An Invisible Fee.

The poisonous germs of disease are lurking in the air we breathe and in the water we drink. The system should be kept carefully purified and all the organs toned to proper action. This can best be done by the regulating, purifying and tonic powers of Burdock Blood Bitters.

An Invisible Fee.

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescenses, as many have testified who have tried it.

The Best Yet.

There is no preparation before the people

Dhuleep Singh's Story. From the Pall Mall Gazette. The Maharajah Dhuleep Singh has written an extraordinary letter to the Times of India. He begins by saying that before quitting England the Indian Government offered him £50, 500 provided that he promised never to return to India. He declined, adding that he would not accept £500,000. His health having broken down, owing to his residence at Aden, he is going back to drink the German waters. But although prevented from reaching Bombay, he goes on to say, other roads remain. When he returns he can land at Goo or Pondisherry, or enter the Punjaub through Russia. In the latter event he supposes that the whole Indian axpayers, he adds, will be glad to hear that he has resigned the miserable stipend paid under the iniquitous treaty of annexation. When he restored to health hopes to appeal for pecuniary aid to the Oriental liberality of the people of India. If, however, the government should veto their generous impulses he will transfer his allegiance to some other European power, which will doubtless provide him with maintenance.

—Mr. Peter Vermett, Hochelaga, P.Q., writes: "Dr. Thomas Eclectric Oil cured me of rheumatism after I tried many medicines to no purpose. It is a good medicine." Just think of it—you can relieve the twinges of rheumatism, or the most painful attack of neuralgia—you can check a cough, and head bruised or broken skim, with a bottle of Dr. Thomas' Eclectric Oil, costing only 25 cents.

A Kentneky Opinion of Englishwomen. Col. Watterson in Louisvithe Courier-Journal. The English gentleman (I use the term conventionally) is like the German gentleman, or the French gentleman, or the American gentleman. There is a certain standard of genlemanhood the world over. But, if we seek for national types, we shall not find them in the swell clubs of the great cities of Christ.

A Bad Breakdown.

—There is no remedy known to medical science that can excel Dr. Fowler's Extract of our for cholera morbina, distributed by a dults.

—As age creeps on apace, the various functions of the body grow weaker in their performance. Old people who suffer from increasing indigestion, torpidity of the liver, and constitution, should give renewed impetus to the and bowels, with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, from which aid is never sought in vain. It works wonders as a blood-purifier.

genlemanhood the world over. But, if we seek for national types, we shall not find them in the swell clubs of the great cities of Christendom. Women are more typical than men. They are receptive and reflect the idiosyncrasies of race and time. I have known many agreeable Englishmen. It is ungallant, I know, and I blush to say it, but I have rarely known a perfectly agreeable Englishwoman, unless she were an Irishwoman, which is a bull and beside the question! When the Englishwoman has culture and learning she becomes a blue-stocking; when she has not she remains the poor, slavish thing which the inherent brute in the Anglo-Saxon character makes her. Now and themyoulseela beautiful woman in England, in which event she is likely to be a barmaid. But the rule is otherwise. Now the Irishwomen are beautiful, as a rule, and as virtuous as they are beautiful, which I sometimes fancy enters more into the Anglo-Irish question than we think it, for the meanest churl will, at least in his heart, resent the homeliness of his women.

Which aid is never sought in vain. It works wonders as a blood-purifier.

A Bad Breakdown.

—It is a common thing now-a-days to hear one complain of feeling all broken down with a faint, weary, restless languor, with strength and appetite nearly gone, and no well defined cause. This is general debility, which Burdock Elood Bitters promptly relieves, and most invariably cures.

As well as every root that grows below the mother earth; She she has a long list of degrees, and Boston saw her birth.

Yet it sets my blood ashiver when she asks about my liver, and I stutter and am speechless when my ton-guestien wants to see;

For I'm feath of the mother and a surface the discount of the promptly relieves, and in appetite nearly gone, and no well defined cause. This is general debility, which Burdock Elood Bitters promptly relieves, and aspect less of language.

She is a sale of the question the mother earth;

-Some persons have periodical attacks of Canadian cholera, dysentery or diarrhea, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

Beauties of Mexican Taxation.

From the Popular Science Monthly.

So much for the tariff system of Mexico.

The "excise" or "internal revenue" system of the country is no less extraordinary. It is essentially a tax on sales, collected in great part through the agency of stamps, a repetition of the load "alcayala" tax of Spain, which
