, that the Finance Committee consider the advisability of granting the sum of $200 to the town line of Minto and Normanby, known as the Pike Lake Road. Carried.

Moved by Mr. Wissler, seconded by Mr. McEwing, that the County Solicitor's opinion be obtained at what time the Assessment Rolls can be closed to comply with our by-laws. Carried.

On motion of Mr. Nicoll, seconded by Mr. Rae, by-law was introduced to assess an equivalent to the Government grant in aid of Public Schools was read a third time and passed.

A reply was read from the County Clerk of Perth in reference to the Perth and Palmerston and Teviotdale road.

From the Clerk of the Legislative Assembly calling attention to a number of changes and amendments in reference to Municipal Laws.

Moved by Mr. Marshall, seconded by Mr. W. Gordon, that the by-law to reduce the Credit Valley Railway rate, be read the third time and passed. Carried.

Moved by Mr. Coleman, seconded by Mr. Murdock, that, whereas, the municipality of East Luther has been only notified by the municipality of West Luther to cause all obstructions to be removed from the stream known as the McKinley Creek, we would recommend that Mr. Peter Hansom, of the Township of West Luther, Damascus P. O., be appointed by this Council to inspect the same, and that the County Solicitor be instructed to draft a by-law for said purpose forthwith. Referred to Legislative Committee.

COUNTY PROPERTY.

Mr. Nicoll, chairman of the Standing Committee on County property, reported as follows:—

Your Committee beg leave to report and would recommend as follows:

That the account of F. B. Skinner & Co., for one chair for His Lordship Justice Ferguson, amounting to $1.50, be paid. Also that their account for furniture for the County Crown Attorney's office, be paid, except an item of $14.00, charged for two chairs, which your Committee consider unnecessary. Your Committee would further recommend and insist that County officials must order through your Committee, or the accounts cannot be entertained.

In reference to the communication of A. McKinnon, Master in Chancery, calling the attention of the Council to the state of the roof of his office, your Committee are fully persuaded that a new roof is necessary. We would, therefore, recommend that the gables be raised and the roof slated at an estimated cost of $360, and that your Committee be authorized to receive tenders for said work and have the same proceeded with as rapidly as possible. There are several repairs of a minor nature, such as repairing the kitchen floor and repainting the walls, etc., which your Committee would recommend to have done.

With reference to the account of John Anderson, Registrar of the North Riding, we recommend no action until vouchers are produced.

The following accounts were ordered to be paid: Chas. W. Reynolds, repairs on County buildings, $4 60; James W. Cosson, hauling wood and shovelling snow, $14.50.

After considerable discussion by Messrs Nicoll, Mutrie, Wissler, McManus and others in reference to a couple of chairs, the report was adopted.

The Council adjourned until two o'clock.

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S Petrie, Druggist.

John Ruskin was recently asked to approve of the objects of the Church of England Funeral Reform Association, which aims at doing away with the expensive mourning trappings that press so hard on many people when they are least able to bear it. He sent this characteristic reply to the Secretary of the Association: "I entirely approve of the object of the Funeral Reform Association; but if I could stop people from wasting their money while they were alive the might bury themselves how they liked for aught I care."

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsia, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1 00 bottles at Thomas S. Petrie's Drug Store.

OUR
Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A (No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE
THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS
Also, TRIMMINGS TO MATCH.

IRISH HOME RULE.

LONDON, June 3.—In the Commons this afternoon, Sir Michael Hicks-Beach, Conservative, pressed Mr Gladstone to fix a date for the division on the second reading of the Irish Home Rule Bill. Mr Labouchere, Radical, protested against the fixing of an early date, announcing that twenty-seven supporters of the measure desired to speak before the vote. Mr Bradlaugh, Radical, supported Mr Labouchere's protest. Mr Gladstone fixed Monday as the date of the division.

The Milwaukee Riots.

MILWAUKEE, June 3.—Fourteen additional arrests were made last evening in pursuance of the indictments of the Grand Jury having under consideration the recent labor riots. Of these two are charged with rioting. The others are held for conspiracy, the offence being boycotting. They are all Knights of Labor, and the entire District Executive Board is included, several of them being leading officers of labor unions. Judge Mallory fixed the bail at $1000 for the conspirators, and $5000 for the rioters. All the Knights of Labor secured bail.

Grand Orange Lodge.

TORONTO, June 4.—The loyalty resolution passed by the Grand Orange Lodge, British America, was yesterday cabled to friends in Ireland, and will be read in the Imperial Parliament. The following officers were elected: Grand Master, W. J. Parkhill; Deputy, N. Clarke, M. P.; Grand Chaplain, Rev. Rural Dean Cooper; Grand Secretary, Thomas Keyes; Grand Treasurer, Captain W. Anderson; Grand Director of Ceremonies, Wm. White; Grand Lecturer, James Evans. Belleville was selected as the next place of meeting. The time of meeting was changed till the last Tuesday in May.

Vancouver City.

Vancouver, the Canadian Pacific terminal city, is now big enough to support a daily newspaper, which is called the *Advertiser*, and announces that it is Liberal Conservative in politics. If the *Advertiser* is to be believe, Vancouver has a great future before it, and it will be a city in fact as well as in name before the summer is over. Extensive wharves, warehouses, workshops, rolling mills, and an immense railway depot will be constructed this summer, and the Canadian Pacific Company will permanently employ 2000 men in and about the city. Any one going to Vancouver with the intention of starting a hotel will not fill a long felt want, as the *Advertiser* states that there are already eight good hotels. Building operations are brisk, over one hundred and fifty substantial frame buildings have been erected during the past three months, and one business block, costing $15,000, and many others are in course of construction. One advantage Vancouver will have over Winnipeg; the climate is moderate in both winter and summer, and the greates coal mine on the Pacific coast is within forty miles of the city. Moreover, British Columbia being a great timber country the cost of buildings will probably be less. The *Advertiser* seems to be a pretty good daily newspaper for a small town, and no doubt it will improve as the city grows.

Horsford's Acid Phosphate.

Well Pleased.

Dr. C Roberts, Winchester, Ill., says: "I have used it with entire satisfaction in cases of debility from age or overwork, and in inebriates and dyspeptics, and am well pleased with its effects."

Guelph Conference.

GODERICH, June 3.—The morning session of Guelph Conference opened at 9 a. m., Rev. Dr. Griffin presiding. After devotional exercises the minutes of the previous session were read and confirmed.

The Rev. Mr. McDowell, the President, in opening the Conference, made the following remarks:—The liquor traffic, long a powerful obstacle to the advancement of truth and religion in these lands, is becoming increasingly distasteful to the masses of the community. The attitude of the Churches of Christ, respecting this burning question is one of the encouraging signs of the times. The people of God desire and pray that the legislation of this Dominion relating to this giant evil, may be the legislation of Prohibition—that it may be a crime to make and sell alcohol, except for medicinal and mechanical purposes.

The report of the Nominating Committee was read.

The settlement of the financial claim of Edward B. West, who retired from the ministry at his own request, was referred to the Superannuated Board.

Rev. Dr. Sutherland addressed the Conference upon the missionary work and upon the contemplated sustentation fund. Dr. Eby also addressed the Conference upon the work of the Church, present and prospective, in Japan. These brethren addressed a large and enthusiastic missionary meeting last night in connection with the Conference in speeches of rare ability and power, Dr. Griffin presiding with his characteristic grace and tact.

In the afternoon session the following probationers requested to be allowed to attend college:—J. B. Wallwin, James T. Legear, Henry Colwell, J. J. Crookshank, J. W. Frizzell, Edward H. Shaw, John F. McLaughlen.

The lay representatives elected by district meetings to the Conference Missionary Board are:—Thomas Hilliard, R W McKenzie, G Leamrage, George Sturgeon, J E Carson, R G Lambert, H H Perdue and J W Armstrong.

The following ministers were elected by the districts as members of the Sabbath School Committee:—A M Phillips, B D, David Rodgers, Thomas Gee, Wm. Smith, G Bergin, Charles V Lake, Joseph Edge and Walter Avery.

Conference adjourned at 4 p. m. to allow the various committees to meet.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is readily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. GOOD BYE BILLY.

Presentation of a Gold Watch to W. H. Brasbie.

The parlor at the Wellington Hotel last night was the scene of a very pleasant gathering, composed of most of the young men of the city, and a number of the leading business men. The occasion was the reason for the purpose of bidding farewell to Mr. W. H. Brasbie, who has lately been appointed to an important position in the employment of Messrs. Burns & Lewis, of London.

Mr. W. A. McLean, barrister, occupied the chair, and briefly referred to the popularity of Mr. Brasbie in the city, and the success that he had attained in situations here, his loss in soccial, athletic, and literary circles, and the confidence that all his friends had in his future success.

Mr. John Davidson then read the following address, numerously signed:

To Mr. W. H. Brasbie.

On behalf of your many friends in Guelph we congratulate you on the advancement you have made in life in securing the position you have lately received. The only regret that we have in your acceptance of this position is that it removes you from this city and from ourselves, where you have lived so many years and amongst whom you have made so many friends.

During the years that you have lived amongst us you have been successful as a business man, but you have also been noted for your social qualities, your untiring and active energy in behalf of everything connected with athletics, and your deep interest in all literary pursuits.

In leaving this city in which you have lived for so many years, your friends feel that it is a deep personal loss to them, but in the end will be a permanent benefit to yourself.

We congratulate your employers in securing one so industrious and efficient as yourself and believe they will never regret the trust they have placed in you.

Wishing you every success and every happiness in the change you have made in life we would ask your acceptance of this watch as a more tangible token of our esteem, and we subscribe ourselves your friends.

After reading the address Mr. Jones presented him with handsome gold watch.

Mr. Brasbie in replying said that he did not know that he had ever done anything that entitled him to such a handsome present. His happiest days had been spent in Guelph amongst the companions that he saw around him, and no matter where he would go or what success would attend him, he did not think he would be ever better pleased than with his lot in Guelph. He had not sought the position which had been given him, but on it being offered to him, as it was an advancement in life he thought it was his duty to accept it. He referred to the kindness that had been shown him by every one in their endeavors to assist him after procuring the situation. He considered this evening one of the bright spots of his life, and although leaving Guelph he would always remember his many kind friends in it and would never forget their esteem for him when looking at the fine testimonial he had received at their hands.

Messrs. McMillan, Randall, Stewart, McCormack, Anderson, Griffin and a number of others present made suitable speeches as to the loss Mr. Brasbie's friends would sustain in his removal and wishing him success for the future.

A number of songs enlivened the evening's entertainment, and suitable toasts were proposed and duly honored. All departed feeling that Mr. Brasbie's place amongst the young men of this city would not be easily filled, and confident that he would soon be as popular and as highly esteemed in his new home in London as he had been in Guelph.

Showers and Cool Weather.

The Probabilities.—Moderate to fresh south and south-west winds, mostly fair warm weather to-day; local showers this evening followed by cooler northerly winds.

THE Concert Committee of the Caledonian Society held a meeting last night, when it was decided to adjourn until Tuesday evening.

THE rumor that the Wellington Hotel had been sold to another party last evening is without foundation. Mr. Spragge has the sole control of the establishment yet.

THE attention of the authorities is called to the number of cows that are to be seen roaming about the streets in the vicinity of the G. T. R. and G. W. R. freight stations.

SAM. BITTER, the champion light weight slugger of Canada, passed through the city this morning. He was on his way to Galt. His face yet bears the marks of his recent encounter with Gilmour.

LAST night the City Band performed a fine selection of music on the Market square band stand. A large audience listened to the performance and were highly pleased with the programme.

THE United States Presidents' wives now living are Mrs. Polk, at Nashville; Mrs. John Tyler, at Richmond; Mrs. Grant, in New Jersey; Mrs. Hayes, in Fremont, and Mrs. Garfield, in Cleveland. Of these Mrs. Polk, Mrs. Tyler and Mrs. Garfield draw the Government pensions of $5,000 a year.

YESTERDAY afternoon as a number of young boys were fishing in the vicinity of Presant's dam, one of them fell in. A companion seeing the mishap jumped in and rescued the boy, who was more scared than hurt from his ducking. The two youths started home like a pair of half drowned rats.

MR. JOHN KILPATRICK, for many years the well known and obliging clerk of the Royal hotel, has bought Ross' hotel, Owen Sound, near the wharf, and will take possession next week. The baggage business and show rooms of the defunct Royal will be carried on Mr. Thomas Morris.

MARKETS.—The market this morning was brisk and a large quantity of produce was offered for sale and was eagerly bought up at 18c to 22c per lb. In the dairy products butter brought from 10c to 14c per lb., and eggs took a rise from 10c to 11c per dozen. The green grocers and flower market was well supplied.

A REFLECTION OF FIRE.—Last night a reflection of fire was noticed by some persons in the city in the direction of the O. A. C., and they rung up the fire alarm which was quickly attended to. On communicating with the college authorities the reply was that it was not near the college. This morning it was ascertained that the fire was on the farm of Mr. Yates, Puslinch, whose employees were engaged in burning up a quantity of brush.

KNOCKED OVER.—This morning W. Coughlin, conductor of the Wellington Hotel baggage wagon, narrowly escaped being injured by being thrown out of the wagon when backing in to the sidewalk with a load of commercial trunks. The wagon coming in contact with the sidewalk threw off the trunks, and one of them striking the conductor threw him against the side of the hotel, which rather astonished him. Happily he was not injured.

MADDEN v ARTHUR.—This case tried at the recent assizes in Guelph came up before the Queen's bench Divisional Court in Toronto on Friday. Osler, Q. C., for defendants, moved absolute an order nisi to set aside plaintiff's verdict for $2,00 in an action of negligence, tried at Guelph, and to dismiss the action, for a new trial. J. K. Kerr, Q. C., for plaintiff, showed cause. Reserved.

THE GOVERNMENT BARNS.—Mr. F. W. Schwendimann, of Drayton, framer and builder, has been awarded the contract for the erection of the barns at the Ontario Experimental Farm. Mr. Schwendimann has made arrangements to commence work immediately so as to have the buildings ready in the fall. He is an experienced framer and barn builder and as he has a great deal of energy and push he will be sure to make a good job and finish the contract within the time specified. We understand the contract price is in the neighborhood of 1$5,000.

RUN INTO.—Yesterday afternoon Mr. Wm. Wardrope and a friend went out for a drive. When near Hamilton's hotel they met George Patterson, (the notorious George) who on ascertaining who were in the buggy commenced uttering some fearful oaths and flourishing his whip. Mr. Wardrope turned to the side of the road to allow him to pass, but Patterson managed to drive so close as to strike the hub of one of the wheels. After he had passed he turned around again and drove into the buggy, smashing it and causing the occupants to be thrown into the ditch. The horse freed itself from the conveyance and started off. Fortunately neither Mr. Wardrope nor his companian were much injured, but the result might have been serious. A Police Court case will arise out of the occurrence.

THE ONTARIO AGRICULTURAL COLLEGE.—The Montreal *Journal of Commerce* says: The continued success of the Ontario Agricultural College, at Guelph, augurs well for improved methods of agriculture, not only in Ontario, but throughout the Dominion as well. In connection with the recent agitation for an improvement in the quality of Canadian butter, which has been sadly neglected, old methods having been adhered to in many sections, the College has evidently succeeded in setting a good example, shipments having reached 60,000 pounds last year, commanding the highest price and receiving the praise of both Canadian exporters and English buyers. The success of the College is due in a great measure to an enterprising staff of officers, under the superintendence and management of William Brown, Esq., C. E., F. L. S., professor of agriculture and arboriculture. The College has been enlarged from time to time, and has now a most impressive appearance both from the Brock Road and the Grand Trunk Railway. Improvements are being continually made on the farm of 550 acres, which comprises nearly every variety of soil. The number of students is about 190, and the course for their instruction is rigidly useful and practical. In the live stock department is a bull purchased from the Queen's herd at a cost of $7,000.

THE County Council finished their sitting at half-past ten o'clock this forenoon.

THERE was a large number of people in the city to-day.

MR. John Kelzenmeyer, representing the Lamson Merner agricultural implement manufactory, New Hamburg, is in the city to-day ordering malleable works for their machinery from Murchy & Co., Guelph.

MR. NICHOLAS NORRISH, Nassagaweya, yesterday afternoon raised a large frame barn. There were about one hundred people present and all were most hospitably entertained. No accident occurred to mar the pleasure of the raising.

A GANDER THAT IS A GOOSE.—Mr. James Beattie, Ennotville, has a gander which has a proclivity to play the goose. Recently he commenced making a nest, and the owner went and purchased three eggs and set them under the gander at the same time, thinking it was a goose. The bird faithfully sat on them and hatched three goslings, which he attended to with all the care of a mother.

THE Presbyterian Churches in this city have arranged to hold a Union service in Knox Church to-morrow (Sabbath) evening at 7 o'clock, when the Rev. Hugh McKay, missionary to the Northwest Indians, will preach and give an address on the power of the Bible teachings on the Indians as exemplified by those under his charge during the rebellion last year. A collection in aid of said mission will be taken up at the close. d1.

GUELPH SCIENTIFIC SOCIETY.—The regular monthey meeting of the above society will be held on Tuesday evening next, at eight o'clock, in the Congregational church basement, at which a most interesting and instructive paper on "The wild flowers of Guelph in the month of May" will be given. It is written by an earnest local botanist, whose name will then be given, and will be read by Prof. Panton. All members who have paid their fees can also secure their membership tickets on that evening and a large attendance is hoped for. All cordially invited.

ORANGE EXCURSION.—Yesterday Messrs. Wm. Chenery, ex-Alderman Bell, Capt. McSpadden, Robt. Hodgins, Robt. Downard, and George McSpadden, Toronto, delegates for the Western District Orangemen, were in the city making arrangements to have a grand excursion of Lodges belonging to the Western District to Guelph on the 1st of July. They succeeded in securing the Exhibition grounds for the occasion. They intimate that not less than 800 or 1,000 excursionists will visit Guelph on that day, and will arrive in time to witness the game between the Utica and Maple Leafs.

A GRAND OLD AGE.—Thursday, the 3rd inst., was the 90th anniversary of the birth af Mr. James Laidlaw, sen., father of Rev. R. J. Laidlaw, of Hamilton. Father and son spent the day happily together at the home of the former in Georgetown. Mr. Laidlaw left Scotland on his 21st birthday, in 1817—69 years ago yesterday. He arrived at St. John, N. B., on the 21st of August, and after spending some time as a teacher at Economy, Nova Scotia, he came west to the township of Esquesing, Halton county, in 1820, and has resided there during the past 66 years. The venerable gentleman is in fair health and has the use of all his faculties.

COUNTY JUDGES CRIMINAL COURT.—The case against George Morrison for the fraudulent disposal of nine seed drills by Messrs. Morrison & Boothroyd, of this city, to Simpson Merner, of New Hamburg, in which the late W. F. Dingle, of Oshawa, claimed an interest, came up for trial before His Honor Judge Drew, today. Mr. Peterson, County Crown Attorney, appeared for the Crown, and Mr. Watt for the private prosecutor; A. H. Macdonald and A. Mowat appeared for Morrison. The Crown asked for a postponement of the case until Monday in order to enable certain witnesses to appear for the prosecution. After considerable argument by Counsel His Honor decided that upon the legal aspect of the contract between Morrison & Boothroyd and Mr. Dingle, independent of any evidence that might be offered, the charge could not be sustained against Mr. Morrison, and dismissed the case accordingly.

Not a Whiskey Spy.

To the Editor of the Mercury.

DEAR SIR.—There is a rumor around the city that I am employed as a whisker spy, and I wish to inform the public than I am not, and that I would not accept any such a position.

Yours Respectfully,
MATTHEW HODGSON.

Guelph June 4th.

DEATH OF THE OLDEST COMPOSITOR IN THE KINGDOM.—Mr. Andrew Aimers, supposed to be the oldest compositor in the kingdom, died in Edinburgh lately. His indenture is dated 1807, and he only retired from work in the Messrs. Constable's about two years ago, after having been a compositor for 72 years. He was long in the employment of Mr. Ballantyne, the friend of Sir Walter Scott, and assisted in setting up the Waverly novels. He was one of those who kept the secret of the authorship carefully, and was 86 years of age.

President Cleveland is just 28 years older than his new-made wife. He is 50 and she is 22. They must look more like father and daughter than husband and wife.

Pain Killer.—The testimonials borne to the efficacy of this valuable medicine are sufficient to warrant its introduction into every house. Our own opinion is that no family should be without a bottle of it a single hour. In flesh wounds aches, pains, &c., it is the most effectual remedy we know of. A bottle will last for a very long time, and its low price places it within the reach of all.—*News, St. John's, C. E.*

Mineral Poison.

Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for colds, coughs, bronchitis, croup, asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances avoided, which renders it safe for children or adults. Sold at 25c. and $1.00 per bottle at Thomas S. Petrie's Drug Store

BASEBALL.

The Maple Leafs had no trouble to dispose of the Windsors yesterday, the score being 18 to 2. Zell and Dillon were the battery for the Leafs and did great work, only one hit being made of Zell.

	R.	B. H.	E.

SCOTT ACT CASES.

Wm. Holliday and John McAteer Charged with Violating the Act.

Two cases of violation of the Scott Act were before the Police Magistrate this morning, namely, Wm. Holliday and John McAteer. The case against Holliday was taken up first. Mr. Guthrie, Q.C., appeared for the prosecution, and Mr. Coffee for the defence.

The first witness called for the prosecution was Isaac Smith. He said that on Saturday, the 29th of May, he was at Holliday's brewery; saw John Flaherty, Dillon, and two or three others there; was not over a quarter of an hour there; the door was open; had no pass word; went there for a drink of beer and got it; don't know whether it was stock ale or beer, but I thought it was good; did not see Holliday serving beer, nor don't know who gave me the cupful of beer as it was dark; asked nobody for beer nor didn't hear anyone ask for it; saw no money paid for it; was not speaking to Wm. Holliday at all; could not say whether I had three or four drinks; there would be a minute between each cupful; could not see what the cup was filled out of; there was a dim light from a lantern; when I emptied the cup I handed it back and did not see who took it from me; I have not paid for beer since April; I went with the intention of trying to get a drink; I came away alone, and while there I don't know whether the others drank or not; I saw none of the Holliday's there except William, never saw Holliday since till this morning and was not speaking to him about the case; was talking with my own crowd and heard no one order the beer; when I got the beer I thought somebody was very good to me, but I don't know nor can I think who gave me the beer; Flaherty and Hussey and I were standing around a large tub; could not say who took the cup from me after I had finished drinking; got a touch on the shoulder when the cup came around and I held out my hand; handed the cup back the same way, and when I thought it was full held out my hand again; can't say whether I saw Holliday before I went away or when I came in; I touched nobody when I held out my hand; supposed they saw my hand; can't say whether I had six or seven drinks, could not have had ten or twelve.

The case was adjourned to two o'clock. The case of John McAteer was then brought up. Inspector Cowan was sworn. He said that on fair day he was in the Albion hotel in the afternoon; I went into the bar room; the place was furnished the same as it was when McAteer was licensed to sell intoxicating liquor; there were quite a number of bottles on the shelves; the beer pumps were there; cannot say whether he was there or not; there were also a number of glasses the same as if he had a license; on Wednesday there were a number of men at the bar when I went in; three of them were standing at the bar; Mr. McAteer was behind the bar; there was a number of glasses on the counter; when I went forward Mr. McAteer gathered the glasses together to put them in the tray under the counter; I reached forward and got one of the glasses before he got them away; the one I got had very little liquor in it; tasted the contents and it was whiskey by its taste; I have no doubt it was intoxicating liquor both by taste and smell; the glass was one of those standing by the men; I set the glass down on the counter; don't know what McAteer did with it; I told him there was whiskey in the glass; am satisfied that it was whiskey and could swear to it.

On cross-examination Mr. Cowan said that he had his instructions as inspector from the Local Government.

John McAteer, sworn said:—I keep the Albion hotel; remember Mr. Cowan being in my place; did not sell any liquor on that day; nobody on that day sold liquor to my knowledge in my house; have sold no liquor since the first of May; have had a little liquor for my own use; have given no liquor to my boarders nor to any other parties to their meals since the Scott Act came in force; have taken people in my private room and treated them as a friend as any other private citizen would do; had taken a drink myself in the morning in the dining-room; the glass that Mr. Cowan took up was one that I must have had in the dining-room; no person in my house sold any liquor on that day.

Mr. Robert Scott, sworn—I live in Puslinch; was in McAteer's hotel on fair day; remember Mr. Cowan coming in and saw him test the glass; did not have any liquor of any description; did not see any liquor at all; have got liquor given to me gratis; got a drink one day before I got my dinner; it was given to me in the dining room; have been at McAteer's on several occasions and have had no liquor given me.

On cross-examination by Mr. O'Connor witness said—"I have no further recollection to the date when I got the liquor.

The case was dismissed without costs. Mr. Guthrie, Q. C., prosecuted, and Mr. O'Connor defended the case.

Heavy Defalcation.

LONDON, Ont., June 4.—A capias for the arrest of Alfred Finnemore, cheese buyer, was issued yesterday afternoon at the instance of the Manager of the Canadian Bank of Commerce here. To-day it was generally rumoured that Finnemore had fled. It is stated that he is indebted to the Bank of Commerce to the extent of about $23,000. He mortgaged his property in London South, a couple of days ago, for $12,000 cash, which he is believed to have taken away with him.

A Cowardly Attack.

BELFAST, June 4.—Two thousand Orange workmen, employed at the Queen's Island ship yards, attacked a hundred Catholic navvies to-day, badly beat them and drove them into the water. Thirty navvies were badly injured, twelve having to be taken to the hospital, and one, a youth named James Curran, drowned. He was the sole support of a widowed mother. Great excitement prevails and a repetition of the rioting is expected.

Scott Act Tests.

TORONTO, June 5.—Mr. John O'Meara, counsel for eight hotel keepers of Peterboro', at Osgoode Hall yesterday applied in the cases Queen v. Daly and seven others for writs of *certiorari* to test the local Police Magistrate's conviction of defendants. The ground taken was that defendants were obliged to answer questions criminating themselves; that the order in council declaring the Act in force in the county was prematurely signed; and that in consequence the Act is not yet in force there. The writs were granted and will be argued next week.

COUNTY COUNCIL.

June 4th.

The Council resumed at 10 o'clock, all the members present, the Warden presiding. After the usual reading of the minutes business was resumed.

PETITION.

A petition was presented, signed by W. H. Lowes and thirty-five other electors of the village of Fergus, requesting the County Council at its present session to apportion funds sufficient for a salary for the Police Magistrate of the above village. Referred to Finance Committee.

BY-LAWS.

Moved by Mr. Hampton, seconded by Mr. Coleman, that a by-law be introduced to appoint an inspector to remove obstructions in McKinley's creek, and that the same be read a first and second time. Carried.

The by-law was accordingly read, and mentioned Peter Hansom to be appointed inspector.

On motion of Mr. Mutrie the by-law for extending the time of the sale of non-resident taxes was read a third time and passed.

The County Solicitor's (Mr. D. Guthrie, Q.C.,) opinion was read in regard to the time at which the assessment rolls can be closed in compliance with the provisions of the by-laws of the county. In his opinion the time for closing the Courts of Revision is six weeks from the 1st day of July in the municipalities to which the by-law may apply.

Moved by Mr. Rae, seconded by Mr. Nichol, in amendment, that the report of the Standing Committee on Finance be not adopted, but be referred back to the Committee and amended by inserting the sum of $500, to aid in providing necessary accomodation for the Provincial Exhibition to be held in the City of Guelph this fall.

Mr. Hobson in presenting the report of the Finance Commmittee, said that there were some things which he did not agree to.

NO GRANT TO THE PROVINCIAL.

Mr. Rae in moving the motion pointed out that other places where the Provincial Exhibition had been held were in the habit of giving $1,000 towards it. He considered the sum asked for was small and was nothing compared with the benefits that the farmers in this locality would receive in learning lessons from the various exhibits which would be shown. The farmers of the County would be especially benefitted by the exhibition being held in the County, and he thought that they would not begrudge the small sum of $500.

Mr. Wissler spoke against the amendment. $500 had been asked for the Provincial, $500 was asked for this, $600 and $100 for something else, and where was a stop to be made. The ratepayers were becoming disgusted with this sort of thing. He would recommend that it be referred, to ask the Provincial Exhibition authorities to adjourn the exhibition until next year, when the Council, after the $10,000 debentures had been paid off, might be in a position to offer $1,000 or even $5,000 or $6,000 towards it.

Mr. Hobson said that he agreed with the remarks made by the Deputy Reeve of Puslinch. He thought that it was a little below the dignity of the Reeve of Nichol, and not in accordance with the dignity of this Council that he had on several occasions, turned some of the most important matters which had come before it into ridicule. He thought the Provincial was a great and important factor in the agricultural interests and would benefit the county at large, and it was only but right and fair that the people of the county should make a small grant. The benefits to be derived would be far more than the expense of the outlay, and would recoup the farmers many times over. The Provincial Exhibition was especially designed for the instruction of the farmers, and those who controlled it had kept aloof from getting up sensational attractions, which were too frequented at many of the exhibitions nowadays, and tended to draw away the interest of the people from things which would be profitable for them to examine. It was but right that the Council should give some little assistance to the Provincial when it was taken into consideration that the return was far more than the value of the money.

Mr. Wissler objected to the remark made by Mr. Hobson that he turned important matters into ridicule. Because he was a good natured man and spoke occasionally with a smile on his face that was no reason why he should be insincere. What he had said he had meant. He was not only a representative of the township of Nichol but also of the County Council and desired to do what was right. He requested Mr. Hobson to withdraw the remark.

Mr. Hobson said he would not, as he considered Mr. Wissler's speech a burlesque.

Mr. Wissler said that it was not.

Further remarks were made by Mr. Wissler, and order was called.

Mr. J. Robertson said that it was a strange thing that the Provincial Exhibition required assistance from every place it went to. He thought that if affairs were properly managed the Association should be able to pay its way the same as other exhibitions. Toronto, Hamilton and even the town of Walkerton held successful exhibitions and asked for no grant. He thought there was something radically wrong when an institution of this kind which received a large grant from the Government had to receive a grant of $500. The speaker held that the local shows were of more importance and greater benefit derived from them. Toronto could be reached from Harriston at as cheap a rate as Guelph and there were more attractions, and if the people came to Guelph, there was one thing sure that they would be neither robbed or starved.

Messrs. Cross and Darroch spoke against the amendment, after which it was put and lost, only nine voting for it.

The Council then adjourned.

Got His Deserts.

Buddensiek, the New York man who built houses with mud mortar, which tumbled down and buried their inmates alive, has at length been sent to the penitentiary. He was rich and influential, and managed to get out on bail while his counsel moved every possible lever to secure a stay of proceedings and a new trial. The former was obtained, but the Court of Appeal has decided that the conviction must stand, and so Buddensiek goes to Sing Sing for ten years—a warning to every contractor who may be tempted to cheat the public.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism. Sold at 25c a bottle by Thos. S. Petrie, Druggist

The Evening Mercury

SATURDAY EVE'G JUNE 5, 1886.

A Niggardly Action.

The Wellington County Council have once more shown the people of Ontario just what niggardly stuff they are made of. They did it in the same way once before and had their meanness rubbed into them by nearly every newspaper in the Province. There is, however, no doubt a stage of niggardliness which may be reached where regard ceases to be paid to the opinion of others, and such a point the Wellington County Council appear to have arrived at. There is something in their refusal to make a grant towards the Provincial Exhibition which is extremely beggarly. The farmers of the County certainly reap most of the benefits from the show being held in their midst. They not only possess a peculiar advantage over city folk in deriving practical lessons from an examination of the exhibits, which are chiefly of an agricultural character, but they carry off the great bulk of the profits in the shape of prize money. Yet the representatives of these farmers decline to bear any part of the expense and leave the people of Guelph to do the whole thing themselves. It was ever thus. The townsfolk get up shows at their own expense and have the doubtful satisfaction of seeing their money go into the pockets of the farmers, who as a rule are content to take it and withhold their own assistance. But this will not always last. The people of Guelph are already nearly tired of it, and in future will be more than ever loth to contribute for such purposes. Of course they do not forget that the reeves and deputies of Eramosa, Guelph Township and Puslinch and Pilkington maintained by voice and vote the justice of the city's claim. As for the sneering remarks of the Reeve of Harriston they are scarcely worthy of notice. We do not think the people of Guelph would regret his absence if the Harristonians decided to leave him at home. As for the probability of himself or any one else starving here, let the Guelph hotel-keeper who feeds him during his periodical visits judge whether he does not succeed in his efforts to eat his money's worth at every meal. He will be more likely to starve at home than here.

Is this Correct?

It appears from a letter published by Mr. R. Montgomery, late County Master of South Frontenac that the Orange Order is not so zealous in protecting Protestantism as in advancing the cause of a political party. Mr. Montgomery writes thus: "It is better that the corrupt thing should die than live, for out of its ashes the Order in its purity may possibly arise again. I found the Order prostituted and perverted by political adventurers, who wished to use it to lift themselves into position and power. I always have been, and still am, true to the principles of Orangeism, but I have discovered that it is easier to live up to those principles outside the Order, as at present constituted, than in it, for so far as the practice of those principles is concerned, the Orange Society, as such, has become only a sounding brass or a tinkling cymbal. Orangemen who care nothing for principles burst forth into fiery eloquence and frenzied zeal until they secure what they are after, and then they become as mute and indolent as the Fat Boy in Pickwick. Look at those who have climbed into position over the shoulders of their fellow-Orangemen and see how little they care now for the interests of the Order. It has served their turn and it is now cast aside like a old shoe. I found that others were using the Order in the same way as a convenient ladder, and that fidelity to its principles was nothing, but that blind zeal for a political party was everything. I exerted my humble influence sincerely to check this perversion of the Order, but I saw it was in vain, so I stepped aside and let the corrupt current sweep on to what I plainly see is its certain destruction. I regret that many honest and true men still continue to be the dupes and tools of the schemers who pull the strings of the Order.

DR. GILMOUR, of West Toronto Junction, has been nominated to contest the representation of West York with Clark Wallace, the sitting member. The doctor is an able young Liberal, and will make a good run, judging by the enthusiasm which prevailed at the Convention.

The largest convention of Reformers ever held in North Bruce took place at Tara on Friday, when nominations were made for the House of Commons and Local Legislature. There were two nominotions for the Commons, Dr. Bonnar, of Chesley, and Mr. B. B. Miller, of Wiarton. The former received a majority of the votes and his choice was made unanimous. Mr. J. M. Kilgour was chosen to contest the riding for the Legislature.

THE *Globe* says:—There is a lesson for Reformers everywhere in the developments at the final revision of the Dominion voters' list for Erin Township, in South Wellington. Out of a total of forty-nine names added by the Conservatives, all but twelve were proved to be those of persons without proper qualification and were struck off. The net gain to Reformers at the final count was forty-five. Wherever Liberals do their duty faithfully similar results may be expected. The classes to whom the franchise has been extended are overwhelmingly in sympathy with the Reform party, and if an honest voters' list can be secured the result of the extension must seriously weaken the Tory position. The case of Erin shows to what an extent the lists have been fraudulently stuffed by bogus Tory votes, and indicates clearly the use to which the Tory Union's "Jesuitical" declarations have been put, and by what shameful means it is hoped to carry the next elections. The plot cannot succeed if, as in Erin, Reformers do their whole duty, and it may be well to point out, in view of the results of the final revision at Erin, how absurd is the contention that the Dominion Franchise Act gives practical manhood suffrage, and how enormous is the cost and inconvenience involved in the operations of the Act. At the Erin court there were six counsel and about 150 persons interested in the appeals. The cost of this court alone, counting the value of the time wasted, would reach the near neighborhood of $500. Then it will be borne in mind that similar courts must be held in every municipality in the riding, and in every riding in the Dominion, and that hundreds of thousands of dollars have been wasted in previous work on the lists. It is all a huge and scandalous imposition upon a free people.

No better evidence of the spendthrift character of the Dominion Government can be had than that furnished by the manner in which they voted concurrence in the estimates during the last minutes of the session. It took just ninety minutes to vote away thirty-three million dollars of the people's money. And the Senate even surpassed this record. It voted the whole Supply Bill in three or four minutes. The Ottawa *Free Press* says: In the Commons the items were simply concurred in by numbers; and the nature of the grant was not even read in English much less in French. Both parliaments voted the sums blind. Such haste is disgraceful. It reduces to a farce all the safeguards for prudent and economical expenditure thrown around the passing of the supplies through a number of stages! Although the huge taxes of Canada were being voted away at the rate of $1,033,333 per minute, yet the signs of impatience and the cries of dissent whenever any Liberal member appeared desirous of interposing a word, showed that the majority did not think the money was going fast enough." Surely such recklessness must open the eyes of the people and rouse them to demand a change of Government.

AFTER all the unprincipled greed manifested by "the boy" Beaty he has been fooled out of the Northwest Central Railway charter. The Government have notified him that his deposit in connection therewith is insufficient, and that a new company will have to be incorporated to build the road. Of course Mr. Beaty will feel very bad about this, but it serves him right. Mr. Woodworth has offered to form a company to build the railway and the Government have also received proposals from another Syndicate organized by Mr. Macdonald, the former contractor for the Souris & Rocky Mountain Railway.

CERTAIN members of the C. P. R. Syndicate some time ago presented Lady Macdonald with a diamond necklace worth £5,000. Now it appears that they have been extending their generosity to the Macdonald family, having presented Sir John's invalid daughter with $250,000 worth of Railway bonds. Let the public judge whether the acceptance of favors like these are compatible with the proper discharge of the duties of a Minister of the Crown.

The Tichborne Claimant.

Arthur Orton, or as he is pleased to call himself "Sir Roger Charles Doughty Tichborne," has arrived at New York. He will tscture through the country on the great injury he sustained in being deprived, by law, of an estate worth $120,000 a year. "The Claimant" has still some consolation in the fact that he is making a good income out of exhibiting himself. He had only been in New York city a couple of hours when a dime museum owner offered him $200 a week to pose in his establishment.

A Queer Divorce.

The queerest divorce case is reported at Cleveland. Mrs. Elmira Huxley, who had been reared in the country, lived happily with her husband until she became discontented with city life and pined for the rural scenes to which she had been accustomed. She could not accustom herself to "buying butter by the pound and potatoes by the peck," so she went where she could dig her own potatoes and churn her own butter, and Mr. Huxley went before the court and obtained a divorce.

The Telephone suit.

After a trial of several months' duration the Bell Telephone Company has defeated the National Improved Telephone Company, the latter being charged with infringing the Bell patents. The suit was heard at New Orleans, with the result that the Bell patent has been sustained, the court deciding that the action of the executive department of the United States Government in instituting a suit to annul the patent did not affect the case on trial, as the matter was one purely for the courts. The court decided that the National Company did not anticipate the invention of Bell, leaving only the question of infringement to be adjudicated upon. The injunction was accordingly issued against the National Improved Telephone Company.

American.

James Garbutt, of Minto, Walsh county, Dakota, barrister, has been appointed a Commissioner for taking affidavits in Dakota for use in the courts of Ontario.

Out of 3000 graduates last year from various colleges in the United States 500 became ministers, 500 doctors, 100 merchants and 1900 baseball players.

Canadian.

The managers of the Kingston and Pembroke Railway have placed $1,000 insurance on each of their employees.

The business failures occurring throughout the country during the last seven days numbered for the United States 160, and for Canada 27, or a total or 187, compared with 181 last week and 167 the week previous.

The Quebec Government has propounded a railway scheme almost identical with that of the Dominion Government.

Middlesex County Council on Friday refused to agree to the appointment of a Police Magistrate to enforce the Scott Act.

Toronto second-hand dealers have formed an Association, with the view of resisting the imposition of a license.

The coal drivers in the employ of Patrick Burns, Toronto, are on strike.

The Toronto dry goods clerks have formed an Association with the object of having the stores closed at six o'clock on Saturday evenings.

The law of the land forbids the Canadian Pacific to discriminate in favor of Montreal and against Western Ontario. But Parliament, which made the law, can repeal it, and the Canadian Pacific rules Parliament through Sir John Macdonald. Had Sir John not been careful to subsidize the Tory press and most of the Tory members of Parliament, his contemplated sacrifice of Ontario's interests might make immediate trouble for him. As it is, the electors will have to inflict the punishment.

PERRY DAVIS'

PAIN-KILLER

IS RECOMMENDED BY

Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.

TAKEN INTERNALLY MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A SURE RELIEF AND CURE FOR

SUDDEN COLDS, CHILLS, CONGESTION OR STOPPAGE OF CIRCULATION, CRAMPS, PAINS IN THE STOMACH, SUMMER AND BOWEL COMPLAINTS, SORE THROAT, &c.

APPLIED EXTERNALLY,

EXPERIENCE HAS PROVEN IT THE MOST POWERFUL AND BEST LINIMENT ON EARTH IN REMOVING THE PAIN ARISING FROM

SPRAINS, BRUISES, RHEUMATISM, NEURALGIA, SWELLED FACE, TOOTHACHE, BURNS, FROST BITES, &c., &c.

25cts. per Bottle.

Beware of Imitations.

BEWARE OF COUNTERFEITS.

MURRAY & LANMAN'S CELEBRATED Florida Water.

The Universal Perfume. FOR THE HANDKERCHIEF, THE TOILET AND THE BATH.

CAMPBELL'S TONIC ELIXIR

This agreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system, and usually accompanied by Pallor, Weakness and Palpitation of the Heart. Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion. For Impoverished Blood, Loss of Appetite, Despondency, and in all cases where an EFFECTIVE and CERTAIN STIMULANT is required, the ELIXIR will be found INVALUABLE.

Price $1 per Bottle or Six Bottles for $5

Sold by all Dealers in Medicines.

DAVIS & LAWRENCE CO. (Limited)

SOLE AGENTS, MONTREAL, P.Q.

ALLEN'S LUNG BALSAM

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy,—**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes,

Price 25c., 50c., and $1 per Bottle.

The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

Foreign.

The English blockading fleet has been ordered to withdraw from Greek waters.

The Highland Reform League, at a meeting held at Glasgow, adopted resolutions favoring Home Rule for Scotland and the establishment of a separate Scotch legislature.

The Queen of Spain has given the sword of the late King Alfonse to the Royal Escort Horse Guards of Madrid, having had inscribed on it, "Guard the sword of him you guarded in life."

Princess Louise gave a garden party on Friday evening in the grounds of Kensington Palace for the entertainment of the Colonists attending the Colonial and Indian Exhibition. A number of prominent Canadians were present as guests.

Egypt has a college that was 900 years old when Oxford was founded, and in which 10,000 students are now being educated, who will some day go forth as missionaries to spread the Moslem faith.

THE Town Council of Edinburgh has just paid an expert ten guineas to examine a discrepancy of three shillings in a paving contract.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

"Why are you walking so quickly ma?" cried a bright eyed little maiden of five years to her beloved parent. "I am going to Hughes' sale; everybody in Guelph is there," replied the anxious mother.

Green Lettuce, Radishes and Onions, Choice Fruits and a fine selection of Flowering Plants, at George Williams', 81 and 83 Upper Wyndham St.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synonym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisement the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

TO THE PUBLIC.

Thanks once more for complying with our first request for $15,000 by the 1st June, the time is just up, and we have received more than the required amount. We still want

$14,000 by the 17th June,

$15,000 by the 1st July.

We continue our

GREAT SALE

till we have raised these amounts.

We consider that an Explanation is due the PUBLIC.

Mr. J. D. WILLIAMSON sails on the 4th June for the British and Continental Markets to purchase fall goods. Our intentions are to pay for all our goods as we buy them, and thus take the discount. Our sales during the first five months of this year have been such as to warrant our importing $75,000 worth. We still want $29,000 to make up that total.

Come,

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our **genuine Coraline**, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

THE KNIGHTS' CONVENTION

Resolutions Addressed to Kindred Organizations and the Public.

CLEVELAND, June 3.—This morning's session of the General Assembly of the K. of L. was occupied in completing the election of the number of members required on the Auxiliary Board of the body. Among the most important resolutions adopted at the afternoon session were the following, the first being addressed to all the labour organizations outside of the Order, and the second to the public and to certain newspapers which published fabricated accounts of what was transpiring:—

BROTHERS IN THE CAUSE OF LABOUR.

We, the Knights of Labour (in General Assembly convened), extend our heartiest greeting to all branches of honourable toil, welcoming them to the most friendly alliance in a common work. This organization embraces within its folds all branches of honourable toil and conditions of men, without respect to trade, occupation, sex, creed, colour or nationality. We seek to raise the level of wages and reduce the hours of labor, to protect men and women in their occupations, in their lives and limbs, and in their rights as citizens. We seek also to secure such legislation as shall tend to prevent the unjust accumulation of wealth, to restrict the powers of monopolies and coroprations, and to enact such wise and beneficent legislation as shall promote evuity and justice, looking forward to the day when the co-operative shall supersede the wage system and the castes and classes that now divide men shall be forever abolished. We recognize the service rendered to humanity and the cause of labour by trade union organizations, but believe that the time has come, or is fast approaching, when all who earn their bread by the sweat of their brow shall be enrolled under one general head, as we are controlled by one common law—the law of our necessity, and we will gladly welcome to our ranks, or to protection under our banner, any organization requesting admission, and to such organizations as believe that their craftsmen are better protected under their present form of government we pledge ourselves as members of the great army of labour to co-operate with them in every honourable effort to achieve the success which we are unitedly organized to attain. To this end we have appointed a special committee to confer with a like committee of any national or international trades union which shall desire to confer with us on the settlement of any difficulties that may occur between the members of the several organizations. We have received a communication from a committee of the national officers of some of the national and international trades unions, requesting certain specific legislation at our hands, but as we believe that the object sought and stated in the preamble to the communication above referred to can best be accomplished by a conference between a committee of this association and a committee of any other organization, and as the propositions contained therein are inconsistent with our duty to our members, we therefore defer action upon them until a conference of such committees can be had. The basis upon which we believe an agreement can be reached would necessarily include the adoption of some plan by which all labour organizations could be protected from unfair men, men expelled, suspended, under fine, or guilty of taking the places of Union men or of Knights of Labour while on strike, or while locked out from farm work, and that as fast as possible a uniform standard of hours of labour and wages should be adopted, so that men of any trade enrolled in our Order and members of trade unions may not come in conflict because of the difference in wages or hours of labour. We also believe that a system of exchanging working cards should be adopted, so that members of any craft belonging to different organizations could work in harmony together, the card of any member of this Order admitting to work in any union shop, and the card of any union man admitting him to work in any K. of L. shop. We further believe that upon a demand for increase of wages or shorter hours of labour, made by either organization, a conference should be held with the organized labour employed in the establishment where the demand for increase of wages or reduction of hours is contemplated. Action upon proposed reduction of wages or other difficulty to be agreed upon in like manner; and that in the settlement of any difficulties between employers and employees, the organizations represented in the establishment shall be parties to the terms of settlement. Trusting that the method proposed herein will meet with your approval, and that organized labour will move forward and onward in harmony of effort and of interest we are, etc.

TO THE GENERAL PUBLIC.

The members of the General Assembly of the K. of L. desire to inform the public that all newspaper reports of serious dissensions among their members, are absolutely unfounded. The General Assembly is practically a unit on all questions that have been brought before the body. The reports that the election of the members of the Auxiliary Executive Board is of any significance are also without foundation, as the members were elected without regard to any specific ends or purposes, but according to the desires and predictions of individual representatives. All charges of intrigues and machinations against General Master Workman Powderly or any member of the Executive Board can have originated only with men anxious for personal gain or notoriety. No voice has been raised either in the session or privately against the private character or official action of Mr. Powderly or any member of the Executive Board, and the only reason for the election of an Auxiliary Board was to relieve the members of the old Board of the immense amount of labor that had accumulated in their hands owing to the extraordinary increase in the membership of the Order. As these auxiliary members have neither voice nor vote in the Board proper, but are to be simply assistants, their election can by no possibility be construed to indicate a lack of confidence on the part of this General Assembly in the Executive Board. We take great pleasure in expressing our most unbounded confidence in the integrity, patriotism, and honesty of purpose, not only of General Master Workman Powderly, but of every member of the Executive Board, and ask all papers that have been misled into publishing statements to the contrary, emanating from evil disposed and designing men, not representatives to this General Assembly, and, in some cases, not members of the Order, to publish this contradiction.

After the passage of an address in reply to the National Grange Patrons of Husbandry, and in which the latter are cordially invited to join the Knights of Labor, and the transaction of some routine business of no public importance, the General Assembly at 5 o'clock adjourned *sine die*.

Horsford's Acid Phosphate.

Well Pleased.

Dr. C Roberts, Winchester, Ill., says: "I have used it with entire satisfaction in cases of debility from age or overwork, and in inebriates and dyspeptics, and am well pleased with its effects."

THIS PAPER may be found on file at Geo. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce st.), and William Young at Park Row, where advertising contracts may be made for it in NEW YORK.

Guelph Conference.

College Federation Discussed as a Living Question.

GODERICH, June 4.—Conference opened at 9 a. m., Rev. W. S. Griffin, D.D. in the chair. Minutes of former session were read and approved.

The Conference Sabbath School meeting last night was largely attended. The chair was occupied by the president. Interesting and instructive addresses were delivered by Revs. A. A. Bowers, B. A., Charles E. Stafford, and J. E. Howell, M. A., interspersed with excellent music from the choir of the church.

A letter from Dr. Douglas, of Montreal College, regretting his absence owing to the recent accident, was read, and a resolution of sympathy in consequence of his affliction was unanimously adopted.

Venerable Archdeacon Elwood, of the Episcopalian Church, and Rev. Dr. Ure, of the Presbyterian Church, Goderich, were introduced, and briefly and happily addressed the Conference.

A resolution expressive of the pleasure it was to the Conference to see and hear these distinguished brethren was enthusiastically adopted.

A resolution in favor of the federation scheme of colleges now before the country as a live and living question, was introduced in a speech of great clearness and force by Principal Mills, of the Agricultural College, Guelph, and seconded by the Rev. A. M. Phillips, B. D., of Galt.

The first business after the minutes of the previous session had been read and approved, was the election of delegates to the General Conference. Up to the hour of adjournment the following had been elected:—Ministerial Delegates—W. S. Griffin, D.D., W. C. Henderson, M. A., D. C. McDowell, J. B. Aylesworth, LL.D., George Richardson, G. H. Cornish, J. E. Howell, M. A., E. T. Rupert, M.A., T. M. Campbell, J. W. Holmes, A. M. Phillips, B. D., J. McAllister, John Scott, M. A., A. Cunningham, James Hannon, J. Kenner, J. Herridge. Alternate—J. Gray. Lay Delegates—Thos. Hilliard, James Mills, M. A., A. Frost, Q. C., Dr. Christie, Dr. Williams, R. W. McKenzie, Wm. M. Gray, W. Young, H. H. Perdue, Thos. Garbutt, J. J. Crabbe, J. Hood, Richard Babb, Peter Hepinstall.

Rev. Dr. Dewart, editor of the *Christian Guardian*, was introduced. He read a report of the Book Steward, Dr. Briggs, relating to the book establishment in Toronto.

The Presbyterian Church.

The Rev. R. J. Laidlaw, Hamilton, last Sunday preached a sermon in St. Paul's Church appropriate to the approaching meeting of the General Assembly. It was shown that owing to the growth of the Presbyterian Church and the rapid extension of its operations the meeting would be the most important gathering of its kind ever convened in Hamilton, and should call forth gratitude, generosity and genuine interest in all the proceedings. Twelve years ago there were four Presbyterian denominations in the Dominion: the Canada Presbyterian Church, the Presbyterian Church of Canada in connection with the Church of Scotland, the Presbyterian Church in connection with the Lower Provinces and the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland. By the union of these four denominations eleven years ago, the Presbyterian Church in Canada was formed. It comprises in round numbers 800 pastoral charges, extending from the island of Newfoundland on the east to the foot of the Rocky Mountains on the west. These charges are grouped under forty Presbyteries, and these under five Synods. About one-fourth of the 800 ministers of the church, with an equal number of ruling elders, are sent as Commissioners to the General Assembly, so that about 400 Commissioners may be expected to be present. They come not to attend to their own business, but that of the Church. The whole country will derive benefit from the result of their deliberations, and an immediate share of the benefit will fall to the lot of our city. In attending the meeting, instead of reaping any personal advantage, many of the Commissioners and the Churches they represent will require to make personal sacrifices. But it will be the privilege of the Presbyterians of Hamilton with their friends, in accordance with the precedent established in the Primitive Church, to entertain them as guests during their stay here. The meeting will not be a speech-making convention, nor even a gathering for strictly devotional purposes. It will be intensely practical in its character, being at once a legislative body and a supreme court. It will consider important questions sent up to it by the lower courts of the Church, and will settle questions which those courts were unable to settle. It will review the whole educational and beneficent work of the Church, and see that all the funds of the Church are economically disbursed, and that the work is carried on in all respects in the most efficient manner. Many of the ablest scholars and most practical business men, both in the ministry and eldership of the Church, will be present, and it will be a privilege to listen to the discussions or to have private reports of the proceedings from those who will be the guests of some who may be unable to attend. Mr. Laidlaw requested the members of his congregation to extend a most cordial welcome to the Commissioners, many of whom would come long distances as strangers.

A Standard Medical Work

For Young & Middle-Aged Men.

ONLY $1 BY MAIL, POSTPAID.

Illustrative Sample Free to All.

KNOW THYSELF.

A GREAT MEDICAL WORK on MANHOOD

Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. EYE, EAR and THROAT

DR. RYERSON,

L. R. C. P., L. R. C. S. E., Lecturer on the Eye, Ear and Throat, Trinity Medical College, Toronto, and Surgeon to the Mercer Eye and Ear Infirmary, Oculist and Aurist to the Hospital for sick children, late Clynical Assistant Royal Ophthalmic Hospital, Moorfields, and Central London Throat and Ear Hospital.

Artillery Competition.

The following prizes will be awarded by the Ontario Artillery Association in addition to those given by the Dominion Association in the artillery competition which takes place at the Woodbine Park, Toronto, in October.

Firing competition, aggregate scores—Field—1st, $75; 2nd $50. Garrison—1st, $25.

Individual scores—Field—1st, $15; 2nd, $10; 3rd, $ 5. Garrison—1st, $10; 2nd, $5.

General efficiency, highest total points—Field—1st, $20; 2nd, $10. Garrison—1st, $15.

Drivers—10 field batteries at $5 each, $50. Total—Field, $310; garrison. $90.

The Dominion Association prizes will probably amount to $700, which does not include the Gzowski Cup for shifting field ordnance, the Governor-General's Cup for shifting siege ordnance, and the Governor General's Cups for general efficiency to both field and garrison, besides drivers' and marksmen's badges.

The Street Car Strike.

TORONTO, June 5.—The striking street car men have entered into possession of the old Bolt Works building on Frederick street, and yesterday morning a gang of men commenced the work of fitting the place up for stabling purposes, and when the alterations are completed it is expected that it will accommodate between 300 and 400 horses. The men have now about 100 horses.

The Fishery Question.

WASHINGTON, June 4.—The Secretary of the Navy says that the vessels of the North Atlantic squadron, which have been under orders for several days to prepare for sea, will visit the fisheries under instruction from the Department, and it is hoped that this will help to alley, rather than increase, the existing antagonism. The Secretary conferred with Admiral Jouett upon the subject when in New York recently. Secretary Bayard this afternoon received a telegram from Consul General Phelan at Halifax, as follows:—"American merchant vessels can purchase fresh fish of all kinds."

The Last Year, 1885.

After the above year is ended there need be no person suffering from rheumatism, neuralgia, toothache, headache lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by Thomas S. Petrie, Druggist.

FREELTON BAPTISTS. — The *Spectator* says:—About two years ago, Robert Hopkin, of Hamilton, began to supply the Baptist pulpit of the East Flamboro church, purely as a labor of love, and because that church was without a pastor. He was at once convinced that something ought to be done in Freelton, and accordingly he started a Sunday evening meeting there. A private house was first used as the place of meeting, and afterwards an old tin shop. The latter place was soon crowded and people had to be turned away for want of room. Mr. Hopkin then urged the building of a place of worship. Deacon Maddaugh, of East Flamboro, generously gave a valuable lot in the village for that purpose. A subscription list was circulated, and soon the work of building was begun. Meantime Mr. Gregory, a student of Woodstock college, came to occupy the field, and the good work went on. There have been unavoidable delays in the building operations, but the end has been reached at last, and Sunday, May 23, was the opening day. The chapel stands in a very good position, is of white brick, and consists of an audience room and two ante rooms. It is seated with chairs, and, altogether, the property must be worth at least $1,600. Mr. Hopkin's step-daughter, Miss Redmond, presented an excellent cabinet organ to the congregation, and Mrs. Hopkin gave a large pulpit bible.

McGregor's Speedy Cure.

When we say McGregor's Speedy Cure is the only perfect cure for dyspepsia, liver complaints, indigestion and impure blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at Thomas S. Petrie's Drug Store.

Sir George Errington, the British Government's emissary at the Vatican when efforts were being made to induce the Pope to fulminate against the National movement in Ireland, is in Toronto, being on a trip through America. Up to the last general election he represented Longford, Ireland, in the Imperial Parliament.

The Lieut.-Governor has issued a proclamation redividing the wards of the town of Listowel. They have been named Bismarck, Victoria, Lansdowne, Gladstone, and Dufferin.

Wife—That Davis Vertical Feed surprises me, just see the work I have done already, and could not do it at all on that new under-fed machine.

Husband—But the new under-fed machine is only half the money.

Dear at that when one has to work it and knows the difference. The Davis is light running and so strong, doing everything.

Husband—The agent for the under-fed machine says he can do anything the Davis can do.

Wife—But he does not do it. The Davis does it and I did it myself. He only says he can do it. I must have a Davis.

OUR

Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE

THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

REMEMBER THE PLACE—

DISSOLUTION OF PARTNERSHIP.

THE partnership heretofore existing between the undersigned as Wholesale Carriage Hardware merchants, in the City of Guelph, has this day been dissolved, by mutual consent. All debts due to the said firm to be paid to C. Kloepfer, who will pay all claims against the said firm. C. Kloepfer continues the hardware branch of said business, on the same premises, and C. W. Walker continues the Top manufacturing branch, under the style of Guelph Carriage Top Co.
Witness,
JOHN MITCHELL. } C. KLOEPFER. C. S. WALKER.
Dated at Guelph, June 1st, 1886.

Riots at Belfast.

BELFAST, June 6.—The funeral of Curran, the young man who lost his life by drowning during the recent Orange-Catholic riot, took place to-day. The body was followed to the cemetery by a procession of 20,000 Catholics. A body of Orangemen pelted stones at the procession and the Catholics, in retaliation, made an assault on the Orangemen and drove them away. A number of shots were fired. One man was stabbed and several persons were cut on the head. Finally the police succeeded in restoring order. The Catholics smashed the windows of the Broadway linen factory. There was some further disturbance later on in the evening. Philip Rice, a driller, and John Beattie and Alex. Stewart, fitters, have been arrested on the charge of rioting on Friday and murdering young Curran. James McMurray, a Catholic, has been arrested on the charge of firing a revolver from the funeral procession to-day.

Mostly Fair.

Weather Probabilities: Moderate to fresh easterly winds: mostly fair weather, with a few local showers.

CHIEF ARMSTRONG, of the Fire Department is again confined to his bed. His many friends hope he will soon be around. Prof. Philp is also confined to his bed.

MR. THOS. GOWDY shipped last week a second car load of agricultural implements to Prince Edward Island, this year. It would seem that Guelph manufacturers are appreciated abroad.

GEO. A. LIGHTFOOT shipped on Saturday from here a car load of export cattle, purchased in this section for Messrs. Snell & Gray, Galt. The price paid was about 4½ cents to 5½ cents per pound.

M de Fuisseaux, of Brussels, has been sentenced to one year's imprisonment and a fine of 2,750f. for inciting the recent riots.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

W. S. G. Knowles is seriously ill.

THE Artillery Brigade drill to-night.

WALTER LAING shipped to-day for Knox & Gould, Oshawa, three cars of export cattle.

MESSRS CLARK & Thompson's clearing sale of carpets is still going on. Bargains are the order of the day. Call early.

MR. W. H. MARCON, of Niagara, late of Guelph, is in the city to-day, and looks well and hearty. He states that business is flourishing.

MR. WM. MANN left to-day for Chatham as a delegate to the High Court of the Canadian Order of Foresters, who meet in that town to-morrow.

DR. SOMERVILLE, who lectured in Chalmers' Church a few years ago, has been appointed Moderator of the Free Church of Scotland.

THE most Rev. John Joseph Lynch, D. D., Archbishop of Toronto, wrs the guest of the Fathers at the Rectory of the Church of Our Lady for a short time on Saturday.

THE Rev. D. McGregor, chairman of the Congregational Union of Ontario and Quebec, left to-day for Ottawa to attend the annual meeting which opens there to-morrow.

AT the Strathroy Caledonian games nexe Tuesday a special prize will be given to the oldest lady on the grounds who "can spoke the two talks as well as one" (English and Gaelic).

MR. PETER RENNIE, of Fergus, was in Guelph to-day on his way to the Old Country for the benefit of his health. Messrs. Robt. Irving and John Easterbrook, Nassagaweya, also left for the Old Country to-day on a pleasure trip.

POLICE COURT.—Robert Day was charged with having three cows running at large. Fined $2 and costs. Allowed one month to pay the same. Thos. Harrison, of Pilkington, was brought up as being insane. He was remanded to gaol to undergo an examination by the Doctors.

THE Stratford Assembly of the Knights of Labor has adopted a resolution denouncing Hon. Frank Smith's statement that members of the Order are a 'lot of thieves,' and demanding from him or the Government a retraction and an apology.

MESSRS. TOLTON BROS., are this morning sending off to Messrs. Noxon Bros., Ingersoll, a number of orders which they have received from some of the leading farmers for their Steel Frame Platform Binder's. The delivery will be next week. This speaks well for the reputation of their binder.

THE General Assembly of the Presbyterian Church meets on Wednesday in Hamilton. The delegates from Guelph are the Rev. Dr. Torrance, Mr. Samuel Hodgskin from Knox church, and Mr. Chas. Davidson from St. Andrew's. The Rev. Dr. Torrance and the Rev. Mr. Beattie will attend the Assembly during its sitting.

SMOKERS may be pleased to know that an antidote has been discovered which will enable them to enjoy their pipes or cigars without any fear of being poisoned by nicotine. It appears that the watercress destroys the toxic principle of tobacco, preserving at the same time its aroma. It is sufficient to wet the tobacco with the juice of the watercress which will completely deprive the tobacco of its deleterious principles.

EVANGELISTIC WORK.—The evangelistic services in connection with the Presbyterian Church, Winterbourne, came to a close on Saturday. From first to last a deep interest has been manifested in them. The Rev. Mr. Hamilton, pastor of the congregation, opened the meeting with singing and prayer, after which, the Rev. H. Knox addressed the people on the simple truths of the Gospel. Night after night the lecture room was crowded, notwithstanding this busy season of the year and the rural composition of the congregation. General regret was expressed that these meetings could not be continued longer. Much good has been done, and the spiritual life of all has been greatly quickened.

STRUCK BY LIGHTNING.—During the thunderstorm early this morning the barn of Mr. John Sloan, 4th line of Eramosa, was struck by lightning, about half-past four o'clock, and totally consumed. The fire was noticed by Mr. Thos. Allan, who only lives a few rods away. He immediately gave the alarm, but as the building was in a mass of flames very little could be done towards getting stock and implements out. Through great exertion five head of cattle were taken from the stable and several fowls. It was impossible to save four horses, as that portion of the building was so far consumed that their was not the least chance of gaining an entrance. All the agricultural implements were consumed, about 400 bushels of oats, 100 bushels of wheat, a quantity of hay, and in short everything in the stable. Mr. Sloan's loss will be heavy, as there is only an insurance of some $600 on the property. From the rapid progress the flames made it is supposed that the lightning entered at one gable end of the barn and ran through to the horse stable at the far end.

SOCIAL AT SPEEDSIDE.—On Friday evening last a very successful social in connection with the Speedside Congregational Church, was held at the residence of Mr. Adam A. Armstrong, Eramosa. The evening being fine, there was a large turnout, quite a number being present from Guelph. Refreshments were served from 6 to 8 o'clock, to which all present did ample justice, some of the Guelph people displaying a great weakness for lemon pie. The crowd afterwards retired to the barn, (which had been fitted up as a concert room), where they were treated to a programme of vocal and instrumental music, readings, etc. The Speedside choir rendered several pieces in good style. Miss Borthwick and Mr. Spragge sang a duet, which was well received. Miss Knowles and Miss Prichard each sang a solo, and the Misses Gausby a duet, all of which were loudly applauded. Miss Hadden and Miss Mahaffie played several selections on the organ, which were highly appreciated. But the piece of the evening was the original comic duet, by Messrs. W. A. Knowles and B. C. Armstrong, entitled "Has your mother much hens." This fairly brought down the house. The entertainment was brought to a close at 10.30, by the audience singing God Save the Queen.

There is a great boom in the phosphate mining industry in the Ottawa Valley, hundreds of men being employed by the various companies. This year's shipments from Montreal greatly exceed those of any previous year.

A veteran of the war of 1812, named Jean B. Demers, has just died at St. Eustace, not far from Montreal, at the age of 95, leaving 158 direct descendants, viz., 10 children, 87 grandchildren, 60 great grandchildren and one great great grandchild surviving him.

The lobsters are larger and more numerous this season than any previous season, says the Liverpool, N. S. *Times*. About 10,000 lobsters were taken by the packing firms at Port Mouton in one day last week; and about the same number at Black Point. They are worth to the fishermen $1.25 per hundred.

Last week Miss McGriman, who lives on Lot 26, 7th Con., Mono, was washing dishes and had her back to the stove, when her clothes caught fire and she ran outside. The wind was high and the fire spread rapidly over her clothing. Her hips and one of her arms were burnt to a crisp. Slight hopes are entertained of her recovery.

DEATH OF MR. J. C. PRESANT.—On Saturday night another of the old residents of Guelph, Mr. J. C. Presant, passed away to that bourne from whence no traveller returns, at the ripe old age of 69 years. The deceased was widely known in Guelph and the surrounding country, his business as a miller occasioning him to be daily on the market, whereby he became more or less intimately acquainted with the citizens and farmers generally. He was a native of Yarmouth, England, and came to New York in 1843 when 26 years of age. He followed his occupation as miller in the State of New York for about a year, when he came to Guelph, and remained about the same period. He then went to St. Anns, where he entered into partnership with the late Joseph Pratt. He remained there for about two years, during which time he was married to a daughter of Mr. Pratt, who still survives him. In 1847 he came to Guelph and rented the old frame mill which then stood on the site where the present substantial stone structure, known as the Victoria mill, now stands. A year afterwards he purchased this mill, and most successfully carried on the business of milling. In 1860 the old mill was burned and the year following the new mill was built and in running order. In 1878 having made a competence, he retired from the business and placed it in the hands of his two eldest sons, Edward and George, who have carried it on ever since. Mr. Presant had a robust constitution and scarcely endured a day's illness during his long life until recently. About three years ago the first symptoms of the inward trouble which cut him off was manifested, but it was not until about three weeks ago that he was confined to the house. On Tuesday last an operation was absolutely necessary to be performed, and it was thought for a time, although he suffered greatly, that Mr. Presant's rugged constitution would conquer, but it did not, and he peacefully passed away on the date mentioned. The deceased was of a retiring disposition and valued more the privacy of his own home than public honors. He was a member of the Council in 1856, and although taking a general interest in municipal and political affairs, he took no active part in them, yet at the same time he had pronounced principles and was a staunch Conservative. He leaves behind him to mourn his loss an aged window, four sons, Edward and George at home, John, in the commission business in Texas, and Charles in Toronto, and two daughters, together with his brother Benjamin, in Guelph, and a sister in England. In the death of Mr. Presant Guelph loses one of its earliest and most respected citizens. The funeral will take place to-morrow afternoon.

LARGE SCROTAL HERNIA.—It is really surprising the changes of late years in the treatment of Rupture. Only a few years ago large Scrotal Hernia or Rupture could not be held by trusses. Now Mr. Charles Cluthe, the celebrated truss inventor, offers to all these people a success or no money. He goes even further that this. He offers a 300-mile return ticket on any railway to any one whose rupture he cannot hold. Mr. Cluthe is a responsible man, and above the reproach of taking advantage of people for the sake of the price of a truss. Mr Cluthe will be at the Victoria Hotel, Guelph, on Thursday, June 10th.

Mgr. Fabre, of Montreal, will be created an Archbishop.

A CLOUD OF WITNESSES.

Evidence Taken in Scott Act Prosecutions.

In the Police Court this morning W. S. Cowan, License Inspector, charged Daniel Patterson, Wm. Paterson, Wm. Smart and Toney Gillie, of Toronto, with an infringement of the Scott Act on the 24th of May, by selling lager beer on the Exhibition ground. D. Guthrie and A. H. Macdonald appeared for the prosecution; Bigelow and McGregor, of Toronto, for the defendants.

The case against Toney Gillie was first taken up. After reading the information, Mr. Bigelow took objection to it and said no proper charge was made out in the information, as no sale had taken place and no exchange of property had been made.

Mr. Guthrie said there was a clause in the Act which referred to sale or barter.

W. S. Cowan sworn: Am Inspector for the City of Guelph and South Riding of Wellington; have been for two years; was on Exhibition ground on Queen's birthday; there was excursion party from Toronto and a celebration by the school children; the main building was occupied by the Toronto excursionists and others; recognize Mr. Gillie; he was serving refreshments and lager beer; I got a glass of lager beer; I believe it was intoxicating; I was passing through the crowd and was given a ticket by some person; I asked the defendant for a glass of beer; he asked me if I had a ticket; I said "yes;" I laid the ticket on the counter and got my beer; Gillie got the ticket; I tasted it twice and threw the rest on the floor; the beer was drawn from a keg by Gillie; there were quite a number of kegs in the building; saw Gillie serving several others with lager beer and receiving tickets for the same; they were selling for several hours; no questions were asked where I resided when I got the beer; there were others besides Gillie selling and they were all behind one counter; had no other conversation with Gillie; a large number of Guelph people obtained beer; I was not on the ground when the beer arrived; I saw it on the street on a lorry; was not on the ground when the party left; I saw some of the kegs coming down town on a wagon; don't know what was done with them; the ticket I gave Gillie was a printed one; the ticket I gave was not marked; can't say if all the beer was disposed of; saw a great many glasses disposed of.

Cross-examined by Mr. Bigelow:—There were a great many residents of Guelph got lager; Gilbert Sully, Sam Moffatt, John Thomas Switzer got beer; I saw no money paid; was told that money was refused; I tried to buy some tickets but could not get any; I was told that they had not got any for me; I did not know to whom the stuff belonged; could not swear it belonged to Mr. Gillie; it was an Oddfellows' excursion; did not see it on the cars; was not down at the station; did not inquire who was in charge; there was no value in the ticket to me; it was handed to me and I had a drink; will swear it was not home-brewed ale; it tasted like other beer that I had tasted.

To Mr. Guthrie—The brand was Sleeman's; I saw sandwiches, etc.; I did not see any one take sandwiches; beer was the favorite refreshment.

To Mr. Bigelow—I won't swear that it is intoxicating, as I have never drank enough of it to be intoxicated.

The case is proceeding.

American.

Gold, assaying eight dollars a ton, is reported to have been discovered within one mile of Louisiana, Missouri.

W. H. S. Maxwell, the alleged murderer of Preller at St. Louis, was found guilty of murder in the first degree on Saturday. A motion for a new trial is to be made.

The New York Life Insurance Company has recently purchased $200,000 five per cent. 50 year first mortgage land grant bonds of the Canadian Pacific Railway Company.

John Hitz, President, and Chas. E. Prentiss, cashier of the German National Bank in Washington, have been sentenced to five years' imprisonment each for making false entries.

Many cheese factories in Chautauqua and Cattaraugus counties, New York, are being changed to creameries for the manufacture of butter, and farmers are giving up their private dairies and joining creameries.

At the Joliet, Ill., penitentiary on Sunday the rite of confirmation was administered to 117 convicts by Archbishop Feehan, of Chicago. Among those confirmed were some of the worst criminals in the West.

The wheat and oat crops of the Western States have been much injured by cold weather and drought, and now promise only a fairly favourable yield. Warm weather and rain are badly needed to prevent a further deterioration of the crops. Corn, however, is doing well.

The works of the Pennsylvania Bolt and Nut Company, at Lebanon, Pa., the largest of the kind in the United States, were destroyed by fire on Sunday afternoon. Four large buildings and contents were consumed. Loss about $150,000, covered by insurance. About 350 hands are thrown out of employment.

Sporting Notes.

BASEBALL.

Only six innings were played at Windsor Friday, yet the boys did them up 18 to 2, and a total of 22 hits, two baggers, Zell, Scheibeck, (2) George and Buckenborger.

At Detroit, with the Cass Club, Saturday, Campau made a three-bagger in the ninth innings, winning the game for the Leafs.

The Maple Leafs play at Adrian, Mich., to-day, then come back to Detroit to play the Hiawathas, Wednesday. The Maple Leafs will again play the Cass Club.

Campau had a three-bager at Windsor and another at Detroit.

Dan Mulholland had three with a total of four hits Saturday.

Stephens and Dillon will be the battery for the Leafs to-day.

Judge Dugas returned to Montreal Saturday from Chateauguay, where he had gone to investigate cases of catching bass out of season. The whole of the prisoners, eight altogether, including a doctor and a lawyer, were fined, two $5 and the rest $2 each. The actions were instigated by the Montreal Fish and Game Society.

CHURCH NEWS.

Rev. Mr. Weir's Inaugural Sermons—Special Presbyterian Services.

The quarterly communion services were observed in the three Presbyterian Churches of the city yesterday forenoon. In Knox Church Rev. Mr. Beattie officiated. Rev. Mr. E. D. McLaren, B. D., Brampton, conducted the service on the previous Friday. Rev. Mr. Strachan, of Rockwood, conducted the preparatory service on Friday in St. Andrew's, and the communion there yesterday was administered by Rev. Mr. Tait, of Berlin, the pastor, Rev. J. C. Smith, B.D., still being confined to bed with inflammatory rheumatism. Rev. Mr. Neil, Toronto, preached in Chalmers' Church on Friday, and yesterday Rev. Dr. Wardrope was assisted at the communion by Rev. Mr. Kennedy, an octogenarian preacher, who was for years a missionary in India.

ADDRESS ON MISSIONS.

In the evening the three congregations united in Knox Church to hear an address by Rev. Hugh McKay, missionary among the Northwest Indians. There was a very large attendance on this occasion, every seat being filled both in the body of the church and in the galleries. In the pulpit were seated besides Mr. McKay, his namesake of Eramosa, Revs. Mr. Tait, Kennedy, Dr. Wardrope, and the pastor of the church, Rev. R. J. Beattie. After expressing his pleasure at being permitted to meet with and speak to so large a congregation, the speaker launched into his subject. Mission work in the Northwest he said was increasing from year to year. A few years ago there was only one small Presbytery; to-day there were four, that of Winnipeg, that of Rock Lake, that of Brandon, and that of Regina. These extended through large territories, that of Regina perhaps 600 or 700 miles east and west, and from the boundary line to the extreme north of settlement. He spoke in detail on the mission work of the Presbyterian Church in the Northwest, and although they were doing a good work they were away behind the Roman Catholic, English, and Methodist Churches. During his address the rev. gentleman gave some very interesting facts regarding the life of the Indians, and the benighted condition they were in religiously, and also illustrated their superstitions and idolatrous belief.

A collection was taken up in aid of the mission work in the Northwest, after which the Rev. Mr. Kennedy pronounced the benediction.

OTHER CHURCHES.—The Rev. Mr. Weir preached his first sermons in the Baptist church yesterday since his ordination. There were large congregations at both services, and the people listened with evident interest to the discourse. The sermons had no special reference to his new responsibilities. Mayor Stevenson preached in the Norfolk street Methodist church yesterday morning, Rev. J. W. Holmes, pastor, being at Conference in Goderich. Rev. J. T. Paterson occupied the pulpit in the evening and gave a very acceptable discourse. In the absence of Rev. Dr. Griffin and Rev. J. H. Carson at Conference, Rev. W. F. Clarke occupied the pulpit of the Dublin street Methodist church yesterday. His sermons were instructive and practical. Mr. Thos. Brown occupied the pulpit of Paisley street Methodist church.

A Centenarian's Death.

KINGSTON, June 5.—The *News* this evening says: "On April 27 last, Mrs Wm. Wilson died at Camden. She was born in County Armagh, Ireland, within six miles of the city of that name, on Dec. 22, 1783, and at the time of her death she had reached the almost unprecedented age of 102 years and 6 months. She, with her husband came out to this country in 1827, and settled for a time at Fort Henry, near Kingston. They afterwards located in Camden, eighth concession, where they took up a farm, and here they continued to live till removed by death, Mr Wilson dying in 1851, and his aged partner surviving him some thirty-five years. Nine children were born to them, seven of whom survive, three sons and four daughters, all of whom are well to-do in the world. There are forty-two grand children, forty-eight great grand children and seven great great grand children alive. By request of deceased, six of her great grandsons were her pall-bearers. Mrs Wilson was a strict Presbyterian."

The Fishery Question.

The cruiser "Lansdowne" has returned to port, and the "Terror" has sailed under sealed orders.

Minister Foster says American merchants can purchase all the Canadian herring they want.

The London *Standard* says Great Britain should support Canada in the fisheries dispute.

An old rule which will cause Canadian vessels much delay and trouble, and which has hitherto been in abeyance, has been ordered to be strictly enforced by the Customs officers at Cleveland, Ohio.

Two more Spanish fishing schooners have been seized by the United States revenue cutter "Dix" for the same offence as the "Clotilde," and handed over to the customs authorities at Tampa, Florida.

Foreign.

Cholera is increasing at Venice.

The eruption of Mount Etna has ceased.

Richard Tangney, a caretaker, was shot dead on Thursday night at Killarney.

The International Copyright Bill has passed its third reading in the English House of Commons.

The French Ministry has rejected the committee report favouring the immediate expulsion of the Princes.

The Bill for closing public houses in England, except in London, on Sundays, has passed through committee.

It is rumoured that an interview will take place between the Czar and Emperor William during the middle of August.

The town of Bohe, in Hungary, has been destroyed by fire. Three hundred houses were burned, and three lives lost.

Three farmers have been arrested for the murder of a farmer near Larkin at Glendutt, County Limerick. The murdered man's head was smashed in with stones. Agrarian troubles led to the crime.

A large number of cattle having been distrained on an estate near Tulah, County Clare, a crowd of 1000 gathered Sunday and drove off the police. It is expected that numerous arrests will be made in connection with the affair.

The Evening Mercury

MONDAY EVE'G JUNE 7, 1886.

Some Fresh Insight.

It was thought that the worst of the Beaty scandal had been revealed when Mr. Woodworth made his damning exposures to Parliament, and when in the face of this, Government forced through the House their Bill to enable "the boy' to provide hundreds of thousands of dollars for the Northwest Central Railway at the public expense. But not so. Mr. David Maconachie, of Hamilton has prepared a solemn statutory declaration in which he states that Mr. Beaty, in order to induce him to make a contract for the construction of the road, said :—"In the event of your obtaining the contract and building the road you need have no fear. The new Minister of the Interior is my intimate friend, and I have only to ask and what I want in that way will not be [refused.' And that the said James Beaty also then referred to his power ir the House, having so many friends among the members. These expressions he volunteered as an inducement for me to agree to his terms, and further, during the said conversation he, the said James Beaty, stated that it would be desirable to give the Hon. Thomas White, the Minister of the Interior, the sum of $100,000, a parcel of the said sum of $1,500 per mile which he claimed, and the said James Beaty justified the said payment to the Hon. Minister of the Interior, upon the ground that the said Minister had renewed the land grant in this matter voluntarily and without waiting for [Parliament to meet, and the said James Beaty further stated at the said interview that after the payment of the said $100,000, and after other members of the House associated with him in this matter were 'shared with,' his portion of the $675,000 would be small, considering his personal time given and means spent in furthering the project."

The above declaration having come into the possession of Mr. Edgar, that gentleman read it in Parliament just the day before prorogation. As is stated in the declaration Mr. White did renew the land grant. But Mr. Beaty never gave him the $100,000 because he never had it to give. Now there is no danger of him doing so, since the Government have withheld the charter from him altogether. This they have done on the pretext that he did not make a sufficient deposit in time, but in reality we believe the Government were glad of this excuse to give him the slip after the fearful exposures which were made. Although there is no other evidence that Mr. Beaty promised to give Mr. White this sum, this alone affords an insight into the manner in which all this procuring of grants and subsidies, and the selling of what has been procured, is carried on. What a miasma of corruption!

Quebec Railways.

The Quebec Tory Government have just announced a railway policy identical with that adopted by the Dominion Government. In 1882 the Legislature of the Province, in face of the wise and strenuous opposition of the minority, voted away 5,832,500 acres of land grants to companies as subsidies for the construction of Provincial Railways. They now propose to grant 1,500,000 acres more, making altogether 6,330,500 acres. Then they agree to change into cash at the rate of 70 cents an acre these subsidies and give the money, under certain conditions, to the companies. This will involve, if carried out, the payment in money of $4,431,350, together with cash subsidies also voted of $160,000, which brings the total up to $4,591,350. This huge sum will have to be borrowed, for poor land in Quebec cannot be sold while good land in the North-west goes a-begging. Already the Government are pledged to subsidies that may be earned any day amounting to $1,250,000, while they have a floating debt to contend with of over $2,000,000. The interest on all these sums annually would amount to more than $300,000. Add the $7,000,000 indebtedness above specified to the present consolidated debt of $18,223,183, and Quebec will have the enormous debt upon it of over TWENTY-FIVE MILLION dollars.

What a legacy from Tory rule! But how could a better be expected when love of power, not patriotism, is the ruling passion with those who hold the purse strings. The Government have promulgated this railway policy, not to secure advantages to the Province, but in order to save themselves from foundering on the Riel rock. The scheme is proposed with the hope of bribing constituencies by wholesale. If it is carried out, either one of two things must follow soon. One is direct taxation, or that this may be averted another demand must be made on the Dominion Treasury. We all know how ready the powers at Ottawa are to yield to such demands. Past experience has shown that Ontario and the other Provinces are bled to make up for just such recklessness on the part of Quebec administrators. It is satisfactory to know that the gravity of the situation has been fully grasped by reflecting men, and that the alarm is being sounded as rapidly as possible with a view to a prompt and vigorous protest against the proposal. The fact that there is now an annual deficit, and that this would be increased by the addition of $300,000 interest each year on the $700,000 of borrowed money, should lead economic business men and intelligent men of all classes, to oppose the proposition to the utmost.

A Scientific Outing.

Thirty-six students of science accompanied Prof. Panton to Limehouse, Saturday, for the purpose of examining the exposure of rock there and observing the flora of the district.

On arriving the party was divided into groups as soon as the locality of the quarries were ascertained from workmen near the station, each division examining a particular quarry and a fourth giving especial attention to the plants in the vicinity. By this means a large amount of work was achieved. In the cutting an excellent exposure occurs which may be described commencing at the surface as follows :—1. 20 feet of limestone partially magnesian. This is used in the manufacture of quicklime for which the place is noted. It is easily seen to contain many fossils, but all are very obscure. However some of the students obtained very good specimens of members belonging to the cuttle fish family, some shells and a few corals.

2. 9 feet of yellowish limestone from which the waterlime of this place is obtained. This deposit contains some iron.

3. 8 feet of more or less bluish slates, which resembles *hard pan* in many respects. This is ground into a greyish paint, and becomes of considerable economic value.

4. 8 feet of red shale, the lower layers of which are highly impregnated with iron. This rock is ground into a paint of several shades of a chocolate hue.

5. 6 feet of bluish shale, and the bottom of the cutting is reached. In this deposit a large specimen of seaweed was obtained, 2 inches in diameter and over 4 feet of the stem exposed.

The first layer, 20 feet, belongs to the Niagara formation, and the remaining 31 Clinton, both divisions of the *Silurian System*, and older that our Guelph rocks.

Thus we have at Limehouse deposits of considerable commercial value, in the manufacture of quicklime, waterlime and several shades of paint. Regarding the fossils obtained, seveval were secured, but the outcrop does not present many complete forms. Those examining the flora of the locality secured some interesting types, among which may be noted fireworts, wild geraniums, the handsome fern, spleenwort and walking fern, together with some others not common around Guelph. A natural curiosity to which attention was called by a villager, was an apple-tree bearing double flowers, which had been designated by the owner "roses on an apple-tree." Much practical information was secured and all were delighted with the instructive day's work, and the excellent opportunity afforded of studying the rocks from nature's book, instead of the text books of modern science. Much could be said of the general appearance of this rocky elevated outlying ridge of limestone, but space forbids. However we would advise all desiring to understand the natural science, to endeavour to be a member of the Guelph Scientific Society, and accompany similar expeditions whenever they take place.

Guelph Conference.

GODERICH, June 5.—The meeting last night for the reception of young men into full connection was very large. The President occupied the chair. He referred to the great interest the Methodist people took in the services, an interest which never abates as the years come and go. The Methodist Church always insists upon a converted ministry as well as a ministry of mental gifts and culture. The young men, Robert C. Burton, John H. Carson and George F. Salton, were successively called upon to relate their religious experience in a divine call to the ministry. Their reception into full connection was moved by Rev. G. Richardson seconded by Rev. D. C. McDowell, and supported by Rev. W. S. Griffin, D. D., President. The motion was unanimously adopted.

This morning General Superintendent Carman occupied the chair. In doing so he referred to important matters which are likely to come before the ensuing General Conference for consideration, such as the Educational work and the contemplated Sustentation Fund. He said the eyes of the country were upon these Conferences to see what attitude would be taken upon the temperance question. He also referred to the peculiarities of Methodism in doctrine and Church polity, counselling faithfulness to one and loyalty to the other.

The Rev. W. J. Shaw, L. L. B., was introduced and addressed the Conference upon the work done by the College in Montreal.

Dr. Burwash, of Victoria University, was also introduced and requested to give his views upon the present aspect and situation of the federation scheme. He did so at considerable length, throwing much light upon the subject. While he counselled care yet he wanted the movement to be a grand success.

Resolutions declaring the loyalty of the Conference to these educational institutions, no matter what be the issue of federation, were adopted.

The resolution favoring federation already reported was adopted.

The report of the lay delegates to the General Conference shows that Isaac E. Bowman, Wm. Cushing, and Wm. J. Lambert were elected in addition to those previously reported.

The Statistical Committee's report showed that the membership had increased during the year 1,905, making the present membership 25,668. All connexional funds were in advance.

The Sabbath Schools report indicated healthy progress in Sabbath School work. The attendance increased 1,686, and 1,572 conversions are reported during the year.

The Theological Union met at 3 p.m. Rev. I. B. Aylesworth, LL. D., gave an able lecture upon Christianity as an educating force.

A holiness meeting was held to-night, conducted by Rev. B. Sherlock.

Church Consecration.

STRATFORD, June 6.—The ceremony of consecrating St. Joseph's Church took place to-day. The service was an imposing one. At the morning service the whole of Mozart's Twelfth Mass was given by a well trained choir of fifty voices, accompanied by an efficient orchestra of twelve instruments. Many prominent bishops and clergymen of the Province assisted in the service, including Archbishop Lynch, Bishop Carberry of Hamilton, Bishop Mahoney of Toronto, the Bishop of London, Rev. Dr. Reily, P.P., of Detroit and Rev. Dean Murphy. Archbishop Lynch preached an eloquent sermon this evening.

Scott Act Cases.

FOREST, Ont., June 5.—Yesterday afternoon six cases of alleged violation of the Scott Act were heard here before Justices of the peace. Two were fined $50 each and costs. Two others were dismissed, one with costs. The remaining two were adjourned a week.

James Kennedy, of Woodstock, having failed to pay the fine imposed on him by the Police Magistrate for violation of the Scott Act, a covered buggy was seized and sold, realizing $60.

Stage Robbery.

VICTORIA, B.C., June 6.—The British Columbia Express stage was "held up" by highwaymen on the Cariboo road. The treasure box was stolen, but the robbers overlooked a $10,000 package. The amount stolen is unknown.

Terrible storms are prevailing in central Germany.

COUNTY COUNCIL.

AFTERNOON SESSION.

June 4.

After the Council resumed they went into Committee of the Whole, on motion of Mr. Wissler, Mr. Nicoll in the chair, to consider the Finance report.

FINANCE COMMITTEE.

Your Committee beg leave to report that they have carefully considered all matters submitted to them, and have examined the accounts.

With reference to the request of the License Commissioners of Centre Wellington, that the sum of $666.67 being two thirds of the estimated sum required as expenses of enforcing the provisions of the second part of the Canada Temperance Act of 1878, we find from the opinion of the County Solicitor that the county cannot avoid payment, consequently this amount will require to be deposited to the credit of said Commissioners.

We recommend no grant be given in response to the petition of the Directors of the Guelph Central Exhibition from the City of Guelph asking for assistance in defraying the expenses connected with holding the forthcoming Provincial Exhibition.

We recommend that $500 be given to assist in improving the town line road between the Townships of Arthur and Egremont providing the County of Grey gives a like sum.

That the petition of the Puslinch Farmers' Club be complied with, and that a grant of $25 be given to that Association to be used for the purpose specified.

The new securities of the County Treasurer being now complete, and in the hands of the County Solicitor, we would advise that the Solicitor be instructed to cancel the bond given by Mr. Wood, one of the former sureites.

We recommend that the usual grant of $100 be given to the 30th Battalion Band and $10 to the Dominion Rifle Association.

We further recommend that the following grants be made to the different roads herinafter mentioned — the sum of $200 to the townline of Minto and Normanby known as the Pike Lake Road, $500 towards the improvement of the Burway line leading from Arthur to the village of Teviotdale; the sum of $300 to be spent between the Townships of Maryborough and Arthur, and the sum of $200 between the Townships of Peel and Arthur.

And we further recommend that a grant of $500 be given to improve the road between Peel and Maryborough provided the Townships of Peel and Maryborough each grant $200 and the village of Drayton $100 to be expended on said road.

We recommend the usual grant of 25 cents per day to the members of the 1st Brigade of Field Artillery residing in the County while in camp during annual drill.

The petition of the Royal Templars of Temperance asking this Council to affix and pay a stated salary to the Police Magistrate whom the Ontario Government have appointed we recommend not to be granted.

The following account we recommend to be paid :—James Bain & Son, book for County and High Court, $7.50.

All of which is respectfully submitted.

JOHN I. HOBSON,
Chairman.

Mr. Wissler objected to the first clause granting the sum of $666.67 to a police magistrate for the Scott Act. He was in favor of appointing a committee who would investigate the matter and report at next meeting of Council. It would be the duty of this committee to ascertain whether it was necessary to make this grant or not. The Council did not know if these magistrates were even legally appointed. And again there was no guarantee of the amount that might be required—it might be $600 or $6,000. The Council was very particular in not giving a grant of $1 to a mud-hole where it was required, and they were willing to vote a sum of over $600 for a thing of which they had no information.

Mr. Hobson said that the committee had asked the opinion of the County Solicitor on the question, and Mr. Guthrie was positive in saying that according to the Act the County was bound to grant the sum asked for.

Mr. Wissler did not object to the grant but he desired an investigation so as an idea might be obtained how the money was to be spent.

Mr. Darroch spoke of the perplexities of the Act, and it was hard to tell whether it was a Dominion or a Temperance Act.

Mr. Hobson drew attention to Rule 56, showing that the Council had to act in a matter of this kind by the County Solicitor's opinion. Mr. Hobson's opinion was that the money would have to be paid. He also considered that the spirit of Mr. Wissler's resolution was to evade the payment.

Mr. Robertson did not think it would be reasonable for the Council to put money in the bank without knowing what it was for. One estimate might be for $1,000, another for $500, and it would be well to find out the why and wherefore of the difference.

Mr. Hobson stated that the cost might be more in one riding than it was in another. Those who had sent in the estimates could not definitely state what the cost would be and a committee of the Council would not be able to furnish any more information. If a large committee of twelve was appointed, at a cost of $2 a day and mileage, the expense would be considerable, and it was more than likely that a lawyer would have to be employed to settle the question in the end, thus eating up a lot of money. The committee, as in all knotty questions of a similar kind, had asked the opinion of the County Solicitor.

Mr. H. B. Gordon remarked that the Solicitor's opinion had been departed from in several instances, and no harm came of it.

Mr. Hampton stated that when the Scott Act was passed it was carried by a large majority of the ratepayers of the County of Wellington. This provision, as well as others, was well explained, and if this clause was not passed it would be in direct opposition to the wishes of the people. It was only to supply means to carry out the Act.

Mr. Wissler—If all the men are appointed it is all right, but the Council have nothing to show that they are.

Mr. Knott—If Mr. Wissler had read the papers or the *Gazette* he would have seen that these men were appointed. These gentlemen were not likely to say that they had a document from the Ontario Government certifying their appointment, unless they had it. He thought it would be a foolish move for the Council to go all the way around proposed by the appointing of a Committee to find out if they had received their appointment.

Mr. Coleman thought that the objection was a foolish piece of business and a waste of time.

Mr. McEwen spoke against the motion for the adoption of the clause.

On the amendment being put it was lost by a vote of 18 to 15, and accordingly the clause stood.

The grant to the Provincial Exhibition having been formerly discussed was passed over.

The grant of $5 0 for the town line road between Arthur and Egremont was thrown out, and also $200 for the townline between Minto and Normanby, Pike Lake; $500 for the Burway line; and $500 for the road between Peel and Maryborough.

The Committee rose, and the Warden took the chair.

An amended report was then presented excluding the items struck out in Committee. This new report was handled item by item with the following result.

Moved by Mr. Marshall, seconded by

Chronic and obstinate diseases that have baffled the skill of all other physicians a specialty. Such treated successfully without an instance of failure. Mention MERCURY Guelph. Ont. m16dcodwly

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

SCOTT ACT CASE.

Wm. Holliday Discharged.

The case against Wm. Holliday was resumed at 2 o'clock Saturday afternoon.

John Flaherty sworn, said on Saturday evening the 29th was at Holliday's brewery; met Hussey on the Waterloo Avenue and went down to Holliday's with him; Hussey said that he wanted to go and settle an account. I had two or three glasses of beer; don't know who gave me the beer; didn't see Wm. Holliday at all when I had the beer; don't know who handed me the beer; saw the cup handed to me but did not see the man who handed it; did not ask for the cup nor make any sign to get it, nor had no idea what was in the cup; I am no judge of liquor, I can't tell beer from other liquor; wouldn't say whether it was beer or not; it was not like the beer I have tested, there are different kinds of beer; it was strong beer; during the half-hour we were there we were talking; it didn't take five minutes to drink all that we had got, did not know that the beer was coming when I raised my hand out; don't know whether it was a treat from Holliday or not; did not go down to have a drink but went as company to Hussey; did not pay for any beer nor don't expect to pay; the door was open when we went out; refused no drinks and took all that came along; don't know how many sets of drinking parties there were; I went up street about 9 o'clock and got home about 11 o'clock; was sober when I got home; I get tight once and a while; got beer before in Holliday's; had not been there since about a month ago.

Luke Dillon sworn—I was at Holliday's brewery on Saturday; my business was to see what day Wm. would go fishing; we were sitting outside and Wm. Holliday asked me if I would not have a drink and I said I would; had two glasses; have a running account for beer (quarter barrels); Tim Sheady was there when I went down; came right up; neither saw Hussey nor Eli Snider; have treated at Holliday's and have been treated; wouldn't swear whether I had paid for beer since the Scott Act came in force; have got no beer by the keg since the first of May; have seen three or four given a treat; and have treated as many; think I paid Robert Gray once or twice for beer since the Scott Act came in force, but not to the Hollidays to my knowledge.

Tim. Sheady, sworn—was at Holliday's brewery last Saturday between nine and ten, and had two glasses of beer; the door was open and I walked in; went there for the purpose of having a drink and I had it; generally when I go down William treats me; I work there in the winter time; never paid for beer there and always got a glass whenever I went; it is not so that I ever come out of the brewery drunk; never take more than three glasses, and wouldn't care for any more; have been down every couple or three nights a week since the Scott Act came in force; neither pay for beer in work nor money; work for Burr Bros., I did not carry away beer from Holliday's in a pail since the 1st of May; I live near Holliday's, and have always been intimate with the boys who gave me beer before and after the Scott Act.

Eli Hussey, sworn—Was at Holliday's brewery on Saturday at nine o'clock in company with Flaherty and Smith; found the door open and walked in; saw one or two there, and could not tell who they were; went down to see Holliday about a slight mistake about an account for beer that I had got at Christmas; there was a difference of $1.50 in the account; Wm. told me that I had better wait and inform Tindall who had made the transaction; we remained for about half an hour in the darkness; had two or three tins of beer, three would be the outside; can't tell how I got it; it was put into my hands while I was talking; have not the remotest idea who handed me the beer; saw the hand that handed the beer, and only the hand, not the face; this kind hand may have been waiting for me five minutes before I saw it; it was neither Flaherty nor Smith who took the cup from me; could not tell who gave me the second cup; it just came the same way as the first; never even said thank you when I got the liquor; the three drinks I think would be divided equally in the half hour we were there; paid nothing for the beer and it is a kind of mystery to me who treated or where the beer came from; have not had beer often at Holliday's, nor have I had every time I went there.

Frederick William Johnston, sworn; Have had lots of beer there; had beer last Saturday week from Tindale Holliday—a tin cupful; called on an errand; that is all that I have had since the 1st of May; I bring my beer from Hamilton now and am independent of the Scott Act.

Mrs. Mary Flaherty, sworn:—John Flaherty is my son and he was home about twenty minutes past twelve on Saturday night: he was tight.

Wm. Holliday, the defendant, was sworn:—I was at the brewery last Saturday night; there are three steady workmen there; saw all the witnesses at the brewery on Saturday; may have given them a drink; can't say whether I did or not, but can swear positively I did not sell them any; we often treat our acquaintances, and it is customary to treat in other breweries.

To Mr. Guthrie—People come from morning till night; have no recollection that I sold beer since the 1st of May; my brother keeps the books; I make sales and so does my brother; don't remember of making any sales since the 1st of May, except under a druggist order; did not see Smith, saw Flaherty and Hussey; I don't know who was in charge of the brewery; left the cellar and the man was there beside the beer; any beer I gave I gave openly; it was not my hand that gave the beer.

Mr. Coffee then addressed the Magistrate. He held that there was no evidence to show that the beer had been sold, and that he ought to accept the evidence of the witnesses, all of whom told about the same story, and it was a most unlikely thing that they were all going to perjure themselves.

Mr. Guthrie reviewed the evidence at some length. He scouted the idea that these men drank the quantity of beer they said they had without paying for it. The thing would be ridiculous that a man would give away his property in this fashion. He referred to the apparent worthless character of the witnesses whose testimony could hardly be relied on, and the mystery which surrounded the whole thing. It was impossible for one to be drinking for half an hour and not even know who gave them the beer or where it came from. Under section 120 of the Canada Temperance Act he thought the Magistrate would have no difficulty in finding a conviction.

The Magistrate in summing up remarked that if these men had perjured themselves it was one of the evil consequences of the Act, and he agreed with Mr. Guthrie on the worthlessness of the characters whose evidence he had taken. He considered that no man's liberty would be safe under evidence such as Flaherty, Hussey and Smith gave. They were unworthy witnesses. He had been satisfied that there was a sale made until Mr. Holliday came into the box and swore to the contrary. His idea of how they got the beer now was that when Mr. Holliday went outside they helped themselves, and this would account for the mysterious manner in which it was passed around. He held that Sections 120 and 121 of the Act rea't together, and where there was no direct evidence of a sale, the Magistrate must dismiss. His Worship remarked that for two or three years past complaints had been made to him about carryings on at the brewery, and the establishment was being brought into disrepute and contempt. The generosity of the Holliday's was well known, and it was said they gave beer away, but out of respect for themselves they should be more careful to whom they gave it. To allow beer to be given away or taken in the fashion that it appeared to be done on Saturday night was not doing justice to his father.

The case was then dismissed without costs.

Horsford's Acid Phosphate.

As a Brain Food.

Dr. F. S. Newcomer, Greenfield, O., says: "In cases of general debility, and torpor of mind and body, it does exceedingly well."

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Mr. Hobson that the report of the Finance Committee as amended be adopted.

Moved in amendment by Mr. Gilmore, seconded by Mr. Knott, that the report of the Finance Committee as amended be not adopted, but be referred back and amended by making a grant of $200 to the Burway line, between the Township of Arthur and Peel and Maryboro'.

The yeas and nays asked for:

Yeas—Coleman, Corbett, Cross, Darroch, Gilmore, Hampton, Howes, Johnston, Knott, Long, McEwing, McGowan, McManus, Murdoch, O'Donnell, Powley, Reynolds—17.

Nays—Anderson, Benham, Black, R. J., Black, H., Burt, Carberry, Foote, Gordon, W. L., Gordon, H. B., Hobson, Kirkwood, Marshall, Nicoll, Mutrie, Rae, Reynolds, Robertson, Jas., Robertson, Jno., Robinson, Tolton, Wissler—20.

Moved in amendment by M. C. O'Donnell, seconded by J. Reynolds, that the report of the Finance Committee as amended be not adopted, but be referred back to be amended by making a grant of $250 for the improvement of the boundary line between the Counties of Wellington and Grey, lying between the Townships of Arthur and Egremont, on condition that the County of Grey will supplement the same with an equal amount. Lost.

Yeas and nays asked for:

Yeas—Coleman, Darroch, Gilmore, Hampton, Howes, Knott, McEwing, Murdoch, O'Donnell, Powley, Reynolds, John, —11.

Nays—Anderson, Benham, Black, R.J., Black, H., Burt, Carberry, Corbett, Cross, Foote, Gordon, W. L., Gordon, H. B., Hobson, Johnston, Kirkwood, Long, Marshall, McGowan, McManus, Nicoll, Mutrie, Rae, Reynolds, James, Robertson, Robinson, Tolton, Wissler—26.

Moved by Mr. Howes, seconded by Mr. Reynolds, that the report of the Finance Committee be amended by appropriating the sum of $250 for salary of the County Police Magistrate for one year from 1st of May, 1886. Lost.

Yeas and nays were called for and are as follows:

Yeas—Black, H., Coleman, Hampton, Howes, Powley, Reynolds, John—6.

Nays—Anderson, Benham, Black, R.J., Burt, Carberry, Corbett, Cross, Darroch, Foote, Gilmore, Gordon, W. L., Gordon, H. B., Hobson, Johnston, Kirkwood, Knott, Long, Marshall, McEwing, McGowan, McManus, Nicoll, Murdoch, Mutrie, O'Donnell, Rae, Reynolds, James, Robertson, Robinson, Tolton, Wissler—31.

Moved by Mr. Wissler, seconded by Mr. Cross, that that part of the finance report recommending the deposit of money to enforce the second part of the Canada Temperance Act of 1878 be struck out and amended as follows: "Your Committee cannot advise the deposit of any money for this purpose until such time as the Commissioners of West and South Wellington make similar estimates, and they are considered and approved of by a committee consisting of Messrs. Hobson, Darroch, R. J. Black, W. L. Gordon, Cross, Wissler, McEwing and Robertson. Lost.

The yeas and nays were called for.

Yeas—Anderson M., Black R. J., Carberry, Thomas, Corbett John, Cross Jas., Darroch John, Foote David, Gordon, W. L., Gordon H. B., Johnston, Long, McEwing, McGowan, McManus, O'Donnell, Reynolds James, Robertson, Wissler—18.

Nays—Benham, Black H., Burt, Coleman, Gilmore, Hampton, Hobson, Howes, Johnston, Kirkwood, Knott, Marshall, Nicoll, Murdoch, Mutrie, Powley, Rae, Reynolds John, Robinson, Tolton—19.

Moved by Mr. Powley, seconded by Mr. Long, that the report of the Finance Committee be not passed, but be amended by granting the sum of $500 to improve the boundary line between Peel and Maryboro, providing Peel and Maryboro each give the sum of $200 and the village of Drayton $100. Lost.

The report was then adopted.

BY-LAWS.

Moved by Mr. Kirkwood, seconded by Mr. Burt, that leave be given to introduce a by-law to appoint two valuators to value all the real property in the county for the purpose of equalizing the same, and that it be now read a first and second time. Carried. By-law read.

Moved by Mr. Hobson, seconded by Mr. Rae, that leave be given to introduce a by-law to authorize the raising of money in advance of the assessment to defray the ordinary current expenditures of the county for the year 1886, and for giving security therefor, and that the same be read a first and second time. Carried. By-law read.

Moved by Mr. Mutrie, seconded by Mr. Benham, that the by-law for closing a certain road allowance situate in the South East side of the west half of lot 18, in the sixth concession of the Township of Eramosa, be read a third time and passed. Carried.

The by-law was read a third time and passed.

Moved by Mr. Hampton, seconded by Mr. Coleman, that the by-law appointing an inspector for the removal of obstructions in Mr. Kinley's creek, be now read a third time and passed. Carried.

By-law read a third time and passed.

On motion of Messrs. Hobson and Rae, a by-law was read a first and second time providing to levy rates and provide for expenses and liabilities of this county for the current year.

On motion of Messrs. Wissler and Howes, a by-law for equalization of taxation was read a first and second time.

PRINTING TENDERS.

The Warden read a communication from Mr. T. C. Dean, proprietor of the Drayton *Times*, stating that he had tendered for the County printing at the January session, that his tender was the lowest but the contract was not awarded to him, and asking the Council to consider the matter and grant him the printing for the balance of the year. Referred to Printing Committee.

COUNTY PROPERTY.

Mr. Nichol, chairman of the Property Committee presented his second report.

He recommended the payment of the following accounts:—A. B. Petrie, comb and brush $1.25; George Howard, stovepipes and repairs $3.80.

In reference to the petition of Edward Young, a recently appointed constable for a pair of handcuffs and nippers, we recommend that it be granted.

Your Committee after having considered the communication of Judge Drew, to have a vault constructed in his chambers would recommend the same.

Your Committee have further to report that they have met the Inspector of Prisons, Dr. O'Reilly, with reference to the heating of the jails with hot water, to which the attention of this Council has been previously drawn. Your Committee have received a rough estimate of heating under the proposed system, which will not exceed $1,500. We would ask to be authorized to have specifications drawn and tenders received and the work proceeded with immediately after the adjournment.

Mr. Nicoll explained that the Inspector had examined the jail and threatened to have it thoroughly heated if the Council did not.

BOUNDARY LINE BRIDGES.

Mr. Mutrie, chairman, reported: Your Committee beg leave to report that the amounts spent on boundary line bridges since the session held in November last were as follows: West Garafraxa, $33; Peel and Wellesley, $12.50; Garafraxa and Nichol, $7.04; Minto and Normanby, $5; Peel and Wellesley, $6.75. Your Committee would also recommend the payment for repairs on bridges between Maryborough and Mornington, amounting to $18. In reference to the account of C. S. Forest for damage to buggy on Hewit's bridge, your Committee would recommend that the same be left over to the December session, with instructions to the Commissioners to inquire into the matter and report as to the justice of the claim at the next session of the Council. Total amount expended on boundary line bridges since the June session, 1885, $1,140.65; appropriation $3,000, balance $1,853.35. Your Committee consider balance will be sufficient to defray the expenses of boundary line bridges for the current year.

On motion of Mr. Mutrie and Mr. McGowan, the report was adopted.

EDUCATION.

Mr Hampton, chairman reported recommending the payment of the following accounts:—W. J. Gage & Co., examiners papers $5; J. T. Skales, foolscap, $10; Inspector Clapp's account, $7.77; A. McCready, post stamps, $12.35. Regarding the petition of James McEwan and others from School section Nos. 3 and 6, in the township of Howick, and 6 and 8, in the township of Minto, your Committee find that this Council have no jurisdiction, the the township of Howick being in another County. With regard to the petition of A. McAdams and others, from school sections Nos. 12 and 4, in the township of Minto and sec. 5 and 6 in the township of Arthur, your Committee recommend that arbitrators be apppinted in connection with County Judge and County Inspectors, Arbitrators to be John Mutrie, John Mair, and John Rea. Regarding the petition of Fergus and Harriston requesting that another model school be established we recommend no action be taken. The accounts of Inspector Craig came in too late to be dealt with.

VALUATORS.

The Council then voted on two valuators. The names proposed were John Prain, John Mair, Henry Dunbar, Wm. Armstrong, Jas. McEwen, Robt. Stevenson, John Harcourt, John Rae, Harvey Cull and John Patterson. Prain was elected on the 1st vote by 28. After considerable voting Messrs. Mair and Armstrong tied at 19. On another vote being taken Mr. Mair was elected by four votes. The fee of the valuators was fixed at $2 a day.

The Council then adjourned.

"What is McGregor's Speedy cure for"?

It is for dyspepsia, liver complaint, indigestion, biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by Thos. S. Petrie, Druggist.

An Armor Plate that Shot Cannot Pierce.

The latest victory in the long drawn match between the gun and the armor plate has been scored in favor of armor. At Spezzia a German chilled steel armor plate, five feet nine inches in thickness, weighing 100 tons, was fixed against the face of the cliff and battered with chilled shot from the 100-ton gun. A thunderbolt weighing almost exactly a ton was hurled against the face of the plate by the explosion of 7½ cwt. of powder without producing more than a slight indentation and some trifling cracks. Three shots failed to make any serious impression upon the plate, which has thus come off victor in the struggle. It would seem that no shot yet invented will go through six feet of chilled steel.—*Pall Mall Gazette.*

"Reader," in informing you of this wonderful remedy for coughs, colds, asthma, bronchitis, consumption, and all affections of the throat and lungs, we feel that we are doing you a great kindness, as if you have any of the above complaints, if you will only try it we will guarantee satisfaction in every case or money refunded. Ask for McGregor's Lung Compound. Price 50c and $1.00 per bottle at Thos. S. Petrie's Drug Store.

Wrecked Vessels.

COLLINGWOOD, June 6.—The wrecking tugs "International" and "Charlton" arrived at noon to-day with the wreck of the propeller "Quebec" in tow, and also the lighter "Starling." The "Quebec" was docked this afternoon, and a survey will probably be held to-morrow to determine the extent of the damages. The cargo of the wrecked vessel appears to be in a very fair condition, and is estimated to bring $20,000. The "Starling" has on board 500 barrels of flour, which formed part of her deck load.

Victims of Mock Marriage.

OTTAWA, June 5.—Dr. Lovell, who in today's *Canada Gazette* gives notice of an application to be separated from his wife, is the victim of a mock marriage ceremony. Popular rumor had spread it about that he was to marry Miss Ada Mary Eaton of Newburgh. They have been friends from childhood, but no thought of marriage had ever existed in their minds. The young couple chanced to meet in September, 1882, in a friend's house in Hamilton and went through the marriage ceremony as a joke. The ceremony was performed by a young clergyman, and sometime later it was discovered that the ceremony was really binding. Miss Eaton got married to another man before the mistake was discovered, and application for separation is made to endeavor to right matters.

The Absconder Capiased.

MONTREAL, June 5.—Messrs Morris and Holt, of this city, have taken a seizure before judgment, in the name of the Canadian Bank of Commerce against Mr. Alfred Finnemore, of London, Ont., for $20,000, amount alleged to be due the bank as balance of an account. Eighteen shares of Merchant's Bank stock have been attached in connection with this seizure. Mr. Finnemore has already been capiased in Ontario.

OUR Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

WILL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our **genuine Coraline**, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT,

Branch Office, 37 Yonge St., Toronto.

Grand Trunk, Valise —AND— Satchel Display

Fine Weather.

Moderate winds, fine weather, moderately warm during the day; cool at night.

Local News

BREAD has risen to 11 cents in Hamilton.

DINNA forget the Caledonian committee meeting at Ellis' hotel to-night.

Now that strawberries are ripe in the Niagara peninsula the price should begin to fall.

THERE is a large hole in the middle of Allan's bridge which requires looking after, as it is dangerous for horses.

Two soap vendors came to grief this morning. They made a sudden turn of a street corner, and the result was that one of the wheels was broken.

THE Guelph and Ontario Investment and Savings Society have declared a half yearly dividend of 3½ per cent. on the paid up capital stock, payable on the 2nd July.

SPECIAL Capt. McHardy and Staff Lieut. Golds of the Salvation Army, who have been in Guelph visiting their parents, left to-day for headquarters in Toronto.

MR. JAMES LAIDLAW, M. P. P., to-day delivered to Messrs. J. & R. Millar ten choice steers and heifers rising two years old for their butcher business.

THE General Assembly of the Presbyterian Church of Canada meets in Hamilton to-morrow. It is eight years since the Assembly met there, at which time the Rev. Dr. Jenkins, of Montreal, acted as Moderator.

THE other day Mr. John Turnbull caught 72 fine trout with the fly, at Horning's Mills. Judge Chadwick, Messrs. F. Chadwick, F. Hall and Thos. Watts left to-day for a three days pic-nic to the same place.

As will be seen by advertisement in another column, Mr. James Mark's, Nassagaweya, has forbidden parties fishing on his premises. The number who went to his creek compelled him to take this step, so in future fishermen had better look out.

MR. ROBT. E. BROWN arrived last night from Montreal, where he had been competing in the amateur athletic games there. He came out most successfully, having won two handsome silver medals, one for vaulting and one for running high jump.

CHALMERS' Church Sabbath School have recently purchased a new library at a cost of about $150. This together with the books formerly in the library makes it one of the best equipped Sabbath school libraries in the city. The books were ordered through Mr. T. J. Day.

MR. JAS. HAWKINS, Pearl street, last night had a quantity of onions stolen from his garden. Depredations of the same kind were committed last year. Mr. Hawkins has a good idea of who the parties are, and if a repetition of the offence is committed will have them punished.

REMARKABLE accuracy is now attained by engineers in cutting tunnels through mountains, working from both ends. Thus at the Musconetcong tunnel, on the Lehigh Valley road, the alingment tested to .04 feet, or less than half an inch. In this case levels were run five thousand feet long.

GUELPH SCIENTIFIC SOCIETY.—The paper this evening on "The Wild Flowers of Guelph in the month of May," promises to be most interesting and instructive. The meeting will be in the Congregational Church basement at eight o'clock. All cordially invited. Any desiring to join the Society should make their wish known to some member of the council and secure membership tickets in time to take advantage of the excursions promised.

ROYAL TEMPLARS.—The following are the officers of Drayton Council, No. 212, Royal Templars of Temperance, for the half year beginning 30th June, 1886:—S. C., Phineas Henry, V. C., Lucius R. Adams; P. C., W. H. Whealey; Chap., James B. Draper; Rec.-Sec., H. S. Mitchell; Fin. Sec., J. J. Davidson; Herald, E. W. Riley; Guard, Wm. Richards; Sentinel, George Deans; Council Physician, S. P. Emes; Trustees, L. R. Adams, W. H. Whealey, S. P. Emes. Council meetings on Tuesday evenings.

RAVENNES AGAIN.—The Berlin *News* says:—We learn from a Buffalo paper that the young man Ravennes, who was tried here at the late assizes for the murder of a boy named Jiertz, and acquitted, has again got into trouble. We thought and felt at the time of the trial here that far too much gush and mock sympathy was wasted over him, when ninety-nine out of every hundred people in the county believed and still believe that he killed Jiertz. But that in passing. This time he broke into a house at East Aurora, N. Y., while the family were all at church, and stole forty dollars in money, a rifle and some clothing, altogether valued at about $100. He was arrested, and when he felt denialy was useless, confessed his crime. He was sentenced six months to penitentiary and to pay a fine of $50, which it is said he will have to work out. He will likely end his days on the gallows yet.

CLOSE OF A MISSION.—The Hamilton *Times* says:—The mission conducted by the Jesuit Fathers, under the leadership of the Rev. Father Doherty, during the last fifteen days, has come to a successful termination. The attendance during the whole period was exceedingly good, especially at the 5 o'clock mass every morning. Over four thousand received holy communion. The lectures delivered by Father Doherty at 7.30 each evening had a powerful influence on all who had the pleasure of listening to him. He is an eloquent and refined orator and his lectures embraced all the subjects of greatest interest to the human race, namely: the creation, sin—its evil effects and the punishment attached to it, death, heaven, hell and judgement. Seldom, if ever, has there been a priest conducting a mission in St. Mary's who has left such a deep impression on the minds of his hearers as Rev. Father Doherty. At the termination he gave the papal benediction, after which the large congregation arose and renewed their baptismal vows.

IN the Royal Templars a young man or woman under 25 can carry $1,000 insurance, by paying 50 cents a month, and other ages in proportion. For further information see W. G. Smith or Wm. R. Bartlett at Petrie's upper store.

CITY COUNCIL.

Opinion About Money for Enforcing the Scott Act.

CHARGES AGAINST THE CHIEF.

The Exhibition Grounds Allowed to Excursionists.

MEMBERS TO WIELD THE WILLOW.

The 15th of July to be Proclaimed Decoration Day, and the 12th of August Civic Holiday.

The regular meeting of the City Council was held on Monday evening. Present—Mayor Stevenson in the chair, Ald. Lamprey, Chadwick, Keough, Bruce, Maddock, Cutten, Smith, Hewer, Raymond, Read, Hamilton, Husband, Skinner, Coffee, W. Carter.

COMMUNICATIONS.

The following communications were read:—

From John A. Wood, tendering his resignation as a member of the Free Public Library Board.

From Johnston & McLean, asking damages on behalf of William Wells, whose little girl fell over the Pound Creek bridge and received serious injuries.

From N. Higinbotham, calling attention to the fact that the Grand Trunk Company had as yet taken no steps to open the street between the second and third ranges and stating that if the matter was not attended to it would be placed in the hands of the Grand Jury.

From Prince Arthur's Loyal Orange Lodge, asking the use of the Exhibition building and grounds on the occasion of their Toronto brethren's excursion to this city, on Dominion Day.

From Alexander McQueen, asking $100 damages, caused by water running off the Eramosa Road into his garden.

From James Armstrong, tendering his resignation as Assessor on account of illness, and expressing regret at severing his connection with the city after 26 years' service.

From E. Newton, chairman of the Board of Education, challenging the Council to a cricket match.

From George Brill, chairman of the Committee of the I. O. O. F. stating that the Oddfellows had appointed Thursday July 15th decoration day and asking the Council to proclaim half a holiday as last year.

From Thomas Kickley, calling attention to a defective drain and threatening an action for damages to his property.

From James McNaughton asking $15, the amount of damage done his house by a bad drain.

From D. Stirton and others asking for a water supply on Arthur street.

From Robert Ward, asking $12 damages sustained by the bursting of a water main on Queen street.

From J. D. Williamson & Co. and forty others, asking that Thursday August 12th be proclaimed the civic holiday.

From James Mills, of the O. A. C., asking that $2.50 wrongfully charged him in water rates be refunded.

The Mayor read a letter from Mr. Innes regarding the Guelph Junction Railway.

SCOTT ACT EXPENSES.

From the City Solicitor as follows: In regard to the questions submitted for my opinion, touching the payment by the city of the expense of carrying out the second part of the Canada Temperance Act 1878, commonly known as the Scott Act, I beg to give my opinion as follows: I am of opinion that under Sec. 6, of 41 Vic., Chap. 14, as amended by Sec. 11 of Chap. 27, 44 Vic., Ontario, it is the duty of the City Council to pay, when the license fund is insufficient for the purpose, two-thirds of the expenses referred to and the proportion of such expenses are payable within one month after an estimate of the amount of the expenses has been made by the Board of License Commissioners and approved by the Provincial Treasurer, the approval of the Provincial Treasurer being final and conclusive. Under Sec. 14 of Chap. 27, 44 Vic., the Council of the City may if they see fit from time to time set apart any sum of money for the purpose of paying any officer for enforcing or assisting to enforce the Scott Act, etc., and the Council has power to appoint one or more officers or persons to enforce or assist in enforcing the provisions of the Act and pass by-laws for the government or control of such officers or persons and define their duties and mode and amount of payment. It is optional with the Council to exercise or refrain from exercising the powers conferred upon them in the last mentioned Section 14.

PICNICS.

Moved by Ald. Hewer, seconded by Ald. Maddock, that the petition of C. Marriott for the use of the Exhibition ground be granted, also that the same privilege be granted to the York Pioneers on the 22nd of June.

After a slight discussion the resolution was carried.

CRICKET.

Moved by Ald. Cutten, seconded by Ald. Maddock, that the challenge of the Board of Education for a cricket match be accepted, and that Ald. Husband, Smith and Cutten be a committee to carry it out.—Carried.

DECORATION DAY.

Moved by Ald. Hewer, seconded by Ald. Smith, that the petition of Geo. J. Brill for setting apart the afternoon of the 15th of July as a half-holiday to decorate the graves of deceased brethren be granted.—Carried.

CIVIC HOLIDAY.

Moved Ald. Smith, seconded by Ald. Hewer, that the petition of J. D. Williamson and others for having Thursday the 12th August proclaimed Civic holiday be granted, and that the Mayor issue his proclamation to that effect.—Carried.

THE ASSESSOR'S RESIGNATION.

Moved by Ald. Smith, seconded by Ald. Hewer, that the resignation of Col. Armstrong be accepted, and that this Council sincerely regret the illness which causes Col. Armstrong to resign his position as Assessor. In parting with Mr. Armstrong we take this opportunity of placing upon record the fact of the long and valuable services which he has rendered to this city as Assessor and Chief of the Fire Brigade during the past 26 years. As members of this Council we deeply sympathize with Col. Armstrong and his family in this time of affliction.—Carried.

FINANCIAL.

Ald. Cutten, chairman, reported recommending the payment of the following accounts:—Wm. Russell, 655, dog tags at 6 cents, $39.30; T. J. Day, $5.50, J. J. Sutton, $3. Adopted.

BOARD OF WORKS.

Ald. Maddock, chairman, reported for the Committee. We recommend that the petition from N. Croft for a 6 foot sidewalk on the east side of Norfolk street from Suffolk to Hatch's corner be granted. Also the payment of $16.29 to Harvey & Co. for nails, and $77.18 to D. Porter for lumber—$93.47. Adopted.

FIRE, WATER AND GAS.

Ald. Skinner reported:—Total expended to Nov. 31st $1,584.25, amount expended from Nov. 31st to May 31st, viz:—Firemen's salaries, $179.17; J. Carter, hay, $8.55; Chief Armstrong, $37.50; J. Hewer, $22.50; Gas Co., $185.50; A. Robertson, $20; Harvey & Co., $6.76; G. Norrish, $1; Bond & Co., $140; George Murton, $14; T. Davidson, $58.60; T. Fenwick, $2.75; C. W. Reynolds, $7.20; Little, $7.26; water acc. $490; W. H. Mills, $25.25; Kloepfer & Richardson, $17.90; Thomas Hewer, $30; Telephone Co., $37.50—total expenditure to date, $3,187.09; amount to credit of committee, $3,312.91. Your committee have examined the following accounts and recommend that they may be paid:—J. M. Bond & Co., $12.27; Harvey & Co., $19.90; T. D. Anderson, $8.75—$40.92. Adopted.

PARKS AND SHADE TREES.

Ald. Lamprey, chairman, reported recommending that E. Stovel's account of $4 be paid. To balance on hand 5th April, $164.90, additional appropriation, $250—$414.90. Paid T. Barrett, excavating for water pipes St. George's Square fountain, $3.75; George Cross, removing stones from old cemetery park, $2.50; T. Barrett, do., $7.75; F. Heffernan, ploughing old cemetery, $12.50; John Marriott wages to date, $134.58. Balance to credit $253.82—$414.90. Adopted.

BY LAWS.

On motion of Ald. Coffee and Carter, the Council went into Committee of the Whole on a by-law to impose and levy rates for 1886, Ald. Maddock in the chair.

The Council went into Committee on the by-law to provide for the collection of taxes, Ald. Husband in the chair.

The blanks in both by-laws were filled up, and they were read a third time in Council and passed.

APPLICATIONS FOR ASSESSOR.

Moved by Ald. Cutten, seconded by Ald. Lamprey, that the Clerk be instructed to advertise for one week in the city papers for applications for the office of Assessor for the city of Guelph. Carried.

THE EXHIBITION GROUND.

Moved by Ald. Smith, seconded by Ald. Lamprey, that the By-law Committee be instructed to prepare a by-law for the purpose of receiving a revenue from the lower portion of the Exhibition grounds by erecting a fence, stands, booths, &c., &c., and to enable the city corporation to collect fees therefor.

A discussion arose on this question and continued for some time. Only three voted for the motion, the remainder being of the opinion that it was the only public park we had and should be kept open.

ABOUT THE CHIEF.

Moved by Ald. Keough, seconded by Ald. Lamprey, that a Special Committee be appointed, consisting of Ald. Smith, Read, Skinner, Coffee, and the mover, to investigate certain charges pending against F. W. Randall, Chief of Police, and that the committee report at next meeting of the Council or at a special meeting to be called at an earlier date if the committee deem it necessary.

The Council decided that the nature of the charges should not be made public until the committee reported.

The motion was carried.

THE YORK PIONEERS.

Moved by Ald. Hewer, seconded by Ald. Husband, that the following be a Special Committee to receive the York Pioneers on their excursion to this city on 22nd of June, also to draft a suitable address, as follows:—Ald. Cutten, Chadwick, Smith, W. Carter, and His Worship the Mayor.

After some amusing discussion the motion was carried.

THE CITY BAND.

Ald. Smith brought in a motion for drafting a by-law so that the City Band could be paid $200 for their services to the city during the year. The Alderman explained that it was illegal to give a grant and the question could be legally settled in this way. The motion was withdrawn on the consideration that the Finance Committee would report on the petition sent in by the City Band some time ago.

ARTILLERY GRANT.

The Mayor asked the Clerk to read a communication received after the others had been considered. It was from Col. Macdonald, asking for the usual grant of 25cts. per day to each man of the Artillery Brigade while at their annual drill.

Moved by Ald. Read, seconded by Ald. Husband, that in future no intoxicating liquors of any kind be admitted into the public buildings and parks of the city.

Several members spoke for and against the motion, when a motion of adjournment was put and carried, thus leaving the matter in abeyance.

Sporting Notes.

BASEBALL.

The Maple Leafs played the Adrians yesterday and won easily. The following was the score:—Maple Leafs—14 runs, 19 base hits, 4 errors; Adrians—4 runs, 5 base hits, 12 errors.

INTERNATIONAL LEAGUE.

At Syracuse, Toronto 9, Syracuse 6. At Binghamton, Binghamton 4, Hamilton 3. The Hamiltons left the ground and the umpire awarded the game to Binghamton by 9 to 0. At Oswego, Oswego 5, Buffalo 6.

The Maple Leafs play the Hiawathas in Detroit to-day.

The Lindsay Baseball Club is composed of courageous material. They are arranging to play matches with the Syracuse, Rochester, Toronto, Hamilton, Guelph and London teams.

LARGE SCROTAL HERNIA.—It is really surprising the changes of late years in the treatment of Rupture. Only a few years ago large Scrotal Hernia or Rupture could not be held by trusses. Now Mr. Charles Cluthe, the celebrated truss inventor, offers to all these people a success or no money. He goes even further than this. He offers a 300-mile return ticket on any railway to any one whose rupture he cannot hold. Mr. Cluthe is a responsible man, and above the reproach of taking advantage of people for the sake of the price of a truss. Mr Cluthe will be at the Victoria Hotel, Guelph, on Thursday, June 10th.

FRESH strawberries, tomatoes, cucumbers, pine apples, bananas, etc., at George Williams', 81 and 83 Upper Wyndham street.

County Court.

(Before His Honor Judge Drew.)

Court House, June 8.

The County Court and Quarter Session opened at one o'clock this afternoon, His Honor Judge Drew presiding. There are only two civil cases and no criminal cases set down so far.

The conviction in the appeal case of A. C. Atherton, of Fergus, against George Allan, Fergus, for assault tried and convicted by Mr. A. Taylor, J.P., Fergus, was quashed.

Purcell v. Farrell—Action for wages. The parties live in Arthur. Case referred to arbitration by consent of both parties. Mr. Guthrie, Q. C., for plaintiff. Mr. E. O'Connor for defendant.

THE Devon County Show, held this year at Axminster, was attended by the movable stand of the Canadian Pacific Railway Company. Among Devonshire farmers knowledge of the Canadian North West has been greatly extended during the past two or three years. Formerly Canada was not regarded at all favorably, from sheer prejudice and want of knowledge, and whenever emigration was thought of, Australia was the only place to which they cared to go. Judiciously distributed literature, such practical efforts as these country shows permit, and also a measure of emigration to the Province, have happily changed this, and, for the first time in this part of England, Manitoba might last week have been heard spoken of as "the place to go to," while the farmers and rustics showed in many cases a fair knowledge of the geography and characteristics of the North West. The weather was not, unfortunately, of the most favorable nature, though the attendance of the farming classes reached a total of some 25,000 to 30,000, among whom a satisfactory distribution of publications was made. After the Devon meeting, the Wharfedale Show was attended at Oxley. This is one of the oldest of Yorkshire shows, and good work was done among the West Riding farmers. —*Canadian Gazette.*

IMPROVED COOKERY.—It is a remarkable fact and a very satisfactory one, that as civilization progresses and intellectual work increases, making increased calls upon the human frame in order to respond to these new requirements, cookery should have made immense progress, and by it efficient assistance to digestion, should have enabled humanity to find physical power enough to carry out the immense intellectual labor to be performed in the present day. Modern science has taught us the necessity of altering our system of cookery completely, and to turn our attention, above all, to the production of light dishes, highly palateable and easy of digestion. Liebig Company's Extract of Meat is one of the most efficient means to attain that object. As Francatelli states, "The stockpot is the very soul of fine cookery, and Liebig Company's Extract is the most perfect stockpot," both as regards fine flavor, perfect keeping and cheapness, and it has come to this now, that no experienced cook, not even the best *chef de cuisine* in Paris, would undertake to cook a really fine dinner without the use of Liebig Company's Extract of Meat. It may be truly asserted that at the present time there is scarcely a well-to-do household throughout England, France and Germany, and other countries, which does not constantly and largely use this Extract of Meat, the consumption of which is increasing steadily from year to year. The United States and Canada also are consuming Liebig Company's Extract of Meat in surprisingly increasing quantities.

THURSDAY night "The Miracle of the Roses", will be given in Our Lady's Church, by the pupils of Loretto Academy, assisted by Miss Rose Braniff and Prof. Philip. The pupils of Loretto have been rehearsing this piece for some time past, and they are sure to do it justice to-morrow night. The City Band will furnish music.

A FERGUS letter to the *Globe* says:—An old man, calling himself Benjamin Cook, about 80 or 90 years of age, and a cancer doctor, died very suddenly about two miles from here yesterday. He has two valises with several bottles with something like medicine in; no papers to give any clue to his home or to his friends, and no money except 50c. He said he had relatives in Toronto.

The Kincardine Firemen's tournament and band competition will be held in Kincardine on the 23rd and 24th June. We have to thank the Committee for a press badge entitling use to all the amusements of the days. Mr. E. C. Dack, formerly of the MERCURY office is the indefatigable secretary. What Ed. takes in hand to do he does well.

GUELPH Council, No. 127, Royal Templars of Temperance, is flourishing like a green bay tree. The membership is increasing so rapidly that the Council has leased the two rooms immediately over Mr. Jones' dry goods store, which will be turned into one hall and afford more commodious and convenient quarters than those already occupied by the Council. From present prospects the membership is likely to be more than doubled during the current quarter. d1

CHURCH OF ENGLAND TEMPERANCE SOCIETY.—A business meeting of this society will be held in the small school room of St. George's Church this evening at 7.30 o'clock. d1

Thomas Clark Luby, the Fenian leader, says if Mr. Gladstone's Home Rule bill fails, so much the worse for England.

"Why are you walking so quickly ma?" cried a bright eyed little maiden of five years to her beloved parent. "I am going to Hughes' sale; everybody in Guelph is there," replied the anxious mother.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synonym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

The Evening Mercury

TUESDAY EVE'G JUNE 8, 1886.

The Home Rule Bill.

The fate of the Bill granting Home Rule to Ireland has been sealed in the Imperial Parliament, being rejected on the second reading by a vote of 341 to 311, or a majority of 30. After the division Mr. Gladstone moved the adjournment of the House until Thursday, which was carried. When the Commoners re-assemble it will be seen what course is to ensue, whether the opponents of the Bill will be given an opportunity to form a coalition Government, and a chance to carry on the administration of the country, or whether the House will be dissolved forthwith and an appeal made to the people on the question. The latter we should think the most likely course, it being in consonance with British ideas of government that the electors should decide all matters of policy of such grave import.

It is to be regretted that Parliament has thus thrown out the measure without even affirming the principle of Home Rule. The Bill has been under discussion since the 8th of May, during which time Mr. Gladstone modified his demands by agreeing to accept in Committee such amendments as would be deemed generally satisfactory, thus shewing a desire only to have the principle affirmed. In this he has failed, but at the same time his introduction of the measure and the discussion which has taken place upon it together have reconciled many people to Home Rule who formerly viewed it with distrust and disfavor, and has educated the country as a whole to look upon it as a probability of the future. It may even carry in the country now if submitted, for powerful as Mr. Gladstone is in Parliament it is on the platform that his giant influence among the masses is felt with greatest effect. There will be allied against him, besides the Tories, many prominent Liberals who formerly did great things in his service, but now that they have abandoned him their powers will be weakened. On the other hand he will be supported by the Parnellites who opposed him so strenuously before and he will also have the assistance of a large class among whom the feeling is growing that concession and not coercion is the proper way to deal with Ireland.

HON. EDWARD BLAKE and Hon. A. S. Hardy will address the electors of Norfolk and adjoining district on the political questions of the day in Jackson's Grove, Simcoe, on Friday, 25th inst.

THE Winnipeg *Free Press* shows how the duty on early strawberries works in that Province. A fruit dealer sent for 24 boxes, the first cost being $2.40. The freight was $4.15 and the duty $5.05! Thus the contingencies were over four times the original cost.

IT is not believed that the Dominion Government will bring on the elections this year unless they consider their chances good as judged by the result of the Provincial elections in the Maritime Provinces. That they do not expect the most favourable results is inferred from the haste displayed by the Ministers of Finance and Justice in going to the assistance of their friends in the Nova Scotia elections. Besides the campaign at present in progress there, the Prince Edward Island Tory Legislature has been suddenly prorogued and an election takes places in that Province on the 30th June. The Quebec Ministers will bring on the Local elections some time this summer at a period to be fixed according to the success scored by their friends in the Lower Provinces. The Manitoba elections will also come off during the summer.

OUR esteemed contemporary, the *Herald*, has thrown off the mask, and comes out boldly in opposition to the Scott Act. One would really imagine from the exaggerated manner in which it points out the defects of the law as applied here, and the way in which it ignores and overlooks any and everything good about the measure, that it had a personal interest in the sale of liquor. But, however that may be, if the *Herald*, as it asserts now, knew so much bad about the Scott Act before it was submitted to a vote, why did it not discharge its duties as a public journal, and give the public the benefit of its knowledge? It will do not in view of this previous knowledge for it to pose now as an independent onlocker in the strugele only awaiting a practical test to announce its opinions. A better reason for its present opposition must be advanced. It may be the case, as our contemporary charges, that dubious evidence is given in the prosecutions, but that is not a result of the Act. The man who would perjure himself while testifying in such cases, would do the same thing under the Crooks, or any other Act, and his word is as worthless as himself. It is a mean business to rush to the defence of such a man and try to account for and excuse his lies by condemning the law. As for the illegal sale of liquor, no doubt there are plenty of people contemptible enough to sneak into back rooms and under the cover of darkness, satiate their appetites for liquor, but the temperance people will be moderately well satisfied if drinking is restricted to such, and it has been limited greatly notwithstanding the *Herald's* wail.

Guelph Conference.

GODERICH, Ont., June 7.—The Conference Love Feast was held yesterday from 9.30 to 11 a. m., conducted by the Rev. Josiah Greene. It was large, full of interest, and marked with great spiritual unction. The experiences, chiefly by aged ministers, were clear, beautiful, and joyful.

At 11 a. m. General Superintendent Carman entered the pulpit, and announced his text after preliminary exercises. The sermon was unique, clear, appropriate, and delivered with great energy, and was enjoyed by an immense audience collected from miles around the town, as well as of the town itself. After the sermon the young men received into full connection were ordained by Dr. Carman, and Dr. Griffin, assisted by several senior ministers.

At 3 p. m. the Conference Church was filled with Sabbath School children, teachers, and visitors. The service was conducted by the Superintendent, Mr. R. W. McKenzie. The school was addressed by Revs. G. A. Gifford, M. A., and J. S. Colling. The Sabbath School of Victoria-street was addressed by Revs. J. W. Robinson and Wm. Hincks.

At 7 p. m. the pulpit of North-street Church was occupied by Rev. Wesley Casson, who delivered a sermon of great beauty and power upon Isaiah xL, 6 8. After the public service the sacrament of the Lord's Supper was administered by Rev. D. C. McDowell, assisted by several others. Rev. Wm. Smythe preached in the Victoria-street Church at the same hour, and Rev. Mr. McAllister administered the sacrament. The pulpits of other churches in town were also occupied by ministers attending Conference.

GODERICH, June 7.—This morning the Conference opened at 9 o'clock, President Griffin in the chair. The report of the Conference Special Committee was read by Rev J. W. Holmes. The report of the Church Property Committee was read by Rev J. Galloway and adopted unamended. Upon motion of Rev. D. C. McDowell, ex-President, seconded by Rev. J. Gray, the thanks of the Conference were presented to Dr. Carman for the sermon he preached at the ordination services.

A deputation from the Women's Missionary Society was received. An appropriate and beautiful address, referring to their work and its necessity and asking the hearty co-operation of Conference, was read. The President conveyed to the deputation the pleasure it was for the Conference to receive them, and assured them of the deep interest which was taken in their work.

A telegram reporting the death since the opening of the Conference of Rev J. Scott, of Owen Sound, was received and a reply of condolence was requested by the Conference to be conveyed to the family.

The pastoral address was read by Rev. J. E. Howell, M. A., and adopted.

The election of alternate delegates to the General Conference, not elected before, took place this forenoon, and resulted as follows:—Ministerial, Wm. Tindale and J. Webster; lay, Andrew Morris, Thomas Whale, J. J. George.

In the afternoon, Rev. G. Buggin, Treasurer of the Children's fund, presented his report, which was adopted. The assessment per member recommended is one cent.

Rev James Gray, Treasurer of the Superannuation Fund, was introduced to the Conference and spoke at considerable length upon the receipts and disbursements of the Fund. His report was adopted.

Rev. Dr. Withrow was introduced to the Conference, and spoke of the periodicals under his editorial management, showing their great prosperity and development, the last year being most prosperous, subscribers to the Magazine being more numerous than ever, and the Sunday School papers having a circulation 250,000 copies, which is not confined to the Dominion of Canada, but extends to the Udited States and also Australia.

Conference adjourned at 5 p. m.

The Wimbledon Team.

OTTAWA, June 5.—The Canadian contingent for Wimbledon will sail from Quebec on the 24th inst., under command of Lieut.-Col. Tyrwhitt, M. P., with Captain Prevost, of the 65th Battalion, second in command. The team is believed to be stronger than usual, being made up of, with one exception, the twenty who stood highest in the grand aggregate at last year's annual meeting of the Dominion Rifle Association. In former years many of those making the highest scores were unable to go to England, and substitutes would have to be selected from among those making smaller scores. As soon as Liverpool is reached the Canadian riflemen will go to Cambridge for a week's practice preparatory to entering for the Wimbledon matches. The following competitors compose the team: Sergt W O King, 45th Batt; Staff Sergt J B Mitchell, 45th Batt; Sergt Alex Wilson, 33rd Batt; Sergt W J Pound, 37th Batt; Sergt J A Armstrong, G G F G; Sergt J Rolston, 37th Batt; Pte J Riddle, 6th Batt; Lieut. Maxwell, Halifax Gar Art; Pte O S Stanton, 60th Batt; Sergt A Bell, 12th Batt; Capt Barnhill, 78th Batt; Lieut Blair, 78th Batt; Pte W Lordly, 62nd Batt; Capt Hood, 5th Batt; Sergt Loggie, 73rd Batt; Sergt Mumford, 63rd Batt; Capt J Adam, 13th Batt; Pte A S Kimmerly, 49th Batt; Lieut Russell, 45th Batt; Trooper Beatty, 8th Cavalry. The only name omitted is that of Captain Corbin, fifth on the list last year, but who was debarred on account of having visited Wimbledon twice already.

Stuffing the Voters' Lists

An example of how the Tories take advantage of the Franchise Act comes from Napinee. The editor of the Tory paper there made a declaration, whereby 123 names were added to the voters' lists, all of whom were said to be 21 years of age. One of these, Edward Moss, was said to be only 16 years of age, there being altogether over fourteen under age. The lists, it is said, were loaded by the Conservatives with the deliberate intention of carrying the next election by this means. The Judge struck off ninety-four Tories and only six Reformers. Referring to the Act, the *Express* of that place says: In Lennox it has proved a boomerang, and under its provisions the Reformers, by dint of hard work, have secured a gain of over eighty votes on the lists as they were in 1885." A man who has been dead for several years was added to the lists by the Tories. The conduct of that party was such that Judge Price addressed them as follows: "You certainly are not managing this matter as well as you might have done, nor as well as the other side are doing. I don't know whether you are lacking in the 'sinews of war' or not, but you are certainly getting badly left."

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism Sold at 25c a bottle by Thos. S. Petrie, Druggist

The Police Magistrate and the Scott Act.

To the Editor of the MERCURY.

SIR,—In justice to the P. M. I want to call attention to an error in your report to-day of the Holliday trial on Saturday. You say "The Magistrate in summing up remarked that if these men had perjured themselves it is one of the evil consequences of the Act." What he did say was "I do not know whether or not the Scott Act makes such witnesses as these, &c."

Yours, &c.,
AUDITOR.

Guelph, June 7, 1886.

Lord Headley's debts amount to $230,000 and his assets are *nil*.

SCOTT ACT TRIALS.

A Conviction Entered Against Toney Gillie.

The Scott Act cases in the Police Court occupied until half-past six o'clock last night. The following is the continuation of the evidence:

James Dowrey, sworn: I live in Guelph; was on the Exhibition ground the 24th of May; walked into the building and saw the refreshment booth in one of the wings; was there two or three times in the afternoon; saw the refreshments served; saw temperance drinks and lager beer; saw money passed over the counter for temperance drinks; there were several kegs in the building; there were two or three kegs on tap; the beer was served out in glasses; the kegs were six or ten feet back to give those serving room to move; saw people get cigars, etc.; money was given for cigars and temperance drinks and tickets for lager beer; I got one ticket from a friend, a Guelph man, and got a glass of lager; did not pay him; I asked two tickets from a gentleman and he gave them to me, and after a while I gave him ten cents; one of the tickets I received got me lager beer; saw several tickets passing over the railing for beer; got a glass for myself and gave one away; the tickets I got were not like the one produced; did not know the man and did not see him before or since; I saw him with a number of tickets and asked him for two tickets and he gave them to me; I gave him the ten cents when I came away, as I did not want them for nothing; I saw defendant Gillie behind the bar serving out lager beer and other refreshments; he did not serve me.

In cross-examination by Mr. Bigelow the only new point elicited was that Mr. Dowrey did not go to the building with the intention of giving the authorities information.

Samuel Moffatt, sworn:—Was on the Exhibition ground on 24th May; had a number of tickets; don't know who gave them to me; did not pay for them; they were presented to me; don't remember seeing Gillie there; saw other persons with tickets and saw them get beer with their tickets; there were other refreshments to be had and soft drinks.

Cross-examined by Mr. MacGregor:—Did not try to get other refreshments than beer with my tickets; don't know who I got the tickets from; the beer did not intoxicate me; I don't swear it was intoxicating.

To Mr. Macdonald—Cannot say why it was not intoxicating; to my taste it was lager beer.

Gilbert Sully, sworn: Live in Guelph; was on the Exhibition ground and was in the building on Queen's birthday; had some lager beer; did not give anything for it; was treated to it by one of the tickets Moffatt had; did not notice where the liquor was drawn from; have tasted lager before; am not a good enough judge of lager to tell what it was; have taken two or three glasses; it never affected me; think if a person took enough of it it would intoxicate; do not recognize Gillie as one of those who served out refreshments; do not know how the tickets were obtained; did not notice how the other refreshments were obtained; only one place was used to serve out refreshments.

Cross-examined by Mr. Macgregor.—Did not see anybody selling tickets; there were none sold to my knowledge; never tasted the blue ribbon or home-brewed ale; wont swear whether the beer I drank was intoxicating or contained alcohol; what I asked for was lager; won't swear it was lager beer.

Adam Robertson, sworn—Was in the Exhibition building; I had what I supposed was lager beer; it looked like lager; am not expert enough to tell whether it was lager or not; the keg was similar to a lager beer keg; don't recognize Gillie; it was a boy who served me; there were three or four serving; a friend asked me to have a drink—a person by the name of Brown; he treated four of us; he had a number of tickets; could not say whether we all took lager.

Cross-examined by Mr. Bigelow:—I thought it was lager; would not swear it was intoxicating liquor; have never taken enough of it to know; was not there when any money was taken.

On the conclusion of Mr. Robertson's evidence the Court adjourned for half an hour.

Chief Randall sworn: I saw Welsh drink a number of glasses at the bar; I was invited to have a drink, but did not have any; the Secretary of the Lodge told me it was not for sale; there was no money passed for beer that I saw, and there was no money returned that was offered for drinks that I saw; could not say anything about other refreshments; could not tell whether the counter was put up on trestles or whether there were two boards for a counter or not; had not been taking anything that day.

Toney Gillie, sworn: Am the defendant in the prosecution; was serving refreshments, including lager beer, on the 24th of May; served a good many glasses, but could not tell the quantity, neither the number of kegs bought; was engaged selling beer for two or three hours; I was giving a helping hand to Mr. W. C. Patterson; Patterson took the tickets; I took more tickets for soft drinks and cigars than I did money; these tickets were good for everything we had; no money was taken that I know of for lager; W. C. Patterson took the money, the tickets and the beer left over; my instructions were to take no money except for soft drinks and cigars; refused money many times for lager and saw every one of the others do so; the Oddfellows brought all their refreshments with them; I would not take any ticket unless it was punched; a ticket was equal to five cents; most of the members of the Committee bought their tickets in Toronto; will swear that every ticket I took was punched; the tickets were made up in envelopes and that envelope was addressed to each member; his proportion of the tickets was in proportion to the amount contributed by him; do not know who got the profits.

W. C. Patterson, sworn: Am a member of the lodge for the past three years; I was in charge of the refreshments and lager; the total amount of tickets taken at the refreshment box was $103.70; there was only 25c or 30c in the box; could not tell how many subscriptions there were; $264.90 was the total amount to be subscribed; could not tell how many tickets were given out; Gillie is charged with $20 worth of tickets, but did not get any; Kirkmichael got $20 worth of tickets and has made no returns; had forty kegs and took back 22 kegs; there were six gallons in the keg; $264.90 was the value of the tickets counted ready to be issued; any deficiency that might arise would have to be paid by the committee and the committee would be reimbursed by the lodge; a guarantee fund was taken up before the project was started; the lager was to be supplied to the members of the lodges and was bought solely for their consumption; if a stranger known to me not to be an Oddfellow had a ticket he would not be entitled to have lager; it was only the intention to give these tickets to the members, and I know of none that were supplied to parties who were not members of the order; we were a number of persons coming here to have our own refreshments and enjoy ourselves; there was no desire or intention to evade the law, and I took legal advice to see whether by bringing the lager the law would broken, and if it was to be broken would not bring the lager at all.

Mr. Bigelow and Mr. McGregor then addressed the Magistrate. They held that no barter had taken place; that the tickets were used by the members of the Order and their friends. There was no evidence whatever of a sale by the members.

Messrs. Guthrie and Macdonald held on the contrary from the evidence that each ticket represented five cents, and the value of that ticket was received in lager; consequently there must have been a barter; also that there was no doubt in their minds but that this scheme was got up to evade the law, and the parties were very careful to have legal advice on the matter before embarking in it.

The Magistrate said he would deliver judgment to-morrow at ten o'clock. He was of opinion so far that a barter had taken place.

THE JUDGMENT.

Shortly after ten o'clock this morning Mr. Saunders took his seat on the Bench and read his judgment, having promised to forward it to Mr. Bigelow in Toronto. His Worship viewed the important points of the evidence of the several witnesses, after which he said:

With the greatest desire to give all persons charged before me under the Act the benefit of any reasonable doubt, I cannot come to any other conclusion than that the circumstances detailed in evidence in this case establish an unlawful barter of intoxicating liquors, in violation of the second part of the Act. The evidence impresses my mind strongly that the plan was conceived and carried out with the view of evading the Act, and I cannot be persuaded that counsel ever advised the legality of what was done in this case. Had the course advised by counsel been adhered to, possibly the defendant might have found himself within the law, but the plan as carried out was, to my mind, a flagrant violation of the law.

After referring to several American cases, touching upon the question, the judgment proceeds.

These American cases are conflicting, and they are not by any means *on all fours* with the case before me, not so much so, as I at first thought they were from my recollection of them, but they are interesting as going to show that all such schemes are mere attempts to evade the law. It seems to me that had it been competent to indict the defendants in the American cases for unlawfully bartering liquor, the indictments would have been sustained. At all events, upon the evidence in the case before me, I am of the opinion that there has been a clear case of the unlawful barter of intoxicating liquor made out. Were such transactions legal in Scott Act municipalities, then indeed, the Act might be viewed as useless legislation. I think no claim of right arises in the case. The evidence impresses my mind in this way, that, as between the public and the defendant, and as between the defendant and Patterson, Patterson was the proprietor of the beer and of the other refreshments, that he, Patterson, and others in his employment (the defendant being one of them) were disposing of this beer and of these refreshments for Patterson, who was under obligation to account for the receipts to others behind the scenes—the main object of these others being profit. There is no doubt in my mind that the disposal of the beer in this case, at least to Cowan, and to other strangers, not members of the Order of Oddfellows, was an *unlawful bartering* of beer for tickets—an exchange, in fact, of one commodity of value for another commodity of value, and that such *unlawful bartering* took place in the City of Guelph.

If I should be held to be wrong in my application of the law to the evidence produced in this case, my conscience will not be in the least disturbed by the quashing of the conviction.

I convict Toney Gillie and I order and adjudge him for this offence, being the first offence, to pay a fine of $50 and costs.

At the conclusion of his judgment Mr. Saunders read the following letter, which he had found under his door this morning:

Mr. Saunders—

DEAR SIR,—I have property here and I voted for the Scott Act, but I am sorry and see it is hurting business in your city. Some of my customers now go to Berlin and Galt. I am still in with the temperance people and have heard them say tonight that they believe that you will not fine the Toronto people, as the sale of liquor has not been proven so far against them. This case will have a great deal to do with the Scott Act in future in Guelph, and I do not think they expect to win this case against the Toronto people.

Yours truly,
A MERCHANT.

Guelph, June 7, 1886.

The Magistrate remarked that the writer must be either a knave or a fool. He would take the more lenient view of the thing and suppose the man to be a fool.

The following two clauses of the Act bear principally on the case that have been tried so far:—

In proving the sale or barter or other unlawful disposal of liquor for the purpose of any proceeding relative to any offence under the said "*Temperance Act of 1864*," or under this Act, it shall not be necessary to show that any money actually passed or any liquor was actually consumed, if the justices, magistrate, or other officer or court hearing the case is or are satisfied that a transaction in the nature of a sale or barter or other unlawful disposal actually took place.

In any prosecution under the said Temperance Act or under this Act, for the sale or barter or other unlawful disposal of intoxicating liquor, it shall not be necessary that any witness should depose directly to the precise description of the liquor sold or bartered or the precise consideration therefor, or to the fact of the sale or other disposal having taken place with his participation or to his own personal and certain knowledge, but the justices or magistrate or other officer trying the case, so soon as it appears to them or him that the circumstances in evidence sufficiently establish the infraction of law complained of, shall put the defendant on his defence, and in default of his rebuttal of such evidence, shall convict him accordingly.

The County Council and the Scott Act.

To the Editor of the Mercury.

SIR,—I notice in your issue of date that the County Council by a vote of 31 to 6 refused to appropriate any sum for the payment of a salary to the Police Magistrate lately appointed for the County by the Ontario Government. It would seem only reasonable to expect the Council to provide all legitimate means to enforce a law which a large majority of the ratepayers of the County have decided shall be in force for at least the next three years. It appears, however, the members of the Council are bound to burk the wishes of the people if possible, and they would quite evidently not have acceded to the demands of the Commissioners for Centre Wellington for an appropriation had it been possible to have done so. It now remains for the electors of the various municipalities in the County to say at the municipal elections next January whether they choose to be misrepresented in this way or not—to decide whether these men are sent to the Council to carry out the wishes of the minority or those of the majority. It is for the electors to show by their votes whether or not they propose to stultify themselves by carrying the Scott Act and then practically defeating the objects of the Act by putting men in the Council who are opposed to both the spirit and the letter of the Act. Electors of the County of Wellington mark each of the men who voted "nay" to the amendment to the Finance Committee's report moved by Mr. Howes and seconded by Mr. Reynolds:—

Anderson,	Long,
Benham,	Marshall
Black, R. J.,	McEwing,
Burt,	McGowan,
Carberry,	McManus,
Corbett,	Nicoll,
Cross,	Murdoch,
Darroch,	Mutrie,
Foote,	O'Donnell,
Gilmore,	Rae,
Gordon, W. L.,	Reynolds, James,
Gordon, H. B.,	Robertson,
Hobson,	Robinson,
Johnston,	Tolton,
Kirkwood,	Wissler,
Knott.	

Cut the list out and carry it in your hat and see that not one of them is returned next January. Honor the nolbe six:—

Black, H.,	Howes,
Coleman,	Fowler,
Hampton,	Reynolds, John

and get 31 other equally good and true men to sit beside them at the Council Board.

Yours, &c.,
SCOTT ACT.

Guelph, June 7, 1886.

TO THE PUBLIC.

Thanks once more for complying with our first request for $15,000 by the 1st June, the time is just up, and we have received more than the required amount. We still want

$14,000 by the 17th June,
$15,000 by the 1st July.

We continue our

GREAT SALE

till we have raised these amounts.

We consider that an Explanation is due the PUBLIC.

Mr. J. D. WILLIAMSON sails on the 4th June for the British and Continental Markets to purchase fall goods. Our intentions are to pay for all our goods as we buy them, and thus take the discount. Our sales during the first five months of this year have been such as to warrant our importing $75,000 worth. We still want $29,000 to make up that total.

Come, See our Goods. Inspect our Prices.

COUNTY COUNCIL.

June 5.

The Council resumed at nine o'clock this morning the Warden in the chair.

A petition was read from ratepayers in the township of Minto for a school section, and to appoint arbitrators to determine or alter the boundaries of school sections Nos. 12, 11 and 4, so as to give a school on the 8th concession Minto. Referred.

The by-law for appointing an inspector for McKinley's creek was read a third time and passed.

The by-law for raising money in advance of the assessment was read a third time and passed.

The by-law confirming the assessment was read a third time and passed.

A motion was made that the by-law appointing county valuators be read a third time and passed.

Moved in amendment by Mr. Cross, seconded by Mr. Coleman, that the by-law be read this time six months.

The amendment was lost and Mr. Cross called for the yeas and nays, which are as follows:—

Yeas—R. J. Black, H. Black, Coleman, Corbett, Cross, Gilmore, Knott, Long, Marshall, McEwing, McGowan, McManus.—12.

Nays—Anderson, Burt, Carberry, Foote, Darrock, H. B. Gordon, Hampton, Hobson, Howes, Kirkwood, Mutrie, Rae, John Reynolds, Robinson, Tolton.—15.

The by-law was accordingly read a third time and passed.

The by-law to levy rates for the current year was read a third time and passed. The sum to be raised is $52,194.00 at a uniform rate of two and one-twelfth mills in the dollar.

PRINTING.

Mr. T. Carberry, chairman of the Printing Committee, reported recommending the payment of the following accounts:—E. H. Dewar, general County printing, $130.21; H. J. Benner, Mount Forest, $7; J. S. Mitchell, Drayton, $1.50; H. Gummer, Guelph, $8.40; J. & R. Craig, Fergus, $7.20; T. C. Dean, Drayton, $8—$162.31.

With reference to the communication of Mr. H. Gummer presented at the January session and left over until now, we have given the matter our careful consideration and can see no reason why we should make any change in our report with respect to awarding the contract, as the principal objection in said communication was the item of convictions which to the present date only amounts to $3.36.

In regard to the communication received from Mr. T. C. Dean, of Drayton, we have to report that it was generally understood by the committee from reliable sources that Mr. Dean was not in a position to do the work satisfactorily owing to his not having the necessary plant and material.

Mr. Hobson asked if the committee had ascertained whether Mr. Dean was in a position to do the printing. Complaints had been made for the past three years about the letting of the county printing and it would be well to have some information on the matter.

Mr. McGowan stated that Mr. Dean had done their township printing for two years and had done it very well. If he had the lowest tender he should have the work.

Mr. Carberry said his tender might have been lower in some particulars.

Mr. Wissler considered the way the clause of the report in reference to Mr. Dean was worded, that that gentleman, if he was worth anything, would have good grounds for an action of damages. He objected to it.

Mr. Powley said that Drayton village had its printing done by Dean, and that the work was not satisfactory. For this reason they had their work done elsewhere. Since the 1st of January Mr. Dean had turned out better work. There had been an opposition paper started there and that might in a measure account for it.

Mr. Cross thought that out of courtesy to Mr. Dean, if his tender was the lowest and not accepted, he should have been informed of the fact and the reason.

Messrs. Wissler and McEwing moved that the clause be struck out. This was lost and a yea and nay vote was called on the motion for the adoption which was carried on the following division.

Yes—M. Anderson, R. J. Black, H. Black, Thomas Carberry, F. T. Coleman, John Darroch, J. Gilmore, W. L. Gordon, H. B. Gordon, Joshua Howes, W. F. Johnston, Lewis Knott, Thomas Marshall, John Powley, William Rae, James Reynolds, George Robinson—17.

Nays—J. W. Burt, John Corbett, John I. Hobson, William Long, H. McEwing, John McGowan, Thomas McManus, M. C. O'Donnell, John Reynolds, John R. Wissler—10.

COMMUNICATION.

The Clerk read a communication from H. W. Peterson, County Crown Attorney, stating that the new county buildings and adjacent registry office were open and unprotected, by reason of the removal of the fences during building operations, and asking that they be replaced. Also that the vault in his office required more light, which could be remedied by inserting a small tube in the wall at the cost of about two dollars. In reference to the report of the County Property Committee brought in at this session, he said that the two chairs which were objected to were purchased after he had written to the Chairman of the Committee and had received no answer. Referred to County Property.

After voting $5 to Mr. Colson, caretaker of the Court House for his services, on motion the Council adjourned till the 1st Tuesday in December.

More Customs Seizures.

MONTREAL, June 6.—The discoveries made by Messrs. O'Hara and Ambrose in their investigations into the church ornament undervaluations show that some of the largest wholesale manufacturers in France have been in the habit for some time past of furnishing duplicate invoices, one of which, in which the reduced values were entered, was presented at the customs, while the others contained the real value of the goods.

The Customs officers have completed the seizure of C. B. Lanctot's stock, and the case will now be submitted to the Minister of Customs at Ottawa. The officers have not succeeded in obtaining the books of the firm, being informed that the old ledger prior to February last does not exist. When the firm refused to deliver over the books and invoices or to allow the officers to examine them, Messrs. O'Hara and Ambrose followed the same course as that adopted in the Paterson-Kissock case, which, in fact, was the only one left them. They prepared to move the stock, as provided for under the Customs Act, to the nearest examining warehouse. The packing cases were sent to the store, but the firm, through its lawyer, Hon. Mr. Laflamme, Q. C., offered to make a deposit of $5,000, which was accepted. The goods under seizure represent a greater value than the deposit, and it is probable that the Department at Ottawa will call for another instalment.

Mr. Gauthier, one of the members of the firm, denies that his firm has been guilty of any fraud. He stigmatizes the action of the Customs officers as a tyranny, and says they are evidently endeavoring to get him to commit himself by working on his fears and obtaining a compromise.

THE GOVERNMENT DEFEATED.

Second Reading of the Home Rule Bill Voted Down.

THIRTY THE MAJORITY AGAINST.

The Debate Wound up With an Eloquent Speech By Mr. Parnell.

LONDON, June 7.—Mr. Gladstone replying to a question on the paper said the Government was unable to promise to incorporate measures for a Home Rule Government in England, Wales, and Scotland in the revised Irish Home Rule Bill, when it was brought in during the Autumn session, in the event of its passing the second reading now.

George J. Goschen, Liberal, resumed the debate on the Home Rule Bill, which he strongly opposed.

Mr. Parnell was the next speaker. He was loudly cheered by his followers. He said; "I should ordinarily have lacked the confidence to follow so able and eloquent a speaker in this contest of giants, but I think thrice is he armed who has his quarrel just.(Cheers.) And unequal, inferior as I am at many points, I hope I shall not be so far behind as usual. (Hear, hear.) Without intending to offer any disrespect,I could not help thinking while listening to his speech that in all the lost causes with which I have seen him connected during many years past, he was never so little effective as when contending against the bill, we hope to read a second time to-night. (Cheers.) Mr. Goschen sought, I think, very unfairly to cast a lurid light on the situation by his allusion to those unhappy outrages in Kerry. I join in the expression of contempt for those cowardly, disgraceful practices. I join him to the fullest extent —(Hear, hear)—and neither do I say that because evictions have been more numerous in Kerry than in all the rest of Munster put together during months past, that they constitute an excuse for these outrages, or any excuse for outrage, though it may supply us with the cause of them. But when I denounce outrages I denounce them in every part of Ireland, whether in Ulster or in Kerry. (Hear, hear.) Mr. Goschen is certainly free from reproach. He has not joined Lord Randolph Churchill and Mr. Chamberlain in the use of reckless language with reference to the affairs of a country which is not their country. (Cheers.) My colleagues have in time past been reproached because they have not been careful in looking at the effect of their language, and the doctrine of indirect responsibility has been employed against them to the extent of my imprisonment. If that doctrine were employed against Lord Randolph Churchill or Mr. Chamberlain, Lord Randolph Churchill ought to plead the excuse that he believes in nothing and nobody but himself, so that he could not expect any great importance to be attached to his declarations, (cheers and laughter) while Mr. Chamberlain might have said and said very truly that he was ignorant of all the circumstances of Ireland. His celebrated projected visit there last autumn not having come off he really couldn't know what would be the effect of his language. (Cheers.) However, we have the result now in one murder already committed in Belfast and I trust that in the future members will remember the importance and gravity of the occurrences which may follow in Ulster. These occurrences cannot go further at the outside than outrage and assassination, but they will depend very much upon what is said on this subject and the amount of importance given to the doings of the Ulster men. We do say and admit that these occurrences are to be condemned and should be stopped, but while Lord Randolph Churchill and Mr. Goschen say they must be put an end to by coercion which he and his friends have been using for the last eighty-six years, we would say—with Mr. Gladstone—try the effect of self-government. (Cheers.) Then, if Kerry men resort to outrage they will very soon find that the rest of Ireland will put a stop to it. (Renewed cheers.) Mr. Goschen referred to recent events in Belfast, but before I deal with that terrible matter, I wish to give an explanation because, as usual, one of the English newspapers has perverted for its own purposes what I believe actually took place. (Irish cheers.) I am pained to see that the struggle is alleged to have arisen out of an expression used by a Catholic to a fellow-workman who was a Protestant, to the effect that in a short time none of his persuasion would be allowed to earn a crust of bread in Ireland. That, however, does not accurately represent all the facts as reported in the local newspapers. (Cheers and counter cheers.) According to them, what took place was this: The overseer of the works found fault with the way in which an Orange, or at all events a Protestant, workman was digging a drain. The overseer said: "That is a nice way to do the work, whereupon the Orangeman replied to the overseer who happened to be a Catholic: "What does a Paptist know about digging drains?" (Laughter). The overseer irritated, said to the Orangeman: "You'll never earn a crust on these works again," meaning that he was dismissed. Thereupon the Orangeman took his shovel and left the works. I believe that as he was going out he was assaulted by one or more of the workmen. (Derisive laughter.) It is very difficult to know what actually took place but it is of great importance that the House understand that the remark in question had not a general application but only an individual one." (Parnellite cheers.)

Mr. Parnell went on to refer to Grattan's Parliament and said while he would have preferred its revival he was willing to accept the present proposals in good faith. Grattan's Parliament had a house of Lords and he was thankful that Mr. Gladstone's bill made no provision for the resuscitation of that House. He next referred to Mr. Chamberlain and denounced his propositions as mischievous and dangerous.

"We understand perfectly well," said Mr. Parnell, "that the Imperial Parliament has ultimate supremacy and ultimate sovereignty. I quite agree with Mr. Gladstone and think it one of the most valuable parts of the bill. I quite agree that which Mr. Gladstone offers, namely the responsibility of maintaining order in Ireland by an Irish Parliament, is a correct provision without which no state could exist. (Irish cheers.) The supremacy of the Imperial Parliament,however, will not be affected by this if the Irish party executes the powers given to it, while in some cases it may be rendered more effective than ever. (Cheers) In accepting the bill we accept honorable obligations. We pledge ourselves for the Irish League as far as we can pledge ourselves—(derisive cheering and laughter)—that the powers given shall not be abused —(Parnellite cheers)—to devote all the energy, ability and influence we may have with our people to prevent them from abusing the powers entrusted to them (cheers); that if abuses do take place the Imperial Parliament may intervene. In cases of grave emergency, you have the power, the authority and the force, and if abuses are perpetrated you have the remedy in your own hands. In a case of this kind you would have just the same authority you would have whether this bill had been brought forward or not, and this we recognize. We have had this measure accepted by all leaders of every section of the national feeling in Ireland, also outside of Ireland, in America, and every country where Irish people are found. (Cheers.) We have not heard a single voice raised against the bill by an Irishman."

Mr. Parnell went on: "I say that as far as the Irish people can accept this bill they have accepted it without any reserve as a measure which may be considered the final settlement of this great question." He next referred to Ulster, and said that as a Protestant himself he did not believe that an Irish Parliament would encourage her ascendancy of Catholicism. "The question," said he, "of the loyal minority is a question upon which great attention has been bestowed. One would think that Protestant Ireland was going to be handed over to the tender mercies of thugs and bandits." (Major Saunderson—'Hear, hear,' and cheers.) I only wish I was as safe in the north of Ireland when I go there as Major Saunderson would be in the south." [Home Rule cheers.]

"Mr. Chamberlain," said Mr. Parnell, "has claimed a separate legislature for Ulster. You would not protect the loyal minority of Ireland, even supposing you gave Ulster a separate legislature, because there are outside of that province over four hundred thousand Protestants who would still be without any protection so far as what you propose would give it to them. You would not even protect the Protestants of Ulster,because the Protestants according to the last census were in the proportion of 52 to 48 and we have every reason to believe that the Protestants and Catholics of Ulster are about equal in number. Driven away from the fiction of Protestant Ulster, the opponents of the bill upon this point seek refuge in the northeast corner of Ulster, consisting of three counties. Whatever way you put it you must abandon the idea of protecting the Protestants in Ireland by the establishment of a separate legislature, either in Ulster or in any portion of Ulster. We admit that a small proportion fear the treatment they will receive at the hands of the Irish Parliament. Theirs is not the shame and disgrace of those fears. The shame and disgrace belong to the gentlemen and lords belonging to English political party who for selfish interests of those English political parties seek to rekindle the almost expiring embers of political and religious rancor. [Home Rule cheers.] Ireland has never injured Mr. Chamberlain. I don't know why he added the strength of his powerful arm, and why he should have thrown his sword into the scale against us. He and his kind seek to dash this cup from the lips of the Irish, the first cup of cold water that has been offered to our nation since the recall of Lord Fitzwilliam."

"It has been made an argument," Mr. Parnell continued, "against the honesty of my declaration with regard to the final character of the settlement that I have claimed the right of protecting Irish manufactures, and that this bill gives no protection to the Irish manufactures. Undoubtedly we claimed that right, but it was not when the Liberal party was in power. That speech at Wicklow about protection was made at a time when we had every reason to know that the Conservative party if they should be successful at the polls, would have offered to Ireland a statutory legislature with the right to protect her own manufactures. (Loud laughter and Ministerial and Home Rule cheers.) This would have been coupled with a settlement of the Irish land question on the basis of purchase on a larger scale than that now proposed by Mr. Gladstone. (Renewed cheering.) I should not have the right, and I never did think, and I don't think now of claiming the right of protecting Irish manufactures, for the Irish party never expected it. I don't expect it now. Therefore I recognize this settlement as a final settlement without protection."

Mr. Parnell said the proposition to retain Irish members at Westminster would be considered on its merits. In conclusion he described the terrors of coercion, as exercised in the last five years, and said to keep Ireland in subjection if the bill were defeated all and more would have to be done again.

Sir Michael Hicks Beach followed. He denied amid the jeers of the Parnellites that with his knowledge any promise of home rule was made by a member of the late Tory Government and demanded the name of his colleague, to whom Mr. Parnell referred.]

Mr. Parnell said the demand was a safe one and could not be complied with unless the gentleman referred to unsealed his lips.

Mr. Gladstone summed up the debate eloquently but briefly. Then came the momentous division. The vote was 311 for the measure and 341 against, Mr. Chamberlain's prediction of the result being exactly realized.

The excitement during the division has had no parallel in the history of the House of Commons. Lord Randolph Churchill was the first to discover that the Government was defeated, and by waving his hat and indulging in other joyful demonstrations he aroused the enthusiasm of the members of the Opposition, who, rising, waved their hats and cheered again and again. When the figures were announced the noise was deafening. The Parnellites rose and challenged the vote. Mr. O'Connor called for cheers for the "Grand Old Man," which were given with a gusto by the Government supporters, and Sir Wm. Harcourt and his companions rose and bowed to Mr. Gladstone, who was somewhat embarassed. The Parnellites called for groans for Mr. Chamberlain, which were given with shouts of "Traitor "and "Judas Iscariot." Mr. Chamberlain merely laughed.

When order was restored Mr. Gladstone arose, white and trembling, and moved to adjourn until Thursday.

Messrs. Healy and O'Connor again challenged the vote, saying they would not offer opposition, but wished to express their repugnance of the conduct of many members of Mr. Gladstone's party. During the hub-bub which followed, Mr Gladstone left the House, wearing a haggard look cheered, by his supporters.

Foreign.

Rev. Joseph Parker D.D., pastor of the London City Temple, says that if Lord Hartington and Mr Chamberlain hope to secure Nonconformist support by opposing the Home Rule bill, they are greatly mistaken.

During the celebration Monday at Padua, at the anniversary of the death of Garibaldi, an anti-Austrian demonstration resulted in a riot, in which several persons were wounded severely and 58 rioters arrested.

Hobart Pasha's health is failing, and he has written from Italy resigning the Sultan's service.

OUR

Dressmaking Department a Grand Success

We could have secured managers for our Dress Department that were considered competent for about half the salary we are paying MISS AMISS, but preferred to carry on this department

Under the Superintendence of the Very Best Talent

OR NOT AT ALL! We are pleased to think THAT THE LADIES OF GUELPH are appreciating the efforts we have made to furnish them with an A No. 1 Dress and Mantle maker, but we have met with some Ladies (before giving MISS AMISS a trial) who seemed to think our prices for Dressmaking were high, and that they should be as low as other Houses in Guelph, they not taking the ability of our Dressmaker into consideration at all.

NOW, TO CONVINCE

THE GREATER NUMBER

Of Ladies that we have the ability to turn out Dresses and Mantles in every respect as to "FIT," "STYLE," and "WORKMANSHIP," as good as can be had in the City of Toronto, we

W LL DROP OUR PRICES FOR ONE YEAR

So that they will be found as low as any other House in Guelph, for we believe at the end of that time we will have no difficulty in advancing our prices to what they should be.

☞ Our Dress Goods Department is in the hands of Mr. Jeffrey, who will be pleased to show you all the New Things in Silks, Satins,

FRENCH & ENGLISH DRESS GOODS

Also, TRIMMINGS TO MATCH.

REMEMBER THE PLACE—

RYAN, BERKINSHAW & CO.

Successors to John Hogg & Son.

The Colonial Exhibition.

Every one from this part of the Queen's domain may not be privileged to attend the Great Colonial Exhibition in England, but no one having a due regard for their own interests should fail to witness the magnificent display of every class of wearing material, staple and fancy dry goods, which invites the public to No. 27, Lower Wyndham street. Although our daily sales have been very large, daily arrivals of novelties keep our stock attractive. We indulge in no nonsensical bombast, neither are we "hard up," but we emphatically impress on readers of this advertisment the FACT, that no one in the Trade of Guelph whether "hard-up" or not offers better intrinsic value, or greater bargains than we do at No. 27. We do not offer piles of trash at seemingly low prices, but good, new, fresh reliable goods, that will stand the test of wear and comparison, and give the best of satisfaction to the purchaser. Our whole aim is, by treatment of customers, by our manner of business, by quality and value of goods to win and hold the confidence of the public. That in this we are successful, the daily throng at our counters and the complimentary remarks of our customers bear witness. And so while not every one may take a transatlantic trip, every one is obliged to do more or less shopping, and they have the opportunity of doing it in a manner pleasant and agreeable as well as profitable to themselves by calling at No. 27. This week we offer

Coming again to

GUELPH.

CHAS. CLUTHE, the celebrated Surgical Machinist of 115 King-st. West, Toronto, Ont, will be at the

VICTORIA HOTEL,

Opposite the Post Office

THURSDAY, JUNE 10th,

Where I invite all those afflicted with the worst kind of scrotal

RUPTURE

especially those who have tried all manner of trusses without success, come along to me and if your rupture is reducible I will guarantee to hold it or no pay, or if I fail to so and you have come from a distance, I will pay your return ticket to Guelph. Parties afflicted with club feet, bow legs, paralysis, hip disease, spinal disease, call on me and I will give you more comfort and less incumbrance to all natural motions of the body than by any other mode of treatment. Never allow your body to be encased in a plaster paris jacket in case of spinal disease. Difference in weight alone, 1 instrument 1 lb., plaster jacket 13 lbs. m4w6

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address.
DR. T. A. SLOCUM,
Branch Office, 37 Yonge St., Toronto

The fourth General Assembly of the St. Vincent de Paul Society, the first in ten years, is in session at Washington, D. C.

Pain Killer.—The testimonials borne to the efficacy of this valuable medicine are sufficient to warrant its introduction into every house. Our own opinion is that no family should be without a bottle of it a single hour. In flesh wounds aches, pains, &c., it is the most effectual remedy we know of. A bottle will last for a very long time, and its low price places it within the reach of all.—*News, St. John's, C. E.*

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

FRESH strawberries, tomatoes, cucumbers, pine apples, bananas, etc., at George Williams', 81 and 83 Upper Wyndham street.

"Why are you walking so quickly ma?" cried a bright eyed little maiden of five years to her beloved parent. "I am going to Hughes' sale; everybody in Guelph is there," replied the anxious mother.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Local News

ACCORDING to the Victoria, B. C., dailies Mr. Campbell Shaw has begun the publication of his new paper, the British Columbia Leader, a twelve page monthly. He has also gone into the real estate business and will no doubt make things lively in the vicinity of his adopted home.

COWS KILLED.—Mr. Archibald Robertson, Eden Mills, had two cows killed last Monday by the falling of an old tree. Fifteen cattle had been driven into the bush, and when clustered round the tree, it fell, killing a young steer instantly and injuring a valuable cow so as to produce its death the next day.

WE learn from the Berlin *Telegraph* that the widow of the late Sheriff Davidson has presented a beautiful memorial clock to St. Andrews Church of Berlin, in memory of her husband. The Sheriff was one of the founders of that congregation, and in the time of its early struggles he was its mainstay.

TOOK HIS DEGREE.—At the recent examinations held at Toronto University, D. R. McLean, son of Alex. McLean, Puslinch, succeeded in taking the degree of B. A., with honors in Classics. Mr McLean attended the Galt Collegiate Institute for one year, and from there passed the Senior Matriculation taking honors at each subsequent examination. We believe it is his intention to study law.

ONE day last week Dougald Cowan of Erin Centre was standing on an old wall lifting with a chain, when the chain broke and Mr. Cowan fell, lighting on his hands and head. One hand doubled under him, and both of the wrist bones were broken. His head also was badly cut. He was stunned, and it was at first thought that his skull was smashed, but no serious result is anticipated.

POTATO BUGS.—These varmints are something like Canada thistles—they have come to stay, and never suffer by winter-killing or any other disorder. They are at present swarming on the potato tops that have appeared above the ground, and give promise of affording an extensive field for the operation of Paris Green before many weeks are past. They have got cheek enough to stand everything but that.

The Irish *Standard* published in Minneapolis and St. Pauls has the following:—"Mr. John Stronach, Superintendent of the Rocky Mountain Division of the C. P. R. telegraph line, who has also charge of construction, is now busily engaged with a large gang of men in swinging up wires toward Vancouver preparatory to the opening of through traffic.

WHAT WILL "OLD NICK" DO NEXT.—This question, it appears, was asked by the *Herald's* Hespeler correspondent a few days ago in referring to some of the mischief of that town wearing white plug hats. "Old Nick" bids us answer the query somewhat enigmatically, by stating that he will provide all his children with plug hats, more especially the jealous ones, as plug hats are sometimes purchased at three cents on the dollar. He loves all his children and will stand by them through the various ups and downs of life.

ELECTION OF OFFICERS.—At a regular communication of Guelph Lodge No. 258, A.F. and A.M., G.R.C., held in their hall last night, which was largely attended by members and visiting friends from Stratford, Erin and city lodges, the following officers were elected for the ensuing year, viz:—W. Bro. Mahoney, W. M.; Bro. Marcroft, S.W.; Bro. W. Stewart, J. W.; W. Bro. J. H. Finlay, Treasurer; Bro. G. J. Brill, Secretary; Rt. W. Bro. H. Walker, Chaplain; W. Bro. Harry Bolton, Tyler.

LARGE SCROTAL HERNIA.—It is really surprising the changes of late years in the treatment of Rupture. Only a few years ago large Scrotal Hernia or Rupture could not be held by trusses. Now Mr. Charles Cluthe, the celebrated truss inventor, offers to all these people a success or no money. He goes even further than this. He offers a 300-mile return ticket on any railway to any one whose rupture he cannot hold. Mr Cluthe is a responsible man, and above the reproach of taking advantage of people for the sake of the price of a truss. Mr Cluthe will be at the Victoria Hotel, Guelph, on Thursday, June 10th.

LARGE BARN.—A large barn was raised on the farm of Major Nicoll, Puslinch, on Saturday. The afternoon was wet and the work could not be proceeded with until four o'clock. Jacob Fritz and David Clark were selected as captains and sides chosen. Every one worked with a will, and in three hours the erection was completed. The structure is 60x80 and of the most substantial nature, constructed on the most modern principles both for convenience and appearance. The workmanship is of a superior nature and creditable to both the framer, James McLean, and the Messrs Shultz, who done the mason work.

SENECA G.—The Elora *Express* says:—It is a matter of regret that Seneca G. Ketchum, known to some of our villagers as a great vocalist, should have seen fit to walk through the village on Tuesday evening without calling at the *Express* office. But no doubt he was in a hurry. The great strides he took prove that he must have been walking for something. He only placed his feet to the sidewalk about six times in covering the main street. And he left a black mark from his bare foot at each step, with the words "Meet me at Guelph" in white letters thereon. It is supposed by some that he was looking for his girl; by others that his future mother-in-law was after him.

DEATH OF JEANIE WATSON.—Mrs. James F. Hardy (Miss Jeanie Watson), the celebrated Scottish vocalist, died suddenly at her home, 22 Price street, St. Paul's Ward. She returned to Toronto last November after an absence of some years in the United States. Miss Watson's death will be regretted by thousands of persons to whom she has endeared herself by her agreeable manners and beautiful rendering of the songs of Scotland. Miss Watson, it is said, was at one time in her life a polisher in a piano factory in Glasgow. Her magnificent vocal powers, having received good training, brought her into favourable notice, and she devoted her life to Scottish song. She has appeared many times in nearly all the cities and towns in Canada, and was always appreciated and admired. She was well known at least to the Scottish portion of the populace in Guelph, and whenever she appeared in her public capacity as a vocalist was always sure to draw a large audience. Her death will be generally regretted in Guelph, and more especially by those who were personally acquainted with her.

Local Showers.

The Probabilities.—Moderate winds, fair, moderately warmer weather to-day. Local showers to-night.

BROWN, of Galt, is making another shipment of cattle from here to-day. The price paid is from 5 to 5½ cents. The cattle are superior.

THE delegates who stayed through the Guelph Conference of the Methodist Church, Goderich, returned this forenoon.

JAMES MORRISON has so much demand for his buttermilk and skimmed milk from the Ontario Agricultural College that he has found it necessary to put on another delivery waggon.

CIVIC holiday having been fixed for August 12th some of the thirsty ones are already counting upon being present at the Berlin lagerfeast or sangerfest, or whatever you call it.

THE first case in the County of Wellington under the Canada Temperance Act was decided by W. H. Lowes, County Police Magistrate, in Rothsay, on Tuesday. Michael Sullivan, of Bosworth, was fined $50.

MR. JOHN DAVIDSON, insurance agent, has entered into his new office, in Day's Block, adjoining the premises of the Guelph Investment and Savings Society bank. He has the room very tastefully fitted up.

A CONDEMNED BRIDGE.—Some parties have taken down the boards which protected Wells' bridge from traffic, and now teams go over it as usual. The bridge has been condemned as unsafe, and bloceded accordingly. Parties driving over it do so at their own risk.

THE Rev. Father Jones, formerly one of the priests at Our Lady's Church, Guelph, has been paying a short visit to the rectory, after assisting in holding missions in Hamilton. He returned to Montreal, where he is now stationed, this morning.

AT noon to-day a little girl narrowly escaped being run over by the bill poster's wagon as he was driving over a Macdonnell street crossing. The girl was struck by the front wheel, and thrown aside. One of her legs was slightly injured.

LEAVING GUELPH.—Mr. John Ewing, who for the past thirteen years has been engaged in the livery and hack business here, leaves for Toronto to-morrow, having purchased in company with Ald. Hearn, Bolton's livery stable on Yonge street in that city. Mr. Ewing was well and favorably known in Guelph, and his many friends here will wish him every success in this enterprise.

CONTRACTS AWARDED. — The contracts have been awarded as follows for the erection of a new brick house, two storeys high, 31 by 25, and a kitchen 17 feet square, also two stories; for W. T. Tanner: Stevens, carpenter; Chubb, brick and stone work; Moffatt, painting; Rudd, tinsmithing; and Kirkwood & Phillips, plumbing.

GUELPH'S MUNICIPAL LOAN FUND DEBT.—City Treasurer Harvey to-day remitted to the Bank of Scotland, London, Eng., the sum of £20 sterling to retire the last coupon of the Municipal Loan Fund indebtedness. The last payment for the principal, which is about £10,200, will be made in December next.

BURIED IN A GRAVEL PIT.—On Tuesday Mr. Andrew Baird, of Erin Village, met with a rather serious accident while working in a gravel pit near Hillsburg. He, with a companion, was engaged taking out gravel for the road, when the side of the it caved in, wedging him against one of the wheels. After being extricated he was removed to his home, where he is now confined to bed with a fractured arm, dislocated shoulder and severe bruises about the body.

CALEDONIAN SOCIETY. — The Concert Committee of the Caledonian Society held a meeting in Ellis' hotel last night to make arrangements for the coming concert on the 1st of July. There was a good attendance present. Several communications were read from vocalists offering their services for the occasion. It was decided to adjourn until Friday evening, when more applications might be received and a better opportunity thus provided to chose.

A HORSE IN A WELL.—Mr. John Parker, who lives on Paisley Road near the Great Western Station, last night turned his horse out to the grass. This morning about four o'clock he got up and went to find the animal, and after quite a search could find him nowhere around the premises. On passing the well, which is a boarded up one, with a surface of some sixteen feet, he noticed a hole in the covering, and on making an examination found his horse some 14 feet in the bowels of the earth struggling in five feet of water. Assistance was summoned but it was a long time before the horse could be got out, and was landed on terra firma without a scratch.

FATAL ACCIDENT IN ERIN.—A sad accident took place in Erin Township on Saturday by which the eldest son of Mr. Lachlan Currie, lot 5, con. 2, a bright lad of 11 years, lost his life. The little fellow had been engaged during the forenoon of that day helping his father to plant potatoes, and it was when work was stopped at 12 o'clock that the accident took place. Some of the boy's younger brothers and sisters had got into an empty lumber waggon to which there were no horses attached and which had been left standing on a knoll. The unfortunate little fellow undertook to draw them down this small hill in the wagon, but after starting he had not the strength to hold it back. He was knocked over and both front and hind wheels passed over his breast. The breast was crushed in and the head bruised. The poor boy never breathed or spoke again. Mr. Currie soon arrived and carried the body to the house and the shock which he and his family received can be better imagined than described. On Monday the funeral took place to Everton and the large attendance bore evidence to the deep sympathy for the bereaved ones which pervaded the community.

Foreign.

A cable despatch announces the sudden death from heart disease in Florence, Italy, of Col. Richard M. Hoe, who had gone abroad for rest and pleasure. He was the senior member of R. Hoe & Co., printing press makers, and was inventor of the rotary or lightning press and the "Web printing machine."

Canadian.

Sir Donald Smith and Sandford Fleming cross the sea this month.

Cardinal Taschereau was on Tuesday presented with a congratulatory address by the Quebec Legislature.

Twenty-five miles of the Regina and Long Lake Railway was formally opened for traffic on Monday.

Five hundred adult immigrants, and one hundred children from Great Britain, arrived in Montreal on Monday.

In the London Methodist Conference on Tuesday, a proposal to abolish the office of General Superintendent was laid on the table.

The plumbers strike in Toronto is ended. The proposals of the employers to grade the wages from 22½ cents per hour being accepted.

A St. Louis company has leased seven hundred thousand acres for a ranche at Wood Mountain, N.W.T., and has already put 26,000 head cattle on it.

The total number of men engaged in the fisheries of Canada last year was 59,493, and the total value of vessels, boats, tackle, etc., employed was $6,697,459.

Ah Ching, one of the three Chinamen arrested for an attempt to murder Mrs. Bulger some months ago near Yale, B.C., has been sentenced to imprisonment for life.

The Canadian Pacific Railway will adopt the twenty-four hours' system in the new summer time-table to come into force shortly. The Company also intend to run trains between Winnipeg, Man., and Donald, B.C., in forty-eight hours, about half the time at present taken to make the journey.

The steamer "Princess," from Selkirk, Man., for Grand Rapids, with seventy passengers on board, is stuck on a sandbar at the mouth of the Red River, and will have to remain there until the water is raised by a north wind sufficiently to float her off.

Mr. Finnemore, the absconding produce commission merchant of London, Ont., has written a letter to the press of that city explaining the reasons for his secret departure, and promising, in the event of his not being able to effect a settlement with the Bank of Commerce, to lay his version of the matter before the public.

A Canadian Pacific freight train went through the iron bridge at Petewawa, near Pembroke, Monday morning, the hind part of the train pitching into the river, forty feet below. Conductor Williams was killed and several others dangerously injured.

At Monday night's meeting of the Toronto City Council a letter was read from Hon. Frank Smith, complaining of Mayor Howland's action in regard to the Street Railway Company, and holding the city responsible for any losses sustained by the company owing to the strikes. A message was also read from the Mayor defending his actions.

Bank of Montreal.

MONTREAL, June 7.—The annual meeting of the Bank of Montreal was held this afternoon. President Smithers said the bank had done much better than could have been expected, the net profit being $70,000 in excess of last year. He said that as regards the future the feeling was not bouyant but hopeful. In answer to a shareholder he said that bank dividends were coming down all over the world and were likely to be lower than ever before. The old Board of Directors was afterwards re-elected with the addition of Mr. E. B. Greenshields to fill the vacancy caused by the death of Mr. A. Brown.

Cases in Bruce.

PAISLEY, June 8.—The first trial here since the changes in the Scott Act came off yesterday. The informant, who comes from near Mildmay, claimed to have purchased liquor from two hotels on the 24th of May. The trials lasted from 5 to 10 p.m. Both cases were dismissed, the magistrate not finding sufficient evidence to convict. Mr. Frost, of Owen Sound, acted for the complainant, Mr. Klein, of Walkerton, for the defence. Friends of the hotel-keepers met the informant on his way to the town hall just after the court opened, and in the presence of a large crowd, in spite of their efforts to stop it, punched him severely. In the riot the informant lost his valise, containing bottles of liquor, which he claims to have purchased.

New Barns in Nassagaweya.

A traveller through the Township of Nassagaweya cannot fail to notice the large number of bank barns that are being erected this summer. Passing over the east side we note first the large stone foundations of Mr. J. McKinnon and Mr G. McDonald; Mr. D. Robinson's barn is already up on a beautiful granite foundation. An observatory is to be erected on this, from which, with the aid of a telescope, probably, Niagara Falls may be seen. A little farther down the township line, on the Esquesing side, Mr. Cannard has a very fine building in course of erection; Mr. D. Wheelihan, of Campbellsville, is also building a large barn and basement stables. Coming up the centre road we notice Messrs. J. Fletcher, Geo. Easterbrook, and J. Canute, all elevating their barns, putting stables under and otherwise enlarging. On Friday, the 4th inst., Mr. N. Norrish raised a large barn on the farm he lately purchased from J. Easterbrook. About one hundred men, chiefly the youth of the neighborhood, gathered for the raising, accompanied by a large number of the fair sex, whose presence added much to the interest of the occasion. The work, which was handled with the utmost care throughout, was finished a little after sundown, without mishap of any kind, when the party sat down to an ample repast.

Now let us sing long live the Queen,
And Nicholas long live he,
And when he does next raise a barn
May I be there to see.

Hard times evidently have not reached Nassagaweya yet.—COM.

An American schooner was sunk in the channel of the Sault river on Monday by a collision with the steamer "Russia."

The Customs Collector at Chicago has received instructions from Washington to release the Canadian steam barge "Nepigon," detained at Chicago for an infraction of the United States Customs laws, caused by stress of weather.

On Tuesday forty-nine of the recently arrested men indicted by the grand jury for rioting and conspiracy at Milwaukee were arraigned in court. All pleaded not guilty and were held over for trial, the bail ranging from $1,000 to $200 each.

Hespeler Correspondence.

SANITARY.—Health Officer Winterbalt, after having notified the citizens to get their premises in order, has just completed his tour of inspection, and pronounces all in a satisfactory condition.

A GOOD SERMON.—Last Sabbath morning the Rev. Mr. White preached a sermon in the Methodist church from the words "Train up a child in the way that he should go, and when he is old he will not depart from it," which we think may have been listened to with advantage by all the parents in the town had they been present. The same venerable gentleman preached to a very large congregation in the evening, and later gave a splendid address at the Gospel Temperance meeting of the B. K. Association.

MILITARY ENTERTAINMENT.—The first annual entertainment in connection with the Volunteer Company of this place will be held in Glick's Hall on Friday evening, June 11th. Tea will be served from half past six till eight o'clock, after which the Hon. James Young and others are expected to address the assembly. A musical faculty (instrumental) will be represented by the 29th Battalion Band, and (vocal) by Mrs. Whitehead and Mr. Maitland of Guelph, and others. With the array of talent mentioned this entertainment ought to be second to none previously held in the place. We believe a most enjoyable and interesting time may be fairly looked for. Admission only 25 cents.

THE DIAMOND.—Last Saturday afternoon the first match of the season, and a most creditable one at that, was played between our boys and a Galt team, resulting after nine innings were played, in a score of 5 to 7 in favour of Hespeler. The Galtonians made their five runs in two innings, being whitewashed in the other seven. The game was played on the Hespeler grounds, and we think for unpractised men this was good work. Galt has some good men on the diamond, and there is no knowing what they will do with our lads before the year is out; one thing may be depended upon, however, and that is, that the boys here will manfully contend to uphold the good reputation which the club has already earned.

NEW BARN.—A fine new barn was raised on the farm of Mr. Thomas Shaw, of Waterloo, on the town line between Puslinch and Waterloo, to-day.

COURT OF REVISION.—At the Court of Revision and Appeal held in the Council Chamber here on Monday evening last, there were no appeals. So much for the good judgment of our Assessor.

NEW ACCESSIONS TO TEMPERANCE.—At the regular weekly meeting of the R. T. of Temperance last week three first class members were initiated. Initiation ceremonies are called into requisition almost every week.

NOT MUCH BETTER.—We are very sorry to state that Mrs. Wm. Parks, who is the victim of a lingering affliction, still shows few signs of convalescence.

Hespeler, June 8th, 1886.

Beverly Correspondence.

FATAL FIRE NEAR BALLYMENA.—The *Irish Times* of Friday May 14th says:—"Early this morning an occurrence which has resulted in the death of an old woman named Elizabeth Graham, took place at a townland called Lenaugh, between Ballymena and Cookstown Junction. It appears that the deceased had for many years lived by herself, her husband, by whom she had no family, having died two decades ago. By his death she became the sole possessor of an extensive area of land and houses, and the one in which she resided herself seems to have been far above the ordinary description of rural dwellings. On last evening she was visited by her brother William John Bell, who left her with nothing apparently wrong. This morning, however, a neighboring farmer's daughter, named Rose McGroggan, who sat up awaiting the return home of her brother from a wake, on looking out of the window into the night, which was wild and stormy, observed Mrs Graham's cottage ablaze. She gave the alarm. A large number of the neighboring peasantry and friends soon gathered, but the poor old woman could not be relieved from the flames until her dead body was extricated in a frightfuly charred condition, and with one of her limbs almost entirely burned off. The heroic conduct of Miss Letitia McGroggan, is worthy of special notice. This young woman rushed to the scene, and was endeavoring to save Mrs Graham when she sustained such injuries to one of her arms as to be surgically treated and seven stitches put in it. The house is in ruins. The origin of the fire is unknown." The deceased was a sister of Mr Alexander Bell, sr., of Rockton.

Rockton, Ont, June 7, 1886.

S. S. No 5, Nassagaweya.

The following are the marks received by the pupils of S. S. No. 5, Nassagaweya, during the month of May:

4th class Senior—Nathaniel Laing 566, Meshack Burrows 554, Willie Laing 527, Walter Ramsay 515, Colin Laing 479, Robert Summerville 460.

4th class junior—Isabella Laing 682, Kate Ingle 675, John Scott 640, Mary Roberts 635, Sarah Roberts 629, Malcolm Thomas 610, Carrie Easterbrook 586, Jno. Ramsay 272, Jno. Wilson 268, John McConnell 225.

3rd class—Annie Summerville 534, Priscilla Hagen 491, Sarah Moore 438, Ben Wilson 348.

2nd class—Mary McAlpine 550, Jennie Roberts 535, Robert Scott 531, Annie Ingle 525, Christina Laing 526, Helen Taylor 397, Louisa Roberts 497, Maggie Hagen 488, Ada Roberts 482, John McAlpine 477, John Hagen 446, Hugh Wilson 424, Cameron Scott 413, Dorothy Hornby 399, Katie Hornby 330, Catharine White 252.

THE funeral of the late J. C. Pressant was largely attended yesterday by friends and acquaintances of the deceased from town and country. The pallbearers were Messrs. James Goldie, Asher Farrow, Walter West, Robert Morrison, John Anderson (Millands), and Geo. Tolton.

ABOUT 100 boys and girls passed through Guelph yesterday brought out by Mrs. Merry, sister of Miss McPherson, for the home in Stratford.

MR. THOS. NEW, who has been in England for the past five months attending to Mr. Raymond's exhibit of sewing machines at the Colonial Exhibition, returned home yesterday. He sailed by the *Sardinian*. He gives a graphic account of the huge icebergs encountered near the coast of Newfoundland, and the dense fogs which prevailed there causing them to be still for several days.

THE MIRACLE OF THE ROSES.—This pleasing play of eight scenes, to be given by the pupils of Loretto Academy, takes place to-morrow evening in the Church of Our Lady. The scene represents several school girls spending a day in the woods, and to pass the time pleasantly their mistress proposes that they shall act an impromptu drama. The one decided upon is the "Miracle of the Roses," in which Mignon, a favorite with her companions, personates St. Elizabeth, and Lady Clare, her friend, takes the part of the Prince, or Landgrave. "God's own Garden," a cantata in which only little children take part, some grouped so as to represent beds of flowers and others personating the gardener, spring, sunbeam, breeze, dew, whose visitations are in turn welcomed by the flowers, will also be a very pleasing scene. Miss Braniff will take part in some of the musical selections. The City Band will be present and furnish appropriate music. Tickets can be had at the door.

Farmers requiring Turnip Seed should give J. E. McElderry, No. 2 Day's block Guelph (The noted Tea Store), a call, and see his stock. The seed is all his own importation. It is a well known fact that seed bought from Mr. McEldery is always reliable. w2

The Evening Mercury

WEDNESDAY EVE'G JUNE 9, 1886.

Worthy Sons of Worthy Sires.

On the 27th of May Mr. M. C. Cameron from his place in Parliament took occasion to relate to the House some lucrative dealings in coal limits, timber berths, etc., which the law firm of Macdonald & Tupper, of Winnipeg, had been enabled to carry on by reason of their peculiar influence with the Government. As a matter of fact this firm are attached to the Government by the nearest and dearest ties. The leading partner is the Premier's son, while the other member is a son of our High Commissioner, who at the time of most of the transactions referred to held the position of Minister of Railways.

Mr. Cameron proved that several applications were made through this firm for grants of the public domain in one shape and another, and the excessive compensation given to them in return for their work, as compared with that usually allowed to other firms, showed conclusively that they were paid for their influence rather than for their mere duties as solicitors. In several cases they were not paid in fees, but by shares in the properties applied for. A few examples will suffice to show how the operations were carried on and what handsome returns they counted upon receiving. For one company the firm of Macdonald & Tupper secured a timber limit on the Swan River, and for their trouble were given a three-fifths interest. This property was held to be so valuable at that time that Governor Dewdney, who owned one-fifth of the shares offered to sell this interest for no less than $50,000. Mr. Dewdney's connection with such schemes may account for the Government retaining him in their service in the face of the opposition which has been offered by the Conservative press. In another case Macdonald & Tupper were able to procure a timber limit on the Rolling River for John Apted, in which they held a fourth blind share, and for which a manufacturing firm offered $25,000. In the name of Alex. Moffatt they procured a a timber limit of fifty square miles in the disputed territory, and in this they received one-fifth blind share. They also obtained a limit on the Swan River for some one unknown, in which they got one-fifth blind share. They further got for themselves a one-half blind share in 1,280 acres of coal lands at the Blackfoot Crossing, and one-third blind share in other deals at the same place. They appear also to have had a blind share in salt springs obtained at Lake Winnipegoosis and to have received 160 acres of coal lands near the Cascade mines in the Rocky Mountains, which, it is said, they sold to McLeod Stewart, of Ottawa, for $1,000. But that was not all. These young men gobbled up everything which came within their reach. Mr. Macdonald secured the Solicitorship of the Canadian Pacific Railway Land department at a salary of $5 000 a year payable at Winnipeg, while his partner, Mr. Tupper, was appointed to the very same position and at the same salary, the only difference being that in the latter case the salary was payable at Montreal. To wind up the list for the present this this enterprising firm secured the office of Solicitors of the Hudson Bay Company, the oldest and perhaps the best known legal firm in Winnipeg being dismissed to make way for them, to the intense disgust and indignation of the whole legal fraternity of Winnipeg.

When Mr. Cameron made his statement he challenged enquiry or contradiction which would be upheld by proofs as telling as those which he had given. But his opponents were struck dumb, and Sir John Macdonald did not attempt to enter a denial until the day before prorogation, when Mr. Cameron had left for home, and then he succeeded in disproving nothing which had been charged. Let the public judge whether the Opposition are not justified in bringing such matters to the light of day, and whether they ought to be condemned as slanderers by the Tory press because they undertake to prove the existence of such evils.

THE Tory member whose character has become besmirched by corrupt dealings with the Ottawa Government indignantly denies the charges made against him as a rule. For instance one of these worthies in the Commons called Mr. Cameron a slanderer and a liar. On what ground are such vehement denials made? For the most part because of such trifling mistakes as the putting of the member's name down in connection with coal areas instead timber grants, or *vice versa*. In dealing with some sixty or seventy cases where members have received grants of one kind or another from the Government nothing is easier than to make mistakes of so slight a character. They are a mere slip of the tongue not in any way affecting the well-founded nature of the charges. The denial of guilt on such a pretext counts for nothing. If this business is an honest and above-board one, why should those accused grow so furious over it? The fact that they do so shows they feel that they are engaged in plundering the public and prostituting their position as the people's representatives to the basest and most sordid considerations of self-interest.

BUCHAM'S OLD STAND.

Retail--87 Upper Wyndham-st., Guelph. Wholesale--9 and 11 Wellington Street, East, Toronto.

A GREAT feat has just been accomplished in the simultaneous change of gauge on nearly all the railroads of the Southern States. About 14,000 miles of road were changed in one day from the five-foot to the standard gauge, involving an outlay of $2,100,000. The United States census of 1880 put the proportion of the railroad mileage of the country using the standard guage at 77.7 per cent., with 11.4 per cent. of the five-foot gauge. The other 10 per cent. was divided between the six and three foot gauges. Many of the latter have since been changed, and the alteration on the Southern roads reduces the percentage of roads using the narrow or the wide guage to not more than two per cent. of the whole mileage of the United States.

The London *Free Press* thinks to offset the effect of the guilt proved to lie at the doors of the Tory Administration at Ottawa by a scurrilous attack upon the Opposition, because forsooth, the latter has dared to uncover the reeking mass of corruption and present it to the public gaze. Such a course cannot help its cause. Villainous abuse will not stand against facts for a moment. It is a threadbare device to resort to calumny where argument fails. But the Opposition can stand it, conscientious that they have done their duty in exposing the nefarious transactions that are constantly taking place between the Macdonald Government and their followers, by which the domain is being stolen and appropriated to the extent of hundreds of thousands of dollars annually. Let the *Free Press* keep up its tirades and people will not be slow to understand that in the absence of something more convincing it has an exceedingly weak cause to champion.

A Standard Medical Work

For Young & Middle-Aged Men.

ONLY $1 BY MAIL, POSTPAID.

SEEKING DISSOLUTION.

Gladstone's Government Unanimously Resolve to go to the Country.

LONDON, June 8.—The Cabinet at its meeting by a unanimous vote resolved to appeal to the country. They held that by resigning they would only prolong and complicate the acute dispute which will be terminated by the speedy dissolution of Parliament. Mr. Gladstone will send a special messenger to the Queen to-night with a letter recommending that Her Majesty dissolve Parliament as the only means to secure a stable Government. If the Queen does not exercise her prerogative and summon Lord Harlington to form a new Ministry, Mr. Gladstone on Thursday will ask the House of Commons to proceed with the Supply Bill and will indicate the Queen's intention to dissolve Parliament at an early date. It is expected that the House will be dissolved on the 28th, that the elections will last a month and that the new House will meet in August.

John Bright voted with the Opposition. His example was followed by twenty Scotch Liberals.

The majority against the Home Rule Bill surprised even the Unionists. Several members supposed to favor the bill went into the opposition lobby. The crowd outside attempted to mob Lord Hartington when he emerged from the House after the division.

Eighty-five Parnellites voted with the Government. The eighty-sixth, Captain O'Shea, whom Parnell insisted on having the League elect to represent one division of Galway, walked out of the House and abstained from voting. About twelve Liberals refused to vote on the division. The Liberals who voted against the Government are said to be almost identical with those whose names were on the list prepared before the recent Liberal meeting at the foreign office.

Ninety-four Liberals and Radicals voted against the Home Rule Bill.

There is intense excitement throughout the country over the outcome of the contest. Conservatives and Whigs are everywhere making the day one of jubilee, ringing bells, lighting bonfires, firing cannon and singing "God Save the Queen."

The Cabinet was at first divided on the question of resigning or dissolving Parliament. Mr. Gladstone was emphatic for dissolution. Mr. Gladstone has frequent telegraphic communication with the Queen, and has mailed to her lengthy despatches.

The press of London generally rejoices at the result of the vote.

John Morley, speaking before the Eighty Club in London on Tuesday night, said that in spite of the defeat the Home Rule Bill would very soon become law. He impressed upon his hearers the importance of not forgetting in case of an election that unless the Liberal majority exceeded eighty-five, the Parnellites would have complete control of parliament.

BELFAST, June 8.—Rioting was renewed here this evening. A mob of Orangemen wrecked a number of houses of Catholics and threw stones at the police, severely injuring some of them. The Riot Act was read and the police fired upon the mob, which replied with revolvers. Many were injured on both sides. The police finally triumphed.

DUBLIN, June 8.—Rioting continues in the Orange districts of Monaghan. At Lurgan several militiamen have been wounded. Some houses were wrecked and several persons have been shot, some being dangerously wounded. One Thos. Gallagher was shot dead. Troops have been ordered from Armagh to clear the streets. Almost all the constables were injured by stones or bricks.

There is the wildest enthusiasm among the Loyalists in the North of Ireland over the defeat of the Home Rule Bill. Rockets were sent up at Coleraine last night announcing the result of the vote to the adjacent towns as soon as the news was known. Ten thousand Loyalists paraded at Lurgan this morning in honor of their victory.

In Belfast, Londonderry, Lurgan, Armagh and other towns the Loyalists have been stoned during their parades and demonstrations, but up to a late hour no case of fighting or extreme violence has been reported.

New Creations.

ROME, June 7.—At a Papal Consistory to-day the Pope read a secret allocution. Most Rev. James Gibbons, D. D., Archbishop of Baltimore, and The Most Rev. Elzear Alexander Taschereau, D. D., Archbishop of Quebec, and others, were created Cardinals. Eighteen Bishops were nominated.

QUEBEC, June 7.—The city is in a state of great excitement over Cardinal Taschereau's elevation. Bells are ringing, flags are flying, and hundreds of people are hastening to the Cardinal's residence to wish him joy and pray for his benediction. In the afternoon Vicar-General Legare notified the Legislature, who on motion adjourned until after recess. Lord Lansdowne and the Lieutenant-Governor were also notified, and a salute of neneteen guns was fired from the citadel.

Ontario Medical Council.

TORONTO, June 8.—The annual meeting of the Medical Council of the Ontario College of Physicians and Surgeons was opened yesterday forenoon in Medical Council Hall at Bay and Richmond streets. The President, Dr. Bergin, M. P., Cornwall, was in the chair. The full council of twenty-six was present. Dr. Henry, of Orangeville, the new representative for the Saugeen and Brock division, took his seat.

The President addressed the Council with reference to the over-crowding of the profession and asked that some action be taken regarding men who go to the Old Country for registration. He also referred to the subject of general education. Officers for the ensuing year were elected as follows: President, Dr. H. H. Wright, Toronto; Vice-President, Dr. Henderson, Brantford; Registrar, Dr. Pyne, Toronto; Treasurer, Dr. W. S. Aikins, Toronto; Solicitor, B. B. Osler, Toronto.

A resolution of condolence with the family of the late Dr. Douglass was passed.

The Council then adjourned till this morning.

An incendiary fire in Chicago Monday morning resulted in the death of eight persons, the victims being burned to death or smothered in their beds.

Recent rains in the North-Western States have made a favorable change in the prospects of spring wheat, the crop in the greater part of the territory being placed beyond danger. Oats are in very bad condition, the rain coming too late to repair the effect of the drouth.

A passenger train on the Northwestern railway plunged through a trestle work near Charleston, S. C., on Monday, killing six persons.

Reasons why you should purchase Fish Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism Sold at 25c a bottle by Thos. S. Petrie, Druggist

RYAN, BERKINSHAW & CO.

DESIRE to thank the Public for their princely patronage since taking over the Dry Goods business of MESSRS. JOHN HOGG & SON.

We are pleased to know that the public are appreciating our efforts to furnish them with *Good Honest Reliable Goods* at *Moderate Prices*. We do not say that we sell without a profit, nor do we say that we sell at a less profit than other Houses, although our prices in many cases have been less. Profits to-day are not any higher than they ought to be, but the trouble with a great many Houses, is, that they are not in a position to buy right, and the result is, when they mark their goods with only the ordinary profit added they are then too high. Men to-day, to make the Dry Goods Business a success, must reach (as near as possible) the fountain head of production. Yes, and have the money when they get there, for the old way of buying on four and six months, and then renewing the paper, is but a shorter way to failure. The time is fast approaching when to make a success of the Dry Goods trade men must pay cash or buy on very short time, know where to buy, and as well thoroughly understand every line of goods they handle. Our facilities to-day are such as to enable us to sell *Good Honest Reliable Goods* under ordinary Houses, and then make as much profit. Being Direct Importers we save the middle man's profit, and as well in almost every case we have paid *Spot Cash* for our Goods, not even taking thirty days. By so doing we have made a large saving in the way of discounts, which puts us in a position to sell our goods just that much less than the man who is compelled to take time and lose the discount, and then another advantage we have over some other merchants, is that we do not own the store that we occupy, as we find it a profit to us to allow someone else to own the building, and we pay them about 4 per cent. on the money invested rather than have the place in our name with a large amount borrowed on it at 6 or 7 per cent. Now notwithstanding the fact that some Houses in the trade have talked loud about the amount they have imported this spring, we are in possession of information which enables us to know for a fact, that not more than five cases of goods have been imported from England, Ireland or Scotland this spring, by any other Houe in Guelph, not even by the House that has talked so much about "Importing," "Paying Cash," and a lot of other nonsense. While our importations have been moderately large this spring (about five times as much as all the other Houses combined), yet it is a small amount compared with what it will be this fall. Our Mr. Ryan will leave for the English Market by the "Aurania," July 10th, from New York.

SCIENTIFIC SOCIETY.

The Flora About Guelph in the Month of May.

The regular monthly meeting of the above society was held last evening in the Congregational church, the President, Mr. James Goldie, in the chair. After routine business, Prof. Panton announced that he had had correspondence with the Grand Trunk Railway Co. in reference to rates for excursions and they had agreed to grant return tickets at a single fare to parties of twenty-five or more. The next excursion will be next Saturday week, to Elora, which will be further noticed. The President next asked Prof. Panton to read the paper of the evening which had been prepared by Miss Vale, of Guelph, her subject being "Our local woods in May," a brief outline of which is as follows:

"It is rather surprising that, in these enlightened times, we should meet so few who have any knowledge or take an interest in natural history, the all too common verdict being that such things are fit for school children or those who have nothing to do, and others again leave it entirely alone because "there is no money in it." Study should be one of the most delightful occupations that can employ the attention of reasoning beings, and be to mature minds a recreation from the stern pursuits of every day life. A beautiful landscape or handful of wild flowers may be common properly to all who see them, but a botanist will discover hidden beauties in the flowers, unseen by the common eye. We cannot all distinguish ourselves as botanists, but can at least follow in the footsteps of those who have gone before, and have a fair knowledge and appreciation of the beauties of nature. The love of flowers is implanted in people of all ranks of life, and nationalities—the humble cottage having its mignonette and geraniums, the suburban villa its clematis and foliage plants and the conservatory of the wealthy its orchids and rare hothouse ferns; but to many the wild flowers of our woods possess greater charms, and especially so in the spring time, when they shine forth after the long and dreary winter months. The autumn violette is greeted with none of the love that hails that of spring, and the lovely snowdrops would not be noticed in July amongst the stately lillies or queenly roses. It is wrong, however, to judge a flower by its size, some of our most common weeds revealing most beautiful blossoms under the microscope. In studying these weeds a few years ago I found some twenty-five varieties, many of them being related to some of our most beautiful flowers. For instance the pig weed is a full cousin to the Amaranth family from which we get so many foliage plants. The common purslane is akin to the grand double portulacca, the bind weed to our convolvulus, the common dock to its cousin rhubarb, and so on, and many of them possess great beauties of their own. How beautiful the dandelion would be to us if a rare flower, or the thistle if it required careful and tender cultivation. The surest way to see what treasures our woods possess is to penetrate their shady depths and see the different flowers in their native soil. Supposing it to be the month of May, and May flowers are always sweetest, after entering the woods almost the first plant that will attract our attention will be the common "Adder's" Tongue, with which the ground is covered everywhere, its curious pointed leaves, blotched with red and green, but no two alike. The single leaf plants are flowerless, but occasionally you see the two leaves together, supporting or surrounding a long slender stem and its yellow flower. This is the erythonium or dog tooth violet. Let us next examine this brush heap and we find a bunch of squirrel corn. This resembles very much our garden bleeding heart and is really a first cousin to it. These flowers are white, not so showy or large as the garden variety, but much more fragrant and the leaves mixed with other flowers add greatly to the beauty of a boquet. Next in an open and stony place we find the ground covered with green leaves and white blossoms. This is the wild strawberry or fragoria. Who would think that this plant and our apple trees are related? The flowers are exactly alike, excepting in size, and both belong to the rose family. Next in a shady corner we find Sanguinaria or blood root—squeezing the leaves or breaking the roots produces a red juice, formerly used by the Indians for dyeing porcupine quills or wood for baskets. This plant belongs to the poppy family. On turning down one of these shady aisles in the wood we next come on the Dentaria or common pepper root, with its pretty white and fragrant flowers. The root is largely used by the Indians for medicine. Here also are many varieties of violets, yellow, white, blue and also a dark purplish blue, also, the lovely viola canadensis with its large white petals tinged with purple. In the root of this elm tree we find Hepatica or liver plant, its flowers being white, blue or purple: another blue flower which grows plentifully is the common blue phlox, a beautiful thing and very sweet. What is this large white flower on a slennea stem with a whorl of three leaves, nearly always pure white, or perhaps tinged with rose or a delicate line of green? These are all trillums, and, although very lilly-like in appearance, belong to the Smilax family. On a mound near by we find a great collection—three species of Licheus, three of ferns, four kinds of moss; close beside these is some Claytonia Virginia, which blooms early in May, and, also the Mitella Diphylla or Mitrevort or Bishop's Cap, a small but beautiful flower. On climbing the bank by the river we came on the Equisetum or Horse Tail, which, though far from prepossessing in appearance, comes of an old and honorable family. Thousand of years in the carboniferous age its progenitors lived, known as calamities, much larger were they then, and their impression is now often seen in coal beds the formation of which is in a great measure due to this plant. Our baskets are almost full, but we must examine this large tropical looking plant, nearly two feet high, with glossy green leaves, two on each plant, and springs from between them a lovely white flower, like wax. This is the podophyllum pellatum or common mandrake or may apple, the fruit of which is very palatable when cooked. Before stopping we must gather a few of the "Lords and Ladies" or Jack in the Pulpit—otherwise known as the wild turnip. A full cousin of "Jack" is our well known "Calla Lily," both belonging to the Arum Family.

Looking over our work, what have we gathered?

Arum, Padophyllum, Phlox, Erythonium, Oxalis, Mitella, Drutaria, Trillium, Fragaria, Dicentra (2 species), Viola (6 species), Hepatica (2 species), Sanguinaria and Claytonia, and last but not at all the least, Equisitum.

Enquiries and replies by members present, brought to a close a most interesting and instructive meeting. There was a large collection of specimens on hand to illustrate the varieties named; and Miss Vale was warmly congratulated and praised on all sides for her excellent descriptive paper.

"What is McGregor's Speedy cure for"?
It is for dyspepsia, liver complaint, indigestion, biliousness, and it is the finest blood purifier in the known world to-day.
"Does it give satisfaction?"
We cannot point to one instance where it did not.
"Where does it have the largest sale?"
Right in the city of Hamilton where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by Thos. S. Petrie, Druggist.

Guelph Conference.

GODERICH, June 8.—At the educational meeting last night the chair was taken by the Rev. James Gray. Excellent and timely addresses were delivered by the Revs. Dr. Withrow and A. M. Phillips, B. A., one on mental culture required by the times in the ministry and the other on the elocutionary training thereof. There was a very large meeting, the choir enlivening the proceedings with choice selections of song.

The chair of the Conference was taken at 9 a.m. to-day by the President. The report of the Contingent Fund Committee was read by the Rev. G. H. Cornish and adopted. Report No. 2 of the Committee on Memorials was read by Rev. N. S. Burwash and adopted. Report No 2 on Conference agencies was read by Rev. T. J. Snowden and adopted. Rev. W. Casson and T. S. Edmunds, B.D., were appointed to prepare a pastoral address for next year. The Educational Fund report was read by Rev. W. C. Henderson, M.A., and adopted. The report of the committee on Temperance was read by the Rev. R. W. Williams.

An expression of thanks to members of the House of Commons who voted against the mutilation of the Scott Act as designed by the Senate, and also to the Provincial Government for the aid which they have given towards its enforcement in counties where the Act has been carried, and an appeal to all friends of temperance to join hands at this supreme juncture to assist in the election of candidates to Parliament and other officers of State who favour prohibition, and commending heartily the work of the Dominion Alliance and the Women's Christian Temperance Union, were among the parts in the report of the committee. It was adopted enthusiastically.

The report of the Educational Committee was read, and the following students were appointed to college:—Victoria College, Isaac B. Walwin, J. W. Frizzell, J. T. McLaughlin, J. T. Legear, J. J. Crookshanks; Montreal College, H. Colwell, E. J. A. Shaw.

The Committee on Conference Relations recommended as new superannuates Wm. Herridge, D. Auld, and D. Perry.

Requests for the next Conference were received from Kincardine, Seaforth, Mount Forest and Galt. Galt was selected, Conference to begin at 9 a. m. on the first Wednesday in June, 1887.

The ordination class presented the President with a photographic picture of the same, which drew forth a warm acknowledgment.

The report of the Alma Ladies' College was read by Rev. A. M. Phillipps, and a resolution adopted expressive of the interest the Conference has in the College.

On motion it was resolved that the Conference Special Committee distribute the Sustentation Fund.

The report of the Board of Examiners was read and adopted.

A series of resolutions relating to General Conference legislation was introduced and adopted.

Rev. Dr. Griffin was elected representative to the General Missionary Board.

Rev. W. C. Henderson was elected to the Transfer Committee.

The President nominated the President and Secretary of Conference Superintendents of districts, and Revs. Wm. Herridge, J. McAllister, James Hannon, and W. H. Holmes as the Conference Special Committee.

Superintendents of districts were permitted to employ Simon H. Pentland, W. G. Treleaven, and Albert Ranton.

It was ordered that newly formed districts elect laymen to the Conference Missionary Board at the financial district meetings.

After the reading of stations, election of district superintendents and financial secretaries, the Conference closed its harmonious sessions by prayer, offered by Rev. Dr. Aylesworth and W. C. McDowell, and the benediction by the President. The Conference temperance meeting tonight is addressed by the Revs. B. B. Keefer and J. L. Wilkinson.

FINAL DRAFT OF STATIONS.

The following is the final draft of stations of the Guelph Conference for 1886. Rev. W. S. Griffin, D.D., president; Rev. T. M. Campbell Secretary:—

GUELPH DISTRICT.

Guelph First—Norfolk street, Joseph W. Holmes; Hugh T. Crossley, left without an appointment at his own request in view of evangelistic work. Guelph Second—Dublin street, W. S. Griffin, D. D., Alex. K. Birks, B. A. Guelph Third—Paisley street, William Savage; Ponsonby, Isaac Crane; Elora—James Broley, Samuel Fear, superannuated; Fergus—Joseph S. Colling; Marsville—William Willimott; Belwood—Thomas Grundy; Eramosa—Jas. Walker; Rockwood—Francis Swan; Wesley S. Kerr; Acton—Robt. Phillipps; Georgetown—J. Walker Shilton, B. A., Geo. H. Cobbledick, B.A., James Gray, treasurer of Superannuation Fund, permitted to reside in Toronto, John C. Pomeray, B. A.: Oakwood—Nelson Burns, M. A., supernumerary; Erin and Ballinafad—Joseph Markham, Edwin L. Flagg. Dr. Griffin, superintendent; J. W. Holmes, financial secretary.

Galt District—Galt—W. C. Henderson, M. A; Berlin—John W. German; Waterloo—Wm. Mills; Preston—Wm. H. Hincks; Hespeler—Richard C. Henders; James White, superannuated; Nassagaweya—Wm. Birks, Jno. J. Rapp; Elmira—Thos. J. Snowdon; New Hamburg—Jno. W. Robinson; Linwood, Thomas J. Smith; Hawkesville, Henry A. Newcombe. W. C. Henderson, M. A., superintendent; William Mills, financial secretary.

Mount Forest district—Mount Forest, Isaac B. Aylesworth, L.L.D., Thos. Dudley, superannuated; Durham, Thos. Gee, William T. Miller; Holstein, Robert J. Husband; Harriston, John Mills, John H. Holmes, supernumerary; Gorrie, James Charlton; Wroxeter, Samuel H. Edwards; Fordwich, Wm. Ottawell; Clifford, Edwin A. Chown, B. D.; Glenallen, John Pepper, B. A.; Arthur, Ben. Sherlock, Reuben J. Tyler, superannuated; Kenilworth, Finlay M. Smith; Grand Valley, William M. Bielby; Franklin Colbeck, B.A., left without a station at his own request; Cedarville, Allan Glazier. Dr. Aylesworth, superintendent; James Charlton, financial secretary.

Listowel district—Listowel, George Richardson; Palmerston, Charles E. Stafford; Palmerston circuit, Joseph H. Gibson; Drayton, George Buggin, Henry Berry, superannuated; Alma, Abraham W. Young, Henry Irvine; Peel, James Harris; Stirton, Jabez Wass; Trowbridge, Chas. V. Lake, John Armstrong, superannuated; Attwood, James Ferguson; Henfryn, William J. Brandon; Wallace, John R. Isaac: Moorefield, Andrew M. McCulloch; Teviotdale, Wm. Shannon; Thomas C. Bell left without a station for one year at his own request. George Richardson, superintendent; G. Buggin, financial secretary.

Sporting Notes.

BASEBALL.

The Maple Leafs defeated the Hiawathas, a strong semi-professional Club, of Detroit, yesterday, by the score of 10 to 7. Zell and Dillon were the battery for the Leafs.

The Leafs play the Cass club again to-day. A close game may be expected, as the Detroiters are making great efforts to win.

Toronto and Hamilton have their victories and defeats, but the Maple Leafs keep on Winning.

"Reader," in imorming you of this wonderful remedy for coughs, colds, asthma, bronchitis, consumption, and all affections of the throat and lungs, we feel that we are doing you a great kindness, as if you have any of the above complaints, if you will only try it we will guarantee satisfaction in every case or money refunded. Ask for McGregor's Lung Compound. Price 50c and $1.00 per bottle at Thos. S. Petrie's Drug Store.

Elora Correspondence.

PROGRESS.—The telephone has reached Elora by way of Fergus and Aboyne. Men have been busily engaged in erecting poles during the past five days; and made a commotion on Metcalf street yesterday while blasting rocks for post holes, which created a bigger crowd than a dog fight. The wires will be hung in the course of a fortnight, and Elora will be able to talk "right back" to the outside world.

DEATH.—On Sunday last Miss nusie Forster, youngest daughter of Mrs Louisa Forster, peacefully passed away after a long illness to which there could be but the end which came, and during which she bore up with fortitude and resignation. Mrs Eorster, in this her most recent bereavement, has the sincere sympathy of the whole community. One by one her family of full-grown sons and daughters have passed away, victims to that dread scourge consumption. Miss Forster was engaged for some time in school teaching here, and by her amiable character and strict attention to duty, won the respect of young and old alike. She had entered on her twenty-third year when Death claimed her as his own.

THE FIRST.—The Irvine Park Committee are determined that Dominion day shall be celebrated in Elora this year with more than usual spirit. A football match between Arthur and Elora will be one of the attractions, and a lacrosse club from Galt will fight with as good a team as Elora can get together. Both events will excite much interest. But in addition to these there will be many other attractions, of which full particulars will be given later on.

ASCENSION DAY.—Thursday was duly observed in Elora last week and services were held in the Roman Catholic and Episcopal churches. In St. Mary's Church the congregation was unusually large.

ABOUT AGAIN.—The well-known form of George Gardener is to be seen on our streets again, and his good natured face and pleasant smile greet the guests of the Dalby house, as cheerfully as they have done for years.

SACRAMENT.—The congregation of Knox Church partook of Sacrament on Sabbath last, and the attendance was the largest known for years.

LEFT.—Mr George C Bristow, for many years resident in Elora, started for England on Monday last, and expects to remain there until the end of summer. He has been employed in the store of Mr C Clarke for about seventeen years, but feels that his health is suffering and that it is necessary for him to have a rest and seek other employment. It is more than likely that upon his return he will enter some wholesale house as salesman or traveller.

GOING.—On the first of July, Mr Korman will retire from the brewery in Salem, but nothing daunted by the passage of the Scott Act, the lessor, Mr Reuter, will resume business, and hopes to retain the patronage which this well established brewery has so long received.

A VISITOR.—Mr John Smith, immigration agent, Hamilton, paid an official visit to Elora on Thursday last in his capacity of inspector of children sent out from England by various societies there, and adopted into Canadian families. Mr Smith is a keen sportsman, and an earnest protector of fish and game. He thinks that the streams in this locality ought to be placed under the inspection of some competent man, and that those interested ought at once to apply to the Government for the appointment of some suitable person.

COMING.—It is time that the contemplated improvements at the rocks was completed. The pic-nic season is upon us and Elora will have more visitors this summer than at any previous time. The ball will open on the 21st inst, when the members of the Guelph League of the Cross will take in the scenery of our rivers by way of pic-nics. The excursion is expected to be a large one, and we feel sure that our citizens will give their visitors a hearty welcome.

COUNCIL.—A new councillor was elected to-day in place of Mr Alex Waddell, who has gone to Toronto. Mr John Bain was the lucky man and has already had municipal experience.

GONE AWAY.—Mr. James Paget, of Elora, has been successful in obtaining a respectable position as secretary in the head office of the Canada Pacific Railway, at Montreal. He is to be congratulated upon his appointment, and we feel sure that he is on the high road to a successful career.

IMPROVEMENTS.—The Council deserve credit for the great improvement which they have effected in the construction of a side walk, even if a narrow one, from Victoria bridge to the drill shed. Let them add a lamp, and everybody will grant them absolution for sundry little sins of omission in other localities.

NEW BARNS.—Despite hard times, new barns are going up in Nichol and Pilkington. Last week, Mr. Finnegan, had a real old fashioned raising, at which over one hundred "hands" were present, and the usual festivities followed—a good supper, a capital dance, and a splendid time. Mr. Finnegan has a full share of the hospitality which ever distinguishes his countrymen, and took care that it was fully exercised. During the present week, frames of new barns will be put up on the farms of Mr. Patrick Heffernan and James Elmslie, Nichol, and of Mr. James Wright and George Nickinson, in Pilkington. May they all be filled to the ridge when harvest comes.

CLOSING UP.—For more than 50 years the people of this neighborhood had a right of way along the left bank of the Grand River, to the locality of "the Cascade"—a right of way sufficiently long established to have their title to the footpath indisputable. Fencing has gradually encroached upon this right, and it depends upon the people themselves to determine whether they will submit to what is really an infringement upon their liberties. The Council ought to see to this matter and erect stiles, and so preserve the footpath over the land lying between Elora and the Cascade

ONE MAGISTRATE FOR WELLINGTON.—It is not generally known that according to Section 103 of the Scott Act, all infringements of 41 Vic. Cap. 16, must be tried before a Police Magistrate when such an official is created for a county. In Wellington there is one at Rothsay, and if a charge is brought against a man in Elora, or at any other point however remote, informant, witness and defendant must be dragged over forty miles before the case can be enquired into. As a consequence, people will be very careful before bringing charges for infraction of the law, and the Act will be rendered a nullity through the over anxiety of some of its friends to secure a magistrate against whose decision there is no appeal. It would have been better to trust to ordinary J.P's.

Elora, June 8.

Rockwood Correspondence.

Mr. E. R. B. Hayward will sail for England on the 17th inst., on a visit to the Intercolonial Exhibition.

Several Rockwood people spent two days in Toronto, last week, waiting to see the boat races that didn't come off.

Mr. Robert Nicholl, Nassagaweya, raised a 56 by 54 feet bank barn on Friday last. A large number of the neighboring farmers turned out to the "bee."

Mr. Daniel Strachan, divinity student preached his maiden sermon in the Methodist Church, Everton, on Sunday morning last. A number went over to hear him.

Mr. Ralph Richardson, of this village, has turned out a two seated democrat waggon for Mr. Nicholas Norrish, Nassagaweya, which is pronounced by connoisseurs to be a masterpiece of the waggon maker's handicraft. The vehicle is certainly a credit to the head and hands of the builder.

MUGGINS CARDS FOR SALE AT THE MERCURY Office. Price 50 cents a pack.

PERRY DAVIS' PAIN-KILLER
IS RECOMMENDED BY
Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, —in short, everybody everywhere who has ever given it a trial.
TAKEN INTERNALLY MIXED WITH A WINE GLASS OF HOT MILK AND SUGAR, IT WILL BE FOUND A NEVER FAILING CURE FOR
SUDDEN COLDS, CHILLS, CONGESTION OR STOPPAGE OF CIRCULATION, CRAMPS, PAINS IN THE STOMACH, SUMMER AND BOWEL COMPLAINTS, SORE THROAT, &c.
APPLIED EXTERNALLY, EXPERIENCE HAS PROVEN IT THE MOST EFFECTIVE AND BEST LINIMENT ON EARTH IN REMOVING THE PAIN ARISING FROM
SPRAINS, BRUISES, RHEUMATISM, NEURALGIA, SWELLED FACE, TOOTHACHE, BURNS, FROST BITES, &c., &c.
25cts. per Bottle.
Beware of Imitations.

BEWARE OF COUNTERFEITS.
MURRAY & LANMAN'S CELEBRATED Florida Water
The Universal Perfume. For the Handkerchief, the Toilet and the Bath.

CAMPBELL'S TONIC ELIXIR
This agreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system, and usually accompanied by Pallor, Weakness and Palpitation of the Heart. Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion. For Impoverished Blood, Loss of Appetite, Despondency, and in all cases where an EFFECTIVE and certain STIMULANT is required, the ELIXIR will be found invaluable.
Price $1 per Bottle. Or Six Bottles for $5
Sold by all Dealers in Medicines.
DAVIS & LAWRENCE CO. (Limited)
SOLE AGENTS, MONTREAL, P. Q.

ALLEN'S LUNG BALSAM
COLDS, COUGHS, CONSUMPTION, BRONCHITIS, CROUP
THE BEST REMEDY FOR CURING
THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*
CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy—**Allen's Lung Balsam.**
MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.
ALLEN'S LUNG BALSAM IS YOUR REMEDY.
Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.
DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*
Allen's Lung Balsam is now put up in Three Sizes,
Price 25c., 50c., and $1 per Bottle.
The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.
Sold by all Medicine Dealers.

Guelph, June 10th, 1886

Mortgage Sale of Valuable Property in the City of Guelph

PURSUANT TO A POWER OF SALE CONtained in a certain Mortgage made by David Molton, which will be produced at the time of sale, there will be offered for sale by public auction, at the door of the City Hall, Guelph, on

Saturday, the 12th day of June, 1886,

at the hour of 12 o'clock, noon, the following property, namely:—Lots numbers Three and Four on Suffolk street, in Hatch's survey, in the City of Guelph.

The property is immediately adjoining the West Ward school, and within five minutes walk from the Post Office. There is a good rough-cast house with outbuildings, together with hard and soft water on the premises. The lots will be sold either singly or together.

Terms of Sale—Ten per cent of the purchase money to be paid at the time of sale, and the balance in two weeks thereafter, or one half the purchase money may remain on mortgage, with interest at six per cent. half yearly. For further particulars apply to

HUGH McMILLAN, Vendor's Solicitor, Guelph.

Parlor suites and easy chairs of all descriptions. We don't have to buy Furniture from any one firm Please call and buy. W. J. JOYCE & Co., Hazelton Block, opposite D. N. Hogg & Co's.

New Livery Stable.

JOHN McATEER

BEGS TO NOTIFY THE PUBLIC THAT IN connection with his hotel, he has opened a first-class Livery Stable, where parties can be accommodated with splendid rigs.

Everything new. Rates moderate.

He hopes to receive a share of public patronage. m31d12

GURD'S GOOD GUNS

Large Illustrated Catalogue of Guns, Rifles, Revolvers, Fishing Tackle, Clay Pigeons, Blackbirds, Glass Balls, Traps, &c.,

Free by Mail. *Send for one to*

J. GURD & SON.,

185 Dundas-st, London, Ontario.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address.

DR. T. A. SLOCUM,

Branch Office, 37 Yonge St., Toronto

The Medical Council.

TORONTO, June 10.—The Medical Council of the Ontario College of Physicians and Surgeons resumed its session yesterday. Dr. H. H. Wright presided. The treasurer's report was read and showed the receipts to be $17,710, expenditures $14,526. After the expenses of the session now being held have been met there will remain a balance of $1,359.

In regard to the erection of a new Council hall the Building Committee reported that no offers of purchase had been received for the present site, and that it would be inadvisable to dispose of such site. The report was adopted.

A Special Committee was appointed to confer with an architect for the erection of a suitable building on the present site.

Mr. G. W. Grote addressed the Council on behalf of Dr. H. E. Sheppard, of Oakville, who had applied for registration in Ontario. The matter was referred to the Registration Committee.

A MINISTER has been lecturing recently on "Suicide—Its Causes and Cure." We believe he is right, but still it is a pretty impossible task to cure a man of suicide. Nearly all the cases thus far reported have proved fatal.

MARRIED.

PIPE—POTTER—At Maple Grove, Berlin, the residence of the bride's father, on June 9th, 1886, by the Rev. Donald Tait, Mr Alfred A. Pipe, of Guelph, to Miss Jessie J., fourth daughter of Mr James Potter.

DEATHS.

CAMPBELL—MRS. John Campbell, mother of Rev, T. M. Campbell, of Goderich.

The funeral will take place on Friday, from the Grand Trunk Station to the Cemetery, upon the arrival of the 5.17 train. Friends and acquaintances will please accept this intimation without further notice.

FARROW—At his father's residence, Elora Road, Guelph, on the 9th June, Henry Farrow, second son of Mr. Asher Farrow, aged 33 years and 11 months.

The funeral will take place on Friday afternoon at two o'clock.

I. O. O. F.

THE MEMBERS OF RELIANCE LODGE No. 89, and Progress Lodge, No. 156, I.O.O.F., are requested to meet in the Lodge Room on *Friday, June 11th*, at one p.m., for the purpose of attending the funeral of our late brother Henry Farrow, of Battle Creek Lodge, Michigan. Visiting brethren cordially invited.

J. PARKER, N. G., J. J. MAHONEY, N. G., Reliance Lodge No. 89. Progress Lodge No. 156.

Wanted.

WANTED, a good general servant at once. Apply to MRS. DAY, Grange st. a24dtf

CITY OF GUELPH.

Application for the office of

CITY ASSESSOR

will be received by the undersigned until noon, on

Wednesday, 16th June, '86.

RICHARD MITCHELL, City Clerk.

A. O. F.

MEMBERS OF COURT PERSEVERANCE No 5866, Ancient Order of Foresters, are requested to meet at the Lodge Room on Sunday evening, at 6 o'clock, sharp, for the purpose of attending Knox Church in a body, when the annual sermon will be preached by the Rev. Mr. Beattie.

H. NICHOLSON, Chief R.

d2 t s R. HOWIE, Sec'y.

LOST—ON THE 7TH JUNE IN GUELPH, A gold horseshoe pin. The finder will be suitably rewarded by leaving it at the New Western Hotel. j10d2

Sporting Notes.

BASEBALL.

At the game in Detroit on Tuesday Shiebeck of the Leafs in the fifth innings made a home run by a beautiful drive to left field.

Charley Campau is hitting the ball for a three-bagger every game and running bases in grand style.

Detroit and Toronto papers give Purvis the credit of catching Tuesday's game against the Hiawathas, while it was Dillon who supported Zell in good style, having 14 put outs.

Purvis and Schiebeck were the battery against the Cass Club yesterday, Jimmy Hewer playing at short.

We are still leading the League.

The *Mail* says:—It is respectfully suggested that the Hamilton and Maple Leafs should change places. The former could manage to secure a good place in the Canadian League, and the latter would make matters a little more interesting in the International League.

Detroit *Tribune*:—George Sleeman, ex-mayor of Guelph, Ont., is a great admirer of baseball, and is the principal backer of the Maple Leafs. Besides being a baseball enthusiast he is one of the b-hoys, and has a host of friends wherever the team is known. He expects to have his nine in the International League by the time they return home, which will be about two weeks.

SPECIAL NOTICES.

One hundred sets field croquet. Good sound stock. Prices as follows: 4 ball set 75c., 6 ball set $1.00, 8 ball set $1.25. Best value, best stock, at Day's Bookstore.

RYAN, BERKINSHAW & Co. are turning out dresses and mantles equal to anything that can be had in Toronto, as to "fit," "style" and "workmanship." Ryan, Berkinshaw & Co.

Window shades—plain and fancy rollers. Special nice goods, and at Day's low price, at Day's Bookstore.

DRAB shell, light coloured Felt Hats, Manilla, Mackinaw and Straw Hats, Pith Helmets in great variety at Shaw & Grundy's.

READY mixed paints, all shades, true to color card, fishing tackle, garden tools, oilcloth, linoleum, and mats, at John M. Bond & Co's.

Handsome goods at Nelles' City Bookstore. Our place is full of new, nice, cheap goods for the trade. Call and see them.

FRESH strawberries, tomatoes, cucumbers, pine apples, bananas, etc., at George Williams', 81 and 83 Upper Wyndham street.

"Why are you walking so quickly ma?" cried a bright eyed little maiden of five years to her beloved parent. "I am going to Hughes' sale; everybody in Guelph is there," replied the anxious mother.

New wall paper, borders and decorations at the City Bookstore, and all the praise they require is to say we have a larger stock, nicer goods and cheaper prices than last year, and we astonished people last year. Come and see them before buying. J. A. Nelles.

Children's carriages, new, stylish and cheap, at Nelles' City Bookstore. Don't be misled. You get the best value in the city from J. A. Nelles.

Try Loch's unrivalled Teas and Coffees. Careful personal attention given to the blending so as to strengthen and flavour. Italian Warehouse, 89 Wyndham street.

THREE names which are a synonym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Rain commenced falling in the Northwestern States on Monday night, and came just in time to save the crops of all kinds from serious damage.

Fair and Warm.

The Probs.—Moderate to fresh winds, mostly west and southwest; fair, warmer weather.

Local News

MAN proposes, woman accepts, if the collaterals are good.

THE "Miracle of the Roses" in the Church of Our Lady at eight o'clock tonight.

ACCORDING to the new rules of the Knights of Labour strikes must be ordered only by secret ballot.

IT is related of a popular clergyman that he startled a dull prayer meeting recently by announcing that he "didn't propose to act as umpire for a sleeping match."

THE Lieut.-Governor has issued a proclamation redividing the wards of the town of Listowel. They have been named Bismarck, Victoria, Lansdowne, Gladstone and Dufferin.

"A RATEPAYER" writes complaining that the man who waters the streets is not over careful about sprinkling pedestrians, and frightening horses, by the water being thrown around them, and mentions a runaway from this cause.

MR. MICHAEL SULLIVAN, Bosworth, who was fined $50 and costs for infraction of the Scott Act by P. M. Lowes, was brought down to Guelph gaol yesterday by County Constable Hazeltine for a stay of two months.

MR. J. E. HORSMAN (formerly of Guelph) and Miss Ruth E. Holbrook, of Rice Lake, Wisconsin, were united in the bonds of matrimony at the above place on the 1st June. We wish the happy couple a long and pleasant voyage over the ocean of life.

WINGHAM CALEDONIAN SOCIETY. — The second annual gathering of the Wingham Caledonian Society will be held in the Horticultural Park, Wingham, on Friday, the 25th June, when $1,300 will be offered in prizes. Besides the usual attractions at gatherings of this kind a competition in archery is set down for ladies, and girls under fourteen years. A grand concert will be held in the evening, at which a number of talented vocalists will take part. We have to thank Mr. Wm. Robertson, Secretary, for a complimentary ticket.

POOR CHILDREN.—The Mount Forest *Index* says: We understand arrangements are now being made in town for the reception of some 200 poor children from New York, who will arrive in town at an early date, and remain about two weeks. The children referred to will be in charge of a niece of Mr. A. T. Gregory, of the Homewood Nursery, who is merely bringing them here for a two weeks holiday, and not with the intention of finding homes for the children. The lady members of the different churches in town are taking hold of the matter, and, no doubt, full preparations will be made for their comfort and enjoyment while here.

GUELPH TALENT.—At the Toronto Choral Society's Concert, held in the Pavillion, Horticultural Gardens, Toronto, on Tuesday evening, Miss Laura McLaren, violinist, of this city, took part. The *Globe*, in a report of the concert, has the following:—"Not the least interesting item on the programme was the playing of Rode's seventh concerto for violin and piano, by Miss Laura McLaren. This youthful performer displayed a beautiful broad, cantabile tone, and an admirable technique alike creditable to herself and her teacher, Mr. Jacobsen.

THE WINGHAM SALT WELL.—The *Times* says:—"After a five days' test, pumping operations at the new salt well have been stopped, the evidence that there is salt in abundance being so conclusive that it was thought unnecessary to proceed further with the test. Each day the percentage of salt in the brine increased wonderfully, as the cavity in the salt bed became greater, and there is no shadow of doubt but that we have one of the most prolific and purest salt wells in the country. The bed is 35 feet in thickness, above and below which is solid rock, no shael or other soft substance having been encountered, so that there is no possible chance of the salt being tainted in the least.

WHAT IT COST TO UPSET A BICYCLIST.—The Stratford *Beacon* tells how a farmer, by the name of Laverty, deliberately ran into Mr. Alexander Stewart, (son of Mr. R. W. Stewart, of this city) while riding a bicycle. The unfortunate rider and his wheel both suffered considerable damage from their contact with Laverty's wagon, and were both disabled for the time being. The Stratford club, determined to assert the undoubted right of wheelmen to a fair portion of the road, took up the case and Laverty was summoned to answer a charge of assault before the Police Magistrate on Saturday. Upon the case being called Mr. Laverty entered a plea of guilty and was fined $50 and costs. The magistrate in imposing the fine, commented very severely upon the conduct of Mr. Laverty, which he said might have occasioned very serious injury to Mr. Stewart, and intimated that farmers who acted at times as if they owned Her Majesty's highways in the country, should take a lesson from the case, and learn to recognize the rights of others, including bicycle riders. Several occurrences of a like nature happened to the Guelph club, and those in the habit of doing so should take warning.

A Heavy Embezzler.

QUEBEC, June 9.—The Public Accounts Committee of the Legislature has concluded its investigation into the defalcations of the late J. V. Gale, accountant of the Crown Lands department. The committee find that from April, 1882, up to the time of his death he stole $51,527 from the department; that the amount of $12,088 having been since recovered, the said sum of money to be accounted for by the Crown Lands Department has been reduced to $39,438, which is the actual amount of Mr. Gale's defalcation.

Heavy Punishment.

ST. LOUIS, Mo., June 3.—P. D. Davis, Master Workman of the Knight of Labor Assembly at Pacific, Mo., was sentenced to two years in State Penitentiary and fined $500 in the Circuit Court at Union, Mo., to-day. He was a leader in the late Southwestern strike and was arrested for attempting to wreck the first freight train that left St. Louis during the strike on March 24 and shooting at the guards.

The Manitoba Methodist Conference is short of ministers.

PROF. PHILP is a little better to-day.

ENGLAND boasts of 347 female blacksmiths.

"GREAT men have often arisen from small beginnings."—Yes a carpet tack.

MR. D. R. ROWEN's store is considerably improved by a coat of paint.

THE Ingersoll Methodist Church proposes to introduce the free pew system.

MR. W. S. G. Knowles passed a very favorable night and is considerably better to-day.

MESSRS. SNELL & GRAY, Galt, are making another shipment of cattle from here to-day.

LIEUT.-COL. ARMSTRONG passed a restless night, and was in a weak condition this forenoon.

THE most prosperous towns in Ontario to-day are those that encourage education and manufactures.

MR. GEO. ELLIOTT is renovating his store adjoining Corbett's Block for a grocer from a distance, who has rented it.

ANOTHER imigrant train, conveying 182 passengers, passed through Guelph last night. Six of the immigrants remained over in Guelph.

THE Rev. J. C. Smith, of St. Andrew's church, was able to be on the street to-day. He has been confined to bed since the 1st of April with rheumatism.

IT is claimed that the potato bug has found his billet at last. The trout like him and the fisherman find that he is taken quicker than an artificial fly.

MESSRS. WATSON BROS. have now entered into full possession of Mr. John A. Wood's grocery store. They are enterprising young men, and will no doubt receive a fair share of public patronage.

BENJAMIN RIGG, of Palmerston, who is charged with an attempted robbery on Scott's bank in that place, was brought to the city to-day in charge of a constable and confined in the County jail.

ON account of the change to take place in the time table of the G. T. R., the Hamilton, Dundas, and Guelph stage will leave here after Monday at half-past ten, instead of half past twelve as formerly.

MR. WM. LITTLE, Arkell, while driving home last night, met with an accident. His horses shied at an object on the way and sprang into the ditch. No damage was done beyond the breaking of the tongue of the wagon.

DORAN's hotel is at present unroofed for the purpose of putting on a new roof. The storm of last night made a sad mess of the house. This morning there were pools of water on the upper floor which soaked through the other floors to the basement, destroying the carpets and ceilings.

MILITARY PROMOTION. — Lieut. John Davidson, of No. 1 Battery, has been promoted to the rank of Captain in No. 2 Battery, in place of Capt. Macdonald, resigned. Capt. Macdonald was an efficient officer and greatly liked by the men, yet there is little doubt that in a short time Capt. Davidson will make himself equally popular.

MR. SAMUEL FITZSIMMONS, well known in this locality, and for many years express messenger on the G. T. R., is in the city at present, on a short visit to his parents. He is now a messenger on the Canada Pacific for the Dominion Express Company, between Toronto and Montreal. He looks well, notwithstanding the severe shaking up he received in a railway accident some months ago.

A SNAKE STORY.—Mr. Archibald Sanders, the Erin stage driver, killed yesterday on the verandah of McCann's hotel, a snake measuring about three feet long. Several are of the opinion that it is a rattle-snake, but if such be the case it is the first specimen of the kind that has been found in this section for many years. The snake was killed, however, and is on exhibition at McCann's hotel, Eramosa.

THE Georgetown *Herald* says:—There was a cheap excursion from Guelph to Limehouse the other day. The Guelph people might except to many a less inviting place than Limehouse. Although it cannot boast of a very large population, it is surrounded by a rich farming community and possesses some very important and well managed manufactories. Its natural scenery would be a welcome addition to the attraction of numerous places of larger dimensions.

SERIOUS ACCIDENT.—The Acton *Free Press* says:—A somewhat serious accident occurred at Mr. Peter Sayers' saw mill, Nassagaweya, on Saturday, by which Mr. G. Carnochan nearly lost his left hand. Mr. Carnochan was engaged in oiling the saw journal when some one started the machinery. The saw caught his wrist, nearly cutting it through before he could withdraw it. Mr. C. is doing very well under skilful surgical treatment.

A LIMEHOUSE CURIOSITY.—The Georgetown *Herald* says:—In the garden of Mrs. Weaver, Limehouse, there is growing a crab-apple tree which was covered with blossoms, and is now laden with numerous clusters of the fruit. From the centre of one of these clusters may be seen growing, a stem on the top of which a beautiful flower, similiar to a white rose, is being formed. If our informant were not reliable, we might question the genuineness of the peculiarity, but we have every reason to believe the curosity exists as stated.

DEATH OF A BANKER.—From Winnipeg comes the news of the death of Mr. James Field, late accountant of the Ontario Bank, Toronto. Mr. Field was one of the oldest bank officials in Toronto, and was promoted to the management of the Mount Forest branch, when the wisdom of Alex. Fisher moved the head office from Bowmanville to Toronto. From Mount Forest Mr. Field was sent to Winnipeg as manager, where during the exciting times of the boom he did yeoman's service for the bank. Ill health compelled him to retire and become a partner in the firm of Field & Haffner.

JUPITER AND MARS.—On clear nights during this month, it will be very interesting to watch the two planets, Jupiter and Mars, in the western sky, gradually approaching each other till the 28th inst., when they pass and gradually widen their distance apart as each goes shooting on his yearly circuit round the sun. These planets are easily found, Jupiter being the largest and brightest star now visible these evenings, while Mars is close by, always known by his red and fiery appearance. Jupiter is the king of the planets belonging to our sun, being 1,300 times larger than our globe, and about 500,000,000 miles distant from the sun.

GENERAL HOSPITAL.

Business Transacted at the Annual Meeting.

The annual meeting of the subscribers of the Guelph General Hospital was held in the office of the Secretary, Mr. E. Newton, on Tuesday, Mr. Geo. Elliott in the chair. The following reports were received and adopted:

DIRECTORS' REPORT.

To the Subscribers to the Guelph General Hospital:—

The Board of Directors, on the occasion of the annual meeting for the election of their successors in office, beg leave to report:

That another year has passed without making any material change in the affairs or management of the Hospital worthy of very special notice. A great deal has been done to promote the comfort of the patients, and many improvements have been introduced to make the Hospital as far as possible a model institution.

As usual the medical staff have been most assiduous in the performance of their duties. The character for superior treatment that the Hospital has acquired is evinced by the great increase in the number of pay patients.

In every department the Visiting Committee report that all the employees of the Institution are performing their several duties faithfully and well.

The Directors had hoped that it would have been possible to add a new wing to the building this year, which is much needed for a better classification of patients, but the depressed condition of the city forbids the hope of accomplishing what is so much needed at present, but they trust that another season may prove more propitious.

The Treasurer presents with this report the statement of receipts and expenditures for the year ending June 8th, 1886, showing a balance on hand of $538 47, which statement has been duly audited by A. A. Baker and Wm. Reynolds, Esquires, Auditors, and found correct.

GEORGE ELLIOTT, Chairman for Board of Directors.

June 8, 1886.

FINANCIAL STATEMENT.

Edwin Newton, Treasurer, in account with the Guelph General Hospital for the year ending June 8th, 1886.

Examined and found correct.

ALFRED A. BAKER, WM. REYNOLDS, } Auditors.

Guelph, June 7, 1886.

THANKS.

The Board of Directors of the Guelph General Hospital, met at the annual meeting, cannot allow the opportunity to pass without an expression of their sense of the obligation, the institution under their charge is owing to the medical gentlemen of Guelph, who compose the medical staff, for their continued and unremitting attention to the patients under their care. To their skill and success in treatment the high standard that the Hospital has reached is due. The Directors therefore publicly tender every member of the medical staff their thanks for their assiduity in their attendance upon the patients.

DIRECTORS.

The following gentlemen were appointed Directors for the ensuing year:—Messrs. James Goldie, J. M. Bond, R. Melvin, G. Murton, D. McCrae, D. Stirton, E. Newton, G. Elliott, J. B. Armstrong, F. W. Stone, James Cormack, and James Innes, M. P.

The meeting then adjourned.

ATTEMPTED BANK ROBBERY.

The Attempt Foiled by a Brave Teller.

PALMERSTON, June 8.—A daring attempt was made this morning to rob Scott's Bank. The manager had been summoned by a bogus telegram to meet Mr. Scott, the proprietor, at Drayton, and about eleven o'clock a person closely veiled and dressed in a woman's clothes came into the office and said she wished to deposit $2,000. The teller, Mr. Bert Boomer, invited her to take a seat in the private office until he got through with customers, several of whom were in the office. As soon as the office was clear the visitor asked that the door be locked until she made the deposit, and, as she appeared very nervous, the teller complied with her request. On returning to the private office she opened a satchel, and took out a large knife and ordered Boomer into the washroom. He refused to go, and a struggle ensued, the teller getting badly cut and otherwise injured, but finally overpowered the robber and took the knife from him, and, on stripping the veil from his face, found himself confronted by one Ben Rigg, a resident of the town. Rigg is now under arrest, and will be tried by the Mayor this afternoon. It is thought he had accomplices. Mr. Scott was immediately telegraphed for at Listowel, and arrived inside of an hour. Finding his interests had been so bravely protected by Boomer, he immediately rewarded him by doubling his salary.

The balance of the sum raised by popular subscription for the statue of Sir Robert Peel at the western end of Cheapside, is to be used for endowing a "Peel Scholarship." It has lain idle for some years, and amounts to $3,150. The scholarship will be for political economy.

Justin McCarthy, M. P., starts in September on a lecturing tour through Canada.

Lord Rosebery has gone to Balmoral as Minister in attendance on the Queen.

County Court.

(*Before His Honor Judge Drew.*)

Court House, June 9.

The Court opened this morning at ten o'clock, Judge Drew presiding.

Herbert Leicht, charged with incest, was brought up to elect for trial, and decided to be tried by the Judge. The learned Judge appeared to be in doubt whether the offence was consignable by law, and wished the prosecuting Attorney, Mr. Peterson, to cite the authorities. The County Attorney intimated that these could be furnished if necessary at a more opportune moment. His Honor remanded the prisoner in the meantime.

Queen vs. John Brownlee—The prisoner was brought up on a charge of unlawfully trespassing on the Canada Pacific Railway in West Garafraxa, by driving his sleigh in the winter time along the railway. It seems that Brownlee was somewhat under the influence of liquor, and instead of crossing the railway crossing, by some means drove along the track. He passed the first cattle guard in safety, but his horses fell into second one. They managed to get free and left the sleigh on the track. A train came along and struck the sleigh whereby the engine was damaged. The jury returned a verdict of not guilty with a recommendation that the Company should keep the cattle guards in proper order and cleared out. Mr. Muir for the defence; Mr. Peterson for the Crown.

GRAND JURORS.

The following are the names of the Grand Jurors:—Wm. Bourne, Thomas Smith, Thomas Creighton, James Milne, Wm. Wilson, James B. Lindsay, Walter Robinson, John Bond, James T. Brill, Hugh Cunningham, Edward Crawford, Wm. Leopard and Henry Dunbar, who was chosen foreman.

GRAND JURY'S PRESENTMENT.

To the Judge and Justices of the General Sessions of the Peace for the County of Wellington:—

We, the Grand Jury, have examined the jail and found everything clean and orderly and all the prisoners expressed themselves satisfied with the treatment they are receiving. All of which is respectfully submitted.

HENRY DUNBAR, Foreman.

The Judge then discharged the jury and congratulated them on the small amount of work that came before them.

Fire at Rat Portage.

WINNIPEG, Man., June 9.—A serious fire occurred at Rat Portage to-day, whereby the chief portion of the town has been destroyed. About one o'clock this morning fire was seen issuing from the Rideout House, at present unoccupied. It spread rapidly, consuming in its course the Hudson Bay store, J. W. Humble's liquor store, D. L. Ferguson's jeweller store, Gore's Hall, Drewry's hotel, and other buildings were seriously damaged. The total estimated loss is $75,000. The fire is supposed to be the work of an incendiary. This is the third time the town has been seriously injured by fire during the past few years.

Ontario Artillery Association.

The prize list of the newly formed Ontario Artillery Association has just been issued. The competition will take place in September next at the Woodbine ranges, Toronto. Amongst the prizes offered are:—Field batteries, aggregate score. $75; 2nd, $50; individual scores, 1st, $15; 2nd, $10; 3rd, $5. General efficiency, 1st prize, $50; 2nd, $25. Voluntary drills, 1st, $20; 2nd $10. Drivers, $50. Garrison batteries, 1st aggregate score, $25; individual scores, 1st $10; 2nd $5. General efficiency, 1st, $25. Voluntary drills, $15. The competition will be governed by the rules of the D. A. A.

Foreign.

Captain O'Shea, the Galway Nationalist member who did not vote on Tuesday, has resigned his seat.

Mr. Justice Brett on Wednesday gave judgment in the Court of Equity in London in a suit brought by Mr. Edison for infringement of one of his patents, guaranteeing him the exclusive use of a filament of carbon in electric lighting.

A terrible famine prevails in Corea and 500 persons have starved to death in Zoul.

The civil marriage of Mme. Adelina Patti and Signor Nicolini took place at Swansea, Wales, Wednesday. The ceremony was performed at the office of the French Consulate. The office was surrounded by a crowd of people who enthusiastically cheered the bride and groom.

American.

President Cleveland and his wife, accompanied by fourteen reporters, are enjoying a quiet honeymoon. It is not everybody who would care for so much practical sympathy.

Members of the Chicago City Council are accused by the *Times* of that city of having received a bribe of $127,000, to be divided among less than twenty of them, for passing an ordinance in favor of a street railway company.

A heavy rain fell on Tuesday in Presidio county, the sheep-growing section of Texas, the first in ten months, breaking the worst drought ever known in the State.

Canadian.

The Mayor of Barrie has fined John Muir $110 or thirty days in jail for running an illicit still.

A man named McGrath, employed in the Cobourg car factory, on Wednesday had his arm caught in a belt and torn to pieces.

The Bay of Quinte Canning Company's works at Picton were destroyed by fire on Wednesday morning, causing a loss of $15,000.

England has made a new treaty with Spain. Under one of the provisions of the arrangement, Canada will enjoy "the most favoured nation" treatment.

At Owen Sound on June 17, a Reform demonstration will be held. Mr. Blake, Mr. Anglin and John Charlton, M. P., are on the programme.

Crowds of unemployed men are threatening bread riots at Conception bay, Newfoundland. Looting has been prevented so far by the police, who are armed with rifles and fixed bayonets.

A son of Mr. Andrew Thompson, Collingwood Township, was shot dead on Monday. While removing a gun at his mother's request, the hammer caught on a board, and the contents lodged in the victim's neck.

The grand jury, Mr. Dunbar foreman, brought in their presentment this forenoon.

The Evening Mercury

THURSDAY EVE'G JUNE 10, 1886.

Temperance and Politics.

The sure and steady growth of temperance sentiment among the Canadian population is a feature of our moral development which is yearly becoming more and more a factor in our political life. The demand of church courts, of labor organizations, and of those societies whose special field it is to promote total abstinence—, for Parliamentary candidates pledged to vote for prohibition is a striking outcome of this development. Only a very few years ago it would have been impossible to carry resolutions embodying such demands, even in the various assemblies or conferences of the churches which now endorse them in the most emphatic language. Drinking was as common among church members and ministers a quarter of a century ago as abstention is to-day, and it was then regarded as in no way derogatary to a Christian walk and conversation that men should drink. About the only prohibition inspiration to be found came from the temperance lodges, and the members of these were often regarded as hypocrites, for the idea was scouted by many that a man could really exist at all without an occasional "horn" of strong drink and those who pretended to live without it were believed to imbibe behind the door or in some hidden recess.

But all this has changed. Baptist Associations, Methodist Conferences and Presbyterian Assemblies have pledged themselves to stamp out the liquor traffic. Other denominations, Roman Catholic and Protestant, which have not gone so far, have endeavoured to cultivate temperance principles in their midst by the establishment of societies having that special work in hand. Nor has this advancement been restricted to the clergy, although to their influence is due in a great degree the extension of temperance principles among the masses. How far these principles have been extended among the laity may best be judged by the incorporation of temperance as a feature in the platform of an organization of workingmen so powerful as the Knights of Labor, and by the fact of prohibition having been carried by overwhelming majorities in so many counties of the Dominion.

In fact some of the best known temperance workers belong to the laity. We know those in our own midst who make it the first principle of all their work for the accomplishment of good. It is to be hoped that all such will forego, as they surely ought in view of their professions, political differences of really no significance, and join hands with those church courts and other bodies who have pledged themselves to support only the candidates for Parliament who boldly stand up and say that they will support prohibition legislation by voice or vote. It is only just that they should do this. The member of Parliament who champions their cause is sure to lose more or less of the support of that class who favor free trade in liquor, which he might retain by taking an independent stand upon the liquor question. There will be candidates in the future as there have been in the past who by trimming their sails to catch the breeze both fore and aft will hope to float safely into the desired haven. In private they may say they favor prohibition, but in public they keep "mum." With a great political question such as the National Policy settled for many years to come by reason of the immense debt which has been created rendering a reduction of duties impracticable, and with other political questions in favor of the Reform party—which is the temperance party—we say that temperance men should give their hearty support to Reform candidates where they have championed the cause of temperance. Are they not to be trusted rather than opponents who are afraid to announce themselves openly? Are they not deserving of support for what they have done and risked for the cause of temperance?

THE Queen's decision consenting to a dissolution of the Imperial Parliament is one which will be generally endorsed. If, instead of this, Her Majesty had resolved upon the formation of a Coalition Ministry, the result would have been great dissatisfaction throughout what could not be other than a shortlived *regime*. As it is, the people will have an opportunity of deciding upon the question of Home Rule for Ireland, and however the elections may end there will be that submission to the will of the majority which ensures content on the part of all law abiding people. If Home Rule is defeated in the country an outbreak of Fenian outrages is sure to follow, but this will be stamped out as far as possible by a stern administration. Pending the result of the elections outrages committed by this lawless class will only injure the cause of Ireland, while, on the other hand, similar acts on the part of over-zealous Unionists will help it.

To the Editor of the Mercury.

SIR,—It scarcely need be stated, that a community cannot exist without law, and that law itself is of little value unless properly supported and administered. And if the community, as a whole, are not in favor of law and order, anarchy will soon reign supreme; so that in such a country or locality it would be dangerous for the peaceable and law-abiding to dwell. In a less degree, where the administrators of the law are against its enforcement, we may look for its partial failure, and even its enforcement by magistrates who are continually making remarks on the bench in disparagement of the very law they are administrating must have a demoralizing effect, both in regard to that law and all others.

If my proposition be correct—and I think none will disbelieve it—I submit that the remarks made from time to time by our Police Magistrate when dealing with Scott Act matters are unnecessary, unjust and demoralizing, and require to be stopped in the interest of the community at large. Recently you published the evidence given before His Worship, in which bare-faced perjury was shown, and you make him say "if these men perjured themselves it is one of the evil consequences of the Act." An "Auditor," in yesterday's MERCURY, tries to soften the expression by asserting that what the Magistrate did say was—"I do not know whether or not the Scott Act makes such witnesses as these, &c.

The versions are but slightly different; either shows the animus of the Magistrate, and either mode of expression manifests a desire to blame the Scott Act for the demoralization of liquor drinking witnesses, who admit that they were resorting to a place for liquor where they ought not to have been given it, and that according to their own testimony they received it in darkness and stealthily, feeling that they were violating the law and afraid of detection. No, no, Mr Saunders must have known that it was not the Scott Act which moulded the moral principles of their witnesses, which educated them to resort to places of darkness to get beer and receive it from an unseen person; but on the contrary the Scott Act has been adopted with a desire to help such persons out of the degrading sloughs into which the love of liquor has plunged them. It is therefore wrong, and encouraging the demoralized to utter such insinuations against the law, and especially so by one appointed to administer the law, whilst in the very administering of it. Such conduct degrades the bench and cannot be continued with impunity.

Even in the last conviction under the Scott Act the Magistrate could not give his judgment—in this case written and not a hearsay report—without telling the public that "his conscience will not begin the least disturbed by the quashing of the conviction." Does he mean to say that the evidence was so convincing that he could not avoid convicting, but that he hopes some legal quibble will avail the offending party? Surely, such remarks are very unbecoming, and I hope experience will induce the Magistrate to dispense with them hereafter; and if he can say nothing in favor of supporting the law he has to administer, he will at least cease to show his sympathy with the violaters of it.

Yours etc,
A LOVER OF ORDER.

Better Know Nothing than Know what isn't so

Was remarked by a celebrated American humorist, and if truth was ever spoken in jest it was then, but when that *knowledge* which is not knowledge, but ignorance, is at the same time none of your business, it is then doubly important that it should be confined to the inmost recesses of one's own breast.

We are not careful to deny the wholesale charges made by a certain firm against the Dry Goods trade of Guelph. We leave it to the public to judge who is in the best position from their business experience, their knowledge of the market and their financial standing to go to the "fountain head of production," and pay cash for their goods. With these few remarks we proceed to more congenial topics.

Our Market Days.

We are sorry to state that our Wednesday Market has not fully realized the expectation of those who were the means of having the days changed. At the same time, we see a great and growing improvement, now we have TWO market days, then we had only one (Saturday), although nominally we had three. Of course we do not expect to see the Wednesday market reach the proportion of Saturday's at a bound, but we should reasonably look for its steady growth, until it is very nearly equal in the volume of business done. We think here is a matter for both rural and city population to consider.

It must be a great advantage to our citizens to do their marketing on two days of the week rather than buying supplies to last from Saturday to Saturday. If the population of Guelph would recognize the fact that they can be supplied on Wednesday, and come out with that expectation it would be the means of bringing many farmers to the city who do not come on Saturday, because there is such an over supply that day that they cannot sell their produce. If on the other hand the farmers would bring in their produce on Wednesday, the people would soon form the habit of marketing on that day, and the supply being distributed over the week, the amount thrown on the market not being so great in one day, it would be more easily disposed of at reasonable rates.

As an inducement to bring this state of things about, we will for the next few months, offer special inducements to purchasers on Wednesday,

AT THE LION.

THE GENERAL ASSEMBLY.

Rev. J. K. Smith of Galt, Elected Moderator.

HAMILTON, Ont., June 9.—The opening services of the Twelfth General Assembly of the Presbyterian Church in Canada were held this evening in St. Paul's Church on James street.

After the retiring moderator, Rev. Principal McKnight, had preached the usual sermon, the roll of delegates was called and 126 answered to their names. Others are expected to-morrow.

The business of the evening was the election of a moderator, but it was well known that Rev. J. K. Smith, M. A., of Galt, would meet with no opposition. He was proposed by Rev. Robert Campbell of St. Gabriel Church, Montreal, and seconded by Rev. Samuel Lyle of Central Church, Hamilton. No other names were mentioned, and the chairman amid applause declared Mr. Smith duly elected by acclamation.

A communication was read from the Queen, per Secretary Col. Frederick Stanley, expressing appreciation of the loyalty of Canadian Presbyterians, as contained in the address of the General Assembly at its last session.

The correspondence of the Rev. Dr. McKay of Formosa with the Chinese Government was presented. The Doctor secured $10,000 in reparation for the damage done to his churches in the late war. Principal McKnight said that Dr. McKay had shown great diplomatic skill as he had succeeded in building better churches than they had before.

The Assembly adjourned at 9.40 to meet to-morrow at 11 o'clock. The session will probably last ten days.

Fergus Correspondence.

TEMPERANCE.—A meeting was held in the Congregational church here last Tuesday, delegates from different parts of the county being present. No very particular business of public account was transacted.

NEW BARN.—Mr Thomas Dryden, of West Garafraxa, raised, with the help of neighbors and friends, a fine barn on his place last Thursday. No accident and a jolly good dance at night, with plenty of the best of provision, made the day and night pleasant and profitable.

MEETING.—The Mechanics' Institute failed to have a quorum at its meeting Friday night last. Another effort will be made Friday night first. Those interested should attend.

SUDDEN DEATH.—An old man calling himself Benjamin Cook, and claiming to be a cancer doctor, came to the house of Mr Robert Moore, farmer, near Aboyne, on Saturday night last and requested to be kept all night. Mr Moore offered him money to go to the hotel and also offered to drive him to the Poor House, only a short distance away. The old man would neither accept the money to pay for his bed at the hotel, nor would he take a drive to the big house, and Mr. Moore kindly provided him with lodging for the night. In the course of conversation the old man gave the above name. He also said he had some relation called Stoves in the *Globe* office, Toronto, and stated his own age to be 89 years. He had been at Mr Foley's, in Aboyne, for over a week, and had travelled about in the capacity of a doctor. On Sunday Mr and Mrs Moore went to church leaving the old man in the house. While they were away he got up to go outside, and when crossing the chip yard, just outside the door, he fell dead. Mr Moore was very much surprised when he returned from church to find him dead. The old man groaned a good deal all night and had some trouble in getting his breath, but he was better in the morning and gave no signs of death. Coroner Johnson was notified by Mr. Moore and at once visited the scene, but after making due inquiry decided that an inquest was not necessary. The old man had nothing on his person in money except 50 cents, and two satchels were found, an old watch, some papers, bottles of medicine, &c. The body was buried by the township of Nichol. The Coroner has his effects and will give any information he can to assist in proving the identity of deceased.

LECTURE.—Rev. H McKay gave an interesting and instructive address in Mr Mullen's church last night on the Northwest and its missions. There was a good attendance and all enjoyed the meeting and lecture.

LACROSSE.—The match on Friday last between Orangeville and Fergus created a great deal of excitement, and when play began, about an hour after the advertised time, a good crowd had gathered to watch our boys win the victory. There were not very many visitors from Orangeville and of course our town wanted its own team to win. Mr Hartly, from Shelburne, was chosen referee and faced the ball about 3:30. During the first game, which lasted about a quarter of an hour, play was pretty evenly divided, the visitors playing well together. One of Nichol's fine drops on goal was missed by the flag-keeper for Orangeville and first goal was won for Fergus. The second game did not last so long, and was soon taken by Fergus. The same result followed in 3 or 4 minutes after the 3rd game was started, three straight games and the match being won by Fergus in a canter. The Thistles all played well. Our defence is first class with J J Craig between the flags and Black, A Anderson, D Slater, Steel, Russell, in order, from the flags. It takes a good home to down them, while the home side was stronger than on the 24th by Nichol, who is always good. Beazie, J Anderson, Ready, Murray, Carrol, completed the home field. As soon as the match was won Fergus was challenged by Shelburne and also by Mount Forest, both of these clubs sending their challenges in next morning. As Shelburne's was first read it was accepted and this medal match will be played on Friday, 25th June. It is proposed to put a good close board fence around the grounds and have them in good shape for any game.

PIC-NIC.—Several Fergusites attended the party at A. Armstrong's, Eramosa, last Friday. The attendance altogether was large. During the afternoon a game of baseball was started between Speedside and Slabtown. Only three innings were played, as the catcher from Slabtown, A Johnson, got his upper lip badly cut by a foul tip. His brother was present and dressed it, but he was unable to play and the game was stopped. The three innings played stood 2 to 1 in favor of Speedside. Those who were present say the play on both sides was first-class and it is a pity the game was stopped, as it evidently promised to be close and exciting. In the evening a good tea was served in the orchard which was followed by dancing, etc., till midnight. The lateness of the hour proves that the affair was enjoyable.

FIRE.—We were sorry to hear of the fire at Mr S Sloan's, in Eramosa, caused by the hunderstorm of Sunday night. The loss has already appeared in your columns. We hope it may turn out better for Mr Sloan than it at present looks. Four good horses destroyed make a heavy bill of damages against fire.

SCOTT ACT.—It is reported that one or two of our hotel keepers are to be prosecuted for violating the Scott Act, but so far there has been nothing definitely done. It will be well, however, for hotel men to be cautious. The men who ask for liquor against the law should also be fined. One is almost as guilty as the other.

CHURCH.—Mr. Doherty, the student who is to fill Melville pulpit during Dr Smellie's absence, began his duties on Sunday last. So far he has given good satisfaction. The chances are that he will do well, as he is a nice speaker and evidently in earnest in his work. Mr. Farrow, from Elora, occupied the Methodist pulpit on Sunday.

BON VOYAGE.—Mr. P. Rennie intends visiting the Old Country this summer, but will not sail till about the 19th, when he and Mr. R. Philips, druggist, will sail by the Anchor Line. We wish them bon voyage.

FROST.—There was frost here last Thursday night. We want warm weather with considerable rain to make the crops look well. Just now things are not looking first class.

COUNCIL.—Last night was the regular meeting of the Village Council, but it was postponed till to night, when all the members were present. The C. V. R. by-law was passed, as was the ASSESSOR'S account. Some routine business was transacted. A motion was made for a public meeting to discuss fire protection, and it was resolved to call it on Thursday 17th. The Council then sat as a Board of Health, Dr Johnson in the chair.

ACQUITTED.—Mr Brownlee, who was tried on the criminal charge of driving his sleigh on to the C. V. R. track last winter and leaving it there, was acquitted at Guelph to-day, and Geo Allan's appeal case was settled, Allan paying costs.

BASEBALL.—It is expected that Belwood will play our home team a game of baseball on our grounds next Saturday. It will be remembered that these two teams have played twice before, Fergus winning both games, but we predict a different result on Saturday unless our club picks up very fast. Our boys will not practice, and they cannot expect to win if they do not, against a good team, like Belwood undoubtedly is.

Fergus, June 8, 1886.

"What is McGregor's Speedy cure for"?

It is for dyspepsia, liver complaint, indigestion, biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by Thos. S Petrie, Druggist.

THE EVENING MERCURY is printed and published every afternoon at 4 o'clock; THE WEEKLY MERCURY is issued every Thursday morning. INNES & DAVIDSON, Publishers and Proprietors, 54 Macdonnell street, Guelph, Ont.

RYAN, BERKINSHAW & CO.

DESIRE to thank the Public for their princely patronage since taking over the Dry Goods business of MESSRS. JOHN HOGG & SON.

We are pleased to know that the public are appreciating our efforts to furnish them with *Good Honest Reliable Goods* at *Moderate Prices*. We do not say that we sell without a profit, nor do we say that we sell at a less profit than other Houses, although our prices in many cases have been less. Profits to-day are not any higher than they ought to be, but the trouble with a great many Houses, is, that they are not in a position to buy right, and the result is, when they mark their goods with only the ordinary profit added they are then too high. Men to-day, to make the Dry Goods Business a success, must reach (as near as possible) the fountain head of production. Yes, and have the money when they get there, for the old way of buying on four and six months, and then renewing the paper, is but a shorter way to failure. The time is fast approaching when to make a success of the Dry Goods trade men must pay cash or buy on very short time, know where to buy, and as well thoroughly understand every line of goods they handle. Our facilities to-day are such as to enable us to sell *Good Honest Reliable Goods* under ordinary Houses, and then make as much profit. Being Direct Importers we save the middle man's profit, and as well in almost every case we have paid *Spot Cash* for our Goods, not even taking thirty days. By so doing we have made a large saving in the way of discounts, which puts us in a position to sell our goods just that much less than the man who is compelled to take time and lose the discount, and then another advantage we have over some other merchants, is that we do not own the store that we occupy, as we find it a profit to us to allow someone else to own the building, and we pay them about 4 per cent. on the money invested rather than have the place in our name with a large amount borrowed on it at 6 or 7 per cent. Now notwithstanding the fact that some Houses in the trade have talked loud about the amount they have imported this spring, we are in possession of information which enables us to know for a fact, that not more than five cases of goods have been imported from England, Ireland or Scotland this spring, by any other House in Guelph, not even by the House that has talked so much about "Importing," "Paying Cash," and a lot of other nonsense. While our importations have been moderately large this spring (about five times as much as all the other Houses combined), yet it is a small amount compared with what it will be this fall. Our Mr. Ryan will leave for the English Market by the "Aurania," July 10th, from New York.

TO PARTIES GOING TO BUILD.

JOHN DOUGLAS

IS PREPARED TO SUPPLY SILLS, CORNERS, &c., cut or in the rough, at his quarry, on the north side of the river (opposite Goldie's Mill) Guelph

THE QUEEN CONSENTS.

A Dissolution to Take Place Almost Immediately.

BOTH PARTIES PREPARING

The Elections to be Held Before Harvest.

LONDON, June 9.—The Hartington Whigs have held a conference and decided to organize, with the partial assistance of the Conservatives, a party to act in opposition to Home Rule candidates during the coming elections.

Henry Labouchere is forming a Radical party to oppose Mr. Chamberlain and his methods during the impending Parliamentary elections.

A telegraphic message was received this afternoon from the Queen by Mr. Gladstone. It is understood to contain Her Majesty's sanction for the dissolution of Parliament.

Mr. Gladstone, after announcing the dissolution of Parliament, will issue a manifesto to his Midlothian constituents, which will serve as a general appeal to the country. He will visit Midlothian to inaugurate the electoral campaign.

Lord Hartington's address to his electors will be used as a unionist counterblast to Mr. Gladstone's manifesto.

A conference of Mr. Chamberlain's followers will probably be held on Thursday and their manifesto will follow.

The Whigs have virtually decided to oppose Mr. Gladstone in Midlothian.

The National Liberal Federation has prepared a manifesto to the electors of Great Britain. It adopts Home Rule as the Liberal party platform in the coming election.

Sir Frederick Ponsonby, the Queen's private secretary, had an interview with Mr. Gladstone to-day. Immediately afterwards the Premier convoked a Cabinet Council, which remained in session two hours. All parties are preparing for a general election with feverish haste. The Liberal Whips declared to-day that the Gladstonian candidates will be botained in every constituency in Great Britain and Ireland within two days. Mr. Schnadhorst, Chief of the National Liberal Federation, has been conferring with Mr. Gladstone.

Mr. Rylands, Liberal member of Parliament for Burnley, addressed a meeting of 300 of his Liberal constitutents at Burnley this evening to explain why he opposed Mr. Gladstone in the recent division. After the address a ballot was taken on the question "Are you satisfied with Mr. Rylands?" The result was: Ayes 67, noes 203.

Mr. Gladstone will to morrow inform the House of Commons of the Government's intention to appeal to the country after obtaining the necessary votes of supply to tide over the election. Parliament will probably be dissolved on June 26. The Government whips are less sanguine regarding the prospects of the Liberals in the coming election owing to a great dearth of funds and suitable candidates.

Mr. Gladstone insists that every constituency shall be provided with a Home Rule candidate. He relies upon the radical and workingmen's clubs and societies to provide zealous volunteers. The Government will endeavour to dissolve Parliament on the 24th, or at an earlier date if the House expedites the necessary business. An early dissolution is desired in order that the elections may not interfere with harvest work.

The despatch sent by the Queen to Mr. Gladstone this afternoon announced Her Majesty's consent to a dissolution. The Queen had previously asked Lord Hartington whether he was willing to form a ministry. Lord Hartington in reply advised that Parliament be dissolved.

The Liberal clubs have split like the the party. The Reform and Devonshire Clubs support the dissidents. The members of the National Liberal Club are Gladstonians, and Mr. Schnadhorst has his headquarters at that club. Mr Schnadhorst declares that not a single Liberal Association has severed its allegiance to Mr. Gladstone.

A deputation of the Irish Loyal Patriotic Union has started for Scotland to stump the country.

Female Orange lodges are being formed in England to aid the Unionists in the elections. The movement was started at a meeting at Mayor Saunderson's house in London to-day.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism Sold at 25c a bottle by Thos. S. Petrie, Druggist

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our **genuine Coraline**, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

A BAD ELEMENT AROUSED.

Rioting at Belfast and Lurgan.

ELEVEN PERSONS KILLED.

Precautionary Police Measures Taken in London.

BELFAST, June 9.—Last night a mob of Orangemen made an attack upon a tavern kept by a Catholic named Duffy. The police were promptly on the scene, and after a stubborn contest, during which they used their carbines, drove the mob away in disorder. The rioters reassembled with increased strength and again attacked Duffy's, this time overpowering the police, driving them from the place. In the first assault Chief of Police Carr was wounded. He was carried away and now lies in a critical condition. When the Orangemen returned to the fight they were accompanied by a large number of factory girls who goaded or shamed the men on to battle and formed a most dangerous element. When the officers abandoned Duffy's the mob took complete possession of the tavern. It was thoroughly sacked. All the taps and spiggots were set running and everybody was invited to help himself according to his taste. All the barrels of liquor found in stock were carried into the street, lifted up high and let fall until they broke and liberated their contents. All the furniture was carried out, piled in the centre of the roadway and burned, to furnish the rioters with light during their debauch. Men, youths and girls drank until they fell helpless in the gutter, the girls acting with greater fury during the earlier stages of the orgie than the men. The noise, profanity and disorder were terrible. The mob ended their work here by firing the tavern itself, and it burned to the ground. Then the stronger men, who had become infuriated and not overpowered by their potations, ran through the streets wrecking and pillaging wherever they went and increasing their following the further they proceeded. These rioters after a while congregated around the police station and stoned the place until they were tired. They then marched down to another tavern. The police hastened thither in advance of them and attempted to protect the property, but they were overpowered and driven away. The mob left in possession treated the tavern as they had Duffy's, turned on all the taps, broke the full barrels in the street, made a bonfire of the furniture and finally set fire to the building. The police returned and for a time got the better of the mob, whose ranks were depleted by the scores who had fallen away in the darkness, and extinguished the flames before they could gain control of the structure. But the officers were unable to drive the rioters from the locality, and they remained and dominated until morning. During the rowdyism of the night Mr. Gladstone and Mr. Parnell were both burned in effigy, and a dummy corpse labelled "Home Rule" was cremated.

Rioting was renewed this evening and the Riot Act was again read. The mob increased in size and began throwing stones at the police. The latter fired, killing four persons, one of whom was a barmaid, who was looking out of a tavern window at the fighting. The mob returned the fire and a brisk fusilade was kept up for twenty minutes. Soldiers are now parading the streets to assist the police in case of necessity.

The mob subsequently drove a force of 150 policemen into the barracks and then attacked the building, firing revolvers and throwing stones at the doors and windows. The police fired, killing five persons. Several Protestant clergymen tried to disperse the mob but their efforts were unavailing. One of the persons killed was a woman with two children.

LURGAN, June 9.—Arthur and Andrew Donelly, leading Catholic merchants, have been arrested on the charge of firing from their windows. A mob wanted to lynch the prisoners. The magistrates have ordered that all taverns be closed at 6 p.m. Shop-keepers also closed their shops at the same hour. The mob which stoned the police was dispersed at the point of the bayonet. The managers of a number of factories have called upon the police to keep order between the Catholics and Orangemen. Troops are arriving.

Thomas Gallagher, who was shot and killed during the riot at Lurgan last night, was a well known local simpleton. He waved an Orange sash in the face of a Home Rule mob during an incessant fire between that mob and its Orange enemies. During the riot the situation at one time became so desperate that Mr Mathers, a local Orange leader, publicly declared that unless the authorities did their duty he and 1,000 armed Orangemen would take charge of the town. Mathers was on the point of carrying out his threat when the military appeared. To-day there has been a little stone throwing in Lurgan but otherwise the town has been quiet. A number of policemen were so badly injured last night at Lurgan that they are yet in the the hospital. Twenty rioters are now under arrest in that town.

Two men named Hart and Mason were arrested to-day for the murder of Thomas Gallagher, who was shot last night during the rioting at Lurgan.

The coroner's jury found that Gallagher died from the effect of gunshot wounds and censured the authorities for not having sufficient police to preserve order.

DUBLIN, June 9.—One hundred and fifty policemen have left this city for Belfast to reinforce the police there.

ARMAGH, June 9.—An infernal machine, consisting of a jar filled with a black substance and some clock work, was thrown last night against the door of a Protestant's house in Lurgan. When the machine was hurled it had a lighted fuse attached, and it exploded in the doorway.

LONDON, June 9.—Extensive police precautions have been taken at the east end of London, where disorders are feared, the Irish of Rotherhithe, Bermondsey and Wapping having become greatly excited. A full supply of detectives has been stationed to protect the railway depots and subways and to watch the Tower and other places. All strangers are narrowly scrutinized. It is openly stated that a Fenian outbreak or plot is hatching as an outcome of the recent political events.

"Reader," in informing you of this wonderful remedy for coughs, colds, asthma, bronchitis, consumption, and all affections of the throat and lungs, we feel that we are doing you a great kindness, as if you have any of the above complaints, if you will only try it we will guarantee satisfaction in every case or money refunded. Ask for McGregor's Lung Compound. Price 50c and $1.00 per bottle at Thos. S. Petrie's Drug Store.

Box Factory Burned.

TORONTO, June 11.—At 2 o'clock this morning fire broke out in the paint shop of Firstbrook Bros., extensive box factory on King street, near Frederick. The paint shop is situated in the northwest corner of the basement. The engineer and three or four other employes were at work when the fire was discovered. The flames spread with lightning rapidity to every part of the building, which was full of shavings and stock. An attempt was made by one of the workmen, after he discovered the fire, to subdue the flames with hand grenades, but so rapidly were they spread and so intense the heat that his efforts only resulted in personal injury. An employee said he thought the machinery and stock was worth in the neighborhood of $75,000, and that it was well insured. None of the men in the building could form an idea as to how the fire originated, but one of them was of opinion that it was caused by an explosion of paint or oil. The firm were formerly located in Acton.

"What is McGregor's Speedy cure for"? It is for dyspepsia, liver complaint, indigestion, biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give salisfaction ?"

We cannot point to one instance where it did not.

"Where does it have the largest sale ?"

Right in the city of Hamilton where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by Thos. S. Petrie, Druggist.

THIS PAPER may be seen on file at GEO. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce st.), and William Young, 41 Park Row, where advertising contracts may be made for it in NEW YORK.

MARRIED.

HICKS—SPARKS—At the residence of the bride's parents, on Wednesday, 9th June, 1886, by the Rev. Alexander McKay, D. D., Mr. John Wesley Hicks, of Dresden, Ont., and Miss Emily Elizabeth Sparks, eldest daughter of John Sparks, of the Township of Puslinch.

County Court.

(Before His Honor Judge Drew.)

Court House, June 11.

QUEEN VS. LEITCH.—Incest.—Mr. Peterson on behalf of the Crown submitted various authorities in support of the contention that the offence of incest was a criminal one, and amenable to the Common Law if not to the Statute Law. The Attorney-General of the Province considered this to be so. Mr. Peterson suggested that if His Honor felt a doubt on the law the question was one of sufficient moment to have the case reserved for the Court at Osgoode Hall. Whilst Judge Drew considered it was an offence against morals or decency, yet it was one only against Ecclesiastical law, and that only existed in England; that there did not appear any decided cases or precedents in this country and he did not consider he would reserve a case or try it.

Mr. Macdonald, for defendant, demurred on the grounds referred to by the Judge who decided that there was no criminal offence disclosed in the indictment, and so discharged the defendant.

It is certainly high time that if this be the law, or rather the want of the law, some speedy remedy should be found by our legislators to punish outrageous cases like this, which are grossly scandalous and shocking to society in every case.

HENRY VS. WILSON.—Action of replevin by John C. Henry, of Palmerston, against Robert Wilson, of the same place, for a span of horses, which the plaintiff claims to be his property under a chattel mortgage from Joseph Wilson, and to which the defendant on the other hand claims title by virtue of a purchase from Joseph Wilson. The plaintiff held a chattel mortgage on the horses, dated February, 1884, which he renewed in February, 1885, and upon which mortgage there is still a balance due of upwards of $200, according to plaintiff's contention. The defendant alleged that in October, 1885, he bought the horses from Joseph Wilson for $150, and that the plaintiff had authorized Joseph Wilson to sell the horses. The defendant further alleged that Joseph Wilson had afterwards tendered $155 to the plaintiff in payment of the mortgage, of which amount $150 was derived from the sale of the horses. Another defence set up was that the chattel mortgage had not been legally renewed. The trial occupied the whole of Wednesday and a good part of Thursday. After hearing arguments of counsel, His Honor reserved judgment. The case was tried without a jury. Mr. Jacob and Mr. Allister Clark for the plaintiff. Mr. Guthrie, Q. C., and Mr. Morphy for defendant.

Fine and Moderately Warm.

PROBABILITIES. — Light to moderate winds; fine, moderately warm weather.

Local News

OUR master poet, James Gay, has composed to date one thousand nine hundred and forty nine pages of poetry.

SIX carrier pigeons, brought from Stratford to-day by some of the train hands, were let loose at the passenger station on the arrival of the 10:30 train. They circled around the station for about twenty minutes, when they disappeared.

FOR THE OLD COUNTRY.—Mr. David Smith, jr., of Nichol, being a sufferer from rheumatism, has resolved to take a trip across the Atlantic ocean in hopes that the sea air might prove beneficial. Consequently he left Fergus on Thursday June 3rd *en route* for London, England.

GALT CALEDONIAN GAMES. — Arrangements are about completed for these games on Friday of next week in the Dickson park. In addition to the programme of Scottish sports, piping, dancing, etc., a foot-ball match will take place for a silver cup valued at $50, between the Western and Central Associations of Canada. In the evening a concert will take place in the town hall.

ELECTRIC LIGHT FOR GALT.—The council have decided to light the town with electricity, the report of the fire and water committee to that effect having been adopted at the last meeting. The town will take 25 lights and the cost will be $2,000 per annum. It is believed that this number of lights will be quite sufficient for the requirements of the town.

AN ELECTRIC RAILWAY.—The Galt *Reporter* says:—The Windsor people are always dry, and Walkerville distillery is between one and two miles distant from the town. To get over this terrible distance they have laid down and have in operation an electric railway, which covers the distance in eight minutes. The current giving the motive power is generated at the electric lighting station in Windsor, and is from there transmitted to a motor in the car. And now there are no more parched tongues in Windsor.

SHIPMENT OF A. O. C. BUTTER.—The first shipment of butter from the Creamery in connection with the Ontario Agricultural College, has gone forward on through bills of lading to Edinburgh, Scotland. J. Whitson, Esq., of that city, has made arrangements through his son, Mr. J. B. Whitson, who has been visiting Guelph, to receive regular supplies of this choice brand of butter for his trade in the east and south of Scotland. Consignments of butter will be regularly forwarded for exhibition at the great Colonial and Indian Exhibition now in progress at London, England. By these shipments the management of the Government Creamery hopes to establish in both countries a good reputation for Canadian creamery butter.

GALT'S ESTIMATES.—At the meeting of the Council on Monday night the estimates of the town for the current year were submitted. Basing the estimate upon an assessment of 2 cents on the dollar, it is approximated that there will be a deficiency of $628 on the year's transactions. This is exclusive of the grant of $600 to the old cemetery and the Queen's Square and the half-year's additional outlay for the electric light ($700), which will make up a total deficiency of about two thousand dollars. This year $5,000 of debentures will have to be issued for school purposes; which will still further add to the uncontrollable expenditure; next year the upper bridge will have to be replaced, and other improvements undertaken.

PRESENTATION TO MRS. ALEXANDER MACKENZIE.—Before leaving Toronto on their trip to the Old Country, Mrs. Mackenzie, wife of the Hon. Alexander Mackenzie, was presented with a cheque for a handsome amount, which was transmitted by some of her lady friends in Ottawa, after she and her husband had left the capital. The money was subscribed by members of Parliament and other friends of Mrs. Mackenzie in Ottawa, who in this manner manifested the esteem in which she is held by them and by all classes in Ottawa. All connected with the presentation expressed the hope that Mrs. Mackenzie would have a pleasant visit to the old land, and that Mr. Mackenzie would be greatly benefitted by the trip.

WHAT WAS IT.—The customs officials, the other day, were thrown into considerable excitement. A parcel arrived at the post office, and as it had come across the line it necessarily had to be passed over to the customs department. To arrive at the value of the contents of the parcel, they proceeded to open it, which they did in their usual careful manner, when to their horror out jumped an animal, as lively as a flea, and in such a manner that for a time it seemed as if it would be the sole occupant of Her Majesty's office. After a short consultation, it was determined that an attempt must be made to capture the animal and return it to its box, in which they finally succeeded. The officials hunted in vain through the tariff schedule to gain some information bearing upon the amount of tariff which should be levied on the venomous looking animal. It was finally decided that it should go duty free, and it was hastily passed back to the post office, and where it has gone the customs officials are not anxious to know.

A DRAINAGE SCHEME.—A meeting of Wardens to consider the question of the drainage laws will be held at Shaftesbury Hall, Toronto, on Tuesday, 29th June. The object aimed at is to prepare a large scheme for the draining of wet lands by means of money to be advanced by the Provincial Government on the security of the farms at a very low rate of interest. Several county councils have already appointed delegates, as well as their Wardens, to attend the meeting, and the presence of any farmers, though not members of County Councils, but who have views on the subject of draining, is invited. The Grand Trunk and the Canadian Pacific have agreed to give round trip tickets at one and a third fares to all persons desirous of attending. It is expected that after discussing the question the meeting will appoint a committee of Wardens to wait on the Provincial and Dominion Governments to lay the scheme before them and ask for its adoption. The proposal originated in Minto, and is known as the Minto Farmers' Provincial Drainage scheme, of which Mr. F. S. Dobson is secretary.

Special Saturday Sale in the Millinery Department, at BOLLERT'S, 27 Lower Wyndham st. d2

THE iron fence in front of the Central School is sadly in need of repairs and painting.

MR. DAVID MCCRAE, of Millilands, sailed for home from the Old Country on the 10th. He is bringing out a few head of cattle with him.

LAST night the Wellington Field Battery had a course of gun drill. Considerable interest is taken in the drill and a great improvement is to be seen in the movements of the men.

The following are the names of the Guelph eleven:—H. Lock, G. H. Finlay, A. A. Fitzgerald, H. M. Howard, C. Gamon, H. D. Grassett, West Henry, J. Roche, H. D. Martin, Wm. Price and H. Guthrie. The Galt players will drive over in the morning.

MR. J. B. KING, Grand Secretary, I. O. O. F., writes to the *Mail* to say that the Independent Order of Oddfellows have no connection whatever with the Manchester Unity of Oddfellows and had nothing to do with the pic-nic to Guelph. He remarks that the character of the members and the reputation of the Order demand this explanation.

THE KENNEDYS.—The well known Kennedy family of vocalists sailed for Canada on the 3rd inst. They will open their concerts in Halifax and work their way west, arriving in Toronto during the time of holding the Industrial Exhibition there. It is their intention to make a complete tour of Canada, not missing any place of importance. On their arrival in Guelph they will no doubt be greeted with the same enthusiasm that they have heretofore, receiving a crowded house.

A MIDNIGHT RIDE.—About twelve o'clock last night two members of the 1st Brigade of Field Artillery were on a foraging expedition. They discovered a horse peacefully grazing on the streets and the two worthies came to the conclusion that when such a chance presented, it would be equally cheap to ride as to walk and less strain on the muscles. No sooner were the two seated on the bare back of the horse than they found their mistake. On the animal getting a gentle touch on the flank it pricked up its ears and commenced to trot off, gradually gaining speed till it came to a full gallop. The one in front held on by the mane in desperation, and the other for fear of slipping over the tail had to freeze to his companion. The career of the horse was brought to a short stop by running against the fence of a boulizard, where both the riders were ceremeniously thrown against the shrubbery, and the horse quietly turned around and walked away.

LOST MARINERS. — Last evening four members of the newly organized boat club after perambulating the streets and taking in the sights of the city till overcome by the pressure on their pedal extremities, came to the conclusion that they would walk down to the boat house and engage a boat for a sail on the majestic Speed. On their arrival at the new park near the Victoria bridge it was agreed to land and explore the place. The four worthies perambulated through the intricate walks, grottoes, lagoons, lakes, gardens, etc., till at last they were completely bewildered. A halt was commanded by a well known military man and a reconnoitering party was thrown out to search for the landing. After wandering till near midnight the party met at the very place they had started from. Notes were compared and none were a bit the wiser. One young man who had just cut the apron strings was greatly distressed, and began thinking of home and mother. He informed his companions that whoever found the boat first he would reward with the munificent sum of 25 cents. The bargain was accepted by the acting captain of the party. The aforesaid young man began searching his pocket for the necessary reward, when lo and behold like Mother Hubbard's cupboard, the pocket was bare. His distress at the thought of having to sleep on the bosom of mother earth with the wet grass for a couch and the dew for a blanket was unbearable. After farther search the boat was found and the four mariners arrived at the boat house early in the morning considerably tired out with their rambles. The quartette will henceforth visit the enchanted pleasure grounds in daylight until such time as they spy out the land.

Sporting Notes.

BASEBALL.

Eleven straight victories. No defeates for the Leafs so far.

Yesterday the Maple Leafs defeated Bay City by the score of 16 to 4.

In the game with the Cass club Wednesday the only errors made by the Leafs was Zell allowing 3 men bases on balls and two wild pitches.

The Leafs play the Sagniaw to-day.

The printers baseball club has received a challenge for a game from the G. T. R. club. The challenge is now under serious consideration.

The printers and the O. A. C. clubs are playing a game on the College grounds this afternoon.

On Monday afternoon next at 3:30 o'clock on the Exhibition Ground one of the greatest matches in baseball circles will take place. The game will be between the master barbers and their employees.

In referring to the Binghampton-Hamilton dispute the *Spectator* says:—"The game of ball should be played to a finish. This putting on of coats and leaving the field is childish. And it don't pay." Well, if the Hamiltons do much more of it they won't have any coats to put on.—*Mail.*

CRICKET.

The Galt Cricket club play the Guelph team on the Exhibition Grounds to-morrow. Wickets pitched at 10 a.m. sharp.

Nine good bowlers and ten good bats;
Eleven fielders all active as cats—
Game every one to catch anything catchable;
Two wicket keepers, both simply unmatchable!
That is Galt team that will give us some trouble
And keep all our cricketing cracks a the double.
Our home willow-wielders must play up like bricks,
To collar that bowling, to tumble those sticks.
Well, welcome boys, anyhow! you'll pull together.
Here's wishing us fortune, fair field and fine weather.

THE RIFLE.

The scores made at the last practice of the Guelph Rifle Association are as follows:

		200 yds standing.	500 yds any position	600 yds. any position	Total
C. Armstrong, Martini	.....	29	30	27	86
J. Crowe, "	.....	27	26	28	81
J. Ogg, Snider	.....	30	28	23	81
J. Goldie, "	.....	26	29	23	78
Geo Sleeman, "	.....	20	26	15	61
R. Orton, "	.....	20	4	9	33

LORETTO ACADEMY.

Grand Entertainment Given by the Pupils.

Last evening between thirty and forty of the young ladies attending Loretto Academy, presented the musical play of the "Miracle of the Roses." It is agreed on all hands that this entertainment was by far the best that has ever been given by the young ladies of this institution. On former occasions, the large room in the academy was used, which was altogether too small for the large number of people who flocked to see the proficiency which the young ladies had attained in music and other branches of instruction, and on every occasion the room was so crowded that those who were lucky enough to gain admission, were deprived of half the pleasure by the crowded state of the room and the stifling atmosphere. In this instance, however, it was decided to hold the entertainment in the church. The altar was removed, which gave a large and commodious stage, the decorations of which are worthy of note. Around this space were a large number of young trees, representing a forest scene, and in the centre trees, shrubs, magnificent roses, and other flowers, which, when tenanted by the young ladies, all dressed in white, presented a very pretty spectacle, and lent the appearance of a fairy bower. The effect seemed to be greatly appreciated by the ten or twelve hundred spectators present. The church was crowded, with the exception of some of the side seats in the old church, where it was impossible to secure a good view of the platform. It was found necessary to set chairs along the aisles.

On the platform were noticed the Rev. Dr. Carberry, Bishop of the Diocese of Hamilton, Rev. H. Hudson, Montreal, Superior of the Jesuites in Canada; Father Parrley, St. Thomas; Father O'Connell, Galt; Father Lennon, Elora, together with Father Doherty, Father McDonald, and the Priests at the Rectory.

The programme opened with a selection by the City Band, "The last Judgment," which was very accurately and tastefully executed. This was followed by a vocal duet—"Qui est Homo"—by Misses Branniff and C. Chilton. Both of these ladies appeared to good advantage, and received hearty applause at the conclusion of the piece. This opened the first scene of "the Miracle of Roses." The young ladies as they came trooping on to the platform, and circled around, singing in chorus, presented a most pleasing and attractive appearance, their white dresses showing to good advantage against the green foliage of the miniature forest as a back ground. Mignon (Miss Braniff) a favorite with her companions, personates St. Elizabeth, and Lady Clare (Miss Hughes) her friend, takes the part of the Prince, or Landgrave. The sweet voice of the former in her singing during the various scenes of the play was greatly appreciated, and so was the choruses by the company. Miss Hughes acted well, the stern, wilful and selfish Landgrave, which showed that the young lady is possessed of considerable dramatic talent. The charcter of the dumb girl Graziella, was well personated by Miss Flora O'Connor, the whole being under the directorship of Miss Chilton, Goderich. In short every one of those who took the leading parts did so well that it would be hard to mention which excelled, and the same may be said of those who had no special part. The play closed with a song of praise which was solemn and a fit termination to a moral drama such as the "Miracle of the Roses."

The instrumental duet on three pianos by the Misses Herod, Hughes, K. Reynolds, H. O'Dea, M. Crookal and A. Ryder, was accurately rendered, and the manner in which they performed it reflects credit on the Sisters of Loretto. Following this was "Philomela" by the City Band, which was well done. Miss Barnes then gave a recitation entitled "The last hymn." The young lady is possessed of a fine voice. Her clear pronunciation and well timed emphasis and gesture were marked. She recited the piece in such a manner as would have been creditable to a professional.

"God's Owen Garden" was the title of a cantatta, in which only the children took part, and well did the little ones carry out their part. They did not allow their larger friends to carry off all the honors in the "Mystery of the Roses," and kept a big share for themselves in their play. Some were grouped so as to represent beds of flowers and others personating the gardener, spring, sunbeam, breeze, dew, whose visitations are in turn welcomed by the flowers. Miss Rennie Heffernan, as the gardener, performed remarkably well. She has a fine voice, and delighted the audience with it in calling out "spring," Minnie Gay; "sunbeam," Ursie Doran; "breeze," Lula Buchanan, New York; and "dew," M. Keough. Each of these girls went skipping and singing around the groups of little girls kneeling in different groups representing flowers. The two angels guarding at each side of these human representatives of flowers were Misses L. Sleeman and E. Reinhart.

The instrumental solo—on the pianos and harp—"Has Sorrow Thy Young Days Shaded," by the Misses Herod, Coffee, and M. Turner; harp, Miss Hughes, was exquisitely rendered, and too much cannot be said in praise of the performers. Miss Braniff then sang the "Swiss Echo." Every note of this difficult song was brought out clear and true. At the close she received a rapturous encore, but as the hour was late she did not respond.

The Rev. Father Doherty in a few words deservedly thanked the Sisters of Loretto and the pupils of the Academy, after which the band played God Save the Queen.

The Sisters desire to state that the play will be reproduced next Tuesday, when there will no doubt be another large attendance, and also to thank the City Band for their services.

THE STRENGTHENING EFFECT.—Whiskey seems to have a very strengthening effect if the following can be taken as a guarantee:—A resident in the city invited his friends to have a drink of whiskey the other day, and as he procured a three gallon jar from a hidden corner of a cupboard, holding it out at arm's length, remarked—"When I got this jar on the 30th of April, all I could do was to lift it straight up, but now you see I can hold it straight out without any effort, and from this have not the least hesitation in pronouncing that whiskey is very strengthening.

MR. WM. RICKABY and Mr. Geo. Hearn have purchased 200 acres of land in St. Joseph's Island, and are going into farming. The former left yesterday and the latter to-day.

American.

The crop report of the United States makes the area of spring wheat nearly the same as last year.

A passenger train on the Northwestern railway plunged through a trestle work near Charleston, S. C., on Monday, killing six persons.

A waterspout burst over Marshall, N.C., Tuesday. Houses fell before the advancing flood, cattle were swept away and drowned and crops were destroyed.

An incendiary fire in Chicago Monday morning resulted in the death of eight persons, the victims being burned to death or smothered in their beds.

While a gang of workmen were tearing down an old barn at Niagara Falls, N. Y., they found in a pail under the floor $700 in gold. The latest date on the coins was 1861. The workmen divided the find.

The East St. Louis City Council has discharged the entire police force of the city with the exception of the chief, for being in league with a gang of thieves who had formed plans for committing extensive robberies on banks and wealthy citizens.

The widow of the late Sheriff Davidson has presented a beautiful memorial clock to St. Andrew's church of Berlin, in memory of her husband. The Sheriff was one of the founders of that congregation, and in the time of its early struggles he was its mainstay.

During the last six years no less than twenty-seven horses have been stolen in Waterloo county, which with the buggies, harness, etc., that went with them, were worth over $10,000. This property has disappeared with hardly a trace of where it has gone.

Wendell Phillips was buried on the spot he selected for his grave many years ago—a wooded rise of ground at Milton, Mass. Mrs. Phillips is laid beside her husband, and their names are inscribed just as he used to like to write them—"Anna and Wendell Phillips."

Recent rains in the North-Western States have made a favorable change in the prospects of spring wheat, the crop in the greater part of the territory being placed beyond danger. Oats are in very bad condition, the rain coming too late to repair the effect of the drouth.

It is reported that the fishermen of Massachusetts are organizing and arming their vessels, with the intention, unless the Government takes speedy action in their favor, "to drive off all Canadian vessels on the high seas and destroy their fish," and also to "blow their cutters out of the water."

A special committee on railroad axles has reported that iron axles are safer than steel axles; that all cranks should have the webs hooped; that as iron cranks appear to fail after running some 200,000 miles, and steel after 170,000, it is highly desirable that they should be taken off and not again used on passenger engines, and that crank axles, properly constructed, are as strong as straight axles.

Special Bargains in Children's Sailor Hats, at BOLLERT'S, 27 Lower Wyndham street. d2

Foreign.

There is serious rioting at Peeth, Hungary.

An earthquake has done great damage in New Zealand.

Female Orange lodges are being formed in England to aid the Unionists in their elections.

A deputation of the Irish Loyal Patriotic Union has started for Scotland to stump the country.

At Berlin on Thursday, Emperor William unveiled the equestrian statue of his brother, the late King William Frederick the Fourth.

The physicians appointed to examine the mental condition of King Ludwig, report that he is suffering from mental incapacity, and that he is not fit to govern.

A mule which was bitten some time since, in Avignon, France, by mad dogs, became infected with rabies and bit several of the inhabitants before it was destroyed.

The Papal Consistory has created four other cardinals, besides Archbishops Gibbons, of Baltimore, and Taschereau, of Quebec, and has nominated three bishops in Ireland, twelve in Spain, six in France, three in Germany, and seven in other nations. The Papal Consistory also nominated six American bishops.

The Dominion Government will reward the crew of the steamer "Northcote" with a land grant for their services during the rebellion.

At the Liberal convention held at Winnipeg, on Thursday night, Mr E. G. Conkling was nominated to contest North Winnipeg and Mr W. F. Luxton for South Winnipeg.

The High Court of the Canadian Order of Foresters concluded the business of its annual meeting, Thursday night and adjourned. Next year's meeting will be held in Toronto.

Mr W. B. McMurrich, of Toronto, was unanimously nominated by a Reform Convention held Thursday at Rosseau to represent the district of Muskoka and Parry Sound in the House of Commons.

Two by-laws were carried Thursday in Midland, the first for $5,000, for the town's share of the harbor improvements, and the second granting a bonus of $3,000 towards the erection of a seventy-five barrel grist mill.

W. & D. Yule's glass works, Montreal, comprising thirteen buildings, and covering some three acres of ground, were destroyed by fire Wednesday morning, with all their contents. Loss, $150,000; insured for $46,100. Between four and five hundred men will be thrown out of employment till the works are rebuilt.

Louis Vian, convict from St. Vincent de Paul Penitentiary, was found guilty on three charges laid against him of shooting with intent to kill, attempting to escape and breaking jail, and sentenced to 25 years' additional imprisonment, which with his present term of eight years', gives him 33 years in penitentiary.

The Evening Mercury

FRIDAY EVE'G JUNE 11, 1886.

The Parties in Manitoba.

Sometime during the present year the elections for the Local Legislature will come off in Manitoba and both parties are now actively preparing for the fight. The Liberals of the Province have formulated a platform which is as follows:

1. It is of the very essence of Confederation to give to the people of each Province, through their own Legislature, full control over their own local affairs.
2. Nothing less than absolute equality with the other Provinces in the enjoyment of Provincial rights is acceptable or just.
3. Inasmuch as the Federal authorities have already disposed of the most valuable of our lands for Dominion purposes, ample compensation to the Province for their value is demanded.
4. The settlement recently affected between Manitoba and the Dominion, and known as "Better Terms of 1885," is not satisfactory, as in the near future it will leave the Province without financial resources essential to efficient government
5. The absolute right to charter local lines of railway not extending beyond the boundaries of the Province; and it is asserted that whatever arrangements the Dominion Government may have made with the C.P.R. curtailing the same, the said Dominion Government is in duty bound to cause such arrangements to be set aside, by purchase or otherwise, and to thus restore to Manitoba her rights in this respect.
6. The present tariff being especially oppressive to the farmers of Manitoba, while it gives no advantage to any class of its settlers, there should be a discrimination in favor of this Province.
7. Representation by population, present and immediately prospective, is a principle that should be approximated to, having due regard to territorial extent.
8. Manhood suffrage—one vote for one man—with a more simple and less expensive system of registration of voters.
9. A municipal system the most simple and inexpensive that will ensure efficiency.
10. A provincial system of drainage, the cost to be borne in the first instance by the Government, and to be repaid by the lands benefitted.
11. An immigration and colonization policy that will conduce to the rapid settlement of the Province.
12. The absolute independence of Parliament.
13. The most liberal encouragement within the power of the Province to railways, both for local development and outlet competition—including that via Hudson's Bay.
14. Curtailment of the expenses of government and the application of the largest possible share of the Provincial revenue to the reduction of school, municipal and other direct taxation.
15. Honest, economical and patriotic administration of public affairs, in contradistinction to the shameless dishonesty, the reckless extravagance and the base treachery that characterize the present Provincial Administration.

Taken as a whole this platform is one which will recommend itself to the electors and especially those portions which demand for Manitoba equality with the other Provinces, which favour manhood suffrage and which protest against the disallowance of Provincial railway charters. But it will strike most people as seeking more than equality with the other Provinces, when the Manitobans ask a special tariff for themselves. They do no doubt feel the high duties a great hardship, but so do people in Ontario and Quebec and the Maritime Provinces, and they should surely stick by these Provinces and endeavor to bring about a fair revision all around. In this the platform is narrow, but in most of the other features it is strong enough to merit the support of a large majority against such a record as the Tory Government have made.

There can be no doubt that the Conservatives of Manitoba enter the contest greatly weakened by the record they have made for incapacity and untrustworthiness. The investigation which recently took place into the conduct of Premier Norquay will not do a little to hurt them. It is true that he was acquitted of the charges, but by a judge of his own appointment, and the Winnipeg *Free Press* has been bold enough to upset the effect of his decision by the following questions addressed to Mr. Norquay which explain the circumstances of the charges:

1. Did you accept your position as Premier and Treasurer of this Province, swearing to be faithful and true in the discharge of the duties of your office? I did.
2. Did you sell the influence of your position and power for $25,000 of stock in the Saskatchewan Coal Company? I did.
3. Did you, on the 1st December, 1883, promise to pay $3,000 of Government money upon a note of the said company (endorsed by yourself), without the Government receiving value for the money? I don't know whether I did or not.
4. Did you on the 4th March, 1884, pay out of Government funds the amount upon such a note without the Government obtaining any value for the money, the company being at that time insolvent? I thought I paid in that way that amount. I found subsequently that the amount was $1,517.50. That I so paid.
5. Did you, as Premier of the Province, execute a document, dated 29th April, 1884, agreeing to take stock in the said company instead of coal for the amount you so paid? I did.
6. Did you so agree for the purpose of deceiving creditors of the company—for the purpose of procuring them to accept stock for their debts, yourself having a private understanding that you were not to take the stock, but get the coal notwithstanding the document? I did. I am not a business man.
7. Did you on the 1st of April, 1885, as president of the coal company, assign to the Union Bank of Lower Canada a debt of $1,425 due by the Government to the company, and afterwards swear that the Government never owed the company a cent? I did.
8. Did you, in February and April, 1885, when the company was holding you to your agreement to take stock as aforesaid, and refusing to permit you to credit coal subsequently delivered as against the $3,000, pay the company out of Government funds for all such coal, and afterwards pretend that the money so paid was for further advances to the company? I did.
9. Did you, after having paid for all such coal, and while the Government was still a loser by reason of the advance to the extent of $1,464.50 untruly represent to the Public Accounts Committee of 1885 that the company had repaid the advance by delivery of coal? I did.
10. Did you unduly state at two public meetings that you did not advance the said sum of $2,000, but that the Merchants' Bank during your absence at Ottawa charged the amount to the Government; that if you had been in Winnipeg the advance would not have been made? I did.
11. Did you purchase on behalf of the Government at the instance of friends of the Government 175 acres of land at Selkirk for $60 per acre, and expend $16,900 in draining a small portion of it? I did.
12. Did you expend more money upon your official trips to Ottawa than you can account for? I did.
13. Did you appoint a judge who tried and acquitted you upon all the above charges? I did.

MONTREAL *Herald*:—The great bulk of the legislation of the session was of local interest. Some twenty-nine acts are for the incorporation of companies, nearly all being railway companies which next year, in all probability, will be demanding subsidies. And the reference to subsidies reminds us of the extraordinary distribution of railway projects, public buildings, and river and harbor improvements, that have been made in order to aid the election of supporters of the Government in this Province of Quebec, showing clearly that it is hoped to overcome the pro-Riel sentiment by the use of the public money rather than by discussion or by appeals to the intelligence of the people.

THE lighthouse service of Canada is among the largest in the world, and is being increased every year. In 1868 there were 227 lighthouses; in 1875 there were 444 and in 1885 the number was raised to 617. To the efficiency of the service is no doubt due in a large measure the fact that fewer lives were lost in 1885 than in any year since record has been kept.

IRISHMEN do not forget that it is a Liberal who is fighting the cause of Ireland in Great Britain. Nor will they fail to recognize, after the manner in which the Tories here tried to nullify Mr. Blake's resolution strengthening the hands of the Grand Old Man in his efforts to carry the Home Rule Bill, that these same Tories, led by Sir John Macdonald, are now clapping their hands in glee because Mr. Gladstone has met with temporary defeat.

THE New York *Evening Post* expresses the sentiment of all decent people by denouncing the way in which the President and his bride have been followed and watched by the reporters of the leading morning journals of New York. The President desired to be left alone, and to be allowed that privacy that other men enjoy in like circumstances, but he was shadowed by a corps of reporters, who not being allowed access to the cottage where the newly married couple were staying, pitched a tent amongst some trees in the vicinity and watched the President and Mrs. Cleveland from this point of vantage. This is too much of an exhibition of newspaper enterprise. President Cleveland ought to be allowed to carry a brace of pistols, and to be exempt from all guilt if one of them should happen to be accidentally discharged into the midst of the camp.

REV. J. K. SMITH, of Galt, who has just been elected Moderator of the General Assembly of the Presbyterian Church in Canada, was born in Aberdeen, Scotland, in 1827, and was educated in Marischal College in that city and also in the Free Church Theological Hall, Edinburgh, under the late Dr. Chalmers. He came to Canada in 1853, and has spent 21 of the 33 years of his residence in this country as the pastor of Knox Church, Galt. His congregation, if not the largest is one of the largest in the Presbyterian Church in Canada. Mr. Smith as a preacher is characterized by great clearness, while his personal qualities are such as to endear him to all who know him. As a worker in church matters he is indefatigable. He will do credit to the honorable position which he has been called upon to fill.

PARNELL'S CHARGES.

Earl Carnarvon the Ex-Minister Referred to.

DISSOLUTION FORMALLY ANNOUNCED.

LONDON, June 10.—The Earl of Carnarvon, in the House of Lords this afternoon, made a statement respecting Mr. Parnell's charge last Monday that the Conservative party purchased Irish support in the last election by a promise made through a Cabinet Minister, that they would in return introduce a Home Rule bill which, in addition to its other features, would confer on Ireland the right to control her own tariff policy. Lord Carnarvon said that when he was Lord Lieutenant of Ireland under the Marquis of Salisbury's Government he received from Mr. Parnell a request to be allowed an interview. "As Mr. Parnell was the elected head of the Irish party," continued the Earl, "I acted on my personal responsibility and conversed with him. The conversation was private. I never communicated it to any member of the Cabinet. Mr. Parnell and I left the room as free as we had entered it. I desire to repudiate the statement that has been printed and circulated that I acted upon that occasion in the capacity of a member of the Government." Lord Carnarvon said he objected to the present Irish Bill in many points, although he would be perfectly willing to see introduced some system by which the Irish people, in a modified way and without being disconnected from the Imperial Parliament, could conduct their own affairs.

The Earl of Kimberley, Secretary of State for India, announced in the House of Lords this afternoon that the Government have decided to dissolve Parliament and that the Queen has sanctioned the resolution. He added that the Government would take steps immediately to conclude the affairs of the present Parliament with all possible despatch, with a view to effect the election of a new House of Commons at as early a date as possible.

In the House of Commons this afternoon Mr Gladstone, who was loudly cheered on rising, said that in consequence of the rejection by the House of the Home Rule Bill, he had advised Her Majesty to dissolve Parliament without delay. Her Majesty had graciously assented to this, and he would therefore ask the House to wind up the business of the session at the quickest practicable moment. The Premier's statement was received with cheers.

Mr Gladstone added that he would move every day that the Government have precedence for financial business, and that to morrow he would ask the House to adjourn until the following Wednesday and to drop all bills the consideration of which would be likely to cause contention.

Sir Michael Hicks-Beach (Conservative) moved the adjournment of the House. In supporting his motion he said that on account of the remarkable omission by the Premier of a date for the dissolution it remained unfixed, and urged that Parliament be dissolved as soon as possible. There was nothing, he added, to satisfy the Opposition but an assurance that the dissolution would take place at as early a date as possible, and that the new Parliament would meet without delay.

Mr Gladstone replied that he was unable to positively inform the House at what date Parliament would be dissolved, but that it would doubtless be before the end of the present month. Regarding the Government of Ireland, the Premier said he thought the state of affairs in that country was such that the new Parliament ought to meet as early as possible. The country ought not to remain in uncertainty after the general election regarding the policy to be pursued respecting Ireland.

Sir Michael declared that Mr Gladstone's statement was satisfactory and withdrew his motion.

LADIES, READ THIS.

Bought in Bond at about 50 cents on the Dollar

CHARLES RAYMOND.

TO THE PUBLIC.

HAVING disposed of my Alma Block Grocery Business, together with good will, to Messrs. Watson Bros., I take this opportunity of thanking my many friends for the very liberal patronage extended to me for the last sixteen years, and solicit a continuance of the same to my successors.

John A. Wood.

WATSON BROTHERS

ALMA BLOCK.

HAVING succeeded to the business so long carried on by Mr. John A. Wood, Alma Block, Guelph, and having added materially to the already large stock of GROCERIES, CROCKERY and GLASSWARE, we are in a position to supply all our old customers, and, we hope, many new ones, with everything in our line at the most reasonable prices, and solicit a liberal share of public patronage.

WATSON BROTHERS

Better Know Nothing than Know what isn't so

Was remarked by a celebrated American humorist, and if truth was ever spoken in jest it was then, but when that *knowledge* which is not knowledge, but ignorance, is at the same time none of your business, it is then doubly important that it should be confined to the inmost recesses of one's own breast.

We are not careful to deny the wholesale charges made by a certain firm against the Dry Goods trade of Guelph. We leave it to the public to judge who is in the best position from their business experience, their knowledge of the market and their financial standing to go to the "fountain head of production," and pay cash for their goods. With these few remarks we proceed to more congenial topics.

Our Market Days.

We are sorry to state that our Wednesday Market has not fully realized the expectation of those who were the means of having the days changed. At the same time, we see a great and growing improvement, now we have TWO market days, then we had only one (Saturday), although nominally we had three. Of course we do not expect to see the Wednesday market reach the proportion of Saturday's at a bound, but we should reasonably look for its steady growth, until it is very nearly equal in the volume of business done. We think here is a matter for both rural and city population to consider.

It must be a great advantage to our citizens to do their marketing on two days of the week rather than buying supplies to last from Saturday to Saturday. If the population of Guelph would recognize the fact that they can be supplied on Wednesday, and come out with that expectation it would be the means of bringing many farmers to the city who do not come on Saturday, because there is such an over supply that day that they cannot sell their produce. If on the other hand the farmers would bring in their produce on Wednesday, the people would soon form the habit of marketing on that day, and the supply being distributed over the week, the amount thrown on the market not being so great in one day, it would be more easily disposed of at reasonable rates.

As an inducement to bring this state of things about, we will for the next few months, offer special inducements to purchasers on Wednesday,

AT THE LION.

J. D. Williamson & Co.

THE BELFAST RIOT.

How the Women Urged on The Fray.

A FRESH RIOT AT LURGAN.

BELFAST, June 10.—The city was comparatively quiet this forenoon. Seven hundred extra policemen are now in town. Six hundred Loyalists drilled near the city of Armagh last night.

Four of the rioters who were wounded by the police in yesterday's riot are dying. The Orangemen are making large purchases of arms, and are declaring that they will have revenge upon the police for firing into their ranks. At a meeting of Protestants living on Shank Hill Road, resolutions were adopted denouncing the action of the police from outlying districts coming to Belfast and attacking peaceful citizens, and demanding their withdrawal. The number of policemen on duty in Belfast this afternoon was 1,300. A number of troops from Newry have also arrived to assist the police in maintaining order. The magistrate ordered all the taverns in the city to be closed to-night. No mobs are to be allowed to congregate on the streets.

An eyewitness of the riots on Wednesday gives the following description of the scenes attending the mob's attack on the Bower's Hill police station:

"Women with pokers pried up paving stones and broke them up into suitable sizes for the use of the rioters when they ran short of missiles. Women and young girls desperately entreated the men to continue the fighting whenever they flagged, offering them aprons full of fresh stones, and when entreaty failed the women and girls drove the men on by savage threats. The police station is a moderate sized dwelling house. When the mob attacked the building the police responded with a volley fired from the doorway, but the rioters soon drove the officers in and they retreated upstairs and renewed the fight by shooting from the windows on the second floor. They held their position for half an hour, during which the battle was hot and savage on both sides, when they were reinforced by the arrival of seventy fresh officers. The increased energy of the police warfare served but to aggravate the mob and they became ferocious. They were maddened by the sight of their wounded comrades, writhing and howling with agony in the streets. I have since heard old officers say that they never knew a mob to show greater viciousness, violence, pluck and determination. Despite their desperation the mob hurled their missiles with regularity and precision as if they had been drilled in stone-throwing. When the men in front had exhausted their ammunition they would retire to the rear to receive fresh armfuls from the women and thus make way for their comrades with new supplies. Some of the stone-throwing was quite extraordinary. I saw a man throw a stone with such vigor that it crushed through a window, struck a rear wall and rebounded with such force that it struck and hurt a policeman. The better armed of the rioters carried what we call here "Belfast Kidneys." These are stones about five and a half inches long, three and a half inches wide, and weigh on an average about one and a half pounds. There were many boys among the rioters and they were as desperate and plucky as the men. The battle at the station ceased only when two hundred and fifty soldiers came to the aid of the police. The soldiers were from the Highlanders and the Fusiliers and they soon drove the mob away."

An employee belonging to a tavern adjacent to the Bowers' Hill police station was shot through the brain. A youth standing at the bar in a tavern opposite the station was shot. A girl named Minnie McAlister, who was out to buy a pair of shoes, was shot in the cheek. A boy named Kale was shot in the breast. A barmaid named Kelly was shot through the skull. A strange boy was found shot dead in a house into which he had evidently run to witness the riot.

The people living in the vicinity where the rioting began say it was caused by the police, under a mistaken impression molesting and cudgelling some workmen leaving a foundry. According to their story the populace got angry at the police and attempted to make them desist. When a conflict became imminent, the story goes, the mob offered to behave if the police were withdrawn, but not otherwise.

The people at the Shank Hill road meeting to-day attacked the police. The military were summoned and the crowd was dispersed. It is now stated that "the meeting was summoned to denounce the police and also all other persons for attacking the houses and property of peaceable people and to urge upon the citizens their duty to do the utmost in their power to bring the disturbers of the peace to justice irrespective of creed or party." The meeting appointed a deputation to ask the Mayor of Belfast for the names of the officers in charge of the Shank Hill police barracks yesterday evening.

The out-of-town policemen were withdrawn from the streets of the city in consequence of the hostility manifested towards them by the Belfast workmen. Soldiers have been told off to take the place of those retired officers and assist the city police in case they should need help.

The funeral of Thomas Gallagher, the Orangemen who was shot and killed during the riot at Lurgan on Tuesday, took place to-day. The funeral procession was protected by 100 soldiers and 300 policemen. A mob of Catholics jeered the mourners and threatened to stop the hearse, but the police held them in check. The political and religious excitement is leading to dangerous quarrels among women in the factory at Lurgan. At one factory the Protestant females have struck work, demanding the dismissal of the Catholics. Rioting was renewed to-night. An infuriated mob held possession of the streets and wrecked and pillaged the taverns. The police were compelled to fire buckshot into the mob. So far as known no one has been fatally injured. Many of the police were badly hurt by stones. The appeals of the clergy to the rioters to disperse were futile. Eventually the troops cleared the streets.

Fires on the Ottawa.

PEMBROKE, Ont., June 10.—Two weeks ago some Poles set out fires in the vicinity of Pogue Lake, and the high winds that prevailed since that time have carried the fire down to Brennan's Creek, a distance of over ten miles, the breadth of the burnt district being over three miles. Mohr's limit suffered most, the fire totally destroying it. McLachlan Bros.' limit caught in several places, burning all the provisions the men had for the drive. The fire is now under control. Constables have gone in search of the parties who set out the fires. On Saturday during the high wind the barns and outbuildings on the farm of Mr. Stephen Ryan, Reeve of South Algoma, took fire from the bush and were totally destroyed. A number of settlers in South Algoma and Hagarty have had their fences and crops burnt. On Saturday evening they had a good shower of rain, and only for this a good deal more damage would have been done. The Polish settlers were removing their furniture and effects from their houses and burying them, but the timely rain saved their buildings. A Russian Pole was arrested on the instance of McLachlan Bros., and brought before Justices Kinders and O'Grady, charged with setting fire to their limits, and was committed to jail for thirty days.

RYAN, BERKINSHAW & CO.

DESIRE to thank the Public for their princely patronage since taking over the Dry Goods business of MESSRS. JOHN HOGG & SON.

We are pleased to know that the public are appreciating our efforts to furnish them with *Good Honest Reliable Goods* at *Moderate Prices*. We do not say that we sell without a profit, nor do we say that we sell at a less profit than other Houses, although our prices in many cases have been less. Profits to-day are not any higher than they ought to be, but the trouble with a great many Houses, is, that they are not in a position to buy right, and the result is, when they mark their goods with only the ordinary profit added they are then too high. Men to-day, to make the Dry Goods Business a success must reach (as near as possible) the fountain head of production. Yes, and have the money when they get there, for the old way of buying on four and six months, and then renewing the paper, is but a shorter way to failure. The time is fast approaching when to make a success of the Dry Goods trade men must pay cash or buy on very short time, know where to buy, and as well thoroughly understand every line of goods they handle. Our facilities to-day are such as to enable us to sell *Good Honest Reliable Goods* under ordinary Houses, and then make as much profit. Being Direct Importers we save the middle man's profit, and as well in almost every case we have paid *Spot Cash* for our Goods, not even taking thirty days. By so doing we have made a large saving in the way of discounts, which puts us in a position to sell our goods just that much less than the man who is compelled to take time and lose the discount, and then another advantage we have over some other merchants, is that we do not own the store that we occupy, as we find it a profit to us to allow someone else to own the building, and we pay them about 4 per cent. on the money invested rather than have the place in our name with a large amount borrowed on it at 6 or 7 per cent. Now notwithstanding the fact that some Houses in the trade have talked loud about the amount they have imported this spring, we are in possession of information which enables us to know for a fact, that not more than five cases of goods have been imported from England, Ireland or Scotland this spring, by any other House in Guelph, not even by the House that has talked so much about "Importing," "Paying Cash," and a lot of other nonsense. While our importations have been moderately large this spring (about five times as much as all the other Houses combined), yet it is a small amount compared with what it will be this fall. Our Mr. Ryan will leave for the English Market by the "Aurania," July 10th, from New York.

TO PARTIES GOING TO BUILD.

JOHN DOUGLAS

IS PREPARED TO SUPPLY SILLS, CORNERS, &c., cut or in the rough, at his quarry, north side of the river (opposite Goldie's Mill), Guelph

Congregational Union.

OTTAWA, June 10.—The 33rd annual meeting of the Congregational Union opened its session last evening in the Ottawa Congregational Church. The Rev. D. McGregor, M.A., of Guelph, the Chairman of the Union, presided. Introductory services were conducted by Rev. E. M. Hill, M.A., and Rev. John Norton. An eloquent annual sermon was preached by Rev. J. R. Black, B. A., of Garafraxa, from the text I Tim., iv., 16.

The Standing Committees were then appointed.

OTTAWA, June 11.—Rev. R. Black, of Wingham, conducted the first hour of devotional exercises. At ten o'clock the Union proper began its work.

The annual address from the chair was the first order of the day. Rev. D. McGregor, of Guelph, delivered the address, choosing for his subject, "The Church in the world and the world in the Church."

The whole address was listened to with great interest, though occupying one hour and a half in its delivery.

Rev. H. D. Hunter, of London, was then elected chairman for 1887.

The following made application for membership with the Union:—Rev. W. Cuthbertson, Woodstock; Rev. A. W. Gerrie, Pine Grove; Rev. J. W. Pedley, Georgetown. The following churches also asked for admission:—St. Thomas and Hawkesbury. The Revs. H. D. Powis and H. Hughes asked for letters of dismission. On motion these items were here referred to the Membership Committee.

In the afternoon the annual meeting of the Congregational Church Missionary Society was held. The treasurer's report, which showed the receipts from all sources to amount to $9,207.33, leaving a balance due the treasurer of $1,833.

Rev. Thos. Hall, Superintendent of Missions, read his report. He had travelled 10,117 miles, and given 320 sermons and addresses.

Rev. John Wood introduced a motion bearing on the transfer of the Orangeville church property to Mr. Marshall of that place. The motion was carried.

Rev. E. Hill spoke with reference to the deficit of $1,900, and suggested that each pastor bring the matter before the membership of the churches. It would only require a small sum from each member.

Rev. Mr. Fuller promised $100 on behalf of the Brantford church and others responded liberally.

A subscription was taken up at the meeting to repay Rev. Mr. Wood for his loss in connection with the Orangeville Church. The sum of $320 was collected in a few minutes.

The subject of closer relations with the United States was considered, when Rev. C. C. Ottis, Superintendent of Missions from that country, remarked that the brethren of the United States would come more than half way to reach the desired end.

The treasurer's report of the Foreign Mission Society showed an increase of receipts for the past year, amounting to $2,612.

Increased liberality was solicited the coming year, and a motion was carried to the effect that a medical missionary and his wife be appointed to go out with Mr. Currie, also a vote of thanks to the American Board for their valuable assistance.

The meeting adjourned.

The annual public missionary meeting was held at night. Rev. George Fuller, of Brantford, Rev. John Burton, of Toronto, and Rev. C. C. Otis, Missionary Superintendent of Washington Territory, addressed the meeting.

The General Assembly.

HAMILTON, June 10.—At the afternoon session of the General Assembly of the Presbyterian Church in Canada the question of term service in the eldership came up, and after discussion was shelved for the present. It was introduced by an overture from the Synod of Hamilton and London, recommending that elders be elected for a term of five years instead of for life, as heretofore, said rule not to interfere with those in the eldership now.

Rev. Samuel Lyle of Hamilton championed the time service. He pointed out that the present system failed to secure the latent talent of the church. It was possible that the best men might not be appointed to the office. Consecrated elders was the crying want of the church. It would encourage elders to have their conduct endorsed by the congregation at stated periods. He moved that the subject be handed down to presbyteries and sessions to discuss and report to next Assembly.

Elder J. C. Monro of Grantley spoke of a certain church down his way where the congregation was working for the Scott Act, while the elders opposed it. He knew an elder who took a "horn" occasionally. If any of the congregation were asked to give up drink they would say: "Oh, go and reform your elders." He was heartily in favor of term service.

Elder Wm. Cole of Cole's Corners, said that while they often got bad elders, they just as often got bad ministers, and they were as hard to get rid of.

Elder Robert Smith, a bluff old farmer from Carminnoch, told a funny story of a ranter whom he once went to hear preach. It was a warm day and the parson was a little heated. When he got into the pulpit he took off his coat, rolled up his shirt sleeves and said: "Brethren and sistern: I preaches a free gospel and finds me own bread." Mr. Smith affirmed that all the fault was not with the elders, as lots of ministers would run away the minute they were offered a better salary.

Elder R. McQueen, of Kirkwall, said that elders who performed their duty were not always favorites with the congregation. He believed in life service.

Elder Walter Paull of Montreal, D. W. Beadle of St. Catharines, J. C. Eckford of Dunkeld, and Samuel Hodgskin of Guelph, also spoke on the question.

Mr. Robert Murray of Halifax moved in amendment, seconded by Mr. Jas. Brown of Toronto, that the Assembly sees no reason for taking the matter into consideration at the present time, and therefore dismisses the question. The amendment was carried by a vote of 108 to 84.

An overture from the Presbytery of Toronto anent the evangelization of Roman Catholics was laid over until a later sitting.

The question of marriage with a deceased wife's sister, which was not disposed of at last Assembly, was introduced by Principal McKnight, of Halifax, who offered this resolution:

"Inasmuch as the Mosaic law recognizes a wide gradation in the matter of incest by prescribing death in some cases, minor penalties in others, and in other cases still, omitting to name any penalty; inasmuch as union with collateral kin is less offensive than union in the direct line of descent, and an adaptive relation by affinity is not so intimate as a natural relation by blood; and inasmuch as there is no explicit prohibition of marriage with a deceased wife's sister, and inferential arguments against such marriages are of doubtful validity,—Therefore, the General Assembly, with consent of Presbyteries, declares that the inferior courts are not required to exercise discipline in reference to the marriage of a deceased wife's sister, aunt or niece."

The Principal, in support of his resolution referred to Leviticus, Chap. 20, and was very deep in the pros and cons of the question, when a brother called out that the 12th verse would knock all his arguments flat.

On motion of Principal Caven of Toronto and Prof. Bryce, of Winnipeg, the matter was referred to a Special Committee, with instructions to report on Saturday, Dr. McKnight consenting to withdraw his resolution.

Mr. W. B. McMurrich, of Toronto, read the report of the Hymnal Committee. The receipts had been $5,172; balance on hand $439. A tonic sol-fa edition had been published at a retail price of 70 cents, but only 450 copies were sold.

The evening session was devoted to the discussion of Home Mission. Rev. G. Bruce, of St. John, N. B., presented the report of the eastern section, which was encouraging. Rev. E. D. Miller, of Lunenburg, N. S., said the eastern church had asked for $10,000 and they gave $9,050.

Rev. Dr. Cochrane, of Brantford, presented the report of the western section. The total contributions for home missions had been $32,226, a decrease of $6,700; for augmentation $23,961, a deficit of $665. The Sabbath School contributions for the year amounted to $1,973. Since the financial statement was made up $5,739 was received from the Divinity Students' Missionary Association of the United Church of Scotland.

Dr. Cochrane referred to the recent death of Rev. J. S. MacKay, a graduate of Knox, who had been laboring in New Westminster, B.C.

On motion of Rev. D. M. Gordon, of Winnipeg, it was decided to form a new Presbytery, to be called the "Presbytery of Columbia," to be connected with the Synod of Manitoba and the Northwest, Rev. Robert Jamieson to be first moderator.

Ontario Medical Council.

TORONTO, June 8.—The annual meeting of the Medical Council of the Ontario College of Physicians and Surgeons was opened yesterday forenoon in Medical Council Hall at Bay and Richmond streets. The President, Dr. Bergin, M. P., Cornwall, was in the chair. The full council of twenty-six was present. Dr. Henry, of Orangeville, the new representative for the Saugeen and Brock division, took his seat.

The President addressed the Council with reference to the overcrowding of the profession and asked that some action be taken regarding men who go to the Old Country for registration. He also referred to the subject of general education. Officers for the ensuing year were elected as follows: President, Dr. H. H. Wright, Toronto; Vice-President, Dr. Henderson, Brantford; Registrar, Dr. Pyne, Toronto; Treasurer, Dr. W. S. Aikins, Toronto; Solicitor, B. B. Osler, Toronto.

A resolution of condolence with the family of the late Dr. Douglass was passed.

The Council then adjourned till this morning.

TORONTO, June 11.—The Ontario Medical Council resumed yesterday morning. A resolution was passed expressing the Council's disapproval of the British Medical Act allowing physicians to practise in Ontario without having complied with the curriculum adopted by the Council.

The financial report stated that there was $3,184 in the bank and $7,500 is still uncollected. The ground on which the Council Hall stands is valued at $25,000. The Council's liabilities amount to $2,012.

With regard to the published statement in the President's address to the effect that matters had now taken such a shape that it was a question whether the College is now really of service to the Medical Profession of Ontario, and that he feared the College had not accomplished the purpose for which it was established, the Education Committee were of opinion that the College had accomplished a good work in formulating a line of medical education in keeping with the scientific advancement of the age, and one which now merits the approval of the profession and the teaching bodies; that a central examining body now exists for all the students desiring to practise medicine and surgery in Ontario; that every care and discretion is now exercised in granting licences to practise, such as did not exist prior to the introduction of the present Medical Act and the foundation of the Council.

As to increased clinical instruction, the committee was of opinion that the same might be very judiciously carried into effect. As to British legislation, they thought the growing requirements of medical education in Ontario would meet with the cordial support of the Home Government. They regretted the absence of the past President, inasmuch as he would have removed any erroneous impression which might have been conveyed as to the usefulness of the Medical Council of Ontario. This report was adopted.

Canadian Foresters.

CHATHAM, June 8.—The seventh annual meeting of the High Court of Canadian Foresters opened this afternoon in the rooms of Court Chatham, No. 6. Right Worthy High Chief Ranger Robt. Elliott, of Listowel, occupied the chair, and about 150 delegates were present. The address of the R. R. High Chief Ranger, and the reports of the High Secretary, High Treasurer, Chairman of the Medical Board and Auditors all showed the Society to be in a most prosperous condition.

CHATHAM, June 9.—The High Court of Foresters elected the following officers today: R.W.H.C., R. R. Elliott, Listowel; R. W. V. C., R. A. McNeil, Peterboro; R. W. H. Secretary, A. E. Gammage, Brantford; R. W. H. Treasurer, John Neelands, Wingham; R.W. H. Registrar, R. Baker, Toronto; R. W. H. Chaplain, Rev. J. Pritchard, Manchester; R. W. H. S. Woodward, J. F. Robinson, Montreal; R. W. H. J. Woodward, W. F. Clarke, Grimsby; R. W. H. S. Beadle, John Carpenter, Chatham; R.W. H. J. Beadle, Dr. W. M. Stanley, Watford; Medical Board, D. R. C. Young, Ridgetown, and Dr. J.W. Flock, London, Ont.

University Convocation.

TORONTO, June 10.—The annual commencement of the University of Toronto for the conferring of degrees was held on Wednesday afternoon. The Chancellor, Hon. Edward Blake, in his address, gave statistics showing the progress of the institution, and expounded his views on the question of federation of colleges. The degree of M. A. was conferred on six, of C. E. on one, and of L. L. B. on three. Degrees were conferred on seventy B.A.'s, amongst whom was Miss Eliza Balmer. Miss Balmer ascended the platform amid a storm of applause. She was dressed plainly but neatly in blue, and wore the regulation college gown. After the swansdown had been laid on her shoulders she turned and, for a moment facing the audience, was greeted by another ovation. As she left the dais, two male students handed her handsome bouquets. Miss Balmer alone, of the graduating class in Modern Languages, stood in the first class in each subject. She thereby wins a college medal, which, it is said, she will refuse to accept, owing to a widely prevalent antipathy on the part of the student body to the system of awarding medals and scholarships.

Horsford's Acid Phosphate.

As a Brain Food.

Dr. F. S. Newcomer, Greenfield, O., says: "In cases of general debility, and torpor of mind and body, it does exceedingly well."

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for neuralgia, Toothache, Headache, Rheumatism Sold at 25c a bottle by Thos. S. Petrie, Druggist

THE EVENING MERCURY is printed and published every afternoon at 4 o'clock; THE WEEKLY MERCURY is issued every Thursday morning. INNES & DAVIDSON, Publishers and Proprietors, 54 Macdonell street, Guelph, Ont.

A Dog That Played Baseball.

The rival nines were made up of boys under 13, and Major, says a writer in St. Nicholas. As I reached the ground it was his inning, and his master, who claimed the privilege of striking for him, was at the bat. The dog was right behind with one paw in advance and his eyes on the striker. In came the twisters, and Major made several false starts; but, finally, as the ball went scudding from the bat, off he rushed for first base, his ears flapping, his plume-like tail out straight behind. But the shortstop was too nimble for the dog, and just before he reached the base the ball arrived there, and he came slowly back, his tail hanging low and a very mournful expression in his great eyes.

"Maje's out—side out!" cried the boys, and immediately conceiving a method by which he could retrieve this disaster the dog seemed to regain his spirits, dashed into the field, and was speedily in his position as left fielder before any of the others had reached their places.

In the preliminary "pass around" that preceded the play Major was not left out, and I saw that the balls that were thrown at him directly were quite as swift as those delivered from base to base; and, in justice to him, I never saw him "muff." When a ball was thrown at him he settled back and dropped his great lower jaw, into which the projectile seemed to fit; then, with tail wagging, he would hasten to carry the ball to the next player. He was equally proficient with low balls, either catching them in his mouth or stopping them with his broad chest, and in fielding he could not be outdone. When he caught a ball he carried it at full speed to the nearest thrower, and not a few players were put out by his quick motions and activity.

Meteorological Observations.

The following is a summary of the meteorological observations taken at the Ontario Agricultural College during the month of May, 1886.

Normal height of the barometer at Guelph 28.86 inches.

Guelph 1,100 feet above sea level and 740 above Lake Ontario.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

Mostly Fair and Warm.

THE PROBABILITIES.—Moderate winds, mostly east and south east; fair warm weather.

Local News

MRS. BARRETT, of Forglen, Scotland, has a deer which is so tame that it follows her everywhere, and the other day even ventured into church beside her.

THIS morning a pic-nic party from Rockwood and Eramosa passed through the city to Puslinch Lake. They stopped at the Western hotel for a time to have a rest and refreshments.

THE case against the Picturesque Canada agent at Arthur was dismissed and now the book agent is going to have his innings, having taken out writs against the farmers for malicious prosecution.

THE York County Scott Act petition has virtually been abandoned, unfavorable reports of the working of the measure in Simcoe County having rendered the work of getting signers extremely difficult in some parts of the county.

LAST evening the City Band gave another of their popular outdoor concerts on the Wellington Park band stand. The night being warm and the moon brightly shining, a large number of people promenaded in the vicinity of the music.

THIS morning a blacksmith working in the Armstrongs Carriage Goods Co., by the name of Spence, had his hand badly crushed by the droppers falling on it. The hand was dressed by a medical gentleman. It will be some time before Mr. Spence will be able to resume work.

FALL ASSIZES AND CHANCERY SITTINGS.—The Autumn Assizes will open in Guelph on Wednesday, 3rd Nov., before Mr. Justice Armour; Stratford, Sept 13th, and Berlin, Sept. 27th, before Mr. Justice Galt; Goderich, Oct. 4th, and Walkerton, Nov. 1st, before Mr. Justice O'Connor; Orangeville, Sept. 20th, Milton, Sept 27th, and Brampton, Sept. 30th, before Mr. Chief Justice Cameron. The Fall Chancery Sittings will be held in Guelph on Oct. 4th, before the Chancellor; Walkerton, Sept. 30th, Goderich, Sept. 24, and Stratford, Sept. 29, before Justice Ferguson.

CHANGE OF TIME TABLE.—On Monday a change of time table for passenger trains will take place on the main line of the G. T. R. The trains going west leave the Guelph station as follows: 1.16 a. m. through express; 10.03 a. m., mail train; 2.52 p. m., Pacific express, and 6.17 p. m., mail train for London. The train arriving from Toronto at 9.10 p. m., remains over night here as usual. Going east—The limited express is timed at 6.46 a. m.; mixed starts from Guelph at 7.30 a. m., mail train 10.25 a. m.; express 5.15 p. m.; mixed 9.20 p. m. As will be seen by the above there is very little difference in the time of the east bound trains, but a considerable difference in those going west. There is no change on the Wellington, Grey & Bruce division.

BOATING CLUB.—The members of the Boating Club propose to have next Thursday evening a grand opening of their magnificent grounds at Victoria Park. Landing places, sidewalks, and stairways have been erected and the grounds completely renovated, which makes this now the most picturesque pleasure park in the vicinity. The grounds will be lighted up with Chinese lanterns, torches, etc. The City Band are to be in attendance, and refreshments to be had on the grounds. For those who do not wish to go up the river or who may not be able to obtain boats, arrangements have been made to have carryalls run from St. George's Square to the Park.

INQUEST.—It is learned from the Milton *Champion* that Mr Frank Sanderson, lessee of the Temperance Hotel, died suddenly on Friday last, and as there were a number of rumors afloat as to the cause of his death, and some talk of foul play, Coroner Freeman was notified by Clerk of the Peace Dewar to hold an inquest which was concluded on Monday. The *post mortem* went to show that death had been caused by apoplexy. The jury returned a verdict that the deceased had died of apoplexy, caused by excessive use of alcoholic liquors. From the evidence it would appear, however that the deceased and his wife did not live on the best of terms, often having fights.

COL. ARMSTRONG had considerably improved last night, and it is to be hoped will be able to apear on the streets again in a short time.

A LODGE of Independent Order of Foresters was founded in Milton, on Wednesday with a membership of over 30. It affords cheap insurance to all.

A LARGE number of applications are pouring in for the vacancy of Assessor for the city. Considerable balloting will have to be done before the lucky applicant will be known.

Hugh Walker & Son are now selling Canadian strawberries, but this cannot be wondered at when Miss Todd, Guelph, picked a number of ripe strawberries from her garden ten days ago.

THIS morning two excellent photographs of the cattle of Messrs. McQueen were placed on exhibition at the New Western Hotel. The two fine cattle are now on exhibition at the Colonial Exhibition.

THE Ancient Order of Foresters will meet at the lodge room to-morrow evening at six o'clock, for the purpose of attending Knox Church in a body, where the Rev. Mr. Beattie, pastor, will preach the annual sermon.

THE Erin June fair on Tuesday did not bring out a great number of cattle, as most of the fat cattle fit for shipment were previously bought by other drovers. There was a good turnout of farmers and others, and considerable general business was transacted.

GREAT preparations are being made for the observance of decoration day by the Oddfellows' societies of the city. Invitations are being sent to surrounding lodges to participate in the proceedings of the day. Some fourteen graves are to be decorated—two more than last year.

IT is currently reported that a well-known citizen of Galt has fallen heir to quite a sum of money by the death of a relative in England. The amount is placed at $15,000, and if the report be true the gentleman interested will accept our hearty congratulations. Lucky he.

THE MARKETS.—The market was only fairly attended to-day, no doubt on account of the farmers being busy preparing their turnip land. A quantity of wool was offered and was freely bought up. The grain market was slack. In the vegetable line potatoes took a jump to 90 cents a bag. In garden truck the supply was hardly equal to the demand.

THE High Court of the Canadian Order of Foresters concluded the business of its annual meeting in Chatham, Thursday night and adjourned. Next year's meeting will be held in Toronto. Mr Harry Gummer of the *Herald* who was appointed High Court auditor, returned home last night.

TORONTO INDUSTRIAL FAIR.—We have received a copy of the Prize List for the next Industrial Fair, to be held at Toronto from the 6th to the 18th September. The book is very tastily gotten up, and contains cuts of different breeds of animals for which prizes are offered, and also views of the City of Toronto and its public buildings. Any of our readers desiring a copy can obtain the same by dropping a post card to Mr. Hill, the Secretary, at Toronto.

COOL NIGHTS.—It is a feature of the weather that has prevailed this season that while the days have been fairly warm and pleasant the nights have almost invariably been cold. During May the thermometer on fully half the nights sank to the neighborhood of 40, while on several there was quite a sharp frost. So far in June the same peculiarity has been noticable; and as a consequence garden stuffs are not progressing rapidly. At the end of April the season was fully two weeks in advance of that of last year; at the present time it is doubtful if there is any advance at all. The late rains have done a great deal of good, however, and warm nights are all that is necessary now to insure rapid growth.

THE MIRACLE OF THE ROSES.—The presentation of this beautiful production will be repeated on Thursday evening, the 15th inst. That the entertainment is one of a high order of merit, was evidenced by the unusual gathering which assembled in the church of Our Lady on Thursday evening. The singing of Miss Braniff can be excelled but by few. Those who have not yet heard her should not fail to do so. The several young ladies who take part in the play, and the little children as well, deserve great credit for the artistic way in which they performed their respective solos. The ladies of Loretto are always successful in procuring the most elevating and pleasing of exhibitions, and the "Miracle of the Roses" is the crowning of all former efforts. No doubt the church will be again crowded on Tuesday evening. Those who go early will secure the best seats. No tickets will be distributed.

I. O. O. F. FUNERAL.—The funeral of the late Henry Farrow, second son of Mr. Asher Farrow, formerly of Eramosa, now a resident of this city, took place from his father's house, Elora Road, on Friday afternoon, and was largely attended by people from the city and various parts of the county. The funeral service at the house was conducted by the Rev. Dr. Griffin, and at the grave by Rev. W. F. Clarke and Dr. Griffin. The deceased being a member of Battle Creek Lodge, I. O. O. F., Michigan, the Oddfellows of the two lodges in the city attended the funeral in regalia, and took charge of the body. The pall-bearers were Bros. James Howard, W. Horning, P. Campbell, W. J. Stephenson, J. Verney and Jas. Phillips. On arriving at the grave the beautiful and impressive funeral service of the Order was read by Rev. Bro. J. H. Carson, and the sprigs of evergreens borne by the Brethren were thrown into the grave on the coffin, symbolical that the deceased would ever remain green in the memory of his brother Oddfellows. Henry Farrow was a young man of good promise and considerable ability, and a favourite with all who had the pleasure of his acquaintance. He worked on the farm with his father until about 28 years of age, when he secured a position on the Chicago & Grand Trunk Railway, between Port Huron and Chicago, where he remained for some four years. He soon worked himself up to be passenger conductor. About a year ago an accident occurred on the line on a stormy night, and the young man was chilled through with the rain and cold, from the effects of which he was compelled to resign his position and come home to his parents. He never rallied from the effects and passed away on the 9th of June. The family have the sympathies of a large number of friends in their bereavement.

NOTHING in the Police Court this morning.

MR. Robt. Field caught yesterday two dozen of fine trout in Puslinch.

A NEW sidewalk has been laid from Ald. Lamprey's gate to the corner of Glasgow street. There was need for it.

MRS. Beirnes, wife of Mr. Jas. Beirnes, returned to Guelph yesterday after a stay of three weeks in Cleveland.

THE Molton property on Suffolk street was sold by Mr. Spragge at the door of the Market House to-day, to Mrs. Hamilton, for $950.

THE Artillery Brigade will go to camp on the 21st. If arrangements can be made Galt will probably be the place where the drill will take place.

A MEETING under the auspices of Guelph Council No. 127, R. T. of T., will be held in the Norfolk street Methodist church on Tuesday evening, 15th. An excellent programme is arranged and will be published on Monday. Admission free. No collection. d1

LOSS OF A VALUABLE BULL.—Mr. Duncan McFarlane, Puslinch, lost a valuable yearling Durham bull the other day which he had recently purchased from Mr. Robt. Amos. The animal was valued at $100 and was seen in the field about half an hour before to all appearances perfectly well. The cause of its death is a mystery.

A RAINBOW AT MIDNIGHT.—One of Mr. Thos. Goldie's coopers had reason to be out till late one night recently during a heavy thunderstorm. The storm broke about the mysterious hour of midnight and lo and behold he saw a rainbow, whose gorgeous hues even eclipsed that of a rainbow seen in the day time. The next morning he explained the appearance of the strange phenomenon to his fellow workmen, who listened in wonder to the tale so positively asserted. On mature reflection they came to the conclusion that if this had not been a Scott Act city their companion might have been gifted with particular faculty, under certain circumstances, of seeing double, and while in this state conjured up a rainbow. As it is they are at a loss whether to credit the story or not.

A BEAR STORY.—Mount Forest has a real bear story, and this is how the *Confederate* tells it:—On Monday evening about dark, while Mr. Oliver Henry, of lot 14, con 2, West Luther, was loading wood in his bush, his horses took fright at something and sprang back. Hr. Henry, however, got them stopped and went about his work but in a few minutes the horses again took fright and started off. He sprang into the wagon, but while doing so he hit his shoulder against a tree, which made his right arm almost powerless and he was unable to hold the team, and they ran home. Shortly after Mr. Henry reached the yard he heard a man yelling for help back at the bush. He immediately started back to the bush with his dog, and found Mr. John Kelly, a neighbor, who had heard him yelling at the horses and came to see what was up, running around a big tree for his life, with an enormous black bear right at his heels, and trying to bite him at every jump. When the bear saw Mr. Henry it made its way off, thus giving Mr. Kelly a chance to get free after having a very narrow escape. An attempt was made to capture three cubs, which were with the old bear, but without success. Mr. Henry's horses had evidently seen the bear, which caused them to take fright. A party of hunters were in search of the bears on Tuesday but we have not heard of the success they have met with. The two men say it was the largest bear of its kind they had ever seen.

Special Saturday Sale in the Millinery Department, at BOLLERT'S, 27 Lower Wyndham st. d2

Killed by a Street Car.

LONDON, Ont., June 11.—This evening about 7.30, a two-year old child, daughter of Mr. Leach, sexton of St. Peter's Cathedral, this city, was run over by a street car on Richmond street and instantly killed. No blame attaches to the driver.

Agent-General in Australia.

OTTAWA, June 11.—It is understood that in view of the opening of the Canadian Pacific Railway to Vancouver, and the early establishment of a line of steamers between that place and Australian ports, the Dominion Government has appointed Mr. A. Woods, of Winnipeg, agent-general in Australia.

Earthquake in New Zealand.

AUCKLAND, New Zealand, June 11.—The volcanic eruption at Tarawera destroyed entire villages in the district and nearly buried them in ashes. The surface of the earth for many miles around the active volcano was disturbed by the earthquake which accompanied the eruption. Twenty-six dead bodies have been recovered from the ruins.

Attacked by a Game Cock.

MONTREAL, June 11.—The two-year old son of Mr. Charles Bell, residing on Delorimer avenue, on Thursday afternoon, was playing in the back yard when he was furiously attacked by a game cock, which drove its spur through his eyelid, penetrating the eye. The boy in great agony was removed to the General Hospital, where it was found the wound was of so serious a nature as to necessitate the removal of the eye, which operation was successfully performed.

Extensive Hauls.

BOSTON, Mass., June 11.—Big Ed. Rice, alias W. H. Moore alias Hen. Rice alias "Hen" Summers, a notorious bank sneak thief, arrived here from Canada this morning. He was arrested at the depot and locked up. The most notable jobs done by Rice and his pals since living in Canada were the robbery of thousands of dollars from the Bank of Montreal, of the American Express office at London, Ont., and a $10,000 silk robbery at Port Hope. As there is no charge here against him he will be railroaded out of town this evening.

Indispensable.—There are some simple remedies indispensable in every family. Among these, the experience of years assures us, should be recorded Perry Davis' Pain Killer. For both internal and external application we have found it of great value; especially can we recommend it for colds, rheumatism, or fresh wounds and bruises.—*Christian Era.*

Special value in Embroideries, at BOLLERT'S, 27 Lower Wyndham st. d2

Sporting Notes.

BASE BALL.

The printers were fairly and squarely beaten by the O. A. C. students on Friday afternoon. It was a terrible game of ball. But then it was proper that a purely agricultural game should be played on the O. A. C grounds. The printers must have realized this, for they did enough muffing and fumbling to spread over four or five decent games. It was a consolation to them, however, to see the College boys in a great measure follow their example. Of the College team, Ormond and Parker, Menzie and Brown distinguished themselves in their respective positions. For the printers it would be invidious to particularize, all did so well. Each and every one of them, however, had an enjoyable time and unanimously vote the College boys the most genial and gentlemanly set of ball players they ever met. Several cans of fresh and pure butter-milk were placed at the disposal of the players, and they disposed of the greater part of it.

NOTES.

The printers attribute their defeat to the copious supplies of buttermilk served them as being doctored by the College boys.

Oh, what a score! The printers are following in the wake of the Hamilton and Toronto clubs.

The season has commenced badly for the adjusters of moveable alphabets.

The College boys are jubilant over their victory. The buttermilk did the deed, and this may account for the buttery state of the catcher's fingers for the printers.

College stock is up. The printers are bound to be avenged before the season is over.

Yesterdays games of the International League resulted as follows:—At Oswego, Oswego 7, Toronto 3; at Utica, Utica 10, Hamilton 4; at Binghamton, Rochester 4, Binghamton 3.

The Maple Leafs defeated the Saginaws yesterday. They play there to-day again. Score:

	R.	BH.	E.
Maple Leafs	10	15	7
Saginaw	6	9	10

Stephens and Dillon were the battery for the Leafs.

The Leafs play Petrolia Monday and then come home, as London and Stratford cancelled their dates.

CRICKET.

The Listowel club are having a new ground prepared, and when finished will be the finest in the west. The club fixtures to date are:—Guelph at Listowel, June 17; Galt at Listowel, July 1; Paris at Listowel, July 23. We propose playing Buffalo and Detroit, but dates are not fixed.

Foreign.

Protestant Home Rulers are organizing in Cork.

Detectives are watching Mr. Chamberlain's residence.

Server Pacha, the Turkish Minister of Justice, is dead.

A petroleum exhibition will be opened in London in October.

There is an average of twenty new cases and ten deaths daily from cholera in Venice.

The Government has placed the district terrorized by mobs in the Province of Ulster under martial law.

American Vice-Consul McKenzie at Dublin killed himself and dangerously shot his wife last night.

France denies any political aspiration in the New Hebrides, but two men-of-war have been ordered there to protect British interests.

Mad King Ludwig resists the decree of a deposition pronounced by his Ministry, and remains securely guarded in his Castle of Hohenschwang, by trusted gendarmes and friendly mountaineers.

The Scotchman's Liberal Federation has engaged St. Andrew's Hall, Glasgow, for a mass meeting of electors on June 28. Lord Rosebery will preside and Mr. Gladstone will speak.

New Patterns in Millinery, just to hand, at BOLLERT'S, 27 Lower Wyndham street. d2

THE health of Messrs. W. S. G. Knowles and Prof. Philp is slightly improved today.

SALE OF SHEEP.—Mr. Henry Arkell, Arkell, the well known breeder, shipped this week twenty pure bred Cotswold rams and three ewes to Mr. Geo. Harding, Mauksha, Wisconsin. They were superior animals, and Mr. Arkell attended them himself on their journey to see to their safe delivery. This is only another evidence of how Wellington stock is appreciated abroad. The price paid was good.

BIG SNAKE.—Yesterday a resident of the East Ward heard the frightened cries of one of his children in the garden and on going to the door saw a large snake about to attack the child. He at once rushed to the rescue and succeeded in getting the child away in safety. The parent gave the alarm, and a neighbor came to his assistance. Both armed themselves, one with an axe and the other with a club and followed up his snakeship. A furious onslaught was made on the reptile, dust and stones flying in every direction. But the snake was too many for them and made its way across the street till it finally escaped into the swamp from its pursuers. The snake was estimated at about five feet in length and as thick as a person's leg. It was supposed to be one of the rattle species. If such is the case the probabilities are that it escaped from some travelling menagerie, but the general belief is that it was a large milk or garter snake.

Special Bargains in Children's Sailor Hats, at BOLLERT'S, 27 Lower Wyndham street. d2

The Medical Council.

TORONTO, June 12.—The doctors forming the Medical Council of Ontario finished their business yesterday, and when they meet in June of next year they hope it will be in their new hall which it has been decided to erect on the site of the present building. Dr. Burns' by-law providing for the levying of a tax of $1 on each member of the College of Physicians and Surgeons, was adopted. Dr. Orr's motion that the number of representatives on the Council be increased to twenty-four, was referred to the Legislative Committee. The report of the Legislative Committee suggested amending the law so that all suits for or charges of malpractice against physicians should be brought forward within one year of the date of the alleged misdemeanor, and that medical witnesses must be properly remunerated for their time and expenses. The committee recommended the appointment of a properly certified medical doctor in each division to act as taxing officer, after the method of the Law Society. One of the suggestions which provoked a good deal of discussion was that a code of ethics be adopted, and in case of any violation of this code the offender's name be erased from the register of the Council. The last clause advised that in all cases of malpractice where the plaintiff lost his case and was possessed of no effects wherewith to pay the costs, the defendant be not mulcted in the costs. The report was adopted. A resolution was passed expressing the pleasure felt by the Council in the election of Dr. Grant, of Ottawa, to the position of Vice-President for Canada of the International Medical Congress.

Prayer Book of an Unfortunate Queen.

A curious and valuable prayer book has just been sold in London. It is the little volume which the unfortunate Mary Queen of Scots used at her death upon the scaffold. The prayers are the handiwork of some rare fifteenth century scribe; they are written in latin upon vellum. The pages of the missal are exquisitely illuminated with elegant borders of fruit, flowers and birds; they are also decorated with thirty-five miniatures by a Flemish artist, pieces of elaborate workmanship. The little book still rests in the original oak boards, covered with silk now much worn, in which it was originally bound.

How Much She Loved Him.

"Fanpie," he said to her, "I love you with my whole heart, and I want you to be my wife. It is true I'm only a department clerk, with only $1,400 a year, but, Fannie, money doesn't buy happiness. Do you love me, darling?" "Oo-oo," she cooed, nestling her head on his new coat front. "And you do love me?" he exclaimed, with confidence; "you love me with your whole soul and being?" "Maybe not quite that much," she gurgled, "but I love you $1,400 worth, George, and that's $400 more than I ever loved any living man."

The Famous Hairy Family of Burmah.

Ex-King Theebaw's famous hairy family, which he long kept jealously at Mandalay, are coming to Europe for exhibition. The family have been renowned in Burmese history for many years, and the present members, a mother and son, form the fourth generation known. The mother, Maphon, is 63, quite blind, and usually sits motionless on a platform, occasionally fanning herself, and speaking in a low, sweet voice. She was seen and described by Col. Yule when on a mission to the court of Ava in 1855. Save her hands and feet, she is covered with long, soft hair like her son, Mo-po-sin, who is covered even to the drums of his ears, the hair in some places being five inches long. Mo-po-sin is of medium height, with pale, brown skin, and is fairly friendly, having been partly educated and married to a maid of honor. Neither he nor his mother has either canine teeth or grinders.—*From the Court Journal.*

A Large Treasure.

It is perhaps not generally known that Germany possesses a hidden treasure of great value. It is the Imperial Emergency Fund, which is preserved in glittering gold locked up in the Julius Tower, several miles from Berlin. This fund consists of a hundred and twenty million marks, taken from the war indemnity paid by France, and it is kept apart for any need which may unexpectedly arise, whether caused by war, or disaster, or want. Every year the vast sum of money is examined, two members of the national debt Commission having this duty to perform. The revision is done under the most stringent restrictions. One member cannot enter the tower alone. Each has a small key of peculiar construction, and both keys must be placed in the door at once. The money is kept in giant bags of 100,000 marks each, two thirds being in 20 mark and the rest 10 mark pieces. The revisers ready for work, several of the great piles are chosen for weighing, and a detatchment of military is told off for the purpose. The process takes a long time, and when over, a document is signed by both commissioners and the tower is left as it was entered, the two keys being placed in the door at once. In this tower other national moneys are also kept, notably a portion of the fund devoted to the building of a new Reichstag. The weight of the indemnity reserve fund in gold is about 105,672 lbs, or in silver 1,466,520 lbs.

International Typography.

At the International Typographical Union, held in Pittsburg, Pa., on the 11th June, the special committee on the relations of the Union to the K. of L. presented a lengthy report, which was adopted. The paper, after complimenting the K. of L. in the highest terms and pledging them support, requests, first, that the K. of L. will not attempt to dictate the course of action of distinctive trades; second, that they will not cover with the shield of the order any man who has been found unworthy to mingle with the members of the unions as a fellow-craftsman in good standing. The special committee on the use of plate matter submitted their report, which was approved. The report recommends that the Executive Council endeavor to unionize all firms manufacturing plates, and that all non-union firms be published; that the local unions be required to interdict the use of plates where a reduction of the working force will ensue. Union newspapers must be prohibited from using news plates manufactured in non-union offices or else be declaired unfair. No subordinate union can take any action regarding the use of plates without the consent of the Executive Council.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

The Evening Mercury

SATURDAY EVE'G JUNE 12, 1886.

LONDON *Advertiser* :—A little bit of the true inwardness of the Franchise Bill is let out unintentionally by the Guelph *Herald* when it says that "if every final count strikes off more Grits than Tories * * * Conservatives will be well satisfied." We dare say.

MR. JENKINS, editor of the Durham *Chronicle*, who announced himself as a Tory candidate for the Commons in South Grey, has been switched off the track, and Dr. Jamieson, of Durham, chosen in his stead. The change will not tend to help the opposition to Dr. Landerkin, the sitting member, who is certain to carry the riding.

HERE is another nut for protectionists to crack. Thirty years ago the population of England was half agricultural and half manufacturing; but now manufacturing employs twice as many hands as agriculture. Will the protectionists who hold that England's industrial powers are declining under free trade., explain this?

MUSKOKA and Parry Sound are now represented in the Dominion Parliament by a Conservative. At the Liberal Convention on Thursday Mr. W. B. McMurrich, of Toronto, was nominated to contest the seat in the next election. With a candidate so popular and so able the constituency will be redeemed if the Reform residents do their share of the work.

THE extent of our fishery export trade amounts to something far handsomer than we who live in the inland portion of Canada are apt to think possible. According to the Trade and Navigation returns, last year the exports of Canadian fish were as follows :

To the United States	$3,560,731
Great Britain	1,543,731
British West Indies	1,152,868
Spanish West Indies	718,956
French West Indies	130,235
South America	295,647

From this our readers may judge how largely the fishermen of Quebec and the Maritime Provinces are interested in the present disputes with the United States.

THE *Herald* maintains that it opposed the Scott Act before it was submitted to a vote here. If this is true of our contemporary all that we can say is that its opposition was of such a milk and water sort that very few knew it. *Herald* readers might fairly be excused for construing all it said against the measure to be intended to damn its cause with faint praise. But there can be no doubt about our contemporary's present position. It abandons all reserve, and gives vent to its admiration of free trade in liquor in an unmistakable fashion.

THE International Typographical Union have put their foot down on those newspapers which use stereotyped plates, by their decision to endeavour to stop the use of such plates in offices where a reduction in the number of hands will ensue. If the Union succeed in this effort their action will result in weeding out a number of papers which could not be kept up if all the type had to be set at home. It will also compel employers in some offices to divide the undue profits, which they are now reaping by reason of the use of stereotyped plates, among the printing fraternity of whom they will have to employ an additional number.

SOME of the rascalities perpetrated in connection with the transportation service in the Northwest during the late rebellion are coming to light. It may be interesting to know that while the volunteers, the sons of taxpayers of this country, were feasting on hardtack, beans and salt bacon, the country was actually paying for rations sufficient to sumptuously supply nine times the number of men then in the field. By a return recently submitted to Parliament it has been ascertained that the quantity of tea paid for as supplied to the 5,000 or 6,000 men in the field, was sufficient to supply 41,000 men for 90 days, and of bread and meat sufficient to ration 14,000 men. In order to consume the quantity of forage paid for, each horse in the field would have had to eat 233 pounds of forage per day. And as an instance of the charges made by the contractors for supplies furnished the troops, we may state that blankets were charged as high as $10 per pair; socks, $1 per pair; gloves, $2.75 per pair; and other similar articles at proportionately high prices, and these figures were the prices in one hundred pair lots. When one looks over the figures given in these reports the surprise is that the rebellion did not cost ten millions instead of four. As a sample of where the money went to we may state that one Major Bell, who was employed at the same time in the double capacity of contractor with the Government for supplies furnished by him; the firm of Bell, Lewis & Co., were paid $52,774 also for supplies, and the Qu' Appelle Farming Company, of which this same Major Bell is manager, was paid the sum of $52,774.92. This favored gentleman, who was at once a contractor and a contractors' boss under the Government, was paid himself and companies with which he was connected, the snug sum of $103,958, and his claims are not nearly all settled yet. This is only one instance. There are scores of similar cases to that of this rascal Bell.

MR. MORLEY, Chief Secretary for Ireland, is at present in Belfast investigating the origin and extent of the riots there. This time it is the Orangemen who have taken the aggressive, according to all accounts, and their action will likely result in doing great damage to the cause of the ultra-loyal unionists. About the time of the Phœnix Park murders, when Mr. Parnell predicted outrages as a consequence of coercion, he was blamed for uttering language which encouraged such assassinations. What will the Tories say, now that their leaders have almost countenanced rebellion rather than submission to Home Rule? Have their utterances done anything to inspire the Orange outrages in Relfast?

THE Dominion Government, to induce the Nova Scotians to vote against the Fielding Administration, are threatening to remove the Atlantic winter port from Halifax to St. John, N.B., should that Administration be sustained. But the Pacific Railway Syndicate, who are the masters of the Ottawa Cabinet, propose that neither Halifax nor St. John shall occupy this position long. This appears by an article in Bradstreet's stating that:—"The relations between the Boston & Lowell and Canadian Pacific Companies are cordial. Within a few months therefore the latter will have an independent line of its own from Boston to Vancouver. For some time to come Boston will thus virtually be the Atlantic terminus of the Pacific line. Portland may, perhaps, receive some share of the traffic by way of the Portland & Ogdensburg road." Just at the time when secession from the Dominion is agitating the Nova Scotians surely this is a nice way to quell it. The best thing the people of Nova Scotia can do is to sustain the Liberal Government they now possess because in a short time Canada will have a Liberal Government at Ottawa, which will be disposed to do justice to each of the Maritime Provinces and possibly to negotiate reciprocity treaties not only with the United States but with the West Indian islands. The existence of a Government at Halifax friendly to the coming Liberal Government at Ottawa will be a great step towards the settlement of such a basis of union between Canada and Nova Scotia as will induce the latter to remain within the lines of Confederation.

THE CURRENTS OF LAKE ONTARIO.—Mayor Howland, of Toronto, has received a letter from James Dick, Inspector of Hulls at Kingston: "I see that Allan Macdougal has made a discovery as regards the Lake Ontario currents. For your information I would state that the lake current is always easterly, except when a wind or gale continues for several days from the east, and at the termination of the easterly gale the lake is stronger in its eastward course. I write from long experience.

The County Council and the Scott Act.

To the Editor of the Mercury.

SIR,—In the DAILY MERCURY of the 8th a letter appeared signed "Scott Act," in which the members of the County Council are taken to task for refusing to appropriate a sum of money for the payment of a salary to the Police Magistrate, lately appointed for this county by the Ontario Government, and in dealing with the matter the writer goes on to say: "It appears, however, the members of the Council are bound to hurk the wishes of the people if possible, and they quite evidently would not have acceded to the demands of the Commissioners of Centre Wellington for an appropriation had it been possible to have done so." In reply, I may say the above is not in accordance with the facts, and the writer should not have made such an assertion. The majority of the members have shown by their private conduct and public actions that they are desirous the law should be carried out. They (the majority) never raised any objection to the granting of the demands of the Commissioners. On the contrary the efforts of a few members of the Council to have resolutions passed, the effect of which would have been to delay paying over the money, or in other words preventing the Commissioners carrying out the work of enforcing the Scott Act, was defeated by the firm stand taken by the majority, and it is to be borne in mind that $1,000 has been set apart for enforcing the Act in the Centre Riding, and if I remember correctly in the estimates laid before the Council $450 of the amount was for Magistrates' fees, and $50 for his travelling expenses, and it was thought that the aggregate for the three ridings is not likely to be less than $300 and it may be a great deal more. That, with the fines which will be collected, ought to be sufficient to do a good deal towards enforcing the Act. I would like to give the writer of that letter a little advice. It is to the effect that a great deal of harm is done to the temperance cause by injudicious talking. Many men whose inclination would be to give a helping hand, and whose sympathies are strongly on the side of temperance, are disgusted by the actions of those, who no doubt mean well, but who appear to think that nothing is done right except it is done in the way in which they order it.

JOHN I. HOBSON.

Mosboro, June 10, 1886.

A Standard Medical Work

For Young & Middle-Aged Men.

ONLY $1 BY MAIL, POSTPAID.

Illustrative Sample Free to All.

KNOW THYSELF.

A GREAT MEDICAL WORK on MANHOOD

Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. A book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is invaluable. So found by the Author, whose experience for 23 years is such as probably never before fell to the lot of any physician. 300 pages bound in beautiful French muslin, embossed covers, full gilt, guaranteed to be a finer work in every sense—mechanical, literary and professional—than any other work sold in this country for $2.50, or the money will be refunded in every instance. Price only $1 by mail, post paid. Illustrative sample free to any body. Send now. Gold medal awarded the author by the National Medical Association, to the President of which the Hon. F. A. Bissell, and associate officers of the Board the reader is respectfully referred.

The Science of Life is worth more to the young and middle aged men of this generation than all the gold mines of California and the silver mines of Nevada combined.—*S. F. Chronicle.*

The Science of Life points out the rocks and quicksands on which the constitution and hope of many a young man have been fatally wrecked.—*Manchester Mirror.*

The Science of Life is of greater value than all the medical works published in this country for the past 50 years.—*Atlanta Constitution.*

The Science of Life is a superb and masterly treatise on nervous and physical debility.—*Detroit Free Press.*

There is no member of society to whom The Science of Life will not be useful, whether youth, parent, guardian, instructor or clergyman.—*Argonaut.*

Address the Peabody Medical Institute, or Dr W. H. Parker, No. 4 Bulfinch Street, Boston, Mass., who may be consulted on all diseases requiring skill and experience. Chronic and obstinate diseases that have baffled the skill of all other physicians a specialty. Such treated successfully without an instance of failure. Mention MERCURY Guelph, Ont. m16deodwly

LADIES, READ THIS.

Better Know Nothing than Know what isn't so

Was remarked by a celebrated American humorist, and if truth was ever spoken in jest it was then, but when that *knowledge* which is not knowledge, but ignorance, is at the same time none of your business, it is then doubly important that it should be confined to the inmost recesses of one's own breast.

We are not careful to deny the wholesale charges made by a certain firm against the Dry Goods trade of Guelph. We leave it to the public to judge who is in the best position from their business experience, their knowledge of the market and their financial standing to go to the "fountain head of production," and pay cash for their goods. With these few remarks we proceed to more congenial topics.

Our Market Days.

We are sorry to tate that our Wednesday Market has not fully realized the expectation of those who were the means of having the days changed. At the same time, we see a great and growing improvement, now we have TWO market days, then we had only one (Saturday), although nominally we had three. Of course we do not expect to see the Wednesday market reach the proportion of Saturday's at a bound, but we should reasonably look for its steady growth, until it is very nearly equal in the volume of business done. We think here is a matter for both rural and city population to consider.

It must be a great advantage to our citizens to do their marketing on two days of the week rather than buying supplies to last from Saturday to Saturday. If the population of Guelph would recognize the fact that they can be supplied on Wednesday, and come out with that expectation it would be the means of bringing many farmers to the city who do not come on Saturday, because there is such an over supply that day that they cannot sell their produce. If on the other hand the farmers would bring in their produce on Wednesday, the people would soon form the habit of marketing on that day, and the supply being distributed over the week, the amount thrown on the market not being so great in one day, it would be more easily disposed of at reasonable rates.

As an inducement to bring this state of things about, we will for the next few months, offer special inducements to purchasers on Wednesday,

AT THE LION.

J. D. Williamson & Co.

PARNELL EXPLAINS.

The New Famous Interview With Carnarvon.

LONDON, June 11.—Mr. Parnell has requested the publication of the following: "I positively deny that I sought the interview with Earl Carnarvon. I also differ from the Earl as to the two conditions upon which he alleges was based the interview, namely, that he was acting entirely on his own responsibility, and that he declined to hear or say one word to the detriment of the union. Earl Carnarvon did not lay down any conditions previously. I admit that there was foundation for the condition mentioned, that is, that he hoped it was understood that he was not engaged in making any treaty or bargain. Earl Carnarvon said he sought the interview to ask my views as to a constitution for Ireland. It was soon obvious that he wished to give his own views. Replying to an inquiry in regard to the proposal to establish a central legislature founded upon county boards, I said I did not think that Ireland would accept that as a settlement, that the central body ought to be a parliament in name and in fact, having power to deal with the local government of counties. Earl Carnarvon stated that this was his own view, adding greatly to the weight of Irish opinions. He also suggested basing the Parliament at Dublin on the colonial model. His opinion upon this point struck me as being the result of much thought and study. I remarked that the protection of certain Irish industries from English and foreign competition would be absolutely necessary. The Earl replied: "I entirely agree with you but what a row there will be in England." I then left, believing that we were in complete accord upon the main outline of a plan for the settlement of the question of the Government of Ireland. I have reason to believe that the Earl impressed his views upon the Cabinet, and that many of his colleagues shared his views; also that the Earl resigned the Lord Lieutenancy of Ireland because we did not give the Conservatives a majority at the polls. I spoke at Wicklow and acted during the elections under the impression that I had gained from that interview.

Mr. Chamberlain's electoral manifesto was made public this evening. It declares that the Government's Irish proposals have been condemned in advance by every Liberal statesman of the country. "What the Liberal leaders last November solemnly and seriously declared unsafe," continues the manifesto, "the Premier has now undertaken." The Irish landlords, of all the classes affected, are alone subjected to exceptional consideration. Englishmen are told that the act of union was due to shameful corruption. It is to be hoped that the act of separation is not to be purchased by the most gigantic bribe ever offered to the opponents of any legislation. The alternative proposals increase the number of occupying owners of land, establish a complete system of popular local government alike in its main features for England, Scotland, Ireland and Wales, enabling each to exercise greater influence in its local administration and in legislation for the special needs and requirements, with the Imperial Parliament supreme over all. This will satisfy the national aspirations of England and Scotland. Ireland's national aspirations are not stronger nor are they entitled to more sympathy.

The House of Commons has agreed to give Government business precedence during the remainder of the session.

Mr. Gladstone, in answer to a request for a more explicit statement concerning the reassembling of Parliament, said:—"I wish to restate clearly what I said yesterday respecting the reassembling of Parliament. If when the elections are over it be found that the country does not approve of the policy of the Government respecting the future government of Ireland, or if there remains room for doubt on the question, then the new Parliament will be assembled forthwith.

The Midlothian Unionists sent a deputation to wait on the Marquis of Hartington to-day to ask him to assist them in putting forward a Unionist to oppose Mr. Gladstone in the coming slection. Lord Hartington replied that he would rather see the Liberal Union split than harass the Premier.

At a meeting at Islington to-day of the Liberal Council, Richard Chamberlain, member for Islington, amid a storm of hisses explained his reasons for voting against Mr. Gladstone's Home Rule Bill. A resolution was carried by a vote of 175 to 50, pledging the council not to support Mr. Chamberlain at the next election. The announcement of this result was cheered vociferously. Mr. Chamberlain drove away from the meeting amid the groans and hisses of the crowd.

The South Birmingham Liberals held a largely attended meeting to-day and passed a vote of confidence in Mr. Gladstone and resolutions of sympathy with Mr. Parnell. The speakers condemned five of the Birmingham members for opposing Mr. Gladstone, but advised that none of them be opposed in the coming elections unless Messrs. Broadhurst and Cooke enter the canvass.

THE BELFAST RIOTS.

Mr. Morley Investigating their Origin.

LONDON, June 11.—Mr. Gladstone was asked in the House of Commons this evening by Mr. Johnston, of Ballykilbeg, if it was true, as reported, that the Earl of Aberdeen, the Irish Viceroy, during his recent visit to Cork had knelt at the altar of the Catholic Cathedral in that city. Mr. Gladstone replied that if the Earl of Aberdeen had done the kneeling of which he was accused he (Mr. Gladstone) was not aware of it. He added: "We must decline to institute an inquiry into such a question. It lights the fire of religious discord. I can say, however, that I have never known a better Christian nor a more perfect Protestant than the Earl of Aberdeen."

Major Saunderson (Conservative) asked whether a sworn inquiry would be held concerning the causes of the Belfast riots. Mr. Gladstone answered that Mr. Morley, Chief Secretary for Ireland, was at present in Dublin for the purpose of instituting an inquiry into those grave occurrences.

Thomas Sexton asked: "Are the Government possessed of any advices showing that Orangemen commenced the Belfast rioting?"

Mr. Childers, Home Secretary, replied that the only telegram received from Mr. Morley were those stating that no fatal results had ensued, when he telegraphed, from the rioting of last night, that but one policeman had been reported shot, and that there were now 1600 constables and 250 soldiers at Belfast. The taverns in Belfast, Mr. Childers said, would be closed in the evening during the excitement and orders had been given to prevent assemblages in the streets.

Horsford's Acid Phosphate.

As a Brain Food.

Dr. F. S. Newcomer, Greenfield, O., says: "In cases of general debility, and torpor of mind and body, it does exceedingly well."

According to the latest reports, the fire insurance companies doing business in the British metropolis have at risk in that city more than $3,700,000,000.

RYAN, BERKINSHAW & CO.

DESIRE to thank the Public for their princely patronage since taking over the Dry Goods business of MESSRS. JOHN HOGG & SON.

We are pleased to know that the public are appreciating our efforts to furnish them with *Good Honest Reliable Goods* at *Moderate Prices*. We do not say that we sell without a profit, nor do we say that we sell at a less profit than other Houses, although our prices in many cases have been less. Profits to-day are not any higher than they ought to be, but the trouble with a great many Houses, is, that they are not in a position to buy right, and the result is, when they mark their goods with only the ordinary profit added they are then too high. Men to-day, to make the Dry Goods Business a success, must reach (as near as possible) the fountain head of production. Yes, and have the money when they get there, for the old way of buying on four and six months, and then renewing the paper, is but a shorter way to failure. The time is fast approaching when to make a success of the Dry Goods trade men must pay cash or buy on very short time, know where to buy, and as well thoroughly understand every line of goods they handle. Our facilities to-day are such as to enable us to sell *Good Honest Reliable Goods* under ordinary Houses, and then make as much profit. Being Direct Importers we save the middle man's profit, and as well in almost every case we have paid *Spot Cash* for our Goods, not even taking thirty days. By so doing we have made a large saving in the way of discounts, which puts us in a position to sell our goods just that much less than the man who is compelled to take time and lose the discount, and then another advantage we have over some other merchants, is that we do not own the store that we occupy, as we find it a profit to us to allow someone else to own the building, and we pay them about 4 per cent. on the money invested rather than have the place in our name with a large amount borrowed on it at 6 or 7 per cent. Now notwithstanding the fact that some Houses in the trade have talked loud about the amount they have imported this spring, we are in possession of information which enables us to know for a fact, that not more than five cases of goods have been imported from England, Ireland or Scotland this spring, by any other House in Guelph, not even by the House that has talked so much about "Importing," "Paying Cash," and a lot of other nonsense. While our importations have been moderately large this spring (about five times as much as all the other Houses combined), yet it is a small amount compared with what it will be this fall. Our Mr. Ryan will leave for the English Market by the "Aurania," July 10th, from New York.

Canadian.

Rev. Father Augustin Simeon Campion, one of the most esteemed clergymen of the Grand Seminary of Notre Dame, died at Montreal on Thursday evening.

Several arrests of suspected incendiaries have been made in connection with the destructive fire at Rat Portage on Wednesday.

It will be three months yet before the Canadian Pacific telegraph system along the North Shore is opened.

A movement is on foot in Toronto to get the retail dry goods and clothing stores to close at two o'clock on Saturday afternoon during the summer months. All but one or two of the employers have agreed to the proposal.

The Roman Catholic See of Montreal has been erected into an arch-diocese, Mgr. Fabre being elevated to the position of archbishop.

The K. of L. shoemakers of the United States and Canada have adopted a distinctive label for their shoes.

The C. P. R. management is said to be meditating starting an Atlantic steamship line.

The Commission of civil engineers appointed by the Dominion Government to investigate the periodical floods at Montreal, are actively engaged collecting data to enable them to suggest a remedy.

A Western firm guarantee a wife to every man who purchases of them a suit of clothes. What this country needs is somebody to guarantee a suit of clothes to every man who gets a wife.

There are lots of people who mix their religion with business, but forget to stir it up well. The business invariably rises to the top as a result.

The following are specimens of "English as she is wrote" in the Montreal Health Department:—You are hereby notified and required to drain off or cause said cellar to be drained off, to prevent all deleterious exhalations arising from the aforesaid water. You are hereby notified to prevent the excretion (*sic*) from sojourning under the floor.

The London aldermen this year seem to be anything but a happy family. At the last meeting of the Council one of them charged a brother representative with stealing corporation earth. The accused produced a receipt showing that he had paid $15 for 300 loads, and the accuser then denied the right of the corporation to sell the earth, and the accused intimated that his critic was a side-show dwarf.

Special value in Parasols and Silk Umbrellas, at BOLLERT's, 27 Lower Wyndham st. d2

Triplets Twice in About a Year

A little more than a year ago we recorded the fact that Mrs. George Poore, of West Newbury, gave birth to triplets—two boys and a girl. The girl lived but a short time after birth, and the boys grew healthy and strong and are alive to-day. Now we have the pleasure of recording an exact repetition of the circumstance. This week triplets were again born to them—two boys and a girl. The girl breathed a short time and died; the boys are as strong as infants at that age can be expected. The mother is doing well with her four boys, the eldest of which is but a trifle over a year.—*Georgetown (Mass.) Advocate.*

Justus H. Schwab, a New York socialist leader, has been arrested and held for trial charged with selling liquor without a license.

Dun & Co. report a total of 209 failures throughout the country during the past week, 22 more than the week previous. Twenty-nine of the number were in Canada, two more than in the previous week.

Special Saturday Sale of Ladies Silk and Lisle Gloves, at BOLLERT's, 27 Lower Wyndham st. d2

Ice Fields.

The amount of ice in the Atlantic at present is unusually great. Fields of ice more than two hundred miles wide have frequently been reported by vessels in the neighborhood of Newfoundland, and a large number of British steamers have been damaged from contact with icebergs. One steamer, the Miranda, reports having met 113 icebergs between Cape Race and Cape St. Mary's, and many of these were very large. An unusually large number of wrecks are reported between 30 degrees and 40 degrees north lattitude, comparatively near the shore, and of the danger to navigation caused by the mackerel fleet working north along the line of steamers going up and down the coast.

Special Saturday Sales of Ladies and Children's Hosiery, at BOLLERT's, 27 Lower Wyndham st. d2

Reasons why you should purchase Fluid Lightning in preference to all other remedies are: Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. ALLEN'S LUNG BALSAM

COLDS, COUGHS, CONSUMPTION, BRONCHITIS, CROUP. THE BEST REMEDY FOR CURING

THE remedy for curing Coughs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. *No better remedy for Whooping Cough can be found.*

CAUTION.—Don't experiment with new and untried medicines, but always keep on hand this safe and sure remedy,—**Allen's Lung Balsam.**

MOTHERS, have you delicate, weakly children, who are always TAKING COLD, and subject to CROUP? Remember, there never was a case of CROUP which did not originate in a COLD.

ALLEN'S LUNG BALSAM IS YOUR REMEDY.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know many valuable lives have been saved by being persuaded to give it a trial.

DO NOT DESPAIR because all other remedies have failed, but try this remedy, and you will not be deceived. *It will cure when all others fail.*

Allen's Lung Balsam is now put up in Three Sizes, Price 25c., 50c., and $1 per Bottle. The 25c. bottles are put up for the accommodation of all who desire simply a Cough or Croup remedy. Those desiring a remedy for Consumption or any Lung Disease should secure the Large $1 Bottles.

Sold by all Medicine Dealers.

BEWARE
OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name
'CROMPTON CORSET CO.'
is stamped on inner side of all Coraline goods, Without which none are genuine.

AN illustration of how the London newspapers were deceiving themselves in imagining that their opposition to Mr. Gladstone's Home Rule Bill reflected public opinion, has been shown by the experience of the *Weekly Despatch*. This journal carried away by its fervour for Mr. Chamberlain opposed the Home Rule Bill tooth and nail. Several of its readers remonstrated; but the *Despatch* represented their objections as exceptional. A controversy arose and *The Despatch* to settle the matter took a plebiscite of its readers on this question, "Do you favor Mr. Gladstone's bill as introduced?" The form of the question was objectionable because there are thousands who favored it now, not as introduced, but as it was promised to be amended in committee to provide for continued Irish representation at Westminter. The question was put in this narrow form by *The Despatch* probably to win the verdict most favorable to its own attitude. To its astonishment, however, the plebiscite resulted in five votes favorable to the bill as introduced to one against. The circulation of that journal is a quarter of a million and its readers probably a million; and this vote may be taken as fairly reflecting the opinion of the working classes among whom it circulates upon the question of Irish Home Rule. *The Despatch* within a week after taking the plebiscite changed front and supported the second reading of the bill.

Terrible Death of a Child.

BUFFALO, N. Y., June 12.—The little three-year-old daughter of Mr. Leach, of London, Ont., last night ran out on the street and before she could be brought back was struck by a street car and run over. Her brains were crushed out on the track and she died instantly.

Fell From a Roof.

PARIS, Ont., June 13.—Charles Rider, while helping to shingle Mr. Dean's barn, near this town, yesterday afternoon, fell from the roof, and died in a few minutes' afterwards from the injuries received. He leaves a wife and two children.

Three Hundred Icebergs.

ST. JOHN'S, N. F., June 12.—The steamer "St. Joseph" from Liverpool, which has just arrived, brought the crew of the schooner, "Mary Queen of the Seas," which was lost on May 3 in the middle of the Atlantic. The captain of the "St. Joseph" reports some 300 icebergs east of the Great Banks.

BIRTHS.

POWELL.—In Guelph, on the 9th June, the wife of W. S. Powell, of a daughter.

Local News.

THE Board of Education meet to-night.

THE thermometer at noon to-day registered 83° in the shade.

YESTERDAY was acknowledged one of the hottest days so far this season.

THE new passenger time table on the main line of the G. T. R. came into force to-day.

THE Sunday School picnic season is approaching and is looked forward to with expectancy by the scholars.

A BULL dog fight for $25 a side is reported to have taken place in the South Ward on Saturday night.

MR. JAS. E. MEYER, of Kossuth, left on Saturday for a two months' trip to Britain. He sailed in the "Vancouver" of the Dominion Line.

THE Rev. Mr. Hamilton, of Winterbourne, preached two very acceptable sermons in St. Andrew's church, morning and evening, yesterday.

THE Rev. J. W. Totten, Markham, and the Rev. J. W. Cooley preached in the 1st Methodist church, the former in the morning and the latter in the evening.

UNLESS some attention is paid to the sidewalk on Suffolk street, it is probable that the corporation will be called upon to pay more for damages than would build a new sidewalk from end to end.

ON Sunday a number of young men were seen walking along the G. T. R. track equipped for a fishing expedition. This sort of thing is getting to be too common and the sooner it is put a stop to the better.

ON Sunday night two young men apparently the worse of liquor were seen walking on the G. T. R., coming from the direction of the freight sheds, singing ribald songs, much to the disgust of the people who live along the line of railway.

A VERY pleasant time was spent by the Eramosa picnic party at Puslinch Lake on Saturday. Dancing, quoits, croquet, swinging and other amusements was the programme of the day. The party passed through the city on ther way home about 9 o'clock well pleased with the day's outing.

ABOUT ADVERTISING.—The Berlin *News* pays the following compliment to the enterprise of Guelph business men:—"The Guelph dry goods men are evidently men of literary ability as well as experts in their business. The way they have of putting things shows a great deal of study as well as taste. To be a successful business man, in nine cases out of ten, it is necessary to be a good advertiser. And to be a good advertiser it is necessary to be intelligent, observing, well informed and especially wide awake.

THE APPLE TREE BORER.—June is the time when you may expect to see the apple tree borer set up his carpenter shop in the orchard. This mechanic you do not want. Build small fires of shavings, brush and rubbish in different parts of the orchard on some of these summer evenings and cremate the inquisitive chap. The borer also objects to cleanliness. Wash the bodies of the trees, especially near the ground, with soft soap and water—all the better if hot—or with reasonable strong lye—all the better if salt or saltpeter is mixed with it—and thus prevent the borer from depositing its eggs. The beetle is not quite an inch long, striped brown and white. Look out for the fellow!

GRASS WIDOWERS.—The gallantry of the Berlin *News* man is proverbial. Those who are acquainted with him could easily understand his taking under his sheltering wing a dozen or even more grass widows, but what in creation he has to do with a dozen grass widowers is a problem which he only can solve. This is what he says: There are at present about a dozen grass widowers in town, and we can hardly say that they are having a heavenly time. From what we hear we think it high time that some of these absent better halves had better be called home, and if any of them should receive this paper and see this item, why, well, they will have to do what they think is best.

FAREWELL SERMON.—Rev. J. H. Carson preached his farewell sermon in Dublin Street Church on Sunday evening before a large audience, who listened very attentively to an excellent discourse, notwithstanding the very warm atmosphere. The music by the choir was in keeping with the occasion, singing during the offertory "Shall We Meet," and as the congregation dispersed, "We'll all Gather Home in the Morning." During the rev. gentleman's stay in this city a host of friends, more especially among the young people, have become attached to him, and although the occasion of the sermon was not publicly announced until a few hours before, the congregation was largely made up of that class of people. Mr. Carson goes to Stratford to be the minister of the Second Church in that place, where his abilities will no doubt make him as highly popular as he was in Guelph. This evening a farewell social will be given in the Dublin Street Church, and a pleasant time may be anticipated.

THE AGRICULTURAL COLLEGE.—The London *Advertiser* says:—The Provincial Government has done the country a good service by the interest that it has taken in agriculture, and by the energy and industry it has exhibited in improving the Agricultural College, and make it in every way worthy of the confidence of the Ontario farmers. The Government a few years ago appointed a Commission that collected a vast amount of information which has been in the highest degree serviceable to those engaged in agriculture. A new stimulus was given to farming and to fruit-growing in Ontario by that commission. Since then farmers' institutes have been established, which are proving of immense value to the agricultural population. Ontario is eminently an agricultural Province, the soil is fertile and the climate healthy, and there is no reason why it should not become one of the most densely populated and prosperous portions of the North American continent.

Invisible but Instantaneous.

All pains or aches will be instantly removed by a few drops of Fluid Lightning applied over the affected parts. No time lost; no nauseous medicines needed; no poulticing or using greasy liniments. It will not blister or discolor the skin. Sold at 25c per bottle by Thos. S Petrie, Druggist. Sufferers from Neuralgia assure us that they never fear it when their house contains a bottle of Fluid Lightning.

FAREWELL social to the Rev. J. H. Carson in the Dublin street Methodist Church to-night.

A FULL meeting of the City Band is requested this evening. Practice and important business. d1

THE Salvation Army Band, and a detachment of soldiers, went to Fergus yesterday to open out a new station.

For refrigerators, wire dish-covers, wire cloth, hose, sprinklers, mangles or fishing tackle, call on John M. Bond & Co., Guelph.

MR. W. LAING shipped to-day 54 head of cattle for Messrs. Knox & Gould, Oshawa, at an average price of a little over 5 cents per pound, live weight.

THE other cases against the members of Manchester Unity, for selling liquor on the Exhibition grounds, on Queen's Birthday, will likely come up on the 17th.

A MEETING of the South Wellington Agricultural Society was held in the Commercial Hotel, on Saturday afternoon, in connection with some minor matters, which were settled in about ten minutes.

MR. WM. HEFFERNAN, confidential Clerk for Messrs. Hooper & Smith, wholesale boot manufacturers, Montreal, arrived in the city on Saturday and spent Sunday with his relations in town. He left for home this morning.

THE MIRACLE OF THE ROSES.—The delightful entertainment given last Thursday in the Church of Our Lady by the pupils of the Loretto Academy, is to be repeated tomorrow evening. [No tickets will be issued, but the admission fee will be received at the door. The City Band will add to the attractions of the evening. The doors will be opened at 7 o'clock. The concert will begin at eight o'clock. Admission 50 cents; children 25 cents.

REDUCED RATE OF GAS.—As will be seen by advertisement elsewhere the Directors of the Guelph Gas Company, from the 1st of July, will reduce the rate per 1000 feet, to $2.50, subject to a discount of 50 per cent for prompt payment, meters to be furnished free of charge. A special extra rate of discount will be allowed for gas consumed for stoves during the summer. In making these reductions the company are of the opinion that gas will be more freely used in private houses than heretofore, which will cause an extra increase of custom which may warrant a still further reduction.

THE CHILDREN'S DAY.—The Sabbath School teachers and others in connection with Knox church, have introduced a new and pleasing feature in connection with the Sabbath School, which is known as the "children's day," and will be celebrated annually. It has been the custom in the northern States for some time past, to set apart, once a year, a church service for the Sabbath School scholars, when special addresses, taking the place of the regular service, were delivered to them. These services have become so popular that they are spreading over the land, and are considered instrumental in interesting the children, the parents and the public in Sabbath School work. Yesterday forenoon each scholar brought a bouquet of flowers in their hand, which were placed in receptacles on the pulpit and pulpit platform. The effect was at once pleasing and attractive. The Sabbath School Scholars assembled in the centre of the church, when short and suitable addresses were delivered by Mr. Wm. Anderson, Dr. McGuire and the Rev. Mr. Dewey. There was a large congregation present. This morning the flowers which decorated the church were sent to the General Hospital, for which the directors of that institution return their thanks.

A Brakeman Killed.

BROOKLYN, Ont. June 12.—As a ballasting train on the Midland Railway was shunting on a siding a brakeman named Smith in operating the brake twisted the wheel off and was thrown backwards between the cars. Both legs were cut and mangled dreadfully, and were amputated, but in a few minutes after the operation Smith died. His parents live in Lindsay.

THREE names which are a synomym for perfection in designing, modeling and constructive ability in their respective lines, Miss Todd, Dressmaker at the Lion. Miss Marriott, Milliner at the Lion. Mr. McKenzie, Cutter at the Lion.

Sporting Notes.

CRICKET.

GUELPH VS. GALT.

On Saturday the Guelph Cricket Club suffered their third defeat this season, being worsted by the Galt club on the 1st innings by 12 runs. The visitors drove up from Galt, arriving early. It was a most magnificient cricket day, and Martin had a beautiful crease, though as on the University match it was all in favor of the batters. There was quite a large number of spectators on the grounds, and if the Royal City club will attend to one or two things it will make it more interesting to the onlookers. First, if the wickets are to be pitched at ten, let us have them pitched at that hour, or nearly so, not at 11.30, an hour and a half late. The visitors in the first innings out-bowled, out-fielded and out-batted the home team, and before the next match we hope that a few afternoons in fielding will be indulged in. Some easy catches were missed and the Galt team were lucky, as they never should have got above the half century. The visitors won the toss, and elected to bat, sending Lewis and McMeachen to the wickets, Martin and Fitzgerald bowling for the home team. Both were bowled by Martin, Lewis for a duck egg, McMeachen for 4. Logan and Simpson made a good stand, scoring 32 and 31 runs respectively, Logan's 2 threes, 5 twos and 14 ones was made up of careful play. Simpson as of yore gave a good display of cricket, a drive over the horse sheds for a six, a leg hit for a four, 3 threes, 4 twos, the rest in ones. Strong made 10 runs, the extras, byes 14, making the total 104.

Guelph sent Lockwood and Finlay to the bat, Simpson and Logan bowling. Each made a fine display of cricket and played very carefully, runs coming in slow. Lockwood's 29 before being bowled by Logan, comprised 4 threes, 3 twos, and 11 ones. Finlay's 25 was made up of a six through Curzon stopping the ball with his hat, 1 three, 6 twos, balance in ones. Fitzgerald added 23 runs to the score, 1 four, 3 threes, 3 twos, rest in ones, the others went out in one, two, three order, the total being 92. The bowling was good, Logan and Simpson bowling all through the innings. Logan has 8 wickets to his credit for 89 runs. The Guelph bowling in the first innings was, Martin 3 wickets for 29 runs, and Henry 4 wickets for 22 runs.

Galt followed on the 2nd innings scoring 89, Curzon's 53 being a well played innings.

Lockwood and Guthrie went to the bat to the same bowlers who bowled the first innings. Lockwood made not out 23, and Guthrie for Guelph 30, one wicket for 54 runs, when time was called. If the match had been started at 10 a. m. as stated in the news-papers, 2 innings would have been played, and we have not the least doubt Guelph would have come off victorious.
