carpets, mats, etc.-is not as extensive as that of former years. clerk.

The fancy work table in charge of Miss Worden has many very fine specimens of work. Among them may be specially mentioned the fancy work of Mrs. F. G. Lansdowne of Sussex.

The neat summer house exhibited by Peter Pitfield, carpenter and builder, is a very handsome structure, and calls forth much favorable comment and reflects great credit on the work of that gentleman.

A few words on behalf of the restaurant. which is being conducted by the ladies of the R. C. church here, are not out of order. The restaurant is up-to-date in every respect and has been accorded a first class patronage. Good food and a fine service makes it unnecessary for any one to go away hungry during the fair.

2014. Jock Bowen, who drew the pole, sho The amusement committee have proahead when the word was given and main-tained the lead for upwards of a quarter of a mile. Then Brazilian went up on him, passed him and had quite an advantage at the completion of the half. Lina Belle was close up on Jock Bowen, but was not going "as well as she afterwards did. Brazilian won handily, with Bowen second and Arc-light third. The latter beat the mare out on the homestretch ahead when the word was given and main vided a goodly list of attractions, so that patrons can say they have not been neglected in this respect. The tight wire performance, the trapeze performance by Prof. Dewell and the cornet solos of Miss Bessie Gilbert have all been special features, while n the homestretch. Brazilian pulled away from the others in the second heat, and was far in advance of them at the quarter pole. Arclight trotted a good race this time, and was almost on

the music of Delesia's Italian orchestra has delighted all present afternoon and evening. On Wednesday the cattle, horses,

sheep, swine, etc., will prove a drawing card, and this coupled with the second days' racing should attract a very large number of visitors.

The last quarter found all four horses in a bunch and it was impossible to tell which was likely to go under the wire first. Bowen had the advantage by a few feet, with Arclight second and Lina Belle right up against him. The time was 2.21. Bowen was never headed in the third heat. Arclight chased him for a quarter of a mile and was second at the half. Brazilian had braced up and was close after Arclight. So far the attendance has been good. with prospects of a much larger crowd, and it is safe to say that the exhibition as a whole will be a great success in point of numbers, and financially as well, so that the managers of braced up and was close after Arclight. Down the back-stretch the four horses shot the same will feel encouraged to put up even a better and more attractive fair next year.

Down the back-stretch the four norses shot so close together that it was difficult to tell which was ahead. On the home-stretch Lina Belle and Brazilian closed in on the leader and made it very hot for him. The fight was not concluded till the wire was reached. Bowen won by a couple of feet, with Lina Belle second and Brazilian third. The time was 212 It can be said that the management generally has worked hard to make the affair both satisfactory to the public and successful and deserve great praise The time was 2.21% for the efforts made, for it must be In the fourth heat Lina Belle showed at the start that she meant business. She was on Bowen's wheel for nearly half a mile. Then she shot by him and won with apparunderstood many of the committee

are gentlemen who can ill afford to spare the time from their ordinary then she shot by him and won with appar-ent case. Bowen was second and Arclight third. Time, 2.24. Lina Belle took the next two heats and the race in 2.22½ and 2.24. Brazilian was second in the fifth heat and Bowen third, last business that an affair of this nature demands, and while there may have

Scott read an instructive paper on "Object Lessons." sport was better. The weather was not as fine, however, and the track was a triffe heavy in consequence of a light shower which occurred about noon. The time made was therefore good. Some people having Object teaching should form the basis of all instruction that is given in the school. It should be given with the purpose of bringing the minds of expressed doubts as to whether the track was a full half mile, competent men were engaged yesterday to ascertain. It was measured and found to be the required size, the children into contact with nature in every direction, a sort of network between their thoughts and the world so that in future the records made there must be accepted. The grand stand was crowded today, and everybody went away feeling satisfied with the day's racing. around, whether it be in what is called object lessons or science lessons. It is a good plan to have scholars The free-for-all was called on first, the starters being Brazilian, Lina Belle, Jock Bowen and Arclight. It took six heats to decide the contest, Lina Belle being the vic-tor. Jock Bowen secured second money, and Brazilian, the size of the winner, third. bring objects to school and if they are labelled with the name of the giver it will create an added interest. Choose the object carefully beforehand and of agriculture. study it with the purpose of seeing Brazilian was not in as good shape as yes-terday, being quite sore after the first heat. The first heat was taken by Brazilian in how much you can make it tell. You want the object to speak rather than yourself. Make your pupils observe and remember what they can discover with fingers, eyes, nose and tongue, thus appealing to the senses and cultivating them. Get your scholars to make a definition for themselves. working it out so that they shall understand it. If the children understand the subject they can give the definition. An object lesson may be introduced in the course of a reading or other lesson, and need not occupy terms with Bowen. The horses did even terms with Howen. The norses du not change positions in the second quarter, but on the back-stretch Brazilian broke and fell away back. Arclight footed up into the lead and Bowen chased him in grand style. The last quarter found all four horses in a more than two or three minutes. In this way the lesson is made more vivid and truthful. As to such phenomena of nature as hail, rain, frost, snow, etc., take the opportunity of speaking about them when they occur. that the childre, may actually see them. Such lessons will leave sources of enjoyment open to pupils. A taste for study of an elevating character will be acquired which will become a pleasure and a source of strength to them all through life.

This paper was followed by one from T. Rogers on "Bird Life." Each year greater care is being taken in the proteotion of birds. In Pennsylvania and New York state there are rigid laws regarding the killing of birds, and in protective law, but the law is not enforced as it ought to be. Birds are of great use as destroyers of injurious h was third, last insects. Entomologists tell us that by this means some insects have been exterminated. Once some rooks were supposed to be destroying a patch of corn. On the examination of one shot its gizzard was found to be full of wire worms. The crop of a partridge was found to contain many caterpillars. The yellow-billed cuckoo eats hairy caterpillars, not liked by other birds. A good method of attracting birds to the school house or home was by putting nesting boxes near, and by hanging bones with some of the meat on them where the birds would be likely to find them. Mr. Rogers then spoke of birds as he had seen them in his walks, and told of several interesting ways to present bird life to the pupils (1st) by their voice. When a bird proclaims its own name, who doubts its identity? The whitethroated sparrow and the whip-poorwill do this, and night hawks and humming birds say their names with their wings. 2nd. By grouping them according to color. 3rd. By watching the life of a bird from the building of

the nest till the young are able to take care of themselves. This interesting paper was followed by a talk on birds. The first paper of Friday morning's

Elliott; and a recitation, The Night Wind, by Miss Baxter. The success of the meeting was largely due to the efforts of the secretary of school trustees. George Day, and to Miss Marie Woods and Miss Allen.

OUEBEC CABINET.

QUEBEC, Oct. 3.-The members of the Parent government were sworn in today by the lieutenant governor, as follows

Hon, S. N. Parent, premier and commissioner of lands, forests and fisheries. Hon. W. M. Dechene, commissioner

Hon. Horace Archambault, attorney general. Hon. H. T. Duffy, provincial treasurer.

Hon. Lomer Gouin, public works. Hon. A. Delard Turgeon, mines and colonization; also provincial secretary pro tem.

The new cabinet held a council meeting immediately after the swearing in ceremony, and when the lieu tenant governor had retired. Amongst other business ordered was the immediate issue of a writ for a new election in St. James division. Montreal, to fill the vacancy caused by the acceptance of office by Mr. Gouin. The nomination will be held in ten or twelve days and Gouin expects to be returned by acclamation.

Robidoux, it will be noticed, stays out of the cabinet. His appointment as judge is expected to be a matter of only a few days.

LAKE OF WOODS MILLING CO.

MONTREAL, Oct. 3.- The annual general meeting of the shareholders of the Lake of the Woods Milling Co. was held today. A dividend of ten per cent on paid up capital stock was declared and the sum of \$2,500 granted New Brunswick many birds are under to the Winnipeg general hospital, and \$500 to the St. Boniface hospital. The following directors were elected : Robert Meighen, W. A. Hastings, R. B. Angus, R. G. Reid, John Turnbull, Montreal; John Mather, Ottawa; C. V Hastings, Winnipeg.

At a subsequent meeting of the directors the following officers were elected : Robert Meighen, president and managing director; W. A. Hastings vice president and general manager G. V. Hastings, manager Winnipeg and general superintendent; F. E. Bray, secretary; F. S. Meighen, trea. surer; W. W. Hutchinson, assistant secretary.

THE VACTICAN BURGLARY.

WILL HOLD ELECTIONS FIRST. ROME, Oct. 3.—The Italian police have begun an investigation into the burglary at the Vatican, where this was the other day forced a safe and carried off securities worth \$57,000 lire and 3,000 lire in silver. The Vatican officials have not lodged a formal complaint, contenting themselves with merely announcing the theft. Four persons are under suspicion, and one was arrested this morning. The Tribuna says that the Italian police warned the Vati-can police, in July of last year, that a plan was on foot to commit some such robbery. It is believed that the stolen property does not be'ong, as was originally asserted, to the management of the apostolic palace, but is a part of the private funds of the Pope. TORONTO, Oct. 3.-Chief Justice Falconbridge, chairman of the royal commission for the investigation of the West Huron and other election frauds, stated today that the commission would not sit for hearing of evilence until late in November or early in December, as members found the pressure of legal duties too great to sit earlier.
