

CATHOLICS LIKE CHARLES MURPHY

Appointment Highly Pleasing
—Has Fine Record

Freeman Says Appointment Will be
Hailed With Great
Acclaim

CHARLES MURPHY.

OTTAWA, Ont., Sept. 16.—The news of the pending appointment of Mr. Charles Murphy, K. C., to the cabinet as the representative of the Irish Catholics in succession to the retiring secretary of state, Hon. R. W. Scott, has been received in Ontario with the greatest anticipation. The Kingston Freeman, the chief Irish Catholic paper in the province, says his appointment will be hailed with unanimous acclaim by a large section of the electorate whom he will specially represent. Newspaper comment generally has been most favorable to the wisdom of Mr. Murphy's choice. In Ottawa, where Mr. Murphy is best known, he is respected by all classes as a man of fine record, sane judgment, energy and consistent adherence to the best principles of liberalism. He will be formally sworn in as secretary of state probably towards the end of next week.

TENNIS CHAMPIONSHIP

BOSTON, Sept. 17.—Great Britain sent two of her strongest lawn tennis players to the Longwood Cricket Club today to contest with an American team to determine which country will have the honor for challenging for the Davis International Trophy, held by Australia.

As the two British visitors, James G. Parke, of Dublin, Irish champion in singles, and M. J. G. Ritchie, of England, the Olympic champion, announced before the contest that they would not go to the antipodes in case they should win, there was an added incentive for the United States to win, represented by William A. Larned, of Summit, N. J., the National Champion, Boale C. Wright, of Boston, the title holder of 1935, and the present champion in doubles, H. A. Hackett and F. B. Alexander, of New York.

In carrying out the conditions of the cup, the players were drawn for the two single contests this afternoon. Larned meeting Parke, and Wright playing Ritchie. Tomorrow Hackett and Alexander will play the British pair in doubles, and on Saturday the two remaining matches in singles will be contested, with Wright against Parke and Larned opposing Ritchie.

The playing at Longwood this year was the seventh contest in the history of the Davis Cup, the massive silver bowl offered nine years ago by Dwight F. Davis, of St. Louis, for three years a national champion in doubles. Great Britain made two efforts to carry off the cup before the famous Doherty Brothers succeeded in 1920. Last year Brooks and Wilding carried it to Australia.

WANTS A PULPWOOD TREATY WITH CANADA

Americans Fear Results of
Proposed Export Duty

Could Not Compete With Canada—Also
Afraid of European Mills If American
Wood Supply Is Cut Off

APPLETON, Wis., Sept. 16.—"Because raw material is much cheaper in Canada and labor is considerably cheaper, we would have to go out of business if the tariff on wood pulp were to be cut off, unless we could obtain higher prices for our sulphite than we are receiving at the present," said N. M. Jones, of Bangor, manager of the Katahdin Pulp & Paper Company at Lincoln, Maine, before the Congressional investigating committee this morning. Continuing, Mr. Jones said:

"Unless we can get our material as cheaply as the Canadian mills do, we would have to quit business, for we could not compete with them." Asked if in his opinion the pulpwood supply is ample in this country for an almost indefinite period, said that in Maine the supply is perhaps practically inexhaustible, but in the middle west, especially Wisconsin, Michigan and Minnesota, the manufacturers will soon be obliged to procure their pulpwood from Canada.

"The only thing I see to do," said Mr. Jones, "is to make a treaty with Canada. Not as a tariff, not as a Republican party today and a Democratic party tomorrow, but a treaty whereby the tariff on wood pulp would be cut off if our mills were allowed to purchase pulpwood in Canada at the same figures that Canadian mills do, but I would also increase the duty on European pulp. Europe is our greatest competitor, not Canada. The market of the United States and Canada is large enough to use all the wood pulp, sulphite and paper manufactured in this country and Canada if a treaty were made and the duty on European goods increased. I came before this committee prepared to show figures concerning pulp and sulphite importations from European markets. From January 1 to August 1 this year, the ports of Boston, New York, Philadelphia and Baltimore received 27,286 tons of unbleached sulphite from Scandinavia. In the same length of time the Canadian mills shipped 11,254 tons."

Mr. Jones explained that these figures were obtained from the bureau of statistics at Washington, and said that the sulphite manufacturers have had men at work on that subject for several months getting together this data for the committee. The Maine man was the only witness today.

Little Mary Recites for Anty Drudgo.

Anty Drudgo—"Now say it again, Dearie. It's every word true."

Little Mary—"See my nice, new party frock. So clean and fresh and bright. Anty washed it with Fels-Naptha; That's why it is so white."

Just a few of the thousands of unsolicited testimonials regarding Fels-Naptha soap:

"So Much Less Work."
"Through Mrs. Dr. Robinson, I learned first of your magic soap and must admit I tried it without much hope of success, but I was surprised at the result. The following week I tried it on a large washing and was delighted beyond measure. I will use no other soap as long as I can get Fels-Naptha. I tell every lady about it that I come in contact with for I feel it is a duty I owe every working sister. I am going to tell a gentleman that a man did not love his wife if he did not provide her with Fels-Naptha soap. My family says I am half crazy about it, but I have so much less work, so much more time for other things and so much less fatigue when my washing is done that I feel I cannot speak too highly of Fels-Naptha soap or speak of it too often. All my neighbors will endorse every word I have written and I could write pages."

Mrs. J. B. Macgregor,
San Antonio, Texas.

Clothes Whiter Than Ever Before.
"I have been using Fels-Naptha soap for almost ten years and consider it the only soap for dining room, kitchen and laundry. My silver and glass never looked so bright and beautiful as when washed with Fels-Naptha soap, and the clothes, table linen, etc., are whiter than ever before."

KATHERINE HANSEN,
Ottawa, Ont.

Fels-Naptha Doesn't Injury the Clothes.
"On account of the illness of my youngest son, I had a chance to give Fels-Naptha soap a thorough test. I have never looked so bright and beautiful as when washed with Fels-Naptha soap, and the clothes, table linen, etc., are whiter than ever before."

Mrs. G. N. Strawn, Louisville, Ky.

Fels-Naptha Soap Did It.
"There are so many washing soaps (especially of the laundry variety) on the market now that it is difficult to choose one, and it certainly is a pleasure to you, and it certainly is a pleasure to me, to find one that does what I want. Fels-Naptha. I have used the soap since it first introduced and my washing is done in half the time. My husband says it is the best soap he has ever used. I have used it on the most delicate fabrics and on the most soiled clothes and it has done it all. I have used it on the most delicate fabrics and on the most soiled clothes and it has done it all."

INTERNATIONAL LAW REGARDING EXCHANGES

Congress at the Hague May be Arranged
for the Latter Part of Next Year

ROME, Sept. 17.—The invitation extended by Holland at the request of Germany to all the governments that participated in the last peace conference at The Hague in 1900 for the purpose of preparing a draft of a universal treaty, has been the subject of much discussion here. The primary subject, however, that will be taken under consideration by the proposed conference, will be the conclusion of a treaty looking to the establishment of an international law regulating exchanges. Italy proposed that this conference should be held in November, 1948, but several of the countries were not ready to enter into a discussion of so important a question and it is believed that some date will well along in 1949 will be fixed.

EVERY ONE CUT PRICES EXCEPT STANDARD OIL

NEW YORK, N. Y., Sept. 16.—The Standard Oil attorneys brought out a great deal of testimony of indiscriminate price cutting by competitors at the continuation of the hearing in the government suit today. Witnesses from Maryland and Virginia were placed on the stand and they arranged a number of important companies, prominent among them being the Red "C" Oil Company.

Edward C. Eitel, a special agent of the Standard Oil, charged the Red "C" Company not only with cutting the price in order to get trade away from the Standard in his territory, Virginia, but also with coloring its oil with a red dye and represented to the more ignorant people that the colored oil was both a better illuminant and safer to use in the lamps.

The witness himself was obliged to admit, however, that his company also sold red oil, but said it was compelled to do so in order to meet the demand. N. V. Wallace, a Lynchburg salesman, named many dealers in illuminating and lubricating oils and gasoline in his section who, he said, had bought their supplies from Standard competitors at prices that were so greatly reduced they could not resist the temptation to handle the witness declared, he never had made any cuts to get business. All the cuts the Standard made in the past two years, he said, were for the purpose solely of retaining or regaining its business.

POPE'S ENCYCLICAL ON HOST QUESTION

His Holiness to Discuss the Government's
Action — Seek Repeal of
the Law.

LONDON, Sept. 16.—A news agency despatch from Rome states that the Pope announced today his intention to issue the Encyclical Congress in his next encyclical. At the same time he will deal with the British Government's representation against the carrying of the Host in yesterday's procession.

The Roman Catholic members of Parliament, headed by Lord Edward Talbot, brother of the Duke of Norfolk, will raise the question of the carrying of the Host in the House of Commons in the near future. The Roman Catholics as a disadvantage compared with the members of other religious bodies.

RUINS 15,000 FAMILIES IN \$5,500,000 THEFT

Former Minister of Justice of Denmark,
Calmy Surrenders to the Police

COPENHAGEN, Sept. 16.—The embezzlement of \$5,500,000 by Alberti, the former minister of justice, has staggered all Denmark, from the king down. Alberti had been the dominant member of the reform government since 1930 and Denmark's political idol. His career of crime commenced fourteen years ago, shortly after his entrance into political life.

He was virtually regarded as the country's dictator at the time of his retirement, seven weeks ago, when all possible honors were heaped upon him, including the title of "excellency." His surrender to the authorities was most dramatic. Dressed in an immense frock coat and silk hat, he strode leisurely to police headquarters. As he passed the entrance all the officers and men sprang to attention for their salute with his usual urbanity.

He then entered the office of the inspector of detectives and calmly handed him a document and a report. When the inspector was ready Alberti cheerfully observed:

"I wish to give myself up to justice for fraud and forgery." Then producing a receipt for bonds the value of \$240,000 he signed two directors' private bank checks. Then the former minister quietly continued:

Alberti's frauds and forgeries in fourteen years exceed \$5,500,000, the bulk of which was lost in South African mining stock operations and Wall street securities, more than 40,000 persons are directly affected by his defalcations and 15,000 families have been ruined.

It is said that the king is among the heaviest losers, while the treasury lost about \$500,000.

CHAMPAGNE CROP FAILURE

Price May Not be Raised Yet, as Surplus Stock Amounts to 112,000,000 Bottles.

PARIS, Sept. 16.—Out of the failure of this year's champagne harvests there is a danger that the industry in the department of Marne hope to extract one recompense. They think that Paris, moved by their distress, will at length take effective measures to limit the use of the name Champagne to wines grown in the department of Marne and a few communes in the department of Aisne.

Now completely mowed has ruined the crop this year is shown by the fact that the average output is 45,000,000 bottles in ordinary years, this year it will scarcely exceed 2,000,000 bottles. This, however, need not mean an immediate increase in the price of champagne, as the average sale is 85,000,000 bottles and the surplus stock in the cellars is 112,000,000 bottles.
