

This denomination, which in 1831 had only one solitary minister in Canada, has now 25 itinerant, and 160 local preachers in the Province, with 2589 persons in church fellowship, 3 self-supporting Circuits, 13 Mission Stations, 60 Chapels, and 115 other preaching places. These manifestations of the Divine goodness humble and encourage us.

Respecting the several Stations, we glean the following from communications received:

*Peterboro'.*—Unity has generally prevailed in the societies during the past year. Eighteen persons have been admitted; but, through a variety of causes, the number is less than were returned twelve months ago. One has died happy. A new Chapel has been commenced in Otonabee, and other openings present themselves; but some of them cannot be supplied without another preacher.

*Dummer* is not looking so encouraging as we could wish. The English Line Chapel has been repaired, and the materials are ready for enclosing the burying ground with a board fence.

*Huntingdon.*—Two new Societies have been formed, and others added to the church. Many of the members have doubled their quarterly contributions the two last quarters; we hope others will copy their example.

*Hungerford.*—Twelve persons have been added to the church during the year, and two have died, we trust, in the Lord. Efficient class-leaders and local preachers are much needed. May the Great Head of the Church send us a gracious revival.

*Seymour.*—Several young persons have been led to the Friend of Sinners, and have taken Him as the guide of their youth; and some middle aged persons have chosen the good part which cannot be taken from them, and two members have died, we hope, in peace. The Chapel opened last year has been partially seated. A quarter acre of land has been secured for the erection of another frame chapel forthwith; the timber is already on the spot, the lumber purchased and the work let. Lately we have had some gracious seasons; our class and prayer meetings are better attended; our last quarterly meeting was a very good time to several. Two new places are opened, and the people at other places are saying, "Come over and help us."

*Port Perry* is not looking very encouraging; neither do we think it will until we have a missionary to reside among them. This mission has been worked to great disadvantage for want of pastoral care.

*Mariposa.*—Measured by the Bible, we are spiritually far short of what we should be, and what we wish to be. Measured by christians generally we, perhaps, compare favorably with them. A few persons have been added, and three have died in the Lord. Two chapels are in course of erection, which, we hope, will be free of debt. Many of the members are making extra efforts to raise this to the honorable position of a self-supporting Station, expecting that, when that object is achieved, God will more abundantly bless us, and make us more successful in the salvation of sinners. Lord, hasten the time. Amen.

*Pickering and Scott.*—About 30 have been brought to God; but these do not make up the deficiency arising from removals and other causes. Land
