## LARGE INCREASES FOR RAILWAY MEN

McAdoo Award Raises Sal aries Below Three Thousand Dollars.

### APPLIED TO CANADA

Lower - Paid Employes Get Advances of Forty-Three Per Cent.

Ottawa, July 15 .- Just before midnight the Canadian Railway War Board issued a statement to the effect that an order had been made increasing the wages of railway employes in Canada. The order provides that the McAdoo award, affecting the wages and hours of service of railway employes in the United States, shall be put into force thruout the Dominion. The statement declares that the increased wages can only be maintained if the railways are permitted to increase freight rates, as in American territory. The board, it is stated, spent the day urging upon the government the necessity for increasing the rates, but whether the government decided to take this action could not be learned. The statement of the Canadian Railway War Board follows: the Canadian Railway War Board iss

iows:

"The Canadian Railway War Board issued today an order increasing the wages of railway employes in Canada as follows: That not later than the first of August, 918, and so much earlier as the various wage schedules have expired, dating back in many instances to the first of May, 1918, the so-called McAdoo award, affecting the wages and hours of service of railway employes in the United States, shall be put in force in Canada. This decision has been reached after prolonged consideration and will apply to all railway employes, whether organized or not organized, male or female, earning on December 31, 1915, less than \$3000 per annum. The increase in each and every case applies to the posi-

be adopted in Canada as they are

Main Principle.

Main Principles of the award is the recognition of the increase in the cost of living and the adjustment accordingly of all railway wages under 33000 per annum, but giving the greater increases to the lower-paid classes of labor. Its amendments are now being worked out by a board which includes in its numbers leading representatives of American railway labor.

Under the McAdoo award, and as it is now adopted in Canada, a position paying \$50 per month on Dec. 31. 1915, will now pay \$71.50, and one paying \$75 per month, \$105.75; \$100 a month, now \$133: \$155 per month, now \$174.25; \$175 per month, per month, now \$174.25; \$175 per mo

per month, now \$174.25; \$175 per month, now \$195.50; \$200 a month, now \$216.75.

The work paying \$2 a day on Dec. 31, 1915, will now pay \$2.83; \$2.25 a day, now \$3.17; \$2.50 per day, now \$3.53; \$2.75 per time with distinction.

National Association Adopts Resolution for American Government.

Washington, July 15 .- That nationwide prohibition for the duration of the war is necessary if the country is to get the 100,000,000 tons of coal needed for the coming winter, was the subject of a resolution adopted by the National Coal Association, copies of which are being sent to the president and every memoer of congress. The resolution

'Regardless of political affiliations of the members of the association, and leav-In the great battle centring on at reaching Chalons on the Marne, an ing out of consideration the moral is-Rheims, but not including the Rheims positions, begun in France yesterday, the Germans gained ground to a depth of two and a half to three miles in the present attack had succeeded the enemy would be in a position for the period of the war is latest Italian communiques.

German Objective.

Henri Bidou, military critic of The Journal des Debats, discussing the enemy would be in a position for a prohibition for the period of the war is part of the centre, but sustained severe checks on both wings. The entire front brought under powerful pressure has a measurement of about 98,000 yards, or 56 miles, about evenly divided between east and west or Rheims. The extreme westerly point of the fighting was Chateau Thierry.

The enemy would be in a position for a grand turning movement against the entrenched camp of Paris. Instead of attacking that city by a direct assault, the enemy appears to have designed to have attacked it from flank and rear.

In order to understand the meaning of the fighting was Chateau Thierry.

In order to understand the meaning of the present fighting, it is necessary to make effective this or any other plan for increased coal production. A comparison of the records of production. A comparison of the records of production. The various instances cited to you need not be repeated here, but they typify the experience of operators through the enemy would be in a position for the period of the war is grand turning movement against the entrenched camp of Paris. Instead of attacking that city by a direct assault, the enemy appears to have designed to have attacked it from flank and rear.

In order to understand the meaning of the present fighting, it is necessary to make effective this or any other plan for increased this or any other plan fo seeks to manoeuvre by his left on Chalons. It is evident that if he held Chateau Thierry and Chalons he would make the Rheims district diffi-

of the present fighting, it is necessary to understand the present crisis in the war. The crisis has arisen not particularly from the allies being numerically inferior to the enemy, for the defensive is based on the theory of successful resistance by an inferior force to the attack, but it has arisen from the German discovery of means to break thru a fortified system of positions. For two and a half years neither side could achieve this result in a single action, but the Germans finally evolved a method which succeeded, first at Caparette agents. cult to defend and would form on the Marne a base for further operations. "Hence the open movement may be considered one of those wing manoeu-

FRENCH PRESS ON

enemy penetrated the allied positions to a depth of nearly three miles in places. The defence here, however, is most elastic, being on a virtually unfortified front, and the fighting consequently is mainly in the open field. East of Rheims, on a 28-mile front, the French held the enemy from Sillery to the Main de Massiges.

The stout resistance of the allies thus has confined the German gains.

The stout resistance of the allies thus has confined the German gains.

The stout resistance of the allies thus has confined the German gains the final probably signalize its definite breakdown. The defense of fentirely, because it could not be resistance of off contact the succeeded, first at Caporetto against the Italians, and, next, against the British on the Oise-Scarpe line, and, against the British on the Oise-Scarpe line, and, against the Italians, and, next, against the British on the Oise-Scarpe line, and, against the Italians, and in the British on the Oise-Scarpe line, and, against the Italians for insued an order cutting off further supply of coal to brewers after their present supply is exhausted, has endorsed the recommendation for immediate nation-wide prohibition.

The brewing interests have sent delegates to Washington to talk over the situation. They claim that besides the present British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, and, next, against the British on the Oise-Scarpe line, and, next, against the British on the Oise-Scarpe line, and, next, against the British on the Oise-Scarpe line, and, next, against the British on the Oise-Scarpe line, and, next, against the British of Carlies and order cutting off further supply of coal to brewers after thei off entirely, because it could not be re-frigerated, also that the yeast supply would come to an end.

York is arousing little enthusiasm in the north end of the city. There were only thirty-two present, of whom eight were women. Hon. G. S. Henry, in a short address, stated that the election would be a declaration of the people of the two ridings of their opinion of the Hearst administration. "The greater the majority," he pointed out, "the greater the endorsation, and it is for the people to show that by going to the polls." He said it would be the first time the women would have had an opportunity of expressing, their opinions, but he felt assured that they would give as good account of themselves as they did in the great struggle last. December.

A. H. Birmingham spoke on organization, and advocated the opening of a committee room immediately. "This running of independent candidates has got to be put a stop to," he declared. "The country is being put to the expense of about \$10,000 simply to gratify the whim of Mr. Galbraith, and this kind of thing has got to stop, and it rests with you women to put a stop to it."

Mrs. Arthur Vankoughnet advised all the women to work in order to keep the same splendid men in the government of the province that they had at present, and told them that they had at present, and told them that they had at present, and told them that they must work hard.

Ald. H. H. Ball said he was of the opinion that the women who affiliated themselves with the Conservative party at this by-election would do so for good. "We must get rid of this idiotic condition, and the money of the province must not be dissipated like this," he said.

Dr. Evans, R. L. Baker and W. Baillie also addressed the meeting. Following the business, a committee meeting was held, when, on the motion of Mr. Baker, held, when, on the motion of Mr. Baker of the district.

MISS MARY ANN HUMBERSTON.

miss mary ann Humberston. The new pastor outlined some of the first day is entirely lacking now. Surprise played only a minor Tark in this offensive, our aviation forces having reported marked troop meyements, notably in Champagne, during the past two days.

Barrage Stops Germans.

"It was our cannon from Villers-cottere's to the Marne that Parisians heard last night. The German attack in that direction met such a formidable barrage that the attackers of sained heart of the British during the American Revolution. In 1798 the late Miss appears, so far, to be outside the enemy's artack. Upon the side the enemy's artack, upon the side the enemy's artack. Upon the side the enemy's artack, upon the side the enemy's artack of the late Miss Mary Ann the state of the churches, and officers of the ch ing. seeking to cross the Marne.

"Rheims appears, so far, to be outside the enemy's attack. Upon the rest of the front of battle we are holding in the zone of our advance guards.

Writing of the offensive begun today, the military critic of The. Temps says:

"The crown prince's forces attacked at 4 o'clock this morning after a bombardment of four hours which was heard in Paris and in the entire Panis district. As was generally foreseen, it is on the plains of the Champagne and on the Marne that the battle will be fought."

The writer suggests the possibility of an immediate Austrian attack on the Italian front, according to indications of such a happening in the latest Italian communiques.

JURY FINDS McDONOUGH MET ACCIDENTAL DEAT

Without retiring, the coroner's

freight car in the Leaside yards, July returned a verdict of "accidental death." McDonough was a relief brakeman and was, at the time of the accident, hanging to the last car of a string of eight which were being shunted on a siding. According to the evidence of eye-witnesses, the man was struck by a switch and knocked from the car under the wheels of the train, which was moving at a rate of about five miles an hour, one wheel passing over the man's legs.

William Stewart, a yardman for the company, stated in his evidence that has standing on the string of cars, and that McDonough was looking back. It is switch as the car passed it. He told running back and finding the man whis legs lying across the track and pulling him out. Both he and Robe Maxwell then cut the signal cords out the cars and bound up the man's legs prevent excess bleeding. Answering the coroner, the man then stated that McDonough had then been rushed to Nor Toronto station, and from there take to the hospital. P. J. Sullivan, the yaforeman, stated that just two minut before the accident occurred he havarded McDonough of that particulations witch. It was brought out that the diance between the switch and the pain car was two and a half feet. Capta Reginald G. Forneret represented torown.
