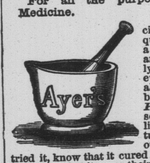
Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

ST. JOHN, N. B., APRIL 24, 1872.

The Police Force of St. John--Shall it be Strengthened?

As there is an impression entertained by many of our citizens that the Police Force with its present strength is inadequate to the thorough protection of the city by night and day, we have been at some pains to obtain the following facts, which we submit in detail before commenting on them.

The force as at present organized consists of the Chief of Police, six Sergeants, twenty Police Constables, one Janitor for the Police Station, and one Police Constable for the western side of the harbor, or 29 souls all told.

Of the six sergeants one is constantly in attendance at the Mayor's Office, and does not perform any other duty, leaving but five for the ordinary services.

The force is divided into five divisions, each consisting of a Sergeant and four Policemen. One of these divisions is detailed for Office and day duty; the men come out at six o'clock, a. m., and remain until seven, p. m., in winter, and eight in summer. Of this force of five all told, a Sergeant and two men are obliged to be in the Police Court during the time it is in session; one man is on duty at the King's Square or near the Bell Tower, and another at Sheffield street and Back Shore. When this division are all on duty the last named Policeman's beat embraces all that part of the City east of Sydney street to Duke street, south of Duke street to Carmarthen street, east of Carmarthen street to King street, and south of King street to Courtenay Bay. The beat of the man at the King's Square consists of all the Square and Country Market, both sides of King street to Germain street, along Germain street to Princess street south, and Union street north, along Princess to Carmarthen street east, along Carmarthen to King street; down King to Sydney street, thence north to Union street and down Union to Germain street.

Another division is on what is called outside duty, going on at ten a. m. and remaining until eleven p. m., except on Saturdays when they remain until midnight. Two men are stationed at Reed's Point, their beat embracing all west of Sidney street to Duke street, and all south of Duke street, thence west to the Fish Market. One man has to guard the whole of King's Ward and one man is assigned to the whole of Wellington and Prince Wards.

Another division is on duty in what is called King's Square and Brussels street district. The men go on duty at seven p. m. in winter and eight p. m. in summer, from first May until first of November. Of these during five nights in each week there is one man on duty in the Country Market from sundown to sunrise, who is relieved every hour. Two men are on duty north of King street east, embracing all that part east of Carmarthen to Union street, along Union to Waterloo street and all north of that to the City line and the Marsh Bridge and east to Courtenay Bay. The other two men are on night duty on the King's Square and have charge of the fire alarm bell, and their beat extends on Charlotte street from Cobourg to Duke, and from King street to Germain street, along Germain to Princess street, up Princess to Carmarthen street, thence to King street and along Sydney to Union street, thence west to Germain street.

Another division are on night duty on what is called the Lower Cove and Back Shore district, embracing after eleven o'clock, p. m., all that part of the City lying south of King street; west to Carmarthen street; along Carmarthen south to Princess street, along Princess west to Sydney street; south on Sydney to Duke street; west on Duke to the Fish Market, and all south of that to the Breakwater.

Another division is on night duty in what is called Watch House and King's Ward district. One man is always on duty at the Police Station, and is relieved every hour. He attends to the duty of receiving and locking up all the prisoners as they are brought in from the different beats, and receives all property found on their persons an entry of which is made in the Report Book kept at all times in the Station. Until eleven o'clock the beat of the rest of the division embraces north of the Market Square to Chipman's Hill and up to Union street; along Union street east to Wellington Row, north to Carleton street, east to Cobourg street; thence down Garden street to the City line, thence to Mill street, and all south to the Market Slip and Square. After eleven o'clock it extends south to the Fish Market at the foot of Duke street; east on Duke to Germain street; thence north to King street.

Although for the whole of the above service there are only twenty-five policemen when all are on duty, yet from sickness and other causes they cannot all be made available. Thus, at the present time, we find on enquiry that there are four or five members of the Force absent from one good cause or another, so that the vigilant guardianship of life and property, both by night and day, that we all desire to have kept up, is apt to be relaxed by the same influences that operate in other cases. Policemen are but mortals; are not proof against illness—in fact, their night duties, which subject them to constant out door effort at all hours and in all kinds of weather, operate to the injury of their health. If relatives are ill or dying, they must give them attention; and these, with other causes, constantly tend to reduce the actual strength of the Force, more or less.

Assuming, however, that the full quota assigned to night duty is kept up, it amounts after all only to fifteen men on after eleven at night. Of these, three are stationary,—they cannot leave their posts except under extraordinary circumstances—which gives *twelve* men at the most for the whole of the city. The amount of protection afforded may be inferred from the fact that nearly the whole of Wellington and Prince Wards is under the charge of two Policemen during the night, their beat including parts of Sydney, Carmarthen, Wentworth, Pitt, Crown and Union streets, and *the whole* of St. David's, St. Patrick's, Brussels, Waterloo, Cliff, Richmond, Exmouth, Golding, Rebecca, Castle, Clarence, Brunswick, White, Erin, Peters, and Paddock streets, and the whole of the City Road out to the Marsh Bridge. Again, take that part of the city in which trade chiefly centres, say from Portland Bridge to the Fish Market. This district includes Nelson and Smyth streets, Robertson Place, North and South Market Wharves, most of Kingand Germain streets, Market Square, Prince William, Water, Ward and Peters streets, besides the ferry landing, all of the wharves—about a dozen in number—including the steamboat landings, and numerous alleys,—with all the stores, warehouses, offices, work-shops, etc. For this extensive and important portion of the city the Chief of Police is enabled to supply not more than three men at the most.

We respectfully submit to the Police Committee that something better should be done. This is not sufficient protection for property, to say nothing of life or the preservation of the Peace. Summer is approaching, bringing with it an increase in the shipping which seeks our port, and a corresponding increase of our "floating" population. The steamboats, coasters and railways will give us many an extra vagrant and vagabond. The mild weather will turn out on our less moral streets at night many an idle and infamous male and female. The withdrawal of the Troops also deprives the authorities of a support which stood ready to assist in cases of emergency. For these reasons, and owing also to expected arrivals of immigrants this season, an extraordinary influx of strangers who are pretty sure to come, and the attractions to laborers on the public works likely to be undertaken, we expect to find the Common Council enlarging the Police Force and making ample provision for the efficient discharge of duties second in importance to none that our City officials are called upon to deal with.

Some of our Senators.

From the Senate correspondence of the Toronto *Mail* we copy the following readable passages:—

"Very different is Mr. Campbell from his colleague, who sits alongside of him, the Minister of Marine and Fisheries, who has hardly yet settled down into the monotonous seat of a Senator. Very restless is he at times when his feelings are aroused, and it often requires all the tact of his less tempestuous leader to keep him in that placid style of argument which the Senate affects as most consistent with its dignity. Sometimes he breaks the hawser, and then launches upon the House in a torrent of irresistible fact and argument which sadly disturb the stereotyped equanimity of the veteran Senators, who preserve intact the traditions and habits of the old Legislative Council. Mr. Mitchell is a man of remarkable energy—no department is better managed than his own—and may well be pardoned if he is somewhat restive in so quiet an arena at those times when, like the war horse, he scents the battle from afar. * * * Mr. Hazen, of St. John, New Brunswick, sits just below Mr. Sanborn, and it is easy to imagine, when looking at the sarcastic curl of his lips, and the very defiant array of his hair, that here we have one who can be very "bumptious"—if I may dare to use such an expression whilst writing of the Senate—when it suits his humor. He has a look of decided hauteur, and no one can be more pungent in his wit; but then he is seldom disposed to exert himself, and when he does, unfortunately for the House and the solitary stranger in the gallery, he cannot be heard more than ten paces off. * * * Not far from M. Tessier is Mr. Botsford, who comes from New Brunswick,—a tall, gaunt man, with a sharp expression—just such a man as you may see any day in a New England Legislature. Behind this gentleman is Mr. Dickey, of Nova Scotia, who is always carefully got up, and if you do not see him in his place he is just as likely to be found escorting a lady to the gallery, or paying her attentions on the floor. Mr. Dickey speaks frequently and always carefully—he evidently studies elegance of expression. Senator Miller, one of the youngest men in the House, and the most fluent of speakers, sits on the same row."

Indian Troubles.

Some raspy newspaper men in India appear to have been driven to their wits' end to find a punishment suitable to the crime of the Mussalman who murdered Governor General Mayo and other Indian dignitaries. As the assassins appeared to believe that the murder of an European gives the murderer great glory in Paradise, the Delhi *Gazette* proposes vigorous measures which savour considerably more of barbaric than British justice. The murderer, says the *Gazette*, should be branded on the forehead with the letter M, his arms should be amputated above the elbow, he should be transported to England for a term of years, sent round the Cape confined in an iron cage, and if he should survive all this, he should be decapitated, his body dissected and burned to ashes. This scheme has been thrown into the shade by the conduct of British authorities at Allahabad, who, as a punishment for "burglary with violence" committed by two Hindoos, ordered them to receive two hundred lashes each, and then to be hanged! It is satisfactory to find that the Judge who passed the sentence has been arrested and will probably be degraded.

We recently called attention to the wholesale slaughter, by an inferior officer, of native soldiers who had been suspected of mutiny. They were blown from the mouths of cannon by an officer no higher in rank than a Lieutenant or a Captain, and of his own motion, without waiting for orders from headquarters. A cotemporary justly remarks:—The late Indian correspondence of the London journals teem with graphic accounts of executions, floggings, &c, and would almost appear to be a transcript of that chapter in the first book of Xenophon's, "Anabasis" where the chronicler tells with gusto of the good done by pulling out the eyes and cutting off the noses of criminals, in the "good old" days of Cyrus. Unless the new Governor General can eradicate the evil effects produced both on Hindoo and European by the murder of his predecessor, the dark days now prevailing may be pregnant with a fearful upheaving similar to that of 1857.

One Hundred Fishermen Perished in a Night.

Commodore Fortin, a member of the Commons, in a letter to the Minister of Marine and Fisheries urging the erection of more lights and fog whistles in the St. Lawrence and Bay of Chaleur, relates the following melancholy incident:—"It is not more than fifteen years since several hundred fishing boats from Carraquette, Shippegan, Tracadie and the coast of Gaspe, when in pursuit of their calling on Miscou Bank, were caught in the evening by a violent storm, and although their crews were among the most expert seamen in the world, more than one hundred fishermen perished during the ensuing night while trying to reach places of safety, just from want of lights to guide them into the harbor. I do not make these statements from hearsay, as I was myself caught with "La Canadienne" in the storm, which was one of the severest I have ever witnessed, although it was in the month of August, and it was with the greatest difficulty that we were able to reach a place of safety in the Bay Chaleur. I may venture to state that with harbor lights at the places above mentioned, most of the unfortunate victims would have been saved."

Early Closing.

To the Editor of the Tribune.

I think the clerks ought all to act together in this Early Closing movement, and they might get the co-operation of the principal merchants too, as it is for the benefit of employers as well as employed. Short hours mean light gas bills; they mean good health to the clerks, and attention to the business and the employer's interests, as well as social enjoyment in moderation and a corresponding improvement in the standing of the employes. Indeed, it almost seems unnecessary to argue the question; it has been so often done before, both here and in England and Scotland. It stands to reason that overworked clerks do not work with the same vim as those who are less confined. It is always better to have a good understanding between the heads of the house and their subordinates, and for this reason I hope that the steps taken in reference to shortening the hours of work will be acceptable all round. There might be conferences with the heads before deciding on any particular course.

Yours truly,
MERCHANTS' CLERK.

MR. EDITOR:—Carpenters, Masons, and day printers work from 7 a. m. to 6 p. m. Shoemakers and Sewing Girls, similar hours—say ten hours daily. Grocers clerks generally from 7 or 8 a. m. to 7 or 9 p. m. Clerks in shoe and drug stores work even longer hours. Night printers work on an average 13 hours. Employers themselves generally work 12 hours. Dry-goods clerks when they turn bosses generally work as long hours as anybody. I don't see that the dry-goods clerks have much to complain of. They are seldom to work before 8 in the morning, and often it is nearer 9; and they knock off at 7. They are the best dressed fellows in the City. They use a good deal of hair oil; and they can afford to part their hair in the middle. They wear the nicest of kid gloves. They devote themselves to the fair sex in the evening with enthusiasm, and are the jolliest boys alive. They are always smiling, and give considerable attention to incipient moustachios. They patronize the Livery Stables and the Skating Rink and the Concerts, and are excellent judges of Music and first class Tea Meetings. Altogether, they have pretty good times; and I move that their petition be tyled.

Yours, J. M.

LOCALS.

Good Time.

We learn from the Telegraph Office that the "Scud" arrived at Digby at 11.50. Wind south west. Blowing heavy.

A Big Haul.

The Directors of the Academy of Music charge Mr. Torrens $600 for the use of the building for a week.

Small Pox.

The ship John Marshall, which arrived at the Island this morning from New York has on board a case of small pox. She will be detained in Quarantine until she has been fumigated. The patient will be removed to the Island.

St. John Rowing Club.

The annual meeting of the St. John Rowing Club will be held in the parlor of "Bee Hive" to-morrow evening at 8 o'clock. Sheriff Harding is President, and M. Chamberlain, Esq., Sec'y., of this popular institution.

More Steamship Accommodation.

A screw boat of five hundred tons has been purchased at Baltimore for the route between Boston and St. Stephen. She will touch at Eastport and St. Andrews, and will be of great service to the increasing freight trade of that section of the bountry.

City Police Court.

Only one prisoner graced the dock this morning, a fair and frail daughter of Ethiop, Ann Huggins, who, at the age of forty-two, still retains all the impetuosity of youth, and her dulcet voice in unrestrained violence re-echoed through the marble halls and alleys of Duke street at an early hour this morning. Six dollars or two months P.

A Tour of Inspection.

Superintendent Murdoch of the Water and Sewerage Department, Alderman Kerr and Councillor Cassidy of Duke's Ward have had under consideration the stream of water which overflows the sidewalk in front of the Royal (late Stubbs') hotel. They have some idea of utilising the water power.

False Alarm.

An alarm from box 34 this morning brought out the engines. There was no fire; but a small boy, to amuse himself, managed to get the key and open the box and pull the wire. With the snow coming down in blinding clouds, and the mud deep on the streets, cleaning the engines would be no easy job. That small boy should receive two weeks in Gaol.

Launch of a Steamer.

The new boat of the Peoples' Line, was launched at Fredericton on Monday night, the freshet being high at the time. She is called the "City of Fredericton."

Bishop's Serenaders.

The concert given last night in aid of the Catholic Orphan Asylum was attended by a good audience. The singing and dancing was an improvement on the preceding night. They left this morning in the "Scud" for Windsor, where they will perform to-night. On Thursday, Friday and Saturday nights they will perform in Halifax. On their return "Bishop's Opera House," Dock street, will be the theatre of their operations.

The Lancaster Elections.

It will be seen that Mr. Palmer has had this matter before the Supreme Court, and received the order for which he applied.

The Liquor Traffic and the Legislature will be commented on to-night severely in the school room of the Calvin Church by the Rev. S. Houston.

Those in favor of closing dry goods stores earlier than usual will meet in the room of the Irish Friendly Society, third flat of Ritchie's Building, this evening.

The Flora Myers Theatrical Troupe will open at the Institute to morrow evening with the play of "Arrah-na-pogue," and the farce of the "Contraband."

A York Point crew and a Straight Shore crew will open the ball with a twenty dollar race shortly.

First Trip of the "Scud."

The iron side-wheel steamer "Scud," of Small & Hatheway's line, started for her first trip across the bay to Digby and Annapolis this morning. A large number were invited to go over, and would have gone had not a blinding snow storm set in early, which few had the courage to face. A large number of passengers went over, however, among them Bishop's Serenaders. Messrs. Armstrong of the *Globe*, Smith of the *Telegraph*, and Mott of the *News*, represented the press. The steamer presents a graceful sight on the water, and turned easily from the wharf. She steamed rapidly out of view.

The "Independence" Galaxy.

Says the New Glasgow *Chronicle*:—"The "St. John DAILY TRIBUNE says:—'Howe, "McDougall, C. B., Main, Sir A. T. Galt, "Huntington, and John Young comprise "the galaxy of talent that favors Canadian "Independence.' Our contemporary's list "is not complete without the addition of "Hon. Jas. Macdonald, and S. H. Holmes, "Esq., members of our House of Assembly, both of whom have most explicitly "declared for Independence. In justice to "Nova Scotia the TRIBUNE should add "these distinguished names to its list." Our New Glasgow cotemporary is good authority on Annexation subjects, and ought to be equally good on Independence. At the same time, we apprehend there is a spice of malice in his reference to his political opponents in Pictou County.

A New Brunswicker Abroad.

Our former distinguished citizen, John Tilton, Esq., now of the Marine Department, at Ottawa, is one of the popular men of our rising Dominion of Canada. The Russell House, wherein the *creme de la creme* of political society and their wives and daughters most do congregate, is also the headquarters of Mr. Tilton, and the silvery scales of the Marine and Fisheries Department are reflected additionally by the genial and suave air which surrounds the choice parties and distinguished gatherings in Mr. Tiltons *salons*.

An air of *hauteur* and dignity generally surrounds those who don the silken breeches and laced coats of the Court of *Windsor*; but Ottawa society, though not prone to democratic innovations, has no cause to complain of New Brunswick's representatives in that respect.

Cruelty to Animals.

From the following paragraph in the Montreal *Gazette* it would appear that a Humane Society is doing useful work in that city:—"Yesterday morning Inspector "Gailey, of the Society for the Prevention "of Cruelty to Animals, arrested two men "named Louis Senecal and Louis Garneau, "*habitans*, from Boucherville, for having "a number of calves tied tightly by the "feet, and actually piled in a cart one "above another. When the arrest was "made, the calves in the bottom of the cart "were nearly smothered. Both prisoners "were fined two dollars or 15 days each." We ought to have a similar society in St. John, if only to secure retirement or an early death for some of the horses that are still used in our hacks. There is also a great deal of abuse and violence employed towards overloaded cart horses; and in many instances there are to be seen harnessed to wagons animals so lamed that their movements are painful to witness.

Shipbuilding.

Another fine vessel is about ready to be launched from the yard of Messrs. Scammell Bros., Portland. Her dimensions are as follows: Length of keel for register 176 feet 8½ inches; breadth of beam 34 feet 6½ inches; depth of hold 20 feet; register tonnage 938 tons, old measurement 989 tons. She is built principally of Tamarac; a portion of her planking and rails is of Pitch Pine; her stern, sternpost, rudder, bitts, windlass, and other essential portions are of Southern Oak, and her decks of Aroostook White Pine of superior quality. She has two entire deck frames and both decks are laid, is thoroughly copper fastened to her lower deck beams, and well and substantially iron-kneed in lower hold and between decks, having a knee beneath each beam, together with pointers at the ends, and staple knees up to the requirements of Lloyds. Her lower-masts, topmasts and bowsprit are of Southern pine, and her yards of spruce. The whole are provided by Mr. James Hamilton in his usual superior style. This fine vessel will be thoroughly equipped, and will be supplied with all the modern improvements regardless of expense. She will be furnished with Emery & Cheney's Patent Chain Stopper, and the Patent Adair Pumps, the latter considered the best ever manufactured; also, a Fire Pump for washing her decks or hold, and to be used in case of fire. She has been specially surveyed by Mr. Tucker for a 9 years class in English Lloyds, and by Mr. Thompson for a 10 years class in American Lloyds which latter is claimed to be the highest class ever obtained by a Colonial built ship in that Society, and is equal to the rate obtained for first quality oak ships in the United States, Mr. Thompson's opinion being that where so much care and expense have been bestowed, and such material used, the vessel should have a class superior to those carefully constructed. Mr. Simon Baizley, who is the modeler and builder of this fine vessel, has succeeded in surpassing all his previous efforts. The vessel is named after the senior member of the firm "J. Walter Scammell," her figure head being a bust of this gentleman. She will be commanded by Captain Carl Ijelmstrom who has earned for himself a first class reputation while master of the bark "Maria Scammell," owned by the same firm, and who returns per steamer from Callao, *via* the Isthmus, to take charge. The cabins of the "J. Walter Scammell" are well worth special mention, having been constructed entirely from design; they were laid out from diagrams, forwarded by Captain Ijelmstrom, who planned them. They are without doubt both elegant and spacious and show comfort in every department. They will be furnished with all the modern improvements, and when completed they will be the handsomest suite of cabins owned by any vessel belonging to this port. The sails will be entirely of cotton, and the rigging of wire. As soon as she is launched, which will be about the 10th of May, she will be placed on the blocks to be yellow-metal sheathed.

Promiscuous Kissing Parties in Nova Scotia.

A correspondent of the Halifax *Chronicle* follows up this subject, and attempts to shed additional light upon it. He says:—

In your paper of the 6th inst. I observed a short article headed "Promiscuous Kissing Parties." The correspondent of the *Provincial Wesleyan*, like a pure minded man, sounded the trumpet as soon as the facts became known to him. Now, it is but too true, that such parties, however filthy, corrupt and unchristian-like in their motives and tendency, take place and are patronized not only in one section of Nova Scotia, but in many portions of it, and the introduction of such night meetings is a sad index of that purity and modesty which should characterize christian people.

But if the correspondent would take the trouble to search out the original cause of such corrupt habits. I am much mistaken unless he would find it in a school of the following description:—The master, a good-humored, easy fellow, in charge of 50 or 60 children of both sexes, makes it his business to kiss and otherwise embrace the little girls from 10 years and upwards in the school, in broad daylight, with the affix "Don't tell mamma."

Such schools really exist in Nova Scotia, and if you sow in corruption you must reap corruption, for as the twig is bent the tree is inclined. If we wish to have a pure hearted community let the schools be pure.

Nova Scotia must be a very wicked place, inhabited by an unchristian race of people, if the stories of its newspapers are to be believed.

Speaking of Kissing in School reminds us of the cheerful verses which, no doubt, many of our readers have perused, but which will bear republishing, as the subject is again under discussion:—

A certain school, not far away,
'Mid Berkshire hills, one Winter's day,
Was humming with its wonted noise
Of threescore mingled girls and boys;
Some few upon their task intent,
But more on furtive mischief bent;
The while the master's downward look
Was fasten'd on a copy book;
When suddenly, behind his back,
Rose, sharp and clear, a rousing SMACK!
As 'twere a battery of bliss
Let off in one tremendous kiss!
"What's that?" the startled master cries;
"That, thir," a little imp replies,
"Wath William Willeth, if you pleathe—
"I thaw him kith Thuthanah Peathe!"
With frown to make a statue thrill,
The master thunder'd, 'Hither, Will!'
Like wretch o'ertaken in his track,
With stolen chattels on his back,
Will hung his head, with fear and shame,
And to the awful presence came,—
A great, green, bashful simpleton,
The butt of all goodnatured fun;
With smile suppress'd, and birch upraised,
The threatener falter'd, "I'm amazed
That you, my biggest pupil, should
Be guilty of an act so rude!
Before the whole set school to boot!
What evil genius put you to't?"
"'Twas herself, sir," sobb'd the lad;
"I didn't mean to be so bad;
But when Susannah shook her curls,
And whisper'd I was 'fraid of girls,
And dursn't kiss a baby doll,
I couldn't stand it, sir, at all,
But up and kiss'd her on the spot!
I know,'—boo, boo,—'I ought to not,
But somehow, from her looks,'—boo, boo,—
I thought she kind o' wish'd me to!'"

OTTAWA, April 27th.

Sir George's Society Banquet at Russel House last night was largely attended and was eminently successful.

Lord Lisgar was not present, but sent a contribution of fifty dollars toward the funds of the society.

Cartier, Tupper and Mitchell were the only members of the Ministry present.

Their speeches were of the usual postprandial character, and, excepting allusions to the completion of the Confederation of the Dominion, contained no political utterances.

At a meeting of the Directors of the Ontario and Quebec Railway Company, yesterday, J. M. Currier, M. Music for the Million.

The week commencing Monday, the 6th May, will be devoted by St. John to Music. All the musical organizations of the City are expected to muster under the banner of Torrens in the Academy of Music. Monday and Tuesday will be devoted to rehearsals for the Grand Concerts of Wednesday, Thursday and Friday. It is proposed to close the session of the Musical Convention with a free Sacred Concert on Sunday evening. Against this innovation Beverly Robinson, Esq., late Collector of the Port, protests as follows:—

I hope and trust that the proprietors of the Music Hall will not, in opening their fine building to the public, sanction such a desecration of the Sabbath as would be this attempt to draw our citizens from their several places of worship to a house of amusement, even though the proposed music be termed sacred.

BEVERLEY ROBINSON.

There are some who will treat Mr. Robinson's regard for the Sabbath as "old fashioned," but his protest will find a response in the breasts of three-fourths of our citizens. The Press ought to speak out on this subject, and not act the part of "dumb dogs." We advise Mr. Torrens to withdraw this part of the Programme.

OYSTERS! OYSTERS! OYSTERS!—If you want oysters, call at Geo. Sparrow's, King Street. By measure or any other way. *

The Halifax "Citizen.'

Tri-Weekly, $2 50 in advance.
Weekly, 1.00 "

ESTABLISHED IN 1863

THE combined circulation of the Tri-Weekly and Weekly CITIZEN is now over 5000, considerably larger than that of any other paper published in the Province, and thus the best medium for advertising. This statement we are prepared to prove by our books, and challenge contradiction. Terms of advertising as follows:

Per square of 12 lines, first insertion,.....$1 00
Each continuance,..... 25
Commercial Cards, not exceeding 12 lines, three months,..... 7 50
Commercial Cards, not exceeding 12 lines, six months,..... 12 00
Commercial Cards, not exceeding 12 lines, one year,..... 20 00

Liberal arrangements made with those desiring more space, or inserting advertisements for a long period. The above rates are for the Tri-Weekly only. If the Weekly be desired in addition one-half must be added to those prices. If Weekly only, price the same as Tri-Weekly. To Merchants and others desiring to obtain reliable reports of the Halifax markets, we can confidently recommend the CITIZEN, it being in fact the only paper issued in Halifax which publishes a regular Commercial Review. Several other journals have attempted it, but have allowed it to drop. In its shipping reports the CITIZEN has always been acknowledged to be in advance of any journal published in the Maritime Provinces, and this has given it a circulation specially large among the persons advertisers most desire to reach, Merchants, Shipowners and men of means generally. It contains more reading matter than any other Halifax Tri-Weekly or Weekly, and is the largest paper published in the Province. All orders to be addressed to the MANAGER CITIZEN PUBLISHING COMPANY, Lock Drawer, No. 9, Post Office, Halifax, N. S.

New York Sun for 1872.

TO ALL WHO CAN READ.

The New York Weekly Sun Doubled in Size without Increase in Price.

With the beginning of 1872, THE WEEKLY SUN has been doubled in size. It now contains eight pages instead of four, making it equal in dimensions to any other weekly secular journal published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY SUN thus furnishes as much reading matter as other papers published at double or treble the price, it will contain new features which will add greatly to its interest and value as a family newspaper. Its independence of opinion, and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving the most accurate, as well as the freshest, intelligence that can possibly be obtained. The enlargement enables us also to devote additional space to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous aspects of life, and for useful information repecting not only what takes place in this metropolis and this country, but in all other parts of the world, we now have ample room.

In its new form THE WEEKLY SUN is the cheapest paper of its class in the United States: and we appeal to such of our readers as approve its ideas and objects, and find it interesting and valuable, not only to renew their own subscriptions, but to recommend the paper to their friends and neighbors.

This year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election, and political movements will for many months be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY SUN will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth, irrespective of party prejudice or official influence, will always be told in its columns.

Terms of the Weekly Sun—

A journal containing eight large pages, published every Wednesday morning—To all mail subscribers, whether single or in clubs, *one dollar a year each*, always in advance.

DAILY SUN, by mail, 50 cents a month, or $ a year.

SEMI-WEEKLY SUN, by mail, $2 a year.
