St. John Chronicle.

AND COLONIAL CONSERVATIVE.

Volume 18. Saint John, New-Brunswick, Friday, July 25, 1851. Number 46.

THE SAINT JOHN CHRONICLE,

Is published every Friday afternoon, by WILLIAM DURANT, at his Office in the Brick Building of L. H. Deveber & Son, west side Prince Wm. street.

☞ Visiting and Business Cards, (plain and ornamental,) Handbills, Blanks, and Printing generally, neatly executed.

TERMS OF THE CHRONICLE :—

12s. 6d., in Advance ;—$3 if not paid until the termination of the year ;

But as the Proprietor intends to discontinue, as far as practicable, the *Credit system*, and stop the practice of making *good subscribers* contribute for those who *never pay*, he offers the following

Inducements for Clubbing,

by which means parties will be able to procure a valuable Family and Business Newspaper at a CHEAPER RATE than any heretofore offered in this Province. He proposes to send

For $10 IN ADVANCE, 5 copies of the Chronicle, *to one address*, to any part of this or the Sister Provinces, for One Year ;

For $20 in advance, 11 copies for One Year ;

For $40 in advance, 24 copies for One Year ;

Mind! IN ADVANCE, and to one address.

☞ BY THE YEAR.—The rate of advertising by the year is six poundsper column, and *half, quarter, or eighth* part of a column in the same ratio.

☞ No paper discontinued until all arrearages are paid up, except at the discretion of the publisher.

All letters, orders, communications, &c., must be post paid, and addressed to

WILLIAM DURANT.
Chronicle Office, Saint John, N. B.

Poetry.

HERE AND THERE.

Here, bliss is short, imperfect, insincere,
But total, absolute, and perfect—there ;
Here, time's a moment, short our happiest state,
There, infinite duration is one date ;
Here, Satan tempts and troubles e'en the best,—
There, Satan's power extends not to the blest.
Here, in a weak and sinful frame I dwell,
But there, I quit this frail and sickly shell ;
Here, my best thoughts are stained with guilt and fear,
But love and pardon will be perfect there ;
Here, my best duties are defiled with sin,—
There, all is ease without and peace within ;
Here, feeble faith supplies my only light,—
There, faith and hope are swallowed up in sight ;
Here, love of self my fairest work destroys,—
There, love of God shall perfect all my joys ;
Here, things as in a glass are darkly shewn,
There, I shall known as clearly as I'm known,
Frail are the fairest flowers that bloom below,—
There, freshest palms on roots immortal grow ;
Here, wants or capes perplex my anxious mind,
But spirits there a calm fruition find ;
Here, disappointments my best schemes destroy,
There, those that sow'd in tears shall reap in joy ;
Here, vanity is stamped on all below,—
Perfection there on every good shall grow ;
Here, my fond heart is fastened on some friend,
Whose kindness may, whose life must have an end,
But there no failure ever can I prove,
God cannot disappoint, for "God is love ;"
Here, Christ for sinners suffered, groaned and bled,
But there, he reigns, the great triumphant Head ;
Here, mock'd and scourg'd, He wore a crown of thorns,
A crown of glory there His brow adorns,
Here, error clouds the will, and dims the sight,—
There, all is knowledge, purity and light ;
Here, so imperfect is the mortal state,
If blest myself, I mourn some other's fate ;
At every human woe I here repine,
The joy of every Saint shall there be mine ;
Here, if I lean, the world will pierce my heart,
But there that broken reed and I shall part ;
Here, on no promis'd good can I depend,
But there the "Rock of Ages" is my friend.
Here if some sudden joy delight inspire,
The dread to lose it damps the rising fire.
But there, whatever good the soul employ,
The thought that 'tis immortal crowns the joy.

—*Hannah More.*

A CHILD'S EVENING PRAYER.

"Jesus, tender Shepherd, hear me,
Bless thy little lamb to-night ;
Through the darkness be Thou near me,
Watch my sleep till morning light."

Guardian angels hovering by me,
Let me in my dreams behold
Your bright faces beaming o'er me,
As you touch your harps of gold.

Or *Our Father*, sing ye to me,
Sweetly sing, angelic band ;
Sing of heav'nly joys unto me,
Tell me of the Spirit-land.

Now my sleepy eyes are closing,
Angels, leave me not, I pray,
Christ hands me, wait my waking,
Angels, sweetest spirits stay,

Bend and kiss me—angels kiss me,
O, I feel that I am blest,
Sighing, in my sleep, caress me,
While I take my quiet rest.

Hartland, Feb. 3rd, 1851.

THE BISHOP OF EXETER'S SYNOD.

The "great experiment" which the Bishop of Exeter has ventured upon commenced on Wednesday, when the Bishop and clergy assembled in the Cathedral a quarter past ten o'clock. The prayers and Litany were "intoned;" after which the communion Service were read by the Rev. Chancellor Harington, the Epistle being read by Archdeacon Freeman and the Gospel by the Archdeacon More Stevens. The sermon was preached by the Rev. George Hole, rector of Chulmleigh, and one of the prebendaries, from the 13th and 14th verses of the 1st chapter of the 1st Epistle of St. Paul to Timothy—"Hold fast the form of sound words which thou hast heard of me, in faith and love which is in Christ Jesus; that good thing which was committed unto thee, keep by the Holy Ghost, which dwelleth in us." The clergy then proceeded to the chapter-house, which is also used as the cathedral library. The bishop's chair was at the head of a long table, the archdeacons sat on the right and left, and the other members of the "synod" ranged themselves as in chapter on each side of the chapter-house. A recorder, together with the bishop's secretary, &c., were seated at the table, and the synod commenced by some short prayers.—Then the Bishop, standing up, said.

Almighty God, who in the beginning of the Gospel did cause the apostles and elders to meet together, and did endow them with His Holy spirit, grant unto us all, who are here assembled, we humbly trust by His Providence, the spirit of wisdom and of love, and of a sound mind, that He may accomplish by us whatever work He hath appointed for us, through Jesus Christ our Lord. Amen.

The names of the members of the Synod were then called over by the registrar; immediately after which prefaced by some introductory observations—in which the Bishop alluded to the crises which had occasioned the assembling of the Synod, and to the rights of the inferior clergy in the general affairs of the Church, which he was desirous by this means to restore and vindicate—was delivered the following address:—

Diocesan synods are the most ancient of all synods, after the apostolical. White Kennett in his "Ecclesiastical Synods," says, "The next synods were diocesan. For, after the destruction of Jerusalem, at least, all bishops were of equal character, and had within their own respective districts the separate care of church affairs. So that every diocese was an absolute church within itself, and had full authority over its own members."—The right appears to have been constantly exercised according to the judgment of the bishop, in convoking his clergy. The practice of not calling together all the clergy of the diocese to the diocesan synods is recognised by the most celebrated professor of civil law, at the time of the Reformation, in the middle of the 16th century. Franciscus Duarenus. The present synod fulfils the conditions of the bishop's consulting the whole body of the clergy, in as perfect a manner as is possible.—For, not only are the dean and chapter members, *ex officio*, of the synod, but there are representatives of every deanery in the diocese, the clergy of which have been ready to send representatives to it; and of the thirty-two deaneries into which the diocese is divided, thirty have actually chosen representatives. I will not proceed to the first particular of the special business before us—to the proposed declaration of our adherence to the Nicene Creed, "I acknowledge one baptism for the remission of sins."—The Bishop then went on at great length, reviewing a recent charge of the Archdeacon of Middlesex upon this subject, and he thus concluded: Although the sense in which the article of the creed is to be understood rests not on the authority of those who composed it, but on the acceptance of it by the Catholic Church as witnessed and handed down by the Second General Council, yet it is satisfactory thus to review a small part of the exact testimony borne to the faith by the most eminent of the fathers who were present at that council; and we have been especially called to do this, I repeat, by the recent attempt—hasty and ill-advised I must not scruple to call it, which has been made by an Archdeacon of another diocese in a charge to his clergy—to rob the Catholic doctrine on baptismal grace of the support it has always hitherto derived from our acknowledging in the creed "one baptism for the remission of sins," and to make that article to be no more than an assertion that one baptism—baptism once—is all that is required. Nay, he has said, that to derive from it that remission of original sin to all infants in baptism is not only true, but also an essential article of faith, is "so preposterous an inference, that the fathers who inserted the article would have expressed their indignation" at any who should dare to make it.—An appeal to the words of those fathers themselves has shown us how discreetly or indiscreetly this has been said.

STATISTICS OF THE COTTON MANUFACTURE.—According to a parliamentary return made August 5th, for a copy of which we are indebted to the valuable work of Mr. Braithwaite Poole,—"Statistics of British Commerce, part 2,"—the following was the then existing state of the cotton manufacture. The total number factories employed in spinning and weaving was 1932, containing 20,977,017 spindles, 242,627 looms, and worked by 71,000 horses' power of steam and 11,550 of water. The total number of people employed in them was 332,124, of which 182,423 were females and 141,501 males. Two of the inspectors by whom the returns are made, states that those for their districts are incomplete, owing to parties refusing to state the power and number of spindles in their mills. The parties in question were John Bright and Brothers, of Rochdale, and Messrs. Strutt and Co., of Belper.—both Liberals of the first water. Perhaps the reason for refusal was an indisposition to reveal how much more rapidly the motive power and number of spindles and looms have increased of late, than the number of hands employed.

THE LAST MOMENTS OF MR. SHEIL.—Mr. Sheil was in his bedroom, and had just finished dressing for church, when he told Mrs. Sheil he felt a spasm in his stomach, fainted, and lay upon the bed. He recovered and took some colchicum, which he had generally at hand, fainted again, recovered, and took a little brandy and opium. He fainted a third time, and expired in the arms of Mrs. Sheil. He was 62 years of age. He often expressed his wonder that O'Connell should have turned towards Italy in his decline. He died both in the month of May, and both away from their native land, and in that Italy to whose Spiritual Ruler they had both laboured to subjugate their country.

WESLEYAN REFORM.—An enthusiastic meeting of the adherents of Wesleyan reform was held on Wednesday evening in the Assembly-rooms, Great George street. The Rev. Mr. Griffith delivered a lengthy address in advocacy of the views held by himself and the reform party. He was followed by other gentlemen from different portions of the country, who were loudly cheered.

The Board of Trade has suspended the compulsory fumigation of the crew of merchant ships in Gravesend Bay, until further notice; and in the meantime medicines may be carried by such ships in accordance with the scale hitherto in force.

The Chronicle.

SAINT JOHN, JULY 25, 1851.

THE *America*, Mail steamer, which arrived at Halifax on Tuesday, brings dates 7 days later than those previously received. Among the passengers are the new Bishop of Nova Scotia. We have extracted all below. That the Whig Government from its vacillation and truckling to the popish party are rendering themselves daily more unpopular, will be seen by the following article from the *Liverpool Mail*—

Last night was to decide whether ministers would recover the ground they lost in the House of Commons on the 27th ult. On that occasion they were twice defeated on the ecclesiastical titles bill, and on two other clauses they surrendered without a division. The amendments thus proposed and carried by Sir FREDERICK THESIGER are of the utmost importance, and in some degree render the bill efficient.

But Lord JOHN RUSSELL, or rather his whig friends, and Peelite supporters, are not satisfied with the realities of honest legislation. They prefer the *sham*. They prefer deceptive to straight-forward policy; and hence an attempt is to be made by the ministerial party to rescind the clauses, and restore the bill to its original nothingness.

If this device succeed, we may safely say that the government stratagem will be successful also, and that no measure to repress or punish Romish encroachment will be passed in the present session. This has been the drift of certain parties from the beginning, and particularly of that short-sighted faction who fight the battle of Irish priests. Cannot these men conceive the danger of another explosion of public feeling in England—an indignant feeling caused by disappointment, and the obvious tampering with national principles? We do not think they do. They are blind to their own interests—callous to their own destruction. The people of this country are not in a humour to tolerate any more Romish aggression, or foreign interference in the affairs of the United Kingdom. Every day convinces them more and more, that they have been too liberal and too lax in their concession of late years, and that, if they are to be spared the convulsions of a religious war, and the pains and penalties of a second or third reformation, now is the time to be prompt in action, and resolute in the performance not only of social but of sacred duties. If there be some Englishmen who wish to go back to Popery—who, in their well-sinking for truth, hope to find it in the slime of the confessional; in the indolence, the mysteries, and the unnatural enjoyments of monastic life—let them go, the dog will return to its vomit. But the heart of England is not yet so diseased. The great mass of the people of this country execrate Popery, and all its mummeries, and all its nastiness, and all its tyranny, as much as ever; and they execrate it more in the present generation than in the last, for, since the termination of the European war, and the opening of the continent to Englishmen, the horrors of that abominable system have been brought practically under their observation.

Speaking for ourselves, then, we say, that it is a matter of indifference to us whether the sham bill, or the menaced amendments, arrive at maturity in this or in another year, for sure we are England will never rest contented while Popery is tamely restrained or openly encouraged, by any powers *within* or *without* this realm.

The Cotton market was dull throughout the week, and prices had receded from ¼d. to ⅛d. per lb. The total sales of the week were 34,230.

The Flour market was steady, with a slight advance. Western Canal was quoted at 20s. to 21s. 3d., and Ohio 20s. 6d. to 21s. 9d. Wheat was firmer.

TIMBER MARKET.—American Pine Timber is quoted at 1s. 2d, to 1s. 3d. per foot. Black Birch 1s. 2d. to 1s. 4d. Twelve feet Plank, £14 to £16 per 120. pieces. Twelve feet Battens £12 to £13 per 120.

Freights to the United States have somewhat improved, but the change is not important.

PARLIAMENTARY.—Nothing of interest has occurred in either House except the final passage through the Commons of the Bill repealing the Window tax, and substituting a house tax, and the ignominious defeat, by a vote of 230 to 19, of Mr. Hume's renewed attempt to throw dirt upon Sir James Brook, the Rajah of Sarawak. The Government sustained two defeats on Tuesday, respecting the vote by ballot, and the annual tax upon Attornies.

A motion in the Lower House for leave to introduce a Bill for the protection of Parliamentary election by the introduction of the vote by ballot, had been negatived by a strong majority.

The Bill for the emancipation of the Jews had passed the Commons, and been sent up to the Lords. It is to be hoped it will not again meet with an untimely fate in that Branch of the Legislature.

The Ecclesiastical Titles Bill had passed the Commons, and been read a first time in the Lords.

Reports from Ireland announce that the potatoe disease has re-appeared to a partial extent.

The Queen's visit to the City, and the two Italian Opera-houses are the events which have engaged attention during the week.

The most unbounded demonstrations of loyalty were shown towards Her Majesty, in her progress through the City. The Lord Mayor had been knighted on the occasion.

The annual Scottish fete took place in London on the 10th and 11th, and was numerously attended.

Cardinal Wiseman had been worsted in an action at Law in Jersey. He is still out of London.

FRANCE.—M. De Tocqueville has presented to the Assembly the report of the Committee on the revision of the Constitution. It is strongly in favor of an entire revision, but without any personal leaning whatever. The debate on the report of the revision Committee would take place on the 14th July.

The Council of State, by a vote of 18 against 9, have settled the responsibility of Executive power in conformity with the Constitution, a provision of which makes it high treason for the President to subvert the 45th article of the Constitution.

FROM THE CAPE OF GOOD HOPE.—Further intelligence from the Cape Good Hope, to the 31st May, has been received. The whole Colony is said to be in a critical state. During the month of May, Sir Harry Smith was shut up in King Williams Town, where he continues surrounded on all sides by hordes of barbarians, who, since winter has set in and the snow has driven them from the hills, have come down to the low grounds in bands of fifties and sixties, and the whole country down to the coast is infested with them.

CENSUS OF ENGLAND.—This has been completed though not yet published in the usual form. From certain Parliamentary returns we find that the inhabitants of England proper now number 20,919,531, being an increase since 1840 of 2,263,550 persons—or eight per cent. in 10 years. To accommodate this vast hive of beings there are 3,841,054 houses; these have increased since 1840 to the number of 177,944.

The metropolis London, numbers this year 2,363,141 souls; increase in the period of 10 years, 414,772, or 15 per cent. To house this multitude there are 324,611 dwellings; increase in ten years 50,550 and the process of accumulation is still going on without check or limit.

In ten years Liverpool has increased its population more than 50 per cent., while its an area of dock accommodation has doubled in twenty years. Other large manufacturing towns have increased in business and population from 20 to 50 per cent. the last decennial period. What an evidence of the vast British empire.

FISH BOUNTIES.

In the obscure and diminutive corner of Her Majesty's Dominions, Prince Edward's Island, there has been found wisdom enough in the Legislature to foster and protect the most lucrative of their resources, their Fisheries. One of their latest acts of Assembly provides that 12s. 6d. a ton shall be given to all persons who shall own and equip vessels from the Island for the Fisheries. The voyage to be not less than three months—during which time she is to earn no freight. We understand also that a vessel is engaged in the protection of their fisheries in British waters, a most necessary precaution. Here then we find a due regard paid to the employment of the people, and a dignified protection provided against the shameful innovations of our western neighbours. How stands the case with us? Why a great deal of money has been expended to obtain Reports as to the state of our Fisheries—a good deal of complaint has been made by our Fishermen—a good deal of Legislation has been had on the subject for many successive sessions; and how we would ask have we profited by all this *action*? Why in the first place there has been passed a Law annihilating the trade of herring catching, so far as the jurisdiction of this Province extends. The law forbidding the taking of the full grown fish with nets, during the "*spawning season*" which season is the whole summer, the only time that Herrings are to be found on the coast. Hence then, when fish are to be had, it is unlawful to take them, and when it is permitted to the fishermen to ply his business, the fish are FROM HOME, while at the same time, thousands of barrels of the young fish, perfectly useless for food, are allowed to rot in those destructive Wiers that girt the shores of Grand Manan, Campo Bello, and the West Isles. Another feature of the *improvement*, which has cost the country so much money is this, that the only vessel provided by the province for the protection of the fisheries of the Bay of Fundy has been removed, and is now stationed in the Gulph of St. Lawrence, while the sloop of war, that was on the station, has been ordered to the West Indies, thus leaving a clear stage for all American "poachers" who may feel disposed (unmolested) to take fish in British waters. During the last session of Parliament, and in order to show the constituency that something was intended for the benefit of the fisheries, a grant was made to his Excellency for the *encouragement* of the fisheries, that grant amounts to something less than a nullity, as the sum is so *small* and the conditions so *large*, before anything can be obtained, that no sane man will be found to involve himself in so silly an undertaking. It was truly said by an American, who speaking of annexation, and the advantages to be derived therefrom to the United States, that if the whole United States were searched for persons to fill our Assembly and to legislate for their interest, he believed it could not be so completely effected as it now is, by our own Representatives. We do hope and trust, that before another session of the House, that the operative fishermen will be consulted, and that steps beneficial to their interests, and creditable to the country will be permanently adopted.

THE COMMERCIAL SCHOOL.

The advertisement of this school, which is situated in the Presbyterian Church, corner of Princess and Sydney Streets, will be seen in another column of this paper, and we are anxious to direct public attention to the system upon which it is conducted, being as we believe entirely novel in this place; although it has been effecciently practised in Prussia, France and Germany for many years, and is now in operation in many parts of the United States. It is called the INDUCTIVE or CATECHETICAL system, and is said to be the most easy, pleasant and effectual system extant at the present time. Of this however we cannot pretend to determine, but this much we can assert, that we are much pleased with the specimen of it as practised in the above establishment. It seems to work to admiration.—The first thing in the system that attracts attention is the absence of all those instruments of corporal cruelty, such as the cow hide, birch, ferula, ruler, taws, &c, the error of all school boys, and which have hitherto, (in this place,) been considered most essential to the well-being of our city schools.

Upon further observation we find the different duties of this large school, proceeding with perfect harmony and regularity, there being nearly one hundred pupils at present all busily employed and highly pleased, no crying, idleing, or blubbering, all seemed to work with avidity and deem it rather an amusement than a task, each teacher taking part in the duties of his own department, the pupils apparently as willing to learn, as the teachers to instruct. To those who have travelled on the Continent of Europe an explanation of the system exercised in this School would be unnecessary; but to those who have not had that advantage, we think a short description will not only be amusing but ifstructive. The school comprises four departments, namely, First—The Infant department.—Secondly—The Arithmetical and Grammatical department. Thirdly—The Mathematical, and Fourthly—The Classical and French. We will commence with the Infant department, and give a brief description of the manner in which it is conducted. It comprises about 36 infants, is divided into three classes, according to their proficiency.—They are taught the Alphabet, Spelling, Reading and natural history as follows. They are arranged round a Card, containing the picture of an animal, bird, or fish, &c., the teachers first informing them what animal the picture represents, and proceeds to explain its nature, size, shape and properties, and names the country of which it is an inhabitant, the climate, productions, &c., of that country. The food the animal uses, and the uses of its different parts when dead. He then proceeds to question the children, by asking them what animal forms the subject of the lesson, and required them to spell it and also to spell its different parts, and to tell their uses. He then asks the country which it inhabits, the nature of the climate, the uses of the animal and its different parts, both when alive and when dead. This being a Catechetical examination of the preceding lecture or explanation, the pupils are as it were cheated into a large amount of information, comprising spelling, counting, reading, and historical knowledge, while they imagine they are only being amused, some of these children learn to read pretty well in three or four months, besides acquiring an amount of useful knowledge which those taught upon the old system in common schools never can acquire. The charges we learn are moderate, and the public are invited to call and see that they may be able to judge for themselves.

(*To be Continued.*)

UTOPIA, or the land of perfect bliss, without alloy has recently been discovered to be the newly erected State of California. Hence it is that the Traitor to his country, meets with kindred spirits and sympathy—here the convicted felon escaped from a penal settlement is lionized, and permitted to sit in the highest seats, the welcome and boon companion of princes; whilst that even plan, is secured this country as a permanent market for British manufactures at the expense of our own. Importations are not going to decrease in this state of things, on the contrary, they must largely increase. We shall have to look for our supplies to the British workshops, and prices will not lessen under this state of things.

The day is approaching when the conviction of these truths will influence the public mind and Congress also.

We see no reason whatever why all the specie in this country should be sent to England and France to [illegible] fields so famed in fable, and heretofore hidden to all but the Gods. Let murderers and felons rejoice, let blacklegs and swindlers shout for joy, that a land is found surrounded with the waters of Lethey, which washes from the memory, all traces of former delinquencies, and where the outcast of the civilized world becomes a Senator. Such is California, a proof of which is to be found in the reception of M'MANUS the REBEL, who recently escaped from well merrited transportation, has arrived at St. Francisco, where public dinners, and public honours awaited him. In one of those orgies, after having sacrificed liberally to the "jolly god," this M'Manus, the rebel and traitor mingled his tears with his execration on his country, and in the enthusiasm of maudlin despair, kissed the flag of an alien land, and swore to support it against all opposition. Poor human nature, how art thou fallen, when rebellion, sedition, and socialism, become subjects of applause. But this, be it remembered, is the "Land of Liberty." Yes, liberty to destroy all moral worth—liberty to enslave their ethiopian brethren, and liberty to hang without judge, jury, or a trial, any one who happens to take the distaste of the sovereign mob. Talk of Algiers, talk of Turkish slavery, and Russian bondage, all sinks into utter insignificance, and may contrast, but will not bear comparison with such a land of untied demons, as inherit this "region of gold." About the same time, and in the same place, when the Traitor M'Manus was receiving the plaudits of the Government, as a reward for his apostacy to his native land, another escaped convict, less fortunate than his contemporary in iniquity, and less culpable as a felon, was taken for stealing a box of money, hurried to a place of execution and sent dangling by the neck from a tree until life became extinct, and that too in spite of all authority, justice, or law. All hail Columbia!

A CIRCULAR.—The Common Clerk, GEORGE WHEELER, Esquire, in accordance with directions from His Excellency, and a grant made for that purpose by the Legislature, at its last sitting, has issued the following Circular, as an inducement to practical fishermen to form Societies for carrying out the scheme. That protection and encouragement to our Fisheries are desirable, that they are absolutely necessary, admits of no second opinion—but that the plan hit upon by the Legislature is to effect that desideratum no one for a moment suspects. On consulting some of our most influential, and best experienced fishermen on the subject, we find that the inducement held out is productive of no other effect, than that of rising their visible faculties at the useless scheme set forth in this Circular. If our Representatives would hold a less exalted opinion of their own statesmanship, and copy after older and better informed nations, the country would be much better served:—

OFFICE OF THE CLERK OF THE PEACE,
(Circular,) *St. John, 19th July*, 1851.

SIR,—In order to provide for a proper expenditure of the Legislative grant of last Session, made for the encouragement of the Fisheries, His Excellency the Lieutenant Governor has recommended the establishment of "*Fishery Societies*" within the Province, upon a system similar to that on which the Agricultural Societies are formed.

Any such Society, upon subscription and payment by its members, of not less than twenty Pounds, will be entitled to receive from the Provincial Treasury, a sum equal to three times that amount so raised, to be applied in the distribution of Prizes, or in any other way which, in the judgment of the Society, may best tend to promote the designed objects.

The attention of practical Fishermen, and of others engaged in prosecuting the trade is invited to this subject, with a view to the formation, in this City, of a "*Fishery Society*," through whose means under judicious regulation and prudent management, it is confidently believed our Fishermen will be stimulated to increased exertions, an improved system of Cure and Inspection, and in other respects this great source of Provincial wealth rendered more available to us.

Further information to persons willing to unite in an association of this kind, will be readily afforded at this office, and some valuable suggestions of the Government, on the subject, will be communicated to them.

I am, Sir,
Your ob't Servant,
GEORGE WHEELER.

To ———

ST. JOHN SUSPENSION BRIDGE COMPANY.—A meeting of the subscribers for shares in this company took place on Saturday last, pursuant to notice, when the Company was organized, and the following officers chosen:—

Isaac Woodward, Esq., President.
Messrs. J. D. Lewin, George P. Peters, Joseph Fairweather, Wm. K. Reynolds, } Directors.
M. H. Perley, Esq., Secretary.
Mr. W. K. Reynolds, Treasurer.

The whole number of shares in the Company have been subscribed. At the meeting, a resolution was passed authorizing a contract being entered into, under the seal of the Company, with William K. Reynolds for the construction of the proposed bridge, in the terms of his tender, which is in substance as follows:—

Mr. Reynolds undertakes to commence the construction of the bridge forthwith, and complete the same as soon as possible. The length of roadway, between the towers of suspension, will be about 540 feet; this roadway is required by the Act of Assembly to be 70 feet above high water level in the river below. The bridge will be supported by ten iron wire cables, of not less than two and three quarter inches in diameter, to be carried over a granite tower at each end, such towers not to be less than 35 feet in height above the roadway. All the woodwork of the Bridge is to be of hackmatac, or other wood of the best quality. At each end of the roadway, there will be an approach of about 100 feet; the width of the roadway will be 23 feet, with a carriage way of 15 feet in the centre, and a footway on each side, four feet wide. Mr. Reynolds undertakes to construct the whole Bridge and its approaches, with toll-houses, gates, and every other requisite for its use, to the satisfaction of the Engineer to be appointed by the Lieutenant Governor (as provided by law,) for the sum of £20,000 Currency. The Legislature having voted £2,000 towards the construction of the Bridge, it will when completed cost the Shareholders only £18,000. No part of this sum is to be paid to Mr. Reynolds, until the bridge is completed for traffic; he is then to receive one-half the amount of the contract, and the remaining half in 3, 6, 9, and 12 months with interest.

We learn that Mr. Reynolds has entered into subcontracts with Mr. Sorrell, the Engineer for the Queenston and Lewiston Suspension Bridge over the Niagara River, for the wire cables and the general superintendence of the work—with Mr. Seth Emerson of Calais for the wood work—and with Mr. Otis Small for the erection of the granite towers. About 70 men are now at work at the granite quarries near Spoon Island in preparing and dressing the Stone for the towers, and preparations are going on for the rest of the work. It is anticipated that the Bridge will be opened for traffic by the first of January next, and of this there seems every reasonable prospect.—[*N. Br*

☞If you wish a supply of Oysters, call at Davis' Saloon, Water street. They are the best let in the market.

BOAT RACE.—The great trial of skill between the Indian Town and Carleton Crews, took place on Saturday last, (depositing £100 extra each in the Commercial Bank, making the stake £400.)—After a good start both Boats plied in neat proximity to each other, until they arrived at the Western side of the Island, when the Indian Town boat gradually drew a head of her opponent, winning the race in good style. The Carleton oarsmen protest at the back of the Island, when on investigation by the Umpires it was decided that neither of the crews were to blame. In order to have a good trial, the Referee ordered the race to be run over again, which as yet has not taken place, in consequence of some difficulties among the Carleton crew. No doubt the stakes will be lost to the party not coming to front. The Indian Town Invincibles are now making arrangements to complete their engagements in New-York.

SEARS' FAMILY VISITOR.—We beg to acknowledge the receipt of the above named publication, from our enterprising fellow townsman, Mr. Robert Sears of New-York; the work is got up with labour and judgment, is handsomely printed, and embellished with very neat wood cuts. The matter with which it is fitted, appears to be well selected, and very suitable for what the work is designed. A family visitor.

To the politeness of the Committee of the European and North American Railway, we are indebted for a Prospectus of the Company. The work contains the correspondence in full, between Earl Grey and the Honorable Joseph Howe, and is replete with such other information as leaves nothing unexplained to those desirous of encouraging the great undertaking.

The following article on consuming the smoke from the Chimnies of Steam Engines, is from the Liverpool Journal, and has been much approved of in England. We have copied it under the idea that it may prove a useful hint to persons in this City using Steam power, as we have heard from persons living in the neighbourhood of factories, threats that they would have such works indicted as Nuisences, as they destroy the paint on their houses, dirt their rain water, and render the atmosphere of the neighbourhood both disagreeable and unhealthy:—

THE SMOKING NUISANCE.

A very important communication from Mr. Samuel Perkes, engineer, was read at the meeting of the Health Committee. From the statements therein made, it would appear that in Manchester, merely by a superior construction of the boilers and flues, not only is smoke prevented, but a saving of twenty five per cent. is effected in the consumption of coals. With regard to the consumption of smoke in the furnaces connected with marine engines, a most remarkable discovery has also been made. Not only is the smoke consumed, but the funnel itself is dispensed with, and a uniform pressure of steam kept up. The experiment has been tried on board a vessel of three hundred tons burthen, and has been found to answer most satisfactorily. What will be said now by those persons—engineers and others—who have all along declared that smoke cannot be consumed either in land or marine engines? Surely we may expect soon to be able to walk along the landing-stage and pierheads without being almost suffocated with volumes of dense smoke.—*Liverpool Mercury.*

☞A fine equestrian statue of William the Conqueror, the foreign correspondent of the New York Courier writes, has just been erected at Falaise, a town in the department of Calvados, part of ancient Normandy. Falaise is the birth-place of the conqueror, and the day that has been selected for the inauguration of the statue is the 28th of September next the anniversary of that of his departure from France for the conquest of England. Appeals are now being made to all "lovers of grand national souvenirs" for subscriptions, in order "to complete in worthy style this national work, which, while it recalls one of the greatest facts of the history of the middle ages, will stand as perpetual testimony that it is in very truth France, to her genius, to her arms, that the then barbarous isle of the Anglo-Saxons, is indebted for its initiation into the ideas of progress and of civilization.

(*From the Fredericton Head Quarters.*)

DISTRESSING ACCIDENT.—Mr. James Hatheway, of Indiantown, (brother of G. L. Hatheway, Esq., M. P. P. for this County,) left the steamer *Forest Queen* this morning about 6 o'clock, in a small boat, accompanied by four or five of his acquaintances from St. John for the purpose of bathing on the opposite side of the River. When the party landed, Mr. Hatheway immediately stripped, and in an instant after getting into the water sank and was drowned. It would appear that the suddenness of the accident so completely paralyzed his companions that they were unable to offer him any assistance. The body was speedily recovered and brought back to the steamer, on board of which a Coroner's Inquest was held at 8 o'clock, before Henry Fisher, Esq. Verdict—"Accidental death by drowning." This distressing occurrence has thrown a gloom over the large number of visitors from Saint John, with whom the deceased came up last evening on a pleasure excursion, and also on the inhabitants of this city generally, to whom the deceased was well known. Mr. Hatheway has left a widow and four children to deplore their bereavement.

In endorsing the above, we would add a tribute of respect to the decease. Mr. J. Hatheway was well known in this Community, and was generally esteemed as an active and correct business man, as such highly respected, and to those more intimately acquainted with him, a gentlemanly associate, and an affectionate friend. We can truly sympathize with those of his immediate family, to which he was both near and dear.

FREE TRADE.

Notwithstanding the enormous Tariff of our Republican Neighbours, they still complain that they have not sufficient protection against foreign importations, to secure to themselves full and profitable employment for their own people. Their policy is and will continue *to be*, protection amounting virtually to prohibition. The following articles on the subject are from the "*Springfield daily Republican.*"

MANUFACTURES AT THE SOUTH.—We record with pleasure every indication of attention to manufactures at the South, for their introduction there, besides adding to the wealth and prosperity of the whole country, and to the means that under Providence are destined to extinguish Slavery, will also have the effect to implant in the minds of our Southern brethren a truer sense of the necessity and importance of protection to American industry. We care not for the idea that the manufacturing of cotton goods at the South interferes so much with the Northern manufacture. The North will never complain of any competition that exists or may arise within the Union, but will rather welcome it, and if she cannot prosper against it, she will find other avenues for her industry and her capital. It is only the labor and the capital of foreign lands and foreign parts that the Whigs of the North ask to be preserved against,—that labor and that capital which flood us with their cheaply made products, and drain our specie in return. But home competition, whether on the banks of the Merrimac and Chicopee, or on the Savannah and the Alabama, is what the true American welcomes, and what is the direct and chief object of Home Protection to excite. A letter from Olney Goff Esq., a well known cotton manufacturer of this vicinity, informs us that he is now in Augusta, Geo., starting upon cotton mill of 400 looms running on No. 8 sheetings. The machinery for these mills is from F. Whitin & Sons of Whitinsville, in our own State.

Cotton does not pay, California shipments do not pay, manufactures do not pay, the cotton and the woolen interests are in the greatest poverty, and calls and cries are equally without availing.

The breaking down of American interests for the want of some slight yet sufficient discrimination is not only impoverishing capitalists, but injuring the labourers; whilst that even plan, secures this country as a permanent market for British manufactures at the expense of our own. Importations are not going to decrease in this state of things, on the contrary, they must largely increase. We shall have to look for our supplies to the British workshops, and prices will not lessen under this state of things.

The day is approaching when the conviction of these truths will influence the public mind and Congress also.

We see no reason whatever why all the specie in this country should be sent to England and France to [illegible] here. Seventeen millions of specie divided among our hardware, iron, potter and woolen manufacturers, would cause the valleys to smile, the hills to clap their hands, villages to be erected, and diffuse new happiness among the abodes of industry. But all this goes to enrich a few foreign capitalists, who coin their money out of the sweat and tears, the aching muscles and sinews of starving in laborers.

DO MEMBERS OF CONGRESS EAT STEAL.—There is an old English statute which permits a man to go into a turnip field and devour as he desires, on the spot, but forbids him, under penalty of imprisonment, to fill his pockets with them for consumption at home. Would it not be well to have a similar law in relation to the knives and stationery supplied to members of Congress? The propriety of such a regulation is suggested by an advertisement of the Clerk of the House of Representatives for proposals to furnish these articles for the members during the next session. The following are among the items required:—2,805 reams of paper; 260 dozen pen knives—about a dozen for each member—of which, 100 dozen are required to be four-bladed, pearl handled, and of the highest finish and best quality; and 100 cards assorted metallic pens; and 202 gross of other pens of different quality; 14,000 best opaque and clarified quills—making some 58,000 pens and quills; 100,000 note envelopes, plain and embossed; 300,000 do of different qualities; 100,000 self-sealing letter envelopes; 20,000 self sealing note envelopes, &c.

The questions, "Where do the flies go?" and "what becomes of the pins?" have been long before the people. Permit us to substitute, therefore, by way of variety, the query: "What becomes of the Congressional stationery?" In order to arrive at the truth, we propose that the sergeant-at-arms be instructed to examine the pockets of the members every time they leave the Capitol.—*South Carolinian.*

MISFORTUNES AND PERSEVERANCE.—There are in this city gentlemen who can recount more instances of misfortune, and more triumphs over them, than perhaps can any other on the face of the earth. Men have come here after many a manly struggle elsewhere, and after many varying successes and disappointments, have occasionally found themselves about their luck apparently, and on the high road to wealth. In an hour they have found themselves prostrate, burned out, flat. The next day saw them start again in the race, nothing daunted, determined to conquer in the strife. And such will conquer. Disaster itself cannot keep them down. One of our well known auctioneers, who can sell at as good price as any other, either goods or his friends, informed us that at the recent fire, which swept his place of business as clean as wind and flame could do it, was one of his oldest and most frequent customers—it had taken his whole stock just twelve times, that being the number of times he had been burned out. Yet the next day his sign was hung out on the adobe, where his jests were as frequent and light spirited as if neither smoke nor flame had passed near him. Such a superiority to misfortune is better and more valuable than the richest mines in California. A happy spirit cannot be purchased. This is the spirit which will not only deserve success, but command it.—*San Francisco paper.*

THE SEVENTEEN-YEAR LOCUSTS.—The Seventeen-years locusts seem to be getting through with the object of their visit, and are rapidly disappearing. A gentleman who has watched the movements of the singular insect, says that he has seen them just after they emerged from the ground, proceeding from every direction, at a very slow gait, to the nearest tree. He has counted as many as 260 on the but of a tree, and as many as 26 holes from which they appeared, in a space of ground not more than a foot and a half square. As they gather strength, they go out to the extreme ends of the branches and deposite their eggs in layers between the bark and the stock. The eggs are perfectly white and hard, and of the shape of snakes' eggs. In the process of time, these eggs hatch out a small worm, which falls to the ground, and immediately starts on its boring operations into the earth. They have been found twenty feet below the surface. The principal singing is performed by the males. It has been remarked that the locusts deposit their eggs on the branches of last year's growth.—*Trenton* (N. J.) *Gazette.*

A FRENCH DUEL.—Two corporals of the 14th Regiment having had a quarrel, fought lately one morning with fencing swords in the fosse of the fortification of La Villette. After some time, one was apparently slightly wounded under the left arm, and a little blood flowed. The seconds interfered, and said that, as enough had been done to satisfy honor, the duel must cease. "Embrace your comrade, and let all animosity be forgotten," said the second to the wounded man. "Never!" he answered, "I am too much wounded to continue, but I will pay him off another day!" He had scarcely pronounced these words when he fell heavily to the ground, and blood flowed from his mouth. Shortly after he expired. A medical man, who examined the body, ascertained that the sword had entered the heart. The other party to the duel was arrested by the military authorities.

☞To our Hampton Agent, as well as several other of our friends in the Country, we are indebted for an accession to our list of subscribers within the last month, to the number of forty seven. We beg to tender them our best thanks for their zeal in our cause, and to assure them that although we have recently enlarged our sheet, it is still our intention at an early day in order to meet our growing patronage, to make still further improvements.

The thermometer at Fredericton for the last two days has ranged in the shade, at 2 o'clock, p. m. at about 84 degrees.

CAUTION TO DRUGGISTS AND THE PUBLIC.

The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended—curing many cases after the skill of the best physicians were unavailing—has effected a large and increasing demand for it. This fact has caused unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

BE NOT DECEIVED BY IMPOSTERS.

The public should be careful to get the genuine article as the imitations and counterfeits, being got up by those who know nothing of medicine, or of the diseases of the human system, are entirely unsafe and dangerous.

[From the Columbus (Ga.) Enquirer, Feb. 8, 1848.]

WISTAR'S BALSAM OF WILD CHERRY.

We have an utter abhorrence for all kinds of quack, and especially such as are calculated to mislead the public as to the curative virtues of patent medicines. There are doubtless many catch-penny nostrums, daily vended and hourly used, which are not only of no value, but absolutely deleterious to the physical man. There are other balsams, extracts, &c., not embraced pseudonymous, in the pharmacopoeia or arrangements of the apothecary or regular physician, that are in certain cases, of more value than all the prescriptions of Galen put together. Wistar's Balsam of Wild Cherry is admitted by the concurrent testimony of those who have proved its virtues to be of the latter class. In colds and consumptions, coughs and chronic coughs, as well as in other kindred diseases, it has been used with almost universal success. In a climate so changeable as this, producing and aggravating the family of diseases above alluded to, this medicine has a value not to be estimated.

None genuine unless signed I. Butts on the wrapper.

For Sale by, S. L. TILLEY, King Street, St. John, N. B.

Marriages.

On the 15th ult., by the Rev. F. Coster, Rector of Carleton, Mr. Henry Allan, to Jane, daughter of Mr. W. Stratton, both of Carleton.

On the 27th ult., by the same, Mr. W. Hicks, to Miss Mary Ann Bateman, also of Carleton.

On the 2d inst., by the same, Mr. Henry Demery, to Miss Eliza Cardenas, also of Carleton.

On the 17th inst., by the same, Mr. [illegible] Bullock, to Margaret, the daughter of Mr. W. Stratton, of Carleton.

On the 19th inst., by the Rev. J. W. Dunbar,

Mr. James Cather, of the Parish of Simonds, to Miss Isabella McAfee, of the Parish of St. Martins.

On Tuesday evening, by the Rev. E. D. Very, Mr. James Cole, to Miss Eleanor Haynes of Portland.

On the 21st inst., by the Rev. Robert Cooney, Mr. Robert Andrews, to Miss Alice A. Maloney, both of this city.

On Wednesday evening, the 23d inst., at the residence of the bride's father, by the Rev. R. Cooney, A. M., Wesleyan Minister, Daniel J. McLaughlin, to Mrs. Eliza B. Gove, widow of the late [illegible] this City.

At Hampton, on Tuesday last, 15th inst., by the Rev. William E. Scovil, Mr. Howard Dixon, to Margaret Ann, eldest daughter of Mr. Joel Prince, all of that Parish.

At Upham, King's County, on the 16th inst., by the Rev. W. E. DeWolfe, Mr. Edward Smith, of Hampton, to Mary, youngest daughter of Mr. Henry Demill, of the former place.

At St. Martins, July 13th, by the Rev. W. Jackson, Mr. William C. Riggs, of the Parish of Simonds, to Miss Catherine, daughter of the late Mr. Nicholas Floyd, of St. Martins.

At Johnston, July 3d, by the Rev. John Perry, Mr. Elisphalet Jones, to Miss Deborah Clarke, all of Johnston, Q. C.

At Portland, (Maine,) on Thursday morning last, by the Rev. J. R. Scott, Mr. Charles H. Gay, of this City, to Mary Bethiah, third daughter of Mr. Thomas Clark, formerly of this City.

At Toronto, Canada West, on the 3d inst., by the Rev. Dr. Ryerson, the Rev. S. S. Nelles, A. M., Principal of Victoria College, to Mary Bakewell, eldest daughter of the Rev. Enoch Wood, President of the Wesleyan Methodist Conference.

Died.

Yesterday, on Partridge Island, Captain James Douglas, of the Brig *Daring*, aged 32 years.—Funeral to-morrow (Saturday) at 3 o'clock, from his late residence corner of Brussels and Richmond streets.

On Sunday morning, after a lingering illness, Mary, second daughter of Mr. A. Campbell, in her 13th year.

In Portland, on Monday evening, Robert, aged three months, youngest son of Mr. William Bailey, Senior.

At Fredericton, on the 9th inst., after a lingering illness of nearly nine months, Charles L., second son of Mr. C. P. Sniller, in the 23d year of the age.

At Charlestown, Mass., 12th inst., of consumption, Robert J. Fenerty, aged 35 years, formerly of Halifax, N. S.

Drowned, on Sunday evening, Richard Pryor, son of Mr. John Pryor, Boot and Shoe Maker, Dock Street, aged 9 years.

Marine List.

PORT OF SAINT JOHN.—ARRIVED.

Friday—Ship Compromise, Reiley, New York, 6—Kirk & Worrall, flour.

North side of King Street,

No. 25. Sign of the Side of Leather.

(May 21.) J. J. CHRISTIE.

CAUTION.

THE great popularity the *COMPOUND BONBON ESET CANDY* has obtained since its introduction to the Public about two years ago, has induced several persons (names of whom are known to the Proprietors) to issue a Candy made to look like and called by the same name as the true article, but in quality and composition differing from it in both.

The subscribers would caution the public against such fraud, as no person makes, or can make, the genuine except them, and further, the composition which they give the Confectioner to form into Candy is so prepared as to defy any attempt of chemical analysis.

In future, as heretofore, each package of the Original will be accompanied by a circular with the signature of the Proprietors, FELLOWS & CO.—without which none can be genuine.

December 4, 1850.

Important Arrivals AT THE HAT AND CAP STORES,

East side Market-square, and North side King street.

E. W. PLAGLOR.

St. John, June 27, 1851.

HUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT,

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

DO NOT NEGLITECT.

CONSUMPTION

Can and has been cured in thousands of cases by this only certain remedy.

Judson's Chemical Extract of

CHERRY AND LUNGWORT,

and no remedy has ever before been discovered that will certainly CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated, and the case so utterly hopeless as to have been pronounced by physicians and friendsto be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medications which are peculiar adopted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its opetation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough, and assists nature to expel from the system all decessed matter by expectoration, producing a delightful change in the breathing and chest, and this after the prescriptions of the very best medical men, and the invention of kind and sorrowing friends and nurses have failed to give the smallest relief to the *Consumptive sufferer.*

THOUSANDS OF CONSUMPTIVE

persons have been deceived repeatedly in buying medines which were said to be *infallible* cures, but which have proved only palliatives, but this medicine is not only a palliative but a *cure for ulcerated lungs.* It contains no deleterious Drugs, and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as *Spitting of blood, Coughs, pain in the side, night-sweats, &c*

About 1000 certificates of almost *miraculous* cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like quackery, [will show them to any person, calling at our office.] This medicine will speak for itself, and enough in its own favour, wherever it is tried.

Caution—This medicine is put up in a large bottle, and you must find the name of Judson & Co., Proprietors, New-York, on the splendid wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

To Owners of and Dealers in Horses.

CARLTON'S FOUNDER OINTMENT

For the cure of Founder, Split Hoof, Hoofbound Horses, contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on Horses.

CARLTON'S RING-BONE CURE,

For the cure of Ring Bone, Blood Spavin, Windgalls, and Splint;—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect on the sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Hoaves, Worms, Botts, &c., all of which will be prevented by care, when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. Remember and ask for CARLETON'S CONDITION POWDERS, and take no *others.*

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,

and for the cure of all diseases of man or beast that require *external* application, and for *contracted cords* and *muscles*, strengthens *weak limbs*, and is also used for *sprains, bruises, saddle galls, swelled legs*, and sores of all kinds on horses.

CARLETON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety cases out of one hundred any of the above complaints.—They have been used by Farmers, livery men, stage proprietors and others, with the most marked and decided success.

Caution—None can be genuine unless you find the name of J. Carleton Comstock on he Wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used; it effectually eridicates Worms from both Adults and Children. It cannot harm the most delicate infant or strongest Adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within reach of all, and all parents who are wishout it are wantonly exposing the lives of their children to those fiel destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the Wrapper of each Bottle

HAYS' LINIMENT FOR THE PILES.

The worst attack of the Piles are effectually and permanently cured in a short time by the use of the genuine Hays' Liniment. Hundreds of our first citizens throughout the country have used this liniment with complete success.

☞ *Caution.*—Never buy it unless you find the name of Comstock & Co., upon the wrapper, proprietors of the genuine article.

DEAFNESS.

Use Dr. LARZETTE'S ACOUSTIC OIL, for the cure of Deafness. Also all those disagreeable noises like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Many persons who have been deaf for ten, fifteen, or twenty years, and were subject of ear-trumpets, have, after using one or two bottles, thrown aside these trumpets, beside made perfectly well. It has cured cases of ten, fifteen and even thirty years standing of deafness.

For sale by S. L. TILLEY, King street, St. John, N. B.

RHEUMATISM.

Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, strengthens Weak Limbs, and enables those who are crippled to walk again. Comstock & Brother, Proprietors, New York, and none genuine without their name on the wrapper.

REMEMBER all of the above named articles are sold every in St. John, N. B., by S. L. Tilley, Fellows & Co., R. D. McArthur, J. Chalmer, Smith and all the principle Druggists in St. John; in Carleton, by John Cook; in Fredericton, by Coy & Son; in Woodstock, at the Drug Store; in Dudley, by Oakes; in Yarmouth, by Oakes; in Annapolis, by Ruggeles; also by one Agent in every town in N. B., N. S., and Maine. All orders must be directed to Comstock & Brothers, New York May 30, 1851

NOTICE.

THE Subscriber having closed his late Business, preparatory to leaving the Province, requests that all persons indebted to him will, without delay make payment, and all persons having accounts against him to hand them in.—Office for the present, at the Store of Mr. Wm. Garnett, Prince Wm. Street.

May 9. JOSEPH SUMMERS.

English Cut WALTS.

Per ship "Gipsey," from Liverpool:—

100 BAGS (112 lbs. each) *Shingle* and *Board* Cut NAILS—For sale at twenty pence one farthing per pound.

July 4, 1851. JOHN KINNEAR.

HOLLOWAY'S PILLS.

Copy of a Letter from His GRACE THE DUKE OF PORTLAND to Mrs. ANN MATLAND, (one of his Tenants,) whom His Grace was pleased to send as a Patient to the Proprietor of this Extraordinary Medicine.

MADAM,

If Mr. HOLLOWAY will undertake to cure you perfectly, when the Cure is complete I will undertake to pay him £2 10s. You may show him this

Welbeck Abbey, May 31, 1842.

Copy of a Letter from the Most honorable the MARQUIS OF WESTMINSTER, K. G.

LORD WESTMINSTER has just received Mr. HOLLOWAY'S Medicine, for which he returns him his best thanks.

Eaton Hall, Cheshire, Feb. 12, 1842.

This **Inestimable Medicine** being composed entirely of medicinal Herbs, does not contain any mercurial, mineral, or deleterious substances. Benign to the tender infant, or to the weakest constitution, prompt and sure in eradicating disease from the most robust frame, it is perfectly harmless in its operations and effects, while it *searches out and removes Complaints of every character*, and at every stage, however long standing or deeply rooted.

Of the Thousands *cured by its agency*, many who were on the verge of the grave for a considerable period (by persevering in its use) have been RESTORED TO HEALTH AND STRENGTH, *after every other means failed.*

All Diseases (and whatever may be their symptoms, however they may declare themselves, yet one cause is common to them all, viz., a want of purity in the blood and fluids) are cured by this wonderful Medicine, which cleanses the stomach and bowels, while its Balsamic qualities clear the blood, give tone and energy to the nerves and muscles, invigorate the system, and strength to bone and sinew.

The Afflicted need not give himself up to despair, as one without hope, but let him make a proper trial of the MIGHTY POWERS of this astonishing Medicine, and he will soon be *restored to the blessings of Health.*

Time should not be lost in taking this Remedy for any of the following Diseases:—

Ague,	Indigestion,
Asthma,	Inflammation,
Bilious Complaints,	Jaundice,
Blotches on the Skin,	Liver Complaints,
Bowel Complaints,	Lumbago,
Colics,	Piles,
Constipation of Bowels,	Rheumatism,
Consumption,	Retention of the Urine,
Debility,	Sore Throats,
Dropsy,	Scrofula, or King's Evil,
Dysenter	Stone an Gravel,
Erysipelas,	Tic Douloureux,
Female Irregularities,	Tumours
Fevers of all kinds,	Ulcers,
Fits,	Worms of all kinds,
Gout,	Weakness, from whatever

J. & A. MARSH,
Corner of Sands' Arcade, Prince William Street.
July 4.

☞ CAUTION.

THE great popularity the *COMPOUND BONESET CANDY* has obtained since its introduction to the Public about two years ago, has induced several persons (three of whom are known to the Proprietors) to issue a Candy made to look like and called by the same name as the true article, but in quality and competition differing from it in both.
The Subscribers would caution the public against such fraud as no person makes, or can make, the genuine except them, and further, the composition which they give the Confectioner to form into Candy is so prepared as to defy any attempt of Chemical analysis.
In future, as heretofore, each package of the Original will be accompanied by a circular with the signature of the Proprietors, FELLOWS & CO, without which none can be genuine.
November 30.
