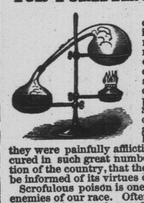
## Ayer's Sarsaparilla,
**FOR PURIFYING THE BLOOD.**



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

*Syphilitic or Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

ST. JOHN, N. B., APRIL 22, 1872.

## A St. John Newspaper of 1812—Interesting Reminiscences.

A friend has handed us a copy of a St. John paper of 1812—to wit, "The Royal Gazette and New Brunswick Advertiser" of March 23, "printed and published for the late Jacob S. Mott, Printer to the King's Most Excellent Majesty, at the Sign of the Bible and Crown, Prince Wm. St., where Subscriptions, Advertisements, etc., will be thankfully received." Its Obituary column contains notices of the death, at Portland Point, aged 76 years, of "Hon. William Hazen, Esquire, one of the earliest Settlers in this Country, while a part of the Province of Nova Scotia, and a Member of His Majesty's Council from the first creation of this Province in the year 1784;" the death also of Mr. Charles Theall, at his house in King's County, aged 79 years; and of Mrs. Mary Watson, consort of Mr. Robt. Watson, in the Parish of St. Stephen's, in her 50th year. The only Marriage recorded in its columns was "At Gagetown, on the 27th inst., by the Rev. Mr. Clarke, Mr. Lewis Dingee, to Miss Amy Creighton, both of that place." The bride in this case is still living and in good health and the grand-mother of married persons in this City.

The second American war was raging at the time, and the "Royal Gazette" accordingly gives a considerable amount of space to "Rodgers' Cruise,"—Commodore Rodgers having just devoted 75 days to chasing and destroying British merchant vessels. There is also an announcement that British soldiers, "accompanied with nearly 2,000 Indians," had proceeded to dislodge the Americans from their positions on Detroit River; that "part of the troops from New Brunswick and Halifax" had arrived at Quebec and Point Levi; that Generals Proctor and Vincent had arrived in Saint John from the Upper Provinces; and the following interesting advertisement copied from a hand bill found in the baggage of an American officer:—

"ATTENTION!

*Every Canadian Patriot, who has fled from under* the yoke of Slavery, and tyranny of a King, and who wishes to contend for Religion, Equality, Independence and Liberty of his country can, by coming to Plattsburg, enlist in a Canadian Rifle Company, for the term of five years or during the war:

He will receive
124 Dollars bounty,
160 acres of land,

Besides his clothing, one ration per day, eight dollars a month.

HUZZA FOR LIBERTY.

WILLIAM BEŻEAU
*2nd Lieut, 1st Reg't U. S. Light Artillery.*"

Plattsburg, 15th February, 1814."

Bezeau appears to have been a Canadian. The "Gazette" says of him sorrowfully: "Those who know him, his honest and respectable relations, know, to their sorrow, that he is worthy of holding a commission in the American Army. We will, however, do him the justice in as regards the contents of this handbill, to say he has not surpassed in imposture the generality of those with whom he now acts."

A "Hue and Cry after Jerome," surnamed Bonaparte, taken from the German Papers, is republished, and, as an illustration of the Humor of the day:—

DUTCH PAPERS.

HUE AND CRY AFTER JEROME.

[From the German.]

"Whereas one Jerome (particularly described below) late merchant's clerk who resided several years at Cassel, as manager of the business of his elder brother, has been guilty of various crimes and misdemeanours, since he has not only been aiding and abetting in all treasonable practices against the sacred person of our beloved Elector and other reigning Sovereigns, committed many robberies and murders, coined and uttered counterfeit money, embezzled and squandered very large sums, contracted numberless debts, and shamefully defrauded most of the inhabitants of this and other places, and has in other respects given great scandal by his debauched and vicious course of life, privately absconded from this city after the bankruptcy of his said elder brother at Leipzig, and before his person could be secured; and whereas it is of importance to the public welfare that this highly dangerous character, who is now probably roving about as a vagabond from place to place, should not remain at large, the magistrates of all the towns, and all good citizens in general, are hereby required to keep a vigilant look out for the same; and, in case of his discovery, to apprehend him wherever he may be found, and to send him hither under a sufficient guard. To those who shall discover, or be instrumental in the discovery of the said Jerome, so that he may be made an example of, and brought to condign punishment, is hereby promised a reward of 10,000 centimes by us.

"THE CITIZENS OF CASSEL.

"*Done at Cassel, Oct.* 30, 1813.

DESCRIPTION OF THE CULPRIT.

"Jerome, aged 29 years, of low stature, an awkward figure, diseased and debilitated by excesses, sallow complexion, blear and hollow-eyed, down-cast look, middle-sized nose and pointed prominent chin, and particularly remarkable for the harshness of his voice and indistinctness of his speech. At the time of his absconding he wore a white coat, with blue collar and cuffs, and epaulettes of false gold, a short white waistcoat and buckskin breeches; a large old cocked hat, and newly galoshed boots with sherry-yellow tassels."

Among the advertisements of that day we find that of the sale of a valuable farm of 400 acres, 60 cleared, (25 of which is intervale) "the property of the late Widow Fowler, including that part in possession of Monmouth Fowler, lying on the Hammond River, French Village, 20 miles from St. John and 4 miles from Hampton Church." William Pagan & Co., of St. John, advertise Jamaica Spirits, Sugar and Lime Juice just received from Jamaica; C. I. Peters,—"that commodious store lately occupied by Mr. Ezekiel Barlow, on the outer end of the Wharf"; Nehemiah Merritt,—British Merchandize, just in from Liverpool; Stephen Humbert,—Wine, Brandy, Rum, Sugar, White Cotton Balls, Strong Shoes, etc; John Knutton,—goods just imported from Glasgow. William Black & Co. offered Cordage, Duffle Blanketing, etc; Ezekiel Barlow, Coniac Brandy, Muscovado Sugar, Salt, etc. Edmond and Bedell were then doing business; Susan, William and Marcus Peters, of Hampstead, were administering on the Estate of "Thomas Peters, of the County of York, deceased;" and "in consequence of the decease of the late Bradford Gilbert, Esq., the Co-partnership of Bradford Gilbert and Son and Bradford and Thomas Gilbert was that day (Feb. 7, 1814) dissolved."

Sir Thomas Saumarez was Commander-in-Chief, and John Odell Provincial Secretary; and between them they proclaimed that a Public Fast and Humiliation be observed throughout the Province, "that so we may humble ourselves before ALMIGHTY GOD, and in the most devout and solemn manner offer up our Prayers and Supplications for the Pardon of our Sins, and for the averting of those heavy Judgments which our manifold provocations have most justly deserved, and fervently implore the Divine favor and protection in behalf of our Most Gracious Sovereign and His People, that every Calamity may be removed from His MAJESTY and from the Royal Family,—That the Arms of His Majesty and Allies in this great crisis may be continually crowned with success, and all things so ordered by a merciful Providence, that the Blessings of Peace may be restored, and the prosperity of His MAJESTY's subjects secured in every part of His Dominions." In those times the Mails for Halifax "closed every Tuesday at Sunset," and "for Quebec and Fredericton every Wednesday at the same time." William Campbell was then Postmaster of St. John.

Altogether, the old paper is well worthy of careful perusal and preservation.

## The Burthens of Government.

The Reform agitators and journalists of Ontario have for years past given us splendid specimens of political guerillas. They were clever, dashing, and sometimes successful in assault. They hovered on the flanks of the Dominion Government, and frequently made raids that caused not a little annoyance to the enemy. They were fearless riders. They carried but light weight, and were under no sense of responsibility for their actions. Their aim was to attack and injure, and this they steadily pursued. Recently they have found it necessary to change their tactics somewhat. Having obtained possession of the Government of Ontario, they have now a camp of their own to defend. The journals of the Dominion Government are doing quite as much in the way of attacking the Grits as in defending John A.; and Grit journalists are now obliged to devote about as much of their valuable time and space to a defence of the Blake Government as to assaults on Sir John. The possession of power has not been an unmixed good to the old guerilla fighters. They long to assail—they detest most abominably this business of watching their own communications and resisting attacks from the other side. In Parliament, the Grit Leaders find their action somewhat hampered by their dual position. They will be more cautious in their assaults. We shall have no more "Balaclava Charges." The Treasurer and Premier of Ontario are very different personages from the private members Blake and Mackenzie that we knew of. And Grit necessity, no doubt, will be John A.'s opportunity, both in Parliament and the coming Elections.

## The City Accounts.

January, February, March and April have about passed away, and the Accounts of the Corporation, which closed on Dec. 31, have not yet been given to the citizens! The printing is not yet completed. The Aldermen and Councillors have, many of them, been re-elected; the Mayor's Election has been disposed of; and the account of these officials' Stewardship is still a sealed book to the tax-payers. The City's heavy liabilities will require to be dealt with almost immediately, and new Bonds sold to pay old ones maturing, and yet the accounts of last year, so necessary to a clear understanding of "the situation," are not forthcoming. They certainly can not be much longer delayed, unless the Civic magnates propose to withhold them entirely.

**New Line of Steamers Demanded!**

Halifax has evidently been improved under Confederation. The Halifax Press urges its capitalists to put on a line of steamers direct from Halifax to England. The *Citizen* remarks: "With our unequalled harbor open all the year round and with railway communication with the whole of the great west, the superiority of Halifax to every other port in British America as the *entrepot* of the Atlantic trade need only be mentioned to commend itself to public attention. It will become more than ever, when the Intercolonial is finished, the landing place for mails and passengers from Europe, for the whole American continent. Now is the chance for Halifax to take a start by which it will grow at a tenfold increased ratio to that which it has hitherto done."

**Theatricals in Dorchester and Amherst.**

It is the intention of the Dorchester Amateur Dramatic Club to comply with several requests from this place by giving an Entertainment here in the course of a few days, when they will present "Don Cæsar de Bazan" and "The Limerick Boy." The performances of this club have been greatly praised. The *personnel* is composed of most respectable young men, of Dorchester.—[Amherst Gazette.

## MATTERS IN GENERAL.

### Ovation to Theodore Cuyler.

The Rev. Dr. Theodore L. Cuyler sailed for Europe in the Cunard steamer *China* on Wednesday last. The doctor goes as a delegate from the General Assembly of the Presbyterian Church in the United States, to the General Assemblies of the old Kirk of Scotland, the Presbyterian Church of Ireland, and the United Presbyterial Church of Great Britain.

Some two hundred members—men, women, and children—of Dr. Cuyler's Church assembled at the Cunard docks to wish him a God speed. The promenade deck of the *China* was thronged by his many friends, and he was the centre of a constantly increasing multitude. Dr. Cuyler was dressed in a plain suit of mixed gray. He wore a small bunch of blue violets and geranium leaves on his lappel. His family stood by his side as he received the congratulations of his many friends. All were smiling except his little son, who wept bitterly. The tears stood in the Doctor's eyes as he pressed the little fellow to his bosom.

A basket of flowers was presented to Dr. Cuyler by the children of his Sabbath school. It was composed of white roses, bordered with red. Across the centre was the following incription in red flowers: "Number vi., 25." The passage referred to reads:

"The Lord bless thee, and keep thee."

The basket was sent to the saloon and placed on the table opposite Dr Cuyler's seat, which is the fifth from the door.

At length the bell warning all not passengers to leave the steamer sounded. A hearty shake of hands and a hurried farewell followed. The throng then flocked to the end of the pier, remaining there till the steamer hauled out into the stream. Handkerchiefs were waved to Dr. Cuyler as he stood on the deck. He responded by raising his hat. His friends remained until the ship was so far distant that the postor could not be distinguished from the other passengers surrounding him.

Dr Cuyler expects to be in Edinburgh the last of May, and in Belfast the first of June.

### Demonstration of the Trades' Unions in Toronto.

The Trades Union Demonstration took place on Monday. About one o'clock a procession of considerable length, headed by a man bearing the English Ensign, with the band of the 10th Royals, was formed, and at half-past one proceeded up King street west as far as Brock, into which it turned, thence along Queen street as far as George, down it to King street east, and along King as far as Yonge street, and up the latter to the Queen's Park, where addresses were delivered. It was calculated that there were about fourteen hundred persons in the procession, all the Unions being represented, the whole being escorted by five bands of music. The men marched four abreast, and some of them carried small Union Jacks, which appeared to indicate those who were in command of the party, the arranging of the whole being left to a couple of mounted Marshals. The American flag seemed to be a general favourite with Union men, and there were two or three carried. As a rule, the affair was conducted in a somewhat orderly manner with the exception of the yells of a number of irrepressible youths, who of course were present in great numbers; but the members of the Unions represented appeared to be under the orders of some officers to whom they were tolerably submissive.—[Toronto Globe.

### Woman's Influence—in the Lobby.

[From the Hartford Evening Post.]

Women as contractors or go-betweens between Governments are always in history suggestive of corruption, their employment being a resort to the feminine quality of diverting judgment by acting on other qualities of the masculine mind. In all history women have been employed, sometimes successfully, in the conducting of diplomatic affairs that required more than argument, reason, logic, or demonstration. Before the arms sale investigation committee on Monday a Mrs. Mason came as an active agent in the purchase of arms for the French Government. From her testimony it appears that no arms were bought through her influence. So it seems that her influence and business talents were wasted. It was not so fortunate a movement for Mrs. Mason as for one other lady, *who got a New Year's Present by the reopening of closed naval claims.* Nobody seems to know who she is, whether she is connected with the navy as a sailor or marine; but only that she is "a lady who exerted some influence," *and for its exertion received a handsome present.*

[From the Utica Observer.]

It is a delicate question to allude to, but the Secretary himself saw fit to bring it forward. If we may credit the Washington reports, the Secor claimants secured the services of Mrs. Aulick to aid them in pressing the payment of their fraudulent claims. A handsome retainer in the shape of a Christmas present was given to this fascinating widow, and just one week later the $93,000 was turned over to Secor. Inasmuch as the then Mrs. Aulick is now Mrs. Robeson, it is to be presumed that her influence in the Navy Department last Christmas was worth all that it cost.

AN EXPENSIVE CANADIAN CHURCH EDIFICE.—The total cost of the Metropolitan Church, Magill Square, in this city, including the ground, is $135,000. Of this sum $55,000 were subscribed and collected up to the time of the completion of the structure. During the last week the amount subscribed and otherwise collected has reached the munificent sum of $30,000, including $1,300 raised at the bazaar—leaving a debt of only $50,000 on the entire structure and grounds. The enterprise and liberality of the promoters of the project have been the subject of general remark and commendation.—[Toronto Mail.

### The Steam Plough.

That the use of the steam plough on the level lands of the West will ultimately become almost as common as that of the reaping machine, few can doubt who have observed the progress of steam culture in Europe. In England there are establishments employing twelve hundred men in the manufacture of steam ploughs for export and home use; and it is said that as many as five hundred of the machines are held in that country for hire by companies and individuals. A tract of five hundred acres near London, which would not bring a rent of three dollars an acre for ordinary culture, brought a clear profit of $18,000 on grain crops after being steam ploughed. In Germany and Scotland the steam plough has been successfully introduced. The Pasha of Egypt, too, has learned the value of steam in agricultural operations, and uses four hundred ploughs that are worked by that power. In due time they are certain to come into extensive use in the United States.—[Exchange.

### Romantic if True.

A strange story is told of a Boston woman who sailed many years ago, being then a girl of eighteen, with her missionary husband, for India. "The vessel was wrecked on the Arabian coast, and all on board perished save her husband and herself. He was preserved only to fall a victim to Arab cruelty and she to Arab slavery. While her beauty lasted she was the favorite wife of the most powerful chief in the South Arabian desert, but when that waned she fell from her 'bad eminence' and was transferred to the harem of an inferior sheik. And so she lived, praying for death, but not daring to die, till, bandied from one barbarian to another, she, a Boston lady, in whose veins flowed the purest Puritan blood, found herself the wife of an Arabian water-carrier. From his power an American traveller freed her and provided her with the means to reach home."

## LOCALS.

**Freight for Western Extension**
will be received, until further notice, at FAIRVILLE, instead of Carleton, owing to the changes that are being made in the approaches to the Ferry Landings.

**The Freshet in the River.**
The water rose in the river last night over a foot. The ice continues to come down in large quantities.

**Too much Mud.**
From Chubb's Corner to the Market Square the mud is deep enough to hide from sight the street crossings which are supposed to cross the street between those two places. A small expenditure would render them useful to pedestrians.

**The Latest Novelties in Figureheads**
are those that have just been turned out by Halifax carvers for new barks belonging to Halifax and Yarmouth. Both, says the *Citizen*, represent females and are remarkably well executed the one for Halifax representing a "girl of the period," in full dress (rather low at the neck), pannier, Grecian bend and all.

**That Running Brook.**
At the Northern end of the Royal (late Stubbs') hotel, a stream of water comes running down continually, and annoyingly, across the sidewalk, necessitating a hitching up of dresses, walking on toes, and divers other modes of escaping the mud and water, and is without doubt the cause of a great deal of profanity. Alderman Kerr and Councillor Cassidy will find it to their advantage to take sounlings in that particular spot.

**The Departure of the "New Brunswick,"**
of the International Line, this morning was a reminder of the extensive patronage the Line enjoyed when we were not blessed with a railway to Boston. A large body of passengers went away in her, and will no doubt enjoy a pleasant trip, as the appearance of the water was as smooth as a mill pond. Capt. Pike is the genial commander this year.

**Bishop's Serenaders.**
This evening these popular minstrels will give an entertainment for the benefit of the Protestant Orphan Asylum at the Institute; and to-morrow evening for the Catholic Asylum.

The agent of the Serenaders, Mr. Charles Melville, appears to be a thorough business man. His representations of the Company's merits have been amply borne out, and his general management has been very satisfactory. The Company in securing his services have done a good thing for their own interests.

**Ferry Accommodation.**
Until the floats are ready for the "Western Extension," the tug boat "St. George" will carry passengers and luggage to Carleton. A number of men are at work tearing down the piles to widen the approach to the floats, and will, if possible, complete their work to-morrow.

**The new Counter in the Long Room**
of the Custom House, is the longest of its kind in the Province. It is about 30 feet in length,—pine, with a walnut top about 18 inches wide, and cost say $300. It was supplied from the manufactory of C. E. Burnham & Co.

**Accident.**
On Saturday, a lad at Indiantown, named Willie Sanborn, had a thumb chopped off by his sister who was cutting ice with an axe. The father who held the hand when it was being dressed, fainted away at the sight of the mutilated member.

**Launched.**
About half past 10 o'clock this morning, Messrs. Ritchie and Lawlor launched from their yard, east end of Union Street, Courtney Bay, a fine schooner of the following dimensions: Length of keel 95 feet, breadth of beam 27 ft. 6 in., depth of hold 10 ft. 5 in. She is 208 tons Register, copper fastened, and thoroughly iron kneed. She is a most substantial and faithfully built vessel, and is named the "Bessie Black," her owners being Messrs. J. & S. Leonard. She has been built under special survey to class A I 8 years in American Lloyds, and will be commanded by Captain Peters, of Westport, Nova Scotia.

**Coal.**
The cargo of coal recently arrived in the "Lady Havelock" is pronounced of a very superior quality. The continued arrival of steamers in our port is creating a greater demand for that article, and the steamers now arrived and others daily expected will considerably reduce the supply.

**Aquatics.**
Sunday is a lively day among the amateur boatmen. Yesterday four four oared boats indulged in a good deal of spirited racing, encouraged by admiring crowds on the wharves. The zeal with which they entered into impromptu contests shows that they mean business the coming season.

Mr. Fulton goes to Brunswick, Me., next week to train the Bowdoin College crew. He will at the same time go into training for his race with Brown, at Digby, in July.

**Passengers from England.**
The "Empress," which arrived early yesterday morning, brought the mail from England via the "Peruvian," which arrived at Halifax early on Saturday morning. Several St. John merchants, who had been purchasing their Spring stock in Great Britain, arrived home by the same route. They were Mr. Barnes, buyer of the London House, and a member of the firm of Barnes, Anderson & Kerr. Mr. Kerr of the same firm, Mr. W. R. MacKenzie, of MacKenzie Brothers, and Mr. Page, of Page Brothers.

**Another Steamer.**
The S. S. "Nyanza," from Boston, arrived in the harbor this morning, to load deal for Liverpool. She is a fine boat of 1,859 tons register, one of the Warren Line, running between Liverpool and Boston. She was built at Hull in 1867, is of 123 horse power, and is owned by J. A. Dunkerly, of Hull, who also owns the "Trent." She is to be loaded by Alex. Gibson, Esq., and is consigned to Wm. Thomson & Co.

**Likely, Cameron and Golding.**
We have much pleasure in calling the attention of the public to this new firm. They are all young men, who have been in the employ of their predecessors (Messrs. Everitt & Butler) for many years; are well acquainted with the trade of St John, and of affable and gentlemanly manners; and beginning where Messrs. E. & B. left off, they have golden prospects. We know of no young men with better opportunities.

It will be seen by reference to our advertising columns that Messrs. Everitt & Butler have gone exclusively into wholesaling, and handed the retail trade over to the above mentioned gentlemen. We wish both firms great success.

**Candidates for Ottawa.**
Mr. Elder, of the *Telegraph*, has fairly taken the field for the Commons, for St. John City and County, and in this morning's paper tells us why we should all vote for him. Mr. Burpee and Mr. Palmer and Mr. Kerr have been before the electors for some time. The latter has probably done more personal canvassing than all the others put together.

**The Steamers.**
The S. S. "Niger," one of the Temperley Line, sailed from London for Halifax, this port, Quebec and Montreal, on the 11th inst. She is consigned to Wm. Thomson & Co., and takes the place of the "Medway" which was detained at the Capes. The "Niger" is 1,442 tons register and 120 horse power, and was built at Sunderland in 1868. She brings out some workmen for Messrs. Page Bros.

The manifest of the cargo of the S. S. "Cambrian" has been received by Messrs. Melick & Jordan. The steamer has a very large freight, about 500 tons having to be left behind. She is expected to arrive at Halifax to-day.

"The "Ouangondy" has gone into quarters at Lower Cove.

The "Emperor" is lying at Reed's Point wharf. She will be ready for sea in about a fortnight.

The "Empress" is at her wharf, where the necessary preparations are going on for a thorough overhauling. She will be ready for sea in about six weeks.

On the "Scud," carpets are being laid in the ladies and gents' cabins, which are quite handsome. She starts on Wednesday.

**Academy of Music.**
This handsome building, which is now entirely completed with the exception of placing the seats in it, and some trifling ornamental work, was unveiled to the eyes of the admiring public on Saturday night. The building is three stories high, the total height being sixty five feet. The lower story contains two shops; one, on the right, has one window and is rented for the millinery business. The one to the left of the entrance has two windows, is about 40x20 ft., and would make a handsome drug store or fashionable tailoring establishment. It is not yet rented.

The main entrance, which is 13x17 feet, is oval at the top. Two massive doors, of black walnut, and heavily yet gracefully ornamented, will give ample means of entrance and exit. To the two galleries there is a separate entrance on the right of the main entrance. A bust of Shakspeare surmounts the main entrance, and in the centre of the summit of the building is placed a bust of Queen Victoria. The windows are all arched, and with their spiral columns and ornamental carvings present an elaborate appearance. The front of the building is covered with mastic of a reddish sand stone hue. A heavy cornice surmounts the building, in complete harmony with its beautiful scroll work and with the general rich appearance of the edifice. A finer looking front could hardly be conceived, and the architect, Mr. Washburn, is justly proud of his production. Germain street can now boast of having the finest Hotel and Academy of Music in the Dominion.

The building was visited by large numbers yesterday. Visitors will not be again admitted until it is ready for the Musical Convention of Mr. Torrens, May 6th.

The original idea of having the ticket office combined with the smaller shop of the two has been abandoned, and a separate ticket office is being made. This will be to the advantage of the Company to the extent of three hundred dollars a year.

**Mr. Joshua S. Turner's New Residence,**
on Princess street, between Wentworth and Pitt, a four story brick building, with swell front, is about ready for occupation. The plan of the house gives ample room and every convenience. In the basement there are a spacious dining room; a good sized kitchen, with range and water conveniences; several pantries; a winter cellar, furnace room, coal and water closets, etc.,—the whole being well lighted. The suite of parlors and a library, with ample hall, take the whole of the second story, which is finished throughout in hard woods; the grain of the wood will be handsomely developed with oil and shellac. The appointments are all very complete. The third flat, also, has a large hall; and here are the principal bedrooms, the family suite being very commodious and otherwise well planned. On this story is the bathroom, supplied with every variety of baths and hot and cold water, besides the usual toilet conveniences and water closet, handsomely furnished and admirably arranged. The upper story is devoted to bed rooms exclusively, none of them small, and the view from them truly delightful. In fact, in the latter respect the views obtainable to the south, east and north, are not surpassed by those enjoyed from any residence in the locality, nor is there much probability of their being interrupted by buildings to be hereafter erected. There is an ample supply of closets and pantries; and the number of rooms that can be used, if required, as sleeping apartments is not less than seven or eight. The ventilation is perfect, both by windows and wall ventilators extending from the roof to the basement; and altho' the heating will be chiefly from the furnace, there are handsome register grates in all the principal rooms and bed rooms. The construction of the building has not been too rapidly hastened. Special attention has been given to the sewerage and drainage, to the seasoning of the lumber, and to the fitting and jointing throughout; and while there has been nothing wasted, nothing has been left undone to secure a building at once thoroughly constructed, convenient and ornamental. The out houses will be erected during the summer, and after they are up there will still remain a considerable portion of the lot to be devoted to a flower garden or other ornamental purpose.

Mr. J. T. C. McKean was the Architect of the building; the Mason work was executed by Messrs. D. & T. Sullivan; Joiner's work by Mr. John Drury; the Plumbing by Mr. A. Rowan; the Painting by Mr. Barbour. The Register Grates were in part imported from Montreal, and in part purchased from Mr. Harris. The full size of the lot is 40x100 feet; the ground plan of the house 31x45; the suite of parlors respectively 17x21, and 17x22; the dining room 17x20, and the halls are 10 feet wide throughout.

**The Brigt. "Saxon,"**
when discharging a cargo of sugar and molasses at Mitchell's wharf, Halifax, the other day, capsized. The cargo had been removed from the hold, and the mate to right the vessel, commenced to move a portion of the deckload from one side to the other, when the vessel gave a sudden lurch to port, and the five remaining puncheons rolled over to the deck to the port side smashing two of them, and putting the vessel's rail under water. In this helpless condition the vessel remained until the molasses was removed from the deck, which was only accomplished after considerable difficulty.

The Mrs. Dolliver scalding case came up this morning. Mrs. Spicer, a sister of the scalded man, Gale, swore that no mustard was applied, as Mr. Kerr, counsel, tried to make out, and which, he said, aggravated the wounds. Several witnesses testified as to Gale being sober at the time. The Magistrate, after hearing all the witnesses, fined Mrs. Dolliver a hundred dollars, as he considered the case was a very aggravated one of assault on her part.

LONDON, April 21.

Steamer "Rona," with sixty persons, was sunk in Chinese waters by colliding with the French steamer "Avato."

The French Embassador at Berlin represents his relations with the German Government on a very good footing.

Thiers will shortly review the military forces around Paris. The review will be preceded by manœuvres on large scale.

The North German *Gazette* again denies the statements of the London *Telegraph* concerning the relations of France and Germany, but says the last speech of Thiers produced an unpleasant feeling throughout Germany, and the character of the French war budget dictates caution on the part of Germany.

Don Carlos forbids Carlist Deputies taking seats in the Cortes, and publishes a manifesto protesting against the validity of their election. Future protests he declares will be made only in the field.

A general and immediate uprising of Carlists is expected. The troops are prepared to meet it.

The Mexican revolutionists are again moving on Matamoras, and have gained successes elsewhere.

One hundred and fifteen emigrants sailed from Liverpool for Canada on Wednesday under the auspices of Miss Rye.

## GOLD 7-30 LOAN.

**A profitable and secure Investment.**

THE Northern Pacific Railroad Company offers to the public an investment security which combines the ready negotiability, the convenience, and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

*Traffic.* As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future.

*The Value of Land Grants.* The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is $7.04 per acre—the highest average of any grant being $13.98, and the lowest $3.07. With few exceptions, *the average selling price has steadily increased from year to year.* The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of $7.04 per acre, they will yield more than $161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant ($3.07), they will produce more than $70,000 per mile. These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific Railroad Bonds.

*Construction.* The road is now completed across Minnesota, (255 miles); work is progressing westward through Dakota, and 65 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the construction of 635 miles more, to be finished before the close of 1872.

*The 7-30 Gold Bonds.* The first mortgage bonds of this company, *which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country,* have the following leading features;

1. They are exempt from United States tax: the Principal and Interest are payable in gold—the principal in 30 years, and the interest semi-annually at the rate of 7 3-10 per cent. per annum. Denominations, from $100 to $10,000. Present selling price—par and accrued interest in United States currency at prevailing rate of gold (109) these bonds yield 8 per cent gold interest.

2. The bonds are a first and only Mortgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track,

3. They are at all times receivable at 10 per cent. premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if necessary.

*Exchanging 5-20s.* In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third.

All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without expense to the investor.

## The Halifax "Citizen.'

**Tri-Weekly, $2 50 in advance.**
**Weekly, 1.00 "**

**ESTABLISHED IN 1863.**

THE combined circulation of the Tri-Weekly and Weekly CITIZEN is now over 5000, considerably larger than that of any other paper published in the Province, and thus the best medium for advertising. This statement we are prepared to prove by our books, and challenge contradiction. Terms of advertising as follows:

| | |
|---|---|
| Per square of 12 lines, first insertion | $1 00 |
| Each continuance | 25 |
| Commercial Cards, not exceeding 12 lines, three months | 7 50 |
| Commercial Cards, not exceeding 12 lines, six months | 12 00 |
| Commercial Cards, not exceeding 12 lines, one year | 20 00 |

Liberal arrangements made with those desiring more space, or inserting advertisements for a long period. The above rates are for the Tri-Weekly only. If the Weekly be desired in addition one-half must be added to those prices. If Weekly only, price the same as Tri-Weekly. To Merchants and others desiring to obtain reliable reports of the Halifax markets, we can confidently recommend the CITIZEN, it being in fact the only paper issued in Halifax which publishes a regular Commercial Review. Several other journals have attempted it, but have allowed it to drop. In its shipping reports the CITIZEN has always been acknowledged to be in advance of any journal published in the Maritime Provinces, and this has given it a circulation specially large among the persons advertisers most desire to reach, Merchants, Shipowners and men of means generally. It contains more reading matter than any other Halifax Tri-Weekly or Weekly, and is the largest paper published in the Province. All orders to be addressed to the MANAGER CITIZEN PUBLISHING COMPANY, Lock Drawer, No. 9, Post Office, Halifax, N. S. feb 10 2m

## New York Sun for 1872.

## TO ALL WHO CAN READ.

**The New York Weekly Sun Doubled in Size without Increase in Price.**

With the beginning of 1872, THE WEEKLY SUN has been doubled in size. It now contains eight pages instead of four, making it equal in dimensions to any other weekly secular journal published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY SUN thus furnishes as much reading matter as other papers published at double or treble the price, it will contain new features which will add greatly to its interest and value as a family newspaper. Its independence of opinion, and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving the most accurate, as well as the freshest, intelligence that can possibly be obtained. The enlargement enables us also to devote additional space to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous aspects of life, and for useful information respecting not only what takes place in this metropolis and this country, but in all other parts of the world, we now have ample room.

In its new form THE WEEKLY SUN is the cheapest paper of its class in the United States; and we appeal to such of our readers as approve its ideas and objects, and find it interesting and valuable, not only to renew their own subscriptions, but to recommend the paper to their friends and neighbors.

This year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election, and political movements will for many months be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY SUN will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth, irrespective of party prejudice or official influence, will always be told in its columns.

**Terms of the Weekly Sun—**

A journal containing eight large pages, published every Wednesday morning—To all mail subscribers, whether single or in clubs, *one dollar a year each,* always in advance.
