

own people, no nation can afford to serve selfish national ends, whether these ends be isolated self defence, or world domination. It is for every nation to remember that "Over all nations is Humanity".

We have had enough of the mailed fist. What our world needs today is the hand of the physician. By Blood and by Death, forces of aggression have sought to extend the frontiers of their already vast domains. By Peace, Work and Health obeying the laws of Humanity, we, in the words of Louis Pasteur, shall seek with the aid of Science, to extend the frontiers of life.
