

"vinces on subjects reserved by the British North America Act
"to those legislatures."

I do not pose as a prophet, but it is my solemn and sincere conviction that the day is not far distant when the people of the Province of Quebec will realize and understand that the policy of strict adherence to the constitution which safeguards their rights was and is infinitely more in their interest than the insincere and vacillating course pursued by the present Administration not only on this but on the Manitoba School Question as well.
