Recent Testimonial to the value of Keating's Cough Lozenges.

I cannot express what I suffered,—coughing expectorating, and the respiration impeded Strange to say, I gradually recovered, without any treatment, except by taking a few boxes of Keating's Cough Lozenges. My lungs were so much affected, and the general health so debilitated, that I had but little hopes of recovery.

The Chronicle.

"NOTHING EXTENUATE, NOR SET DOWN OUGHT IN MALICE."—Is an excellent maxim, and we intend so far as practicable to follow in our Editorial conduct. It is really cheering, to observe that our Alderman of Queen's, has resorted to the only practical method of ridding his Ward of that horrible nuisance mud and dust. He has very properly caused the principle thoroughfares to be SCRAPED, and some hundreds of cart loads of the most noisome filth to be removed, we sincerely trust he will follow up this very salutary system, as it will be a boon of no ordinary magnitude to the business men of the City, who must have experienced for many years back heavy losses by the destruction of goods in their stores, from the clouds of dust that continually fly during the summer months. "Go a head" Alderman, and set an example to your more drowsy colleagues, and so soon as you have fairly removed the mud, we shall look for you to take another step in the right direction, by covering the streets with broken stone. And while we award the mede of praise that is due to public men doing their duty, we must not refrain from marking our disapprobation of those who are derelict. We therefore deem it our duty to call the attention of the *Chief of Police*, to direct his force to put a stop to the congregating clouds of impudent, and evil disposed Boys' with which our City is infested, cursing, swearing, throwing stones, insulting persons as they pass, and in the most wanton way defacing with knives the new work on the fronts of houses, daubing them with filth, breaking windows, and wrenching off latches and knockers. This nuisance is practised on a large scale in and about Church-street, where those imps congregate and annoy the neighbourhood, unchecked and unchallenged by the Police, or any of the City authorities. There are many other parts of the City where the same nuisance exists, and particularly on the Sabbath day, and we trust as we have to pay a heavy tax for the *privilege of peace and safety* that Mr. Scoullar will consider this his legitimate duty, and make such arrangement as will render our City on a par with other well regulated communities.

(*From the Head Quarters, June 17th.*)

Having but very little to say about party politics, until the Legislature meet and the new Government disclose their measures—if they have any—we will take the present opportunity of saying a few words about railways.

We have always advocated a railway direct from St. John to Quebec, and we have reason to believe that the prospects of having such a railway constructed are brighter than they ever were before. The representatives of the northern counties have always opposed the proposed railway by the valley of the St. John. They advocate the northern route, following the gulf shore, surveyed by Major Robinson. Nothing can be done more silly, as we shall endeavour to show. From Quebec to Halifax, by the route to which we refer, the distance is 655 miles. It would intersect the St. John and Shediac line at or near Shediac. From thence to Halifax the distance is 145 miles and from thence to St. John 108 miles; thus bring Halifax to within 37 miles of being as near to Quebec as St. John would be. Now as 37 miles difference is of very little consequence by railway conveyance, and as Halifax is two days sail nearer to Europe than St. John is, it follows as a matter of course that Halifax would monopolize the trade of our northern counties, and whatever trade and passengers there might be from Canada. Thus do our northern patriots endeavor to ruin St. John, and injure the revenues of New Brunswick, to build up Nova Scotia in general, and Halifax in particular; and what is still more astonishing, many of the leading men in St. John are aiding them in their crazy design.

But there is another view to be taken of the subject. Supposing for argument sake, that St. John could successfully compete with Halifax, could she, if the northern railway was constructed, compete with any of the lines leading from the Canadas to American ports? The average rate of freight over American railways is three cents per ton per mile. Eleven and one-fifth barrels of flour makes a ton. The distance by railway from Montreal to Portland, by rail, is 192 miles, making the freight of a barrel of flour a fraction over 78 cents. From St. John to Quebec, by the northern route, the distance would be 598 miles, and the freight of a barrel of flour would be a fraction over one dollar and sixty cents. But Canadian produce might be landed at River du Loup, and transported thence to St. John, in that case the distance by the northern route from River du Loup to St. John would be 490 miles, and the freight of a barrel of flour would be a fraction over one dollar and thirty-one cents, or fifty-three cents per barrel more than the freight over the Montreal and Portland line The conclusion must therefore inevitably follow that not a single barrel of Canadian produce would be sent over the northern line.

Let us now contrast this with the proposed railway through the valley of the St. John. The distances are nearly as follow: From St. John to Fredericton, via the Douglas valley, is 63 miles; from Fredericton to Grand Falls, via the Keswick valley, about 90 miles; from Grand Falls to River du Loup to Quebec, 108 miles; making the total distance about 363 miles; and the distance from St. John to River du Loup about 255 miles; the freight of a barrel of flour from River du Loup to St. John would be a fraction over 68 cents, or about 10 cents per barrel less than from Montreal to Portland. The freight per ton from Montreal to Portland is eight dollars and seventy-six cents. The freight per ton from River du Loup to St. John would be about seven dollars and sixty-five cents. The freight per ton from Montreal to River du Loup, by water, is sixty cents. Thus the difference in favour of our proposed line would be at least half a dollar per ton, when compared with the shortest route Canada now has to the Atlantic.

There can be no doubt but the proposed line via the valley of the St. John would be well patronized. The depot of the Portland line is frequently crowded with produce that occupies all the freight cars several weeks to transport over the line. Were there no other advantage in favor of the St. John valley line, vessels would drop down to River du Loup rather than that the goods should be delayed on the road to market. Then the amount of produce arriving at Montreal is rapidly on the increase. Settlers are pouring into the great valley of the Ottawa, which empties into the St. Lawrence at the head of Montreal Island; and so vast is the amount of produce now sent over the Grand Trunk railway, from Western Canada to Montreal, that the Managers were obliged to close their depot for three weeks this very spring, being unable to receive any more produce. We must add another reason why the St. John valley route would be a favorite. The St. John harbor is open at all seasons of the year, and the passage is about two days shorter, and freight cheaper, thence to England, than from Portland to England.

The length of that part of the proposed railway running through this Province would be about 180 miles. The first 20 miles out of St. John would be very expensive; thence to Fredericton the country is extremely favorable; an expensive bridge must be built over the St. John, above Fredericton; and crossing the Tobique would be another very expensive job. It is well at all times to look difficulties in the face, and then be prepared to meet them. ; and in this instance the cost of the proposed railway should not be estimated at less than £10,000 per mile, or $1,800,000 for our portion of the line. This is a large sum, and the question next arises how can it be raised, and how can the Province sustain the line if it should not pay the interest. In answer to the first question, the British Government have pretty plainly indicated that they will afford material aid towards the undertaking, provided the line crosses the river St. John above Fredericton, and is carried thence to Grand Falls on the opposite side of the river. Some months ago Canada proposed to send a delegate to England, to lay the matter fully before the Government, if this Province would co-operate with her. This was determined on, and had the late Government remained in power New Brunswick would have had a delegate in London at this moment. The railway would be of incalculable value to England for the transport of troops and military stores to and from Canada. What aid England would be disposed to give cannot yet be known. Perhaps one third of the cost. New Brunswick would then have to raise £1,200,000. Now we are in possession of an important fact. A powerful firm of English engineers and contractors have constructed a large portion of the railways in Western Canada. Having nearly completed their contracts in that country, and having over one thousand pounds of plant on hand, they naturally desire to contract for another large job on this side of the Atlantic. *They are willing to contract for the construction of this line of railway, at a fair price, and find the money taking Provincial debentures at par!* Never before had New Brunswick such a favorable offer, and if it is not embraced it may be long before she receives another opportunity of the like nature. We have no doubt but the firm will make a formal offer to the Province as soon as the Assembly meets and the new Government is fully formed.

Supposing the proposed railway should only pay costs for the first few years. The interest on £1,200,000 would be £72,000 a year. But the British Government now pays the United States £30,000 a year for the transmission of the Canada mails,—a job that must fall into our hands the moment the propos'd line is completed. Let us suppose that we receive £22,000 a year for the transmission of mails: we should then have but £50,000 a year to make up, even should there be no dividends, and this sum is quite within the means of the Province. The timid may say it must lead to additional taxation, as it must come out of the pockets of the people. This view of the case is incorrect. To say nothing of the increased value of private property, there are some ten millions of acres of Crown lands in the Province, the value of which would at least be doubled were the railway constructed. Then it would give immense value to lumber that is now valueless, and left to rot in the woods. It would also throw open public lands to settlers, and would lead to an influx of emigrants; when we reflect that the people of this Province—say 200,000—pay something near £100,000 a year to our revenues, without levying an additional duty on a single article. Look at Canada, that has spent many millions on canals and railways during the last twenty years. Has it made her poorer? No: but it has increased the value of all sorts of property to a surprising degree; it has trebled her population, and while the interests on her borrowed capital is promptly paid, she enjoys a surplus revenue! It is, no doubt, a thorough knowledge of these facts that induces a powerful firm to offer to build our trunk railway, and take as payment Provincial bonds.

We should add that the firm to which we have alluded also proposes to construct a branch railway from the Tobique valley to Miramichi; via the south west branch of the Miramichi river. That surely ought to content the north for the present. It would place Chatham within 220 miles of River du Loup, and give that section of the country the means of communicating with the southern portion of the Province. In the course of time the section between Miramichi and Shediac will be built, and then our railway scheme will be nearly complete.

We have much more to urge in favour of the subject, which we must defer for future numbers. We will only add that whoever the men may be that will support the scheme in the Legislature, we will support them cordially in carrying it out, without reference to party politics.

Lodge No. 91, Londonderry Heroes, L.O. A. Presentation to the Worshipful Master.

The following is the Address of a Committee of Londonderry Heroes, No. 91, of Upham, King's County, on the occasion of the presentation of a Horse (to the value of about £30,) to Mr. John Armstrong, the Worshipful Master of the Lodge, as a mark of their esteem and respect:—

DEAR SIR AND BROTHER.—

In behalf of the Members of your Lodge and from feelings of respect and sympathy for you in the loss of your Horse in the early part of last winter, we present you with another, not that your pecuniary circumstances require it at our hands, but as a small token of our respect and esteem for you, and our gratitude for nine years' services rendered to us as Worshipful Master of this Lodge, knowing, as we do, that you have at all times maintained good order and decorum in the Lodge Room, peace and harmony among the Brethren, and done all in your power to further the cause of Orangeism, and carry out the objects for which we are associated. That you may long remain amongst us; that the promises held out to the faithful and true may rest on you and yours in all coming time; and that you may be a stranger to misfortune is the prayer of your obedient servants and Brethren.

REPLY.

DEAR BRETHREN.—

I return you my sincere thanks for your valuable present, and I feel greatly indebted to you on account of your sympathy for me, as I shall ever acknowledge,—not so much for your present as for your high esteem, of which I think I am unworthy; yet I have the institution at heart, and hope I shall ever hold the glorious cause inviolate—with the assistance of God and the co-operation of the officers and members of the same,—knowing at all times, that you, as a body of loyal Orangemen have assisted to carry out the principles of our order. I feel convinced that for loyalty and good conduct in your body you cannot be surpassed, and I hope you may always continue in prosperity, fearing God, honoring the Queen, and beloved by each other, which is the greatest desire of your humble servant,

JOHN ARMSTRONG, W.M.,
of Lodge 91, L. D. Heroes

A man in Florida, who swallowed an orange seed last fall, has a breath so fragrant of orange blossom this spring, that he says the ladies are constantly tearing him for kisses.

A Rebellious Parish subdued by its Bishop.

[From L'Avenir, Catholic Paper.]

Twenty-five years ago a college was founded at L'Assomption, the citizens contributing liberally towards its endowment. Fifteen years since the college received an act of incorporation, in which it was provided amongst other things that the property should be managed by nine trustees, five of whom were to be ecclesiastics, namely the Bishop of Montreal, the Parish priest, the ecclesiastical director of the College, and two priests from neighboring parishes. Four trustees were to be laymen, local residents and benefactors of the institution. Thus, the Bishop being at a distance, the laity had virtually an equal share with the priesthood in the management of the college, a state of things most distasteful to the Hierarchy. Bishop Bourget, however, recently had set to work to obtain a surrender of the charter of the college, and have it amended so as to place the property in his own hands, scarcely expecting that French Canadians would offer as much as a show of resistance.

The first step to reach quietly the desired end was to disgust the laymen from discharging their trust by dispensing altogether with their services, and allowing the ecclesiastical trustees to carry things with a high hand, until the element of lay in the trusteeship became but nominal. A great deal of dissatisfaction ensued in the parish with the management of the college, which feeling was heightened by the active political partizanship of the clergy at the last election, but nothing could be done by the people. Recently one of the lay trustees, Dr. Cazeneuve being removed by death, the circumstance was improved by the priests and Bishop, as a pretext for a legal change. The people to their great surprise, learned that a new bill, amending the act of incorporation of their college, was actually in the hands of Mr. Lorranger, and pushed by him through the Legislature, and that their rights were about to be sacrificed, without having been consulted or even asked to surrender them. A public indignation meeting of the inhabitants of L'Assomption took place, resolutions were passed asserting their rights, and a petition to the Legislature prepared. Such spirited resistance had been unexpected, and alarmed the priests, who feared not only the defeat of their plans, but that their intrigues and the surreptitious introduction of their bill might be exposed. Mr. Archambault, the strongest layman in the interests of the priests, used his eloquence and efforts in vain against the resolution; the local clergy felt also impotent against public indignation. Then the Bishop deputed the Rev. Mr. Labelle, of Sepontigney, once priest of the parish, and a great favourite with the people, and commissioned him to use all his powers of persuasion, and undertake by personal application to obtain a renunciation of their rights on the part of the principle inhabitants. But the popular priest used all eloquence and his entreaties in vain. The people showed him due respect, but understood he was only an unwilling tool of Episcopal dictation, and remained firm in their protest. Then, at a public meeting, the Rev. Labelle in pursuance of his orders, reluctantly communicated a letter of the Bishops, to the effect that, unless the good *habitants* of L'Assomption complied with the wishes of his Lordship, and surrendered their rights, the college would be closed, and all the priests removed from the parish.

The first feeling of the people at the hearing of that letter was one of indignation. but Mr. Labelle spoke to them so entreatingly to avoid the fearful consequences of their opposition, that they finally agreed to pass a resolution in which it was stated, "That out of respect for the Rev. Mr. Labelle, but not on account of the threats of the Bishop, the people agreed to surrender their rights." This decision, although giving up the point to the Bishop, did not satisfy the latter, on account of its offensive form. Poor Mr. Labelle was deputed again to obtain better terms; and such, it is said, was the sense of shame, the evident grief and mortification of the poor priest, at the unworthy part he was compelled to act, that out of compassion for him, the *habitants* consented to give an unconditional submission to the Bishop.

The priest promised them, in behalf of his Lordship, due reward for their filial obedience. Their college should be made to flourish, and one layman would be retained amongst the trustees. That one layman, however, is henceforth to be appointed by the priests themselves, and their selections has already fallen upon Mr. Archambault.

Had the *habitants* resisted to the end, what would have been the result? Probably the interdiction of the parish, and then a schism. In a similar manner proceeded the affair of Rev. Father Chiniquy. It is because he would not allow himself and his parishioners to be despoiled of what belonged to him, that he is now the victim of so much persecution, not only from Bishop O'Regan of Chicago, but also on the part of our Bishops in Canada. Thus it is that, unfortunately, the tyranny and the injustice of ecclesiastical authorities inflicts upon religion irreparable loss. On the head of whom ought responsibility to rest.

[From the Toronto Globe.]

THE COLLEGE OF ASSOMPTION BILL.—This bill came up for its second reading yesterday, and was stoutly opposed by Messrs. Papin, Eric Dorion and Dache (Rouge Catholics) They showed that the Catholics of L'Assomption had petitioned against the bill and protested vigorously against the infamous attempt to destroy vested rights established by an Act of Parliament and guaranteed by the custom of years. The ministry persisted however. The vote was in their favour of course, their Upper Canada supporters standing by them even in this flagrant interference with popular rights. The following Upper Canadians (Protestents) voted for the bill:—Chisholm, Clarke, Crysler, Attorney General Macdonald, J. C. Morrison, Angus Morrison, Robinson, Roblin, Shaw, Solicitor General Smith, Sidney Smith, Southwick and Spence.

A young lady when told to take exercise for her health, said she would "jump" at an offer and "run" her own risk.

BELGIUM.

The aspect of affairs in Belgium, if not alarming, is very unsatisfactory. A very serious outbreak of feeling has taken place in Brussels, Antwerp, Liege and Ghent, in consequence of the majorities obtained on the Ministerial measure which may be denominated a "Charity Bequest Bill." The ecclesiastical party desire that persons should be at liberty to indicate in their wills to whom they bequeath their property for the benefit of the poor, of schools, or of hospitals, and that one at least of the family of the deceased should, by right of his relationship, be a member of the committee of administration. On the other side, the Radicals wish to impose on all bequests one uniform administration, fearing, as they say, that too great power will eventually be acquired by the clergy.

The principle of the Bill being carried the Opposition proposed amendment after amendment. Continually defeated, they were ever at their post, supported by the great mass of the country's intelligence. The applause wherewith their speeches were greeted from the tribunes roused the ire of the Ministerialists, who declared that the Assembly was deliberating under duresse, and three times during the debates were the tribunes cleared by force. At length on Wednesday the 27th, M. Frere-Orban, having declared that the Government were playing an "*indigne comedie*" before the Chamber and the country, was called to order by the President. He at once replied by accusing the President of partiality, the word "*infame*" having been applied to him by a member on a previous occasion, and passed uncensured by the President. This sally was received with immense applause in the tribunes, and the President ordered them to be cleared forthwith. Amid the groans and yells of the occupants this task was slowly effected by the gendarmes. The crowd then rushed outside the Chamber and hooted the Pope's Nuncio. They yelled at the Ministers, and cheered the Opposition members, and in the evening paraded the town in groups of 50 or 60. Next evening they broke the windows of the *Emancipation* office, a journal specially devoted to the priest party, and likewise those of the Jesuits and other religious establishments. The troops were kept in readiness, artillery was stationed on the Grande Place, and great excitement prevailed. On Friday the Burgomaster issued a proclamation forbidding groups of more than five to assemble, and in the evening the mounted gendarmes dispersed those who endeavoured to evade its effect.

The *Observateur* says:—"There is a large crowd assembled round the palace. Cries of '*Vive le Roi!*' are intermingled with shouts of '*A bas les Couvents!*'"

The *Emancipation* says:—"Among the shouts of the mob we distinguish those of 'Down with the Priests!' 'Down with the Catholics!' 'Let us drown the President!' The mob has broken the windows of the Jesuit College and of the Capuchin Monastery."

Similar scenes have been enacted at Antwerp, Mons, Liege, and Ghent. At Antwerp all the windows of the Jesuits' College have been smashed. The streets had to be cleared by the troops, but it does not appear that any collision took place. The people retired before the troops and then reassembled.

LATEST.

Belgium papers of Monday state that tranquillity appears to be restored, but a portion of the civic guard is still under arms at Brussels, and the troops are ready for an emergency. Some seventy persons were arrested, but the greater portion have been set at liberty.

At Liege, where the windows of the bishop's palace were smashed by a volley of stones, the excitement is also subsiding. The reports from Mons, Ghent, Antwerp, and other towns in the provinces, are also of a tranquilising nature.

At the adjournment of the Chambers on Saturday at Brussels, the president after reading the decree for the adjournment, proposed three cheers for the King. The members of the left rose and cheered, whilst the members of the right did not respond to the appeal.

Of the seventy persons who were arrested, thirty-eight have already been released; the other thirty-two, it seems are really to be prosecuted. Among them are some students of Louvain, a bank clerk, a well known jeweller, (who was taken parading in a monk Capuchin dress,) and two soldiers. As at Antwerp, Liege, and Mons, scenes of violence against the convents have taken place at Jemmappes, Gand, Namur, and Charleroi. The Bishop of Gand is fled and nobody knows where he is.

The National Division of the S. of T.

Met in Rhode Island on the 8th inst. Upwards of 70 representatives were present, including Delegates from New Brunswick, Canada West, Newfoundland and Nova Scotia. The Rev. Samuel Robinson, and Messrs John Fraser, Robt. Salter, Richard Seely, and Jas. Olive represented New Brunswick. The National Division was in Session five days. A resolution passed admitting members of the Grand Division to witness the deliberations of the National Division. The M. W. S. reported that the whole number of subordinate Divisions was 2,037; number admitted during the year, 26,492; whole number of contributing members, 70,308.

A resolution to admit the wives, daughters, and sisters of the members of the National Division during the deliberations, provided that before being admitted they be required to pledge themselves to keep secret the proceedings which they may witness, was laid on the table until next session. On recommendation of the appropriate committees, resolutions were adopted, 1st, declining any further legislative action in regard to lady visitors; 2d, refusing to amend constitution of subordinate Divisions so as to dispense with notices of expulsion, &c; and 3d, against any change in length of term of office. The Committee on Constitutions, reported a resolution that *per capita* tax shall not be levied on suspended members, or members more than twelve months in arrears, and a resolution that no Division can have a by-law to expel a member for non attendance at meetings. Both were adopted.

A ritual reported by the Committee was adopted as amended, as the only ritual to be used from and after the 1st of January, 1858.

The National Division will meet next June at Indianapolis.

A clerk in the Philadelphia post office paid out a $2 50 gold piece, the other day, by mistake for one of the new cent coins.

The Chronicle.

St. John, N. B., June 26, 1857.

The Provincial Legislature was opened at Fredericton on the 24th instant. As will be seen, the speech promises nothing, consequently we may expect—nothing. It will also be seen that Mr. Harding is appointed Speaker by the smashers.—We had always supposed that the Speaker of any deliberative body was chosen under the supposition that that important personage was a gentleman who stood high in the estimation of members generally, and would command at all times and under all circumstances the attention and respect of the House. He is also supposed to have at his fingers' ends a perfect knowledge of the rules, orders and practices of Parliamentary debate, and be capable of promptly deciding upon any contrariety of circumstances that may occur. These qualifications Mr. H. cannot possibly possess, and we view this selection, in place of older and more experienced members, as one which is not only made to answer some improper purpose of the party in power, but one which may possibly lead to difficulty hereafter.

THE SIGNS OF THE TIMES.

The 14th annual Session of the Sons of Temperance has been held in Rhode Island, and so much of the proceedings as will stand the light of day, are published.

Our Mr. Frazer reported:—

"That the Grand Division of New-Brunswick had before it the question (previously agitated) of the erection of a separate National Division for the British Provinces, and that said body would never consent to a separation from this body. He further stated that he was informed that the other Grand Divisions in the Provinces entertained the same feelings.

"This announcement was received with great applause."

And again our—

"Mr. Fraser, for the committee on prohibition submitted the following report, which was adopted by a unanimous vote:—

'The Committee to whom was refered the subject of Prohibition, beg leave to report: That they fully echo the sentiment of our M. W. P., regarding prohibition, as a 'fixed necessity,' the establishment of which in every State and Province of our jurisdiction is a matter devoutly to be wished and sincerely to be labored for, nor can we be content until we hail its accomplishment. The reverses which may have attended the operations and existence of the law in some parts of our jurisdiction, were not at all owing to its weakness or inadaptedness to effect all that its most sanguine supporters expected, but owing entirely to the ceaseless activity and agitation of individuals financially interested in the traffic in intoxicating liquors representing the law as unjust and tyrannical, without a corresponding effort on the part of its promoters, to show the falsity of such a cry, together with the negligence and impartiality of those officers who were charged with the duty of carrying out the provisions of the law, &c."

The Mr. Fraser who figures above, is the person who gained an unenviable notoriety in this city, by appearing as an informer in the first prosecution under the late Prohibitory Law.

From the information contained in the above statement, it appears that the Sons of Temperance hold as a cardinal principle "PROHIBITION, AS A FIXED NECESSITY, AND THAT IT IS A THING THEY NOT ONLY DEVOUTLY WISH, BUT INTEND SINCERELY TO LABOUR FOR, AND THAT THEY WILL NOT REST CONTENT UNTIL THEY HAIL ITS ACCOMPLISHMENT."

Our peaceful Province, we are told, is again to be the battle ground of Prohibition, and an agitation is to be kept up until the Sons are again victorious. The failure of their Law when on the Statute Book they ascribe to the apathy of its friends, to the opposition of officials, and the marked hostility of its opponents. They are determined then to struggle for its re-enactment, and to leave no stone unturned to consummate their wishes. We regret their decision, for we believe that the course pursued by them of late years has done to the cause they espouse incalculable injury and has thrown it back a number of years.

As they have thrown down the gauntlet, we must be prepared to meet them, especially as we do not believe that some of their leading men are serious in the matter, their only object is to keep the body together by carrying on an agitation, not for moral but political ends. We are strengthened in this belief from the fact that they are always ready to sink Temperance and link their interests with those who are deadly hostile to their principle, when by doing so they can accomplish their political ends. The shallowness of their consistency, if not perceptable to themselves, only constitutes an argument to prove (even admitting they are sincere) that their enthusiasm has dispelled their vision. That a majority of the present Government are Prohibitionists there is not a shadow of doubt, and that is one of the reasons why it was reconstructed in its original form,—first as a rebuke to the Governor, and secondly as a compliment to the Temperance organisation, who greatly assisted to the accomplishment of the defeat of the party lately in power, who sustained the Governor in the position he took in the summer of 1856.

Reflecting men think on these things. We thank "our Mr. Fraser" for the information contained in the article above.

☞ Writs are issued for a new election in the City of Saint John, consequent upon the acceptance of office by the Hon. S. L. Tilley, of the Provincial Secretaryship. The election will take place on the 6th day of next month.

We regret to announce in this paper the death of Mr. CHRISTOPHER SMILLIE, Proprietor and publisher of the *Temperance Telegraph* in this city.—His last illness was of only a few days duration. His remains were accompanied to the grave on Tuesday by a large number of the Sons of Temperance, and other inhabitants.

MELANCHOLY ACCIDENT.—On Monday morning Robert Collins, Michael Carlin, John Kelly, of Portland, Henry McCue and Archibald Brown, of Indian Town, and Alfred Belyea, of Mosquito Cove, left Indian Town for the purpose of coming through the Falls, and it appears, nearly an hour before the proper time,—the boat was unfortunately upset in the falls, and all but Brown were drowned: he saved himself by clinging to some detached portion of the boat, and was not rescued from the water until nearly exhausted, and he had been swept almost to Navy Island. They were all employed at Lingley's saw mills, and some of them have left families to deplore their sudden bereavement.

An awful and destructive Tornado has lately swept through the central portion of Illinois. At Pena it levelled twenty-five houses, and damaged more than twice as many others. A train of cars was blown from the track, and the depot unroofed. The storm was accompanied by a deluge of rain, and hailstones of enormous size. Darkness and terror prevailed—strong men stood aghast—women and children screamed with terror—many were hurled to the ground and rolled about by the merciless element, and many persons supposed that the so-much-talked-of comet had actually came in contact with the earth. Altogether the scene is described as fearfully terrific, and property to an immense amount has been destroyed.

There were in the port of New York on Wednesday, 794 vessels, including 28 steamers, 175 ships 144 barques, 125 brigs, and 311 schooners.

DIVISIONS IN THE CAMP.—The reign of the parties now in power is destined to be short—as the first movement they made in not filling up all the offices, has convinced many who were friendly and who at the recent elections supported them, and that duplicity and imbecility are striking traits in their character. Another indication of decay is the discordant elements of which the Government is composed—for between Fisher and Johnston their is a feeling of jealousy which at any moment may break out into open hostility, for neither of them are men who can complacently look upon a rival near their throne, and apart from their personal interests, which are decidedly hostile, the interests of the sections they represent have but little in common. Fisher is bound not only to advocate the construction of a Railroad to Canada, but its construction without any delay, and that by the city of Fredericton, it being the starting point;—Johnston, on the other hand, dare never consent to the prosecution of that line, as it would irretrievably damage him with his constituents in the north, for he owes his election over Street, a man infinitely his superior in every thing save conceit and pomposity, to his opposition to the line by the Valley of the St. John, and for the building of the one by the North Shore.

Will the public look quietly on while these two men are dealing with this great question, not as statesmen, but as truckling politicians? It is a question involving an expenditure of millions of the public funds, and will entail a debt which for many long years will hang as a mill stone around the necks of the people. To the recipients of the £600 per annum this may be a small matter, but to the great mass of the public we believe it will be regarded in a different light, notwithstanding the boasted majority of the "Smashers" government; we believe they will soon discover that their is too much independence even in the house as now constituted, to acquiesce in their schemes of party agrandisement. We have an abiding faith in the people—they have been led to expect great things from the dynasty now in power, and any short coming on their part, will only engulph them in irretrievable ruin. It was by false statements, and gross injustice they obtained their places, and we firmly believe that their departure from them, will be as sudden as their triumph was unmerited and unexpected.

☞ The *Head Quarters*, of Wednesday, giving an opinion as to whom they thought would be Speaker, says:—

In our opinion Mr. James A Harding is the man; according to the Smashers doctrine it would be a proper reward for treachery. Appropo of Mr. Harding: it was not enough that he betrayed the late Government, by whom he was employed and most liberally paid, but he went a little farther, proving himself a Smasher of the first water. When he was in Canada last fall, as a diplomatist in reference to the Disputed Territory Fund, a private correspondence took place betwixt him and our then Provincial Secretary, relative to certain propositions made by the Canadians for the construction of a trunk railway from Quebec to St. John, via the St. John Valley. As the view Mr. Wilmot took of the subject was that the Northern section of this Province have generally opposed, Mr. Harding, we are informed, placed that gentleman's *private* letters in the hands of Mr. Mitchell, who on the occasions of the late election in Northumberland, *publicly* exhibited them on the hustings! Is not a man endued with this nice sense of honor eminently entitled to the office of *first Commoner of the Smashers!*

We are curious to see what measures will be foreshadowed in the Governor's Speech. Rumour says the Smashers have not prepared any measures, with the exception of certain appropriations to carry on public works. They plead that they have not had time. Poor fellows! They obstructed every measure proposed by the late Government during the winter session, and then blamed them for doing noth. Now the Smashers had the same time to think, and mature measures last session as the members of the Government enjoyed; besides, the very same men who are in power now, were in office once before, for the space of twenty months and were out of office scarcely a year before they came in again by the late popular vote. But they reverse the old proverb: according to the Smasher doctrine, what is sauce for the goose is *not* sauce for the gander.

There are two subjects which imperatively demand the attention of the Legislature during the present session: One is the Trunk Railway to Canada, to which we have referred elsewhere. The other is Education. We are without a School Law! When the Law was about expiring, and the late Government proposed to introduce a new Bill, the Smashers, without knowing what scheme the Government would propose, threatened it with their determined opposition. They also opposed the renewal of the expiring law. Will they now propose the re-enactment of the old law—which they opposed last winter—or will they introduce a new measure? We are informed that Messrs. Smith and Connell are the only two Smashers who are agreed on a great Educational measure, and that is—*to destroy King's College!* It is useless to speculate farther upon Smasher measures, we shall therefore conclude by giving the first verse of a song we heard an urchin singing yesterday, to that very appropriate air, THE ROGUE'S MARCH:

Ho, the Smashers are come to town,
Hostling, jostling, up and down,
Taunting the Governor and the Crown,
And revelling in their glory.
Then hey for the terrible Smashers!
The bragging, swaggering Smashers!
What should we do without such a crew—
The young, the sere, the hoary—
The author would then lack a them for his pen,
And the poet would sigh for a story.

NEW VESSELS.—A superior new ship called the *Eastern Empire*, measuring 960 tons old measurement, and 992 tons Register, was recently launched from the building yard of Mr. James T. Smith, the builder and owner. She was built to class seven years, under Lloyd's Surveyors, and has sailed for Liverpool.

Another superior ship called the *John Parker* was recently launched from the building yard of Messrs. Parker and Lovitt, at Tynemouth Creek, where she was built for the Messrs. Vaughan, of this city. She was built under the superintendance of Lloyd's survey, and measures 1349 tons old measure, and 1086 tons Register.

Another superior ship was recently launched from the building yard of Mr. Wm. Vail at Quaco, where she was built for Messrs. Allan M'Lean, Wm. and Robert Vail. She was built under the inspection of Lloyd's Surveyors, to class four years, and measures 822 tons old measure, and 766 tons Register.

Another superior ship, built to class four years, under the inspection of Lloyd's, and called the *Nubia*, was recently launched at Quaco, where she was built by Mr. James M'Leod Brown, for Thos. E. Millidge, and Wm. Davidson, Esquires, of this city. She measures 918 tons old measure, and 834 tons Register.

Another superior four years' ship, called the *Stamford*, was recently launched at Quaco, where she was built by Messrs. A. Lockhart and Co., for themselves. She was built under Lloyd's inspection and measures 1135 tons old measure and 1051 tons Register.

Another superior seven years' ship, called the *Gertrude*, was recently launched from the building yard of Messrs. Thompson and Stackhouse, at Carleton. She was built under special survey of Lloyd's, for Messrs. Gilbert and Co., and measures 1088 tons old measure, 1149 tons late Register, and 1056 tons new Register.

A new barque called the *Adriatic*, was recently launched from the building yard of Messrs. James and Colin McKay, at Hillsborough. She measures 259 tons Register and is owned by Mr. Robert Robertson, sail-maker, of this city.

A new brigantine called the *Dred*, was recently launched from the building yard of Mr. Christopher Boltenhouse at Sackville. She measures 193 tons Register, and is owned by Mr. John Stephen Jarvis, rope-maker, of this city.—*Con.*

Provincial Legislature.

GOVERNOR'S SPEECH.

FREDERICTON, June 24.

Mr. President and Hon. Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

The exigencies of the public service have rendered it incumbent to summon you for the despatch of business at the earliest possible period after the conclusion of the late elections; and although attendance at this season of the year will, I fear, be inconvenient to some of you, I am sure you will disregard any personal sacrifice incurred in the discharge of your public duties.

I have to announce to you, in the first place, two events of recent occurrence, in both of which Her Majesty's loyal subjects in this Province must feel an interest. The birth of another Princess, and the death of Her Majesty's Aunt, Her Royal Highness, the Duchess of Gloucester.

Mr. Speaker and Gentlemen of the House of Assembly:

I have since the prorogation of the late Assembly issued Warrents on the Treasury for the payment of such sums as were deemed necessary to prevent inconvenience in the conduct of the current bussiness of the Province. An account of these payments will be submitted to you, and estimates of the probable Revenue and expenditure for the current year will be laid before.

Mr. President and Hon. Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

In leaving you to your deliberations, I wish to express to you my confidence in your desire to promote the public interests; and I trust that Providence will bless our joint endeavours to maintain the character and to advance the prosperity of the Province.

After the usual preliminaries had been disposed of the House proceeded to the election of a Speaker.

Mr. M'Leod proposed Mr. Harding as a gentleman well qualified for the station.

Mr. Mitchell seconded, in a speech eulogistic of Mr. Harding's abilities

Mr. End moved for dividing the House on the question—a short discussion followed the House finally divided, and Mr. Harding was elected Speaker by a vote of 24 to 13;—Tilley and Harding did not vote.

Mr. Macpherson voted with the Liberals.

Messrs. Gillmour and M'Phelim absent.

Mr. Harding was conducted to the Chair by Messrs. Mitchell and McLeod, and thanked the House in a brief speech for the honor conferred upon him.

Mr. Watters moved for an obtained leave to bring in a bill to alter and amend the Law relating to the Stipendiary Magistrate of the City of St. John.

A Resolution was moved by the Attorney General for the issue of a Writ for the election of a Member to represent the City of St. John the seat being vacated by Mr. Tilley's acceptance of the Provincial Secretaryship.

In reply to a question put by Mr. Sutton, the Attorney General replied that the Government offices would shortly be filled up.

The Address in reply to the Speech was moved by Mr. Chandler, and seconded by Mr. M'Millan;—Address passed without opposition and a committee appointed to wait upon his Excellency with the same.

Mr. Cudlip introduced a bill to amend the Carleton Water Works Act.

Mr. Mitchell moved for copies of correspondence between the Government and the Colonial Secretary, relative to Railway to Canada.

Mr. Fisher introduced a Bill to authorise Mr. Guilford, a Baptist clergyman in Fredericton to solemnize Marriages.

On motion of Fisher, Friday was set apart to go into Supply.

House adjourned at 4 1-2 o'clock.

FREDERICTON, June 25.

House met at 10 o'clock—some preliminary business transacted.

Mr. R. K. Gilbert introduced a Bill to disqualify certain office holders under Government from holding seats in the Assembly.

Mr. McLellan introduced a Bill to amend the act relating to intestate estates.

Mr. Wright introduced a Bill to repeal certain acts for the better prevention of fires in the City of St. John, and make other provisions in lieu thereof. Bill read a second time.

Hon. Mr. Young, President of the Legislative Council of P. E. Island, was introduced to the House by Mr. Gray, and the usual courtesies extended towards him.

Mr. Cudlip moved for and obtained leave to bring in a Bill to incorporate the Rigger's and Mariner's Association of St. John.

Mr. Gilbert's Purification Bill (so called) was again introduced by him and read a second time.

Hon. Mr. Fisher laid before the House a statement embodying list warrants drawn on the treasury for the last year, estimates for current year, &c., with other papers.

Mr. Gilbert gave notice of his intention to put sundry questions to the Government relative to Railways.

Mr. Tibbets gave notice of his intention to move an address to the Government respecting all monies received by Province Treasurer at St. John since 1846; a resolution was adopted by the House embodying it as their opinion that no Practising Lawyer or Sheriff should hold the office of Registrar of Deeds and Wills—no other business of importance transacted. House adjourned at quarter after 4.

MASONIC CELEBRATION.—On Wednesday being the festival of St. John the Baptist, it was duly celebrated in this city by the members of the Masonic order, the various Lodges turning out, in procession, decorated with their badges, banners, &c., and headed by Bands of Music.

About half past 10 o'clock, the procession moved from the Masonic Hall, Princess street, the Bands played the "Free and Accepted Mason," proceeding through several of the principal streets, and crossing to Carleton in the steam ferry boat, they marched to the Baptist Chapel, where an oration was delivered by the Rev. Dr. Clay, which is said to have given great satisfaction to all present. The Procession afterwards re-formed, and returned to their Hall, when the Lodges were dismissed.

The weather, which for several days past had been wet and cloudy, was clear and fine, and the display was imposing.

In the evening, a sumptuous Supper was served up at Stubbs' Hotel, which was numerously attended by the members of the order, and every thing went off in good style.—*Nbrk.*

DRAMATIC LICENSE.—During the week, this fashionable place of public resort has been attended by numerous and brilliant audiences, and it is becoming more and more popular. The "Honey Moon," 'Othello," and other standard plays have been produced with great ability by the company, and, judging by present appearances, it will induce a love for the drama eminently conducive to the interests of the enterprising proprietor. Improvements have been made in some faulty seats, and a good view is now obtainable from any part of the house.

FROM SOUTH AMERICA.—Considerable excitement exists at Caracas, Venezuela, in consequence of the Brtish *Charge d'Affaires* having solemnized a marriage between two native Roman Catholics, contrary to the rules of the church, the bride being step-daughter to her husband. The Archbishop and Pope had previously refused their sanction. Lord Palmerston had been written to on the subject.

The city of New York has been the scene of some very tumultuous proceedings during the past week. The city is strongly Democratic, while the State is strongly Republican; and the State Legislature passed certain laws relating to city affairs which the city refused to recognise—hence, in carrying these laws into effect, the riots and tumults referred to. Everything is quiet at present, both parties having agreed to await the decision of the Court of Appeals to the constitutionality of the laws in question.—*Witness.*

COMMUNICATION.

[FOR THE CHRONICLE.]

WHO ARE THE GAINERS?

Mr. Editor.—Great changes have taken place on the political arena of New-Brunswick within the past few months. But who are the gainers? Not the people—for they will soon discover that in place of being the *Victors*, they are the *Victims*, and it is the former and not the latter, among whom the spoils are to be divided—therefore they are not the gainers?

Who are they? Chief among the number is FISHER; he will pocket by the change not less than £1,000 per annum. Whatever opinion may be entertained of him as a politician, on all sides it is conceded, that as a Lawyer, he ranks among the third class, whatever he is considered in the character of an Attorney or Council, therefore his creation to the position of first Law Officer of the Crown, which is generally a stepping stone to the Bench (unless as in a late case it was bartered away for party purposes,) clearly proves that the country is not the gainer so far.

Who are the gainers? Tilley is one of them, *yes, slick Samuel*,—if he can get the constituency of St. John to indorse his position. Will they do it? We have heard of it from all sides he wanted no office, and would take no office, but it turns out that he not only has one, and that, one of the choicest in the Province. Since his connexion with the present Government has his course been bold, manly, or honourable? far otherwise, it has been marked by duplicity, and an attempt to blind and mislead the public as to their real intention, until he can if possible secure his return again.—This I hardly think is the way to obtain the confidence of the constituency of St. John, who respect and admire candour and open dealing even when they differ.

In 1856 when they went out of office, not only was the Province hundreds of thousands in debt, but its credit was gone, and its finances in a most deplorable condition. Mr. Editor I believe by the recent changes that the country will not only gain nothing, but lose much, as recklessness is already marking the proceedings of the government, as it did during the period it formerly was in office, and it will be found ere long, if it has not already been discovered, that to accomplish their ends, and to retain their places, they will stop at nothing; they are the *Victors* and the public are the *Victims*, and therefore the spoils they will divide among themselves. One thing is certain I think Sir, that when their Railway plans are developed, it will be found they will either ruin the country or themselves—unless the people wake up, they will when it is too late discover that again they are the victims. The time has not yet arrived, with our scattered population of 200,000 to "girdle" the Province with the Iron Rail.

Your's truly,

LYNX.

ONE WEEK LATER FROM EUROPE.

The steamship *Persia*, which sailed from Liverpool on the 13th instant, arrived at New York, on Tuesday last.

The telegraph despatch reports the political news as unimportant. Parliament was engaged in discussing local matters.

Evans, Hoare & Co., of London, engaged in the Australian trade, have failed. Liabilites £200,000.

MARKETS.—Cotton active, and advanced 1-8d. Sales of the week, 74,000 bales.

Breadstuffs firm, but generally unchanged.

Wheat had advanced 4d.

Flour and corn remained at previous quotations.

Provisions quiet. Tea Market excited, and large sales at a small advance for export to America.

Sugars and Coffee dearer—advance on Rio Sugar 1s. 6d.

Consols 93 1-8 to 93 1-4.

SHIP NEWS.—Arrived from St. John—Athensis, Lampedo, and Morning News, at Liverpool; Leander and Uriel, at Gravesend; Gleaner, at Tarbert.

Bark Saturn, of St John, from Liverpool, bound to Constantinople, was burnt at sea.—Crew arrived at Malta.

Sld from Liverpool, 7th Imperial, for this port; 12th, Golden Light, do; 10th, Mary Leonard, Quebec.

PUBLIC DEBT OF CANADA.—The public debt of Canada at the present time amounts to 49 millions of dollars, of which forty millions are chargeable to public works. In the estimates recently submitted to the Canadian Parliament, the sum of £3,111,500 was included for the Grand Trunk Railroad, which at 6 per cent. requires that country to provide £220,130, annual interest. Of the Grand Trand Railroad, 850 miles had been constructed up to the beginning of the present year, at a cost of $42,000,000 and to complete the remainder and build the Victoria Bridge at Montreal will require £4,600,000 more. The estimates propose an expenditure of $6,082,000 for the current year, which is $140,000 less than the anticipated receipts of the government. Among the items are—militia, $123,000; legislative departments, $310,000; executive department, $30,000; hospitals and charities, $55,000; lunatic asylums, $112,000; schools, $420,000; ocean steam service, $200,000; agricultural societies, $100,000; geological survey, $20,000.

THE CHEMISTRY OF NATURE.

A SELF-ACTING LABORATORY.—The gastric juice which reduces the food in the stomach to a semi-fluid, and the bile which tempers this crude material and adapts it to the purposes of nutrition, are the two principal agents in the production of venus blood. As health depends mainly upon the quality and purity of this fluid, a medicine which acts immediately upon its elements, discharging therefrom every tainted and unwholesome particle capable of feeding or creating disease, must necessarily be the true elixir of health—a sure antidote to the seeds of all internal disorders. In this consists the wonder-working power of Holloway's Pills. They seem literally to compell the stomach and the liver to do their whole duty, and to remove every impediment to its performance. We learn from their distinguished inventor, the *modus operandi* of his medicines, but our knowledge of their effects is based on our own observation as well as on the testimony of the world at large We know that the victim of liver complaint, with attenuated frame, jaundiced skin and lack-lustre eye, rapidly recovers strength, energy and a healthy appearance under the disinfecting, renovating and regulating influence of the Pills; and if the disturbance of the internal functions has produced external disease, that too disappears under the searching action of Holloway's Ointment The liver is a very susceptible organ. It always sympathises with the stomach, and intemperance in eating or drinking, over application to business, anxiety, sudden changes of temperature, and unwholesome atmosphere, and innumerable other causes, tend to derange and obstruct its action. What is the practice of the oracles of the faculty in cases of liver complaint? Their sole remedy is a mineral poison—*Quicksilver*, or one of its deadly oxides. Salivate! Salivate! Salivate! is the word. To cure one malady another is created. The liver becomes the battle ground between a dangerous disorder and a worse remedy; and if the patient escapes with life or without carious bones and contracted sinews, it is by a miracle. HOLLOWAY'S PILLS on the other hand strike at the very source of the disorder, and at the same time give tone to the whole system. Let common sense determine whether it is better to annihilate the virus of disease by an inocuous vegetable preparation, or to administer *poison* by way of antidote.—*N. Y. "Sunday Mercury."*

"DOMESTIC MANUFACTURES."—We have almost ceased to advocate this axiom of our country's prosperity, since the thoughtlessness of the mechanics and middling classes of this city, in losing sight of the unusual ability of one of their own sort at the last City election; but as there is another contest on the foreground, the attention of the public is called to the fact that Mr. John McCoskery is agent for Thomson's steam brewed Ale, manufactured at Saint Andrews, and which is allowed to be quite superior to all other.

The London Shipping and Mercantile *Gazette* of the evening of the 5th inst., says:

The Walmer Castle, from Melbourne, brings 38,123 ounces of gold, value £152,492, which, with the previous receipts of this week, make a total of £1,500,000, being one of the largest receipts for a very long while past; and it seems scarcely reasonable that it will fail to influence the tone of the money market as soon as the requirements of the week have been supplied. Gold is going into the bank, although but slowly, the greater portion of the arrivals being required for re-shipment to the Continent in payment of silver, while the silver brought by the Orinoco will be dispatched to India and China, the export by the next mail being estimated to reach a million sterling, as mentioned before.

An affray took place at a larger beer saloon near the southwest gate of the Capitol, at Washington, on Thursday afternoon, and during the melee the proprietor of the saloon, Mr. Gerhardt, firing at his assailants accidentally shot his bar keeper, named Henry Schulte.—The unfortunate man died in a few moments after receiving the shot.

NICARAGUAN AFFAIRS.—The Washington correspondent of the New York Herald says Gen. Walker declares himself a citizen of Nicaragua, and that he will soon return there again and take charge of his government.—The Nicaraguan correspondent of the *Daily Times* writes that 200 sick and wounded filibusters, the remnant of Walker's army, had arrived at San Carlos, in the steamer of the same name. They were all on their way home, and are described as being in a most pitiable condition. The men left Rivas, and have probably gone to Costa Rica, where there are already some 300 deserters from Walker's army. Nicaragua was tranquil, and an election was to be held on the 15th of June. The republic would be occupied by the four Central American States until its government was firmly established.

A MORMON ELDER KILLED BY AN INJURED HUSBAND.—The papers contain news of a Mormon elder's seduction of a wife, and the abduction by her of the children of herself and her lawful husband. It appears that Mrs. McLean was living in San Francisco when she became converted to Mormonism by one P. P. Pratt, a missionary of that doctrine, and ultimately became his ninth wife. She left two children with her husband, who allowed them subsequently to go to her father's residence, whence they were afterwards abducted by their mother. Thus doubly outraged, McLean pursued the guilty parties to St. Louis, thence back to Houston, in Texas, and finally to Fort Smith in the territory of the Cherokees. Here he obtained a warrant and had them arrested; but they were discharged by the magistrate, on which Pratt rode away. McLean followed him immediately and shot him.—*American Paper.*

SOMETHING LIKE A RACE.—A contemporary says:—"Mr. Vanderbilt, a Yankee Millionaire, offered to run his new steamer, named after him, against any other steamer in the world, for the value of the slowest of the two ships—his estimate of the value of his own amounting to £130,000. It is considered that the Messrs. Cunard & Co., may accept the bet for their steamer, the *Persia*." It is certainly possible that the Cunard Company might accept such a bet, and win it, but it is not at all probable. The Cunard line has set itself steadily against racing which it never tolerates under any circumstances, and probably the knowledge of this fact has given rise to the Thrasonical brag we have just quoted. The *Vanderbilt*, however, has not equalled the *Persia's* running, and all that her owner has to do, if his ship can beat the *Persia*, is to load her equally, start her six hours after the *Persia*, and catch her, *if he can.*—*State of Maine.*

LARGE OXEN.—Mr. Driscoll, Senior, bought a yoke of fat oxen a few days ago, from the Hon. Thomas Lee, for which he paid the handsome sum of ninety pounds. They weigh as they stand 55 cwt.—*Head Quarters.*

Elizabeth Bartlett, stewardess of the American ship *Pointer*, of New York, lying at Newcastle, Miramichi, was almost instantly killed by falling a distance of about six feet down the hatch of the vessel, on a billet of wood, which fractured her skull.

THE DUKE OF WELLINGTON.—"What a voluminous correspondence the great Duke must have had!" said a gentleman one morning, whilst speaking about the Duke of Wellington amongst a set of loungers congregated before the club rooms at Cheltenham. "And yet," observed a cavalry officer who had served under his Grace in the Peninsula, "the Duke, I have heard, himself attended to the most trifling correspondence. For instance, a friend of mine, one who was intimate with the Duke, told me the following story in exemplification of this:

"He was breakfasting one morning at Apsley House, and observed his Grace to smile whilst perusing one of his letters, and afterwards set it apart. Some time afterwards he found, on referring to that letter in conversation, that it had come from a lady totally unknown to the Duke, and who kept a boarding school at Kensington. The lady solicited a particular favor from his Grace, namely, that he would recommend to her some non-commissioned officer, whose character stood high in his esteem, for the purpose of teaching her young ladies to walk. Strange as this application was, it very much tickled his Grace's fancy; and during his morning ride he called at the Senior United Service Club, and desired one of the servants to send for Sergeant Murphy, of the Grenadier Guards. Upon the Sergeant's arrival the Duke directed him to attend, in full uniform, at —— House Academy on the following morning, and mention to Miss —— that the Duke of Wellington had sent him there to teach her young ladies to walk."

Married.

On the 20th inst., by the Rev. A. M., Stavely, Mr. Oliver Toland, to Miss Margaret Jane Nichol, all of this City.

INVITE especial attention to the New Screw STEERING GEER manufactured by them, which can be seen at their Establishment. They confidently recommend to all Ship Owners and Masters, as the best Ship-Steerer now in use. It works easier, and more promptly than the common tiller with ropes and blocks, and can be worked easily by one man in the heaviest gale. By an ingenious arrangement, a gradually increased power over the Rudder is obtained, which prevents sudden jerks, so well known to nautical men with the common gear. Its action is direct, prompt, and is not liable to get out of order. For strength and durability it is superior to any other apparatus that has yet been applied, and will be sold considerable lower than they can be imported.

May 22, 1857. 6w.

To Ship Builders and Owners.

THE Subscribers begs to call attention to a new and superior description of *CAMBOOSE,* which they are now manufacturing, suitable for a Vessel of from 1500 to 2000 tons, which from its great thickness of plate and improved arrangements will be found fully equal if not superior to any Camboose heretofore in use, it having numerous improvements of vast importance to its utility and durability, which have been hitherto neglected. They have also made similar improvements to their former Stock of PATTERNS, which they feel confident will make them superior to any others at present in the market, and will sell them lower than they can be imported.

Government Contracts

NOTICE TO CONTRACTORS.

SEALED TENDERS will be received at the Railway Commissioners' Office, in this City, until TUESDAY, 30th June next, at noon, for the Grading and Masonry of that portion of the Railway, between the Nine-Mile House and Hampton, including the Viaduct over Hammond River—a distance of about twelve miles. The character of this work is very heavy, comprising a large amount of rock excavation, as well as bridge masonry.

Proposals for the above work may be made in sections, or for the whole distance; the Commissioners reserving the right of adopting whichever mode may appear the most advantageous, and of rejecting any tender not deemed satisfactory.

Tenders must be accompanied with names of responsible persons willing to become security for the performance of the contract, or other satisfactory evidence of competency to perform the work.

Plans, specifications and Forms of Tender and Contract may be seen, and all other information obtained at the Engineer's Office, in Wiggins' Buildings, on and after 10th June next. W. H. SCOVIL,

Chairman of Railway Board.

Death.

(Written for the "Chronicle.")

The following lines are inscribed to the memory of Miss Ada Holman, who departed this life on Tuesday the 5th May last :—

"ADA'S" WELCOME IN HEAVEN.

Thou who once was gay and cheery,
Ever smiling, ever merry;
Thou, whose voice did'st ever cheer
The broken hearts of thy Parent's dear.

They tell me all those smiles have fled,
That Death's cold chill dwells in their stead;
That thy angelic form is stiff and cold
Beneath the fell destroyer's hold.

Art thou Dead? oh yes! "tis too true"—
Heaven's Portal garnish'd new;
Angel's singing welcome, Ada welcome here
To the kingdom of our Father dear.

He awaits to give you welcome
To this our Rest—to this our Home—
Here are flowers, they you'll bring
To our Father—to our King.

Behold the Lord, she is kneeling down,
He placing on her head the Golden Crown;
Calling her his own dear child,
Ever gentle, ever mild.

Hear her mild and joyous cry
As soaring through the "High, high, sky—
Singing Parents and Friends weep not for me,
I am at peace with Heaven and thee.

A DAY DREAM.

I gazed upon a grassy bank,
Where Spring's first violets grew—
The early sunbeams gath'ring up
Each glist'ning bead of dew;
And an old river swept along
With its bright foam, and gushing song.

O merrily rung the joyous laugh
From Hebe's smiling train,
And merrily echo caught the sound,
To waft it back again;
While warblers perched on every tree,
Filled the sweet air with songs of glee.

My heart thrilled quickly as I gazed
On scenes to me so dear,
A mist was gath'ring in my eyes,
It might have been a tear,
Had not the prattler by my side,
Check'd the fond flow of memory's tide.

The violets grow around my feet,
The trees are freshly green
The river's margin meets the fields
Like those in fancy seen,—
The friends I loved—ah! scattered wide,
Is that merry group from the dear hill side.

One ever dearest, wanderest far
To sleep 'neath a burning sky;
A gentle sister changed her home,
Only to fade and die;
And I, all weary of lips cold away
Am gath'ring violets in the way.

ZILLA.

GOD SAVE THE QUEEN.

A NEW VERSION.

I.

God bless our lovely Queen,
With cloudless days serene,
God save our Queen
From Perils, pangs and woes,
Secret and open foes,
Till her last evening close;
God save our Queen!

II.

From flattery's poisoned stream,
From factious, fiendish schemes,
God save the Queen.
With men her throne surround,
Firm, active, zealous, sound,
Just righteous, sage, profound;
God save our Queen!

III.

Long may she live to prove
Her faithful subjects love;
God save our Queen.
Grant her an Alfred's zeal,
Still for the common weal,
Her people's wounds to heal;
God save our Queen!

IV.

Watch o'er her steps in youth,
In the straight paths of truth
Lead our young Queen;
And as years onward glide,
Succour, protect and guide
Albion's hope, Albion's pride;
God save our Queen!

V.

Free from war's sanguine stain,
Bright be Victoria's reign;
God guard our Queen.
Safe from the traitor's wiles,
Long may the Queen of isles
Cheer millions with her smiles;
God save our Queen.

SHELLING.—A long, lean, gaunt Yankee entered a drug store and asked:

"Be you a drugger?"

"Well, s'pose so, I sell drugs."

"Wall, have you got any of this ere scentin' stuff as the gals put on their handkerchers?"

"Oh, yes."

"Wall our Sal's going to be married, and gin me ninepence and told me to invest the hull amount in scentin' stuff, so's to make her smell sweet, if I could find some to suit, so if you've a mind I'll jest smell round."

The Yankee smelt round without being suited until the "drugger" got tired of him, and taking down a bottle of hartshorn, said:

"I've got a scent stuff here that'll suit you. A single drop on a handkerchief will stay for weeks, and you can't wash it out, but to get the strength of it you must take a good big smell."

"Is that so, mister? Wall, just hold on a minute, till I get my breath, and when I say now, you put it to my smeller."

The hartshorn of course knocked the Yankee down. He got up, after rolling up his sleeves and doubling up his fists, said: "You made me smell that are tarnal everlastin' stuff, now I'll make you smell fire and brimstone."

PHILOSOPHY.—"First class in Oriental philosophy will stand up. Tibbets, what is life?"

"Life consists of money, a horse, and a fashionable wife."

"Good! Next what is death?"

"A paymaster who settles every body's debts, and gives them tombstones as receipts in full of all demands."

"What is poverty?"

"The reward of merit Genius generally receives from a discriminating public."

"What is religion?"

"Doing unto others as you please, without allowing them a return of the compliment."

"What is fame?"

"A six line puff in a newspaper while living, and your fortune to your enemies when dead."

A person pretending to have seen a ghost, was asked what the apparition said to him. "How should I know?" he replied; "I am not skilled in the dead languages!"

MEDICAL REVOLUTION!
THE WORLD UNANIMOUS.
HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IRRITANT!

The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth diffusing its cool and regenerating influence.

SKIN DISEASES & GLANDULAR SWELLINGS.

Every species of exterior irritation is quickly reduced by the anti-inflamatory action of this Ointment, Angry ERUPTIONS, such as SALT RHEUM, ERYSIPELAS, TETTER, RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or ITCH) &c., die out, to return no more under this application Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES, AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS, RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Rheumatism,	Sore Throats,
Burns,	Ringworm,	Sores of all kinds
Capped hands,	Salt Rheum,	Sprains,
Chilblains,	Scalds,	Stiff Joints
Fistula,	Skin Diseases	Tetter,
Gout,	Swelled	Ulcers,
Lumbago,	Glands,	Veneral Sores,
Mercurial	Sore Legs,	Wounds of all
Eruptions,	Sore Breasts,	kinds.
Piles,	Sore Heads,	

*** Sold at the Manufactories of Professor Holloway, 80, Maiden Lane, New York, and 244 Strand, London, by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in pots, at 25 cents, 62½ cents, and 1$ each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

S. L. TILLEY, *Provincial Agent*, No. 2, King Street, St. John, N. B.; A. Coy & Son, Fredericton; W. T. Baird, Woodstock; Alex. Lockhart, Quaco; James Beck, Bend of Petitcodiac; O. K. Sayre, Dorchester; John Bell, Shediac; John Lewis, Hillsborough; John Curry, Canning; and ames G. White, Belleisle.

☞ CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK & LONDON," are discernible as a WATER-MARK in every leaf of the book of directions around each pot or box; the same may be plainly seen by "holding the leaf to the light." A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

The Subscriber having been appointed Agent to the above Company for New-Brunswick, begs to announce that he is prepared to receive Proposals for FIRE AND LIFE ASSURANCE. The large Capital of the Company, and the number and influence of its Proprietors, enable it to rank with the most eligible Offices, either in America or Europe, with respect to the advantages offered to the Public.

FIRE BRANCH.

Persons Assured by this Company are not subject to any covenants or calls to make good losses which may happen to themselves or other, nor do they depend on any uncertain fund or contribution, the Capital Stock of this Company being an unquestionable security to the Assured in case of Loss or Damage by Fire.

LIFE BRANCH.

In addition to the more customary methods of Insurance, the Company likewise Assures Lives on any of the following contingencies:—

For the terms of One Year, Seven Years, or any other definite period.

For the whole continuance of Life.—The Premiums to cease, after a limited number of Annual Payments.

For Two Joint Lives.—The sum assured to be paid on the death of either.

On the longest of Two or Three Lives.—The sum assured to be payable at the death of the last survivor; or,

The Survivorships.—To secure the payment or the sum assured, if a life A die before another life B.

For a sum to be payable at age 60, or at death.

Premiums on Credit.—A portion of the Premiums on Credit. Assurances may be effected in various ways, not enumerated, to meet the convenience of parties.

The important advantages afforded by the Company in the Life Branch will include the following viz:—

The Guarantee of an ample Capital, and Exemption of the Assured from liability of Partnership.

Moderate Premiums.

Large Participation of Profits by the Assured amounting to Two-thirds of its net amount, which may be applied at the option of the party effecting the Assurance:—1st. By the immediate payment of the sum so apportioned.—2nd. By an equivalent increase of the sum assured.

Small Charge for Management.—The expenses of the Office being borne in due proportion by the two Branches.

Prompt Settlement of Claims.

Policies lapsed by non-payment of the Premium may be renewed within three months, by paying the premium, with a fine of 10s. per cent., on the production of evidence to the satisfaction of the Directors of the good health of the life assured.

The Company will always be prepared to Purchase the Policies of this Office at their equitable value or will grant a New Policy in lieu thereo without any further payment of Premium, for a sum to be agreed on.

Extra Premiums, suitable to special circumstances, will be accepted to enable a party possessing a Policy on the life of another to guard against the possibility of its being vitiated by the Life departing beyond limits, or by any other cause.

Thirty Days are allowed for the Payment of Premiums after the day on which they respectively *Additional Advatages offered to Lives Assured with this Company at St. John, N. B.*

1.—RESIDENCE.—Persons assured for the whole term of life will have permission, without the payment of extra Premium, to reside in any part of Europe, or in any place in North America to the north of 38 degrees of North Latitude, but not to the westward of the Mississippi River.

II. VOYAGES.—They will also, if not seafaring by profession, be allowed, without any extr charge—

To cross and re-cross the Atlantic Ocean, in steamers or first class sailing-vessels;

To pass from any part of Europe to any other or from any part of North America to another within the limits above specified; also,

To pass to and from, but not to reside in any place which shall not be further south than 35 degrees of North Latitude, but not to the westward of the Mississippi River.

☞ *Office, in Wiggins' new Brick Building, Princess Street, immediately above the Office of the Electric Telegraph Company, and nearly opposite the Genera Post Office, St. John.*
