Law Respecting Newspapers.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodicals or newspapers, the publisher at publishers may continue to send them until all arrears are paid up; and subscribers are held responsible for all numbers sent.
3. Manbscribers neglect or refuse to take the periodicals or newspapers from the office to which they are directed, they are held responsible (if) they have settled their bills. Sending numbers back, or leaving them in the office, is not such notice of discontinuance as the law requires.
4. If subscribers remove to other places without informing the Publisher, and their periodicals or newspapers are sent to the former directions, they are held responsible.

☞ Geo. P. Rowell & Co., 40 Park Row, and S. M. Pettingill & Co., 37 Park Row, are our only authorized Advertising Agents in New York.

The date after each Subscriber's name on the address indicates the time to which his Subscription is paid. Thus, "Peter Smith, 1 March 72," means that Mr. Smith's Subscription is paid up to 1st March and that he owes from that date. Subscribers will see it to be to their interest to renew promptly, as our terms are $1.50 strictly in advance, otherwise $2 will be charged.

Subscribers will confer a favour by notifying us of any irregularity in the delivery of their papers.

We shall be glad at all times to receive items of local news, reports of meetings, accidents, or any incident of interest either in the locality where it occurs or to the county at large. Such matter may be sent at the rate of one cent per oz. if marked Printer's Copy and not sealed. To ensure publication in any particular issue it should reach the office not later than Monday evening.

Huron Signal.

GODERICH, March 12, 1873.

Extra copies of this day's Signal can be had at the Office—price 5 cents.

Municipal Loan Fund.

We publish in another column the resolutions for the settlement of the Loan Fund indebetness and the distribution of the Surplus, as introduced by Hon. Mr. Mowat, on Friday last, in the Ontario Legislature. The resolutions speak for themselves and fully explain the scheme, so we shall confine ourselves to a few remarks on the manner in which Goderich and neighbouring municipalities will be affected.

Reductions will be made under the first or five cent rule as follows;

	Debt 1st Jan. 1873.	Reduction.	Remaining due.
Goderich	$155,508	53,685	101,823
Stratford	202,812	125,015	77,797

None of the municipalities in this section get any reduction under the two cent rule.

Several municipalities have their whole debt cancelled in consequence of their securities or investments having proved worthless, but none in this section are so favoured.

Besides having their indebtedness cancelled the following will receive the sums specified, to be appropriated to Public Works;

Huron (exclusive of population allowance to town of Goderich and township of Howick and Stanley.)	$197,110.66.
Bruce	97,367.89
Stanley township	4,849.73

The indebtedness of the County of Perth is unaffected by any of the rules and is placed at $189,075.67.

It will be seen that the adjustment of the scheme bears very hard on Goderich. We do not blame the Government for this. Their scheme is a very equitable and fair one in our judgment, but as the reductions are based on the assessment of 1858, in which year our assessment was unusually high, our reduction is less in proportion than other towns much more able to pay. In that year the assessed value of our property was $1,359,404. while in 1872 it was only $986,606 or $372,804 less. We have paid off a portion of our indebtedness, while other places have refused or neglected to do so, and they receive a larger reduction simply because of their inability to pay the larger amount. We would have been in a better position to-day had we not paid upwards of $63,000 to Government on account of our indebtedness. As an essencial part of the scheme is to place the debt of each municipality at such a figure that it will be able to pay it off in twenty years, without a higher rate of taxation than two cents on the dollar (exclusive of school tax) being levied, we consider that our case is entitled to further consideration and reduction. When the fact is represented to the government that the assessment of 1858 was so high that *more than half was taken off by the equalization committee of the County Council*, we do not see how they can refuse to grant a further reduction. As the case now stands our debt will be $23 per head of population, while that of Stratford, Chatham, Peterboro, Brantford, and other towns more deeply in debt, yet more prosperous than Goderich, is reduced to sums ranging from $15 to $20 per head. Should relief be refused and we compelled to raise about $7000 a year more than we do now (and we all feel the taxes heavy enough already), it will have a ruinous effect on our town, and perhaps even force us to do what we should very much regret, that is, to repudiate.

Houses of Refuge.

A motion to make it compulsory on County Councils to provide Houses of Refuge was defeated in committee of the Ontario Legislature last week, when the Municipal Bill was under consideration.

Great Liberal Victory.

Mr. Pelletier, the Liberal candidate, has been elected for Quebec East by over 500 majority.

The Contested Election Cases.

The supporters of Sir John A. McDonald at Ottawa appear to be determined to play the partizan as much as ever. It will be recollected that at the late election the returning officer for West Peterboro took upon himself to return Mr. Clurton, the Government candidate, who received the smallest number of votes, as duly elected, because his opponent, Mr. Bertram, did not put in his declaration of qualification at the nomination, though he did so before the return was made, which is all the law requires. In Muskoka the returning officer did not return anyone elected, though Mr. Cockburn had a large majority over his opponent, Mr. Boulton, the ground being that one of the poll books was lost, and that some other irregularities were committed. The whole number of votes in the municipality where the book was lost would not have changed the result if all had been cast for Mr. Boulton, but the returning officer had no right to constitute himself a judge in this or in the Peterboro case, but should have returned the candidate who had a majority, leaving the other parties to contest the election if they saw fit. In South Renfrew, gross frauds were perpetrated, and in East Middlesex there were irregularities, though we think the returning officers did quite right in returning the members they did, as they had an *apparent* majority. When Mr. Blake, citing a number of precedents for his course of action, moved on Friday last, that the West Peterboro return be amended so as to give Mr. Bertram the seat, Sir John moved an amendment to refer the case to a committee, which simply means to defer action indefinitely, and allow a *rejected candidate* to take and hold a seat to which he has no right whatever. Sir John's amendment was carried on a vote of 95 to 79, and it is said that so afraid were the Government of the result of the vote before it was taken, that a Cabinet Minister *actually crossed the floor of the House and offered certain members all they wanted if they would vote with the Government.* The result of the vote is that a present injustice is done which may not be rectified for weeks. Had the Tory party consented to the passing of an act for the trying of controverted elections before the judges, there would have been no difficulty of this kind, and justice would not be delayed or defeated as is now the case.

The result of this vote shows the weakness of the Government. Their majority of 60 in the last parliament and their boasted majority of 40 in this, has dwindled down to 16, and would have been less had all the members been in their places. With a vigorous and talented Opposition, united under the leadership of Mr. Mackenzie, there can be little doubt of the speedy overthrow of the Government.

A Live Town.

We have frequently pointed out the desirability of encouraging the establishment of manufactories in our midst. Nothing serves to build up a town more, and possessed of the shipping facilities which Goderich has, it offers special inducements to men of capital to locate amongst us. All that is wanted is a little more energy, public spirit, and unity of sentiment and action on the part of our citizens. A notable instance of what manufactories will do for a place is seen in the town of Oshawa. Possessed of as few advantages as the majority of country places, it was a few years ago a small village, depending on the local trade of the adjoining country, and even then placed at a disadvantage by its proximity to Whitby, the county town, which is only four miles distant. The Joseph Hall Agricultural Works, at first, and other manufacturing establishments since started, have had a wonderful effect, and it is now one of the most thriving places in the province. Goderich might learn a useful lesson from Oshawa, and if our people would only take a leaf out of the book, our town might become as prosperous as theirs. But the Oshawa people are not content, but are determined to go on and prosper, as will be seen from the following despatch from that town:—

At a public meeting held in the town hall here last Monday night, it was unanimously decided to request the council to submit a by-law granting a bonus of three thousand dollars towards buying a site for the erection of a female college, to be built by the Rev. M. Demill. The buildings are to be very large, and capable of accommodating several hundreds of lady pupils. The cost is to be twenty-five thousand dollars. Two more extensive manufacturing establishments have selected situations, and purchased grounds for the erection of buildings in this town. One of them—a stove foundry—starts with a paid-up capital of $40,000. To-day a company, to be known as the Ontario Loan and Savings Co'y., was formed by the leading citizens of our town. The object is to supply a much needed want here, capital to be loaned on mortgage security, for the building of houses to accommodate the large influx of population, consequent on the greatly increased number of factories. The capital stock of the company is $250,000, nearly all of which has already been taken up, and there is no doubt, as the enterprise is sure to succeed, that the balance will shortly be subscribed. Real estate has never been held at such high figures as are now demanded. Numerous transactions are daily taking place, and such is the activity of the demand, that instances have occurred where three and even four transfers of the same property have been made during the time occupied in getting the original sale legalised. One man has disposed of over forty building lots by private sale within a few days. The malleable iron works and a straw-hat factory are now in full operation, and a consignment of one hundred girls for the latter is early expected to arrive from Scotland.

Increase of License Fees.

The Ontario government intend to follow up the establishment of an inebriate asylum by an increase of the fees charged for license to sell liquor, in order to provide for its maintenance. As the bill has not yet been introduced we cannot state what the increase will be, but Mr. McKellar informed the House that the addition of $4 a year for ten years would cover the cost of buildings and maintenance up to that time, and $2 a year thereafter would support the institution.

Cabinet Change.

Hon. John O'Connor has been transferred to the Inland Revenue Department. The office of President of the Council vacated by him will not be filled at present, so no Ontario member appears to be inclined to face his constituents, to say nothing of joining a Cabinet which is about going to pieces.

By-law Defeated.

The Stanley by-law, granting a bonus of $15,000 to the L. H. & B. Railway and a likewise to Mayfield Harbour, was defeated on Saturday by a majority of 177.

Another batch of Q. Cs.

The title of Queen's Counsel will soon become, as our town contemporary would call it, "a hollow honour," if John A. continues to manufacture them at the present rate. A new list has been issued embracing six from Ontario and eighteen from Quebec. The Ontario practitioners who have received the handle to their names are Angus Morrison, Ed. Fitzgerald, Thos. Hodgins and John Hoskin of Toronto, G. R. Van Norman of Brantford and G. E. Henderson of Belleville.

The Oxford Shrievalty.

Our local contemporary finds fault with the Ontario Government for having appointed Mr. Perry, Sheriff of Oxford within a few days of Sheriff Ross' death. We leave it to the good sense of the country if it is not better to fill such important appointments without needless delay, than to do as Sir John A. Macdonald does, keep the office dangling before a host of hungry applicants, often for a year or more, in order to gain their support in the mean time.

West Durham.

Mr. Blake has decided to sit for South Bruce, consequently there will be a vacancy in the representation of West Durham. E. B. Wood has been nominated and has accepted. He will of course have to resign his seat in the Local House.

Income Franchise Bill.

The Ontario Government have dropped the Income Franchise bill for this session, but will take it up again next session, in connection with a bill to provide for voting by ballot.

NEWS OF THE WEEK.

Forgeries to the amount of about $1,000,000 have been perpetrated on the Bank of England by a ring of American swindlers.

The sentence of Foster, the car hook murderer in New York, has been commuted.

Mr. Gladstone has stated in the House of Commons that the Geneva award was only a little over half what the Americans claimed.

President Grant was inaugurated at Washington on the 4th of March. A grand ball took place in the evening.

It is rumored that the Marquis of Lorne and the Princess Louisa have separated on account of incompatability of temper. The report lacks confirmation and there is little doubt it will prove untrue.

The public debt of Manitoba is already $15,000.

The Speaker of the Manitoba Legislative Assembly, was on Friday night last, treated to a coat of tar, for having ruled against a bill to incorporate the town of Winnipeg. The government offer $100 reward for the conviction of the perpetrators. A committee of citizens followed. 400 people visited the Manitoba parliament on Friday last, to protest against a bill exempting Hudson Bay Co. property from taxation, while that of other non-residents is taxed. The bill was thrown out on a technicality.

Matters in Spain are still very unsettled. The Carlists appear to be gaining strength and have been recognized as belligerents by the French President. The powers of Europe refuse to recognize a Federal Republic.

The Manitoba Local Legislature was prorogued on Friday. The Royal Assent was given to about thirty bills.

The Government of Prince Edward Island has dissolved the Legislature and will go to the country on the question of Confederation.

Newfoundland is about to send a delegation to Ottawa to negotiate for admission into the Confederacy. Mr. Bennet, its great anti-union man is dead.

LOCAL NEWS

Held Over.—The Auditor's Abstract for the Township of Colborne is undoubtedly held over till next week.

New Telegraph Office.—The Montreal Telegraph Co. have opened an office at Port Albert.

Division Court Clerk.—Mr. John S. McDougall has been appointed Division Court Clerk, in place of his brother, Dr. McDougall, who retires.

Fish.—Large quantities of herring and trout are being caught. The former are sold at from ten to twenty cents a dozen and the latter from eight to ten cents a pound.

Personal.—M. C. Cameron, M. P., with Mrs. Cameron, returned from the South last week, much the better of his trip and sojourn there. He left for Ottawa on Monday.

New Dominion Monthly.—The March number of this magazine is to hand. It contains some good articles well worthy of perusal. John Dougall & Son, publishers, Montreal.

Sudden Death in Toronto.—Mrs. Gibbs, mother of Mrs. Blackstock of this town, and of the members for North and South Ontario in the Dominion Legislature, died suddenly in Toronto on Monday of last week.

Salt Works.—The owners of the different salt works are engaged in fitting up for next season's operations. Contracts have already been made for early deliveries at Chicago and other ports. Some of the works will very shortly commence manufacturing.

Salt Territory.—Mr. Joseph Kidd, of Carronbrook, is about to test the question whether our salt territory extends as far east as Carronbrook. He is about to sink a well at that place. Mr. Peter McEwen, of Seaforth, has the contract.

Concerts.—Mr. Orr intends to have Juvenile Concerts, in the Town Hall, Smith's Hill, on Thursday, March 13th, and in the Temperance Hall, Manchester, on Thursday, March 20th. The children of both places will assist, and also the Goderich Glee Club.

Lake Huron Harbors.—A deputation consisting of Messrs. Adam Brown, Hamilton; John Gillies, M. P., North Bruce; Robert Baird, Warden of Bruce; F. Hardon, Kincardine; Peter McRae and Wm. Gray, Inverharon, visited Ottawa last week to urge upon the Government the improvement of the harbors on Lake Huron, north of Goderich.

The Rubbe-Vous.—This is the title of a very fine chromo presented by the proprietors of the *Canadian Illustrated News* to their subscribers, a copy of which we have just received. It is remarkably well got up, the faces being so well brought out that they may be recognized. It represents a meeting of snow shoers behind the mountain at Montreal. The execution does great credit to those who got it up.

Immigration.—The provincial committee appointed to take steps towards forming an Immigration Society for this county, met on Friday evening last. It was agreed that the Reeves and Deputy Reeves throughout the county should be notified, and a public meeting called for the Town Hall, Clinton, on Friday, 21st March, at 10 o'clock, to organize the society should it be deemed advisable to do so.

Lady McDonald Waltz.—This is the title of a new piece of Music composed by Mrs. B. L. Doyle, of this town, and dedicated by special permission to Lady Macdonald, wife of the Premier of the Dominion. It is exceedingly sweet and pretty, and has met with Lady McDonald's approval as expressed in a note to Mrs. Doyle. It will, no doubt, meet with a ready sale. To be had at the booksteres. We have to thank the authoress for a copy.

Town Council.—A special meeting of the Town Council was called yesterday to take into consideration the proposed settlement of the municipal loan fund so far as it effects Goderich. Messrs. Sinclair, Dickson, Ross, and Adamson were heard, after which it was resolved to present a petition to the Government, urging a further reduction of our debt, and the three gentlemen first named were authorized to proceed to Toronto to press our claims for favorable consideration. The resignation of Mr. Mackay as Assessor was tendered and accepted, and the Council then adjourned till Monday evening next.

Canadian Monthly.—The March number of this magazine is to hand. The following is its table of contents:—The Bank of England and the Act of 1844, by the Hon. Sir Francis Hincks, C. B., K. C. M. G., &c. My Sister's Sleep, a poem from Dante Rossetti; The Vendetta, from the French of Honore de Balzac; Wounded, a poem from Hargerat's Ministry of Song; Music and Morals, a criticism; Horace Odes, Bk. I. 38, by E. A. M., Ottawa; the Trade of Canada during 1871-2, by James Young, M. P.; Saint Valentine, by R. E. L. Current Events:—Journalistic Impersonality, Imperial Confederation, The Canadian Pacific Railway Charter, The Session of the Ontario Parliament—"The Proton," "Speak Now," and "Scotch and Riel." Mr. Mill's "Prohibitive Legislation on Intemperance." "University of Toronto Reform." The Opening of the British Parliament—The Queen's Speech and the Treaty of Washington; Russian Aggression in India; The Revolution in Spain. Selections:—Men of Letters and Unlettered Wives; Sailing on the Nile; Science and Nature; Current Literature; Book Reviews; Literary Notes.

Fire Extinguisher.—We mentioned in our last that the Town Council had under discussion the propriety of purchasing a Chemical Fire Extinguisher. We observe that Professor Pepper, in a lecture at Toronto, on Thursday last, referred to the extinguishing of fires by these machines in the following which we extract from the *Mail's* report:—"He was obliged to confess that in the treatment of large fires, occuring in buildings of magnitude, science had as yet been unable to supply any satisfactory mode of extinction, but he showed by experiment that the employment of carbonic acid gas, however generated, was sufficient to extinguish flame and fire if it could only be employed in sufficient quantity. The difficulty lay in the mode of generation—a difficulty not sufficiently overcome by any machine invented up to the present time. There was one great advantage which carbonic acid gas had over water in this respect. It did not spoil furniture, and therefore allowed of salvage. In the direction of prevention science offered great assistance. By impregnating wood with sulphate of copper or any kindred salt—a process easily effected by placing it in a chamber exhausted of air and then introducing a solution of the salt—the wood became fire-proof so far as supplying flame went, and the Professor strongly advised that builders of the Mansard roofs should have the wood, of which these are composed, so prepared."

Clinton.

Painful Accident.—On Tuesday afternoon, while engaged in coupling cars at the Stapleton siding, John Smitson, engineman, accidentally fell from the tender, and struck his head upon the rail so heavily that he did not return to consciousness for upwards of five hours. He was removed to Mr. Rance's Hotel, and medical assistance obtained, which, together with good nursing, it is hoped will enable him to again discharge his duties.—*New Era.*

Municipal Loan Fund.

MEMORIAL PRESENTED TO THE GOVERNMENT ON BEHALF OF THE TOWN OF GODERICH.

To the Honourable William P. Howland, C. B., Lieutenant-Governor of the Province of Ontario, in Council assembled.

The Corporation of the Town of Goderich, through the undersigned delegates, appointed to represent their interests in connection with the unicipal Loan Fund debt, beg leave to represent as follows:—

1.—That in or about the year 1853, the Counties of Huron and Bruce assumed and became responsible to the Government of the then Province of Canada for the re-payment of the sum of $300,000, being their share of a loan of $500,000, by the Counties of Huron, Perth and Bruce, borrowed for railway purposes, the said County of Perth assuming the re-payment of the balance of $200,0000.

2.—That on the separation of the Counties of Huron and Bruce, a proper adjustment and division was made by the County of Huron to the County of Bruce, for the portion of the said money it had paid, and from which it was contended the said County of Bruce had received no material advantage.

3.—That the Town of Goderich has paid into the county treasury, for and on account of said sum of $300,000, the sum of $20,697, as appears by the annexed schedule marked "A," made out and certified to by the county clerk of the said County of Huron.

4.—That in the year 1855, a committee of the county council was then struck to report on the advisability of the building of gravel roads within the Counties of Huron and Bruce. That report of said committee will be found at pages 23, 24 and 25 of the county council minutes for the year 1855, and to be found herewith

5.—That in pursuance of said report, a By-law was introduced, carried and ratified, by which the County Council of Huron and Bruce borrowed the sum of $400,000 on their debentures, for the purpose of carrying out a general scheme of county gravel roads, a copy of which by-law will be found in the printed minutes of the said council, herewith sent, for the year 1856, from page 34 to 38 inclusive, but the said loan was assumed and is being paid off by the County of Huron exclusively.

6.—That by a resolution of the said county council, passed on the 27th day of June, A. D., 1857, and as appears at page 24 of the accompanying printed minutes for that year, the particular roads to be gravelled are specified, differing somewhat from the original report, omitting among others those highways on which the northern Gravel road was constructed.

7.—That before the said county gravel road scheme had been finally determined on, a certain joint-stock company was formed, under the name of the Northern Gravel Road Company, for the construction of about twenty-six miles of road, on the highways which had been originally designated as those which should be included in the general gravel road scheme.

8.—That in order to complete the said road, the said Northern Gravel Road Company borrowed from the Town of Goderich, on mortgage on said road the sum of sixty thousand dollars ($60,000), which we believe to have been honestly expended in the construction of said road.

9.—We beg leave to refer to and use the statements contained in the paper herewith sent, signed by John Macdonald, Ira Lewis and William Young, that we have read said statement and almost of the facts therein stated are personally know to us we can corroborate such statements.

10.—That in the year 1857, the county council abandoned the idea of constructing some of the gravel roads leading to the Town of Goderich, but in two or three years afterwards made an appropriation for the expenditure of some money on roads but in no case were they made or intended to be made such durable and substantial roads as the other regular county gravel roads.

11.—That the last meeting of the county council for the said County of Huron a by-law was passed of which the annexed paper marked "B" is a copy certified to be such by the County Clerk.

12.—That the annexed paper marked "C" is a certified statement of the moneys paid by the town towards liquidating the debt created for the gravel road scheme.

13.—That the annexed paper marked "D" is a certified statement of the amounts received by the town from the Northern Gravel Road Company.

14.—That the map of the County of Huron sent herewith shows in red lines the county gravel roads under said scheme, and the blue lines, the line of road of said company, from which it will be observed how large a proportion of the people of the County of Huron had no county gravel roads but had to rest satisfied with paying their share of the county taxes without ever receiving any corresponding benefits in the shape of gravel roads or otherwise.

On these facts we submit and contend.

(1.)—That the town has paid its share of the loan for railway purposes and cannot be considered a debtor in respect thereof.

(2.)—That the town has also paid its share of the money borrowed for the gravel road purposes amounting to $26,850, although as appears by the county clerk's statements only the sum of $2,568 of the loan has been expended in the town.

(3.)—That the $60,000 lent to Northern Gravel Road Company was expended beyond the town and in reality for county purposes.

(4.)—That had the town not expended that money the county would necessarily have done so, and as an evidence of what the council considered their duty in that respect, we refer to the by-law lately passed granting $2,000 for one year to the town and the agreement contained in it on the part of the county to expend $2,500 during that time in keeping the road in repair, in consideration of which the town as far relinquished their right to exact tolls.

(5.)—From the by-law submitted to the people for the purchase of said northern gravel road by the county it will appear that the county council always considered the said road as one that would have been made a county road.

(6.)—That more than double the amount of all the moneys the town ever received from the Gravel Road Company has been paid to the Government, thus shewing that the town has not attempted to withhold from the Government, moneys received from the company.

(7.)—We submit further that it would be unjust, inequitable and oppressive to compel the town to repay the said sum of $60,000 and interest (except in so far as the same has been reduced by the payments made by the company to the town) which principal sum has actually been expended for general county purposes, and not for improvements in or about the town.

(8.)—That independently of that reduction of the indebtedness of the town we claim that in justice we are also entitled to a pro-rata distribution of the county appropriation of the surplus revenues of the Province.

(9.)—That unless we receive such reduction, the town will be unable to pay the Government any such annual sum as would eventually discharge the debt of the town—that our property would in consequence be retarded and our enterprises which are now struggling for an existence will be seriously prejudiced and impaired if not entirely destroyed.

(10.)—That unless such a reduction of the said debt be made as will leave such a balance as the town can reasonably expect to pay and the Government to receive, the interests of the Government as well as the town will be very seriously injured.

(11.)—That considering the fact that we as a town have aided every great enterprise whether railway, gravel road or otherwise, that has tended to the prosperity of the county generally and for which moneys had to be borrowed, we think it would be unfair now to compel us in fact to contribute again.

(12.)—We further claim to have our debt as a matter of right reduced by the amount which we contend should have been placed to the credit of the town by the Government as our share of the Clergy Reserve Fund, which has not been done

For the Town of Goderich,
(Signed), Horace Horton, *Mayor.*
J. S. Sinclair, *Delegates Appointed.*

"A."

Schedule, showing the amount the Town of Goderich paid towards the liquidation of the $300,000 borrowed from the Municipal Loan Fund by the united Counties of Huron and Bruce, and invested in the Buffalo, Brantford and Goderich Railway.

1871	do do	4,000.00
Total,		$29,908.78

That the above is a true statement of the moneys received by the Town of Goderich, on the account herein set forth, and that it is a faithful extract, made by me from the Treasurer's books of the said municipality, is certified by

(Signed,) Charles Fleming,
Treasurer of the Municipality of the Town of Goderich.

Goderich, dated this 30 December, A D. 1872.

[We omit the remaining statements as they are already familiar to our readers.]

Some idea can be formed of the enormous amount of land granted to the Canadian Pacific Railway Co., by reading that it is equal to up thirteenths of the entire area of Ontario, and about two-fifths more than all the land contained in the Provinces of Nova Scotia and New Brunswick combined.

LEGISLATURE OF ONTARIO.

MONDAY, 3rd March.

The Hon. Attorney General moved the second reading of his Bill to provide for the "better administration of justice," the object of the measure being the partial fusion of the Courts of Law and Equity. After some discussion the motion was carried. At the evening sitting the Attorney General moved the second reading of his Bill for the better custody of insane persons. Carried. Mr. McKellar then moved the second reading of the Immigration Aid Societies Bill. The societies will be formed upon a basis similar to the Ottawa Valley Society, which has now been for some time in most successful operation. In reply to a remark from Mr. Cameron, Mr. McKellar expressed the hope that if the scheme for establishing these societies were successful, it would, to a great extent, do away with the necessity for the employment of agents in Great Britain or foreign countries. Mr. Rykert attacked the Bill, which he thought objectionable and futile. The bill was read a second time. After the Bill to amend the law respecting the Registration of Copartnerships had been read a second time, the House went into Committee of the Whole on the amendments to the Municipal Law Consolidation Bill. Hon. Mr. Crooks moved the adoption of clause 74, making holders of shop licenses who retail liquor ineligible to hold office in any municipality. Carried. The clause making it compulsory to pay taxes before the 14th of December in each year, otherwise invalidating the vote of the ratepayer, was after some objection passed. The qualification of voters in cities was reduced from $500 to $400. The clause providing for the election of mayors in cities and towns by the vote of the people was adopted. Some further clauses were passed, when the committee rose and reported progress.

TUESDAY, 4th March.

A number of bills were passed through committee. The Income Franchise bill was discharged. The bills to consolidate the public and high school laws were read a second time. Some further clauses of the municipal bill and some minor business was dispessed of and the House adjourned.

WEDNESDAY, 5th March.

Dr. Clarke (Norfolk) enquired whether it is the intention of the Government to bring down a supplementary grant to country agricultural societies, for the specified purpose of purchasing and introducing into each county the best and most approved breeds of farm stock. The Attorney General said it was not the intention of the Government to move in this matter this session. Mr. Bethune moved for copies of all correspondence with the Dominion Government respecting the disallowance and repeal of any Acts of the Legislature of Ontario. Mr. Rykert moved for papers connected with the Elgin Association. Mr. Bethune moved for list of patents issued in certain townships in Renfrew. Mr. Rykert moved for information respecting what drainage works had been carried on and what money expended. A number of bills were advanced a stage and the remaining clauses of the municipal bill passed.

THURSDAY, 6th March.

After routine, Hon. Mr. Pardee moved the reception of the report of the Private Bills committee having reference to the Orange Bill. Mr. Merrick moved in amendment that the report be not now received, but be referred back to the Committee with instructions to report the reasons which moved the committee not to report the bill to incorporate the Loyal Orange Association of Eastern Ontario. He said it was strange that the bill for the incorporation of the Orange Society of Western Ontario was passed to-day by a majority of two, while the bill for the incorporation of the Orange Society of Eastern Ontario was rejected yesterday. Mr. McDonald said he had introduced the two bills, which were precisely similar. He moved an amendment to the amendment, that the report be referred back to the committee with instructions to consider the preamble of the bill proven and proceed with its clauses upon their merits. A sharp and bitter debate followed at the close of which Mr. Macdonald's amendment was carried by a vote of 38 to 30.

FRIDAY, 7th March.

In a speech of 2½ hours duration Hon. Mr. Mowat introduced the Municipal Loan Fund Resolutions, fully explaining the scheme of the Government. After a few remarks by other members the debate was adjourned further enquiry. We publish the resolutions elsewhere.

SATURDAY, 8th March.

Several members pointed out errors in the schedules attached to the Municipal Loan Fund Resolutions. The Premier remarked though great care had been taken errors had no doubt crept in. He would have them revised. That bill to authorize further expenditure for drainage works was read a third time, after which a number of bills were advanced a stage.

Pickle Fortune.

A RICH UNCLE DIES IN PETROLIA, AND LEAVES HIS PROPERTY TO HIS NIECE.

[From the St. Joseph Herald, Feb. 18.]

Here we have found a genuine heiress in the person of a handsome young waiter girl, at the Occidental Hotel, in this city. There is no "well," nor anything of that sort about it. The young lady's name is Miss Katie McDonald. We have known her for some time, and we find she is an estimable young woman, worthy of the good fortune that has befallen her. She received the last evening a letter that she had received from her mother. There was no denying the old lady's handwriting. Katie knew it to be genuine. Mrs. McDonald wrote that Katie's bachelor uncle had recently died in Petrolea, Canada, and willed all his property, without reserve, to Katie. She remembered her uncle well, for she was always a favorite with him. He was a peculiar man, and he loved her for a fancied resemblanceshe bore to him.

The property consists of a large hotel and about half the real estate in the town of Petrolea, all told valued at nearly $306,000.

A young man who boards at the Occidental also rejoices over this good fortune, for he has been paying his attentions to Katie, the waiter girl, and he is bold enough to believe he can win Miss McDonald, the heiress.

Miss McDonald will take immediate measures to secure her fortune. She will leave in a few days for the home of her deceased relative.

Mount Forest.

Buildings Destroyed by Fire.

Mount Forest, March 5

The building occupied by J. M. Crawford as tinsmith, and Thos. Wilson's hotel, were totally consumed by fire this morning about 1 o'clock. The buildings were owned by Mr. Crawford, and were insured in the Western and Toronto, Beaver and Mutual. The total loss is six thousand dollars; insurance on buildings $1,700; Crawford's stock, $1,200; Wilson's furniture, in Waterloo, $600.

Everybody Says So.

That is all who have either used the article themselves or witnessed its effects when used by others; all such, and they only are fit to judge, are unanimous in the opinion that "Dudley's Condition Powders and Arabian Heave Remedy" is superior to anything of the kind heretofore or at present in use for coughs, colds, Thick Wind, and all diseases which affect the wind of horses. As a condition mediumit has no equal; there is nothing in it which can injure a horse in any shape or well—we need the horse be kept from working while using it; it is just the article which all who own horses require, and which they should have constantly on hand. Remember the name, and see that the signature of Hurd and Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada.

An eccentric but benevolent Danbury man, hearing that seven thousand working girls lost their all by the Boston fire, shipped them 16 volumes of Patent Office reports.

A Novel Mixture.—Cartoon—the Queen's gift to the *Northfield* survivors.—Brilliantie: "Well, if I cannot 'Rule the waves,' at least I can temper the storms of adversity."

PARLIAMENT OF CANADA.

SECOND PARLIAMENT—1ST SESSION.

OTTAWA, Wednesday, March 5th.

To-day the Governor-General proceeded to the Senate Chamber, and the Commons being summoned to attend, he desired them to select a Speaker, when he would declare his reasons for calling them together.

On returning to their own chamber, Sir John A. McDonald moved that the Hon. James Cockburn be re-elected Speaker. Hon. Mr. Langevin seconded the motion, and no other candidate being proposed it was declared carried unanimously.

THURSDAY, 6th March.

The Governor-General to-day opened the session by the following speech from the throne:

Hon. Gentlemen of the Senate.

Gentlemen of the House of Commons.

In addressing for the first time the Parliament of Canada, I desire to express the satisfaction I feel in resorting to your advice and assistance, as well as my deep sense of my own good fortune in being permitted to associate myself with you in your labours and aspirations for the welfare of this Dominion. I rejoice to think that my assumption of office should have taken place, at a period when the prospects of the country appear so full of promise, when peace and amity prevail amongst all neighboring nations, and when so many indications are afforded of the success with which Canada herself is consolidating her political unity, and developing her national resources.

In accordance with the decision of Parliament, and to carry into effect the legislation of last session, I have caused a charter to be granted to a body of Canadian capitalists for the construction of the Pacific Railway. The company now formed has given assurances that this great work will be vigorously prosecuted, and a favorable state of the money market in England affords every hope that satisfactory arrangements may be made for the required capital. The papers and correspondence relating to this subject will be laid before you.

During the last year, the surveys for the improvement and extension of our system of Canals, for which appropriations were made last session, have been in active preparation; and I am glad to inform you that the plans and specifications for the enlargement of the Welland and the construction of the Baie Verte Canals, have been completed, and that the works can now be put under contract. The surveys for the St. Lawrence Canals will, I am assured, be finished in time to commence the works at the beginning of next year. This will insure the completion of these great undertakings at the same period.

It is gratifying to know that the efforts made to encourage emigration have met with a just measure of success, and that the numbers seeking a home in Canada have been greatly augmented during the last year. I do not doubt your readiness to make ample provision for the steadily increasing stream of settlers, that may hereafter be annually expected to add to the population, wealth, and strength of the Dominion.

The compilation of the first census of the Dominion approaches completion, and this would, therefore, seem a fitting time to provide for the establishment of a proper system, for the accurate collection and scientific arrangement of statistical information. I commend this subject to your attention.

It is important that provision should be made for the consolidation and amendment of the laws, now in force in the several Provinces, relating to the representation of the people in Parliament. A measure for this purpose, and one for the trial of controverted elections, will be submitted to your consideration.

Your attention will be invited to measures for the amendment of the laws relating to pilots, to salvage, and to the Trinity Houses of Montreal and Quebec, as well as for the improvement of the laws generally affecting our merchant shipping.

Experience has shown that the duties now performed in the offices of the Secretary of State, and the Secretary for the Provinces may be readjusted with advantage to the public service. A bill on the subject will be laid before you.

Among other measure bills will be presented to you relating to the criminal law, to weights and measures, and to the amendment and consolidation of the inspection laws.

Gentlemen of the House of Commons

I have given directions that the accounts of the past and of the first six months of the present financial year, shall be laid before you without delay. You will be gratified to learn that the finances of the Dominion are in a prosperous condition, and that there is no reason to doubt that the revenue will be sufficient to meet all contemplated charges upon it.

The estimates for the ensuing year, which will be submitted to you, have been prepared with as much economy as is compatible with the efficiency of the public service, and I venture to hope that you will be of opinion that the supplies which my Government will ask you to vote can be granted without inconvenience to the people.

*Honor

Municipal Loan Fund.

FULL TEXT OF THE GOVERNMENT SCHEME.

1. That it is expedient to provide for the re-arrangement of the Municipal Loan Fund debts, so as to secure the due and regular payment of such of them, and such portions thereof, as are to be paid.

2. That it is expedient to distribute amongst the Municipalities of the Province for local purposes, the future produce of the said debts, and so much of the other funds of the Province as may, with the produce of the said debts, be equal to the allowances hereinafter mentioned.

3. That with respect to the debts to the Municipal Loan Fund, on which an assessment of five cents in the dollar on the assessed annual value of the property of the indebted municipalities, in 1858, was not sufficient to pay the interest the practical effect of the Statute 22 Vic., c. 19, has been to reduce *every* such debt to the sum on which the said rate of five cents in the dollar would pay interest at five per cent; that it is expedient to accept this reduction as the basis of a new settlement, and to give to other municipalities some compensation in respect thereof, by making to such other municipalities the allowances hereinafter provided.

4. That for many years it has been the policy of the country to give public aid to useful railway enterprises; that the late Province of Canada aided largely railways in Upper Canada; that other railways in Upper Canada were built without any aid from the Province of Canada, but with large aid from some of the municipalities in Upper Canada, by taking stock in the railway companies which were to construct the said railways, and by making loans to the said companies, which stock was taken and loans made on the representation to the said municipalities in the expectation by them that their advances would be made good out of the profits of the railways; that the railways so respectively aided by the said Province and by the said municipalities, have been greatly instrumental in developing the wealth and resources of this Province; that the aid so given by municipalities has in most instances yielded no return to the municipalities in the form of dividends or interest; that, with respect to the said railways so built without any Provincial aid, it is expedient, in view of the said facts, to credit to the sinking fund of such of the said municipalities as are not benefitted by the third resolution a sum equal to $2,000 a mile of railway, the same to be divided amongst the municipalities respectively, in proportion to the amount of their contributions, and to allow the same to such as a payment, at the date of its railway debt being contracted.

5. That after the Confederation of the Provinces in 1867, and before the passing of the Railway Aid Act of 1871, divers municipalities, which will not be benefitted by the third resolution, have given sums of money by way of gift or bonus to divers railways or portions of railways, which, if not commenced prior to 7th December, 1870, would have been entitled to aid under the said Act; that the sums so given were larger than might have been necessary, if the said railways had received aid from the Province in the same way as the Act of 1871 provided with respect to railways commenced after the said date; that it is expedient to make to the municipalities referred to in this resolution, an allowance, as of the 1st January, 1873, at the rate of $1,000 per mile of the portions of railways aided by the said municipalities respectively; such allowance to be divided amongst the said municipalities, in proportion to the amount of their contributions to the railway; provided that this allowance shall not entitle any municipality to an allowance in respect of any railway which may receive aid from the Legislature during the present Session, or to any railway which, if commenced after the passing of the said Railway Aid Act, would not be entitled to aid under the provisions of that Act.

6. That it is expedient to give to the municipalities in default, and not benefitted by the preceding resolution, credit as against their debt for the share which would from time to time be payable to them, if they had not been in default to the said Municipal Loan Fund.

7. That it is expedient to allot to all municipalities not benefitted by the third resolution, the sum of two dollars per head of the population, which allotment shall be in addition to the railway allowance aforesaid where these are applicable; and that the allotment and railway allowance aforesaid shall be applied as follows:

(1.) The amount going to a county, city or separated town indebted to the Municipal Loan Fund, shall be applied first to pay the debt to the said Fund.

(2.) Where a balance remains of the allotment to a county, the share according to population of any local municipality therein indebted to the said Municipal Loan Fund shall be applied towards the payment of such debt.

(3.) The remaining sum going to a county (or in case the county was not indebted to the Municipal Loan Fund the whole sum going to the county), in respect of the said allotment and railway allowance, shall be divided among the local municipalities therein (or the other local municipalities therein, as the case may be), according to population, and shall be applied in aid of railways, of drainage, of the building or improvement of the court house or gaol, of the building or improvement of an hospital, of providing for the municipality an industrial farm, a house of industry or of refuge, in building or improving schools, public halls, bridges, harbours, piers or gravel roads, or shall be applied in making other permanent improvements affecting the municipalities, or in towards the reduction or payment of municipal obligations already contracted for permanent works; and proper provision should be made for the due application of the money to the objects specified.

(4.) The amount going to any city or local municipality after the payment of debts shall be applied by the council thereof.

(5.) Where a portion of a county, or union of counties, indebted to the Municipal Loan Fund, has been separated from the indebted county or union, and has assumed part of the debt of the county or union, the allotment in respect of the railway allowance shall be divided in like manner.

8. That, in view of the past history of the Municipal Loan Fund, it is essential that the new debentures to be issued by municipalities indebted to the said fund, should be good and reliable investments to all holders; that by the Municipal Act of 1866 it was enacted, that no municipal council should assess or levy in any one year more than an aggregate rate of two cents in the dollar (exclusive of school rates) on the value of the rateable property in the municipality; that it is expedient, in making a final arrangement of the Municipal Loan Fund debts, to act upon the policy involved in this enactment, and to provide that in case a rate of two cents in dollar would be insufficient to pay five per cent annually on the debt, or reduced debt, by the said Fund, after allowing for the ordinary and necessary expenses of the municipality (other than schools), the amount of the debt of the Municipal Loan Fund shall be placed at such a sum, that the interest thereon at five per cent shall not exceed what an assessment of two cents in the dollar on the assessed value of the property in the municipality would be sufficient to pay, after meeting the ordinary and necessary expenditure of the municipality, other than for schools as aforesaid; that for the expedient that the annual amount to be so paid should be fixed and not fluctuating; and the amount of the assessment, and of the ordinary and necessary expenditure, respectively, of the year 1872, be therefore accepted as the basis of the said adjustment and settlement.

9. That where injurious legislation, affecting the issue and position of Municipalities indebted to the Municipal Loan Fund, has taken place without the knowledge or concurrence of the Municipalities so affected, or against their active opposition, but in the interest or supposed interest of the public, and has resulted either in no railway being built, or in the building of a railway which has not advanced the best interests of the indebted municipality, it is expedient to cancel the balance still due by such municipality to the Municipal Loan Fund, after making the allowances hereinbefore provided for.

10. That with respect to the debentures held against the City of Toronto, the Government be authorized to accept payment at the rate of interest and in manner provided in the case of other creditors, by the Statute 27 and 28 Vic., Cap. 72.

11. That new debentures be issued by the indebted municipalities respectively, for the balances due by them; that the debentures shall be in such form and in such respective sums as the Lieutenant-Governor in Council shall direct; that the debentures shall provide for payment by the same sums per annum, as nearly as may be, as the municipalities are now liable to pay; provided that no more shall be payable annually for twenty years than two cents in the dollar on the assessment of 1872; would provide for as aforesaid, and that no debentures shall allege more than twenty years for payment of principal; that those debentures of such indebted municipalities shall, so far as practicable, be equally distributed at par among the municipalities entitled thereto; in proportion to the sums to which the said municipalities are respectively entitled; that the balance going to each municipality shall be paid in money; and that the debentures shall be delivered and the money paid to the municipalities, or to their use, under proper statutory regulations, to secure the due application thereof to the purposes specified.

12. That where any municipality holds revenue producing investments, made with the money borrowed or obtained under the Municipal Loan Fund Acts, or with the produce of such money, such investments shall, at the discretion of the Lieutenant-Governor in Council, be assigned, in such ways as he may appoint, as a security for the balance due by the municipality to the said fund. Or, where such investments are of greater amount and value than the balance so due, the Lieutenant-Governor in Council may require the said investments to be assigned absolutely, in discharge of the said balance.

13. That new debentures be obtained from the indebted municipalities respectively, for the balances due by them; that the debentures shall be in such form and in such respective sums as the Lieutenant-Governor in Council shall direct; that the debentures shall provide for payment by the same sums per annum, as nearly as may be, as the municipalities are now liable to pay; provided that no more shall be payable annually for twenty years than two cents in the dollar on the assessment of 1872, would provide for as aforesaid; and that no debenture shall allow more than twenty years for payment of principle; that those debentures shall, so far as practicable, be equally distributed at par among the municipalities entitled thereto, in proportion to the sums to which the said municipalities are respectively entitled; that any balance going to a municipality after such distribution, shall be paid in money; and that the debentures shall be delivered and the money paid to the municipalities or to their use at any time after the first day of February next, under proper statutory regulations fitted to secure the due application of the said debentures or the produce thereof, and of the said money, to the objects specified.

14. That for the purpose of giving effect to the said considerations the balances due to the Municipal Loan Fund by the municipalities named in schedule A are hereby cancelled; the balance due to the said Fund by the municipalities named in schedule B is to be deemed the sums mentioned in and schedule B and the municipalities named in schedule C are to receive the manner aforesaid the sums mentioned in schedule C, which said sums mentioned in the said several schedules shall be subject to correction by the authority of the Lieutenant Governor in Council in case of any errors of calculation appearing, but are not to be varied otherwise

[We have not room for the Schedules The figures for as they affect this and neighbouring municipalities will be found in our editorial columns]

GOOD NEWS FOR THE FARMERS.

HOW THEY CAN REALIZE ONE thousand per cent. on their money. Buy one hundred pounds of Plaster of Paris for sixpence and sow it on your land on their farm, and sow it as soon as the snow leaves in the Spring.

The above prescription is warranted to be had by the bag at Mr. Arthur's store house,

H. HOWELL.

Goderich, March 5th, 1873. 1350c

Special Notices.

DR. SCOTT'S ELECTRIC COCOA—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicate beverage which may save us many heavy doctors' bills."—*Civil Service Gazette.* Made simply with Boiling Water or Milk. Each packet is labelled thus:—"JAMES EPPS & CO., Homœopathic Chemists, London."

MANUFACTURE OF COCOA.—"We will now give an account of the process adopted by Messrs James Epps & Co., manufacturing chemists of double articles, at their works in the Euston Road, London."—*Cassell's Household Guide.* 1341.

CAUTION! FRAUDS ABROAD!

WE deem it our bounden duty to caution the public of Great Britain and North American Provinces to be on their guard against purchasing spurious medicines which are being sold as my genuine "Holloway's Pills and Ointment," by certain individuals, of little or no means, trading (for the last few months only) under the style of the "New York Chemical Company." Every article is made use of by them for the purpose of imposing upon the public; and the above electrically to deceive, they have the effrontery, in their advertisements, to issue the following caution:—

"The immense demand for "HOLLOWAY'S PILLS AND OINTMENT" has tempted unprincipled parties to counterfeit these valuable Medicines.

"In order to protect the public and ourselves we have issued a new "Trade Mark," consisting of an Egyptian Circle (as seen in Holloway's letter H in the centre. Every box of genuine "HOLLOWAY'S PILLS AND OINTMENT" will have this trade mark on it. None are genuine without it.

"TO DEALERS AND JOBBERS IN DRUGS AND MEDICINES.

"We will your particular attention to the new style of HOLLOWAY'S PILLS AND OINTMENT—some of the old style are manufactured by us now, and have been for months. We therefore caution all purchasers against receiving from any Jobbers or Dealers the old style goods.

"Holloway's Pills and Ointment are such good "being offered will be received with thanks

"We are, Sole Owner of all the information we "can give in regard to these counterfeits."

Now this Company has a known that your laws do not permit them to copy the precise getting up of our Medicines, but in order the more completely to blind the public, they have recourse to another piece of deception, viz. in stating that they deem it necessary, as they say, to make up the Pills and Ointment in another form, and that that they adopt a *New Label.*

Besides the above-mentioned "Chemical Company," there is also a David Pringle of New York, who by consummate trickery is attempting to sell spurious imitations of my Medicines. Beware of him likewise.

This unprincipled Chemical Company has dared to say that I owe very large sums of money in the United States. What is the fact? A newspaper agent obtained, without my knowledge or consent, and by collusion with a party now in my employ, testimonials from persons who I have to advertise for medicine in South America for three years, to the amount of $100 000 in gold. He then sold his claim to a lawyer, who put it forward by the court to extend at his whole advantage against me to the amount of $171,237 50, the amount which he said he could have made by it, had I not taken steps to repudiate this vile transaction the moment it came to my knowledge. This judgement will soon be set aside, it cannot be supported, I am sure, that I owe a cent to any one that I would not immediately pay.

There is no truth whatever in the statement that I ever authorized anyperson or persons to use my name for the sale of my Pills and Ointment, although gross frauds have been practised upon me by unprincipled men in this way.

I would ask, as a favor, that should it come to the knowledge of any person that spurious medicines are being made and sold in my name, that he be pleased to see me the name and address of the vendor who is selling the same, that I may, for the benefit of the public, institute proceedings against him, and I engage to remunerate handsomely my informant without delay, the same.

Should any person have reason to believe that he has been deceived by buying medicines in packages of these medicines, the public are hereby cautioned against purchasing, which has been done in each of six cases in instances, one of which the book of instructions which are affixed to the same.

My Medicines can be supplied at the lowest wholesale net prices in quantities of not less than 12 worth 6d., 1s, 5d., 2s. 9d., per dozen boxes of Pills or Pots of Ointment, for which remittances must be sent in advance. These Medicines are not sold in the United States.

Each Pot and Box of my Genuine Medicines bears the British Government Stamp, with the words "Holloway's Pills and Ointment, London,"

(Signed) THOMAS HOLLOWAY.

533, Oxford Street, W.C.
London, October 5, 1872. 1347.

CANADIAN PAIN DESTROYER.

AS A FAMILY MEDICINE, IT IS well and favorably known, relieving thousands from pain in the *Side, Back and Head, Coughs, Colds, Sore Throat, Sprains, Bruises, Cramps in the Stomach, Cholera Morbus, Dysentery, Bowel Complaints, Burns, Scalds, Frost Bites,*
&c.

The Canadian Pain Destroyer has now been before the public for a length of time, and wherever used is well liked, never failing in a single instance to give permanent relief when timely used, and we have never known a single dissatisfaction, where the directions have been properly followed, but on the contrary, all are delighted with its operations, and say it is the highest boon of its virtues and many excellent.

We speak from experience in the matter, having used it thoroughly; and therefore, those who are afflicted from any of the complaints, for which it is recommended, may depend upon it being a sovereign remedy.

The astonishing efficacy of the Canadian Pain Destroyer in curing the diseases for which it is recommended and its wonderful effects in subduing the tortuous pains of Rheumatism, and in relieving Nervous Affections entitle it to the high rank in the list of Remedies. Orders are coming in from Medicine Vendors in all parts of the country for further supplies, and each testifying as to the universal satisfaction it gives.

The Canadian Pain Destroyer never fails to give immediate relief. All Medicine Dealers keep it as Physicians order and use it; and no family will be without it after trying it.

Price, only Twenty-five Cents per bottle.

☞ Sold in Goderich, by Geo. Cattle, F. Jordan; Gardiner & Co., Bayfield; Jas. Benthum, Rogerville; J. Pickard, Exeter; H. Combe, Clinton; S. Secord, Lucknow; E. Hickson, Seaforth; and all medicine dealers.

Goderich, Dec. 29, 1871. w 50 g

FELLOWS' COMPOUND
SYRUP OF HYPOPHOSPHITES

The power of arresting disease displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced; and the rapidly increasing sale is the best guarantee of the estimation in which it is held by the public.

The Syrup will cure Pulmonary consumption in the first and second stages; will give great relief and prolong life in the third; will cure asthma, bronchitis, Laryngitis, Coughs and Colds. It will cure all diseases originating from want of Nuscular action and Nervous Force, such as Enlargement of the Spleen, Dyspepsia, Gleets, Parkland Irregularities of the Heart, Local and General Paralysis, Aphonia or Loss of Voice. It will cure Leucorrhœa, Chlorosis, Anæmia and restores the blood to purity and health

Sold By Apothecaries.

Price, $1.50; Six for $7.50.

IMPROVE NUTRITION.

The central idea in the treatment of all Chronic Wasting Diseases, resulting in Nervous Prostration and General Debility is to improve the Digestion and Assimilation of Food, and the formation of Healthy Blood. DR. WHELER'S COMPOUND SYRUP OF HYPOPHOSPHITES (WITH CALISAYA) combines that only agent known that act directly as excitants of nutrition, by imparting tone to the Stomach, Liver and Pancreas, the great tripod that prepares nourishment for building up the organs and tissues of the body. The action of this remarkable preparation is extraordinary in strengthening and vitalizing the constitution, whether impaired by age, or housed by excesses, bad habits, or run down by old complaints that have resisted all ordinary methods of treatment.

Being a delicious cordial to take, and perfectly harmless under all circumstances, it is equally adapted to prostrate, anæmic women and delicate children. 1357

THE GREAT FEMALE REMEDY

Job Moses' Periodical Pills.

THIS INVALUABLE MEDICINE is UNFAILING in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all Cases of Nervous and Spinal Affections, Pain in the Back or Limbs, Fullness or Giddiness, Palpitation of the heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, does not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package which should be carefully preserved.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

1.00 and 125 cents for postage, enclosed in Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will insure a bottle containing over 50 pills by return mail.

NORTHRUP & LYMAN
Newcastle, C. W., general agents for Canada

☞ Sold in Goderich by Parker & Cattlend F. Jordan; Gardiner & Co., Bayfield; Jas. Benhum, Rogerville; J. Pickard, Exeter; H. Combe, Clinton; S. Secord, Lucknow; E. Hickson Seaforth, and all Medicine Dealers.

STOP THAT COUGH
DON'T DELAY.

One week, one day, and it may be too late. Consumption took its long train of victims to the grave yesterday to the long home of its many victims who have gone before.

How can you stop it? Where is the remedy?

Allan's Lung Balsam can produce more evidence of real merit than any other article for the purpose. It is sold everywhere by Druggists and general Storekeepers.

Read the following extract from a letter received from Mr. S. E. Burwell, a well know merchant of Ontario.

MESSRS. PERRY DAVIS & SON,

Dear Sirs,—Last autumn I was suffering from a severe cold which settled on my Lungs and produced a distressing cough for which I gave your Celebrated Cough Medicines but without any benefit. I at last tried one bottle of ALLAN'S LUNG BALSAM, which I am happy to be able to state gave almost immediate relief and performed a perfect cure in a short time.

Yours truly,
S. E. BURWELL.

Fingall, Ont., March 4, 1871.

DRESS OVERCOATS

Canada Grey Overcoats with capo and Hudson Bay Overcoats.

As Christmas and New Year are past we wish to see the Winter Clothing going in order to pocket the cash. Pea Jackets, Dress Coats, Pants and Vests, all colors and shades, Boys Clothing in suits, Boys Pea Jackets

A Remarkable Philanthropist.

What can he do when all walls are bare,
And every brick seems but a snare
To catch the passer unaware?
He spreads his ashes.

And when then he've creeping go,
And trembling tread a tottering row,
With honest features all aglow,
He spreads his ashes.
[illegible] he live, that man of soul!
Filled he his bin with red ash coal,
Till holes down his saintly poll,
Who spreads his ashes.

And when he leaves this world of slides
And with grim death serenly glides,
May this be heard, and naught besides—
"Peace to his ashes!"

ODDS AND ENDS.

A Photographer's epitaph — Taken from life.

Not a miss—A rich, handsome widow.

Board of education—The blackboard.

Going up—How to arrive at the height of a church steeple on a hot day—Perspire.

A boy's construction of a proverb: "Spoil the rod and spare the child."

Voltaire said of Mademoiselle de Livrya "She was so beautiful that I raised my long, thin body, and stood before her like a point of admiration."

A Bachelor sea captain who was remarking the other day that he wanted a good chief officer, was promptly informed by a lady present, that she had no objection to be his first mate. He took the hint and the lady.

Short Sayings of Poor Richard—

He that hath a trade hath an estate.
Industry and economy pay debts.
Drive thy business lest it drive thee.
One to-day is worth two to-morrow.

It is said that the British Government, as a measure against Fenianism, intend to abolish the use of the shillelah in Ireland, as its use is considered dangerous to the *security of the crown.*

The Boston *Post* is responsible for the following on the marriage of Thomas Hawk to Miss S. J. Dove:

"It isn't often that you see
So queer a kind of love,
Oh, what a savage he must be,
To Tommy Hawk a Dove."

A Miss Buchanan, once rallying her cousin, an officer, on his courage, said, "Now, Mr. Harry, do you really mean to tell me you can walk to a cannon's mouth without fear?" "Yes," was the prompt reply, "or a Buchanan's either." And he did it.

"How long do you wear a shirt?" severely asked an inspecting-officer of a soldier whose shirt was too dirty for dress-parade. "Twenty-eight inches, sir," was the respectful reply.

The maddest man in Camden is Smith. He has wound up his clock regularly every night for fifteen years, and only a day or two ago he discovered that it is an eight-day clock. He feels as if he must swear or burst.

"Where did you get that turkey? said a colonel to a recruit who came into camp with a fine bird. "Stole it!" was the laconic answer. "Ah!" said the colonel triumphantly, "my boys may steal; but they won't lie."

A stingy man who pretended to be very fond of his horse, but kept him nearly starved, said to a friend, "You don't know how much we all think of that horse. I shall have him stuffed, so as to preserve him when he dies." You'd better stuff him now," retorted the friend, "so as to preserve him living."

Conversation between an inquiring stranger and a steamboat pilot: "That is Black Mountain?" "Yes, sir; highest mountain above Lake George." "Any story or legend connected with the mountain?" "Lots of 'em. Two lovers went up that mountain once and never came back again." "Indeed—why; what became of them?" Went down the other side."

Josh Billings says: "The weazel has an eye like a hawk, and a tooth like a pickerel. They ken see on all three sides of a right angle triangle 'cept female woman, and kan 'tire thro a side of sole leather. They sleep sleep with one eye open, and the other on the wink, and are quicker than spirits of turpentine and a lighted match."

An old gentleman went out one day with his gun to shoot partridges, accompanied by his son. Before they approached the ground where they expected to find the game, the gun was charged with a severe load, and when at last the old gentleman discovered one of the birds he took a rest, and blazed away, expecting to see the game fall of course; but not so did it happen, for the gun kicked with as much force as to knock him over. The old man got up, and, while rubbing the sparks out of his eyes, inquired of his son, "Alpy, did I point the right end of the gun at the birds?"

Josh Billings on the Zodiac.

PISCES, THE ZODIAK FISHES.

Pisces are only two fishes we hav enny account ov who hav ben able tew swim on land and not tutch bottom. It iz now over 4000 years since they cum ashore and took lodgings in the zodiak. It has alwus been a fish-bone ov kontenshun amung the natral kodfish, or the sucker familee. I hav bin asked mi opinyun on this topick a 100 thousand times, but hav alwus maintained grate solemnity on the subjekt. It is alwus mi way when i dont kno anything about enny thing, to look learned, and smile wisdum. Mi private opinyun is, that pisces is a pikerel or a pergy, or a perch, and weighed originally about nine pounds, but i dont want tu bet on this. I kant tell whethyr Pisces bites at an angleworm or not, but i think there is sum law against fishing in private ponds. Pisces is a game fish, but what his game is i dont kno, but probably hi lo Jak, or draw poker.

AQUARIUS, THE ZODIAK WATERMAN.

Aquarius duz the sprinkling pot bizness for the zodiak. He ken be seen enny klear day up in the zodiak laying the dust which the others zodiakers kik up. He is a quiet old gent about 5 feet 6, and wears a tall hat, and a bull's eye watch. Who his ancestors was no one kan tell He iz an old bachelor now but they tell me, up in the zodiak, that he alwus takes the most pains when sprinkling in front ov Virgo. There is a tradishun in Pordunk that Aquarius was once a temprance lekturer but getting tu thirsty for the bizzness was translated, and set tu sprinkling the zodiak. Aquarius has charge ov the legs among the signs in the zodiak, and I notis that water iz better for the legs than sum other fluids i kno.

SAGITTARIUS, THE ZODIAK BOWMAN.

Sagittarius is the William Tell ov the zodiak. He kan hit an apple on the top of Virgo's head 200 paces oph, and not only halve the apple into quasters, but knok the seeds 27 different direkshuns. He wins the sigars at all the target excursions in the zodiak. In shooting at a squakeater once who had lighted on the tail ov Leo, he aimed a little tu delikate, and dekapitated the dorsal extensium ov Leo. This was looked upon by all the other skollows in the zodiak, as a supplementary shot. Leo was laid up in his horsepital for 6 months, but his sedekal grew out about tu feet more than it was before. Sagittarius is the sentri getter ov the zodiac, and on forth of July shutes pennys oph ov a kind, indian fashun. In the zodiak night Sagittarius uses the thigh, but for what I dont seem to kno.

LIBRA, THE ZODIAK SKALES.

Sixteen ounces to the pound wrong no man. I dont want enny better evidence that things are strikly on the square in the zodiak than the fakt that they keep a pair of skales up there, and they are alwus level. There is a great deal ov natiro honesty in a pair ov skales. When I began life, I looked upon every body as liekwise as a patryot statesman, but the skales have dropped oph from mi eyes since, and I begin tew look upon things more as they am. I look upon every boddy now as strikly honest who kan prove it. I want honesty weighed out in mi jug, and I dont my sausages, 16 ounces tu the pound. Honesty that lacks an ounce in every pound aint worth a kuss. The ounce that is lacking is just what beats us. In the zodiak concern Libra holds the scine over the antisumbal hoss.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*

Goderich, 15 Aug 1870

"A Large Soul in a Small Body."

The above cut represents our

$70 Organs.

WHILE thanking our former agents and customers for their liberal patronage and confidence for the past year [and which we still hope to retain,] we would respectfully call their attention to our style No, 61. This Organ being a 6 octave, Double Reed [C Scale] is a very desirable instrument for advanced players, Pianists or parties educating themselves for the pianoforte: and as a parlor Instrument, it meets every requirement.—Our No. 30 is the same as 61, but different style, and more expensive. Our No. 32 is pronounced by all who have seen it to be the finest Instrument in the world for the price; this organ has two complete setts same as No 30. with two additional half setts, viz, Hautboy and Vox Celeste, making four setts from middle C up and also 1½ octaves of Bass Profundo. We are the first and only parties who make this line of Instruments, and the universal satisfaction they have given, and the immense sale of these Organs, show that they are appreciated and encourages us to make them a speciality.

Applications for agencies, where we have no agents, at all times confidentially solicited.

They would also call particular attention to

CUSTOM SPINNING, ROLL CARDING, CLOTH DRESSING &c

For which their machinery is specially adapted. Parties coming from a distance with wool to get carded, by leaving the same with Mr. D. Ferguson, Merchant, in Goderich, will get it in the way of getting their rolls home with their own cloth. Those wishing to exchange their wool for goods will find it to their interest to give the Subscribers a call.

☞ Prices Low. Punctual work guaranteed.

JOHN INGLIS & SON.

Prospectus for 1873—Sixth Year.

THE ALDINE,

An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for sale in Book or News Stores.

THE ALDINE, while issued with all regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and then, there are the chromos, besides.*

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition *has more than doubled* during the year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar through photographs or copies of any kind.

The quarterly tinted plates, for 1873 will reproduce four of John S. Davis' inimitable child-sketches appropriate to the four seasons: These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world at a cost so trifling, will command the subscriptions of thousands in every section of the country; but as the usefulness and attractions of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance double sure," by the following unparalleled *offer of*

PREMIUM CHROMOS FOR 1872.

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures, entitled "The Village Belle," and "Crossing the Moor," are 14 x 20 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for $30 per pair in the art stores. As to the determination of its conductors to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, *guaranteeing* that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and, considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel tells little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of THE ALDINE.)

THE LITERARY DEPARTMENT will continue under the care of Mr. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic attractions.

TERMS.

$5 per annum, in advance, with Oil Chromos free.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate: cash for subscriptions must be sent to the publishers direct, or handed to the local agent, *without responsibility to the publishers*, except in cases where the certificate is given, bearing the *fac-simile* signature of JAMES SUTTON & Co.

AGENTS WANTED.

Any person, wishing to act permanently as a local agent, will receive full and prompt information by applying to

JAMES SUTTON & CO., Publishers, 8 *Maiden Lane, New York.*

THE NEW CANADIAN WEEKLY.

THE FAVORITE

The BEST and CHEAPEST Paper IN AMERICA.

16 pages WEEKLY for $2.00 per annum.

"THE FAVORITE" PLAN.—We have planned out a paper which gives more reading for less money than any paper in America. We propose to furnish a better, fuller, more interesting, more carefully edited paper, at $2.00 per annum, than any imported paper which costs you $3. While giving *the preference* to Canadian productions, we will give, from advance sheets, the best stories published in England and the United States. We will have the latest and most interesting items relative to the Farm, the Garden, the Household, Scientific and Literary intelligence, a column of Wit and Humor, &c. Get a sample number at the Newsdealers, or write for one. It will be sent free.

"THE FAVORITE" SHAPE.—The elegant 16-page quarto form we have adopted, while more convenient for reading in sheets, is also better adapted for binding and contains fifty per cent more reading matter than the unwieldy 8-page folios heretofore in vogue. At the year's end each subscriber will have a volume of 832 Pages, containing the equivalent of at least 30 fifty-cent volumes, at a cost of

ONLY TWO DOLLARS.

"THE FAVORITE" ISSUE.—"The Favorite" will be issued—

1. In weekly numbers of 16 pages at 5 cents.

2. In monthly parts of 64 or 80 pages in a handsome cover, at 20 cents.

N. B.—Subscribers at $2 will be served with the weekly issue for one year, unless they specify that they prefer the monthly.

"THE FAVORITE" MAXIM.—Canada for the Canadians—whether by birth or adoption. Let us help each other, if we aspire to be a Nation. "The Favorite" is a purely Canadian enterprise; Canadian in its conception, its execution, written, edited, printed by Canadians, on Canadian paper, with Canadian type.

GIVE IT YOUR SUPPORT

Club terms and sample numbers mailed free on application.

Great cash inducements to clubbers.

"The Favorite" is sold by all Newsdealers and on all Railway trains.

ADDRESS,

GEO. E DESBARATS,
