2. New Brunswick.

There has evidently been an error in paying James Barclay's Account, owing to the misleading manner in which it was made out. Mr. Barclay has been requested to refund the over-payment of $2.$^{57}_{00}$.

The reason for adding $4.$^{50}_{00}$ to Mr Currie's Account was that the Department allows two miles when the distance travelled exceeds

Sir:-

I enclose herewith File 71, 175 of this Department on which you will find a letter of the 15th Instant from Chief Timothy Marchon of Oka on the Lake of Two Mountains, P.Q., stating a grievance which he considers Simon Louis, who is one of the Indians settled at that point, has suffered at the hands of the Seminary of St. Sulpice in respect of a portion of the land claimed by that Indian at the Lake

Lake of Two Mountains.

I beg to inform you that the land in question forms part of a tract claimed by the Seminary of St Sulpice as their property under titles from the French Crown, and is not regarded by this Department as an Indian Reserve, although portions of it are and have been for many years occupied by Indians under title deeds issued to them by the above religious corporation.

It would appear that judgment has been rendered by the Court against the complainant in an action between him and one Lamoreke, the occupant in respect of the land

and I would also call your attention

in question to the said

Supt. General did not intend by the same to intimate that the Department would interfere in any way in such a case as the present one, but merely that the Seminary of St Sulpice would not disturb the Indian occupants in their occupation of their locations at the Lake of Two Mountains by removing them to some other place against their will.

You will observe that the Chief suggests that a Surveyor be sent to run the lines between the properties of the aforesaid Annicta and Lamouche, to the latter of whom the Seminary claims to have sold the piece of land

land in dispute along with other land- their right to sell which is not disputed.

It appears to me to be questionable whether until the judgment rendered by the Court in this case be set aside, the Department or the complainant would have a right to cause a survey to be made; and it is also a question in my mind as to whether in the event of such judgment being set aside, the survey should be ordered by the Court in the interests of both parties to the suit or by the Department in the interests of the Indians concerned therein. I should be glad to be advised on this and any other points that you may consider that the Department

Sir,

I beg to call your attention to the following extracts from your Annual Report of 1885, dated August:-

"The Band is busy harvesting their "crops, and the crops I consider, "are superior to those on the reser- "-land, not being injured by rust "to any serious extent"; - and from your Annual Report for 1886 -

"2. I regret to report a serious de- "crease in the product of the soil, "in grain especially, owing to the "unfavorable weather of last year, "in common with other parts of "the country; crops were fair in

"and promised abundantly, almost
"up to the time of reaping when they
"were blighted. This year they look
"remarkably well"; and to ask you
to reconcile the apparent discrepancy
between the two statements; the
first of which says that at the
time of harvesting the crops were
not injured by rust to any great
extent, while the second says
that they were blighted before
ripening. Any Sergeant can
immediate reply.

You do not make any recommendation in respect to the Chief's application for an increase of the food supply. I should be glad to be advised by you on this point; likewise in respect to the advisability of replacing the ox which it is alleged by the Chief met with an accident which resulted in its death. The barley, I suppose, can be supplied them at an early date in the Spring, or would it be better to send it at the same time the flour is sent

Muncey School. The Inspector says that the blackboard is not a good one - that there are no desks - that the school premises are not fenced - no closets, and that furniture is required.

Back Settlement School. The school house is reported as requiring whitewashing & the inside and outside and the desks and blackboard are unsatisfactory - the yard not fenced and no trees planted. The Inspector also remarks that the pupils are doing very little and the school not doing well. It also appears that the Teacher was absent when the Inspector visited the school and that one of the boys was in charge. This should be carefully enquired into and

The Acting Indian Comm^r states that he is aware that at the point alluded to in the report there exist a Hudson's Bay Co store, another store besides it, and a Roman Catholic Mission where farming is extensively carried on, and that in these establishments there must be enough of provisions stored to prevent anything like actual starvation, and no doubt, if really necessary humanity will induce their issue.

Mr Reed further states that the information that had reached the Agent was in the form of a report which may be found upon investigation to have been very much exaggerated.

With regard to Indians at Lac la Biche, the Acting Indian Commr states that there are but fifteen left, as most of those who were included in the census as Indians have left locality, having taken Half-breed scrip and are therefore now Half breeds and as such independent of this Department.

The Indians complain not only of being deprived of the fish through the granting of licences to White men, but that the White fishermen extend their nets in such a way as to interrupt the passage of the fish to the fishing grounds at present licensed to the Indians, ... that consequently their fishery has been almost totally destroyed.

There is another subject of much importance which these Indians have brought before the notice of the Department, namely, the disadvantage they are at and loss they have sustained in their fishery during the last two years on account of sawdust and slabs from saw-mills being thrown into the

Mr. McGinn went again to meet them on that day, but was then told by Joseph Laforce that his father, Paul, was unable to sell some improvements that he had made on a piece of land which he occupies, and for that reason they would be obliged to remain at the Blanche for the present at least. The Department regrets that these Indians refuse to remove to Oka, but trusts that next Spring they may do so.

Sir,

With reference to my letter to you of the 14th instant. I have discovered that through a Clerical error there has been made to state wrongly the provisions of sub section 25 section 7 of the Interpretation Act of 1867 namely, that it provides inter alia that, "a Deputy can do whatever "his Principal has authorized "him to do", whereas it should have been written that, "a Deputy "can do whatever his Principal "has authority to do", which of course makes an important difference.

2. That no posts are mentioned at the ends of the boundaries on the River, though posts must have been planted.

3. That all the posts ought to be described and the way in which they are marked should be mentioned.

4. That the bearings are apparently magnetic. If so the fact should be stated, and the magnetic variations should be given.

5. That the scale has not been marked on the Plan.

Until the requirements above mentioned are met, Mr. Beaubien

Sir,

In reply to your letter of the 20th Ultimo, requesting that a stamp be furnished you for numbering Vouchers, I have to inform you that, were you to adopt the plan described below, it would be an easy matter for you to keep your Vouchers in order without the aid of a numbering stamp.
