## Fashionable Summer

### Attire for Women

Every woman is naturally interested in the new Summer Fashions, and a walk through our Show-rooms reveals all the newest conceits for home wear or at the fashionable Summer Resort. Handsome Embroidered Linen Costumes and Dresses especially imported for our high-grade exclusive trade are perhaps the most sought after. Then you will find stunning Tailor-made Linen Coats and Suits and smart Repp Suits. Our Lingerie Dresses make, as usual, a beautiful showing. All the new and fashionable designs and style effects are shown, from the lovely embroidered overskirt models to the dainty last effects.

A visit to our Waist Section is also well worth while, as our stock of Handsome Silk, Lingerie and Stunning Tailor-made Waists is most complete.

There is a distinctive style type to all Murray's Garments, an exclusiveness that is not to be found elsewhere. A few models of particular interest:—

The "Kitchen Queen" will stay longer if her realm is beautified with "Lacqueret."

The old chairs are worn and soiled. A coat of "Lacqueret" (any shade to suit your fancy) will make them look better than on the day you bought them.

Touch up the refrigerator with Oak "Lacqueret" and note the effect. The wainscoting wants a coat of Colored "Lacqueret" too—scars and scratches will vanish.

"Lacqueret" is a great rejuvenator and will help you to keep the "hired girl" by reducing her work and making her happier.

Write for our free booklet, "Dainty Decorator," and learn for yourself the many uses of this household beautifier.

Most prominent Hardware and Paint Dealers sell "Lacqueret."

One Advantage of the Electric Auto—  
It does not have to make its own Power

The man who wants a big car to run long distance at high speed has to manufacture his power on his gasoline car as he needs it. He is subject to the uncertainties of machinery operation.

For running around, for calling or shopping, for quick starting and stopping, an Electric Vehicle is in a class by itself.

With an Electric you don't have to make your own power. It is made for you. In your car there is a small box called a Storage Battery. You send your car to us and we charge the Battery with Electricity. The power is condensed in the "Storage" Battery in your car and is ready for use when you need it. You start or stop your car as easily as you switch on or off an electric light.

Let us send you catalogues of the various makers of Electric Vehicles and quote you rates on Electric Current.
