

# T. EATON CO. "CANADA'S GREATEST STORE."

## Do Your Shopping on Thursday Morning.

On Friday and Saturday of each week we have about all the business we can easily attend to. With a view towards equalizing the trade for the last three days, and as an incentive for more buying on Thursday, we are going to offer extra inducements for that day and thus help to relieve the congestion of Friday and Saturday. We have, therefore, exercised great pains in selecting our list for to-morrow. When the doors open on Thursday morning you will find us ready with these attractions. At eight o'clock we want to see buyers. That's the time they get the best service and attention. That's the time you'll be here if you want first selection from these things:—

## THE TORONTO WORLD

ONE CENT MORNING PAPER.  
No. 25 YONGE STREET, Toronto.

### WHAT SIR WILFRID DIDN'T DO.

The Globe thinks it has discharged its whole duty to the Liberal party and to the people of Canada when it proves, as it does to its own satisfaction, that Sir Wilfrid Laurier did not refuse an offer of preferential trade from Mr. Chamberlain. According to The Globe the whole question of preferential trade hinges upon the fact whether or not preferential treatment to Canada was extended by the Secretary of State for the colonies on the occasion of Sir Wilfrid's visit to London during the Queen's Jubilee. Having arrived at the conclusion that no offer of preferential treatment was made to the Premier, The Globe concludes that it has said the last word. Preferential trade, we take it, is a bigger question than that concerning the negotiations that took place between Mr. Chamberlain and the Canadian Premier. What The Globe proves more than anything else by its repeated references to these negotiations is that Sir Wilfrid Laurier has all along assumed a perfectly passive attitude on the question of Canada's receiving preferential treatment from Great Britain in exchange for the preference we have extended towards it. He didn't do a thing. That is The Globe's defence. This question of reciprocal preferential trade is anything but a negative quantity. We will never secure preferential treatment in the markets of Great Britain unless we make an effort in that direction. It is a battle that is yet to be fought, and a victory will be won if an active campaign is instituted. Canada's right to preferential treatment in the markets of Great Britain does not depend upon the fact alone that we have extended preference to the Mother Country. That may be one reason why Canada should be preferred to foreign nations, but it is not the only or the most forcible reason. The fact that a preference to Canadian products would benefit the empire at large is a greater reason why the Mother Country should grant a preference to us than because such a preference would benefit Canada. The charges that are levelled at Sir Wilfrid Laurier are based, not so much on Mr. Chamberlain's attitude as preferential trade as his own pleading the whole question. The public are tired hearing what Sir Wilfrid Laurier didn't do. What they desire to learn is what he intends to do.

### COMPETITION IN CHRISTIANITY.

Competition has had its vogue. The dominant principle in the business world to-day is combination and consolidation. We see the effects of the new principle in every line of business and in every department of human activity. Even the churches have been forced to recognize the new fetish, and although there has not as yet been much progress in the consolidation of the Christian sects, the question nevertheless has from time to time been discussed, if not seriously entertained. A meeting was recently held at Oswego, N.Y., which was attended by one hundred and fifty ministers and laymen, representing the Methodist, Presbyterian, Baptist, Congregational, Lutheran, Episcopal and Universalist Churches and the Salvation Army. There was a strong feeling that some steps toward federation should be taken, and a resolution was adopted declaring the conviction of the meeting to be "That the time has come when the planting of new churches should be regulated by the religious needs of the locality, and not by sectarian rivalry, which means waste of time, strength and money and emphasizes church preferences at the expense of Christian fellowship."

### Coming nearer home, a conference in

### Christian unity was held in this city

### last week, and the question was deemed

### of sufficient importance to attract to

### the meeting leading representatives of

### the Anglican, Methodist and Presby-

### terian bodies. While the unification of
