

RICH TRAIL CREEK.

W. A. Campbell, Formerly of Toronto, Amazed at the Possibilities of that District.

Predicts That Mines There Will be Among the Greatest on Earth.

W. A. Campbell, until May 1 of the present year a prominent business man of Toronto, Canada, and since that time a resident of Rossland, is visiting friends and transacting business in Spokane, the Spokane Chronicle.

Mr. Campbell has acquired interests in the Annie Faxon, near the California, the Erich, the St. Paul extension of the White Bear, the Northern Belle on Kootenai and other properties, and is also vice-president of the London and Kootenai Mining Company, which owns the Comet No. 2.

Mr. Campbell regards this as the greatest mining district in America and believes it will become the greatest on the globe in the course of the next three or four years. He holds out the fact, as an evidence of his confidence, that he is buying a large number of good claims himself and is inducing his friends in Eastern Canada to also invest. He intends to make Rossland his permanent home.

Concerning the mines now in active operation he said:

"I have just examined the South Belt and its mines. My opinion is that another year will make this section equal to the North Belt. The mines are looking most promising. Of the new ones I regard the Mayflower as a wonderful property. It has produced pay ore from the start and recent smelter returns gave \$56 to the ton. The Hilltop is another remarkable mine and development in it has disclosed the Mayflower vein. Surface assays from the Hilltop ran \$7 in gold and 22 ounces in silver, while down eight feet the ore ran \$8 in gold and 17 ounces in silver. A tunnel is now in twenty-five feet on the property and is showing up well. The Mayflower, near the Hilltop, is also looking up well, and its owners, Messrs. Dunn and Sullivan, have just exposed a large six-foot vein. The assays on the property are said to run high. Mr. Bouche, owner of the Emerald, has a good property; but at present is devoting himself to prospecting the claim, several fine leads having been discovered by his men. Mr. Woodhouse, the Rossland assayer, assures me that one of his properties is also proving wonderful.

"The properties I have mentioned are all new properties, practically this year's properties. As for the older properties they are making remarkably fine showings and bid fair to make the camp a centre of great wealth."

Concerning the future growth of the district and the people who will aid materially in developing it, Mr. Campbell said:

"The camp has a grand future before it. At present the owners of new claims are doing some splendid work—probably the best that could be done for the camp—they are thoroughly prospecting their leads before beginning work, thus more quickly showing good results.

"In a year or a year and a half I look for a regular South African zone in this region. This will be brought about by the splendid success already made by some of the English investors and the success that will be made by them during the coming season. The English company which bought the City of Spokane has recently been offered what it gave for the property for a half interest in the same.

"Another good thing for the camp will be that there will not be very many wildcat speculators, as there are now, of any kind of a favorable showing discovered having proved rich. English and Eastern Canada money is just being aroused as to the wonders of the camp. Every big English mining company is now being represented in the camp. A number of men are there who do not disclose their identity. Mr. Pritchard, who represents the Earl of Warwick, and with whom I have business relations, is now in the east. He assures me that he will be in the camp in about two months. The Goodwins of Toronto, who represent some \$15,000,000, have acquired interests in at least half a dozen different properties during the last season. The English company which bought the City of Spokane has had an expert in the field during the past spring and favorable reports were made by him. In fact, the really big capitalists are regarding the camp in a favorable light. In a few years Rossland will be the Denver of British Columbia's mining district."

BRIEF LOCALS.

Gleanings of City and Provincial News in a Condensed Form.

From Tuesday's Daily.

Word has been received here that a French consul will be sent from Paris to take up his residence in Victoria.

The half-yearly meeting of the Vancouver Island Building Society was held last evening. The secretary's financial statement was received after which the 88th appropriation was drawn. Mr. G. W. Haynes, the holder of 210 A and B, was the winner and is entitled to an appropriation of \$2000.

The directors of the British Columbia Agricultural and Industrial Association decided, at a meeting held in the City Hall last evening, that it was inadvisable to hold an exhibition this year. The view was taken after duly considering that the city was not in a position to grant the necessary financial aid.

Mr. Thomas Catterall has been awarded the contract for the two-story and basement building to be erected on Wharf street, adjoining Messrs. Turner, Beeton & Company's warehouse, for Mr. A. C. Ewart and the plans call for a handsome and substantial building. Work will be commenced immediately, and the building will be pushed to completion. It is to be occupied by Messrs. Turner, Beeton & Co.

The quarantine regulation prohibiting the importation of horses from the

American side unless accompanied by a certificate of health from a veterinary surgeon, has been suspended for two months. It has been found that horses were often purchased in places where veterinary surgeons were not available, and as the horses are to be examined on arrival here this is considered sufficient to prevent the importation of infectious diseases peculiar to horses.

Mr. Ernest J. Wood, Canadian immigration agent at Birmingham, England, has just brought 120 agriculturists to the country. Each of these had a nice amount with which to begin farming, the average cash being \$1500 each. Fifty of the party settled in Ontario, 40 remained in Manitoba, 15 in the Northwest, and the remaining 15 came to this province. Mr. Wood arrived in Victoria yesterday and will inquire into the advantages this province offers to immigrants.

This morning at Christ Church Cathedral the Ven. Archdeacon Scriven M. A., celebrated the marriage which united J. W. Church, M. A., principal of the Victoria College, to Miss Emily Ellibee Wilson, only daughter of Mr. William Wilson, of this city. The bride, who looked charming, was given away by her father, Mr. W. R. Wilson, an supporter of the Victoria College. Hon. J. H. Turner, who is uncle of the bride, was among the witnesses on the marriage register. The bride and groom were married at the wedding breakfast at the Highlands. The bride and groom were married at the wedding breakfast at the Highlands. The bride and groom were married at the wedding breakfast at the Highlands.

Mr. John MacKenzie, Dominion land agent at New Westminster, received a letter from Upper Sumas, dated July 21, stating that a great calamity had overtaken the settlers on Sumas Mountain. A fire raged through the bush all Monday night and Tuesday, fanned by a strong north wind. The fire, it appears, originated on the side nearest the river. As a result of the fire, six settlers have lost everything but what they stood up in. The sufferers are homeless, and have nothing to eat. The fire is so great that something should be done to relieve them. The following are the names of those who are homeless: Mr. Brown and family; Mr. J. Bristo and family; Mr. T. Straten and family; Messrs. Gammon, T. D. McNider and Mr. McNider, single.

Mr. W. H. Jones, of Rossland, B. C., editor of the Pioneer, was married on Saturday at York, Haldimand Co., to Miss Annie Verth, M.D., honor graduate this year at Trinity Methodist college, and daughter of the late Mr. John Verth, of York. The ceremony was performed at the residence of the bride's mother by Rev. Cornelius Scudamore. The bridesmaid was Miss May Verth, sister of the bride, while Mr. A. W. Pinbow, of Beamsville, supported the groom. At the conclusion of the ceremony the newly-married couple came to Toronto, en route to the west. Mr. Jones is an old Toronto boy, and at one time was a reporter on The Globe. He went to Vancouver in 1893 and was engaged in newspaper work there first on The World and subsequently on The News-Advertiser. In 1892 he purchased the Kamloops Sentinel, which he continued to conduct until this year, when he disposed of his interest in it, and in conjunction with Mr. North, bought out the Rossland Prospector—Toronto World.

From Wednesday's Daily.

At a meeting of the Esquimalt board of trustees held last evening, Mr. L. A. Campbell was appointed teacher in place of Miss Kerendale, who resigned the position at the close of the term.

Ald. Williams has given notice of the following motion: "That the city clerk be instructed to communicate with the postal authorities, drawing attention to the serious delay to business men in having to wait until postal packages from China and Japan are assorted at Vancouver and afterwards forwarded to Victoria. Instead of their being landed here with other mail matter for Victoria, when the Oriental steamers dock, also that attention be called to the excessive charges for postoffice boxes as compared with other cities of the Dominion."

Three still alarms and one box alarm was the fire record for the past twenty-four hours. A grass fire near the powder magazine at the park required the attention of a hose company at 8 o'clock last evening. The alarm at 2:10 this morning called the firemen to the Manchester Carpet Cleaning Works, on Pembroke street. The building, a small one story frame residence, formerly known as Doscher's laundry, was occupied by four men when the fire occurred. No reason can be given for the origin of the fire, which caused a loss of less than \$400. David H. Ross is the owner of the building, which is uninsured.

Mrs. Margaret Madigan, wife of Mr. Benjamin Madigan, of Rock Bay, died this afternoon after a very brief illness. Mrs. Madigan was a sufferer from Bright's disease, but her many friends were unaware that the end was so near. The deceased was very widely known and most highly respected, having resided here many years. Besides a sorrowing husband and large family who remain to mourn the loss of a kind wife and mother, deceased leaves two sisters, Mrs. T. J. Burnes and Mrs. W. O'Brien. Due notice of the funeral will be given.

Rev. D. A. McRae announced to his congregation on Sunday evening last that owing to his wife's delicate health, which would not permit her to join him in this city, he had been reluctantly compelled to finally resign his position as their pastor, assuring them at the same time that this occasioned him keen regret. The Victoria Presbytery will assemble at Alberni on the 4th proximo, the business of the session closing with consideration of Mr. McRae's resignation and also the ordination and installation of Mr. Taylor, who superintends the work of the Presbyterian mission of Alberni. The congregation of St. Andrew's church, it may be added, regret the feeling of regret which Mr. McRae expressed on Sunday evening, while recognizing that any other course, in his part would, under the circumstances, be impossible. Nanaimo Free Press.

From Thursday's Daily.

George Forest, a deckhand on the

thamar, had an arm broken at Vancouver by a heavy case falling upon it from a truck which he was wheeling.

At a meeting of the trustees held on Tuesday evening last, Miss Jeanne Grant Fraser was appointed teacher on Lake and ready to accept about thirty applicants for the position.

Mr. A. Berg, C.C., has, by permission, sent to Her Majesty the Queen a presentation copy of his History of British Columbia. The volume is finely printed and handsomely bound in red morocco, the publisher, Wm. Briggs, Toronto, having taken special pains with it.

A cable from Yokohama announces that Wing Kee, the well known Chinese contractor, died on the Empress of India five days after she left here. The deceased had been suffering from a cancer and his physicians pronouncing his case hopeless, he decided to go back to China that he might die among his kindred. The trip, however, proved too much for him and death came on the fifth day from port.

It is understood to be the intention of the Imperial government to have H. M. S. Imperieuse stationed at Esquimalt as a guard, prison and training ship. When her time expires as flag-ship on the Pacific station she will return here, the flag-ship being sent on to the Imperial government. The ship is put to the new use, will be just sufficient to man her. This is one of the many projects proposed by the Imperial government to make Esquimalt impregnable.

The government reduction works at Barkerville, Cariboo, are now in full operation and ready to treat any parcel of ore from 5 to 50 tons in quantity, that may be sent from any of the mines in that district. By the arrangement made with the government the present assesses of the work have to treat all such parcels of ore at actual cost. By this means the miners of Cariboo have an opportunity of getting complete mill tests made at a nominal cost. The cyanide process is in use at the works.

One Tuesday last, Rev. Charles Edwards Cooper, M.A., the popular pastor of the Episcopal church, Wellington, was married to Miss Octavia Allen, youngest daughter of the Ven. J. Allen, M.A., Archdeacon of Sakon. The ceremony took place at Lichfield Cathedral, England, the nuptial knot being tied by Rt. Rev. the Hon. Adelbert Aird, D.D., at one time Bishop of Quebec, assisted by Rev. J. Melville Scott, M.A., Archdeacon of Stafford, and the Rev. H. R. Cooper Smith, D.D., vicar of Basingstoke, Hants.

Mr. D. Deverell has returned from a trip to Lakes Crescent and Sutherland, which lie among the foothills of the Olympics not far from Port Angeles. He reports the fishing as excellent, though this is about the least favorable part of the season for the sport. In three or four weeks both angling and deer shooting will be such as to satisfy the most exacting sportsman. Mr. Wilcox, who lives at Lake Sutherland, the special friend of the sport, who resort to the district for fishing and shooting, and at Lake Crescent lives Mr. Ben Lewis, who has also a thorough knowledge of the region.

"Professor" Menzies, the "magnetic healer," not unknown in Victoria, had a rather exciting experience at Whatcombs on Monday evening. According to his story he was on his way home when he was attacked by an unknown man who struck him with a stick. The "professor" wrenched this away from him, the bullet lodging in his leg. About seven years ago "Professor" Menzies resided in Victoria. He, with a woman, Mrs. Crawford, were charged by the Times with taking Chinese girls out of the Refuge Home and attempting to sell them. The Colonial came to the defence of the "Professor," but he was nevertheless sentenced to three months by the late Mr. Justice Gray.

LAW INTELLIGENCE.

The jury are now out trying to arrive at a verdict in Harris vs. Dunsmuir. Questions somewhat as follows were put to them by His Lordship Mr. Justice Walkem:

1. Did the plaintiff, Mr. Harris, accept and act on the terms contained in defendant's letter of the 18th January, 1890, as constituting the complete contract between plaintiff and defendant as principal and agent?

2. If not, did the defendant verbally authorize the plaintiff to do his best to effect a sale of the mine, and give such authority intended to be incidental to the written instructions mentioned and form part of the contract?

3. Were the terms mentioned in the defendant's letter of the 18th January, 1892, intended to be a modification of the written instructions of 18th February, 1890, and were they so treated by both parties?

4. Were these terms accepted or acted upon by the plaintiff as a complete contract between him and defendant as principal and agent?

5. If not, did the defendant authorize the plaintiff to do his best, etc. (as in question 2)?

6. Did the plaintiff procure a purchaser on the terms and within the time limit mentioned in the letter of January 18th, 1892 (as modified in March by the defendant agreeing to throw in the steam colliers and vary the payments) and if so, was the completion within the time limit of the negotiations with the purchaser presented without just cause by the defendant?

7. In the event of the plaintiff being entitled to damages what is the amount?

A Farm-hand's Marriage With an Heiress Ends in Disaster.

DAY'S SHIPPING NEWS.

The Big Turret Steamship Progressist Loses Her Propeller Near Nanaimo.

Northern Pacific Liner Tacoma Loaded With Freight Leaves for the Orient.

San Francisco, July 30.—Sachiro Asano, president of the Toyo Kisen Kaisha, the Japanese steamship company, has arrived from Portland and Seattle. President Asano was asked if his company had decided upon a terminal port on this coast for his steamship company. Through Mr. Kalwa he replied that he had not. He said:

"Reports that we have selected San Diego as our port are not true. That we have been in negotiation with the Santa Fe railroad people, or people friendly to that company, to make San Diego our port is true, however. On the other hand, we have had similar negotiations with the Northern Pacific to make Tacoma our terminal, and with the Oregon Railway Company to select Portland as our port. We have reached no decision as yet. We are coming to this coast. We want to come to the port that offers the best opportunity for business. We are here now trying to decide that question. That is all I have to say, with the understanding that I make no unfavorable criticism against anybody or any Pacific coast city."

At 4:30 this morning the Northern Pacific liner Tacoma arrived at the outer wharf and at 6:30 left for Yokohama and Hongkong. The Tacoma had a full cargo of 3,000 tons of general merchandise. This includes 1,500 tons of flour, 500 tons of domestic goods, 50 tons of dried shrimp, seaweed, and other goods from California and 200,000 feet of lumber. There was also a carload of bridge timber for use in China. A rather unusual consignment was a number of cows from Oregon. Heretofore China had but few milch cows and milk was a scarce article. Those which went on the Tacoma are the first of a large number which some enterprising Chinamen intend taking to the Orient.

Just before entering Departure Bay on Tuesday evening the big turret steamship Progressist had her shaft broken and dropped her single propeller in 75 fathoms of water. The shock involved by the sudden disconnection of the propeller shook the steamer violently throughout. The Joan, which was at Nanaimo at the time, went out and towed the disabled collier into Departure Bay. The full extent of the injuries to the vessel cannot be ascertained until she has been docked in Esquimalt, whether she will be towed by the tug Lorrie.

The steamer Victoria left Yokohama on July 24. She has a full cargo and should arrive about August 8. The Northern Pacific Steamship Company have also chartered the steamer Annandale to carry a load of tea from Hong Kong to Tacoma. She left Hong Kong on July 23 and will call at Kobe and Yokohama. The Annandale is an iron screw steamer of 1526 tons burden. She is a sister ship of the Evandale, which arrived from the Orient with tea about this time last year.

San Francisco, July 30.—Rates on flour shipments to the Orient have been advanced from \$2 to \$3 per ton by the Pacific Mail Steamship Co. It has been enabled to do so by a report from London suggesting that an advance in the premium of gold at New York to one per cent. would start gold eagles from London, that there was nothing in the rumor. Imports of gold from Europe are not needed here at this time and an inflow of foreign gold would greatly complicate existing difficulties.

get close enough to discover that the serpent-shaped, undulating body of the monster was made up of three white whorls, swimming slowly in procession. They remained headed toward the shore until, apparently finding themselves in shallow water, they turned and swam away, passing within 50 feet of a group of lobstermen, who carefully observed them and agreed with Capt. Fay's opinion. The serpent mystery is thus explained.

MILLIONS AT STAKE.

Butte, July 30.—The title of Andrew J. Davis to a million dollars of stock in the First National Bank of Butte, has been called into question in an action begun by Mrs. Elizabeth P. Bowdoin, of Springfield, Mass., a sister of the late Andrew J. Davis, the multi-millionaire. Young Davis claimed this stock under an alleged death-bed gift from his uncle and a suit brought to recover it was decided in favor of Davis by the district and supreme courts. Mrs. Bowdoin has filed a petition to carry the case to the supreme court of the United States on a writ of error. The grounds are the national banking laws allow transfers of bank stocks according to the by-laws of the bank. Under the law the First National bank provided transfer to be made only on a book in writing. She says she asked Administrator Leison to allow her to carry the case up in his name, she to pay all expenses. He refused and she appeals to the court.

FROM THE CAPITAL.

Reception to the Premier on August 5.—Mouldering Branches Lopped Off.

Ottawa, July 30.—A telegram was received from Premier Laurier to-day stating that the committee which has charge of the celebration to the Premier could decide on the 5th of August as being suitable to him for the reception of the Liberator, as well as the surrounding district are going to tender him. The committee will fix this date to-night.

A number of extra hands in the department of agriculture have been notified that their services will not be required after the 31st instant.

Nomination in St. John's and Iqerville for Hon. J. I. Tarte does not take place until Tuesday next, owing to some delay in the returning officer getting the writ. Quebec, July 30.—In Quebec Premier Laurier was elected by acclamation.

Halifax, July 30.—Hon. F. W. Borden was elected by acclamation. The following members were also elected by acclamation to-day: In Brome, Fisher; in Quebec, C. Fitzpatrick; in South Oxford, Cartwright; in Port Neuf, Joly; in North York, Mulock and in Queen's, Davies.

THE FINANCIAL MUDDLE.

A Syndicate of Foreign Bankers to Control the Exchange Market.

New York, July 30.—A representative of the Associated Press was informed this morning by an influential member of the syndicate of foreign bankers formed to control the exchange market, that the syndicate will be attached to the exchange to-day. In addition to the exchange houses the number of outside business interests will be added, including several influential corporations. One of the firm of J. P. Morgan & Co., says that the details of the exchange deal operations are entirely in the hands of the syndicate. Mr. Morgan personally said, in reply to a report from London suggesting that an advance in the premium of gold at New York to one per cent. would start gold eagles from London, that there was nothing in the rumor. Imports of gold from Europe are not needed here at this time and an inflow of foreign gold would greatly complicate existing difficulties.

ELK LAKE WORKS.

The Contract Nearing Completion—A Suggestion.

A correspondent writes: "The contractors for the city water works have almost completed their contract at Elk Lake. Nothing remains to be done except filling in some earth work and levelling around the reservoir and basins. The work looks well and substantial. It would be a great advantage, however, to have the slopes of the large reservoir covered with alfalfa or some other sort of sown with alfalfa or some other sort of clover, to bind the loose surface and keep the banks in good order. Alfalfa yields a sweet perfume when in bloom, and its roots sink deep in the soil and would aid in solidifying the margin of the waterworks. It grows rapidly and yields several crops each season. In connection with the construction of the water works, the Victoria and Sidney railways has proved of great advantage in bringing out supplies and in the accommodation of workmen passing to and fro. It has also proved a great benefit to the whole countryside, more especially since it has been provided with the mail service."

KILLED BY INDIANS.

Lima, Peru.—(Via Galveston, Texas)—J. B. 30.—A man named Cooper, an American citizen, has been lost in the forest of Carabaya. Two Germans, members of his party, who escaped, arrived at San Domingo. The remaining four, said to be gold-seekers, have been killed by Indians. It is said that the San Domingo mine has just been purchased by American parties and that it is producing immensely.

Zurich, Switzerland, July 30.—The Italians during the attack on the Italian quarter, where serious excesses were committed. Landlords who have Italian tenants are fearful that damage may be done to their property and are putting the Italians out by wholesale, hundreds sleeping in the forest in the adjacent town and about the bivouacs of the troops who occupy the streets of the town, but there is a general exodus of Italians and 6,000 are being the railway stations to get away.

JUDGMENT RESERVED.

In the Case of Elworthy vs. Corporation re Point Ellice Bridge.

The Chief Justice Refuses to Allow the City to Pay Workmen's Wages.

The motion to continue the interim injunction in Elworthy vs. the city, restraining the corporation from paying any money under the appropriation of \$5,200 for the Point Ellice bridge, was heard to-day. Mr. George Jay, Jr., appeared for the plaintiff and read an affidavit made by plaintiff setting out that on 24th June last a committee of the council recommended an appropriation for Point Ellice bridge of \$5,200 to be paid out of the municipal revenue and pursuant thereto the construction of a pile bridge at Point Ellice was commenced. Further that the council was notified by the resident engineer of the department of public works of Canada that the bridge must not be proceeded with until chapter 92 R.S., Canada, be complied with as regards the assent of the government. The affidavit also goes on to say that an injunction was granted on 24th June restraining the construction of the bridge.

Mr. Taylor stated in the beginning that the injunction was really to restrain the city from paying for materials and work already done. There was a general right inherent in the city to build bridges, etc., and contractors and laborers should not be bound to inquire into the particular circumstances. Affidavits were read made by the city clerk and the city assessor showing the different details that have to be complied with in ordering materials for the city. Mr. Jay replied for the plaintiff.

The chief justice remarked that the general impression is that members of the corporation have no responsibility excepting to the ratifiers at election times. This is a mistaken notion and in other countries aldermen are sued at every turn. It would be just as well to see how far the law goes here so that those who run for municipal honors might know that they have responsibilities other than drawing the emoluments of office. The chief justice then stated that he would reserve his decision.

Mr. Taylor asked that the corporation be allowed to pay \$38 due for wages to the men. These men were actually in need of the money.

The chief justice replied that it would be wrong to subvert principle for the hardships of individuals.

A STORY OF THE ALLAN BROS.

In view of the prospect of the Messrs. Allan making a contract with the Canadian government for a swift line of Atlantic steamers, rock looking rock visible to the eye.

Wolcott & Kendal, out some likely looking Nima, which is a fine looking steamer, and is continuing, and is stuck on the hill. Four more located the hill this week looking out having been gradually being some new discovered character have been side of the river out town.
