

DENMARK STOPS PORK EXPORT. COPENHAGEN, Oct. 26.—The Copenhagen newspapers today state that the total prohibition of pork exports is anticipated in order to insure an adequate supply of fat to the Danish population. A Government commission, it is understood, is considering the question today.

This Good Old Remedy

isn't just a purgative. Quite the contrary.

It makes purgatives unnecessary by keeping the liver lively.

Take small doses regularly—a larger dose only if you're a sorehead.

That's been the rule of hearty, sprightly, happy folks for 50 years.

CARTER'S
LIVER
PILLS

Genuine Bears Signature
Hubbard

Colorless faces often show the absence of iron in the blood.

CARTER'S IRON PILLS will help this condition.

DISAPPEARANCE OF CASH, WIFE, CHILDREN, FRIEND SENDS POLE ON WAR-PATH

Although the police claim that no report has been made to the department, the wife of an Austrian Pole, living on King street, is alleged to have departed for "pastures new" with three children, the family cash "sock" and another Austrian.

Neighbors of the family reported the circumstances to The Advertiser. They declared that the woman had taken her children and fled, presumably by train. The simultaneous disappearance of another member of the city's foreign colony and the family "treasure," caused the triple disappearance act to be linked into one.

According to neighbors the husband was prosecuting a search for the missing cash, wife, children and "friend" on his own behalf and would not call in the police.

RINGWORM—SCALP SORES

If you want speedy help try the D. D. D. Prescription. Go easy to apply, not greasy or messy. It washes into the scalp and the relief is instant. Try today on our guarantee. W. T. Strong, druggist, Taylor Drug Company, 6 George Street, London.

D.D.D.
The Liquid Wash

DANDRUFF MAKES HAIR FALL OUT

A Small Bottle of "Danderine" keeps hair thick, strong, beautiful.

Girl! Try this! Doubles beauty of your hair in a few moments.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks use, when you see new hair, fine and downy at first—but really new hair—growing "over the scalp."

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

DR. HUBBARD TELLS POSSIBILITIES OF CHRISTIAN SCIENCE

Large Audience Heard Noted Boston Speaker Last Evening.

A large audience last night in the Masonic Temple heard Dr. Walter C. Hubbard, member of the board of lectureship of the mother church of Christian Science in Boston, speak on "The Merits and Possibilities of Christian Science." The speaker was introduced by J. Lash as one of the greatest exponents of Christian Science since the time of Mrs. Mary Baker Eddy.

Dr. Hubbard's address in part follows: There has never been a time in human history when men have not yearned for some sure way to be rid of those conditions of body and mind which have destroyed their happiness, or kept them from the full enjoyment of life and peace. They have turned from one material method to another in the vain search for physical relief, too often to be told that there was no further hope. It has only been since the advent of Christian Science that primitive Christian healing has been restored to the world. The science learning through the understanding of the principle of Christian Science and the application of its rules that we may confidently expect healing in every case and that there is a spiritual law sufficient for every material condition.

Mrs. Eddy's Work. Christian Science was discovered and founded by Mary Baker Eddy, a woman of unusual spirituality and of a deep religious sense. She was a Christian and tireless analytical student, and through years marked by sickness and trials her deep religious sense led her to strive to see and to understand the divine principle which she received. This persistent search for truth was rewarded by the discovery of the divine laws of God, which she named Christian Science.

To have discovered God's law of healing as taught and practiced by Jesus and his followers meant that Mrs. Eddy must have approached the Scriptures with such a thought of God as Love that she saw it was impossible for God to do less than to provide all good for his children, and such a consciousness of God as truth that she knew God's truth was revealed.

Mrs. Eddy's study of the Scriptures revealed the fact that the entire Bible record teaches conclusively that a right understanding of God has always brought dominion over all material conditions, and that when the knowledge of Truth has been correctly applied it has always been attended by healing and regeneration.

Man's Righteousness. We are led through the study of Christian Science to try to stop viewing man as sick and sinning, and to accept the fact of his righteousness and dominion, which is instilled upon throughout the Bible, and to undertake to manifest this in all things. To most of us the body, with its many forms of sickness and error, seems to need immediate attention—first, because it has such a vast number of sicknesses to which it lays claim, and second because the history of material means for the alleviation of these sicknesses has been so long and so almost a complete failure.

In practicing medicine I soon found that there was a certain mental element in every case, and as it was obvious that the mind could not be reached by any material means, I began to try to estimate just how large a factor it was in the case that came to me. At first I thought some cases were quite largely physical, and others quite largely mental, but as time went on and through practice my observation became more keen, I saw that many types of sickness were wholly mental, and finally came to see that they were all entirely so.

I studied everything I could find, from mental therapeutics to Christian Science, and as I studied I saw that all were alike except one, and that one was Christian Science. Had Large Grasp. Christian Science was the only one that had so large a grasp of the ailment as to refuse to dishonor Him by admitting that anything that He had made was imperfect or could become imperfect; was sick or could be created, or had within it any God-given quality that could allow it to become sick. It was the only one in which there was no compromise with matter, and which dared to deny the material world, the flesh, and the devil, because they were contrary to His creative perfection; the only one that refused to deny the actual existence of anything unlike God, and the assurance of healing after human hope and human will and human reason had failed.

Do you suppose that when I saw all this I accepted Christian Science? No! Instead, for two years I read everything I could find against it (and it was at a time when there was much criticism), in the hope of convincing myself that it was not true, for I saw that the spirituality of Christian Science would not mix with my profession, and that it did not want to give up the practice of medicine. But the more I read against it, the more I became convinced of its truth, and here I am. It does heal, and it does save, just as it did in Jesus' time. We need to know something about God, however, in order to appropriate the healing, and through-out the entire teaching of Christian Science the necessity for spiritual understanding, in order that we may know God's law is constantly insisted upon.

Must Believe. Throughout the entire teaching of the gospel, both Jesus and his disciples constantly asserted that salvation was to come as a result of believing—as a result of having faith in God. Paul says, "Without faith it is impossible to please him," for he that cometh to God must believe that he is, and that he is a rewarder of them that diligently seek him. We are constantly enjoined in the Scriptures to believe and have faith, but we have accepted shallow meaning, and have thought that all that was required of us was to tacitly believe and we should receive all that Christianity has to offer. In undertaking to know something of the nature of God, we are all agreed in admitting that God is omnipotent, omnipresent, and omniscient; that is, all-powerful, ever present, and all knowing. We are all agreed in admitting His infinite perfection and presence and power; yet after making these statements the religious thought of the world quite generally contradicts them by admitting that sickness and other forms of imperfection are either sent of God or permitted by Him, as though divine mind had any imperfection to send or could permit it without becoming responsible for it.

The Bible speaks of God as Spirit, as Life, as Truth and as Love. It also speaks of Him as the creator, from which all proceeds. This thought is expressed in Christian Science by the use of the word Principle for God, since Principle is that from which all proceeds and by which it exists.

The Only Source. When we consider God as Principle, that from which all proceeds, we find it impossible to conceive of both sickness and health proceeding from this one infinite Principle; and yet there is no other source from which anything could come, for, as John declares, "without Him was not anything made that was made." When we consider God as Mind we arrive at the same conclusion, for the manifestation of Mind is thought, and the thoughts of infinite Mind are not sick thoughts, but perfect and healing thoughts.

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought the Joy of Health After Two Years' Suffering.

MADAM LAPLANTE.

35 St. Rose Street, Montreal, April 4. "For over two years I was sick and miserable. I suffered from constant Headaches, and had Palpitation of the Heart so badly that I feared I would die. There seemed to be a lump in my stomach and no Constipation was dreadful. I suffered from Pain in the Back and Kidney Disease.

"I was treated by a physician for a year and a half. He did me no good at all. I tried 'Fruit-a-tives' as a last resort. After using three boxes I was greatly improved and twelve boxes made me well. Now I can work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was 'Fruit-a-tives' that gave me back my health.

"MADAM ARTHUR LAPLANTE." Fifty cents a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

Reflection, the manifestation of these ideas which constitute man and the universe. As God's ideas we exist in Him—perfect, spiritual and immortal—and because we exist in Him the Scriptures declare that "In Him we live, and move, and have our being."

Opening Hunting Season Near and Prospects Good

Forty Moose Seen in Four Days in Abitibi District of Quebec.

The crack of the hunter's rifle will soon be heard once more. The hunting season for deer, moose and caribou opens in the Province of Quebec on September 1, except in the counties of Ottawa, Pontiac, Labelle and Temiskaming, where the open season begins October 1. Sport will be excellent this year, according to reports received at Grand Trunk headquarters, Montreal.

Many sportsmen are planning trips to the new moose country in the Abitibi district of Northern Quebec, reached through Cochrane, the junction of the Temiskaming and the Northern Ontario Railway and the Transcontinental Line. In the hunting reserves, there known as Canada's Camps, moose are more prevalent this year than ever before. This, it is believed, is due to seasonal increase, and to the fact that the moose are steadily moving into this new region from the more southerly areas. Many party just returned from this region sighted in four days more than forty moose. Some wonderful moving pictures of moose have just been taken there.

In this Abitibi district there is also considerable bear with some deer and a few caribou. In Ontario the hunting season opens November 1, but an order in council has just been promulgated allowing moose hunting in that portion of Ontario lying north of the Transcontinental Line to begin October 30, and extend to November 30, making the season considerably longer than in former years.

The transportation authorities are co-operating in every way in the work of attracting sportsmen to Canada, and stand ready to give all available information to the intending visitor.

ANNIVERSARY SERVICE.

The South London Baptists are holding anniversary services on Sunday, October 28, 1917.

Rev. Thomas Bingham of Dutton will be the speaker at both services, and the choir will render special music for the occasion.

THE KIDNEYS

between 30 and 40

Whatever else you do, keep your Kidneys regular and active. Their work is of vast importance to your health and at the first evidence of trouble, often occurring from the thirtieth to the fortieth year, take a treatment with

Gin Pills

FOR THE KIDNEYS. The Kidneys' work is to filter impurities from the blood. Evidence of something wrong with the Kidneys may be recognized easily—pains in the sides and back, Rheumatic twinges, constant headaches, swollen joints, restless sleep and urinary troubles. Gin Pills are the quickest and most effective remedy you can take. 50c. a box or 6 boxes for \$2.50, at all dealers. Sample free if you write to

National Drug & Chemical Co. of Canada, Limited, Toronto, U. S. Address: No-Dro-Co., Inc., 202 Main St., Buffalo, N. Y.

Burns

The fire is removed from burns and scalds by the intense pain it quickly soothes by this wonderfully healing oil. It has brought relief to thousands of sufferers. For burns, wounds, cuts, scratches and all abrasions of the skin do not fail to use. Each dealer, 50c.

Dr. Thomas' Eelectric Oil

The Business Side of Winning the War

THE WAR can be won only by a combination of Men and Money co-ordinated into invincible organization by the patriotism of all the people.

The most devoted patriot army could not fight twenty-four hours without money and the support of those things which money alone will buy.

Our soldiers must have food, clothing, arms, munitions and transport, or be vainly sacrificed in battle.

So, no matter how brave our soldiers may be, nor how self-sacrificing they are, unless we back them freely and generously with money, their bravery and their sacrifices will be all for nothing.

Money is the coupling pin between Canada's fighting men and victory.

TO CARRY on the war Canada must be prepared to produce and sell on credit to Great Britain and our Allies, hundreds of millions of dollars worth of supplies.

Cash must be paid to the producers of those supplies.

The war is not only a terrific struggle of men and guns, but it is also the most tremendous business of producing, selling and financing the world has ever known.

And to successfully carry on this war, money is as indispensable as it is in operating a railroad or a private business.

The war is therefore a combination of commerce and fighting, of business and patriotism.

So, to keep on producing as well as fighting, the very highest commercial efficiency of Canada must be maintained.

And it is Canada's privilege to take a man's part in that combination of patriotic producing, financing and fighting.

Also it is Canada's duty as well as her privilege to so conduct that business that she can continue to produce and sell and finance on a still greater scale.

GREAT BRITAIN has advanced to our Allies five and a half billion dollars. The United States has advanced to Great Britain and our Allies nearly three billion dollars. These advances of course are not in actual cash, but in credit.

When Britain lends billions to France and Italy she does not lend the actual cash, but she gives those Allies credit.

The British munition worker and coal miner who produce the supplies for France and Italy are paid in cash with the money borrowed by the British Government from the British people. But the money stays

in Britain, and helps to maintain for British workingmen conditions of the highest productive efficiency.

NOW, because of the tremendous burden of expenditures which Great Britain is bearing at home and has made abroad in the past three years, and because of the billions of credits she is financing for the Allies, it is impossible for her to send out of Britain any more money in cash.

For her purchases in Canada and the United States she must have credit. And that credit must be established by the people. What the Government of Canada lends to Great Britain must in turn be borrowed from the people of Canada.

So Canada's Minister of Finance comes to the people of Canada for a loan which Canada promises, in the form of Canada's Victory Bonds, to repay at a stipulated time, with interest.

Canada's Minister of Finance sells Canada's Victory Bonds to the people and the people pay him their money, which he uses to pay the farmer, the miner and the wage earner for the products which Great Britain needs and must have.

The producers in turn circulate all this money for food, clothing, furniture and other necessities, thus contributing to the business prosperity of the whole country.

So, by buying Canada's Victory Bonds we are not only helping Great Britain to win the war but we are also helping to maintain in Canada those conditions of material well-being which again are essential in maintaining at a high level the productive efficiency of the nation.

Thus the purchase of Canada's Victory Bonds completes the cycle of National effort in winning the war, in which every man, woman and child should take a part.

That is the Business side of Winning the War—
Your Part in that Business is to buy
Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

RED CROSS FUND IS NOW \$3,000 IN EXCESS OF GOAL

A. D. McLean, honorary treasurer of the British Red Cross fund, announced Friday that the total receipts resulting from the recent canvasses amounted to over \$3,000. Every source has practically been heard from, and this may be accepted as the total.

PERSONAL MENTION

Mr. and Mrs. H. A. Colville of Chatham, who have been visiting their daughters, Mrs. J. E. Richards and Mrs. D. L. Welch of Belgrave avenue, returned today.

Rev. M. C. Tait of Wallaceburg christened the infant daughter of Mr. and Mrs. D. L. Welch, Lorne avenue, on Thursday.
