

### CONTRACTION OF TENDONS OF THE NECK.

**Symptoms**—often the head is drawn around to one side, again, the horse cannot get his head to the ground. Cause of this is spraining the horse, and rumatism produces the contraction.

**CURE**.—If it is taken in the first stages, bleed from the neck two gallons, then ferment or bathe the part well with hot water, rub it dry and take the general liniment and apply it every day, two or three times: this will cure it if it is of long standing; then blister all along the part affected with the liquid blister; do this every three weeks until he is well, and rub with the white ointment.

### FOR RHEUMATISM.

Take alcohol one-half pint, oil of origanum one half ounce, cayenne one-half ounce, gum myrrh one-half ounce, one teaspoonful of lobelia, and let all stand over night, then bathe the part affected. This is the best medicine I e er saw—I paid \$5 for this receipt.
