

NOTICE

During the Session of Parliament the DAILY SUN will have a Special Correspondent at Ottawa, and for ONE DOLLAR the paper will be sent to any address while the house is in session.

ADVERTISING RATES

\$1.00 per inch for ordinary transient advertising. For Sale, Wanted, etc., 50 cents each insertion. Special contracts made for time advertisements. Sample copies cheerfully sent to any address on application.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., MARCH 8, 1902.

PRETTY LOW

It is believed that Mr. Brunet, the recently elected liberal member for the St. James division of Montreal, is willing to resign to avoid further exposure of the frauds of that election. The Sun has already explained how in one poll a vote of less than 40 cast for Brunet was increased to 90, and a vote nearly as large cast for Bergeron was reduced to 4. But the stealing and forging of ballots was not the meanest thing done in that campaign.

Rodolphe Gagne, a medical student, told how A. E. Brunet had asked him to secure some solid men who were willing to do solid work during the election. He had suggested students and by advice of his brother had turned the affair over to Champigny, another student.

Joseph Champigny was the most direct witness against the accused Brunet. He was told by Gagne, the preceding witness, the other E. Brunet wanted some young men to do solid work. He went with the other students to Delville Theatre. The day before the election he met Arthur E. Brunet, who told him that he had bought up, or would buy up, the conservative representatives in several polls.

The senior Fredericton organ of the government represents the Sun as taking an unduly cheerful view of the result of the Kings county election. On the other hand the valued Telegraph says that the Sun "is very sore over the defeat."

The Moncton Times finds from the auditor general's accounts that election year was a great time for paying old claims for damages against the interprovincial. One man was paid in 1900 for a fence burned in 1894. Another got \$200 and a third \$60 for damages in 1894. Mr. Keith was paid \$76 for services as constable during a political partisanship investigation in 1897. Cattle said to have been killed in 1898 and 1895 were paid for in 1900, but the bills were not so high as those for Mr. A. E. Killam's famous cows.

That stalwart grit paper, the Montreal Witness, stands by its colors in the Devlin incident. It says: In reply to a question concerning a recent interview with Mr. Devlin, the government immigration agent in Ireland, printed in the Witness, Mr. Fielding said the government was satisfied with Mr. Devlin's explanation that he did not admit the accuracy of the report and the government do nothing further. This is carefully worded so as not to make the government responsible for any denial of the accuracy of the report. The government is satisfied in that Mr. Devlin does not admit it. It becomes necessary, however, for the Witness to affirm that the report was absolutely and literally in the very words of Mr. Devlin, and was in no way colored by addition or variation.

Rev. Dr. Minot Savage is not credited with over much faith. But he testifies to his belief in the power of Mrs. Piper as a medium. Mr. Savage says he received through this lady a message from his dead son concerning some papers which the youth desired to have destroyed.

His Royal Highness Prince Henry of Prussia took time by the forelock in visiting Niagara Falls yesterday. According to O. E. LeRoy, B. A., the Niagara river will run dry by A. D. 4945, and the falls will then be a thing of the past.

FREDERICTON.

The Legislature Opened With the Usual Display.

Reception Held by Gov. Snowball and Lady in the Afternoon, and a State Dinner in the Evening.

FREDERICTON, N. B., March 6.—The local legislature was opened by Lieut. Governor Snowball at 2.30 this afternoon with unusual formality and under conditions that promise to the society of the capital city a revival of the ceremonial functions for which they have mourned during the last five years. Large crowds, handsome costumes, brilliant decorations and eager interest were characteristic of the opening ceremonies. His honor the Lieutenant Governor upon his arrival at the house, attended by Lt. Col. McLean, Lt. Col. Col. and Capt. Lister, A. D. O.A., and S. Barker, private secretary, was received by a guard of honor from the R. C. R. I., commanded by Capt. Leduc. A salute was fired by a detachment from the Woodstock Field Battery under Major Good.

Immediately after the formal opening and the reading of the address, the house was adjourned, and His Honor and Mrs. Snowball held an informal reception in the chamber, which was largely taken advantage of by those who wished to be presented to the new members of the government. An official dinner was given by the governor at the Queen hotel in the evening. Those present at the most enjoyable function were: The members of the government, the chief justice and judge of the supreme court; Messrs. King and Riddock, mover and seconder of the address; Col. McLean, Col. MacDougall, Hon. F. P. Thompson, Col. Rev. Mr. Treadwell, Hon. J. D. Thompson, Dr. Mullin, Speaker Robinson, Bishop Kingston, Col. Dunbar, Senator Perley, the auditor general, the mayor, Judge Wilkinson, H. B. Rainford, J. W. D. Dickson, Dr. Inch, J. D. Hazen, Col. Call, Rev. Mr. Treadwell, Hon. J. D. Thompson, Major Good, Capt. Leduc, Capt. Lister, D. Ferguson (Chatham) and the private secretary—thirty-six in all.

STEAMSHIPS COLLIDE

And American Lines Vessel Went to the Bottom—All Passengers But Two Saved.

LONDON, March 6.—The American steamship Waseband, Captain Atfield, from Liverpool, March 5, for Philadelphia, and the British steamship Harmonides, Captain Peakin, from Para Feb. 13 for Liverpool, met in collision tonight off Holyhead, Wales. The Waseband sank. Her passengers and crew were saved.

LONDON, March 6.—The Harmonides rescued the passengers and crew of the Waseband. The Harmonides was sent from Liverpool to the Waseband.

The Waseband carried 32 cabin and 22 steerage passengers. The Harmonides carried 100 passengers.

The Waseband is owned by the International Navigation Co. and flies the Belgian flag. She sailed regularly from Liverpool to Philadelphia and Liverpool to Para Feb. 13.

The Harmonides is owned by the British and South American Steam Navigation Co. and flies the British flag. She sailed from Liverpool to Para Feb. 13.

The collision occurred in a thick fog at half-past 11 o'clock Wednesday night, when the Waseband was about 40 miles southwest of Holyhead. The Harmonides struck the Waseband amidships and there was a terrible shock. The Waseband's passengers had retired to their cabins and the crew were in the highest state of order and discipline.

The collision occurred in a thick fog at half-past 11 o'clock Wednesday night, when the Waseband was about 40 miles southwest of Holyhead. The Harmonides struck the Waseband amidships and there was a terrible shock.

AFTER THE GRIP COMES CATARRH.

LIKE A TERRIBLE CYCLONE grip has passed over our country, from the Atlantic to the Pacific, leaving behind it a dark cloud of anguish and despair.

Catarrh follows grip as effect follows cause. A multitude of catarrh victims will spring up in the trail of the awful epidemic of grip that has just passed over our fair country.

The hope to these people is Peruna. Every one who has had the least touch of grip, should not fail to take a course of treatment with Peruna.

Peruna eradicates every vestige of the disease and leaves the system in a normal condition. Hon. Joseph B. Crowley, Congressman from Illinois, writes from the National Hotel, Washington, D. C., as follows:

"After giving Peruna a fair trial I can heartily recommend your remedy to anyone suffering with coughs, colds, influenza and all catarrhal complaints."

Hon. George H. White, Congressman from North Carolina, writes: "I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family, and they all join me in recommending it as an excellent remedy."

Hon. J. P. McGrew, Superintendent U. S. Capital Police Force, of Washington, D. C., says: "Having suffered from the grip, I was advised by a friend to use your Peruna."

Peruna can be obtained for \$1.00 a bottle at all first-class drug stores in Canada. Address at all up-to-date drug stores and upon request is sent free to all, gives a short description of all catarrhal diseases.

I also used it for my catarrh, and I can now cheerfully recommend your remedy to anyone who is suffering from the grip and catarrh. Miss Anna Russell, Past Worthy Counselor, Loyd Mystic Legion, 283 Endicott Building, St. Paul, Minn., writes:

"For years I have unfortunately found my system in a peculiarly receptive condition for catarrh when I was exposed in any way to inclement weather. At those times I would be severely afflicted with its grippe and its unpleasant consequences."

"Now for the past year and a half I have used Peruna in such cases and have found that it not only cures me quickly, but it also cleanses my blood and renders me less liable to catch cold. It is the finest preventative of colds that I know of and a very superior tonic."

Miss Emily Milburne, President of the Westside Young Women's Club, No. 152 West Congress street, Chicago, Ill., writes of several members of the club of which she is president, who have had the grip and have been quickly restored to health by Peruna.

Mr. Nicolas F. Rossiter, of 463 Norwood avenue, Cleveland, O., had a severe attack of the grip, was very sick and under the physician's care. He, like many others, passed the acute stage but did not receive strength. He was only quickly restored to his former health, but to much better health than he has had for years. He gives Peruna all the praise.

Hon. Max J. Porges, Alderman of the Eighth District, residing at 36 Rivington street, New York, suffered with the Grip. Two bottles of Peruna cured him. He also writes that he knows a large number of people who have been cured of the Grip by Peruna.

Hon. Charles W. Calkin, Alderman of the Seventh Assembly District of the Borough of Manhattan, residing at 45 Eighth avenue, New York, writes that he was laid up several days with the Grip. On the fifth day he was advised to try Peruna. He did so and found himself better within twenty-four hours. This remedy soon restored him to his usual vigorous health.

Mr. Martin Edwards, President of the County Clare Men's Benefit Society, 52 West Forty-Ninth street, New York, writes that he was cured of the Grip by a short course of treatment with Peruna. Miss Blanche Dumont, President of the Athenia Club, 410 Aldrich avenue North, Camden Place, Minneapolis, Minn., says she was cured of the Grip. Nothing helped her until she tried Peruna. She felt better next day after beginning its use. She was able to get to bed the third day. She also tells of others who were cured by Peruna.

"La Grippe epidemique catarrh. Peruna cures catarrh, hence Peruna is a specific for the grippe." If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio. The Pills of Life, which can be secured at all up-to-date drug stores and upon request is sent free to all, gives a short description of all catarrhal diseases.

D. R. A.

Proceedings of the Annual Meeting at Ottawa.

Hon. Dr. Borden Says the Government is Considering Advantages of Establishing Small Arms Factory in Canada.

OTTAWA, March 5.—At the annual meeting of the Dominion Rifle Association this morning Lieut. Col. Henshaw of Montreal, president of the council, referring to the construction of rifle ranges, said that the development of rifle shots was the most important matter which came under the notice of the association.

Col. Tilton suggested that the department should look into the question of establishing moveable targets and judging distance competitions. He announced that Col. Delemere of Toronto had offered two medals for his visit in such practice. Referring to his visit to Biele, Col. Tilton said that he had met the commander-in-chief, Lord Roberts, and on behalf of the association had extended him an invitation to visit Canada. Lord Roberts had expressed the greatest pleasure in seeing the Canadian team and stated that he hoped to be able to visit Canada at no great distant date.

Lord Minto said he was pleased to hear Col. Tilton suggest the judging distance competition. He thought that the work in Africa had done a great deal to bring out the importance of individual rifle shooting, which was most important. He thought that too much could not be done to teach the militia men and people of Canada generally the use of firearms. He was very much pleased with the success of the Canadian team at Biele, and would always be willing to do all in his power to assist the association.

Hon. Dr. Borden, who was elected honorary president, said rifle ranges were being constructed every place in the country where it was thought to be in the interests of rifle shooting. Rifle shooting was the backbone of the militia, and unless a man was a good shot he was not much use as a soldier. In future, he said, no recruit would be accepted as a military man unless he showed an adaptability for shooting. He thought that the Guadet cartridge, recently invented, gave a first class ammunition for practice by the recruit before going into camp. The minister in the course of his remarks made the important announcement that the government were considering the advisability of establishing a small arms factory in the dominion.

The officers elected were the same as of last year, except that Lieut. Col. McKay, Montreal, replaces the late Lieut. Col. Hon. R. R. Dobbell and Lieut. Col. Tilton replaces Lieut. Col. E. B. Beer in the New Brunswick district.

Resolutions of regret were passed concerning the death of Lord Dufferin and Hon. R. R. Dobbell.

CATHOLICS AND THE CROWNATION.

(British Parliamentary Report.) Mr. Dillon asked the first lord of the treasury whether, seeing that religious beliefs, passionately held by millions of his majesty's subjects, were denounced in the declaration required to which he assented, that bill met with very little favor, either from those whom it was intended to please or anybody else.

Mr. Balfour: The hon. gentleman probably remembers that a bill was brought into the other house for the purpose of modifying the declaration to which he assented. That bill met with very little favor, either from those whom it was intended to please or anybody else.

Mr. Dillon: The right hon. gentleman has not answered my question at all. I asked what are the intentions of the government. (Nationalist cheers.)

Mr. Balfour: I am sorry I omitted a corollary which I thought the hon. gentleman would have drawn. It is that we are not likely to renew an attempt which has failed. We have certainly no intention of introducing a bill before the coronation.

You cannot fatten a horse that is out of condition. Give GRANGER Condition Powders, a valuable tonic and blood purifier. The Granger cures Cough, Impure Blood, Worms and all irregularities. It is a true Condition Powder and a fair-sized package, and has the largest sale of any Condition Powder.

HEAVY ENGLISH SNOWFALL. The following is a description of a recent so-called heavy snow storm in Great Britain: "What has proved to be the heaviest snowfall of the present winter fell in Southport and district on Saturday. There was an almost entire absence of wind, and fortunately there was little drifting. As it was, the snow continued to fall with one or two short intervals from an early hour till well on in the afternoon, when it reached a depth of about four inches. Notwithstanding the serious nature of the snowfall, vehicular traffic was not much impeded, and tramway and railway traffic suffered little interruption. Around Southport the Lancashire and Yorkshire Railway Company had a force of fifteen men exclusively engaged salting and sweeping the points. In the evening a slight tendency to thaw gave place to a strong frost, and the streets became exceedingly slippery, and some accidents, though happily not of a serious nature, occurred."—Southport Visitor.

SOMETHING LIKE TWINS. Mr. and Mrs. J. H. Seaman of Barre, Vermont, Cumberland county, N. S., were on Sunday presented with twins, each weighing 14 pounds.

Dr. Chase's Nerve Food. Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be around again—so indolent is the approach of nervous diseases and nervous collapse.

Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerking of the limbs; dizziness and flashes of light, before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical prostration is certain to result, sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not, right or wrong, cure themselves.

No treatment for nervous diseases has ever received such universal endorsement by both the medical and people as has Dr. Chase's Nerve Food. Mrs. Crapper, 31 Salem avenue, Toronto, says: "For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr. Chase's Nerve Food, and can give credit to it. I realize that my ailment will not disappear in a few weeks, but I have improved to much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of earnest letters telling of the wonderful benefits derived from Dr. Chase's Nerve Food. See a box, six boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto.
