

THE WEATHER.

MARITIME.—Light to moderate winds, mostly fair and warm, but a few local showers or thunderstorms in the western portion.

Toronto, Ont., Aug. 15.—There have been heavy rains in the western provinces today, and local thunderstorms in Ontario, chiefly in the Ottawa valley, and in eastern Manitoba, and from Georgian Bay eastward the weather has been very warm.

Forecast for New England. Washington, Aug. 15.—A slight depression over North Carolina in conjunction with a high area over north-west Canada, has caused general showers in the east portions of New England and the middle Atlantic States.

In the Atlantic States moderate temperatures prevailed. Showers will continue in the middle Atlantic States, and the Atlantic States moderate temperature will continue.

Tuesday showers, except fair in northwest portion. Wednesday showers; light to moderate variable winds.

AROUND THE CITY

West End Band Concert. The Carleton Cornet Band will give a concert on Tiller Square, West End on Wednesday evening.

Found Roads in Fine Shape. deBlavia Carriage came from Oromocto to St. John by motor car on Saturday afternoon. He reports the river road in splendid condition for the entire distance.

King Square Concert Tonight. The City Cornet Band will give a concert in King Square this evening, weather permitting. This will be the last concert of the season to be given by this band.

School Permits. Application for school permits are coming in steadily at the school trustees' offices, Union street, the number issued yesterday being especially large. The officials are expecting a big rush and a little consequent confusion next week.

Mr. Hobson's Condition. Inquiry at the hospital last night elicited the information that the condition of George W. Hobson, of the North End, who was taken to that institution a few days ago suffering with a paralytic stroke is not encouraging.

Saved Sight of One Eye. After receiving treatment for several weeks for injuries resulting from the explosion of a nitro-glycerine cap, Clifford McLeod discharged from the hospital returned to his home yesterday. In spite of fears to the contrary, the attending physicians were successful in saving the sight of one eye.

Plans for Excursion. At a meeting of the outing committee of the N. B. Military Veterans' Association last evening, arrangements were completed for an excursion to the Willows on Wednesday, the 17th inst. A large number of prizes have been donated for the games, and a good attendance of the veterans and their friends is expected. The excursionists will leave Indian town on the S. S. Hampton at 9 a. m., and returning will leave the Willows at 5.30 p. m.

Free Vaccination. Dr. George G. Melvin, city health officer vaccinated 21 children at the Board of Health rooms yesterday afternoon, making the total number of vaccinations this year 79 in number. Of late parents have been bringing their children at all hours, notwithstanding that the published notice stated distinctly between 1 and 3 p. m. on Monday and Wednesday. There are only five more days during which free vaccination can be had this year.

Planning Memorial Fountain. A meeting of the executive committee of the Polymorphin Club was held last evening, with President Wilkins in the chair, at which a sub-committee was appointed to secure designs and estimates for the erection of a memorial spray fountain in Haymarket Square. A report of the committee appointed to raise funds for the Campbellton fire sufferers was received, and a vote of thanks was tendered to the city, the president of the club, and the public generally, for their support.

Will Wed on Wednesday. A popular young couple will wed on Wednesday, when Rev. M. F. McCutcheon, pastor of Brussels street Baptist church, will conduct the wedding ceremony of Miss Florence E. McLean, daughter of Mrs. Annie E. McLean, 215 Charlotte street, and Arthur P. Stillwell, of Waterbury and Rising, at 6.45 o'clock at the home of Mrs. McLean. Mr. and Mrs. Stillwell will then leave on the steamer Prince Rupert for their honeymoon spent in touring Nova Scotia. On their return they will reside at 215 Charlotte street.

Of Interest to Labor Men. An impression prevails in local labor circles that the regulations of the Trades and Labor Congress of Canada, independent unions are not permitted to send delegates to a local trades and labor council. It seems that this regulation applies to independent unions when there is an international union of the same trade in the city, when in order to solidify the labor movement, the international union is given precedence. P. M. Draper has written authorizing the seating of delegates from independent organizations like the Longshoremen, if they are willing to join the Trades and Labor Council, whose reorganization in St. John is now being discussed.

Moose Swam Beside Steamer. Judging from reports received from the big game centres of the province there will be no scarcity of moose this season. Even in centres not generally noted for moose there are many reports of the animals being seen and hunters may expect a big season. The other day a moose broke from the woods on the St. John river between this city and Gagetown and swam for a mile close to the steamer Elaine, which was on her way up river. The steamer was crowded with visitors and they enjoyed the sight. One of them in conversation with a reporter said incident was one of the most effective advertisements the province could have as a big game centre.

A good quick service always at White's restaurant.

SHOCKING ACCIDENT IN BLACK RIVER MILLS; MAN HAS ARM TORN OFF

Reuben McLeod Victim of Terrible Accident Yesterday Afternoon—Caught His Arm While Replacing Belt.

A shocking accident occurred in Bentley's lumber mill at Black River, yesterday afternoon, as a result of which Reuben McLeod, a millman, had his left arm torn away below the elbow. He was replacing a belt which had slipped off, when he caught his arm and the belt whirling rapidly, literally tore the arm from his body. As speedily as possible he was extricated from his perilous predicament. He was later removed to the general public hospital in this city where the arm was amputated. At the hospital last evening it was reported that he was resting easily and would recover. McLeod was known as a most careful workman, and the mill in which he was hurt had been particularly free from accidents.

LOCAL POLICE LAND DESERTING SAILORS

A Beautiful Bunch of Continentals With Typical Names Gathered in Yesterday Afternoon—All Deserters.

Central police station might have been a Siberian prison and its inmates exiles from the land of the Great White Bear last night, judging from the lengthy list of Russian and Finn names which were written on the police books. No less than seven were taken into custody by the police yesterday afternoon on the strength of a telegram received at headquarters from Captain Drew of the Norwegian ship Formica, stating that seven of his crew had deserted the ship which is lying at Annapolis, N. S. It was learned that the deserters had left Nova Scotia for St. John as passengers on the steamer Granville.

The little steamer had arrived in port, however, before the intelligence had reached the local police, which made their location and arrest somewhat difficult and perplexing. Deputy Chief Jenkins, Detective Killen and Sergt. Baxter each took up the search along different streets. About five o'clock Sergt. Baxter rounded up four of the Russians and some time later the deputy and detective swooped down upon the remaining three on Mill street. They were taken to Central Station, when, perhaps the most difficult task of all—that of getting the men's names spelled properly was finally completed after many questions and suggestions by the officers, which seemed to disgust the foreigners, who no doubt thought that Campbellton was the most stupid race in existence. The task completed, the names read like this: Simon Mage, Gus Bloomfield, Russian Finns; John Koll, Russia; Martin Anderson, Denmark; Peder Nollson, Germany; George Larsen and Okar Anderson, Norway.

SUPPOSED CORPSE VERY MUCH ALIVE

Stranger Sleeping on Rocks Caused Mild Sensation—Was in Some Danger from Rising Tide.

The rumor that the body of an unknown man had been washed ashore on the rocks below the exhibition buildings last evening, about eight o'clock, caused considerable excitement among the hundreds of persons, the majority of whom were women and children in the neighborhood. There was a general desertion of the locality until upon some men investigating they discovered that the supposed drowned man was a very much alive but sleepy stranger who had been enjoying the cool sea breeze, and had fallen asleep, when the tide was out. He was made to realize that his position was a somewhat dangerous one, especially as a place to sleep, as the tide was quickly coming in and in due time would have surrounded and covered the rock on which he was lying.

More Fun for Tiny Tots. Tables for 60 "fresh air" children at Seaside Park a week from today.

Twenty Go to Truro. At a meeting of the firemen and members of the Salvage Corps held last evening, plans were made for attending the Truro fire brigade tournament at Truro, on Aug 24th and 25th. Chief Kerr was present and instructed the men to line up at hook and ladder No. 1 station, King street east on the morning of the 23rd and parade to the Digby boat. About 20 men will make the trip.

Whitney-Gallop. A quiet wedding took place at the home of Frederick P. Gallop, 135 Victoria street, at 8 o'clock last evening, when Rev. David Hutchinson united in marriage Miss Lillie B. Gallop, daughter of the late A. J. Gallop and daughter of the late E. P. Charlton and company, and G. Harry Whitney of the Western Union Telegraph Company's office. Owing to the recent death of the bride's father, there were no invitations.

Thousands amazed at Nickel yesterday by feats of world's greatest cowboys. Again today.

MATTERS AFFECTING WEST END DISCUSSED BY BOARD OF SAFETY

Appointment of Drivers to New Fire Station and Lease of Lots on Germain Street Considered Yesterday.

A special meeting of the Safety Board was held yesterday afternoon, at which the questions of appointing fire department drivers in Carleton, and the lease of lots on Germain St. West Side, were discussed. Besides Ald. Vanwart, the chairman, there were present Ald. Jones, Willet, Smith, Hayes, Wigmore, Scully, Baxter Sproul and Russel, with the common clerk, Director Wisely, and Chief Kerr.

It was decided that several lots on Germain street, West Side, should be leased at a rental of \$8 to Robert Morgan, on condition that the city incurred no liability for the erection of retaining walls. Chief Kerr said the new engine house on the corner of Queen and Ludlow streets was about ready to take over from the contractor. He had previously recommended the appointment of permanent drivers, and he nominated O'Keefe and Nichols, probationers, living in Carleton, for the position. In point of seniority there were two probationers living in the city who were ahead of them.

It was decided to vary the order regarding appointment by seniority to enable the chief to appoint the men with reference to the locality in which they lived. The chief recommended that the new drivers be given \$40 per month. Ald. Sproul moved that the recommendation be adopted. Director Wisely said \$1,000 had been voted to pay the probationary drivers at the rate of \$35. If this was exceeded, the comptroller would protest.

The chief said he could not get good men for \$35. Ald. Baxter moved in amendment that the matter be laid over till it was learned whether the director could arrange to give the drivers \$40. This was adopted. The meeting then adjourned.

CAMPBELLTON WILL BE REBUILT, BETTER THAN FORMER TOWN

North Shore Lumber Man in the City is Optimistic Over Future of Town Which Was Recently Razed by Flames.

D. Champoux, manager of one of the lumber mills across the river from Campbellton arrived in the city yesterday and registered at the Royal. "The town of Campbellton will be rebuilt, if the city council can make some arrangements to relieve the people of the burden of the town's debt for some years," he said to a reporter. "The town has an excellent location, and there is a great and valuable forest area behind it. New lumber mills are bound to be put up—doubtless they will be built outside the town—and there will be employment for a considerable population as soon as lumbering operations are resumed."

"The new town will be better than the old, which as every visitor remarked was a veritable fire trap. Up to Date Streets. "The city council has determined to map out an up-to-date street plan, with thoroughfares here and there broad enough to make it an easy matter to check the progress of a fire. It will also require that buildings erected in the heart of the town shall be of brick or stone. No doubt these regulations will tend to retard the rebuilding of the town, but in the long run it will be a profitable course, as insurance rates will be lower, and the town practically safeguarded from a repetition of such a calamity as has befallen it."

Public Buildings Being Erected. At present a number of public buildings are in course of construction, and temporary shacks are being put up in a great rate. There seems to be plenty of work. "The people are optimistic, and are satisfied that the town will rise from its ashes. But the outlook for the winter is not very bright. The town was not insured to more than 25 per cent of its value, and many people, especially the workmen, had no insurance on their households at all. Not much work of the kind that brings in money to the town can be carried on in the winter. But the town is too important as a shipping port for lumber not to spring up in a few years. At present there is in sight of Campbellton six big steamers, four squareriggers and a fleet of schooners loading lumber."

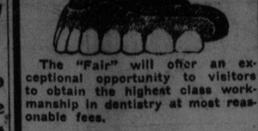

PERSONAL

Mrs. Geo. Wanamaker returned yesterday from Peticodiac where she has been visiting friends.

Mrs. Sydney Patterson, of 13 Horsfield street, and her granddaughter, Miss Darrell Morrissey, are guests of Mrs. W. D. Bridges of Sheffield.

Prof. and Mrs. Day passed through the city last evening on their way to Fredericton after a tour of Nova Scotia. H. W. Woods, M. P. P., returned to his home at Welsford last evening. Mrs. W. D. Smith and Mrs. T. B. Roberts, of Hoyt, arrived in the city yesterday and leave this morning on the Prince Rupert on the way to Yarmouth to attend the Baptist Maritime missionary union.
