TWELFTH YEAR. FRIDAY MORNING, NOVEMBER 13, 1891 ONE CENT.

TO EXPEL JEWISH BANKERS.

A MOTION IN THE FRENCH CHAMBER OF DEPUTIES.

The Minister of Finance Charged with Subjecting the French Finances to the Control of Jewish Financiers—Details of the Recent Storm in England and France—A Plague of Rats.

PARIS, Nov. 12.—In the Chamber of Deputies to-day M. Lauer accused M. Rouvier, Minister of Finance, of subjecting the French finances to the control of Jewish financiers. M. Lauer then demanded the expulsion of Jewish bankers from France.

Minister Rouvier, in replying to the charges made against him by M. Lauer, said that he declined to hold a discussion on such a proposition as that made by M. Lauer in regard to the Jews. He said there was no drain of gold from France, and that the Bank of France held an absolutely normal amount of bullion. The country's finances, Minister Rouvier declared, were managed with the greatest prudence and probity. "As for the Rothschilds," said M. Rouvier, "which house M. Lauer accuses of waiting for a favorable opportunity to remove its establishment from France, does M. Lauer suppose it to be to the interest of France to deprive the Paris market of so important a factor in the financial world?"

The motion of M. Lauer was dismissed by a vote of 431 to 32.

IN THE TEETH OF THE GALE.

A British Coaster Sinks at the Mouth of the Mersey.

LONDON, Nov. 12.—The steamer Hawarden Castle, engaged in the coasting trade, was wrecked at the mouth of the Mersey last night. She was exposed to the full force of the gale, and the seas sweeping over her made it impossible to live on her deck. The crew took refuge in the rigging. A number of attempts were made to rescue them from their precarious position, but none of them were successful. This morning four bodies were washed ashore. They are those of seamen from the steamer.

The steamers Britannic and City of New York sailed from Liverpool for New York yesterday in the teeth of the gale. An immense wave boarded the Britannic and carried overboard Quartermaster Mackenzie.

The Southport life-saving crews, fears of whose safety were entertained, managed to reach shore all right. No trace of the distressed vessel they had gone to succor could be found when the lifeboat reached the spot.

An unknown bark stranded off Kinsale, Ireland, to-day. The sea makes a clean breach over her. So far it has been impossible to assist her either by sending out local life-boats or by firing a life-line to her by means of rockets. It is feared that the whole of the crew will be drowned.

Damage Done by the Floods in Spain.

MADRID, Nov. 12.—It is now becoming possible to estimate roughly the extent of the devastation that has been caused by the tremendous floods which have swept over so many parts of Spain during the last month or two. Beginning with the terrible disaster at Consuegra, where the loss of life mounted up into the thousands, the country has been subjected to a series of floods which are without parallel in the history of Spain. It is believed that the total loss of life will never be accurately known. The waters are now subsiding and the rivers are seeking their natural channels. But the scenes in the country visited by the floods are distressing. Many farms in the lowlands are covered with broken trees, matted branches, stones and rubbish of every description.

Along the banks of the Tucar River the land is fertile and large tracts were, before the floods, devoted to the cultivation of oranges. To-day the well-tilled groves and fertile farms are wrecked. The inhabitants of the valley, having been deprived of their usual means of subsistence, are plunged into deep distress. The health officials are taking measures to prevent an epidemic of fever.

Eight of the Crew Lost.

MADRID, Nov. 11.—The sloop Julio was wrecked at Bibio yesterday. Eight of her crew were drowned.

In France.

PARIS, Nov. 12.—Yesterday's gale caused an immense amount of damage in all parts of France. Many temporary buildings devoted to panoramas, circuses and the like were destroyed.

Two persons were killed at Pavilly by falling debris.

A youth had his neck broken at Havre by being struck by the covering of a van which had been blown off by the gale.

Several vessels were wrecked at Fecamp, on the English Channel. The rescue of the crews was attended with exciting scenes. Only one man was drowned. The fishermen along the coast suffered heavy losses in boats and gear.

Two smacks of Cherbourg, with their crews, numbering 10 men, are missing

A hospital at Lorient took fire during the gale and the flames spread with such rapidity that the ordinary means of exit were cut off and the patients had to be rescued from the windows. Many of the patients were injured.

The force of the hurricane extended as far as Marseilles on the Mediterranean Sea.

A French torpedo boat was capsized in Brest roads during the hurricane. Her crew was saved.

BOULOGNE, Nov. 12.—Nothing but a rough estimate can be made of the damage done by the terrible storm which set in here Tuesday night, and which without abatement lasted until last night. A large number of houses in the town were unroofed and outbuildings were blown down. Up and down the coast the loss of life and property must have been very heavy. In the vicinity of Boulogne many fishing boats were caught in the gale far from port, and as they have not yet returned grave fears are entertained that some of them have foundered.

THE CHINESE SITUATION.

British Consul Advised to Remove European Women and Children.

SHANGHAI, Nov. 12.—Chen Kin Lung, the leader of Kolao Hui, a secret society, which has been instrumental in causing the uprising in Hunan, was captured in Soo Chow recently and brought to Shanghai. His examination was conducted with secrecy. Several official documents issued by Kolao Hui were found on his person. In them he was addressed as "The Eighth Great Prince," and as the commander of numerous forces. Three examinations have been held, but Chen refused to make any disclosure despite the torture, saying to the officers that he would not betray his cause and that he was not the only one ready to give up his life for the cause he had joined.

The officials are now pursuing another method. They feast him and supply him with liquor in hopes that he will let fall some information under its influence. Thus far they have met with no success.

Mason, the customs official who made an attempt to smuggle arms into China, and put himself forward as a possible leader of rebellion, was examined before the British police court at Shanghai. Developments show the affair was a Quixotic attempt on Mason's part to obtain notoriety and had no real political significance. The native boats are closely watched in the Yang-Tse for smuggled arms.

The Mercury's Tsin Tsin correspondent says the Viceroy, Li Hung Chang, appears to be in a very cheerful state of mind, and seems to think the internal affairs not at all serious and that the foreign powers are only playing a game of bluff. The general feeling, however, is one of insecurity, and it is further stated that the Viceroy of Nanking has strongly advised the British consul at Chin Kiang to remove European women and children.

A PLAGUE OF RATS.

Whole Provinces Ravaged by the Rodents, Who Root Up Everything.

PANAMA, Nov. 11.—According to the latest news from all the southern provinces of the Ayacucho, Parinacochas and Lucanos departments and as far north as the province of Andahuaplas (Peru) a terrible plague of rats called Icuchas has made its appearance and the inhabitants are in a perfect state of consternation. The gnawing little brutes root up everything in the farms and destroy whole plantations of grain, not leaving even a blade of grass to be seen in the pastures and fields. Wherever they pass they leave on the earth a new layer of very fine dust. The natives, to save what little they have in their granaries, keep watch all night and light fires around the houses, thus keeping off the rats

Shocking Tragedy in France.

PARIS, Nov. 12.—A terrible drama was enacted yesterday morning at Nogent-sur-Marne, near Paris. A governess named Leboeuf, residing there, had been deserted by her lover, named Deras, who was employed at the Ministry of Finance, and, hearing that he was engaged to be married she wrote to him making an appointment for Sunday last, in order that she might see him once more. Deras appeared at the rendezvous, dined with his mistress, and afterwards accompanied her home in the early morning. While Deras was still asleep the young woman rose, and with a revolver shot her lover through the heart. The concierge, hearing the report, hastened in a state of great alarm to the room, and found the murderess standing before the body. On seeing her she exclaimed, "I have killed my lover, who meant to desert me. Go and fetch the police." The concierge immediately went down stairs calling for help, and when she returned to the apartment, accompanied by some neighbors, a second report was heard. It was found that the woman had laid down on the bed by her lover's side and then shot herself.

A Marquis Killed in a Duel.

ROME, Nov. 12.—A duel was fought yesterday at Messina between Signor Contarini, Secretary to the Municipality, and the Marquis Dosi, a lieutenant of infantry. The cause of the duel was of a domestic character. The Marquis fired first but missed his antagonist, who then advanced and put a bullet into his enemy's brain. The Marquis died ten minutes afterward.

Healy Wants Police Protection.

DUBLIN, Nov. 12.—Some excitement was created to-day by a report that Tim Healy had been ducked in a horse pond near Longford. The story, on enquiry, proved to be unfounded. Healy's condition is improving. Healy is so much irritated by small boys and others enquiring in derisive tones wherever he goes about the condition of his back that he has asked the protection of the police.

For Evicted Tenants.

DUBLIN, Nov. 11.—A meeting of the National Federation was held to-day at Tullamore, at which the question of providing means for the relief of evicted tenants was discussed in all its bearings. It was resolved to fix the contributions to the fund for this purpose at threepence in the pound on the parish valuation.

Land Monopoly the Cause of War.

ROME, Nov. 12.—At the International Peace Congress now in session here, the principal speech to-day was made by Mrs. Mary Frost Ormiston of New York, head of the American delegation. Her subject was "The real cause and the real cure of war." In her opinion, land monopoly is the primary cause of war.

How Germany Views the Speech.

BERLIN, Nov. 11.—The North German Gazette, commenting on the recent speeches of Lord Salisbury and Marquis Di Rudini, concludes that Great Britain and Italy are equally resolved to throw into the scale a weighty word to maintain an equilibrium in Europe if peace should be threatened. The Gazette warmly commends Lord Salisbury's decision not to loosen the English hold on Egypt.

They Don't Correspond.

DUBLIN, Nov. 12.—Mr. O'Brien, in a further reply to Mr. Harrington, says that he published everything that was of the slightest interest in the matters under consideration. He asserts that he never received a line from either Mr. Gladstone or Mr. Morley during the course of his life.

Big Gift to the Pope.

PARIS, Nov. 11.—The French pilgrims who were prevented from visiting Rome have sent a gift of $5000 to the Pope.

SOLDIERS DINE.

The Officers of the Queen's Own Entertain Their Friends.

The officers of the Queen's Own concluded Thanksgiving Day with a very pleasant evening at Harry Webb's. They entertained a number of their friends. Among the invited guests were Col. Powell, Adjutant-General of the Canadian Militia; Col. G.T. Denison, Capt. Macdougall, Col. Otter, Major Vidal, Lieut. Benedict, Lieut. Irving, and Lieut. Knight of the Oxford Rifles.

After honoring the toast of the Queen, a departure was made in the printed list of toasts on account of the presence of Col. Powell, to whom a toast was proposed by Col. Hamilton. Col. Powell replied in a few fitting words and congratulated the officers of our city regiments on the fine appearance of their men.

PETER RYAN TO THE RESCUE.

HOW HE INDUCED THE GRAND TRUNK TO CARRY VOTERS.

Toronto's Registrar Testifies in the South Ontario Election Trial at Whitby—A Voter Who Received Cash, But Didn't Get His Price—Some Spicy Testimony Adduced.

WHITBY, Ont., Nov. 12.—The court for the trial of the South Ontario Dominion election petition to unseat James I. Davidson (Liberal) opened before Justices Falconbridge and Street to-day.

The first witness was John Leslie, who formerly kept the Ontario Hotel here, but now a resident of Toronto. He testified that Louis Siebert and John D. Campbell called on him a day or so before election in Toronto, giving his wife some money and himself a ticket to Whitby and return, where, after voting, Siebert put a dollar bill in his vest pocket. He said he expected $10 at least and complained of his bad treatment to John Smith, drover, a leading Conservative and supporter of William Smith, the defeated candidate in the late election.

Under cross-examination he admitted his memory had failed him since, having suffered from dropsy.

P. J. Slatter, G.T.R. city passenger agent, Toronto, and General Auditor Walker of the Grand Trunk head offices, Montreal, gave evidence as to tickets used by Liberal organizations in the late election.

Peter Ryan, registrar of Toronto, swore that he made the arrangements about free transportation of voters with Mr. White, whom he understood to be traffic manager at Toronto. He says he went to him and told him the C.P.R. were carrying Tories free all over their lines and unless the Grand Trunk could do the same for the Opposition the contest was a hopeless one for them. Mr. White agreed, whereupon all the necessary free transportation of voters was provided by the Grand Trunk.

This evidence puts a new light upon the railways' part in the election.

Several Petitions Dismissed.

QUEBEC, Nov. 12.—The election petitions for Three Rivers, Champlain and Nicolet have all been dismissed.

The Conspiracy Cases.

OTTAWA, Nov. 12.—In the Police Court this morning before Magistrate O'Gara the Connolly conspiracy case was called. Ferguson, Q.C., appeared for the Connollys and Hon. Thomas McGreevy and Lash, Q.C., for Larkin. The accused themselves did not appear. Osler, Q.C., for Crown, agreed to a formal remand till Tuesday, 17th inst., when it was agreed Judge Ross should conduct the enquiry.

PROFESSORSHIP OF HISTORY.

Trinity Keeps Moving—Rev. Prof. Jones Resigns as Dean.

The annual meeting of the corporation was held on Wednesday. The Bishop of Toronto presided, and there was a large attendance of members, the following being present: Provost Body, Dean Jones, Profs. Clark, Huntingford and Symonds, Revs. Canon DuMoulin, Canon Brent, Canon Cayley, Dr. Langtry, Dr. Bethune, A. J. Broughall, E. P. Crawford, Rural Dean Carey, Messrs. William Ince, C. J. Campbell, J. A. Worrell, Q.C., E. Martin, Q.C., Hamilton; R. T. Walkem, Q.C., Kingston; R. Bayly, Q.C., London; Dr. Griffith, Brantford; Dr. Sheard, Messrs. George A. Mackenzie, M.A., and Elmes Henderson.

Mr. J. Travers Lewis, barrister, Ottawa, and Mr. Alexander Bruce, Q.C., Hamilton, were admitted and took their seats as members of the corporation. A letter was read from the Rev. Prof. Jones announcing his intended resignation of the office of dean of the college on Jan. 1 next. The following motion was adopted: "That while in deference to the wish of Rev. Prof. Jones to be relieved from the duties of the deanship the corporation do accept his resignation, and hereby desire to express their sincere regret at his determination to retire from a position which he has for so many years filled with such signal acceptance to all concerned."

The Standing Committee and college officers and the university examiners in the several faculties were appointed for the current year.

A resolution was passed establishing a professorship in history and appointing Rev. Oswald Rigby, M.A., St. John's College, Cambridge, professor in history.

Rev. Professor Rigby was admitted and took his seat as a member of the College Council. He was appointed Examiner in Divinity.

Rev. A. J. Broughall, B.A., whose term of office as fellow in classics will expire on Jan. 1 next, was re-appointed until Oct. 1, 1892.

On the recommendation of the Executive Committee, bylaws were passed regulating exemptions in honor examinations, adjusting the scale of marks in scholarship examinations and providing that in the curriculum for women German or French may be substituted for Greek.

Unsportsmanlike Traffic.

[Sarnia Canadian.]

It is stated that a systematic slaughter of game in Lambton is being made this season by so-called sportsmen from London, Hamilton and Toronto who come here and employ local pot-hunters, who are prohibited by the act from selling quail direct to shoot by the day or month. One "sportsman" from London is said to have hired a man near Wallaceburg for two weeks to shoot quail and duck at $30 a week.

A Good Haul.

[Milton Champion.]

Our hunters arrived home from Muskoka's wilds last Saturday morning, bringing with them the results of their few weeks' hunting excursion. Six deer and a number of partridge, minks and ducks were amongst their array of game. We congratulate our friends on their noble efforts in securing some fruits for their arduous journey.

Ten Fine Deer.

[Gore Bay Enterprise.]

Hunters are coming and going every week. The old Gravenhurst club were hunting at Wood Lake for seven days and killed 10 fine deer. All the other clubs are doing well.

Dominion Building and Loan Association

PETERBORO, Nov. 11.—At a special general meeting of the shareholders of the Peterborough branch of the Dominion Building and Loan Association, held at the office of the Association, Peterborough, on Monday evening, called for the purpose of hearing explanations from Messrs. Stratton & McWilliams, directors of the association in Toronto, as to the present position of the association, and after careful consideration of the report presented by the auditors, it was unanimously resolved, after hearing their explanations, that this board desires to express its absolute confidence in the present directorate of the association, and would recommend the shareholders of the association throughout the Dominion to vote or use their proxies at the meeting to be held in Toronto on the 30th inst. in maintaining the present board, and would suggest to all shareholders the absolut enecessity under the existing circumstances to exercise great discretion as to whom their proxies shall be given, and also as to the manner they shall be used.

LAUNCH OF THE CONSTANCE.

The Polsons' New Fisheries Cruiser Launched at Owen Sound.

OWEN SOUND, Nov. 12.—The leading feature of to-day's celebration in this town was the launching of the new fisheries cruiser, built by the Polson Iron Works Company for the Dominion Government. Fully 2000 persons witnessed the enactment of this important event, which was consummated shortly after 2 o'clock. The act was participated in conjointly by the little daughter of Capt. Gordon, Fisheries Department, and Mrs. Walter Barwick, the former cutting the boat away and the latter breaking the bottle of wine. The name given was H.M.S. Constance, in honor of Lady Stanley.

The morning train from Toronto had attached to it two special Pullmans, a dining and parlor car. A large number of Torontonians, as well as a few from more distant points, were on board, among them being Col. Tilton, Deputy Minister of Marine; William Polson and F. B. Polson, president and managing director, respectively, of the Polson Iron Works Company; Captain Gordon, Captain Harbottle, Government inspector of hulls; G. R. R. Cockburn, M.P., David Creighton, William Grindlay, manager Bank British North America, A. M. Smith, J. B. Miller, President Parry Sound Lumber Company, Walter Barwick, Joseph B. Folingsby, Albert Gooderham, Edward M. Chadwick, W. C. Matthews, C. J. Townsend, C. A. B. Brown, John Bruce, Mrs. Douglas Armour, Miss Barwick and Miss Buntin.

Immediately on arriving the party made a trip through the Manitoba, which happened to be at dock, and which was built for the C.P.R. by the Polsons about two years ago.

After the performance of the ceremony James Masson, M.P. for North Grey, delivered a short speech during the process of which he complimented the Polson Iron Works Company and referred to the great boon it had proven to Owen Sound. William Polson, president of the company, to whose energy, foresight and business capabilities are to be attributed the establishment of an industry of this kind in Canada, also passed a few observations.

The new boat is 125 feet long, has a 19-foot beam, drawn 10 feet of water aft, is composed of steel, has a compound engine of 450 horse-power, and carries two masts.

In the course of a few weeks the Polson Iron Works Company will lay the keel for a second cruiser, similar to the one launched to-day. This will be completed early next spring and will be detailed for service in the Bay of Fundy and Gulf of St. Lawrence.

A HIGH JUMP.

Emma Hickman Leaps From a Third Story Window.

The inmates of the Haven were aroused early yesterday morning by a loud crashing of glass. On investigation it was found that Emma Hickman, an inmate, had jumped from a third story window. She was found on the side of the building remote from the window suffering from a general shaking up and was taken to the hospital in the ambulance.

Another Bank Closes its Doors.

SAN DIEGO, Cal., Nov. 11.—The California National Bank did not open its doors for business this morning. A card displayed in the window read as follows: "Owing to some large bank deposits and our inability promptly to realize on notes and accounts, the bank is temporarily closed." The bank commissioner has been sent for. It is believed the depositors will be paid in full. The bank has an advertised paid-up capital of $500,000 and a surplus of $100,000. J. W. Collins is president.

In this lies the great secret of the popularity of Parmelee's Vegetable Pills.

Judge Miller Dead.

MILTON, Nov. 12.—Thomas Miller, County Court judge of Halton, died to-day after six weeks' illness from hemorrhage of the brain. Deceased was born in Halton county 61 years ago, and studied law with the late Judge Morrison and Hon. Adam Crooks. He was appointed County Crown Attorney of Waterloo in 1857, and 10 years later was appointed judge of Halton. A widow survives him.

FIRST WINTER PLAY DAY.

Holy Bells and War's Alarms Intermingle Their Sounds—Services Were Held in Many of the Churches.

The weather vouchsafed for the Thanksgiving holiday was of a somewhat mixed description, not being bad enough to excite active displeasure nor pleasant enough to deserve praise. The review of the two city regiments near Norway was the leading event of the day, but of course was quite inferior as a military spectacle to the sham fight that took place at High Park last Thanksgiving. Nevertheless it was a handsome turnout and was witnessed by hundreds of civilians.

The services at the churches were well attended and preachers grew eloquent in their enumeration of what we as Canadians have to be thankful for. The theatres drew tremendous audiences.

This morning those citizens who have thoroughly recovered from the effects of the goose and apple sauce will shun the satiating bird until Christmas comes to us.

AT THE METROPOLITAN.

The Thanksgiving Service Was Largely Attended.

The newly decorated Metropolitan Church was crowded yesterday morning at its annual Thanksgiving Day service.

Rev. J. V. Smith preached an appropriate sermon. During the course of his remarks he averred that our ancestors not many generations past were an uncouth, unsophisticated, superstitious set of barbarians, and in conclusion he said that we should be extremely thankful for the prosperity and peace that has been prevalent in Canada during the past year. In respect to the latter he instanced the case of several South American republics that had been rent asunder by internal revolution, as also Brazil, which is even now on a volcano that may at any moment cause a disastrous upheaval.

The musical service by the choir was executed under the direction of F. H. Torrington. Miss Ella Patterson sang a selection from Haydn's creation entitled, "With Verdure Clad," while Miss Mortimer rendered Weber's jubilee cantata, "Blest Is He." Mr. Robert Shaw, who although a young singer, is the possessor of a remarkably sweet and powerful tenor voice, sang the beautiful solo, "Thy King," with much feeling and effect. The concluding voluntary was performed on the organ by Miss Clarke.

THE PROPHET'S TEMPLE.

Dr. Wild Has Something to Say of Prof. Smith and His Views.

The opinions of Goldwin Smith as expressed in his address lately delivered before the Young Men's Liberal Club evidently do not meet the approval of the Bond-street Prophet. In his Thanksgiving sermon yesterday morning Dr. Wild, speaking from James i., 16, 17, said that ideas must be cultivated in order to insure growth. National spirit had to be stirred up or it would die out. He had no desire to share the fear, anxiety and flutter of Professor Goldwin Smith. It was 27 years since the Professor had made the acquaintance of the United States. Dr. Wild had known that country for 37 years, and during that time he had lived and labored there a good deal more than Mr. Smith had and he had yet to find any among them as childish and covetous as Mr. Smith represented them to be. Continuing, he said: "If I did not know Goldwin Smith to be a British subject, I would conclude he borrowed his ideas from the Fenians and Nationites, for they are the only people in the United States who look with an evil eye towards this country of ours. The Professor may well say he is about to retire. It is time he did."

Just as it would not be well for the members of Bond-street Congregational Church to go to other churches of the city and point out its defects, so it was damaging to this country to have citizens who are continually harping on the defects incident to the government of a young and growing nation. When Canada was as prosperous as any country under the sun, her sons should not grumble. It was true labor was not as flush as could be wished, but where was the country where it was. With an abundant crop of all kinds of grain and reasonably good prices Canadians should be ready to offer up a hearty thanksgiving. All were grateful save a few who had got so used to plenty that they made a business of grumbling.

The Professor had taken pains to remind Canada that the last census returns had not shown the increase in population expected. It looked as if he were making merry over the misfortune. Such men as he had helped to produce it. Leaving out of consideration the immigrants into each of the countries Canada was a little ahead of the United States in her natural increase of population.

Another cause of the slow growth of the population was the antagonism existing between the labor unions and the Government. Laboring men were dissatisfied with the law as they were at present causing an unrest which reacted to the detriment of the country.

The Supreme Court had declared the Manitoba Schools Act unconstitutional. Much discontent would be caused by that decision. "We are not kickers but fighters. We will not find fault with the decision of the court but we will set to work to change the British North America Act. It was nonsensical for Samuel Blake to state that the act could not be changed. We are not the Medes and Persians. If we want to we can change the North America Act and Samuel Blake too." The Separate schools would have to go overboard. It had often happened in times past that the Roman Catholics had tried to seize for themselves special privileges, with the inevitable result that they lost some of their rights. If they persisted in this absurd demand it would doubtless have the same deplorable result.

An Annual Success.

The annual Thanksgiving concert in the Elm-street Methodist Church last evening was a great success. The building was densely crowded, standing room being at a premium. Mrs. Fenwick of Hamilton captured her hearers in her rendition of "The Angel at the Window." Miss Jessie Alexander, Toronto's popular elocutionist, gave several readings in her inimitable style. In rendering "Fear Not Ye, O Israel," Mr. Harold Jarvis fairly exceeded his former good reputation and as an encore sang with much effect, "Where is Heaven?" The choruses by the choir, under the direction of Mr. and Mrs. H. M. Blight, were deserving of much praise.

A K. of L. Sensation.

TOLEDO, Nov. 12.—The sensation of the Knights of Labor Convention to-day was the report of a committee appointed at last session at the request of General Secretary Hayes to investigate the treasurer's books, which he found in an unsatisfactory shape. The committee reported that ex-Treasurer Turner refused to appear before them or to give up the bank deposit books, cancelled checks and other documents in his possession. They made the best investigation possible in the absence of these documents, and find there is over $31,000 unaccounted for. Even crediting Turner with $17,000, which his statement shows to have been expended, but which the books of the order do not show, leaves a balance of over $14,000 entirely unaccounted for. The report was ordered printed.

Hezekiah's Surprise.

"Wal, Hiram, if this don't beat all! The old way for doctors was 'kill or cure' but here I've found a piece in this here newspaper where a doctor offers 'cash or cure.' It's for catarrh! I wish we had it—I'd like to try him! Just listen, Hiram! 'The proprietors of Dr. Sage's Catarrh Remedy offer a reward of $500 for any case of catarrh which they cannot cure.' That beats all lotteries hollow! The medicine costs 50 cents—your catarrh is cured, or you get $500! Where's my hat? I'm going right over to neighbor Brown's, to show him, I never wanted to get within ten feet of him before, but if it is the cure of his catarrh, I guess I can stand it once!" Sold by druggists.

WILL NOT ACCEPT OSLER

THE RATEPAYERS' ASSOCIATION CONDEMN HIS CANDIDATURE.

His Position as a Railway Director They Say, is Fatal to His Aspirations—Mr. Osler Departs for England—His Friends Present Him With the Requisition Signed by Two Thousand Names.

Mr. E. B. Osler will not be elected Mayor if the Ratepayers' Association can prevent him. A letter from Mr. Moberly, secretary of the Citizens' Association, was read before the Executive Committee of the Ratepayers' Association by the chairman, Dr. Barrick. The letter asked that a meeting of delegates from each association might be arranged to arrive, if possible, at some understanding as to what candidates should receive their united support.

Dr. Sheard immediately moved that the following letter be sent to Mr. Moberly in reply to his communication: "That inasmuch as there are many conflicting interests continually arising between the various railway companies and the city of Toronto the Executive Committee of the Ratepayers' Association believe it would be detrimental to the interests of the city to support for the position of mayor the director of any railway company, and are desirous that any candidate receiving their support for the position of Mayor or alderman should be entirely untrammeled and free to act for the city's best interests in every instance. Apart from the above we will be glad to act in conjunction with any convention from any organization or body which has for its object the inauguration of a more economic and efficient administration of municipal affairs. By such united action our committee would be materially assisted in their efforts to form a broad platform of well-defined planks, upon which all could unite to elect the most efficient candidates for the positions of Mayor and aldermen."

A lengthy and heated discussion followed. Every member was in sympathy with the spirit of Dr. Sheard's letter, but some held it was not parliamentary to deal with the communication in so summary a manner. Among those to take this view was ex-Ald. Defoe of St. Andrew's Ward, who seemed the mentor of the meeting.

Dr. Sheard said that certain members of that association had joined it for the object of obstructing its proceedings and use them as tools as they did a year ago. He regretted he had believed they wished to elect Mr. Osler mayor in order to use the funds of the city for the furtherance of railway interests. A suit was now pending between the C.P.R. and Toronto and this would certainly unfit Mr. Osler for the position of Mayor.

Mr. Rufus Skinner said that because the letter was curt and discourteous was no reason it should not be sent. The Citizens' Committee have been discourteous to us. They organized evidently for the same purpose as ourselves. If they wished to act with us why did they not join us instead of setting out in opposition? The letter will not be sent, but was referred with the communication to the general meeting of the association.

The platform of the society as already published was submitted by the chairman, Dr. Sheard. Clause 5 was amended so as to reduce the number of tax collectors to six instead of dispensing with them entirely.

Clause 10 was amended so that no further extension of water mains would be made without a direct lien upon the property to be benefited.

Clause 12 was added, which reads, That whereas the City Council has no power to limit the appropriation demanded by the Public School Board this association will exert all its influence to elect trustees who will exercise reasonable economy.

Clause 13 was added, which declared, that as the debt of the city had reached the sum of $94 per capita, this association desires that no increase be made to the public debt and that no local improvement be entered into without the initiative.

An investigation will be made to ascertain if the debentures of the new court house have been hypothecated in the banks.

The association desire that the City Council apply to the Legislature for a charter for the city.

Five thousand printed copies of the platform of the association will be circulated.

MR. OSLER DEPARTS FOR EUROPE.

The Signed Requisitions Are Presented to Him—Will Return Dec. 20.

Yesterday morning, previous to the departure of Mr. E. B. Osler for Europe, he was waited upon by a deputation and presented with requisitions calling upon him to accept nomination for the Mayoralty. The deputation included Messrs. Goldwin Smith, W. R. Brock, Robert Jaffray, John I. Davidson, Frederick Stewart, T. E. Moberley, H. P. Dwight, Lawrence Lowell, E. E. Walker and Christopher Hoskin, Q.C. The requisition had been hastily circulated during the past couple of days, yet bore the signatures of nearly two thousand ratepayers resident all the way from the Don to Parkdale. On it were the signatures of the best people in the city, as well as of mechanics and workingmen.

Mr. Osler, in accepting, said: "Gentlemen, I have read the requisition which you have presented me and deeply feel the honor done me by such an expression of confidence on the part of so large a number of my fellow-citizens of all classes. I can only reply that should the views of those who have signed the requisition be confirmed by my election as Mayor in January next, I shall be ready to devote my time and energies to the objects set forth in your requisition, namely, the establishment of the financial affairs of the city on the soundest basis, the reduction of expenditure and of the burden of taxation and the improvement of our administrative machinery."

Mr. Osler also announced that he would return to Toronto on Dec. 20.

The Money Changes.

E. E. Sheppard met John Armstrong on the street yesterday and at once broached the subject of Mr. Osler's candidacy for the Mayoralty.

"I am surprised at you, Sheppard," said John. "How can you support Osler and be true to your obligation as a Knight of Labor? What did our Savior do when he found the money-changers in the temple? He drove them out. That's what we'll do with Oslar, Mr. Sheppard."

Escaped With Their Lives.

QUEBEC, Nov. 12.—A fire broke out last night in the drygoods store of Blais & Letebvre in Notre Dame-street, Lower Town, and in a moment the whole house was a mass of flames. A boarding-house was kept on the second story by Mrs. Polvin. Several boarders, who were in bed, had barely time to escape. The damage is $30,000 to $40,000.

John Gilpin Burned Out.

BOBCAYGEON, Nov. 12.—A fire broke out in the Forest House sheds at 5 o'clock this morning, completely destroying hotel and all outbuildings. A small quantity of furniture was saved. A cow and several pigs also perished in the flames. The building was owned by John Simpson of Lindsay and occupied by John Gilpin. Supposed to be the work of an incendiary.

He wrote several times, detailing places he had visited, and then the letters suddenly stopped. From that time his wife has been unable to secure a single clue to his fate. Only a Half-Success.

When the Dominion census was completed the opinion in this city was unanimous that it had not been correctly done and that the result failed to show the population of Toronto.

It was then decided that a municipal census should be taken, and the police were employed for the purpose. Unless the second enumeration was to be carried through with the utmost precision it should not have been undertaken at all. While we could with one voice cry out against the reliability of the Dominion census, we must quietly abide by the count which we ourselves have made.

The Dominion census made the population of the city 181,220—the municipal census increased it to 188,914. This is not the real population, and those acquainted with the city and the way the policemen did their work know it well enough. Making all necessary allowance for the ticklish nature of the job imposed upon the police force it is a fact that they did not leave cards at some houses and did not call for marked cards at other houses. For instance, the writer of this had no card left at his house, the door being locked at the hour when the enumerator passed along. Possibly that was included among the vacant houses. Another residence on the next street occupied by a family of seven received no card. It is reasonable to infer that other such cases exist. Better that no second census had been taken than that such slipshod work should have made it practically valueless. By her own count Toronto has a population of 188,914—in solemn fact she has a population of 200,000.

The chief cause of this second miscount is not to be found in the incompetence or carelessness of the police. They, as a rule, discharged their duty satisfactorily though far from infallibly. But citizens who regard the corporation as a great and cunning monster, with an insatiable greed for taxes, fancied the police were making these enquiries so that a per capita tax could be levied to equip kilted regiments, naval brigades or block pave the gravel road to Hamilton. Such people thought the city was too sly about this thing to be trusted. This indefinite distrust was generally fashioned into a fear that it was an attempt to increase the water rates, and some people will lie to reduce their water rates. Some people who could not unblushingly tell falsehoods verbally, could lie with a lead pencil to save taxes

With all its faults the municipal census shows that the Dominion enumerators fell 7694 short in their count. That is something. If similar discrepancies occurred all over the Dominion our total population has not nearly been ascertained.

His Success is Impossible.

When the committee of influential citizens chose Mr. E. B. Osler as their standard-bearer, they chose a man who could not discredit them. The citizens, we think, want a strong working mayor and it would be difficult to get a man who fills the bill more satisfactorily than does Mr. Osler. Theoretically it should merely be necessary for a good man to announce himself and then go on with his daily business and trust that his merits would elect him. But practically this will not work. No man can be elected to high office in this city unless he takes off his coat and shows that he is desirous of getting there. Mr. Osler's action in taking a five weeks' trip to England simply wipes him out as a candidate. His election becomes impossible. His friends, some of the shrewdest and most influential men in the city, must know that this is so. Why then expose Mr. Osler to a humiliating defeat? Nor would it be fair to blame the people who administered the drubbing.

Mr. Osler must abandon his European trip or drop out of the campaign.

Is Toronto Depopulating?

Francis Wayland Glen—whose name, by the bye, causes one to involuntary think of a Wayside Inn—has another letter in The New York Tribune on no less astonishing a subject than the depopulation of Toronto. He says "it is the exodus, from Canada to this country which is depopulating Toronto." The quiet impudence of this is admirable. Toronto depopulating, when scarcely a city on the continent has shown such a marvelous growth during the past decade. In ten years the population has more than doubled, the business areas have nearly doubled, the residential parts have been filled up and the neighboring townships cut up into town lots. The wildest dreamer among the land speculators of 1881 did not faintly guess at the growth Toronto has experienced since that year.

Mr. Glen takes as his text the fact that there are a great number of vacant houses in Toronto, and thereon bases a sermon upon the degeneration of the city—the exodus is depopulating Toronto. There is both malice and ignorance in his letter, and together they make it ridiculous. Before presuming to write about Toronto he should have returned here after being away these many years. He would have discovered that this city has grown marvellously, but that while the population has more than doubled, yet speculation has anticipated that growth and provided for a much greater increase. Mile after mile of houses were built for purposes of rental, provision being thus made in advance for future growth. Of these large numbers are yet vacant and older and less desirable houses have emptied their occupants into newer ones. Vacant houses there are in Toronto, but they stand there as substantial evidence that our moneyed men have faith in the continued growth and prosperity of the city. The municipal census just completed proves this. It shows that in Toronto there are 4214 vacant houses. The number is large undoubtedly, but the census shows something else. Although this is regarded as a flat season in building operations, and it is the habit to say that the phenomenal growth of the past few years has produced a more or less noticeable reaction, yet the census shows that there are at the present time 651 new houses in process of erection in the city. This explains the presence of vacant houses. Though we have a large number of them, still men of money are putting up 651 more and are confident that the city will grow as it has grown and is growing and that this investment will prove good. Who can challenge their judgment? Despite the vacant houses rents, perhaps, never ruled higher than now. Moreover large numbers of those houses now vacant are not intended for rental. They are the old houses standing on the disputed territory between the business and the residence portions of the town. They are being torn down or moved back from the streets to serve as stables—they are being converted into warehouses, stores and shops—they are being fitted with factories and foundries, owners smile while the land occupied by these vacant houses increases daily in value. Toronto is not depopulating.

The wailings of native politicians who feign despair for political effect, have floated down to this narrow Glen and now come echoing back in distorted, silly sounds.

Mr. Laurier's Opportunity.

The Washington correspondent of The Globe says that the United States Government "undoubtedly attaches much more importance to the speech which Mr. Laurier will make in Boston on Nov. 17 than to anything that the representatives of the Abbott Government are likely to say in December."

It may be so. It may be true that the United States Government will hear with gladness what Mr. Laurier has to say in his Boston speech, and will not be quite so delighted with anything that the representatives of the Abbott Government may propose or say in December. Mr. Blaine's own organs recently announced that his ruling wish was to exalt the United States to a supreme position in this hemisphere and reduce all other countries to the condition of commercial, if not political, dependencies. Mr. Laurier may make a speech at Boston better calculated to please an American Government actuated by such a purpose than will be the business-like proposals made by Mr. Abbott's commissioners. Mr. Abbott is not prepared to surrender everything for nothing and trust Canada to the gentle mercies of Mr. Blaine. His commissioners will go to Washington as representatives of a people to talk business with the representatives of another people. Going there on business, not to ask charity, they will comport themselves like business men and not as beggars. If honest efforts to honorably adjust our fiscal relations fail, then the commissioners will return and the Canadian people will applaud the Government for its proper spirit.

But let us admit that the United States Government will pay attention to what Mr. Laurier may say in his Boston speech. Being a man who can deliver a spirited speech on occasion, could he not if he were a thorough-going Canadian make patriotic and splendid use of his opportunity on the 17th? He could there and then declare himself as eternally opposed to any trade arrangement that would imperil the commercial and political independence of Canada. He could say that the country in which he was born had a future that he would not stand idly by and see frittered away by malcontent politicians; that all talk of annexation and of commercial subjection was repugnant to every honest man among his countrymen. As a thorough-going Canadian, he would go on and say that although he was leader of the Liberal party he had no sympathy with the cringing proclivities of many of his associates, and for his own part would neither ask nor accept from the United States any arrangement incompatible with the dignity of Canada and his own integrity. He might shake himself loose from the influence of that designing few among his colleagues who look nightly to Washington while they pray, and speak out in behalf of that legion of Reformers whose hearts are sound and Canadian still. He might speak thus and do himself credit. In one eloquent hour he could disabuse the American mind of the notion that he is a political ally, and he could regain the lost confidence of his countrymen. He has a splendid opportunity to display that stout spirit that evil party practices has surely not yet quite subjugated—that spirit that danced from his eyes when in defiance of public sentiment he declared that if he had lived on the banks of the Saskatchewan he would have shouldered a musket and lived or died with the rebellious halfbreeds.

SPORT ON THE DAY OF THANKS

WESTERN ASSOCIATION KICKERS CAPTURE THE CUP.

Toronto Leaguers Beaten by a Single Goal to Nil— Ottawa College Could Not Defeat Montreal—Many Minor Football Matches—Beavers and Nationals Draw at Baseball.

A good crowd of spectators turned out yesterday afternoon to see the Association football attraction at Rosedale. The weather was of the ideal sort for football and the ground in capital condition.

It was the annual match for the Caledonian Cup, between representative Toronto and Western Association elevens, and after holding the trophy since '83 the local kickers succumbed by a single goal to nil.

The crowd was a critical Association one. Quite a contingent came from Detroit, Berlin and Galt, who cheered the McKendricks, McMillan, Hemming, the great Galt right, and in fact the whole team, for they played a good game and certainly deserved their victory. It was the grand goal keeping of Porter, the 'Varsity custodian, that saved Toronto from a Waterloo. Time and again he knocked out apparently impossible ones, and was roundly applauded for his clever work.

The result of the play was even until within ten minutes of the call of time, when from a run up the right and Aitkin's perfect centre Jim McKendrick scored the only goal. Prior to that each side had put the ball through once. The bladder passed James in the first half on a kick from a foul, but was disallowed, as it did not receive the necessary second touch. And from a centre from the left the ball was sent past Porter in the second half, but was disallowed on account of an offside charge into the Toronto custodian.

The West won the toss and kicked towards the north goal. There was no apparent advantage to either side, there being an absence of sun or wind.

Jack McKendrick kicked off and the ball went straight to League quarters, but it only resulted in a goal kick. Then Toronto had a look in, Hooper and McWhirter making a good run, but it was only another kick for the keeper and soon again Toronto was tackled. Gourlay kicked out a dangerous one, but the West forced a corner. Aitkin placed well and Buell made a capital shot, which Porter was thus early applauded for fisting out. Gourlay placed the ball nicely after a foul against the West, when the left wing had a chance for goal.

"Shoot, Humphries!" yelled a touch-line enthusiast, and the Marlboro man replied by a shy that went wide fully twenty yards. A moment later Hooper sent in a long one that bounded over the bar. Arnott was cheered for neatly heading out a couple of dangerous long 'uns. The Wests were pressing but a relief came when Aitkin headed over the bar.

Thus the early play showed the teams to be evenly matched. McWhister soon went in a hot one that Henning only saved by putting up his hand.

"Now that would have been a pealty kick at 'ome," said a recent importation from the Ould Sod, "and the lochl chaps would have a certain goal." However Hooper took the ordinary place and banged accurately through. But the leather was not agitated a second time and it was no goal. Time was called soon after this and neither side had tallied.

From the kick-off the leather lingered around centre. Forsyth's team showed the better combination and started to force the play. But the Leaguers were by no means beaten and periodically looked dangerous. Once McWhirter centred accurately and McCallum sent in a nice shot, when James demonstrated that he knows how to guard the posts and cooly threw out the intruding leather.

A rally by the westerners was disastrous to Arnott, the left back. In stopping a combined forward run, he wrenched his knee and was obliged to leave the field. W. W. Wood replaced him. This well-known kicker received an ovation as he went on the field. Wood was not long in harness before he showed his old-time form and banged the leather vigorously. The visitors' right sallied down and Aitkin sent in a beautiful low centre that Jim McKendrick had no difficulty in putting through, scoring the first goal and what proved the winning point for the West. Ten minutes later and the whistle blew without any further scoring, although the ball hovered at times near both sticks.

The play was fast all through. The visitors had the best halves, who fed their forwards in a style much superior to that of Cameron, Goldie and Ferrie. Cameron was the pick of these three, while Fernley made several mistakes. Wood, Gourlay and Arnott all did well on the back division. Hooper and McWhirter were the best forwards. A game knee-joint apparently impared the usefulness of Capt. Anderson. McCallum made several good shots and passes. For the victors James played a faultless game in goal. Henning was the pick of a grand pair of backs. McMillan, Burnett and Kress were three serviceable halves, their ability showing in the order mentioned. The forwards were divided into two sections. The three McKendricks worked together in the left, while Buell and Aitkin showed pretty combination in the right. The play was free from all roughness and Referee Starr had little trouble in his position. His decisions were generally received without any objection. The teams and field officers were as follows:

Toronto League (0): Goal, Porter ('Varsity); backs, Gourlay (Marlboros); Arnott (Scots); halves, Cameron ('Varsity), Goldie ('Varsity), Fernley (Marlboros): forwards, P. McWhirter (Scots), Hooper ('Varsity), W. Anderson (Marlboros, capt.), N. McCallum (Scots), Humphries (Marlboros.)

Western Association (1): Goal, James (Preston); backs, McPherson (Detroit), Henning (Preston); halves, Kress, McMillan (Detroit), Burnett (Galt): forwards, Buell and Aitkin (Galt), John McKendrick, W. McKendrick and James McKendrick (Detroit).

Referee, J. R. L. Starr (Osgoode Hall); touch line judges, Patterson, Thibodeau; goal judges, Breckenridge, Smith.

The Canadian Rovers Defeat Gore Vale.

The Association football contest at Rosedale yesterday afternoon between Gore Vale and Canadian Rovers resulted in favor of the Junior League champions by 2 goals to 1. Play was very even during the first half, each side notching a point. Christie tallied for the Rovers and Singer for Gore Vale. It was not until time was nearly in the second half that C. Pearson made a pretty shot that scored and won the game for the Rovers. The match was played before the Caledonian Cup contest and was witnessed by a big crowd that came early to see both events. The teams were:

Rovers (2): Goal, Post; backs, Wells, Bowman; halves, Little, Burns, Beemer; forwards, Keith, Ward, Stammers, C. Pearson, Christie.

Gore Vales (1): Goal, Brown, backs, H. Proctor, W. Proctor; halves, F. Proctor, Austin, Rogers; forwards, Singer, Pollard, Johnston, Orr, Bulmer.

Referee—W. Galt.

Ottawa College and Montreal Draw.

OTTAWA, Nov. 12.—The Rugby match here to-day between Ottawa College and Montreal resulted in a drawn game, each fifteen scoring 10 points. The game was a rough one. A vast amount of off side was shown. No goal or try was secured in the first half and minors gave five all. In the second half there was a great deal of scrimmage play, the game ending in 8 points for each side. Quite a little sensation was caused by the referee's decision in this case, as it was alleged that the College had scored 10 points to Montreal's 8. The referee, however, was firm and decided that no score should be put up without his authority. The teams were:

Montreal (8): Back, Miller; halves, Campbell; half backs, Fry, Claxton; quarter, Fairbacks; wings, Louson, Jamieson, Baird, Arthur Fry, Higginson; forwards, Campbell, Bell, Reford, Black, Jones.

Ottawa College (8): Back, Bellanger; half backs, Cormier, Plunkett, Clark; quarter, Lustrous; wings, Leith, McDougal, Vincent, Murphy, Guillette; forwards, Charron, Newman, Judeau, Meagher, McCarthy.

Referee—Dr. Elder, McGill.

Lacrosse Men Beaten at Rugby.

A very amusing Rugby game took place yesterday morning at Rosedale between the Toronto Lacrosse Club's fifteen and Toronto II., the score standing at the finish 12 to 7 against the lacrossists. The feature of the game was Joe Irving's free catch near Toronto's goal. In preparing for the kick for a certain goal that would have drawn the match he unwittingly placed the ball on the ground and stepped back to bang the sphere over the bar when the Torontos cruelly walked forward and spoiled the attempt. Mr. Gifford made a model referee, his decisions never being questioned.

Thanksgiving Football Puts.

At Whitby yesterday the Collegiate Institute of that town defeated Bowmanville High School at Association by 3 to 1.

Trinity University's second Rugby team went up to Hamilton yesterday and were beaten by Hamilton II. by 26 points to 1.

The Willows defeated St. Michael's College senior Association team yesterday afternoon on the college grounds by one goal to 0.

'Varsity and Osgoode Hall players practised on the lawn yesterday morning preparatory to their big struggles in Montreal on Saturday.

Upper Canada College Juniors defeated the Hamilton third fifteen yesterday in Hamilton by 13 points to 10. Hamilton had on several senior players.

Unlike Upper Canada College the Young Canadians of Toronto could not play out their Rugby match at Port Hope with Trinity College School yesterday. With the score standing at 15 all a dispute brought the game to an abrupt termination.

DR. CARVER IN AUSTRALIA.

The Great American Wing Shot Defeated by an Antipodean.

A great 100-bird pigeon match took place in Australia recently on the New South Wales Gun Club grounds, between Dr. Carver and L. Clarke. The consideration was £400 ($2000). The Sydney Referee gives the following account of the match:

All being ready a coin was spun up, and Mr. Clarke, winning the toss, sent Carver to the traps, and he missed the easiest bird imaginable; it was an incoming one, and came in to the left in a line with the pavilion. He then lost his fifth, a bird that was badly broken up, and just dropped over the fence. His ninth was a low-flying one, and it dropped dead outside. Mr. Clarke shot considerably under a fast-rising bird from the outer trap; he then tried to snap his eighth, but it escaped and fell dead just a few feet over the fence. His ninth was a trimmer, and it got away clean. It will be seen that each shooter had lost three out of the first nine they shot at, a by no means creditable performance. Mr. Clarke's 11th bird was one of those nasty, low-flying dodgers, which he hit pretty hard with his second barrel, but it managed to get out. This miss gave Carver an advantage of one bird, and both men then settled to work in earnest, neither throwing a chance away.

Carver ran up from 10 to 38 without a miss, but came to grief on the 39th, his pigeon being a magpie-colored one that just twisted as he was about to pull off his first barrel, but he doubled it up with his second barrel at a long range and it fell outside. The miss equalized matters till the doctor again failed to keep inside of bounds a ripping fast blue. All along Clarke kept scoring and occasionally made some good shots. When each had shot at 50 birds Clarke was leading by one, and at 62 he had two the best of it, and it was not till he shot at his 68th that he made a mistake, although he had good luck in getting his 58th and 63rd gathered inside; it was a dark blue and escaped without a scratch.

His 83rd was well stopped, and it was one of the best shots he made during the day. At 75 Clarke was leading by one bird, but on failing to bag his 76th they again came on level terms. This score did not last long, for Carver again, after cutting up his 76th, had to stand and see it struggle out of bounds. Carver's 67th, 68th and 69th birds were the fastest trapped all through the match, and he made some beautiful shot, bringing them to grass each time, for which he was deservedly applauded. With only 10 birds each to shoot at Mr. Clarke was two birds ahead. He then lost his 92nd and Carver followed with a miss, and Clarke again failed to grass his 93rd. Mr. Clarke had a stroke of good luck in getting his 95th scored.

It was a very fast rising one that at first took right away and was missed with the first barrel; then the shooter steadied a little and getting well unto it fired and succeeded in fetching it down from a good height. In its struggles and efforts to keep on the wing it was gradually descending in a line apparently in a direction that would have taken it out of bounds, when it suddenly dropped, and, bumping within a few inches of the top rail of the boundary fence, fell inside of bounds. The remaining eight birds which each had to shoot at were killed, and when the last bird was shot at Mr. Clarke was declared the winner by one bird. The following are the scores:

Mr. L. Clarke, 30 yards (Purdy): 121211010201121 3; 121121121111111 1; 212221211211112 1; 111211122211212 1; 110111122200112 1; 211211220202212 2; 1 92

Dr. Carver, 30 yards (Cashmore): 022101110111212 1; 212111122211121 1; 111111014121102 1; 121121121111012 1; 222121211212102 1; 121222022202211 1; 1111 91

The figure 2 denotes second barrel, when used.

Palo Alto's Mile in 2.09¾.

STOCKTON, Cal. Nov. 12.—Palo Alto made a race against his record, 2.09½, Tuesday, but broke twice and made the mile in 2.10¼.

Late in the afternoon Marvin trotted Palo Alto a second time, hoping to reach the mark he wants for the hero of the stables, as he is anxious to retire the game old fellow.

Palo Alto was not distressed by his first fast work, and he seemed to be ready to go a wonderful mile. Marvin gave him only two scorings, and then nodded for the word. The stallion went away at a terrific gait, with the runner exciting him.

Marvin held the old fellow back as well as he could, talking to him all the way, but he went to the quarter post in .31¼ and to the half at the rapid gait of .31¾. From the half he slowed up a little, going to the three-quarter post in .33. He made a magnificent finish in about the same time, coming home without a skip in the mile in 2.09¾.

The horse was too tired to break the record in the second killing heat in one day, but he trotted the second mile only a quarter of a second below his best mark and only half a second slower than the world's record held by Allerton. The crowd cheered wildly, believing that the record had been broken, and there was disappointment shown when the timers made the time slower, but there is no unfairness here and the record made goes.

Turf Topics.

A business meeting of trotting association horsemen was held at Decatur, Ill., at which a new racing circuit was formed, to include six cities, to embrace Decatur, Bloomington, Pekin, Danville, Kankakee and Springfield. The races will begin the third week in June.

Early Wednesday morning a barn near Coldwater, Mich., belonging to J. G. Antin was burned, together with its contents, including a stallion belonging to J. G. Houghtain, valued at $2000, and one owned by A. B. Ashbeek that its owner valued at $800.

Arion, the world's best two-year-old, made a wonderful mile this week at Stockton, Cal., going against his record of 2.14¼. He trotted the mile without skip in 2.10¾, the quarters being 0.33 2-5, 1.04 3-5, 1.37 3-5, 2.10¾.

205 MILES IN 15 1-2 HOURS.

Result of the Relay Bicycle Race from Hamilton to Kingston.

The experiment of carrying a letter from Hamilton to Kingston by cycling couriers was tried yesterday and 13 relays of riders covered the distance of 205 miles in 15 hrs. and 30 min. The start was made at 5 a.m. and the journey completed at 8.30 p.m. The roads were by no means first-class, showing that the men who participated in the event were not only plucky but fast to cover the distance in such good time.

It was 8.35 when Palmer and Skerritt reached King and Bay-streets, where the letter was handed over to Brown and Foster, who rode on to Norway. The Grafton riders fluked so, Lennox and Lowes rode the 31 miles from Port Hope to Brighton. The complete record of the hour of arrival at the different relay stations, with the names of riders and distances, is given below:

BASEBALL IN AUTUMN.

Beavers and Nationals Play a Draw Game, Each Scoring One Run.

The baseball season closed yesterday with a very exciting game between Nationals and Beavers, the two great local rivals. Owing to some of the Beaver players being late the game did not start until 4 o'clock and was called at the end of the seventh innings on account of darkness. Both teams put up a great game, Humphreys, the Beavers twirler, distinguishing himself by the manner in which he held the heavy-hitting Nationals down with a credit of eight strike outs and only four hits being made off him. Thompson pitched with good effect, considering that it is about five weeks since he had a ball in his hand. Downs put up a grand first bag, and is fast becoming one of the most popular ball tossers in the city. Daddy Benson played second in nice style. Hurst's playing on short was clean and quick. There are few players who can reach first quicker than Levey. Chambers put up his usual game, and his playing told well for his team on the score card. Schnapauff had his eye on the ball, but Harris, who has been playing a fielding game second to none in the city all season, pulled down several of his long drives. Prentice and Blanchard sustained their good reputations behind the bat. The score:

The Short Stop's Suicide.

PHILADELPHIA, Nov. 12.—John T. Scott, the short stop of the University of Pennsylvania baseball team in spring of 1889 and '91, committed suicide this morning by cutting his throat. In an inter-collegiate game on the 'Varsity grounds in 1889 he was hit in the head by a pitched ball and knocked senseless, remaining so for 24 hours. Since then he has had occasional pains in his head. On Tuesday afternoon Scott began to act queerly, complaining of pains around the eyes and to-day he ended his life with a razor.

All Sorts of Sporting.

A successful trial has been made with an electric lamp for bicycles, the vibration of the machine in no way affecting the light.

Chappie Moran, the famous English bantam pugilist, who has just returned from England, has issued a challenge to fight the winner of the Tommy Kelly and Billy Plimmer fight at 105 pounds, or any man of that weight in America.

Charley Marks of Buffalo and Arthur Stemeyer of Toronto fought six rounds on Saturday night. Marks weighed 130 pounds and Stemeyer 165. The Buffalo man won. Dan Kelly was the referee.

Mike Boden, the "Canuck," and Tom Kinniard, the "Michigan Cyclone," signed articles Tuesday night for a finish fight Dec. 5. Both are heavy weights and experienced tacticians in the squared circle. Jackson Brady and William Mack are the backers espectively of Boden and Kinniard.

"BEN HUR."

A Spirited Translation from Sophocles of Its Inspiration.

The popularity of Ben Hur is possibly intercontinental, and yet its reputation is chiefly based upon the eight-page description of a chariot race in which the hated Israelite is victor over his Roman adversary. As a piece of descriptive writing it has few equals from the pens of modern authors, and yet, like all good things, it is not entirely original

TWO CRACK BATTALIONS.

QUEEN'S OWN AND GRENADIERS IN THE FIELD OF MARS.

The Two Regiments Spend Thanksgiving in Practising Military Formations—Both Corps Turn Out in Large Numbers—A Free Fight Took Place at One Point.

Yesterday was hardly the sort of day suited to outdoor sport. It opened with a clouded sky. As the day advanced the clouds became more threatening. By noon a gentle rain was falling.

The enthusiastic volunteers who had arranged to manœuvre in the vicinity of Norway were not to be discouraged, however. The Queen's Own and the Grenadiers, therefore, turned out very strong. The Grenadiers numbered 455, the Queen's Own 581.

At 9.30 a.m. the Queen's Own marched from the Armory, and tramped all the way to Norway, arriving at the parade ground about 11 o'clock. Colonel Hamilton was in command. Colonel Otter, Major Mead and Major Vidal and Captain Macdougall of the Infantry School also accompanied the regiment.

Immediately on arriving at Norway three companies were chosen by Colonel Otter, and were examined in company drill. These companies were A D and G. Major Vidal and Captain Macdougall awarded the marks. The marks obtained will determine which regiment is entitled to the prize cup offered by Colonel Gzowski for the best drilled city battalion. This includes other cities than Toronto. Consequently the award was not settled yesterday. While these companies were being examined the remainder of the battalion practiced battalion drill.

By Whole Battalions.

After this the whole battalion formed up and Major Delamere did several battalion movements, after which Major Sankey opened the ranks. Manual and firing exercises were then indulged in, after which Col. Hamilton exercised his men in echelon movements, changes of front, deployments and battalion squares. They were then dismissed for lunch.

The Grenadiers arrived on the ground at 12.15. They waited until the Queen's Own had completed their military evolutions, when they took their turn and were put throughtheir facings by Major Harrison and Adjt. Maclean, and they too were dismissed for lunch. E, K, and L companies of the Grenadiers were chosen by Col. Otter to undergo the examination.

After luncheon the battalions again mustered and were reviewed by Col. Otter. They marched past the officers in several formations, in the march, in quarter column, the quarter column double quick, double columns double quick. In these manœuvres companies I and K of the Grenadiers and companies A and K of the Queen's were noticeable for their skill in marching. The ground was, however, very rough, and it was a difficult task to keep in line at all.

Fifty men from C company were present on the ground under the command of Lieut Laurie.

The following is a list of the companies, with the names of the officers in command, that turned out:

Queen's Own.

A Co'y	Capt. Thompson	Lieut	Ince
B "	" Pellatt	"	Lloyd
C "	" Knifton	"	Rennie
D "	" Mason	"	Jeffrey
E "	" Mutton	"	Morton
F "	" Ingles	"	Wyatt
G "	" Mercer	"	Levisconte
H "	" Gunther	"	Mowat
I "	" Murray	"	Cosgrave
K "	" Bennett	"	Coleman

The signal and ambulance corps were also present.

The staff consisted of: Col. Hamilton, Major Delamere, Major Sankey, Captain Macdonald, Surgeon Leslie, Assistant Surgeon Nattress and Quartermaster Heaks.

Grenadiers.

A Com.	Capt Hay	Lieut.	Irving
B "	" Cameron	"	Boyd
C "	" Caston	"	Chadwick
D "	"	"	Sweeman
E "	" Gosling	"	Lehmann
F "	" Elliott	"	Heward
G "	" McKay	"	Stimson
H "	" Trotter	"	Pringle
I "	" Harstone	"	Bolton
K "	" Manley	"	McMahon

The pioneer corps, 10 strong, was in command of Sergeant Harding. The ambulance corps was under Assistant Surgeon King.

The staff consisted of Col. Dawson, Major Harrison, Surgeon Ryerson and Assistant Surgeon King.

They Came to Blows.

Towards the close of the day there was a rather interesting scrap. Martin McMillan, who keeps a grocery store at 431 Yonge-street, was on the field with his family in a carriage. During the battalion drill he got in the way of the approaching men, and as the crowd closed in around him he could not get out of their road. Both he and his horse became excited and he commenced to drive the animal through the crowd. Sergt. Johnston of the Pioneer Corps went to lead the horse out of the way, and while doing this he says that McMillan struck him with his whip. Johnston retaliated by striking McMillan with his cane, cutting his forehead. This angered the crowd, who were now nearly all on McMillan's side, and when he drove into the hotel yard close by, as many as could get inside did so. The ladies in the rig were crying, the horse rearing up and all was excitement. At this juncture Johnston, who had lost his cane, came in to find it. As soon as McMillan saw him he made a rush at him and a general fight ensued, in which the crowd took sides. McMillan's friends got him into the rig and he drove away; but the fight was just properly started. Queen's Own, Grens and civilians were slugging each other in great style. One man in uniform drew a bill-hook and made several wicked lunges, which would certainly have seriously injured some of those around had they not jumped out of the way. The fight went on until several officers appeared on the scene and dispersed the crowd. Hats, helmets, snare-drums and flutes were lost in the melee, and the owners of these made things lively for a while in trying to find them. A good deal of the afternoon's disturbance would have been avoided had stimulants not been so easily obtainable on the field.

On The Side.

A football match was played between Companies A and D of the Queen's Own. Play lasted for half an hour, and during that time one goal was scored by A Company.

Among the large number of visitors were noticed Judge Morson, Homfrey Irving, Mrs. Sankey, Miss Small, Mr. and Mrs. Walter Dickson of Galt, Mr. and Mrs. J. E. Hughes, Mr. Andrew Darling, Mr. B. Simpson, Mr. Robert Myles, Miss Mackenzie, Mr. McCabe, Mr. Sydney Small, Miss Taschereau of Ottawa, Mrs. and Miss Otter, Mrs. and Miss Dawson, Ald. Pape, J. K. Kerr, Mrs. Kerr, Miss Dixon, Mrs. Dr. Ryerson, Mrs. R. B. Hamilton, Mrs. Macdougall, Mrs. J. D. Hay, Miss Henry, Mrs. J. B. Thompson, Mr. Morton, the Misses Boultbee and Ald. Allen.

The usual crowd of young hoodlums followed the volunteers to the review grounds. To make the scene more warlike, they started several large bonfires in the bush across the street. If they had stopped with this it would have been all right, but the sight of an ancient and deserted cottage was a big temptation, and it also was soon in a blaze. Fences in the vicinity were laid low, and the very combustible pickets and scantling were speedily used to dry the damp clothing of many of the spectators.

What the Country Has Escaped.

No one need fear cholera or any summer complaint, if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Valuable Furniture by Auction.

Attention is called to the great auction sale of valuable household furniture, carpets, etc., that takes place to-morrow at 11 o'clock at the rooms of Messrs. Charles M. Henderson & Co., No. 219 and 221 Yonge street, corner of Shuter-street.

SWALLOWED HIS TEETH.

Thomas Flynn's Strange Death While at Supper.

MILWAUKEE, Nov. 12.—Thomas Flynn, a currier employed at Gallun's tannery, while eating supper at Mrs. Long's boarding house, 222 Pearson-street, last night swallowed his false teeth and choked to death. Flynn was about 60 years of age and was a bachelor. Flynn was in the best of health a few moments before he sat down to eat his supper.

On examination the doctor found that a portion of the lower set of teeth had fallen into the throat, together with a piece of meat, and that another portion of the plate was wedged on top. Members of the household say that Mr. Flynn did not seem to suffer greatly.

COMANCHE IS DEAD.

He Was a Horse and the Only Survivor of the Custer Massacre.

KANSAS CITY, Nov. 12.—Comanche, the most celebrated horse in the United States cavalry service, died at Fort Riley last Thursday. He was the only living thing belonging to the United States service that escaped the massacre at the battle of Little Big Horn, where Gen. Custer and his command were massacred. He was one of the original mount of the Seventh Cavalry when the regiment was organized.

After the battle of Little Big Horn Comanche was found covered with wounds, riderless and saddleless, some distance from the scene of the massacre. He was taken in charge by Capt. Rowlan, who sent him to Fort Riley, where for 14 years he has been the ward of the Seventh Cavalry. His death was due to old age.

Punishing the Inebriate.

Editor World: In the program of reforms which Mr. James Beaty proposes to support for the public good, there is none from a moral and social point of view of greater importance than the thirteenth, in which he promises "To establish a means of reformatory punishment for habitual drunkards." Such an institution is as necessary as a hospital or an asylum for the insane, and if conducted on wise and scientific principles would be more effective in checking and curing habits of intemperance than all the other efforts of temperance societies and prohibitory legislation. But what does Mr. Beaty mean by "reformatory punishment"? Habitual drunkenness is a physical and mental disease, against which its unfortunate victims are as incapable of resistance as are those who are attacked by diphtheria or cholera or insanity. No physical or moral disease has a stronger claim to be regarded as hereditary than the one he proposes to cure by "punishment," and when once human beings become its victims the only hope of their reformation lies in the adoption of natural and scientific methods as in the case of other physical or mental diseases. The causes of drunkenness are manifold: disappointment, poverty, despair in every form, and it must be acknowledged, a desire for unhealthy excitement, all lead to habits of drunkenness. But when once the poor victim has fallen into the habit its power becomes irresistible and no punishment, even if just, will ever succeed as a reformatory influence to effect a cure. The only justifiable and practical cure will lie in the establishment of an inebriate asylum, in which the habitual drunkard should by legal process be confined as we confine the insane and only liberated when every evidence of a cure was manifested. And even after liberation, if the patient returned to his bad habits, he should be again returned to incarceration with the certainty that the imprisonment would be prolonged. That would be the only justifiable and effective "punishment," and if that be the reformatory punishment proposed by Mr. Beaty he ought to secure the vote of every temperance voter in the city.

A SUFFERER.

Toronto, Nov. 11.

That Barrel Machine.

Editor World: In your remarks about George Anderson, jr., you have unwittingly done our company a great injustice. Mr. Anderson does not to-day hold one share in our company. The stock is held by not over 10 people altogether, and the persons you say who are going around "waiting for something to turn up," are doing nothing of the kind. Last March or thereabouts a new directory took hold of the company, and the valuable invention, so badly managed before then, was put on the market with most encouraging results. We have so many orders that we cannot fill them as fast as they come in, owe nothing and have assets to a large amount, besides owning the patents for 10 countries. Mr. Anderson was paid for his stock, and although he was originally the president of the company for the purposes of incorporation, we do not think that the present shareholders should be called on to suffer for his trouble.

Tom Sargant and His Regalia Business.

Editor World: Once more you are the means of revealing the workings of a system the fruits of which we have suffered from for some time. This man Sargant, carrying on business as a regalia maker in his wife's name, has been able to underquote all his competitors. One line of sash, which used to cost $4.75 each, is made by the appraiser of customs at $2.75, and I am open to bet $100 that unless the goods are smuggled he cannot make the line for the money. Push this enquiry, Mr. World, and possibly you may make it so hot for this customs officer that he will decide whether to remain a customs officer or give up business.

NO SMUGGLER.

Women Wanted!

Between the ages of fifteen and forty-five Must have pale, sallow complexions, no appetite, and be hardly able to get about. All answering this description will please apply for a bottle of Dr. Pierce's Favorite Prescription; take it regularly, according to directions, and then note the generally improved condition. By a thorough course of self-treatment with this valuable remedy, the extreme cases of nervous prostration and debility peculiar to women are radically cured. A written guarantee to this end accompanies every bottle.

Prayers for the Dead.

[Evangelical Churchman.]

We have warned our readers again and again of the false teaching on this question in several Canadian dioceses. The Rev. C. E. Whitcombe of Hamilton, preaching in Grace Church, Toronto, on All Saints' Day advocated prayers for the dead. His arguments were unscriptural, and his statements concerning the value of invocation to us carries a contradiction of the twenty-second article. Prayers for the dead are condemned by Scripture and by our church in her formularies. The Apostles in no place command prayers for the dead, and in no place allow them. We trust that the rector of Grace Church, who has surely not adopted such a superstitious practice, will speak out plainly to his people in accordance with his ordination vows.

In Bed—Out of Bed.

If there is any pain more excruciating than sciatica, it is yet to be found, and such must have been the experience of Mr. D. C. Simmons, who writes from Lowville, N.Y., U.S.A., February 2, 1889, and says: "I suffered six months with sciatica in the hip; was confined to bed three months, used crutches six weeks. I used three bottles of St. Jacobs Oil and was cured. Have had no return of pain in four years."

Deer Park Sanatorium.

The Deer Park Sanatorium for inebriates will be formally opened on Saturday at 3 p.m. The building has been completed and is now ready to receive patients. On the occasion of the opening a number of prominent citizens, both clergymen and laymen, will deliver addresses. The institution is under the supervision of Dr. C. Schomberg Elliot, who has much experience in the class of work which the Sanatorium has been established to perform. Ladies as well as gentlemen are invited to attend the annual opening.

Is there anything more annoying than having your corn stepped upon? Is there anything more delightful than getting rid of it? Holloway's Corn Cure will do it. Try it and be convinced.

Of Feminine Interest.

The women of Venezuela use fireflies for decorating their hair at night. They are fastened with silk thread.

The birth of a little girl to Mrs. A. N. Fase of Kansas City, Kan., brings out a peculiar fact. The mother is 16 years old. Her mother, Mrs. M. Spangler, is at the house, a grandmother at 33, and Mrs. G. M. Redman of St. Louis is also there. She is the child's great grandmother, aged 52 years.

Dr. Lawson Tait, the eminent London physician, employs a woman secretary. Dr. Tait says that he finds her in every way sufficient. She manages his large correspondence, jogs his memory as to his appointments and keeps his desk free from that chaotic state which overtakes nearly every one burdened with many letters to write and to answer.

"The Empress of Japan," says Woman, "takes a keen interest in female education and devotes all her 'savings' to this object. Every month she visits the school for peeresses at Koto and personally interviews each student and inquires after her progress and well-being. The Japanese girl students, while eager to embrace our learning, have not copied our costumes and habits and remain still the quaint, gentle, grotesque mistresses of Japan, clad in the many colored and flowing kimono and gorgeous obi." Another evidence of Japan's rapid advance in western civilization is the fact that the women of that country have taken to journalism. An Englishwoman, Mrs. Barnett, while in Kioto was visited by a member of the Japanese fair sex who wished to interview her. The caller introduced herself by saying, "My husband has make the paper and I do the part of visiting the outside country to help forward him." The Kioto Journal on the following morning contained a long account of Mrs. Barnett.

A big crop of old maids seems imminent, judging from statistics. If the statistics of Great Britain are correct, the excess of women and girls over men and boys in that country is about 900,000, an increase in 10 years of about 200,000. In Germany the number of females in excess of males is about 1,000,000. In Sweden and Norway the "weaker sex" is in the majority by about 250,000; in Austro-Hungary by 600,000, and in Denmark by 60,000. In the United States, Canada and Australia the males are in the majority. In this country there are about 1,000,000 more men than women.

A Sea Voyage.

A sea voyage is an expensive and extensive prescription, especially when equally good results as regards health are to be had by simply taking Burdock Blood Bitters according to directions. It is a specific for dyspepsia, cleanses the blood, regulates the liver, bowels and kidneys and removes all impure matter from the system.

Rising Legal Lights.

The results of the bar and solicitor examinations were made known yesterday at Osgoode Hall.

Following are those called to the bar: 1, F. Billings; 2, W. F. Smith; 3, W. S. Buell; 4, W. F. Longworthy; 5, Y. W. Mealey; 6, T. M. Harrison; 7, R. G. Pegley; 8, H. J. D. Cooke, without an oral; F. Harding, J. Knowles and W. W. Scane.

The names of those granted certificates certifying their fitness to act as solicitors are: 1, G. D. Grant; 2, W. S. Buell; 3, F. Billings; 4, E. Pirie; 5, W. F. Longworthy; 6, R. G. Pegley; 7, T. M. Harrison; 8, C. Seager; 9, H. J. D. Cooke; 10, F. D. Boggs; 11, W. H. Cawthra, without an oral; J. H. McCurry, J. Armour, S. S. Reveler, W. Mills, C. J. Lucy.

A Severe Attack.

DEAR SIRS,—My children were taken ill with ulcerated sore throats bordering on diphtheria. I had nothing in the house but Hagyard's Yellow Oil, which I used with great benefit. I am sure it had not been for it the disease would have developed into diphtheria. It is a splendid medicine.

Figs and Thistles.

[From Ram's Horn.]

It always makes a loafer tired to watch an earnest man work.

The man who needs a newspaper the most is generally the first to stop it.

The man who does a good deed only for pay will do a bad one just as quick if the price is raised.

If you don't have any temptations it is a pretty sure sign that there is something wrong with your Christian experience. The devil never wastes any bait in trying to catch dead fish.

Extraordinary! Deadly Strychnine Removed.

Was blood poisoned with strychnine 25 years ago? Many attempts by skilled physicians failed to arrest the ravages of the horrid life-destroyer. One year ago tried *St. Leon Mineral Water*, took copious draughts, which cleared my system of the deadly poison, the outbreaking, etc. It has also raised me to a higher state of health, strength, and enjoyment of life than ever before experienced. No money consideration could equal its value to me. I prize St. Leon above everything. H. W. Lockwood, Westport, Ont.

The Czar of Russia.

The Czar of Russia probably has his own troubles as well as we commoner mortals. Where we have the advantage in such troubles as dyspepsia, biliousness, constipation, bad blood and the like is in being able to procure easily a perfect remedy in Burdock Blood Bitters, nature's grand restorative tonic and blood purifier.

Gulf from Gotham.

Henry Allen to J. J. Dixon & Co.: To-day the market was weak notwithstanding the increase in the strength of the Bank of England's reserves which showed an improvement over the previous week. During the morning hours there were some advances, the average of the list being higher than in the morning hours; but at the close the quotations were below those of Wednesday's closing figures. It is wholly a market of speculators. There is no investing public in it. Even the former class are wary in the presence of so many uncertain factors. The rumors that come from Brazil and from Europe are not consoling, they indicate that beneath the surface there are portentous rumblings, and the future of the centres abroad is by no means promising. Until these fears are dissipated and change occurs in the spirit of the market in Paris, in London and in Berlin there can be little hope for the restoration of conditions which appeared so close at hand scarcely a week ago. Yet the failures in Berlin, the disquiet in Paris, and the influence they exert upon London may be merely passing incidents in a period of transition from unsatisfactory to improved conditions. It is not unlikely too that they indicate that the crisis has either already been reached or is rapidly developing. If it has been reached and passed the currents which have been pregnant with unfavorable factors may be on the turn, and new forces may be developed which will promise a bull market in the near future, but nothing is certain and the future must speak for itself.

Gossip From Chicago.

A. G. Brown's correspondents: Advices from St. Petersburg to The Sun say it has been decided not to tax Russian wheat export, but prohibit them entirely.

Walker: Prices current says wheat crop position improved by rains, but still needing especially favorable conditions and delay in severe weather to justify confidence in outlook. More inclination to sell corn by farmers; large quantity cribbed in good condition.

Counselman & Day to J. J. Dixon & Co.: Wheat opened ⅜c higher and sold ⅜c higher in early trading to-day on extreme cold weather in the Missouri River valley. The first buying was speculative and prices afterwards fell flat to yesterday's closing price, at which price a large business was done on foreign buying orders. Speculators re-sold freely at 95c for December and took the bear side until the close, forcing a not half cent decline for the day. After the close New York reported a million wheat and 420,000 corn taken for export, with ocean freights very active for nearly all foreign ports. Receipts at Northwestern points were lighter at 858 cars and in considerable at winter wheat points this market was simply flooded by local selling, principally of short wheat, and closed just above put price. For the past three weeks purchases made on these raids for quick returns have made good profits and we think will do so again. Corn opened weak on sharp freezing weather to help shelling and grading, and on The Price Current report of more disposition by farmers to sell. Shippers re-sold near deliveries, but took fair amounts later, as lake tonnage could be obtained for early shipment. Provisions were strong throughout; the principal selling was done by commission houses. Opinions are divided as to amount of local short interest remaining, but undoubtedly several large individual lines will remain to be covered when deliveries take place. Meantime markets react quickly from breaks.

International Banking Business.

Notwithstanding the fact that lumber exports from Canada during the past three months show a decline, the aggregate balances due by United States Banks to Canada, Oct. 1, show an increase of 36 per cent. as compared with the corresponding date of last year, while balances due from Great Britain increased 22 per cent. during the same period. Of the large amount of money now owing Canada by American banks, a very large percentage is on account of lumber sales. A marked decrease is shown during the eight months ending Aug. 31 in the value of lumber and timber imported into Canada from the United States as compared with the corresponding period last year. The aggregate value of lumber and timber imports during the period mentioned was in 1890 $1,636,949, decreasing in 1891 to $874,339.

Gold for Food.

[London Statist.]

Europe needs more food than at any time since 1880, therefore the European demand for American grain will be unprecedentedly large, and America, in consequence, can take as much gold as she pleases. The demand would, in the natural course of things, fall mainly upon Russia, Germany and France, in about the order enumerated. But Russia has no money to pay with and must be financed by France or must draw upon her credits abroad, and it is certain that France and Germany will do their utmost to divert from themselves to England as much of the American demand as possible. If therefore rates in London remain low, the American demand will certainly increase; while if rates rise in London above the Continental level, the Continent will have to pay for the food it needs. As sensible men of business then the directors of the Bank of England, the joint-stock banks, and the bill brokers and discount houses should prepare themselves for a long continued outflow of gold from Europe to America. It expresses the conviction that if the Bank of England neglects to get control of the market and allows a rate of discount will be seen before November ends. It is evident that the joint-stock banks refuse to co-operate with the Bank of England.

J. B. Lawes' British Wheat Estimates.

Mr. J. E. Beerbohm says that Sir J. B. Lawes puts the average yield at 30 bushels (of 60 pounds) per acre for the United Kingdom, which, on the area sown of 2,392,245 acres represents a crop of 8,975,000 quarters, from which about 600,000 quarters are deducted for seed, so that the net quantity for consumption would be about 8,375,000 quarters, according to Sir J. B. Lawes, who has evidently taken no account of the more than usually large quantity only fit for cattle feeding this year. In this List the quantity available for consumption has been calculated at 7,500,000 quarters, and the writer is not yet disposed to increase that estimate. Owing to the fact that the Board of Trade now makes its returns in quarters of 480 pounds and allows only 72 per cent. yield of flour from wheat, Sir J. B. Lawes has based his calculations on a similar line; but this leads him to increase his estimate of the consumption to six bushels per head, which for a population of 38,084,615 means a total consumption of 28,525,961 quarters. Thus he estimates that the United Kingdom will require to import over 20,000,000 quarters in the present season, in which respect he does not differ much from the opinion of those more in touch with the trade, but whose estimate of the consumption, as well as of this year's crop, is much smaller. The calculation at present adopted in this (Beerbohm's) list is as follows:

	Quarters.
Net crop for consumption	7,500,000
Consumption at 5.70 bush. per head (including seed)	27,000,000
Requirements from abroad	19,500,000

It may be added that quarters of 480 pounds have for years past formed the basis of calculations in this list, and that for several years the flour percentage yield from wheat was put at 75⅔ per cent.

GRATEFUL—COMFORTING

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus:

HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general prostration has disappeared. I will always remember you as my benefactor."

The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a
