NIAGARA FALLS AND BUFFALO!

FARE REDUCED.

ROYAL MAIL STEAMERS BETWEEN MONTREAL AND KINGSTON.

OTTAWA.....Captain LAWLESS.
CANADA.....Captain O'CONNOR.
LORD ELGIN.....Captain STEARNS.

PASSENGERS by this Line leave Montreal every Week Day, at 11½ o'clock, and on Sundays at 10, by the Railroad Cars, for Lachine, where they take one of the above Splendid Steamers for KINGSTON, calling at Beauharnois, Coteau du Lac, Cornwall, Williamsburgh, Matilda, Prescott, Ogdensburg, Brockville, and Gananoque, passing through the Rapids of the St. Lawrence and the delightful Scenery of the Lake of the Thousand Islands, by daylight, and arriving at Kingston in 28 hours from Montreal!

Passengers for any part of CANADA WEST, or for NIAGARA FALLS or BUFFALO, will find this the most expeditious Route they can travel, *being Twelve Hours in advance of any other Line!* as the Lake Ontario Mail Steamers leave Kingston immediately after the arrival of this Line for Cobourg, Port Hope, Toronto, Hamilton, Queenston, Lewiston, and Niagara Falls.

The above Steamers are commanded by the most experienced Captains, and their Saloons and State Rooms on the Upper Deck are fitted up in the most modern Style, no expense having been spared to render them unequalled for elegance and convenience, as they are unsurpassed for Speed and Comfort!

Montreal to Niagara Falls in Fifty-Four Hours!

N. B.—The above Mail Boats carry no indigent or sick Emigrants. Passengers paying their Fare at the Office, receive Tickets for the Cars.

Protection to Canadian Manufactures.

"No laws on our Statute book are better founded in reason and justice, than those which exempt from execution a certain amount of personal property, household furniture, provisions for the support of a family, and the implements of trade. They are always cited to us as of progressive wisdom and humanity. The next step would carry us to the house of the citizen. A law is wanted to secure the industrious citizen the home which he has acquired by his industry—and which shall at the same time encourage others to acquire a property in the soil, and roof for shelter during life.

"The exemption of a limited amount from forced sale on execution of the homestead of every man who has acquired a little property in the soil—such a law we shall be applicable to debts contracted after a certain date, would, I have no doubt, be productive of lasting benefits to the community, without affecting injuriously any class of citizens—Such an exemption, by securing to the meritorious citizen a foothold in society, would stimulate him to make greater exertions to maintain himself and family. It is the dread of impending ruin and loss of the homestead which so frequently paralyzes all the efforts of a man to save his property from falling into the hands of another.

"I am not unmindful of the fact that this subject has engaged the attention of the Legislature within the last few years, nor that a law designed to meet the case thus frequently presented, passed the Legislature at its session in 1847, and that it was repealed the following year. The fate of the act of 1847, which in some respects may have been defective, is not sufficient to deter me from inviting the Legislature to consider the question again. Nor can I too strongly recommend the passage of a law, such as Mr. Mitchell had which, in substance, has already taken adopted by nearly one-third of the States of this Union."

The above extract from the Message of Governor Seymour, recently elected by the State of Connecticut, opportunely affords occasion to bring the principle involved before our Canadian readers. We appreciate the hostility which awaits on every thing novel and untried in our narrow circle of legislation. Those who fancy themselves above the vicissitudes which assail the struggles of industry may turn coldly from a theme they believe inapplicable to their case, or, with suspicious instincts aroused, may deprecate all legislative interference which they imagine might remotely jeopardize the rights of the proprietor. The country dealers may feel, or feign, anxiety at the possibility of their farmer-debtors claiming a legal exemption, while, in addition to the obstacles which open hostility, concealed enmity and cold apathy interpose, the great bulk of our farming population are at present enlisted in the ranks of Anti-Feudalism, and so intent upon freeing themselves from Seigniorial exactions, that they may be likened to an army compelled to fight and beat the enemy before it can venture to provide for the future. The farmers of the Eastern Townships, and Upper Canada, have consequently been the first to welcome our advocacy of a principle which, if realized, will elevate them in the social scale, and furnish fresh pledges in favor of their interested maintenance of legal authority.

One of our contemporaries dissents from Homestead Exemption doctrines, because the "law is applicable only to classes," and "gives to landholders, and as a consequence to the rural population, privileges in which other classes of proprietors, and the urban population in general, can have no share." We at once meet the objection by reference to that portion of Governor Seymour's Message which points to the extension of the principle to the urban population, and unless it can be shown that we desire to limit the application to the rural classes, the objection falls to the ground. No Parliamentary action has yet been had upon the question, beyond the paltry and useless exception which invests a debtor with a above, after selling his house over his head—a questionable display of humanity, which invests the victim with the unavoidable companion of even the destitute; but let us enquire whether some of the urban classes do not carry with them an unalienable exemption. Have we not public writers, clergymen, lawyers, doctors, notaries, accountants, and agents? The capital which was invested in educating them, and of which they derive the legitimate fruits, is beyond the reach of any creditor. It is their exemption, and calculated at a money value, far exceeds even the most liberal scale awarded to the agriculturists in the United States. There can be no violation of morality or justice in suffering a farmer to record a Homestead mortgage for $500 on his farm—the act is performed publicly and openly—the information available to any *subsequent* creditor. It injures no one, but it creates a home-feeling and sense of security and happiness, which materially conduces to the well-being of individuals and the safety of society.

The Cuban Expedition.

Cuba attracts unusual interest at the present moment, as being the probable scene of a conflict, which the Southern journals lead us to believe inevitable. That men animated with the feelings, and inspired with the hopes which the leaders have doubtless inculcated, will fight, and fight desperately, is to be inferred from the fact that they are Anglo-Americans, and flushed with the glories of the Mexican war. Yet, on the other hand, the resisting power is formidable, and though they speak, like the Mexicans, the Spanish tongue, they are not to be conquered with the facility with which the progress of the American arms. The disposable force at the service of the Governor-General consists of twenty-two thousand Habeneros, or local Troops, and, including the recent arrivals at the Island, fifty-fifteen thousand veteran soldiers, inured to war, and especially to that species of predatory warfare likely to be adopted on the Island. The local features of the Island favor the idea, that if the Americans succeed in landing, it will be a tedious affair to reach them. An Island, fo round numbers, seven hundred miles long and one hundred wide, with great tracts of forest, a sparse population, and a climate favorable to Military operations, affords an enterprising foe unlimited opportunities of evading the hounds of a general disposition. The threat of the Governor General, with which he has often menaced the discontented, to liberate and arm the slaves, explains the stern and unrelenting measures to which he is prepared to resort. Such an alternative would soften the objections of the Anti-Slavery party in England to the Lopez invasion, though it may be questioned whether Spain would reap much benefit from so suicidal a policy. Lopez is a good Cavalry Officer, and distinguished for his services in the battle of the profession; but he will be favored with few opportunities of exercising his skill as a Cavalry Officer, unless his partizans in the Island have provided the requisite resources. A few days hence we shall be in possession of the details of an expedition which must, from the facility with which it has been organized, point out how vulnerable the Spanish possession is when assailed by adventurous and daunless Anglo-Americans. That Cuba will ultimately belong to the United States, may be predicted without the spirit of prophecy. It seems the destiny of the Republic to infect adjoining, and especially contiguous countries, with political doctrines which train the people to regard a closer connection as desirable and beneficial. Canada is no exception to the rule; on the contrary, the mass of our population are more imbued at the present day with American principles—Gorgon the world and official denials to the contrary.

TORONTO, SIMCOE AND HURON RAIL-ROAD.—At the Simcoe Assizes the Grand Jury, in their Presentment to the Court, recommended that the Municipal Council should issue £50,000 in Debentures in aid of this Road.

MR. CHRISTIE—The Toronto correspondent of the *Pilot* says, that Mr. Christie threatened to move the exclusion of Mr. DeWalden, Reporter for the *Colonist*, from the gallery of the House, because he said, that Mr. C.'s motions were not worth the paper they were printed on. We are surprised that a gentleman of Mr. Christie's sense and ability should be so testy on so small a matter.

MR. PAPINEAU'S OPINION OF MR. CAUCHON.—"A member of the Bar of the lowest rank," "one guilty of bringing scandal on the name of a representative—of bringing scandal on the name of Parliament; one who was branded by a Court of Justice, and convicted in a Court of Justice; one who had voted for bribes, and who had worked for bribes."

THE MUNICIPAL MANUAL FOR UPPER CANADA.—We have received a copy of this publication from Messrs. Scobie & Balfour.

RIDEAU CANAL.—The *Packet* of Saturday says that the masonry in the bottom of one of the Bytown Locks, on the Rideau Canal, has given way, and the passage through these Locks is at present interrupted. The work is getting repaired.

Pauperism from Ireland.

A late English paper says that "whilst certain well-meaning parties, both in and out of Parliament, are raising the question of a transatlantic packet at some Irish port, private enterprise has interposed, and, if we are rightly informed, will, by a bold stroke, practically test the advantage or otherwise of selecting the western coast of Ireland as the point of departure. All the arrangements are not yet completed; but that the project will be carried out, and, that, too, speedily, we believe there is no doubt whatever."

We beg to direct the attention of our readers to the Sale of Valuable Bed-Room Furniture, by Mr. Jones, at the residence of Colonel Wetherall, this morning.—*See Advertisement.*

CITY NEWS.

Police Court.

TUESDAY, May 21, 1850.

Several cases appeared to-day, in which the offence stated was "loose and disorderly conduct." The sentence was imprisonment for a month in most cases.

Two cab-drivers, named Stewart and Duffy, were brought into Court, charged with having commenced a fight with each other. Stewart stated, that he had only pushed the other out of the road, and that he had not intended to fight. The Police Constable who took Stewart into custody deposed to his having seen him attempt to strike the other. He was accordingly fined 5s., and Duffy was dismissed, having given bail for his re-appearance.

The other cases were, one of drunkenness in the streets, and the other of an assault alleged, but no proof appearing, the prisoner was dismissed.

We regret to find, notwithstanding the progress of temperance, that the shameful vice of drunkenness exercises its baneful influence upon a part of our population.

PLACE D'ARMES.—We have heard many persons remark (with justice) that the enclosed Square in the Place d'Armes is at present any thing but an ornament to this City. During the past week we observed that the structure designed for a Fountain has been stopped up with planks and rubbish. Surely this is not as it should be. Again, the pieces designed for gates are only protected from entie by a piece of thin plank. We believe it was the original design to enclose this Square by a wall of sufficient height for protection, whereas the wall at present in existence is a few paltry, scarce a foot high. As it has been commenced, and continued thus far, it would be a shame to leave this structure in its present unfinished state, especially since there is no difficulty in the way of finishing it.

GREAT ST. JAMES' STREET.—A great improvement has taken place in Great St. James' Street, owing to the two new shops next the Medical Hall. Upon the other side of the street, at Tattersalls Horse Market, two new premises have been fitted up, one occupied by Mr. Bechett, Printer. This latter improvement has given to the street what it wanted much, the appearance of uniformity. There is still great room for improvement in Great St. James' Street.

EMIGRATION.—The number of emigrants arrived by the late noticed vessels is very large, constituting the early period of the season. It is gratifying to find that they are all men, healthy, and in good circumstances, a fact which has been noticed from the commencement of the emigration, especially as far as regards Ireland. The emigrants of this year are not, however, entirely from the Emerald Isle. They have arrived in large proportions from Scotland and England. Here we may observe, that the advertisement by the Vermont and Canada Rail-Road Company for 200 labourers, offering 4s. per day, is a fortunate occurrence for the emigrants.

FOSTER'S EUROPEAN MELODISTS will continue their Concerts at the Odd Fellows' Hall every evening during the week, commencing precisely at 8 o'clock; the admission is only 1s. 3d. Go and see them.

THE ROYAL.—The accomplished troupe will shortly appear before the citizens of Montreal. Wherever they have performed their talents have led to overflowing houses. We believe that the inhabitants of Montreal will not be backward in patronizing them.

AGRICULTURAL SOCIETY.—At the annual Meeting of the Isle Jesus Agricultural Society, held on Tuesday last, Alfred Pinsonnault, Esq., was elected President, and W. G. Weaver, Esq., re-appointed Secretary for the ensuing year.

We regret to have to announce the untimely death of Mr. Archibald Campbell, otherwise of Archibald Campbell, Esq., of this city. It appears that the young gentleman left town in the early part of the week, on a visit to a friend residing in the country, on the Lachine Road, in company with a few companions who, with the deceased, were part owners of the yacht. When a short distance before the Island of Orleans, at Lachine, on Monday last, the yacht was upset by a squall, and all on board, except Mr. Campbell, fell into the water. The unfortunate sufferer then had to battle with the waves for some time, during which he was seen by his companions, who were standing on the Island of Orleans, to sink and rise twice, when he was unable to reach the yacht, which was then drifting from him, owing to the strong wind. The yacht was subsequently picked up by the Pilot Boat off the Island, and carried into Quebec. The sad news was conveyed to the relatives of the deceased in this city, on Tuesday last. We believe the body has not yet been recovered. The Monday returned to Quebec yesterday afternoon.—*Quebec Mercury.*

To the proposed Address in answer to the Speech of His Excellency the Governor General.

That the 12th paragraph, which the Court of Chancery "has been framed under the Act of last Session, and the "consequent additional burden imposed upon the Public "Revenue, for its maintenance, are wholly foreign to and "at the resources of the Province," and the words of the "proof," inserted instead thereof.

That after the word "intention" at the end of the 13th paragraph, the following be inserted; "That the construction and keeping in repair of Goals and Court "Houses in Lower Canada should be provided for by "local assessment as in Upper Canada, and not as heretofore be made a charge on the Public Revenue."

That the words "And the construction of Goals and Court Houses," in the 14th paragraph thereof, be left out.

That the 15th paragraph thereof be left out, and the words "This House hears with great pleasure from His "Excellency that persons have been found who evinced the desire "of the Crown to bring about the Union of this Province from the "Sovereign of which Prerogative with which His Excellency is "of the Royal Prerogative, and which has been thereby rendered unnecessary to mark "entirely, in the Address, the Sovereign's; but while it fails, as in "every just and proper use of the Royal Prerogative, this "House heartily concurs, satisfied that on the wise and "impartial exercise of the functions delegated to the Re-"presentatives of the Sovereign the happiness and security of every British Possession mainly depend, it emphatically protests against its employment as an engine "of political power to be made subservient to party purposes," inserted instead thereof.

That all the words from "That" to "justified," in the last paragraph thereof, be left out, and the words "That "the great majority of the people of this Province have at "all times given proofs not to be mistaken, of loyalty to "the Sovereign and attachment to the connection with "Great Britain, more particularly as exemplified in the "year of 1837, and under the alarming exigencies of the "years 1837 and 1838.

"That it is the paramount duty of Parliament to redress "grievances which may be proved to exist, and to adopt "such measures of improvement as may promote the happiness and prosperity of the people of this Province," inserted instead thereof.

AMENDMENTS *to be proposed by Mr.* PRICE.

That the 12 and 13 paragraphs, beginning with the words "That this House" and ending with the words "expense of litigation," be left out, and the following inserted in lieu thereof:—"That it is the opinion of this House "that the Province is not in a condition to bear the heavy "expense and delays, and complicated machinery of the "Court of Chancery in Upper Canada, and that the said "Court is not required, and ought to be abolished, (it "having failed in the purposes for which it was originally "erected) and that equitable jurisdiction should be exercised by the Superior and Inferior Courts of Common "Law in Upper Canada."

That the three last paragraphs, beginning with the words "That this House" and ending with the words "many "perils," be left out, and the following inserted in lieu thereof:—"That this House regrets that the policy of "Great Britain towards this Colony, and the conduct of "the Government here, should have been such as to give "cause to many of the most loyal and upright men in "this country to seek for a remedy to the evils they complain of in a change of our Institutions; and this House "cannot admit that the declaration of political sentiments, "not coupled with any hostile intent against the Crown "and Sovereignty of Great Britain, is sufficient to warrant "the Executive in dismissing persons from offices of honour, and that such a proceeding is, in the opinion of this "House, calculated to increase the prevailing discontent."

AMENDMENTS *to be moved by the Honorable Mr.* BOULTON.

In the eighth paragraph, expunge "an," (after affecting,) and insert "a gradual," and after "Province" insert "according to population, and extending the fran-"chise of household suffrage;" and at the end of the paragraph add, "as well as the extension of the elective principle to the Legislative Council, which this House "observed with great satisfaction has lately been recommended by Her Majesty's Government to the Imperial "Parliament, while framing a free constitution for one of "the Slater Colonies."

After the words "will not fail to," in the first paragraph of the third page, expunge the remainder, and insert the following:—"effect such large and extensive reductions in the overgrown expenditure of the Government, as will satisfy the country of the earnestness with "which Parliament has entered upon this highest duty to "their constituents, without at all impairing the efficiency "of the Public Service."

From the last paragraph on the same page, expunge "whenever they shall be transmitted to them by His "Excellency," and insert "which they earnestly desire "may be forthwith laid before them, to the end that ample time may be afforded in the early part of the Session "to give them that attentive consideration which a later "period seldom enables the House to bestow."

Expunge the three last paragraphs of the Address, and insert the following:—

"That while this House deeply regrets that the altered "policy which the Parent State has felt it necessary to "adopt for her own advantage, and quite irrespective of "Colonial interests, has led many loyal men in this Province to consider whether they might not, with equal "right, review their own position as Canadians, thus substantially changed, to their detriment; yet this House "is not prepared to concur with Your Excellency in the "opinion that persons, many of whom have heretofore "periled their lives and fortunes, and sacrificed their "property in the defence of the Unity of the Empire, "should, while suffering under the adverse circumstances "which have since befallen them, and which they believe "are the result of that change of policy which they could "neither avert nor control, and without any misconduct "of their own, be now dealt with as persons instantly "disloyal and scarcely less than traitors, and unworthy of "longer being retained in Her Majesty's service, because "they have ventured, in calm and temperate language, to "discuss the causes of their misfortunes, and to submit "for the consideration of the Parent State the unreasonableness of her placing them upon the footing of Foreigners with regard to her markets, while their Colonial "dependence forbids their availing themselves of those "advantages in Foreign markets which a really national "character would not preclude them from acquiring.

"That this House is firmly convinced that the great "body of the people in this Province will yield to no "other portion of Her Majesty's subjects, in loyalty to "Her Majesty and attachment to the Parent State, but "they would fail in their duty to Her Majesty were they "to abstain from expressing a strong opinion to Your "Excellency, that it is not by distributing some, and punishing others, and stifling discussion, through fear of "official displeasure, that erroneous opinions, either of "duty or interest, are to be eradicated, but by upholding "and maintaining that greatest guarantee of national "freedom, the right of free discussion."

Intelligence from Cuba.

ARRIVAL FROM MATANZAS AT THIS PORT, AND FROM HAVANA AT PHILADELPHIA.

The bark *Mopang*, Capt. Clark, arrived this morning from Matanzas, whence she sailed on the 12th instant.

The *Aurora de Matanzas*, of May 7, says:—"The *Diario de la Marina*, in its number of Sunday last, has the following:—"We propose to follow up with constancy in communicating to our readers the information which we received from the North, relating to the evil-minded persons who imagine to disturb us by an invasion of the Island, incited by the prospect of gold which Cuba treasures up, and by the candid expectation of making themselves masters of our estates and property. We said a few words yesterday in reference to our letters and papers from New Orleans, brought by the *Falcon* steamer, and we have now further news by the *Ohio*. It appears that 500 men have left Orleans, on the pretence of going to California, and others have gone before to Chagres; but altogether, with all their labor, they have not been able to enlist under their banner more than from 900 to 1,000 men at most, who have all made Chagres their rendezvous. The fact is enough to give an idea of the leaders of this ominous expedition. The very idea of such an expedition, in view of our resources and means of defence, is proof enough that none but a perfectly abandoned set of men are those who have gone on to Chagres, ready to plunder this or any other country, and that they are the blind instruments of wretches who think to speculate upon our troubles. But the base authors of this speculation will receive their just reward. Do they think we are asleep? Do they think we are perfectly acquainted with the miserable resources on which they rely? If they think our military and our marine are insufficient to protect us, do they not know that all our militia troops are ready to turn out, and that the people, in all parts of the Island, have rushed to offer their services to the Government, as soon as they heard of the mad project? The Government, which despises profoundly these traitors and pirates, waits with tranquil mind to see how far they will dare to proceed.

"This same tranquillity pervades throughout the whole Island, and we are all certain that if they attempt to touch upon our shores, it will only serve for their greater destruction, and to make an example of them."

ADDITIONAL PARTICULARS.

In addition to the above, we have received the following copy of a private letter, received by the bark *Lyra*, which arrived at Philadelphia on Sunday evening:—

HAVANA, May 15—8, P.M.

I avail myself of the sailing of the bark Lyra, which leaves this port to-morrow forenoon, to write, and give you an account of what is transpiring here at the present.

The Conde Atimaul has at length arrived, and with him his staff and suite, and also a force of 750 Spanish infantry. He will, without delay, take upon himself the responsibility of the Government of the Island. I am informed, from a most reliable source, that he is invested with full authority from the Home Government, to make some very important concessions, the character of which, however, have not as yet transpired. Much will depend upon the emergencies that will arise, as to the extent of the concessions to be granted; but that they are important ones, you may positively rely upon, and such that will give a healthy change to public sentiment, and completely nullify the revolutionary spirit that seems almost ready to ignite, and devastate the whole Island.

The cholera still continues its ravages, and its malignity seems, if anything, to increase. The inhabitants of this city are panic stricken, and are fast deserting the city for the interior. The garrison here suffers much, as well as the Moro guard, seven of which have died within the last twenty-four hours, including one officer.

The Captain General yesterday received despatches from the Spanish Consul at New Orleans, to the effect that he had every reason for believing that an expedition, of a very formidable character, was about leaving for the purpose of invading the Island, which had the effect of creating the greatest excitement. Every precaution is now taken, and active preparations are going on with a view to defeat their landing. There will be a grand parade of the military force here to-day in the Plaza; but owing to the great numb r down with the prevailing epidemic, it is supposed that they will present a less formidable appearance than is usual on such occasions.

Many sensible and shrewd men here doubt the rumored invasion, and predict for it, should it be attempted, a complete defeat, I must confess that my own impression tends that way.

As I write this, the Castle guns are booming, and it is supposed that she is saluting the steamship (*Relampago*) Lighthing, which is now hourly expected to arrive. She will bring an additional force of Spanish soldiers. I have much more to say, but must close this, and write you further by the next opportunity, as the bark is unbending her sails, with a view to fling them to the breeze.—Business is extremely dull.

WASHINGTON, Monday, May 20.

UNITED STATES SQUADRON ORDERED TO THE GULPH—THE INVADERS PROBABLY INTERCEPTED.

The National Intelligencer announces by authority, this morning, that the Government has received intelligence of the invasion of the Island of Cuba, by a formidable armament, organized within the United States. Orders have been issued for the home squadron, the steamer *Saranac*, and frigate *Congress*, to proceed to Cuba direct, to prevent the landing of the Expedition, if possible; and if it has already landed, to cut off from them reinforcements and supplies. The *Saranac* sailed from Alexandria on Saturday, and will reach Cuba, probably, on Thursday.

It is supposed that the frigates *Germantown*, *Albany*, and *Vixen*, are already there.

WASHINGTON, Monday, May 20.

The *Republic* of this morning says, that the President has ordered the steamer *Saranac*, the frigate *Congress*, and the vessels composing the home squadron, to sail immediately for Cuba, to intercept the Cuba invaders.

The *Saranac* sailed on Saturday last, and will probably meet the *Germantown*, *Albany*, and *Vixen* at Cuba, by Thursday next.

ALL THE UNIVERSE IN MOTION.—If, for a moment, we image to the acuteness of our senses preternaturally heightened to the extreme limits of telescopic vision, and bring together events separated by wide intervals of time, the apparent repose which reigns in space will suddenly vanish, countless stars will be seen moving in groups in various directions; nebulæ wandering, condensing, dissolving, like cosmical clouds; the milky way breaking up in parts, and its veil rent asunder. In every point of the celestial vault, we should recognise the dominion of progressive movement, as on the surface of the earth, where vegetation is constantly putting orth its leaves and buds, and unfolding its blossoms. The celebrated Spanish botanist Cavanilles first conceived the possibility of "seeing grass grow," by placing the horizontal micrometer wire of a telescope, with a high magnifying power, at one time on the point of a bamboo-shoot, and at another on the rapidly unfolding flowering stem of an American aloe; precisely as the astronomer places the cross wires on a culminating star. Throughout the whole life of physical nature—i. the organics as in the sidereal world—existence, preservation, production, and development, are alike associated with motion as the essential condition.—*Humboldt's "Cosmos."*

SHIPPING INTELLIGENCE.

The ship Agamemnon, Guthrie, and the bark Rankin, Lawson, cleared at Mobile for Quebec, on the 9th instant.

The ship Wallace, Morton, cleared at New Orleans for Quebec, on the 7th instant.

Capt. Turner, of the bark Tam O'Shanter, at this port yesterday, reports that the bark Anne, of Plym uth, went down in the ice 15 miles N.E. of Magdalen, on the night of Friday the 18th May. The brig William, of Whitby, took off the crew.

GROSSE ISLE, May 18th 1850.

There arrived and were inspected at Grosse Isle on Friday the 17th instant, thirty-nine passenger vessels, having on board 6034 emigrants of all ages, from the new born infant to the venerable octogenarian.

For many years passengers have not arrived in such a healthy condition.

The average passage of these vessels was little more than thirty days. The number of deaths that took place in this ocean exodus exceeded but little the sixths, and the number of sick whom it was found necessary to detain at Grosse Isle did not exceed twenty, of whom seven were cases of small pox.

It is hoped that this is but the dawn of that day when the vast stream of European emigration will flow through the cool, healthy St. Lawrence to the fertile plains of the Far West.—*Quebec Chronicle.*

BIRTHS.

On the 16th instant, at No. 4 Portland Place, Montreal, the lady of A. SALISBURY DAVENPORT, Esq., of a son.

In this city, on the 14th instant, Mrs. Jos. Dupe, of a son.

RAIL-ROAD LINE.

TROY, SARATOGA, AND WHITEHALL.

SUMMER ARRANGEMENT, commencing MONDAY, MAY 20, 1850.

Three Daily Trains each way, Sundays excepted.

GOING NORTH:

First—Express Train leaves Troy 7,45, A.M.; leaves Saratoga 9,30, A. M., and arrives at Whitehall 11, A. M., to Lake Champlain Steam-Boat, which leaves at 12, M., and reach Montreal early next morning.

Second—Freight and Accommodation Train leaves Troy at 2, P. M.; leaves Saratoga at 5, P. M., and arrive at Whitehall at 8, P. M.

Third—Express Train leaves Troy at 6, P.M.; leaves Saratoga at 7,45, P. M., and arrive at Whitehall 9,30, P. M. Passengers for Lake Champlain Boats by this Train go immediately on board, and, starting at 4, A. M., reach Montreal by 5, P. M., same day, passing the entire length of the Lake by day-light.

GOING SOUTH:

First—Express Train leaves Whitehall 7, A. M.; leaves Saratoga at 8,35, A. M., and arrives at Troy at 10, A. M. This Train starts immediately after the arrival of the Steam-Boat up Lake Champlain.

Second—Freight and Accommodation Train leaves Whitehall at 8, A. M.; leaves Saratoga at 11, A. M., and arrives at Troy at 1,45, P. M.

Third—Express Train leaves Whitehall at 3, P. M.; leaves Saratoga 4,45, P. M., and arrives at Troy at 6, P. M. This Train starts immediately after the arrival of the Day Boat up Lake Champlain, and reaches Troy in time for the Night Boats to New York.

On Sundays there will be but one Train each way, as follows:—

Leave Troy at 7, A. M., arrive at Saratoga 9, A. M., remain until 4, P. M., and reach Whitehall 5,45, P. M.

Leave Whitehall 7, A. M., reach Saratoga 8,30, A. M., remain until 4, P. M., and reach Troy 5,30, P. M., for Night Boats for New York.

The Steam-Boats on Lake Champlain connecting with the Trains as above form two Daily Lines between Whitehall and Montreal, landing and receiving passengers at all the intermediate points.

Glens' Falls and Sandy Hill passengers will find Stages to convey them to and from the Trains at Moreau and Fort Edward.

Lake George passengers will find Stages at Moreau for Caldwell, or can take Steam-Boat at Whitehall, and land at Ticonderoga, Rutland, Castleton, &c. Passengers will find Stages to convey them to and from the Trains at Whitehall.

The Freight and Accommodation Train will receive and deliver freight and passengers at any of the Way Stations. Fare by these Trains—1st Class, $2; 2nd Class, $1,25; and Emigrants at reduced rates.

The fare in the Express Trains will be—for 1st Class, $2,50; and for 2nd Class, $1,50; through.

To accommodate the Local Business, Tickets to Troy and return will be sold in packages, by the Saratoga and Washington Rail-Road Company, at a liberal discount.

Coffee, which makes the intellectual wine, [illegible] Lord Bacon says "It comprehends the brain, and helpeth the digestion." Many other writers both French and English, describe its valuable properties. They say it relieves headache; and Doctor Tissot, in his Lectures on Health, says "Those persons who regularly drink Coffee, can never be subject to putrid fever; in fact, a cup of Good Coffee exhilarates the mental and bodily faculties, and nothing can be more refreshing to the man who studies, or the laborious mechanic."

Admitting that the important qualities described in the above quotations are contained in Good Coffee, it is then of paramount importance to the people of Canada to know where they can obtain the article in the most pure and best prepared state, and as there can be no doubt that to procure the ESSENCE of COFFEE in the highest state of perfection, the Berry must be carefully roasted and ground, SAMUEL COCHRAN begs to direct the attention of the Public to the process adopted by him in the Roasting and Grinding of Coffee.

S. C. roasts his Coffee by Steam. No smoke is admitted to the Berry—No taint from smoke—or dear operation; and, what constitutes the complete success of this process, the entire preservation of the AROMA, in which the strength, fragrance, and flavour of the Berry are concentrated. Prices; 1s., 1s. 3d., and 1s. 9d. per lb.

Also, TEAS in every variety in quality and price, a few of which are subjoined, which must meet the views of the most economical housekeeper:—

CASH PRICES.

Mixed Black and Green, an excellent Tea,	2s 1d
Superior do do do much approved of for fragrance and strength,	2s 6d
Very Superior Old Hyson, full flavoured,	2s 6d

To enumerate nearly fifty varieties would be needless, or to insist upon the superiority of these Teas over ALL others in this market, would be only to repeat a fact long since universally admitted; the Importer will, therefore, rest satisfied with the proved eminence to which public opinion has raised him, and trusts his high position thus honorably attained will be considered the best guarantee for the continued superiority of these Teas.

A QUICK CURE FOR PAIN.

RADWAY'S READY RELIEF,

An External and Internal Remedy of Rare Efficacy—The most powerful Antidote for Pain ever discovered—it gives instant Ease, and insures speedy Cures, of all Rheumatic and Nervous Diseases.

RADWAY'S READY RELIEF is what its name purports—a Ready Relief for Pain. The discovery of this powerful Antidote for Pain of all kinds is hailed by suffering humanity as the Medicine of Grace; it is a more speedy and effectual soother of pain than Laudanum or Morphine, and is free from the poisonous effects and properties of these powerful nervines. As soon as the Ready Relief is applied ease is experienced. To this statement thousands of persons who have been relieved of the most distressing pains can testify.

EXTERNALLY APPLIED, IT GIVES INSTANT EASE

To Rheumatism, Lumbago, Gout, Paralysis, Spinal Affections, Weakness, Pains in the Bones, Joints and Muscles, Soreness, Stiffness, Sprains, Strains, Bruises, Cuts, Sores, Wounds, Burns, Head-Ache, Nervous Affections, Neuralgia, Tic Doloreux, Sharp Shooting Pains through the System, Swellings, Inflammations, Irritations, Poison Sores, Salt Rheum, Rash, Itch, and in fact all Cutaneous Affections.

INTERNALLY TAKEN—DOSE, 30 to 40 DROPS.

It imparts warmth to every part of the system, gives tone and vigor to the stomach and liver, invigorates to healthy action the secretions and functions of the skin, soothes, heals, purifies, cleanses, relieves, and cures, Croup, Sore Throat, Influenza, Catarrh, Swelled Tonsils, Coughs and Colds.

CRAMPS AND SPASMS.

Thirty drops have cured the most violent Spasms and Cramps in 15 minutes. It will also relieve the sufferer of Heart-burn, Flatulence, Sour Stomach, Sick Head-Ache, &c. The Weak, the Nervous, the Sick, the Wounded, are all invited to try this invaluable Remedy. It will cure the worst cases of Rheumatic and Nervous Affections, where other powerful medicines have been used in vain. Like a Ministering Angel, its office is to Relieve Suffering Humanity for the public good.

GREAT ENGLISH REMEDY!!!—THE MOST VALUABLE SPRING AND SUMMER MEDICINE IN THE WORLD!

HALSEY'S FOREST WINE!

Patronized by the Nobility and Medical Faculty of England, and esteemed the most extraordinary Medicine of the Age.

MEDICINES containing Molasses or Liquorice, like the boasted Sarsaparillas, require many large bottles to produce the slightest change in health. The *Forest Wine* is altogether a different article. It contains no Syrups to give it consistency, but possesses the excellent flavor and powerful medicinal qualities from the vegetable plants of which it is composed. The *Forest Wine* combines the virtues of the

WILD CHERRY, DANDELION, YELLOW DOCK, and SARSAPARILLA.

With other valuable Plants whose properties are still more powerful.

Its high concentration renders it one of the most efficient Medicines now in use. Less than a single bottle restores the lingering Patient from weakness, debility, and sickness, to strong and vigorous health. Every day improves the state of the Invalid who takes the *Forest Wine* is recommended, in the strongest terms, for all complaints of the

☞ STOMACH, LIVER, KIDNEYS, NERVOUS DISORDERS, BLOOD AFFECTIONS, DROPSY, DYSPEPSIA, LOSS OF APPETITE, JAUNDICE, FEMALE COMPLAINTS, SCROFULA, AND ALL DISORDERS ARISING FROM BAD BLOOD AND IMPURE HABIT OF THE SYSTEM.

SAVED FROM DEATH!!!

Testimony of MR. NATHAN MATHEWS, *a highly respectable and wealthy citizen of Newark, N. J.*

DR. G. W. HALSEY:—I believed your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Asthma. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this dreadful situation, your Forest Wine and Pills were procured for me, and before I has finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicines for about 6 months, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I [illegible] my life, although I am more than sixty years of age.

I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public.

Yours, respectfully, N. MATHEWS.

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848.

DR. HALSEY—DEAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which, I have suffered severely for upwards of ten years; and, having adhered closely to the directions which accompany the Medicines, I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are deluded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the deception used by others should be the means of dissuading many labouring under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased fifteen pounds in weight, having taken one box of the Pills and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies!

Yours, &c., JAMES WILSON.

Dr. David Marvin, celebrated Practitioner of New York, declared publicly, that one bottle of Halsey's Forest Wine contained more virtues than fifty of the large bottles of Sarsaparilla. Messrs. S. S. Lauphman & Co., the largest and most respectable Druggists in Syracuse, in a letter, says:—"From what they have heard and seen of Halsey's Forest Wine, it is an excellent and good Medicine, and will, undoubtedly, become the leading Medicine of the day." *Dr. Scott*, of New York, also subscribes to the virtues of Halsey's Forest Wine, by recommending it to many of his patients.

☞ Seven hundred Certificates from Physicians, Clergymen, and individuals of known respectability, have been given, testifying to the great cures made by "*Dr. Halsey's Forest Wine and Pills.*" Among them is the cure of Mr. John Syms, of 525 Pearl Street, New York, cured of Affection of the Liver and bad Cough, after having been given over by his Physicians, who pronounced his case seated Consumption. A child of Mr. William Bowers, Broadway, New York, who had been dreadfully afflicted with Scrofula, of four years standing, cured in less than six weeks time. Mary J. Brown, daughter of the Rev. James R. Brown, of Disease of the Heart and Incipient Consumption. Other of Jaundice, others of Piles, others of General Debility, others of Gravel, Female Complaints, &c., &c.

Still the Forest in the Best Medical Science!!

That predisposition which exposes the human frame to the infection and virulence of all diseases, proceeds directly or indirectly from a disordered state of the System caused by Impure Blood, Bilious and Hepatic conditions of the Stomach and Bowels.

DR. HALSEY'S GUM-COATED

FOREST PILLS,

(A Sarsaparilla preparation of unexampled efficacy.)

These Pills are prepared from the best Sarsaparilla, combined with other Vegetable preparations of the highest Medicinal virtues. They do not contain any Mercury or Mineral whatever. They purge without pain, weakening, or weakening; purge without any time without hindrance from exposure, change of diet or danger of taking cold. Thousands have the name of small of medicine, and are live times more efficacious in the cure of diseases than any Pills in use.

But a short time has elapsed since these great and good Pills were first made known to the Public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable, have found relief, and been restored to sound and vigorous health from their use.

TO FATHERS OF FAMILIES.

Bile and foul state of the stomach occasions more sickness and deaths in families than all other causes of disease put together. Sometimes whole families are taken down by malignant Fevers, Fever and Ague, and other dangerous disorders, all proceeding from a bilious and foul state of the stomach. No parent can be ignorant so as not to know the great danger existing from biliousness—no parent would be guilty of causing the

DEATH OF THEIR OWN CHILDREN!!!

Yet thousands of children and adults die every year through neglect of parents to attend to the early symptoms of bile and foul stomach.

Superfluity of bile may always be known by some unfavorable symptom which it produces, such as sick stomach, headache, loss of appetite, bitter taste in the mouth, yellow tint of the skin, languidness, costiveness, or other symptoms of a similar nature. Almost every person are at times bilious, the neglect of which is sure to bring on some dangerous disorder, frequently terminating in death. A single 25 cent box of Dr. Halsey's Gum-coated Forest Pills, are sufficient to keep a whole family from bilious attacks and sickness from six months to a year. A single dose, from 1 to 3 of these mild and excellent Pills for a child; from 3 to 4 for an adult, and from 5 to 6 for a grown person, carry off all bilious and morbid matter, and restore the stomach and bowels, curing and preventing all manner of bilious attacks, and many other disorders.

SALTS AND CASTOR OIL.

No reliance can be placed on Salts or Castor Oil. These, as well as all common purgatives, pass off without touching the bile, leaving the bowels costive, and the stomach in as bad condition as before. Dr. Halsey's Forest Pills act on the gall ducts, and carry all morbid bilious matter from the stomach and bowels, leaving the system strong and buoyant, mind clear, and every ingredient good health.

Dr. Halsey's Forest Pills are unlike all others. They act directly on these vital organs of the Stomach, Liver, Kidneys, &c., which secrete the fluids of the body, and separate the impurities from the blood. While they purge all bilious and morbid matter from the stomach and bowels, they cleanse and renew the blood, thereby destroy the seeds of disease. The Forest Pills do not weaken, but give strength and animation to both body and mind. They neither cause griping or any inconvenience whatever, and the patient is better able to attend to business while under the influence them before taking them. They are mild in operation, yet powerful in restoring health.

The great amount of good these Pills have done for the sick and afflicted, have induced thousands to commend them to their friends and the public. Individuals of the highest respectability in almost every part of the country, have testified to the world in favor of their great effects in curing disease.

Never has any remedy had more reliable and stronger proofs of its good qualities than Dr. Halsey's Forest Pills.

Testimonial after testimonial, showing their great powers of curing in almost every class of disease, have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica, New York:—

UTICA, November 9, 1848.

DR. G. W. HALSEY,—

Every Fall, for several years back, I have had much sickness in my family of bilious disorders, and Ague and Fever. In the Fall of 1848, two of my sons were taken at the same time with bilious fever. In former seasons, when sickness occurred in my family, I had always employed a physician; but at this time his name was a use of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day, the fever had left them, and they both recovered without any more medicine. Since this time, I have always kept your Pills at hand, and in all cases of sickness we have used them with the most happy results.

(Signed,) IRA S. GOODHOE.

NOTICE TO THE PUBLIC.

In 1845, Dr. Halsey's Pills were first made known to the public, under the denomination of "Halsey's Sugar Coated Pills." Their excellent qualities soon gained for them a high reputation, and the annual sale of many thousand boxes. This great success excited the avarice of designing men, who commenced the manufacture of common Pills, which they coated with Sugar, to give them the outward appearance of Dr. Halsey's, in order to sell them under the good will Dr. Halsey's Pills had gained by curing thousands of diseases.

The public are now most respectfully notified that Dr. Halsey's genuine Pills will henceforth be coated with

GUM ARABIC,

An article which, in every respect, supersedes Sugar both on account of its healing virtues, and its durability. The discovery of this improvement is the result of a succession of experiments during three years. For the invention of which, Dr. Halsey has been awarded the only patent ever granted and Pills by the Government of the United States of America.

The Gum-Coated Forest Pills present a beautiful, transparent, glassy appearance. The well known wholesome qualities of pure Gum Arabic with which they are coated, renders them still better than Dr. Halsey's Sugar-Coated Pills. The Gum-Coated Pills are never liable to injury from dampness, but remain the same, retaining all their virtues to an indefinite period of time, and are perfectly free from the disagreeable and nauseating taste of Medicine. In order to avoid all imputations, and to obtain Dr. Halsey's true and genuine Pills, see that the label of each box bears the signature of G. W. HALSEY.

REMEMBER!!! If you wish to be sure of a Medicine which does not contain that lurking poison, Calomel or Mercury, purchase Halsey's Gum-Coated Forest Pills, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for Halsey's Pills.

If you would have the most concentrated, as well as the best compound SARSAPARILLA EXTRACT in the world for purifying the blood, obtain Dr. Halsey's Pills.

If you do not wish to fall a victim to dangerous illness, and be subject to a Physician's bill of 20 or 50 dollars, take a box of Dr. Halsey's Pills as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not have the bowels costive, but gives strength instead of weakness, procure Halsey's Pills, and avoid Salts and Castor Oil, and all other purgatives.

Premier, if desirous your families to continue in good health, keep a box of Halsey's Pills in your house.

Ladies, Dr. Halsey's Pills are mild and perfectly harmless, and well adapted to the peculiar delicacy of your constitution. Ensure them.

Travellers and Mariners, before undertaking long voyages, provide yourselves with Dr. Halsey's Pills, as a safeguard against sickness.

ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Water from the Mineral Spring of Leon, and find it to be strongly saline, possessing a considerable quantity of iodine in large quantity, with magnesia and lime, partly in carbonates, dissolved by the excess of carbonic acid, and partly in combination with chlorine and iodine. The quantity of iodine is small, but decidedly qualities from its combination with iodine, I have detected, in small quantities, salts of baryta and strontia, which had hitherto been met with only in the Waters of Nassau, in the general characters, it is allied to the Sources of Cransac, Plantagenet, and the Intermittent of Caledonia.

The contents of one pound of 7000 grains, as calculated from my analysis, are as follows:—

Chlorid of Sodium,	99.477600	grains.

Latest from Toronto.

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends the employment of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to ensure their general use by all classes of our citizens:—

Remedial means, or matters professing to be such, and depending for their employment upon the extensiveness of the circulation of laudatory advertisements, and the amount of money consequently paid by their proprietors for same, have at no time, since we undertook the management of a Journal intended solely for the advancement of medical science, found favor in our eyes. *Nor shall they.* We have always adhered to the old maxim, "Ne sutor ultra crepidam." We have always thought, and are daily more convinced of the truthfulness and correctness of our opinion, that all the world was never intended to practice the medical art, inasmuch as all men—aye, and all women too—are unable to make themselves masters of the science of medicine; and it must be admitted, without a cavil, that without a foundation there can be no superstructure. But that we would dare to question the qualifications of all to become, perhaps, even, scientific practitioners of the Healing Art—far from it; but seeing that different gifts have been assigned to different individuals, we take the foundation of our world, and that one class is necessarily dependent upon another for its comfort and support—the rich and poor, the educated and illiterate, the professor of science and the simple mechanic—so we hold, that the public should be directed, under God, to the maintenance and preservation of health, by men who have given, and continue to give, the best energies of their mind to this particular study. It is under impressions of this kind that we direct the attention of our professional brethren to the advertisement of Mr. Lareque on the cover. We have, in common with our medical friends in this city, taken occasion, from time to time, to prescribe, in fitting cases, the Plantagenet Water, derived from a spring on that gentleman's property, in the Ottawa District, Commendatory certificates from medical men, perfectly well known to us, have been published in the daily newspapers of this city; our own has appeared among the number. But we may hesitate not to recommend the employment of this Water to the special attention of the profession both in Canada and the United States. Mr. Hunt's analysis, as to its constituents, furnishes at once the key of its applicability and usefulness. We are informed that the proprietor has made arrangements for supplying, during the forthcoming season, the Plantagenet Water throughout our own Province and the United States, by the establishment of necessary depots and the appointment of proper agents.

These waters are to be had only from the Agent, A. MANN, at the Depot 4, *Place d'Armes*, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Beriau, St. Paul Street; and at the principal Hotels in the City.

A fresh supply of the above Waters have just been received, and for sale by the above Agents.

URQUHART'S

CONCENTRATED COMPOUND DECOCTION,

OR FLUID EXTRACT OF

JAMAICA SARSAPARILLA,

As ordered by the

Pharmacopeia of London College of Physicians.

PREPARED BY

ALEXANDER URQUHART,

AT THE

Medical Hall, 7, Great St. James' Street.

THIS Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-establishing the constitution after it has undergone the effects of Mercury. In Chronic Rheumatism, the most marked effects have been produced by the use of Sarsaparilla; and its continued use is often attended with improvement of appetite and digestion, increase of strength, the production of a more healthy state of mind, and the pallidum, or, in some cases, complete disappearance of various morbid symptoms, as Eruptions, Ulcerations, pains of a Rheumatic character, &c., &c.

Drs. McCulloch, Campbell, McDonell, and Fraser, who have extensively used it in their practice, have kindly favoured the Proprietor with the following Certificates:

ALEX. URQUHART, Esq.—DEAR SIR,—I have much pleasure in bearing testimony to the faithful manner in which you prepare your Fluid Extract of the Compound Decoction of Sarsaparilla. This I have used to a great amount of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism, I have prescribed it with the most marked effects, I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities of the Compound Decoction of Sarsaparilla, while it is at the same time more palatable, and less apt to derange the Stomach.

Your most obedient servant,

W. FRASER, M. D.

Lecturer on Medical Jurisprudence, McGill College.

Montreal, 9th February, 1847.

MONTREAL, February 10th, 1847.

I beg to certify, that I have employed very extensively, the "Fluid Extract of Sarsaparilla," made by Mr. URQUHART, in all those diseases in which that Medicine is usually prescribed, and that I have found it a most valuable preparation. I can, moreover, state, from personal investigation, that the proprietor employs none but the purest ingredients, and bestows the greatest care and attention upon the mode of preparing his remedy.

ROBERT MACDONELL, M. D.

Lecturer Institute of Medicine, McGill College, Physician to the Montreal General Hospital.

Mr. URQUHART'S Sarsaparilla is the only preparation of this valuable Medicine that I can, with entire confidence, recommend to my patients.

M. MCCULLOCH, M. D.

Montreal, 10th February, 1847.

Dear Sir,—I have frequently prescribed your Fluid Extract of Sarsaparilla, and I have no hesitation in recommending it as a very elegant and compendious form for administering that Medicine.

A new and brilliant light has lately arisen and now stands high in the horizon, shedding its rays of light and healing on the sick, the afflicted, and the heart-broken. Its rays are Radway's Ready Relief, and its healing rays are Rheumatism, Lumbago, Gout, Paralysis, Tic Doloreux, &c., in a few minutes.

☞ *RHEUMATISM*—Its Causes, Treatment and Cure.

ALL RHEUMATIC PAINS INSTANTLY CURED BY RADWAY'S READY RELIEF.

Rheumatism arises from different causes, but most generally proceeds from Colds, exposure to cold damp weather, and sleeping in damp apartments. This complaint is divided into two classes; the first Inflammatory, so called from the swelling and inflammation that attends the pains in the parts affected; second, Chronic Rheumatism, so called from the long continuance of the disease. It is also known as Lumbago, or pains in the back; Sciatica, or pains in the hip or groin; Anthrodynia, or pains in the joints. The Acute Rheumatism generally terminates into one of these and becomes a chronic complaint.

TO RELIEVE YOUR TORTURES,

Apply Radway's Ready Relief, on a warm flannel cloth, previously bathing the parts with warm water, also take 30 or 40 drops of the Relief internally in some mucilaginous liquid, or sweetened with a little sugar, this will give warmth to the stomach, and speedily relieve you from all Rheumatic pains. It is also speedy and effectual in its operation in the cure of diseased *SPINE, STIFF IN THE BACK, LAMENESS, SORENESS OF THE JOINTS*, Weakness, and pain in the side, Nervous Headache, Tic Doloreux and Tooth Ache, Spasms, Strains, Cramps in the Stomach, Piles, Sores, Burns, Scalds, Eruptions of the Skin, Sour Stomach, Heart Burn, Hoarseness and Sore Throat. Reader, if you have the misfortune to be troubled with either of the above distressing complaints, be thankful that an antidote for your pains is at hand in *RADWAY'S READY RELIEF.*

It is sure to give you *instant ease*, and to your joy will ensure you a speedy and perfect cure.

See that each bottle has the fac-simile signature of Radway & Co. upon each label—none other is genuine.

A BEAUTIFUL PICTURE.

A NEW LABEL—STEEL ENGRAVING.

To protect the public against purchasing counterfeits of Radway's Chinese Medicated Soap, R. G. Radway, the celebrated Chemist of New York, has at great expense engaged the services of one of the first artists of steel engraving in America, and will on the first of April, 1850, issue Radway's Medicated Soap in its new label. It is a beautiful *steel engraving*, it represents two female figures of *health* and *beauty*, reclining on a tablet and scroll work, on which are the words *RADWAY'S MEDICATED SOAP* in illuminated letters. On the opposite side of the tablet is the fac-simile signature of R. G. Radway. The designs is neat, chaste, artistic, and elegantly executed

THE VIRTUES OF THE SOAP

are also improved, the high popularity which this excellent soap has attained for its superiority overall others for Toilet, Medicinal, and Shaving purposes, has impelled us to strive and improve upon its merits, instead of resting satisfied on its already gained laurels. We have now entered into arrangements for the importation direct from our correspondents in Constantinople in Turkey, and Canton in China, for our several oils, gums, balsams, and extracts of the medicinal virtues, which we use in the manufacture of Radway's Soap, instead of receiving them from third parties, so that we now have the satisfaction of knowing that the highly medicinal and balsamic properties of our Soap are pure and unadulterated.

AS A BEAUTIFIER OF THE SKIN

It surpasses everything of the kind in the world, it removes Redness, Pimples, Blotches, Pustules, Tetters, Rash, Ring Worm, Sore Heads, Sores, Pustular Eruptions. It imparts health to the skin, and beauty to the complexion. As a Nursery and Toilet Soap, it is beyond the reach of rivalry, and for Shaving purposes it is the best in use. One cake of Radway's Soap will last longer than three cakes of the same size of any other Soap in use, therefore it is the cheapest and best Soap in the world. Price 25 cents, large cakes, in elegant wrappers, and the signature of R. G. Radway upon each wrapper.

Now through the Harem chambers many lights
Of busy shapes proclaim the toilet rights;
While some brisk maiden, with her tresses's fair,
To dress and beautify their lovely Hair,
Which makes the maids of Circassian sires
Within the breasts of kings pure love inspires.

TO DRESS AND BEAUTIFY THE HAIR,

Radway's Circassian Balm is becoming quite popular, in the course of time it will supercede all other preparations in use. It cures baldness, strengthens the hair, eradicates dandruff, and makes the hair soft, fine, and glossy. By using the balm as per directions, it will make it curl beautifully, resembling nature. Price 25 cents in large bottles. See that Radway & Co. is upon each bottle.

PROFESSOR BARRY'S TRICOPHEROUS OR MEDICATED COMPOUND.—Infallible for renewing, invigorating, and beautifying the Hair, stopping Scurf, Dandruff, and all affections of the Scalp, and curing Eruptions on the Skin, Diseases of the Glands, Muscles and Integuments, and relieving Stings, Cuts, Bruises, Sprains, &c., &c. With this preparation "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing-rooms, and numerous others, with one accord, testify to its unparalleled vigor, gloss, luxuriance, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, BARRY'S TRICOPHEROUS is unrivalled. The immense sales of the article have enabled the inventor to supply it at retail at twenty-five cents per bottle, which is from fifty to one hundred per cent. less than the price of any other preparation for the hair now in use. The scientific treatise on the Hair and the Skin, embracing valuable directions for the culture and preservation of Nature's choicest ornament, in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin, and the hair which draws its sustenance from this triple envelope, is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with moisture, and impart life and beauty to the hair, the result is scurf, dandruff, premature decay of the hair, grayness, dryness and harshness of the tegaments, and entire baldness, as the case may be. Stimulate the skin to healthful action with the Tricopherous, the cause is removed, recollection will effectually, and speedily, and completely annihilate the disease. In all affections of the skin and of the substrata of muscles and integuments, the process and the effect are the same. If it be upon the skin, the Tricopherous will so invigorate, that the lymphatics have its specific action, and in all affections and injuries of these organs it is a sovereign remedy.

Sold in large bottles, price twenty-five cents, at the Principal Office, 137, Broadway, New York; Dr. Dodd, 771, Broadway; Dr. Smith, 284, Tenth Avenue; D. Van Zandt, 84, Ninth Avenue; Dr. Lyons, 440, Grand Street; Dr. Memes, Newark, N. J.; Hays, 175, Fulton Street, Brooklyn; H. & G. A. Wright & Co., Philadelphia; Wm. Brown, Boston; P.
