

## Clearance Sale of Worsted Trousers.

A pair of extra trousers is a possession that every taste dresser appreciates. This is particularly the case during the summer season, when the trousers are the most conspicuous feature of a man's apparel. We are closing a line of Worsteds Trousers (grey stripe) at \$3.50, that have been selling at \$4.50.

These are very reliable goods, have been thoroughly tested by actual wear, and are made by the Campbell Co.

We have handled a great quantity of these trousers and now make a clearance of them to give room for fall stock.

#### AQUATLO.

Harry Ervin, sporting editor, St. John Telegraph, arrived this morning from St. John to witness the regatta. He says there is great regret among the Neptunes that they were unable to send a crew; they had ordered a shell from Davies, but he was unable to have the boat ready for them in time, and they were all the more sorry they could not come, after Halifax having sent representatives to St. John last year.—Halifax Recorder.

ONE MORE.  
Another Ticket-of-Leave Man—Order Received Yesterday.

Sheriff Ritchie received an order yesterday from the governor general of Canada, under the hand and seal of the secretary of state, granting a license to Theodore Morrison, a prisoner in the St. John county jail, to be at large.

It will be remembered that Fred King, Theodore Morrison and Samuel Stone were each on Jan. 15th last sentenced by Chief Justice Tuck to one year's imprisonment in jail for throwing Fred Globe over the wharf at Red's Point. Globe narrowly escaped drowning. King and Stone were let go July 31st on tickets of leave, granted in accordance with the provisions of the ticket of leave acts of 1899 and 1900. Under the same provisions Morrison has also been granted a license to be at large.

#### MARINE MATTERS.

Str. Bona, from St. John with deals, reached Glasgow yesterday.  
Tug Dirigo is laid up at present undergoing her annual repairs.  
Str. Marlin, loading deals at Avonport, will probably sail for the U. K. Wednesday.

Str. Sarnathia comes here to load deals for the Fraser concern for Lim-erick at 35s.  
Str. Director Reppenhagen gets a 6d. on deals from Dalhousie to W. C. E. and the bark Argo 42s. 6d. for the same voyage.  
The Donaldson liner Almora, Capt. Abernethy, sailed for Glasgow at 7 o'clock yesterday morning for St. John with 1,000 tons of coal and over 1,000 tons of general cargo.

#### LABOR QUESTIONS.

All danger of a strike by the sheet metal workers is past, and the men will go to work this morning with light hearts and a feeling that all will be well. Last evening in the office of Emerson & Fisher a committee of the employers, consisting of Philip Grannan, R. B. Emerson and M. J. Silney met a committee of the metal workers, consisting of J. S. Brown, W. Wonnacott and W. Crosby to discuss terms. The metal workers, of whom there are about seventy-five interested, asked an increase of two dollars per week all round, but finally decided to accept an increase of one dollar per week for the men who are at present receiving ten dollars or more per week, provided a raise of two dollars be granted to those who are now getting under ten dollars per week. The employers' committee agreed to this, but did not feel like making any definite statement owing to the fact that some of the members were absent. However, they gave the men to understand that the above arrangement will be satisfactory to the employers.

Mr. Emerson also settled the piece-work question in a way satisfactory to the men. An advance will be made to the workers which will amount to a certain percentage of their present wage, and will vary according to the different articles.

The employees speak very highly of the treatment they have received from the employers since the trouble began, and are particularly pleased with the action of the committee which met them at Emerson & Fisher's last evening.

The Moulders' Union held a meeting last evening in Labor Hall. Only routine business was transacted.

At the regular meeting of the Painters' Union last night it was decided to take part in the Labor Day parade.

#### STREET RAILWAY EXTENSION.

This concern will tear down the Colwell building, at the corner of Dock and Union streets, and erect a new structure. Already the roof of the present building and a part of the upper story have been removed. Just what kind of a building will be put up for the general offices of the company has not been decided upon, but it will be a structure which will be a credit to the district in which it will stand.

The company began yesterday the work of constructing the railway extension on the western side of the harbor. Forty-five men are employed on the new line, and their operations are on the road leading from the Suspension bridge toward the Asylum corner. It will be a single track, which will traverse the road from the bridge to the Asylum corner, then go down towards Carleton by the main road to Prince street. From that street it will proceed to King by the way of Lud-low. Union street will be utilized down to Rodney, and there the ferry wharf will be gone over. The return line will pass over Rodney wharf and street, Ludlow street, Tower street, Lancaster street and up the Lancaster road to the Asylum corner again. This extension will aggregate about four miles.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

#### WIRELESS TELEGRAPHY.

HALIFAX, N. S., Aug. 17.—The Marconi Wireless Telegraph Company will attempt to bushdend the results of the International yacht races to Foulds by wireless telegraphy. The company's boat will send the results to Wellfleet at Cape Cod, it repeating to Table Head, and Table Head in turn sending the news to Foulds. This will be the first occasion on which such a test will be made of the wireless system for practical purposes.
