TWELFTH YEAR. FRIDAY MORNING, APRIL 3, 1891. ONE CENT

"SKIN-THE-GOAT" IS JOVIAL.

THE PHŒNIX PARK ASSASSIN TURNS AUTHOR AND POET.

Removal of the Surviving Murderers of Lord Cavendish from Downpatrick Jail—The Queen Very Much Affected at the News of the India Massacre—Koch Downcast and Disappointed.

LONDON, April 2.—Accounts of the removal of the prisoners from the Downpatrick jail say that there was a great crowd present to see the Phœnix Park murderers as they came up, and when one of the prisoners sang "God Save Ireland" the majority of the crowd joined in the song. The greatest interest was shown in Fitzharris, alias "Skin-the-Goat," who looked remarkably strong and healthy. He was the most joyous of all the prisoners, and as he came from the building he began to repeat a number of verses of his own composition referring to incidents that had occurred in the prison since his incarceration. Mullett looked pale and delicate, in consideration of which he was placed in an outside car. The other prisoners walked two by two, handcuffed together. McCaffrey, another Invincible, looked well also, as did Nally, who was convicted for the conspiracy to murder a brother of Scrabb. Nally and all the other Crossmaglen prisoners who had been found guilty of this conspiracy to murder appeared in fairly good health.

A special train from the Great Northern Railway had arrived at Downpatrick station last night, in order to do away the necessity of changing cars at Belfast. The prisoners, with their warders, left the station amidst renewed cheering and singing by the prisoners and by the crowd.

ITALY'S TONE MORE PACIFIC.

Little Trouble Is Anticipated in Connection With Fava's Recall.

ROME, April 2.—Premier Rudini to-day sent another cable message to the United States on the subject of the New Orleans trouble. The message is a reply to Mr. Blaihe's last note, and in it the premier says Italy has asked nothing but a prompt institution of regular judicial proceedings against the guilty parties at New Orleans. It adds that it would have been absurd to claim punishment for the offenders without the guarantees afforded by a regular trial. The diplomatic incident, Premier Rudini says, can only be considered closed when the federal Government has declared in precise terms that the prosecutions will be commenced. In the meantime the Italian Government takes cognizance of the Federal Government's declaration, acknowledging the fact that compensation is due to the families of the victims by virtue of the treaty existing between the two countries.

THE PRISONER AT MANIPUR.

The Massacre Instigated by a Brother of the Deposed Rajah.

CALCUTTA, April 2.—It is not known how the affray at Manipur commenced, but it has been learned that Commissioner Quinlon was treacherously seized while treating with the natives. The Manipurs then shelled the residency. The Ghoorkhas defended the place as long as their ammunition lasted, then they fought their way out and escaped across the hills. They met Cowley, who escorted them to Lakipur. A detachment of troops stationed at Langthobal were cut up.

In an interview the deposed Rajah of Manipur declared his brother, the present Rajah, would not kill his prisoners, but would merely hold them as hostages. The only fear is from the uncontrolable Kukis. The deposed Rajah offers to send another brother to endeavor to induce the ruling Rajah to release the prisoners.

Koch Cast Down in Spirits.

BERLIN, April 2.—Professor Koch is reported as being very much depressed with the indifferent success of his treatment for tuberculosis. Even his own partisans regard the hoped-for cure as a failure, and say openly that however valuable the discovery may be from a theoretical and scientific point of view the practical results are not likely to amount to much.

French Fishermen Punished.

PARIS, April 2.—M. Barbey, Minister of Marine, has suspended the certificates of several masters of fishing vessels from Fécamp and withdrawn the certificates of one master for violent assertion of their rights on the Newfoundland banks by firing upon hinderers. The vessels concerned are still at sea.

The Queen Much Affected.

GRASSE, April 2.—Queen Victoria was greatly affected when the news of the massacre at Manipur was communicated to her. The Queen subsequently forbade the usual military band performance which takes place every evening before the balcony where the Queen is in the habit of sitting.

Head of the Bonaparte Dynasty.

LONDON, April 2.—A despatch from Turin states that the Bonaparte family have decided to accept Prince Victor as the head of the dynasty provided Prince Louis, who was named by his father as the latter's successor, would consent.

To Cross the Ocean in Five Days.

LONDON, April 2.—The Cunard Steamship Company has made a contract for the construction of two steamships, each of 14,000 tonnage, designed to cross the ocean in five days.

General Booth Seriously Ill.

LONDON April 2.—General Booth, the head of the Salvation Army, is seriously ill at Washington.

Foreign Brevities.

German steamship companies will raise steerage rates to America $2.50 to-day.

The cones have disappeared from the Pacific volcano, Halemaumau, which now devotes itself to making slight earthquakes.

Smallpox has broken out in the police barracks at Belfast. Several policemen are down with the pestilence and the barracks are closed and quarantined.

A Madrid dispatch says that the Spanish Government is making preparations on an extensive scale to hold in Madrid an exhibition in honor of the fourth centuy of the discovery of America.

The Jackson abduction case is to be appealed to the British House of Lords to see if Mrs. Jackson cannot be compelled to live with her husband in spite of the court's adverse decision.

Burned to Death.

BRADFORD, April 2.—Mrs. Feigner, living on the 11th con. West Gwillimbury, was standing near the stove, when by some means her clothes caught fire and when her son, John Steven, who had been from the house only a few minutes, came in he found her lying on the floor apparently suffocated and badly burnt. Dr. Stevenson was called and did all he could to relieve the sufferer, who died next day.

116 Deaths in Chicago Yesterday.

CHICAGO, April 2.—At noon to-day 116 deaths had been reported, of which fully 70 were the direct result of pneumonia and other pulmonary complaints, complicated with the grip.

IMPRISONED FOR LOVE.

An Alleged Conspiracy on the Part of a Millionaire to Wreck a Man's Life.

CHICAGO, April 2.—Charges of a highly sensational character are made in a suit for $100,000 damages begun in the Circuit Court this morning. The plaintiff is Eugene Dunnivant, formerly a newsboy, who claims that his life has been wrecked as the result of a conspiracy between Orrin W. Potter, the millionaire president of the Illinois Steel Company, and Tom Fox, James Hutchins and Frank Allen, who are also made defendants. In his declaration young Dunnivant avers that in April, 1885, he was a poor boy sixteen years of age, and was then engaged in selling newspapers in the district in which the Potter mansion is situated. While pursuing this vocation he made the acquaintance of Mr. Potter's daughter, a beautiful and accomplished girl. The acquaintance between the young people was distasteful to the girl's father, and Dunnivant alleges that in November he was induced to accompany Frank Allen to South Chicago. Allen had a confederate who was dressed so as to personate plaintiff. Some clothing was stolen presumably by Allen and his confederate, and Allan was arrested. As a part of the scheme to send plaintiff to the penitentiary it is alleged that Allan accused plaintiff of the theft and caused his arrest. He and Allan were jointly indicted for burglary.

At the trial in January, 1887, the daughter of Mr. Potter, knowing her lover's innocence, is said to have employed counsel to defend him. Dunnivant was convicted and sentenced to four years' imprisonment.

Dunnivant served his term in the penitentiary at hard labor, with the result that his health was broken completely, leaving him a physical wreck; hence this suit.

KNOX'S GREAT DAY.

Eclat Attends the Closing Exercises—The Winners of Coveted Prizes—This Year's Graduates.

The closing exercises of Knox College took place in the convocation hall of the college yesterday afternoon. Principal Caven was in the chair and on the platform were: Drs. McLaren, Parsons, Proudfoot, Clark, Middlemiss, Sir Daniel Wilson, Profs. Thompson and Black.

The Rev. Dr. Caven in his opening address dwelt principally upon the work of the college. There were more attending the classes this year than any time during the history of the college. There are at present 130 students in the college. Knox College was not going backward, but forward, in ways forward. There library should be endowed as the college libraries in the States. The alumni were at present doing their utmost to raise the necessary amount of money to extend it and make it more in accord with the standing of the college.

Words of Weight and Wisdom.

Rev. Mr. Wallace, on behalf of the senate, recommended that the title of B.O. conferred on Rev. W. H. Ness of Nova Scotia en absentia which was formerly done by Principal Caven, with a brief explanation of Ness' life works.

Sir Daniel Wilson delivered a powerful address, especially directed to the graduates and students present, on the prevailing agnosticism of the age.

Rev. Mr. Armstrong of Ottawa, on behalf of the alumni, presented Principal Caven with an address.

Principal Caven's reply was brief but very affecting in the sad memories resurrected of loved colleagues and friends now long gone to their rest.

In the evening speeches from Rev. Mr. Armstrong of Ottawa, Rev. R. F. McKay, Priceville; Rev. R. McLaren and many other deacons, at the Bloor-street Presbyterian Church, formally concluded the closing exercises of the college.

She's Now a Countess.

WILMINGTON, Del., April 2.—The marriage of Count R. A. Lavenhaupt and Miss Ellen Bayard, youngest daughter of ex-Secretary of State Thomas F. Bayard, took place to-day at Delamore Place, the Bayard homestead in this city.

WAITING FOR THE VERDICT.

THE FIGHT OF THE BALLOTS ENDED IN SLIGO YESTERDAY.

The McCarthyites Claim the Election by Over Two Thousand Majority—Michael Davitt Very Confident—Humorous Incidents of the Fight of the Past Few Days.

SLIGO, April 2.—There has been a heavy polling in Sligo town, the most important place in the division, and the result is the anti-Parnellites are jubilant while the Parnellites are despondent. Michael Davitt, after a tour of the polling booths, said he was confident the anti-Parnellite candidate would receive a majority of 2000 votes. A large number of electors in North Sligo are illiterate, and consequently the manner in which they have voted is unknown. It is not expected the final result will be known until to-morrow afternoon. None of the ballot boxes will be opened to-night. There have been no serious disturbances.

EVERYBODY SEEMED SUPPLIED.

A Blackthorn Pedlar's Ill-Luck in Sligo—Importing Surgeons.

SLIGO, April 2.—A queer feature of the town for the past few days has been the number of surgeons invited by their professional brethren of the place to assist them in caring for the injured of the various affrays and with an eye to the possibilities of to-day. A pedlar of blackthorn sticks has been doing a lively trade, although nearly everybody seems to be supplied.

The Parnellites have during the campaign made the strongest showing of physical aggressiveness and there are parts of the district upon which not even Davitt would dare to show himself.

There were scores of priests in Sligo to-day assisting in the canvass for the Healy candidate and Bishop Gilhooly himself made personal appeals and directed the ecclesiastical branch of the campaign.

NOTABLE MEN DEAD.

Thomas Charles Baring, M.P. for London, of the Well-Known Banking Firm of Baring Bros.

LONDON, April 2.—Thomas Charles Baring, one of the two members of Parliament representing the city of London, died in Rome to-day of exhaustion resulting from a surgical operation. Mr. Baring was for some years engaged in banking in New York city, and was for more than 30 years a partner in the firm of Baring Bros. & Co., London and Liverpool. Mr. Baring was born at Adderbury, Oxfordshire, in 1831. He was a son of the late Charles Baring, Lord Bishop of Durham. He was the author of "Flower in English Rhyme," "The System of Epicures" and other works. Mr. Baring was a Conservative.

A Masonic Dignitary Dead.

WASHINGTON, April 2.—Gen. Albert Pike, Grand Commander of the Scottish Rite Masonry of the Southern jurisdiction and the chief of the Royal Order of Scotland for this country, died at 8 o'clock this evening at the home here of the Supreme Council of the order, where he had lived for several years. General Pike was well known to all persons interested in Freemasonry, having held the highest offices in the order. He was the ranking Masonic dignitary of the world. He published several books of poems and law reports, but is most famed for his many books on Masonry.

A French Statesman.

PARIS, April 2.—At Augustin Thomas Poyer-Quesnel, a very distinguished French statesman, died suddenly to-day of congestion of the lungs. He was born Sept. 3, 1820.

Yesterday morning there was found reposing in the water meter of the office building at 10 Wellington-street east, owned by Warwick & Co., a piece of dead fish. It was badly decomposed. All the water which has been consumed by the occupants of the building in the past two weeks has passed over the putrid mass.

Mr. George C. Bear of 18 Bond-street informs The World that he does not keep a boarding house, that no sisters were living there last week, and that he has no knowledge of or connection with the case of infanticide, which was discovered in rear of his premises. He objects to being dubbed "a man about town," and says he is "a commercial traveler."

John E. Deall of 69 Macdonald-avenue, employed by Chiropodist Davidson as messenger boy, was arrested on a warrant yesterday charged with forgery. The boy was suffering the pangs of hunger, and being without money to secure the desideratum signed his employer's name to an order for a 15c. lunch at Nasmith's. When Mr. Davidson appeared at the police clerk's desk to swear out a warrant one of the clerks offered to reimburse him for his loss, but the professor would not be mollified.

COMMONWEALTH OF AUSTRALIA.

Canada's Constitution Approved By the Federated Colonies.

SYDNEY, N.S.W., April 2.—The Australian Federation in convention now in session here has approved of the title, "Commonwealth of Australia," for the federated colonies. The convention also adopted the clause of the constitution providing that the chief executive of the federation shall be known as the Governor-General and that he shall be appointed by the Queen. A proposition that the Governor-General should be elected by a popular vote was rejected 35 to 3.

BULLETS DEPOPULATING COKEDOM.

A Mob of 500 Rioters Destroy Pennsylvania Properties and are Shot Down by the Police.

MOUNT PLEASANT, Pa., April 2.—At about 2.45 this morning a mob of about 500 men began rioting at the Standard Works. They destroyed some of the company's property and then proceeded to cut the telephone and telegraph lines of the coke company so that no warning could be sent to the people at Morewood. About 3 o'clock a party of rioters between 400 and 500 strong marched to Morewood. The deputy-sheriffs were soon in readiness to receive the attack. After looting the company's store the rioters marched to the barn enclosure and attempted to break down the gates. They succeeded in doing this and as they entered Capt. Laurer called out to them to halt or he would fire upon them. Their answer was to fire a rattling volley in the direction of the deputies, none of whom were seriously injured. Capt. Laurer then gave the order to fire. Two volleys were fired before the mob broke and ran. Seven fell dead in the public road and 27 were found wounded, four of whom died. The rioters then broke into small groups and made their escape in various directions.

The Dead.

CRESZO BINERO, Italian of Tarrs, shot through the heart.
JOHN FUDORA of Standard, single, shot through the brain.
ANTOIO RIST, Pole, single of Standard Works, shot through the head.
JACOB SCHUCASKEY, Pole of Tarrs, shot through the heart, leaves wife in Poland.
JAMES PROCHTE, Pole, single of Tarrs, shot through the head.
VALENTINE ZEIDEL, Slav of Donnelly, single, shot through the jugular.
PAUL DOHANNIS, Slav of Donnelly, shot in the head, single.

As usual during a raid the strikers were armed with clubs, stones, iron bars and every conceivable weapon obtainable. The volleys from the Winchesters were well directed and but a few rounds were necessary to drive the frightened rioters back into the hills where, out of control of their fellow-strikers had gathered in anticipation of assisting in the raid but not in a battle with guards. The firing on both sides continued hardly three minutes. The volleys from the guards had terrible effect on the compact mass of strikers, while the latter made an attempt to return the fire with what weapons they possessed, but without effect. The dead were left lying in the road while the wounded, estimated at between 40 and 50, were assisted bodily carried away into the hills by their fellows. All day the entire coke region has presented scenes of unwonted excitement. The foreign element especially has been driven frantic. Always turbulent, sullen and ready for desperate measures they are not one whit cowed by the death of several of their number, while they have sedulously concealed in their homes those of their number who were wounded, many, no doubt, unto death.

Late to-night word was received here that two more men concerned in the riot had died in strikers' houses near the Morewood works, where they had been dragged by their fellows. Their names could not be learned, but it is known that one was an English-speaking foreigner. These two deaths make nine in all that are known, but there is no doubt others are dead or in a critical conditions. Reports late to-night from all over the region indicate a fearfully dangerous and excited condition of affairs and the word that the military was soon to be on guard was received by the law-abiding labor officials and coke operators alike with the liveliest satisfaction at Leisuring.

At 9 o'clock this morning another attack was attempted by the coke strikers and three more were killed. Twenty-five of the rioters wounded in this last scuffle. This story has not yet been confirmed from Morewood.

Labor officials deny the men at Morewood were killed for good cause and warrants have been issued for the leaders of the mob charge of murder, with General Manager Lynch of the Frick Company and Superintendent Ramsey of the Morewood plant charged as accessories before the fact.

Their Sailboat Upset.

DETROIT, April 2.—The body of a man recovered from the upset sailboat in Lake St. Clair yesterday evening was identified today as that of Fred Bedore, son of Joe Bedore, the well-known boat keeper at St. Clair Flats. The other is known to have been Jacob Kehl, son of Henry Kehl, who keeps a place near Bedores. The young men sailed down from the flats Tuesday to sell some ducks and started back early yesterday morning.

"La Flora!"

To those smokers who prefer a full-flavored Cigar, free from that rankness usually found in the imported article that is offered as fine goods, we respectfully suggest giving our "La Flora" brand of clear Havana Cigars a trial, feeling satisfied that they will fully demonstrate the justifiability of our claim as to their superiority over the imported, and at much lower prices.

"La Cadena!"

The success that has crowned our efforts to place before the public a really fine, sweet, mild and mellow Cigar, has been much greater than anticipated. Our "La Cadena" brand can better be appreciated by those smokers who have been in the habit of smoking fine "Vuelto" Cigars of well-known and reliable Havana factories, inasmuch as they can more readily appreciate and enjoy them than those who have been accustomed to the heavier grades of tobaccos that are used in the manufacture of the majority of the imported Cigars brought into this market.

Killed by a Log.

EXETER, April 2.—While Mr. Cotley of Kirkton was driving through the woods on a load of logs with his 8-year-old son, the latter fell off, and a log following struck him on the head fracturing his skull. He only lived a short time.

No free samples—all worth their price—Hallamore's Expectorant in 25 cent bottles.

The Loss of the Lily.

VICTORIA, B.C., April 2.—News was received to-night of the total wreck of the sealing schooner Lily in a storm off Dodges Cove, west coast, on Tuesday. No lives lost.

Whatever you do, friend, don't miss the Calisthenic entertainment in Association Hall to-night.

Hotelkeeper Drowned.

PORT HURON, April 2.—Sylvester Burke, one of the proprietors of the American House, Fort Gratiot, while crossing the river from Point Edward last night accidentally stepped off the bow of the car boat and was drowned. Deceased was 28 years of age and unmarried.

ASSEMBLY NOTES.

A Financial Institution Which Wants to Increase its Stock to $5,000,000.

The bill to amend the act incorporating the Toronto Financial Corporation is a revival with amendments of the bill passed in 1873. The incorporators then were: D. Galbraith, Donald McKay, J. Watson, J. Scott, W. H. Dunspaugh, J. Enoch Thompson, John Kerr, W. Mortimer Clark and R. Hunter of Toronto and Plummer Dewar of Hamilton. The company had a capital stock of $200,000 and was empowered to increase that amount from time to time to $500,000. Difficulties were experienced in organizing and establishing the company on account of some of the provisions of the act and the want of other provisions. Accordingly the company has petitioned for necessary amendments. The name is to be changed to "The Canada Mortgage and Investment Company," the provisional directors are to be James K. Kerr, W. R. Brock, W. Macdonald, F. Nicolls and E. Galley, the capital stock is to be $1,000,000; the capital stock may be increased from time to time to $5,000,000, etc.

Truancy and Compulsory Education.

Mr. Ross' bill respecting truancy and compulsory school education makes a number of important changes. It provides that all children between 8 and 14 years of age shall attend school for the full term during which the school of the section or municipality in which they reside is open each year, unless excused for reasons mentioned. The present law places the age limit at 7 and 13 years and the period of attendance at 100 days. The new bill also provides that the police commissioners, or, in cases where there are no police commissioners, the municipal council of every city, town, incorporated village and township shall appoint one or more persons to act as truant officers for the enforcement of this act. The truant officer shall, for the purposes of this act, be vested with police powers, and shall have authority to enter factories, workshops, stores and all places where children may be employed, and shall perform such services as may be deemed necessary for the enforcement of this act. And it shall also be his duty to institute proceedings for breach of the act. As a penalty, instead of $5 as at present, the bill provides that any person or officer mentioned in this act, and designated as having certain duties to perform in the enforcement of any of its provisions, neglecting to perform any such duties, shall be liable to a fine of not less than $25 nor more than $50 for each and every offence.

After a Railway Bonus.

A deputation consisting of Mr. C. J. Pusey, president of the Irondale & Bancroft Railway, J. Burnham, M.P., J. R. Stratton, M.L.A., T. Blezard, M.L.A., J. B. McWilliams and R. Pearse of Peterboro, Mayor Walters, H. O'Leary, Col. Deacon and E. H. Hopkins of Lindsay, and W. Ince and G. M. Rose of the Toronto Board of Trade, and J. Lenchart Gordon waited upon the Government to ask a bonus for that railway, representing the great advantages which would result from developing the mineral resources of the region through which the road will run.

A Contradiction Between Mr. Hardy and Mr. Dryden Requiring Explanation.

The debate on the Treasurer's statement was concluded in the afternoon by vigorous speeches from Mr. Meredith and Mr. Ross. The evening was spent in passing the estimates of expenditure for 1891. Considerable progress was made.

A curious difference of opinion was manifested between Mr. Hardy and Mr. Dryden over the proposed expenditure on immigration. A deputation from the Trades and Labor Council consisting of W. H. Farr, chairman, C. March and D. J. O'Donoghue of the Legislative Committee waited upon the Minister of Agriculture for an explanation of the increase from $3800 to $10,000 for immigration. Mr. Dryden said that of the increase $1000 was for maps, circulars, etc., and $3000 to encourage settlers in the Rainy River district. But the principal expenditure for a long while would be recognised and the same help given to suitable settlers from cities and other places in Ontario, as well as from other countries.

A few hours after words the news came up in the House and Mr. Meredith asked if and would be given to suitable persons in Ontario who might want to go to that district. Mr. Hardy replied that any Government which officials and coke operators alike with the officials would undertake to move people from one part of the country to another would have a big job on their hands, and added, indistinctly as he sat down, something to the effect that the expenditure in question is in Mr. Dryden's department it is proable that this explanation is the proper one.

Under the head of legislation appeared the item of $750 for the law clerk, Mr. A. H. Dymond. The former law clerk, Mr. J. R. Cartwright, now Deputy Attorney-General, received a salary of $1000. Mr. Dymond performs efficiently all the duties of law clerk, including the drafting of bills, and the importance of the office would seem to justify a larger salary, or at least one equal to his predecessor.

A Government Caucus.

The Government supporters held a caucus yesterday afternoon. Dr. McKay and Mr. Dack, the whips, marshaled the forces in room 16 and then held their backs to the door. Some of the members, especially those from the farmers, wanted to know how long the session was going to last. Plowing time would soon be at hand, but there would be no hands to guide the plow. It was decided to rush business hereafter as much as possible and to hold night sittings regularly in order to get through at an early date.

Some Maiden Speeches.

The debate on the Treasurer's statement, which was concluded yesterday afternoon brought out a number of maiden speeches which were of unusual excellence, especially on the Opposition side of the House. Mr. McCleary's effort was particularly commended by Mr. Hardy. Mr. Miscampbell, who had the honor of defeating a minister, Mr. Drury, spoke vigorously and to the point. His desk-mate, Mr. Campbell, who redeemed East Algoma by defeating Mr. Lyon, was well known to the House as a campaigner, and fully sustained his reputation. He made a good point in urging that the Government should do more for the development and settlement of his district which contributed so largely to the Provincial revenue by the sale of timber and mineral lands. He also made a strong point against the Government for its vicious administration of the license laws, claiming that the power of appointing commissioners and inspectors should be given again to municipalities under proper restrictions. Mr. Magrood has a powerful voice and a pleasing manner. On the other side of the House, Mr. Cleland, who defeated Mr. Creighton in North Grey, and Mr. H. Mackenzie of East Lambton produced good impressions by their maiden speeches.

The Normal School for London.

The large and influential deputation from London had its interview with Mr. Ross yesterday morning regarding the establishing of the new Normal School in London. The deputation left with the impression that their wishes would be acceded to.

Notices of Motions.

Mr. Whitney—Enquiry. What date do lectures commence in University College, and what date do they end in each year?

Mr. Barr—Return showing what municipalities have passed bylaws under the provisions of the 4th section of the act 53 Vic., Chap. 55, imposing a business tax in lieu of the tax on personal property and what municipalities, after consideration of the question, have decided not to put the provisions of the said section into effect.

Mr. Bishop—Return showing what proceedings have been taken by the government investigating the business carried on by the Lion Provident and Life Association, with copies of any reports or orders in council connected therewith.

Square Pianos, by leading American makers, Dunham, Haines, Gabler, etc., slightly used, fully guaranteed, from $90, liberal cash discount on easy terms. Suckling & Sons, Yonge and Adelaide-streets.

THE MINES OF ONTARIO.

A BIG DEPUTATION TO THE ONTARIO GOVERNMENT.

Wanted, a Minister of Mines—Mr. Conmee Introduces the Delegates and Hamilton Merritt Reads the Preamble—The Opinion of a Government Follower is Not Favorable.

"While recognizing the desirability of disturbing as little as possible existing laws and regulations relating to mining matters and the adverse effect such changes might make on capitalists, prospectors and others now attracted to our mining district, and being desirous that everything possible should be done to encourage those who are interested, or likely to become so, and having regard to the interests involved and the urgent necessity for obviating complications and delays in the mode of acquiring mining lands and mining rights, as well as the securing of a more systematic course of exploration, and a more certain development of mining location, it is the opinion of this convention that such important industries as mining and metallurgy deserves the increased care and attention of the Government and that the following resolutions passed by this convention be acted upon by the Government at the earliest possible date."

These resolutions have been published.

Such was the preamble presented to three of the most influential members of the Ontario Cabinet yesterday, and presented, too, by one of the most influential deputations to the Provincial Government. Those present who held portfolios were:

HON. OLIVER MOWAT.
HON. CHRISTOPHER F. FRASER.
HON. ARTHUR S. HARDY.

The member from Algoma, Mr. Conmee, introduced the deputation. They included nearly every member of the mining convention, and the Little Premier received them with his customary smile.

Mr. William Hamilton Merritt read the resolution adopted by the convention and which have already been published. He said that while the mining interests had not been intentionally slighted they were of such a character as to deserve serious consideration. The convention would like to see a corner stone and foundation upon which to rear the financial interests of the province.

Mr. Mowat replied with his customary phrase "that the matter would be considered." He had read the reports of the proceedings of the convention with great interest. They were of a very important nature and covered a great deal of ground, and the government would give the matter their best consideration before the end of the session. And with this assurance the delegates were fain to be content.

But The World can state with but slight fear of contradiction that the much wished for new portfolio of "Minister of Mines" will never be created. Certainly it will not be created during this session. This statement comes from one of the staunchest supporters of the Government who yesterday said: "There is nothing in it. The Government do not entertain the idea at all. If they intend to adopt any proposition at all it will be that of creating a separate bureau with a deputy; but I scarcely believe that they will even do this."

And remember that this came from a Government supporter who is as deep in the secrets of the Government as are any of the followers of Oliver Mowat.

THE ROYAL GREENS.

Their Initial Muster Last Night—Everything Salubrious—Regimental Orders.

The Grenadiers paraded last night at the Drill Shed for the first time this season. Their strength was 310, all told, including the band. A few movements were practised as far as the size of the shed would permit, and were very well done after the long rest during the winter.

Many recruits were sworn in, both for the old companies and the two new ones, and everything points to a successful season for the regiment.

REGIMENTAL ORDERS.

Detail for week ending April 11. Orderly officer, 2nd Lieut. Boyd; orderly sergeant, Sergt. Cox.

The regimental parade will take place on Tuesday evening instead of Thursday evening next week.

The following will be added to the rules and regulations for rifle practice, published in the Regimental Orders on May 8, 1890: No non-commissioned officer or man will be allowed to compete for any of the regimental prizes who has not attended at least 60 per cent. of the regimental parades for the current year, or for that period in which he has been a member of the regiment, absence with leave or on account of certified sickness accepted.

Authority having been received for the undermentioned officers of the 35th Battalion to be attached to the regiment for the spring drill, they will do duty with companies as follows: Major Chadwick with C Company; Lieut. Demoche with H Company; 2nd Lieut. Windeyer with B Company.

J. B. MCLEAN,
Lieut. and Capt.-Adjutant.

Remi Lamontagne's Body.

MONTREAL, April 2.—Mr. J. H. Pillet, advocate, has received an acknowledgement from Quebec of the petition from the Lamontagne family for the body of Remi Lamontagne. The whole record of Leda Lamontagne will be sifted out and the certified copy of the whole sent to the Washington authorities to establish that the spirit and letter of, the extradition of Leda Lamontagne have been broken by her present imprisonment for an offence for which she was not extradited.

$8000 Fire at Brooklin.

BROOKLIN, Ont., April 2.—Last night about 12.30 fire broke out in the two-story brick block in Baldwin-street owned by Bickell & Sonley and occupied by R. C. Warren as a general store, G. N. W. Telegraph office, Bell Telephone Company and by O. H. Wilson as a dwelling. It originated in the store and before any alarm was given had destroyed the entire stock. Total loss about $8000.

Buried Under a Load of Wood.

QUEBEC, April 2.—A lad named Giroux, aged 10 years, of the parish of Beauport, was found dead beneath a load of green wood. The boy started in the morning with a dog and sleigh to gather wood at some distance. Having loaded, he was on his way home, when the load capsized and imprisoned him under its weight. When found at night the boy had been dead for some hours.

Frozen to Death.

WINNIPEG, April 2.—A Nova Scotian named Archie McPhail, who has been trapping on Lake of the Woods and who has been missing since early in February, has been found frozen to death. On February 2 he visited Keewatin and sold furs, returning with supplies. It is supposed he became exhausted when within two miles of home, fell to the ice and was unable to rise again.

Harrison Continues Calm.

WASHINGTON, April 2.—That the President does not believe that the Italian embraglio will take a serious turn is evidenced by the fact that he is making arrangements for a trip to the south and west during the present month.

The World is the most extensively circulated and widely read newspaper published in Canada. It knows no party or personal allegiance in treating public measures.

The World aims to have the largest circulation by deserving it, and claims that it is unsurpassed in all the essentials of a metropolitan news paper.

The World is offered at a price which places it within the reach of all: $3 per annum, $1 for four months; 35 cts. for one month.

Mr. Mowat Should Encourage the Iron Industry.

The World has been a tireless advocate of protection as a great national principle, essential to the development of the resources of this Dominion. It has adhered to that principle with the utmost fidelity and will defend any Government in this country, of political name whatsoever, that honestly endeavors to encourage home industries. We confidently hope to see and strive to hasten the time when Canada, with vast agriculture, mercantile, mining and manufacturing populations in well-balanced prosperity will flourish as a symmetric and measurably self-contained state in no respect inferior to any nation on earth. Is this not a proper ambition for all men to share? Imbue Canada with such a purpose and she will not beg alms of her greatest competitor in every branch of natural and industrial production. She will not loil about in indolent poverty and beseech a neighbor whose only advantage has been priority of birth, to doll out the mean portion of a Lazarus. She will neither be a beggar at his gate nor a servant in his kitchen. Free by birth, an heiress in her own right, she will rear up on her patrimony a structure surpassing his in point of design and fineness of finish. Looking across at that which represents the wealth and progress of Jonathan, it will not be to covet, but that she may avoid the errors of his architects. Such is the spirited course we would have Canada pursue—a policy of active enterprise, hopeful endeavor, and bold self-reliance. There is honor and wealth—every sentimental and material reward worth striving for, awaiting such a policy.

The Dominion Government has done much towards this end, and the protection of the Canadian interests may more properly come under its purview than that of the provincial legislatures, yet the latter are not absolved from certain obligations in this regard. Ontario is vitally interested in mines and these demand the studied concern of both Parliaments. Though the Dominion Parliament should neglect its whole privilege, this would not release the Local Legislature from its duty to the mineral interests. Ontario is a wealthy province and whatever be the dimensions of its surplus there is no disputing that it is in easy circumstance and well able to encourage the iron and steel industries. There is not a nation in the world that amounts to anything that does not manufacture its own iron and steel. The Legislature might offer a bonus for the production of pig iron, and in granting subsidies to new railway lines do so in the form of Canadian-made railroad iron and steel. The greatest natural mistake ever made was to permit the C.P.R. to be laid across the continent with rails rolled outside of Canada. The chance there presented itself of establishing iron and steel manufactures at a trifling cost to the country. The immense expenditure for rails was sent abroad. As James G. Blaine wrote in defence of the principle upon which the United States built up its home manufacture of steel rails:

"Between 1870 and the present time considerably more than 100,000 miles of railroad have been built in the United States. The steel rail and other metal connected therewith involved so vast a sum of money that it could not have been raised to send out of the country in gold coin. The total cost could not have been less than $500,000,000. We had a large interest to pay abroad on the public debt, and for nine years after 1870 gold was at a premium in the United States. During those years nearly 40,000 miles of railway were constructed, and to import English rail and pay for it with gold bought at a large premium would have been impossible. A very large proportion of the railway enterprises would of necessity have been abandoned if the export of gold to pay for the rails had been the condition precedent to their construction. But the manufacture of steel rails at home gave an immense stimulus to business. Tens of thousands of men were paid good wages, and great investments and great enrichments followed the line of the new road and opened to the American people large fields for enterprise not theretofore accessible."

Mr. Merritt, in a paper read before the geological and mining section of the Canadian Institute, quite explodes the oft-quoted fallacy that one smelting furnace would glut the Canadian market. He quotes the geological survey as showing that Canada consumes about 400,000 tons of ordinary pig-iron, which, if made at home, would represent at actual prices about $5,000,000 to the makers. He said: "Taking this amount, say 400,000 tons (which we must believe is constantly increasing from year to year), we have the product of 27 to 28 blast furnaces being used per annum in Canada, instead of what we often hear—that one blast furnace would glut our market.

While Canadians use as much iron and steel per capita as Americans, yet the amount of pig iron produced by the Americans per capita is 134 times as large as the Canadians per capita production. This condition of things demands correction, unless Canadians find shelter in believing themselves, with equal advantages, inferior to the Americans.

The amount of protection and encouragement at present afforded the iron and steel interests of Canada is inadequate. It advances the prices without yielding those great benefits that a more vigorous and determined policy would speedily usher upon the scene. The two Governments may not unite on a policy, but they should each pursue an honest purpose, serving the same great end.

The scheme that some favor—the scheme that governmental neglect has permitted to usurp the place and stead of an intelligent mining and metallurgical policy—is to drift idly and aimlessly, awaiting the time when the iron mines of New York, New Jersey and the Lake Superior region are exhausted, and the Americans are forced to come in and develop ours. Such cannot be called a policy. The American mines are like our own practically inexhaustible. Canadians can achieve nothing on the lines of past action, or timid inaction. There must be effort. Our mines should do more than afford work to dray horses in hauling ore to foreign furnaces. With a spirited policy we can extract large profits from our ore at every stage, from the bottom of the mine to its finished condition in the various manufactures. It is foolish to cry for more room, for we have it in abundance, but we must emulate the American course of "do and dare" that led them to valiant endeavor until last year their total output of pig iron exceeded that of Great Britain.

The Ontario Legislature should recognize that the most important interest with which it has to deal is this. Mr. Mowat can do a lasting service to the country, silence an army of critics, and do much to disarm his immediate opponents by creating an efficient Mining Department and furnishing it with a thorough policy of push and enterprise. He has emulated Sir John Macdonald in many things; let him go him one better in the matter of the encouragement of Ontario-made iron.

It appears to be pretty well understood that another judge is to be appointed for the county of York. Such an appointment is certainly necessary, as both Judge Macdougall and Morgan are greatly overworked and find it hard to keep up with the cases in hand. The name of Mr. Morson, who has for some time been acting as judge, is we believe, mentioned for the position. Mr. Morson has given every satisfaction to the legal profession and the public at large, and his appointment would meet with general approval.

The sensational story about 100 crofters being entrenched upon the Island of Lewis, off the Scottish coast, determined to recover and hold at all hazard to life and limb the rich farms, from which they had been evicted, is probably a hoax. A local knowledge of the Island discredits the statement that it possesses rich farms and deer parks. Three-fourths of it is worthless, it is all treeless, and the only crofters upon it are stretched around the shore, and subsist by herring fishing. The Island is the property of a Christian lady, noted for her good works among crofters and all classes, never resorting to eviction. There will hardly be serious trouble on the Island of Lewis.

The Municipal Act is the sand-bag that eager new members of the Legislature punch to test their muscle, and at the same time dazzle distant friends with their bravery. Scores of young members have assailed the sand-bag and grown old watching others thump it and bump it, and now Mister Tait is going to take a clout at it himself.

The demands of that halfbreed, Bremner, should either be satisfied or silenced with a sudden thud. He is at Ottawa again furtively waiting for the House to open. If this country owes him anything pay it, but if the wily trapper is trying to skin the noble Canadian beaver he should be chased.

The Corpse Is Not Ready.

Grip is still in the graveyard business—pictures Sir Richard Cartwright as digging the grave of Protection. Poor Bird, incompetent to read the signs of the times! The walls of the grave that Sir Richard is digging will fall in and bury him before the corpse of Protection is ready. If Grip wished to reflect the present-day drift of things he could with more appropriateness show us the Fair Trade party of England digging the grave of the Cobden Club! Protection is not dying or going into decline. Germany, France, Russia, Italy are becoming more and more protectionist every day. Spain is waking from her lethargy and seeking true rejuvenation in the encouragement of home industries. The United States, the greatest success known to history in the way of modern national development, is a marvelous instance of the effects of Protection. Australia and New Zealand are rushing into rampant protectionism. What is the matter with unhappy Ireland? Her people base half their claim for "emancipation" on the ground that they would be able to encourage home industries. And is there any sign in Canada of the Canadians going back on their National Policy? There is not, on the contrary the only new sign of the times is that Grip, Globe & Co. (arrant free traders by profession) are seeking political and commercial alliance with the United States, the greatest protectionist nation on earth. Go to, Poor Bird, you makes its larf by your stupidity. Yes, you're a Stupid Bird—if you're nor a Born Croaker. Croak no more, croak no more.

University Extension.

Editor World: At the last meeting of the senate of the Provincial University the subject of "university extension" was brought before that body by a clause in a report from the Board of Arts Studies recommending "that, while recognizing the desirability of extending the facilities of a higher education in arts, the University of Toronto do not yet undertake to establish a scheme of university extension." This was only a majority report from the board, and in order to put the matter fairly before the public the minority report should have been given to the press along with it. The latter was as follows:

1. That "university extension" work has been carried on in England continuously since 1873, at first by the University of Cambridge only, but for many years also by the University of Oxford, the Victoria University and the "London Society for the Extension of University Teaching," on the advisory board of which the universities of London, Cambridge and Oxford are represented.

2. That, on the testimony of experienced and eminent "extension" workers, the system has served a useful purpose, on the one hand by promoting popular culture and on the other by securing for the universities an increased measure of popular sympathy and support.

3. That so far as the educational value of the system is concerned it has, on the same authority, passed beyond the experimental stage, the only element of doubt as to its future development and permanence being the question of financial support.

4. That in view of these facts and opinions as to the utility of the "extension" system in England, it is recommended that "extension" work be undertaken by this university on lines similar to those on which it is at present carried on by the Universities of Cambridge and Oxford, and that a statute be passed to provide the means for giving effect to this recommendation.

Permit me to point out that the effect of the majority report is to mislead the public as to the nature of the work carried on under the name of "university extension." Its aim is not to throw more work or more expense on the University in the way of giving more instruction than is now given within its walls. No University professor is asked to do more than he is now doing, nor is the University asked to contribute any of its already too limited funds. The cost alike of teaching and of examination is expected to be borne entirely by the local centre where the work is carried on. All that is asked of the University is to take the responsibility: (1) Of approving of the course of study; (2) of prescribing the conditions; (3) of appointing the "extension" lecturers, and (4) of appointing "extension" examiners. Whether a local centre that provides the students and the funds is making an unreasonable request when it asks a public university to recognize work done under such a system I must leave the public (who own the University) to judge. My own opinion is that the arrangement is one under which the University is sure to be amply repaid for any encouragement it may lend to any useful scheme for promoting popular culture.

THE TELEPHONE QUESTION.

Some Facts Relating to the Establishment of the Opposition Company in Peterboro.

[From The Peterboro Morning Times.]

"Our Toronto contemporaries of the 27th inst. have accounts of the opposition that the Toronto Telephone Company are meeting with before the Board of Public Works of that city in their attempts to obtain a franchise for the purpose of giving the citizens a superior telephone service—far less rates than they have heretofore enjoyed, and the matter is of local interest to us in Peterboro, for more reasons than one. We have here to-day an "opposition" Telephone Company—a purely local organization—originally promoted by the gentleman who has been appointed the General Manager of the Toronto Telephone Company—Mr. D. O. Frye of Peterboro—and developed by a large number of our citizens of means and reputation, who have invested their money in the enterprise because it promises to be a good paying investment, and have cheerfully given their time and attention to the establishment of the Company, which in less than eight months from the start has furnished us with what we can confidently claim to be the best telephone system to-day in the Dominion. We have been assured by experts, who have no interest whatever in the new Company, that the entire plant—lines, central office machinery and instruments—are second to none, and for its clear talking, prompt service, and great contrast to our old monopoly telephone business. We can rely on our daily observations. Another fact that the Company are daily increasing their subscriber's list, and when we see a similar Company formed in the largest city of the province we can but depreciate the attempts that are being made by interested parties to prevent the city government from granting the desired franchise. Poles and overhead wires may be to some extent a nuisance in a city the size of Toronto, but if our ears have not deceived us the nuisance of an inefficient telephone service, at the immense rates charged, is as great on the other hand, and while it is not to be wondered at that a Company who has enjoyed monopoly and the profits of monopoly as long as the Bell Company have in this part of our Dominion, should use every effort to prevent the advance of a Company which shall break the monopoly, especially in one of their "best paying sections," yet it would astonish us in this town, where our Council were almost unanimous in extending every facility to the new Company to find that the frantic efforts on the side of monopoly should have one ounce of weight with those gentlemen composing the Board of Works and the members of the Council. The seeds sown in this town to try and prevent the Ontario Telephone Company a right-of-way for poles and wires in our streets fell in barren places, and we doubt that any man to-day would express himself sorry that he voted to give the home local Company the same pole wire rights that were enjoyed by other corporations foreign to us. Development has proved the wisdom of giving the franchise, and to-day our townspeople are enjoying a double telephone service, paying for the same 40 per cent. less than they paid for the one in the bygone days when monopoly reigned, and if the same state of affairs is brought about in the Queen city by the advent of the new Telephone Company, the telephone users there (and they number thousands) may figure that they will save to themselves something like $60,000 per year and at the same time obtain a service which renders it possible for subscribers to talk with each other when even they desire without intervention of the roar of electric light or hearing a dozen other people talking at one and the same time. This has been our experience and may Toronto profit by it.

We are also anxiously looking forward to the establishment of a metallic circuit between here and Toronto, connecting our Ontario Telephone Company subscribers with those of the Toronto Telephone Company in that city, and that the day is not far distant is our earnest wish."

The City's Property.

Those present at yesterday's meeting of the Property Committee were Ald. Small (chairman), Allen, Phillips, Stanley, Gowanlock, Kerr, Park and Leslie and City Commissioner Coatsworth. The committee resolved to allow Bryce Brothers sue for their account for concreting the Lombard-street Plunkett flooring. A sub-committee will report on Paul Pattullo's application for leave to place a floating boathouse in the bay near Brock-street wharf. Ald. Leslie refused to vote $340 for repairs, etc., to the East Toronto Society office on the ground that if the city had to spend the money it ought to have the patronage. The commission will report on the condition of No. 1 Police Station, on the statement by the chairman that it was a very dirty place.

In Aid of the Zenanas.

The annual sale of ladies' work held yesterday afternoon in the schoolhouse of St. Peter's Church, Carlton and Bleecker-streets, was well attended in spite of the weather. Its object was to aid foreign mission work. All descriptions of work were offered for sale. Prices asked were reasonable and far below those usually demanded at bazaars. The sale was under the auspices of the Women's Association and will be continued this afternoon and evening. High tea was served as 6:30 o'clock.

THE REFORMED EPISCOPALIANS.

The Proceedings at the Annual Business of Christ Church, College-street.

The Easter meeting of this church was one of the best and most interesting in the history of the congregation. The rector, Rev. T. W. Campbell, B.D., presided. The reports presented by the various officers and organizations were very satisfactory, showing a steady growth in all departments of church work. Each fund shows a balance on hand, after meeting all liabilities to date. The amounts raised during the year, exclusive of balances from last year, were: General fund, $1998.24; building fund (since October, 1889), $3683.90; Ladies' Association, $295.49; Sunday school, $223; Y.P.S.C.E., $34.46; Women's Missionary Society, $45.87; communion offertory, $39.52; Guild of Christian Endeavor, $18.40; Christmas offertory, $43; total, $6381.87; $437 from the general fund was given to the missionary and other benevolent schemes of the R.E. Church. Cordial votes of thanks were tendered to the various societies, the choir and the officers and the following resolution, moved by Mayor Clarke, was adopted unanimously: "That at this annual Easter meeting the congregation of Christ Church desire to place on record their appreciation of the untiring services and unremitting Christian work of their esteemed rector, Rev. T. W. Campbell, B.D., whose efforts since he has been in our midst, and especially during the past year, have, under Divine Providence, been signally blessed, as evidenced by the marked increase in church membership as well as in finances. Be it further resolved that the rector's salary be increased by the sum of $200 for the ensuing year." The following officials were elected: Wardens, C. C. Witchall, R. Barrett; vestry, J. Matthews, T. L. White, J. Barrett, F. P. Birley, S. Gregson, H. E. Trent, R. Farley, W. Walker, W. J. Rimmington; vestry clerk and treasurer, C. Palmer; financial secretary, G. H. Mitchell; ushers, J. Witchall, J. F. Barritte; music committee, the rector, C. C. Witchall, F. P. Birley, G. F. Bromley and G. H. Mitchell.

THE NOBLE WARD PROTESTS.

They Want the Saloons to be Limited to Queen and Yonge-streets.

A meeting of St. John's Ward temperance people was held last night in the Chestnut-street Mission Hall to protest against the issue of any licenses in the ward, except in Yonge and Queen-streets. Mr. John L. Robertson presided. Among the wardens present were Mr. Michael Basso, the ward Italian Consul; City Missionary Hall, Mr. Beverley Jones, Mr. John S. Lucas.

A prolonged discussion took place as to ways and means of attaining the desired end.

City Missionary Hall said the commissioners were by no means inexorable. They had cleared the Island, the exhibition and St. Paul's Ward of taverns.

The following petition was unanimously drafted for signatures:

"We the undersigned householders, voters and residents over 21 years in the Ward of St. John, being convinced that the sale by retail of intoxicating liquors, whether by the glass at the tavern or by the bottle at the liquor store, is inimical to the interests and is calculated to impoverish and disturb the peace and welfare of the community, and that therefore the community would not be benefited by their renewal, pray your honorable board to issue no licenses for either taverns or shops within the ward of St. John, save such as may be issued on Queen-street and Yonge-street in the said ward."

A DEVOTED BISHOP HONORED.

Solemn High Mass de Requiem for Archbishop de Charbonnel.

A cablegram to Archbishop Walsh on last Sunday brought the sad intelligence of the death of Archbishop de Charbonnel. His Grace immediately communicated the sad news to the bishops of Canada and notified the priests of the archdiocese by circular.

An impressive ceremony took place yesterday in St. Michael's Cathedral, which was heavily draped, d'catafalque bearing the white mitre and purple stole, was erected in the sanctuary.

The mass was celebrated by Very Rev. Vicar-General Rooney, assisted by Father Conway as deacon and Father Sullivan as sub-deacon. His Grace, supported at the throne by Very Rev. Vicar-General McCann and Dean Harris. His Lordship Bishop O'Mahoney was assisted by Very Rev. Dean Cassidy and Father McInerney, C.S.S.R. There were also present in the sanctuary Rev. Fathers Teefy, Dumouchelle, Challaurd and O'Donohoe from St. Michael's College and the Fathers Walsh, O'Reilly, William, Cruise, Rohledor, McBride and McMahon.

Rev. Father Teefy, B.A., will preach on next Sunday at 10.30 mass on the life and labors of the deceased archbishop.

THE DOG FANCIERS.

Arrangements for a Grand Exhibit at Toronto's Great Fair.

President Withrow occupied the chair at the meeting of dog fanciers called yesterday in the Public Library building to organize in view of the approach of the fall fair.

These were present: Secretary Hill, D. C. Ridout, Joseph Dilworth, C. E. Postlethwaite, ex-Ald. Maughan, John Massie, J. Henderson, W. S. Jackson, Robert Junor, J. G. Mitchener, H. B. Donovan, C. H. Nelson, C. A. Stone.

Mr. Postlethwaite was elected chairman and Mr. Maughan vice-chairman. Mr. Stone was re-appointed superintendent and secretary.

Mr. Massey gave notice of motion that no member of the committee be allowed to compete for prizes offered at the bench show.

An offer communicated by the secretary of the American Spaniel Club was accepted, to give the cocker spaniel challenge cup at the next show provided a member of the club is judge.

On motion of Messrs. Massey and Nelson these gentlemen were constituted a sub-committee to recommend the list of prizes and names of judges to be appointed, and present their report at the next meeting, on Thursday, April 9, at 4.30, in the same place: Messrs. Kirk, Jackson, Donovan, Junor, Mitchener, Wilson, Massey and Nelson.

Clarets and Sauternes.

THIS QUESTION IS IMPORTANT.

Are We to Have Another Epidemic?—Typhoid and Diphtheria Must be Suppressed—A Physician's Opinion.

"The cesspool and privy pits of Toronto are in a very bad condition."

Such was the substance, if not literally the words, of Dr. Allen of Carlton-street, who has been appointed in place of Dr. Canniff, Medical Health Officer for the city.

Dr. Allen's statements go to show that unless these privy pits and cesspools are properly disposed of before the warm months of summer there will be an epidemic of some kind.

For the purpose of obtaining some possible solution of this problem three gentlemen were yesterday appointed to drive around the city: Chairman Ald. Graham, Ald. Lucas, Ald. Orr and the Medical Health Officer, Dr. Allen.

It is said by a gentlemen whose word cannot be doubted that when the deputation visited the outlying districts they were met by such arguments as that the tollgate matter had not been attended to and that the Dovercourt school question had not been attended to.

There were plenty of places, said The World's informant, which were suitable for the deposit of these privy pits and cesspools.

"We are threatened," said he, "with diphtheria and typhoid fever and we propose to take preventive measures as quickly as possible."

This is the proposition offered by those who were in the delegation: "We would offer the County Boards of Health a sum of money to be expended by them in looking after our excavators, and seeing that refuse was deposited only in such places as are remote from all populated parts, and should be taken to dumping grounds in a sealed cart."

The present condition of affairs calls for prompt action and it is to be hoped that the gentlemen entrusted with the matter will see to it at as early a date as possible.

INSTRUCTORS IN MILITIA CORPS.

Those Who Have Satisfied the Examiners This Easter.

The examinations of the officers and privates who have been in training at the New Fort for the past three months with a view to qualifying as instructors to corps of militia have just been concluded. The short course is three months and the special course is seven days or over. The examiners were Col. Otter, Major Vidal, Capt. M acDougall and Lieuts. Laurie and Evans.

The classes are 1st and 2nd, grade A, for officers, and 1st and 2nd, grade B, for non-commissioned officers and privates. The results of the examinations were as follows:

First class, grade A—Capt. Ernest Cruikshank, 44th Battalion; Lieut. Chadwick, 36th Battalion.

Second class, grade A—Capt. Walker, 37th Battalion; 2nd Lieut. Mackay, 42nd Battalion.

Special, grade A—2nd Lieut. Beatty, 20th Battalion; 2nd Lieut. Laidlaw, 13th Battalion; 2nd Lieut. Sutherland, 43rd Battalion.

Bailey, 13th.

An Embalmer's Experiences.

Editor World: Permit me through your columns to give my views on the bill at present before the Local House asking for a college of embalming. As an old undertaker, possibly the oldest in the city, I think I am within the facts when I say that no greater blessing has befallen the human race in this nineteenth century that the practice now so widely spread of embalming the dead before burial. I am sure your readers will remember that it is not so long ago when, to preserve a body for long enough for even two or three days, it had to be weighted down with ice and even then the result was far from satisfactory, and just imagine what dire results followed, should the ice having performed its office be not instantly destroyed.

I have heard of cases where the pieces of ice were thrown in the streets and children seen to pick them up and suck them. I believe that many cases of contagious diseases could be traced to those and similar practices. The public must understand that it is not only the duty of an undertaker to bury the dead but to preserve the living. Not only must he coffin the corpse, but see as far as in him lies no germs of disease are left behind. Now how does embalming effect this? I say that it is one of the best disinfectants in existence. The component parts of the embalming fluid itself are each and every one good disinfectants and kill disease germs wherever met with. It will be thus seen that it is of the utmost importance to the community at large that an undertaker should be a thorough embalmer. It is a guarantee that both the dead will be thoroughly attended to and that the interests of the living will be carefully guarded. I do not think that the Ontario Association of Undertakers are asking too much when they ask for the privilege of establishing a college where the same generation of undertakers may be taught the lessons rendered necessary from the experience of the past. And are such lessons necessary? I say they are, but as I am an interested party, one who, as a member of the association, is anxious to have the movement prove successful, I can only refer you to such men as Dr. Bryce, secretary of the Provincial Board of Health, and, of right, Dr. Canniff, Drs. A. R. and R. A. Fyne, Dr. O'Rielly, superintendent of the General Hospital, and in fact a score of other medical men who are a unit in advocating a thorough knowledge of the art of embalming by the undertakers. I know in the past our association have had a bitter fight to contend against. We were charged with being combiners, but the result has shown different and has proven, even to the most prejudiced, that our aim was simply to better the condition of mankind, even at the very portals of death. M. McCABE.

A Great Blessing.

SIRS: I have taken three bottles of Burdock Blood Bitters and find it a good medicine for constipation and poor appetite. I will continue taking it, as it is a great blessing and I feel a great change in my health since taking it.

THE LEGAL GRIST.

Where Is Mr. Sproatt?—Action Against the City—Slander Case—The Smart Infants—Seduction.

The motion in the actions of Manning v. the City of Toronto for a commission for the examination of Engineer Sproatt was abandoned yesterday before the master in chambers. Mr. Bain, Q.C., who appeared on behalf of the plaintiffs showed that he had made every effort to ascertain Mr. Sproatt's whereabouts but without success. Mrs. Sproatt was examined as a witness on the motion, but still stated that she knew nothing of her husband's whereabouts. Costs were made costs in the cause.

In the action of Edward M. Hiscocks, at the time the action arose a bailiff of the Division Court of Leeds and Grenville against George Taylor of the town of Gananoque, manufacturer, a motion will be made before the master in chambers to strike out part of the statement of claim as embarrassing. The statement of claim alleges that the defendant and one John B. Turner were candidates for the House of Commons at the last election. That shortly prior to Feb. 21 last, in the hardware store of E. H. Ellis, Gananoque, in the presence of some 10 witnesses, the defendant falsely and maliciously spoke and published of the plaintiff the following words: "Hiscocks, I have got you just where I want you and I am going to have you punished to the full extent of the law if it costs me $1000." "You understand me perfectly well. You and Beamont being out at Newboro' on Wednesday. The minute you arrived I had a shadower on you both. Furthermore, I have two affidavits in my pocket of two good persons to back my statements. You left Beaumont at the hotel and hunted up the bailiff of Newboro. You and he went down to a man's house by the name of Pier who was lukewarm and you offered him $15 if he would vote for Turner." "That's your Ontario Government appointments for you. Bailiffs going about the country bribing people." "Now to make the thing stronger I will bet you $500 more and you can go to your friends and get it." And on another occasion: "Yes, I'll bet $5000." The plaintiff claims $5000 damages for slander.

The Court of Appeal was occupied yesterday in hearing the appeal in the case of re Smart infants. It will be remembered that this case was tried some time ago by Mr. Justice Ferguson when he gave a judgment most severe against Mr. Smart and awarded to Mrs. Smart the custody of the children, three in number. Mrs. Smart is a daughter of James G. Worts of Toronto and David Smart, a barrister, of Port Hope. The evidence in the matter was of so revolting a nature that the trial took place in private, the public being excluded. The argument will probably occupy some time.

Catharine Kearrington of this city yesterday through her solicitors, Messrs. Bigelow, Morson & Smyth, issued a writ of summons against Richard Johnston of the same place, claiming $2000 damages for seduction. The patent suit of Gash v. Montgomery occupied most of yesterday before Mr. Justice Robertson. The alimony suit of Robertson v. Robertson will be commenced at 10 o'clock this morning.

Mr. Thomas Ballard, Syracuse, N.Y., writes: I have been afflicted for nearly a year with that most-to-be-dreaded disease, Dyspepsia, and at times worn out with pain and want of sleep, and after trying almost everything recommended, I tried one box of Parmelee's Valuable Pills. I am now nearly well, and believe they will cure me. I would not be without them for any money."

To Make the Aldermen Pay.

"Jumbo" Campbell was down at the City Hall yesterday getting the names of the aldermen who voted the resolution of sympathy on the occasion of the death of Vicar-General Laurent. The engrossing of the address cost $40, and "Jumbo" proposes to make the aldermen who voted for it pay for it out of their own pockets.

At the Assizes.

In the case of Sangster v. The Empire at the civil assize court yesterday the jury returned a verdict for the defendants. Sangster claimed $10,000 for alleged libel. Ann Maguire brought an action against the Ontario Roller Mills Company to recover damages for the death of her son William while working for the company. Verdict by consent for $600. In the action of Dyer v. Moses the jury returned a verdict for the amount claimed and interest, in all $432. Devons v. Royal Templars, an action to recover $2000 on a beneficiary certificate was not concluded when the court adjourned.

OUR NATIONAL PASTIME.

OFFICERS ELECTED FOR THE JUNIOR LACROSSE LEAGUE.

Their Second General Meeting Held Last Night—The Victorias Reorganize—The Toronto Canoe Club's Annual Dinner—How They Ran at Jersey—Baseball and General.

At the second general meeting of the Toronto Junior Lacrosse League last night in the Orioles' Hall, Gerrard-street, the following delegates were present:

Maitlands, L. Yorke, W. Lewis; Young Canadians, A. Hider, F. Waghorne; Dominions, M. H. Roach, J. F. McGrath; Maple Leafs, W. Mace, M. McGuire; Orioles, H. Curry, W. H. Beatty; Tecumsehs, W. Irwin. H. B. Clemes; Athletics not represented.

Messrs. F. Nelson, J. D. Bailey, and H. C. Scholfield were also present and assisted in organization. If a good set of officers goes for anything the league is assured of success. They are:

President—H. J. P. Good, sporting editor of The Empire.

Vice-President—H. C. Scholfield.

Secretary-Treasurer—H. B. Clemes, 320 Wellesley-street.

Executive Committee—One from each club: Maitlands, H. Douglas; Orioles, W. Beatty; Maple Leafs, W. Mace; Dominions, M. H. Roach; Tecumsehs, W. A. Irwin; Athletics, not yet chosen; Young Canadians, J. Waghorn.

The annual fee was fixed at $5. The Orioles were given a vote of thanks for the use of their room.

The Victorias Are Anxious for Matches.

A meeting of the Victoria Lacrosse Club was held last night and the following officers were elected:

H. Doran, secretary-treasurer; H. Cox, president; W. Smiley, vice-president; H. Hewiston, captain; W. Caldwell, R. Robertson, P. Pole, committee. The Victorias are now open for challenges from clubs whose member's ages average fifteen years.

CANOEISTS DINE.

The Toronto Club Around the Board—Songs, Recitations, Boxing, etc.

The annual dinner of the members of the Toronto Canoe Club took place last night in the Yonge-street Market hall.

Ex-Commodore Dr. Powell was in the chair. The room was completely packed with men who were wont to tell romantic tales around the festive camp fire.

The spread was a most excellent one and thoroughly enjoyed by all. The excellence of the entertainment may be determined from the capital program that was gone through. Limelight views were given by Messrs Nelson and Manchin; recitations by Messrs. W. B. Raymond, R. Harvey, H. K. Cockin and McKendry; songs by Messrs. Wright, Tilley, Kirby and Cool Burgess; foil contest by Prof. Malchem and A. Shaw; boxing by Prof. Popp. Messrs. Grimstead, Bell and Andrus and last, but not least, a bagpipe solo by Mr. McKay.

Twelve Horses That Won Yesterday.

At Gloucester: Jackstaff, Tom Kearns, Kismet, Wild Cherry, Duchess, Costa Rica.

At Guttenberg: Extra Dry, Iajo Fernwood, Civil Service, Sanardo, Kingstock.

Topics of the Track.

Guttenberg people have offered $1250 per day for Elizabeth's spring dates. So it is likely that the present races on the Hill will continue into the spring.

Fred Foster's jockey, Andy Perkinson, rode every winning mount at New Orleans Thursday. The last mount he had was on Foster's Sullross. He led into the stretch, but stumbled and fell back to third place, but, with Andy's clever riding, recovered and dropped his head under the wire first.

Last Tuesday starter Caldwell set down Jockey Bergen for the balance of the season for his over-anxiety to get away in the third race at Guttenberg on Endeavor, the favorite. Public sentiment is with the jockey.

Hamilton Enjoys A Dish of Spring Crow.

Some Hamiltonians recently claimed that the Ambitious City possessed more champions than Toronto when The World went into records to prove the contrary. This did not then bring an honest acknowledgement from Hamilton newspapers. The question was put squarely to The Times yesterday and that journal was forced to admit that:

"The man who bet on Toronto would undoubtedly win."

AMATEUR BASEBALL.

Clubs Organizing for the Season—The Gore Vales' Officers and Players.

The Gore Vales held their annual meeting in Broadway Hall. The officers elected were:

George Mitchell, captain; James Wilson, vice-captain; Robert Magill, secretary-treasurer, 32 Gore Vale-avenue; Henry Glasspool, C. Glasspool, J. Donelly, committee. Already the club has 13 players signed and have a good prospect of heading the league this season. The players are: John Donelly, Will Benson, Doty Spinks, James Wilson, George Mitchell, Robert McHenry, Caude Legge, Clarence Hamilton, Fred Gourlie, Percy Foster, P. McCarthy, H. Glasspool, C. Glasspool.

The Standards are Strong.

The Standards held a largely attended meeting last night in Lansdowne Hall and elected the following officers:

A. Thompson manager, A. Mackerall captain, Levi Hurst secretary, Frank Oakley treasurer; committee, A. Mackerall, Levi Hurst, Frank Oasley, Thomas Benson. The prospects for the coming season are exceedingly bright. Any players wishing to join should address the secretary, 494 Dufferin-street.

The Models Also Ready.

The Models of the Western Junior League re-organized for the season last night and elected the following officers: Captain, W. E. Staneland; treasurer, H. Phillips; secretary, E. Wrigut, 286 Victoria-street. The following players compose the team: W. Morrison, c; W. Staneland, p; E. Wright 1b; H. Phillips, 2b; H. Fenson, s.s; H. Martin, 3b; A. Noverre, l.f; H. McLaughlin, r.f; C. Hall, c.f; Edwards, spare. The club is open for early matches.

Pointers for Local Amateur Twirlers.

Toronto will certainly not lose anything this season by the absence of American professional baseball. What the citizens want in this line is exhibitions of the game as furnished by our own talent. And there is plenty of it here. Last season many players were considerably developed in the Toronto Amateur League and they will be on deck early again this year. Then the Junior Amateur League is bound to furnish many crack youngsters who will give exciting exhibitions in their championship matches. The Western Junior League has almost completed its organization and also will have its quota of stars. Perhaps the most important position with the amateurs is the pitcher's box. Their ability comes to them naturally, but to get to the top notch they must study the theory of twirling. A review of the styles of a few of the famous men across the line will prove instructive as well as interesting:

Charley Radbourn gets his curves without the use of his body. Having long fingers, he can get a firmer hold of the ball than most men, and then he never depends on wide curves, prefering to keep them so a batsman will hit out and get the ball on the end of his stick or close to the handle.

Jim Keefe has an easy swing and is seldom troubled with a sore arm.

Clarkson saves his arm by using a slow ball and depending on the team behind him.

Willie Daley of the Chicago Association Club will often pitch until he finds it difficult to button on his collar.

Hutchinson of Chicago makes more work of pitching than any man in the business, outside of John Ewing, but has a wonderful arm and seems to stand hard work every season.

Jimmy Galvin of Pittsburg never knew what it was to have a lame arm and he has pitched steadily since 1874. Galvin depends on change of pace and has great command of the ball.

Early Flys.

An amateur baseball league will be formed in Hamilton.

Buffalo has signed Scheffler, Goodall and Weckbecker.

Hamilton, Syracuse, Colgate, Hobart and Rochester form the New York State Intercollegiate League.

The Rochester League Club and Cornell University play exhibition games at Ithaca April 16 and 17, and at Culver park on April 18.

Cushman has no less than five old Toronto players in his Milwaukee team, viz.: Burke, Pettit, Vickery, Grim, Alberts.

Wesley Curry, W. Fessenden, Joe Battin and James Kelly have been named as the International umpires.

We repeat there is no war. The little row between the League and Association about the national agreement, which doesn't really concern the general public at all, will be quickly forgotten as soon as the championship campaigns begin.—Sporting Life.

Bob Harrison is Getting Old.

LONDON, April 2.—John Richardson of Dorchester and R. N. Harrison of Toronto met in the Grand Opera House here to-night in a wrestling match. Richardson won the first fall in catch-as-catch-can in ten minutes, throwing his opponent somewhat heavily. In Graeco-Roman Richardson again secured the fall and the contest in four minutes. Harrison's backer disputed this fall, claiming it was not square, but the referee decided otherwise.

Excessive Two-Year-Old Racing.

From a thousand instances can be given conclusive proof that excessive 2-year-old racing ruins horses—makes them weedy, breaks them down in many cases, and renders them nothing better than high-class selling platers. As to the effect of this extraordinary racing upon the horses of the future we must wait for proof. Nearly all training to-day are the get of the old sires, and none of them are by any of the 2-year-olds that have been campaigned during the last few years, with the exception of those of Tremont. Two-year-old get of the latter will be on the turf this year, but until their 3-year-old form it cannot be determined whether or no they will race on. The fact remains that we have to-day not more than a dozen good handicap horses which have passed the 3-year-old limit of racing, and only one of these, Tenny, was worked hard as a 2-year-old. Unfortunately, however, these short dashes and this excessive 2-year-old racing are not likely to be extinguished by criticism. In the first place, strange enough, they are demanded by breeders who seek a market for their yearlings, and the rich prizes offered for the 2-year-old dashes give them an opportunity to sell youngsters that are well engaged. In the second place, these short dashes are demanded by the public—curiously there being more betting on a 3-year-old scramble of five furlongs, with a score of starters, than in a mile event between the veteran performers of the turf. Americans are nothing if not speculative, and the majority of turf-goers prefer putting a five or 10-dollar bill upon a 10 or 30 to one chance in a 2-year-old race, than even money or two to one on a horse like Firenze, Salvator or Tenny.—Harper's Weekly.

A Variety of Sports.

Alton, the famous $4000 St. Bernard dog, died at Washington, D.C., Monday.

One hundred American bowlers will compete in the Hanover, Germany, tournament this summer.

The annual dinner of the Prospect Park Curling Club takes place to-night in the club rooms.

The first annual dinner of the Waoderer Bicycle Club takes place this evening in Webb's dining hall.

A sextet of aquatically-inclined young ladies are at present skimming around a hall in Philadelphia. The contest lasts a week.

Arthur Fleet, Hamilton's professional, will start training the cricketers there this month. The first match will take place May 24.

George H. Banks, 5 River-street, Toronto, secretary of the Royal Oak Football Club, will be glad to hear from junior clubs, average age 16 years or under.

McPherson, the champion amateur athlete of Australia, is credited with running 250 yards in 24 3-10 seconds recently, and 100 yards in 9 4-5 seconds.

The officers of the Hamilton Y.M.C.A. Lacrosse Club are: Honorary president, F. W. Watkins; president, Professor Loring; secretary-treasurer, John Willson; management committee, R. Watson, B. Glassco and C. McKay.

Mr. McGuire, the swordsman at the Musee, is anxious to enter into a mixed sword contest with any man on the continent. No one will suit him better than Sergeant-Major Morgan. He is willing to back himself with any amount between $100 and $500.

The billiard match between John Roberts, jr., champion of the world at English billiards, and William J. Peall, the spot strike champion, which was begun in London, March 14, was concluded Saturday evening. The match was for £1000, £500 a side and a portion of the gate receipts. The conditions were 24,000 points up, spot barred. Peall received 12,000 points start on Roberts. Although Roberts played in his customary masterly fashion he was unable to overcome the big handicap, only succeeding in running up a total score of 21,410 points. Peall's actual score was 12,000 points.

Dick Barker, 7 feet high, the Queensland giant whom Australians thought, with drilling, might be able to whip John L. Sullivan, fought his first go last month with Jack Devey, a man 11 inches shorter, but good at his weight. Barker won easily.

Mrs. W. J. Lang, Bethany, Ont., writes: "I was one of the greatest sufferers for about fifteen months with a disease of my ear similar to ulcers, causing entire deafness. I tried everything that could be done through medical skill, but without relief. As a last resort, I tried Dr. Thomas' Eclectric Oil, and in ten minutes found relief. I continued using it, and in a short time my ear was cured and hearing completely restored. I have used this wonderful healer successfully in cases of inflammation of the lungs, sore throat, coughs and colds, cuts and bruises, &c., in fact it is our family medicine.

Equal Righters' Jubilation.

The Toronto district council of the Equal Rights Association met last night in Yonge-street Arcade. Mr. R. Reynolds presided and there was a large attendance. It was decided to give a reception to the Equal Righters returned to the Local and Dominion parliaments; also to the unsuccessful aspirants. A committee was appointed to make the necessary arrangement. It was also decided to have a course of six lectures delivered by prominent Equal Righters in different parts of the city on the principles of the association.

Important and True.

No better evidence of the fact that Burdock Blood Bitters is a certain remedy for all blood disorders can be asked than that of Mr. George V. Thomas, druggist, of Hull, P.Q., whose wife was cured of cancer by B.B.B. The family doctor is certain that the disease was cancer and that it is now cured.

The First Plowing of the Season.

BRONTIE, April 2.—William Austin of Trafalgar township commenced to plow on April 1. The ground was in first-class order and there is every indication of their being a good early spring this year.

Severe colds are easily cured by the use of Bickle's Anti-Consumptive Syrup, a medicine of extraordinary penetrating and healing properties. It is acknowledged by those who have used it as being the best medicine sold for coughs, colds, inflammation of the lungs and all affections of the throat and chest. Its agreeableness to the taste makes it a favorite with ladies and children.

Robert Mantell will open the Lyceum Theatre, New York, May 25 and will produce his new play, "The Veiled Picture," for a run.

Sit Down and Think.

Sit down and think; 1st, that dyspepsia is caused by wrong action of the stomach; 2nd, that Burdock Blood Bitters is designed to correct and regulate the stomach; 3rd, that it always cures dyspepsia and costs less than a cent a dose. Can you afford to be dyspeptic?

THE WORLD OF PLEASURE.

The Bills of Fare for This and the Next Week—Footlights and Foyer—A Great Organist.

There only remain three more performances of Dixey's clever company in "The Seven Ages" at the Grand Opera House, and the same number of the popular play, "Our Malindy," at Jacobs & Sparrow's Opera House. There are matinees at both houses to-morrow. Following are next week's claimants for popular favor:

"The Stepdaughter" Next Week.

Annie Ward Tiffany, whose success in Irish character has won for her an enviable reputation, will be seen at the Academy of Music next week as a star in a new play written especially for her, entitled "The Stepdaughter," of which the critic of a Kansas City paper said recently: "Annie Ward Tiffany is making a decided success of the play written for her by W. R. Shewell, 'The Stepdaughter.' The character of Peggy

Logan is a continuation of the one in which she made so great a reputation in "Shadows of a Great City," the Irish woman Biddy Ronan. Miss Tiffany has done some of the best work in several lines seen on the stage in recent years, but to the present generation of playgoers she is known by her personation of Irish character, and she stands at the head of good Irish women on the stage." Thursday evening Miss Tiffany has kindly tendered the services of herself and company for a joint benefit to Manager Greene and Treasurer Strauss.

Sothern At The Grand.

The announcement of the coming of the distinguished comedian, Mr. E. H. Sothern, to the Grand next Monday, Tuesday and Wednesday has already brought in a demand for seats. Mr. Sothern is to present here one of the greatest successes in comedy of recent time, namely, "The Maister of Woodbarrow." It is said the new play is an exceedingly dainty and delicate work, with an original theme, and the way in which it is handled is simply delicious. The whole treatment smacks of unconventionality, and for this reason alone its author, Jerome K. Jerome, a young Englishman, should be welcomed to the ranks of contemporaneous dramatic authors. The central figure of the play is that of a Devonshire countryman, who falls in love with an adventuress, becomes suddenly rich and makes a fool of himself by going up to London and aping the ways of the gentry. In the end, however, he returns to the Devonshire home, cured of his fascination and his folly. This hero is an attractive fellow, even in his homeliness, and the scenes in which he figures are replete with ever-changing humor and pathos. Mr. Sothern finds in the role ample opportunity to exercise his remarkable talents, and his performance altogether is perfection itself.

The Lily Clay Company.

At Jacobs & Sparrow's Opera House next week this well-known combination will appear. The Brooklyn Eagle says: "It is the best troupe of its kind we have witnessed this season, whether viewed from the standpoint of its classical groupings as delineated by charming young ladies, its new and pun-

gent hits on the topics of the day, the excellence of its numerous introduced specialities or the bright dialog and comical characteristics of its pleasing burlesques, 'Robin Hood' and 'Antony and Cleopatra.' Miss Clay has truthfully described the excellence of the troupe by aptly naming it 'The Survival of the Fittest.'

Robinson's Musee.

Anybody wishing to spend an enjoyable afternoon cannot do any better than spend it in the Musee, as the attractions there are very good, especially the singing of the Misses Fitzgibbon's, of the Fitzgibbon Family, which daily delights admiring crowds. Mr. McGuire with his sword exercise and apple cutting on his lady assistant's hand and head is also very good, while the Murray Bros. in Scotch dancing is highly appreciated by the Scotsmen present.

A Great English Organist.

Association Hall was filled last night by a select audience of cultured people, the friends of Trinity University and the Toronto College of Music. The occasion was a complimentary organ recital given by Dr. Lott, assisted by Miss Clara Code, Miss Eva N. Roblin, Miss Frances H. Doane and Mr. W. C. Palmer, vocalists.

Dr. Lott, as explained by Chancellor Allan, is professor of music in Trinity University, holding in addition the position of organist of St. Sepulchre's Church, Holborn, London, England. He has come out to conduct examinations in the Conservatory.

This is the program: Organ, Concerto in B-flat No. 2; organ, Pensee; vocal, Venetian song, Miss Clara Code; organ, 2nd Paraphrase "Elijah;" organ, Prelude and Fugue in D minor; vocal, Quando le sere al placide (Luisa Muller), Mr. W. C. Palmer; organ, (a) L'ange Gardien, (b) Tempo di Minuetto; vocal, Jewel song (from Faust), Miss Eva N. Roblin; organ, Paraphrase "Les Huguenots;" vocal, Ave Maria, Miss Frances H. Doane, with 'cello obligato and organ accompaniment; organ, War March (Athalie).

Dr. Lott played his music unexceptionably and was accorded a hearty reception from his critical audience. He received a recall after No. 7. The pupils of Signor d'Auria uniformly displayed a careful training, which showed itself in easy vocalization and a graceful stage manner.

Toronto Philharmonic Society.

On Tuesday evening the "Elijah" was rehearsed by the members of the above society for the last time previous to the grand full rehearsal on Saturday evening next. The zeal and devotion of both band and chorus to their indefatigable conductor manifested themselves in good form, the rehearsal occupying upwards of three hours. It is safe to predict a magnificent performance of the work, one which cannot fail to add new laurels to Conductor Torrington, his splendid chorus and orchestra.

Santley.

Reserved seats for the coming grand concerts are now made $1.50 and $2. This should ensure full houses on Monday and Tuesday next to hear the illustrious English baritone. This is probably the last time we shall be able to hear his wonderful voice in Toronto, and it is hoped our citizens will not fail to take advantage of it

THE HUMANE SOCIETY'S WORK.

A Dominion Association Urged—Dehorning Cattle—Overloading Street Cars.

A meeting of the Toronto Humane Society was held yesterday afternoon in the society's office in Bay-street, at which Mr. James C. Mackintosh, president of the Nova Scotia S.P.C. and ex-mayor of Halifax, was present and gave an account of the work in the Maritime region. He strongly favored the idea of a Canadian humane association, by which the various societies in the Dominion would be able to confer together and secure improved laws and methods of work, besides establishing a bureau of literature so as to obviate the necessity of purchasing Band of Mercy and other supplies in the United States.

Mr. Kelso reported that the cruel practice of dehorning cattle had been going on for some time in Middlesex county, and that from want of sufficient evidence a case brought in London, Ont., against a farmer had been dismissed. The society unanimously decided to publish information as to the barbarity of the practice and to endeavor in every possible way to prevent the spread of the custom.

Constable Willis gave some facts about his work, and showed that active efforts were being put forth to apprehend and punish all who are guilty of cruelty.

The well-worn subject of overloaded street cars was brought up, and the feeling was unanimous that renewed effort should be made to secure some law mitigating the evil. On motion of Mr. W. D. Stark and Mrs. S. G. Wood, it was decided to again urge upon the City Council that each car should be marked to carry only a certain number, and that the drivers and conductors be empowered to refuse admittance to any passenger over the regular number.

It was decided to have 10,000 copies printed of the pamphlet on Bands of Mercy, prepared by Mr. Kelso. These will be sent to every teacher in the province, and will be distributed to delegates at the great teachers' convention in July.

The annual meeting of the society will be held on Thursday evening, May 21, and a committee was appointed to make the necessary arrangements.

Personal.

A GRAND ENDORSEMENT
The VOICE of the PEOPLE
PUBLICLY EXPRESSED
BY ITS REPRESENTATIVES
The Board of Trade and the City Council
OF ST. JOSEPH, MISSOURI,
Unanimously adopted resolutions endorsing and recommending MICROBE KILLER as a grand and wonderful remedy. St. Joseph, Mo., is a city of 100,000 population, and Laboratory No. 8, of the WM. RADAM MICROBE KILLER is located there. "Equally as prominent endorsements are being received from other sections of the U.S."
No Other Proprietary Remedy Has Ever Before Received Such Public Endorsation Anywhere.
Why should people hesitate longer in availing themselves of the use of this marvelous medicine? Is not the above convincing proof of the meritorious qualities of MICROBE KILLER?
We find upon investigation that all persons who have been attacked by "La Grippe" this winter and last, and who at once resorted to a free use of MICROBE KILLER, that in from one to three days they were all over the danger and able to attend their duties again. For all Throat Troubles, and especially so in Diphtheria, this remedy is an an absolute specific. Within the last 8 weeks a D. theria Epidemic has raged at Salt Lake City, Utah. Over 100 cases of a v. malignant type has been cured there with MICROBE KILLER without a sing failure.
In the City of Chicago Mr. John V. Farewell of Farewell Bros., the great Dry Goods Merchants, and Mr. H. H. Honore, Capitalist, and father-in-law of Col. Fred. Grant, son of the late President Grant, together with others equally prominent, are openly soliciting the afflicted to use MICROBE KILLER. These people all speak from personal knowledge and use on themselves this marvelous remedy.
We cannot do more than call the attention of the Canadian people to these facts and to request their own investigations of the home office here,

NORRIS & CARRUTHERS

135 Toronto, Ont.

The following despatch was received by John J. Dickson & Co. over their private wire from Counselman & Day of Chicago. Wheat has ruled rather quiet to-day though at somewhat higher level of values. Receipts were only moderate, but stronger cables started market at an advance, which the good clearances also tended to increase somewhat, but this advance was lost on pretty heavy selling; and market turned rather soft. Later, tone improved on reported working of 135,000 bush. wheat here for all rail shipment to seaboard, and one report sale of 10,000 sacks patent flour at Minneapolis for export at 32s 6d. The strength caused by this drove bulk of scattering shorts, and feeling continued firm to the close. Decrease of outside buying is not a very bullish feature, for the last two or three days character of news has been sufficiently bullish to cause sharp advance, but seems to have failed woefully of that effect. Corn was firmer but trade was very quiet. Until the bullish tone in wheat developed there was a slight shrinkage in values. Provisions were easier early. Local crowd sold them off, but did not succeed in forcing out any great number of holdings, and market gradually recovered, closing firm. Shipping demand for hogs is very active.

Drummond & Brown received the following today over their private wire from W. S. Lawson & Co. of New York. The same dullness continues outside of a lively trading in sugar. There has been scarcely anything done. The movement in sugar appears to be part of the same general manipulation to which stock has proved its former rapid fluctuations. A rumor that Nebraska freight bill has been signed by Governor Boyd caused some traders to attack St. Paul and other granger stocks in P.M. and fractional declines were forced. The rumor turned out to be untrue. Manhattan looks as if it would be kept active from time to time in future. The bond market continues firm but presents no special feature. The raiding of room traders gives an opportunity to buy stocks for a turn.

NEW YORK MARKETS.

NEW YORK, April 2.—Cotton, spots dull, unchanged; futures dull, unchanged to 1 point down, sales 40,400 bales; April $8.72, May $8.80, June $8.89, July $8.97, Aug. $9.03, Sept. $9.06. Flour firm, held higher, mode ate trade. Wheat—Receipts 52,300 bush. exports, none; sales, 4,400,000 bush futures, 44,000 bush spot; spot ¾c to 1c higher, quiet; No. 2 red $1.17⅝ elevator; No. 1 Northern $1.24¾; No. 1 hard $1.27¼. Options rather excited, advanced ⅝c to ⅞c on the tone of the cables, closing 1c net up; No. 2 red April $1.16⅝, May $1.13⅞, June $1.11⅞, July $1.09⅞, Aug. $1.05¾. Corn—Receipts 79,600 bush; exports 18,145; sales, 848,000 bush futures, 62,000 bush spot; spot ½c higher, quiet, ungraded mixed 78¼ to 80c; options steadily advanced and closed ¼ to 1⅛c up on light supplies and wants of shorts; April 78¾c, May 79c, June 79¾c, July 71⅞c, Dec. 61⅝c. Oats—Receipts 93,000 bush, sales 280,000 bush futures, 109,000 bush spot; spot stronger, quiet; options quiet, ¼ to ⅜c higher; May 60c, June 59⅝c, July 59¼c, Aug. 45c; spot N. 60c to 69½c; mixed western 57c to 61c; "

THE FIFTH COMMANDMENT

Are you a young man who has just completed your college course? You have had a good time in ye distant spires and antique towers which crown the watery glade, you have crossed the Pons Asinorum, and have returned none the worse for your trip, for you have now the inestimable advantage of a good education wherewith to fight the battle of life. But this is your only capital, and this capital you have acquired at not inconsiderable pinching and struggling on the part of your father and mother, who have cheerfully scrimped themselves for your sake. You are about to begin your professional career and you will succeed. You will get there with stunsails set on both sides.

What more! You are not clear of the harbor yet, hardly—how about dirty weather! Have you provided for every contingency that is likely to happen to you? If death should scuttle you within a year who is to recoup your father and mother for the expense they have incurred in fitting you out? They will have to begin life over again and perhaps end their days in extremest poverty as the result. You have never thought of this. You owe your father and mother a debt—pay it now in the only way possible, because certain. A man insures what he most values. "Honor thy father and thy mother."

The premium rates of the ten-twenty plan of insurance operated by the Manufacturers' Life are one-third lower than any other form of whole life policy, and the average professional man can easily carry five, ten, fifteen or twenty thousand without inconvenience. After ten years the policy may be changed into an endowment policy, or into a whole life policy, or you could continue it for twenty years in all at the original rate in no other way can a man obtain so much insurance for so long a term at so small an outlay.
