

I am sending this advice that you may know what the situation is. Mr. Caron's reply to Principal Adams was read to the Directors to-day and they endorsed this letter in the sense that the Board were perfectly willing to consider some arrangement on the lines suggested by Dean Adams, provided the Provincial Government see fit to supply the necessary funds, to provide the necessary accommodation.

I understand the University of Montreal and the Laval University are making similar application to what McGill has done and the Government may see fit to adopt a policy of assisting this branch of technical education.

Kindly treat this communication as confidential.

Yours sincerely

*Sueatm Dohik*
