### ALDERMEN DIFFER RE NEW CAR LINES

Ward Seven Representatives  
Have Both Got Transportation Plans.

### ISSUE TO BE DEBATED

Schemes Will Be Considered  
at Ratepayers' Meeting  
Tomorrow.

Tomorrow night's meeting of the Ward Seven Ratepayers' Association should prove doubly interesting to western citizens. The mayor has accepted the invitation of the executive committee to address the association on civic problems, and will probably be present to hear a debate on the ever-present problem in ward seven—transportation.

The two schemes for the ward have each a different solution of the problem. Ald. Ryding has, since his advent in council four years ago, advocated a short street line continuing from Lansdowne to the lake shore. The first part of this line is now running and well patronized. Ald. Ryding is striving to finish the original plan and complete the line to the lake shore. The second part of the line is now running and well patronized. Ald. Ryding is striving to finish the original plan and complete the line to the lake shore.

Another route, on the other hand, advocates a different line. Ald. Ryding, who, Secretary of the Ratepayers' Association, is in favor of the Pacific Avenue-Annapolis line, which was adopted two years ago when there was talk of the Toronto Suburban Railway extending their service to this line. The road and one of both plans will be discussed tomorrow night before Mayor Church.

Rev. J. McQueen Baldwin, on special leave from Japan, was the special preacher at the Lenten Wednesday evening service in St. John's Church last night. The service was entirely missionary in character.

Death of Mrs. Gardiner. The death occurred yesterday morning of Mrs. Elmer May Gardiner, wife of Dr. George H. Gardiner, of 88 Keele street. The late Mrs. Gardiner had been with her husband but a short time in West Toronto and during her stay had made many friends. She was 52 years of age and was formerly Miss King of Port Hope. The remains were sent to her former home in that town yesterday, and interment will take place today.

### N. TORONTO AND MOORE PARK TO REMAIN DARK

Board of Control Strike Out Ap-  
propriation for Additional  
Hydro Lamps.

Residents of Moore Park and North Toronto were disappointed yesterday when the board of control struck out the appropriation of \$10,000 for additional hydro street lamps in these districts. Comparing to the city, North Toronto and Moore Park are only half lighted as there is a double street between the lamps, an arrangement which has always been regarded as temporary. In connection with the board might as well economize by cutting out half the lights in other sections of the city as refuse to give North Toronto and Moore Park the service they are entitled to, since hydro lamps are not a local improvement and these districts pay their share of the general taxes.

### NEW TORONTO

Dispute regarding the construction of the New Toronto waterworks system came up before Mr. Justice Clute in the non-jury session of the city hall yesterday, when J. P. Curley, contractor, sued the municipality for \$10,000, said to be due on account of the work, and for \$5000 damages for all the loss by delay in the supply by the village of piping and material. Curley is a double street between the lamps, an arrangement which has always been regarded as temporary. In connection with the board might as well economize by cutting out half the lights in other sections of the city as refuse to give North Toronto and Moore Park the service they are entitled to, since hydro lamps are not a local improvement and these districts pay their share of the general taxes.
