

million barrels. Nova Scotia has not yet shipped more than 120,000 barrels in a single year. The great market for apples in the United States and Ontario was in their own cities. As we had not extensive home markets, perhaps we should not produce in too great quantities

The following resolution was introduced and passed unanimously :

*Whereas*, The progress reported by the Committee appointed to secure members and promote the establishment of a Horticultural School and Experimental Fruit Station is most encouraging ;

*Resolved*, That this meeting fully endorse their efforts, and request them to continue their work until this desirable end is accomplished.

After a desultory discussion on various topics, the meeting adjourned at a late hour.
