CONSUMERS' COAL CO., Limited**TWO ARRESTS AS SUSPECTS
IN PORTLAND MURDER CASE**

Portland, Me., Sept. 30.—The police have taken into custody two negroes who are suspected of having killed William E. St. John, a watchman whose body was found in a warehouse and retail hardware and sporting goods store in Monument Square.

Alexander McRae, of Providence, R. I., who was taken from a freight train from this city at Rumford Junction, and Joseph Jackson of Richmond, Va., who was taken into custody in a house in Deer street, were said to answer the descriptions of two men who were seen through a Congress street fruit store from the rear of the hardware store a little before the watchman's body was found.

Several new automatic revolvers, a shield and other tools which are missing from the store, are alleged to have been found on McRae.

St. John pulled his box at 8.22, and the police to pull again led to the discovery of the murder. Three shots were fired when McRae and Jackson were seen in the store at 8.30, and it is the theory of the police that they managed to escape observation until after the store was closed and when found by the watchman shot him.

According to the Lewiston police who arrested McRae, the latter said he and a partner have been giving boxing exhibitions and conducting an "African Dodge" booth at county fairs during the last few weeks.

Every sheet of aluminum in which "SALADA" is packed is as light as a sheet of note paper, but this wonderful metal so completely insulates the tea from any outside odors or atmosphere that "SALADA" reaches you in all its original purity and freshness.

MONEY FOR CARRANZA

Washington, Sept. 30.—The Carranza agency here has been notified by Governor Gustavo Miralles at Saltillo, that General Gutierrez, former president of Mexico, has turned over to him two million pesos to be used by the Constitutional government. Gen. Gutierrez has had the money since his election by the convention forces after the downfall of Victoriano Huerta.

**Offensive
Continues****French Have Reached Hill 140
—Heaviest Fighting Where British
Are Pounding Germans'
Third Line — Morning War
Summary**

London, Sept. 29.—The Allies' great offensive in Artois and the Champagne is still being persevered in and, according to the French statement, further progress has been made in both areas.

In Artois the French claim to have reached Hill No. 140, which lies directly east of Vimy, and is the culminating point of the crest named after that town. The importance of the hill lies in the fact that it commands the plains to the east; the network of roads and the railway which runs from Lens southward.

So far as Champagne is concerned, the French appear, at present, to be making their effort towards the railway junction north of Massige, which accounts for the desperate efforts of the Germans to stem the tide, and for the crown prince's counter stroke in the Argonne, as this railway connects the German army in the Argonne with its base at Vouziers.

Perhaps the heaviest fighting since the offensive began is now going on, for the British are attacking the German third line of defence, south of La Bassée Canal, and the Germans have brought up reinforcements against both the British and the French and are making every effort to retrieve the last ground. Belgium, despatches from Holland say, has been denied of troops while German detachments are even being removed from the eastern front to meet what is now known to be the greatest effort made in the west since the armies took up their present positions from Belgium to Switzerland.

The Germans are trying to divert the Allies by a heavy bombardment north and south of the Aisne, but plans having been made by General Joffre, the French are striking with all the forces at their command at the points selected.

It is reported that the German emperor has arrived at the western front, and that he has already dismissed some of his generals for allowing their lines to be pressed back to almost the breaking point.

Despite the transfer of some troops to the west, the Germans continue to strike hard at the Russians, practically all along their front. Field Marshal Von Hindenburg is delivering heavy strokes against Drinsk, while his colleague on his right is pushing forward to the west of Vilna and Mordochino in an attempt to turn the Russian position, and has now reached a point to the north of Minsk, while another army is advancing from the southwest.

Field Marshal Von Mackensen and Prince Leopold of Bavaria apparently are inactive, owing, doubtless, to the marches which they have made. The General Von Lindegen is still pressing hard on the Russians in Volynia. It is expected that the western front will soon put an end to the operations in the east, as will the continued rains the river cannot be forded and the Russians, wherever possible, are getting behind them.

Three Turkish Armies Dispersed
The British have inflicted another serious defeat on the Turks in Mesopotamia. The Tigris army, after suffering heavy losses, is in full retreat towards the north. The three armies which the Turks sent to Mesopotamia against the Anglo-Indian invaders, have been scattered. In May, the Tigris army was driven back from Kurna to north of Amara; the army of the Karun was driven from Ahwas, and the army of the Euphrates was last heard of in the north of the river, somewhere north of Nairi.

It is again reported that an Austro-German army, 800,000 strong, is assembling for an offensive against Serbia.

**PARALYSED AND
HELPLESS****Prominent Merchant Restored
to Health by "Fruit-a-lives"**

Bristol (N. B.), July 23rd, 1914.

"I had a stroke of Paralysis in March, and this left me unable to walk or help myself and the Constipation was terrible. Finally, I took 'Fruit-a-lives' for the Constipation. This fruit medicine gradually toned up the nerves and relieved the paralysis. By the use of 'Fruit-a-lives' I grew stronger until all the pain left me. I am now well and attend my store every day."

Box a box, 6 for \$2.50, trial size 25c. At dealers sent on receipt of price by Fruit-a-lives Limited, Ottawa.

telus, general manager of government railways, and F. B. Brady, general superintendent, who came west to meet him.

Referring to the reports that have been in circulation that the government intended to take over the Grand Trunk Pacific Mr. Cochrane said the stories he heard in the west were the first news he had on the subject. He merely smiled at the question asked, saying there was nothing to it.

NEW EXPLOITS OF ELAINEFurther Exciting Adventures of Popular
Heroine — Pictures From War Zone
— Other Good Features at the Gem

A new serial opened at the Gem Theatre yesterday with old favorites in the east, headed by Pearl White. It is a continuation of the "Elaine" stories, compiled in a short serial, entitled "The New Exploits of Elaine," which will be given at the Gem for the next few weeks in two reels each Monday and Tuesday.

The showing of the first episode, "The Serpent Sign" yesterday proved most fascinating and exciting, and the new exploits of Elaine, which will be given at the Gem for the next few weeks in two reels each Monday and Tuesday.

Good heavy fun was provided in the Mino comedy "The Fighting Kid," while the orchestra gave a pleasing programme. The pictures shown in the Pathe Gaiety pertaining to the war, including the Russian navy, French prisoners exchanged from Germany, The Welsh Guards and others, aroused much liveliness, and were presented with patriotic music by the orchestra.

There is some chance in this section of the country that all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local troubles, have accumulated a formidable record. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only cure for Catarrh on the market. It is sold by Druggists, and takes hold of the blood and cleanses the system. They offer one hundred dollars for any case that fails to cure. Send Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, and takes hold of the blood and cleanses the system.

ENGAGEMENT ANNOUNCED
Mr. and Mrs. Austin Dunphy of Fredericton announce the engagement of their daughter, Miss Gladys Honor, to John Franklin Dow, formerly of Fredericton and now of Boston, who is coming to take place next month.

His Lordship Bishop Richardson has returned to Fredericton from Toronto where he attended the meeting of the General Synod of Canada. On Friday he will go to Woodstock for consultation and will return to Fredericton on Saturday.

**HON. MR. COCHRANE
ON 8,400 MILE TRIP****Minister of Railways Averaged
Over 400 Miles a Day on His
Western Tour—Denies G.T.P.
Rumor**

Winnipeg, Man., Sept. 30.—By the time Hon. Frank Cochrane, minister of railways and canals, gets back to Ottawa some time during this week, he will have covered 8,400 miles of Canadian railway.

Mr. Cochrane has made a complete inspection trip of the new railways and terminals in western Canada. He went to Mile 207 on the Hudson Bay Railway but had to return to The Pass, owing to a sink hole on the road and also because he wanted to reach Winnipeg this morning.

During his western trip he has averaged forty miles every traveling day. Speaking of the Hudson Bay Railway he said that the work was progressing, but said that a couple of bad sink holes had delayed progress somewhat. He hoped, however, that the road would be ready for operation next year. J. D. McArthur, the contractor for the line, accompanied the party.

Referring to his trip west over the Grand Trunk Pacific and Canadian Northern Railways, Mr. Cochrane expressed himself as being well satisfied with the roads, but that, of course, there was considerable work still to be done to make them of a permanent character. The C. N. R., he said would be able to open very soon.

The minister was somewhat concerned over the progress being made with the crop. "It is a wonderful crop, if you can only save it," was his remark. "The weather has been very bad. As we came along we could see miles of wheat in the stock being held up by the poor weather. The railways are able to care for it as fast as the farmers can get it threshed. The weather has been so bad in some places that the farmers haven't even been able to stack."

The minister went east to Fort William over the Transcontinental to inspect the terminals at the head of the lakes. He was accompanied by P. F. Co-
