MR. HENDRIE'S SURPRISE.

HE MAKES A NEW DEAL AND CAPTURES THE TORONTO, GREY AND BRUCE.

A March on the Grand Trunk—A New Board Elected—Gooderham and Worts Unload—The Present Situation Complicated.

By a bold stroke of policy Mr. Wm. Hendrie and those associated with him have secured control of the Toronto, Grey and Bruce railway, and yesterday a new board, with Mr. Hendrie as chairman, was elected to office. Though Mr. Hendrie has control of the road, the courts may yet decide that the agreement leasing the road the Grand Trunk, ratified by the shareholders last June, will have to be carried out. The situation in brief then is that Mr. Hendrie has control, but that the Grand Trunk may secure possession.

THE DEAL.

At the June meeting, it will be remembered, the Northern railway, represented by Mr. Hendrie, and the the Grand Trunk were fighting for the control of the Grey and Bruce. The people along the line favored the Trunk, and so did the majority of the proprietors who had votes. But a number of the proprietors were disqualified from voting and these were favorable to Mr. Hendrie. Mr. Hendrie contended that they were illegally shut out, and though the agreement was ratified at the meeting, Mr. Hendrie went to the courts to have their votes made good. That question is now before the courts, and the Grand Trunk is a party to it. In the meantime an injunction is in force restraining the directors of the Toronto, Grey and Bruce from handing the line over to the Grand Trunk, and now that Mr. Hendrie controls the board he will not be in a hurry to surrender the line.

A STRUGGLE

for possession of the stock and bonds has been going on ever since the June meeting. Mr. Hendrie and Mr. Osler have been indefatigable in buying up stock and bonds. They secured what was purchasable in England, nearly $250,000, and then made a proposal to parties here who were largely interested in the stock and bonds—the Beatty-Worts party—for their interest. The Worts-Beatty party declined to sell to the Hendrie faction until they first consulted those who were acting with them—presumably the Grand Trunk—and offered their interest to them. They declined to buy, and as the Hendrie offer was a good one—seventy-five cents for bonds that were lately begging for a market at forty, and twenty cents for stock that was sold for two cents on the dollar—the Worts-Beatty party sold out every cent they had. Mr. Beatty accordingly retired from the presidency of the road yesterday—as he put it: "I and my friends have all got out, and we're not sorry." But even without the Beatty-Worts stock Mr. Hendrie controlled enough to control the road.

A SURPRISE PARTY.

Mr. Hendrie only consummated the deal on Tuesday, and he had quite a surprise party arranged for the people along the line yesterday. Mr. Gibson, Mr. Creighton and others came down to attend the annual meeting yesterday and expected to see the Grand Trunk at the head of affairs, but were seriously disappointed.

THE GRAND TRUNK

for some unaccountable reason allowed itself to be euchred by Mr. Hendrie. Or perhaps Mr. Hickson thinks he can get the courts to declare that the lease of the road to the Trunk in June last was a legal one, and must be carried out. If that is the case all is safe yet for Grand Trunk control.

RUMORED CHANGES.

The victory of yesterday is a triumph for Hamilton over Toronto, the Globe assisting ably in giving one of our independent lines into the hands of Hamilton men. If the Grand Trunk is kept out the road will be run in conjunction with the Northern and Northwestern, and locomotives and shops will be transferred to Hamilton. Already the Hamilton men are been talking of having the time tables made to suit their convenience for "coming down."

WHAT TORONTO HAS LOST.

Had the Trunk got the Grey and Bruce, the shops of the former at Stratford, Belleville and some of the offices would have come to Toronto, and a movement begun which might ultimately have resulted in the headquarters of the Trunk locating in this city. But there is no sentiment about Mr. Hendrie in the matter. He is after dollars and cents, and if he could sell out to advantage to the Grand Trunk to-morrow he would do so. Indeed, this is a rumored probability.

THE ANNUAL MEETING.

Under the above state of things the annual meeting yesterday was of interest to the Hendrie party alone. Mr. Beatty got out as fast as he could, and handed the whole thing over to the Hendrie party, who were there anxious to receive it.

THE ANNUAL REPORT,

up to June 30th, 1881, shows a decrease in the earnings as compared with 1880 of $11,043. The total earnings in 1879 were $284,947, in 1880 $319,714, in 1881 $308,671. The cost of working has increased from 66.4 per cent. of the gross earnings in 1880 to 84.7 per cent. in 1881. The floating debt has been reduced to a comparatively small amount, and can be readily managed by the incoming board. The agreement with the Grand Trunk not having been carried out, the line was not handed over to that company. The $1,000,000 in preference bonds have been issued, and with the proceeds the board are vigorously pushing the change of gauge and other improvements. The gauge will be changed by November next. No serious accidents have occurred during the year.

THE ENGINEER'S REPORT

for year ending June 30th, '81, shows that 700 tons of steel rails were laid, and a number sufficient to lay the whole track purchased, and a considerable number of improvements made. The present position of the new works is: The nine deviations are all more or less under way, and they are sufficiently forward to allow of the change of gauge; of wire fencing 2700 rods have been erected; 2000 rods of rail fencing; 836 rods of snow fencing, and material is out for 3000 rods more. The cattle-guards have been renewed or repaired. The masonry for the Humber bridge has been completed, and in addition thereto 29 other bridges and culverts. The iron for all the bridges, 14 in number, has been contracted for. Out of 189 miles of new steel rails, 125 miles have been distributed along the line, and 80 miles laid in to the standard gauge. The work will be completed by November 1st. The new sidings are not far advanced. Ballasting will not be pushed till more cars are got. About 140,000 new ties have been laid in the track since July 1st. The junction with the H. & N. W. at Caledon East will be made. The material for the elevator at Owen Sound has been got out. It will be ready by April or May next. Eight new locomotives will be delivered on October 1st, and 65 box cars and 267 sets of trucks in October and November. Four passenger, 2 postal, 3 conductors' vans have also been bought. Six of the consolidation engines are to be converted.

These reports were adopted, whereupon Mr. Hendrie got up and proposed the following directors for the ensuing year:

Wm. Hendrie, John Proctor, V. E. Fuller, of Hamilton; Wm. Ramsay, E. W. Elliott, Wm. Thomson, N. Kingsmill, E. B. Osler, Wm. Hope, of Toronto.

At a subsequent meeting of the directors Mr. Osler moved, seconded by Mr. Fuller, that Mr. Hendrie be president. Carried. Mr. Ramsay was elected vice-president. Messrs. Osler, Thomson and Elliott, with the president and vice-president, were appointed the finance committee.

The new board will meet next week.

A HAMILTON OPINION.

The Times of last night says: To the people of Hamilton this surrender of the Grand Trunk party means a great deal. Run in conjunction with the Northern and Northwestern system, the Toronto, Grey and Bruce railway opens up to the trade of Hamilton all the territory on the line west of Mono Road. This trade was sealed to Toronto while the Toronto, Grey and Bruce was independent, and it would have been transferred to Montreal if the Grand Trunk had got possession of the road which Mr. Hendrie has acquired.

SHORTHORN BREEDERS.

An Association Formed and Constitution Adopted in Toronto Last Night.

The shorthorn breeders' association met last night in the Agricultural hall. After passing the constitution and by-laws prepared by the committee elected for that purpose at the last meeting held in the Walker house June 2nd, 1881, it was moved by Mr. Johnston, seconded by Mr. Smith, That in view of the fact that the accommodation offered by the Toronto exhibition grounds and buildings for the holding of a large exhibition are superior to any other in the Dominion, and whereas the city of Toronto is a central point for railway connections with all parts of Canada, thus enabling the public to reach the same at low rates, be it resolved, that it is the opinion of the meeting that the Dominion exhibition for 1882 should be held at the city of Toronto, and that a grant toward the same should be made by the Dominion and provincial legislatures, and that the secretary of this meeting be instructed to send a copy of this resolution to the ministers of agriculture for the Dominion and the province of Ontario. Carried.

The officers of the association consists of a president and one vice-president from each province in the Dominion, as follows: Jno. Drydon, M.P.P., president; Richard Gibson, vice-president for Ontario; N. H. Cochran, vice-president for Quebec; Prof. Lawson, vice-president for Nova Scotia; Kenneth McKenzie, vice-president for Manitoba; James Seale, vice-president for British Columbia; J. L. Inches, vice-president for New Brunswick.

The meeting adjourned until Wednesday, 23rd of November, at 11 o'clock, at the Walker house. No secretary has yet been appointed.

About fifty members were enrolled last night, including some of the leading breeders of the Dominion.

A BIG SALE.

$65,000 Worth of Groceries Under the Hammer—Tees, Costigan & Wilson's Second Great Sale.

The second great sale by auction of groceries by Messrs. Tees, Costigan & Co., of Montreal, opened in this city yesterday, at the warehouse of Messrs. Cramp, Torrance & Co., corner Front and Church streets. About 200 merchants from various parts of Canada, representing nearly every place of any size from east of Montreal to Winnipeg, were present, and they obtained goods at prices which sent them home happy. Mr. James Scott, the king of trade auctioneers, handled the hammer in his own masterly style, and cleared off about $65,000 worth of goods during the day. The sale was under the direction of Mr. Jacob Wilson, the junior partner of the firm offering them, whose tact and urbanity contributed in no small degree to its success. Bidding was kept up from 9:30 in the morning till 11 o'clock last night, with only the necessary suspension for meals. A sumptuous spread was laid out in the warehouse for the buyers in the middle of the day. Until about midday the bidding was quiet; then it became somewhat lively and goods went off rapidly, with prices, as a general rule, in favor of buyers. Notwithstanding this, there was no reserve fixed, the principle of selling in all cases when two packages or more were taken being faithfully carried out. The ruling prices were as follows: Teas, about 1900 packages sold—hysons, 20½c to 53c, the latter extra first; quality; congous, 18½c to 54c; Indians and Javas, 31c to 55c; gunpowders, 30c to 39c. Sugars—Porto Rico and Barbadoes, bright, 7¼c to 7½c; Montreal yellow refined, 7½c to 8½c; granulated, 9¼c to 9¾c. Coffees—Small matts of old government Java, in lots of 10 to 30 matts, 23½c, and in bags 22c to 24c; Rio, extra fine samples, 15c to 15½c; Jamaica, in barrels, 17c to 17½c; Porto Rico, 18c to 20c.

Tobaccos—Notwithstanding the late heavy advance and scarcity of stock, a large quantity was sold, blacks bringing 33c to 38c, and brights 34c to 46c.

Rice—In large lots, $3.60; in small lots, $3.65 for bright samples.

Fruit—Raisins, new Valencia (crop 1881), 8½c in lots, and 8¾c in small; layers, $1.50 to $1.55; figs, 5c in 60lb boxes; currants, 6½c. Bicarbonate soda, in large lots, $2.95; in smalls, $3.05 to $5.10.

Spices—Large quantity well assorted offered; Cochin ginger, 11c to 17c; Jamaica ginger, 19c to 22c (extra fine samples); nutmegs, brown, 53c to 75c; limed, 55c to 70c; cassia, 11c; allspice, 14c; black pepper, 13½c to 14c.

Matches—About 400 cases sold at $2.60 to $3.

Starch—350 boxes, 4½c to 5c for laundry, and 6½c to 7c for corn.

The sale will be continued to-day, when rare bargains may be expected.

GRAVEYARD INSURANCE.

There is a Boom in the Business in Maryland—How They Work it.

WESTMINSTER, Md., Sept. 14.—Interest in the graveyard insurance companies is increasing. In Carroll county farmers are mortgaging their farms to raise money for premiums. A negro named Watson, aged 78, is living in luxury and supporting his children and their families by signing policies of insurance on his life in favor of speculators, who paid him $20 to $100 per policy. Watson is partially paralyzed and suffering from rheumatism and heart disease. The policies on his life aggregate $200,000. He has signed one hundred policies, and more are being taken out daily. The premiums on these policies are enormous, some of the companies charging $100 a week for every $1000. These premiums are ruining the holders of policies. This is only a sample of dozens of cases in western Maryland. The records of the county court show an astonishing increase of mortgages filed, and it is accepted as an evidence of graveyard speculation for a farmer to mortgage property. The policies are taken out through secret agents of the companies, all of which are located in small towns just beyond the Pennsylvania line. The agents operate secretly to escape the officers of the law. Sometimes when a man is known to be dying policies for large amounts are taken out good for twenty-four hours or longer. Recently an aged negro insured for a $150,000 deed. Many of the policies on his life were in a bankrupt company.

A TYPHOON IN CHINA.

Great Destruction of Ships and Buildings—A Wonderful Rainfall.

LONDON, Sept. 14.—Advices from Plymouth state that a typhoon has visited Shanghai, driving over 200 vessels of all nationalities on shore, uprooting trees and levelling with the ground whole lines of houses. During the storm, which lasted barely an hour, over ten inches of rain fell. Hundreds of the native sampans sank with their occupants. Teas of the value of £600,000 was washed away and lost. A portion of the sailors' home was blown away.

THE SACRED LEGION.

A Counter Association to the Russian Nihilists—A Power at Court.

LONDON, Sept. 14.—It is stated that three hundred Russian nobles have organized themselves, under the name of "The Sacred Legion," as a counter association to the Nihilist attempts on the life of the czar. They will dispose of large funds, and employ a complete system of secret organization. Their influence at court is said to be much superior to the ordinary secret service.

—As a family medicine Dr. Carson's stomach and constipation bitters are rapidly taking the place of pills; they are equally effectual, do not gripe, weaken, or produce nausea, and are purely vegetable. In large 8 oz. bottles, 25 cents. Smith & McGlade, 84 King street east, Toronto.

A BIG DAY AT THE SHOW.

THIRTY THOUSAND PEOPLE ON THE EXHIBITION GROUNDS.

The Grangers' Gathering—The Attractions in the Horse Ring—Speechifying, Hurdle Jumping, Riding, and Much Music—An Immense Throng.

The grangers' day was the most successful the exhibition has yet seen. There must have been thirty thousand people on the grounds yesterday, by far the greater proportion being from the rural districts. They came from every portion of Ontario and the other provinces, and a considerable number from the States. The weather was fine; better could not have been wished for. The crowding was considerable, but everybody was good-natured and well pleased. The only thing that could be found fault with was the dust. The roads, and especially the track in the horse ring, might have been treated to a little more water. There were two bands in attendance—the band of the Upper Canada furniture company of Bowmanville and the Massey cornet band of Toronto. The Bowmanville band were an attractive uniform of blue cloth and yellow facing, with a shako and white plume for a head dress. The Massey boys wore a neat cap, but otherwise their costume was go-as-you-please. Both bands played frequently and well.

The directors of the exhibition were highly satisfied with the day and the attendance. The visitors were delighted. Two more such days will complete the success of the exhibition. Let no one lose the opportunity of seeing it. All the departments will be open to-day and to-morrow, and there will also be organ and piano recitals in the main building, a band concert, review of the prize horses and cattle, hurdle jumping and other attractions.

YESTERDAY'S ATTRACTIONS.

The horse ring was the centre of attraction during the day, every foot of space on the grand stand being occupied, while a very large number of spectators had to be content with positions outside of the enclosure. The ring presented a most animated sight, all the horses which had won prizes being displayed, while all day long drivers of sulkies speeded their horses and made things lively for the spectators. Music was furnished by the Massey cornet band. About 200 merchants from various parts of Canada, representing nearly every place of any size from east of Montreal to Winnipeg, were present, and they obtained goods at prices which sent them home happy. Mr. James Scott, the king of trade auctioneers, handled the hammer in his own masterly style, and cleared off about $65,000 worth of goods during the day. The sale was under the direction of Mr. Jacob Wilson, the junior partner of the firm offering them, whose tact and urbanity contributed in no small degree to its success. Bidding was kept up from 9:30 in the morning till 11 o'clock last night, with only the necessary suspension for meals. A sumptuous spread was laid out in the warehouse for the buyers in the middle of the day. Until about midday the bidding was quiet; then it became somewhat lively and goods went off rapidly, with prices, as a general rule, in favor of buyers. Notwithstanding this, there was no reserve fixed, the principle of selling in all cases when two packages or more were taken being faithfully carried out. The ruling prices were as follows: Teas, about 1900 packages sold—hysons, 20½c to 53c, the latter extra first; quality; congous, 18½c to 54c; Indians and Javas, 31c to 55c; gunpowders, 30c to 39c. Sugars—Porto Rico and Barbadoes, bright, 7¼c to 7½c; Montreal yellow refined, 7½c to 8½c; granulated, 9¼c to 9¾c. Coffees—Small matts of old government Java, in lots of 10 to 30 matts, 23½c, and in bags 22c to 24c; Rio, extra fine samples, 15c to 15½c; Jamaica, in barrels, 17c to 17½c; Porto Rico, 18c to 20c.

Tobaccos—Notwithstanding the late heavy advance and scarcity of stock, a large quantity was sold, blacks bringing 33c to 38c, and brights 34c to 46c.

Rice—In large lots, $3.60; in small lots, $3.65 for bright samples.

Fruit—Raisins, new Valencia (crop 1881), 8½c in lots, and 8¾c in smalls; layers, $1.50 to $1.55; figs, 5c in 60lb boxes; currants, 6½c. Bicarbonate soda, in large lots, $2.95; in smalls, $3.05 to $5.10.

Spices—Large quantity well assorted offered; Cochin ginger, 11c to 17c; Jamaica ginger, 19c to 22c (extra fine samples); nutmegs, brown, 53c to 75c; limed, 55c to 70c; cassia, 11c; allspice, 14c; black pepper, 13½c to 14c.

Matches—About 400 cases sold at $2.60 to $3.

Starch—350 boxes, 4½c to 5c for laundry, and 6½c to 7c for corn.

The sale will be continued to-day, when rare bargains may be expected.

GRAVEYARD INSURANCE.

There is a Boom in the Business in Maryland—How They Work it.

WESTMINSTER, Md., Sept. 14.—Interest in the graveyard insurance companies is increasing. In Carroll county farmers are mortgaging their farms to raise money for premiums. A negro named Watson, aged 78, is living in luxury and supporting his children and their families by signing policies of insurance on his life in favor of speculators, who paid him $20 to $100 per policy. Watson is partially paralyzed and suffering from rheumatism and heart disease. The policies on his life aggregate $200,000. He has signed one hundred policies, and more are being taken out daily. The premiums on these policies are enormous, some of the companies charging $100 a week for every $1000. These premiums are ruining the holders of policies. This is only a sample of dozens of cases in western Maryland. The records of the county court show an astonishing increase of mortgages filed, and it is accepted as an evidence of graveyard speculation for a farmer to mortgage property. The policies are taken out through secret agents of the companies, all of which are located in small towns just beyond the Pennsylvania line. The agents operate secretly to escape the officers of the law. Sometimes when a man is known to be dying policies for large amounts are taken out good for twenty-four hours or longer. Recently an aged negro insured for a $150,000 deed. Many of the policies on his life were in a bankrupt company.

A TYPHOON IN CHINA.

Great Destruction of Ships and Buildings—A Wonderful Rainfall.

LONDON, Sept. 14.—Advices from Plymouth state that a typhoon has visited Shanghai, driving over 200 vessels of all nationalities on shore, uprooting trees and levelling with the ground whole lines of houses. During the storm, which lasted barely an hour, over ten inches of rain fell. Hundreds of the native sampans sank with their occupants. Teas of the value of £600,000 was washed away and lost. A portion of the sailors' home was blown away.

THE SACRED LEGION.

A Counter Association to the Russian Nihilists—A Power at Court.

LONDON, Sept. 14.—It is stated that three hundred Russian nobles have organized themselves, under the name of "The Sacred Legion," as a counter association to the Nihilist attempts on the life of the czar. They will dispose of large funds, and employ a complete system of secret organization. Their influence at court is said to be much superior to the ordinary secret service.

AGRICULTURE.

Meeting of Grangers Last Night—Resolutions Adopted.

A meeting of agriculturists was held in St. Lawrence hall last night, Mr. W. M. Blair, M. P. P., of Nova Scotia, and master of the Dominion grange, in the chair. The speakers were Mayor McMurrich, Professor Mills (principal of the Guelph agricultural college), Mr. C. L. Whitney (lecturer of the state grange of Michigan), Mr. Johnston (late principal of the agricultural college), Rev. W. F. Clark and Ald. Hallam. The leading points brought out were that there was a tendency in the present day to draw farmers' sons into the learned professions and mercantile business, a result for which the high schools were largely responsible; that this was much to be deplored, inasmuch as, while there were certainly too many doctors and lawyers, it had never been alleged that there were too many thoroughly educated farmers, and yet agriculture was the occupation in Ontario on which all others almost entirely depended.

Resolutions were adopted commending the grange to the support of the farming class, and deprecating the hostile attitude taken towards it by merchants; advocating the establishment of an Ontario farmers' association for the protection of farmers' interests; recommending the teaching of agriculture in the common schools, and the establishment of higher schools of agriculture in the place of some of the high schools; urging the claims of Toronto, and specifying its advantages as a place for holding the next Dominion exhibition; and thanking the Industrial association for its courtesy towards the visiting grangers.

THE LAND LEAGUE.

Cut and Dried Resolutions for the National Convention—The Labor League.

LONDON, Sept. 14.—The executive committee of the land league will submit resolutions to the National convention, declaring that political and society ills are impoverishing the country; that there is a detestable system of alien rule, and that the people can never be prosperous and content until they enjoy self-government, for which they will never cease to struggle; denouncing the coercion act as devised in a spirit of malignant hypocrisy, and executed for the gratification of private vindictiveness, for the suppression of admitted public rights upon men who bore a heavy share in the movement which led the government to initiate the land bill, characterizing the land bill as radically insufficient, and declaring that it cannot be accepted as just, wise, or even a temporary settlement of the question. The committee invites the committee, therefore, to solemnly pledge itself to a determined adherence to the principles of the land league until all its aims are are fully accomplished.

The resolutions also summon the government to liberate without delay Davitt and other victims of official and private vengeance. They declare that as long as a suspect is confined it will be impossible to believe that the land act is meant to effect improvements in the condition of the country, and no land settlement will be satisfactory and effective which does not totally abolish landlordism. The resolutions point out that the fixing of rent for a term of fifteen years will be impossible in view of foreign competition in the grain trade.

A preliminary conference will be held by representatives of the labor league, who will participate in the land league convention for the purpose of deciding upon the action of the labor delegates at the convention. It has been decided by the leaders of the land league to establish a labor league executive to affiliate with the work of the land league, but to be composed of representatives of bona fide laborers. The objects of this executive are the extension of the franchise to laborers, the return of laborers' representatives to parliament, and the establishment of a peasant proprietary.

Sexton, at a meeting of the land league, said he had been informed that people had a perfect legal right to oppose the property defence men by physical force. If any of the latter lost their lives the killing would be justifiable homicide.

Immediately after the land league convention, a series of monster meetings will be commenced. The first will be held at Irishtown on Sunday. Parnell will preside.

THE PRESIDENT

Not Quite So Well Yesterday—A Rise in Pulse and Temperature Again.

The president did not make any progress yesterday, although he was able to sit in an invalid's chair for an hour and a-half. There was consid

The Toronto World,

An Independent Liberal Newspaper,

Published every morning at five o'clock at No. 4 King street east. Extra editions are published whenever there is news of sufficient moment to demand them.

The Toronto World.

The Only One-Cent Morning Paper in Canada, and the Only Exclusively Morning Paper in the City of Toronto.

FROM ALL PARTS of Manitoba and the Northwest come the most cheering reports of the crops. The abundant yield of all kinds of grain is a surprise to Ontario farmers; there has been an entire absence of summer frosts, and everybody is in the most hopeful mood. All the croakers about the capabilities of the Northwest live outside of the country.

THE CHICAGO TRIBUNE has a special correspondent in the Northwest whose glowing descriptions of that country one might suppose were paid for at the rate of a dollar a line. But the strong probability is the Chicago Tribune is only carrying out the programme which the Prairie Farmer has "blarted out." It is a plain intimation to the American people, "Go ye up and possess the land."

THE SETTLEMENT of affairs in Egypt has no political significance. It is as only the triumph of the outs over the ins, and the same thing may be repeated to-morrow. There are no political parties in Egypt in the European sense, although the country possesses the form of cabinet government. There are, however, five million parties, each one representing as many units of the population. The Egyptians are a played-out race of men. They are like a forest of dead trees; they will never revive.

THE GLOBE thinks that the government should be more careful about "stultifying" itself in the matter of parliament buildings than in securing the best site therefor. On the contrary, the province will applaud Mr. Mowat and his colleagues in altering their policy if it is in the public interest to do so. Governments are no more infallible than men; and if they find a mistake has been made, or rather that a better course is open than was at first proposed, then by all means they should be free to follow it without talk about stultification.

THE FRENCH-CANADIAN PRESS is keeping well up in the march of journalistic improvement. A higher standard of excellence prevails among them to-day than at any previous period in their history. A few days ago La Minerve published, in celebration of its fifty-fourth anniversary, an eight-page sheet containing sketches on various topics by some of the most accomplished writers in the province, among them being Mr. Toose, M.P., Mr. Dansereau, Senator Fabre, Mr. Gelinas, Judge Routhier, Mr. Suite, Mr. Provencher and others. Altogether it is a remarkable number.

THE RAILWAYS have a "crow to pick", with the management of the industrial exhibition. They are running trains at low excursion rates for two weeks to the neglect of their local business, and greatly to the advantage of the exhibition association. Without the rates they have offered it can scarcely be doubted that the number of visitors would be many thousands less than it is. Yet when the railways undertake to post their bills on the exhibition grounds they are coolly told that they have no business there. This is hardly a square deal on the part of the exhibition officers, and the railways mean to have an understanding on the subject.

A CONTEMPORARY has been making a queer point in favor of the heterodox Dr. Thomas, of Chicago. One of the charges against him was that he did not believe all parts of the scriptures to be equally inspired. In that respect he offended against the article of the Methodist church based on the following text from the authorized version:

2 Tim. iii. 16. *All scripture is given by inspiration of God*, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness.

The revised version, however, gives the following reading of the same passage:

Every scripture inspired of God is also profitable for teaching, for reproof, for correction, for instruction which is in righteousness.

The question now is, by which version will the conference try the doubting Thomas?

THE PROPER SITE FOR THE PARLIAMENT BUILDINGS.

The Globe of yesterday makes a defence of the proposal to erect the new parliament buildings in the park.

From the tone of the article, and especially the closing words—"The government would stultify themselves and disappoint all sensible people by altering their plans in the matter of a site"—we suspect the government has really decided to reconsider their decision and respect the opinions that have been so freely expressed in the provincial press on the matter.

The Globe says (1) that the park site is not inconvenient; (2) that the Upper Canada college site is too valuable, and would involve the destruction of the buildings thereon; (3) if a down-town site is to be employed the present one is the best; (4) that the park site can be had for nothing.

The reasoning employed by our contemporary is neither direct, convincing nor logical.

The Globe may talk as much as it likes about street cars running up to the park; that *some day* there will be a northern railway station in the city; that up-town hotels will be built *some day*, and that *some day* the park site will be in the very centre of the city; but that does not alter our assertion that the park site is half an hour from the stations, hotels, post-office, newspapers, telegraphs, railway station, and will *always* be so. People from the country *will* find the Q[illegible] in the park out of the way, people in the ci[illegible] nt of the way, and so *will* the members of the legislature and the officials of the departments. From very extensive inquiries made by The World, hardly a single response favorable to the park site was secured. The answer was: It is inconvenient. We still insist that there will be a constant loss of time and money if the park is selected.

As to the Upper Canada site, the Globe practically admits the desirability of a down-town site, but sees insuperable difficulties in the way. Upper Canada college must go out of the present site irrespective of the parliament buildings. Even the Globe admits that the present grounds are "too circumscribed."

But it is not on account of "too circumscribed" grounds that the college must go: the province at large is determined to abolish it, or at least reorganize it, and all the special pleading of the Globe will not save it. The Globe's article of yesterday is more of a special plea in favor of Upper Canada college than the park site. The college must get out of King street, and the buildings must come down, so the Globe makes nothing in preaching up the value of the buildings now on the Upper Canada block.

The Globe says the present site is the best of the down-town ones. It is a good one, but not so good as Upper Canada. But it is preferable to the park. Why should a rich province like Ontario adopt an inconvenient site merely because it may be had for nothing? The province will not grudge the cost of the site if convenience and ultimate economy are thereby secured. But we have shown where a down-town site can be had for the taking.

Another absurd idea that the Globe preaches is that "the present site might be "given up to meet the growing demand "for land in that quarter of the city for "business purposes." What has the province got to do with supplying land for business purposes for the city of Toronto? If the province has a site that suits its purposes it will use it irrespective of the "growing demand" of others. It is just because parliament buildings are business buildings that we wish to have them where they are convenient.

We have a great deal more to say on this question. But what we have said is sufficient to establish our first contention, namely, that the park site would be an inconvenient and ultimately an expensive site; second, that a convenient and free site may be had down town on either the present site, the Grange block or Upper Canada college.

WONDERFUL OBSERVERS.

What a Manitoba Authority Has to Say About the Northwest Country.

(*From the Manitoba Free Press.*)

Messrs. Joshua S. Bowman and John Ratz have recently written to the Daily News, of Berlin, Ont., concerning their impressions of what they say and heard while in Manitoba. They recommended persons contemplating a settlement in this country to ask themselves the following questions: "What about water? What about fruit? What about the winters? what about grasshoppers? What about storms and blizzards? What about the length of summer and winter? and their regularity? etc." It is wise on the part of intending settlers to ask such questions as these, but our "observers" are a little astray in telling people to ask "themselves" such questions as the above. A better way would be to ask other people that are residents of the country, who have spent some years here. Ninety-nine out of a hundred residents of Manitoba would give answers to the above questions, very different from those which Messrs. Bowman and Ratz have given to "themselves."

"What about water?" It is well known here that excellent water can be obtained anywhere in abundance by sinking wells to a moderate depth, and by using pipes to prevent influx of surface water. In what other city can flowing wells be obtained almost anywhere, as in Winnipeg, by sinking artesian wells to a depth of only sixty feet?

"What about fruit?" Wild fruit of various kinds grows here in abundance. As to other fruits, what we can neither raise nor afford to import we can live comfortably without. There is no doubt that a good many kinds of fruit will be successfully cultivated in a few years. It can hardly be expected that much progress should be made at so early a date in the history of the country.

"What about the winters?" Had Messrs. Bowman and Ratz asked the citizens of Winnipeg, instead of asking "themselves" this question, they would have received the answer from many, if not from the majority, that the winter in Manitoba is the most pleasant season of the year.

"What about wood?" The rapid progress which is observable here would be impossible if this were other than a "prairie province;" that is, if it were covered with forests. The most successful farmers are not the ones which are settled on wooded lands. The railways and the steamboat lines are now rapidly bringing in inexhaustible supplies of fuel, in the form of coal and peat, as well as wood, within our reach. In a few years all the great timber regions will be as readily accessible to us as to the people of Ontario.

"What about grasshoppers!" Many portions of Ontario have suffered more from grasshoppers during the past six years than Manitoba or the Northwest. There have been no grasshoppers here since the summer of 1875. They may visit us again, and they may devastate Ontario or any other province.

"What about storms and blizzards!" These are quite as rare as they are in Ontario, and the worst ones are by no means more violent than occasionally occur in the older provinces.

"What about the length of summer and winter?" Our summer is so long that vegetation comes to maturity without suffering from early frosts more than that of the lower provinces. Our winters are steady, and not rendered unpleasant by thaws and slush. Few citizens of this country can be found who would vote for an exchange of the Manitoba for the Ontario winter, if the opportunity were afforded.

A Vision by the Sea.

(*From London Truth, August 25th.*)

A friend of mine, who has returned from accompanying his wife to a French watering-place, has revealed to me secrets which are calculated to destroy the illusions appertaining to the nymphs that disport in French waves. He went with his wife to buy a bathing dress in Paris. There he discovered that beneath the tight-fitting jersey which is now the fashionable dress for the water, stays are worn, and many other appliances to aid in fashioning a beautiful figure. I remember going with a lady to bathe at one of these French watering-places. We both emerged from our respective machines. Near me I saw a beauteous vision. Her hair was flowing round her shoulders, her eyes glistened, her cheeks were bright with color, and her dress lent beauty to a beautiful figure. Soon a wave came. I missed my friend. Close by me was a haggard female; her form was angular and scraggy; her nose was blue and her cheeks hollow; a wisp of hair, not larger than a rat's tail, was hanging from her head. Where was the glorious vision that had stood by me? A voice came from the chattering teeth of the hag. It was the vision; but, O, how changed!

Mothers! Mothers! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle.

Cor. King and Jarvis sts.
Cabinets, - - $3 per doz. up.
Cartes, - - $1 per doz. up.
Ambrotypes, - Four for 50c.

DIXON,
THE PHOTOGRAPHER,
Has astonished the numbers that have been taken with the New Process which he learned in New York. This is the latest discovery. The time of exposure from tenth part of a second to five seconds, and for quality of work I will leave the citizens of Toronto to judge. Remember, only one week's experience with this process. I will put on exhibition some of the work in the Exhibition building.

BUY

JAMIESON'S IMMENSE EMPORIUM in HAMILTON,

And he has been compelled to remove the stock to Toronto, and is prepared to offer it to the public at fifty cents on the dollar, as he has not got room enough, if he had a place three times the size, to hold it, and receiving his Fall Impor ations every day makes it compulsory for him to make this sacrifice,

Jobbers and Dealers in Cloths and Clothing would do well to call and secure lots far below anything offered by any wholesale house.

JAMIESON,

THE GREAT CLOTHIER OF CANADA,

Corner Queen d Yonge streets, Toronto.

INS OF.

TEN YEARS' RECORD.

In a Life Insurance Co[illegible] the Mutual Reserve[illegible] [illegible] the money paid in [illegible] subsequently, came back to [illegible] portion discharged by w[illegible] in charitable expenditure. Ob[illegible] fund among the last—and [illegible] money they received—which [illegible]

Only three old companies [illegible] better, applied them the oldest [illegible] companies, also three of Canadian [illegible] English companies doing business in Canada:—

COMPANIES.	Average Annual Income during past ten years.	Average Annual Working Expenses.	Ratio of Expenses to Income.	Expenses based upon other Companies on equal Income.	SAVING in ten years by Mutual Reserve.
[illegible]	$6,811,[illegible]	$[illegible]	2.05	[illegible]	$1,[illegible]
New York Life	1,[illegible]	1,[illegible]	11.17	[illegible]	[illegible]
Mutual Life	1,[illegible]	1,[illegible]	13.09	[illegible]	[illegible]
[illegible]	2,[illegible]	[illegible]	11.38	[illegible]	[illegible]
N. Y. Mutual Life	2,[illegible]	[illegible]	9.15	[illegible]	[illegible]
Connecticut Mutual	2,[illegible]	[illegible]	12.[illegible]	[illegible]	[illegible]
Manhattan, N. Y.	1,[illegible]	[illegible]	15.[illegible]	[illegible]	[illegible]
Union Mutual	1,[illegible]	[illegible]	10.[illegible]	[illegible]	[illegible]
Equitable, Mutual	1,[illegible]	[illegible]	18.[illegible]	[illegible]	[illegible]
Canada, Life	[illegible]	[illegible]	17.[illegible]	[illegible]	[illegible]
Confederation*	[illegible]	[illegible]	20.[illegible]	1,097,[illegible]	[illegible]
Mutual Reserve	[illegible]	[illegible]	9.[illegible]	1,[illegible]	[illegible]
Protect. Friendly	[illegible]	[illegible]	[illegible]	1,[illegible]	[illegible]
Mutual Benefit*	[illegible]	[illegible]	[illegible]	1,[illegible]	[illegible]
Provident, L. & T.*	2,[illegible]	[illegible]	24.[illegible]	1,[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	1,[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	2,[illegible]	[illegible]

* Nine years. † Fivepence.

The figures in the two last columns speak for themselves. They show the amount that the Officers of the Above Large Companies have paid to their respective companies, more than they have done, without extra charge, for the management of the Mutual Reserve. For instance, by economizing the working expenses for the interest of their co. at the rate of the Mutual Reserve, the Officers of the New York Life have saved the difference of $[illegible] per $1000, which upon the ten years amounts to the sum of $[illegible]. For instance, by economizing the working expenses for the interest of their co. at the rate of the Mutual Reserve, the Officers of the Mutual Life have saved the difference of $[illegible] per $1000, which upon the ten years amounts to the sum of $[illegible]. For instance, by economizing the working expenses for the interest of their co. at the rate of the Mutual Reserve, the Officers of the Mutual Benefit have saved the difference of $[illegible] per $1000, which upon the ten years amounts to the sum of $[illegible].

When it is considered that the total cost of being insured is now the premium only, and the portion of that premium used up in expenses, it will be understood why it has not pleased the insuring public have in a table like the above, which shows a powerful influence in favor of economy. The Mutual Reserve, it is no use will be surprised to learn that the most expensive of the mutual companies have not yet declared any dividend to its policy holders, and a stock company, the last one, has been obliged to write off half its capital, originally [illegible]

[illegible] cannot be misled if, when seeking an office in which to effect an insurance, they select one which transacts its business at a [illegible] per centage of working cost."—*British's Board of Trade Report.*

THE NEWS of the sudden death of Mr. W. H. Fuller at Kingston yesterday will be received with much regret by the newspaper men of Ontario generally, and by the people of Kingston in particular. Up till within four years he edited the Kingston Whig with marked ability, and his pen was one of the most frequently quoted in the whole Reform press. When he retired from the Whig, Mr. Fuller was appointed clerk of the crown for Frontenac, a position he held at the time of his death. He was a graduate of Queen's university. Mr. Fuller was "one in a thousand," and his many personal friends will drop a tear at the sudden ending of his young life.

THE CITY AND VICINITY.

THE DAILY ROUND OF LIFE IN AND ABOUT TORONTO.

What the ople are Doing and Thinking About —Brief Notes Gathered Everywhere by World Reporters.

The western division court sat yesterday, disposing of 116 cases.

All the railways brought in immense crowds of people yesterday.

There was another arrival of immigrants yesterday, about 115 in number.

The water in the river Credit is extremely low, and fish are dying by the thousand.

A case of snakes has been received at the zoo, the gift of Mr. J. J. Cliff, of Cooksville.

McMaster hall will be opened on October 4th. The examinations will begin on the 5th.

Twenty-seven carloads of passengers came into the city yesterday on the Credit Valley railway.

At the meeting of the painters' union, J. W. Carter and George Harris were elected delegates to the trades' council.

Butter dropped in price from thirty cents to twenty cents, but lost none of its strength in the fall.

The passenger train on the Toronto, Grey and Bruce was so heavily laden yesterday that the locomotive was obliged to make two trips of it.

Several boats belonging to Messrs. Hicks and Clendinning were stolen from the island Tuesday night.

A number of storekeepers were yesterday fined at the police court for allowing goods to remain on the sidewalk.

Police business was comparatively slow last night. There was nothing worse than drunks and disorderlies in the cells.

Some contemptible beings tarred a drunken man in Yorkville and thought they did a smart trick. They ought to be kicked.

The September matriculation examinations commenced at University college yesterday and will continue for a week.

John McGrath, the fireman of the City of Montreal, denied that he attempted suicide, and said he fell off the wharf. He was discharged.

While the family of Mr. Beard, Pembroke street, was at the exhibition Tuesday afternoon, thieves ransacked the place and carried off a quantity of jewellery.

The streets were thronged with people until a late hour last night. Thousands were from the country and came to do the exhibition.

Thirty of the immigrants whose baggage was burned at Ballantine station last Sunday have been paid damages by the Grand Trunk. The balance of them were paid yesterday.

Children set fire to the houses Nos. 134 and 136 Portland street with matches yesterday forenoon. The firemen extinguished the flames quickly. It will cost about $40 to repair the damage.

There was a special service at Holy Trinity church last night. The choir rendered a full choral service, and Rev. A. H. Baldwin preached. A collection in aid of the Sunday-school fund was taken up.

The laborers' union met in the hall at the corner of Victoria and Shuter streets last night and transacted considerable routine business. The union has a membership of 260 and has plenty of funds in the bank.

The regular drill of the Queen's Own took place at the armory last night, when about 200 men mustered and were put through the various movements by Col. Otter. The gallery was crowded with visitors.

Island Constable Ward found the dead body of an infant wrapped up in a piece of canvas on the city shore of the island, near the new club house, yesterday morning. He brought the body to the morgue, where it remains. Here is a case for the police.

One of the best and cheapest trips of the season will be that by the Credit Valley railway to Cincinnati on Saturday next. The journey thither and back will cost the marvellously low figure of five dollars, and tickets will be good for a week, and a gala week at that. There is to be a great exposition, the annual convention of Oddfellows of the whole continent, and many other attractions. It will be an immense five dollars' worth.

A new Orange lodge will be instituted in the district of West Toronto in a few days, the warrant, No. 501, having been received by the county master from the grand secretary Saturday last. Mr. John S. Baxter, formerly a member of L. O. L. 396, will be the first W. M. of the new lodge, and he will have associated with him Messrs. John Bailey, Henry G. Baxter, Bernard Lowen, Edward Randall, and Benjamin Hinchcliffe. As soon as this lodge is organized, there will be thirty-one warrants working in the district of Toronto.

A meeting of the ministers of the Upper Canada Bible and tract society association was held uTesday night, when the treasurer, Hon. John McMurrich, presented his report. By changes introduced into the future management of the institution, a distinctive representation will be given to clergymen who will from time to time be elected to a seat at the board. The new by-laws were adopted, after which the following gentlemen were elected the clerical members of the board for the remainder of the society's year: Revs. J. C. Antliff, J. M. Cameron, G. Cochran, J. Denovan, J. Edgar, R. W. E. Greene, A. Gilray, W. Hunter, D.D., J. Kirkpatrick, G. M. Milligan, A. N. McGregor, A. Sanson.

TAN BARK.

A meeting of tanners was held at Beardmore & Co.'s office yesterday in the interest of the trade. The chief object of the meeting was to start an agitation for an export duty on bark. It is claimed that while the Americans are husbanding their own bark, they are helping to drain the Canadian supply, and that it is in the interests of all classes of the community that that supply should not be exhausted. The result of their deliberations will be laid before the government.

THE ZOO.

Visitors to the city find the zoo one of the most attractive points of interest. Yesterday about 3000 people went to see the animals during the day. At night the place was crowded, when there was a fine display of fireworks and a promenade concert. New animals are constantly arriving and being added to the already large collection. To-day two buffalos are expected, together with a host of other animals of the lesser sort. Everybody should see the zoo.

THE SWISS LANDSLIP.

Fears That a Large Party of Rescuers Perished—A River Turned Into a Lake.

GENEVA, Sept. 14.—It is believed that the victims of the landslip near Ulm on Monday include forty men of neighboring villages who came to the rescue when the first landslips occurred. The river at Ulm has been turned into a lake, and it is feared the valley below will be flooded. The place is much frequented by strangers this season, and some of them may have perished. A fresh landslip is feared. Rescuers are obliged to proceed with the greatest caution.

—During the hot weather nothing is better appreciated than a nice cool place where one may enjoy a good meal. Such a place is kept by Wilkinson, 187 Yonge street. Dinner from full bill of fare 25 cents, including all the delicacies of the season. o

PERSONAL CHIT CHAT.

Sir Hector Langevin has gone to Quebec.

There is talk of Senator Fabre retiring from the senate.

The cabinet will meet Sir John Macdonald at Quebec.

The one wife of the present khedive is a woman of European education.

The most beautiful woman at Saratoga this season is said to have been a circus rider.

The millionaire Baron Hirsh will give $20,000 to enable Russian Jews to emigrate here.

Hon. Mr. Chapleau, report says, will be decorated by the pope for his services to Laval university.

Rev. D. J. Macdonnell is expected to preach in Montreal next Sunday, on his arrival from England.

Rev. Dr. Jenkins of Montreal will go to Europe in November for his health; he will remain six months.

John of Abyssinia and Alexander of Russia are the two potentates whose food is all tested before they partake of it.

The Gilchrist scholarship is again won by a Nova Scotian in Mr. Howard Murray of New Glasgow, a student of Dalhousie college.

Prof. Wm. W. Greene, a leading physician of Portland, Maine, and a delegate to the London medical congress, died during the passage of the steamer Parthia.

The venerable Dr. Ryerson has much improved in health, though he is still feeble. He has spent a few days at his island in Lake Erie with very beneficial results.

Since the Princess of Wales began to play on the zither that instrument has become very popular with English ladies, many of whom have become skilful performers.

After the profuse kissing that went on between the czar and Emperor William, at Dantzic, it would not be unprecedented in history if they should proceed to fight each other.

The story goes that Mrs. Cornwallis West, the far-famed "professional beauty," is coming over with the new British minister, a kinsman of her husband, to grace the legation establishment.

Mr. Peter Herdic, the inventor of the celebrated Herdic coaches, arrived in the city last night, en route for California, where he will introduce his coaches. He leaves for there to-day.

An Ottawa gentleman who arrived in this city yesterday is authority for the statement that Hon. Alexander Mackenzie, as one of the three trustees of the Pacific syndicate's bonds, is to receive a salary of $5000 a year.

The Earl of Dunraven, who is again in this country, draws the bulk of his great income from Ireland, and is one of the few Irish nobles of Celtic blood and lineage. He spends money freely in his splendid house in London and in Colorado, where he owns 30,000 acres and goes for sport.

The Baptist ministers of New York city had a reunion last Monday, after the long vacation. Each one told his own experiences. Dr. Peddie, who was in Toronto, said he had preached in the country during his vacation, and after one of his sermons a farmer came up to him and said: "I tell you we're having a dry time."

General Hancock was yesterday elected president of the Aztec club in Philadelphia, and General Grant vice-president. At the banquet Mr. Walter of the London Times expressed his sympathy with Garfield, and said the heartfelt prayers of the English masses, from the lowest cottager to the highest noble alike, were offered up for his speedy recovery.

Mr. John Bright's two brothers-in-law, the Lucases, were originally Quakers. One joined the Roman Catholic church, established the Tablet newspaper, and represented an Irish constituency in parliament; the other became a Radical of Radicals. Of the brothers Harcourt, now in parliament, one is a Tory, the other a Liberal; and Newman, prince of the Roman church, has a brother afloat on the ocean of Deism.

—Among the many attractions of the city do not fail to visit the handsome tailoring establishment of J. M. Maloney & Son, 89 Bay street, where you will find a superb stock of select woollens, comprising all shades of the new napped tweed, French and West of England worsteds, fine trousers, etc., at prices which will commend them to the public. o

THE BEEKEEPERS.

Second Meeting of the Convention—Interesting Discussions on Bees and Honey—A Dainty Morsel.

The beekeepers' meeting was resumed last night in the city hall, Mr. D. A. Jones being in the chair. The room was crowded to excess, showing the interest taken in the proceedings of the association. His worship Mayor McMurrich was present for a short time.

The meeting being called to order, the secretary's annual report was received and adopted; at the same time a vote of thanks was unanimously accorded to Mr. McKnight for the special interest he has shown in the welfare of the association. The success of the association has been very gratifying. Only a year ago the association was formed with 33 members, which has been increased during the interval to 63 members. In a financial point of view there is a surplus in the treasurer's hands of $7 35.

The chairman stated that the association had been in receipt of a large gingerbread and a sponge cake, in which honey was the sweetening ingredient. They were the gift of Mrs. J. J. Wallace. The audience was treated to a taste of the dainties and pronounced them excellent. The peculiarity about cakes made with honey is, they will keep over a year and retain their moisture. A motion was carried giving it as the opinion of the beekeepers that, leaving out expense, honey was better than all classes of sugar for sweetening purposes.

The committee appointed to draw up a set of queries for discussion reported some ten in number. The first was the wintering of bees. This was discussed in an able manner by Messrs. Hare, Jones, Nugent, etc. Differences of opinion occurred, but most of these were dispelled by taking into consideration the nature of the locality in which the bees were farmed. All agreed that the bees should be well housed as early as October, plenty of honey being left with them to feed upon, and on no condition should the bees be disturbed, as such interference with their nature has proven by experience to be disastrous. "The uses of comb foundation" and "the cause of stocks fighting and killing others" were ably dealt with, which, owing to the late hour, the meeting adjourned, to meet this evening at the city hall at half-past seven. A good programme has been provided.

The executive committee will, as usual, be at the exhibition grounds to post those desiring information on particular points connected with bees.

GENERAL SESSIONS AND COUNTY COURT.

Judge Mackenzie yesterday presided over both the criminal and civil business.

In the sessions the grand jury returned true bills in the following cases:—Samuel R. Thompson, operating an illicit still; Robert Southworth, larceny and receiving; John Nelson, felonious wounding with intent to murder; John Flavell, jr., for appropriating to his own use a horse and waggon belonging to Thomas Houlgrave; Mary Reid, feloniously administering noxious things; Margaret McCabe, receiving stolen goods; John Anderson, shop-breaking. They found no bill in the case of Catherine Fleming, charged with having unlawfully wounded Josephine La France. None of the cases were proceeded with.

Several cases were disposed of in the county court. In the case of Kyle v. Mitchell a verdict for the plaintiff for $90 was entered by consent, and an order to enter judgment and issue execution at the end of two weeks under the judicature act granted. Barber v. O'Brien, Laidlaw v. Plummer and Lawson v. Clatworthy were made remanets. In Bray v. Hunter, a reference was ordered to Mr. N. G. Bigelow, as it was a matter of account. In the Ontario Copper and Lightning-rod company v. Bonnell, plaintiffs got a verdict for $100. Following is the peremptory list for to-morrow: Gale v. McKinnon, Croake v. Playter, Lamb v. Ansell, McArthur v. Scott, Campbell v. Perry, Winfield v. Birney, Rees v. McKeown, Francis v. Dennis, Grant v. Sawdon.

—Don't buy a sewing machine until you have seen the Wanzer new family "C" and "F" for dressmaking and tailoring purposes; all latest improvements, nickle-plated in all bright parts, simple, durable, noiseless, and guaranteed ten years. 82 King street west, Toronto. o

THE WATER-WORKS.

Increased Pumping Power and Larger Mains Wanted—An Additional Engine Recommended—The Extension—No Water For Yorkville.

The water-works committee dealt with some important matters at its meeting yesterday forenoon.

The engineer reported as to the growing insufficiency of the pumping capacity of the works as follows: I am informed by the engineer in charge of the pumping works that owing to the large consumption in the city he is unable to stop pumping with the larger engine, though much needed repairs should be made. It is needless for me to say that in the event of any accident occurring to the engine the consequences might be most serious, especially during this dry season, and when needed repairs cannot be attended to at once and efficiently the liability to accident is always increased. The whole question requires prompt and careful attention, and time will be required before additional power could be procured if determined upon. It is thought that an additional engine and pumps of a capacity of not less than twelve millions of imperial gallons daily should be procured. These, with connections, bores, foundations, alterations to buildings, and main across the Esplanade, would entail an expenditure of $100,000. After discussion the matter was referred to the executive committee, with a recommendation that it should be submitted to the people.

Another report was read. It dealt with the supply of water to Yorkville and the laying of additional mains. The report pointed out that in the event of the city agreeing to supply the village with water, the tariff would be the same as in the city, and the expenditure would just be the cost of the additional coal that would be required to pump the supply. The consumption at present in Yorkville was 300,000 imperial gallons per day, and with the present position of the pumping capacity of their engines he could not recommend the assumption of the additional burden. The report recommended an increase in the capacity of the mains on Front street, between Simcoe and Church, and on King street, between Simcoe and Jarvis. On Front street he recommends either a ten or twelve inch pipe, at a cost of $5700 and $7000 respectively. On King street he recommends a twelve or ten inch pipe, or the duplicating of the present six-inch pipe. The cost of these would be respectively $8000, $6000 and $4000. This report was also referred to the executive.

Mr. Brough further reported that three lengths of the extension into the lake had now been laid and jointed, and that the other three lengths were ready for laying, one being in the water and two on the banks ready for launching. This would make 1200 feet. There was every probability of the work being completed before the winter sets in; if not, the terms of the contract should be enforced.

WATER-WORKS NOTES.

The tender of the St. Lawrence foundry for the supply of 12-inch pipe at $35 per 2240 pounds has been accepted.

Mr. McMinn, the engineer in charge of the lake pipe extension, will be allowed $5 a week for his expenses of living on the island.

A week's pay has been recommended to be paid to two employees, Cronin and Trowbridge, who were injured in the service of the department.

Key hydrants are recommended to be placed at five cottages of James Milligan on Robert street; at five houses on Drummond street, of G. W. Banks; at six houses on Edward street, of C. Powell.

The committee has confirmed the purchase of the fountains, one to replace the stone fountain at the corner of Yonge and Queen streets, and the other to be placed at the corner of Yonge and King streets.

Alexander of Bulgaria Grants a Full Amnesty.

SOFIA, Sept. 14.—In the celebration of his fete, Prince Alexander of Bulgaria signed decrees proclaiming full amnesty for all political offences committed before and after the 9th of May, the date of the prince's famous proclamation, and suppressing the powers extraordinary of the military commission appointed at the time of the election.

THE SPORTING WORLD.

THE TURF.

THE ST. LEGER.

The great Doncaster St. Leger is over and the Americans are jubilant. Archer rode Iroquois to victory, Geologist second and Lucy Glitters third. At the start the betting was 10 to 3 against Iroquois, and Americans backed heavily. The winner of the St. Leger by the winner of the Derby is a much more rare event than many suppose. The St. Leger was instituted in 1776 and the Derby in 1780, and the winner of the Derby has been successful at Doncaster only ten times, viz.:

Year.
1809—Mr. Wilson's Champion, by Pot-8-00's.
1848—Lord Clifden's Surplice, by Touchstone.
1849—Lord Eglington's The Flying Dutchman, by Bay Middleton.
1850—Lord Zetland's Voltigeur, by Voltaire.
1853—Mr. Bowe's West Australian, by Melbourne.
1864—Mr. I'Anson's Blair Athol, by Stockwell.
1865—Count Lagrange's Gladiateur, by Monarque.
1866—Mr. Sutton's Lord Lyon, by Stockwell.
1877—Lord Falmouth's Silvio, by Blair Athol.
1881—Mr. P. Lorillard's Iroquois, by Leamington.

Iroquois' victory was extremely popular. He and Archer were enthusiastically cheered. An excellent start was effected at the first attempt. Iroquois was the quickest away, but Archer immediately pulled him back. Before the distance pole was reached Iroquois came on in full running, winning easily by a length. Time, 3:20.

NOTES.

Guelph turf club will hold a fall meeting on the 22nd and 23rd inst., when $1050 will be given in prizes.

James Flanagan, a Toronto hackman, offers to trot his horse against any other horse owned by a city hackman, for $100 or $500 a side.

AQUALIUS.

SPLASHES.

Eph. Morris left for his home yesterday by the Chicora.

Challenges to Conley and Hamm will be considered by the Halifax rowing association. Mr. Spellman, who had the men in charge, says that he only brought the men to see what they could do in such a field of oarsman.

CRICKET.

NOTES.

The return match between the Montreal cricket club and the G.T.R. cricket club resulted on Saturday in favor of the former. The G.T.R. only made 53 runs, while Messrs. J. Smith (76) and C. E. Smith (69), of the Montreal c.c., ran the telegraph up to 166 without the loss of a wicket.

GENERAL NOTES.

The smart keel sloop Kestrel of Hamilton has been added to the list of the Toronto yacht club, having been purchased by a Torontonian.

It is rumored that a prize fight will take place next week near the city between Jerry Sheehan of Lombard street and John Meany of Duchess street.

OSGOODE HALL, YESTERDAY.

Mr. Justice Osler granted a writ of habess corpus to bring John R. Ferguson from St. Thomas gaol. Mr. Doherty, who obtained the writ, will move upon its return for an order for Ferguson's discharge, on the ground of irregularity in the proceedings which were taken against him for committing an assault.

The chancellor delivered judgment in the case of Neville v. Cunningham, in which the defendant, an old man of 70 years, from Guelph, argued an appeal in person. The chancellor's decision, however, went against the old gentleman, the appeal being dismissed with costs.

The case of Cameron v. Campbell was argued in the court of appeal. The appeal is from the court of chancery, the bill being filed for an account of $3200 left by the late Hugh Cameron in trust to the defendants, his executors, to pay the amount to the brother of the testator if he should be found in five years, and if not to pay the sum to the plaintiff. The brother failed to turn up, and plaintiff seeks to have an account made for the money. The judgment in chancery was for the plaintiff, and this is now appealed from. The case continues.

ROYAL OPERA HOUSE.

Shortly after seven last night a large crowd had congregated at the Royal opera house door, eagerly endeavoring to gain admittance. At eight o'clock every seat in the theatre was occupied, and the placard "standing room only" had to be placed outside the entrance. Before the curtain went up the house was crowded, and Manager Conner had to refuse admittance to many persons. Hundreds were turned away.

It is but right that Mr. Connor should meet with the success that is now crowning his efforts, as this week gives his patrons the privilege of seeing a fine play finely acted. No particular mention can be made of any of the cast, as each and every one of them performed their respective parts in a manner that did credit to themselves, and elicited many rounds of applause from the audience.

The dresses worn by Miss Agnes Herndon, a lady of undeniable beauty and splendid physique, are a marvel of beauty. In the first act she appears in a lavender silk draped with white lace, and a large French hat with white feathers. In the second act she wears an old gold satin dress draped with brocaded silk and black lace. In the third act she was costumed in a cream silk with spangles. In the fourth act she wore a black velvet trimmed with rich lace. In the fifth act her dress was equally as rich as the others.

The orchestra deserves special mention. Their playing is artistic and finished, the negro melody and imitation of clog-dancing being especially fine.

The Valley Slave will occupy the boards the remainder of the week.

THE WEATHER BULLETIN.

WASHINGTON, Sept. 15, 1 a.m.—Lower lakes: partly cloudy or cloudy with rain; southeasterly shifting to westerly winds; lower barometer; stationary or higher temperature.

Making a Hero of Sergt. Mason.

WASHINGTON, Sept. 14.—There is a disposition here to make a hero of Mason, who tried to kill Guiteau. Citizens write of the newspapers urging that Mason be promoted, and petitions are in circulation in the post-office department and elsewhere asking for his promotion. Subscriptions are being collected with which to pay his counsel.

The Franco-Spanish Troubles Settled.

MADRID, Sept. 14.—At a cabinet council to-day, despatches were read announcing that the French minister for foreign affairs has conceded Spain's claim to compensation for the victims of the attack on Saida. The claims will be paid now after the French chambers authorize the grant for the purpose.

The Western Union's Earnings.

NEW YORK, Sept. 14.—The Western Union Telegraph company has declared a quarterly dividend of 1¼ per cent., payable October 15th. The net revenues for the quarter ending September 30th are estimated at $1,950,000, and the surplus after payment $450,000.

A Court Martial Called in Washington.

WASHINGTON, Sept. 14.—General Hancock has ordered the appointment of a general court martial to meet in Washington in September. No particular cases are specified in the call for the court martial, but it is probable that Mason will be tried before it.

Retaliatory Boycotting.

DUBLIN, Sept. 14.—The inspector-general of the Irish constabulary has issued a circular directing the police to oppose the renewal of licenses to publicans who refuse to supply travellers or police with refreshments, and to publicans keeping posting houses who refuse to supply cars to the police when on duty.

The French Decree Against American Pork

PARIS, Sept. 14.—Leon Chatteau publishes letters to the minister of foreign affairs and all the French chambers of commerce, demanding the abrogation of a decree prohibiting the importation of American pork. Chatteau proposes organizing a meeting at Paris against the decree.

DIPHTHERIA.

Its Terrible Ravages Throughout Russia—Great Loss of Juvenile Life.

LONDON, Sept. 14.—Russian journals publish terrible details of diphtheria, now epidemic in Russia. It is reported that in certain communes and parishes all children under fifteen years have died. The origin of the attack dates from 1872, when the disease first appeared in Bessarabia. Since then it has spread far and wide over the south, whence it lately began to make rapid progress towards the east and northeast. In Paltawa there has been 45,000 cases, and 18,700 proved fatal.

FAIR TRADE.

A Demonstration Against It in the Trades' Union Congress.

LONDON, Sept. 14.—The trades' union congress yesterday made a demonstration against the fair trade movement by enthusiastically cheering the paragraph in the president's speech condemnatory of any return to the "nonsense of protection," and adopted a resolution for the immediate exclusion of a certain professed delegate who did not represent bona fide trades' unions. A number of persons suspected of intention to advocate fair trade left the hall.
