The question of unemployment in the district was discussed and it was pointed out that a very satisfactory condition at present exists in the section. Not one man in the radius taken in by the association is out of employment. Beputy Reeves Robert Barker and J. A. Macdenald have arranged that all cases of distress will be immediately attended to. President Glies stated that, thanks to the efforts of the members of the association, the objective, \$495, for the erection of the ciub house had been reached, and the headquarters of the members was now clear of debt.

The ground has been paid for, as well as the material to erect the building. The purpose of the committee is now to set to work and repay their loan.

Switzerland Embarrassed.

Berne, Switzerland, April 3.—The return of former Emperor Charles to Switzerland has been postponed because of illness, said to be pneumonia in both lungs, says an official message received here today.

The situation is proving embarrassing to the government, which has determined to withdraw its permission to Charles to re-enter Switzerland if the delay in his arrival continues unduly.

Both Lungs inflamed.

London, April 4.—A despatch to The Dally Mail from Steinamanger quotes two local physicians as saying that both lungs of former Emperor Charles are inflamed and that it is out of the question for him to travel for a fortnight. The despatch adds that Dr. Fitzwilliams, physician to the British legation in Vienna, concurred in the shooting of the boy.

Landslide Delays Train

Near East Toronto

Canadian National train from Ottawa to Toronto, due here at 7.30 yesterday morning, was delayed for about two hours by a landslide near East Toronto. Several tons of heavy, wet clay, loosened by frost and recent rains, slipped from the bank just before the train was due and covered the track to a depth of four or five feet. Fortunately for the passengers a watchman had been on duty in the danger zone all night in anticipation of the landslide, and the passenger

An Invalid Can Ride in an Auto

The woman who can live outdoors and take vigorous exercise is usually healthy and well. But there comes a time in every woman's life when her nerves are on edge. Very often the trouble is in the organs essentially feminine. Worry, sleepless nights, headaches, pains and weakness of a distinctly feminine character in a short time bring the pale face, the dull eye, the "crow's feet," the haggard look, drooping shoulders and the faltering step. To retain the appearance of youth, a woman must retain health. Instead of lotions, powders and paints ask your druggist for Dr. Pierce's Favorite Prescription. This is the woman's temperance tonic and nervine which has had the approval of thousands of women for over fifty years. It comes in liquid or tablet form, or send ten cents in stamps to the Invalids' Hotel, Buffalo, N. Y., for trial package of the tablete.
