

MEDICAL OFFICER'S REPORT.

I beg to report that I have visited the House regularly as usual, and occasionally other parts of the city to verify the statements of applicants for relief as to the existence of sickness in their families, and I regret that in several cases I have had to expose attempted imposition.

I have prescribed for 870 persons, or an average of nearly 17 each week.

Besides diseases of the character usually met with among our inmates, I have had ten or twelve cases of typhoid fever.

Seven deaths took place during the first seven months of the year, but none since July.

The respective ages of those who died were 64, 68, 70, 76, 79, 83, and 89 years.

One died of Chronic Bronchitis, two of of Senile Debility or old age, one of Chronic Heart Disease, and two of Typhoid Fever.

All which is respectfully submitted.

UZZIEL OGDEN, M.D.

January, 1875.

TREASURER'S REPORT.

The Treasurer, MR. HENRY ROWSELL, submitted his annual Statement of the Receipts and Payments for the year, shewing the balance on hand on 1st January, 1876, as \$2601.03. The accounts were duly audited, compared with the vouchers, and found correct.

See pages 8 and 9.
