BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, Princes Street, Bank, London.
CAPITAL—ONE MILLION STERLING.
Empowered by Special Act of Parliament, 4 Vict., Chap. 9.
REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.
THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary Premium Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.
The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES OF PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
ERASMUS B. FOSTER,
Resident Director.
London, January 1, 1847.

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $2,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.
Advantages Offered to Insurers.
Very low Rates of Premiums on Young Lives.
The security of a large realized and invested Capital.
Large Bonuses on Policies effected on the high scale.
Prompt settlement of Losses.
The full value given for Policies when discontinued.
On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, at a Loan so intimated, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.
Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.
The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.
Permission for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.
Insurances, if required immediately, may be effected any day between the hours of 10 and 4.
The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, gratis, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

CANTON HOUSE.
FAMILY TEA, COFFEE AND SUGAR WAREHOUSE,
No. 109, Notre Dame Street.
SAMUEL COCHRAN invites the attention of Customers to his stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.
The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Sifting and Grinding Coffee, on the most approved plan, the Coffee being constantly confined in polished metal vessels, which are constantly revolving and exposed to heated air chambers, to prevent imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to Connoisseurs, which is further assured by attention to Grinding at the shortest time after Sale. To this establishment Mr. SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Province.
CRYSTALLIZED SUGAR (much admired for Coffee), REFINED SUGAR in small loaves, and WEST INDIA SUGARS, of the best qualities always on hand.
A few of the choicest selections of TEAS may be had at the CANTON HOUSE, in Native Canty Packages, unrivalled in flavor and perfume, at moderate prices.
Parties residing outside from Montreal will have their orders respectfully attended to, and forwarded with immediate despatch.

Legislative Assembly,
THURSDAY, August 28.

This morning Mr. Sol. Gen. Drummond moved the consideration of the property Qualification Bill.

Mr. Lyons objected. The House was to be prorogued next Saturday; many Upper Canadian members had been anxious to get at this bill; and if it were gone on with every other business would fall to the ground.

Mr. Chabot asked if it really was the intention of the Government to prorogue next Saturday; because, if so, it would be better to keep the members of Lower Canada here, and go on with business, than to keep them up to the last moment, as it was the intention to prorogue the House on Saturday.

Mr. Sol. Gen. Drummond asserted that he was less sorry to have to postpone the bill below than he was, because he did think that it was advisable that a bill for the consolidation of the tenure should be more time before the country before it became law.

Mr. Armstrong said he was one of the party to delate the proceeding evening, the hour member for Shefford was absent; he was perfectly willing to sacrifice himself, but for his defence he would add that he was not aware of the fact that he was absent when the bill was taken up, and that he was not aware that the bill was to be proceeded with every other member was fully aware of the fact.

The Legislative Council here sent down a Bill to both Houses for consideration, and passed the last stage; the object was, viz:—The Act to make provision for the construction of a main trunk line of railway, with amendments.

The discussion on the principle of the bill grew out of a motion by Mr. Drummond, that the bill be read this day six months. Mr. Drummond said he was not prepared to go into the question of the principle of the bill, and go on with it now, as he had thought would be done.

Many speeches were made on both sides of the House, and many motions made. At 10 minutes after 12, a motion was carried by 15 to 14, referring the bill back to committee.

In committee, more discussion took place, much of it caustic, also that and most unseemly colloquy. In the midst of this confusion, a motion was put, not a question of order arose, which led to the Speaker resuming the chair, and afterwards to the committee rising. A most astonishing row took place—many motions and counter-motions were made; and at a quarter past one, the report of the committee was received: yeas, 21; nays, 12.

The debate was then continued on the point whether the report should be then received; or receive-d (ab. Mr. E. J. Boulton moved) on the 1st January. This did not close until half-past three, a.m., when the former motion was carried.

The House proceeded with unopposed business until five o'clock, a.m., when adjournment took place.

WEDNESDAY, SEPTEMBER 3, 1851.

TRIP TO BOSTON.—This little excursion to Boston, which is to be graced with the presence of Lord Elgin himself, is much talked of at present. On the 17th instant, the good people of Massachusetts will have an opportunity of showing off to advantage in the entertainment of a number of Her Majesty's loyal subjects, and we have no doubt the fete will be on an extended and very magnificent scale. It is not certainly one of Brother Jonathan's faults to be wanting in hospitality; every one who has travelled in the States must, if he chooses to tell the truth, bear witness to the kindly feeling cially British strangers, are treated everywhere in the Union. These little reciprocities, therefore, and kindly acts of recognition, do more good than so simple a circumstance might be supposed at first sight to engender, because they tend effectually to wipe away the little animosities and bitternesses which are apt to spring up between two countries who keep proudly aloof from each other. This happy and agreeable intercourse which is becoming now so common with our neighbours across the lakes, and the intimate connexion which will soon exist between us by means of railway communication, will render it all but impossible that any misunderstanding amounting to a rupture can ever take place again. With such relationships, the old adage, "in peace prepare for war," may be safely lost sight of, and a more humanising prospect opened up to us.

We wonder if, in the course of this excursion, the bland smile of the Governor General will shed its benignant rays once more upon the citizens of Montreal. We hope he will take heart of grace and come among us, if it were for no other reason than to belie the assertions that have been made respecting his very unScotchman-like want of physical and moral courage; besides it is not quite fair of His Lordship to keep away thus, because it not only perpetuates the reflection cast upon himself, but it also throws an imputation of unforgiving lawlessness upon this city, which we are very sure the citizens only want a fitting opportunity to wipe off as a stain upon their escutcheon.

We have just heard that the Mayor of the city has seized, or caused to be seized, the desks, benches, and other furniture of the National Free School, together with certain books belonging to the Lord Bishop of Montreal which happened to be on the premises at the time of seizure. We think the public will demand an explanation of this very extraordinary proceeding, and we at the same time hope that the Mayor will have it in his power to give a satisfactory reason for so very high handed and apparently arbitrary a proceeding.

Catherine Hayes is expected to arrive in New York about the 19th instant. Her first Concert will be given at Tripler Hall on the 27th.

The Hon. James Ferrier arrived in town on Saturday evening from Toronto.

The N. Y. Courier & Enquirer is to be enlarged as soon as suitable premises can be built. The paper was never more prosperous than at present.

Whitmore, Mr. J. C. Morrison moved that the bill be again referred to Committee to have an amendment added, that the Buffalo and Brantford Railway Company, or any other Company, mentioned in the Act, shall be allowed to construct its organization, notwithstanding the repeal of that Act.

The Legislative Council here sent down a Bill to both Houses for consideration, and passed the last stage; the object was, viz:—The Act to make provision for the construction of a main trunk line of railway, with amendments.

The discussion on the principle of the bill grew out of a motion by Mr. Drummond, that the bill be read this day six months. Mr. Drummond said he was not prepared to go into the question of the principle of the bill, and go on with it now, as he had thought would be done.

The debate was then continued on the point whether the report should be then received; or receive-d (ab. Mr. E. J. Boulton moved) on the 1st January. This did not close until half-past three, a.m., when the former motion was carried.

The House proceeded with unopposed business until five o'clock, a.m., when adjournment took place.

MR. AND MRS. McLEAN'S CONCERT.—These talented Scotch vocalists gave their first concert last night, to a very crowded house, in the Saint Lawrence Hall. Mr. McIntyre stage-with great taste, and with all the rich humor and other which Scottish music demands. Since the decease of the lamented Wilson, we think this vocalist the only one at present before the public who can at all approach him. The songs were produced and accompanied with the accordion, of which instrument this gentleman seems to be a complete master; in his hands, indeed, it is altogether a different instrument from what we had before any conception of. In every song, both Mr. and Mrs. McIntyre were loudly applauded. This lady has a very fine, sweet, clear voice, joined to a just conception and true appreciation of the character of the song, which she fully proved by the manner in which she delivered "Comin' thro' the Rye," "Last May a brave wooer," and others, which were sung with great taste and feeling. As an instance of the latter sentiment, we may refer to "Jock o' Hazeldean," sung with great taste, and just sentiment. It was refreshing to our ear to listen once more to the true Doric of the Scottish tongue, which both Mr. and Mrs. McIntyre speak with the unaffected and simple purity of the unsophisticated vernacular. They make their second appearance this evening in the old Saint Andrews' Church, Peter Street, when, we perceive, they will present the audience with a series of Scottish, Irish, and English melodies, of the most popular and approved character. We have no doubt that the audience will be a numerous one.

THE AZTECS.—These interesting and mysteriously born children still continue to draw crowded audiences every day. No one seems to be nearer a solution of their strange and unaccountable existence than at first. Should they reach England in safety, it is probable that some one of the literati of that country may devote himself to a solution of the enigma; but at present we suppose we must rest contented with staring, and wondering, and doubting the existence of that rock and mountain encircled city, which, like the happy valley in Rasselas, admits all into its bosom,

"Sed revocare gradum, superasque evadere ad auras
Hoc opus, hic labor est ——"

PARKER'S LIGHT.—Mr. Henry M. Paine, announces through the Worcester Spy, that a patent will soon issue for his new invention, by which he renders the atmosphere inflammable, and applies it to all the purposes for which gas, oil, camphene, &c., are applied for the production of light. He states that he is now ready to contract to light hotels, factories, or private dwellings, with a superior light, fifty per cent, less than any other artificial light known.

We notice, from advertisements, that Mr. J. Leeming will sell, at his office, this day, at 12 o'clock, Eleven Hundred Acres of valuable Land, situated in the Township of Farnham, Shefford Co.; and immediately afterwards, will be offered a number of Building Lots, on Colborne Avenue and its vicinity.—*See adverts.*

DERRIANA. A History of the Siege of Londonderry in 1688 and 1689. By the Rev. John Graham. R. & A. Miller, Montreal. pp. 341.

This is a reprint of "The Siege of Londonderry," which has been long a scarce book, having been out of print for many years. We are glad to see the Press of Canada so well employed as in the publication of an authentic narrative of so very important and momentous an affair as the defence of Londonderry against the forces of James II. The shutting up of the gates of this Irish city by the bold apprentices, and the defence of its walls for so long a time by the devoted inhabitants, forms one of the most interesting and heroic incidents of modern history. It was here that the last expiring efforts of despotism were finally crushed, and the serpent of superstition, which was threatening to overwhelm and poison the whole land with its pestiferous breath, was finally trodden under foot, and deprived of life. The tide of bigotry rushed like a torrent of mighty waters against the walls of Derry, but by the zeal, and courage, and devotion of its brave defenders, that city was eventually snatched from the grasp of the tyrant, who was sent, in discomfiture and disgrace, to end his days in a foreign land.

This publication is also enriched with a voluminous collection of biographical notes, historical poetry, and other documents relating to the present and past history of Ireland, which are both curious and instructive.

We shall occasionally enrich our columns with certain extracts from these, as we can find room for them. In the meantime, we recommend this very interesting and instructive work to the notice and perusal of our readers. We all owe much to the bold apprentices of Derry.

HARPER'S MAGAZINE.—We have just received the September number of this Magazine from Mr. R. W. Ley. This number appears to be superior to any of the preceding, both in regard to letterpress matter and decorations. Many of the articles refer to subjects of the highest importance; and as they possess, from the lucid manner in which they are written, much literary merit, they deserve a careful perusal by all who take any delight in the popular literature of the day.

DRAWBRIDGE.—On Saturday morning last, on the departure of the *Lord Elgin* steamer, three persons were endeavouring to give caution to the public wheel, by prizes, to with one of the bridges, when it suddenly started, and two of the men with the drawbridge, who caught hold of the bridge, and were carried, through the Canal, in the 20th Sept., with the steamer, and to rise on shore. A gentleman, who was passing at the time, jumped into the water, and succeeded in getting out safely. Great credit is due to Mr. J. Fraser, of Montreal, who, with the assistance of a boy, saved himself by rushing his, but unfortunately without out other. Capt. Gibson, who was on board, saved, have a good escape, has been 19 years in the army, and has a wife and six children to depend on his loss.—*Que.*

THE CROPS.—The late dry warm weather has had a most beneficial effect on the crop, and the crop is The only harvest is in full swing, and the crop is Gain crops are coming in entirely free on the high lands; but the harvest will be late on the low grounds. Wheat looks well, and promises to be an average crop. We will publish more particulars hereafter, when we have received more information, but not in any extent. Rather has been in some expected situations, and the crop is rather light, owing to the continuance of wet weather in the early part of the spring. On the whole, the grain crops have a very promising appearance. The potato blight is making rapid strides in the neighbourhood of St. Roy. A few days ago, fields that appeared perfectly green are now become black and emit a disagreeable smell. We were informed by a respectable farmer of St. Foy that of a field he had cultivated for market he obtained a bushel of diseased potatoes, which clearly proves that the disease is progressing to a great extent. Farmers that were detained by their hay being overflowed in the spring and had to plant late are going to have no crop, on account of the plague being totally black. The pastures are good, and dairies are well supplied. The turnip crop promises to be good.—Mangold-wurzel is not cultivated to any extent. Garden stuff is a good crop and very plentiful in our markets. —*Quebec Chronicle.*

By Command,

D. MACDOWELL, *Lt. Col.*
Dep. Adjt. Gen. of Militia.

The *Nova Scotian* of last Wednesday gives the following piece of information as a rumor:—

It is reported in the city that, shortly before the Canada's leaving Liverpool, a despatch had been received from London, announcing that the British Government had finally decided upon voting the required seven millions, for the completion of Railroads in British North America. This is, of course, nothing more than we had a right to expect, but still it would be impossible to over-estimate the importance of the report, if true.

The *New Brunswicker* says:—This is something more than rumor; the information may be fully relied upon; the grant of seven millions has been fully settled, and these Provinces may begin to draw the money as soon as they have completed the necessary arrangements. The money part of the business, so far as England is concerned, is all right; and there need be no fear on that score.

CAPTURE OF A SHARK.—The North Market Wharf was the scene of great attraction during Yesterday, in consequence of the capture, by Captain Holme, on his passage up the bay, of a monster measuring in length little less than 40 feet. When met with, the creature was amongst a shoal of fishing nets, and was in a state of exhaustion from its efforts to escape from them. It was not, however, taken without a hard struggle on the part of the Captain and his crew. It is said to be a "basking shark." Not less than 200 gallons of oil have been extracted from the carcass. Its mouth, which measured three feet across between the angle of the jaws, presented a most terrific aspect; and it is said that the savages made by this and kindred creatures on smaller fishes and shoal, at this season of the year, are almost incredible.—*St. John Courier.*

Gubbins Mansfield.

MURDEROUS FOR CUBA.—The *N. Y. Journal of Commerce* of Thursday says:—

"We were yesterday in an extensive trunk manufactory, and saw a handsomely empty for about twelve or two in fifteen men, for the place of destination, Havana, designed for the use of those favorable to the Lopez cause. Each trunk is calculated to shoot fifty cartridges, which are to be distributed among such as will use them in the insurrectionary service."

SOME SECRETS.—The *N. Y. correspondent* of the Philadelphia Inquirer, under date of the 25th, gives the following interesting particulars concerning Cuba movements:

The most important news by one of the morning papers that two or three vessels have sailed with munitions of war from the harbor of this city in contract, though doubted by some of those who are engaged in raising supplies. Two vessels, one containing coal, and the other filled with provisions, clothing and ammunition, sailed soon after the news of the shooting at Havana. These vessels were furnished by foreign capitalists, and carry a foreign flag—in fact, they are not American vessels, among other things they took out 800 barrels of flour, as had in make. They are to proceed to a point well known to Lopez, and over which the Spanish government can have no actual control, except by a fleet outside. I have reason to believe that a large steamer, on Sunday night last, sailed from this neighborhood with a large body of men. During the night boats passed between her and the shore as many as fifty times. These statements are given on the best authority. Little can be expected from those who are seemingly most active in favor of Lopez here. They are not entrusted with the secrets of the great money power that is at work—confined to a single Cuban, whose family has had its blood spilled by Spain.

BALTIMORE, August 29.

A crowd of several hundred persons are parading the streets, with an effigy of the American Consul at Havana, which they intend burning in Monument Square.

There is evidently arrangements making in this city, for the departure of a Cuban expedition, contingent on the character of the next news from General Lopez. The rumors are so contradictory that it is difficult to form any opinion with regard to them. But little confidence is placed in the announcements of the rout and capture of Lopez. There is no scarcity of men, if the means are only forthcoming, but it is generally believed that there are two parties here, one with means, and the other without means. While the latter are blustering about town, and receiving the watchful care of the authorities, the former are closing arrangements for the effective assistance of Lopez.

At Richmond, Va., enlistments are now being made for the patriot army, and the papers of that city say that Gen. Gonzales is receiving the recruits.

LOUISVILLE, August 28.

A large Cuban meeting was held last night, and another comes off this evening. Similar meetings are also being held at interior towns of the State.

A letter from Savannah says a company of one hundred men would leave there on Tuesday for Cuba. There was great excitement in consequence. The city was illuminated—banners were flying—fireworks were let off, and the Cuban flag was floating from the tops of all the public houses.

Similar meetings have been held in Washington and Cincinnati, but it is said that they did not amount to much.

NEW ORLEANS, August 23.

The letter book of the Spanish Consul in this city has been seized by the rioters. It has been found to contain the names of many proscribed American citizens, who have been represented as such to the authorities of Cuba. Portions of these disclosures will probably be published.

26th.—A force of one thousand Americans is collected here, and await only the means of conveyance to Cuba. General Felix Houston has assumed the command of their movements.

28th.—The Spanish Consul has resigned, and left the Spanish residents here to the protection of the English and French Consuls.

Arrival of the Atlantic.

NEW YORK, September 1.

The steamer *Atlantic* arrived at 5½, a.m., today. She brings about 160 passengers, and four days later intelligence, from Europe. She has made the most remarkable trip on record. She left this port for Liverpool on the 6th of August, and arrived out on the 17th, and left again at 3 p.m., on the 20th of August. The entire trip occupied 25 days and 17 hours.

The *America*, from Boston, arrived at Liverpool at 10 a.m., eight hours after the *Atlantic*. They left Boston and New York respectively the same day.

ENGLAND.

Funds have declined at London; and Corn was 3s. lower. All branches of trade present a continued activity. American stocks unchanged. Political [illegible] Members of [illegible] to the Exhibition on the 18th of August 57,000. The Commissioners had decided to close the building on Saturday the 11th of October. On the 10th the Commissioners will meet to receive the reports of the several juries and a general attendance of all interested is requested. At the close there will be given to the Exhibitors to remove their goods. The reports of the jurors and the names of those receiving prizes, will be published in the London *Gazette*.

IRELAND.

Reports of the Potato rot state that there is no futher extension of the blight. The Roman Catholic Priests in Ireland have indicated their purpose to set at naught the prohibition and penalties of the Ecclesiastical Titles Bill. McHale and Cullen have issued letters showing that the Catholic hierarchy is not dead—notwithstanding the recent act of Parliament a meeting of Catholics was about to be held, which promises to furnish further vituperation in defiance of the Government.

FRANCE.

The *Nevenement* contains an address from upwards of 50 English Journals to C. C. Hugo, on the occasion of his imprisonment for an article against the punishment of death. The *Express* was strong language of sympathy.

The grain crops of France will all be carried in within a few days. The quantity is inferior, but the quality superior to previous years.

A Committee of strevillanists, consisting of twenty members of the Assembly, mostly socialists, hold weekly meetings for the discussion of the political condition of Paris and the departments of the Government. In case any serious occurrence, all the Representatives now in the Provinces are to be summoned to Paris.

SPAIN.

Advices from Havana to the 17th July, had been received at Madrid. They made no mention of any disturbance on the Island.

DENMARK.

The King had a narrow escape on the 14th ultimo,—the horses of his carriage having run away, completely destroying the vehicle.

The challenge of the yacht America remains unaccepted. She has entered for the Regatta at Cowes, on the 22nd. The Queen's Cup will be run for by six vessels. The Queen's Royal yacht squadron are also competitors.

INDIA AND CHINA.

The Overland Mail reached London on the 19th. The insurrection in China appears to be gaining ground, but little is known about its object or probabilities. The King of Siam died on the 2nd of April. Eccotth is expected in England on the 1st of October.

The Indian Jobbards announce that six filmes has deserted there by eating blighted grapes.

ENGLISH MARKETS.

Cotton closed firmly at Liverpool, and in demand at 4th advance.

Flour during the last two weeks has declined 6d to 1s.

Wheat also lower.

Indian Corn unchanged.

[illegible] establishment of this Line will enable the Merchants of Canada West to remain throughout the business day in Montreal, and to reach their homes almost as early as if they had gone by the Mail Line at noon, and connecting, as the boats will do, with up and down Express Trains at Ogdensburgh, they will afford direct conveniences for Passengers and Freight between the Canadian Ports and the Eastern States.

It is deemed unnecessary to dwell upon the advantages of First Class Steamers passing direct from the head of Lake Ontario to Montreal, and vice versa, over those of lines that involve a transhipment (on the downward trip) at an unseasonable hour in the morning.

In compliance with a generally expressed wish, on the part of the public, a separate charge will be made for meals.

☞ The Line will be commenced by the *HIGHLANDER* leaving Montreal on TUESDAY, the 30th instant; the *CHAMPION* on THURSDAY, 25th; and the *MAY FLOWER* [illegible] next month.

Pleasant Water.

Let all who want sound health to get
Just say to Sound Sanitarium;
Though others rainy try to pad
And gain a market for their stuff,
This only can make a good old hale,
The friend of all who need it most.

AS this is the season of the year when the public are most disposed to seek for a glass of mineral water, it is necessary, that persons should be strongly warned against the bare-faced attempts to give a spurious preparation to certain other springs, by the unscrupulous and unfortunate use of the names of eminent Physicians. To such an extent has this practice been carried, that the Profession of this city has been lately compelled publicly to deny that he ever gave a certificate testifying to the rare qualities of one of these Springs.

Another artifice had recourse to, by certain parties, is the publication of old certificates granted to other Springs, as if they had been given in favor of their own Springs. In fact, such is the spirit of jealousy excited at the overwhelming success of the Sanitarium Pleasant Water, that it can hardly contain itself, and is now seeking the most unfair means to impose on the credulity of the public. Such attempts, however, cannot succeed; every day the fame of the Pleasant Water is spreading wider and wider. While it has its place in the Pharmacopœia as one of the most innocent and efficacious of aperients, it is now as a beverage, a universal favorite in almost every family. This power was a mineral water which combined so admirably the two qualities of useful and agreeable, and to talk of competition or comparison to other waters, is just as absurd as to compare what is one out of sea in the first thing be generalities, and he answers, Pleasant Water. Ask the merchant what is his best brandy, he will say, Pleasant Water. Ask the professional man what medicine he knows and relies on for his health, and again we are told Pleasant Water. Ask the invalid, the sufferer, the dyspeptic, what is the cheapest medicine for himself and family, and he will reply, a bottle of the Pleasant Water. This extraordinary success has induced some to think to be able to palm off on the unsuspecting public, other spring waters for the Pleasant Water, a fact of which the Proprietor has been directly informed by Medical gentlemen of this city, in their visits, in short, to all parts of the country, persons who wish to make use of the unparalleled reputation enjoyed by the Pleasant Water. To guard against deception, the public are therefore, respectfully requested to inspect themselves *direct from the Depot, Place D'Armes, Hotel.* Price per gallon, 1s.; bottled, by the dozen, bottles returned, 7½ and 15d per dozen. The Genuine Pleasant Water, by the Tun, Hogshead, or Barrel, may be obtained from the Proprietor, or any other agent.

NEW CERTIFICATE.

The following from Dr. Hunter, Chief Physician of the Hotel Dieu, adds other testimony to the overwhelming testimonies borne to the virtues of the Pleasant Water by all our leading Physicians:—

To Mr. Lamontagne, Proprietor of Pleasant Water, Place D'Armes.

Sir,—I have hitherto refrained from giving you my opinion of the Pleasant Water; but the time has now arrived when it is due, both to the public and yourself, that I should do so. I state, then, frankly, that I have the highest opinion of the Pleasant Water, which I consider superior—in fact, far beyond comparison with any other mineral water with which I am acquainted. I have used it extensively in my practice at the Hotel Dieu Hospital, and with the most remarkable success. As a gentle aperient, it is so invaluable, that in numerous cases where other medicines could not be safely administered, I have found it most useful. I consider it my duty, both to the profession and the public, to state that much is its flavor; and I strongly recommend all the friends of families to keep a supply of the water by them, being perfectly satisfied of its great utility.

I have the honor to be,

Your obedient servant,

[illegible] MUNRO, M.D.,

Chief Physician to the Hotel Dieu Hospital, and Lecturer of Surgery in the School of Medicine, of Montreal.

Dalhousie Street, 6th August, 1851.

In conclusion, let it be borne in mind, that it is not simply as a saline drink that these waters are beneficial, but as a medicine, they are the only Mineral Waters known to any eastern readers. There is, in fact, but one Pleasant Spring, and the more that is known, the higher its reputation, and the more all others sink into insignificance and oblivion.

It is enough to read the names given below, of persons who have used the Pleasant Water, to be satisfied of their superior excellency over all others:—

Hooper W. Nelson, W. Fraser, G. W. Campbell, A. Ball, A. Mitchelsch, R. J. McDonald, Crawford, J. G. Ross, Chas. Ross, R. H. Mount, J. L. Leprohon, R. S. Sewell, F. Badgley, J. Fisher, J. E. Coderre, L. P. Pelletier, O. D. Gale, J. E. Pinsoit, James Grant, H. Mason, H. Peltier, H. Mondelet, J. Crane, W. F. Smith, F. Lemoine, J. Leslie, W. Wright, L. Boyer; the Hon. A. N. Morin; the Hon. Peter McGill; the Hon. Louis Joseph Papineau; C. Wilson, Esq., Mayor; Jos. Bourgouin, Esq., Ex-Mayor; Louis Lee, Mayor of Quebec; J. B. Beaudry, Esq.; Louis Lee, Mayor of St. Lambert; Esq.; J. Bailie, Jr. F.; Maxime Proulx, Priest; J. S. Cameron, Esq., and many others.

Sold only at No. 4, Place D'Armes, Montreal, where parties from the country, who want it to sell again, can be supplied at liberal rates.

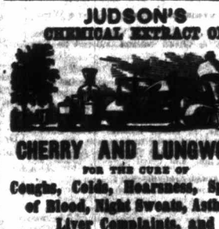
JUDSON'S

CHEMICAL EXTRACT OF



CHERRY AND LUNGWORT,

FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and

CONSUMPTION.

THE most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated, and the case so utterly hopeless, as to have been pronounced by Physicians and friends to be beyond the reach of medical aid, have been thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of some twenty or thirty herbs, particularly adapted to, and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet effectual; it loosens the phlegm which causes so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter by expectoration, producing a delightful change in the breathing and sleep, and this, after the prescriptions of the very best medical men, and the assurances of hard and enduring friends and nurses, have failed to give the sufferer any hope of recovery. Hundreds of THOUSANDS OF CONSUMPTIVE

persons have been deceived repeatedly in buying medicines which promised to cure them, but which have proved only palliatives; but this medicine is not only a palliative, but a *cure for* ulcerated lungs. It contains no poisonous drugs, but is composed of roots which have stood the test of ages, and are now in astonishing efficacy better than any assertions or certificates in curing Consumption and all diseases of the lungs, such as spitting of blood, cough, pain in the side and chest, night sweats, &c.

Albany, 1850.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Gentlemen, have been sent us for this medicine, but the publication of them looks too much like a Quackery; (will show them to any person calling at our office.) This medicine is sold *only for itself and* enough in its own favor wherever it is tried.

Caution.—This medicine is put up in large bottles, and you must see the name of Comstock & Brother, New York, on the splendid wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 8, John Street, New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.

For the cure of Founder, Split Hoof, Hoof-bound Horses; and Contracted and Foundered Feet, Wounds, Bruises in the Flesh, Gulled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on Horses.

CARLTON'S CERTAIN RING-BONE CURE.

For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splints—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and food, have a very great effect upon the blood and stomach of horses. It is at these times that they require an ordinary to assure to throw off any disorder of the fluids of the blood that may have been imbibed; and which, if not so thrown off, will result in the Yellow Water, Grease, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will, at a trifling cost, save the life of a valuable horse, or many of them, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with less feed than any other preparation. Farmers and others who have used it in the Eastern States, do not hesitate to say, that they have saved the life of a valuable horse, or many times the cost of the package, by using a box of these powders. Prepared only by the proprietor, and for sale by all the principal druggists and dealers in Medicines throughout the United States and Canada, at 25 cents per box, or five boxes for $1.

CARLTON'S NERVE AND BONE LINIMENT

FOR HORSES,

and for the cure of all diseases of man or beast that require external application, and for sprained, sore and stiff joints, strengthens weak limbs, and is also used for contracted sinews, inside galls, swelled legs, cures of all kinds on Horses.

CARLTON'S articles for *Horses* and *Cattle* are prepared from the recipe of a very celebrated English Horse Doctor, and will equal, if not exceed, any of the celebrated, any of the above complaints. They have been used by Farmers, Livery-men, Stage Proprietors, and others, with the most satisfactory results.

Caution.—Buy only the genuine, which have the name of J. Carlton Comstock on the wrapper of each article.
