TENTH YEAR. THURSDAY MORNING, OCTOBER 24, 1889. PRICE ONE CENT.

A JURY SAY IT WAS MURDER

THE CORONER'S ENQUIRY INTO MIKE BIRTLE'S DEATH.

At One o'Clock This Morning the Jury Unanimously Agree That Louis Deas Wilfully Shot His Man Intending to Kill Him.

Dr. Johnson, county coroner, held an inquest last night into the circumstances connected with the death of Michael Birtle, who is alleged to have been shot by Louis Deas, in Elizabeth-street, on the 26th September last. The proceedings began at 8 o'clock and lasted till after midnight. County Attorney Badgerow was present on behalf of the Crown, and the prisoner Louis Deas' interests were looked after by lawyer W. G. Murdoch.

Mrs. O'Reilly, residing at 367 Queen-street east, stated that on Thursday, Sept. 26, the prisoner, Louis Deas, went to her door, at 20 Elizabeth-street, about midnight and said that Mike wanted Eva Carnie, his niece, that she said "all right" she would tell her in the morning, that five minutes afterwards Deas returned and asked for Eva again; that Eva went out with witness' daughter, Annie Reilly, that witness went to the side door of the house and Annie and Eva and Mr. Wilson and deceased were all there. She told Annie and Eva to go into the house and they went on the stairs. Mike wanted Eva to go home, and he went up four steps of the stairs, then Deas ran down and kicked the deceased. Mike asked what he had done to him. Deas said nothing but rushed up stairs and got a revolver. Witness was behind Mike and the next thing she heard was a shot fired from the stairs, higher up than where the deceased stood; the shot hit deceased and he fell down. Wilson then went out for a policeman, and witness began crying. The policeman took Mr. Deas into custody. Witness occupied two upstairs back rooms in the house—rented from Mr. Deas.

In answer to County Crown Attorney Badgerow, witness said she was standing at the foot of the stairs when the shot was fired. After firing the shot she saw Mike go upstairs. Deas said to Birtle before he went on the stairs, "Don't come up." When Mike was shot he was not actually going up—he had stumbled—did not want to go up. The deceased when he started said he wanted to go to Mr. Deas' door.

Witness, in reply to Mr. Murdoch, said she left Elizabeth-street about five days after the shooting affray. At that time she was washing at the Dundas Laundry. Her daughter Annie would be sixteen next April. Eva Carnie was about the same age. She knew as a fact that the deceased was an uncle to Eva. She knew that he became Michael Birtle was Mary Ann Carnie's brother. She would swear that she did not say to Deas when he said Michael wanted Eva that it was too late—he had better go away. She did not invite Birtle into her room that night. Deas' wife and children were at this time upstairs in bed in their own room.

Dr. R. B. Nevitt, member of the General Hospital staff, stated that the deceased went under his care on Sept. 26. He was in an unconscious state and suffering from a wound in the head, evidently caused by a bullet striking him on the left side of the nose. The wound was bleeding freely.

In reply to Mr. Murdoch witness said that Dr. Reeve and several other members of the Hospital staff saw the deceased, who underwent an operation. The staff did not succeed in removing the bullet.

Dr. Cameron reported to having been present and taking part in the operation performed.

Dr. Reeve, a member of the hospital staff, said he removed the left eye of the deceased. The bullet wound was in the left side of the bridge of the nose.

Dr. W. H. B. Aikins presented a report of the post mortem examination of the deceased, and described the nature of the injuries caused by the bullet. The post mortem examination took place on the morning of the 18th Oct., the day after the deceased expired from the effects of the bullet wound.

Annie O'Reilly, daughter of Mrs. O'Reilly, deposed that on the night of the shooting Deas knocked at her door and said Michael Birtle was downstairs and wanted to see his niece. She and Eva went downstairs, and the latter arranged to go home with her uncle. While waiting she saw deceased Mike went on the stairs and Deas told him to go home, and then went downstairs and kicked him twice or three times and kicked witness. Deceased called out, "Hold on, Deas, I did not do anything to you." Deas went upstairs. Shortly afterwards she heard a shot fired and deceased fell. They wanted to carry deceased into Deas' room but Deas would not let them.

Examined by Mr. Murdoch: She had her arm around Michael when Deas kicked him the first time. She did not hear Deas say to Michael, "You ought to be ashamed of yourself." Witness was alone with Birtle on the stairs, her mother was outside the door, and Eva was upstairs dressing. She was partly dressed at the time.

Eva Carnie gave corroborative testimony, stating that Deas was displeased at Birtle going there so late at night.

Joseph Wilson, residing in York-street, a man who has been in Toronto for 3 years and does any sort of work, stated that he was at the house in Elizabeth-street where Birtle was shot on the evening in question. He confirmed the evidence of previous witnesses as to Birtle having asked Deas to tell Eva to come out. Birtle stepped inside to stop the door from being closed, and was ordered out by Deas. The deceased refused to go. Then followed the kick and shooting.

Mr. Murdoch: What was your object in going to 20 Elizabeth-street that night?

Witness: I was on my way home.

Mr. Murdoch: Why did you go up to Elizabeth-street when you lived in York-street?

Witness: Perhaps for curiosity, as I had nothing else to do. I went with Birtle.

Mr. Murdoch: Now, did you not go there that night to see Eva Carnie?

Witness: I did—I went with Mike.

Mr. Murdoch: And Mike went to see Annie O'Reilly?

Witness: He wanted to talk to Eva but he saw Annie.

Police Constable Johnson stated that on the morning of Sept. 27 he heard a pistol shot fired and women scream. He saw that Birtle had been shot—bleeding from a wound in the head—and afterwards arrested Deas. He found as the result of search a revolver in a trunk in Deas' room with one chamber empty. Before he was arrested prisoner said that Birtle was forcing into the house and that he had told him to go out and he would not.

The Coroner, in summing up the evidence, explained that Deas having let the upstairs room to Mrs. O'Reilly had no right to regard any one who visited her in the light of an intruder and there was no justification for his having used fire arms.

The jury after an absence of ten minutes returned with a verdict to the effect that Louis Deas shot Birtle with intent to do him grievous bodily harm.

The Coroner declined to accept that finding, pointing out that the province of the jury was to return a verdict as to the cause of death.

The jury then deliberated until 1 o'clock in the morning. The foreman then announced that they had agreed upon the following verdict: "That Michael Birtle came to his death on the 17th October last, in the city of Toronto, from the effects of a pistol bullet striking him; and that the bullet was fired from a pistol in the hands of Louis Deas, and the jurors do say that Louis Deas did feloniously, wilfully and unlawfully kill and slay Michael Birtle in the manner aforesaid."

The prisoner, Louis Deas, was then removed in custody.

Ladies' Fur Capes.

For those chilly early autumn days there is no article of fur so useful or comfortable for a lady to wear as a large fur cape. W. & D. Dineen, the furriers on corner King and Yonge-streets, have a great display of all those useful articles in beaver, otter, sable, seal and other less costly kinds. Dineen has also several new shapes of large storm collars in every kind of fur that is fashionable. Ladies should drop in and examine.

VERDICT OF MANSLAUGHTER.

Returned by the Jury Against the Street Car Conductor and Driver.

Timothy Fogarty, who was at the Assizes on Monday convicted of assaulting and causing grevious bodily harm to a plumber named Theakston, was yesterday bound over in his own recognizances by acting Judge Æmilius Irving to appear for sentence when called upon. His Lordship took into consideration the strong recommendation to mercy with which the jury accompanied their verdict.

Frank Kane and John Gilroy were found guilty of manslaughter at the Criminal Assizes yesterday by the jury who tried them for causing the death of the little boy named Harry Flood. The greater part of the day was occupied with the evidence for the defence; which went to show the collision between the street car and Mr. Cotts' coal cart in the Queen-street subway. Mr. Murphy and Mr. Murdoch in their addresses reviewed the evidence at great length and contended that there was no case against their clients. Mr. Crute on the other hand submitted that through the criminal negligence of the prisoners the boy's death had been caused. He told the jury that they had nothing to do with the fact of whether Cotts had been guilty of contributory negligence in not getting out of the way of the car. The jury shortly after 6 o'clock retired to consider their verdict, and it was 11 o'clock before they agreed upon their verdict of guilty, which they accompanied with a strong recommendation to mercy. The prisoners were remanded for sentence.

VICTORIA UNIVERSITY.

Can Peace be Had by Compromising Principle?

This is the question to be debated this afternoon in the Metropolitan Church by those ministers and laymen who have received the following circular:

DEAR SIR: The munificent bequest of $200,000 to Victoria University by the late William Gooderham, Esq., untrammelled by any condition, except removal to Toronto and the erection of suitable buildings there, encourages the hope that a perfect union of the friends of the university may now be realized. Deeply regretting that the church has not of late been united on its educational policy respecting that institution, and especially that the question has not been settled without being carried into the civil courts, it has been decided to hold a meeting in the parlors of the Metropolitan Church, Toronto, on Thursday, Oct. 24, at 3 p.m., in the hope of being able to arrive at a conclusion and a course of action in harmony with the provisions of Mr. Gooderham's will which will end all litigation and on which the whole church may unite.

It will be essential to know what financial support would be forthcoming to secure the undoubted success of any plan which may be agreed upon.

If you approve of the object of the meeting, please come prepared to say what you would undertake to give towards such a scheme, and to state what amount you would contribute. If you cannot attend, will you kindly put yourself in communication with us, and consider the best line of action to be adopted under the present altered circumstances, and also indicate what sum you would contribute, and on what terms, to place the college in a position of efficiency, in the event of such a plan being generally adopted.

Rev. Dr. Judson's Evangelistic Mission.

Gratifying results are attending the evangelistic efforts of Pastor Harris and Rev. Dr. Judson at the Walmer-road Baptist Church. The attendance of the residents in the neighborhood has been gratifying and the interest excited by the mission is increasing.

Last night Dr. Judson's topic was "Sentiment in Religion." He is outspoken against sensationalism and sickly sentimentality in connection with the Church of God. Nor does he believe in the loud profession devoid of charity, the commingling of the things of Cæsar and of God, nor the Pharisaic boast and sectarian bigotry which cry, "The Temple of the Lord are we."

The Doctor founded his earnest appeals and manly remarks on the "steadfast looking" of Christ's disciples towards Heaven and the angelic announcement that "this same Jesus" is to come again "in like manner" as he went into Heaven, as recorded in Acts i, 10, 11.

At the close of Tuesday's and last night's addresses many were glad to be "taught the way of God more perfectly," and there were professions of conversion, whilst others desired to cleave to the Lord with full purpose of heart.

Yesterday morning Dr. Judson addressed the 100 students of Moulton Ladies' College, Bloor-street east. Mrs. William McMaster, the foundress of the institution, was present and also Rev. Elmore Harris. This morning at 10.30 the Doctor will give a similar address to the students at McMaster Hall. He will preach in the Walmer-road church to-night and on Friday.

THE GREAT MYSTERY MAN.

GLADSTONE'S SPEECH BRIEF AND DISAPPOINTING.

He Reviews the Work of the Liberal Party and Discusses Irish Grievances—No Light on the Hawarden Conference or the Liberal Policy—General Cable News.

LONDON, Oct. 23.—Mr. Gladstone delivered an address at Southport this evening. He was enthusiastically welcomed—the hall being crowded two hours before the opening of the meeting. Mr. Gladstone reviewed the work of the Liberal party during the past twenty-one years. He paid a tribute to the laudable anxiety of the powers to postpone a European crusade. He referred to the Cretan question as a formidable menace to the peace of Europe. He criticised at length the Government's work and claimed that all its useful measures were Liberal. The speech was short and disappointing.

Mr. Gladstone made a point by declaring that the principles of the dock strikes, applied to tenants and tradesmen in Ireland, would have been penal. He was touched by the election gains and believed that if they could end the Septennial Act and appeal to the people to-morrow the verdict would be in favor of the Liberals and justice to Ireland. The bulk of the speech was devoted to Irish grievances. He said the necessity of the continued proclaiming of new districts was evidence of the failure of the coercion policy and declared that the crime rate was now the same as in 1884 when in order to secure the support of the Parnellites the Tories declared that coercion was not longer necessary.

Mr. Gladstone said he was unable to lay before his hearers a scheme of Liberal policy for the future beyond the outlines already well known.

The Triple Alliance and the Porte.

PARIS, Oct. 23.—The Journal des Debats, commenting on the visit of Emperor William to Turkey and its effects upon the European situation, recalls the declaration made by Prince Bismarck that the Eastern question was not worth the bones of a single Pomeranian grenadier and the fact that Emperor William during the banquet to the Czar on his late visit to Berlin toasted the Russian army of which event alone, says The Journal points out that under these circumstances it would be impossible for the Sultan to join the triple alliance. It also says that Turkey has an army which enables her to dispense with allies. Nothing causes Turkey, whose security is best assured by her independence, French interests in the east are bound up with the interests of Turkey, and consequently there is no more decided partisan of the integrity of Turkey than France.

The Strongest Bulwark of Peace.

BERLIN, Oct. 23.—The papers here applaud Emperor William's speech opening the Reichstag, and declare that it furnishes evidence of the peaceful tendency of Germany and her allies. The Kreuzzeitung says the additional German armaments caused by the military preparations of her neighbors guarantee the peace of the world afresh. The united strength of the allies constitutes the strongest bulwark of peace, which will be made more secure by recent personal meetings between Emperor William and the other rulers.

The Steamer Quinte Burnt Near Deseronto—The Passengers Saved.

DESERONTO, Oct. 23.—The steamer Quinte was burned about 3 miles from Deseronto on her way to Picton, about 6 o'clock this evening. Four lives lost: Captain Christie's mother, young brother Charles, the ladies' maid and a young man named Davern of Trenton.

As far as can be ascertained the passengers were all saved. Three or four have severe burns but the doctors report none seriously injured. Many were chilled by being in the water.

All the survivors have been brought to Deseronto and are being properly cared for.

The fire it is supposed started in the furnace room and spread quickly to the whole boat. The Captain ran her ashore only a short distance away, where she lies almost entirely destroyed.

All the freight, baggage, etc., were destroyed.

A WAR OF EXTERMINATION.

The Howard and Turner Factions Fight a Pitched Battle in Kentucky.

LOUISVILLE, Oct. 23.—An engagement has occurred between the Howard and Turner factions near Harlan Court House. James Deane of Howard's party was killed and five others were wounded. Three of the Turner crowd were wounded.

A correspondent at Pineville telegraphs as follows: Wilson Howard and one of his principal henchmen named Jennings are among the wounded and it is said Howard's wounds are mortal. Reinforcements have been in possession of the town for more than a week. Their leader is John Turner, aged 17. Howard's forces have been in camp one mile from town. There are about forty men in each crowd, all equipped with Winchesters and several rounds of ammunition. Yesterday morning Turner led his followers in an attack on the Howard camp. The attacking party got in the first work, but were finally driven back to town.

A report reached here to-day that the Howard forces in Harlan, enraged by the battle of yesterday and the probable fatal wounding of their leader, left camp last night and started for Harlan Court House, intending to lift every man that belongs to the opposition and burn the town.

THE CRUISE OF THE THETIS.

Caught in the Ice—News from the Yukon Mining District.

SAN FRANCISCO, Oct. 23.—The United States cruiser Thetis has returned to Sitka, Alaska, after an extraordinary cruise. During the summer she sailed along the Alaska coast past Barrow and to the mouth of the Mackenzie River in the Arctic Ocean. A fleet of whaling vessels went with the Thetis. One night the warship anchored off Point Barrow, and she narrowly escaped being wrecked. Only two exploring vessels have ever got to the Mackenzie River and no Government vessel was ever that far before.

The crew of St. Paul, which arrived from Unalaska last night, brought down 46 Yukon miners. They report some destitution among miners at Yakon, but say the recent reports of starvation there were exaggerated.

The Best Comes From England.

WASHINGTON, Oct. 23.—A conference of postoffice inspectors is now in session at the postoffice department considering the problem of how to improve the means of detecting fraud and thefts in the mail service and render the transit of valuable property more safe. They have been trying to find an improved form of enveloped registered packages, which cannot be opened and rifled without being destroyed, thus enabling them to trace the loss of a package directly to the guilty man. About 100 samples have been submitted, none of them are satisfactory. An envelope used in the English service is the best thus far presented and it may be adopted here.

THE GUELPH TRAGEDY.

Harvey's Trial to Occur Next Week—The Defence Will Plead Insanity.

GUELPH, Oct. 23.—The trial of Wm. Harvey for the murder of his wife and daughters will take place next week and public interest, which has been dormant since March last, is once more awakened. Since Harvey's incarceration he has partaken heartily of the food provided for him, slept well and is much brighter than when first arrested. His time is spent in walking about his cell and in the corridor, reading the Bible and other books. He has done considerable writing, principally to his son, over whom he exerts a great influence.

Archdeacon Dixon, Dr. Lett and his solicitors have visited him, but what he knows about the tragedy he keeps to himself. It is reported that friends in Toronto, Guelph and the Accountants' Society of Ontario have subscribed funds for his defence. The line of defence will be insanity. Kennett, McLean of Guelph and G. G. S. Lindsey of Toronto have been engaged working up evidence and William Lount, Q. C., has also been retained as counsel for the defence. E. F. B. Johnston, late Deputy Attorney-General, will have the prosecution in hand. Some of the best sanitary experts in the province have been subpœnaed in Harvey's behalf. The prosecution consider the case a strong one.

A Young Hero.

LOUISVILLE, Ky., Oct. 23.—Vandyke Heyser, the 18-year-old boy who was injured in the wreck at Nolin Station on the Louisville and Nashville Railway yesterday, died in the afternoon. Heyser was a farmer boy and was coming to Louisville to get employment. When the mail train made its frightful appearance and all began to flee, Heyser rose and ran toward the coach door. He was almost on the platform, and in a second more would have been safe, when a frightened passenger reached his side, nearly fainting with terror. She would have fallen had not Heyser supported her. He stepped to one side and assisted her to pass, gently forcing her out on the platform. Before he could follow he was struck and crushed into the accommodation and the heroic boy was caught in the ruins and fatally injured. A few minutes later he was dragged out from the dust and smoke of the wrecked chamber and expired amid splinters and with his body about the hips badly crushed.

Material for a Lynching.

BIRMINGHAM, Ala., Oct. 23.—A special from Lafayette states that Albert Smith and his three oldest children went some miles to church on Sunday. A negro approached the house and asked Mrs. Smith to give them something to eat. On being refused they went into the house and forced Mrs. Smith and her babe into the yard. After ransacking the house and appropriating all the money, etc., they could find they set fire to the house. They tossed Mrs. Smith's babe into the air several times, and let it fall back almost on the point of sharp knives which they held under it. The brutes finally heeded the frantic entreaties of the woman's husband, leaving her with her half-dead babe beside the ruins of her home. People for miles around have been searching the country for the villains, and at last accounts three of them had been captured.

Job Was too Good to be Human.

ROCKFORD, Ill., Oct. 23.—Prof. E. L. Curtiss of the McCormick (Presbyterian) Theological Seminary startled the orthodox congregation of the Westminster Presbyterian Church here Sunday by declaring in his sermon his belief that the Book of Job is only a poem written by some pious Jew during the period of the exile. He asserted that the book was only a parable, and that Satan and others mentioned in it were to the creatures of poetical fancy. He gave as one of the reasons of this belief that it was not reasonable to suppose that any man who had become so reduced by failing and bodily suffering could utter such poetical sentiments as are ascribed to Job.

The Battle of the Prayer-Books.

NEW YORK, Oct. 23.—In the Protestant Episcopal Convention to-day, the house of bishops declined to accept the report of the conference committee adopting the book of short offices in the changes recommended. This settles the question of the book of short offices so far as this convention is concerned. The house then proceeded to discuss the question of liturgical revision. The color question was reopened by the committee on conference, amendments from the house of bishops, who recommended that the deputies accede to the desire of the upper house and pass the resolution defining the attitude of Episcopalians towards the negro race. The deputies declined to reconsider their action.

A Queue Case.

VICTORIA, B.C., Oct. 23.—A Chinese chicken thief was sent up for two months by the police magistrate the other morning. Counsel for the defence asked that an order be made that the Mongolian's queue be not cut off. His Honor was not aware that it was customary to curtail the capillary appendages of the Chinese sent to jail. Chief Sheppard explained that it had been done in times past, but was not usual now. His Honor did not consider it just that any additional punishment should be inflicted, and did not think it was legal to cut the queues of Chinese prisoners' heads.

The C.P.R. Makes Itself Felt.

SAN FRANCISCO, Cal., Oct. 23.—The Occidental and Oriental and the Pacific Mail Steamship Companies announce that after Oct. 29 steamers, three belonging to each company, will perform the service between this port and China now performed by eight vessels.

The withdrawal of two steamers from the China service is owing partly to the putting into effect of the Chinese exclusion act, which reduces the amount of Chinese travel and partly to the competition of the Canadian Pacific Company.

HOW TO TRAIN THE YOUNG

SECOND DAY OF THE PROVINCIAL SUNDAY-SCHOOL CONVENTION.

Timely Topics—Stirring Speeches—They Talked what they Knew—Reports from Delegates—The Boys' Brigade—Sunday Schools and City Arabs.

The Sunday School Convention met again yesterday morning in Carlton-street Methodist Church. After devotional exercises, conducted by the newly-elected president, Mr. J. K. Macdonald, the first topic for the session was introduced by Rev. John McEwen, honorary secretary of the association. The subject was: "The Ultimate Aim and Practical Results of County and Other Local Associations." A long discussion followed, in which the opinion was freely expressed that more definite returns should be got. The desirability of forming Sunday school institutes and Normal classes was discussed and received the approbation of the convention.

The next subject was "The Sunday School Geography of Our Province in Relation to the Extension of Our Work," and was ably introduced by the general secretary, Mr. Alfred Day. He had been deeply impressed with the necessity of thorough organization among Sunday school workers. By this means a large number of children who never go to Sunday school could be reached. He believed that out of 600,000 children in Canada fully 250,000 of Protestant parentage never darkened a Sunday school door.

Rev. J. W. Rae, of Acton introduced the subject of "Sabbath School Statistics, their character and utility." He spoke of the importance of making the question papers easy to understand. Statistics should be made a source of encouragement to pupils and teachers. He gave some valuable suggestions to delegates. They should be careful to give a full report to the local organizations of the work of the Provincial Association, if this were done by all the delegates the question would no longer be heard, "What is the Provincial Convention good for?"

After a short discussion Hon. James Young, an ex-president of the association, suggested that the question of questions should be, so that the answers returned would be more uniform. It was decided that the association should frame a uniform question paper.

Afternoon Session.

At the afternoon session Mr. A. Shaw of Kingston occupied the chair in the absence of the president. After the usual devotional exercises conducted by Mr. Shaw, the report of the Executive Committee was presented by the general secretary, Mr. Alfred Day. The committee recommended that attention be paid to the appointment of census officers. The work of these should be to get the names of all children in the district whose names are not on the Sunday school rolls. In this way the poor and neglected could be more readily reached. Another point urged was the necessity of organized effort. Every district should be organized and the Sunday school association should be an enthusiastic power for good. They suggested that the motto for the coming year be "Occupy till I come."

The treasurer, Mr. J. J. Woodhouse of Toronto, then read the financial statement, which showed a satisfactory balance on hand, although over $2700 had been paid out in association work during the past year. Both reports were adopted in toto.

The rest of the reports from the delegates from the counties were received. They all indicated great activity in Sunday school work.

At this point Rev. A. B. McKay of Montreal, Rev. J. Farquhar, New York, and Judge Moore were welcomed to the convention and all replied with kind words of greeting. A telegram of greeting was also received from the association at Halifax.

Two papers were then received from the W.C.T.U., Mrs. Wylie and Mrs. Fawcett, the former of whom read an address treating of the great necessity of temperance teaching in the Sunday school.

Night Session.

The evening meeting was held in Jarvis-street Baptist Church in the presence of an immense audience. The devotional exercises were conducted by Rev. Dr. Thomas, after which Rev. T. F. Fotheringham, M.A., of St. John, N.B., gave an interesting address on "The Boys' Brigade." In commencing the speaker said he was a native of Toronto and was proud to say that he had worn the sergeant's cross-belt in that famous regiment the Queen's Own Rifles. The Boys' Brigade had originated in 1883 in Glasgow through the efforts of Mr. W. A. Smith, and in 1888 the organization numbered 11,000 in its ranks, with brigades in Great Britain and Ireland, Australia

The Mail is bringing out some good ideas in regard to a merchants' day—that is, one day a week on which the railways will issue cheaper tickets to and from Toronto for the benefit of buyers. We think, however, that a general reduction in the three cent a mile rate to a two cent one would be a greater public convenience, and at the same time increase the revenue of the roads. Railway fares are too high.

What Free Trade Folly Costs the Country.

The Mail says that the attempt to create a home manufacture of pig iron by means of protection has been a costly experiment for Canada. The duty on imported pig is now four dollars per ton, and two dollars per ton bounty is paid on the same article made at home; and yet there is of late more pig iron imported than there was before. Well, supposing all this to be true, there is nothing very wonderful about it. Other iron manufactures, for which a supply of pig iron is necessary, have been greatly increasing; and the new and enlarged demand could not wait until the home production of pig had grown sufficient to meet it. Any one who knows much about the iron and hardware trade knows that the more advanced iron manufactures are the easiest to start and establish; while the pig iron manufacture, the first process in iron-making, and the crudest of all, is at the same time the most difficult of all to establish in countries where it begins as a new industry. For instance, in a new country it is much easier to start the manufacture of tools and the smaller articles of hardware than to start making pig iron, bar iron, or bessemer steel; the risks to be run and the danger of failure being much greater, you can much easier get up a company with capital to make a thousand and one articles which are made from bar iron or steel, or from both, than you could a company to produce the bar iron or the steel itself. And this primary process of all—the production of pig iron—is at the same time the most "risky" business of all, and therefore the last one of all to get sufficient skill and capital drawn into it. It was to have been expected that the experiment of establishing the production of iron from the ore would have cost something in Canada; but The Mail is premature in asserting, or implying, that the experiment has failed.

In times more given than ours to rude plainness of speech, there used to be current this caustic saying—that fools and children should not see half-done work. We are really anxious to avoid personalities; still we cannot help avowing our conviction that it would be better if our Free Traders were not so intent on gazing at the half-tried experiment of using protection to establish pig iron making as a home industry in Canada. For them the study is not a good one; it tends to put them all wrong; and they are sure to see everything connected with it in the wrong light. Themselves have borne testimony to the fact that the necessary raw material exists in the country, in convenient locations, in inexhaustible quantity, and of the very best quality. It is admitted that we can make knives, saws, forks and cutting tools of many kinds with good success; also machines of various sorts, in which iron is the principal material. What is wrong, therefore, that we should not be able to produce also the iron itself, the ore being good and abundant in the country? Is there an unknown African concealed in the fence somewhere, or what is the matter, anyhow? Well, with or without the permission of the other party, we must venture to guess.

What most of all delays the success of protectionist experiments generally is the fear that the protection will soon be withdrawn, and that it is not worth while to risk it and take the chances. Our National Policy is not yet very long established; it dates back only to 1879. Ever since then the press and the party opposed to it have done their very best to make the people believe that it could not possibly live long, and was destined to be wiped out as an early day. The Opposition's intensity of hatred to the National Policy has gone the length of fanaticism; their zeal against it has amounted to a mania. *Apropos* of Mr. Blake's virtual separation from the party of which he was leader in time past, a story is now current, which we think worth repeating here, as we find it in The Empire's Ottawa correspondence of Oct. 23:

> A Toronto correspondent of Le Canada, writing under the nom de plume of "Bystander," purports to give the real cause of Mr. Blake's resignation of the Liberal leadership. He recalls the fact that Mr. Blake pledged himself in his famous Malvern speech that there would be no interference with the National Policy in the event of the Liberals obtaining office. Subsequently when the party decided to make unrestricted reciprocity the party battle cry, "Bystander" says Mr. Blake, recollecting his pre-election pledges, found it impossible to control his followers and consequently was compelled to throw up the leadership. "Bystander" says that among Mr. Blake's intimate friends it is reported that this ex-leader is so disgusted with his party that he will probably not be a candidate at the next elections.

If this is not true it ought to be: *Si non vero, è bene trovato*; as the Italians put it. But indeed it has already been accepted by the public as substantially a part of current political history; and its truth is not likely to be seriously disputed. We fancy Mr. Blake appears to have been the only man of his party who had the discernment to understand, some time back, that Canada had really pronounced for Protection, and was not likely to "go back" on this decision. But the party had in its men of less capacity than he, though still leaders, who would almost die sooner than accept the new system, the victory of which had driven them from power. These were, and still are, the "irreconcilables" of the party—always ready to say: Perish the country's industries, rather than a principle—Robespierres every one of them, as far as some particular craze is concerned.

Of special importance in these times is the statement that the party's decision to make Unrestricted Reciprocity their one plank, and to risk themselves on it, sink or swim—was the real cause which compelled Mr. Blake to step down and out. We shall hear more of this, anon; it is one of those historic ghosts that we read of, and which "will not down."

City Hall Notes.

The special committee on scaffolding will hold a meeting to-night at 7.30.

A sewer has been constructed by day labor in Muter-street for $394 less than the lowest tender.

A temporary sidewalk is to be laid until the new building of the Confederation Life office is erected.

The re-numbering and naming of the streets is completed at a cost of $6100; 807 streets have been re-numbered and 3105 street names have been put up.

The Consumers' Gas Company, in laying their mam in Blour-street, will avoid the necessity for disturbing the new pavement by excavating under the boulevard.

The City Medical Officer has been instructed to carry out the law fully in the matter of prosecuting those slaughtermen and butchers in St. Mark's Ward who empty offal and blood into the sewers.

The City Clerk has received a letter from Messrs. Maclaren, Merritt & Shepley complaining that the pavement on the east side of Yonge-street had been taken up and thus left, to the inconvenience of the public.

Commissioner Coatsworth says it will cost $16,000 a year to carry out the resolution adopted by the Mark-ts and Health Committee yesterday limiting the hours of corporation teamsters to nine and employing stablemen to look after their horses.

Orders have been issued for work to commence on the grading of Kippendavie-avenue, the blockpaving of Euclid-avenue, Mitchell-avenue, and a lane north of Foxley-street, the laying of a stone flag sidewalk in Queen-street near Beverley, and the construction of a sewer in Inglewood-avenue.

The Mayor has been informed of the inadequate police protection in Eastern-avenue, where a crowd of young roughs more or less under the influence of whisky gather nightly and annoy pedestrians. His Wo ship will see what can be done to remedy this state of affairs.

His Worship is in receipt of a communication from Chief Grasett stating that the girl Violet Cooney, who it was alleged had been placed in a cell with five hardened women, was a wayward young woman and would not remain at her comfortable home. It further states that she was not placed in the cell with five, but with three women, who were all asleep.

City Clerk Blevins yesterday received a letter from the Dominion Department of Agriculture asking the present population of Toronto, the present debt and the amount of assessable property. The City Clerk replied that the population was 172,408 and the assessment value $137,230,778. The municipal debts, including $2,612,238.35 of local improvement debts, was $14,648,922.35.

In his capacity as Chairman of the Police Commissioners, Mayor Clarke has written Chief Grasett asking him what steps have been taken to separate hardened prison-re at the various police stations from first offenders; what provision is made for females, and also what other steps are being taken to improve the existing system. He will utilize the information obtained in the preparation of a memorandum, which, when completed, will be published.

A. D. Noyes, Newark, Michigan, writes: "I have inquired at the drug stores for Dr. Thomas' Eclectric Oil but have failed to find it. We brought a bottle with us from Quebec but it is nearly gone and we do not want to be without it, as my wife is troubled with a pain in the shoulder and nothing else gives relief. Can you send us some?"

The New Cathedral Staff.

Evangelical Churchman: We publish in another column the newly-appointed staff of the Cathedral of St. Alban's, Toronto. The number of officials seems very disproportionate to the extent of the duties involved. We understand that a very serious difference of opinion exists as to the advisability of the step. Several of those nominated pretends have declined and a number of others have requested to be permitted to reserve their decision for the present. We regret that we are unable to give this scheme a very cordial support.

Success in life is the result of push and energy. If the blood is impure and sluggish, both body and mind lack vigor. To cleanse and vitalize the blood and impart new life to the system, nothing else has such a marvelous effect as Ayer's Sarsaparilla.

Equal Rights.

Christian Guardian: We have said that the great majority of the people of Ontario, in both parties, are sound on this question [Equal Rights]. May we not indulge the hope that a majority of the people of the Province of Quebec will be brought to see that this principle of Equal Rights to all men and all churches must prevail in this country, and that no church can, in the long run, gain anything by claiming special favors or advantages for itself?

A Bad Family Record.

At the Police Court yesterday Walter Pearce, aged 14 years, was remanded till to-day for sentence for theft of horse-blankets from Johnson & Price, Parliament and Queen-streets. James Pearce, the father, is now under suspended sentence; Maria Pearce, the mother, is serving a two year sentence in the Mercer; Tom, the eldest boy, is serving a month in jail, George is a fugitive from justice, Ed. is putting in a ten year sentence in Kingston, Jack has served a 60-day sentence in jail for a felony.

IT LOOKS LIKE BROOKLYN.

NEW YORK LOSES THREE GAMES OUT OF FOUR.

It Was a Great Kicking Game And the Giants Still Leads But The Worst of It—Stanley Still Leads in the Bicycle Contest—A Lively Amateur Race Last Night—College Men at Football.

BROOKLYN, Oct. 23.—The third game in the world's championship series was played to-day at Washington Park. Cold weather only permitted the attendance of 2500 persons who shivered through the game. Crane and Terry were the opposing pitchers and in view of the speedy twirler's good work of last Saturday every person almost expected to see the Giants win. The Grooms, however, found no trouble in batting him and, with rank errors, made two runs in the 1st and as many in the 3rd inning. It was not until the 7th that Mutrie's men began to locate the spinere. In this inning O'Rourke led off with a double and went to third on Whitney's safe hunt. Crane's hit sent O'Rourke and Whitney across the rubber and earned the batter third. Gore followed with another three bagger, scoring Crane. Tiernan struck out. Ewing hit to the pitcher, who threw to the plate to catch Gore, who had started for home. Gore turned back and Clark's throw to Pinkney to catch the runner struck Gore in the back and bounded into the field. Gaffney, to the surprise of the New Yorkers and the delight of the Brooklyns, called Gore out for interference. A long kick was of no avail. Ewing on the play got first and went to third on Ward's single. Ward started for second and Clark made a bluff of throwing down to head him off. Instead he threw to third to catch Ewing, but the throw was wild and Ewing scored. Ward started from second on the error and O'Brien fielded the ball from first to home. His throw in struck O'Rourke, who stood on the coacher's line, and Ward reached home. Gaffney decided that Ward must return to third. A prolonged kick followed. Ewing claimed that O'Rourke, as coacher, had a right to stand where he did, that the throw was wild and that O'Rourke or no O'Rourke the ball could not have reached home in time to cause Ward's out. Ewing rather inclined to obey Jaffrey and order Ward back to third but he went back his men from the field. Jaffrey then tacitly admitted that he was in error by allowing Ward's run. This gave Brooklyn a chance to delay the game for darkness and this they did, pathering around Jaffrey and arguing for 25 minutes. He, however, held to his first decision, counting Ward's run, which tied the score. It was now almost too dark to play but the game was resumed. Connor, the next batter for New York, struck out, retiring the side. Crane, taking advantage of the darkness, began shooting the ball over the plate for Brooklyn. First batter Corkhill and he retired on strikes. Richardson fumbled Smith's grounder, and Tim Keefe was called on to bat balls. O'Brien couldn't see the ball, and fanned out but Burns, the following batter, saw it. He lined out a single and the game was won for Brooklyn. He was allowed to make the circuit of the bases on his hit, no one fielding the ball. Mr. Day says he will not play any more games under Gaffney unless he is more fair in his decisions. Score:

									R.	H.	E.
New York	0	0	1	1	0	5	x	x	x	7	9	5
Brooklyn	2	0	2	0	3	3	x	x	x	10	11	1

Batteries—Crane and Ewing; Terry and Clark. Umpires—Gaffney and Lynch.

That champion crank, General Dirwell of The Boston Globe, has been presented with a gold headed cane by the members of the Boston club and newspaper men.

The annual meetings of the various baseball organizations occur on these days: National Association, Nov. 20; National League and American Association, Nov. 13; Western Association, Nov. 15.

President Reach of the Philadelphia club is of the same opinion as John Morrill in regard to the change in the rules. He thinks that the pitcher should be set back 5 feet and that the number of balls should be increased to five. He also favors the substitution of rubber bases, set flush in the ground, for the cripplingly articles now in use.

The world series championship games in 1884 were won by Providence from the Metropolitans, three contests taking place and all being won by Providence; in 1885, Chicago and St. Louis drew at three games and a tie each; in 1886 St. Louis won four to Chicago's two; in 1887 Detroit won four to two by St. Louis, and last year New York won from St. Louis by six games to four.

The Ball-players Brotherhood will meet in New York Nov. 4. Until then nothing definite will be known as to their action. John M. Ward says of the reports from the west that the League magnates were interested in any way with the Brotherhood was utterly without foundation. They may be interested in some scheme of their own, said he, "but not one of the men in question has ever been approached by a Brotherhood man."

The arrangements for the Brotherhood scheme as far as it affects Buffalo have almost been perfected. The backing in this city will amount to $20,000. Rowe, White and Myers will be members of the team and the best of the Washington players are to be transferred to Buffalo. It is possible that Callihan and Lehane of the Buffalo Internationals will be retained. Tom Daly, the Washington catcher, is one of the best all-round players in the business. Hoy, the center-fielder, is another rattling good player. Sam Wise and the two Irwins are not quite up to the mark. The Washington pitchers, Keefe, Person, Haddock and Krock, are hardly as desirable a lot as Buffalo would like to see. Before Nov. 1 the composition of Buffalo's nine will probably be made known.—Sporting Life.

THE TRIO OF CYCLISTS

Continue on Their Long Journey—The Amateur Races.

Yesterday was the third day of the World's bicycle tournament in the Mutual-street rink. Still there is no change in the riders' relative positions. Dingley still leads, although Rhodes gained a mile on him during the day. Desmond, the Englishman, wheels at his usual pace and is a good third. Little Eddie McDowell did not appear yesterday and has most probably dropped for good. There were quite a few spectators during the day, but the management is rather disappointed with the attendance. The men rode steadily and covered about the same distance as on the preceding day. The score at 12 noon was: Dingley 306, Rhodes 294, Desmond 275; at 4 p.m., Dingley 395, Rhodes 347, Desmond 315, and at the close at 10 p.m., Dingley 484 miles 10 laps, Rodes 424 miles 9 laps, Desmond 388 miles 7 laps. Dingley has been using a 50-in. Brantford machine.

The five mile amateur contest was certainly the most interesting feature of the day and the spectators watched the riding with much interest. Certainly there was excitement. The entries were: D Nasmith, J H Gerry and F W Doll, all of the Wanderers. Gerry and Nasmith led in the second lap but were soon on their bikes again. Nasmith soon took the lead and held it, Doll second and Gerry third. This way things remained until the second mile. Gerry dropped out after doing 2 miles 9 laps. Nasmith with a vantage of his lap and a half could not increase the lead and thus they finished. Nasmith was under a misapprehension after he had finished and flew around with Doll in the latter's fourteenth lap. On the lower turn Doll fell and Nasmith followed suit, the machines and men rolling over and over on the sawdust covered floor. Doll was the first to extricate himself. His wheel was twisted out of shape and swizing it he ran home, to be informed that he will need another lap and that Nasmith had won, time 15 minutes.

Children will be admitted to-day for 10 cents. The big race will continue from 8 a.m. to 10 p.m. Afterwards the ten-mile amateur race will take place.

The ambulance was summoned and he was removed to his home.

The beautiful new Arlington Hotel at John and King-streets since its opening has been most liberally patronized by the traveling public. The appointments and cuisine of the Arlington are unsurpassed in Canada and the rates are moderate. Street cars pass the door every minute. The location is central and convenient.

Professional Men Must Advertise.

Hamilton Times: The big doctors know their own business, but how is a young fellow, just starting, to live on dignity? He wants bread, butter and molasses, and the easiest way for him to get them is to advertise. That's the way merchants and manufacturers manage to sell their wares. Is there any more dignity about selling medical skill than about selling factory cotton?

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver and regulate the bowels, but do not purge. They are sure to please. Try them. 25

Powell was one of the most important figures on the Canadian turf, and he had always been a great horseman. His luck however was almost universally bad. He owned some good racers in his day. It was owing to representations made by Mr. Powell to Hon. Edward Blake, then Minister of Justice, that the objectionable pool bill was passed. All the repeated efforts of Toronto, Montreal and other turf patrons up to date have been unavailing in having that measure removed from the Statute Book. Auction pools is admitted to be the fairest known principle of betting on a horse race and yet it is prohibited by law. Mr. Powell's connection with the pool box at a certain race at the old Carleton race course was the cause of his "kick" to Mr. Blake; hence the pool bill. "Dick" Leary was his pet trainer in his palmy days.

Spots of Sport.

Cal. McCarthy of Jersey City and Johnny Murphy of Boston have been matched to fight at Boston on Dec. 19 for $500 a side and a purse.

The return golf match between Montreal and Quebec was played in the former city for the championship last Saturday when the Montrealers won by six holes.

It is definitely decided that the injuries recently received by Joseph Donohue, America's champion skater, preclude the possibility of his appearance at the European tournaments this winter. There is some talk in skating circles of sending his brother Tim to represent this country. Tim is recognized as the champion short-distance skater.

A Zenana Missionary in Toronto.

The westerly branch of the Church of England Women's Auxiliary to Missions held a most enjoyable meeting in St. Stephen's school house yesterday afternoon. An address was given by Miss Ling, a Zenana missionary from South India. Miss Ling was stationed at Outacamund and afterwards at Coonoor for six years and expects to return to the scene of her labors in January next. For the last year she has been holding meetings in various parts of England, and in August last crossed the ocean and beginning in Nova Scotia has visited the principal parishes in this diocese of Prince Edward Island, New Brunswick, Quebec, Montreal, Ontario and Toronto as a representative of the Zenana mission.

In person Miss Ling looks remarkably young for a missionary of six years' standing. She is a clever rather thoughtful face and a clear, earnest style of address that makes the close attention of her hearers. She has brought with her some Indian dresses, idols, figures and other curiosities which add much to the interest of the meetings. While in the city Miss Ling is the guest of Mrs. Cartwright, Vice-president of the Auxiliary, 261 College-street. The address was intensely interesting throughout.

A young Indian girl accompanies Miss Ling on her travels. Rev. A. J. Brought presided.

The Church of the Ascension school-house was well filled last night when a concert was given by the "Talent Money Children." These children have commenced with a small sum of money, or talent, and by exchanges and other means have increased their talent from $2.60 to $42. Miss Maude Hughes alone raised $3.15 from 5 cents. The above sum will be devoted to missionary purposes.

Bishop Lordshipe the Bishop of Toronto occupied the chair last night. Rev. H. G. Baldwin, pastor of the church, was present. Hymns, recitations and choruses, well rendered, made a very accentable prelude, after which Miss Ling addressed the audience briefly. During the course of the address, which was amply illustrated with dolls, etc. The accomplished young lady spoke in various Indian dialects. The discourse in the afternoon proved of unusual interest. Mr. E. R. Doward presided at the organ.

This afternoon Miss Ling will address the easterly branches of the auxiliaries in St. Peter's school house, and to-morrow evening at St. Mark's, Parkdale.

Gossip of the Turf.

Garrison says he has no intention of retiring from the saddle to take charge of the horses in which he is interested, but will ride again next season.

Seventeen car loads of horses arrived at Nashville, Tenn., yesterday from Latonia to take part in the autumn meeting of the West Side Park Club, which begins on Tuesday, Oct. 29.

At a meeting of the directors of the New York Jockey Club held yesterday, Mr. H. De Courcy Forbes was unanimously elected president in place of Leonard W. Jerome, resigned.

The objection lodged against the filly Primrose Day, the winner of the race for the Cesarewitch Stakes, at Newmarket, on the ground that she was not entered under the name of her rightful owner, has been overruled.

Instead of retiring from the turf as the New York papers declared, Mr. A. J. Cassatt's intention is to sell his present stable and get in a new lot. He will import a number of stallions from England for breeding purposes.

Kingston, the Dwyer Bros.' crack, will be turned out at the Brooklyn track this week, and have a rest until spring. Sir Dixon, Reel Dress, Houston, Kingsbridge, Eon, Extra Dry, Flatbush, Last King and Blue Bird of the Dwyer string have also been taken out of training.

El Rio Rey, the sensational two-year-old of the season and the speediest youngster of his day, is seriously ill at the track of the New York Jockey Club at West Chester. The great colt has been cared for like the infant of a queen, but it is probable that he will be a dead horse before many days. El Rio Rey was bred by his owner, Mr. Theodore Winters, at his farm in California, and so highly did he regard the youngster that he several times refused $50,000 for him, desiring to keep him for the stud. When Mr. Belmont's agent asked Estill to put a price upon the colt, Mr. Winters, who had remained in California, was notified, and it is said his reply was "$100,000."

SCOTLAND'S CURLERS.

They Will Not Visit This Country This Season.

It was thought that representative Scotch curlers would visit Canada this season, but Mr. J. S. Russell states that from recent correspondence he learns that it is scarcely probable they will come before next year. It is the intention of the Ontario branch to establish an international match to be played every three years alternately with Scotland and the United States.

"No," said Mr. Russell, "it is not likely Canadian curlers will visit Scotland, as we might not catch any ice the season we visited there and it is the only place to hold a Scotland-Canada international match is in the Dominion."

The Curling Annual will be in the printers' hands shortly. Besides the usual interesting data and valuable information to curlers there will be some new features. The rules and regulations of a Scotch club that existed over a hundred years ago will be given as a novelty. One of these regulations is a penalty for swearing of two pence for each offence.

The curlers are looking forward for the ice anxiously, when they will soop 'er up with their usual enthusiasm and fight many of their old-time interesting battles.

The Pool Bill.

In telegraphing the death of the late Sheriff Powell the other day, nearly all the correspondents omitted to mention one important fact in the dead man's career. About a dozen or so of years ago Sheriff

THE BURGLARY SEASON.

Another House Broken Into Last Night and Jewelry Stolen.

The residence of Mrs. H. Stewart, 13 Pembroke-street, was entered by thieves, who broke in a rear window, about 8 o'clock last night. A quantity of jewelry was stolen. The theft was shortly after reported to the police, and Detective Watson was detailed to look after the matter. This case strongly resembles the larceny at Government House some weeks ago, and the police are determined to spare no effort to ascertain who are the thieves in the Pembroke-street robbery.

Robert Mantell's Week.

The painstaking young actor, Robert Mantell, whose annual visits afford Toronto theatre-goers so much pleasure, begins a week's engagement at the Grand Opera House on Monday evening next, appearing in three of his most successful impersonations. The first two nights and the mid-week matinee, D'Ennery's Monbars, will prove an attractive bill. For Wednesday and Friday night the poetic romance, "The Marble Heart," is underlined. "Othello" will be given on Thursday and Saturday evenings. In "The Marble Heart" Mr. Mantell will appear as Raphael the sculptor, a part in which he has won considerable success. Seats will be on sale to-morrow morning at 10 o'clock.

The White Slave.

At Jacobs & Sparrow's Toronto Opera House next week will be produced Bartley Campbell's greatest play "The White Slave." The piece is brimful of action, the characters well drawn, and some of them original types in their way; the story itself is full of human interest and the comedy and pathos are so closely interwoven as bring smiles and tears almost at the same moment. The whole plot turns on the fortunes or misfortunes of Lisa, the supposed daughter of Nance, a quadroon, but really the illegitimate child of the daughter of Nance's owner, Judge Hardin. The judge, informed of the fact, just before his death imposes an oath on Nance to keep the secret for the honor of the family name, and gives the girl her freedom papers just before he dies. These, however, are found invalid, and Lisa is sold to a slave dealer named Lacy. It is on her flight from the latter's brutality, her rescue by her old lover, Clay Britton, her attempted capture on the Mississippi steamboat and her escape on a floating spar after the wreck and on an island in the river, that the remaining acts depend. Incidents are exciting and absorbing enough to give ample opportunity for fine picturesque and mechanical effects and these have been taken advantage of.

The Cyclorama.

Those who delight in the mysterious and beautiful cannot fail to be satisfied by a visit to the Cyclorama and Museum. Art in its most realistic form is there represented to hundreds of enthusiastic visitors every day, while illusions and mysteries of the most beautiful and startling description keep the large audiences delighted and amazed. The magnificent work of art now on view will be remarkable for two weeks, you would do well to pay it a visit.

Y.M.C.A. Concert.

The third in the excellent series of entertainments arranged by the Y.M.C.A. will be a concert next Tuesday evening given by the well known Lotus Glee Club, Boston, assisted by Miss Marshall. They have just returned from a successful tour in England, where according to the press and opinions of critics, they made the success of the London season. The New York Tribune says "Of all the male quartets that visited New York the Lotus Glee Club is by far the best." The plan opens this morning at Nordheimer's.

The Choral Society.

The members of the Choral Society turned out in large numbers at the practice last night, during which the two works (Mozart's Mass in C and d'Aurin's Sea King's Bride) to be performed at the first concert received a most promising rehearsal. During the meeting a short business meeting was held for the election of officers to fill some vacancies, with the following results: Ph. Jacobi, president; 2nd vice-president, Charles Boeckh, jr., and on the committee Mr. Mainwaring.

An Orchestral Treat.

The Boston Symphony Orchestral Club with the Swedish prima donna, Miss Augusta Ohrstrom, who will appear in this city on Monday evening, Nov. 4, at the Horticultural Pavilion, is an entirely re organized company. All its members have been especially engaged from Europe, some of the Theodore Thomas Orchestra, some of the Boston Symphony Orchestra and Fred Lax the great flute virtuoso of the famous Gilmore Band. British Capital in the U. S.

[From The Wall-Street News.]

Apparently those who have been working in the interests of the English syndicates are not dead, neither are they sleeping. Yesterday the foreign agents were around the street as usual, visiting some of the most prominent coal companies, and later on paid an extended visit to the Equitable Gas Company, with a view of buying up anything that might please their fancy. A representative of The Wall Street Daily News was assured on unquestionable authority that our English cousins are over here with sufficient money in hand to gratify any tastes, however fastidious, which they might have, and that London capitalists representing anywhere from £20,000,000 to £100,000,000 were willing and anxious to take hold of anything American which showed any profit or was likely to be remunerative in the long run.

"Regularity."

"Yes," said the Professor, "when I regulate my timepiece, I consult the best authority in town—the watchmaker's chronometer. In the same way, when I need a digestive pill, I invariably take Dr. Pierce's Pleasant Pellets, because they are so accurately graduated, so gentle in their effects, regulating the intestinal action with such nicety that the system is left invigorated, the natural functions are resumed, my brain is clear for work, my spirits serene, and my appetite splendid."

Jots From the Junction.

A meeting of the Property Owners' Association was held Tuesday night. The evening was spent principally in discussing the Keele-street crossing. The citizens have at last been awakened to the fact that something must be done to avert the danger at this particular point. After due consideration the association have recommended the construction of a subway as the only proper solution of the difficulty. The council have been approached and have already made a move in the matter by instructing the engineer to estimate the cost of carrying out the scheme. The greatest harmony exists between the council and the association, which will undoubtedly result in much important work being accomplished.

The Public School Board at their meeting completed arrangements for the coming Teachers' Convention on Oct. 31 and Nov. 1. The teachers for the County of York will convene in the Annette-street school building. On the evening of the 1st prox. Hon. G. W. Ross, Minister of Education, will deliver a lecture, with Inspector Fotheringham in the chair. All neighboring school boards are cordially invited to send deputations. Mayor Clendenan has arranged for the council and Property Owners' Association Committee to meet the C.P.R. officials, when it is to be hoped the question of the removal of the shops here will be definitely settled.

The future prosperity of the town is still further brightened by the prospect of three or four more factories locating here.

Ministers, lawyers, teachers and others whose occupation gives little exercise, should use Carter's Little Liver Pills for torpid liver and biliousness. 246

The Teacher's Tact.

The teachers of the senior second book classes of the public schools spent a pleasant and profitable day at Manning-avenue school yesterday. Inspector Hughes presided. In the forenoon Miss Drury's class showed remarkable proficiency in the subjects of arithmetic, reading, grammar, geography, writing and calisthenics, reflecting credit on the admirable methods pursued by Miss Drury in instructing in the above named subjects. Some capital suggestions were made and a vote of thanks passed to Miss Drury. To-day the junior second book teachers meet in Ryerson school.

Mr. John McCarthy, Toronto, writes: "I can unhesitatingly say that Northrop & Lyman's Vegetable Discovery is the best medicine in the world. It cured me of Heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took hold and rooted out the disease."

Anxious to Be Lawyers.

Seventy-two gentlemen have applied for admission to the Law Society at the coming Michaelmas term.

As the Michaelmas primary examination will be the last held by the Law Society under existing rules, this no doubt accounts for the unusually large number of applicants. In future University matriculation will be required instead of the Law Society matriculation.

If Easily Irritated or Vexed use Carter's Little Nerve Pills. 25c. 246

Is it Wrong for a Doctor to Advertise?

Within the last few days this question has been argued before a committee of medical gentlemen of this city. Several physicians gave testimony pro and con and one medical gentleman eminent in his profession, and occupying a high official position under the Ontario Government, admitted that he could see no wrong in advertising providing facts only were advertised, but some others who are not so high up officially, but would like the public to think they are authorities on the treatment of disease, stated while witnesses in a court that no matter whether a doctor could do all he advertised or not that it was unprofessional, and his name should be stricken from the list of licensed doctors of Ontario. Does not this look a little queer? Do you think it possible they were actuated by motives similar to the person who called the grapes sour, and have made no remarkable cures which are vouched for by good reliable citizens? Of course we would not impute such motive to the gentlemen who take the affirmative side of this question, but we are inclined to the negative side, especially when facts only are advertised and paid for, and believe physicians justified in advertising extraordinary cures so that sufferers may learn where they may get relief, and as an illustration give the case of Mr. S. C. Finlay of 290 Farley-avenue; Mr. Finlay had suffered for months, had consulted three physicians, one of whom treated him for six months; he continued to grow worse, his appetite failed, had a cough, his liver was inactive and greatly enlarged, the pain in his right lung was hard to bear, the palpitation of his heart prevented him from making but slight exertion, he was generally run down in health and was advised to give up work, and he had almost given up hope when he was advised to try the physicians of the Medical Institute for the cure of Catarrh, Dyspepsia and Chronic Diseases, located at 193 King-street west, which he did, and in two months was a well man and is so to-day, although it is nearly two years since. Mr. Finlay is a good, conscientious and honorable man, and will be glad to talk with anyone who may wish to call on him.

PROTECTION
AN EVIL FORM OF
AGNOSTICISM.

To be ignorant of truth, we ought to know, and which it is our duty to know, is a sinful kind of ignorance or agnosticism. Faith in trade protection as a method of promoting national wealth may either arise from subjective ignorance or a mercenary disposition to make the ignorance of others subserve the lust of gain in self. Not to know the precise distance between this earth and the Nebula of Orion, which it takes light, travelling at the rate of 12,000,000 of miles per minute, 60,000 years to traverse; or to confess our utter inability to relate the infinite in our limited consciousness, is agnosticism that will do harm to no one. It impresses man with a proper sense of his own littleness. But the agnosticism that is to be deplored is that passive ignorance which submits to fraud and wrong, and of which ignorance the selfish and designing take advantage to promote their own aggrandisement. Suce is trade protection. In every form it is bad and only evil can accrue to the nation where the right of freedom of exchange is denied and trade restriction is in operation. That is the evil agnosticism against which every honest thinker and worker should persistedly
