THE GALT POISONING CASE

CONTINUATION OF THE INQUEST INTO META CHERRY'S DEATH.

Mrs. Cherry the only Witness Examined—The Fatal Drug Evidently Intended for Her—The Inquest Adjourned for Ten Days—Theories but no Clue.

GALT, Oct. 9.—The intense excitement which has prevailed here ever since the poisoning of the Cherry family last week was fanned to a greater heat by the news that Dr. Ellis' analysis had disclosed the presence of strychnine in one of the candies sent to Mrs. Ridley. Long before the reopening to-night of the inquest into the death of little Meta Cherry the room was packed with an anxious throng which listened with eager interest to every word of the evidence.

Mrs. John Cherry was the only witness examined. Her evidence was mainly in corroboration of that of Mr. Cherry and their niece, given at the previous hearing. The witness testified that the candy, which had the bitter taste and is supposed to be the one which contained the fatal drug, was labelled with the word "Mama" and was evidently intended for her.

The inquest was adjourned for ten days in order to obtain the analyst's report upon the viscera.

All sorts of theories and surmises are afloat as to the perpetrator of the cowardly and dreadful crime, but there is not the slightest clue as yet to his identity. Many believe that there were two persons concerned in the plot, a man and a woman, and claim in support of their theory that the boxes containing the candies were sewn too neatly to have been made by a man, while the handwriting of the addresses is apparently that of a man.

A substantial reward for the discovery of the criminal will probably be offered at once.

A Hint to the Detectives.

The World saw Mr. T. C. Patteson yesterday, and speaking with reference to the discovery of strychnine inserted in the bottom of one of the candies sent to Mrs. Ridley, the Postmaster said:

"Of course I was speaking without special knowledge of the facts, when I expressed the opinion that the Galt poisoning arose from some accidental mixture of ingredients. There can be no doubt that if the sweatmeats have been tempered with the poisoning was wilful and designed. The culprit would think to escape detection by bringing the boxes to Toronto and posting them here. He hardly dare send them here to anybody else to post. The stationmasters at Galt might recollect who left town on the day preceding the arrival of the packets at Galt. The townspeople will, I think, try to spot the individual in that way, and in a place of the size of Galt people's movements are easily remembered."

A Child Smothered to Death.

PORT HURON, Oct. 9—Kittie, the 11-year-old daughter of George Phillips, engineer at Botsford's elevator, while walking along the platform of the elevator, made a misstep and fell into a shute used for unloading farmers' wagons and cars. It took about five minutes to release her from underneath the grain, and when taken out life was extinct, she having smothered to death.

"The First Man Who Comes Dies."

KINGSTON, Oct. 9.—News was received to-day that Harry Hitchins fell in with bunco men in New York, and that they were successful in getting him into a room when several accomplices appeared, and Harry, taking in the situation, whipped out a weapon and, brandishing it in the air, exclaimed: "The first man who comes dies." He was left alone, and he was not long in getting into the street.

An Alleged Burglar Captured.

INGERSOLL, Oct. 9.—F. J. McCutcheon has been arrested by Chief Murphy on a charge of burglary committed at Crosshill, in June last. B. Jennings' house was entered and $40 in cash and $6,000 worth of mortgages and notes stolen. The police have been working on the case and one of the parties was sent down for five years.

An Indian Held Up.

BRANTFORD, Oct. 9.—On Saturday Andrew Statta, a Six Nation Indian, brought into town and sold a load of oats for $75. On his way home he was attacked and most cruelly beaten at Burtch's Corners by George Jones and W. H. Loft. Police Constable Adams, on complaint being laid on Monday morning, went to the reservation and brought back the two men handcuffed. This is the third highway robbery that has taken place on the Cuckoo road in a short time.

Charged With Seduction.

ST. THOMAS, Oct. 9.—Mary Ann Ray of Port Stanley, an unmarried woman, probably 32 years of age, has been in the city for the past couple of days, and has laid a complaint against Robert Higgins, teamster, charging him with seduction. A capias for Higgins' arrest has been issued, but he is nowhere to be found, and it is stated by his friends that he has left the city for the land of the free.

Snow in Quebec Province.

RICHMOND, Que., Oct. 9.—About two inches of snow fell here last night accompanied by westerly gales. At 10.30 o'clock this morning the storm continued unabated, but the temperature is rising.

MONTREAL, Oct. 9.—About six inches of snow fell this morning.

A Daring Theft.

HAMILTON, Oct. 9.—A daring theft was committed at the grocery store of Mr. John T. Gully, corner of Wentworth and Nightingale-streets, last evening. While Mrs. Gully was in the shop a man entered and caught hold of her. Then he secured a box of cigars and ran off with it.

The Burglars Escaped.

MADOC, Oct. 9.—Two suspicious characters were noticed prowling around here yesterday. Chief Huff, with two or three others, kept a look-out for them last night and found them in W. H. Flynn's dry goods store about 12 o'clock. They made their escape through a back celler door. About a dozen revolver shots were exchanged, but none took effect. One of the burglars left his hat and one boot behind.

CELESTIALS AT THE FALLS.

Hoo Ylang Disappears—Thought to Have Crossed the Line.

NIAGARA FALLS, Ont., Oct. 9.—The four Chinese from the western states bound for New York are still at the Grand Trunk depot here. They have no money with them and have to depend on the generosity of the citizens here for food.

Hoo Ylang, the Buffalo Chinaman who was stopped returning home last night from Toronto, disappeared last night and no doubt made good his escape across the frontier.

Three other Chinamen, who arrived on the American side from the eastern states to-day bound for the western states with tickets over the Ontario and Western and Grand Trunk railways, were refused by the Grand Trunk railway to-day and at present are at Suspension Bridge, N. Y.

A CASE TO BE STATED.

Manitoba's Application re Crossing the C.P.R. to go Before the Supreme Court.

OTTAWA, Oct. 9.—The Privy Council Railway Committee held an important meeting today. There were present Hon. J. H. Pope, Sir John Thompson and Hon. John Carling. Sir John Thompson read a memorandum giving the conclusion arrived at by the ministers concerning the application of the Attorney-General of Manitoba to the Railway Committee for permission to construct a crossing over the tracks of the Canadian Pacific Railway. The committee deem the question raised by counsel for the Canadian Pacific Railway in opposition to the application to be of so much importance, as affecting this and other applications, that they have decided to adopt the course permitted by section 19 of the Railway Act of 1888. They will therefore state a case for the opinion of the Supreme Court of Canada as to the authority of the Attorney-General of Manitoba to construct the railway referred to in his application under the Manitoba Act.

Mr. T. Murray who is interested in the three vessels, Ben Hur, Dart Russell and Grace Amelia at Algoma, had an interview with the Deputy Minister of Justice to-day. After the facts had been stated Mr. Murray was asked to furnish information as to the quantity and value of the wrecking material brought into Canadian waters and also the extent of repairs made to the three vessels while in American territory, setting aside the question of insanity of the president of the wrecking company. The offence committed was simply that they went into American waters as Canadian vessels, purchased a lot of material in order to make repairs, and on coming into a Canadian port they were liable for duty on such repairs. Then they neglected to make a report to the customs officer. In addition to this they brought wrecking material into Canadian waters. It is held that in the eyes of the law they are still Canadian ships.

Sir John Thompson entertained at dinner to-night a party of sixteen barristers attending the Supreme Court.

Blair's Riel Resolution.

WASHINGTON, Oct. 9.—The resolution offered yestered by Mr. Blair calling on the President for information in the matter of the trial, conviction and execution of Riel for high treason in Canada in 1885 was taken up in the Senate to-day and a long statement in reference to it made by Mr. Blair, who based the resolution on the ground that Riel was a naturalized American citizen. The resolution was referred to the Committee on Foreign Relations.

The Senate then resumed consideration of the tariff bill.

The Bohemian Crown.

VIENNA, Oct. 9.—In the Bohemian Diet at Prague yesterday, Count Thun, German Conservative, expressed the hope that Emperor Francis Joseph would signalize the fortieth year of his reign by crowning himself King of Bohemia. The suggestion caused a sensation. The Vienna papers, in their comments on the matter, do not approve the suggestion. The importance of the question, they say, depends upon whether the other German members are disposed to support Count Thun.

A Threefold Crime.

INDIANAPOLIS, Oct. 9.—At Knightstown, yesterday morning, the dwelling belonging to N. B. Wade and occupied by Mrs. Sarah Hoggins, his mother, and Mrs. Martha Cates was discovered to be on fire. On breaking open the doors, Wade was found unconscious. He died shortly afterwards. In His mother was dead, before being taken out. Mrs. Cates was not found till her limbs and arms were burned off. She died soon after. A shoe knife covered with blood and a bottle of Paris green were taken from Wade's pocket, and the indications are that he murdered the two women and then committed suicide.

German Frigates Ordered to Zanzibar.

BERLIN, Oct. 9.—The German frigates Moltke, Stoch, Gricisnean and Charlotte, which were lying in the Bay of Naples for the purpose of firing a salute in honor of Emperor William upon his arrival there, have received orders to proceed instantly to Zanzibar to protect the German residents, whose lives and property are endangered by the rising among the natives. Carless Chicago.

CHICAGO, Oct. 9.—No cars were running on the west side to-day and very few have been started on the north side. These were guarded by policemen, but they had nothing to do. The extemporized vehicles of all sorts devoted to the carrying of passengers were totally inadequate to the work, and must continue to be so while this strike lasts.

Obstructions were placed on the tracks at various points during the day, the cars were surrounded by howling mobs as they progressed with difficulty through the streets and a serious riot took place at the Western-avenue end of the Madison-street line to-night. A number of the crowd were unmercifully clubbed by the police and several arrests were made.

Muscovite Dynamiters.

MOSCOW, Oct. 9.—The police have discovered a cellar which was being used for the making of dynamite shells. In connection with the discovery they have arrested a Nihilist who recently returned from Siberia. He attempted to commit suicide when captured.

Smallpox Among York State Indians.

ALBANY, N. Y., Oct. 9.—Secretary Balch, of the State Board of Health, this morning received word that smallpox had broken out among the Allegheny Indians.

BLACK PLAGUE OF TO-DAY.

SO PROFESSOR VAUGHAN DESIGNATES TYPHOID FEVER.

He Shows its Fearful Cost to Toronto and that it is Preventable—Personal Cleanliness and Smallpox — More Typhoid Cases at the Hospital Than Ever Before.

There was an immunity yesterday from the smallpox scare. No fresh cases were reported. The public are reassured by the active steps which the Health Department is taking. Vaccination was incessantly applied yesterday. Speaking generally there is no popular objection to this preventive measure. In isolated cases protests were entered, but the anti-vaccinationists are in a very great minority in the city.

Precautionary Steps Taken Yesterday.

Yesterday a couple of suspected cases were reported to Dr. Canniff, but upon investigation there was found to be no truth in the reports. The patients now under treatment are all doing well. Dr. Canniff has decided to have all the employes on trains running between Toronto and Buffalo vaccinated by one of the public vaccinators; also the men of the Toronto Street Railway Company, the Express Agencies and dealers at the Western Cattle Market.

Guests at hotels, hailing from Buffalo, will also be vaccinated, and all goods imported from that city which would be likely means of carrying contagion will, if Dr. Canniff thinks necessary, be disinfected. Meanwhile the greatest care is taken that no cases in the city go unreported, and the vigilance of the doctors is unceasing.

Dr. O'Reilly last night stated that in the nine months of the present year 184 cases of typhoid fever had been treated at the Hospital.

Toronto's Filth Diseases.

Professor Victor Vaughan, of the Laboratory of Hygiene, Ann Arbor, Michigan, in an address before the Association of Executive Health Officers of Ontario, said:

Take as a type of filth diseases of the present, typhoid fever, a disease which owes its existence and spread to the ignorance and carelessness of man. To what extent does this disease exist? In the Province of Ontario there die on an average each year not less than five hundred people from this cause alone. For every death there are at least ten cases of sickness; thus there are each year in this province at least five thousand persons sick with typhoid fever. The average duration of the illness is about four weeks, making an aggregate of twenty thousand weeks of sickness each year from this one disease. For each person sick the time and attention of at least one attendant is necessary. There are therefore ten thousand people each year suffering from or nursing those sick with typhoid fever. Supposing that the time of the sick man and his attendant is worth only 50 cents per day each, then the actual money loss to the province in time each year from this disease is not less than $1,000,000. Add to this $1000 for each death from this disease and you will see that this disease is costing the people of Ontario not less than $640,000 per year. An expensive luxury is it not?

This disease owes its existence to man's ignorance and carelessness, a disease which in the great sanitary millennium which is coming will be no more known than is the black plague to-day. People of Toronto, how much are you paying to maintain this disease in your midst? How many lives are you sacrificing each year to this demon? The average death-rate in Toronto from this disease is about 8 per 10,000, and with a population of 150,000, which all of you will say is altogether too low, 120 of your men and women die each year from this disease. This alone is a money loss of $120,000, and we will say nothing of the loss from sickness, of the many who are left partial invalids for years and some of them for life.

But you are ready to say that Toronto is a healthy city and its death-rate compares favorably with that of almost any other city as I judge of Toronto. Let us see about that. The death-rate from typhoid fever in Munich, which was in 1859 about 30 per 10,000, has been cut down, mainly by following the advice of Pettenkofer founded upon researches made by himself and his students in the famous laboratory of hygiene, to less than one per 10,000. The same results obtained in Toronto would save not less than 100 lives per year and prevent not less than 1,000 cases of illness. Is not this a work that is worth doing? Should it not appeal to the philanthropist, to the humanitarian, to the Christians, to all the people, to the Government? It will appeal to all and, I predict, not in vain.

The historian of 1887 will record to our shame that the death-rate from that dreaded, filth disease in Toronto in 1887 was as high as 8 per 10,000.

Typhoid fever depends upon local conditions and these local conditions must be investigated. The drinking water supply must be investigated by the chemist and by the bacteriologist. The organic matter in the soil and in the air must be studied in the same way. Do as Munich did. Build and equip a laboratory of hygiene. Furnish your Provincial Board of Health with the facilities, and a Canadian Pettenkofer will appear, whom the present generation will bless and whose name will be honored by the generations of the future.

Smallpox and "Body Sanitation."

Editor World: In all the writings coming under my observation, one phase of eruptive diseases seems to be either ignored or not thought of, and it is to my mind the most important point of all, viz; the condition of the human system. It is an absolute requirement that excreta of all descriptions be removed on general sanitary grounds, but in addition to that it is essential that personal care be taken of the body. We all know with what rapidity our daily food consumption is transformed in our bodies; how the essential parts thereof are held for the body's requirements and the superfluous discharged. We also know that such discharges should be daily and ample, otherwise our stomachs and intestines become but hotbeds for the generation of disease. At this moment how many in Toronto are there who present just such conditions that the atmospheric changes of the last three weeks have not more or less affected! The present irruption of smallpox is atmospheric, combined with the necessary conditions of body generating into life by contact, that which of itself would be lifeless. This is the rule of nature in all its phases, probably not expressed as a medical man would put it, but in such manner as all can understand. We see men with impunity daily working at our sewers and drains; we see our night-soil handlers working and breathing year in and out the most foul-smelling atmosphere; do we find those men catching diseases? No. We find our physicians visiting cases of smallpox, diphtheria, etc. Do all catch those diseases, including the nurses? 'Tis true disinfectants are used, but disinfectants will not prevent the taking of disease when exposed to it if the system is in condition to foster the germs and nourish them to life. City sanitation is most excellent, but without body sanitation and purification outbreaks of foul disease will be certain to occur at intervals. W. J. SMITH.

The opinion of Gen. Sherman is that union or war will be the outcome of the trouble now existing between the States and Canada. This should not be, as we find our American friends an agreeable and jolly lot of fellows, and it would be too bad to cut off the opportunity which they now take advantage of by coming over to Jamieson's for their usual stock of winter clothing as is their custom, finding as they do that they can save money when buying from the only man in Canada who manufactures his own clothing on the premises, thus giving to all nations the best value ever given by men of our modern times. Don't forget the name or place, corner Yonge and Queen streets.

Green Was the Fall of It.

Yesterday the chimney 65 feet high and which belonged to J. B. Smith's old planing mill was pulled down on the site for the stores of the C. P. R. in connection with its eastern entrance into Toronto. For half an hour one of the men engaged on the work was busy knocking away the foundations of the chimney, and he had only time to stand away before it toppled over with a big crash.

OUR FIRE BRIGADE.

Statement of Its Growth and What it Costs the City.

Ald. Ritchie, in response to a resolution of his submitted to the Council, has received the following information from the Fire and Gas Committee:

The Fire Brigade in 1876 consisted of a chief, an assistant chief, and 29 permanent members and 25 outside members, told off into seven sections, not including four engineers and four firemen for the steam fire engines. In 1888 the Fire Brigade is composed of the chief, assistant chief, and 81 members told off into 19 sections. In 1876 there were five fire halls in the city; in 1888 there are 13 fire halls. The necessary supplies for those several fire halls and for the fire brigade have to be provided and furnished as required, also bedding and washing for 100 beds for the members of the brigade and for eighteen drivers, exclusive of the large amount paid monthly for horses and drivers. In 1876 the monthly pay sheet for March was $1,769.-12; in 1888 it was, for the month of September, $4,853.05. In March, 1876, the total number of street lamps was 1,253, there being no Lambeth lamps or electric lights. In 1888 the number of ordinary street lamps is 2,830; Lambeth lamps, 110; electric lights, 169. Annexations to the city since the year 1876, St. Paul's Ward, St. Matthew's and St. Mark's Wards. In 1876 the population of the city was 71,693; in 1888, 139,452. In 1876 the total assessment was $47,676,273; in 1888, $113,063,075. Specifications and monthly pay-sheets have to be made out, all accounts for repairs, for material, and supplies for the department have to be checked and corrected when required, and every item of each account entered in a book kept for that purpose. The locating of street lamps and electric lights and the several calls and communications connected therewith takes up a large portion of time from shortly after the first of the year to near the end.

THE W. C. T. U.

Eleventh Annual Provincial Convention in Session at Sarnia.

SARNIA, Oct. 9.—The eleventh annual convention of the Women's Christian Temperance Union of this province opened here to-day. There are about 150 delegates in attendance. The convention was called to order by the President, Mrs. Chisholm of Ottawa. The appointment of committees and reports from different officers of the union occupied the session. In the evening a reception and tea was given by the delegates and invited guests in the Baptist Church and addresses of welcome were read from the Sarnia Union, the I. O. G. T., and the Lambton Scott Act Association. Responses were made by Mrs. Shortreed of Toronto and Mrs. Hitchcock of Paris.

FIRES OF A DAY.

An Oxford Farmer Loses his Barn Containing the Season's Crop.

OTTERVILLE, Oct. 9.—This evening about 7.30, the barns of Wm. O. Pavely, about one mile west of this place, were burnt together with the full season's crops and a lot of implements. The total loss will be about $3000, insurance about $800. The cause of the fire is unknown.

A Blaze At Newmarket.

NEWMARKET, Oct. 9.—At 10.15 to-night a fire broke out in the rear of Mr. Clarkson Hughes' new dwelling. The kitchen portion was badly gutted.

A Holocaust at New York.

NEW YORK, Oct. 9.—A livery stable extending from 404 to 410 East 34th-street was burned at 2 o'clock this morning, and in it were burned to death Thos. Carr, a newsboy 18 years old, and 27 horses. John Roach, a newsboy 21 years old, who was sleeping in the stable with Carr, was so severely burned that he cannot live. Loss $40,000.

A Chicago Packing House Burnt.

CHICAGO, Oct. 9.—Schuneman's packing house in the stock yards district was burned this morning. Two hundred head of cattle in the pens were stampeded and made it dangerous for everybody in the vicinity for a time.

Railway Shops Destroyed.

CINCINNATI, Oct. 9.—The shops of the Cincinnati and Northern Railway were burned this morning. Loss $25,000.

A Diplomatic Disclosure.

ST. PETERSBURG, Oct. 9.—The Novosti publishes three diplomatic despatches from Rome disclosing negotiations between England and Italy for a maritime alliance against France. Premier Crispi desired Lord Salisbury to sign a definite treaty, but Lord Salisbury declined. An agreement remains, however, embodying the communications exchanged.

Alas that Bread Should be so Dear.

LONDON, Oct. 9.—At a meeting of the Corn Millers' Association at Leeds to-day the price of flour was advanced 1s. 6d. per 18 stone making a rise of 8s. 6d. within eight weeks. The enhanced values of American and the poor quality of English wheats caused the advance.

The Baltic Sinks at Her Dock.

LONDON, Oct. 9.—The steamer Baltic sank at her dock in Liverpool to-day. The disaster was caused by a port being left open.

Four Slavers Captured.

LONDON, Oct. 9.—The British man-of-war Osprey has captured off Mocha, three dhows having on board 204 slaves. The Captains of the dhows and four of the slaves were killed before the slavers surrendered.

The Winnipeg Call's Libel Case.

WINNIPEG, Oct. 9.—In The Call libel suit today application was made by the defendant to postpone the same for a week, as he intended to try to get Messrs. Kendricks and McNaught and McArthur, Q. C., from St. Paul, to give evidence for the defence. Attorney-General Martin opposed the motion. After a lengthy argument the case was allowed to stand until Tuesday next.

F. C. Wade, editor of The Free Press, has resigned, as his views are not compatible with the policy assumed by the paper towards the Government.

Heavy Customs Entry.

The largest consignment of "Alexander" kid gloves that has ever been brought into Toronto was received by quinn the shirtmaker yesterday. The fact that he is now selling these desirable goods in all the newest shades at two dollars per pair, ought to bring contentment to those persons who are grumbling about the advance in the price of wheat.

Bilsh, Association Hall, Oct. 15th.

The Mining Commission.

MADOC, Oct. 9.—The mining commission are continuing their labors. They examined a mica deposit in Hungerford, about sixteen miles from here, and found it consisted of 27 acres, which is measured along the vein, the width of the location being 16 chains. Five openings, varying in depth from 8 to 15 feet, have been made and a considerable quantity of mica has been taken away and disposed of at good prices. The Richardson gold mine was also visited and the Coehill iron mine. The Richardson mine is near Dolora Station about 8 miles from here. The first discovery of gold in Canada was made on the farm of a man called Richardson 20 years ago, and to it flocked miners from all over the continent. The first specimen taken out was uncommonly rich and the vein matter at the mouth of the shaft looks as though it would pay well to crush. Crushing works are standing and were working within the past month.

The Dockage Confession.

PHILADELPHIA, Oct. 9.—A special from Wilkesbarre says: A decided sensation has been created in mining circles by the efforts of the Kingston Coal Company to obtain from its employes their signatures to a paper styled "The Dockage Confession," by which the signer admits that his car was not fit to be sent to the maker and states his willingness to be docked therefor.

"CHRIST ENTERING JERUSALEM."

A Masterpiece of Art on Exhibition in Toronto.

There is upon exhibition in Shaftesbury Hall a grand painting that should be seen by not only artists, professional and amateur, but by those who know nothing practical of art, but who admire—and above all by those who take an interest in Biblical subjects. It is Philippoteaux' grand painting of "Christ Entering Jerusalem," a canvas 28½ feet long and 19½ feet high and filling the entire space of the platform. Philippoteaux is a Parisian-born Frenchman of 48 years of age, and this painting is pronounced to be his masterpiece. He first made a name in this country ten years ago by his "Siege of Paris." It was he who painted the grand cyclorama "Niagara Falls" now on exhibition in London, Eng., and there are being exhibited in four leading American cities as many "Battle of Gettysburg" cycloramas, the work of his brush. The "Christ Entering Jerusalem" was only finished ten weeks ago, and its value may be judged from the fact that the Canadian custom authorities taxed it as being worth $75,000. The painting represents the Saviour entering Jerusalem by a gate of Moorish architecture, accompanied by St. John, Joseph of Arimathiea, St. Peter, and others of the apostles, while a figure of his Virgin Mother occupies a position, though which unimportant, bears a face that is an exquisite study. In the foreground there are 48 distinct figures, while counting those more indefinite, there is a total of 68 faces. The picture is a grand one and worthy of an hour's study.

In Wedlock Joined.

St. Basil's Catholic Church was crowded yesterday morning by a select congregation assembled to witness the marriage of Mr. Charles Smith, youngest son of the late ex-Ald. John Smith and brother of Mr. J. C. Smith, of Cooper & Smith, to Miss Kate Isabelle, daughter of Mr. J. J. Nichol, Sherbourne-street. The marriage ceremony was performed by the Very Rev. Father Vincent, assisted by Rev. Father Brennan. The bride looked lovely in a robe of white silk, with veil and the conventional wreath of orange blossoms. The bridesmaids were Miss Jennie Smith, sister of the groom, and Miss Mary E. Cooper of Rochester, N. Y., and the best men Messrs. George J. Nichol and E. J. Smith. After the wedding breakfast the newly wedded couple drove to the Union Station to take the 12.20 train for the States, where they will spend the honeymoon.

Furs. Furs. Furs.

Fur circulars, fur wraps, seal mantles and long beaver capes are now in demand. Dineen, on the corner of King and Yonge, offer very special value in all the different makes of fur garments, handsome seal sacques, dolmans, ulsters, short wraps and jackets, long fur boas in beaver, sable and lynx. Ladies would do well to call at Dineen's show rooms when out shopping.

He Reported Himself Drowned.

About one o'clock yesterday afternoon an old man was found wandering along the Esplanade soaked in water and whisky, and in a generally dilapidated state. He was brought to headquarters where he stated that he had been robbed by roughs on the Credit Valley wharf, and then pushed into the water and drowned. He could not give the hour when he was drowned, but thought it was some time about noon. In fact he told such a fishy story that the police locked him up for being drunk without further ceremony.

Meeting of the Legislation Committee.

There was a meeting of the Legislation Committee yesterday. Ald. Rost presided, there being present besides Ald. Hallam, Swait, Carlyle (St. Thos.), Jones, Ritchie, and City Solicitor Biggar. Ald. Hallam handed in a motion asking the Legislature to abolish all exemptions within its jurisdiction. It did not carry. Mr. Biggar recommended that some change be sought for in the law governing arbitrations, the present method being tedious and expensive. Ald. Jones wanted Toronto to have a special charter of her own. It was about time she had a right to manage her own affairs. After a lot more discussion, it was resolved to request Mr. Biggar to draft such amendments as might be deemed necessary in the municipal act.

Autumn's Choicest Offerings.

On the Road to Sarnia.

Vance and Knight, the Kingston utterers of counterfeit money, stayed over in the city last night en route for Sarnia, where they will be used as witnesses against the alleged counterfeiters, Charles Johnston, W. O. Parsons, and Benjamin McKenzie, who will shortly be on trial there. Vance and Knight pleaded guilty in Kingston and will probably get off light after testifying against the more important offenders. The two men were in charge of Dominion Inspector O'Leary.

Not One Bit Frightened.

Contractor A. W. Godson did not look one bit frightened when he turned up at the City Hall, yesterday. He told The World that he had no objection whatever to an investigation, but rather liked it in fact. What the trouble was with the "Old One" was that he failed to appreciate a presiding investigator, who like the Captain of the Nancy Bell, was judge, jury, prosecuting attorney and consulting solicitor at one and the same time.

Caution to Smokers.

We beg to call the attention of the public to the fact that the market is being flooded with cheap cigars, packed in fancy boxes, which are foisted upon the public to the detriment of the consumer. The quality of our celebrated brands, "Cabla," "Mungo," "Madre E' Hijo," and "El Padre," have been, and always will be maintained, and we would advise the public to insist upon having them, if they wish to obtain value for their money. We do not manufacture a cheap article, and we pride ourselves upon the superior quality of our make. Our sales in the years 1886 and 1887 were more than the total amount of cigars manufactured in the cities of Toronto and Hamilton combined, as shown by the government books of the Inland Revenue Department, thereby demonstrating that our brands have lost none of their original merit, but on the contrary are increasing in public favor. HE BLAMES THE CASHIER.

EX-PRESIDENT BLAIN ON THE BANKING SYSTEM.

Result of His Examination in New York by the Master-in-Ordinary—He Says Mr. Allen Deceived Him Beyond Belief—Intends to be in the City Shortly.

The Central Bank pilgrims to New York are slowly returning to the city after attending the special examination of President David Blain, of the defunct institution. The examination took place in a private parlor in the Marlborough Hotel, one of the new palatial hostelries which are springing up in Gotham. In addition to the Master-in-Ordinary and the witness, there were present Mr. W. A. Foster, for the Central Bank liquidators; Mr. George H. Watson, of Watson, Thorne, Smoke & Clark, for Mr. Hugo Block, and Dr. Morton; and Mr. J. F. Smith, Q. C., for the Ville Marie Bank. The proceedings began at 2 o'clock in the afternoon, and concluded at 7 in the evening.

Mr. Blain was a voluntary witness, coming up from St. Clair that morning to go through the ordeal. He had nobody with him, and, according to Mr. Watson, who has just got in from New York, the ex-financier is looking hale and hearty, in fact, much better than when he passed through the fire when his bank went by the board. He himself denies that he is in good health, and professes the intention of shortly revisiting Toronto.

So far as the examination is concerned, honors between the liquidators and the other parties to it are about even. The result is satisfactory to the holders of the deposit receipts in so far as it goes to show that Cashier Allen was to all intents and purposes the business head of the Central Bank, and that everything was left in his hands by the directors.

Again, however, Mr. Blain stated that Allen had only authority to issue deposit receipts when the cash equivalent had been actually paid into the bank.

Mr. Blain all through had little to add to the statements already given by him to the public. He professed total ignorance of the condition of the bank's affairs, and was particularly severe on Allen, who he claimed had deceived him almost beyond belief. He believes that the directors, with perhaps one or two exceptions, had done their duty in every respect, and that the blame rests entirely on the cashier. He knew a year and a half before the smash that Mr. Cox had an account with the bank, but believed that it was a limited one, and nothing like the amount it turned out to be.

He incidentally mentioned in the course of the examination that the banking system of the Dominion was all wrong, and wanted overhauling. A rigid Government inspection was required, to safeguard the public, that made by the directors not availing much.

In addition to Mr. Watson, Mr. Smith has got back to the city. Mr. W. A. Foster, who has been ill, is expected in to-night, and the Master-in-Ordinary on Thursday evening.

At the Police Court.

Col. Denison yesterday awarded Charles Smith $26 or 60 days for assaulting the policeman who arrested him for drunkenness. Sarah Dorsey, a colored woman, was committed to the Mercer Reformatory for six months for drunkenness. Fred Hunter, stealing a bottle of whiskey, 30 days. William Joseph, for highway robbery on George-street, was committed for trial.

Fanefully Forous.

A firm in Paris have invented a porous glass for window panes. This is good news for railway travellers. A glass which will admit air while excluding dust will be a blessing that is almost to equal the comfort enjoyed by wearers of quinn the shirtmaker's underwear, gloves and English dressing-gowns.

A Rainbow Social.

The Rainbow Social at the Bond-St. Congregational Schoolhouse under the auspices of the Young Ladies' Society was quite a successful affair last night. Professor Bohner accompanied the soloists. Dr. Wild, the pastor of the church, presided. Miss Z. Walters, Miss E. Oliver, Mr. A. Gorrie and Professor Bohner sang a quartette, "Home Sweet Home," very creditably. Miss Walters and Miss Oliver sang a duett. The soloists were Mrs. Deane, Mr. Deane, Mr. Gorrie, and Mr. Leppard. Mr. Kenneth W. Barton was the violinist. Miss Cowley played a piano solo. Readings were also given by Mr. G. P. Kleiser. All succeeded in thoroughly pleasing their audience. The rainbow was a feature of the entertainment, and the young ladies with their many colored dresses formed a pretty picture. At 10 o'clock tea was served in the dining hall of the school house. The anniversary services last all this week.

Another shipment of that lamb's wool underwear just in at $1.25 each or the 4 pieces for $5.00. These goods are without a doubt the best ever offered. Just think, imported, regular-made, double-breasted for $1.25 each. These goods, two seasons back, would be considered splendid value at $1.75 each. To be had at A. White's, 65 King-street west.

Thanks for the Harvest.

There was a harvest thanksgiving at St. Simon's Church, Howard-street, last night. This is a new church, and like a number of English churches in the city, such as St. Mathias, St. Peter's, St Stephen's and others, has a pretty and home-like interior. Last night it presented a particularly attractive appearance. The chancel, as is customary when these services are in progress, was tastefully decorated with flowers and sheaves of corn. The lessons were read by Rev. T. C. Street-Macklin, rector, and the prayers by Rev. John Pearson, of Holy Trinity Church. The sermon, preached by Rev. Prof. Clark, of Trinity College, was eloquent and impressive, and specially suitable for the occasion. The offertory was in aid of the organ fund.

Children's Fur Coats.

A City's Thousands of Idlers.

The stagnation in business, incident to the presidential election, and the number of labor strikes that have made capitalists cautious in launching out into new enterprises, have resulted in there being a larger number of unemployed men in Chicago at this time than for twenty years past. These cause, with the influx of strangers looking for work and the ambitious youths from the rural districts, who, fired with bright tales of sudden fame and wealth in the great metropolis, leave their quiet, kindly old homestead and make their way to the city—not the city that they have read about, but a rushing, struggling, indifferent, over-crowded city. Says The Chicago News: "They can plow a straight furrow or build a stack of hay that will shed rain, but the noise of the city confuses them. They seek in vain for a position, and soon realise that for any vacant place there are a hundred applicants. They will not return home in disgrace and defeat, and so they join the idlers."

There are at the present time 40,000 unemployed tradesmen, artisans and laborers in the city, and discussing the character of the unemployed, The News points out that among them are honest workers who, if they had a chance, would earn their living; but the largest elements are the professional idler and the vicious. The vicious element during the winter months is a menace to the peace of the city and with the unprecedented increase in the number of idlers, from which they are so largely recruited, the outlook is not a pleasant one.

The Ottawa Journal suggests the organization of a bureau where householders may hire men to do odd jobs during the winter months. Lots of people want odd jobs done and lots of people have hard work enough to keep the wolf from the door, and suffer from lack of work. Neither can find the other at the right time, and if some philanthropic gentlemen would undertake to establish some place where idle men who want work could be found, they would do a service to worker and householder.

The Duty on Farm Implements.

Canadian farmers are told that the result of the duty, placed on the importation of agricultural implements, which has built up such immense implement foundries over our country, is that they have to pay more for their farm machinery. The farmers have been told this over and over again, and it has been dwelt upon by Free Traders as a terrible hardship that they should be taxed in such a manner for the benefit of manufacturers. But here has come a dispatch from Washington to the effect that it has been shown that Canadian farmers are sold plows by United States manufacturers four dollars cheaper than the United States farmers can buy them.

This fact might be taken in this way, that if United States makers can sell implements in Canada so cheap, protection does not protect. It does protect while it does not bear heavily on the farmer. It is proof enough that the prices charged by Canadian manufacturers are by no means the extortionate figures Free Traders say they are, when even at a price four dollars less on a plow than they get at home the United States manufacturers are forced to acknowledge, as the Oliver Chill Plow Company did, that they "had little or no trade in Canada."

Canadian Settlers Better Off.

About a year ago, Mr. W. A. Webster, a farmer from Eastern Ontario, took a trip through Manitoba and the Northwest Territories and then through Dakota and Minnesota. He did not travel through the countries in a railway coach, but worked his way more on foot, horseback and buckboard than by railway. The object of his journeyings was to ascertain the comparative condition, modes of living and general prosperity with future prospects of the settlers in the respective countries.

The result of Mr. Webster's investigations has just been published in pamphlet form in which he makes some very striking comparisons between Dakota and Minnesota on the one hand, and Manitoba and the North-west on the other. The home life of the average settler in the former states will not bear scrutiny or comparison with those on the Canadian side. The settlers south of the line have difficulties and hardships to contend with that those on the north never dreamed of. Thus every comparison of the United States West and the Canadian Northwest is favorable to the settler who breaks the sod of our own great fertile prairies.

In the States.

New York Herald, a Cleveland paper, makes what may almost be called a shriek of a squeak. It asks whether "the interests of a national party and the dearest interests of commonwealths must be put aside because a gang of politicians are high in temper over a few offices—the right to clean streets, put out fires, hang murderers, or do on? Must the cause of oppressed and burdened labor give way to the emergencies of squads of office-seekers calling themselves 'Halls'?" All which means, to put it short, that there is a terrible split in the Democratic party in New York city. For The Herald is not hitting at the Republicans here, not much.

The New York Tribune charges that the Cleveland Government has been sending millions upon millions of public money to centres of speculation, thus making it easy for speculators to boom the price of wheat. No policy that would boom home manufactures can be entertained, so the government is shut up to the policy of encouraging fictitious buying and selling. This is called "helping business," but it does not make a day's work for a single American workman. It seems to us that The Tribune is on the right track here, and it suggests something, too. Did "Old Hutch" know, when he was making his corner, that his design was going to be so powerfully favored by Government action? Nobody only himself can tell; but the seeming connection of the Treasury with the conspiracy for making bread dear does not tell in Cleveland's favor just now. You may say: Oh! the farmers are getting the benefit of it; that will tell the other way. We reply: "Yes, perhaps the farmers get ten cents on the dollar of it, at the very outside. The rest goes to the speculators."

The Globe urges Postmasters to stop the delivery of certain letters or circulars from Dublin having reference to a lottery scheme. The World cautions Postmasters against constituting themselves a self-appointed agency for the suppression of vice. The Act 46 Vic., Cap. 18, makes "the posting of letters or circulars concerning an *illegal* lottery" a misdemeanor. Hence has the precocious reporter gathered the idea that postmasters can stop, or open, or otherwise tamper with letters passing through their offices. Postmasters who wish to run the risk of those penalties which attach to the interception of letters may of course obey The Globe; but the lottery, mind you, has to be *illegal* in the country where the letter originates: Louisiana, for instance!

Manitoba Wheat and Barley—The Mail's Championship of Manitoba Farmers.

In its unscrupulous advocacy of Commercial Union, The Mail is constantly indulging in the most reckless assertions and the absurdest contentions; and that in the very face of the facts which are transpiring under its own observation. In its reference to Manitoba interests its conduct in this respect is especially glaring. Although during the crop year of 1887-88 the older provinces furnished a market *free of duty* for more than seventy-five per cent of the wheat crop of Manitoba and the North-west provinces, and although, as The Mail knows, the millers of Minneapolis, Milwaukee, Chicago, &c., found the Canadian market so much better than any in the United States, that they exported large quantities of this flour to Canada, paying on same *50 cents per barrel customs duty*, still in face of these facts The Mail contends that Minneapolis, Chicago, &c., offer better markets for Manitoba wheat than are to be found in the older provinces and England. It tries to persuade the Manitoba farmer that the restrictionists, as it calls the National Policy supporters, are retarding the growth and crippling the markets of our Northwest; when every miller and dealer in the Northwest knows that this so-called restriction policy added largely to the value of every bushel of their wheat by shutting out American flour except on payment of duty. The Mail knows perfectly well, that prices of flour in Canada must have been higher than export value, and higher than in any United States market, otherwise American millers would not have paid 50 cents per barrel duty for access to our markets. The Mail knows also that this excess of value in Canadian markets would not have maintained for one day, if American flour had been admitted free of duty. But with The Mail, the American market is the best market under the sun for everything that grows, and the Canadian market counts for nothing.

But when The Mail undertakes to give the farmers of Manitoba and the North-west the benefit of its thorough experience in and acquaintance with the barley trade, it is difficult to tell whether its ignorance or presumption is most conspicuous. It says that Manitoba produces the finest barley in the world, and that but for the United States duty of 10 cents per bushel, it could find a market in that country for twenty million bushels. That Manitoba can with proper care and attention raise good barley may be true, but hitherto not one-fifth of its production has been of a quality fit for malting, at any price. To say that Manitoba barley is fit to rank with the fine Chevalier barley from the Saale district in Europe, or from Austro-Hungary, or France, or from California, or with the fine qualities of brewing barley raised in England or Scotland, is sheer nonsense, and shows utter ignorance of the subject. That the United States will furnish a market for twenty million bushels of Manitoba barley is equally absurd, and shows that the writer knows very little about the expansion in late years of barley production in the North-west States and on the Pacific coast. The barley crop in the United States in 1887 was the shortest crop raised in last five years; the same year's crop in the Province of Ontario was under an average; the beer trade of the United States in 1887-88 was the largest ever experienced; and yet with the inferior crop there was barley enough and to spare, and the close of the barley season saw that grain perfectly unsaleable. Still The Mail writes as glibly of throwing on such a market an additional supply of twenty million bushels, as if millions were only thousands.

With its fine, rich soil and generally dry harvest weather, Manitoba may be able to produce with success fine quality of the Chevalier or 2-rowed barley, such as is raised in the countries already referred to. The English brewers want barley of a large berry, 54 and 56 pounds per bushel and well saved, and such barley always commands high prices, the price per quarter being often higher than for finest wheat. It would be well that Manitoba farmers should experiment extensively in this direction; but no one conversant with the barley trade would advise Manitoba farmers to look for much profit in raising barley for the American market. The Mail professes to be a commercial newspaper. It knows or ought to know that the great State of California, which raises nearly half of all the barley produced in the United States, has generally found a better market for its choice barley in England than it could find in the Eastern States. This season its exports to England will largely exceed those of any previous year. Now, California has no duty to pay on its exports to Eastern States, and even in this position finds England the better market; and if England is the better market for California barley, why not for Manitoba barley? And if England is really the natural and best outlet for our Northwest barley, what advantage would Manitoba gain for its barley crop through Commercial Union?

The Mail is lusting after the flesh pots of Egypt, and can see no good thing in Britain or anything that is British; and would barter Canada and its heritage and institutions for a few Yankee eagles, and most of them counterfeits at that.

Bismarck and Public Opinion.

Whatever Bismarck may say, everybody understands that his real objection to the publication of the late Emperor's diary is that it must encourage the spread of liberal opinion in Germany. Now is Germany's great statesman seeking to distinguish himself as the Mrs. Partington of our time, trundling a mop against the advance of the Atlantic ocean? It looks like it. But there are certain events recorded in history which might suggest to the dictator that he may be drawing too near the danger line. Once the English cut off a king's head, so did the French a good while afterwards. Now, is it utterly absurd to suppose that the Germans might perform the same trick of legerdemain some day? We should say that it is not so very unlikely a contingency after all.

Here are facts. England has had her Reform bill, now being followed by various *sequelæ*, which may soon overshadow the original measure. Italy, but yesterday, as it were, under despotism, has already made such advances in constitutional government as ought to make Bismarck ashamed of his country when he compares the two. And then, think of the millions of Germans in the United States. Their influence on the Fatherland amounts to something these days, we fancy. Bismarck is playing a dangerous game; but perhaps he knows best.

The House of Industry and Its Management.

The Board of Directors of the House of Industry has greatly improved its manner of conducting business since The World mildly criticised its previous lack of order and punctuality. There is room for further improvement, and members should not imagine they are persecuted because this journal, recognising the value and importance of their work, desires to see it done decently and in order. All last winter and through the summer the directors have been urged to provide means to deal with all classes of tramps. The Mayor gave them frequent reminders of what was expected of them, and the City Council backed up the Mayor by voting a sum of $2000 to aid in trying the labor test. The Board allowed the summer to slip by, and now when the tramps are arriving in the city it is decided to try and run up in hot haste a bill of $10,000 or $12,000 without having had a day's experience of the plan they propose to adopt, and the City Council is to be asked to grant the money and pay the interest. Practical men know that buildings put up under such conditions are seldom erected, to put it mildly, in the best manner, and that an experimental undertaking should not assume the form of permanency with the necessary large expenditure. The Managers should experiment with appliances which can be speedily and cheaply erected.

The United States Capital At Ottawa.

A correspondent to a New York paper propounds a plan for the conquest of Canada. It is original and promising, as original as that plan for the reduction of Detroit given to the world by the gallant young captain of the 24th Kent battalion, and as promising as the campaigns of invasion sketched by Col. Denison and Major Sam Hughes. Of course the correspondent presumes Canada will be subdued by "a call for four hundred thousand men," and "a law parcelling Canada into one hundred and sixty acre tracts for the soldiers," with another to "sell the railroads at auction" for the reward of the soldiers, will be passed. The only difficulty that occurs to the correspondent is the assimilation of the French Canadians; "they cut wages."

But The New York Herald upbraids the sanguinary writer who would plunge the United States nation into the horrors of a pension list—the war would be a bagatelle. The Herald recalls the fact that they have paid a thousand millions in the way of pension bills and have a present annual list of eighty millions. It asks, why conquer Canada with arms and run the risk of pension bills; why not act on the principle that King James the Sixth of Scotland did when he became King of Scotland and moved his capital from Edinburgh to London, thereby making both countries loyal to the new dynasty. Ottawa, The Herald points out, would be what Washington is not, a safe and healthy capital. Why not move the White House up and plant it on the banks of the Rideau? Now the New York papers begin to discuss this thing as they should when they talk of a possible future annexation of the United States to Canada.

The Toll Gate Nuisance.

What has the Ontario Government been doing about the toll gate nuisance since last session of the Legislature when they took it into their serious consideration? The excuse for not attending to the abolition of the nuisance was that it presented many difficulties. It was not attempted to defend them. No one can be found to say a good word for the relics of barbarism and if a government ever had the authority of unanimous public opinion for legislation the Ontario Government have it for such an act as will unhinge the bars that permit companies and individuals to extort fees for travelling on the public highways.

The tobacco farmers of Kentucky are suggesting that no tobacco crop be planted by them next year. It is not an attempt to create a corner, it is simply that they are downhearted; they cannot compete with the Havana de Cabbage article.

Those Yankee tail-twisters must look after that British lion. While they have been resting he has been skirmishing around, and last week seized over one hundred thousand square miles of land in different parts of the world.

New Map of the City.

S. R. G. Penson & Co.'s new wall map of the city of Toronto and suburbs embraces more territory than any map of the city ever published. The immense growth of the city can be at once understood by a look at this map. The territory shown in the map extends to Eglinton on the north, Lambton on the west and Scarboro town line on the east, this being the entire breadth of the township of York. The map contains all the new surveys and gives the numbers of the registered places, making it invaluable to everybody interested in real estate. There is a large and complete index containing over 1000 streets and figures in the margin, by which any street in the city or county can be located at once. All the public buildings, schools, churches, &c., are shown, also the street railway lines, new C. P. R. lines, Don straightening, the new village of East Toronto, the newly adjusted city boundaries and many other features. The map is well engraved and printed. The map is published by S. R. G. Penson & Co., 4 Adelaide-street east, Toronto.

Have you ever been to Austria?—If not, you have no idea how to dress little boys. There you see the best dressed children in the world. The Army and Navy have just passed into stock a lot of little boys' Austrian overcoats. The prices are very low and the style superior to anything made in this country. The fact is the Army and Navy seems to be away ahead in boys' clothing of all kinds. The young fellows who are beginning to stay out till ten and sometimes see a girl home from church, or a concert, all buy their clothing at the Army and Navy.

West Toronto Junction News.

A meeting of the directors of the Mechanics' Institute was held Monday night in the reading-room. The object was to devise means to increase its membership. A select library has been provided. All the daily papers are on file.

The committee appointed to further the interests of the Elevator Company are busy with their work. Arrangements are being made for the purchase of a lot on which to erect the building, and it is to be hoped that a market will be established in sufficient time to catch at least a portion of the fall trade.

WON BY THE FRENCH FILLY

TENEBREUSE, A 12 TO 1 CHANCE, CAPTURES THE CESAREWITCH.

Racing at Jerome Park and Latonia—National League and American Association Games—Football at the U. C. C. Grounds—Other Sports.

LONDON, Oct. 9.—The racing attraction at the Newmarket second October meeting, and in fact, in England, to-day was the Cesarewitch Stakes at two miles two furlongs and twenty-eight yards, and owing to its open character it commanded more attention than usual. The field was a large one, twenty-three facing the starter. It resulted in somewhat of a surprise, being won by the French-bred filly Tenebreuse, who carried the top weight, while the favorite Trayles could get no better than third. Tenebreuse was ridden by the old veteran, Tom Cannon, who rode Robert the Devil, a winner in 1880, and Bendigo, second last year. The betting against the winner was 12 to 1, with Mill Stream, who finished second, at 40 to 1, and Trayles 4 to 1. The conditions:

The Cesarwitch stakes, a handicap of 25 sovs each, 10 ft, with 500 added; the winner of the Doncaster St. Leger, a weight to be fixed on the publication of the handicap; the winner of a handicap value 450 sovs, after Sept. 5, 10 lb. of any other handicap 5lb extra; the second to receive 200 sovs, and the third 100 out of the stakes; entrance 5 sovs. Cesarewitch Course (two miles two furlongs twenty-eight yards).

M. P. Aumont's ch f Tenebreuse, 4, by Mourie or Saxifrage—New Star, 124 (T. Cannon) 1
Mr. G. Lambert's ch m Mill Stream 5, by Wisdom—Mill Race, 96 (——) 2
Capt. Machell's ch c Trayles, 3, by Restless—Miss Mabel, 110 (Robinson) 3

The expedition of the French mare Tenebreuse to England has once more resulted in a French victory for the Cesarewitch. Those who watch French tactics had their suspicions aroused by the way the mare performed at Ascot, and at later meetings. It was evidently the game to send the mare over quite unfit, to run her as if she had lost all form, and then to descend on the British ring with one fell swoop in October. This has "come off," and Waterloo is once more avenged. A gentleman who saw her at Ascot says she was a great long raking bag of bones in a chestnut skin.

Tenebreuse, who was bred in France by her owner, M. P. Aumont, only ran once as a 2-year-old, when she made her debut in the Prix de Masaniers at the Chantilly Autumn Meeting in which she was unplaced to Belinda. Last year, however, she made a promising re-appearance in the Prix de Bagatelle at Paris, which the filly won easily. She next carried off the French One Thousand, wherein she turned the tables on her old conqueror Belinda, who finished second. After winning the Grand Produce Stakes at Paris on May 8 Tenebreuse started favorite for the following week for the French Oaks, but was beaten easily by both Bavarde and La Jarretiere. Her next essay was for the Grand Prix de Paris in June, which she won, defeating a field of ten, including the English horses The Baron and Merry Hampton, the former finishing second. Tenebreuse was not beaten again that year, winning the Prix Special at Caen, Prix Special at Deauville, and the Prix du Prince d'Orange at the Paris Autumn meeting. This season she started twice in France, winning the Prix Rambow at the Paris Spring meeting, and ran unplaced in the Prix d'Apremont at Chantilly. She was then taken to England and ran twice at Ascot and once at Newmarket unsuccessfully, her next appearance being that of yesterday.

Racing at Jerome Park.

NEW YORK, Oct. 9.—Racing was continued at Jerome Park to-day with fine weather and a large attendance. The track was greatly improved. Results:

First race—Purse $700, for maiden two-year-olds. D. D. Withers' Majority filly won, Gendarme 2, Kern 3. Time, 1.19¾.

Second race—Katonah Handicap, for 3-year-olds; 1 mile. McClelland & Co.'s b c Badge won, Detective 2, Anomaly 3. Time, 1.46.

Third race—5 furlongs. Winning Ways won, Sallie 2, Bonnie Bounce 3. Time, 1.04½.

Fourth race—1½ mile. Pink Cottage won, Panama 2, Catalpa 3. Time, 1.57¾.

Fifth race—6 furlongs. Come-to Taw won, Hindoocraft 2, Sportsman 3. Time, 1.18.

The Winners at Latonia.

Toronto Hunt Steeplechases.

The entries for the Toronto Hunt Club races to be run at Woodbine Park on Saturday next close to-night. The committee has very wisely decided to add an open race to the program, which will also close this evening. It will be a handicap a mile and an eighth and will certainly prove a great drawing card to the meeting as Harry Cooper, First Attempt, Drake Carter and Wild Rose will do battle. The hunt races include the Green Steeplechase, Hunt Cup, Maiden, race on the flat, Hunters' Steeplechase and Hunters' flat. The entries should be addressed to W. T. Murray, Sec'y., 17 King-street east.

RESULTED IN A DRAW.

The Football Match Between the Hamilton Colts and U. C. C.

A football match was played yesterday afternoon on the Upper Canada College grounds between the Hamilton Colts and the College boys, which resulted in a draw in favor of the home team. The score stood Hamilton 13; U. C. C. 14. There was a fair assemblage to witness the match, which was very good. Nothing brilliant, however, was done, though the College boys have greatly improved since their last match. The teams were as follows:

Upper Canada College.		*Hamilton Colts.*
C. K. Wilson	Back	J. Young
A. MacLaren	Half-Backs	H. McGivern
F. Wesley		F. Martin
R. G. Cameron		J. Martin
G. Boyd	Wings	W. Stewart
H. F. Fleming		J. Carpenter
W. N. Ferguson	Quarter-Backs	H. Legatt
D. McLaren		
R. D. McMillan	Forwards	J. Gillies
A. Vickers		D. Martin
G. Bunting		E. Hobson
J. Habeshaw		E. Simpson
G. Clays		W. Bruce
H. Burr		B. Forsyth
C. Mackenzie		A. B. Mackay
		H. Garrett

Referee—M. Boyd. Umpires—C. Pardee and W. Bunting.

Upper Canada College won the toss and played with the wind, but did not seem to benefit much by their good luck, and on the contrary were forced to rouge and allowed J. Martin to gain a touch down for the visitors, though was not converted into a goal, before they had sheaded down to work. After some scrimmaging Cameron secured a touch down for the home team. The kick tried by McLaren was unsuccessful. On resuming a maul in goal shortly afterwards occurred, in which the College boys came out ahead, and they also secured a rouge before half time was called.

After a short interval the ball was kicked off and the home team was kept moving for a time. Wesley relieved his side by a good kick, but in a scrimmage which ensued shortly afterwards, F. Martin got away and secured a touch down, which resulted in a goal by McGivern, which made the score 13 to 9 in favor of the visitors. Some very sharp play was made on resuming, in which Bunting got a try, which equalized matters. The kick was a poor one and did not come off. The College boys now had the best of the play and succeeded in putting a point to their credit by a rouge, and when time was called it was agreed by the captains to call the game a draw.

O'Connor and Teemer Laid Up.

NEW YORK, Oct. 9.—Madison Square was almost deserted to-day when Ed. Plummer ordered the twelve road-scullers to take their places on the track. Only ten assumed their places on the line, for O'Connor and Teemer were laid up with sore hands. The score at 6 o'clock this evening was as follows:

It is said that the Toronto Club has sold Decker's release to Philadelphia.

There are no National League games scheduled for to-day.

The only American Association games scheduled for to-day are: Louisville at St. Louis, Kansas City at Cincinnati.

Both Baltimore and Boston are trying to purchase Visner's release from the Hamilton Club.

The Hamilton Baseball Association will take Bennett's and Wood's release, provided Pete surrenders his claim to part of the purchase money.

Kelly will play no more with Boston this season, his wife's protracted illness having called him home.

THE HOUSE OF INDUSTRY.

The Casuals—Labor Test—The City's $2000—The Management Want $10,000 More.

A special meeting of the Board of Directors of the House of Industry was held yesterday afternoon in the board room. There were present: Mr. Alcorn (presiding), Rev. Dr. Rose, Rev. Dr. Potts, Revs. H. Johnston, D. J. Macdonnell, A. H. Baldwin, Messrs. McMurchy, Bailie, Love, Goulding, Duckett, C. Burns, and Mr. Taylor, the Mayor's Relief Officer.

The "Casual" committee, through their secretary, Mr. McMurchy, presented the report which was published exclusively in The World on Monday. Rev. A. H. Baldwin explained that the $6000 they had voted exclusively for the "labor test," consequently the committee had to arrange for the bathing of "casuals," the disinfecting of their clothes, etc. The plans of Mr. M. Hall were fully explained by Mr. Baldwin, who stated that the tramps would be looked after "like parsons."

A discussion ensued on the means of raising the $10,000, and it was made clear by Rev. Dr. Rose, Rev. Dr. Potts and Mr. Love that the Board could not possibly raise the money on the mere promise of the city to pay the interest. Rev. D. J. Macdonnell proposed that the Board proceed with the building provided the City Council or others raise the money. In supporting his resolution the rev. gentleman said the city ought to raise it as it was a public matter. Rev. Dr. Potts seconded and said it ought to be done by the city, for if the public were called upon it would be the same score or two of people who we always strive. The resolution was agreed to, the "Casual" sub-committee were thanked for their work in the matter and instructed to continue negotiations with the Mayor.

Mr. Bailie urged on the Board the necessity of doing something on a smaller scale pass any hitch arose with the City Council about the money, or if it was impossible to get the building ready this season.

Rev. Mr. Baldwin stated that the labor test would be applied immediately.

The Chairman complained that the Board was criticised and even persecuted ["For righteousness' sake," said Dr. Potts], whilst other charitable societies were praised and flattered.

Dr. Potts consoled the chairman by advising him to have obnoxious reporters subjected to the "bath test."

No further business was transacted.

The Cook's Unfortunate Marriage.

There was arrested last night in Owen Sound one Joseph Fletcher, a purser on one of the boats plying to that port, on a charge of bigamy. The complainant is wife No. 2, who is at present employed as cook in the National Club. Her maiden name is Annie Campbell, and she is worth considerable money. She married the prisoner in Rochester after a short courtship, and right here is a very nice point in law. The second marriage, which constitutes the crime of bigamy, was celebrated in the States, but the charge is laid here, and Fletcher will be tried here. It is a moot point whether the Canadian court has any jurisdiction over him. It is claimed by the counsel for Mrs. Fletcher No. 2 that if all the witnesses can be got together here in Toronto the man can be tried here. The warrant for Fletcher has been out for some time, but it was only yesterday, that it could be executed. Detective Cuddy leaves for Owen Sound to bring him down to-day.

Festive Sons of England.

Kent Lodge No. 3 S. of E. dined together last night in "Marble Hall," Jarvis-street. Bro. Reeve made an efficient chairman. He was supported on the right by Bro. Dr. Pollard, Grand President; on the left by Past Grand Bro. Caddick, Officer J. W. Carter, and Bro. Inchcliff, Grand Treasurer. A letter of apology was received from Mayor Clarke as to his inability to attend. The loyal and patriotic toasts were duly honored. Mr. Thorpe rendered "The Village Blacksmith" in quite a professional style, and there was good singing of the comic order by Bro. Crozier. The veteran Bro. Lomas made a loyal and humorous speech. Bro. Lush, who has catered for the lodge for years at Marble Hall, was the generous host and received hearty thanks for his catering.

Y. M. C. A. Notes.

A "Medical Talk" will be given by Dr. W. B. Geikie; subject, "The Proper Care of Body and Mind," on the 23rd inst.

On the evening of October 16 the first reception of the season will be given to the students of the city. As there are about 2000 in attendance at the several colleges and schools, a crowded attendance is expected. Short addresses will be delivered by Hon. S. H. Blake, Hon. G. W. Ross and the President, Mr. S. Caldecott. There will be instrumental music and the building will be thrown open for inspection.

Mr. J. R. Colville has been appointed to succeed Mr. Gooch, assistant secretary, who has gone to Brockville to be general secretary of the association.

The anniversary of the association will be held on Thursday, November 8, in Association Hall. Dr. Dowlin, the eloquent Baptist minister of Cleveland, is to deliver an address.

THE WORLD OF LONDON.

QUEEN VICTORIA REVELLING IN THE EARLY WINTER.

Gossip About German Royalties—Dr. Geffcken and Bismarck—Improvements in the Phonograph—Mme. Trebelli Convalescing—Lord Paget's Wealth.

LONDON, Oct. 9.—The Queen is enjoying the best of health, revelling in the early winter with its unheard of cold. She comes south in November. She has been taking drives and walks daily during the heavy snowstorms and cold of last week and has been putting the strength and endurance of her ladies-in-waiting to a very severe test.

The death of Mrs. Hull at Windsor on Sept. 24 was a great sorrow to the Queen and her family. She was nurse to the royal children from the time the Prince of Wales was three months old till 1858 and had frequently taken care of the children of the Empress Frederick, the Prince of Wales and the Grand Duchess Alice of Hesse. After her marriage she lived at Windsor and was often visited by the Queen during her illness. Her little house was a model of neatness and was full of presents given during her life by the Queen and the royalties.

Dr. Geffcken has been a great deal in England, and has some friends here who are much attached to him. Though conservative in his leanings, he has taken on all occasions the opposite side to Prince Bismarck, with whom he is very unpopular. The real secret of his disfavor with Prince Bismarck and the Emperor lies in the fact that he was a strong outspoken admirer of England and English institutions.

Sir Morell Mackenzie's book on the Emperor Frederick's illness will create a lively state of things if he publishes all he can—all he would be justified in publishing—in self-defense. If he tells the true story of how the operation for tracheotomy was performed at San Remo, and how the canula was inserted by Dr. Bergmann, and what was the immediate consequence of each operation, he will tell a story that will strengthen the belief that had the Emperor been an ordinary patient, he might still be living.

A great deal of nonsense appears about the postponement of the Empress Frederick's visit to England. The personal movements of the Empress are said to be subject to pressure amounting to coercion. It is a pity that the offensive fictions should be circulated. The fact is, the empress was so much engrossed in arranging her affairs that it was impossible for her to visit Sandringham last month. It was not worth while for her to come over when all of her pressing business had been disposed of, as she wished to be at Potsdam Thursday week—the 57th anniversary of her husband's birthday. Her Majesty also decided to pass a fortnight at Kiel with Prince Henry, after which she goes to Berlin to establish herself in the crown princess' palace. On Nov. 12 she starts for England.

Emperor William has privately intimated an intention of visiting England next year, but not before the middle of June. He will visit the King of the Belgians at Brussels about the same time.

The latest phonographs received by Col. Gouraud are much superior to their forerunners. The voice can now be reproduced in sufficient volume to be heard all over the room. Col. Gouraud is busily engaged in making up records for America. Mr. Edison will soon be able to hear a song by Sim Reeves, a sermon by Spurgeon, an original composition by Sir Arthur Sullivan, and Queen Elizabeth's thanksgiving speech as delivered in Drury Lane by Miss Ada Neelson.

Mme. Trebelli, after a prolonged and severe illness, is entering into convalescence. With an exceptionally vigorous constitution she will keep on. I have known her for 25 years, and never knew her to be ill before.

Lord Alfred Paget's intimate friends were surprised to learn that he died rich. His personalty is sworn at £107,000.

City Hall Small Talk.

The blockparving of Sackville-street was only finished last week. Yesterday it was being torn up to put in private drains and water services.

The Leader Lane arbitration is approaching a conclusion. To-day argument will be heard on the part of the property owners and the city.

The Drill Shed arbitrators held another session in the Court House yesterday.

The Mayor, Ald. Carlyle (St. Andrew's) Ald. Johnston and City Engineer Sproat visited Toronto Jail yesterday afternoon to take a glance over it before the work of improving it was commenced.

Special Examiner W. H. Cross, paid a preliminary visit to the Board of Works yesterday afternoon.

The completion of the Bathurst-street block-paving is delayed owing to the difficulty experienced in securing a proper supply of cobble stone.

The mistake in the Island railway contract will not add a fraction to the cost of the work.

The question now being asked in municipal circles is, whence comes the delay in naming the Street Commissioner?

Ald. Denison's sub-committee on Parks was to have met yesterday, but failed for lack of a quorum.

It is understood that the High Court of Justice in Osgoode Hall will take official notice of Ald. Hallam's remarks touching Mr. Justice Robertson.

The sub-committee of the property, Ald. Baxter in the chair, commenced yesterday to discuss the question of purchasing clocks for the different fire halls. It was determined to write to the Old Country and Hamilton to get information on the subject.

The Exhibition Committee meets at 3 o'clock to-day to discuss the question of renewing the Exhibition Park lease.

The Committee on the Consolidation of the By-laws will meet at 3 to-day.

Accountant Shutt when he heard of the Gillespie resolutions shrugged his shoulders and remarked, "When they got through their last attack on me, they had to pay me $200 for extra work on the books, and I will see that they do the same this time. Somehow those who attack me always come to grief. The last man who did so cut his throat after family prayers."

Forty men are at present employed on the Rosedale sewer.

The Troy firemen who visited Toronto during Exhibition time, have written to the City Clerk expressing thanks for the reception tendered them.

Make Ottawa the Capital of the United States.

From The New York Herald.

Now that philosopher Sherman has proposed that Canada should become a part of the United States, and another philosopher from Staten Island suggests that we assume the Canadian debt, why should we not encourage these dear white sheep from the cold, hardy latitudes to come into our fold by some decisive invitation? Is is not much of an inducement to pay the Canadian debt, because we would impose upon the Canadians more than their debt in our pension bills. We should extend a real, genuine, comprehensive inducement, one that would awaken Canadian pride as well as stimulate

LONG WHEAT IN LIVERPOOL

THE GREAT ENGLISH MART THE FAVORITE PLACE FOR BUYING.

Chicago Wheat Declines—Stocks in Toronto, Montreal, and New York—Money—Business Troubles—Foreign and Home Grain and Produce Markets.

Speculation in wheat on the long side is being transferred from this side of the Atlantic to Liverpool. The view taken by dealers is that the United States and Canada having sufficient wheat for home consumption with some over and above for export, prices must be fixed on an export basis. In Liverpool, the value of the grades considered, wheat is selling at no more than it is in Port Arthur, at not so much as in Duluth or Minneapolis, and up to yesterday, at no more than in Chicago. It is concluded from this that if wheat is a purchase at all it is a purchase in Liverpool. A number of buying orders have been sent across the ocean from Toronto and Montreal during the past few days.

A sharp decline in wheat took place in the Chicago market yesterday. All of the options receded and closed weak. October opened at $1.13½ and closed at $1.02⅞; November opened at $1.14 and closed at $1.10½; December opened at $1.17 had closed at $1.11½ and May opened at $1.17½ and closed at $1.12½. Cash wheat is still too high to meet export prices.

The Board of Trade dinner will be held during the first week in January, and arrangements are in progress to make it the most representative gathering of Ontario's business men that has ever been held. There are 916 members of the Board of Trade alone. These, and prominent business men outside of the pale, will be invited.

THE MONEY MARKET.

The local money market is unchanged. Call loans on bonds and debentures are quoted at 4 per cent; call loans on stocks, at 5 per cent; commercial paper, at 6 and 7 per cent. and loans on real estate, at 6 and 8 per cent.

Montreal rates are: Call loans, 4 per cent; commercial paper, 6 to 8 per cent.

The Bank of England rate remains at 5 per cent.

Call money in New York was quoted at 2 and 3 per cent.

Bradstreet's says of the New York money market:

Increased strength has been the feature of the New York money market for the past week. This, however, applies to rates rather than to any scarcity of funds, as the government disbursements and bond purchases are fully equal for the moment to any withdrawals for the interior. The influence of the Chicago wheat corner, however, was disturbing in financial circles, and the continued strength of the London money market, and an advance of the Bank of England rate to 5 per cent., had a further strengthening effect. While the demand for funds for commercial purposes is not urgent, the disbursement on October 1, extraordinary, the disbursement on October 1, including the payment of New York city taxes, were sufficiently heavy to have considerable influence on the loan market. These conditions were most evident in connection with call loans. The range, as shown by the quotations for bankers' balances on the Stock Exchange, was between 2 and 7 per cent., though the higher quotations were rather the result of manipulation. The great bulk of loans, however, were effected at between 2 and 3 per cent., with the average, as fixed by institutions, at 2½ to 3 per cent. Time loans continue to be inactive, with a scanty supply of money offered in that way and rates were on a basis of 4 to 5 per cent. for six months' money. Commercial paper is dull and firm. Notes are not abundant, and the lenders hold rates pretty firmly. Best city names and endorsed bills receivable may be quoted between the extremes of 4½ to 5½ per cent., and single names and western notes are 5½ to 6 per cent.

CHICAGO, Oct. 9.—There was fair trading in wheat on speculative account at lower and irregular prices. The sentiment to some extent has changed to the bear side and there was more general disposition to sell. Local traders sold freely, and the buying was credited to a considerable extent to outsiders and to parties who had sold yesterday or early this morning, and who had profits in their transactions. But the feeling was unsettled and fluctuations ran over a wide range. The decline from yesterday's outside point was 10½. Every decline on the early down turn was met with "stop orders" which helped to depress prices.

A lady from Syracuse writes: "For about seven years before taking Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I suffered from a complaint very prevalent with our sex. I was unable to walk any distance or stand on my feet for more than a few minutes at a time without feeling exhausted, but now I am thankful to say, I can walk two miles without feeling the least inconvenience." For Female Complaints it has no equal.

Past and Present Patriotism.

Editor World: Is not the matter of relics exhibited by the York Pioneers a little overdone? Is it not possible to rely too much on past events for exhibitions of Patriotism and Valor and forget the duties of the present? There are patriotic crowns for the winning in the affairs of to-day. Such things as General Brock's hat were on exhibition at the Fair, but who of us cares whether he wore a hat or not as long as he did his duty to his country and with his last words encouraged the brave York Volunteers? It is the noble spirit we revere. It is the perseverance and courage displayed that we hold in remembrance.

Struck a Match on His Pistol.

RALEIGH, N. C., Oct. 9.—A singular death occurred in Gates county. Ben Gaulting, colored, carelessly struck a match on his pistol to light a cigar. The pistol was fired, the ball passing through him, killing him instantly.

Jos. Beaudin, M.D., Hull P.Q., writes:—"Dr. Thomas' Eclectric Oil commands a large and increasing sale, which it richly merits. I have always found it exceedingly helpful. I use it in all cases of Rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and, in two days I was entirely relieved from pain."

Tried Four Times to Hang Himself.

NEW YORK, Oct. 9.—Emil Schroeder was arrested and locked up for being drunk. When left alone Schroeder hanged himself from the bars of his cell door with a leather belt; tried to strangle himself with an undergarment; tried to kill himself by tying one sleeve of his coat around his neck and the other to the door, and then attempted to use his trousers as a rope. Each attempt was frustrated by the doorman.

At Home and Over the Sea.
H. M. Jacobs of London, England, writes: "I have derived beneficial results to such an extent and with much pleasure confidently recommend St. Leon Water to all suffering from kidney or liver complaints."
Also says Joseph Lawson, city: "By the advice of one cured by the use of St. Leon I drank, got entirely relieved of bad rheumatism pains, etc.; toned up to perfection; I strongly recommend St. Leon." 3

An Editor Attacked.

ANNISTON, Ala., Oct. 9.—An attempt was made yesterday to assassinate W. H. Edwards, editor of The Hot Blast. The trouble arose out of the war waged by The Hot Blast in favor of enforcing the prohibition law. Edwards was shot in the arm by Will Lacey, and Chappel and Tripney were also wounded.

Fatal Accident Near Inwood.

INWOOD, Oct. 9.—Wm. Brown was sharpening a saw at Holmes, Moore & Cartwright's mill the other day and notified the engineer to start the machinery. Brown did not get out of the road in time and was thrown forward against the saw, cutting off his leg and into his body. He died to death in a few minutes.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty-five cents.

Can't be Kept Out.

SAN FRANCISCO, Oct. 9.—All precautions taken by the Government to check the influx of Coolies on the new "American citizen" dodge, are to no purpose at Port Townsend, W.T. Sloop loads of smuggled Chinese are arriving every night from British Columbia. The customs authorities are powerless owing to their small force to prevent the influx. Seven Chinese who were illegally landed in this country were captured on Friday night, and after trial were ordered to return to Victoria.

Deliberately Asphyxiated Himself.

NEW YORK, Oct. 9.—Joseph B. Smith was found dead in his room yesterday. The room was filled with gas, and there was every indication that it was a deliberate case of suicide. Smith's vest was stuffed in a hole in the transom window to prevent the gas from escaping from the room. When his body was discovered life had been extinct some time.

"LORD" MONTGOMERY DEAD.

A Toronto Colored Barber Who Eloped With a White Girl.

Many people in this city will remember the elopement last spring of "Lord" W. H. Montgomery, the big colored barber of 6 Richmond-street east, with a fine looking white girl who had been employed as a waitress in the Bay Horse Hotel, just around the corner on Yonge-street. Montgomery was the dude of Toronto's colored population, was always dressed in the highest fashion, and his rotund figure and jaunty style made him remarkable in the streets. When he went away he left a wife and family here.

The ill-assorted pair went straight to Oshkosh, Wis., and there Montgomery opened a barber shop in a leading hotel, all the while living with his white girl, who, by the way, originally came from Napanee. A couple of weeks ago he suddenly took ill in the shop, went home and died the next day, refusing medical aid; the cause of death being diabetes. The girl was inconsolable, and is said to have shown excessive grief.

BISMARCK'S SCHEME.
The Old World to Be Partitioned by the Three Kaisers.
NEW YORK, Oct. 9.—The Herald prints a sensational despatch from Berlin which says: Prince Bismarck wishes to consolidate the vast fabric of his fame by one crowning master stroke.
To-day the entire mechanism of Prince Bismarck's workshop is directed against England. When the mine is laid and all is prepared, he will single out England's vulnerable points and strike at them with the crushing power of a mastodon and the rapidity of a rattlesnake. What are England's vulnerable points? Her eastern possessions; her enormous trade with the East; her maritime commerce all over the world. Let any one of these be destroyed and the whole structure raised by the patient toil of centuries will come down with a crash.
The eventual annexation of the delta of the Rhine, including Holland, Luxemburg and part of Belgium, by Germany is already tacitly acquiesced in by Russia and by Austria. Holland's colonies go, of course, with Holland herself. This is Prince Bismarck's final grand conception.
In consideration of their acquiescence Russia and Austria are of course to have adequate compensation. Russia is to have a perfectly free hand to take whenever she chooses Constantinople, the eastern half of the Balkan Peninsula and all she can grasp in Central Asia, Persia, and India. Austria is to have the western half of the Balkan Peninsula and Salonica. Each empire will have a magnificent water front.
Prince Bismarck's secret now revealed, is to isolate England; to unite Russian and German fleets against England, while Russia strikes at India; to keep France in check by giving her a slice of Belgium; to work with the Dutch colonies and newly acquired German coaling stations in the Indian Ocean and Pacific, as a basis to oust England from her present colonial supremacy and reduce her to a second Holland.

H. P. Davies, one mile champion bicyclist of Canada, referring to Adams' Tutti Frutti Gum says: I have been using your Tutti Frutti Gum during my training and racing, and I can safely recommend it to all athletes as beneficial in keeping the mouth moist, as well as aiding digestion.

Will the Hens Strike?

NEW YORK, Oct. 9.—John R. Halsey, jr., a young Brooklyn lawyer, has developed a new way to insure the freshness of the eggs consumed by people who are willing to pay extra for that guarantee. He is one of the incorporators of the Pioneer Fresh Egg Supply Company, of this city, which has been incorporated at Albany with a capital of $10,000.
This sum of money is to be invested in hens of fruitful nature and docile disposition, who are to be left at the homes of customers every evening in order that the eggs they lay over night will be ready for the breakfast table. Customers will pay a fixed rental for the fowls and take the chances of getting more or less than one egg per bird. The company will not be responsible for the failure of any particular hen to fulfil her duty, but will spare no effort to employ reliable hens that will make a reasonable average.
The birds in the service of this corporation will have their throats operated upon so that they will not disturb the sleeping family at night and will be taken away each morning in the cagelike nest in which they will pass most of their time.

Where I Went a Wet Day.

Business generally rushes on Monday at the Waterloo House, it being McKendry's bargain day. It was very unpleasant weather yesterday, hence the masses did not get out. However special bargains will be repeated to-day and to-morrow from 9 a.m. till 6 p.m. each day. Come with the rush to 278 Yonge-st.

Money Order Convention Between Canada and Japan.

The announcement that overtures have been made by the Canadian Post Office Department, looking to the opening of negotiations with the Japanese Governments for the establishment of a Money Order Convention between the two countries, is one of considerable importance. It may be regarded as in some measure prophetic of great results yet to follow from the opening up of the new world-route afforded by the Canadian trans-continental railway, and trans-Pacific steamship lines. There can be no doubt that the development of commerce with a distant country is greatly helped, or hindered, according as facilities for the transmission and interchange of money are furnished, or withheld. It is to be hoped that the official anticipations in regard to the readiness of the Japanese authorities to enter into the arrangement may be realized.—The Week.

Parkdale Anti-Annexationists.

The anti-annexationists of Parkdale, whose full name is the "Citizens' Protective Association," met in Weeks' Hall last night. President Donald C. Ridout is the chair. The meeting appointed committees to work up the various wards and obtain signatures. The anti's will hold a public meeting in the Masonic Hall on Friday night.

FOR OLD PEOPLE!
In old people the nervous system is weakened, and that must be strengthened. One of the most prominent medical writers of the day, in speaking of the prevalence of rheumatic troubles among the aged, says: "The various pains, rheumatic or other, which old people often complain of, and which materially disturb their comfort, result from disordered nerves." There it is in a nutshell—the medicine for old people must be a nerve tonic. Old people are beset with constipation, flatulency, drowsiness, diarrhœa, indigestion, rheumatism, neuralgia,

These diseases are of nervous origin. Paine's Celery Compound, that great nerve tonic, is almost a specific in these disorders, and by its regulating influence on the liver, bowels, and kidneys, removes the disorders peculiar to old age. Old people find it stimulating to the vital powers, productive of appetite, and a promoter of digestion.
Sold by druggists. $1.00. Six for $5.00. Send for eight-page paper, with many testimonials from nervous, debilitated, and aged people, who bless Paine's Celery Compound.

To BUILDERS and ARCHITECTS
FIREPROOF BUILDING MATERIAL.
The Rathbun Company of Deseronto are now manufacturing and have for sale all kinds of fireproof building material. Their Porous Earthenware or Terra Cotta is recommended by Architects and Insurance Companies as unexcelled for protection against fire. Weighs one-third that of brick, mortar adheres to it without the use of lath, it may be nailed, sawed and worked with carpenters' tools, it takes the place of wood or brick for outer or inner walls and floors, at about 1/16 same cost, insures immunity from fire, dampness and vermin, giving warmth in winter and coolness in summer, lowers insurance, decreases the cost of the building.
Persons re-building old structures or erecting new ones are solicited to consult their architects or write us direct in reference to this new material. 53

BANFF SPRINGS HOTEL.

A perfectly constructed Summer and Winter Hotel, costing a quarter of a million dollars, situated on the line of the **Canadian Pacific Railway,** near the summit of the **Rocky Mountains** in the **Canadian National Park.**

The house is electric lighted, and has every comfort and convenience found in city hotels of the highest grade. The numerous hot sulphur springs in close proximity vary in temperature from 80 to 121 degrees, and perfect bathing facilities are supplied. Testimony to the wonderful curative properties of the waters is plentiful. A first-class livery of driving and saddle horses forms part of the establishment, and there are excellent roads and walks in all directions, built and maintained by the Government. The house is 5,000 feet above sea level and is surrounded by magnificent mountain peaks 5,000 to 8,000 feet high. In grandeur of scenery and purity of atmosphere the region is immeasurably superior to any similar health resort on the continent. The hotel rates are from **$3.50 a day upward,** and special terms for longer time may be had by addressing GEORGE HOLLIDAY, MANAGER, Banff, Alberta, Canada. For further information and for excursion tickets, apply to any **Canadian Pacific Ry. Ticket Office, or at 110 King-street West, Toronto.**

NATIONAL LINE.

This company has never lost the life of a passenger through accident at sea.

Fares from New York to Liverpool—1st cabin $35, 2nd cabin $26, steerage at very low rates.

Steamers sail from New York every Wednesday.

The 2nd cabin in the Spain is the old saloon stateroems and berths being left as when saloon passengers were carried. As the Spain now carries no saloon passengers full deck and other privileges are allowed the 2nd cabin passengers.

The Italy and the Queen have superior second cabin accommodation, the after part of the saloons being devoted to these passengers. Berths are therefore on the main deck, light and almost equal to first cabin.

Table and attendance on all the steamers equal to any other line. For sailing list, cabin plan and full information, apply to 36
