The instructions in question were issued by the Department on what was considered reliable information as to the safety of accepting the tare of tea and tobacco as marked on the packages—, the first having to pass customs inspection and the second being packed under the immediate supervision

supervision of an Officer of the Department of Inland Revenue; and it is to be regretted that, ap-parently, the Marks of net and gross weight on boxes of tea and tobacco and on the invoices of tea accompanying them cannot be relied on. Under these circum-stances it will be necessary to revert to the system, previously followed, of verifying by actual weighing and measurement, all the unbroken packages of supplies delivered by Contractors of what-soever kind; and I have to request you to convey the necessary instructions to this end to Agents and to the Principals of Industrial schools without delay. into the circumstances of the short weight of tobacco delivered at Crooked Lakes, I have to request that you will send me a careful statement of all the marks and numbers on each of the boxes of tobacco delivered, as there is reason to believe that fraud on the Department of Inland Revenue has been perpetrated. cents per pound - the contract price - reported short delivered by Inspector McGibbon.

Referring to Mr. McGibbon's suggestions as to the advisability of securing uniformity of quality in the tea to be purchased under contract by this Department in future, it appears to be evident that, in order to obtain say 15,000 or 20,000 pounds of tea of the same number, brand and chop, it will be necessary, in future, to award the contract for tea to one firm and not to divide the contract as has previously been the custom. On this subject, and on that of a similar method of awarding future contracts for tobacco to one firm, the Department will be pleased

to receive any suggestions which the experience of Inspector McGibbon may afford, as to the best manner of buying and as to the particular kinds of tea and tobacco which, in his opinion, would be best a-dapted to the requirements of the Department and the needs of the Indian service generally in Manitoba and the North West Territories.

Sir:—

I beg to acknowledge the receipt of your letter No. 1137 of the 26th Ultimo referring to my letter of the 27th January last and stating that the articles therein mentioned had not yet been delivered by Messrs Noah L. As regards Mr. Arbuckle's account, the charge of $15.00 for inspecting one school appears very high. The usual allowance made by this Department for inspecting and reporting on an Indian school in the Maritime Provinces is $5.00 and travelling expenses of which a detailed statement is always required.

May I ask you to be good enough to advise His Honor the Lieutenant Governor of Prince Edward Island accordingly.

the River running along the Eastern side of that Section.

It is found that the grazing land especially in a dry season will be too limited to meet the requirements of the Institution and in order to provide for the future increase of stock it will be necessary to secure if possible this piece of land which contains excellent pasturage.

It is understood by the Principal that the land asked for has not been taken up by any one as a homestead.

1st With respect to the short weight in groceries, viz. evaporated apples, tea and tobacco, payment for these articles will of course be made only for the net weights actually delivered by the contractor.

2nd With regard to pepper and syrup, the Hudson's Bay Co., who are the contractors, should be written to, and I should be glad to know with respect to the former what deductions, if any, should be made on account of the difference between the quality of the pepper delivered and the finest "quality" asked for in the schedule.

3rd It is remarked with regret that the Hudson's Bay Co. have failed as signally in the fulfilment of their contract as regards

regards double harness, single harness, curry combs, jack planes, horse-blankets, watering pots, and milk pans. It is not considered sufficient ~~that~~ in cases such as these a mere deduction from the face of a voucher is sufficient compensation for the disappointment and loss sustained by the Department in being obliged to accept articles which are not required and which are likewise not what was promised to be delivered by the contractor under his contract. I have, therefore, to request you to say whether you consider that any and, if so, what portion of the security deposited by the Company should be withheld on this account should they fail to make

make good by new deliveries in each of these instances the contract entered into with the Department.

4th It was not considered necessary in describing cod-liver and castor oil to give the weight per gallon for these articles; but, as the Inspector has raised the question, I may inform you that both castor oil and cod-liver oil should weigh 10 lbs per gallon. It would be hardly fair, however, to bind the contractor to any such weight, as no condition to that effect was inserted in the schedule.

5th It is also a subject of great regret to the Department that any complaints whatever should

should have arisen as regards the quality of the seeds furnished by the Contractors, Messrs. R. R. Keith & Co of Winnipeg. It is believed that the failure upon the Sarcee Reserve of the Mangel, onion, beet and carrot seed must have been due to some such cause as is specified in your marginal note, and not as Mr Inspector McLillan suggests owing to the seed being old and mixed. - the Messrs. Keith & Co having supplied the Department with similar seeds for a number of years, and this is the first complaint which has ever reached the Department as to the quality of the seed furnished by them; but in order to test as far as

In this way and by taking points as far distant from each other as possible, the Department may arrive at some sort of a conclusion in the matter which would be just to the contractor

The Inspectors objection to this is well founded; and the contractors should be given to understand that the simple performance of their contract as regards the quality of the flour they furnish will best please the Department.

7th The Department regrets very much indeed that the tobacco contracted for this year has not turned out to be of as good a quality as was expected; but it is, of course, too late

been taken which seem to be of sufficient importance to merit some remark.

First, with respect to the shortage of an auger and a quarter box of glass, the Inspector does not give any reason for this, and it appears that some enquiry should be made in the matter.

I have to request to be informed why it was found necessary to use a tent for temporary roofing to a house. The tent is reported by Mr McLillan to have been destroyed while in use, and it is considered that it would have been better to have had a roof put upon the house at once and have saved

Touching Mr McGibbon's recommendation that two old plows on hand on the Stoney Reserve should be removed to the Sarcee Agency and included with the cast-off goods, I have to enquire whether none of these cast-off goods - as they are called - can be repaired. An inventory of these goods had better be furnished to the Department

I have to request that the Department may be furnished with a report on the investigation into the shortage in flour and bacon on the Stoney Reserve, and also upon the slaughter house

The Department was informed by the Rev. Mr McDougall that these Indians have sufficient water power for the purpose of driving such a mill, while they are without the necessary horse-power to run it, and a flat would be too large to be worked by hand power.

With reference to the latter portion of your letter, I beg to refer you to my letter No. 20,000/7 of the 5th of October 1886 with reference to a similar omission in the harness furnished by Messrs. Borbridge under their contract of last year, and requesting you to submit the question of the completeness of the harness to Mr. Inspector Wadsworth. In your letter No 1137 of 20th November 1886 you enclose a memorandum from Mr. Inspector Wadsworth on this subject and to the following effect:-

As all the circumstances in connection with the manner in which horse and 4-ply harness for the N.W.M.P. are usually manufactured are well known to you and to the Inspector, it is thought that, if the harness furnished in 1885 was considered incomplete, notwithstanding Mr Inspector Wadsworth's views on the subject, — it would have been proper for you to have the description in the schedule for the current year. This, however, was done, and it is almost impossible now to make any

It is considered in view of what Mr. Wadsworth says in his memorandum that the harness supplied by the contractor if used, as he recommends with the half of a trace chain fastened to the shafts, can be made quite available for the purpose for which it is required.

Sir,

I have the honor to acknowledge the receipt of your letter of the 3rd Ultimo, enclosing copy of a letter from Messrs D. H. McMillan Bro. relative to the quality of flour delivered by them under contract on the Crooked Lake Reserve; and in reply I beg to inform you that the Samples of flour delivered and the standard sample have again been submitted to the Experts here for further examination, and in their report, which has just been received, they state that

that they carefully re examined the samples and find that, as stated in their first report, samples 1, 2, 3, 4, 5 and 6 (flour delivered) are good bakers flour but for color and clearness are not equal to 7B, the standard sample. They are aware that flour will, as the Contractors say, bleach with age, and that it is of course quite possible that the standard sample was originally not better in color than the others. At the same time the Experts had to consider the condition of sample as existing when received by them.

Gentlemen:-

I beg to acknowledge the receipt of the plunders here which you sent to this Department, and I have to request you to be good enough to send your account for the same to this Department for payment.

The Indian Commissioner for Manitoba and the North-West Territories, to whom the implements were referred for his opinion as to its adaptability for Indian purposes in the N.W.T., has informed the Department that

that not only is it too light, but that the fact of its being a cotton hose renders it unfit for the service required of a flesh hose. I am desired, therefore, to enquire whether you will consent to manufacture for the Department 2 dozen of flannels hose similar in every respect as regards weight, width, depth and of to the hose which I send herewith to be by you. If you will consent to do so and stamp and furnish the stamp of your firm making them of the very best material which it is proper to use in making such an implement, the Department will for the present at least cause them to be exhibited as a standard samples

and the Department does not con-
-sider that the services of Mr.
Vaughan in the capacity of a

inasmuch as four visits to the
work should have been quite
sufficient, first to stake out the
work, second to shew the Indians
where to work, third to see how
the work was going on and fourth
to accept and measure up the

As Mr. Vaughan has however

With further reference to the subjects of my letter No. 29890, No. 3, of the 1st ultimo, I have now the honor to draw your attention further to Inspector Wadsworth's Inspection Report on the Peace Hills Agency, for the purpose of eliciting information on the following points respecting which the bare facts only are reported by the Inspector, while no marginal notes convey to the Department such explanations as are necessary to a clear understanding of the matters

referred to.

1. Has the cost of the suitts for Lamperoie Band lost by the Canadian Pacific Railway been recovered, and what causes the discrepancy between the Chief's allegation that the Ex-hides promised him "never came", and the statement conveyed in the marginal note that "thirteen "sides of leather for shoe packs "were sent in last fall". Chief Lamperoie's complaint was made to Inspector Wadsworth in June last: the leather which was sent in last Fall cannot therefore, - either in whole or in part, - have been delivered to him, and the reason why it has not been delivered should be stated.

2. Chief Enoch's desire to obtain

a cross cut saw. With respect to this it is stated in the marginal note that "the Agent should decide "whether the Chief should have a "cross cut saw" – of which there are some in store at the Agency; but it is considered that in this case, it would perhaps be well for the Agent to make special enquiries with a view to ascertain whether such a saw is required and would be profitably used by the Band.

3. The list of agricultural implements and machines on hand at the Agency shews that a number of them are in bad order, for instance a Fanning Mill, a Mower, a Plow Breaking Plow, Smoother &c, and I have to enquire whether these

these cannot be repaired and made available for use.

4. It is observed that the State-ments of Supplies in store at various points in this Agency shew, in the majority of cases, an incorrect balance when com-pared with the books, a shortage is shewn in fishing twine, soap, bacon, flour and corned beef and an excess in weight of beans, rice and mustard. As the Agency is properly supplied with scales it is considered that these in-accuracies (except perhaps in the case of bacon which is liable to loss of weight) should not exist to any great extent; but when, on inspection, they are dis-

discovered, the Inspector should investigate the cause and state it in his report. It is not enough to report simply that the property of the Department has disappeared: the channel through which it disappeared should be indicated.

5. I shall be glad to learn your views on the Inspectors suggestion that larger quantities of potatoes should be planted by the Peace Hills Bands, and that they should be encouraged to sow turnip, carrot and beet seeds. It was suggested that the fifteen pounds of beet seed, thirty pounds of field carrot seed and fifty pounds of turnip seed sent this Spring to Peace

In this connection it appears from the Returns (if they are properly understood) of crops sown by different Bands in the Peace Hills Agency that, out of 863.93 acres fit for cultivation, of which 550.67 are fenced, only 250 acres are under crop: and that only 88.63 acres on Ermine Skin Reserve are sown out of 360.77 acres, of which 256.75 are fenced. This should be fully explained.

Sir:—

I beg to acknowledge the receipt of your memorandum of the 14th Instant stating that the Mail Clerks doing duty on night trains complain that the stencilled mail bags which they send to this Department are not regularly returned to the Ottawa Post Office.

In compliance with your request that instructions should be issued for their prompt return to you, I beg to say that enquiries have been made

made of the Messenger who has charge of the mail service of this Department, and he states that the bags received from the Post Office are, and always have been, regularly returned.

The Department had four stencilled mail bags made expressly for its mail service, and I am informed that three of these have never been returned to the Department by the Post Office, and that the number is reduced to one bag which passes backwards and forwards now regularly between the Post Office and the Department.

I shall be much obliged if you will cause such instructions to be given to the Post

Sir,

I have the honor to acknowledge the receipt of your letter of the 15th Instant, received this morning. Immediate enquiry was made of the Department of Justice as to the reason why proceedings have not been instituted against Joncas in Quebec; and it has been ascertained that the Court in Quebec is unable to deal with an offence committed in the District of Saguenay. It is not the intention of the Department, however, to let the matter drop, and efforts will be made

Sir,

I have the honor to acknowledge the receipt of your letter, No. 1020, of the 18th Ultimo, enclosing Mr. Inspector McGibbon's Report on his inspection of the Blackfoot Agency, but without the statements to which reference is made in the report - they having been retained pending certain explanations required from the Inspector and the Agent. It is regretted by the Department that, in so many instances, the Inspector is obliged to report a shortage in the

the net weight of tea and tobacco delivered by Contractors, in consequence of the tare of the boxes being understated. But it is found to be somewhat difficult to satisfy Contractors that packages of tea or tobacco are actually short in the net weight unless a very specific statement of the fact is given by the Department; and it is therefore desired that the Inspector should be instructed by you to report such occurrences in the following manner:—

It is of course understood that receipts for the actual weight of tea, tobacco &c delivered shall be granted by Agents, and that the facts regarding the understatement of tare shall appear on the Vouchers issued for payment.

The reported failure of carrots, onions and beets on the Blackfoot Reserve is the cause of much regret to the Department; but it is hoped that the Statements which in another recent letter you were requested to obtain from the Northern Agencies will shew that the failures are due - not to unproductive seed - but to drought or some other cause beyond control.

I shall be glad to learn whether

I can assure you that no time has been lost by the Department in this matter. The Department of Justice is, as stated in my recent telegram to you, of opinion that an attempt to prosecute Jones at Quebec would fail, and that not both cases to be prosecuted under the circumstances is receiving its careful attention, and as soon as decision is arrived at, action will be taken.

I note the concluding remarks of your letter, and think that they are quite uncalled

Sir,

I have the honor to acknowledge the receipt of your letter of the 25th Ultimo, enclosing a copy of Mr. Inspector Wadsworth's Report of his inspection of the Edmonton Agency.

This Report, while satisfactory so far as the performance of daily work in the Edmonton Office is concerned, is eminently satisfactory in some other respects: particularly so in regard to the shortages, an explanation of which, the Department is informed, the Agent has been called upon

upon to give.

It is considered that Mr. Wadsworth should be requested to furnish an amended balance sheet of the flour Receipts and Issues at Edmonton, if that which accompanies his Report is incorrect - as it certainly seems to be to the extent of 1,143 pounds. Even under the most favorable aspect of the account which can be presented 285 pounds - exactly three sacks of flour at ninty five pounds each have disappeared from the storehouse apparently during the eight months intervening between the 30th September 188[illegible] and the 31st July 1886; while 874 pounds were returned short in the Inspector's Report to the 30th Sept.

September 1885.

A more serious discrepancy is that in the bacon account respecting the shortage in which (2481 pounds) the Inspector declines to hazard an opinion. Taken in connection with the shortage of 2439½ pounds reported by the Inspector on 30th September last the question of the integrity of the Officials charged with the care of the Departments property stored at Edmonton becomes one of very serious import and it is expected that the matter will be investigated so closely that there will remain no room for doubt as to the cause.

which food supplies are or should be received by Agents and with proper scales for weighing such supplies out, there should, as a matter of fact, be no discrepancies worthy of the name between the stock on hand as shewn by the books and that in the store-house. selected, as they all stand in the name of members of your family, and as it would seem to be unfair to require you to furnish the requisite proofs prior to the date of the letters above referred to, more especially as some of the lots stand in the name of minor children, you will be allowed the lots.

In reference to the timber cut on the farm the estimate of the Department being below mine, mine will be forwarded to the Department.

But as regards your complaint that the owner of lot 40. Concs. C.P.R. Railway has received a notice to remove the cordwood of which he complained the same will be investigated. A note of what you say respecting those who have cleared their lots by the timber made against the said lots in the Goods

There will be no necessity for any addition of surrendered land to the Reserve in consequence of the land taken by the Oblat Fathers for Mission purposes, and the Department will feel no table to them for the same, but they will be allowed undisturbed occupation of the land so long as they do Mission work upon the Reserve. You should see that no Indians are disturbed in the possession of any improvements in consequence of the selection made by the Oblat Fathers, and you are authorized to act for the Department in selecting one hundred to be secured for

With reference to that portion of your letter of the 8th Ultimo transferred by the Department of the Interior to this Department as being the Department charged with the care of Indians and their property, which relates to the case of one George Spence who you state has a claim to part of a quarter section of land upon which the School house and residence of the Teacher on the Sandy Bay Reserve has been built, and in regard to which you

you further state you informed Mr Spence recently that no doubt provision would have to be made for a School Teacher's residence, which you state you found to be on the corner of the quarter section, and you make the suggestion that when the Reserve is entirely broken up which as you "understand is now the case" — the Federal interest in the property should be transferred to the Government of the Province of Manitoba which would take the necessary steps at the proper time to place it in the hands of the local Trustees in accordance with the customs and laws in these matters, I I beg to inform you that there is
